Chapter 1801

The little boy lying on the ground was still holding tightly the small candy wrapper used to wrap the mung bean cake. This made Ouyang Zhengxiong and Sun Yulan fall deeply into self-blame and guilt. However, Li Haotian and Gu Shaoyang have not yet completely completed the comprehensive examination of the body. So Li Haotian and Gu Shaoyang planned to ignore Ouyang Zhengxiong and Sun Yulan for the time being, because they had indeed been hit too hard. So Li Haotian and Gu Shaoyang gradually approached the little boy and carefully checked whether there were any other strange wounds on his body. But after taking a rough look around, I found that there were no other strange wounds on the body, except for the hole in the heart where Li Haotian pierced his heart with a sword.

At this time, Gu Shaoyang said to Li Haotian: "Brother Haotian, should we turn this little boy over and check it together? With this inspection, we can only check the epidermis in front of him. I think the two of us should work together to check this little boy. Turn it over and check if there are any other weird wounds on his back."

After listening to Gu Shaoyang's words, Li Haotian felt that it made sense, so he nodded, and then said to him: "I also think this might miss the wound on the back. There are some wounds, so the two of us find a way to turn his body over! But we have to avoid direct skin contact with the little boy's body, so how do we turn it over? And Ouyang Zhengxiong and Sun Yulan are still feeling sad now. We don't want to use other methods to do disrespectful actions to the little boy's body. Try to avoid hurting the little boy's body!" After hearing this, Gu Shaoyang thought deeply for a while, and then replied to Li Hao Tiandao: "I also think that we should think of a way to turn the little boy over completely without harming his body. This is more convenient. Let's check if there are any strange wounds on his back?"

Li Haotian He looked around the woodshed to see if there were any usable tools, and then he found that there were no usable tools around the woodshed, only two longer and thicker sticks. He picked up the two long sticks and weighed them in his hands to see if they were strong. Then he found that although the two wooden sticks did not look very thick, they were still very heavy when weighed, indicating that the two sticks were relatively strong. Solid. So he handed these two sticks to Gu Shaoyang, and then said very embarrassedly: "Brother Shaoyang, I only found these two sticks. Can these two sticks help us turn over this little boy's body?"

Gu Shaoyang looked at it He was stunned with these two sticks. How can he successfully turn the two little boys over without touching their own skin, so that we can check the condition of their backs?

So Li Haotian and Gu Shaoyang looked at the body of the little boy sleeping on the ground with sticks and fell into deep thought. On the other side, why were Ouyang Zhengxiong and Sun Yulan staring at the little boy's body in a daze? After recovering for a while, he found that Li Haotian and Gu Shaoyang were holding two sticks in their hands and looking at the little boy's body in a daze. So Ouyang Zhengxiong curiously asked Li Haotian and Gu Shaoyang: "Brother Haotian, brother Shaoyang, why are you two holding sticks and staring at the little boy's body in a daze? What do you want to do?"

Li Haotian and Gu Shaoyang heard that Ouyang After Zhengxiong asked, he slowly raised his head, pulled out of his daze, and replied: "We want to use this stick to turn the little boy's body over slightly, because we are looking at his body Whether there are any injuries, we can only see the front side, but we suspect there may be clues on the back side." So Ouyang Zhengxiong took the wooden sticks from Li Haotian and Gu Shaoyang, weighed them, and then looked at the little boy's body and himself stick in hand. His brain was spinning rapidly, thinking of a perfect way that would not destroy the little boy's body, but also turn it over peacefully, so that Li Haotian and Gu Shaoyang could check whether there were any injuries on his back.

After hearing their conversation, Sun Yulan also joined the thinking team. Sun Yulan thought: "No matter what, we cannot do any damage to the loss of the little boy, because the deceased was a big man, and the little boy's life experience was already very tragic. After death, no matter what, he should be treated kindly." Sun Yulan suddenly had an idea and thought of a way to turn the little boy over without destroying his body. She happily said to Li Haotian and Gu Shaoyang: "I have thought of a way. We gently inserted these two wooden sticks into the back of her knees and the gap on her neck, and then gently lifted the wooden sticks from the other side. , we can turn him over, and we can lay a layer of straw next to him. When he turns over, he will not feel pain when his face touches the ground. Brother Haotian, Brother Shaoyang, you Do you think this method is okay?"

Chapter 1802

After Li Haotian and Gu Shaoyang heard the method Sun Yulan said, they grabbed the wooden stick in their hands and looked at the body lying on the ground. After thinking deeply for a while, they both looked at each other and felt that this method was good. feasible. So Li Haotian began to assign tasks for the operation: Sun Yulan was responsible for finding nearby straw to spread on the ground to cushion the little boy's body. Ouyang Zhengxiong and Gu Shaoyang were responsible for inserting the wooden stick from the other side of the little boy into the gap under the knee and neck.

As the wooden stick stretched from one side to the other, it would inevitably come into contact with the skin of the little boy's body. But in this way, Li Haotian could not completely ensure that the wooden stick was not contagious, so Li Haotian and Gu Shaoyang planned to wait until the wooden stick was completely extended before inserting it directly into the ground. Then after inserting it tightly, Li Haotian and Gu Shaoyang on the other side grabbed the other end of the stick, and the two of them worked together to gradually lift the stick upward, forming a sloped angle. When the angle became large enough, The little boy's body would turn over and lie on the straw that Sun Yulan had laid.

???Ouyang Zhengxiong and Sun Yulan feel that this method is very safe and effective. Therefore, the two of them worked very energetically and methodically followed the tasks assigned by Li Haotian step by step.

???Fortunately, Li Haotian was watching Ouyang Zhengxiong and Gu Shaoyang from the side, and when he slowly stretched the wooden stick through the gap between his neck and knees, the wooden stick did not cause other damage to the little boy's body. Because the movements were very gentle and standardized, Li Haotian and Gu Shaoyang were very smooth and relaxed when they slowly lifted the two wooden sticks. Sure enough, things developed as Sun Yulan and Li Haotian imagined. The little boy's body slowly rolled from this side to the side with the straw, and it was very easy to make the little boy's body face up.

????After successfully turning the little boy's body over, Li Haotian and Gu Shaoyang couldn't wait to squat down and check if there were any weird wounds on the little boy's back. Li Haotian carefully found a few pieces of clean cotton cloth in the room. They wrapped the cotton cloth on a wooden stick, and then used the wooden stick to remove some clothes and dirty things from the little boy's back. Gu Shaoyang was observing carefully from the side. After Li Haotian used a wooden stick to pick apart a mess of dirt on his leg, he was surprised to find a circle of strange bite marks on his ankle. Just based on the bite mark on his leg, it is still not possible to determine what kind of animal or human bite mark it was.

???Li Haotian and Gu Shaoyang discovered a strange bite mark on the little boy's ankle, and the skin and muscles around the bite mark were very obvious black. If you look closely, you will find that the color of this circle is obviously darker than the color of other parts of the little boy's body. Therefore, Li Haotian and Gu Shaoyang initially determined that the strange bite mark on the ankle found on the little boy's body was the main reason for the little boy's sudden change and loss. Since the bite marks in this circle are not very obvious, they cannot determine whether they are bite marks left by animals or other mutated zombies.

???Just when Li Haotian and Gu Shaoyang were unable to determine the source of the bite marks, Ouyang Zhengxiong and Sun Yulan recovered from their surprise, got closer to the little boy's body, and discovered the circle of bite marks on the back of his ankle. On the one hand, the two of them were shocked that they could actually find some clues about the boy's sudden transformation into a zombie from the body of the little boy. On the other hand, they were shocked because they could not confirm what kind of animal or human mark the circle of bite marks was. feel sorry and sad

????Li Haotian and Gu Shaoyang saw that Ouyang Zhengxiong and Sun Yulan were in a very low mood and were very upset, so they comforted them easily and said:"We have experienced too little, and we don't know much about the types and infection mechanisms of these zombies. , so you don't need to blame yourself. We can only gradually accumulate experience about zombies in ordinary

cases. You have already been very attentive, and in zombie-related incidents, we have accumulated relevant experience from scratch together. From now on. There is still a long way to go, so there is no need for you to feel very upset and guilty. Only by taking this matter seriously will we be able to find the real culprit behind the entire zombie incident for him as soon as possible. What this little boy wants most should be Let you find the truth behind her father, mother and brother being taken away!"

???After Ouyang Zhengxiong and Sun Yulan heard Li Haotian's comfort, they both thought about it quietly and found that what Li Haotian said was indeed reasonable. After all, people cannot be resurrected after death, so they can only look forward and do what they can with all their strength. Things to make up for the regrets of some little boys when they were alive.

Chapter 1803

While the four of them were looking at the little boy's body and discussing what to do next? Ouyang Zhengxiong's mind suddenly flashed back to the zombie rabbit that a group of them encountered in the small forest a few days ago. After they were attracted by the sound of the grass, Sun Yulan opened the grass and found a strange rabbit inside. Since the rabbit's eyes also glowed green, Li Haotian and Gu Shaoyang concluded at that time that the rabbit should be an infected zombie rabbit.

???"Could it be that the wound on the little boy's leg was also bitten by an infected zombie animal? It could be a rabbit, it could be a puppy, or even some other animal."Ouyang Zhengxiong whispered softly.

????It is possible that the little boy was accidentally bitten while communicating with Ouyang Zhengxiong, Sun Yulan and the others in the woodshed, and then mutated into a zombie within a certain period of time. Ouyang Zhengxiong told Li Haotian and Gu Shaoyang his conjecture, as well as Sun Yulan who was waiting anxiously aside. Ouyang Zhengxiong was not sure whether his conjecture was correct, so he expected Li Haotian and Gu Shaoyang to give him some advice. Fortunately, when they shared After discussing each other's ideas, Li Haotian strongly supported Ouyang Zhengxiong's idea. He also believed that it was very likely that some infected small animals nearby had bitten the little boy. After hearing this series of analyses, Gu Shaoyang suddenly stood up and took Li Haotian, Ouyang Zhengxiong and Sun Yulan out of the woodshed.

?????Just when Li Haotian, Ouyang Zhengxiong and Sun Yulan were looking at each other in confusion, they looked like they had no idea what was going on. Gu Shaoyang took a deep breath. He thought everyone was out of danger, but when Gu Shaoyang's eyes accidentally fell on Ouyang Zhengxiong's shoulder, his pupils shrank suddenly. They only saw a small black spider climbing on Ouyang Zhengxiong's clothes. If they could look at the spider carefully, they would find that the spider's eyes also exuded a scary light in the dark environment. green light. The spider moved very quickly, and was about to bite Ouyang Zhengxiong's neck. Gu Shaoyang slapped the spider to death

on Ouyang Zhengxiong's clothes with a sudden blow of his palm. Then, with lightning speed, he killed Ouyang Zhengxiong. He took off his shirt and threw it aside far away

????At this time, Li Haotian seemed to have realized that the spider on Ouyang Zhengxiong's body was most likely the cause of the little boy turning into a zombie, so he could understand that Gu Shaoyang's behavior just now was to protect Ouyang Zhengxiong from being bitten by the spider.

????On the other side, Ouyang Zhengxiong and Sun Yulan were still stunned on the spot, completely unaware of what happened in a short period of time. Before Ouyang Zhengxiong realized what happened, he found that his outer shirt had already been picked off by Gu Shaoyang with his sword. When Sun Yulan saw the little black spider falling off her coat, she immediately recalled the bite marks of the unknown animal on the back of the little boy's ankle that had suddenly mutated. She suddenly had an idea and figured out the reason.. Sure enough, Jiang is still old and hot. Brother Shaoyang and Brother Haotian are much more experienced than the two of them, so they will be much more sensitive and careful in dealing with these things than themselves and Ouyang Zhengxiong!

?????At this time, Gu Shaoyang saw that the black spider had fallen from Ouyang Zhengxiong's body, and he promptly picked off Ouyang Zhengxiong's shirt with his sword. It should be to minimize the time and opportunity for Ouyang Zhengxiong to come into contact with the little black spider that is likely to be infected. But Gu Shaoyang was still uneasy. He was not sure that he had saved Ouyang Zhengxiong from the beginning. Because the spider was too small, when Gu Shaoyang saw the black mutant spider, the black spider had already crawled onto Ouyang Zhengxiong's body. At the neck. He was very worried that it would be too late to kill the spider, so he hurriedly pulled Ouyang Zhengxiong over and looked at Ouyang Zhengxiong's body from head to toe. After making sure that there were no wounds from spider bites on Ouyang Zhengxiong's body, he took a deep breath and said, "It's so difficult to take care of children! Alas, these children still have a long way to go! There are still many You have to teach them things slowly!" Gu Shaoyang covered his forehead and thought to himself.

Ouyang Zhengxiong finally realized that Gu Shaoyang had saved his life just now, and he was just a little bit away from turning into a cold corpse lying on the ground like the little boy lying down. After realizing it, he broke out in a cold sweat. He quickly took off the shirt that Gu Shaoyang had cut off, pulled Gu Shaoyang's sleeves, and said very excitedly: "Brother Shaoyang, thank you so much. I don't have it." I noticed when this little black zombie spider crawled on me. If it weren't for you, I would be a corpse right now. Thank you so much!"

Chapter 1804

What just happened was a near miss. Both Gu Shaoyang and Li Haotian breathed a deep sigh of relief. It was really troublesome to take care of these two children. It took too much time and energy. Fortunately, Ouyang Zhengxiong and Sun Yulan are not the kind of materials that cannot be supported by mud. They just need careful guidance.

From current observations, both of them have very good understanding. And no one thought about what happened this time. It turned out that the source of infection that they had been searching for all this time was in that small woodshed. Although Li Haotian and Gu Shaoyang are not yet sure whether the strange wound on the little boy's body was caused by this spider. But it is obvious that all the animals in the woodshed or even all the living creatures in the village may be the source of infection that turns people into zombies.

???Although Ouyang Zhengxiong and Sun Yulan had experienced the tough battle in the small forest along the way, they had been very careful about their surroundings. But what they have learned is that they can only think of the zombies that have mutated. They have not thought that they need to pay extra attention to the small animals around them.

????In fact, based on the last experience in the small forest, we can know that the source of infection is not necessarily zombies, but may also be infected small animals. For example, the extremely powerful zombie rabbit we met in the forest last time and the zombie spider we met this time may actually contain substances that can turn people into zombies.

???In fact, in general, it is because Ouyang Zhengxiong and Sun Yulan did not pay too much attention to the details about the zombies they experienced during this period. If they could pay attention to these details, today's incident should actually be avoided. Fortunately, Gu Shaoyang had always been extremely vigilant and highly nervous. Then he knew that among the four people in the group, the ones most likely to cause problems were Ouyang Zhengxiong and Sun Yulan, especially Ouyang Zhengxiong. So Gu Shaoyang put most of his energy on him. If it weren't for Gu Shaoyang, Ouyang Zhengxiong would definitely be in trouble this time.

???Li Haotian said to Gu Shaoyang with lingering fear:"Brother Shaoyang, what should we do next? I think we need to perform special treatment on this little boy's body, because we are not sure whether there will be those who happen to be there after we leave. So the villagers who survived went out and returned to the village? If they accidentally touched the little boy's body, they might mutate into zombies again, so should we bury him in a hidden location before leaving? ?Brother Shaoyang, do you think this can be done?"

???After Gu Shaoyang heard Li Haotian's analysis, he nodded and replied to him without thinking:"After experiencing the last zombie incident in the forest, I think it is best to bury these mutated losses in a special location in a timely manner. It is very, very necessary, because only by working hard to cut off the infection channels between the first wave of zombies and subsequent humans can it be possible to minimize the scope of influence of this zombie. I think the most troublesome thing about this matter is that he infected It's too fast. If they are humans, it would be easier for us to deal with them. There are too many of these animals and there is no way for us to eradicate these small animals that carry the source of infection. And there are too many small

animals! We don't have It's so easy to drive him out. Furthermore, there's a very difficult thing. It's difficult for us to tell whether a small animal has mutated."

After Ouyang Zhengxiong and Sun Yulan listened to Gu Shaoyang's words, they fell into thinking. How to minimize the impact of zombie incidents on people's normal lives? On the one hand, the four of them must find ways to find infected villagers or infected animals as soon as possible. Because it is still unclear how to deal with it, as well as humans or animals that become zombies. It seems that other than killing them directly, there is no other better way to prevent him from infecting more humans or animals. But this is obviously not a good move, because the best way is to help these innocent humans and animals who turned into zombies return to their normal appearance. But based on the information currently available to Gu Shaoyang and Li Haotian, they are currently unable to transform the infected zombies back to their original appearance. They just know clearly that killing the zombies already on one side means that this person will Completely dead. Not only have they lost their human consciousness, but they have also lost their ability to move as zombies.

On the other hand, Li Haotian and Gu Shaoyang believe that properly handling these killed zombies or zombie animals is the best way to prevent more people from being infected. The most important thing is to find out where these zombies come from as soon as possible? What is the purpose or plan behind the creation of these zombies?

Chapter 1805

The sun had risen above the head unknowingly. After Li Haotian and Gu Shaoyang, together with Ouyang Zhengxiong and Sun Yulan, completed special treatment of all the living animals in the village and even the corpses of some dead animals, Ouyang Zhengxiong and Sun Yulan were already breathing heavily from exhaustion. In fact, the workload of handling these potentially infectious corpses may not be large, but in the process of burying these corpses, they will inevitably need to transport or have direct contact with these infected corpses. Therefore, they must be alert and alert throughout the entire process to avoid being infected while handling the carcasses of these small animals.

Li Haotian and Gu Shaoyang found a relatively secluded place for the dead little boy and buried his body. On the one hand, it is to let him return to his ashes and rest in peace here. On the other hand, he also hopes that his identity as a zombie will be buried in this land, so as not to infect other people and affect more people.

Ouyang Zhengxiong and Sun Yulan stood in front of the little boy's grave, looking at his grave with great sadness and guilt. Ouyang Zhengxiong and Sun Yulan thought to themselves: "Could they have been more cautious to avoid the death of this little boy? If they had discovered the little boy hiding in the wooden box in the woodshed at the beginning, they would have taken him away. If he goes to a safe place, he can completely avoid being bitten by the alienated spider. It is even said that

when the little boy meets Li Haotian and Gu Shaoyang, will they have a chance to save his father, mother, and brother? Woolen cloth?"

???Li Haotian and Gu Shaoyang saw that Ouyang Zhengxiong and Sun Yulan were in such a sad and self-blame mood again, unable to extricate themselves, so they reached out and patted them on the shoulders, comforting them and said:"Nine out of ten things in this world are not what you want. , we are not prophets who cannot predict what will happen to everyone in the future. All we can do is try our best to avoid these things from happening. If you blame yourself too much and blame these accidental unfortunate events on yourself, you will only get worse. Getting more and more tired will not do you or others any good, because these self-blame and guilt are useless and they cannot help you avoid these dangerous situations."

????When Gu Shaoyang heard that Li Haotian had been patiently teaching Ouyang Zhengxiong and Sun Yulan, a feeling of impatience gradually rose in his heart. He couldn't accept the mother-in-law character of Ouyang Zhengxiong and Sun Yulan. If the two of them really planned to go out and travel in the world, they would always be in a sad mood because of this kind of thing. How could they achieve great things if they couldn't do it by themselves? He felt that Li Haotian was too gentle, especially when he treated two children, Ouyang Zhengxiong and Sun Yulan, with great patience.

So he said to Ouyang Zhengxiong and Sun Yulan very sternly:"If you two want to properly avenge this dead little boy, or if you yourself are also burdened with deep hatred, then the most important thing you should do now is undoubtedly Improve your own strength instead of being miserable like a weak person here. Your current behavior will not promote the development of things at all. How uncomfortable and sad do you think you are here? Will this little boy be moved to life by you? Do you think that because you are sad and guilty, your parents' great revenge will be avenged?"

Li Haotian was frightened by Gu Shaoyang's sudden accusation and dared not speak, but he did feel that Ouyang Zhengxiong The two children Sun Yulan and Sun Yulan are too fragile. What kind of experience will their characters need to go through to survive in this world? If you keep wasting your emotions on this separation of life and death, how can you get away from sadness in time to do more meaningful things?

???After hearing the two people's teachings, Ouyang Zhengxiong and Sun Yulan lowered their heads in shame. Ouyang Zhengxiong apologized to Li Haotian and Gu Shaoyang:"I'm sorry, brother Haotian, brother Shaoyang, this is the first time I have experienced direct separation since I was conscious. So I still can't control my emotions very well. I know where my problem lies. The most important thing now is to work hard to improve my force value. Learn more self-defense skills and no longer rely on you. If I always If you have this kind of strength, even if you meet someone you want to protect in the future, there will be nothing you can do. After all, your current strength can't even protect yourself and deal with emergencies. I'm really sorry that I've been troubling Haotian

all this time. Brother and Brother Shaoyang. It has been so long, but there is still no progress." After hearing this, Sun Yulan immediately corrected her attitude and apologized to Li Haotian and Gu Shaoyang. She should not be bound by feelings. The most important thing at the moment should be to find Capture the people from this village, and investigate their purpose of capturing these villagers?

??After hearing their apologies, Li Haotian and Gu Shaoyang nodded happily and patted their shoulders.

Chapter 1806

Li Haotian and Gu Shaoyang believe that growth is a very long process, and no one can grow up to fully adapt to the world in an instant. Therefore, during this period, Li Haotian and Gu Shaoyang are also waiting for their two children with the greatest patience. First, they must completely adjust their emotions and learn how to control their emotions.

???After simply dealing with the psychological conditions of Ouyang Zhengxiong and Sun Yulan, Li Haotian looked at the entrance of the village and said to Gu Shaoyang in a low voice:"Brother Shaoyang, where should we go next? Why do we feel that we have lost things again? clues, although this matter is very likely to be related to the Jiang family, but just based on the boy's description of the luxurious pattern, we cannot completely determine that it is the pattern of the Jiang family. The most important point is that we seem to There is no way to find anyone related to Jiang, so it is difficult to find Jiang's headquarters. In this case, how can we find out relevant information? And I think the most important thing now isOne point is that even if we go to Jiang's headquarters, with Ouyang Zhengxiong and Sun Yulan, with our current force value, there is no way to deal with the group of people at Jiang's headquarters. After all, judging from the current situation, Jiang's headquarters must be crouching tiger, hidden dragon!"After Gu Shaoyang heard what Li Haotian said, he nodded very happily, because finally someone understood the biggest problem in the four-person team. Although Li Haotian and Gu Shaoyang's force values are already above average, they can cope with it. Most of the minions, but Ouyang Zhengxiong and Sun Yulan are still newcomers with no foundation at all. Sun Yulan is slightly better than Ouyang Zhengxiong, but he still belongs to the three-legged cat Kung Fu. When facing real difficulties , can't play any role, and the mental state of both of them is so bad that they look very embarrassed when facing a slightly more serious blow.

????Ouyang Zhengxiong and Sun Yulan were very aware of their own problems, but there was really no other way. Ouyang Zhengxiong has tried his best to find points that can be improved in these zombie incidents, and tried his best to improve his abilities, whether it is observation ability or dexterous response ability

????Li Haotian glanced at Ouyang Zhengxiong and Sun Yulan, then turned to Gu Shaoyang and said:"Brother Shaoyang, I think we should take Ouyang Zhengxiong and Sun Yulan back to the inn first, take a short rest, and then plan our next plan. What do you think? What?" Gu Shaoyang

answered him: "I think the main thing is that the two of us need to discuss more. It may not be suitable to continue tracking things about zombies recently, because I haven't met anyone related to the Jiang family yet. I just learned from these people's stories. He more or less knows some clues about Jiang's family."

???????So the four of them returned to the inn where they were resting under the scorching midday sun. After returning to the inn, they bumped into the waiter who had entertained them before. Then the waiter felt very strange. He didn't see his thoughts and went out objectively. Why could he see them coming back at noon? Did they sneak out last night? But the waiter was too embarrassed to ask too directly to avoid a direct conflict with the customer. So he asked Ouyang Zhengxiong and Sun Yulan tactfully: "Guest sir, why haven't I seen you out in the past few mornings? Where have you been? Do you want anything to eat for lunch?" Li Haotian and Gu Shaoyang After looking at each other, it seemed that he understood what the other person was thinking. Li Haotian hurriedly took over the conversation and said to the waiter: "We have something to do early in the morning and we haven't met you yet. When you say that, your stomach is really growling. Well, why don't you give me some more of your specialties? I ate your specialties last time and I still remember them. It's true that an old shop is an old shop. No wonder your business is the most prosperous on this street.."

Sure enough, as soon as he said this, the waiter laughed so much that he couldn't see his eyes, so he happily forgot about whether they came back last night. Ouyang Zhengxiong and Sun Yulan looked at each other in surprise, thinking that Brother Haotian and Brother Shaoyang were so old and cunning, and could they still operate like this? The four of us obviously haven't been back since last night. Why did we go out before dawn this morning? Isn't this lying with your eyes open?

???Li Haotian and Gu Shaoyang felt the eyes of the two children Ouyang Zhengxiong and Sun Yulan. They smiled proudly at the two children, as if to say, have the young people learned? This is walking in the world! Fortunately, the waiter didn't worry about whether they had gone out for the night and hurriedly informed the kitchen to prepare some of their own special dishes. So a group of four people sat down at the dining table in a dignified manner and waited solemnly for the waiter to serve the four of them.

Chapter 1807

It is said that Li Haotian and Gu Shaoyang took Ouyang Zhengxiong and Sun Yulan from a strange village and experienced a series of strange things before returning to the inn where they rested. The four of them luckily escaped Ding Xiaer's kindness. cross-examination. In the restaurant, after the four of them had a simple dinner, they went back to their rooms to rest. Of course, everyone had their own thoughts in mind.

???Li Haotian said to Gu Shaoyang: "Let's discuss it together after we return to the room. What should we do next? I feel that we should take the two children Ouyang Zhengxiong and Sun Yulan out for some experience. What do you think? And I think that although the four of us are two

Ouyang Zhengxiong's force value is barely adequate and can withstand most attacks and emergencies. However, Ouyang Zhengxiong obviously still needs systematic learning. And do you feel that Ouyang Zhengxiong still lacks something??"???"

?????After Gu Shaoyang heard Li Haotian's inquiry, he covered his forehead and thought deeply for a while, because he had not had a good rest since the past few days, and there were too many things going on recently. He could not concentrate, or use a paragraph to compare. Take the time to think systematically about how you should continue to develop a scientific learning plan for Ouyang Zhengxiong? After a short rest, Gu Shaoyang came up with an excellent idea. He slapped his thigh and told Li Haotian happily:"Brother Haotian, I think we should find a handy weapon for Ouyang Zhengxiong first. If there is not one, As for weapons, we can't be sure what type of martial arts Ouyang Zhengxiong wants to practice? We don't know whether he likes traditional swords, whips or hidden weapons. I think we can discuss it with him tomorrow. First, make sure to choose one for him. Then start to develop a comprehensive and systematic martial arts training plan for him based on the weapon he chooses, combined with his personal characteristics and physical fitness. Do you think this is okay for the day after tomorrow? I think this is more scientific at present. solution"

???"Do I need to choose a weapon first?"Li Haotian secretly wondered if it was too early? After all, Ouyang Zhengxiong has not been exposed to the knowledge of martial arts at all, but it is true that without weapons, Ouyang Zhengxiong would be mindless and aimless when practicing martial arts. If you practice more, the effect will be much worse. So Li Haotian thought about it again and again and replied to Gu Shaoyang:"Brother Shaoyang, you think what you said makes sense. Why don't we go to Ouyang Zhengxiong tomorrow to discuss it with him and ask him what type he likes? weapons, and then let's tailor a reasonable training plan for him based on the weapons he chooses."

After Li Haotian finished speaking, Gu Shaoyang smiled, touched Li Haotian's head, and said to him gently:"Actually, there is no need to be too anxious, and I think Yao will find something decent for him if he needs a weapon. Weapons, why don't we take him to Sun Moon Pavilion to find out if there are any weapons suitable for him!"

???When Li Haotian heard that Gu Shaoyang mentioned the Sun and Moon Pavilion, he clapped his thigh excitedly and said very excitedly:"Yes, you can take him to the Sun and Moon Pavilion to choose. There are many types and grades of weapons there. I think he can take advantage of it. Weapons are things that will stay with you for a long time, and they are very important to actors, so I think you should choose this kind of thing yourself. Maybe you are thinking about a sword, but when you see a whip that particularly suits your eyes, you may choose that one. Whip. Well, so, we two old fathers can only help the children choose, and then formulate the best training plan for them based on the weapons they choose. But I am only proficient in swords and spells. I'm not very proficient in other aspects. Brother Shaoyang, I think you seem to know all the weapons. Then I will leave all the planning matters to you, and you will also guide most of the training of Ouyang Zhengxiong and Sun Yulan. I guess I have to rely on you for everything."

??After Gu Shaoyang heard Li Haotian's words, he suddenly laughed out loud, even laughing to the point of crying. Li Haotian watched him laugh from the side, and then he was at a loss. After he stopped laughing, he heard Gu Shaoyang say to Li Haotian: "Brother Haotian, you are so cute, why do you praise me without blinking? How can anyone be proficient in all weapons? If I were that powerful, wouldn't I have dominated the world a long time ago? Why should I just sit here with a sullen face, not knowing what to do? I won't take it seriously if you are just a Jiang clan." Li Haotian patted Gu Shaoyang and said, "Brother Shaoyang, don't belittle yourself. Believe in your abilities. I really think you are proficient in all weapons.""

??The two of them were in the room again, having a long conversation, but because everyone was very tired from the past few days. Especially in the process of dealing with zombies and other animal carcasses in that village, they were always on high alert, so the two of them were actually very tired. They had been relying on one breath to hold on, so they fell into a deep sleep after chatting. Fell asleep.

Chapter 1808

On this side, Li Haotian and Gu Shaoyang were worried about whether Ouyang Zhengxiong could get the weapons he wanted as soon as possible, and that his physical fitness was too ordinary to start systematic training as soon as possible, so they would have to go deep into the tiger's den to find information related to the Jiang family. When the truth came out, Ouyang Zhengxiong was in a very dangerous situation.

??Li Haotian and Gu Shaoyang are racking their brains to find ways to improve their abilities for Ouyang Zhengxiong and Sun Yulan, and where can they find weapons that both of them are satisfied with? But on the other side, Ouyang Zhengxiong and Sun Yulan were very simple. They kept thinking about how they had experienced the kidnapping of a boy and a girl and then fell into the small forest with zombies. What impressed them most was going to that quiet place. In the strange village, he discovered a little boy who had the same experience as him, which made him feel very distressed. He watched the little boy turn into a zombie in front of him, and then was pierced through the heart by Li Haotian's sword. The things they experienced in just a few days kept flashing back one after another. In their minds, Ouyang Zhengxiong and Sun Yulan felt that such an experience was too exciting. They had no choice but to accept these things in a short time.

???Ouyang Zhengxiong can't figure out what he should do next because he really doesn't know anything, and he doesn't know exactly what aspects he can improve his abilities. He was pacing around the room alone, going around the room, but he didn't think of a reason, so he didn't dare to disturb his brothers Haotian and Shaoyang after thinking about it again and again, because he knew that this was the case. For several days, the two of them had been on high alert to protect themselves and Sun Yulan. So the two of them should have rested by now, and it would be very inappropriate to disturb them again. So he thought about it and felt that he should go to Sun Yulan to discuss what should be done next? After all, for now, the two of them are still in the same rank, so they should have more in common when going to find Sun Yulan.

But Ouyang Zhengxiong also considered that Sun Yulan was a girl, and he was silently looking for Sun Yulan to enter her boudoir. Isn't it a bit inappropriate? But when he thought it was broad daylight and not night, why couldn't he go find her? So he secretly cheered himself up and went to find Sun Yulan. Ouyang Zhengxiong silently knocked on her door.

Just when Ouyang Zhengxiong was about to reach out and knock on Sun Yulan's door, the door suddenly opened from the inside, so Sun Yulan and Ouyang Zhengxiong looked at each other, looking very embarrassed, and for a moment they were speechless.

It turned out that after Sun Yulan separated from Li Haotian and Gu Shaoyang, when she entered the guest room to rest, she lay on the bed tossing and turning and couldn't fall asleep at all because she was too worried about the subsequent process. Judging from the current situation, these things they have encountered recently must be inseparable from the Jiang family in all likelihood.

Therefore, it is inevitable that Li Haotian and Gu Shaoyang will take Ouyang Zhengxiong and Sun Yulan to infiltrate the Jiang family's headquarters, and the Jiang family must be full of masters. If Ouyang Zhengxiong and Sun Yulan still lurked into Jiang's headquarters at their current level, they would only be a hindrance to Li Haotian and Gu Shaoyang. So Sun Yulan was lying on the bed, thinking over and over again. After thinking of these things, she couldn't sleep at all.

She didn't dare to go to Li Haotian and Gu Shaoyang because she was afraid that going to Li Haotian and Gu Shaoyang to discuss the matter at this time would delay their rest. So after much deliberation, I couldn't figure it out by myself, so I decided to go out and knock on Ouyang Zhengxiong's room to discuss the next related matters with him. But he didn't expect that as soon as he opened the door, he saw Ouyang Zhengxiong raising his hand and preparing to knock on his door. The two people felt very embarrassed for a moment. They looked at each other a few times, and then they both scratched their heads shyly. Unexpectedly, they thought of going together.

The two of them stood stupidly at the door of the room, not talking, so Ouyang Zhengxiong took the lead to break the deadlock and said to Sun Yulan: "I have a lot of things that I don't understand, and I want to discuss them with you, and I feel that now it's too weak and needs to be studied hard, but I don't know where to start. I thought that you should have more experience than me, so I can only come to you. Logically speaking, I should go to Haotian. Brother and Brother Gu Shaoyang, but I think they have worked too hard recently and should have rested, so I don't want to disturb them. Why don't you sleep? I won't disturb you, right?" Sun Yulan scratched her head very embarrassedly, Then he replied to Ouyang Zhengxiong: "I can't sleep either. I feel very anxious when I think of avenging that little boy, but I don't have the ability. I originally planned to go to Brother Haotian and Brother Shaoyang, but I was afraid of disturbing them. They were resting, so they didn't go. But I really didn't know what to do? I originally planned to go find you, but when I

opened the door, I found you outside. It's not good to say it outside. Come in quickly! Let's go into the house to discuss."

Chapter 1809

Although Sun Yulan asked Ouyang Zhengxiong to come in quickly, she was still scared in her heart, because after all, as a girl, it was very disrespectful for her to invite a man of about her own age into her room in broad daylight. However, Ouyang Zhengxiong, who was only twelve or thirteen years old, did not realize that this was a very unethical behavior. Therefore, at Sun Yulan's invitation, Ouyang Zhengxiong directly entered her boudoir. Ouyang Zhengxiong thought very simply, no. Just enter her boudoir? Are you discussing with her how to deal with all the upcoming matters? And what's there to avoid suspicion in broad daylight? The two of them are one or two years apart in age, so there shouldn't be anything inappropriate about it, right?

After Ouyang Zhengxiong entered Sun Yulan's boudoir, the first thing he felt was the intoxicating aroma in the boudoir. Why was it that it was also a single room? And Sun Yulan's guest room was much more fragrant than his? Could it be that this store deliberately favored Sun Yulan? He felt a little strange, but didn't think much about it. He went straight into her boudoir, found a comfortable seat and sat down. He said to Sun Yulan anxiously: "What should we do? Next we should go to the headquarters to look for clues related to the kidnapping of boys and girls, as well as clues related to the appearance of these zombies. However, with our current strength and agility, we simply cannot deal with various emergencies well. What's the situation?" Sun Yulan suddenly blushed, never expecting that Ouyang Zhengxiong was sitting upright on the seat where she usually changed clothes, so she didn't even notice what Ouyang Zhengxiong was saying. So Sun Yulan seemed a little absent-minded, but Ouyang Zhengxiong just felt strange and didn't make too many guesses, because after all, the thoughts of all girls have always been difficult to figure out.

Ouyang Zhengxiong was waiting for Sun Yulan to answer, but Sun Yulan just stood there with a blushing face and said nothing. He felt very strange, but was too embarrassed to ask. He was really impatient to wait, so he said to Sun Yulan in a more fierce tone: "We are discussing business, what do you want? You didn't ask me to do it. Shall we discuss with you how to deal with some emergencies that may occur when we go to Jiang's headquarters next? How come you don't care about anything and say nothing after I come?" Sun Yulan was under Ouyang Zhengxiong's harsh words. She woke up slowly. Sun Yulan said very shyly: "I'm sorry, I was distracted just now and was thinking about other things, so I didn't hear what you were asking. Well, let's start discussing now, what should we do next? I'm really sorry."

When Ouyang Zhengxiong saw Sun Yulan apologize to him in great panic, he scratched his head in embarrassment, wondering if he had been a little too harsh to Sun Yulan just now? So she said to Sun Yulan very gently: "I'm not sorry. I was just bad and too impatient with you. The main reason is that I will be impatient if I have something on my mind. I don't blame you. I should be the one to apologize to you." That's right"

???When Sun Yulan heard Ouyang Zhengxiong's words, her face turned red again, and she said to him in a very deliberate tone:"Then let's start the formal discussion now. What should we do next? Let me share my thoughts with you first. I think we should first think about which aspect and attribute of martial arts we want to learn based on our own characteristics and requirements. Otherwise, where should we start? Right? There are eighteen hundred types of martial arts. If we Can't clearly know what we want? So how do we find the kind of martial arts that belongs to us and suits us in this vast sea? Do you think what I say makes sense?"

?After Ouyang Zhengxiong heard Sun Yulan's rational analysis, he felt that what she said was very reasonable. If he couldn't know his needs, how could he find them? Which martial arts should I start with? If, after practicing for a long time, you realize that the martial arts you are practicing is not what you want at all, wouldn't it be a waste of time, effort, and a delay in things? So Ouyang Zhengxiong nodded solemnly, and then said to Sun Yulan:"I think what you said is very reasonable. So should we now find martial arts suitable for ourselves based on our personal needs? And each person's physical advantages! In this way Come, we will have a clear direction, and we will not be like headless flies in the sea unable to find the suitable martial arts we want."

???Sun Yulan replied to him:"I think you must have a clear direction before doing anything, otherwise you will get twice the result with half the effort. If we can find the right direction and then make a reasonable plan, then we can get twice the result with half the effort!" After hearing what Sun Yulan said, Ouyang Zhengxiong said to Sun Yulan very excitedly:"I think you are really amazing. Why are we similar in age? You know so much? This time I came to you to discuss this matter. I really found the right person." People."

Chapter 1810

Just when Ouyang Zhengxiong and Sun Yulan were discussing in the guest room whether they should do some training and make some preparations in advance to go to Jiang's headquarters to find out the truth, at this time they had just found the direction in which they could work hard, and had not gained anything substantial. Progress. So Ouyang Zhengxiong plans to continue to ask Sun Yulan how to analyze her own advantages and specialties? Ouyang Zhengxiong asked Sun Yulan very humbly:"Sister Yulan, can you teach me how to analyze my own strengths? I have never received a systematic education since I was a child, and I have always been worried about the streets and alleys of the city, so I simply I don't know how to correctly analyze my own strengths and specialties. I only know that I want to protect myself and those I want to protect. So what I want to learn must be able to improve my abilities, but if I want to differentiate them carefully, I won't be able to do it at all. I don't understand anything. So I hope Sister Yulan can help me find the right way to study."

???At this time, when Sun Yulan heard that Ouyang Zhengxiong actually called her dear sister Yulan, her heart trembled, and she felt that a certain string in her heart was plucked. She was very surprised that she would be touched like this. She had never been in such a situation before. But because Ouyang Zhengxiong just said those words to her righteously because she was distracted, she didn't dare to think too much about it, so she had to quickly suppress her surprise and replied to

him:"Actually, I don't know much. I have learned a lot of things in this area from my senior brother since I was a child, so I know a little bit about it, but I am not ready to teach you yet. If you want to learn systematically, here are the detailed categories and the corresponding martial arts. As for strengths and weaknesses, I think you should wait until later, after Brother Haotian and Brother Shaoyang wake up, and then let them explain to you the detailed categories and application directions. Every martial art in this world has its advantages and disadvantages, so I don't know the advantages and disadvantages of each martial art. I think Brother Haotian and Brother Shaoyang have more experience, so they should know it!"

??Ouyang Zhengxiong heard Sun Yulan say:"So he didn't say anything more. He felt that the detailed information was really too complicated for Sun Yulan to explain. It would be more reasonable to go to Brother Haotian and Brother Shaoyang to explain it! But he still He was very grateful to Sun Yulan for teaching him, so he said to Sun Yulan very gently,"Sister Yulan, thank you very much. You told me how to get started, so this is also indispensable. You are really excellent!""

??After hearing Ouyang Zhengxiong's loud praise, Sun Yulan's face turned red with shame, but she thought of something to add, so she said to Ouyang Zhengxiong:"Then have you decided what type or attribute you want to choose now? Martial arts? I think I should be more suitable for defense and healing skills and martial arts, because I feel that many times, when teammates around me encounter injuries, they do not suffer fatal injuries at all, but because they do not receive timely treatment Later, it will lead to unfortunate things happening. So I think I should learn the healing function. In this way, I can constantly repair and increase blood for my companions. Then I personally prefer the defensive type. Because I feel that when encountering some Under special circumstances, or if it is impossible to attack in a short time, defensive operations can at least protect the safety of yourself and those around you. Do you have any thoughts in this regard?"

????After listening to Sun Yulan's analysis, Ouyang Zhengxiong felt that Sun Yulan was really a smart girl with a delicate mind and a very clear mind, so he covered his forehead and thought deeply about what he wanted for a while. Slowly raised his head and said to Sun Yulan:"I'm probably the type who likes to attack, because I think active attack is the best defense, and I think if I meet someone who commits such heinous crimes, I think that if I can't kill him, it will be difficult to vent my hatred. This kind of person must be eliminated quickly. And I feel that I still carry too much hatred, the hatred of my father and mother, and the hatred of the twenty people in the Ouyang family. I want to avenge the sorrow of several people and the little boy who just died. So I must learn the kind of martial arts with very strong attack power. I am willing to pay no matter what. But now I still I don't know which type of martial arts can achieve the effect I want. I think the martial arts of Brother Haotian and Brother Shaoyang are the goals for me."

???After Sun Yulan heard Ouyang Zhengxiong's words, she was shocked. Why was Ouyang Zhengxiong so murderous? But her expression was unstable, and she did not show her surprise. Instead, she said to Ouyang Zhengxiong very gently:"It's okay. We can discuss it with Brother

Haotian and Brother Shaoyang after they wake up. I I believe that Brother Haotian and Brother Shaoyang will definitely help you find the most suitable plan."
