

Attributes 651

Chapter 651

After all, I can be considered his successor. Is it really okay to be so indifferent to me? But the other party had no intention of having any contact with him.

Even if you don't want to disclose any extra information, if this is the case, then there is no need to hesitate, no matter how good you think in the end.

In the end, it was just a waste of water, so at this moment, Gu Shaoyang also thought of some other troubles.

In short, based on the above things, I can be considered a match against the Eight Holy Gods here. After all, the first Emperor Liuyun could suppress 8 of them at that time.

Otherwise, he wouldn't have been regarded as a dangerous character and was eventually suppressed here. The Holy God suppressed him precisely because of that.

After spending all the power, it finally dissipated into the air at this time. Even among these few golden lights, it is very likely that there will be figures of these eight holy gods.

All these things made me feel a little caught off guard, but I also couldn't waste time on what I should do, or maybe it was because of other reasons.

But he didn't think that much at this time. Gu Shaoyang guessed a lot at this moment.

In the end, it could only be fused into a small bead in the light, and then jumped to the top of the sky. The altar was surrounded by offerings.

After all, this place is full of skeletons, and I happen to need such a big thing to inspire all of this. These golden lights should also be the souls of the Eight Holy Gods.

Otherwise, how could there be a need to sacrifice here, but the eight holy gods below did not devour them at all. It seems that they must have recognized their companions.

However, I didn't go quickly at this time. After all, one look at it and I knew that this situation was not something I should handle.

If I had to take action, it would probably cause some other troubles, so I was a little caught off guard at this time, but what I should have considered was also not put to an end at this moment.

"I believe you must have thought more about this time than I did. Since you have become an ordinary person, why are you still here and not leaving?"

"Isn't this waiting for the right time? I can't leave you alone here. You are the only one here who carries my inheritance."

Hearing these words, the person in front of him smiled, but he didn't say anything else. He just wanted to inherit it.

Everyone is doing it for their own selfish things. Unexpectedly, Even he is unavoidable, but at this time, I don't have much time to hesitate. It has taken a lot of effort here. If there is still something involved with him, then there is definitely no way to be completely safe here. Return

"Now that the inheritance is almost complete, you can make good use of it here. When you find something that can activate the flight mode, you can take me out here."

Hearing these words, the person in front of him couldn't help but feel dumbfounded. Didn't he plan to tell him how he could practice here? He had to find out all this on his own.

Chapter 652

But it can be regarded as a training now. Thinking of this, Gu Shaoyang didn't say anything more. Instead, he started to look for his own direction nearby.

I have to say that the question the other party gave me was quite realistic. At this moment, I obviously noticed some clues, but other questions also happened one after another.

If I could escape the first level at this time, then the rest should not be a problem, so I didn't say anything at this time, but took the initiative to extend a helping hand to them, hoping that they would receive my bona fide

"My purpose of coming here has been achieved. There is no need to continue to struggle here. If you don't have any other clues or things, I will just open the door here and take you back."

But at this time, Medusa did not admit defeat. She even wanted to argue with him at this time, but she was grabbed by the people next to her.

"What will you do if your theory fails? Don't forget that there are many people outside waiting for you. You are the leader elected by our snake people. You can't just die like this in a battle."

After hearing these words, Medusa could only grit her teeth and retreat here.

Although she said that she had thought about these aspects, she did not expect that she really needed others to tell her now. After all, what happened this time really made her It's a bit embarrassing. I have considered these aspects before.

But it is a pity that it has reached this point now. For Gu Shaoyang, there are some situations that are ready to go. It doesn't matter whether he wants it or not. Anyway

, There are some other factors that need to be taken into consideration here. Shaoyang has an arrow on the string at this time and has to make a move. After all, some of the choices he made and what happened have a direction for implementation at this moment.

"I will help you do this this time, and the rest is up to you. Emperor Liuyun clapped his hands at this moment, and the light in his body began to flicker again, and he carried him to another room. The eight holy gods outside were standing with the ordinary person in front of him. , now that he has lost its ability, there is no need for the few people in front of him to confront him tit for tat.

"I really didn't expect that Emperor Liuyun, who was once so astonished for a while, would turn into what he is now."

Hearing these words, the other party just smiled, with a somewhat narrow look in his eyes.

"So what, now I am relieved. This inheritance has stayed with me for thousands of years, but I didn't expect that it would be inherited by a young boy in the end.

I didn't agree to how many people came to me to study at that time. Even one of the Eight Holy Gods at that time wanted to become my teacher. However, it was a pity that I was unlucky at the time and couldn't agree because of my enthusiasm."

Hearing these words, several people couldn't help but look towards the sky, as if they were recalling that period of time. Later, because of his failure in studying, he became angry and directly detained Emperor Liuyun here.

This led to The subsequent seal situation, I thought it was false at first, but I didn't expect that the longer I stayed here.

Chapter 653

I found that they seemed to be seriously trying to block themselves here. Is it just because they would pass these things on to other people?

Anyway, the matter of Emperor Liuyun has passed. He doesn't worry about it, and there is no need for other people to continue to stagnate here. After all, everyone is a living being here, as long as they live the rest of their lives well. enough

"I believe you are much more thoughtful about this matter than we thought, so the next thing depends on you."

Hearing these words, Salo was stunned for a moment. This didn't sound like something he would say. Could it be that he was possessed by a ghost? At this time, Emperor Liuyun couldn't help but glare at him.

"Aren't you one of these complete leaders? I think you are much more sober than that little girl of yours, so why don't you be my next messenger here and continue to maintain the relationship between the human race and the snake race."

Hearing these words, the person in front of him couldn't help but waved his hands. He didn't intend to do this kind of loss-making business. Besides, he also noticed some clues about what happened this time. If he had to consider so much here, he would definitely not a good thing

"I don't want to see it as a loss-making transaction. Before you did this, you were sealed in my territory. What if I end up like you?"

"Can't you kid think of something good?"

"Your role model is not very good either."

The two people actually had a big quarrel here, which made Medusa next to her twitch her mouth.

Why is this person still as childish as before? But it is precisely because of this that Salo has no other people on his mind. It's so difficult to understand, otherwise I wouldn't have stayed together for so long.

However, this man reminded Medusa of their previous relationship. If he was not that person, then I would definitely not believe it. Whether the two people were breath or Actions, even the actions are consistent

"What are you thinking about here?"

"Wondering when we can."

Medusa said something angrily, but Natasha knew that he would never think about it.

He was eager to stay here, hoping to spend the last minute with Gu Shaoyang, but the man in front of him was a little... She doesn't even want to see him.

After all, she is only interested in Emperor Liuyun here, and the person in front of her is just a little-known little character.

"Next, we have to see who can show his true ability in this place."

Hearing these words, Gu Shaoyang in front of him couldn't help but froze for a moment.

Although he couldn't see the outside environment, he could hear their voices and see their actions here.

At this moment, for him It's really a surprise. After all, no matter how you do it, there are some deviations here. At this moment, I also understand some aspects.

Compared with the previous things, I am more willing to fight to the death here, but of course I am not. Instead of starting from this moment, there may be many ways to solve it.

At this time, Medusa stared closely at Gu Shaoyang in front of her, as if she wanted to see some clues from his face.

Chapter 654

"What happened this time started with you, and you must end it for us."

But Gu Shaoyang in front of him had no way to respond to him. Emperor Liuyun smiled at this time and pointed at his chest, hinting that Gu Shaoyang was in the process of passing on the inheritance.

But at this time, Medusa refused to give up. , thinking about cutting the mess here and taking them down directly, but think about it and you know.

Even if his ability is really not as strong as Emperor Liuyun, but he now inherits Emperor Liuyun's skills and everything about him, how come Maybe it will be dealt with so easily in the future.

"You better not think too much. He is just an ordinary person here. The reason why he came here to help is entirely because he accidentally signed a contract with me somewhere before."

Hearing these words, Medusa looked at Emperor Liuyun in front of her with confusion, as if she was speculating on the correctness of his words.

"If you don't believe it, there's nothing I can do."

Medusa in front of her turned her head and murmured to Natasha for a while. At this time, the other party could only choose to believe him first.

"But you, Snake people, haven't always adhered to this. The more such changes occur, shouldn't you think about it sooner?"

At this time, Medusa couldn't help but sigh with guilt. What happened this time was all because of herself. Otherwise, how could she be here without saying a word?

"So what? I still have the final say on this huge territory."

Hearing the Emperor Liuyun in front of him, it was this girl with a rising star who was rather abrupt who made the decision directly here.

I had already guessed it before, but in this place, the leader of the Snake Clan was... Who can be seen at a glance

"So this time it's no longer the two of us to blame."

Hearing what he said, Medusa just reasoned, and then saw something in the corner, so she didn't continue to entangle with him, but walked in that direction. In that corner was a piece of Crystal clear pebbles. I had never seen such a thing at first, but at this moment, I seemed to suddenly have a flash of inspiration and think of something. At this time, I hurriedly walked over there.

But Salo next to him stopped him. , her eyes signaled him not to do this

"Trust me once, there is definitely something we want in this."

Now Salo was a little hesitant, and then he inadvertently looked at Emperor Liuyun next to him. He seemed to know what they were going to do.

But he was still smiling here, as if he had a chance to win. Seeing this, he also I learned some aspects in a timely manner

"Forget it, he looks like he probably knows what we are going to do, and by then it will be just a waste of excitement and nothing."

The people in front of me didn't speak at this time, just telling the story quietly, as if they were testing what they were going to do. At this time, Medusa next to me also sighed, and what he said was also It does make sense, after all, these things are inevitable

"Then listen to you. If he doesn't plan to attack us here, then we must get to that side as soon as possible."

Chapter 655

Salo in front of him nodded immediately, otherwise with Medusa's character, he would not discuss it with him if he disagreed.

It is estimated that he would just turn the world over here, but Emperor Liuyun next to him ignored them, and did not even guess what they were going to do. He just looked at them with a calm smile.

There were many things that reminded me of the moment in front of me, but the next stage caught me a little off guard, wondering what I should do.

These are some aspects that I have thought of before, but at this moment, I also see some other pictures. After all, there is a high probability that I have already helped out if there are some things that I can do, and the rest are marginalized..

As Emperor Liuyun's behavior in front of him did not change, Salo did not hesitate anymore and directly called Christi next to him.

The two of them took Medusa and left the room, leaving the other five holy gods here to help guard Liu Yin in front of him. After all, the danger to the other party was not over yet.

"I always feel that although he has become an ordinary person this time, he is still as talkative as before."

"What you said is that he just lost his skills, and it's not like he changed his appearance here. How can you say that it's different if it's different?"

Several people were shuttled here quickly, but they saw a strange scene in front of them. It turned out that a projection of the three of them walking was suddenly projected on a wall.

A few people even saw a shadow walking over. , such a scene appears in such a cave, but it really makes people think a little more.

"What should we do now?"

"He just responded to the image and didn't stop him here. What are we afraid of? We just picked him up."

But suddenly an old and old voice came from the side. It seemed that he was coming out to stop their fish. Salo and Christi in front of them immediately formed a line of defense to let Medusa behind them leave as soon as possible.

"What about you two?"

"Don't delay, then we at least have a chance to escape."

Hearing these words, Medusa in front of me couldn't help but be caught off guard. Although I was determined to come here, I didn't expect to leave my companions here.

So the consequences are now like this. , suddenly made me regret a little, why did I have to take advantage of this wall to run inside in the first place?

It seems that the elders advised me not without reason, but at this time, the two people who were guarding him behind him, They didn't expect that their leader would hesitate at this time.

Of course, the five holy gods who helped intercept Emperor Liuyun in the cave had already fallen to the ground. Unexpectedly,

Emperor Liuyun not only had Gu Shaoyang as his helper, but also There are a few others, but they didn't show up at this time, but now everyone is here

"Gu Shaoyang probably worked hard on what happened this time."

Natasha frowned when she heard what she always said about Gu Shaoyang.

"Don't always think like this. If this is really the case, how could it be like this?"

The person in front of me curled his lips.

Chapter 656

"Then if it wasn't him, why were we plotted in the cave?"

"How can you blame him? Furthermore, everything will have different results. Now it's just because we are being threatened by Emperor Liuyun here."

"Then why don't you think about how he is just an ordinary person, how can he do all this?"

Hearing what the two of them said, Salo in front of him couldn't help but change his face, and then pinched Christi's shoulder next to him.

"Oops, the four of us forgot to tell the other five holy gods when we arrived. They must have been knocked down by this time."

When she heard these words, Medusa still felt a little incredible, but as Christi closed her eyes here and immersed herself in the surrounding environment.

Putting all the details to the maximum, it was only at this time that It was discovered that not only the five holy gods fell to the ground, but also many other helpers of Emperor Liuyun appeared in the cave. It turned out that he had not only played Gu Shaoyang as a chess piece from the beginning.

But at this time, only Gu Shaoyang inherited his true Thinking about it made the people in front of him feel a little excited, but Gu Shaoyang didn't say anything at this time.

On the contrary, Zhao Yuyan began to find her own position here. The two people had no connection before. , after saving her that time.

I no longer wanted to have anything to do with him. Regardless of whether it was his first game or not, his mindless actions were enough to make me feel a little bored.

If it was true He needs such a person, that is the most unlucky thing for him, so he is also trying hard to avoid his tracking, but he did not expect that the other party is determined to follow him.

"I didn't expect you to be here"

"What's the matter with you coming to see me?"

"It's nothing, Liuyun asked me to protect you here."

"You don't even think about what your strength is like. You can't even do well in a simple environment. What can you do to protect me?"

The person in front of her couldn't help biting her lip, with a look of grievance on her face. But at this time, the person beside her didn't take care of her emotions, and didn't even pay attention to him.

"Sometimes there is a price for doing things. Besides, you can't see this scene now. The reason why such things happen here is entirely because of those unrealistic choices, so now it is also Your only chance to choose."

Zhao Yuyan in front of her bit her lip and looked at him firmly, which inevitably gave Gu Shaoyang a headache.

"You must know that Emperor Liuyun's side still needs help. You go there first and wait. I will call you if there is any trouble here."

But the person in front of him didn't make any move after hearing his words, and he didn't even move. This gave Gu Shaoyang a headache. Of course he knew some things, otherwise he wouldn't have stood still here. He started to persuade her.

But there were some things that he wanted to explain to her just because he had thought of them. However, the person in front of him seemed not to listen to his persuasion at this time. He followed him wherever he went. He has been following behind like a follower. Seeing this appearance also gave Gu Shaoyang a bit of a headache. He pinched his eyebrows after going to bed.

Chapter 657

"How about this? I remember that the inheritance of Emperor Liuyun might not be that simple. Why don't you tell me what he told you?"

"He said that all the inheritance and techniques here can only be studied by yourself, and the methods provided by others are wrong."

Hearing his words, Gu Shaoyang in front of him couldn't help but twitch his lips. Isn't this just deliberately looking for trouble? Moreover, he has also shown the gap in strength before.

Everything is honed through his own talent. I thought that since the teachings of an predecessor were passed down in this place, I wouldn't have to work so hard, but I didn't expect that in the end I would still have to do it myself.

"Are you sure that's what he said?"

Zhao Yuyan nodded, and then continued to follow him. In front of him, Gu Shaoyang suddenly came to a new world. He subconsciously looked back and found that Zhao Yuyan was still following him.

"This is a new world, and it is also a storage point for Emperor Liuyun's valuable inheritance. Everyone who accepts its inheritance will come here. The first thing is to breathe the air here and learn to adapt to the breath of this ability."

"From what you said, Emperor Liuyun should have many successors."

Originally it was just a joke, but he didn't expect that Xiao Heli in front of him nodded seriously and this way caught Gu Shaoyang off guard.

The old man really accepted a lot of disciples. This made him a little surprised. After all, he had I didn't think of these things. Of course, I would not give up some predictions about the inheritance of Emperor Liuyun at a small level.

After all, I can still understand the difference between right and wrong. The reason why I have so many memories If you are an entry-level player, you are afraid that others will not even take a second look.

So you also know how difficult it is to get this request, so you have to give it a try. Here I bite the bullet and continue to move forward. This is indeed a new world.

It also opens the door to a new world. After all, the conditions on the left and right at the beginning were all built according to my previous standard configuration, which I saw in the cave. The scene of Emperor Liuyun's first place.

The two villages next to him were taking care of each other at this time. Although he didn't know who was inside, the peaceful atmosphere revealed really caught him off guard. The longing eyes definitely couldn't be hidden, but it didn't seem to be as simple as she thought at this time.

Zhao Yuyan, who was next to her, slowly walked up to Qian, as if she wanted to lead him the way, but Gu Shaoyang did not follow his path. Go, which inevitably made Zhao Yuyan's eyes dim.

In fact, he knew in his heart that the man in front of him had opinions about him, but it was also because of an incident before that he was not willing to do things for him.

Still Isn't it all because Emperor Liuyun asked me here? If it weren't for him, these situations would never have happened before. So at this time, I tried my best to explain all this to him, but I didn't expect that the person in front of me was not willing at all. Listen, not even paying extra attention to yourself, just exploring the surrounding environment.

Chapter 658

Adapting to everything around him is a quality that a fighter should have, so at this time he is also trying his best to integrate into the environment, even checking to see if there is anything similar to his before.

But only then did he realize that this was a brand new world. There were even living people in this small world. It didn't look like a template, but like it really existed.

"This is a small world within the inheritance of Emperor Liuyun."

Hearing that he was finally willing to listen to what he said, the person in front of him was also very excited and quickly introduced everything in this village to him.

It turns out that this is like a small world, which belongs specifically to this inheritance. , only by truly inheriting this inheritance, will this small world open its mysterious doors to him in sequence according to its power.

Of course, at this time, I could only start with Zhao Yuyan, so I asked him about some of the details of this small world. Under special circumstances, I discovered that the other party seemed to be somewhat different from what I expected at this time.

"This side is the exit and entrance of inheritance. The two locations are in the same place, but the scenes you see after you go in and come out are different. After you have his inheritance here, you can start to the next one. A place to go."

Hearing these words, Gu Shaoyang in front of him was still a little caught off guard. It seems that he is also using a ladder system here.

Although it is difficult for him to grasp it clearly now, he did not take the initiative to attack, but was cautious. Here, I slowly explored the surrounding situation, which of course brought some troubles to Gu Shaoyang at this moment.

Maybe this matter was a point of hesitation for me, but at this stage, Gu Shaoyang also guessed some other things, Medusa couldn't have expected it so clearly.

At least in this small world now, he can't catch himself and can't do anything to him, so this happens to be an opportunity for Gu Shaoyang, and of course it also guarantees some other factors.

"This incident seems to be very similar to ours."

The two people next to them also became vigilant at this time. Medusa and Salo beside them did not expect that Emperor Liuyun would actually take another action behind their backs.

After all, no matter how bad things were before, it was nothing. He is a gentleman, why are he starting to do the actions of these villains now? Of course, he cannot deviate from his sect, and he must have guessed some other aspects.

So Emperor Liuyun was a scam from the beginning, and at this time, he also heard Hearing some voices from the outside world.

Unexpectedly, they were all shouting and shouting near him. Only when he heard what they said did he consciously realize something. It turned out that

Emperor Liuyun had taken precautions against him from the beginning, and even Don't forget to tease yourself here, this so-called power of inheritance is just some fragmentary clues.

Of course, I heard that the real Liuyun Emperor is still being sealed, and I don't know if what they said is true or false. After all, in this At that time, there were many aspects that I could guess. Of course, at this moment, some other factors were inevitably triggered.

That is, I was wavering here, whether I wanted to find the real Emperor Liuyun, or in this inheritance How about appreciating the existing power?

Chapter 659

And Medusa and the others also got some corresponding clues to prove that the one just now was not the real Liuyun Emperor from before.

She didn't know where the real one was, but it made Medusa a little annoyed. How could the mission that had been handed down be broken in her own hands?

Just thinking about it makes me feel a little ashamed, let alone doing some unnecessary things at this time. Of course, the purpose is much stronger than this matter.

Some of the stages I had guessed before were gradually coming to an end. I have to say that this moment really caught me off guard.

Salo and Christi next to them also showed their true approach. Before, they might not agree with their decision to go to the tower or even search nearby. Unexpectedly, they are now completely obedient to them. Come to think of it. I saw the trouble here

"This time we might have to join forces with Gu Shaoyang, after all, the real Emperor Liuyun hasn't come out yet."

"It depends on the situation, even if you want to do it, they may not be willing to do it."

At this moment, everyone had a bit of a headache, and then Medusa stood up directly as if she had made up her mind, and looked at the person in front of her.

"If that's the case, then let me go. No matter how bad things go, you have to give me some face. After all, I am also the boss in the snake man's territory."

When Medusa got in front of Gu Shaoyang, she realized that the other person's eyes were very cold, as if he didn't intend to talk to her here at all.

Then he came back in despair. It seemed so fast that the two of them thought it was... The countermeasures were discussed.

Unexpectedly, the other party pursed his lips, full of grievances, and Salo laughed out loud. It seemed that this time Medusa, who claimed to be invincible here, also overturned.

"I've told you, this man is definitely not easy to get along with. As for whether she is willing to cooperate with us here, it probably depends on our sincerity.

"What kind of sincerity does this mean? I can't even save the place now."

"Then you don't understand. These things can only be done if he is willing. We can't just say it directly in a few words."

After hearing his words, the people in front of me could only give up temporarily. After all, there was indeed a reason. Although the aspects I had considered before were not so comprehensive, it did not mean that they could not be adopted. On the contrary

, At this time, people around him were looking at him, as if they wanted to find some starting point from himself, but thinking about it, he knew how it could be so simple.

And for Gu Shaoyang, he didn't want to fight with these snakes at all. After all, Xiang Keli also said before that they may regret it at any time here.

In addition, this is their territory. Once I make such a choice, what if I am targeted by them in the future? I seem to have guessed it. His idea, so Salo gave him his token during the negotiation.

"This thing can protect your safety. Seeing this jade pendant among the snake tribe is equivalent to seeing me."

"are you sure?"

"You have to believe it no matter what, otherwise how can we cooperate?"

Saluo looked at Gu Shaoyang in front of him with narrow eyes.

Chapter 660

The other party also hesitated for a while, and finally agreed, pinched the jade pendant in his hand, put it in his arms, held his own Seven-Star Longyuan in his hand, and walked towards the four people next to him. passed

"I wonder if you have any plans here?"

"It's nothing, but I didn't expect that Emperor Liuyun was not himself. We only have three of the eight holy gods left, plus one leader."

"This situation is indeed a bit tragic. Only me and Zhao Yuyan are left on our side, but don't you have much control over the terrain here?"

"Not to mention taking control, we have never been here."

Hearing these words, Gu Shaoyang couldn't help but be a little stunned, and gradually began to feel depressed. He couldn't deal with good things, and had to wait until the end every day to complete them.

And correspondingly, now that he knew that Emperor Liuyun was not himself, it was of no use. , it is impossible for me to turn the tide and catch him here and prevent him from continuing to deal with it. This is not an easy task for me.

"You also know that it is not easy for me, and here I am fighting alone."

Hearing these words, Medusa next to her couldn't help but turn her teeth, and finally pointed at Zhao Yuyan next to her.

"Are you sure it's useful? He is just releasing an illusion here, and then he will never be of any help to me."

Hearing these words, Zhao Yuyan next to her couldn't help but look embarrassed. Although she felt that his behavior was a bit unreasonable, what he said was indeed true.

"I really can't bring him too much help here. Whatever you think of, you can definitely handle it with him."

After hearing these words, Medusa couldn't help but her eyes lit up. She just wanted to see if there was any other way here. Since he agreed to cooperate here, it was a good thing, even though he was reluctant..

But this is nothing to me. Of course, it also involves some other factors. At this time, I carefully looked at the surrounding environment.

I hope to do something else, but I never expected that it would cause these troubles in the future. After all, I thought of other things.

But I may not be able to predict everything. Of course, in the process, Salo and Christi also showed their true skills. They made a plan for several directions around them. Prediction, sealing his position is nothing more than finding clues in this Bagua array, but the compass in his hand has become the top priority

"The man in black and the man in white have always wanted to get this thing. It seems that this compass must be a treasure."

"Since it is a treasure, you are still showing this treasure in front of me, so that we can steal your things openly."

Hearing these words, the people in front of me frowned. What's there to be afraid of? If they really want this thing, it's their turn to get it.

This seems to be a small plate picked up casually on the roadside. I was about to arrive here to attack the men in black and white, but I didn't expect that after careful study, I found that something was a little different.

"What happened this time is really unexpected, but these things are not unexpected."

"Which aspect do you mean?"
