### Chapter 641

However, since he specifically asked about it, he always had to take care of Zhao Yuyan's condition, so at this time, he looked at Emperor Liuyun in front of him.

I wanted to ask something from his mouth, but I didn't expect to encounter some other troubles at this time, and those people had already arrived in front of me, and now it was impossible to avoid it no matter how much I tried.

"It's really troublesome. I thought I could ask about the final result at this time."

He muttered casually, and then a slight smile appeared on his face in the next second, as if he was not dissatisfied with their arrival. After all, he must stabilize their minds before doing so. First, he must I know why they are here to find the whereabouts of Emperor Liuyun.

I know part of the things from his mouth, but it does not mean that everything will be as I think, so I still have to make a common advance and retreat. judgment

"It's okay, just because Emperor Liuyun is a special point here, we need to find its location. If this has caused some interference to you, then we can say sorry in advance."

Hearing these words, the person in front of me also frowned, but did not say anything else. After all, I also learned some aspects during this process. Compared with the previous ones, I may be more willing to follow the good path. However ,

Medusa also looked sideways at this time and looked towards Gu Shaoyang in front of her. Although he hesitated, he still saw Zhao Yuyan next to him. As long as he left at this time, there would definitely be no problem, Mei Dusha waited for him to disappear here before taking a step forward.

She was going to talk to him about the follow-up matters. I think the things between these points can be seen. As for the chain reaction.

Then It's not something that can be explained clearly in a few words. On the contrary, at this time, Gu Shaoyang still needs to properly consider some other things.

After all, these may be more important than the rest, and at this time, he also discovered some changes in the people around him.

"Are you finally willing to tell us this time?"

Gu Shaoyang in front of him nodded, and then took out a small bead. This was originally the one entrusted to him by Emperor Liuyun.

But before Xiang Keli left, he secretly changed the bead and quietly turned it into a bead. The other one, as for the real bead, has been taken away.

Otherwise, Emperor Liuyun would definitely not have appeared just now. He would have thought that he had been sentenced. But in his current state, he shouldn't have said anything.

"This time things started from this bead, which carries the soul of Emperor Liuyun. If you have any questions, you can start from here. After all, I am not a god, and it is impossible for everything to be perfect. Know things like a god."

After hearing these words, Medusa couldn't help but grit her teeth. Although she knew that what he said was true and reasonable, she still had an idea in her heart. She didn't want to agree with his statement, maybe This is a troublesome thing. Of course, there have been some unnecessary changes. Generally speaking, it is just this one thing that has brought interference and changes to myself.

## Chapter 642

"Don't worry, I will keep my word this time, and I will definitely wait until you find Emperor Liuyun before leaving."

After all, I also lack his inheritance now. He just showed up, but in the form of a soul. I don't know where he is at all.

Once the sealed position is exposed, it means You can grasp it by relying on your own inheritance, so at this time, the distinction between the pros and cons is still very clear in your mind.

At least from this current approach, it is certainly a way to take the long term to catch the big fish, but it is also here Opportunities to prepare are also rare.

Correspondingly, I see more and more methods and think of more and more clues here.

"Forget it, since he has already spoken, he will definitely help us. Don't get too entangled here, what if you scare someone."

Hearing his words, Gu Shaoyang in front of him made an expression that was not out of place on his paralyzed face.

But at this time, Christie next to him looked at him, with a bit of surprise in his eyes. He looked as if he knew what he was going to do.

"Unexpectedly, Medusa would hesitate at this time?"

Natasha next to her looked at her with a smile at this time, with a bit of joking interest in her eyes, but Gu Shaoyang didn't have any reaction at this time. He was just here to ask for help.

More What's more, there is definitely nothing good going on in Emperor Yun's cave alone.

So compared to this matter, I may be more willing to follow, even if they are here to make up for their losses, it doesn't matter. After all, how can so many things be just right? Appearing in front of your eyes, it's enough to stop it, and correspondingly, you also feel some other thoughts.

If you can understand some aspects of the things in front of you at this time, it doesn't seem to be a bad thing. After all, now Taking the initiative at this time may not always be the best strategy, so you may need to properly handle some troubles at this time.

"If several people go in together, will it cause any trouble?"

"How do I know this? I didn't enter the scenic area of Emperor Liuyun. I just brought a high tower. You don't think I know everything about Emperor Liuyun, right?"

Hearing his words, Medusa couldn't help but feel a little embarrassed. How could anyone speak openly and secretly with ridicule and sarcasm. I must not be able to stand it at this time. I originally

wanted to talk to him at this time. He said something, but he didn't expect that the person in front of him ignored him at all, and even stared at him closely.

"Don't worry, I am here for history and I will definitely follow you safely into Emperor Liuyun's cave. If I really want to harm you, I won't use such an excuse."

Medusa was about to come up and refute something, but was stopped by Salo. This was the first time she saw him showing such an expression.

"There is a reason for what happened this time. After all, we wasted a lot of time. If we continue, it is very likely that we will not be able to achieve the previous achievements."

### Chapter 643

After hearing these words, Medusa could only grit her teeth and said nothing more. Since the words had reached this point, she would definitely not hesitate here.

But for Gu Shaoyang, this matter is not that simple. Perhaps in this process, what Medusa did was something he did not expect.

But at this time, I didn't take the initiative to do anything unnecessary. It couldn't be so sudden, but at this moment, I could clearly smell a hint of danger.

Compared to before, I am more willing to stay safe here. After all, some of the directions to be dealt with have become facts, but there is only one thing that makes me have some thoughts in my heart.

If you really follow them into this cave, there is a high probability that you may meet some other people, but you just don't know whether the inheritance given to you by Emperor Liuyun is true or false.

If he promises himself and can do it, then he will definitely restore it. Although the bead is taken away, it does not mean that he will resurrect it here. The next step still depends on his actions.

"Don't worry, after you enter the cave, we will designate a place for you. Then please stand there and don't move."

"What can I do if I move? I won't cause you any trouble. You are going to seal him. I just want to take a look at what the so-called Snake Clan's real abilities are."

He knew that Medusa was easily aroused to his anger at this time, so he acted like this on purpose. As expected.

Medusa in front of him was so angry that he even planned to rush up to confront him here. He reasoned for a while, but the person in front of him wanted to reject him, but he didn't expect that before Hua opened his mouth, Medusa next to him was one step ahead of Salo, and she immediately showed up here.

"So what happened? Even if you really have such ability, there is no way you can overcome the gap between us snake clan. Let you see it as long as you see it, and you won't learn anything anyway."

Hearing these words, Salo and Christi next to him looked at each other, and then couldn't help but shook their heads. What happened this time really caught him off guard.

Especially at this moment, for Salo Some of the things that Luo Lai had thought of before also gained ground.

After all, what Christi brought up at this time was what she wanted to warn him. Medusa couldn't help but feel a little regretful after listening to it.

But said The water thrown out when he went out and what he did here could not express some of his views on these people.

Therefore, even if he regretted it, it would not be so easy, but the people in front of him did not intend to catch them all here. It seemed as if they were still given a chance.

As they packed up their things and entered the cave, everyone was ready, but an unexpected incident happened the next second.

No one Unexpectedly, at this time, the seal on the outer ring had been slightly loosened, and all the golden light rushed towards them like a locked target. The first one to be attacked was Medusa in front of them.

Chapter 644

The eyes of Salo and Christi behind him flickered, and they immediately threw him down and pulled him aside. The people in front of them did not react to all this.

But he hesitated, but did not give a chance. On the contrary, several people around him were disturbed, especially the notes in front of him. At this time, Ben fell back one after another.

Although I have thought of some aspects before, it is impossible to solve it so smoothly at this time. In addition, there are other factors here that limit everyone's approach.

And at this time, your capital also guessed that they would not always make money here, so this gave them the position and opportunity to take action.

Of course, this is just a preliminary budget I made, and I will properly handle these subsequent troubles in the subsequent process.

But in this process, he must face some other troubles, at least the Medusa in front of him is one of them. It would be great if he could not interfere with him.

After all, the strength between the two still fluctuates up and down. If you use your strength in time, you will not cause some trouble here. I am afraid that everything will not be as smooth as you imagined.

"The great task of revitalizing the Snake Clan falls on your shoulders. I hope that the reason why you come to me is not to admit defeat to him here."

Hearing these words, Medusa couldn't help but frowned. She didn't expect that the other party would say such disappointing words. However, after thinking about it, she felt that Salo was not unreasonable. After all, she had done some things before. Things have brought some interference to him here.

It is reasonable, but in the current state, he is indeed a bit caught off guard. Things that should be taken into consideration are also exposed at this time, which is the moment for him to take the initiative.

Gu Shaoyang behind him was also looking at where in the huge forest to block Emperor Liuyun.

But at this moment, the other party suddenly poked his head out from beside him, which scared him. He jumped, and then glared at him here.

Although he was frightened, there was no crack on Salo's face in front of him. Emperor Liuyun could not help but curl his lips when he saw this look.

"I really didn't expect you to be so boring. I thought I could scare you, but look at your paralyzed expression. It's like the fruit on the tree always looks the same."

Hearing his words, Gu Shaoyang's face turned black, like the bottom of a pot. He didn't expect that the old naughty boy would actually say these words at this time.

Maybe these were some scenes that he had not expected before. Of course, the goal nature also makes me a bit abrupt, and all I can think of are taking the initiative at this time.

So the next step may be to start with Medusa and see what abilities everyone has to take the position of leader here. , there is no way that when everyone recommended here, they actually chose an unknown trash.

However, the oppressive atmosphere coming from the entire cave caught me a little off guard, and what happened before didn't matter anymore. But this time it is definitely not that simple.

Moreover, Emperor Liuyun also specially gave himself a few words at this time.

#### Chapter 645

"The place where they entered must have sealed my front position, but if you want to find my inheritance, you can only enter from the side, and you must not let them find any trace of you.

Otherwise, if you are caught here, you will cause some other troubles, and maybe the little girl who was sent away just now will be dragged back by them."

Hearing these words made Salo roll his eyes. Yes, what if Zhao Yuyan escaped, but was escorted by them and found a place to hide.

Wouldn't that be different from what he thought? You It was at this time that he strongly asked them to help him find his location. Unexpectedly, Zhao Yuyan didn't look back.

They had already reached the desert, which made her face a little confused, but the people around her couldn't help it either. There was some cracking look on his paralyzed face.

"You should rest assured that we have done everything we promised you. I hope that after entering the cave, you will make the same unswerving choice and never cause any trouble for us."

Saluo nodded, with an indifferent expression on his face. Medusa still didn't know why she felt a little annoyed every time she saw her, and she didn't even know what to say. Natasha next to her was At this time, the water snake twisted its waist and approached him.

"Looking at your small stature, you are not bad, so why not just forget it with me here, otherwise you can't leave the snake man's territory. After all, you are the one who followed us to the forbidden area. It doesn't seem that easy to leave like this, right?"

"But you have already promised me that you will let me go when you find something."

Hearing these words, the woman in front of him smiled, as if he thought she was very innocent.

But Gu Shaoyang in front of him did not refute, knowing who is the real king here.

After all, there is Emperor Liuyun. I quickly found the terrain next to me and the direction in which I could escape from their control, so I tugged on Salo's arm next to me.

"He went to relieve himself next to me, thinking I was going to run away."

Saluo was a little surprised to see him take such an initiative, but he thought it was because he couldn't defeat the Eight Holy Gods, so he stayed here honestly.

This can be considered a good thing, and it is better than one after another. 3. It would be much better to escape here. After all, I would have to spend more time at that time.

"I didn't expect you to be so proactive, so I won't be polite."

Hearing these words, the person in front of me was stunned for a moment. I didn't expect that the other person would speak to me in such a tone. Then the moment I was taken to the corner next to

me. It was also the last moment I heard this sentence. Then He was knocked unconscious. When he woke up again and covered his particularly painful forehead, his face turned as black as the bottom of a pot. The majestic

Eight Holy Gods were actually plotted here by an unknown little character. I'm afraid who it was. Everyone would feel that they couldn't lose face.

Then he used the communication equipment to find several other people at this time, and then discovered that they had reached the location where Emperor Liuyun was sealed.

Looking at the disappearing footprints next to him, he couldn't help but feel at this moment His face suddenly changed, and then he took out his communicator and ordered them not to come here.

#### Chapter 646

There was no further discussion at all, but how could the Medusa in front of him listen to his words at this time and dive into the area that sealed him.

Unexpectedly, another person appeared next to him, and that was Gu Shaoyang. He walked directly in front of several people in front of him, and took out what he was holding.

As that ray of light shone on them, Gu Shaoyang did not expect such a situation at this moment, and then something special happened the next second.

When this ray of light enveloped them, Medusa's sharp eyes discovered that it was actually golden. Could it be said that this was the skill of Emperor Liuyun before?

So what is the relationship between this kid in front of me and Emperor Liuyun? At this time, I recognized it, but I couldn't understand his strength and everything he did.

But the next second he took out a small bead from his side. When this bead came into contact with the air, it floated directly to the top of the place.

And it continues to absorb these flickering golden lights. As the light is sucked away, the seal here begins to become weaker and weaker.

Medusa must have been excited at this time, so she immediately revealed her true form, tapping the barrier in front of her with her tail, but Natasha next to her stopped him.

"This whole environment is not a winning one for us, and it may cause trouble. Don't get excited yet. Let's see where Salo is and see if he can help us."

Then Medusa took a breath at this time. Although she didn't know what to do at this time, the trouble she caused obviously gave her a slight headache.

If the previous things were like this, it would be fine, but... Why are you betraying yourself here? Thinking about it, you feel something is wrong in your heart.

"Why do you think he betrayed us this time?"

"Maybe it's not betrayal at all. He never intended to cooperate with us. Unexpectedly, humans are really cunning, far beyond the scope of our guessing."

"You can't say that. When you sealed Emperor Liuyun before, why didn't you think about whether he would experience something here."

Hearing these words, Medusa in front of her was stunned for a moment. This is a tradition passed down from above. How could she possibly know why?

"It doesn't matter whether you know the reason or not. Besides, this is our mission. Would you do the same if someone else entrusts it to you?"

At this time, Gu Shaoyang thought of what Emperor Liuyun had just told him, so he smiled and lowered his head.

"How is this possible, and some things are just like that, if you say it is him, you say no, then he can never be surpassed."

At this moment, the figure of Emperor Liuyun also appeared next to Gu Shaoyang. He began to merge with the beads in front of him, but thinking about it, how could it be so easy?

Medusa's eyes widened. , I saw it in the sky at this time. I didn't expect that such a change would happen at this time, but I could also see the surrounding scene clearly. If I really have the ability to be the leader.

#### Chapter 647

That must be because of the current reason, not because of some things that don't need to be considered. Now I have also guessed some scenes in this scene. Compared with the previous things, all this makes me Even more eye-catching.

And at this time, Medusa also started to look at him. If he guessed correctly, the other party must have guessed his actions.

Even if he wanted to do this, he couldn't agree to it properly. After all, there were some things that caught him a little off guard.

And at this time, I guessed something else.

If I remember correctly, some of the actions taken by Medusa at this time should be based on the person before, and I happened to be able to get the final answer through such a path.

"But it was hard enough to follow you all the way. I didn't expect that in the end you opened this area for me. Only people from the Snake Clan can open this door, otherwise I wouldn't have followed you here for so long."

"So what Salo said just now should be true?"

"Not only is it true, even on the trip he accompanied me just now, I knocked him unconscious and threw him into that corner. I didn't expect that they would inform you when they woke up, but these words were taken as a joke by you."

Hearing these words, Medusa was very angry. After all, this was his territory, but he was being fooled around. If he had another thought, he would not be happy.

Moreover, Gu Shaoyang also took out this It was snatched from the hands of the man in black before, but he didn't expect that just when he was about to take action, the compass in his hand was taken away by a figure.

Gu Shaoyang's reaction was very fast. He squatted here and pressed the compass directly in his hand, and then looked up at the person in front of him

"I really didn't expect that the man in white and the man in black would appear again. I knew I would use this compass as a trap.

You will definitely jump in without hesitation. The things probably belong to Emperor Liuyun, otherwise how could you be lured to this place to rob them."

The man in white and black in front of her smiled at this time, which really surprised her, but then she actually pulled out a person beside her. This was Zhao Yuyan who had disappeared here before.

"I knew that the person you have been watching here will definitely be useful. I didn't expect that he would be your friend. But this time it is really surprising. Why don't we make a deal and exchange the compass in your hand for he."

At this time, Gu Shaoyang laughed, as if he felt particularly disdainful, but at this moment, he felt a little confused.

"Do you think I think he is important? He is just a companion I met in the tower. Even if he has great abilities, what does he have to do with me? He is just an ordinary person."

Hearing these words, Zhao Yuyan also had a stunned look on his face. Zhao Yuyan gave the person in front of him a heavy blow on the second day.

After all, if what he said was false, the person in front of him would not know it at all. With such a reaction, several people now looked at her.

Chapter 648

She seemed to feel a little sorry for her, but the person in front of her just kept holding back and didn't even say a word.

"Why do you have to ask this? Without his promise, maybe I could still stay here safely. He has already taken me away.

But you just sent me back again. I really don't know if you will become that man's lackey because of something that belongs to Emperor Liuyun."

I don't know if it was an angry comment or something, but the performance was quite good at this moment. The people next to me must have been frightened. After all, no one expected such a situation to happen.

But everyone has been restricted. Within this small area, no one can escape from here, including Medusa. When she saw him, she felt a little emotional in her heart. After all, she didn't know why, but when she looked at him, It always feels like meeting old friends.

However, due to the different camps of the two, I have never been able to ask him if he has seen him somewhere, but at this moment, I have firmed up my thoughts.

This is The man who appeared at the inheritance ceremony before, they are absolutely the same, but if Gu Shaoyang hears what he said, there will inevitably be another uproar. After all, the two people do not know each other, and they say it at this time After saying these words, it was tantamount to causing some trouble.

But correspondingly, I saw some other clues. Compared with the previous things, the person in front of me may be more representative.

As expected, Their expectation was that Salo would arrive here in a short time, but when he arrived, it was already too late.

He opened some of the inheritance magic circles of Emperor Liuyun in this place, and the bead also came from His hands flew up, and the people in black and white did not expect that they would actually make wedding clothes for others.

At this time, everyone was in a pending situation. Unexpectedly, they were all drawn into a chess game, and Medusa didn't expect it at this time.

As the leader of the snake people, she would fall into someone else's trap at this time. It's a bit incredible to think about it.

But she will not give up even if she should do and think about it. Yes, on the contrary, there are some factors in the target state that will catch him off guard.

Of course, this cannot be the reason why he emphasizes the reasons here. On the contrary, he needs to understand all this through some redundant methods.

But at this time, Gu Shaoyang is keen. He noticed a trace of breath, and then immediately leaned back. Unexpectedly, a figure appeared in front of him. It was Salo who had been knocked unconscious by him just now. At this time, he smiled at the person in front of him. Say something.

Then in the next second, he was directly involved in such a whirlpool. When he woke up, he found that he had arrived at this place.

Although he didn't know where it was, he could obviously feel it. Got it, this place is not as simple as I thought before, and at this time, the person who really dealt with everything here is none other than Salo from before. The two people can be regarded as having a rift. How could they meet at this time? How about talking nicely?

Chapter 649

"I really didn't expect you to plot against me."

"There are many things that you didn't expect."

The environment here returned to tranquility in the last second, and there was no sound of ups and downs at all. With this situation, the curtain came to an end.

Everyone is waiting for the last opportunity to see whether the Emperor of the Year of the Ox is alive. What changes will be brought about here has been something that has puzzled everyone from the beginning.

But everyone is also looking forward to it. After all, will the people who once dominated the civilized consciousness change at this time?

But who knew that the person who appeared at this time was not as strong as they thought, he was just an ordinary person. Finally, he looked at the man in front of him and stretched out his hand and handed him something like a bead.

This made Gu Shaoyang in front of him a little surprised. Is this what Zhao Yuyan said was the strongest? It was indeed a bit unexpected for him, but the man in front of him didn't say anything to him.

Instead, he handed his hand out. As if he wanted to hold himself, he didn't hesitate and moved over. Unexpectedly, at the moment when the two hands were superimposed, he smelled a special breath, and there was a huge energy at this moment. The impact hit his body.

If it had been before, he would definitely not have noticed it, but he didn't expect it to come from now. This moment really caught him off guard, but in this situation, he also let himself A bit dependent.

After all, no one can help in this situation. Once the eight of them reunite to attack themselves, they will probably suffer some trouble, so the people in front of them are also waiting for someone. The right time, but the inheritance of Emperor Liuyun in front of me is so powerful.

It suddenly flooded into my body. This scene must still make me a little confused. After all, what I should do is unexpected.

And now At this moment, I couldn't decisively take down the things in front of me, so I had to wait for an opportunity, but the eight holy gods around me did not attack me. They seemed to be waiting to see how I would explode. If Liu Yun died, he would still inherit all the knowledge of Liu Yun Judgment here, which would change their capture target.

After all, what they want to restrict is not Emperor Liu Yun, but his inheritance here, his energy And the method he inherited to deal with the Snake Clan.

But there is a reason for all this. If he doesn't let go now, or even doesn't let them use it, then they also have no way. So at this moment, I was just watching all this from a distance.

But I didn't expect that the other party did not explode and die, but lived well here. At this moment, the people in front of me were somewhat caught off guard.

After all, these things must be what they imagined. It's slightly different, and I just want to take advantage of this opportunity to end everything just right.

"Things this time must be slightly different from what we thought before, and we should make new plans."

"Are you saying you want to capture Gu Shaoyang here?"

## Chapter 650

The eight holy gods in front of him all nodded to him, but at this time Medusa did not want to do it not only because of her own unbearability, but also because of her identity.

"Don't forget Liuyun, Dadi is the one who was left here before, but he is different. He is the one who came in this time.

If we restrict his behavior, we will cause other troubles. When talking about the same hatred of human beings, you also know that those postures are simply more powerful than monsters that want to eat people."

Hearing these words, the eight holy gods beside him could not help but hesitate. If what Medusa said is true, then this time she has indeed encountered a rare trouble, but correspondingly It's impossible to just give up without working hard.

"It doesn't matter, let's just give it a try. If it doesn't work, just give up halfway. After all, we have heard about Gu Shaoyang's strength before.

Although he is relatively powerful at this stage, sometimes he may not be able to break out alone without the assistance of his companions."

A few people discussed it and decided to take down Gu Shaoyang first, of course while it absorbs the essence of Emperor Liuyun. After all, Emperor Liu Bin next to him is already an ordinary person.

How could they come underground here? , but the person in front of them said a very friendly word to dissuade them from their next actions.

"If you want to enter the palace, I advise you to come closer after it has absorbed it, otherwise something may happen."

But after it was absorbed, no one could beat him, so the person in front of him rolled his eyes and moved over. Unexpectedly, his reminder turned out to be true.

At this moment, he took the initiative to attack him. Everyone was pushed to the back, and even suffered some injuries. The current situation caught everyone off guard.

But there was still one person who didn't lean over. Seeing his actions, Emperor Liuyun in front of him just said He sighed, but didn't say anything.

Then he took the initiative to keep a certain distance from them, thinking that the other people must not understand what he was doing.

But as the next second came from beside him , There was a scream, and then they realized that something seemed to be different.

The attendant of the Eight Holy Gods thought he was very strong, so he leaned over here, but unexpectedly he was electrocuted back..

You can even feel that the circle of things he sold the factory to is definitely not there, it is just for viewing. The golden light does have the consciousness of protecting the Lord like the ones outside the tower before, and it can even evolve here. Some other things.

Otherwise, I would not have been frequently disturbed here. Of course, it was because of these factors that I continued to hesitate. Although I had guessed some reasons, it was not that simple.

Moreover, these golden lights were directed towards my body. While feeling surging inside, I also smelled a hint of danger. After all, I had understood some of the situation before.

Things would never be solved so smoothly, and I would never be able to get other help here. , but Emperor Liuyun did not intend to help him, which really surprised him.
