

## Attributes 661

Chapter 661

Salo and Christi next to them smiled, and then took out the things in their hands.

"These are some things we searched for on the roadside before. If I remember correctly, they should be related to Emperor Liuyun. Take a look first and take them if they are useful."

The last few people split up here and did not worry too much here. They seemed to have recognized some of the processes here, but I have to say that the options in this area did catch them off guard.

And correspondingly, Gu Shaoyang expected What was outside the range was Medusa's actions. He seemed to have identified it early on, and this was unknown. He ran towards this direction without hesitation. Gu Shaoyang frowned while looking at his route. He had indeed thought about it before..

If Emperor Liuyun transferred them here, how would he do it? But after coming out of the closed secret room, Gu Shaoyang knew that this matter was not simple.

And in the process, Emperor Liuyun left behind for him These clues are actually incremental, but at this stage, it is impossible for me to express some categorical thoughts. After all, I am also passive at this stage.

And they all came here with a purpose. , I don't want to cause some trouble in the middle. Of course, Qixing Longyuan beside me also made some noises at this time.

If I guessed correctly, he must be preparing to attack here. I don't know if he is ready to attack now. , and which one is it to collide with?

I have also seen before that some of his abilities are indeed much more complicated than I expected, and even his strength is far superior to these people.

But I have found other methods, myself If I remember correctly, Emperor Liuyun disappeared from here before.

As long as I have the ability to find his replacement nearby, or something similar, I can escape from this cave very quickly.

But these things He is not the only one to make such a conclusion. It is always an intermediate point, but at this moment, he has obviously discovered another point.

Emperor Liuyun must not have made such a simple prediction before, and he should even have made some unnecessary predictions. The preparations, at this time, I can't think of so comprehensively.

So I can only take a look at it from all angles. Which path to take then depends on the final outcome. After all, no matter how much I say now, It's useless, so it's better to give it a try here.

After all, some of the options in the middle also catch you off guard here. Of course, there will always be some other ones in the target state.

So maybe this is your only chance to take action. Of course, everything is also It is impossible to guarantee everything through his own words.

So at this time, Gu Shaoyang just looked at Medusa frequently, as if waiting for him to make a choice and some other predictions.

The other party lived up to expectations at this time and returned here. He directly captured the area in front of him. It seems that he is the only one who knows about this seal altar.

"In this case, you will take the lead, and the rest of us will follow. If you have any questions, just call me. I will definitely bear the brunt."

Hearing these words, Medusa was a little surprised. We are only in a cooperative relationship, so there is no need to do this.

Chapter 662

But it can be clearly seen that when she said this, the serious look on her face was definitely not fake. This time it was really a bit sudden.

However, Gu Shaoyang did not continue to dwell on these issues. Instead, he focused on the people next to him. After all, there were many people who had brought changes to him in a short period of time.

At this moment, Gu Shaoyang also thought of something unnecessary. Compared to these few things, he would rather waste more time on this matter.

And correspondingly, Salo and Christie also took the time to check at this time. Looking at the surrounding situation, they did not expect that Emperor Liuyun discovered this place before them.

And found their traces, even though he was an impostor.

But some of his characteristics, including the way he speaks and tone of voice, are exactly the same as before. Even Zhao Yuyan, who has lived beside him for hundreds of years, can't see the difference here.

"He probably has some other abilities that he hasn't revealed yet, so everyone should just stand here and stay put."

After hearing these words, everyone couldn't help but feel a little nervous. After all, this matter cannot be solved in a few words.

Once some other deviations occur, it will be terrible, so no one here can Didn't speak, didn't say anything

"You also know what happened this time. As long as I have some skills, I won't waste time with you here."

"But isn't the previous inheritance already up to date?"

The man in front of him smiled, and there was a little more look in his eyes, which caught him a little off guard, but he didn't say anything.

"Do you think these are the clues I gave you? In fact, this is a time bomb, because the energy itself is huge and cannot even be consumed in the body. Otherwise, do you think that any good thing can happen to you?"

Hearing what he said, Gu Shaoyang looked at the people in front of him carefully. Since what he said was for this purpose, he decided on some actions.

Since he is unkind, don't blame yourself for being unjust. , quickly find an opportunity to get rid of it here.

However, some aspects here did catch me off guard. After all, everything I saw before showed some special feelings here, especially at this stage.

Next to Medusa came directly in front of him, just to search for some other methods. Of course, at this time, he also understood in his heart. The real hesitation should not appear here, so now he only needs to ensure All this can be developed according to the direction in your heart.

Even if he has great ability, he can't do anything about it. Just because he thinks well doesn't mean he can achieve this level. There are a few people here, you look at me and I look at you

"So what else do you want?"

"I just want to tell you that the remaining five of the Eight Holy Gods over there have been eliminated by us. I don't know what Medusa will think after hearing this."

At this time, the other party was ready to rush forward, but was stopped by Gu Shaoyang. He first shook his head at him, and then whispered something in his ear.

Chapter 663

Then Gu Shaoyang looked up and saw Emperor Liuyun in front of him, and showed him a way out.

"This is the direction we came from the other side of the altar. You can leave from here and you won't bump into other snake people."

Just when he saw him about to leave, Gu Shaoyang in front of him smiled and then said something.

"Things are changing, and what happened this time will come back to you sooner or later. I advise you to be careful what you do outside."

Hearing his words, Emperor Liuyun in front of him smiled indifferently, as if this matter made no difference to him.

After all, some choices that should be made at this stage have also been revealed. Maybe this is It's probably the most unexpected thing. Moreover, everything has a connection between them. It's no wonder that I think of some unnecessary things.

"It doesn't matter, let's wait and see when bad luck comes. Isn't it still our home court now? If you really have the ability, just rush forward."

At this time, it was Medusa who was holding him. Although the opponent's provocation was very good, she didn't know what the opponent's strength was.

He looked like an ordinary person, but why are there so many people here? Are they all helping him? Just thinking about it is a bit unbelievable, but some things that evolved in the process also caused trouble for myself at this moment.

Looking at their leaving figures, everyone fell into silence.

"Forget it, let's go inside first and rescue those 5 people as soon as possible"

"Can't we go back the way we came?"

"How to go now? You see they came here on the road, so there must have been a lot of traps here, otherwise they would have been blocked directly. Do you think these people will benefit us?"

At this time, Gu Shaoyang was still thinking about the looks that the men in black and white gave him when they left, which could be said to be decisive.

It was as if he was a thorn in their flesh and a thorn in their side. This look made him I was a little caught off guard, but I didn't hesitate here to do what I needed to do.

After all, if I had that opportunity, I might as well look at other locations. Maybe what I needed to do was that simple, and of course there would be some unnecessary troubles. , so before this, Gu Shaoyang was still working hard to search in other directions.

But an area was shown on the compass, which was a position that had been divided before. Before this incident happened, he had never thought that such a situation would appear. Suddenly, two prominent pillars appeared here, as if to guide the terrain on both sides of them. After all, it was my first time here, so I must have a reason for not understanding the situation.

On the contrary, there are some The state of purpose makes me feel a little caught off guard. Most likely, these things have left a deep impression on me. However, due to some other factors, I am somewhat caught off guard, and the purpose is very important to me. It seems that what he thought was not going so smoothly. Is there a certain connection?

But before that, Gu Shaoyang found some other locations. The compass showed them very clearly, and he must be able to see them.

Chapter 664

By the way, I pointed out this terrain to the people next to me. I didn't know what they would think of, but now I understand some aspects.

"Do you know some aspects here?"

"So what if I know, the terrain here has changed a long time ago, and I don't want to cause trouble here."

Hearing these words, he couldn't help but feel a little caught off guard. The things he had considered before were indeed not as rich as he expected.

But that doesn't mean that everything will happen. The same goes for other aspects of his comments. , I don't want to cause trouble here.

I don't want to do these useless things, but the excessive difference makes me feel a little off guard, so in this state, it shouldn't be that simple.

"Then let's follow this compass. I don't know where we can succeed, but what happened this time is indeed a bit scary."

Although the previous target status made me feel a little surprised, now I have obviously found some exits. After all, every road here leads to a different place.

It seems that in this process, the Durian Emperor has also been missing. Kung fu, I deliberately made this place look like this. Of course, it is quite unexpected for me. After all, the things I consider at each stage are different. Some of the choices I make now can only prove that this Some of the previous paths were correct.

Then the next second I kept going back and forth around here. There was one shown on the protective plate. It should be in the sealed altar, but was it below?

Meidu next to it Sha couldn't help but muttered a few words, with a look of dissatisfaction on her face.

"What kind of compass are you talking about? It's pointing to the wrong place. We've already circled here several times."

"You can't blame me for that. The compass shows that it's near here. It should be in the underground area to take a look first."

Hearing these words, the people in front of me were slightly caught off guard, but they could only follow them down. After all, what he said should be almost right.

There are some things in the target state, the way for girls to come out, but the rest It's the same, I seem to be able to escape unscathed.

But it doesn't mean that everything can be guessed. Maybe this is probably a trouble for me, but there are some deviations in the passive situation.

A few people went I went underground and found that there was no way to get there at all. Could it be that all of this was fake? After thinking about it, I couldn't find the real way here, or even the method.

Everyone was here People are wandering around here, as if they are looking for something, but they also seem to be checking to see if anyone appears.

However, after taking a closer look, they did not find any figures here. It seems that it is a blocked location. Not only were there no human figures inside, there were not even any living creatures.

The entire altar was largely controlled within the area below. Anyway, I didn't see anything related to Emperor Liuyun here. On the contrary, there were more Like a trap, this look really makes me feel a little strange.

Of course, compared to the previous things, this is definitely more troublesome, but it doesn't matter how you want to do it.

Chapter 665

However, there were some noises coming from the position next to him, presumably related to the previous incident.

Several people began to tentatively walk over there, and Gu Shaoyang did not forget to drag the Medusa in front of him back behind him.

Then he became alert to the surrounding situation here, and Medusa also did not expect that he would make such a move. After all, he was on the territory of the snake people.

She is a queen-level existence, and they have always relied on her own head. Once such a person was willing to block her behind, she couldn't help but have a look of surprise on her face, but Gu Shaoyang didn't pay attention to all this.

Instead, she continued to move forward. After all, for her, the gap between the front and back might not have anything to do with him.

But no matter what, there are many ways Gu Shaoyang can search for at this moment, but in this situation, he may not be able to escape unscathed.

But correspondingly, it triggered some other directions of thinking. The previous eight holy gods could not defeat those people here, so to speak.

The strength of the three of them should be far above the Eight Holy Gods, because of what Emperor Liuyun said before, he must have not taken action during the process.

Then it will be time for me to measure the difference in strength between the men in black and the men in white. As long as I can win the two of them in the next battle, this matter should be solved easily.

And when he saw some of the arrangements on the altar, Gu Shaoyang's expression froze in front of him, if he remembered correctly.

The placement of this altar is exactly in line with the previous Bagua array. As long as someone takes the initiative to step into this environment, they will soon be blocked.

Don't ask yourself how you know it. He just has such experience, and Gu Shaoyang also saw several special points around him at this time.

He quickly asked Salo and Christi to pull Medusa back, while he and Natasha stood at the front. The other party was something he saw on the snake man's territory. The first one was a little bit interested in the Bagua array. understand

"This should be the 6th position of Qiankun."

Then Natasha next to her moved these small stones and quickly blocked the opponent's attack. This inevitably caused a look of surprise on her face.

After all, it was the first time she saw someone who could actually Here is the way to break other people's Bagua array. Although I can understand the direction reported by him.

But if I can directly identify its direction just by looking at it, this is completely different. I will never be able to do this.

Gu Shaoyang is At this time, he did not pay attention to the surprised expressions on the faces of the people next to him, but looked at several directions around him. You must know that the most taboo thing in this Qiankun Formation is the large number of people. After all, they are being calculated.

So Meidu Sha can only go out here temporarily, but I have to say that the aspects that need to be considered really catch her off guard. After all, she knows what needs to be dealt with.

However, the situation in the Bagua array is really confusing. Sweat, after all, everyone was on alert at this time, and there was some trouble in the new ecology.

However, at this time, Gu Shaoyang was able to accurately judge all its moves, and the operator of the Bagua array on the opposite side could not help but feel a little annoyed..

## Chapter 666

Unexpectedly, he met a real opponent at this time, but for Gu Shaoyang, the first impression was that this person should be one of the people in black and white.

After all, he could feel the speed of their attacks and the murderous aura on their bodies, and he could detect them even if they were far away from him. However, Gu Shaoyang did not say anything about all this at this time.

After all, you can just keep some things in your heart. There is no need to say everything out loud. On the contrary, there are still many things that you need to guess at this time, which may be several aspects around you, or others.

After all, he was also an authentic member of the Bagua array, and he knew exactly what one of them should do. Moreover, at this moment, Gu Shaoyang also noticed that Medusa next to him was wearing a bracelet.

It should be an agate stone. You must know that there are restraint directions in the Bagua array, and several stones also have different uses, so Gu Shaoyang shouted to Medusa.

The other party reluctantly took off the bracelet and handed it to him. Then Salo beside him threw it directly into the Bagua array. Gu Shaoyang used the principle of mutual restraint in the array to buffer all the power on the bracelet. Come down.

Otherwise, once you enter this Bagua array, it will become as powerful as the stone just now, and Natasha did not give up her vigilance at this time.

Instead, he saw a bunch of things, which ran in at this time. They seemed to be a bunch of small ants. They were densely packed on the ground and he couldn't see them clearly. But Gu Shaoyang turned his head and saw these things, and couldn't help shouting and immediately let Nata know. Sarah steps back

"Don't come into contact with this thing. The termites in the soil can eat you directly in minutes."

After hearing these words, Natasha didn't believe it, but they still knew Gu Shaoyang's strength.

So sometimes they could only listen to these words. After all, there was no use in refuting them. Of course, at this moment, Natasha Tasha also saw some other things.

She could have noticed all this in this area, but now there are obviously some different changes.

If she insists on finding some solutions here, it is not impossible. Possibility, but I may need to judge what I should do first.

Then the next second I saw the figure of the Bagua array on the opposite side. As expected, the man in black ran away in the middle of the fight.

Except for him No one should be able to make such an action. After all, he has a certain understanding. The man in white is indeed very patient.

If the opponent on the opposite side has some difficulty before he can win, but if it is someone in black who Basically, you don't have to worry about it. After all, you can definitely guess some of the things he does.

"You should keep an eye on your Bagua array here, and don't move around in the position. As long as you stay here, those little ants won't be able to get close to you."

"How many of us are there?"

Medusa behind him couldn't help but asked anxiously, but at this time Gu Shaoyang just turned around and smiled.

"If you want to take action, you have to wait until I destroy each other. Otherwise, if you can step into this Bagua array, it will be a battle between lives."

After hearing these words, Medusa did not act rashly.

Chapter 667

After all, I still know that my life is the most important, and I can't cause any other dangers here. Of course, I want to prevent this from developing into a state that I don't want to see.

Gu Shaoyang still summoned Zhao Yuyan and asked him to help chase the man in black on the opposite side. The other man turned around several times in the attached space next to the altar.

There are just a few pavilions here, and there is nothing to cover them. There is only a secret room at the end. I heard Zhao Yuyan talk about the secret room before and you can't get out.

So naturally I didn't move forward rashly here. I saw the man in black reach the secret room directly in one fell swoop.

Gu Shaoyang chose to retreat here. He didn't want to argue with the madman here. After returning, he found that Natasha did not move.

These little ants would not attack them, and while he drove away the man in black, the Bagua array on the opposite side lost its operator.

Naturally if there are any changes, these ants should also be one of his subordinates, if he can deal with them.

In fact, all this is not that difficult, but for Gu Shaoyang, he can't help but think of some other ideas. After all, there are still some doubts within the scope of their respective considerations.

It is very possible that this is a stepping stone for him. Of course, during this process, Gu Shaoyang also guessed something.

Instead of having to go through this by yourself, why not consider it beforehand? After all, there should be more than just these things that you want to do.

He immediately ran to the opposite side and lifted the counter of the antithesis array. Only then did everyone feel peaceful. Medusa immediately ran over.

Looking at the person in front of me, I felt hurt, but the person in front of me didn't say anything at this time.

"Don't worry, I'm fine. If it's really numb, he probably won't be able to wait until you see me."

Hearing this joke, Medusa couldn't help but laugh out loud, but in the end she still hit him here. After all, she really felt a little forced now. What's more, she also understood the situation now. If it had been a minute slower just now, there would have been some troubles, so I wanted to continue discussing with them at this time.

But some things also made me feel a little unprepared, but Gu Shaoyang's strength in front of me was also Everyone was sure, after all, he turned the tide and saved everyone.

Without him, there would be no Natasha who is alive now, and then one of the eight holy gods of the snake people would be missing, so in At this time, Medusa wanted to express her approval for him no matter how reluctant she was.

Gu Shaoyang didn't say anything, and he didn't listen to him continue to speak. It seemed that he knew that what he said here was just unfeeling. I don't want to.

But there are some situations that are definitely beyond my scope of consideration. After all, this is not the first time I have done this.

And correspondingly, I have also seen some other aspects. If I really follow my own The estimation I had thought of before would not be as complicated as I expected.

#### Chapter 668

But the more you do this, the more and more things you can do, so in the end you must still show your true abilities.

But at this time, don't forget to help Gu Shaoyang in front of you. After all, no matter how hard she works, she can't get all the advantages.

It would be better to take the initiative and see if I can help him deal with some aspects, and now I can understand it at this moment.

If he could really turn the tide, he wouldn't be in this position. There must be no less things to do. However, at this stage, Gu Shaoyang thinks more, and Salo and Christi also take the initiative at this time. Followed his pace.

Although Medusa next to her had a somewhat dissatisfied look on her face, both her movements and the route she walked here were completely based on the previous aspects.

Perhaps this is the most difficult situation for Gu Shaoyang to predict, but he also thought of some other situations. This may be a sudden point from beginning to end.

Of course, the people next to them also predicted these options, but the purpose did not necessarily coincide with what they thought of. Several people saw a fork in the road.

Gu Shaoyang remembered what happened before. If he could reach the secret room and catch the man in black, he would know the whereabouts of Emperor Liuyun.

So I turned around and discussed it with the people next to me. Several people also agreed here, and there was no particularly big gap.

It seems that for them, this matter should be within their grasp, but Gu Shaoyang must still consider whether his approach can successfully overcome this problem during the process.

However, Salo and Christi did not. Medusa refuted his idea here and specifically asked about Natasha next to her.

"I have learned about this secret room in the book before. It was the initial place where Emperor Liuyun was sealed. If you don't want to die, you can go there."

Hearing these words, the people in front of them were stunned for a moment. They did not expect Medusa to say these words, but the two people next to them were also slightly stunned.

In fact, the Eight Holy Gods were not able to grasp such clues. At this time, Natasha took a careful look at the surrounding environment and pointed a direction to Gu Shaoyang.

"Do you think that side looks like a student in the Bagua array?"

Hearing what he said, Gu Shaoyang followed the direction of his finger and looked over there, and found that it was indeed like this. There were many pillars near the altar.

If I guessed correctly, they had sealed it before. The Snake Man must know some clues about the Bagua Formation. No wonder Emperor Liuyun is so proficient.

It turns out that he must have been studying this formation for hundreds of years in the sealing area, but he didn't expect that he would accidentally break it at this time. Opened.

But speaking of it, I feel a little guilty. If it weren't for me, I wouldn't be in such trouble. Of course, the previous bead was indeed the property of Emperor Liuyun.

That would prove that I was in the tower. The one seen peripherally was real, and Zhao Yuyan also followed that person's actions, but the Emperor Liuyun who came later was probably a fake. I don't know what he used to convince the men in black and white.

#### Chapter 669

Is it to control some of the subordinates of Emperor Liuyun who were wandering here before? If that's the case, then everything should be cleared up.

But he also had no hesitation in what he should do. After all, from every angle, there were always some things that were unexpected.

Of course, there were some surprises for Gu Shaoyang. Maybe these were some scenes of him being frozen on this road, but he did not resist it.

"Are you saying that the secret room this road leads to is one that you have been to before?"

"It cannot be said that we are the only one. Before each new leader inherits this position, he will be taken to this secret room and must pass the test of nine deaths and one life.

Only those who can come out from here are considered the true heirs. Otherwise, the leader of the snake people would not be as poor as you humans in exchange for nothing, and it is not all because of some differences in strength here."

Hearing these words, Gu Shaoyang automatically ignored some of the contempt in his words. Although this was the case, he did not say anything. Zhao Yuyan next to him came over and took out a book in his hand. book

"This is the list of those who were under his command before. Before Emperor Liuyun was sealed, these lists were passed on to five of us. I am just one of the towers who can inherit the following of these five people, but only if you want this Made it out alive 5 times."

Hearing these words, the people in front of me can't help but be caught off guard. You must know that it is extremely thrilling to go there once, and you have to do such things again and again.

Then its life will be lost there, Shaoyang At this time, he did not agree to him, and even kept hesitating.

However, in such a process, he may not be able to take these lines into consideration, especially with Salo watching the fun and Christi's name.

I have had some problems before. , he should have made adjustments to some other plans, but at this time, he thought that it might be easier to wave his hand, so that he could take the initiative to apply to go back and find the other eight saints.

"Are you sure you want to do this? It may delay your time a lot"

"We have no choice but to do this. We can't just improvise at the critical moment. It's a bit unbelievable to think about it. I'm talking about this moment here.

You must have thought more than I guessed, so instead of going through those changes then we might as well just save people back."

Hearing these words, several people around him were actually quite moved. After all, such a situation has never happened before, let alone these scenes now.

But Gu Shaoyang expected something. If they really want to be here Returning to the previous base means passing through the trap that the men in black and white had set for themselves before. The few people who escaped here successfully were all because they took a shortcut and did not encounter any danger on the way. , otherwise even if the King of Heaven comes, he will not be able to save the lives of several of them.

Of course, at this time, Gu Shaoyang looked at Zhao Yuyan beside him, hoping that he could point him to a clear path. As long as it is a shortcut, he can do it here. successfully completed

"That's true when you come out. If you go back and take that road, you'll probably bump into something."

## Chapter 670

After hearing these words, Gu Shaoyang knew what Zhao Yuyan meant. This road must be dangerous.

"How about this, we divide our troops into two groups, and you guys return to me and Zhao Yuyan along the original route, and follow some of the breakthroughs nearby"

"How can this be possible? It's not safe for five people to be tied together, but you still want to separate us."

At this time, Zhao Yuyan next to her also nodded. After all, this is indeed the case. If they have to argue about the order here, it would definitely be unreasonable.

And at this time, Gu Shaoyang also learned some directions. In his own hands, This compass is definitely useful, but the specific starting point is.

It cannot be explained clearly by myself in a few sentences, and there are some specific signs on this compass. If you can go back and see from the previous cave By looking at the murals on both sides, you can also get an idea of the content inside.

So in the end, he agreed to his request. A few people tidied up here and were ready to set off. Before leaving, Gu Shaoyang didn't forget to look at the direction of the secret room..

I wanted to see if the man in black could come out from there, but I felt a little uncomfortable so I pushed a big stone from the side and blocked the door of the secret room.

Seeing this, Zhao Yuyan could not help but twitch. The corner of his mouth twitched.

If the man in black could really escape from the secret room, it would prove that he was only in the outer peripheral area and did not go deep into it. After all, there is no replacement in the periphery. As long as he can remember the passage, he can leave at any time. There.

However, his actions at the moment made him deeply suspect that the man in clothes may not be able to escape from it, and may even be trapped in it.

After all, his actions undoubtedly caused it to appear outside the cave and bring it with it. It's a big trouble, but no matter what, it is definitely a good thing for Gu Shaoyang.

Delaying the actions of the man in black can prevent the opportunity for the people in white to exchange information, then doesn't he have a certain share? It was cheap.

So Gu Shaoyang returned to the previous area without saying a word. Then in the next second, he saw a mark on Christie's body. He curiously pulled it out into the sun and took a closer look. That mark on him

"Do you think this one is exactly the same as the one on my previous bead?"

Hearing these words, several people came forward to take a look. Unexpectedly, it turned out to be like this. Not only were they exactly the same, even the patterns on them were carved from the same mold. At the moment, Gu Shaoyang did feel a little caught off guard. , the Seven-Star Longyuan in his hand suddenly made a roaring sound.

At this time, Gu Shaoyang quickly raised his alarm. There were only two kinds of sounds in his hand, either he was in danger or he met an acquaintance.

No matter where it was None of them is a good thing for me. After all, I have also left the previous area, but the law of the five elements is the best strategy here.

It can control everything here. Of course, I can also understand other than the five elements. There are some attached spells, isn't this freezing spell one of them? With the howling wind, it gets closer and closer to me.
