

Attributes 611

Chapter 611

But I never expected that the other party would act uncharacteristically here, and it could even be said that his face was frozen together. If I still can't understand the far-fetchedness of the other party.

That was Wang Wei who had been here for so long, so he was looking at him carefully, and then he said something.

The person in front of him didn't react at first, and then he was stunned for a moment. You have to know the situation of speculation, let alone at this stage.

Maybe Gu Shaoyang didn't expect that his follower was useless at all, maybe he was aware of his thoughts.

Or maybe it was his ability that made him feel a little ashamed, so he lowered his head here. In fact, he had been aware of these scenes before.

It's just that he most likely didn't consider these aspects, and not only did he not know the structure of the tower, he didn't even know the location of the hidden weapons inside.

Then what is he trying to do by being a so-called follower here? Could it be that he rushed out to block the knife for himself at a critical moment?

"This really surprises me. I didn't expect that your strength is so simple. If this is the case, then I advise you to give up and follow me here as soon as possible.

My ambition is not as small as his, and once you fail to meet my expectations and hopes here, then I will give up on you. After all, the person you follow is strong, and you will be close to him. If he weakens, you Will you do the same thing again?"

Hearing these words, Zhao Yuyan in front of her pursed her lips and said nothing more. After all, she never dreamed that she would be disliked by others here.

You must know that as a follower of this tower, she has always been doing this for herself. I feel proud of my identity, but I didn't expect that I don't know when it started.

It turned into like this, but I have nothing to regret. After all, it is very clear at this stage.

And the subsequent changes are not at all what I am now. It can be solved in a few words. If there is a change, it must be through what I have guessed now.

Moreover, the huge weapon in front of me also began to exude a friendly atmosphere towards me. Gu Shaoyang did not react at first.

But Then I realized that this weapon seemed to have some affection for me, but wasn't this something I wanted to conquer? It was definitely unclear to Gu Shaoyang at the moment. It was Zhao Yuyan who was next to him as a follower. At this time, he had already I was so surprised that I couldn't close it at all. After all, I had never expected this situation, let alone these unrealistic things.

"What are you doing? It seems so strange. It seems like I have never eaten pork and never seen a pig running."

Hearing these words, Zhao Yuyan in front of her didn't say anything more, but pointed to the thing next to her.

"This is the real button to pass the level. I didn't have time to tell you at first, but I didn't expect that this sword can be controlled by you, and you can even look at the direction it points.

It happens to be the location here. I didn't expect that he would have a crush on you from the beginning. Judging from the current situation, you must have figured out his abilities. I really didn't expect that this young man would have such abilities just now."

After hearing these words, the people in front of me were not arrogant or complacent, nor did they say anything else. After all, what they should do at this moment is their business. I just wanted to check if there was any other help during this process.

"This time, everything you need to do in the process has been taken care of for you. The next step is to look at your own abilities."

The follower in front of him dropped these words and left directly, which made the look on the face of the person in front of him a bit stiff.

After all, to them, this follower obviously didn't do anything, but he still... He made this appearance, but Gu Shaoyang didn't say anything.

Zhao Yuyan will definitely have some redundant situations here, so at present, he will not do anything beyond his control here. After all, the more this happens, then You will encounter more and more troubles on the first floor.

As long as you have a high probability of passing by this place, you will not cause other troubles at this stage.

Zhao Yuyan in front of you is a bit surprised, why has he been wandering in this place, but still refused to take this step? You must know that this is a good situation for everyone.

Why does Gu Shaoyang refuse to press this button, but as a follower himself He can't take the initiative, so now he still has to wait for the moment when he takes the initiative.

But Zhao Yuyan can only guide him now, and move closer to this side, but the person in front of him still doesn't appreciate it.

"Let's take a look at what's going on in this tower first. After all, Medusa might be in it too."

Chapter 612

After hearing his name, a dark look flashed across the face of Zhao Yuyan in front of her, as if she had heard a remarkable word.

At this time, Notes and Ben felt a little strange. Could it be that there was any dispute between the two of them?

But now Zhao Yuyan just lowered her head and didn't say anything. On the contrary, Qixing Longyuan next to her began to tremble violently at this time.

"I didn't expect that your sword actually has a sword spirit inside it."

Zhao Yuyan found that the ordinary man in front of her seemed to have given her more surprises. Unexpectedly, Emperor Liuyun's vision was really different from what she thought.

He was always a winner here, but this matter in front of him was different. It also made her a little hesitant, after all, for Zhao Yuyan.

In this tower, she has seen all kinds of strange inheritors who came to win in this place, but there are really not many who have no desires or demands like Gu Shaoyang.

"Next, you only need to see some patterns on the sword, which proves that it has been conquered by you. I think you should not be in a hurry to do anything unnecessary."

Hearing these words, the person in front of me smiled.

As expected of a follower in this tower, he understood his intentions in just a few words. He actually did not intend to do any unnecessary actions here.

On the contrary He planned to consider some other aspects of the situation. After all, at this moment, Gu Shaoyang also realized that Qixing Longyuan next to him probably wanted to devour the giant sword in front of him.

As long as he could take him down, his own strength would also be strengthened a lot, and as expected, as his speed became faster and faster, this giant sword also began to undergo a change. There were more and more stripes and bright places on his body, which I thought Now this area is what I want to see most, but now I have discovered a rare phenomenon.

If I have understood part of it so far, then it must be a halfway situation. Of course, Gu Shaoyang has also realized it. , another trouble.

Will his aura here be revealed?

But Zhao Yuyan, who is next to him, immediately came to her and said something to reassure herself.

I didn't expect him to treat me like this, but now It's not something that can be skipped easily. There are still a lot of troubles that I have to deal with next.

"I have to ask you to handle this matter. Please help me with my breath here and don't let it spread. I saw Medusa on the way here before. I don't want that woman to know that there are outsiders coming. Got here."

Hearing these words, Zhao Yuyan in front of her nodded immediately. She was very clear about this aspect in her heart. If Queen Medusa really knew about it, then this matter might not be that simple and she could be dismissed. , and correspondingly, I also realized some redundant situations.

If the previous thing was a guess on my part, then now it is an aspect that I had not expected at all, but it seems that it is not what I should do to solve it smoothly. What he is thinking about now.

As he sat in this place meditating, Qixing Longyuan beside him also became quiet, and it seemed that he wanted to accompany him here.

First of all, Zhao Yuyan beside him was not in the air either, and kept calming down. They were floating around, but stood beside him, not knowing what they were doing.

But at this moment, they had anticipated some unnecessary things. After all, at this moment, no one wanted to do some unnecessary things that were difficult to control. Behavior, but the goal and some of the things I am doing now must be due to a different choice.

In this sword, I also smelled a trace of other breaths, which really made me unexpected. After all, what I should do Things themselves also have a sequence.

And correspondingly, I also guessed some redundant aspects. After all, the status of the target is definitely not as simple as I thought. Instead of triggering unnecessary choices by then, why can't I just make it right at this moment? How to solve it?

The Qixing Longyuan next to him was trembling at this moment, and even a kind of breath was diffused. The other breaths flew directly into the sky before he could react.

Then he rushed straight to the opposite side in the next second. This giant sword was just trembling, as if he was considering whether to act here.

Moreover, the reaction of this giant sword was indeed beyond the scope of his consideration. I always felt that this incident was not that big. Simple, what can be thought of at this moment should be possible by others.

And whether there is anyone here to protect you in the external environment, you may not necessarily have to place your hope on him temporarily. If he refuses to help you.

Then what happens next I am the only one escaping from this place, but there is another choice for the target's status.

Chapter 613

That is to let Qixing Longyuan quickly swallow him, and he can get another transformation here. I don't know if his idea is too strong or what.

Qixing Longyuan actually resonated with him here, and then came directly to his side in the next second.

At this moment, he had not guessed it, but in the next second, Gu Shaoyang directly saw the Seven-Star Longyuan in front of him swallowing him up.

It seems that his cooperation with me here is getting higher and higher, but now I am not proud and complacent in saying this.

After all, he didn't want to cause so much trouble, and correspondingly, Gu Shaoyang also realized some unnecessary considerations, perhaps in such a change.

I also learned some side directions, but the target was still too big for me. Then when I came out, it appeared directly on the second floor, and it looked much simpler than the first floor.

"I didn't expect this level to be quite easy for you."

Zhao Yuyan beside her muttered casually, but was glared at by Gu Shaoyang.

"I advise you not to speak yet....."

As soon as he finished speaking, some traps appeared one after another, as well as some dark whirlpools, if you guessed correctly.

This was something that had only appeared in the previous war between gods and demons. How could it be used on an ordinary child? But at this time, Zhao Yuyan realized that it was the sound of her words that changed the entire order of the second floor.

But Gu Shaoyang didn't say anything in front of him. Everything he did was a change based on his own strength, so now the strength of the 7-star dragon here has increased.

Therefore, it means that the second level will cause more and more troubles for myself. At this moment, I guessed some other directions.

But at this moment, Medusa also noticed a powerful aura appearing on his territory. If he guessed correctly, it came from the sealed location, so he quickly left here.

He quickly summoned the elders of the whole clan and stared at them here.

"Please everyone, please come up with a solution no matter what, that is the energy of our snake people."

Hearing these words, several elders couldn't help but whisper among themselves. After all, Medusa is the queen now. If the energy is lost in his hands, it will mean a big disaster, a thousand-year catastrophe. I thought that what the team leader said before would become an empty metaphor.

But I didn't expect that his guess was quite accurate. The more troubles this person caused here, the more troubles he caused. But the state of the target I must have guessed it.

Instead of triggering some unnecessary factors, why not solve it smoothly before then? It is very likely that what I guessed at this moment is not what they expected before.

"At this time, I have to say that the predictions made by the previous boss were really accurate."

"Yes, the previous team leader had revealed all his conjectures here. I didn't expect that after going around and around, it would turn out like this."

Hearing their discussion, Medusa couldn't help but feel a little confused on her face. After all, although it was her own problem, she certainly couldn't take the initiative to admit it in this situation.

And the corresponding situation also showed some other troubles, if they insist on emphasizing all this here, then I don't mind talking nonsense here.

But the goal is much more complicated than I thought before, maybe I will understand it next.

And at this time some of my thoughts at this moment will also lead to some things here. Although I may not be able to guess these aspects, at this moment, I feel a little hesitant.

"Rest assured, if I am truly here to help, you will have more than just these troubles."

Hearing his words really surprised the people in front of me.

After all, everyone here wants to handle it properly, but the people in front of me didn't seem to intend to simply turn over this article. I believe Gu Shaoyang has already understood part of what happened before.

"I've said it before, don't take the initiative here, but you just didn't listen."

The words he said now made the elderly people in front of him look a little ashamed. After all, they did take the initiative to attack the people he said.

And made some other reactions, otherwise they would not. The current situation will not occur, but I must have understood some aspects that should be considered at this moment, otherwise how could I dare to make these directions?

"If you don't help this time, then we'll just wait and see. After all, I'm not responsible for this Snake Clan's territory alone, and everyone will be dead by then."

Chapter 614

Then I didn't look at the elders behind me. Did they turn into the color of pig liver due to anger, or did they just walk away.

The current situation really made Gu Shaoyang a little suspicious, but he had already guessed what he should take into consideration.

Maybe the target's status is something that needs to be changed for him, but at this moment he has no way to avoid it. After all, some aspects that he can think of are also exposed at this moment.

At this time, Gu Shaoyang in the tower was still wandering around on the second floor. I have to say that the environment here really felt a bit familiar to him.

It might have been just a brief guess at the beginning, but I didn't expect that some other troubles would appear in the next second. Thinking about it, I was really caught off guard.

Some things that should be done must be taken into consideration, but you can also understand in your heart what you should predict.

And correspondingly, I also guessed some of the surrounding situations. Instead of causing these irrelevant things, why can't I handle them properly? After all, there must be a direction for what needs to be done.

And Zhao Yuyan beside him has been following him. Although he doesn't understand what the other party is doing, it is obviously hindering his progress at this moment.

So he immediately left this position. Although he had an idea in his mind, he also had no idea what he should do.

I don't even have any extra thoughts. Instead of being forced here when the time comes, why not consider solving all this before then.

Moreover, this place was in a foggy situation. Although he did not mention to himself what was here, it made him feel a little strange.

After all, I already know what to do in my heart. Instead of being forced here when the time comes, it would be better to solve it first. However, there are some situations that I may not be able to guess so clearly.

"You help me relax here, I'll go take a look at the situation nearby, and I'll come back to inform you once I get the results, but I hope you don't leave here before that, lest I reach the third floor and you are still here. Wander."

What could be heard in his words was that Zhao Yuyan in front of him did not refute. He had to admit that this person's strength was indeed extraordinary.

And it made him feel a little weird. No wonder Liu Yunda enough to like her before, However, her thoughts did come into contact with Medusa here.

This was indeed outside the scope of her medical treatment. After all, Zhao Yuyan did not like that woman and did not want anyone to come into contact with him.

But the person in front of her He didn't pay attention, but searched for things in the second floor. Unexpectedly, he stepped out of the scene around the first part. Suddenly, the first floor was a weapon, and the second floor turned out to be an alchemy furnace. Could it be Are you testing how far you can do it?

And it is naturally difficult for Gu Shaoyang to prevent it at this time, so the next step is to see what kind of skills Qixing Longyuan next to him can do.

And correspondingly, I also guessed For some other aspects of the situation, instead of hesitating here, it is better to give it a try. There is a piece of paper stuck on the alchemy furnace in front of you.

And this paper says how to use the alchemy furnace, and there are some next to it. Special herbal medicine. At this time, Gu Shaoyang realized that this level was to allow him to refine the appropriate elixir before he could leave here.

I don't know why he obviously felt that this level seemed to be much easier than the previous one, but it shouldn't be I didn't continue the nonsense I was talking about.

Instead, I started studying here. The alchemy furnace in front of me had to be said to be somewhat beautiful, but I didn't know how powerful it was.

So I carefully tested it several times and found that it A potential strength can still be unleashed in this place, so Gu Shaoyang directly grabbed a handful of herbs.

Just like melting other things, he melted them in his hands. If Emperor Liu Yun saw him If a beginner does this, he will definitely drop everything. After all, only high-end alchemy masters can do this kind of refining of medicinal materials with bare hands.

After all, he needs to gather his mental power to even work hard here. Fusing them into a drop-shaped medicinal material, logically speaking, he, a beginner, cannot do this.

But at the moment, Gu Shaoyang is able to create miracles. Even if the Gu Shaoyang Palace in front of him had predicted it at this moment, it would be unavoidable. All this.

I have searched for the situation that should be considered with a high probability, so I can't explain clearly what to do next in just a few sentences. The state of the target makes Gu Shaoyang feel a little strange. It feels like the alchemy furnace is above It exudes a special aura that I can't figure out clearly.

Chapter 615

After all, the lines on it have a distant and ancient atmosphere, which makes me feel a little strange, so I haven't taken any other actions at this moment.

If you have to make some moves here, then the one in front of you is undoubtedly the best choice, but there are some situations that you can definitely understand, otherwise you won't act rashly here.

Moreover, this alchemy furnace also exudes a special aura, as if it was passed down from ancient times, but it obviously feels like something is not right.

Generally speaking, the status of the target is consistent with what I have considered, so it is enough to just hesitate on how to deal with it. After all, every direction will lead to some subsequent situations.

And some of the lights carved on this alchemy furnace really made my eyes shine. After all, at this moment, I also guessed some others.

It's also possible that everyone here has experienced such a routine, but the degree of difficulty is different, so I thought about it.

Gu Shaoyang felt somewhat comforted in his heart. After all, his goal was nothing else but the inheritance of Emperor Liuyun.

So I don't put too much thought into this matter now. After all, the wasted time will not lead to any substantial changes in the end. It is better to be honest from the beginning.

But at this time, Zhao Yuyan, who was following behind, was also shocked. Gu Shaoyang in front of her was moving in the air, with these solidified droplets.

It is not difficult to see that this should be some of their options, but it also makes me guess some side effects, whether he has practiced it before.

But when I got close to him and inquired carefully, I found that the other person was a complete novice. Not to mention that he didn't know these things. He didn't even know what the alchemy furnace was for. He still relied on the manual in front of him. Got some help.

At the moment, he took a breath of cold air. If the previous state was more complicated than he expected, it would not be surprising.

But what you should consider is that you also understand that if you can make full use of the opportunities in front of you, then you will have a two-way development.

However, at this moment, there was an unexpected vibration in the tower, and what appeared in front of me the next second following the vibration made me feel a bit strange.

It was more like a giant one than anything else, standing right in front of him. At first, he didn't know how to avoid it.

But he didn't expect that thing to walk straight towards him in the next second. Could it be that he was looking for himself here? The scene in front of me really made me feel a little weird. After all, I knew what I should take into consideration.

As the ground continued to change with his mobility, it really made me feel a little weird. After all, what he should do was exposed at this moment. Of course, he had predicted another point.

Maybe there are some unexpected situations in this huge tower. There are some different people who have opinions. Now I can't guarantee that Medusa is not here.

His own safety was also questioned, so at this moment he was very clear in his mind and knew how to deal with it, but the following clues also gave him a huge change.

After all, the attention of everyone around him is also on him. Although he did not expect so much at first, but now it seems that everything is within his control. Gu Shaoyang slowly moved forward on this road.

Then he saw that the entire layer had changed, turning into a mist-like appearance, and the next second he saw that Zhao Yuyan who was following him had disappeared.

It seemed that he had encountered some trouble here and was trapped, but he did not intend to interfere with him too much. After all, Zhao Yuyan also understood some aspects in this state.

The reason why Gu Shaoyang didn't agree with him following him here was simply because he was afraid of some unnecessary things he had developed. But at this moment, Gu Shaoyang felt that Zhao Yuyan's appearance was not a bad thing.

At least at this time, I can report the surrounding situation to myself, but because of several previous incidents, I have some doubts about his actions.

After all, he was serving the entire tower, not just himself. Medusa outside also discovered the huge changes in the energy here.

So he once again summoned the elders to discuss with them one last time. If they continued to disagree, he wouldn't mind doing something tough alone.

Although I have never been inside that high platform, I heard that people are selected for confrontation based on their strength.

Chapter 616

Then we must bring some relatively weak people, but I don't know if this will allow them to survive successfully.

However, the target also made me feel a bit tricky. These old people gave him a cold face after arriving at the location. After all, as several other special leaders, it also made me feel a bit strange.

"Although this tower is indeed the responsibility of your family for generations, don't forget that now that it is in a situation, we should all vote on whether to continue here."

Hearing these words, Medusa just sneered, and then looked at the old man in front of her to see what kind of ambitious and hesitant words this great elder could say, but the other party did not say anything. On the contrary, the four people next to her The elder couldn't hold it any longer

"This matter still depends on how the surrounding saints will deal with it. You are just a junior. Doesn't the real choice still depend on the eight saints in the group?"

Hearing his words, Medusa's face couldn't help but turn as black as the bottom of a pot. What a bullshit eighth life. It's just that it's useless here to carry other people's shoes. Over the years, their The information has disappeared. If they didn't often appear in various meetings, as some judges and contestants, their seclusion all the time would really make them feel that they didn't exist at all. The elders in front of them didn't know what Medusa was thinking. As he thought, otherwise he would have to come up with that trick again. He was trying to reason with him here. Medusa was also a little annoyed. She simply left the situation to the person in charge beside her. He himself was always responsible for talking to the elders. This side is in contact, but I don't know why, but the situation on the Gaotai side has been changing frequently in recent times.

"You must stabilize their emotions here. I'll go over there and take a look. If there's no problem, I'll rush back."

"Are you sure you want this? This is not a good thing. If they start to pursue us, neither of us will be able to escape."

Hearing these words, Medusa in front of him smiled. He was really not afraid that these great elders would pursue the matter here, but he was afraid that he would cause trouble. If they were unwilling to resolve it here, it would be embarrassing. No. I don't know if I guessed his thoughts by chance or something, but the man's face was as dark as the bottom of a pot. At this moment, I felt a little caught off guard, but he didn't say anything. It seemed that there was a high probability that something was going on. I already understood it clearly, but the look in my eyes was not the process of my choice here.

Looking at his leaving back, the man in front of me couldn't help but smile and shook his head. It seemed that he had decided to go, so what he was saying, in There is no use in talking too much.

It is better to be honest here, and correspondingly, I can see that the person in front of me actually has his own Xiao Jiujiu in his heart.

My persuasion at this time may It will only be considered as an option that I am not willing to accept here, so compared to this matter.

I may prefer to watch some of their transformations. When several elders saw him coming here, it was like watching As if he was a savior, he immediately jumped on him

"Don't tell me that Medusa has been a lot irritable recently. She even mentioned it to some of us elderly people just now.

You know how to calm down the situation on the other side of the tower, but what can an ordinary snake man do? But it's useless if we don't agree."

Hearing these words, the man in front of him couldn't help but smile. It was precisely because he knew it was useless that he did not stop Medusa here.

Instead, he let him do it. Maybe this situation would be worse than they thought. Much better. Looking at Losman's smile in front of him, the elders next to him couldn't help but be stunned for a moment.

You must know that this man has always been known as a smiling tiger and smiled at them like this. Could it be that he was also trying to plot against them?

Although He said that he usually came into contact with them with such a face, but after getting along for a long time, he would inevitably have some other thoughts.

But at this time Losman did not say anything, and just looked at them quietly, as if he could What do you learn from their faces?

"Let me handle the matter this time. Don't worry, I will try my best to stabilize these situations.

After all, you elders also know that he doesn't have any evil intentions. I'm afraid it's just a sudden thought that prompted him to do this."

"This should be the best result. If he really wants to take action, the Snake family may have to undergo a reorganization. After all, once that force is released, it will be the most unfriendly to our Snake family."

Luosiman in front of him smiled, indicating that he understood what they meant.

Chapter 617

"Don't worry, I will do my best to dissuade him here, and you also know that Medusa usually doesn't do anything special, and everyone knows this situation in their hearts, so there is no need to say anything So clear."

The elders also dispersed in a hurry. Unexpectedly, Losman could solve the matter with just a few words. Medusa had successfully arrived near the tower.

Just when he was about to enter, he saw A figure flashed by beside him, so he took a closer look and found that it was Losman.

At this time, the other person smiled at him, his eyes squinted in a line, and he looked very good-looking, but at this time he But he didn't dare to say anything. After all, the current situation is somewhat unpredictable.

Once he takes the initiative, it will become a chain of directions, but at this moment there is no doubt that it is a good one. After all , for Gu Shaoyang, smelling the breath of Medusa is synonymous with danger, so at this time he can clearly check its location.

But he also had the same reaction for Zhao Yuyan next to him, but Now that the two of them have been separated, let alone finding other clues here.

At this time, Gu Shaoyang also groped for the edge of the alchemy furnace. Unexpectedly, the furnace exuded a refreshing fragrance. , and it also exudes a feeling of being hot.

I still haven't figured out where this place is, but the small droplets floating around me are telling me that I am still on the second floor and have not been able to leave.

Although I don't know what clues will follow here, there are a lot of things that I need to do now. Even if I don't understand, I can't regret it.

So I took the initiative to get the clues in my hands here. I really didn't guess that Gu Shaoyang was here. At that time, I had anticipated some other aspects.

There was originally a huge checkpoint on the second level that hindered all of this, but Gu Shaoyang didn't pay attention to it, and even crossed the checkpoint effortlessly. At first,

Gu Shaoyang thought it was My own defeat lies in refining some of the bad things in this monster into a good elixir.

This simply makes me a little confused. I thought that I could get a huge improvement in strength in the tower, but I didn't expect that it was really here. It's the same as passing it on to the professor.

Look around for what you have learned. Although you don't understand the purpose of this tower, there is no doubt that it will definitely be helpful to you, and you can also handle the corresponding situation. Knowing the status of the target is not the clue you want.

"This time is a test for you. If you can pass it, then both my inheritance and all my abilities can become a part of your body."

When she thought of what the old man said before, Gu Shaoyang in front of her couldn't help but feel excited. After all, for her, the inheritance of Emperor Liuyun was not very valuable.

But she needed this thing to defeat the one who had never been able to defeat him before. The few hurdles that I have been able to overcome may be the state of my previous evolution.

Of course, I have also seen some other aspects. Generally speaking, it is just the difference between these few things.

"Don't worry, since there are so many people here to protect you, there is no need to worry so much."

And for myself, I didn't expect to find Gu Shaoyang at this time. The frequency between the two people can be said to be as consistent as possible.

"How did you come here?"

"Isn't it because you haven't shown up to see if the person is missing, and you haven't noticed that Medusa has arrived near the tower."

Hearing these words, the person in front of him nodded but said nothing more. After all, for Gu Shaoyang, the main purpose of coming here this time is to compete with Medusa here. After all, he has to do what he has to do. The clues have changed at this moment.

Of course, in the current area, I have also seen their changes. The after-sales service of the attack caused some unnecessary factors, so why can't I look at others?

And correspondingly, I also Realizing an unnecessary situation, if he really wants to recognize their direction here, he must first get rid of Medusa.

And escape from here, judging from the previous compass, it is completely possible to search To a certain direction here.

It seems that they are all starting to move closer to the 4th direction, although I don't know why they are doing it.

Chapter 618

But those weird things before still made me feel worried. Anyway, I was fully prepared for the desert here. I don't know how long it will take for Medusa to come to the first level. , but Qixing Longyuan beside him suddenly started to tremble.

At the beginning, I didn't understand what the other party was doing, until the next second I saw it was suddenly coated with a shiny golden symbol.

Then directly here, he flew out from his hand and hit a position in the white mist on the opposite side. Then he heard a sound of piercing the flesh, and Qixing Longyuan returned to his hand again.

"I didn't expect it to be a good sword, but unfortunately it met an owner who wasn't very suitable."

When Gu Shaoyang heard the other party's evaluation of her, she glanced there with a smile on her face. The indifference on her face was like a white mist trying to penetrate the defense in front of her.

But the other party just laughed softly. Laughed, and then disappeared here. After all, he understood the next situation. Rather than affecting these unnecessary factors, he might as well solve it smoothly before this happened, and he also identified some other directions. , if you really want to show some skills here, then there is no doubt that you have to take the first step here. It's just that the state of the goal may not be the same as you think, and it happens that it is because of this situation that you have been hesitant. However, it obviously exceeded my budget.

After all, it was just a high probability guess at the beginning, but it did not mean that I was willing to compromise here to solve all this.

So it may still take a certain amount of time to solve the problem in front of me. What Zong Xi saw might have always been a hurdle that he could not overcome, but no one in front of him said anything to him.

After all, at this moment, he had learned some directions, and this Medusa should also be here. He doesn't have much ability and can guess all this.

So it's a good direction for him at this moment, but he doesn't know if Zhao Yuyan next to him is willing to cooperate with him.

As his eyes locked on Zhao's On the body, the other party couldn't help but hit him multiple times at this time, and then looked at the man in front of him. Gu Shaoyang just gently, and then licked his lips, and the other party really started to take action.

He quickly used the alchemy furnace here to refine I made some special ones, and then threw them directly to the monster next to me.

The other party was not willing to use them, but at this time I couldn't hold myself back. After all, from the perspective of time, I didn't have that much to waste. Kung Fu.

So he must first deal with the situation in front of him. Once he is unable to make some other judgments, he must replace it here.

"Don't worry, I have guessed part of the situation at hand. As long as you can make this big monster take this pill, we will soon be promoted to the third level.

Don't forget that you can't take down Medusa here at all. You are just an ordinary follower. Do you think you have extraordinary abilities?

If you have this time, why not think about how you can get some clues from me to win this incident."

Zhao Yuyan in front of her didn't expect that she would be willing to serve as a stepping stone and even give guidance to herself here. After all, she had never encountered such a thing before. How could she discern some of his opinions, and for herself, it was even more important at the moment. He hoped to be able to identify some redundant situations, which meant that he had to start with Medusa.

But he immediately showed his ability. In fact, Zhao Yuyan's greatest ability here is illusion, which can make the people in front of him obey him..

And entering his own trap, maybe the target's state is not so complicated, but now he has to think more about it.

As he turned on the illusion here, some surrounding creatures looked towards him. , after all, the dense clues here are certainly not enough to make them hesitate.

So at this moment, they are very clear in their minds about what to do, but sometimes some situations arise that must be beyond their budget.

"After a while, he will successfully help this thing down, but you must remember that before he makes the next move, you must ensure that he can be successfully eliminated by you here, otherwise we will There will be a change."

Hearing these words, the other party didn't pay attention. He just waved his hand in a hurry, and then left directly. The next second, he saw that he showed great power here.

And he took hold of the huge thing in front of him. Incomparable monsters, the size of the two people suddenly formed an inverted contrast, but I was also aware of the aspects that should be taken into consideration, so I did not perform any other operations recklessly at this moment.

Chapter 619

If the settings and threshold for myself are raised again, it will be a disaster, so at this moment, I can also expect some other aspects.

Instead of hesitating in this place, it is better to take the initiative and see what kind of things can happen. After all, there are just these incomprehensible situations.

Since this was the case, he no longer hesitated. After taking down the big monster in front of him, he returned directly to the alchemy furnace.

It's not that I want to deal with other things here, I just thought about it and hesitated in this place.

Why don't you think about whether you can solve the matter in front of you smoothly? After all, you can't become yourself with extra choices, and you can't make a change in your judgment here.

So at this moment, no matter how much hesitation he had, he didn't mention anything. He was just dealing with some special points around here, and he also deliberately separated these places on his body, just to ensure that this time can be solved successfully.

As these skeletons made thunderous sounds in the alchemy furnace in front of him, he could now clearly see several directions around him.

If you guessed it right, making an elixir at this time and escaping from here is a must-do.

So it only took me a few hours to master the essentials here today, and because Medusa didn't see the huge energy fluctuations anymore, she followed Losman back to the snake people's gathering base.

At this time, several elder-level people around him came closer. It seemed that after Losman's persuasion, they gradually realized the seriousness of the matter.

After all, at this moment, if the secret Zhende of the tower is respectful, the snake man will soon become something they are eager to rob.

But the snake people know that they are not an object, so now we can only see if the eight holy gods among the snake people can solve all this.

And the current situation is also a... Although I know that the eight gods of the snake people are here to divide the guardians of various areas.

But I am afraid that it will trigger uncertain factors. At this time, Young Master Gu is also condensing the contents of the alchemy furnace with Zhao Yuyan. I have to say that this solution is quite comprehensive.

"I didn't expect your boy to be so powerful. Thinking about when I was here as a follower, I had never seen anyone master the knowledge of alchemy so quickly."

Hearing his praise, Gu Shaoyang's face did not show joy. Instead, he was as calm and calm as before.

Seeing this, Zhao Yuyan gradually understood what Emperor Liuyun was thinking, but at this moment, The huge monster that had just lay down came back to life again. It shook its huge body and slowly stood up from the ground. Gu Shaoyang dropped the current alchemy furnace and then used The other hand grabbed Qixing Longyuan in front of him.

One hand controlled the heat of the alchemy furnace here, and the other hand was preparing to fight him here.

It has to be said that Qixing Longyuan still burst out at this time With great ability and ability, after all, he can directly resist the attack of the huge monster in front of him here.

Although the monster's face is covered by the fog, Gu Shaoyang can clearly detect that it is just a copy. That's it, I don't know where the real body is yet.

Maybe it's on the 30th floor of this tower. Who can guess all this, so in this situation, Gu Shaoyang just tentatively moved a few steps to the side. I found that the other party would indeed follow my actions and walk to the side.

"As a follower here, you should also be able to control the heat of this alchemy furnace. As long as it lights up three lights, I will definitely be back in ten minutes."

Hearing his words, Zhao Yuyan in front of her suddenly jumped out like an arrow before she could say anything.

However, the target state really made her feel a little weird, but Zhao Yuyan could only calm down. He was guarding this alchemy furnace here.

As expected, before the time of burning incense had passed, he came back here, holding a round thing in his hand.

Then he saw Zhao Yuyan's Zhao Yuyan threw it to the ground aside in an instant. Although he was curious, he didn't go up to take a closer look. Instead, he was a little surprised by the chilling aura on his body. He did n't look like a child. What's more, he looks like he is only about 20 years old and does not look like a person who has experienced many battles, but whether it is his facial expression or some other aspects.

Chapter 620

It was a bit breathtaking, but after passing the alchemy level, a huge black vortex appeared at the entrance to the next level.

At first, Gu Shaoyang in front of him didn't notice all this, but Zhao Yuyan next to him knew what was going on here, so she immediately grabbed his arm.

After all, as a senior illusion expert here, he could see the changes here at a glance. Following his actions, Gu Shaoyang next to him also realized some troubles.

But just as I was about to prepare to escape here, I was sucked directly into this place, and then I came to the surrounding area. I have to say that it is really surprising. The scene here is like watching a horse, all at once. flashed before his eyes.

Then when I woke up, I found that I met Zen Xin and the others again. Of course, this also included Fu Ruo Sha and Man Mo, but the only one who didn't see the Xun Fu from before was

"Why are you here?"

"You still have the nerve to say that you just fell out of the air and landed on me. I didn't complain yet, so why did you speak first?"

Hearing these words, Gu Shaoyang just glanced at them irrationally, then stood up and walked to the side. Seeing his indifferent look, the few people next to him didn't say anything, they just followed suit here. Follow him

"Don't go too far, kid. After all, we are here to save you."

The barbarian demon next to him suddenly spoke, but Gu Shaoyang ignored him. He just glared at him and turned away, disappearing from their sight.

And when he looked back, he clearly found that they were not there at all. They didn't catch up.

This was a bit surprising. According to their previous style, they would definitely catch up quickly at this time. The current look was a bit strange, and then the person in front of them immediately appeared. Action has been taken here.

The several passages in front of me all reveal a sense of danger, and if I happen to pass by here, I must make up my mind to swim through this muddy water.

But this passage is not necessarily right now. Will be open to myself. As expected, my guess was correct. These people did not follow me.

Instead, they were waiting for me at the door of this passage. How could they be everywhere? It seemed that they knew what their route was going to be. Walk

"We told you to wait here, we were willing to show you the way, but why did you have to run so fast? How could we still eat you here?"

Gu Shaoyang's eyes have been locked on the talkative Barbarian Demon. Although he said that he had no contact with him before, as one of the ten holy gods, it is impossible for him to disclose information to others casually. So in At this moment, my doubts are not unreasonable. After all, they are all well-founded, and at this moment, the barbarian demon looks at me.

It is not like someone looking at prey like before, but more like watching. A poor man, there wasn't even a hint of pity or regret in his eyes. He seemed to be a robot being controlled by someone else. His current appearance made Gu Shaoyang have to be on guard. He looked around and saw nothing.

From the high tower in the Medusa base, I saw the direction of the snow-capped mountains at this time. Could it be that the passage here has directly reached there. Although

I can't guess what will happen next, but at present It seems that it must have been handled properly, and correspondingly, I have also identified some redundant aspects.

As long as I have to make some decisions here, I will not end up where I am today, so how should I consider the remaining things? , in fact, he already had a scale in his heart, but he never opened his mouth.

"Look at the snow-capped mountains area on the other side. Did you come from there just now?"

The barbarian demon in front of him shook his head and said that he was not approaching. There were many other evil things in the snow mountain area. At this moment, he gradually expressed his emotions to the people in front of him.

But Fu Ruosha beside him He was not as crazy as before, but was uncharacteristically quiet. This scene really made Gu Shaoyang feel a little panicked.

So what if Fang Ruyuan and Zen Xin were here, and Zhao Yuyan who had been following him just now was also missing. , does it mean that they will disappear automatically after leaving the tower?

The current situation is also a bit difficult for Gu Shaoyang to handle, but the moment he waved his fist towards the tree trunk, he seemed to have discovered some flaws.

I don't know why I did it. At the same time as he made this move, Barbarian Demon rushed over and lifted himself up, and followed them towards the direction of the students.

Although he didn't know what they were going to do at this time, the speed was a bit too fast. Just now Didn't they say it's not safe up there?
