

Attributes 331

Chapter 331

Thousands of meters high mountain, one side of the mountain is extremely flat, and there is a deep and invisible valley under the clouds and mist.

There is a newly opened cave entrance on this cliff.

The edge of the hole was smooth and straight, as if someone had chopped it out with a sharp sword.

There is a person sitting cross-legged in the cave. He has a handsome appearance and a cold temperament. If he were not in a dark cave but in the misty clouds, he would definitely be mistaken for an immortal figure.

It was Gu Shaoyang.

The sect's finalizing meeting ended. Lian Hai, the leader of the Hanhai Sect, received the luck blessing from the quasi-holy land and couldn't wait to return to the Hanhai Sect to prepare for retreat and break through to the king's realm.

Gu Shaoyang did not go back with Lian Hai and the others, but found a remote place to retreat and digest the rewards he won in the Ten Thousand Sects Competition.

"According to Senior Brother Lian, the danger in the Sea of Nirvana is not only the extremely rich death energy, but also people.

Many people from the demonic and evil sects that everyone in the Central Heaven Territory is calling for death are hiding in the Sea of Annihilation. Among them are some of the most ferocious people in the eighth and ninth heavens of life and death.

My current strength is already at its limit against those in the seventh and ninth realms of life and death. If I encounter these beings from the eighth and ninth realms of life and death, I have no choice but to run away, or there may not even be a chance to escape...

Going out to experience is not as good as competing in the ring. No one will compete with you. Click until the end, you only have one life, and if you die, you are really dead."

Gu Shaoyang slowly picked up a high-grade spirit storage ring, a gleam of light burst out from his eyes, and whispered:"So the top priority is to improve your own strength first. Only with enough self-protection can you enter dangerous places unscrupulously. practice.."

Gu Shaoyang thought as he put his mind into the spirit storage ring in his hand.

The spirit storage ring is empty, with only three things placed there.

A translucent vial, a white jade box, and a delicate and unique token.

With a thought, Gu Shaoyang took out the three things and placed them in front of him.

First, pick up the translucent vial. Through the body of the vial, you can see that it contains an ink-like liquid. It must be the so-called Nine Netherworld Water.

Then there is the white jade box.

Gu Shaoyang held it in his hand and praised it secretly.

The material of this white jade box is actually the thousand-year-old cold jade.

Thousand-year-old top-quality cold jade has the effect of calming the mind and gathering vitality. It is of great benefit to martial arts practice. A piece the size of a fingernail is worth tens of thousands of gold.

Even if the entire Qingyun Gate where Gu Shaoyang once stayed was packaged and sold, he might not be able to afford such a large piece of thousand-year-old cold jade.

Such a priceless treasure is only used for storage. One can imagine how precious the things stored in the jade box are.

Gu Shaoyang carefully opened the jade box, and a burst of vitality immediately emerged.

The entire cave was suddenly filled with an indescribable rich fragrance. Just one whiff made Gu Shaoyang feel like his mind was clear.

Looking closely, I saw a plump and clear lavender spiritual fruit quietly placed in the jade box.

There seems to be a real dragon swimming inside the purple peel, and the vitality contained in it is indescribable.

All Saints Fruit!

Gu Shaoyang resisted the urge to take a bite of the spirit fruit and closed the jade box again.

If you leave the spirit fruit in the air for a while, it may be coveted by big monsters.

The last token seemed much more ordinary than the first two.

I don't know what kind of material the token is made of. There is a small word "Tao" engraved on it. Each stroke is full of Taoism and has an indescribable sense of awe.

The token of the Daoyan Holy Land. With this token, you can go to the Dishen Dao Monument to meditate once.

If this token is thrown away, I don't know how many powerful people in the life and death realm will fight for it.

Gu Shaoyang put away the token, looked at the vial and jade box, then picked up the vial and opened it.

A biting cold breath suddenly emitted.

In just a few breaths, the temperature inside the cave dropped to freezing point, and a thin layer of frost even condensed on the roof of the cave.

Gu Shaoyang's expression remained unchanged as he drank all the Jiuyouming Water in the small bottle.

It was like an ice sword inserted straight down Gu Shaoyang's throat.

Gu Shaoyang's face turned blue and purple in an instant, looking extremely breathtaking.

The Nine Netherworld Water turned into streams of Nine Netherworld Qi and was absorbed by Gu Shaoyang.

The Nine Nether Qi is a higher level of power than the Death Qi, and it also contains extremely strong Death Qi.

Gu Shaoyang absorbed some of the Nine Netherworld Qi when he fought with the Holy Son of the Nine Netherworld. Now that so much Nine Netherworld Qi has entered his body, the vigorous vitality in his body was immediately suppressed.

The vitality was suppressed to the extreme, and Gu Shaoyang's expression instantly became haggard, as haggard as if he had not slept for ten days and ten nights, and he lost the handsome appearance of Fengshen half a minute ago.

The next moment, the raging death energy spurted out like a roaring mountain and a tsunami.

In the fourth heaven of the realm of life and death, the calamity of death is coming!

Gu Shaoyang's whole body was shrouded in an extremely thick black cloud. He was gloomy and gloomy, as if he would die at any time. The vitality in his body was weaker than that of the dying old man.

"Extract attributes!"

Gu Shaoyang shouted in his heart

·Asking for flowers·····

As a result, the death energy on Gu Shaoyang began to fade quickly again.

When it comes to overcoming the calamity of death in the realm of life and death, I'm afraid no one in this world has it easier than Gu Shaoyang.

The terrifying death calamity that would corrode an average fourth-level warrior to death dozens of times was easy for Gu Shaoyang to survive.

The dark clouds surrounding Gu Shaoyang gradually faded away, and life appeared in Gu Shaoyang's body again.

The realm of life and death, the fifth heaven!

In a short period of time, he directly crossed two major realms. The speed of advancement is simply shocking. If word of it spreads, a large number of people will be scared to death.

Even if ordinary people get the Nine Netherworld Water, they will not swallow it directly like Gu Shaoyang. Instead, they will choose to refine and absorb it drop by drop, slowly triggering the death disaster.

This process may take several months or even half a year, but it is also extremely fast.....

But compared with Gu Shaoyang's refining speed, it was completely different.

Soon, the death aura on Gu Shaoyang disappeared completely.

He also officially entered the realm of the fifth heaven of life and death.

Although the death calamity has passed, the traces of decay left by the death calamity explosion on the body are still there.

Coupled with the tyranny of Jiuyou Nether Water, Gu Shaoyang's face was still haggard, and his whole person actually looked weaker than before the breakthrough.

At this time, Gu Shaoyang calmly opened the white jade box, picked up the lavender fruit and threw it into his mouth.

With the self-healing ability of Gu Shaoyang's Immortal Thunder and Fire Divine Body, the wounds left by the explosion of Nine Netherworld Water and Death Tribulation will be able to recover on their own in a few months.

However, All Saints Fruit can directly eliminate this process!

The Wanwan Holy Fruit was in his mouth, and he gently bit the peel. A stream of sweet liquid immediately flowed into Gu Shaoyang's throat, leaving a fragrant taste in his mouth.

The next moment, a terrifying vitality erupted from his body like a volcano, flowing throughout Gu Shaoyang's limbs and bones.

Gu Shaoyang, who was originally described as haggard and haggard, became as handsome as jade and as handsome as a jade in just a few breaths.

Just like a shriveled fruit is moistened by rain and becomes plump at a speed visible to the naked eye....

The vitality contained in the Ten Thousand Holy Spirit Fruit was so majestic that less than half of it was consumed to completely replenish the vitality in Gu Shaoyang's body.

The remaining vitality was integrated into Gu Shaoyang's limbs and bones, constantly replenishing and enhancing his physical strength.

Gu Shaoyang's physical body was already very terrifying, and now it was rushing towards an unimaginable realm at high speed...

Chapter 332

"The mountains here are beautiful and the terrain is majestic. It is a rare Feng Shui treasure place. There may be treasures of heaven and earth, or even ancient spiritual treasures..."

From a distance, two figures were flying in the air.

The two figures, one old and one young, looked like a pair of masters.

The old man's face was pale, and his body exuded a powerful and surging vitality. He was clearly a warrior at the first level of the life and death realm.

The younger one has the appearance of a young man, with delicate features, lively eyes, and his cultivation has reached the late stage of the Divine Sea Realm.

The old man raised his eyes and glanced ahead. When he saw a tall mountain with half of it flat in front of him, he couldn't help but sigh.

When the young man heard the old man's words, he curled his lips in disdain and retorted: "It is possible to find treasures in such a poor and harsh place, including ancient spiritual treasures. Master, you must be an old fool, aren't you?!"

"You stupid boy!"

The old man was so angry that he blew his beard and glared. He hit the young man's head hard, and then said angrily: "Although my martial arts cultivation level is '147', I, Fuyunzi, can't be considered tyrannical, but I have the ability to recognize and hunt for treasures. But it is definitely one of the best..."

Although this area is ordinary, if you look carefully, you will find that there is a blue dragon entrenched, full of vitality, and indescribable value. There must be some incredible treasure that is about to be born... some elixir that has been mature for thousands of years. It's not impossible."

The young man rubbed his head, his face still full of dissatisfaction, but he could only curse and did not dare to say it anymore.

Fuyunzi led the young man around the mountains at will, frowning as he turned, and doing calculations in his hands. "What are you talking about, and you are mumbling words?"

"It doesn't make sense, it should be around here... It's only when a divine creature is born.."

The young man whispered:"Master, you must have made a mistake in your calculations..."

When Fuyunzi heard this, his beard twitched, and he was about to give the young man another brain-destroying blow.

But at this moment, the young man suddenly pointed to somewhere in front of him in shock and shouted:"Master, look quickly, what is that?!"

Fuyunzi quickly turned around and looked.

I saw a rich and strange light faintly revealed on the back side of the giant Wanren Mountain.

The rays of light are purple and red in color and look extremely gorgeous.

Fuyunzi's eyes suddenly opened wide and he screamed:"The treasure light is soaring to the sky!! It must be the birth of an ancient divine object.".."

He immediately became ecstatic, patted the young man on the shoulder, and laughed and said:"Good disciple, it seems that this time it is finally our turn, master and disciple, to make a difference and soar into the sky..."

The young man also had a face full of joy and said:"Master, don't you often say that the darlings of heaven and earth are the darlings of heaven and earth who are extremely gifted and talented, and have amazing luck. They can encounter adventures wherever they go, and rare treasures come to them on their own initiative. cast..."

Today we encountered this ancient divine object that is about to be born. Do you think it is because of my amazing luck? Fuyunzi stroked his white beard, nodded with a smile and said:"It's possible, extremely possible... maybe the ancient divine object born this time will be a major turning point in your martial arts, and you will soar to the sky from now on.".."

The young man beamed when he heard this, and said happily:"Then I must first compete for the number one position on the Divine Sea Ranking. Last time we met that guy, he ranked more than thirty on the Divine Sea Ranking, and he was very impressive...When

I become number one, I will hold his head and kick his ass..."

"Ha ha.."

Fuyunzi laughed.

Both the master and the disciple were in a good mood, feeling indescribably happy and proud.

While talking and laughing, Fuyunzi had already taken the young man to the other side of the mountain.

Suddenly, he discovered that the precious light, which was like steaming clouds and rosy clouds, came from the cave.

Now that I got closer, I realized that it was not only the treasure light, but also extremely strong energy fluctuations in the cave.

"Tsk tsk, it's no small matter..."

Fuyunzi's eyes glowed.

The young man felt itchy in his heart and couldn't wait to rush towards the cave, but Fuyunzi stretched out his hand and grabbed him back.

"Master, what are you waiting for?!"

The young man said anxiously.

Fuyunzi's face slightly condensed, and he said in a deep voice: "Why are you so anxious? Let's take a look again..."

The young man scratched his head and scratched his head. Seeing that the treasure was in front of him but he could not get it, he really couldn't understand what Fuyunzi was thinking.

Just when he was feeling depressed, he suddenly heard a huge sound piercing the air.

A shadow covered the sky and sun passed overhead, as if a dark cloud had fallen.

The young man raised his head suddenly and saw a huge creature roaring down.

It is a big golden bird with a wingspan of more than a thousand feet. The big bird's body is covered with golden feathers, and each feather is as sharp as a sword.

The moment it fell, it was as if a Category 10 hurricane had set off in the mountains, and its momentum was extremely terrifying.

The boy's eyes widened, his face full of horror and shock, and he murmured: "This is.."

Before he finished speaking, the smell of wind hit his face again.

There is a black dragon with a single horn on its head, four claws on its abdomen, swimming at the bottom of Wanren Mountain. Its long body stretches hundreds of feet, almost wrapping around the giant mountain.

The boy suddenly felt as if someone had strangled his neck. He opened his mouth wide and was too frightened to say a word.

"It's the golden-winged demon roc and the ink dragon!"

Fuyunzi's solemn voice sounded in the young man's ears, "They are all descendants of ancient ferocious beasts, and they are already at the level of great demons..."

As he spoke, Fuyunzi sighed with a wry smile: "I had already guessed that this vision of the light soaring into the sky would attract monsters, but I didn't expect that it would attract monsters at the level of a great demon... But then again, This also proves how extraordinary the treasures in the cave are..."

The young man hurriedly asked: "Master, can you beat these two monsters?"

Fuyunzi glared at the young man angrily, "Bullshit, these two big monsters are both existences above the fifth level of life and death. How can I Might be able to beat it.."

"What to do? Do you watch your treasures being taken away by them?"

The young man's face was full of frustration.

But Fuyunzi's eyes flickered.

"Not necessarily.."

"What's the meaning?! Master, do you have any other ideas?"

The young man suddenly became energetic again.

Fuyunzi said slowly: "There is only one treasure, but there are two big monsters. Moreover, these two big monsters are natural enemies. They will fight to the death when they meet..."

Let's first Just wait and see, wait until both of them are hurt, and then reap the benefits."

The young man's eyes suddenly lit up.

As expected by Fu Yunzi, the golden-winged demon Peng and Molong started fighting as soon as they met. The two demons were up and down, one was in the sky and the other was on the ground, fighting until the sky was dark..

Before long, the two big demons were covered with bruises and their breaths were weak, turning into a lose-lose situation.

Fuyunzi's eyes lit up and he said anxiously: "Good disciple, our opportunity is coming soon!"

The young man also got excited.

While the two demons were fighting each other, Fuyunzi took the young man to hold his breath and focus, and slowly approached the cave that was emitting precious light. The precious light changed, was magnificent and beautiful, and moved people's hearts.

Master and disciple The two of them were very lucky and were never discovered by the two big monsters.

Seeing the two of them getting closer and closer to the cave, the faces of Yunzi and the young man showed expressions of ecstasy and excitement... The entrance of the cave turned purple and red. The precious light suddenly disappeared without a trace.

Fuyunzi and the two were stunned for a moment and stayed on the spot.

What was going on?

Even the fighting golden-winged demon roc and Molong stopped instantly, and the four fierce eyes Staring closely at the entrance of the cave. Fuyunzi tried hard to see clearly what was going on in the cave, but there was only darkness in the cave, and there seemed to be nothing.

Suddenly, a bright light flashed through the cave.

It was like lightning flashing across the dark sky.

Fuyunzi Zi felt an inexplicable chill in his heart. His heart seemed to be grasped by an invisible hand, and an inexplicable chill of terror rose from the bottom of his heart.

He vaguely saw something coming out of the cave, and it gradually became clearer...

The boy's exclamation suddenly sounded in his ears

"Master, in the cave...Go..come out alone?!"

Chapter 333

Fuyunzi and the boy saw clearly that it was indeed a person who walked out of the cave.

A very young man.

When they saw the young man's appearance clearly, they were suddenly stunned again.

I have never seen such a handsome person.

This man's facial features and figure are as flawless as if they were carefully carved by God. His skin is as radiant as the finest white jade, but he doesn't appear to be feminine at all.

On the contrary, it reveals the most masculine and yang charm, and the whole body exudes a noble and fierce temperament, just like an immortal.

Fu Yunzi and the young master and apprentice stood in front of the young man, and for a moment they felt a deep sense of shame in their hearts.

"Roar!"

"嗷——"

The roars of Molong and the golden-winged demon roc brought the two of them back from their daze.

Fuyunzi's expression changed greatly, and he finally realized, "Oh no... it's exposed!" He then smiled bitterly, "I didn't expect that there were already people in the cave. I think the ancient divine object that was born must have been captured by this person first..We are still one step late!"

The young man looked frightened and asked hurriedly: "Master, what should we do?"

Fuyunzi gritted his teeth and said: "What else can we do? When the two big monsters cause trouble for this pretty boy, Let's wait for an opportunity to run away again!"

There was a trace of hesitation on the young man's face, and he murmured: "Isn't this a trick?.."

"What a fool!"

Fuyunzi glanced in the direction of the young and handsome man, and said sourly: "If you want to get this opportunity, you will naturally have to endure the corresponding hardships... Who asked him to steal our things, otherwise he will be targeted by the big demon now? That's us."

Fu Yunzi couldn't help but reveal a bit of schadenfreude on his face.

At this time, the two great demons, the Golden-winged Demon Peng and Molong, who were above the fifth level of the realm of life and death, just as Fu Yunzi said, gave up the fight and turned to. They all attacked the young and handsome man.

However, their expressions did not look like they were angry because they had been beaten first. Instead, they looked like they had seen something attractive. The eyes of the two big demons were full of desire. It seemed that this young and handsome man was. It has a great attraction for them.

The golden-winged demon roc spreads its wings and shoots out thousands of sharp golden lights, leaving countless dark traces in the void.

Molong roared wildly and sprayed out from his mouth. There was a thick fishy wind, as well as thick dark green clouds and poisonous fog.

Fuyunzi and the boy felt frightened when they saw the golden light falling like a meteor shower in the sky. Just smelling the fishy wind spreading from the poisonous fog made them feel a wave of fear. dizzy

"The big demon-level monsters are so terrifying... I am suddenly a little glad that I didn't snatch that treasure, otherwise our master and apprentice would either be beaten to a sieve by the demon roc golden feathers today, or our flesh would melt in the poisonous smoke of the ink dragon. Bone pin! Fuyunzi said in shock.

The young man also had a look of shock and approval on his face.

"Master, what should I do with that person?"

"Of course he is dead!"

Fuyunzi looked at the handsome young man who was surrounded by two big demons, like he was in the eye of a storm, and said firmly: "If you take away the opportunity, you must also accept your fate..."

Just when Fuyunzi was sure that the handsome young man would definitely die, he saw that the handsome young man looked indifferent, as if he didn't seem to notice the two big demons' siege at all.

"You beast... how dare you?!"

The cold voice fell from the young man's mouth, calm but like the power of heaven. The next moment, the young man was seen slowly moving towards the void outside the cave.

With this step, the young man's body seemed to become taller and taller quickly.

He looked towards the sky. With a punch, the white and powerful fist directly shattered a large area of the void, and darkness spread. The thousands of golden feathers of the golden-winged demon roc were immediately broken, and a terrifying shock wave force hit the golden-winged demon roc. He whined and was knocked backwards.

Then the young man faced down and took a long breath.

All the fishy wind and poisonous mist in the sky was sucked into his stomach.

"How dare he?!"

Fuyunzi and the young man looked horrified. Before they could say anything in surprise, they saw the young man suddenly opening his mouth.

A small sword as black as ink flew out of his mouth, hitting Molong in an instant and nailing it.

Molong was The place where the small sword stabbed immediately turned black and fester, and he screamed in pain.

"Damn it, two beasts without eyes!"

The handsome young man snorted coldly and leaned forward. Strong purple and red light erupted from his slender and straight body, making his body look extremely powerful.

Every punch and kick of the handsome young man was like thunder. And flames burst out, the void shook violently, and made a sound like cracking silk.

It was a manifestation of the ultimate power.

Looking at the purple and red light, the young man suddenly felt very familiar. He suddenly woke up and screamed: "Master, isn't this the precious light we just saw coming out of the cave?! How could it come from that person? Did he fuse with that ancient artifact?!"

The young man turned his head to look at Fu Yunzi. He saw Fu Yunzi's eyes widened and his face full of shock, as if he had seen something extremely shocking.

"It's not that he fused the ancient divine object, but... he is the so-called 'ancient divine object'!"

"What?!"

The young man's eyes widened suddenly, with an incredible look on his face.

Fuyunzi smiled bitterly and said: "The body is penetrated by divine light, and the body is like a treasure... What we see is the ancient divine object that is about to be born, but this person is here. All kinds of strange phenomena revealed during cultivation!"

These two big demons also came here for this man. I think they devoured him to increase his cultivation, but now I don't know who devoured whom..."

Fuyunzi spoke slowly, each sentence making the young man's head feel dizzy.

Can the physical body emit precious light like an ancient divine object?

And attracting the covetousness of a big demon?

How powerful is this physical body? Can it perform in such an exaggerated way?!

Look to the sky again.

I saw a handsome young man fighting two big monsters, the golden-winged demon Peng and the Molong alone.

Oh no, it would be more appropriate to describe it as violent beating.

The Golden-winged Demon Peng and Molonggen 800 were no match for the young man. With their big demon bodies, they couldn't withstand a light punch from the handsome young man.

The handsome young man put his arms around the Molong, grabbed it whole, and used it as a whip to beat the golden-winged demon roc.

The two big demons were beaten until their scales and feathers were shattered, their flesh and blood were blurred, and they kept wailing.

The handsome young man became more and more courageous as he fought, and the extremely strong energy formed a thousand-foot high wolf smoke column above his head.

Fuyunzi and the young man were so far apart from the young man that they could hear the sound of blood flowing in his body like the Yangtze River.

"horrible! This is definitely a body-refining strongman who broke the shackles of the physical body and embarked on the path of realizing the Tao through strength...."

Fuyunzi murmured with shock in his eyes:"You are still so young, when did such a body-refining genius appear among the younger generation of Zhongtian Territory!" The young man standing next to Fuyunzi was completely dumbfounded.

The scene in front of him was beyond the scope of his cognition. He beat the big demon with the power of his body alone. This was something he only heard of in myths and legends...

"boom! boom!"

Two loud noises.

The golden-winged demon Peng and Molong fell heavily to the ground, knocking down a large area of rocks and trees, and making a huge roar. The eyelids of Fuyunzi and the young man jumped unconsciously.

Suddenly they discovered The demon-like figure in the sky was looking towards them.

Their hearts suddenly tightened....

Chapter 334

"Master..Master.."

The young man stammered and said:"He... he seems to be looking towards us, what should we do?"

Fuyunzi also turned pale and said anxiously:"Shut up! Calm down first, calm down.."

Even the two great demons whose strength was above the fifth level of the life and death realm were beaten until they were lying on the ground like dead dogs, and the other party had a relaxed and indifferent look on their face, as if they had just done an extremely trivial thing.

It seemed that what he had just dealt with was not two big monsters, but two flies that he had swatted away with his wave of his hand.

If you go up there, you will definitely be punched to death by him, right?!

Fuyunzi was sweating on his forehead, feeling as nervous as he had never been in hundreds of years.

This young man is really terrible.

Facing him, Fuyunzi seemed to be facing an ancient ferocious beast that dominated the wilderness.

Even from a great distance, one can feel the opponent's surging energy and blood, like a furnace of the sun, so hot that it is difficult to approach.

Fortunately, the handsome young man's eyes only stayed on them for a while and then moved away.

He flew towards the dying golden-winged demon Peng and Molong, as if he wanted to completely end the lives of the two great demons.

At this moment, not far away, there suddenly appeared colorful lights rising into the sky, accompanied by bursts of dragons and phoenixes. All kinds of strange phenomena were so spectacular.

"Well.."

The handsome young man stopped and Master Fuyunzi and his disciples were also stunned.

"Master, what is that?"

The young man asked doubtfully.

Fuyunzi's eyes burst out with ecstasy and shock, and he said excitedly:"Seven-colored treasure light, there is a treasure in the world! I just said how could I be wrong?.."

Only then did Fuyunzi realize that it was not his treasure-hunting secrets that had a problem, but that there really was an ancient treasure about to be released nearby.

They just made a mistake because there happened to be a handsome young man, a monster whose body was comparable to precious medicine and could emit strange treasure light, practicing in seclusion.

The colorful treasure light illuminated half of the sky, and two golden lights flew up, showing a strange phenomenon of a dragon and a phoenix.

After two rays of golden light flew up, they shot straight towards this side, and then they were caught by the handsome young man, and the strange phenomena in the sky slowly disappeared.

It looked like a treasure flying into the hands of a handsome young man of its own accord.

Fuyunzi and his disciples were dumbfounded.

"this...Is this a treasure that comes to you on its own initiative?! Throw yourself into your arms?!.! "

"What is the identity of this young man?! How rich is the luck that one carries?! As soon as I came out of seclusion, an ancient treasure appeared and took the initiative to surrender, which was simply unbelievable!"

Fuyunzi saw the handsome young man glance at the thing in his hand in surprise.

What kind of treasure was it made Fuyunzi feel itchy in his heart.

Then he put it away at will, grabbed two big demons and quickly disappeared into the distance without looking back..

Looking at the young man's retreating back, the young man's expression was dull and he murmured:"The proud son of heaven, the darling of heaven and earth, there will be adventures wherever you go, and rare treasures will come to you on your own initiative."...

Oh my god, isn't this the kind of person you're talking about?!"

The young man opened his mouth wide, with shock and belief on his face, and could not recover for a long time.

Fuyunzi also had a look of shock and complexity on his face, and sighed in a low voice:"It seems that I am right about the catastrophe of Zhongtian Domain. , all kinds of unimaginable geniuses appear, this is destined to be a great world!..." ...

Gu Shaoyang holds two purple-gold jade rings in his hands. The jade rings are one yin and one yang, one female and one male. They form a pair when put together and can also be separated.

The two jade rings have a steady stream of "soul power" attribute bubbles, which have the effect of nourishing the soul and protecting against soul power attacks.

Not only that, the two jade rings are also extremely exquisite and beautiful in style. One is engraved with a dragon pattern, and the other is engraved with a phoenix pattern. Even without any additional functions, they are still amazing handicrafts.

When Gu Shaoyang looked at the female ring, he immediately thought of Yan Qingyuan

"If this was given to Qingyuan, she would definitely be very happy.."

There was a hint of tenderness in Gu Shaoyang's eyes, and he quickly put the female ring away carefully, while the male ring was worn on his body to hold his long hair.

Gu Shaoyang, who was wearing a black robe with gold patterns, was already tall and handsome. With the decoration of this purple and gold jade ring, he had a noble and refined temperament in his coolness.

Her truly peerless grace and appearance are enough to captivate most young girls in the world.

It's just that now this person who looks like a banished immortal and a noble prince in the world is doing the bloody thing of a butcher.

Gu Shaoyang held the Seven-Star Dragon Abyss and skinned the golden-winged demon roc and the ink dragon, dug out the demon elixir, pulled out the demon bones, and cut off the demon flesh....

Two great demons from the fifth level of life and death were forcibly dismembered by Gu Shaoyang into a pile of valuable precious materials.

"The fifth level of life and death!"

Gu Shaoyang felt the surging power flowing in his body. The energy was as surging as the abyss and the blood was running endlessly like the Yangtze River.

Whether it was physical body or cultivation, he had risen to two levels, and his overall strength increased tenfold. More than that.

Just talking about his body.

After two consecutive transformations, the power of thunder and fire in the body of the Immortal Thunder and Fire God was directly fused to reach 30%. Gu Shaoyang's physical strength quadrupled. At his peak, he reached the terrifying level of thirty thousand kilograms of strength..

One punch collapsed the mountain, one kick cracked the ground, there is no exaggeration.

Otherwise, it would not be so easy to kill two big monsters in the fifth level of life and death.

Moreover, due to the massive vitality supplement in the Ten Thousand Holy Spirit Fruit, the immortality in his body has grown. The power of the body, the power of thunder and fire has been fused to 30%, and there is no sign of imbalance.

Taking care of Shaoyang estimates that based on the current power of the immortal body, until the power of thunder and fire is fused to 50%, he does not have to worry about the imbalance of thunder and fire backlashing his own body. A situation arises.

This greatly alleviates Gu Shaoyang's sense of urgency in finding a thunder-attribute divine object to devour.

".The art of body refining is not my main practice, but I have continued to improve, and I have reached this terrifying height in a daze... On the contrary, it is the sword art that I have been pursuing so hard, and I have fallen behind a bit..."

Gu Shaoyang showed a wry smile and said thoughtfully:"Jiu Zhuozi once said that if you want to understand the power of the sword soul, you must possess the power of the seven sword souls of the Dzogchen realm and integrate the seven sword souls into one....

The Dzogchen-level sword spirit in me now is the Yin-Yang sword spirit. Although Destruction and Space are only the Dzogchen sword spirit, their levels are no less than the sword spirit.

The killing sword spirit is over 90%, only one step away from perfection.

There is also the Imperial Sword Intention born from practicing "Emperor's Sword Technique" and "True Dragon Way". Although I have never practiced it deliberately, I have the Qinglong destiny, a lot of dragon energy, and great fortune, comparable to the emperors in the world. It is more than a thousand times higher, and it has reached the level of 80% sword spirit.

In total, there are only six types of sword-level artistic conceptions that I have mastered.

You have to practice one more thing."

Gu Shaoyang once learned thousands of sword techniques in the Brahma Sword Tomb, and also understood many messy sword intentions.

It's not that he has no choice, but there are too many choices, and he doesn't know which one is better to study.

"The lightning-attributed sword intent evolved into the destructive sword intent in the end. If it is repeated, it can be ruled out.

The wind attribute sword intention is also space sword intention when deduced to the extreme, so it is also excluded.

Of the five basic attributes of Sword Intent, there are only three types left: wood, earth, and metal...."

Gu Shaoyang's eyes burst out with a sharp edge that could tear everything apart, and he said to himself calmly: "My way of swordsmanship is to use offense to defend, to kill to stop killing. I will destroy whatever is in front of me.

Therefore, wood, earth and my way of swordsmanship are not the same. It's so suitable, the first choice is the metallic sword intent!

In the following time, I will upgrade the metallic sword intent to the perfection of the sword soul as soon as possible, and then start to consider the issue of sword soul fusion..."

Chapter 335

Gu Shaoyang crossed a series of mountains, and suddenly an inexplicable throbbing flashed through his heart. When he looked up again, a huge wasteland appeared in front of him.

The wasteland is shrouded in thick gray fog, which is full of death.

The aura of death floated throughout the wasteland, and it was unknown where it came from.

Because of the existence of the dead air, there is no grass growing in the wasteland, and it is difficult to see any living things. There are only jagged and strange rocks hidden in the gray mist that look like monsters.

Looking from above, the wasteland is buried, lifeless and surging, like a silent and terrifying gray sea.

This is the Sea of Nirvana.

Gu Shaoyang took a deep breath, recovered from the slight shock, and took a step towards the Sea of Annihilation.

The moment he passed through the gray fog and was surrounded by death, he had the illusion of crossing life and death and stepping from the world of heaven into the underworld.

"Extract attributes!"

Gu Shaoyang thought silently in his heart.

The surrounding death energy immediately gathered towards Gu Shaoyang, and was absorbed by him continuously.

Gu Shaoyang's main purpose in coming to the Sea of Nirvana was to swallow the death energy.

His immortal thunder and fire divine body is too powerful, The shackles of the physical body have been broken, and they are on par with the ancient body-refining warriors who have walked the path of proving the path. The vitality of Qi and blood is like the sun in the oven, and the formed energy smoke rises thousands of feet like pillars, relying solely on oneself. The little bit of death energy

that was generated had to accumulate for years and years, so he needed a huge amount of death energy. The death energy within a ten-mile radius was instantly swallowed up by Gu Shaoyang.

Gu Shaoyang flew like light, rushing past, leaving a vacuum of death energy behind him. path of

"Roar..."

A terrifying roar sounded in his ears.

Gu Shaoyang followed the sound and saw a demonic ape monster that was a hundred feet tall and as big as a hill walking out of the gray mist.

A huge wound opened in the abdomen of this demonic ape monster, and its long body drooped out like a giant python. Its eyes were lifeless, and its whole body exuded a strong and incomparable death aura.

"This is..."

Gu Shaoyang's eyes narrowed slightly,"Monsters are formed after the death of monsters and are infected by the death energy, forming an existence similar to monster corpses.".."

The dead-grey eyes of the demon ape corpse stared at Gu Shaoyang without any focus, and with a low roar, he strode towards him.

"Deng Deng Deng..."

The ground was trampled into big holes one after another.

Gu Shaoyang's expression remained unchanged and he punched brazenly.

The demon ape corpse seemed to have been hit hard, and its huge body flew out like a kite with a broken string.

"boom!"

At this time, a huge roar sounded in the air.

Gu Shaoyang's shooting speed was too fast, exceeding the speed of sound. Those who fought with him could only hear the sound of punching through the air first.

"Stab.."

Balls of violent thunder and flames suddenly erupted from the body of the demon ape monster. It was the power of thunder and fire contained in Gu Shaoyang's fist that hit its body and exploded suddenly.

Thunder and lightning jumped on the body of the demon ape, destroying large areas of death energy. The death energy melted away quickly like boiling water splashed on the snow, making a "chichi" sound.

"As I expected, thunder and fire are the strongest in the world, and the sun is the nemesis of death, and has a natural restraint effect on this kind of monster-like existence..."

Gu Shaoyang understood this clearly and slashed out a sword.

This sword was like a golden light that spread across the ground, and it passed over the corpse of the demon ape without even taking a moment.

Immediately afterwards, the entire corpse of the demon ape was flattened out. It was so dead that it could no longer die.

Although it is not the strongest "gold-killing sword", after having mastered the spirit of the gold-cutting sword for so long, every sword Gu Shaoyang makes now will have the characteristics of tearing and cutting.

The sword light was several times sharper than before.

Although the strength has not improved, the lethality of each sword has greatly increased.

"The metallic sword spirit is the soul of the sword and is the bridge of communication between the sword and the swordsman. After completing the Great Perfection of the Metal-cutting Sword Soul, I became more and more comfortable controlling the Seven-Star Dragon Abyss. It felt like the sword and man were one, like arms and fingers..."

I really should have understood the metallic sword spirit earlier..."

Gu Shaoyang said to himself with emotion.

After killing the Demonic Ape Demonic Corpse, the Demonic Ape Demonic Corpse looked like a peeled-out fruit, with an extremely rich death aura exuding from its body.

Gu Shaoyang's eyes moved, he quickly approached, pushed aside the corpse of the demon ape, and found a gray demon pill the size of a human head, but this demon pill was also cut in half by Gu Shaoyang's sword that cut gold and jade. , the death energy in it is rapidly draining away

"Extract attributes!"

Gu Shaoyang hurriedly used the ability to extract attributes.

An extremely pure death energy poured into Gu Shaoyang's body.

All the demon pills were absorbed, and the death energy contained in it was equivalent to what Gu Shaoyang had absorbed for three days without stopping in the Sea of Nirvana.

"This is a good way to quickly gain death energy..."

The corner of Gu Shaoyang's mouth curled up, feeling slightly relieved.

The Demon Ape's cultivation during his lifetime was at least above the third level of the realm of life and death, and he was also at the level of a great demon. However, after his death, his flesh and blood rotted away, making him worthless.

Gu Shaoyang stopped packing and prepared to leave.

At this moment, he kept letting go and detected the slightest fluctuation in the soul covering a thousand-mile radius.

The sound of fighting seems to be someone?!

Gu Shaoyang thought, and the next moment his figure had disappeared from where he was.

After flying more than a thousand miles to the left, Gu Shaoyang finally found out the source of the movement.

···Asking for flowers·····

Breaking through the gray fog, Gu Shaoyang saw two warriors struggling to hold on in a fierce battle group.

The cultivation of these two warriors are both in the third level of life and death, and those who besiege them are also humans, but not ordinary humans.

The besiegers were wearing torn and old clothes, their skin was pale, their eyes were unfocused, their faces were as haggard as zombies, and their bodies exuded an extremely strong aura of death.

Similar to the demon ape corpse, this is a life-and-death realm warrior who died in the sea of annihilation and was then infected by the death energy and turned into a walking corpse-like existence.

Without consciousness, they will always wander aimlessly in the sea of annihilation. If they are attracted by life, they will kill them crazily.

There are five walking corpse warriors, three of whom are at the second level of the life and death realm, and two who are at the fourth level of the life and death realm.

Although they are not as flexible as they were in life, and they can no longer display advanced martial arts, but because of their death, their cultivation has become higher.....

Coupled with the fact that he doesn't know pain and is not afraid of life and death, he is far more difficult to deal with than ordinary warriors of the same realm.

Two warriors from the third level of life and death struggled to hold on under the siege of five people. They were about to be defeated, and finally fell into joining their ranks.

"damn it! If I had known better, I shouldn't have come to this muddy water. The tomb of the Lord of Nirvana reappeared in the sky. The death aura in the Sea of Nirvana was more than three times richer, and the strength of these zombies also skyrocketed. It seems that we two brothers This time I am going to die here...."

"Oh, it's my fault, I shouldn't have dragged you here. I also heard that there may be many life-extending elixirs in the tomb of Nirvana, and it is possible to obtain the inheritance of Nirvana Tianzun, so I followed it in for a while...

I didn't expect that my luck would be so bad?!"

Gu Shaoyang originally just waited and watched, with no desire to take action, but when he heard the conversation between the two, he was very interested in the information revealed.

So he drew his sword...

The two third-level heavenly warriors in the life and death realm consumed too much of their energy. The wounds that were injured before were constantly being infected by the death energy, and I had a faint feeling that death was coming. With internal and external troubles, death was certain, and I wanted to give up resistance completely, but suddenly at this moment. A sharp sound that ripped through the air. There was a sound in their ears.

The five zombies that besieged them suddenly froze, and then they all exploded, turning into hundreds of corpses of different sizes.

The two of them were stunned. They stared blankly at the death of the zombies. The thick death aura emerging from behind gathered in one direction as if it was being pulled.

Looking up, I saw a slender, handsome, and noble black-robed swordsman looking at them coldly, and said in his mouth: "What are you doing?" The Nirvana Goddess mentioned, and the tomb... what on earth is going on? Give me the door in detail!"

Chapter 337

The two third-level heavenly warriors in the realm of life and death have not yet come to their senses, and froze in place without answering.

The black-robed swordsman snorted lightly and lowered his eyes.

The cold murderous intention slid slowly across the necks of the two of them like the edge of a sword. The two of them suddenly shivered and hurriedly replied respectfully: "I have met you, sir. If you want to ask, we will definitely tell you everything." "

Gu Shaoyang repeated the previous question.

One of the warriors was surprised: "Don't you know?"

Just a few days ago, a wave of death energy broke out in the center of the Sea of Annihilation...."

"Dead air tide?!"

Gu Shaoyang frowned slightly.

The warrior explained: "For a few months every year in the Sea of Annihilation, the death energy surges to more than two to three times the usual level. We call it an explosion of death energy tide, but this year it has clearly exploded. I experienced a wave of death energy once, but I didn't expect it to come again..."

Moreover, "990" also brought out the legendary tomb of the Lord of Annihilation..."

"What is the tomb of Lord Nirvana? Gu

Shaoyang asked.

The warrior smiled bitterly and said, "I heard that too." It is said that the Nirvana Heavenly Lord is an immortal powerhouse in the Divine Sovereign Realm, and he has discovered the mystery between life and death.

Ordinary powerful people in the Divine Sovereign Realm can only survive for a maximum of 100,000 years, but the Nirvana Heavenly Lord has a vitality of 150,000 years. For many years, he is said to be the longest-lived divine king in history....

After his death, he was buried in the Sea of Annihilation. Some people say that the Sea of Annihilation was derived from the death energy leaked from the body of the Lord of Annihilation after his death. No one knows whether it is true or not..."

Gu Shaoyang's eyes flashed and he suddenly said:"Do many people know this news?"

"certainly. The warrior nodded and said:"The tomb of the Lord of Nirvana appeared half a month ago. After the news came out, many people came here one after another." Because everyone is spreading the word that if the Lord of Annihilation can live for such a long time, he will definitely leave behind many life-extending elixirs or secret methods, so many veteran powerful people in the realm of life and death have come out of seclusion....

There are also geniuses on the life and death list. It is said that there are several young giants who are at the forefront of the life and death list."

As he said this, the warrior secretly glanced at Gu Shaoyang.

In his heart, Gu Shaoyang should be the proud man on the life and death list. Just now, Gu Shaoyang killed three people in the second level of life and death realm and two people in the fourth level of life and death realm with one sword. He could still clearly see the power of the walking corpse.

It was too terrifying!

Gu Shaoyang narrowed his eyes slightly.

The tomb of the God Lord, the God Lord level opportunity, it would be a lie to say that he is not attracted by it.

Even if he cannot get the inheritance of the Nirvana Lord, he can get a few life extensions. Spiritual elixirs are also an excellent thing.

No one in this world can live forever, and the same goes for the gods.

The lifespan of a king-level powerhouse does not exceed three years, and the lifespan of a god-level powerhouse does not exceed one hundred thousand years.

This is the law of the Great Dao, and no one can defy it..Who doesn't want to stay in the world and live for a few more years

? Especially for those warriors who are trapped in a certain realm for a long time and cannot break through, life span represents the hope of further martial arts.

Therefore, it is necessary for him to kick the tomb of the Nirvana Lord , and also have the opportunity to see the style of the veteran life and death realm powerhouses and giants at the top of the life and death rankings.

"okay, I get it."

Gu Shaoyang spoke calmly, without saying anything else to the two of them, and disappeared into the air in a flash.

After Gu Shaoyang's figure disappeared for a long time, the two life and death warriors breathed a long sigh of relief and relaxed from their tense state.

"This man is so terrible. When I stood in front of him, it was as if there were countless swords pressed tightly against my eyebrows and heart, as if I would die with just one look from him!"

"Yes, it is even more stressful than the powerful people in the seventh and eighth realms of life and death we have encountered before!"

"Haven't you noticed that his body is absorbing the death energy around him all the time? Most people are afraid of being corroded by death energy when they come in, but he doesn't care at all and actively absorbs it..."

This is because his body is so powerful that it reaches an extremely terrifying level, and he needs the help of external death energy to break through.

Only those talented people with extremely strong foundations who can't even do anything to them in the realm of life and death would do this..."

"How terrifying!"

The two people sighed with emotion:"The tomb of the Lord of Nirvana has appeared in the world. I don't know how many geniuses and monsters in the realm of life and death have poured into the Nirvana Sea now, as well as veteran strong men. It is destined to be a fight between dragons and tigers."

"Then shall we go in?"

"not going."

The warrior shook his head, looked at the messy corpses on the ground, and said:"I only have one life, and I don't want to become like them. After death, I can only become a walking corpse, and I can't even save the whole corpse."

"yes."

The other person nodded with lingering fear.

The two made up their minds and hurried towards the outskirts of the Sea of Annihilation without any hesitation.....

According to the directions provided by the two men, Gu Shaoyang flew straight towards the center of the Sea of Annihilation.

While flying, he absorbed the death energy from the sea of annihilation without any scruples.

Gu Shaoyang's energy smoke rising into the sky, as well as the surging energy and blood like the sun in a furnace, were as conspicuous in the sea of annihilation as fireflies in the dark night.

The huge sound of breaking through the air and the shocking physical phenomena caused by the flyby attracted the attention of many demon corpses, and many demon corpses followed Gu Shaoyang closely...

In the sea of nirvana, several warriors of the third and fifth realms of life and death were cautiously
On the way.

While using their Yuan Power to protect themselves from the death aura, they also carefully paid attention to the movements around them to guard against the zombies and zombies that might jump out at any time.

"You should be careful to restrain your own vitality, and don't attract any more zombies of warriors. Before entering the tomb of the Nirvana Lord, you still need to conserve your strength."

A middle-aged man with the highest cultivation level, who has reached the fifth level of life and death realm, gave serious instructions to several young disciples around him.

Among them, the only young girl whose cultivation level was only the first level of life and death realm couldn't help but said with lingering fear:"Before I came here, I thought that there was no danger in the Sea of Nirvana except for the ubiquitous death energy. I didn't expect that there were so many walking zombies... The sneak attack by the zombies in the Life and Death Realm just now, if you hadn't been here, Master, We might all be seriously injured..."

The middle-aged man smiled and said:"Since you know the danger, just stay calm. The Sea of Nirvana is no better than Sect 3.9. There are murderous intentions hidden everywhere here..."

The girl smiled and said:"It doesn't matter. Master, you are here. How can these dangers be considered dangers?" The middle-aged man became serious.

"I can protect you now, but I may not be able to protect you when you enter the tomb of the Nirvana Emperor.

This time the emergence of the Tianzun's tomb has attracted many top powerhouses in the realm of life and death, not to mention those who have been famous for a long time. Even many of the veteran experts in the realm of life and death, and even the younger generation, cannot match me.

The girl said in disbelief: "Master, your words are too exaggerated. Are you a strong person in the fifth level of life and death?"!

"exaggerate?!"

The middle-aged man sneered and was about to explain.

At this moment, a huge sound broke through the air in the distance, causing them to look in that direction.

Chapter 338

I saw a ray of light flying past not far away, dragging a long trajectory in the gray fog.

The momentum of the escape light was already extremely astonishing, but what was even more astonishing was that behind the escape light, dozens of demonic zombies followed closely, chasing after them like a group of flies that smelled a fishy smell.

Just when several people were surprised, the light suddenly dispersed, revealing a slender and handsome young figure.

The man stopped, turned around, and faced dozens of life-and-death monsters and zombies chasing after him.

What does he want to do?

Several people looked stunned.

The next moment, a sword light suddenly appeared in the young man's hand, slashing towards the walking corpse behind him.

The huge sword light, with a terrifying aura that tears everything apart and cuts everything, completely penetrated the thousands of feet of void in front of the young man.

A dark crack appeared in the void.

Immediately afterwards, the dozens of demon zombie statues following the young man were cast into immobilizing spells and suddenly stood still.

After a few breaths, a slender crack appeared on all the zombie corpses, and they were divided into two equal parts. They fell to the ground, dead and unable to die.

Large areas of rich death aura emerged from the corpse and turned into a thick gray pillar of air, which was swallowed by the young man's mouth.

After doing all this, the young man turned around expressionlessly, as if he had just done an extremely trivial thing, and continued to fly away in the form of escaping light.

"this.."

The onlookers were all stunned and dumbfounded by watching the 13 movies. They were stunned in place for a long time and could not come back to their senses.

"How can this be?!"

The girl among them screamed in disbelief, her expression as if she had seen a ghost.

"Among those walking corpses, there were still people from the fifth and sixth realms of life and death... Just like that, they were all killed by that man's sword?!"

It looks easier and simpler than killing a chicken.

The rest of the people's faces are also full of shock and horror.

The man just now is not only ridiculously strong, but the most important thing is that he looks terrifyingly young, and seems to be younger than a few of them!"

The middle-aged man smiled bitterly and said, "Do you still think what I said is exaggerated? Those who are at the forefront of the life and death list, the leaders of the younger generation, their fighting power is beyond your imagination...."

"So, remember my words, you must be careful and careful on this trip. Otherwise, if something happens, I may not be able to protect you...."

Several young disciples were confused and nodded mechanically, but all they could think of was the grace of the sword wielded by the handsome young man just now....

Gu Shaoyang would stop every once in a while to kill the demon corpses and walking corpses that followed behind him.

He found that his way of swaggering through the market was not bad. It saved him the effort of looking for the walking corpses. They would come forward and let him harvest the death energy.

Of course, Gu Shaoyang's abnormal strength could act so wantonly, and ordinary people would have died countless times.

When the gray arch connecting the sky and the earth appeared in front of Gu Shaoyang's eyes, there were already no less than a hundred walking corpses dead in his hands.

Most of them are at the first or second level of the life and death realm, so they are not too strong.

Gu Shaoyang also absorbed extremely terrifying death energy, and the ratio of vitality and death energy in his body reached three to seven.

As long as he absorbs another part of the death energy, he can successfully trigger the death calamity and advance to the sixth level of the realm of life and death.

The death energy in his body covered up Gu Shaoyang's vitality and blood like the sun in a furnace. Gu Shaoyang's whole temperament also became gloomy and cold. He exuded an indifferent murderous intention, making people afraid to approach him.

"This is the tomb of the Lord of Annihilation."

Gu Shaoyang looked at the huge arch in front of him and waited for a while. The warrior of the fifth heaven of death looked at him with fear, and then hurriedly entered the light door.

Gu Shaoyang was determined in his heart, so he no longer hesitated. , also ducked into the light door.

After a brief absence, Gu Shaoyang's eyes were slightly surprised.

There was no lifeless scene as expected, but instead a beautiful scene of a herb growing and flying orioles.

"wrong!"

Gu Shaoyang suddenly frowned.

He noticed a faint strange atmosphere in this peaceful and beautiful place.

Although there was a vibrant scene in front of him, the swaying flowers and plants, and the running birds and beasts were not alive at all.

They were like puppets made of flesh and blood. Average.

Gu Shaoyang looked intently and saw a scene full of attribute bubbles in front of his eyes.

"Vitality*133"

"Vitality*234"

"Death Qi*248"

The attribute bubbles of life and death Qi are scattered all over the place.

"Life is mixed with death... such a weird place..."

Gu Shaoyang held Qixing Longyuan's sword hilt tightly and walked forward slowly.

Not long after, a figure appeared in front of him.

It was the warrior from the fifth level of the life and death realm who came in before him.

"Haha, it turned out to be a hundred-year-old longevity fruit. It was indeed the tomb of the Lord of Annihilation. I encountered such a good thing as soon as I entered!"

Gu Shaoyang saw the warrior standing in front of a short tree with an ecstatic expression on his face.

The tree looked like it was carved from the finest jade. On the top of the tree hung a fist-sized tree with ten golden lines. Peach-shaped fruit.

The fruit exudes an extremely attractive aroma, is plump and tender, and makes people salivate.

The warrior also noticed Gu Shaoyang's arrival, and a trace of nervousness flashed across his face, as if he was afraid that Gu Shaoyang would come forward to snatch him, so he hurriedly stretched out his hand towards Grabbing the fruit.

A cold light flashed in Gu Shaoyang's eyes, and he subconsciously wanted to draw the sword.

How could he let anyone take advantage of the opportunity?

But at the moment when he was about to draw the sword, he stopped again.

He saw that the warrior's hand had just touched When it came to the longevity fruit, thick black water suddenly appeared on the fruit.

This black water was like maggots attached to the bones. Once it got on the hands of the warrior, it could not be shaken off, and it quickly spread to his whole body, covering his entire body. pack

"What the hell?! What's this?!"

The warrior shouted in shock and anger.

The next moment, a surge of death energy emerged from his body, covering his entire body.

"Death calamity, how could my death calamity come at this time?! No!.."

This warrior at the fifth level of the life and death realm screamed in horror. In just a few breaths, he was completely swallowed up by the death energy and turned into a lifeless corpse.

Gu Shaoyang frowned when he saw it, what a domineering power!

This black water is somewhat similar to the Nine Netherworld Water, but it is not as cold and bone-chilling as the Nine Netherworld Water. It is just the concentration of pure death energy.

If a warrior in the life and death realm wants to survive the calamity of death, he needs to generate vitality in his body to an extremely strong level, so that he can withstand the extremely surging tide of death energy during the calamity of death.

All the warriors who fell under the calamity of death were eroded to death by the death energy because their own vitality was not polished enough and 933 could not be reincarnated from the dead.

A warrior at the fifth level of the life and death realm just touched the black water a little, and was forcibly induced to die. What on earth is this black water?

The light in Gu Shaoyang's eyes was flickering. On the small jade tree, the plump fruit was still hanging quietly, exuding great attraction, as if the horrible things he had done before were not because of it.

Finally, Gu Shaoyang took a deep breath, walked to the small tree, and resolutely reached out to grab the fruit.

Like the warrior who died before, the same black water appeared and quickly climbed up Gu Shaoyang's body.

Gu Shaoyang felt a strong death aura, which seemed to contain a trace of life.

It was such a strange mixture of life and death that actually caused the death energy in his body to stir up, and there were signs of a death disaster breaking out in advance.

Of course, Gu Shaoyang would not rashly trigger a fatal disaster in such a situation, and hurriedly shouted:

"Extract attributes!"

Large streams of black water flowed out of the Shou Yuan Fruit and were absorbed by Gu Shaoyang.

The golden lines on the Shou Yuan Fruit also decreased rapidly.

When the ten golden lines were reduced to only one, the black water finally stopped emerging. , Gu Shaoyang opened his eyes suddenly, the light in his eyes flickered, as bright as stars

"I see!"

Gu Shaoyang looked at the longevity fruit with only a golden pattern left in front of him, and said in a low voice:"Between life and death, vitality and death energy change each other. Extreme life can increase longevity, extreme death can destroy everything.

He is worthy of being a god-level figure, and he actually comprehends the two powers of life and death to such an astonishing level!"

Chapter 339

Gu Shaoyang picked off the longevity fruit in front of him.

Shouyuan fruit that is more than ten years old has gold veins, and those that are less than ten years old have silver veins.

The one in Gu Shaoyang's hand only had a golden streak, proving that it was just a ten-year-old longevity fruit.

The appearance of the previous hundred years was actually disguised by the power hidden in the longevity fruit.

This is what Gu Shaoyang was amazed by.

That power can actually switch between life and death at will.

This is like turning water into fire, and turning fire into water... No, it is more than ten thousand times more difficult than turning water into fire.

This is the power that truly reverses life and death

"No wonder Nirvana Tianzun can extend his life for a full fifty thousand years. I even suspect that he did not die at the end of his life span, but died midway due to other reasons..."

Gu Shaoyang couldn't help but sigh.

At the same time, his interest in the tomb of the Lord of Annihilation became even more intense.

The third form of the Solitary Kendo: Reincarnation of Life and Death explains the mystery of the cycle of life and death.

But with Gu Shaoyang's understanding, until now So far, I have only gained a rudimentary understanding, and there is still a large amount of ignorance.

It would be great if we could find some inspiration from the remaining power of the Nirvana Lord to complete the "Reincarnation of Life and Death" sword.

Gu Shaoyang carefully stored the ten-year longevity fruit in a jade box.

The longevity fruit is an extremely special spiritual fruit. Each person can only eat one longevity fruit in each year. Eating it repeatedly has no effect.

But this rule is not valid for Gu Shaoyang.

Gu Shaoyang has already checked and found that bubbles with the "Shou Yuan" attribute are also generated on the longevity fruit.

If he does not take the fruit, but chooses to directly extract the "Shouyuan" attribute fusion, although part of the medicinal effect will be lost, the same Shouyuan fruit can be extracted unlimitedly

"Moreover, I can also give this longevity attribute to others, which is equivalent to having the ability to extend people's life in disguise...."

Gu Shaoyang has an almost unlimited lifespan, of course, this is on the premise of having enough longevity fruits.

He took off the spirit storage ring from the warrior who had just fallen to death, and then continued walking in the valley.

The valley was not big, and Gu Shaoyang saw many Shouyuan fruit trees. In front of the trees, there were basically one or a few warriors who were covered in gray and lifeless energy and had been dead for a long time.

Some of the Shouyuan fruit trees still have fruits, while others have been picked away.

With the ability to extract attributes, Gu Shaoyang was not afraid of the weird black water at all and took a few more longevity fruits.

There are ten-year-olds, seventy-eight-year-olds, ten-year-olds... the highest one is thirty-year-old.

The value of a ten-year-old longevity fruit is tens of thousands of top-quality yuan stones, let alone one that is thirty years old.

No wonder so many people flock to the tomb of the Nirvana Lord. These longevity fruits are enough to drive countless people crazy.

It's just that there are not many people who fall unexpectedly in the realm of life and death.

Martial arts is so cruel, it's like sailing against the current. If it's not heavy enough, the boat will be destroyed and everyone will be killed.

Gu Shaoyang quickly left the valley and saw a huge bronze hall.

The door of the bronze hall is open, and the copper pillars on both sides are engraved with mottled patina and various patterns, giving people an ancient and vast feeling.

Gu Shaoyang walked into the main hall. The floor was also made of bronze. The dark and gloomy main hall made people feel depressed.

Gu Shaoyang saw a closed room, his eyes narrowed, and he walked up and gently opened the door.

The moment the door opened, two figures inside instantly opened their eyes, radiating cold light.

Two fierce attacks, one up and one down, arrived in front of Gu Shaoyang in an instant.

Gu Shaoyang's expression remained unchanged, and he struck out with a sword in the blink of an eye.

"Uh-huh!"

Sheathing the sword, the siege has been broken, but Gu Shaoyang can't help but frown slightly. The sword he just struck was aimed at the chests, throats and other vital parts of the two figures, but it was blunt when cutting. The astringent feeling didn't seem to be flesh and blood.

Sure enough, lying quietly on the ground were two lifeless puppets.

I don't know what material they were made of. Except for the slender and well-proportioned bodies, their faces were even basic. There were no facial features.

Gu Shaoyang saw a puppet whose chest was cut open by him. On its left and right chests were a shining crystal and a living heart.

"The vitality contained in such a top-grade Yuan Stone is at least a hundred times that of an ordinary top-grade Yuan Stone! Moreover, it seems to have been made the day after tomorrow..."

Gu Shaoyang was slightly surprised when he picked up the crystal, put it in the Spirit Storage Ring, and then looked at the other heart.

It seems to be the heart of a monster, but it has been destroyed by the sword energy of Gu Shaoyang's sword just now, and it is impossible to identify what kind of monster it is.

"Judging from the styles of these two puppets, they are at least tens of thousands of years old. For such a long time, the heart of an ordinary monster can still remain active, allowing the puppet to move, bursting out with strength that is not inferior to the realm of life and death. The Lord of Nirvana is really terrible..."

Gu Shaoyang was extremely curious about how the Lord of Nirvana could do this, but no matter how he probed the puppet, he could only find the most common attributes of "vital energy", "vitality" and "death energy" in him, and there was no special power at all.

"This is already a power beyond the level that I can understand now, right?...It's like a junior high school or high school student studying college courses by himself. The basic knowledge is common, but it is still extremely difficult to understand..."

Gu Shaoyang sighed, put away the two puppet crystals, and then looked at the small room carefully.

I found two things placed in the center of the room.

A long knife and a jade charm were covered with dust.

Gu Shaoyang waved his big sleeve, and his Yuanli drum cleared away the dust. The long sword suddenly emitted a crimson glow. It was a low-grade fire-attributed sword at the heaven level.

He picked up the jade talisman again and looked into it with his mind. It contained a sword technique that was also of the same low-grade heaven level.—《"Great Sun Furnace Sword Technique"》.

It seems that the knife and the knife skills are matched together.

Gu Shaoyang put away the two things and walked out of the room immediately.

Continue searching the hall.

The main hall is extremely vast, with winding passages and countless rooms.

".~Shua!"

Gu Shaoyang killed two puppets with one sword again. After searching, he also found a long knife and a jade talisman this time.

Except (Zhao's Zhao) this time the knife was blue and exuded a trace of ice. The cold energy and the sword technique are also the "Three Waves of Black Ice Sword Technique".

Gu Shaoyang held the jade talisman, his mind gradually retracted, but his eyes flashed.

He seemed to have caught something, but he was not sure.

Gu Shaoyang left the room and continued to search the library.

Immediately after, he opened several more rooms, some of which had been quickly entered by others, leaving only a mess in the room. The remaining Gu Shaoyang swept over and found that the weapons and techniques he obtained were all of water and fire attributes. There were no The same other attributes.

Could it be said that this implies that the Annihilation Tianzun's understanding of the power of life and death also starts from the power of water and fire?

Gu Shaoyang is not sure, and no longer continues to search the room.

This is only the first floor of the hall, and the things hidden there are also It's not precious. The things that are truly cherished are deeper.

So he didn't see anyone else at all. I think those people were going deep into it non-stop.

Gu Shaoyang also hurriedly followed....

Chapter 340

On the second floor of the main hall, the puppet's strength has become much stronger.

Generally speaking, they are at the third level of the life and death realm, and there are even puppets at the fourth or even fifth level of the life and death realm.

Gu Shaoyang slashed out with his sword, and the middle parts of the two puppets' bodies were cut open, just like cutting leeks.

"Um?"

Gu Shaoyang suddenly felt a little surprised.

He saw two puppets lying on the ground, and one of them was leaking a viscous liquid similar to blood.

Gu Shaoyang used his sword to push away the bodies of the two puppets and discovered:"The stronger the strength, the stronger the strength. The more flesh and blood parts there are in the body, this puppet of the fifth level of life and death has not only a heart, but also the rest of the internal organs....

If you continue like this, will you meet a living person later?!"

There was a trace of horror in Gu Shaoyang's eyes.

Giving life to dead things, Nirvana Heavenly Lord has not reached this level, right?

He doesn't know.

This time the two puppets are no longer guarding treasures and martial arts, but A small jade vase.

When Gu Shaoyang opened the jade vase, a breath of fresh air suddenly hit his face.

"Shouyuan*7"

Seven-year life-extending pill?!

Gu Shaoyang looked happy.

No, it should be a ten-year life-extending pill, but part of the medicinal power has been lost.

The life-extending pill is more precious than the longevity fruit.

Because the longevity fruit of the same year is An individual can only eat it once, but there is no such requirement for the longevity pill.

Therefore, the value of the longevity pill of the same year is often more than twice that of the longevity fruit.

Gu 470 Shaoyang poured out the longevity pill and put it in a new jade bottle. Prevent its potency from continuing to drain, and then search other rooms

"Anyone?!"

Gu Shaoyang appeared at the door of a room and found that there were only fragments of the puppet inside. It was empty. Someone had obviously come to search once.

Gu Shaoyang frowned slightly and did not think much about changing rooms to continue searching.

Not long after, he heard a sound from the front. It came over that someone seemed to be fighting in front.

Gu Shaoyang's eyes flashed and he quickly approached....

"Wei Lingcun, are you really trying to rob me again this time?!"

There was a loud shout of shock and anger, and someone laughed.

"Shen Tu Lin, everything in this hall is ownerless and only those with strength can live there. As for whether to snatch it or not, if you have the ability, just snatch this fifty-year life-extending pill from my hand!"

"asshole!"

The two figures fought fiercely together, playing ping-pong-pong-pong for a while, and then quickly separated.

One of them was wearing a blue robe, with an indignant look on his face, and the other was in a gray robe, playing with a small jade bottle in his hand, with an arrogant face. Proud arrogance.

Both of them exuded the aura belonging to the sixth level of the realm of life and death.

The young man in blue robe, who was called Shen Tu Lin, gnashed his teeth with hatred. He and Wei Lingcong were old enemies. This time they entered the hall. They met each other. Originally, they were looking for their own opportunities.

But he didn't expect that he had just found a bottle of fifty pills and before he could be happy.

The Wei Lingcoff suddenly jumped out and attacked him.

Although he reacted in time He came over uninjured, but the longevity pill was accidentally taken away by him, which made Shentu Lin's teeth itch with anger.

"Wei Lingcoffin, if you let go today, I will fight you till death! Shen

Tulin said bitterly.

Wei Lingcong showed a trace of disdain on his face and said, "Am I still afraid of you?" It just so happens that you are one place behind me on the life and death list, ranked twenty-sixth. Aren't you always very unconvinced?

Today, I will beat you until you are convinced!"

"Arrogant!"

Shen Tulin shouted loudly, and the two were about to fight again.

At this moment, a rapid sound suddenly sounded in the hall, as if someone was rushing towards this direction.

Both of them looked surprised and agreed. Stop what you are doing.

If others take advantage of you during the fight, that is not what they want to see.

The voice of Lukong quickly came to the front, a handsome man with a slender figure, a face like a bright moon, and a cold and indifferent air exuded from his body. The young man appeared in the eyes of the two people.

He was a fifth-level person in the realm of life and death. His appearance was very unfamiliar, and he did not seem to be a person on the life and death list.

The expressions of the two people suddenly softened a little.

It stands to reason that a fifth-level person in the realm of life and death suddenly looked at In front of two strong men from the sixth level of life and death realm, not to mention being scared, at least he would be shocked.

But this handsome young man with a cold temperament was not surprised when he saw the two of them. He glanced at the two of them casually. It fell on the jade bottle in the hand of Wei Lingcoffin.

There was a flash of light in his eyes, and the corners of his mouth were curved.

"Fifty-year life extension pill? good!"

Wei Lingcun and Shentu Lin were both shocked.

How did this young man know that what they were fighting for was the fifty-year life-extending pill? Did he hear the conversation between them before?!

Just when they were confused, they suddenly saw the handsome young man looking straight at him. Wei Lingcoff rushed over, aiming straight for the longevity pill in his hand.

The two of them were stunned for a moment.

He...How dare?!

Wei Lingcoff laughed angrily and said angrily:"You are a small person in the fifth level of life and death. I didn't bother you, but you still dare to trouble me?!

Looking for death!"

With that, Wei Lingcoff exploded. With a drink, billowing vitality burst out from his hands.

The vitality condensed into a gray-white coffin-like existence in the void, exuding overwhelming power and crushing towards the handsome young man.

"Disgracefully dressed!"

The eyelids of Shen Tulin twitching when he saw it, Wei Lingcun's move was launched with all his strength. Normal warriors at the sixth level of life and death realm would not be able to catch it, let alone this little fifth level of life and death realm.

It seems that Wei Lingcoff was really angry and wanted to kill him.

But in the face of this blow that shook the void, the handsome young man's expression remained unchanged and his steps did not stop at all.

His hand gently rested on the hilt of the sword at his waist, and he drew the sword..The next moment, a terrifying sword light that tore everything apart and cut everything suddenly appeared in the bronze hall.

"boom!"

The gray-white coffin that Wei Lingcun shot out exploded directly with the sword light, and then the sword force did not decrease and struck Wei Lingcun's chest fiercely.

Wei Lingcun's body flew out like a cannonball and fell heavily to the ground.

Shen Tulin He was stunned.

Wei Lingcun was also stunned. The shock was even greater than the bursts of tearing pain that came from his body.

He struck with all his strength... and was actually killed by a sword from a person in the fifth level of life and death. ?!

It's like a dream

"What a terrifying sword!"

Shentu Lin was still frightened, and his eyes were full of emotion.

The moment the sword appeared, even if he was just watching, he felt as if his body was torn to pieces.

After the handsome young man slashed out the sword, he walked up gently and deftly, Picking up the small jade bottle containing the fifty-year life-extending pill that Wei Lingcun had left on the ground.

Wei Lingcun's pupils shrank, and a trace of physical pain flashed in his eyes. He even forgot about fear for a moment and shouted angrily: "You dare to rob me, Wei Lingcun?!"

The handsome young man was stunned for a moment, then looked at him coldly and said: "The treasures of heaven and earth are for those with strength. If there is anything you can't snatch, I will kill you with one sword if you keep nagging!"

The icy-cold killing intent stimulated Wei Lingcun to shiver subconsciously.

He suddenly remembered that just a few dozen breaths ago, he had said the same thing to Shen Tulin.

As a result, now the situation has turned, and it is his turn to be treated like this. so humiliated...

Wei Lingcun's face turned blue and white, and he was so ashamed and angry that he almost fainted.
