

Attributes 601

Chapter 601

Of course, this corresponds to the most unstable situation for them, and the speed of Gu Shaoyang's shot is probably beyond their consideration.

So I also understood some aspects of what to do next. Instead of causing some other troubles by then, it would be better to deal with these things directly before then.

The current situation allowed me to see an extraordinary picture. Generally speaking, it was just the difference between these few things.

So I have a taste of what to do. Instead of constantly hesitating at this time, it is better to give it a try.

I went to Medusa's territory to see what could be there, and at this moment I was a little overwhelmed.

After all, the large-scale situation here completely caught me off guard, and what I did now was no longer what I asked for, but it was a change here.

And when I arrived at their territory, I also saw some changes in the surroundings. It seemed that if I didn't do something this time, I would still want to escape unscathed.

It's probably not that simple anymore, but at this moment, I can see clearly the changes happening around me, if I guessed correctly.

It is very possible that I can enter it at this time and solve these things, but some of the current things may not be solved by myself.

Especially in the current state, I can better understand some aspects in my mind. After all, with a high probability, I am completely caught off guard.

"Please show your token."

Gu Shaoyang calmly took out this thing from the space ring, and then the person in front of him looked at him strangely, not knowing what he was thinking.

But Gu Shaoyang in front of him did not have any faults. On the contrary, he looked at this The place looked at him quietly, as if no matter what choice he had.

He would not have done anything else, which caught the people in front of him off guard, but he also thought of things that should be considered.

As for the answer What to do next is not of much relevance. After all, the corresponding things have already shown some unnecessary troubles. But

I still have other aspects to consider, and maybe I may not be able to adopt these plans at this time. But you can't hesitate to do what you should do.

Otherwise, it will cause some unnecessary trouble. It seems that it is precisely because of the space ring on your hand that it attracted some attention from the people around you.

So next, you must avoid this. This thing happened again, otherwise it might cause some unnecessary things, and correspondingly, I also saw several directions next to it.

"This passage seems to be where you can see the Queen, right?"

The person in front of him nodded, and then he didn't forget to guide him thoughtfully. It seems that the tokens of those two people are quite easy to use. It is probably a useful thing. After all, I will understand what happens next. When it comes to some methods and aspects that should be taken into consideration, I have already seen clearly.

As for what to do next, it is not something I can solve in a few sentences. After all, I have already understood some aspects of what should be done. As for what to do next, I can't solve it in a few sentences. What kind of changes will happen here next depends on whether they will cause any unnecessary trouble. After all, I have already said what I need to consider. As for what they think in this direction, it has nothing to do with them.. On the contrary, after he left, everyone here was looking over there. Although they didn't know what they were looking at, the people in front of them were still walking very fiercely. It seemed that they didn't look up, because they didn't change. What to say again, this moment is really a bit surprising.

I didn't expect that the protection on this side of the Medusa base would be so loose, as if it was an organization without order, but at this time I can't speak rashly.

Otherwise, I'll cause some other disasters here. After all, I can see things clearly now. I can't cause some other troubles here just because of my few words. In the end, it will be A rare picture, but correspondingly, I must also ensure that the step I take proactively at this time can have some other solutions and solutions.

"I also learned part of what happened this time. Their large-scale intrusion does not mean that they are heading towards the desert. As long as they do not rush to the door of the house, they can do whatever they want to do, so as not to distract our strength here.."

Hearing these words, I gradually began to take a look inside. Unexpectedly, I saw Medusa just now. As expected, she is as beautiful as her name suggests, but I heard she has a very hot heart.

Chapter 602

Moreover, he had also heard that any man who looked at him would turn into a stone under his gaze, so Gu Shaoyang just shook his head.

She didn't have much interest in him. She turned around and disappeared from her eyes. Medusa also noticed that there was an inexplicable aura around her.

It seemed that it was coming towards him, but now he couldn't guarantee that these things would go smoothly, so he just waved his hand to the person next to him to get down, and by the way told him to recast the defenses here.

"Remember, all defenses, whether inside or outside, must be doubled to avoid other troublesome situations."

Hearing these words, the person in front of him nodded and said nothing more. He should have listened to his own words, but at this time he also thought of some other things.

Why didn't he consider these things before ? What about this aspect? Could it be that I have a superfluous imagination? At this moment, I only most likely checked the surrounding area.

As for whether it will trigger some other things, it has little to do with me. , and correspondingly Gu Shaoyang also realized a special situation here.

No one around would come here, and it is not completely sealed. It seems that entry should be prohibited. The more such a place, the more The more it can arouse Gu Shaoyang's interest.

So at this time, he looked at the people around him carefully and found that no one was looking at him, so he jumped in directly

"Queen Medusa just issued an order to send troops to guard both inside and outside or in any corner. You will be responsible for this position today, and someone will come to replace you in a while."

Then the voice disappeared in front of him. Gu Shaoyang smiled first, and then looked outside. It was really beyond his expectation.

After all, he had a rough idea of what he should do before. , but I didn't expect all this to happen so quickly.

However, they were patrolling outside, but they had nothing to do with me. Now I can go up, seize the time, and solve these things directly here.

Then go out to meet them, but In fact, Dusha has always had a question in her heart, who is that figure just now and why is it constantly wandering around at this time.

If she cannot find her true identity, it is very likely to bring about a change for herself, so at this moment, Mei Dusha packed up her things and went to the area where she got up.

In fact, there was a sealed energy in it, because she didn't have the ability to swallow it and get its own energy yet.

So what she always thought about was to avoid it. After passing this level, let's see if there can be some other changes that can give me the opportunity to absorb this energy.

But unfortunately there is nothing. What falls into my hands is only empty air and guarding this energy for many years. , but there was no change.

I don't know what will happen at this time, but for Gu Shaoyang, the Seven-Star Longyuan in his hand has begun to tremble with excitement. It seems that this time is his chance to get straight to the point and go straight to the topic..

I couldn't find everything that was inherited just now, but there must be something good in the place that was sealed at this time. There was only a pool of lake water here that I could dive into.

So Gu Shaoyang put away the Seven-Star Longyuan in his hand without hesitation. Cover your nose and cut it in directly. I have to say that the bottom is completely layered.

And I also found some pillar-like things in each corner. It seems that these sky pillars should be It is used to block this position.

Although I don't know what help the other party will use by enabling this thing at this time, it is undoubtedly a good thing at the moment. Generally speaking, I should not consider so many unrealistic things.

But here it is What is the seal? It allows them to have such a method of exploring. After all, in the next process, I also guessed some situations. Now that I can consider it, others can definitely do it. So at such a critical moment , I have understood something. Instead of experiencing a passive state by then, it is better for me to take a direct look now and see if there are any redundant aspects.

After all, each way of thinking is different, maybe this is It was most difficult for me to put myself in someone else's shoes before, but the purpose is not that simple.

Could it be that they were the ones who photographed the men in black and white? Now I have only considered it with a high probability, but I have not made up my mind..After all, he is completely alone in this situation. Once some other disasters are caused, he will be unprepared, and Gu Shaoyang can also predict some other troubles he will cause later.

Chapter 603

After all, just thinking about it, you know that this is Medusa's territory. If you do something beyond your control, the other party will immediately destroy you here.

As for the subsequent events, it goes without saying that they will all come to naught, but after all, it is difficult to budget for the current situation.

Perhaps the changes that Medusa caused to him in this place were not limited to the scene before him. It could even be said that what Gu Shaoyang guessed at this time was just his preliminary thoughts.

Perhaps based on some of the things he does later, he can understand what treasures he has hidden here. Things that have never been seen are usually the most useful.

What's more, it belongs to Medusa. After all, I don't know the whereabouts of the snake people, and their living habits are very different from mine. If I can make friends with him, it will definitely be a good thing, but I'm afraid I'm afraid it will cause some other troubles.

And in Medusa's base, I undoubtedly noticed some other directions. Logically speaking, it cannot be the only social animal in the huge desert.

So next, I was trying to determine what dangerous factors there were nearby. After all, I knew what I needed to do.

Instead of being hesitant here, why can't I take a look at the excess, and maybe I can even think of some of the excess.

But after hearing the voices from several people around him, he suddenly realized that he should be more careful on Medusa's territory.

These snake people have a very keen sense of smell and can even find their hiding places at this time. If this happens too many times.

That will bring some other disturbances to yourself, so at this moment, I definitely don't want to see these things. Instead, I want to make everything return to peace, but I don't seem to be hesitating about what to do. range

"I believe you should be clearer about this matter than I am."

"I know what kind of secrets this closed place holds, but have you ever thought that if you keep hiding it like this, they may become more curious."

Hearing these words, the voice that seemed to be Medusa's came. It turned out that they had always wanted to change the weather in this place and restore tranquility to this forbidden area.

Don't let anyone disturb his peace. Gu Shaoyang in front of him couldn't help but feel Some feelings of curiosity emerged. The more they tried to hide it, it meant there must be a big secret here.

As for what was in it, he still had to explore slowly. The other party showed no signs of it with a poker face. He turned around and walked in without hesitation.

But who knew that the person behind him said something more useful at this time, but he didn't hear a word. At this time, everyone in front of him was hesitating whether to do this, but this At that time, Gu Shaoyang had already left. He entered the desert directly, and some of the scenes that happened nearby also made him feel a little strange. Although this was a closed area, why did the flowers and plants inside seem to be taken care of by someone? , looks very good, and there are even some small animals around, like a new world.

But there is something like a tall tower in the innermost part of this place, and at the top of this tower, it seems to be suspended An egg.

At this time, Gu Shaoyang couldn't help but make Gu Shaoyang a little curious, so when he walked over, he didn't forget to pay attention to the surrounding situation. It can be said that this place is full of dangers.

He even made himself aware of the direction here, which was completely unexpected. It's so simple. If I have to talk nonsense here, then there is no doubt that I hope that the matter in front of me can be solved smoothly, instead of delaying it here, no matter now.

Even if I want to do it, no one will support me. He wanted to complete all this by himself, so Gu Shaoyang was just identifying the direction in front of him.

He hoped to know where he was approaching from such a closed environment. After all, the vicinity was completely an uncertain factor. If he suddenly started to distort, He changed himself to another position.

Then he was caught off guard. Instead of being passive, he took the initiative. Moreover, he did not see the men in black and white on the road.

It seemed that they were left outside and They didn't come to the snake people's territory, and they had a special intuition. The two of them felt that they were coming towards them.

If they didn't get a inheritance at this time and couldn't become stronger, I'm afraid they would soon will be enjoyed by the two of them. It is not difficult to see that their real purpose is themselves.

And now this process also makes me realize that no one around me can help me. Only if I am strong here can I avoid all this. Disaster.

Chapter 604

And correspondingly, I also smelled a hint of danger in this high tower. Maybe this is my starting point.

So Gu Shaoyang in front of him walked inside without looking back, still holding Seven Stars in his hand. Long Yuan had to say that at this moment, the murderous intent came from above.

However, Gu Shaoyang's eyes lit up. He didn't expect that the other party would also react to this tower. In this case, it would save more than half of the trouble.

There is no need to hesitate so much at this time. After all, some directions have been thought of in my heart, which have already spread out, but there will be different ways of thinking.

Medusa also entered such an environment at this time. After looking around, you were relieved to find that these things of yours were not lost.

He will come here every time at this time of the month. After all, this is where the snake will shed its skin. After all, as a queen, she cannot just be outside with everyone like this.

And the corresponding layer of skin that has been shed by oneself is of great use, and can even be trained into special silk armor.

So now it seems that Medusa has returned here, but a row of footprints were found on the road, which seems to be not that simple.

It was estimated that someone had gotten in while he was away. When he thought of this, a different look appeared on the face of the person in front of him.

Instead, he walked in angrily at this place, apparently wanting to get evidence from these people, but no one knew where Gu Shaoyang went.

After all, all roads here lead to Rome, and with so many forks in the road, how could every one of them be under Medusa's control? After all, this tower is the place he has always wanted to conquer.

Otherwise, I would not have been hesitating in this place, and correspondingly, I had seen other things. The target event was actually not that strong for me.

It's just that I don't know what to do at this moment. After all, what I can detect at the moment is that I have already taken the initiative and made a judgment.

And the subsequent events gradually let me understand the process. There is a high probability that I will undergo some other hardships here.

But for now, we still need to find the thief first. Who has sneaked into his tower in this place?

However, there was no sign of a living person on the road, but this row of footprints was not far away, as if they were following him.

Realizing this, the person in front of him couldn't help but feel a little annoyed, so he stared at this position closely at this time.

I wanted to see what kind of thing he was capable of doing at this time, but the person in front of him didn't seem to intend to reveal his clues to me.

On the contrary, it was undoubtedly a bit surprising for me to be at a distance that was suddenly far and near. However, in this situation, there was no need for me to say any unnecessary words.

After all, I didn't send anyone to search this place at all. Instead, I was the only one wandering around here, so I knew the current situation very well.

If you have to find a way, it is undoubtedly to start a large-scale search of your own abilities here. Who is that person?

But doing this now will consume more than half of his energy. After all, at this time, I also know in my heart that it is better to see if there are any other ways than to do it at this time.

After all, I don't want to cause any unnecessary things at this moment, but I hope to take other things into consideration.

So I immediately summoned here and cast a few spells. I wanted to see if there was any solution around me at this time, but I found that there was no fluctuation in the nearby air.

In addition to the fact that no one came, that person's strength was higher than his own, and the people in front of him simply didn't believe that such a thing would happen.

So at this time, I was always speculating, hoping to take these aspects into consideration, but the person in front of me didn't have any other experiences, let alone guess some of his actions here.

It seems that Medusa should know some of his abilities at this time, but at this time, even she can't provide anything extra.

After all, some plans have been found for what needs to be done. If we have to say something at this time, we might as well do it in this way.

"I really didn't expect anyone to come here this time."

He muttered casually at this place. It seemed that he felt that the matter could be solved smoothly this time, but the person in front of him did not intend to think about it that much.

After all, some of the following things really made him feel a little confused, maybe These are some aspects that I have considered, and correspondingly, I have also seen some of my previous choices during this process.

Chapter 605

After all, in such a huge environment, I know very well what happened? As for the previous matter, it was completely beyond my scope of consideration.

And if I guessed correctly, the target state was what I had considered before, and some things were beyond my expectation.

Most likely, it is clear in my mind, but some of the situations I have considered are beyond my ability to guess.

But Medusa still plunged directly into the tower. After all, this was the only place she could see now.

Although I don't know if this tower has been destroyed by him, it seems to be in a reasonable state at present, although I don't know what changes will follow.

But I won't hesitate about things that should be taken into consideration. After all, the current situation seems to be a reasonable direction for me.

There are just some things that I may not be able to investigate clearly, so this is the reason why I have been hesitant.

But correspondingly, at this time, Medusa saw some other reactions. After all, she was only a few kilometers away from this tower.

But you can see some light on its surface. It's not difficult to figure out that this must be because of something happened before. If you have to make a choice.

There is no doubt that it will cause some unnecessary changes. Maybe I can't think of so many at the moment, but I don't hesitate.

Immediately, he blended directly into this environment. I have to say that when I poked my head in, an unknown message was also emitted from here.

It may be different from what I thought before, but at this moment there is nothing to hesitate about, and I have found some solutions for what I need to do.

It's just that the goal may not be that simple, and I have also guessed some other directions. Generally speaking, these are all what I have guessed.

However, there are some situations that always make me feel a little overwhelmed, so at present, it is still difficult for me to know what I should do and shouldn't do in these aspects.

I can be regarded as giving a direction of control, but I don't know if there will be some other factors involved. After all, I have adopted some methods and some of them I have guessed before, and it is possible that this is what I have considered.

But what should be said has already been done. No matter how much you say, it won't bring you any help. It's better to deal with it slowly here.

Maybe they can find some other solutions, and the state of the target can be regarded as a bright spot for them. Maybe they don't know what they have done, but the person in front of them is different.

I smelled a breath. If I remembered it clearly, then they undoubtedly started from this place at this time.

It's just that the goal is too huge for me. If I insist on saying something superfluous here, it will cause myself a trouble.

And correspondingly, Gu Shaoyang's whereabouts were also exposed at this moment.

"Who is here!"

Hearing these words, Gu Shaoyang also quickly turned around.

However, neither party successfully saw the other's whereabouts, so everyone would not make any extra control here, but the state of the target always made him feel a little Passive.

After all, I know very well in my heart that if I have to probe here and decide to reveal some whereabouts, I will not take advantage of following here.

So once the target state is decided, everyone will know how they should deal with it. , and at this moment, I have also guessed some redundant aspects. The target state may be something I guessed, or it may be the most unpredictable thing.

"I didn't expect there to be other thieves in this place."

Hearing these words, Gu Shaoyang frowned and did not speak. He just tried his best to hide his body in such a small shadow area. After all, no one can take the initiative to speak now, let alone here. What nonsense are you talking about?

So the current state has undoubtedly brought a change to myself. I have also shown a superiority in what I should do and what I should not do, and I can also see some clues accordingly.

Very good. Maybe I am completely passive in this area, so I still know very well what to do. Even if I can't guess, so what, I will still get a good result in the end.

And in such an area, I also realized a different method. If I could find the direction in the tower, then finding this little thief would be within the budget. It was just a matter of time. And correspondingly, I also saw other things. Changes in several people.

Chapter 606

The stars that originally rose here were all on the new disk in front of me. After all, in the desert, I had to take a look at the outside environment.

I will also check the surrounding situation here, but at this moment, I really feel a little strange, why their clues have disappeared, it can even be said that another heart has arisen, this star is very close to me.

It's almost a distance that can't be squeezed. This situation really makes me feel a little incredible. After all, in this current situation, if I have to perform a mandatory action.

Then they definitely can't stop them, but they must still be a little hesitant about what to do in the situation in front of them.

What I am doing now is nothing more than some expectations for others here, and it is impossible for me to understand the target so clearly.

However, Gu Shaoyang didn't pay too much attention to him at this time. Instead, he went straight to the idea of the tower and wanted to see if he could find another way to leave from this place.

After all, there is nothing here. I thought I could find some inheritance, but I didn't expect that I was overthinking it. In fact, there is nothing here.

It can't even bring any changes to myself. This moment is really surprising, but in front of me, I also found some other clues at this time.

The target state is completely different from what I expected before, so I have no intention of dealing with all of this next.

On the contrary, he wanted to include several things around him within this scope, but no one expected that the mastermind behind this would extend his hand so far. It was not just the area where Gu Shaoyang and the others were participating..

Even the position of the top ten living beings has been solved. The current situation is really eye-catching. After all, what I say will definitely not bring changes to others.

So at this time, I have to ensure that I will not be disturbed in such a cyclical process, otherwise it will cause more and more troubles, and even catch me a little off guard.

"I didn't expect you to come to the territory of the snake people. If you are like this, then I definitely can't let you go. Why don't you do the inheritance for me here.

If you can reach my level, you can leave here well and take my inheritance with you."

Hearing these words, Gu Shaoyang couldn't help but be a little surprised. You must know that the snake people here definitely don't allow their inheritance to go outside, but at this moment, I don't understand. After all, this person must be a It's a reasonable state. Why didn't anyone change it for me from the beginning? What's the reason?

I can't say anything unnecessary at this moment. After all, this current situation is not within the scope of my expectations.

"Who are you? Why should I listen to you? This is the territory of the snake people. What if I listen to you and get killed here?"

The man in front of him didn't say anything. Anyway, he kept looking here. He didn't know what he was talking about. Gu Shaoyang in front of him couldn't help having a headache.

But he still tried hard to emphasize all this to the old man in front of him. , after all, for her, the snake man may track his location anytime and anywhere.

So she still knows what to do next. If it really causes some other troubles here, he is a The most unnecessary, and there are some other locations in this tower that I had guessed before.

Maybe the goal is not as simple as I expected, but this state is not what I want.

And the goal is already at this time He proposed his approach. If he could agree to it, it would naturally be the best result.

But he was afraid that if he took the initiative at this time, it would be troublesome. After all, he didn't want to cause some trouble at this moment. Other troubles, this scene now makes me hesitate a little.

But what should be done also caused some interference to Medusa at this time.

After all, an unknown force is revealed in the entire tower. Aura, if you continue to explore here, you are likely to get stuck in a swamp and be unable to extricate yourself.

Then there may be a lot of trouble, so at this moment, Medusa actually does not dare to move forward rashly. The molting period is your weak period.

If you have to rush directly at this time, you may not even have the ability to protect yourself, so in the current state, some unnecessary things have obviously evolved.

But The other party didn't seem to have expected all this, and he didn't even have any extra thoughts about himself.

Chapter 607

"I really didn't expect that the first person caught here didn't believe what I said. You can check up on my name. I believe that as long as you hear it, you will definitely come back here and beg me to give these things. Taught to you."

Hearing these words, Gu Shaoyang just squinted his eyes. He didn't have any thoughts about him, and he didn't seem to understand what he said.

But the old man in front of him just frowned and didn't mention it. For some other things, there is a high probability that his changes here have triggered other opinions of the people around him.

Although I don't know what he thinks, at this moment, I actually don't want to prepare some extraneous things. situation.

I don't even want to inquire about him here. After all, he is not important to me, and I don't want to use some of my own methods.

Of course, since she is so famous for her own sake , , then why don't you go and take a look? If what he said is true, it must be a good thing.

But if he hadn't solved it here as quickly as possible, he might not have known it at all. His own name.

However, the two people in front of him are pretending to be confused because they understand each other, so now he has not taken the initiative to lend a helping hand. The reason why he wants to pass it on to him here is that he may have some other ideas. , for example, you want to rescue him from this place. After all, many powerful people are sealed here.

But he doesn't seem to be a living person, just a breath, so at this moment Gu Shaoyang didn't hesitate much.

He took a step forward and looked at the old man in front of him. He wanted to see what kind of expression he had on his face and what he was thinking.

But he didn't expect that the other man looked coldly. His face was like a big ice cube, let alone seeing some thoughts on his face.

At this moment, Gu Shaoyang had already expressed his intention, and at this time, the old man could only agree.

"Don't worry, I won't have any unclear reasons. I just hope you can help me during this process. After all, Medusa should be in the molting stage now.

I am the one who was sealed here by him. During each molting process, the strength will be greatly reduced. This is the best time for you to take action.

If I remember correctly, you should have arrived at this high tower. Next is the time for you to take the initiative, but don't let me down."

Hearing these words, Gu Shaoyang in front of me was still a little confused, so the other party didn't even tell me the specific things, but he burst out with such a sentence inexplicably. It made me feel a little strange if it was true, but what the person in front of me said, I couldn't help but let myself hesitate a little, because I had to go through a process of thinking about what happened before.

If I had to think of some unnecessary opinions at this time, then this one is undoubtedly a good choice, so Next, I will definitely know exactly what I need to do to solve this matter smoothly.

"Believe me, during this process, it will definitely not cause any other troubles, and you have also seen my strength, so there is no need to trap you in this place."

Hearing these words, Gu Shaoyang just squinted his eyes, but didn't do anything else. He didn't even move his hands.

After all, at this time, no matter how good his relationship with him was, it didn't matter. He was still not a stranger. People, and I am very clear about this state in my heart now.

If he abandons himself and performs other actions by then, I am afraid he will regret it, so he must make a two-way approach.

"If that's the case, you might as well teach me some of your so-called methods of defeating him here. It's impossible for me, a big living person, to just go up to him. If I fail, what's the point of all your hard work? It's not about waiting for the next person to come."

After hearing these words, the other party also hesitated a little. It seems that what happened this time should be enough to make everyone excited. After all, this situation cannot be explained clearly by myself in a few words.

And as long as some unnecessary changes can be shown, I don't need to be so hesitant in this place, and correspondingly I am also aware of a trouble. The target state makes me feel a little caught off guard, but other people don't necessarily think so. The two of them are guessing each other's thoughts, and now At this time, Gu Shaoyang did not choose to take the initiative. After all, what would he do?

The truth was beyond his consideration, but the target's status was already here. If he could capture Medusa, he would definitely make a profit. So next I have to speculate on these aspects, and then make some unnecessary actions.

Chapter 608

Of course, there are also some other factors involved. If I remembered correctly before, then I can take the lead and quickly solve these situations at this time.

The person in front of him hesitated, and then looked at the people next to him. He had to say that what Gu Shaoyang proposed now was indeed what he wanted, Emperor Liuyun.

In fact, there is no need to be afraid of some of his statements. After all, although the current Emperor Liuyun is sealed here, it does not mean that he does not have such abilities.

And correspondingly, I also thought of some other things in my heart. It is very likely that everything will not go as smoothly as I expected at this time, but what to do next will undoubtedly teach me a lesson here..

Then Emperor Liuyun quickly took out his summary and talked to himself. He probably understood his intention here. In fact, some things are corresponding, and he didn't want to cause such a problem. Much trouble.

So I had to take the initiative to speak here. As for what the other party thinks about it and whether it will cause some other troubles here, it has nothing to do with me.

After all, he knew very well in his heart that if he could make Medusa's strength far inferior to his own, it would be completely feasible. However, Emperor Liuyun just told himself that among these moves, first half

"You must know that this is half of my life's hard work. In order to ensure that your strength will not be too inferior, my inheritance will be changed.

You'd better see the tower over there first. If you successfully come out from there, you will be my heir. You can choose whatever inheritance you want here or others."

Hearing these words, Gu Shaoyang also nodded. Since he has expressed his thoughts here, he must also think carefully.

To avoid unnecessary changes in the future, and corresponding I also saw some redundant directions. Generally speaking, these things are nothing more than the directions around me.

So how to deal with it next? I also got a taste of some directions. Generally speaking, there are also things that can be done. All the changes are revealed at this moment

"Don't worry, I will come back with my inheritance."

Then Emperor Liuyun in front of him nodded. If he is really capable, then he can actually rest assured. After all, the more such a person is, the more confident he will usually be, and the help he will bring to him will also increase exponentially. , maybe I can't understand so many complicated situations from this observation.

So the next step is to rely on people no matter what, and make some other changes to avoid triggering these things.

But in this tower, there are Let yourself see some other locations. If you didn't choose wrong from the beginning, it will definitely be useful here, but some things are definitely not as simple as you thought before.

And while approaching this tower, I also received a slightly dangerous aura. After all, I clearly understood something at this moment. It would be fine if I didn't expect what happened before, but it happened to be done in this way, then no matter how much I didn't think about it, You have to honestly speculate on some methods to deal with it.

But this is also a good thing. After all, being close to the periphery of this area allows you to clearly see some directions.

At this time, if you really plan to make a Some redundant situations are definitely the last thing I want to anticipate.

So in what capacity I am here to consider what kind of follow-up things to do, that is not what I should say now.

And in my own When he entered the scope of this high tower, he also saw some changing situations around him. If he remembered correctly,

Medusa should also be walking in this direction. Did this old man want to help him or harm him? I, at this moment, I am a little unsure.

I don't even know what to say, but fortunately, at this moment, the other party ignored me, and didn't even say anything unrealistic.

Instead, he was waiting for me to take the initiative. Attack, but the more this happens, the more he thinks of other directions. After all, what he should do in this scene is something he cannot give up.

But in this high tower, he has obviously found another trouble, and even Let yourself see an area in a corner.

If I remember correctly, I am now in a dangerous zone. As long as I take another step forward, someone will soon follow my footsteps in this place. Move forward.

It is very likely that it is just an uncertain process now, but in the next range, it is obvious that I have a general direction of understanding.

Chapter 609

And there are different things in each layer. At the beginning, the first game was just a special weapon placed in the center. I thought it was something.

But after looking around, Bisheng looked for the door here, but it was still difficult to see even a gap, so he once again set his sights on this sword.

Maybe this weapon is the only way for him to enter the next level, and he suddenly heard a sound in front of him, if he guessed correctly.

This should be the aspect that I had thought of before, so I packed up my things and rushed over here.

But no one saw it, he just saw a figure in pink clothes. At first, he didn't take a closer look, but he didn't expect that some unnecessary changes happened the next second.

It's not necessarily that I can think of other people at this moment. After all, Medusa, who is also in this tower, is currently on the ninth floor. Although This tower only has 30 floors.

But each level is a competition of your own strength. Judging from the current situation, it is not that simple to make some situations.

So correspondingly, I also thought of some other directions, and the target action was to investigate some follow-up things here.

But the next second there was a rustling sound beside him, so he turned around and looked to his side again. He didn't expect that there would be such a thing on Medusa's territory.

At first, he was still a little bit overwhelmed, but the next second he couldn't help but Gu Shaoyang hesitated here. After all, the figure had already appeared in front of him in an instant.

"I didn't expect to see a living person here."

As soon as her playful voice fell, I also saw the surrounding environment. I didn't expect that this girl was actually floating in the air. If the old man I saw before, the so-called person who called himself Emperor Liuyun, was powerful enough.

Now it is also a factor to be determined, but the current thing has caught me a bit off guard.

"Who are you?"

Looking at his cold face, Xiao Youde in front of him chuckled.

"Unexpectedly, a person came with facial paralysis. I am just a guardian. As for you, you want to go beyond this level.

Why don't you pass my level? If you have this ability, then I will not only let you reach the next level, but I will even become your guardian for the next few levels."

Hearing these words, Gu Shaoyang couldn't help but feel a little strange. If the Medusa who had broken through here before could also reach his level, wouldn't that mean that he had two masters? to serve

"There is no need to think so. We only follow one master, and every time we enter the tower, the elves and followers we encounter are all assigned according to your strength. Being assigned to me is considered a good luck."

"It turns out you are called followers."

Seeing that the other party's focus was not on other things, but on this, it made Zhao Yuyan in front of him laugh, and then introduced himself here.

But Gu Shaoyang didn't take it to heart, but just straight up He walked towards the weapon in the middle, and the huge sword just sat on the ground.

Zhao Yuyan didn't see this thing at first, until the next second, the smiling expression on his face suddenly broke, as if there were still some Incredulous, he then turned to look at the man in front of him

"Have you met any strange old man before?"

After hearing these words, I looked at the notes in front of her. I didn't expect that she actually knew these things, so I guess there must be a certain connection.

But this matter is not something I just said. It can be solved. Since he has such ability, he might as well take it out and let himself witness it.

It can also relax himself, and correspondingly, he can also think of some unnecessary considerations. After all, the state of the target is very important to him. It's completely beyond expectations

"This time, I have given you a sad direction, but you can't always rely on me for what to do next."

At this time, Gu Shaoyang understood. It seemed that the other party was just an ordinary elf and could not bring him any help here.

So next, he also knew that his ability might not be that great, but At present, this is definitely a good direction.

So how should I consider an idea that is spreading in my mind? If I experience those unrealistic things by then.

Why don't I put these things together before this happens? How about solving it? Maybe I can get another inheritance in the tower, and then what the old man said will just fall on deaf ears.

Chapter 610

At this moment, the followers in front of me are really surprised. You must know that there are so many people here, but the one in front of you is the only one who has been recognized by the old man.

There are special brand marks on his body. He couldn't see them clearly at first, but now it's not because he can't see them clearly.

What I can now completely identify is that this is the person Liuyun Emperor has identified here, and he even left a protective mark on his body.

If he encounters any trouble here, someone will stand up here to block the fatal blow for her, but there is only one chance. It seems that the old man only has a skeptical attitude towards him.

And judging from the goal, I have also determined another direction. Generally speaking, no matter how I question it at this time, it is impossible to land in such an area in the end.

So the picture I guessed next would also produce a redundant option as I changed, but I smelled a hint of danger at this time. Since I could do it before, why can't I do it now?

This is definitely a two-way thing, but what to do is not that I can hesitate all the time just by myself.

I even thought of some other pictures. Instead of triggering these changes, I might as well see if a few other people can be helpful at this time.

After all, I can see clearly at this moment that the other party may not have lowered their guard against me.

After all, for her, she is the person recommended by Emperor Liuyun in this place, so she must have a different identity, but because Zhao Yuyan is a follower.

It is impossible to have his own direction of consideration, so he can only passively be guided by his own consciousness and make some redundant situations here.

Of course, correspondingly, I have also seen the actions of several other people. At present, this is definitely a bad direction, but Zhao Yuyan did not have any other reactions to this, as if she had no need for this matter.

"Do you think Liu Yun is a good person?"

"Don't talk nonsense. Emperor Liuyun is a person I respect, but I didn't expect that the successor he chose would be a thin person like you.

I thought he would be someone who could stand up to heaven and earth. After all, his inheritance is to save the unfair things between heaven and earth. It seems that it will not be like this when it falls on you."

At this time, Gu Shaoyang didn't think Yu Yan would say this, and there was a bit of embarrassment on his face. After all, this scene was indeed a bit unexpected for him.

Of course, he also expected some other things. Instead of thinking about the trouble in this place, why can't he properly handle some subsequent situations before then?

And Gu Shaoyang now realizes that what Zhao Yuyan said is not false. On the contrary, he will give himself here Bringing an unnecessary change.

After all, the current situation cannot be solved by just guessing. Although the situation is definitely not as simple as I expected.

But what should be done is not something that I can solve by hesitating now, so At this moment, I have guessed some situations.

Instead of waiting for the subsequent voice to make changes, why can't I deal with them directly before they start?

"This high tower is divided into several different locations. Of course, there are 30 floors in total, according to what Emperor Liuyun left for you at that time.

It should be that you need to reach the 30th level here to get its inheritance. But to be honest, this is really good luck.

You must know that not everyone can accept him, and your corresponding strength must have a certain foundation, otherwise he will not settle this matter casually."

Now, following Zhao Yuyan's description in front of me, I have roughly understood some aspects. It seems that this huge tower is just a location.

It does not give me an extra direction to consider, so I want to do it next. How to do it, I suddenly figured out the direction in my mind.

Or maybe because of some unnecessary circumstances, I clearly found the aura revealed by the entire tower. It can be said that there is some evil that seems to be sealed in it. Could it be Did you say that this Medusa chose a sealed place to take root?

Now it is just a preliminary guess of mine. After all, I still know very well what to do.

"Then I can only ask you to help here. The two of us will solve these things at the same time. You only need to command me and tell me how to avoid these attacks."
