

Attributes 2231

Chapter 2231

Is it because his plan this time was bad? Or does General Zhao feel that he has robbed him of his prestige?

"Not General Zhao, my strategy is so good this time, why do you still ask me to read the military book?"

"Reading military books will only solidify my thinking. In this case, the enemy will be able to guess what I am thinking."

After General Zhao heard Ouyang Zhengxiong's words, he knew what Ouyang Zhengxiong was thinking.

But sometimes your whims are not enough.

With strong military foundation as support, it can handle this matter Finished better

"Don't you believe me? Although your current plan is very powerful, it is also very unexpected."

"But if you don't have a strong military force behind you, and if the enemy sees through all your plans, what should you do?"

Ouyang Zhengxiong fell silent after hearing what General Zhao said.

He had never thought of what General Zhao said, but this was also because his strategy had never been seen through.

"General Zhao, please spare me. From the beginning to now, my plan has never been broken through."

After General Zhao heard what Ouyang Zhengxiong said, he saw that Ouyang Zhengxiong was still unrepentant and did not want to continue to quarrel with Ouyang Zhengxiong.

"Don't you know how to repent now? Okay, then let me ask you"

"There are only 50,000 troops at the border. You mobilize 30,000 troops to the top of the mountain. What should you do if the Japanese pirates find out about this?"

"At that time, no matter how contented you are in the city? The Japanese pirates already knew that not all their troops were at the city gate."

"At that time, if he tries his best to attack the city gate, how will you take it back?"

Ouyang Zhengxiong fell silent after hearing General Zhao's question to him.

He had never thought of this angle that General Zhao was thinking about.

"General, since my perspective is so problematic, why didn't you stop me in the first place?"

"You still let me convey this idea, so you should withdraw it quickly!"

"It would be terrible if the enemy discovered it as you said."

Ouyang Zhengxiong is still very anxious about the border issues.

The border is equivalent to the gate of their country. If the border is in emergency, their country will be gone.

"You don't have to worry about this matter. Although your idea is good, there are several other generals who are perfecting it for you."

"This means that although their ideas are not as flexible as yours, they have a strong military system to back them up."

"When you don't know what to do about this matter, they can react immediately"

"You are the commander of the entire army, and the decisions you have to make must be made after careful consideration."

"And you also need to make it difficult for people to grasp your handle. Only in this way will you be able to achieve greater success in this position."

After Ouyang Zhengxiong heard General Zhao's words, he deeply reflected on himself.

General Zhao was indeed doing his best, but he was overestimating his own capabilities.

"The General's matter is indeed my fault. I know the General's good intentions."

"From tomorrow onwards, I will have the opportunity to familiarize myself with the art of war. When will I be able to memorize the art of war?"

"At what time I came to see the general."

General Zhao shook his head after hearing Ouyang Zhengxiong's words.

"You can't be in a hurry when it comes to military writing. Everything should be done slowly."

"You should develop the habit of reading medical books every day now. In the future, you will read them every day."

"And when the time comes, you will also have a strong military system to support you."

"Now what you have to do is not only read the military manual, but also supervise the training."

After Ouyang Zhengxiong heard General Zhao's words, he looked at General Zhao in surprise.

"General Zhao, are you telling the truth? Can I really supervise training?"

"But if I go there with my current identity, will they not listen to me?"

After hearing what Ouyang Zhengxiong said, General Zhao turned his attention to Ouyang Zhengxiong.

"This is the task I entrust to you. No matter what method you think of, you must let them accept you."

"And you also want me to see their improvement. If their strength is still limited to this within a month, I will ask you."

After Ouyang Zhengxiong heard General Zhao's words, he knew that General Zhao had given him a very strict task.

But he still didn't know which army he was going to lead.

"General Zhao, can you take me to that army?"

"I want to see first which army I want to hand over, and then I can make a guarantee to you."

After General Zhao heard Ouyang Zhengxiong's words, he turned his head and looked at Ouyang Zhengxiong.

"Why would you refuse this mission if it was a less powerful army?"

After Ouyang Zhengxiong heard General Zhao's words, he immediately shook his head.

How dare he refuse the order given to him by General Zhao? In the military camp, with only one sentence, military orders fell like a mountain.

Obey military orders unconditionally.

"General Zhao, you have misunderstood. I have never thought of it this way."

After General Zhao heard Ouyang Zhengxiong's words, he looked at Ouyang Zhengxiong in disbelief.

"You said I misunderstood you, how did I misunderstand you? Then you should explain it clearly to me now"

"Do you want to lead a good army, or do you want to lead a bad army?"

After Ouyang Zhengxiong heard General Zhao's words, he didn't know how to explain his thoughts to General Zhao.

If you want to lead a good army and see results in a short time, it will be very difficult..

But if you bring another bad army, if you want to see the effect in a short period of time, it is a relatively easy thing.

"General Zhao, I just feel that it may not be appropriate to lead them with my current abilities."

"They are still respecting you, and I am worthless in their hearts."

After General Zhao heard Ouyang Zhengxiong's words, he fell in love with Ouyang Zhengxiong.

"Isn't this something you should ask yourself?"

"Why did it take you so long to come to the barracks? Have you ever tried to train?"

"Why not make them listen to you? This is something you should think about yourself."

After Ouyang Zhengxiong heard General Zhao's words, he knew that General Zhao was angry about this matter.

When he first came, he made everything very clear to General Zhao.

He would not talk to General Zhao. Grab these, but now General Zhao seems a little angry

"General Zhao, I now know I was wrong"

"From today on, I will obey your orders to teach the army"

"But shouldn't you also let me know which army it is and take me there?"

General Zhao nodded after hearing Ouyang Zhengxiong's words. Of course he knew about this matter.

He would not forget this kind of thing. This is not a trivial matter for Ouyang Zhengxiong.

"Come with me."

While Ouyang Zhengxiong had been following General Zhao, he came to the most remote place in the military camp.

This place has always been a place where people with weak physical strength and unable to keep up with training live.

After Ouyang Zhengxiong noticed these things, He immediately frowned.

It seems that the task assigned to him by General Zhao this time is still very difficult.

If he can't successfully complete this task, I'm afraid he really won't be able to regain the heart of the military camp.

This is what General Zhao gave him His test was also the best opportunity for General Zhao to improve his prestige in the army.

"General Zhao, thank you. I will definitely work hard and never let you down."

General Zhao nodded after hearing Ouyang Zhengxiong's words.

As long as Ouyang Zhengxiong can understand his good intentions now.

He is afraid that Ouyang Zhengxiong will not understand his good intentions and put all the responsibilities on him. body.

At that time, I am afraid that if something happens to him, Ouyang Zhengxiong will not help him

"As long as you understand my good intentions, this is your best chance to subdue them."

"And they have always been looked down upon by people in the army. If you train them into an excellent army"

"Then they will be used by you and will only obey your orders."

After Ouyang Zhengxiong heard General Zhao's words, he knew that General Zhao was teaching him these things.

"General Zhao, don't worry, I will definitely live up to your expectations."

At this time, General Zhao quickly summoned all the soldiers here.

"You are also a part of our military camp. To show that the military camp has not given up on you yet"

"A priest has been sent to you especially, and from now on he will be your teacher."

After hearing what General Zhao said, these people all ignored it.

They all understood that they were people abandoned by the military camp.

Even if it seems that the military camp has hired someone to teach them, this person will never teach them well. They.

They have become a bunch of mud and can't hold up the wall, so why keep making things difficult for them?

General Zhao was a little angry after seeing these people ignoring them.

"What is your attitude? Is this your attitude towards this general?"

"As soldiers, everyone is unkempt and not even dressed neatly. Do you still have the nerve to be a soldier?"

"Let me tell you, if you fail to pass my final assessment this time, you will all get out of here."

"The army does not raise waste."

After these people heard what General Zhao said, they finally became anxious.

They were originally children of the nobles, and since they came to the military camp, no one dared to do anything to them.

So they developed this kind of Their lazy character is like being at home in the military camp.

But when they face General Zhao, they naturally have a sense of fear.

The cold-blooded temperament of General Zhao is indeed not something everyone can bear.

Except for Ouyang Zhengxiong, only the battle-hardened generals who have always been with General Zhao can withstand it.

The current group of rich and wealthy children are useless and cannot withstand it at all.

Chapter 2233

After General Zhao said these words, he no longer paid attention to the group of cowards behind him.

He turned around and left, leaving Ouyang Zhengxiong alone to face them.

After Ouyang Zhengxiong saw them, his expression immediately became serious.

He is no longer as warm as when he faced General Zhao again.

"You are all so lazy, what on earth are you here for?"

And this group of rich kids were not as respectful as they expected when facing Ouyang Zhengxiong.

They came here just to hang out. If they were asked to come here because of their family, they would always be at home.

The family must not let them hang out for a while so that they can improve their military rank.

They don't understand why their families want them to come to such a place to endure hardship.

If they have a choice, they are not willing to come to such a place.

"What qualifications do you have to question us? who do you think you are?"

After Ouyang Zhengxiong heard this person's words, he looked at this person with sharp eyes. He slowly came to this person.

"What you just said, say it again if you can."

Ouyang Zhengxiong asked the thorn in front of him with a very cold voice.

But there was an idea that if this person dared to repeat it, he would knock this person to the ground.

Although this person was very scared after seeing Ouyang Zhengxiong like this. , but he must not lose face.

He can be considered a middle-class rich kid in front of this group of people, so he must not lose face.

"So what if I say it again? Is there something wrong with what I said?"

"He is just a small instructor in the military camp. Where does he have the qualifications to ask questions here?"

"I tell you, if you see me outside the military camp, you will salute me."

After Ouyang Zhengxiong heard this man's words, he kicked him to the ground in the next second.

Then he stepped directly on this man's chest. Ouyang Zhengxiong's eyes were still scanning the other rich children.

When After Ouyang Zhengxiong's eyes looked at the expressions of these rich kids, he returned to this person's face.

"Now that you know you are in a military camp, you'd better abide by the rules of the military camp."

"In the military camp, I still want to be unscrupulous and want to hang out here."

"how? Do you want to kill the enemy directly when you go to the battlefield?"

After hearing what Ouyang Zhengxiong said, this man was very angry. He wanted to get up and beat Ouyang Zhengxiong down.

But he couldn't deal with Ouyang Zhengxiong at all. Now he can only be stepped on by Ouyang Zhengxiong.

"How dare you be so unreasonable to me, I tell you, you'd better take your broken feet off me now"

"Otherwise I will never be able to spare you when I get up."

After Ouyang Zhengxiong heard what this person said, he stamped his feet hard.

When he stamped again, he still kept it on his body, moving left and right.

"I didn't quite hear what you just said."

"You said you won't let me go, okay, but I want to see how you can't let me go?"

"You are just a waste, and you want to challenge me here. Do you really think that I am a waste like you?"

After hearing Ouyang Zhengxiong say such words, this man's face turned red.

And several other wealthy children, after seeing Ouyang Zhengxiong's arrogant look, were all filled with hatred.

But now Ouyang Zhengxiong He didn't provoke them. If they did something, if the news reached his father's ears, his father would definitely punish them severely.

"And the rest of you don't have to look at me, looking like you're gnashing your teeth."

"If you really don't like me, then come and fuck me"

"If you can't beat me, if you can't kill me, you will have to bear the humiliation I will give you."

These people were a little angry after hearing what Ouyang Zhengxiong said.

"Brothers, if we fight him together, I won't believe it. There are so many of us but we can't beat him alone."

After hearing what this man said, everyone swarmed forward and wanted to knock Ouyang Zhengxiong to the ground.

After seeing these people fighting without any rules, Ouyang Zhengxiong was not polite to them.

These people But among dozens of people, he was just one person.

He just resisted, so what?

The next second, he saw Ouyang Zhengxiong kicking all these people to the ground.

And the next second, There was also a sweeper kicking towards Ouyang Zhengxiong.

Ouyang Zhengxiong was not a vegetarian. Ouyang Zhengxiong stepped on the shoulder of another person and kicked that person down again.

After half a stick of incense war , Ouyang Zhengxiong was still standing gracefully in the middle, while everyone present fell to the ground.

When Ouyang Zhengxiong looked at the group of people falling to the ground, his face was full of sarcasm

"You losers, all these people can't beat me."

"Why are you still hanging around here? I am ashamed of you here."

"I find it shameful to say that I am from a military camp. You guys don't need to stay here any longer."

"It's better to get out, don't lose the face of the military camp here."

The rich kids lying on the ground were somewhat arrogant.

This time Ouyang Zhengxiong knocked all of them to the ground alone.

They would not be convinced if they could not avenge Ouyang Zhengxiong.

They will never be able to swallow this breath for the rest of their lives. They wouldn't quit in such a miserable situation.

The person who yelled the loudest just got up from the ground and threw the armor on his head to the ground.

"Why should we listen to you and we will not withdraw?"

"We are no worse than you, we just haven't been systematically trained."

"If we go through systematic training, we will definitely be no worse than you."

After Ouyang Zhengxiong heard this person's words, he looked at this person with some humor.

"May I have your name?"

After hearing Ouyang Zhengxiong's words, this person did not show any reservation or concession.

"My name is Su Mingcheng."

Ouyang Zhengxiong nodded after hearing Su Mingcheng's words, and then looked at Su Mingcheng solemnly.

"Don't you usually pay attention to what's happening outside?"

"Even if you don't pay attention, your family should tell you. Don't you know who I am?"

Su Mingcheng shook his head after hearing Ouyang Zhengxiong's words.

After they came to the military camp, they rarely had contact with the outside world.

It's good here. There are no family members to disturb them all the time, and they can be unscrupulous.

Except in extremely special situations. Sometimes, except for contacting family members, they have always disappeared.

"Why should I know you? You are just a man in the military camp"

"Just wait, after a month, I can definitely beat you."

After Ouyang Zhengxiong heard what Su Mingcheng said, he felt that Su Mingcheng was a rare person with backbone.

But is it really possible for Su Mingcheng to be so backbone? Has he been trained?

"Huh, how dare you say harsh words to me at this time?"

"Then I would like to ask you, where did you get such confidence?"

"You are just an ordinary soldier now, and you are still staying in the military camp"

"No one even gives you training, how can you beat me?"

After Su Mingcheng heard Ouyang Zhengxiong's words, he knew that Ouyang Zhengxiong was just deliberately sarcastic.

It was not that they had no coaches before, but all the military camp coaches were angry with them.

In addition, they also saw I'm not used to the arrogance of those coaches.

"Who said that? Aren't you the coach sent to us by the general?"

"If you come to train us, we won't believe you, and we still can't beat you."

After Ouyang Zhengxiong heard Su Mingcheng's words, he nodded with great satisfaction. What he wanted was for Su Mingcheng to say this in person.

If the general ordered him to teach these people, he might not be able to lead them.

"Okay, this is what you said, I can train you, but you must listen to me for everything that follows."

"If one of you fails to do it, or fails to listen to me, you will all be punished by me."

After hearing Ouyang Zhengxiong's words, Su Mingcheng agreed directly without thinking.

"Of course, we are together, so we should act in the same way."

After hearing Su Mingcheng say such words, all the people's faces looked as determined as Su Mingcheng's.

After seeing the expressions of this group of people, Ouyang Zhengxiong felt that these people were not completely hopeless.

At least these people know how to avoid it at this time

"Okay, since you all agreed to me, starting from tomorrow, you all must get up early and train with me."

After hearing Ouyang Zhengxiong say such words, Su Mingcheng was the first to back down.

"Early, get up early? Why get up early?"

"Does anyone else in the barracks get up early too? How can this be?"

Ouyang Zhengxiong also became unhappy after hearing Su Mingcheng's doubts about him.

"Are you questioning me?"

"If you want to question me, then don't train with me and just get out of here."

After Su Mingcheng heard Ouyang Zhengxiong's words, he immediately shook his head.

He would not leave here without a temper.

If he left like this, his father would never let him go.

"You just want us to leave, and I'm telling you, we won't let you succeed."

"If we leave like this, you will have completed your mission"

"Do you think we are stupid?"

After Ouyang Zhengxiong heard Su Mingcheng's words, he nodded unceremoniously.

"Do you think you are very smart?"

"In the army, I just think about dawdling every day. I never think about how to train well or how to serve the country."

"Every day I get up a few hours late, leave a few hours early, eat a few hours extra, and feel complacent."

"But you are the biggest stupidity. Those who have been training hard and working hard are the ones who survive on the battlefield."

"But when you get to the battlefield, you can only wait to die."

Chapter 2235

After hearing Ouyang Zhengxiong's words, Su Mingcheng and others looked awkward.

But I have to admit that Ouyang Zhengxiong is indeed telling the truth.

Although what Ouyang Zhengxiong said was unpleasant, it was also very pleasant.

It is a blessing for them to be here now, but if they really get to the battlefield.

They will indeed be the first to die as Ouyang Zhengxiong said.

Although they really want to teach Ouyang Zhengxiong a lesson, their current abilities are simply not enough to do these things.

"We will never be like this again, and we will train well with you in the future."

"After I finish training with you, I will definitely be able to defeat you."

After Ouyang Zhengxiong heard what Su Mingcheng said, he felt that Su Mingcheng had a good idea.

"You are not stupid, you still know how to have such a powerful idea"

"You want me to teach you, and in the end you use the method I teach you to defeat me"

"Do you think this is realistic?"

After hearing Ouyang Zhengxiong's words again, these people no longer have any good feelings towards Ouyang Zhengxiong.

"Why is it unrealistic? We have been training with you. If there is anything wrong with you, of course we will be able to tell."

What Su Mingcheng said is indeed correct, but these are based on people with a foundation.

Now these people have no foundation at all and just play around every day.

"Even so, how sure are you that you can defeat me?"

"Even if I teach you, I can guarantee that I will knock all of you to the ground."

After hearing Ouyang Zhengxiong's arrogant words, everyone in front of them showed anger.

Although they knew that Ouyang Zhengxiong was arrogant now, it did not mean that they would continue to watch him be so arrogant.

"This is the only time you can be arrogant now"

"After a month, we can definitely do a good job and beat you."

After hearing what Su Mingcheng said, Ouyang Zhengxiong looked at him thoughtfully.

Su Mingcheng was the first person to challenge him. It must be said that Su Mingcheng was very confident.

"This is what you said alone, how can you represent everyone?"

"If all of you are willing to train with me and challenge me, fine, then I'll wait and see."

"But if you are alone, what will you do if you fail to defeat me?"

After hearing Ouyang Zhengxiong's words, Su Mingcheng no longer cared about the consequences.

"If I hadn't defeated you and it was just me"

"Then I will apologize to you. If we as a group do not defeat you, we will all listen to what you say in the future."

After hearing Su Mingcheng's words, Ouyang Zhengxiong nodded with satisfaction.

What he wants is Su Mingcheng's promise to him. As long as he has this promise, he can hold it tightly.

"Okay, I remember it now. Don't forget what you said to me."

"Then starting from tomorrow, you will officially train with me. If you don't meet what I want,"

"I will not show mercy to you either, you must complete my tasks every day."

After hearing Ouyang Zhengxiong's words again, the fighting spirit of this group of people was aroused.

But after they disbanded again today, this group of people began to lie flat again in the afternoon.

Their fighting spirit was only maintained. In just half a day, by the afternoon, or even tomorrow, their fighting spirit would have been wiped out.

In the afternoon, Ouyang Zhengxiong did not go to see these people.

Because Ouyang Zhengxiong knew that all these people's fighting spirit must have been gone..Otherwise

, this group of people would not always be in this state.

"I think what you said to them this morning was quite good. Why don't you continue it this afternoon?"

"Aren't you afraid that when the official training starts tomorrow, they will threaten you?"

After hearing General Zhao's words, Ouyang Zhengxiong laughed indifferently.

There was nothing important to him about this matter.

"General Zhao, just leave this matter to me, there will be absolutely no accidents"

"It's just training them. I still have a certain degree of confidence, but in the early stage, they will definitely suffer a lot."

General Zhao nodded after hearing Ouyang Zhengxiong's words. Those of them who lead troops to fight.

If they really want to regain a few of their closest men, it will be very difficult.

Some of them will have to pay a serious price. No matter the price, there may not be one or two people who truly believe in him.

"Okay, then I will watch whether these people are successfully persuaded by you, or are you pissed off by them?"

When Ouyang Zhengxiong listened to General Zhao's words, he suddenly realized why General Zhao allowed him to lead this group of people.

"General Zhao, the reason why you suddenly wanted me to take these people with you is because you think I can't complete your mission?"

Chapter 2236

After hearing what Ouyang Zhengxiong said, General Zhao took a sip of the tea in front of him with some guilt.

He couldn't bear to hear Ouyang Zhengxiong say such things. He always felt as if he had some secret thoughts.

"How is this possible? Each of our generals has his own army of confidants"

"They are all trained by us, and most of these cronies are children from rich families."

"When you successfully win these people back to serve you, you will basically be able to stand firm in the court."

After Ouyang Zhengxiong heard what General Zhao said, he suddenly felt that General Zhao had not lied to him.

There was no need for General Zhao to lie to him.

"So that's it. It seems that the general still values me very much."

"Don't worry, General. I will definitely not disappoint the General and will definitely follow the General's instructions."

General Zhao nodded after hearing Ouyang Zhengxiong's words, although he felt guilty inside.

But fortunately, Ouyang Zhengxiong was frightened by him now. If Ouyang Zhengxiong continues to ask,

I'm afraid he really has something to hide. I can't go on anymore. Everything that's happening now is within the expected range.

"Then you have to be careful, these rich kids are not fuel efficient."

"It's already good if they aren't around to cause trouble for you in the beginning."

"When I was teaching my new army, I was severely punished by them in the first five days."

After hearing the beautiful words, Ouyang Zhengxiong couldn't imagine such a scene.

What kind of existence are those rich children? Even General Zhao dared to provoke

"What the general said made me really want to take a look at what happened back then."

"I also want to see how the general taught these people as a young man."

General Zhao fell silent after hearing what Ouyang Zhengxiong said.

He felt that Ouyang Zhengxiong really meant what he said, and Ouyang Zhengxiong did not want to see how he taught.

Ouyang Zhengxiong most likely wanted to see how he performed. How embarrassing? Why did he end up with a successor like Ouyang Zhengxiong?

"Ouyang Zhengxiong, if you dare to make fun of me or test me again, don't blame me for being rude to you."

"Now go back to your training camp and I'll give you the final word."

"If you can't train them all into a group of elite troops,"

"Then you just start from scratch for me."

After Ouyang Zhengxiong heard General Zhao say such words, he suddenly felt a lot of pressure.

If he had known that General Zhao would say such words to him, he should not have provoked General Zhao so much in the first place.

Now it is better, all the evil The retribution came to him

"General Zhao, can't we discuss this?"

"I have confidence in teaching those people, but I don't know what they can learn from it."

"You can't put all their things on me, it's not fair to me."

After General Zhao heard Ouyang Zhengxiong's words, his eyes fell deeply on Ouyang Zhengxiong.

"What do you want to be fair?"

"Do you think if you were at war with the Chu State, they would treat you fairly?"

"Will they show mercy to the people under your command just because they are from rich families and have never received formal training?"

Ouyang Zhengxiong fell silent after hearing General Zhao's words.

He had already thought of the answer. If it were someone else, he would never show mercy. Maybe they would go further and further. If something like that really happened, If so, Ouyang Zhengxiong is not willing to watch helplessly

"General Zhao, I know, I will do my best."

Ouyang Zhengxiong lowered his head and said these words, his eyes full of determination.

After Ouyang Zhengxiong left here, the general next to General Zhao walked out of the tent.

It seems that General Zhao still has something to hide from Ouyang Zhengxiong.

"It seems that the general really values this man named Ouyang Zhengxiong."

"But can he really be your successor and protect our Qi country?"

General Zhao doesn't know whether this is true or not.

But he feels that Ouyang Zhengxiong is not the kind of person who breaks his word.

And he feels that Ouyang Zhengxiong will also protect their Qi country well.

"Of course, you may not know who he is yet, right?"

"You should remember that someone who was on par with Mo Yu appeared before, right?"

"He is the one who can be as good as the best disciples of Kamikaze Academy just through his own training."

"Do you think someone with such talent as him may not be able to protect the security of Qi?"

After the general heard General Zhao's words, his eyes fell deeply on Ouyang Zhengxiong.

He really didn't expect that Ouyang Zhengxiong, who was laughing and joking like this, actually had such a powerful side.

Although he was a military general, he also knew After all, the people in Shenfeng Academy are suitable for outstanding people. Those who come out of Shenfeng Academy can basically dominate the entire continent.

But Ouyang Zhengxiong actually provoked the most powerful people in Shenfeng Academy only through his own training. Excellent people.

Chapter 2237

"He is indeed very talented, but this does not mean that he can protect our Qi country"

"Why did such a talented person not report to Kamikaze Academy before?"

"Why did you choose to show off during the big competition?"

"General, I think his existence should be carefully observed."

General Zhao knows that this general is usually very suspicious.

If he can't be trusted wholeheartedly, he will have reservations about anyone.

Looking at the entire military camp, except for him, there are few people who can truly reassure him. of

"This matter still needs to be looked at slowly."

"As time goes by, you will know what he is thinking. I don't think he is the kind of person you say."

"I can see that there is no desire for power in his eyes, and he even feels forced to enter the court."

After hearing what General Zhao said, he looked at General Zhao in disbelief.

If he really didn't want power, why did he enter the court?

With his cultivation, he could stand proudly in front of the world's heroes. Among all the heroes.

But he chose to enter the court, and he also chose to use this method

"General, I would rather believe that he has something than that he doesn't have it."

"If he is not harmful to us, it would be fine if he really has some agenda against us."

"Then if we take precautions then, it will be too late."

After General Zhao heard what the general said, he didn't want to answer him anymore.

What the general said was indeed true, but this truth made him feel inexplicably heartbroken.

"Okay, don't go on talking anymore. I'm sure about him."

"Let's first see if he can train those rich kids well."

"If he can really train those rich kids into a new army, then this person will still be of some use."

The next day came soon.

Ouyang Zhengxiong arrived at the teaching field on time in the morning.

But no one showed up here. Ouyang Zhengxiong immediately thought of what happened yesterday.

Is it possible that these people are still sleeping?

He remembered Yesterday, he had already warned this group of people.

If this is the case, then don't blame him for being ruthless.

"Come two people, carry two buckets of water, and go to the house with me."

Ouyang Zhengxiong brought two buckets of water to the room where they were sleeping.

At this time, he saw them in the room immersed in sleep.

After seeing this scene, Ouyang Zhengxiong felt very angry..

He got up early to prepare for their training, but he didn't expect that these people were still sleeping.

Ouyang Zhengxiong didn't say anything, he just poured all the water on their faces.

And this group of people was still sleeping. They were in a deep sleep, and some were even having sweet dreams.

Ouyang Zhengxiong dropped the basin of water directly on their faces, making them feel cold to the core.

The group of people jumped up from the bed and started with their eyes closed. roar

"Who the hell is this?"

"Are you sick? Are you going to let me sleep so early in the morning? Who dares to come in?"

After Ouyang Zhengxiong heard what these people said, he looked at them with sharp and cold eyes.

After seeing Ouyang Zhengxiong's eyes, these people felt a chill in their backs.

Even the cold water just now was incomparable. The look in Ouyang Zhengxiong's eyes gave them a strong deterrent effect.

Seeing Ouyang Zhengxiong like this, they couldn't help but think of the promise they made to Ouyang Zhengxiong yesterday.

Is it possible that Ouyang Zhengxiong came to ask them to fulfill yesterday's promise?

Then What should we do now? They have completely forgotten what happened yesterday.

"You want to die, didn't you see that the young master is sleeping?"

"If you dare to do this to me, if you don't want to live, tell me as soon as possible."

After Ouyang Zhengxiong heard Su Mingcheng's words, he looked at Su Mingcheng with cold eyes.

It was as if Su Mingcheng was just a dead man, unworthy of his warm eyes.

After Su Mingcheng noticed Ouyang Zhengxiong's eyes, he was frozen all over. Shivering.

But now he can't say anything. Ouyang Zhengxiong's eyes are really scary.

"Have you people forgotten what you promised me yesterday?"

"You promised me to train well, but I got up so early in the morning, and you guys are still sleeping there"

"Do you really think that I am wrong for you? Do you think I have no soldiers to train except you?"

Seeing Ouyang Zhengxiong's cold face and the coldness in his tone made everyone present shudder. They seemed to have a natural fear of Ouyang Zhengxiong.

They only had this feeling in General Zhao. However, I didn't expect Ouyang Zhengxiong to have such a great intimidating power.

"We promised you to train well, but we didn't promise you to get up early."

"Who can get up so early in the morning? Do you think we are chickens?"

After Ouyang Zhengxiong heard what Xu Changhai said, he strolled up to Xu Changhai.

Chapter 2238

"What did you just say? Say it again if you can."

"Have you forgotten what you promised me yesterday? Are you pig-brained?"

After hearing Ouyang Zhengxiong's insults to them, these rich kids couldn't help it anymore.

Yesterday was yesterday, today is today, it's already a brand new day.

Why do you have to talk to them about yesterday's things? ?

"We did promise you, but we didn't promise you to get up early"

"If we are willing to train with you, we are already giving you face. You'd better not force us."

After Ouyang Zhengxiong heard Su Mingcheng's words, he felt that Su Mingcheng's words were a bit awkward.

"Did I force you to train with me? It was you who begged me to train you."

"Now I want to train you. You have to pretend to be reluctant. From now on, I will give you half a stick of incense."

"If you don't stand outside for me within half a stick of incense, then you all should get out of here."

"I don't need people who don't listen to me. There are a lot of people in this world who want me to train them."

After hearing Ouyang Zhengxiong's words, this group of people were just about to argue with Ouyang Zhengxiong.

They saw Ouyang Zhengxiong left here directly, and at this time they had to take action.

Some people did not act, they felt Ouyang Zhengxiong will not do anything to them

"I don't believe it anymore. What else can he do to me?"

"I won't give him this face today. I asked him to train me. I'm already giving him a lot of face."

After Su Mingcheng heard Xu Changhai's words, he ignored Xu Changhai. Instead, he accelerated his actions. He felt that Ouyang Zhengxiong did what he said.

If he can't complete this thing quickly, I'm afraid Ouyang Zhengxiong will Will really kick them out of the military camp.

When Xu Changhai saw Su Mingcheng being so timid again, he started to laugh at him

"Su Mingcheng, I thought you were so powerful, but I didn't expect you to be so timid."

"He's just trying to scare you, so what qualifications does he have to kick us out?"

"No matter what, our father is still an official in the court? I have some connections over the years"

"Why should you be afraid of a fledgling instructor like him?"

After hearing what Xu Changhai said, Su Mingcheng felt that Xu Changhai had not realized the seriousness of the matter.

"Do you think he cares about these things?"

"If he really cared about the power behind us, he wouldn't be so rude to us"

"It will not tolerate us just because of the forces behind us"

"If we can't do what he said this time, I'm afraid we really have to get out of the military camp."

After Xu Changhai heard what Su Mingcheng said, he didn't believe what Su Mingcheng said.

"I don't believe you are just afraid of him. If you are afraid of him, I can go out by myself."

"I don't want to be embarrassed like you."

And other people who had been following Su Mingcheng, after hearing what Xu Changhai said, some also stopped.

These second-generation officials are very concerned about face, and the last thing they want to see is that they are raped by others. People despise them.

And now, Xu Changhai has indeed grasped their weakness.

Apart from Su Mingcheng, there are only a dozen or so scattered people following him.

Soon, Su Mingcheng came with these dozen people. In front of Ouyang Zhengxiong.

The remaining people stayed in the room. After Ouyang Zhengxiong saw Su Mingren leading the team out, he nodded with satisfaction. Only Su Mingcheng would take his words to heart.

And Only Su Mingcheng can become his true confidant

"You have done well, it is not too late to repent now"

"From now on, everything you do must obey my command"

"As for the group of people inside, they are no longer from the military camp from now on."

"You start training with me from now on, and I guarantee you will be reincarnated in a month."

After Su Mingcheng heard Ouyang Zhengxiong's words, he looked at Ouyang Zhengxiong warmly.

The reason why he did not choose to let the instructor train him before was because he felt that no one in the army could teach him.

He just said When he came here, he had already challenged the people in the army.

One or two of the people in the army were defeated by him.

Only Ouyang Zhengxiong was still standing here, and Ouyang Zhengxiong defeated many of them.

"You stand here for two hours first. This is your punishment."

"You failed to complete my task smoothly and were nearly half an hour late."

"Now I am going to punish you double, do you have any complaints?"

Su Mingcheng didn't dare to say a word after hearing Ouyang Zhengxiong's words, and just stood silently beside him. After Ouyang Zhengxiong saw that they were silent, he nodded with satisfaction.

At this time, he turned back to the house to clean up the remaining things. people.

Only after Ouyang Zhengxiong saw that these people didn't want to go out even if they were sitting on the ground, the smile on his face suddenly sank.

"You are very brave."

Chapter 2239

Xu Changhai and others felt a little panicked when they saw Ouyang Zhengxiong come in.

But they quickly stabilized themselves, and Ouyang Zhengxiong dared to come here, which shows that they still have a certain importance to Ouyang Zhengxiong.

Otherwise, Ouyang Zhengxiong would have thrown them out long ago.

"We just want to have a good rest, so what? We did promise you to train well yesterday"

"But we didn't promise you to get up so early every day. What's more, can't you call us properly? Why are you pouring water on us?"

"Although it is a hot day now, if you pour water on us, you are disrespecting us."

Xu Changhai scolded Ouyang Zhengxiong angrily, hoping that Ouyang Zhengxiong could admit his mistake.

But after seeing Xu Changhai like this, Ouyang Zhengxiong felt that Xu Changhai still didn't realize his mistake.

"That's good, is there anything else you want to say?"

Ouyang Zhengxiong looked like Xu Changhai with a playful look on his face. If Xu Changhai has anything else to say, just say it together.

There will be no next time anyway.

But Xu Changhai has now misunderstood what Ouyang Zhengxiong meant, thinking that Ouyang Zhengxiong He just bowed to them.

At this time, Xu Changhai looked at the dozen or so people who stayed here with him very proudly.

Everything Ouyang Zhengxiong did had saved him enough face.

"So as long as you apologize to us, we will not care about this matter with you, and we will still train with you"

"It's just that next time, we are not allowed to wake up so early, nor are we allowed to splash water on us again."

After Ouyang Zhengxiong heard Xu Changhai's words, he immediately nodded lightly.

"Of course, I will never wake you up so early again, and I will never throw water on you."

"Even if you beg me to do this in the future, I will never force you again."

After Xu Changhai heard what Ouyang Zhengxiong said, a smile immediately broke out on his face.

He said that he didn't need to listen to Ouyang Zhengxiong so much. Now that he didn't go out, he got so much connivance from Ouyang Zhengxiong.

And that Su Mingcheng was so stupid and coaxing He was coaxed to go out, but he was still standing outside.

"Okay, then you can apologize to me now, and we will change clothes for you to train later."

Xu Changhai's tone was full of pity when he said this to Ouyang Zhengxiong, but Ouyang Zhengxiong shook his head after hearing it.

"You shouldn't need to train anymore, right? Who are you going to train with? Didn't you just stop training?"

"I should have made it very clear to you yesterday. If you don't listen to me, you can just get out."

"And first of all, you didn't listen to me and got up from bed early. Secondly, when I told you to get up, you still stayed in bed."

"Now you are threatening me and not allowing me to tell you to get up early. If I agree to you, what is the point of you being here?"

"You can just go away now, we don't need uncles like you here, what you just said. Of course no one will dare to do that to you when you get home."

After hearing Ouyang Zhengxiong say such words, Xu Changhai became visibly panicked.

He didn't believe Ouyang Zhengxiong, so he kicked him out like this. Ouyang Zhengxiong was not qualified.

"Why do you kick us out like this? What qualifications do you have to drive us out like this? We were all specially recruited by General Zhao."

"And we are still people with backgrounds. Aren't you afraid that you will offend us now and walk in the court?"

After Ouyang Zhengxiong heard Xu Changhai's words, he approached step by step.

"If I were really afraid of you, I wouldn't take on this responsibility to train you properly. Now that I have taken over this matter, you must listen to me"

"I gave you a notice yesterday, but none of you listened to me. Now I ask you to bear the consequences."

After hearing what Ouyang Zhengxiong said without changing his face, Xu Changhai finally realized that he was wrong.

No wonder Su Mingcheng went out to train so easily. It turns out that Ouyang Zhengxiong really knows how to play for real.

"No, you can't do this to us. This is the first time we've made a mistake. You should give us a chance to change our ways."

"Besides, this is our first training, how can anyone be so punctual? Isn't Su Mingcheng late now?"

"Why didn't you drive Su Mingcheng out as well? Why did you only drive us out?"

Ouyang Zhengxiong kept looking at Xu Changhai with light eyes. He felt that Xu Changhai still didn't realize what was wrong between him and Su Mingcheng.

"Do you think there should be fairness between you and Su Mingcheng?"

After Xu Changhai heard Ouyang Zhengxiong's words, he naturally nodded.

He looked so self-righteous that he didn't realize his mistake at all.

Ouyang Zhengxiong understood this, even if he laid everything out in front of Xu Changhai , Xu Changhai will never admit that it is his fault.

Chapter 2240

Fortunately, Xu Changhai did not listen to his words this time, otherwise, he would really accept someone like Xu Changhai.

He didn't even know how to take action. Xu Changhai was so disobedient, he must be someone who had to be taught a lesson many times.

"Su Mingcheng did not get up at the beginning, but he got up and went to training after I finished talking."

"And he has been listening to me and is still standing outside. What qualifications do you have to compare with him?"

"People know that they should correct their mistakes when they know they are wrong, but what about you? If you keep insisting on your mistakes and still want others to forgive you, do you think you are the sun? Everyone has to revolve around you."

Ouyang Zhengxiong's severe criticism made Xu Changhai very embarrassed.

Even his father, Xu Changhai felt that he had never received such a major insult.

"how about you? What qualifications do you have to train us like this? You are just a dog beside General Zhao."

"If we want to train, we should also let General Zhao train in person. Only then will we listen to him."

"You, a nameless nobody, even just entered the military camp, what qualifications do you have to train us?"

After Ouyang Zhengxiong heard what Xu Changhai said, his eyes turned cold.

It seems that Xu Changhai really didn't take what he said to heart, and Xu Changhai never cared about who he offended.

"You think I'm not qualified to train you, and I won't train you again. Get out of the military camp right now."

"Don't let me see you again. I said I would drive you out of here, and I will keep my word."

After Ouyang Zhengxiong said these words, he turned around and left.

When he came to Su Mingcheng and others, he solemnly announced the matter again.

"I declare that all those people inside will be driven out of the military camp, and the only ones left are you."

"You are not the ones I have finally determined to stay. You also have to go through layers of assessment and selection."

"If you fail to persist in your usual training, or fail to meet my expectations, I will not show mercy."

"They are the ones eliminated in the first wave, and there will be a second wave among you in the future, and a third wave until the end, until all the remaining ones are elites."

After Su Mingcheng heard Ouyang Zhengxiong's words, although he couldn't hold on anymore, his face showed perseverance.

He knew that Ouyang Zhengxiong would not let him down. If Ouyang Zhengxiong really dealt with it this time Those people in the room.

Ouyang Zhengxiong must be sure to lead them to the top.

And other people are also afraid of Ouyang Zhengxiong's state, for fear that if they say anything wrong, they will make Ouyang Zhengxiong angry.

Ouyang Zhengxiong is here When he saw that this group of people could no longer hold on, he said sharply again:"Of course, if any of you want to quit now, you can quit at any time. I will not stop you.""

"But you have to think carefully, if you quit like this, is it possible to find such an opportunity again? Improve yourselves even better"

"Are you willing to be ordinary people doing nothing all your life, or do you want to fight for your future?"

After hearing what Ouyang Zhengxiong said, everyone showed different expressions on their faces. The reason why these people joined the army is because their family members have given up on them.

Or in other words, at home Not getting attention, they came to the military camp wanting to find another way out.

But after arriving here, their ideas did not meet their expectations, and no one taught them well.

So all the time, they behaved badly Such laziness, now after meeting Ouyang Zhengxiong, they suddenly felt that Ouyang Zhengxiong was their boss, and Ouyang Zhengxiong would definitely be able to train them well.

Xu Changhai still felt very disobedient and walked out of the back room, and immediately dismissed Ouyang Zhengxiong. Pulled him over.

At this time, Ouyang Zhengxiong just glanced at Xu Changhai lightly, and Xu Changhai stopped his next action. Xu Changhai also heard Ouyang Zhengxiong's words just now, and a desire burned from the bottom of his heart..

The reason why he treated Ouyang Zhengxiong like that just now was because he felt that Ouyang Zhengxiong could not train them well.

Now after Ouyang Zhengxiong said these words, he suddenly believed in Ouyang Zhengxiong.

But not everything has time to regret. Yes.

He has done such a thing, so he must pay the price for the choice he made and what he did.

"I really know I was wrong. If you give me one last chance, I will definitely train well with you and I will never cheat again."

After Ouyang Zhengxiong heard what Xu Changhai said, he was not moved at all.

Xu Changhai had already violated his bottom line once, and he would never forgive Xu Changhai again.

"There is no need to say anything more. What I said yesterday is very clear. You yourself did not listen to me. Now you get out of here immediately."
