

## Attributes 621

### Chapter 621

"It just so happens that it's not convenient for just a few of us to go there. It's safe to bring you with us. After all, several of the ten holy gods are already here."

Although the other party's attentiveness made me feel a little strange, I didn't say anything. After all, in this situation, I had always wanted to see the situation on the other side of the snow mountain.

But there was something that made me feel a little bit. Unexpectedly, what is the reason why this person should not be here, and the direction they are taking now makes me feel inexplicable.

If you have to follow this road to the snowy mountains, there may be a lot of trouble, after all, I slipped in before. They were all quiet in their area. They were afraid of causing any accidents. The current situation made them feel a little strange, but they definitely did not take the initiative, let alone make any extra budget.

As a few people arrived. When I stepped onto the ground of the snow-capped mountains, I also found that not only was it extremely cold, but everything around was bare.

It was as if there was nothing here. This scene now also surprised the people in front of me. After all, it was on the other side of the desert. There will be pillars of snake people.

There must be corresponding survivors on the snow mountain. Why does it look like there is no living thing alive here.

I don't know if there is a problem as I expected before or if it is here. Everything is there. It was within the scope of my guess. Anyway, I wanted to do something after arriving here.

However, the person opposite did not give me a chance to react, and directly dragged me to one of the directions. This seemed to be something mysterious..

They already knew some of the movements of the snow-capped mountains. As they walked, they found that there were more footprints next to the footprints of several people. A row of huge footprints, which should be the legendary snowmen.

In addition, they all I never thought that other creatures could survive in the snowy mountains. After all, all the people coming and going here are people I had never expected before.

"Look, there seems to be signs of someone coming on the road here!"

A few people looked over there and found some weapons stuck crookedly in the snow.

"Why does this seem like the situation is a bit intense?"

"That's almost right. Snowmen should have lived here before. They even gave us another level of instructions, telling us to catch one here."

Hearing these words, Gu Shaoyang was a little surprised.

Who are they serving? It seems that they have different intentions of getting inheritance here.

But the current situation cannot be solved by just a few words..

But with their actions, I was put aside, and I was finally able to deal with some other directions.

But especially at this moment, I manually touched the surrounding environment, and suddenly found that something didn't seem right..

Everything around me has no real touch, as if something unrealistic at all appears in front of my eyes. It is definitely impossible to guess all the aspects of this situation, so I am just hesitant at this stage. Yu, I thought I could trigger some other clues at this time.

But the current situation really surprised me, but I also had no hesitation about what I should do. After all, I would confirm every option. After that, some changes occurred.

I casually grabbed a handful of snow from the ground and held it in my hand. Suddenly I found that the cedar was soft and soft, as if it was not the part I had stepped on before.

So I looked at it carefully at this time. Finally, I confirmed what the thing in front of me was, if I guessed it correctly.

This should be an illusion. I have never left, and the so-called third layer has never left here, so judging from the target state, I am sure It was unexpected.

But what Gu Shaoyang needed to deal with more was how to escape from here, so he sat on the ground, closed his eyes, and held his breath. He hoped to get some relief, but it was as expected. , as I started an immersive search here.

Unexpectedly, I discovered an alternative event beyond my expectation. After all, the period at the beginning was also full of wealthy customers for me.

What's more, In this current state, and correspondingly, I also saw a whistling wind coming from a few places nearby. If I guessed correctly, I guess there must be something running towards me. But if I want to To avoid it, there must be some methods.

But I can't guess at this moment. Thinking of this part, I have already had some concerns about what to do, so this is the current situation.

No matter how much I hesitate, I still give some methods, of course. There are many things other than this practice.

Chapter 622

So judging from the target state, I still need to spend some time to think about all this, but the target state does not seem to be as complicated as I thought.

After all, at this moment, he could notice that the people around him did not actively move closer to him no matter how hesitant they were. It seemed that he had thought about how he should not do the previous things.

I don't have any say in this matter. After all, I know that no matter what I say, others may not necessarily think it is the right choice.

Then you might as well not say a word, maybe you can save some trouble. Of course, this is just your preliminary judgment.

If it really causes some trouble, I will definitely be able to turn the tide, but at this stage, it may not be that simple.

I have already considered their factors in everything I can do, and I am still working hard to explore other aspects at this moment.

If I really found a reasonable direction at this moment, then this one in front of me is undoubtedly a good trap.

I specially set up a few points next to it, hoping that these can be solved smoothly, but the target state is not that simple. After all, I can guess that others may have left these traps.

It's not to find something, just to see if there are other directions to consider. After all, I am also hesitating for a period of time at this moment.

Unexpectedly, the direction displayed on the compass, as my thoughts gradually fell into a sea of Wang Yang, this mental force guided me to the sky and looked at the surrounding scenes.

At this time, Gu Shaoyang saw a huge spider surrounding him, and it was even spinning spider silk from his body.

And those spider silks weaved themselves into a web and surrounded themselves in it. No matter how stupid they were, they could clearly see what they looked like now.

Zhao Yuyan was anxiously calling her name on the side, but it was a pity that he was pinned to another network.

In this situation, Gu Shaoyang didn't know how to return to himself. He just felt a little overwhelmed by the distance.

But he also has a direction in his mind on what to do. Since he can create the scene he most wants to see here, does that prove that he also knows the real cause of the war epidemic here 500 years ago? What is it.

After all, Emperor Liuyun outside happened to be the character who was assigned to the territory of the snake people for the first time, but was eventually destroyed by them and sealed in turn.

So now he must ensure that all the information in his hands is true, and the identity of Emperor Liuyun is still open to question.

After all, he may not be able to figure out whether he is true or false, right or wrong, so at this time, Gu Shaoyang is particularly clear in his heart.

What should be done and what should not be done, especially at this moment, when I saw Medusa on the floor below.

He didn't know what was going on, but he didn't enter the tower. He just looked inside from a position on the same plane. However, there was a barrier outside the tower, and it was fanciful to want to see inside.

Logically speaking, this thing has always been on the territory of the snake people. Has Medusa never come in? Is it true that just because it is a forbidden area, no one comes and goes?

I definitely wouldn't believe it. After all, no matter how far away he was from the man next to him, I could feel the murderous aura in him.

If I remember correctly, that should be the Losman they talked about. At the beginning, Gu Shaoyang didn't pay too much attention to the news about Losman.

But I knew that at this moment I couldn't help but take a closer look. It happened to be the two of them that appeared on the mural in the first scene. In the end, Medusa died tragically in the hands of Losman.

If that is what predicts the future, does that mean that Medusa is already in danger? However, Medusa outside is discussing with Rosman to gather the eight holy gods to stand by at the headquarters.

After all, there have probably been some changes here at the acquaintance's main base. There are more and more cracks on the ground, and the energy value of this tower is exploding faster and faster. It is estimated that in a while, Medusa alone will There's no way to suppress this place

"There's no problem in asking them to come over, but it's not certain whether a few old people are willing to come out."

After all, there are young people here, and there are also older people. Those who are definitely more focused on their own abilities and trying to figure out their identity here. It is not uncommon to rely on the old and sell the old, but, the Great Holy God is everyone It is recognized that there is no difference in strength.

Chapter 623

"Then I can only leave this matter to you. You must help me take a good look at whether I can capture them."

Hearing these words, the person in front of him nodded and smiled. Without saying anything else, Medusa looked in the direction of the tower at this time.

Cracks had begun to appear in the barrier there. He turned around and went directly to the tower. After passing through the barrier, he used his own ability to repair the place. After all, Losman knew his strength very well. So he planned to take it step by step. If he wanted to capture Medusa at the first move, it would be simply impossible. It can be said to be a whimsical thing. After all, everyone here knows exactly how to do it.

No one will come up with unnecessary things out of thin air, but the current situation really makes me feel a little surprised.

Looking at Meidu With Sha's busy figure here, the person in front of him just raised the corner of his mouth and smiled, as if everything was in his hands.

As his smile dropped from the corner of his mouth, the others also disappeared here. Currently, this person The situation really caught everyone off guard.

However, all the snake people on this side of the base were also on standby. No one took the initiative to attack, but they all knew that the snake people were facing the biggest risk in hundreds of years.

"Don't worry, I will definitely help you gather the Eight Holy Gods here. I also hope that you can be careful on the road and don't be too confused. There are dangers around here, and there are even a few people who should still be watching our actions in Hanzhong. direction."

Hearing these words, Medusa nodded and swung her body away from here. This appearance attracted the attention of the people next to her, so the man stepped forward and put his arm around Losman's shoulders. His eyes couldn't help but There's a bit of a lustful look

"I remember you were quite optimistic about him before, right? You even had some other plans, why did you give up your plan now and stay here to guard him safely?"

"If you take a long-term view to catch big fish, there are some things that you don't need to be so anxious about, not to mention that there are still a lot of troubles that should arise in the process this time."

Looking at his deep appearance, the person in front of him was a little stunned. If it was really as he thought before, then this person was an uncertain factor. Besides, the previous process I have also integrated into a part, otherwise how could I be constantly entangled here, but the only thing that is beyond my expectation is really behind.

But at this time, I have left Medusa, and I have no idea what happened next. After all, for him, all these are just some pictures he guessed from the previous level.

Of course, no one cares about what kind of changes there will be at this moment. After all, at this moment, what he can understand Some aspects are also part of it.

Generally speaking, it is the gap between these few things, so I don't want to hesitate too much, and even these things have little to do with me.

Then Rothman contacted here He contacted the ten nearby holy gods, hoping that they could help appear at this time, and several acquaintances also agreed.

After all, they knew that this was a time when they shared the same hatred. Medusa also had some misunderstandings about them before, so she could also do what he said. Like that.

In this process, reversing everything, although I don't know if it is useful, everything that needs to be done must still have its aspects.

And the corresponding eight holy gods also discovered a special thing. If it is said before Medusa's strength is relatively strong among this snake people.

This time they also noticed another aura, which seemed to be much more complicated than they had budgeted before, so at this moment they let themselves guess. When it comes to some other aspects.

There is a high probability that this is all that should be done, but I also understand that these processes may not be that simple.

So at this moment, I am also in the process of constant consideration. In the end, everything else was decided, but it might be just one of the pawns in his prediction process.

So during the discussion between several Eight Holy Gods, several young people inside also stood up, and Sa At this time, Luo looked at the people next to him

"To be honest, I haven't come out of seclusion for so long, and I don't know what it's like outside. Christie, do you know?"

Christie, whose name was called, raised his head and glanced in their direction, then lowered his head. He didn't know what they were doing. When he saw several people doing their own thing and not communicating with each other, he couldn't help but let the people around him Losman smiled awkwardly.

After all, at this time, he was only here to invite the Eight Holy Gods to appear. As for what they were going to do, it had nothing to do with him, but Salo simply didn't want to do it at this time. Don't give up and continue to say this to Christie in front of you.

Chapter 624

"Don't worry about this for now. Let's go to the headquarters base first to see how the situation in the tower is under control."

Hearing his words, the other people ignored him, but Salo came alive and stood in front of him. They looked at

Losman carefully, and then looked at his shoulder blades. After squeezing it gently, Losman felt as if his whole body was falling apart.

"Don't worry too much. This is what I've inspired you to do. Next, you just need to adjust your condition so that the pain is not so severe. Then you will gain real strength soon."

Hearing the meaningless words spoken by the other party, Luosman in front of him couldn't help but feel a little strange, but after he finished speaking, he jumped away.

Christie beside him also turned around He glanced at Losman, as if to warn him not to have any thoughts about Salo. The person in front of him was intimidated by his look. For a while, he couldn't tell his intention, but what happened next It was really beyond my scope of consideration. After all, some directions of what to do have been shown, but the rest depends on my own changes.

Then I took several other people back to the headquarters base. On this side, Mei Dusha came out to greet her at this time and grabbed Natasha next to her.

"I didn't expect you to be here. I am here looking forward to the stars and the moon."

Natasha next to her couldn't help but covered her mouth and smiled. She usually didn't have many friends beside her, but this one in front of her was extremely powerful and had become the leader of the snake people at a young age.

On the contrary, he was a pretty good friend of hers. friend, then Natasha fell in love with Losman next to her, and then quietly talked to Medusa

"I have to say that the young man next to you is really good. Not only is he super powerful, but he is also polite here. If it doesn't work, just take her in. It's just about your molting period and you can find someone. protect you."

Hearing these words, Medusa pouted and expressed her complete reluctance.

After all, for Medusa, the partner she chooses here must be able to protect herself no matter how bad it is, but although Los Man's strength is extraordinary.

But when he meets someone of a higher level, he will be taken down directly. He doesn't want to have such a useless partner, so he finally rejected Natasha's request.

But the other party did not What to say, after all, there are many people nearby, including Salo. If you have to search for some method here, then this moment is also a rare direction.

"What do you think of Salo this time?"

"Forget it, you also know that I have known him before, and he always looks crazy."

"But his strength is really good....."

At this time, before he finished speaking, he was directly interrupted by Medusa in front of him.

"Forget it, the reason we came here this time is to deal with the tower matter first. As for the matter of partners, let's postpone it. Maybe I will meet my ideal husband among them next."

But this was an illusion, and she didn't even make a sound at all. In the end, Medusa couldn't choose anyone. After all, Losman's strength here was indeed what he said. It was just a superficial effort, but in fact it was not. There was nothing that could impress people, so in the following process, he only took on a small task, and correspondingly, Gu Shaoyang also saw his position clearly in this tower. After all

, I haven't guessed so thoroughly before, so the current situation really makes me feel a bit surprised, but correspondingly I also think of some other aspects. Generally speaking, these considerations are nothing more than the situation in front of me..

Several people searched here and couldn't find any special pictures, but at this moment they realized some other aspects.

Generally speaking, in this situation, the only thing that can be said is the immediate situation, so no matter how much you hesitate, , there is no chance now, and in this state, I am also making appropriate decisions on some aspects.

But the things that should be done are not given up at this time. After all, there are many things on each route that I cannot take care of..

It is because of this that Daye has dealt with all the things around him more and more, and he has also seen it clearly, and several other people have argued.

If you have to see several passages clearly here, then you must also see them clearly. After leaving this place, Gu Shaoyang in the tower gradually understood some directions.

It seemed that it was not that simple for him to return to his body. He did not expect that this level was set for him to be such a troublesome one.

Chapter 625

Because I had never been exposed to such a thing before, let alone getting these changes, I was just hesitant at this time.

I thought I could get some other changes, but I didn't expect things to go wrong again and again. The current situation is really a bit surprising.

And every time when he wanted to return to his body, an inexplicable aura would come from around him, and then block everything in his place.

The state in front of me really makes me feel a bit incredible. After all, seeing the target in this state is really a bit unbelievable to me.

And at this moment, I also guessed some other troubles. It is very likely that what should happen during this process is somewhat difficult to control.

But at this moment, Zhao Yuyan next to her was also working hard to change, as if she wanted to do it all over again, but she knew it just by thinking about it.

How could it be so simple? After all, any opportunities that arise, as well as other clues, are all beyond the scope of my consideration at this moment.

Therefore, the state of the target may not be as simple as one expects, but instead it keeps going around in the process.

After all, in the current area, the choices I made within the scope have also received some changes, so for now, no matter what.

If you want to make this end, it is very likely that what will evolve in the next second will be the most difficult thing to prevent.

Although some other clues cannot be detected at this moment, but looking at the target, there is not so much opportunity for hesitation. After all, what should be taken into consideration is still very clear.

"You see, some of the clues here are slightly different from what we guessed before."

Hearing these words, I suddenly felt a little surprised. It seemed that other people appeared next to me, but Gu Shaoyang in front of me did not hesitate. He took three steps here and two steps at a time and then went straight to the next step. After integrating into the body once, I thought that I would be squeezed out again this time.

But it was just right. This place did not exclude me again, but it also did not accept me. What happened this time was still There must be some deviations, but I also understood the status of the target. Maybe whatever I do at this moment is destined, and Zhao Yuyan in front of me also discovered something extraordinary.

She saw Gu Shaoyang's soul floating in the sky, But he can tell based on the movements of the woman in front of him.

He definitely doesn't want Gu Shaoyang to return to his body, so the next step depends on luck. After all, he also understands a certain level of handling methods here.

"I really didn't expect you to be so decisive this time....."

"How about that? As long as I can prevent no one from accepting the inheritance of Emperor Liaoning, that is my biggest mission here. Don't think that I don't know about your frivolous ways."

Hearing these words, the person in front of him couldn't help but frowned. Could it be that he felt the approach of Gu Shaoyang's soul?

But something was wrong. After all, he couldn't see its clues clearly from a distance. Logically speaking, Said there shouldn't be such a change

"Don't you just want him back? I have already known his location thousands of miles away."

Hearing these words, Zhao Yuyan in front of him breathed a sigh of relief. Isn't it because he was too worried this time?

But since he didn't realize where the person in front of him was, he was sure to win this time. After all, I can still understand the choices here, but some other clues that evolve midway may not be as simple as I thought.

"If that's the case, I won't say much more. I already know part of what to do, but your intention is really beyond my expectation."

Hearing these words, the unknown woman opposite suddenly snorted coldly, and then sat down on the stone next to him, crossing her legs and looking very chic.

But who knew that the real person was already behind him ? , and looked at him in the air above it. This scene made Zhao Yuyan behind him tighten his hands. She was also sweating a little. After all, this situation cannot be solved by just a few words. If it happens, Wouldn't it be terrible if there was any other trouble?

"Don't think about being alone here. If you really have this ability, you might as well think about how to escape from this place with Emperor Liuyun."

Hearing these words, Zhao Yuyan in front of him was stunned for a moment, and then frowned. How did he know that he had such a mission here? Could it be that all the people in this tower were based on the previous targets of Emperor Liuyun? Did you come here? It seemed that you had guessed what he was thinking.

## Chapter 626

So the other party looked at him carefully at this place, and finally laughed out loud as if he couldn't hold it back.

"Don't say anything else. All of us came here to suppress Liu Yun's second plan, so I believe you should know the next thing better than me."

Hearing what he said, the person in front of him didn't say anything else. Since she had already given some clues, it would be hard for him to continue talking about this aspect.

What's more, this trend really made him feel uncomfortable right now. It feels like a bit of a headache. After all, the state of the target is likely to trigger some other factors.

So before this, why don't you consider handling it properly from other directions? And the more you have, the more abilities you can shape.

But now there is another trouble. Perhaps the target state is completely unexpected for me, so this current state also allows me to understand some aspects. Generally speaking, everything is just these few pictures.

But unexpectedly What was expected was yet to come. At this moment, Gu Shaoyang had slowly integrated into his body, and the soul on his arm had returned there.

But Gu Shaoyang was not in a hurry to take action. After all, he wanted to ensure that he I can't guess my intentions here at all.

I don't even know what I want to do. Only in this way can I ensure that everything else goes smoothly, but at this moment, I obviously have some other ideas.

"This time, we probably have to go through our boss to release your so-called Gu Shaoyang, otherwise she will be trapped in that illusion for the rest of her life."

Hearing these words, Gu Shaoyang in front of him frowned. What gave him so much confidence that he even thought he could be invincible here.

If he really had the ability to defeat him here, then I'm afraid he would It was when he was crying. So now Gu Shaoyang just frowned and looked at him.

But he didn't say anything. It was probably because of this consideration that he took it for granted. In the current process, Emperor Liuyun undoubtedly became one of them. One of the main contents of the conversation.

Gu Shaoyang slowly put himself back into the body, while on the other hand he tried to return everything to tranquility. After all, as long as he could regain the initiative of the body.

Then in It's not a problem to capture him here. I just don't know if I can grasp it so completely during the process. But in the target state, I can clearly see the actions of several people around me.

He should be the only one in this layer, and There was no so-called helper, so this happened to be the moment for him to take the initiative, but he didn't know what kind of reaction he would make.

So Gu Shaoyang looked at Zhao Yuyan next to him. The two people could actually make decisions through each other's reactions at this time. A preliminary judgment.

So now it happens to be a suitable time, but I don't know if it will cause some other troubles in the next process.

And correspondingly, if we can't grasp the whereabouts of the other party before , I don't dare to move forward rashly, after all, I have to avoid these options

"In this case, I won't be polite. Everything this time must have a final result. You think you can win him, but you don't know that you can't even defeat me."

Hearing the other party's resentful words, the woman in front of him stroked her curly hair, with a look of aloofness on her face.

But the person in front of him didn't pay attention to him at the moment, and didn't even say a word. After all, in this What's the point of saying more when you're in this state? won't it end up like this in the end anyway?

"Your provocation is of no use to me. After all, I know my purpose here is just to help suppress Emperor Liuyun."

"Then do you think you can suppress him without taking me down?"

Hearing his presumptuous words, the woman in front of her couldn't help but narrow her eyes. There was a dangerous look in her eyes. After all, she didn't expect it at all.

This person thought completely different from her. If he was really like What she said means that she will be greatly disturbed next.

So in order to avoid these points, she must deal with the directions in front of her as soon as possible. Of course, it is also a good factor for Gu Shaoyang beside her.

"This time I can only use you to test his strength."

Zhao Yuyan didn't say anything after hearing his comfort. Instead, she kept provoking the people in front of her, because no matter which direction it was, she had expected something special.

But while this woman was taking action, I actually smelled a hint of Medusa. As expected, I recalled carefully that this was one of the eight holy gods on the first floor of the mural.

Chapter 627

"Can you be sure that he is not the Eight Holy Gods?"

"I can definitely be sure of this. The eighth holy god of snake people will definitely not succumb to a small tower."

"Is there anything else they need to do outside?"

"This is natural. In the entire territory of the snake people, whether it is comfort or some other factors, they are jointly responsible here, so I believe you are more specific about the current situation than I guessed."

At this moment, Gu Shaoyang is actually a little hesitant. After all, he has learned about the aspects that should be taken into consideration. Maybe this is a troublesome matter.

This high tower is his biggest test. Only by passing this can he get the title of Emperor Liuyun. Inheritance, in the final analysis, I am somewhat reluctant.

But hearing their tone and descriptive words is really a bit surprising to me. After all, if you look at it this way.

Then I have also received some help here, but How to deal with the funeral situation at this moment in front of me, I still have to do it properly and slowly.

Then this woman didn't pay too much attention to me at all. It seems that he didn't realize his position. You It was Gu Shaoyang who returned directly to his body without hesitation.

Although he didn't quite understand how to do this, he smelled a breath. If he guessed correctly, follow this corner step by step, and he would soon be able to return to himself. Within the body.

But I didn't expect that the woman sprinkled a circle of things around him, which happened to be the way to prevent him from returning to the body.

I really didn't expect that he would react like this, and he was in the target. In this state, it is also a position that has always been accommodated, after all, no matter how you say it.

In the current process, I have also guessed some other aspects. If I am an active party here, I will definitely be able to seize the opportunity, but it is a pity that I He was the passive party, and was led by him.

And the corresponding Zhao Yuyan also provided a cover for herself here. The two of them went back and forth and finally captured the woman in front of them, Zhao Yuyan.

According to their own methods, You want to be arranged around her. This time, I really couldn't figure out the proportions here, but it was also an accident.

"I really didn't expect that the people who suppressed them here would actually have such a role."

Then as soon as he finished speaking, he was directly sucked back into his body by a force. In fact, she had already guessed all this.

Otherwise, she would not have surrendered here. She did not dare to make other judgments, but I believe Correspondingly, I should also think of some other directions for consideration.

If I really want to do it, I won't have any subsequent troubles, but I can also clearly see several positions next to me.

I have to say During this process, I also considered some other aspects. As expected, the woman just disappeared for a while.

Then she appeared here again, but I was not in a hurry. This purpose can definitely be taken into consideration now, but As for what kind of changes there will be in this, it is not something I can

explain clearly in a few words, and correspondingly, I have also learned some other aspects. If I want to make this choice, I must also Thinking through several other directions.

And at the same time that he appeared here, the shadow appeared next to him again. At first, he didn't expect it. He just wanted to escape in this place.

No What comes to mind is some other situations that are difficult to guess. After all, the strength of the woman in front of him must be beyond his scope of consideration.

Otherwise, there would not be frequent deviations here, and Zhao Yuyan simply cannot compete with him at this time, and let herself I saw his disadvantage.

When I was in fantasy, I thought he would help me. After all, he also said that he was quite strong in fantasy.

But when the actual battle came closer, I realized that this was not the case at all. , his strength is limited to setting traps for others, but once it really falls on him, then all this is just a myth.

Once all this becomes groundless, he also learns some other things, After all, with a high probability, I have also learned some aspects. Instead of wandering around this place, why don't I consider some other things? What's more, such a change now makes me a bit surprised, but Gu Shaoyang is here At this time, he looked at the unconscious woman.

He was lying next to him, but he smelled an unusual smell. If he guessed correctly, this woman was just a substitute for herself.

So now the harm I have done to him is actually not substantial.

Chapter 628

But he couldn't ensure his safety here, so he could only take a peek at a few nearby locations.

I hope there can be some changes, but I have to say that the situation in front of me has also caused some other interference.

After all, the current situation makes me think of some other things. If I can really consider so much, then why wasn't there such a difference before?

However, he did not hesitate any longer on this floor. Instead, he walked directly to the seat next to him.

He directly reached out and pressed the button in front of him. I have to say that at this moment, I also saw several other positions. I had already guessed some of them before, otherwise I would not dare to be reckless here, but there was only one thing that made me feel a little bit... Very strange.

Why does the button in this place not change after I click it? Could it be that someone had tampered with this button before? At this moment, I was weighing it a bit, and I didn't dare to deal with it too obviously.

But the layer of dust on the surface made me realize that no one had been here for a long time.

If it was really as he thought, this whole tower was filled with people suppressing Emperor Liuyun, then it would be quite difficult for him to escape now.

So at this moment, I have considered it carefully and have no intention of cutting the knot quickly. After all, that is not a good thing for myself.

It's just that the process is definitely more complicated than I expected, so how to think about it becomes a rare thing.

Or maybe it's because other types remind me of other aspects at this moment. Maybe the chain of previous things can't compare to the one in front of me.

So I was also thinking about whether I should react like this, and correspondingly, I also saw several directions next to me.

If the people nearby are not disturbing to you, then you must start here, but before avoiding these things.

I may have to deal with some things first, so that I can avoid most things. After all, no one wants to cause trouble here. On the contrary, I was obviously a little surprised by the other locations I saw here.

"These passages are the most conflicting. It depends on how you want to deal with them here. Don't forget that everyone here is pending."

After hearing his words, the person in front of him realized that he couldn't think that there is no danger here just because he stayed in this place for too long.

After all, the people on the Shi Dasheng God List were all there before. People here are watching eagerly. If you think that your ability can defeat other people, then it would be a bit too arrogant. After all, I have seen some aspects of the previous things. If you have to consider it here, then in fact, in front of you This incident is also a rare situation, but correspondingly, I also saw several directions nearby.

In such a large room, how could there be only one path for this woman? There must be other people.

Only However, at this time, I must ensure that other aspects are also dealt with thoroughly, so that in the end, all these things will still be in vain.

Then several people found some extra things in the corner, and no one expected that the two people would You will find a secret on this level.

It cannot be said that this is one of the moves of Emperor Liuyun before. When Zhao Yuyan saw him, a look of surprise flashed across her face. After all, here I still know very well what to do.

What's more, in the current situation, and correspondingly, I also guessed several changes in the surroundings. At the beginning, I didn't get this formula.

Everything around me was according to my own rules. Advantages are used to target, but since entering the fourth floor, Gu Shaoyang has clearly noticed the difference in the auras around him.

And they are all rushing towards him. At this moment, no matter how stupid he is, he knows how to deal with it. He dodged the attack in front of him.

Unexpectedly, the attack was a blue light. Salo immediately searched in his mind, but he did not remember anything related to this light. Could it be that this was him? Is there any trouble? But this is a bit too far-fetched for me.

But if several aspects are chained together in one phase, there will definitely be some different solutions. But at this moment, Gu Shaoyang is trying hard to distinguish the situation in front of him.

Want to Find the mastermind behind the scenes, who took the initiative to attack me here. After all, the surrounding air is filled with a straight atmosphere.

If you really have to find a clue here, then you definitely can't say it so hastily. And it was through this direction of consideration that I thought of some other things.

Chapter 629

However, the light in front of him quickly came to his eyes. Before he could guess what the other party wanted to do, someone followed him.

At first, I didn't see clearly what he was doing, but it wasn't until the next second that this breath hit my face that I realized that something was different.

It even allowed me to see several other directions. At present, these two things really caught me off guard, but I also learned some things in the target state.

You can't do whatever you want in the entire tower. There are other things that need to be considered.

I really didn't expect it at first, but now I'm afraid it's not as simple as I thought, and at this moment I also saw the dangers displayed in several other directions.

That blue light appeared from here. As long as you can be keenly aware of some other locations, there is actually no problem in escaping from here.

But the fourth one can't be that simple, so after thinking about it, I still stopped here. Zhao Yuyan next to me felt a little strange and looked over from outside this place.

"What are you doing? Don't we have to hurry up and get out of this tower?"

But the person in front of him did not reply to him. Instead, he was here minding his own business. He went out for a movie, as if he had decided to leave, but it also made the person in front of him a little strange. What was he doing? It wasn't like this before

"If you're in a hurry, go ahead. I'll see if there are any other directions I can handle here."

Hearing these words, Zhao Yuyan in front of him basically understood. It seems that he wants to get some other possibilities here.

But just thinking about it, it is clear how this matter can be so easy. Here He said that he had also expected some aspects at this moment.

He was a follower of this place. Once he left voluntarily, he might be judged by the tower as not being so cautious in doing this. He didn't want to encounter this right now. It was such a trouble, so I immediately rejected it all here.

"It doesn't matter, I will follow you here, and there won't be any trouble anyway. If anything happens, you can call me again, and we can take care of each other."

The person in front of him didn't pay attention to everything he said, as if he had a general understanding. Gu Shaoyang didn't intend to speak at this time. What he wanted to do was his business. Anyway, he had already decided on some aspects in the end. , but at this moment I guessed some other things

"Do you think this attack is original?"

Before Zhao Yuyan in front of her could speak, she was held down by the person next to her, preventing him from speaking. The person in front of her had a bit of surprise on her face, and she didn't know what he was talking about.

"What happened this time is nothing more than these changes. If that's the case, I won't be polite. Please remember to watch from behind and call me if there is anyone sneaking around."

Then he rushed directly into the shadow area here. The person in front of him must have wanted to save everything, but just thinking about it, he knew how it could be so easy.

As the pace of Gu Shaoyang's feet became faster and faster, the people on the opposite side were going on. There were more and more attacks, and I also guessed some other aspects at this time.

But I didn't expect that the person in front of me turned out to be a copy of Emperor Liuyun, and he actually used himself here as a symbol.

This was indeed something I had considered. I was out of range. I paused before taking action, but the person in front of me suddenly laughed.

"This one happened to be true, and it was exactly what you were thinking in this place. Unexpectedly, you happened to have exactly what you wanted to remember. Then the person opposite him is your friend, and you absolutely cannot not attack him in this place."

Then Emperor Liuyun punched him directly here, and the people in front of him also fell back one after another. Although he knew her ability before. He also heard everything about him from several other people. But he didn't expect it. The actual fight between the two caught him off guard.

After all, he couldn't solve this stage at once, and Emperor Liuyun was far more powerful than him.

Just by him making a move here The speed was enough to make him feel defeated, but Gu Shaoyang suddenly remembered what he had gotten here before.

The formula he got on the third day was about improving abilities in a short period of time. Does that prove that he can now It will come in handy.

So he immediately took a deep breath, without hesitation at all, and decided directly in front of him. At this time, Emperor Liuyun in front of him was also a little hesitant. After all, he did not expect that the other party would be so decisive. Of course, the corresponding Not all people think of the same thing here.

Chapter 630

But the more this happens, the more it proves that their ideas are different. There is not much difference in what they do here, but in this current state.

I also saw several other troublesome things. If there was someone here to guarantee all this before, now he is fighting alone.

So at this moment, Gu Shaoyang looked at Zhao Yuyan beside him and motioned for him to help him divert the attention of the people around him.

"I don't know if this thing is of any use to you."

Then he took out the piece of paper in his hand, read it carefully, and burned it in front of him.

Seeing this, Emperor Liuyun in front of him couldn't help but narrowed his eyes. Eyes, what gave him such confidence that he could beat himself without this piece of paper.

But who knew that he had already memorized the contents of this piece of paper in his heart, and now that he had burned it? , then you must be sure of victory and know what to do next. Get the best out of it.

Then a ball of fire burst out in his hand, but it made Gu Shaoyang feel that this temperature was not the real fire of Samadhi written on the piece of paper.

I probably need to look for any living weight among these layers. This fire is bigger than an ordinary flame, but it is inexhaustible.

This is indeed a good direction to consider. Mastering this essential point will be of certain help to you. In fact, this is what you have just found at the level of alchemy.

After all, I was there to keep the flame burning, and I also mastered some skills, but there were some situations that I might not be able to think of smoothly.

And correspondingly, I also guessed some other aspects. If I really delayed like I did before, would it cause any trouble?

But then I carefully looked at the locations around me. Not to mention causing trouble, this place was actually airtight.

When he thought of this, Gu Shaoyang decided to fight, and then his face, which had no expression at all, suddenly became more serious, as if he was dealing with some big trouble.

Then Emperor Liuyun in front of him couldn't help but squint his eyes and smile. , seemed to be mocking him, but who knew that Gu Shaoyang had already figured out the method at this time, at least there would be no problem in taking it here.

It's just that there are some situations currently that are beyond your scope of consideration, so you have to consider what you want to do.

It was impossible to rashly attribute this to the original starting state, and correspondingly, I also guessed some other troubles.

Emperor Liuyun did not take action in this place with so much contempt, but also with a sense of complaint. Now he is also in a passive situation.

But before that, Gu Shaoyang also understood in his heart that Zhao Yuyan told herself some of the mechanisms in the entire tower.

So at this time, I am more sure of the person in front of me. In fact, there is nothing I can do to him, after all, if he really wants to do something to cause interference to me here.

Then he will also have some other changes, so at this moment, he will never move forward recklessly, let alone take the initiative to attack himself here. After all, he is still clear about some considerations here.

But the more it was because of these situations, the more I was caught off guard.

But if I continue to dodge Emperor Liuyun's attacks here, does that prove that I am afraid of him?

If he feels that everything becomes reasonable by then, then he will be in trouble, so at this moment he is still trying to save time.

I hope to be able to speak properly and reasonably in this place, but Gu Shaoyang also learned some other aspects at this time.

Since Emperor Liuyun took action at this time, no wonder he made some small moves. After all, it was all for his own sake.

Then in the next second, you basically saw Liu Yun rushing towards you, so at this time, you immediately called out Zhao Yuyan and asked him to help you. Unexpectedly, there was chaos inside, but there was peace outside.

No one thought that at this time, Salo, Christi and Natasha had successfully settled in several locations around the tower.

Christie frequently looked into the tower at this time, as if he was a little worried about the situation inside, but Salo next to him patted him on the shoulder.

"Don't worry, we have Medusa and Natasha this time. No matter what happens, it won't be our turn to take action."

Hearing these words, Medusa next to him immediately glared at him, with a look of reluctance on his face.

"Don't talk nonsense here, I asked you to come here to help, so don't estrange the relationship here!"
