

## Attributes 671

### Chapter 671

Gu Shaoyang in front of him quickly turned around and locked its position. This time, the matter was indeed beyond his scope of consideration.

But the compasses in his hands suddenly overlapped. They were two separate entities before, and they had never overlapped. This was the first time I saw him look like this, and some other imaginations appeared in my mind.

"This time the process will inevitably lead to some other ways. If we were careless here before, it doesn't matter, but the situation here is consistent with before."

At this moment, Gu Shaoyang is a little helpless. After all, what he does here can definitely cause some other emergencies.

Including the ice technique he is using now, he may need a few people around him to practice with him. , but Gu Shaoyang looked at the people around him and found that none of them were suitable.

In order to prevent them from targeting Gu Shaoyang in front of him, he immediately distanced himself from them, and then returned to the corner next to him along the previous passage.

He had to What happened this time really surprised Gu Shaoyang, especially at this time, Salo next to him also guessed the location of the agencies.

So he was very careful when walking around with the three people around him. Medusa prides herself on her extraordinary strength here, but Gu Shaoyang put her mind at ease with just one sentence.

"You just need to conserve your strength here and take a look at the people around you, lest we get plotted here."

Hearing these words, the Medusa in front of him nodded, which made Salo feel a little strange. It was the first time he saw him and he was persuaded by someone with just a few words.

But Salo was also relatively calm. , in other aspects, in this cave, maybe I am an uncertain existence.

And the corresponding clues from Liuyun are definitely not that simple. If I really have so much ability to win him down.

Things were a lot simpler this time, and Gu Shaoyang took out his Seven-Star Longyuan and walked around here.

It was as if he was testing the environment here, but the corresponding things reminded him of As for other aspects, the Seven Stars Long Yuan and the Compass are both on his body, and there is a high probability that they will be targeted by others.

Especially the man in black. He still doesn't know if he has escaped, although he is trapped by himself. In the cave, but I always feel that what happened this time has nothing to do with it.

And correspondingly, if the stone can trap him simply, he must not be worthy of being a guardian here, so he must first Get rid of the man in white.

Prevent the two of them from getting together and using other methods. Of course, at this moment, I have also guessed some aspects. Instead of having an uncertain existence here, it is better to take the initiative.

And in this At that time, I also saw the actions of several people next to me. If I remember correctly, Emperor Liuyun started here before. If he wanted to take them back successfully, then this stage is undoubtedly indispensable..

Chapter 672

There are some aspects that I may not be able to think of so much, so this has become a point of hesitation for me here. Of course, it is because of the emergence of these aspects that I discovered it. one thing.

It is very possible that some of the actions he is taking now are what they had guessed before. If this is the case, then the deal will be worth the loss.

So he had to skip this matter before this critical moment. Of course, Gu Shaoyang also placed all his hopes on the Seven Star Longyuan in his hand.

Only he can represent his skills here, and Salo and Christi also made an adjustment according to the channel in front of them.

If he can come out of the two passages next to him, he will soon be able to prove that this is not a one-way road, but this kind of thing is indeed beyond his expectation, and this may be his final destination.

But before that, Gu Shaoyang thought of another point. If he could solve everything else here before, it didn't seem to be that difficult.

Correspondingly, Medusa smelled a hint of danger at this time and immediately launched a set of attacks directly in front of Gu Shaoyang.

The other party also cooperated and dodged to avoid entering the palace from the opposite side. He didn't expect that someone would really come to him at this time, but it was corresponding.

I didn't take any other method. After all, hesitating here was not what I should do, and correspondingly, I also thought of some other reasons why Sha acted here.

It's nothing more than observing the changes around him. If he has the ability to reverse this situation, he must first have the same keen insight as him. However, at this time, it is not certain whether he can think too much.

The people around him tried their best to cooperate with his movements, and Gu Shaoyang didn't think too much about it. Instead, he let Medusa beside him to help guard against dangerous situations around him.

The other party immediately agreed and started taking action here. I have to say that this moment really caught Salo off guard. The strength that 7 Longyuan showed here before was not the slightest bit.

Later, while judging this terrain, I also discovered a rare good thing. If Medusa relied on luck before, there was a warning line.

It turned out that the four of them surrounded themselves in the center, seeming to be waiting for themselves to judge the surrounding environment, which indeed made me a little excited.

After all, I have never been treated like this before. However, several other corresponding people also made some comprehensive plans.

I think it's because this time things have come to an end. Of course, the excessive state also showed some clues at this moment. Of course, Gu Shaoyang also judged some differences.

This road can lead to the direction of Emperor Liuyun, but I'm afraid it still requires some changes and efforts on my part, so at this moment, I may have more things to see. Of course, at this stage, I also think about it. Got into some trouble.

I have clearly seen what happened before and inherited it in Chapter 672. If Shan Fan insists on measuring a standard here, it will not be to this extent, so correspondingly I am also working hard to discern in this regard.

"What do you think we should do this time?"

Chapter 673

"Don't worry, someone will definitely take the initiative to show off here."

Hearing his words, several people were caught off guard. Could there be many people in such a cave? The men in black and white were two of them.

Then there was Emperor Liuyun who had been fleeing. Before she saw him appear in front of her, she didn't think this was a good method.

And Zhao Yuyan also saw some things. It bothered her that she could make a thorough judgment before, but it didn't mean that it was the same now.

So what she should do Things must be carefully considered. Of course, at this moment, Medusa suddenly smelled a hint of danger.

"Wait a minute, someone seems to be coming."

Unexpectedly, what he said was true. When Medusa raised her head and looked to the side, a figure flashed past.

Everyone was alert, especially Gu Shaoyang in the center. He was still here. Take care of the road in front of you. After all, there is no danger in walking from there.

But it does not mean that it is equivalent to reversing the past. Wouldn't it be bad if someone ran out on the other side, and I heard it in the cave. There was a sound of thumping footsteps.

It can be said that at this time, my eyes lit up. It was probably that there was a tide of beasts here and was about to run out. I still had to avoid it as soon as possible.

And correspondingly, Gu Shaoyang also discovered something. Before Some of the aspects I learned were carried out naturally at this time, but because of some factors, they became different here.

"Did you hear the footsteps? Get away from here as soon as possible and stop by this place!"

Then the few people went their separate ways, looking for a place where they could hide, and then only Medusa was left. When one person saw this appearance, Gu Shaoyang had no time to hesitate when he saw the sound of approaching people, and stretched out his hand to pull him away. Entering this hiding zone of my own

"What's the use of just standing there? Are you waiting to be stepped on by them?"

Medusa dared to speak at this time, so she could only huddle in a small corner and minimize her presence.

After all, as a supreme queen, she should not be alone with him once, but this is also a matter of life. Worry about the problem.

If you still want to save your life, you can only stay here honestly. Of course, no matter how you talk about this path, there must be some other solutions. It does n't matter if you haven't figured it out at this time. , after all, there are many people around him who can help him. On the contrary, Gu Shaoyang next to him thought.

If there is a tide of beasts here, they can lead them to the side of the secret room, and just let him take a look. If they leave, What kind of reactions will different paths have here?

But you must not move forward recklessly, so you are still waiting for the help of those behind you. Only when everyone works hard to deal with these things together can this matter be ended. Lose

"How about this, I go out and lead them to the other side, and you guys go back quickly to see if there is any danger to the eight holy gods?"

"Are you sure you want to do this? Wouldn't that be putting yourself into the tiger's mouth? I definitely won't agree to that."

Chapter 674

"What does it have to do with whether you agree with me or not? You and I are not the same people."

After hearing these words, Medusa suddenly realized, yes, how could she say those words? It was a bit too unreasonable.

But at this time, in her mind, she was actually a little hesitant and couldn't let go. , although I don't like Gu Shaoyang very much.

But I have to say that I still have some predictions about his strength, so now I have to do it honestly even if I am reluctant.

But Gu Shaoyang also guesses When it comes to other aspects, instead of letting them tie you down at this time, it is better to take the initiative to speak harshly.

"This time, you can only do the rest first, and I will find a way to balance everything out as soon as possible."

Then he ran out of here directly. Medusa was beside him and failed to grab his clothes. When these beasts left here, the people next to him came out from their hiding place, and then they found Medusa. Medusa was actually alone, but Gu Shaoyang next to her was nowhere to be seen.

Seeing this, several people couldn't help but want to inquire, but Medusa didn't say a word, turned around and walked in the direction of the previous passage.

In At this time, the tunnel was completely quiet. Not to mention the footsteps before, there was no sound of the wind or grass.

It was like entering a void, because Medusa was not in high spirits, and the three people beside her did not speak. , but Salo suddenly realized something

"We don't know the fate of the other eight holy gods this time either."

"Yes, what if someone squats on you when you go back?"

"Don't think too much about the reason why he asked us to come here. Just go there quickly. We'll be done with it just in time to rescue him."

Hearing these words, several people in front of them couldn't help but feel that Medusa must have been thinking about Gu Shaoyang for the past two days.

This did make everyone a little surprised. After all, there were some problems for them. There is still value in the direction of consideration. Of course, Gu Shaoyang also thought of some other things at this time.

If he could rescue him here single-handedly before, it is obviously different now. After all, what can be thought of at this time Things must have become more and more numerous. Of course, at this moment, I was caught off guard.

"Do you think what happened this time is what we thought?"

"No matter what, let's go back and take a look first, we can't just leave them there."

At this moment, several other people also felt that it was right and went back to that place directly, but it has to be said that they not only saw something here. They even saw a mess, which made them not think that this was all because of their own considerations. Outside the range, and the situation nearby caught me a little off guard.

"You two search on this side, and we'll go to the other side."

Several people are here in two groups, preparing to capture it in the shortest possible time, but correspondingly, some things have become amiss.

#### Chapter 675

After all, there are some things in this process that I did not expect. Of course, the target state also caught me a little off guard. After all, what I thought before and what I do now are completely two stages.

"Have you found anyone?"

"No, how could someone have been walking here for so long without even seeing a single person?"

Hearing these words, several other people couldn't help but froze. It was indeed the case. It felt like everyone in the cave had been transferred away.

If this was the case, wouldn't everything Gu Shaoyang had done before be in vain? , so Medusa searched again here.

Finally, she saw a secret door in a corner, but she did not go in alone recklessly. This was something she learned after staying with Gu Shaoyang for a long time.

"Come and take a look, there is a secret door here."

Then after some discussion, they decided to go to Gu Shaoyang first, then come back with him and step into this secret door. After all, this can be more certain.

"Then let's go back the way we came."

Several people packed up their things and set out on the road here, while Gu Shaoyang led all the animals into the secret room.

Seeing them scattering and running to different locations also made Gu Shaoyang a little uncomfortable. After all, the stone in the cave that I just discovered had no trace of being moved.

Apart from the fact that the man in black did not come out, the only thing is that he had never entered this place at all. As expected, after a while there were some animal signs. The ones who found the way back ran back.

But they went in different directions. I simply wrote down these roads. These roads should be interconnected. As long as you go to one of them, you can come out from the other.

But In total, there are only like this, but there are a total of 8 forks here. So where did the remaining 5 come from?

Think about it carefully, Gu Shaoyang did not move forward recklessly here, but I planned to wait for them to join together, but I didn't expect that several people appeared quite quickly.

But no one noticed that there was an extra gap on Medusa's ankle. This was bitten by a snake. As the leader of the snake people, he was bitten by the same kind. Bite.

How dare he say it here, so he kept it secretive, but when everyone left when the passage was assigned,

Gu Shaoyang turned around to check if any animals had returned, and suddenly found that the coma was in the entrance that had just entered. Medusa was at the entrance, so she quickly helped her up, tested her breath, and found that she was still normal, but she seemed to be poisoned.

In desperation, she could only take a closer look at her body at this time. Scars, suddenly saw a snake tooth gap on his ankle, and he didn't expect that he was bitten by the same kind.

Logically speaking, shouldn't this situation be natural? Why did this happen? Gu Shaoyang felt a little... Unexpected.

Of course, at this moment, Emperor Liuyun did not give himself any career, but the small world before had not yet solved its mystery.

Zhao Yuyan was urging in her mind at this time, seeming to want to You have to make yourself win here faster.

But think about it and know how it can be so simple. After all, the direction of consideration must be different.

## Chapter 676

Then he put the person on his back and took her away from here. Now he is not sure what the situation will be, and at this stage, Gu Shaoyang can be regarded as smooth. aspect.

The venomous snakes in this cave are just the ones with different tooth gaps that exclude the ones they encountered in the cave before.

I finally found some herbs, chewed them and applied them to his wounds. I finally saw some improvement here, but it also made me a little unexpected. If Medusa was bitten here before, Understand.

Someone must be controlling it here, otherwise how could a snake wander aimlessly to a place like this? This is a forbidden area.

Moreover, Emperor Liuyun also said here before that except for those who are destined to come here, there is basically no possibility, so he also became suspicious at this time.

Zhao Yuyan appeared next to him at this time. He had completely signed an agreement with him, so he could appear beside him freely. Of course, Gu Shaoyang was caught off guard at this time.

It's also possible that this is just a process. Of course, no one can guarantee that this aspect will go smoothly. It may be that I was naive in my thinking before.

But there may be other reasons. Anyway, at this time, Gu Shaoyang must have tried his best to bring her back. Of course, the venom has been removed by himself. Gu Shaoyang wiped his mouth and looked at the cave he chose.

It was a completely deep scene, which even made me feel a little scared, but I didn't say anything else.

For me, being able to put all this together is the best thing. As for the rest, there is not so much that I need to hesitate.

Of course, the target state made me think of some other things. If I really want to think of these aspects at this time, then this road will undoubtedly be smooth at present.

He carried Medusa on his back and walked towards the inside of the cave. He did not encounter any danger along the way, as if the place had been cleared in advance.

This look made him feel a little caught off guard, but as he went deeper into the cave, Gu Shaoyang also discovered that something was wrong with Medusa.

His brows began to frown, and it could even be seen that he was nervous, and even had some uncomfortable reactions in his body.

There were even some little red spots. Could it be that this road was not suitable for him? In desperation, Gu Shaoyang put Medusa aside.

Prepare to wait until he wakes up before going deeper inside, otherwise leave her here alone in case the beasts from before come back again.

Isn't it terrible? Gu Shaoyang thought very carefully, but the people on the other three roads did not go as smoothly as they did. After walking a certain distance, Salo and Christi met at the finish line.

Seeing the two people couldn't help but make Salo feel a little excited. After all, the two of them are considered to have the best relationship here.

The two people must have been very excited when they saw each other. Of course, Gu Shaoyang didn't say anything else at this moment. Instead of hesitating here, it was better to give it a go.

#### Chapter 677

Correspondingly, Medusa gradually woke up. I didn't expect it to be in this situation, but I thought about it.

The frown on the other side's face gradually relaxed. It seems that as long as he stays away from that passage, he won't have any inappropriate reactions.

That was also a good plan for me, but I didn't know what the situation was like on Natasha's side. The good idea was to report to each other after entering.

But this time, all the people were gone. How could I dare to say anything else? However, in the target state, I was caught off guard.

But Medusa suddenly trembled in this place, as if she had experienced some huge disaster, seeing her like this.

This actually made Gu Shaoyang in front of him panic, so he immediately ran to his side and held down his body. Unexpectedly, the other person was shaking so hard here.

As if he had encountered some kind of disaster, he quickly wanted to escape from here, but how could the note-taker know his thoughts.

She just stayed with him, hoping to help her get through this difficulty. Of course, at this moment, Salo and Christi continued to move forward.

But they didn't expect that the rest of their journey would be together. Then they went out to the end and found a dead end. Since it was a dead end, the two of them planned to go back, but they heard a roaring sound inside.

So I looked over here and saw that it was the man in black who Gu Shaoyang dared to come in here before.

The two people in front of them found her current look unbelievable. If nothing else, the crazy look made them afraid to come forward.

After all, although he was locked in Zhejiang with these iron chains. Holding the world championship, I feel horrified to think about it. How long have they been away?

Unexpectedly, someone came in and locked this person here. This must be someone who needed to report, so the two of them turned around and ran away without any hesitation.

Unexpectedly, the eight holy gods of the snake people turned out to be like this. Suddenly there was a sound of footsteps behind them, which inevitably made their steps faster and faster, as if they were afraid of being caught up here.

However, this situation also made me think about other aspects now. If Gu Shaoyang is really capable of winning these people here.

That would definitely not put them in such an environment, so after thinking about it, it was a bit difficult for me to grasp. It was the pace of Salo and Christi that was getting faster and faster. The burst of sounds behind them It became more urgent.

It was as if he was chasing them here, which caught Salo off guard. Then he looked back and threw a skill to freeze the person in front of him.

Then he immediately picked up Christie next to him and ran away directly. As the two people left the road, they returned to the middle point and found that they were the only two people who discussed it carefully.

The two of them still walked the same way as Natasha. After all, apart from them, Natasha was relatively weak here.

We must ensure that all of them can get out alive here. After all, the previous Eight Holy Gods have already lost some of their money, so we can't lose them too.

Chapter 678

But I have to say that the distribution of these eight holy gods is really wide enough. They are on the left and right, which makes me a little unprepared.

But there is no shortage of aspects that should be taken into consideration. Maybe for Gu Shaoyang, this time things will definitely come to an end.

But before that, you need to find the location of the man in black to avoid these situations, otherwise it is very likely that you will keep spinning in circles.

However, in the target state, it did make me a little confused. This is where the man in black came in. Three of the eight passages are interconnected.

Apart from hiding it in it, I don't think he can do anything else, but he won't be stupid enough to imprison himself in such a secret room alone, and there are only 5 ways up and down.

So where exactly is its hiding place?

I haven't figured it out even after thinking about it, but I have to say that Gu Shaoyang still figured out some other things during this process. Medusa's current state is unstable, so it's definitely not easy for him to say it out loud.

And there should be a lot of ambushes buried nearby now. I don't want to get into trouble here when the time comes, so I plan to solve them quickly before then.

It's just that the current state is not as simple as I thought. The few people behind Medusa did not follow her when she was unconscious. Instead, Salo and Christi walked towards Natasha.

But suddenly they heard a quick breath coming from inside the cave. The two of them walked to the front, only to find Natasha lying on the ground with a wound on his body.

It looked like it must have been bitten by something. If you look closely, it should be a wound bitten by a poisonous snake, but it stands to reason.

Snake people maintain the same energy as snakes, so why do they suddenly attack them? Could it be that there is someone else behind this?

If you think so, then everything will go much smoother. But at this time, he doesn't dare to make a decision. Salo can only carry Natasha on his back first, and then take Chris next to him. Ti left the cave.

But before they started, Christie took his hand and pointed to the place behind him.

"We have seen before that there is no passage here, but his road has not reached the end yet."

At this time, the person in front of him shook his head and grabbed Christi's hand.

"Listen to me and don't continue here. Haven't you seen her like this? What if something happens to Natasha while we continue, how do we explain it to Medusa."

Hearing these words also surprised Christie in front of him. What he said is indeed right. If it really turns out to be like that.

Then there is no doubt that he has changed here, so in this During the process, Christie did not ask to go back there again.

Instead, he carefully observed the wound on Natasha's ankle from a nearby position, then grabbed a medicinal plant from the side, crushed it and applied it On Natasha's wound, the other party's brows furrowed, and it seemed that it was still a bit painful.

Chapter 679

But it made Salo a little surprised. Don't you need to suck out the poisonous blood?

"Don't worry about it, this herb can automatically repair all the malfunctions in the snake's body. If it is not repaired, it only proves that the snake should succeed soon."

Hearing his unreasonable words, Salo felt a little strange. What was about to succeed? Christie's eyes gradually looked outside and seemed to be hesitating about something.

"In fact, this cave should be a gathering place for certain snakes. We have invaded his territory now, otherwise he would not take the initiative to attack us.

In the next journey, we should encounter some other troubles, but this should be expected before."

Natasha gradually came to his senses at this time. It turned out that this herb could help him regain his consciousness while relaxing.

After all, if they continue to do things now, they need Natasha's help, and at this time, too. He hesitated and glanced at them.

It seemed that he did not expect that the two people would approach him at this time, nor did he expect that he would be attacked by a big python in the dark.

Then the two of them also learned something from his description. It seems that this time they did not actively invade the other party's territory.

Instead, the other party planned to launch some attacks on the snake people in the desert. It turned out that when Natasha walked inside, she heard some of their conversations.

Originally, this The communication between the snake people was that they heard their plan at this time. Unexpectedly, these snakes did not kill him. They just bit him here. Fang did not want to hurt himself, but in front of him No one can say anything at this moment.

After all, this is a one-way street, and correspondingly, Natasha was also attacked by them, so now no one dares to take this step. They can only decide the next step after waiting with Gu Shaoyang. what to do

"What happened this time is really a bit surprising. Are you sure you have decided on these things?"

"This is natural. If this matter cannot be solved, the snake people on the other side of the desert will definitely be disturbed."

After hearing these words, Natasha in front of me was speechless. After all, what he said is indeed right. If all the snake people are really going to be changed here, then I would rather delay one person here. , but correspondingly, some other clues also emerged. The road that Gu Shaoyang went to has not been able to come out for so long.

But Natasha told them that if they go further down this road, there will be nothing. First of all, A few people did not struggle with this matter.

However, they thought of some other aspects. If they could consider these things before, it would not be so difficult.

"You two don't need to go any further inside, it's a deserted place."

Hearing these words, the two of them were a little surprised. This is in a cave, and weeds and other things should appear no matter how bad they are.

At the moment, hearing what he said made me a little surprised, but next But it is not your own home field, and after all, you don't have so many opportunities for yourself.

Chapter 680

And correspondingly, what Natasha said was indeed remembered in everyone's hearts. They never expected that this matter would be different from what they expected.

There may be some changes in this process, but at this moment it is undoubtedly a high probability change, and it is within Gu Shaoyang's guess.

He also allowed himself to see the actions of others. Some of the actions Salo and Christi made before were to test the environment of the entire cave here to see if anything appeared here?

However, he didn't expect that it would become like this by mistake. Anyway, it was not surprising to Gu Shaoyang. After all, some of the results produced in these processes were all guessed by him.

However, as they moved forward, a button appeared on the communicator on Gu Shaoyang's side.

Unexpectedly, they kept moving, as if they were doing something. This caught me a little off guard, but with what happened here.

The next second, Gu Shaoyang saw something else. It turned out that Medusa was gradually waking up at this time. It seemed that the medicinal material applied on his wound had helped.

Then I watched the person in front of me wake up, and I learned some methods. Generally speaking, these are just these changes.

But correspondingly, I also learned about some other aspects. If I really have the ability to examine these, then I will generally pass this level.

But I have to say that during this process, I also thought of some other things. Maybe these are the things that I need to face in the end.

However, Medusa waking up was also a help to him. Under his own questioning, he reluctantly gave him a rough description.

"In fact, that thing should be a rattlesnake, but judging from its species, I really don't see any difference in her appearance."

Hearing these words also caught the people in front of me a little off guard. This kind of thing is indeed beyond my scope of consideration, but the target state also reminds me of some other levels. There is a high probability that if I If you really hesitate and struggle with this matter, it will soon lead to some other troubles.

Therefore, Gu Shaoyang had no choice but to put it all back again. Of course, at this moment, he was obviously a little overwhelmed..

It is very possible that these are some of the clues that I have considered before. Of course, I also saw some other aspects in the process. The snake that Medusa told me is actually similar to what I had expected before, except that there are some The details seem to be different.

If this is the case, it really caught me a little off guard, but the target state is indeed somewhat different from what I learned.

The appearance of this Medusa who refused to tell me seemed to be different from what I had guessed before. It is related to some of the aspects mentioned. If I remember correctly, there were some other things that I failed to consider thoroughly during the process.

So I must deal with it seriously at this time, but in this target area, it is obvious that I let myself find out some other things that I haven't considered clearly.
