

# I can extract attributes #Chapter 31 - Read I can extract attributes Chapter 31

## Chapter 31

The day after Gu Shaoyang defeated Hua Shurong and caused a stir in the inner sect, the handyman walked in with a black cloth bag to pay him a visit.

"Senior Brother Gu, this is the monthly offering from the inner disciples. Please take a look at it."

The handyman respectfully presented the black cloth bag.

Gu Shaoyang nodded slightly, took the bag, and asked casually: "Why did the sect let you go to receive the offering? The handyman looked a little strange and explained: "The inner sect brother who is responsible for distributing the offerings was afraid to come in again when he arrived at the gate of our courtyard. Maybe he was afraid...of you, senior brother Gu.""

Gu Shaoyang was speechless for a while.

The handyman said this with deep awe and admiration on his face.

He has served the inner geniuses on the talent list for so many years, but he has never seen anyone like Gu Shaoyang.

He is extremely talented. He is also unscrupulous. It is said that because of Senior Brother Gu's two attacks, everyone on the talent list is now in danger. People with a slightly lower ranking are either going out to practice or doing tasks, and they dare not appear in front of Gu Shaoyang, for fear that the day will be like a blossoming tree. Sitting at home happily, Gu Shaoyang came to the door.

However, although Senior Brother Gu was powerful, he was extremely generous to his subordinates. It was much easier to serve him than to serve Kizaru.

Gu Shaoyang opened his pocket with a trace of surprise on his face: "Hey, Why so many?"

Six middle-grade Yuan stones plus a bottle of Qi Gathering Pill. He remembered that the inner disciples only offered one middle-grade Yuan stone every month." The handyman seemed to see Gu Shaoyang's doubts and explained: "It's the one on the elite list." Extra preferential treatment for disciples, the higher they rank on the merit list, the more offerings they can receive every month. It is said that Senior Brother Song Qianyu, who is ranked number one, has thirty middle-grade Yuan Stones every month."

Gu Shaoyang touched his chin thoughtfully. It turns out that these guys from the inner sect have been sharpening their heads and want to get on the merit list, not just for the sake of face, but also because there are real benefits.

It seems that he has passed the inner sect. The pace needs to be accelerated.

When Wei Zhuang spent less than a year, he set a goal and the deadline was half a year.

"besides.."

The handyman did not dare to look at Shaoyang and said hesitantly: "Senior brother from Qin Gong Hall also came once. I urge you to complete this month's sect tasks as soon as possible, otherwise there will be a backlog and the offerings may be withheld..."

Gu Shaoyang frowned and said, "Why didn't he come and tell me himself?"

The handyman looked helpless: "The senior brothers from Qin Gong Hall didn't dare to come in, so they left after leaving at the door."

Gu Shaoyang: "..."

"Okay, okay, I know it."

Gu Shaoyang waved his hands indifferently and stood up.

Now that he has successfully broken through Juyuan and his cultivation has been consolidated, the first priority is to learn the alchemy technique from Elder Lin.

Talent, luck, and resources are indispensable in the journey of martial arts. The later the stage, the more resources a warrior needs to practice.

If nothing else, the Gu family, like Gu Shaoyang, is a medium-sized martial arts family with good power. If a warrior in the Xuandan realm comes out, he will only need the daily training every year. Just a few Yuan Stones can bring down the Gu family.

After all, the cultivation Yuan Stones needed by the Xuandan realm warriors must be high-grade Yuan stones.

It would be best to support his own martial arts training. He had heard that the alchemist was an extremely profitable profession.

On the way to the elixir pavilion, Gu Shaoyang heard words such as "evildoer", "monster" and "ferocious man" from time to time. Many inner disciples avoided him like a tiger or a scorpion, which made him quite afraid. For speechless

"good.."

Elder Lin saw Gu Shaoyang and saw the progress of his cultivation at a glance, and nodded with satisfaction.

"Did you come to see me this time because of alchemy? Gu

Shaoyang smiled sheepishly, "That's one. The other is that I want to ask Master to borrow the sword mark stone tablet to take a look."

Elder Lin smiled and shook his head, "You are such a slippery man."

A piece of ancient and mysterious bluestone fell in front of Gu Shaoyang. Gu Shaoyang felt excited in his heart. Sure enough, golden bubbles were refreshed again on the bluestone. The newly refreshed sword intent was less than the last time, only "Sword intent \* 85".

But Gu Shaoyang After absorbing it, I still felt that Chu Yang's Sword Intent had improved greatly. It was just a little short of 40% of Sword Intent and had exceeded 35%.

Elder Lin looked at Gu Shaoyang with great expectation as he studied the stone slab and saw that he did not fall into epiphany. small disappointment

"This King Xuan Stone Tablet is reserved for those who are strong in the King Realm. You are lucky to get it once, and there is no need to force it if you get more. Gu

Shaoyang's eyes moved and he couldn't help but ask: "Master, what level is the King Realm?"

Elder Lin said: "When a warrior practices, he first practices Qi, then breaks the Ju Yuan. After gathering the Yuan, he condenses the Zhen. After that, he reaches the Divine Sea, breaks through the barrier of life and death, and enters the King's Realm. The King's Realm is already the most powerful one in our Tianyuan Continent. Well, no one has ever reached this level since the founding of the Yuan Dynasty. It is said that there is a higher level above the King Realm, but that is not something I can understand."

Gu Shaoyang secretly stuttered and sighed: "You can get the Sword Intention Stone Tablet left by the King Realm expert. Senior Brother Ji Feng is really amazing."

Elder Lin smiled and said: "It's just one of the many fake tombs left by King Xuan. With his cultivation in the Condensation Realm, it is not dangerous... Let's not talk about it. Didn't you come here today to learn alchemy? We are now Just start."

Gu Shaoyang's heart froze and he suddenly became serious.

## Chapter 32

"The art of alchemy is mysterious and profound, not inferior to the art of martial arts, and even surpasses it... The alchemist's status is high and noble. No matter where he goes, he can be treated as the master of a sect and the master of a country. The level of the Great Yuan Kingdom and the adjacent Daqian Kingdom is The highest alchemist is from my Qingyun Sect.."

Gu Shaoyang's expression changed and he said:"Is this you, Master?"

Elder Lin showed a hint of pride on his face and said lightly:"Yes, I am a fifth-grade alchemist."

Elder Lin said seriously:"Alchemy is difficult. It's difficult to reach the sky. It's not something I can teach you if you want to learn it. It also depends on whether you have the qualifications."

Gu Shaoyang blinked:"You also need to test your qualifications to learn alchemy?"

"certainly."

Elder Lin took out something that looked like a jade plate and handed it to Gu Shaoyang.

Gu Shaoyang saw that there was a circle of even grids distributed on the jade plate. There were eight or nine grids in total, surrounding the entire jade plate.

"What an alchemist values most is not the bones, but the strength of the spirit or soul. Now you concentrate on lighting up the jade plate. Gu Shaoyang asked curiously:"

Master, how many jade plates did you light up back then?"

"If you can light up two or more squares, you are considered to have the talent to become an alchemist. Three and four squares are considered good. I lit up five squares at the beginning..."

Elder Lin said quite proudly:"He has good qualifications and is a genius."

Gu Shaoyang groaned and reached out to hold the jade plate.

Soul power is the spiritual essence of a warrior, and understanding is a good manifestation of it.

Everyone leaks a little in their daily lives.

For example, when Mo Feng was instructed by the elder who passed on the power, he had a clear mind and was only one step away from realizing the meaning of the sword without realizing it.

Therefore, his comprehension attribute in Gu Shaoyang's eyes is particularly high, and the same is true for Yuanli, Root Bone and the like.

Gu Shaoyang's ability to extract attributes is to absorb these leaked attributes.

Since he entered the inner sect, he has come into contact with many inner sect geniuses and absorbed many attributes.

Gu Shaoyang knew the root bone well, and the energy conversion efficiency was close to 70%, comparable to a monster-level talent.

It's really hard to estimate his understanding, but it has improved a lot compared to before entering the inner gate. At least he felt it was easy to comprehend the earth-level martial arts.

Gu Shaoyang held the jade dish, concentrated his mind, and guided his consciousness into the jade dish.

The next moment, the jade disc shines brightly.

Breaking through three levels in an instant...

Elder Lin looked happy and subconsciously said:"You have good qualifications and your soul power is beyond ordinary people.".."

Before he finished speaking, the five-framed jade plate had already lit up and headed straight towards the sixth frame.

Elder Lin's eyelids twitched fiercely and he said:"Haha, very good, you are almost close to the qualifications you had when you were a teacher..."

Boom..

The sixth grid of the jade disc was completely lit up, then the seventh grid, and the eighth grid.

It wasn't until the jade disc broke through the eighth grid and was within the ninth grid that the brilliance slowly stopped.

"Well.."

Elder Lin's mouth opened wide, his eyes widened, and he was speechless.

Gu Shaoyang opened his eyes, "Master, can my talent be enough?"

The dim jade dish was almost completely lit up now, exuding a circle of gleaming brilliance, and it looked very beautiful.

But in the eyes of Elder Lin, all that was left was...shock!

"Eighth...eighth-grade soul power talent!"

Elder Lin spat out a few words with difficulty, and the look in his eyes at Gu Shaoyang became extremely complicated.

Gu Shaoyang smiled, not knowing how to comfort himself, the shocked master.

"well.."

Elder Lin looked hurt, and sighed and said: "You can comprehend 20% of the sword's intention at the ninth level of Qi training, and your understanding is like a demon. I should have guessed that your soul power is far beyond ordinary people... That's all."

Gu Shaoyang Ruo He said thoughtfully: "According to what Master said, wouldn't it be true that all talented warriors with amazing understanding have the excellent talent to become an alchemist?"

Elder Lin nodded and said: "This is what I want to do next. Said to you"

"Having excellent soul power does not necessarily mean you have the qualifications to become an alchemist. This is just the first threshold. What determines the true talent of an alchemist is the control of the potency of the medicine and the extraction of impurities..."

"A strong soul power can only better grasp the changes in various materials in the elixir furnace, but it is still of no help to the fusion of medicinal powers and the removal of impurities when the elixir is finally made. The latter is about a feeling, an innate talent..."

"In our large Qingyun Sect, there are many disciples with amazing understanding, but only a few can meet the standard at this point. Among them, the one who did the best was Wei Zhuang, the young sect leader..."

"His soul power talent is as high as the seventh level, and he can turn it into an elixir at the first try, with a full 60% of the elixir's quality! This talent makes even me excited. It's a pity that he has ambitions in martial arts. Otherwise, if he concentrates on studying alchemy, his achievements will not be as good as mine..."

Chapter 33

"..The most important preparations for alchemy are materials, alchemy furnace and fire.."

"The older the medicinal materials required to refine the elixir, or the higher the grade of the demonic beast blood demon elixir used, the better the quality of the elixir will be, and the easier it will be to succeed..."

"The alchemy furnace is the magic weapon of the alchemist. The appearance and sealing properties of the alchemy furnace can largely affect the rate of elixir formation in a furnace..."

Elder Lin pointed to a half-human-high round furnace with pine and crane carvings in front of him and said to Gu Shaoyang:"This is my Qianyuan furnace. It is a fourth-grade alchemy furnace. In the entire Yuan Kingdom, only the royal family's Four-Elephant Cauldron has a higher grade." It. It can increase my elixir formation rate by a full 10%.."

"As for fire.."

Elder Lin said:"Low-grade elixirs use ordinary fire, mid-grade elixirs use Yuan Fire, and high-grade elixirs need to use strange fire or the fire of heaven and earth.."."

Gu Shaoyang curiously asked:"Master, what is the fire of heaven and earth?"

Elder Lin pondered:"I once saw in the classics that a ninth-level alchemist was using the fire of volcanic lava to refine elixirs. It took him a year to achieve the divine level. elixir.."

Gu Shaoyang exclaimed:"Refining alchemy in the crater of a volcano? You are almost too strong to even get close."

Elder Lin nodded,"So the high-level alchemist himself is also a powerful warrior. My qualifications are limited, and my cultivation is stuck in the late stage of condensation." If you can't get close, you may not be able to break through to the fifth level alchemist in this life..."

Elder Lin's words were full of sighs, but he quickly recovered and said to Gu Shaoyang:"First try to refine a furnace of first-grade Yuan-Pui Yuan Dan. If there is one Chengdan in ten furnaces, even if you completely pass my assessment, you can use it in the future." Follow me to learn alchemy. I have prepared all the materials for you..."

Peiyuan Dan is the lowest level elixir. It is usually taken by warriors at the third or fourth level of Qi training, or used to lay the foundation for those who are just practicing martial arts. The price is also low. You can buy one bottle for two low-grade Yuan stones..

Gu Shaoyang's predecessor had always eaten.

Elder Lin first demonstrated it to Gu Shaoyang. For him, a fifth-grade alchemist, refining a furnace of first-grade Yuan-Pui Yuan Dan was as easy as eating and drinking. It was not even considered serious alchemy.

After a while, the fragrance of the medicine lingered, and eight round, pale white, thumb-sized elixirs appeared in front of Gu Shaoyang.

"Eight pills are produced, and the elixir is 80% complete..."

Elder Lin nodded with satisfaction: "It's not bad. I haven't refined this kind of low-grade elixir for a long time, so I'm a little rusty. I remember that I had better make ten elixirs, and the elixir was 85% complete.".."

Gu Shaoyang observed the attribute bubbles emerging on the elixir.

"Yipin Peiyuan Dan: vitality\*23, medicinal power\*13, toxin\*18.."

It's not that bad, there are still 18 points of toxins left.

"Master, let me try."

Gu Shaoyang was eager to give it a try.

Elder Lin handed him the position.

Gu Shaoyang used an ordinary low-grade elixir furnace, with ordinary fire burning underneath.

"Cuixincao, low-grade Yuanshi powder, first-level monster blood.."

Gu Shaoyang recalled the steps taken by Elder Lin just now and carefully put the materials into the alchemy furnace one by one.

The soul power spreads out, just like looking inside during practice, and he can clearly feel that the materials in the alchemy furnace are slowly melting.

Also, the attribute bubbles that appeared immediately...

Elder Lin looked on and casually pointed: "..Feel the changes in the potency of the medicine, control the heat, and the most important thing is to close the furnace at the end, removing the waste and retaining the essence. If one control is not good, it can easily destroy the entire furnace, or even cause an explosion..."

At this moment, the alchemy furnace in front of Gu Shaoyang shook violently, and a plume of green smoke rose...

Elder Lin shook his head slightly, and subconsciously said:"It is normal for the first attempt to fail. It was my first time to refine alchemy." Shi also failed seven times before...huh?!"

Elder Lin suddenly paused, and he smelled a strange fragrance, which came from the alchemy furnace.

"Has it become a pill?"

Gu Shaoyang nodded uncertainly,"It seems so."

"open to take a look."

Gu Shaoyang opened the elixir furnace, and immediately, the strange fragrance filled the whole room.

The elixirs rolled out, one, two..

"Ten pills?!"

Elder Lin exclaimed,"Wait, no... this doesn't seem to be the Peiyuan Pill."

His eyes widened, and he saw that each pill Gu Shaoyang refined was slightly smaller than his, but as transparent as glass, like a work of art.

"This is..This is.."

Elder Lin exclaimed in disbelief:"The perfect Pei Yuan Dan! My God!".."

When Elder Lin withdrew his eyes from the Peiyuan Pill, he looked at Gu Shaoyang who had completely changed, as if he had seen a ghost, his eyes were full of shock, surprise and deep disbelief.

The first time I made elixirs, I got ten pills, and they were still of perfect quality...

If anyone told Elder Lin about this, he would definitely sneer at it.

But now it really happened in front of him.

Recalling the first time he made elixirs, he destroyed five furnaces and exploded once, and finally managed to make a useless elixir that was only 30% fine. His teacher was quite happy and praised himself for his talent... and

Gu Shaoyang. In comparison, he was as stupid as a pig.

Elder Lin had seen Wei Zhuang make elixirs for the first time, and he had produced three elixirs with a quality of 60%. He originally thought that this was the only time he had seen this in his life.

It can be seen that only after meeting Gu Shaoyang do you know... what a real evil monster is!

If it was a pity that Wei Zhuang did not learn alchemy, then it would be a waste of resources if Gu Shaoyang did not learn alchemy!

After that, Elder Lin asked Gu Shaoyang to open three more furnaces.

As a result, he fell completely silent.

Ten pills can be formed at one time, nine pills can be formed at one time, and eleven pills can be formed at one time...

Each pill is of full quality!

Elder Lin is going crazy

"Come back tomorrow, let me take it easy.."

Elder Lin waved his hand with a weak look and asked Gu Shaoyang to leave first.

Gu Shaoyang secretly wondered if he had gone too far and frightened Elder Lin silly.

He just extracted all the impurities produced during the alchemy process, and finally secretly removed the toxins in each pill.

As soon as Gu Shaoyang walked out of the elixir pavilion, he heard an excited roar from behind him.

"Lei Lie, if you dare to steal this disciple from me in the future, I... I will fight with you!"

---

Give me some flowers and tickets, I'm going to be autistic...

Chapter 34

On the second day, Elder Lin taught Gu Shaoyang how to refine the second-grade Yuan Yang Pill.

Gu Shaoyang had tried his best to control the use of his ability to extract attributes, but the super high elixir formation rate and the high 90% elixir quality still made Elder Lin dumbfounded.

"I will teach you other elixirs after a while..."

Elder Lin waved his hands feebly, "I want to be quiet.."

Elder Lin has been completely impressed by Gu Shaoyang's almost invincible talent in alchemy.

He could tell Gu Shaoyang that when he first learned alchemy, he spent two years practicing the first-grade Yuanyuan Dan and the second-grade Yuan Yang Dan for five years.

It took a total of seven years to barely meet the teacher's requirements and become a second-grade alchemist.

And what about Gu Shaoyang?

Two days!

If Elder Lin hadn't wanted to be quiet yesterday, this time would have been shortened to one day.

Become a second-grade alchemist in one day?!

Elder Lin's worldview is about to collapse.

If Shaoyang continues to learn at this pace, he will probably have nothing to teach him in less than a month.

Elder Lin felt that sometimes it was not a good thing to accept a disciple with too much talent... In the Qin Gong Hall, Gu Shaoyang stood in front of the mission panel and carefully checked the various master mission introductions on it.

"There are bandits in Qingyang Town, and disciples need to be sent to clear them up. Mission reward: ten pieces of middle-grade Yuan Stone, and the teacher's contribution is thirty points"

"Collected, thirty fifty-year-old fire dragon flowers and ten silver-leaf lotus plants. Mission reward: two middle-grade Yuan stones, and the teacher's contribution is twenty points"

"The outer door is assessed and on duty every month. Mission reward: One piece of middle-grade Yuan Stone, the master's contribution is five points"...

Most of the tasks are simple, but tedious and require a certain amount of time and energy. However, the rewards for the tasks are quite generous.

Ordinary inner disciples can earn the resources they need for daily practice through tasks if they are a little more diligent.

The name Qin Gong Hall also comes from this.

Gu Shaoyang took on a few ordinary tasks of collecting medicinal materials, and he happened to be planning to go back to the Qilian Mountains to extract the attributes of monsters.

Moreover, I stopped by the Gu family when I returned from my mission.

Two days ago, Gu Shaoyang received a letter from his family, hoping that he would go back as soon as possible.

The letter didn't say what exactly it was.

Gu Shaoyang prepared everything, picked up a fast horse from the sect affairs office, and arrived at the Qilian Mountains in just two hours.

Unlike last time, he traveled all the way to the outer reaches of the Qilian Mountains...

Qingyun Sect, inner sect.

An old man in black, his eyebrows slanting into his temples, striding into the elixir pavilion without anger or dignity.

Hanging from his waist was a long sword and a small green jade plaque.

In Qingyun Sect, only those who are core disciples or above are qualified to wear jade medals.

The core disciples wear white jade, the elders wear green jade, and the leader of Qingyun Sect wears purple jade.

This old man in black is clearly an elder.

"Elder Lei"

"Hello Mr. Lei"

"I met Elder Lei."

Every inner disciple who passed by the old man stopped and greeted the old man respectfully, which showed his noble status. The old man in black had a serious face and ignored any disciple's greetings. He walked until In the innermost part of the elixir pavilion, he stopped and roared

"Lin Hesong, come out!"

The terrifying power spread with the sound waves, and the entire elixir pavilion seemed to tremble.

Many disciples in the elixir pavilion, as well as the inner disciples passing by the door, were stunned.

Elder Lei... What happened? Who is Lin Hesong?

The next moment, a clear figure appeared in front of everyone. When everyone saw the man's appearance, they suddenly realized: Oh, it turns out that Lin Hesong is Elder Lin. Elder Lei came to find Elder Lin so angry what?

"Lei Lie, what are you yelling at in my elixir pavilion? Elder Lin frowned and said coldly.

Lei Lie sneered, "Why do you know it in your heart?" Elder Lin

's expression changed, and he whispered: "Come in with me, and I'll tell you slowly." Lei

Lie said impatiently: "Don't follow this trick, I will not leave until you hand over the person today. ""

When the onlookers heard this, it turned out that it was for someone.

Could it be that one of Elder Lei Lie's nephews had offended Elder Lin?

Impossible. Everyone knows that Elder Lei is alone, has never been married, and has no children.

"Lei Lie, I discovered him first, and he took the initiative to become my disciple. If you want to rob him, there is no way!"

The inner disciples who were watching the excitement were suddenly shocked.

The two elders seemed to have a dispute over a disciple in the sect.

Who is so awesome that he could attract two elders to compete for a disciple?

Chapter 35

Lei Lie opened his mouth and scolded: "Lin Hesong, you are still shameless. As the leader of the outer sect, you are responsible for the promotion of all the disciples of the outer sect. That kid must go through your hands before entering the inner sect. You must have done something. You used shady tactics to force him to become your disciple!"

Elder Lin's expression turned ugly, "Lei Lie, don't go too far!"

Lei Lie sneered, "Too much? How about I go too far today?!"

"A terrifying aura erupted from his body, making the entire elixir pavilion creak, and even the inner disciples who were watching were overwhelmed and almost fell to their knees.

Elder Lin's expression changed and he exclaimed in shock: "80% Sword Intent, you made a breakthrough?!"

"Do you think I am you, guarding the alchemy furnace and waiting to die?"

Lei Lie suddenly jumped to his feet and shouted, "Sword Intent, you still dare to mention Sword Intent to me." Don't think I don't know that that kid has comprehended 20% of the sword intention at the ninth level of Qi training. Are you, Lin Hesong, who is only at the Ningzhen Realm, embarrassed to be his master?!"

The disciples who were watching took a breath when they heard this.

Ninth level of Qi training, 20% sword intent?!

Where did this monster come from? No wonder it attracted two elders to fight for it!

Elder Lin was so angry Veins popped out on his face, but he knew that he was definitely no match for Lei Lie. Not to mention the 80% sword power, the other party's cultivation in the Xuandan realm was beyond his reach.

Elder Lin took a deep breath and said firmly: "Lei Lie, even if I go to the sect master today, I will never let him go."

"Then do it!"

Lei Lie's whole body erupted with a burst of light blue electric light, his momentum soared into the sky, and he shouted: "Let the sect leader make the judgment."

"Damn it, Elder Lei and Elder Lin are going to fight!"

"Go and see, this is something that hasn't happened in many years, a duel between elders!"

"I heard that it was to accept a disciple as a disciple. Damn, who is so awesome!"

The shocking commotion in the Alchemy Pavilion has already attracted most of the inner disciples to come and watch.

All the disciples felt like cats scratching their hearts at this time. They were really curious about the evildoer that the two elders were fighting for at all costs. Who is the disciple?

Seeing that the war was about to break out, Elder Lin suddenly took a deep breath, and the anger on his face slowly subsided.

His lips wriggled slightly.

All the disciples showed a look of disappointment on their faces.

The sound transmission of Qi, this is The two elders planned to discuss it privately.

Sure enough, Lei Lie's aura gradually subsided.

Everyone was itchy and could only watch Lei Lie's expression change from angry at the beginning, to disapproval, to wide-eyed at the end. There was a look of shock on his face.

Finally, Lei Lie couldn't help but screamed: "What did you say? That Gu Shaoyang entered the second level in two days, has a chance to become a ninth level alchemist?!"

The whole place was silent.

All the inner disciples were stunned, and there was only one voice echoing in their heads. Gu Shaoyang...Gu Shaoyang... it was him again.

The ninth level of Qi Lian made an exception and entered the inner sect, and was crippled with one punch. Kizaru, who was ranked 48th on the list of talents, then defeated Hua Shurong, who was 36th on the list of talents, with one punch and rose to power.

Everyone thought he was only physically strong, but they didn't expect that he had also comprehended 20% of the sword's intention.

This guy's strongest skill is his swordsmanship?!

Moreover, he has entered the second level in two days and is expected to become a ninth-level alchemist.

Does he still have an evil talent for alchemy?!

There is only one thought left in everyone's mind: this Man, what a monster!

No wonder it caused two elder-level missions to almost fight over him.

Elder Lei Lie's swordsmanship is famous in the sect, and many disciples are crying and wanting to worship him as their master. No chance.

He even went so far as to knock on Elder Lin's door for Gu Shaoyang.

The gap between people and the treatment... must be too great.

Lei Lie followed Elder Lin in and waited until they finished their discussion and came out. , the inner disciples were still standing there stupidly.

They had not recovered from the shock just now.

"When that kid comes back, let him choose whether to be your disciple or me! snort!"

Lei Lie snorted coldly and walked away.

All the disciples looked at Lei Lie's retreating figure and couldn't calm down in their hearts for a long time....

At this moment, Gu Shaoyang didn't know that there was such a big disturbance in his sect.

He was somewhere in the Qilian Mountains, facing a monster that was larger than three bulls.

"Level 3 monster armored rhinoceros: Constitution\*24, Strength\*35, Fury\*40.."

The armored rhinoceros with red eyes rushed towards Gu Shaoyang like crazy.

Gu Shaoyang's figure suddenly disappeared and suddenly appeared again. He punched the armored rhinoceros on the forehead with his right hand.

"Bang.."

The armored rhinoceros fell heavily to the ground, a large amount of blood foam flowed from its mouth and nose, and it quickly lost its vitality.

Gu Shaoyang, who had killed a level three monster known for its brute force with one punch, waved his hands casually as if he had done an extremely inconspicuous thing, and said to himself:"A huge force of nearly nine thousand kilograms exploded in an instant. Even the third-level monster, the Iron-armored Rhino, couldn't resist my punch... I wonder what it will be like after I improve my physical fitness and practice the Dragon

Capturing Strength to the second level of four times the force. Just thinking about it makes people look forward to it..."
