

Attributes 681

Chapter 681

It is very possible that this has obviously caught me off guard, so at this time I can only have no choice but to

"Since you won't tell me clearly, how can I find a way here?"

"But there is no need to know the type of this thing in such a huge cave. Besides, you have seen what happened before. I don't want to cause so much trouble."

Looking at the other person's evasive look, Gu Shaoyang could guess some aspects. If this person is not important to him, then he shouldn't hesitate to this extent. There must be some changes here. But at this time, he didn't say anything.

The more he avoided himself, the less he had to expose him at this time. Instead, he had to wait for him to take the initiative to say it. After all, there were always some things that he had not been able to find out. If you call him impatient when the time comes, then you will lose your wife and lose your troops. So in the end, he just nodded silently here.

Then he turned around and left without managing it again. The faces of the people in front of him He couldn't help but have a look of guilt.

Now several other people also came over to Salo and Christi, and also recognized the surrounding scene on the way. This was completely different from the place they went to before. Yes, could it be said that someone changed the scene on this road?

After much thought, I couldn't find a suitable location, so I could only follow the steps here. Of course, I was obviously aware of it.

This huge cave It didn't seem to go as smoothly as expected, especially from the perspective in front of him.

So in the end, Gu Shaoyang still couldn't take it further and sent him out, but he suddenly heard a burst of footsteps beside him..

So he looked sideways here and found that it was the few people from before. He hurriedly ran over here as if he had seen a savior. The two people were somewhat in the world. Only then did Shaoyang see clearly. The person Luo was carrying on his back, why did he even put it on his back? The scene in front of him really caught him off guard. This was not the case before, but at this moment, he was also somewhat helpless.

"This Medusa is probably in the same situation as him. Since you are here, take him out first. If there are any problems, we will discuss them later."

"What about you?"

"I always have to go inside to see if this place is what we suspected before."

At the beginning, Salo and Christi did not agree. You must know that Medusa's temper is much more fierce than this. If he finally finds a few people and throws Gu Shaoyang alone into the cave, he is afraid that he will jump up and follow her. They reasoned

"I think it's better to forget it. What if he goes crazy here?"

"So what? Don't tell me that one of you two Eight Holy Gods can't do anything to a little girl like him."

Hearing these words, the two people really fell silent. After all, what he said did make sense. They can't hesitate here just because of one thing.

That would only cause interference to their process, but to be honest , once this woman gets really irritable, even no one can escape.

Chapter 682

But before the final situation came, they still carried the man out. Watching him leave their figure, Gu Shaoyang could not help but let out a sigh of relief.

Then it's time to play at home. Having them here always makes me feel a little uncomfortable, as if someone is watching me secretly. It's really easier now, I just don't know what I will encounter next. On something.

Gu Shaoyang in front of him walked directly inside without hesitation, without even looking back, as if this place was not a mist, but a road leading to a bright road.

But at this time, several people behind him have also left, and they can't see his high-minded scene at all.

Of course, Medusa also woke up halfway, and then looked at the few people around her who couldn't help but fall into silence and confusion.

But at this time, he knew very well that what he said, any generalization might be exposed by the person in front of him. Instead of doing this, he would rather let himself have a dream, so he said nothing here and just kept his head. Follow a few people outside.

While walking, he saw the wound on her ankle, so he unexpectedly grabbed the woman in front of him and looked sideways at her.

The other party also looked over strangely at this time, and then he directly pulled up the clothes above his ankles and exposed his wounds to Natasha on the opposite side.

Only then did the two people realize that the wounds on their ankles were exactly the same. Not only were the wounds the same, but the herbs on them were also the same. Seeing this, Salo was caught off guard. You must know that this thing is a snake. unique to the tribe

"How could he, an outsider, know about this kind of herb?"

Hearing these words, the two people next to him looked over. This look made them feel a little caught off guard.

How could it become like this? But with a high probability, There was no possibility for him to hesitate here, which would only cause frequent disturbances to him.

Then he sent the two of them to the exit. Unexpectedly, just after they left here, he heard a sound like footsteps coming from behind. The same voice.

In desperation, I had to take a few of them to hide in a dark place, but I didn't expect that while a few people were huddled here, that figure also showed his true face.

It turned out to be the Eight Great Sages from before. Several of them in the city, and Natasha next to her, was excitedly preparing to go out to meet here, but was stopped by Salo next to her.

These people didn't look like the ones they knew before, but instead they looked like they were here. It's like being obsessed with the soul here. I must avoid it at this time. Of course, I also learned some other things in the target state.

"You guys don't go out yet, I'll look around to see if there's any place where you can escape."

Then he went out alone. At this time, several people looked at their backs. Maybe these were some of the choices he encountered along the way.

But he must have understood some aspects of the target state. Maybe this was not what he had guessed. But now it is also a matter of priority to avoid some troubles.

Chapter 683

And what was most unexpected at this time was what happened before. After all, as long as some changes can be made here, it will be basically the same as before.

So now I am trying my best to avoid such a mistake, but I also learned some aspects in the process.

It is very likely that the next thing will not be able to be explored clearly by myself in a few words, so I must ensure that everything can be applied logically.

Just when he showed his head, he discovered that the person in front of him was not as simple as he thought, and he even saw the confusion in their eyes.

It's like a puppet being manipulated. If this is the case, then you really need to be careful to avoid other disasters.

But it is also very likely that the previous state will happen, so everyone is standing still here.

Unexpectedly, Gu Shaoyang was transported here by a special teleportation array at this time, and he happened to see a few people squatting next to him.

Then he was about to ask what happened, but Salo immediately covered his mouth in front of him. Then he stood up and pointed to the position next to him. Only then did the people next to him see the difference clearly. It turned out that here By this time, someone had already approached.

But if you take a closer look, aren't these some of the eight holy gods from before? Why did they appear here and they didn't dare to get close?

But at this time, he did not take the initiative to attack. After all, he also thought of some things during the process, and they did not dare to step forward.

Not to mention myself, but I have to say that it feels a bit strange to be like this now. It seemed to be a bit different from what I thought before.

"What's going on here?"

"They don't seem to be really moving forward, just like a few puppets on strings. Do you really want to rush forward like this?"

"It depends on you, if you have to get them back, this is actually a good route."

Hearing these words, Salo in front of him looked at the people beside him. Medusa was also hesitant here, but Natasha next to her denied it.

Although she knew that Medusa was hesitant. Reason, but we can't do this now. If this is really the case, doesn't it mean that the lives of several other people among them have been read, and it will be terrible then.

If everyone is destroyed, then who will bear the responsibility? Get up and find the responsibility of Emperor Liuyun. Medusa in front of her shook her head and refused the matter.

After all, it was a somewhat helpless situation for herself. As long as she had some direction to deal with it, she wouldn't be where she is now. One step.

But correspondingly, some of the things happening at the moment also caught me off guard. After all, I can definitely see the longing on Medusa's face. So

I definitely want to help here, but how to help, specifically. If there are any changes in time, it all depends on your own methods.

After all, he will not cause any interference to you here, but no matter what, at this time, you have obviously guessed some other aspects.

If you say before Everything is something that I can figure out, and it is probably the same for other people at this time, but I am also hesitant at this moment, and it is very likely that I have taken some measures at this stage.

Chapter 684

"How about this, we split up, you guys stare at the Eight Holy Gods here, and Salo follows me."

After hearing these words, Medusa must have been reluctant. She directly rejected his current idea here, and then directly dealt with other aspects.

I have to say that this matter really caught me off guard. , but the person in front of me didn't say anything. After all, I also learned some aspects at this stage.

If something really happened, it wouldn't reach this point, so I was also preparing for a period of time to see if I could Can all this be solved smoothly, but at this moment I also see some others. Although these people look like puppets, in fact they must have other abilities.

It's just that at this moment I I don't know how to deal with it. After all, I have learned about these aspects. As long as I can really take it into consideration, I will not be in this situation.

And correspondingly, I have also seen some things. Between them So the constant changes here are all because they are here to prevent themselves, but it is not them who have the final say on what to do.

So I don't take them to heart at all here. What they do is all theirs, and it is not up to me. It has nothing to do with it.

But at this moment, I feel some other troubles. If I have to think of something here, then this is undoubtedly a good direction. I just don't know that these people around me are willing to help. After all, in It's not convenient for me to do unnecessary things here.

Moreover, Salo and Christi are coming towards me. It seems that he should know the reason why he wants to do these things, but his current situation does make him feel a little bit uncomfortable. Sudden.

After all, these eight holy gods did turn into puppets one by one as they said. Now I am not stupid, and I also know the reason why he did this.

"You go around and fight for it, and I'll take it down"

"You mean to capture him alive here?"

Gu Shaoyang in front of him looked like he was taking it for granted.

"Otherwise, what else can I do? How about you teach me a method?"

Saluo in front of him suddenly had nothing to say. It was indeed different from what he thought. This was not the person he had known before. He was simply going to turn the world upside down here.

But at this moment, Gu Shaoyang did not He hesitated, looked at the people next to him and understood what he meant, and took action directly here.

While going around, he saw one of the eight holy gods. Since this Venus happened to be standing in the position that he could grasp, position, then he would definitely not let go easily.

Then the person behind him quickly received his eyes, and the two people quickly captured him here.

The other party struggled here, but there was no way. At this time, he was completely You won't give him a chance to dodge.

After all, it's your own business what to do, but the rest is always something you couldn't predict.

Chapter 685

But catching one person is enough. It is much better than encountering other troubles at this time, and Medusa can clearly see the capabilities of the person in front of her.

He is far from being as simple as he imagined, and correspondingly, he also saw some others. Among the eight gods, the strongest one is actually Salo, followed by Christi.

But due to some other factors, Medusa became their leader at this time. In fact, there were 9 people competing here at the beginning. Only the one who stands out will become their leader here.

And it happened that the person they were interested in was Medusa who appeared here. In fact, no one knew what the reason was.

But the person in front of him didn't give him a chance to guess like this. After all, the direction of every consideration was definitely unclear, so some of the things that happened later also showed some purpose at this time.

It doesn't matter whether you know it or not. What kind of state it will be in front of you in the end is what you should consider most, and correspondingly, you have also seen some other categories.

Among the eight holy gods, there are actually many people who are helpful to establish their authority here, so once you really have the ability to win them here, that is the best strategy.

So after catching Venus, he quickly ran back to the area with the people around him, Natasha and Medusa.

The moment they and Christie saw Venus, the expressions on their faces froze. It seemed that they did not expect that they would take one back so quickly.

But it was also due to helplessness. Who wanted to do something? It was just unexpected by me, not to mention that some of the situations that had happened before were not something I could have said in a few words.

However, Venus did not wake up at this time. People were under pressure. I have to say that at this time, she was indeed caught off guard.

"What's wrong with him now?"

Gu Shaoyang looked at her carefully. He found something on his neck and turned it out.

"Look at this mark. This is the trace of his previous treatment. I am afraid that person controlled him here through a kind of insect."

Hearing these words, Medusa's expression suddenly changed. She had known such a person before, and he also controlled people through insects.

However, she had never had a very good impression of him, but she did not expect to have a connection at this time. , but I hope to cut off all contact with him. I didn't expect that such a person would appear in my territory again.

"What's happening here?"

"Someone must have invaded the Snake Clan's territory and happened to expel them to us, otherwise you two wouldn't have been bitten just now."

Hearing these words, Medusa and Natasha in front of them looked at each other. The actions of the two people were indeed a bit surprising.

However, the snake they saw did not have any influence on them. Hurt, but just looking at them here, if this is really the case.

It did make me a little surprised, but I didn't intend to hesitate in what I should do. After all, I also understood some aspects.

Chapter 686

"You guys just stay here safely and don't move around, lest it cause other troubles in the future.

However, Medusa's situation this time is really surprising. It is estimated that those snakes are coming for him, so you should be more careful when taking actions."

After hearing his instructions, several people took action here one after another. I have to say that what happened this time was really surprising.

Of course, correspondingly, I also saw some other directions. After all, I am really in this state now. Some were caught off guard, but they also saw some others.

Maybe this Venus was their only chance to get it. The next few people were just taking notes here, and Ben didn't say anything. They just stayed here. Looking in this direction, after all, for myself, I will be able to find some methods soon, but before that, I must seize the opportunity instead of doing something unrealistic here.

"Did you two find anything?"

"No, this should be the only wound on his body. You should start elsewhere....."

Then Gu Shaoyang squatted beside her and discovered a gap in his body with just one glance.

I couldn't help but feel a little overwhelmed by the two women in front of me. I didn't know whether to dislike them or what to say. After all, my words might put my life in danger.

So at this time, they just came over in silence, and the two people discussed it before transporting the person away. The current situation really caught Gu Shaoyang off guard.

But the wounds on Venus are very serious. Five of the eight holy gods have been lost, which proves that the gap is accumulated at a time, and it is a Roman number three.

It seems that he should be No. 3, but where have the others gone? They probably have to look for them again.

"I haven't gone all the way to the cave I just walked into. If everyone has had a good rest, come back with me."

Several people looked at you face to face, so I could only go back with her here. I didn't expect him to be like this, but it was corresponding.

I also thought of some aspects. Most likely, I am also entangled here. But one result can be obtained. The eight holy gods have found one of them.

Now that 4 are by his side, even if it is right, it is considered a balance of strength, which is definitely a good thing.

But I can't guarantee it at the moment. Everything can be as desired, so Gu Shaoyang still needs a balance to handle everything.

"You also know this. Aren't everyone here in the same state?"

Hearing these words, Salo in front of him was caught off guard. It turned out that he had known everything that happened here early.

But these were definitely not the only things he could think of before, and the corresponding things he had I also understood some of the process. If Gu Shaoyang really wants to make up his mind to move forward here, then there is nothing they can do to turn the tide here.

Then Natasha put Venus on her shoulders here, and directly He took him out, with Medusa helping to look after him.

Chapter 687

I have to say that the surrounding scene really surprised me. Some of the things I saw before may be completely different from what I thought.

So at this time, Gu Shaoyang was still hesitant, but correspondingly, Salo and Natasha also understood Christi's thoughts.

It turns out that the opponent wants to heal Venus first, and then move forward. After all, having a main output force is also a good reliance.

"Don't worry, I have found some herbs this time, but they should be at the entrance of the cave. If I can get out of here, I can find them."

But they didn't expect that they had just entered the most terrifying place in the secret room. At this time, everyone also discovered that they had gone around in a big circle and couldn't get out. It seems that this should be the situation that happened before. , but I also didn't give up on the things that I needed to figure out.

"Then let's go forward first and see if we can find itmouth."

As for the remaining two people, Christi and the others were left here to guard Gu Shaoyang while he went out alone with Medusa to find a way out.

I have to say that what happened this time really caught me off guard. After all, in the process, I can also see what they are thinking.

It is just to complete the set here smoothly, but it is not certain what will happen during this period.

And Gu Shaoyang also discovered something at this level Medusa was able to pass here, but she couldn't. I wonder if there were any racial restrictions.

Then Medusa looked back here. When she saw his actions, she couldn't help but frowned. You know this I also learned some aspects of this incident.

If it was really what I thought about, then I wouldn't hesitate here frequently, but I also saw some exceptions.

If it was really like what I had budgeted for , In that case, some unnecessary things will definitely happen, but at this time, I have already guessed these aspects.

Why did it turn out to be the last thing I want to see in the end?

Even after thinking about it, I still can't understand where this place is. Deviations and accidents occurred, so I had to keep searching for the location, hoping to unravel it all.

"You go this way first, and I will catch up immediately behind you. It seems there is no way to pass here."

Medusa had no choice but to nod her head and leave here first. Then she didn't forget to look back at the person behind him and waved to him.

After all, Medusa was very worried at this time. Clearly, whether he could catch up or not was another matter. Unexpectedly, when he walked to the front, he saw something unexpected. Why is the shadow of Venus here?

He seemed to be fixed by someone. Just like here, when she saw Medusa, she didn't forget to nod at him.

Seeing this, Medusa was completely convinced that he was her previous companion, but why was he locked in this place? When I think about it, I can't help but feel a little frightened, so there should be a soul-locking needle sealed under that mark.

Apart from that thing, I don't think there is anything that can pull the shadow out of the body.

Chapter 688

Of course, the current situation caught me off guard. There were many things that I didn't expect before, and now it was just a preliminary step.

Now Gu Shaoyang did not expect these aspects. After all, for Venus, his shadow recognized Medusa here, but the person in front of him did not intend to deal with all this directly.

"Do you want me to save you here?"

The shadow in front of me began to shake violently, and even nodded here and there. However, the person in front of me was also caught off guard. How could I possibly do such a thing? After all, before I found Gu Shaoyang to cooperate with me, I couldn't do it at all. I plan to consider these things here. If he gets into trouble here, wouldn't it be a big thing?

So at this time, Medusa can only squat next to him and accompany him quietly, no I know it was Medusa's actions that calmed his mind or something.

This Venus'Suddenly, he stopped wandering around and instead stayed here calmly. Seeing him like this, Medusa breathed a sigh of relief.

After all, his violent shaking caused the movement of the iron chain here, and he would provoke some other people here. He didn't want to think about these aspects now, and he also learned some other things in a short period of time.

The reason why Venus appears here is because someone appeared when the eight holy gods were put in a pot.

Although he was a shadow, they had the special communication method of snake people, and they could communicate at this time. After Medusa understood the situation, she saw Gu Shaoyang running over, panting heavily.

First of all, I repeated it to him here, and the people in front of me also did not expect that all this situation would happen like this.

Of course, for Gu Shaoyang, they didn't expect that someone deliberately took control here. If they really expected this, they would definitely not let him do this. It's a pity that the position they took is not sharp enough.

"Just wait here and stay with him. I'll take off his soul-locking needle and you'll see him go back soon."

"Are you sure you want this?"

Medusa grabbed his arm. At this time, Gu Shaoyang began to look around. Indeed, if she was left here by herself, would there be some horror?

But that was not what Medusa was thinking about. Would it be a bit cumbersome to leave Venus here and go back to get his soul-locking needle?

But the person in front of him completely misunderstood what he meant, and then he sat down in front of him, which made the person in front of me completely unaware of what happened.

Then he saw this look the next second, but it really surprised me. Most likely, I didn't expect it to be so rich.

But I Venus next to her nodded at this time, seeming to understand what Gu Shaoyang meant, while Medusa was confused at this time.

Why did she feel that the people next to her could communicate with Gu Shaoyang normally, but only when you get to yourself, like someone who is short of something, you must let him explain his words clearly, so that you can know what he means.

Chapter 689

The current situation is like this, which does catch me off guard, but I will definitely not be lacking in every aspect that I should think of.

After all, nothing could be missing in this regard, but it made Salo and Christi feel a little strange why they hadn't come back after being out for so long. Salo suggested that they go look for it, but they were Christie refused

"are you sure? What if there is any trouble then?"

"But it's not a good idea for us to just sit back and wait for death."

In the end, under the stalemate, the person in front of him had no choice but to compromise. Seeing Salo's firm steps made Christie feel a bit strange.

Although he had expected some aspects, it did not go so smoothly at this time. So Gu Shaoyang is still waiting for a suitable opportunity.

But he can't take this shadow away. A few people are squatting here. Unexpectedly, Christi and Salo actually moved to this side. This is exactly what they want.

If they can get here If so, then this time the plan is basically half successful, but I don't dare to speculate on other aspects at this moment.

What's more, at this time, their attacks have routes. If Venus can It was naturally a good thing to get their assistance here.

So after much thought, Gu Shaoyang hid in a corner. He thought he could find the route of Salo and Christi at this time.

Unexpectedly, he looked at the landmark Why is it that their destination is getting further and further away, and then he has no choice but to leave this position at this time. He chooses to attack elsewhere, but Medusa does not dare to go too far here. He has to protect the Nass, how easy is it to stop the attack of the man in black?

I looked at some relevant markers here before, otherwise I wouldn't be sure that the man in black is still in the cave. Where else can he be except in the secret room? He couldn't go, he couldn't escape when he entered here.

Although he thought so, he had never been able to see the shadow of the man in black, and he had never even seen this man anywhere..

It's like evaporating out of thin air. This idea has been brewing in my mind for a long time, but it has never been realized. I don't know why.

But at this time, I also figured out some directions. If it was said before It all has a purpose, so it must be a balanced state at this moment.

After all, I can also understand something in my mind. There is a high probability that what I saw is the trap they fell into here before.

"How do you think this matter should be resolved?"

"Judging by the distance traveled by the two of them, they will arrive here soon."

"It's not that they seem to be off track, but I don't know how to contact them to get them back on track"

"You don't need to worry about this. Snakes are sensitive to each other's scent. If he doesn't smell our scent, he will soon return to the place with the strongest smell."

Hearing his words, Gu Shaoyang in front of him could only nod. He originally wanted to pick them up here, but the shadow in front of him suddenly trembled violently.

Chapter 690

It even became blurry. Seeing this look made Medusa and Gu Shaoyang beside her a little surprised, but for Medusa, it felt more distressed.

After all, this is what I have been playing with since childhood. Why should a girl suffer such a crime? But basically most of the other eight holy gods are girls.

So at this time, I couldn't take sides with anyone, and I knew that taking sides would be useless. But at this time, Venus roared baldly.

Although I couldn't hear what he said clearly, I could clearly see that the other person was shaking here all the time, as if he was in some kind of trouble.

At this moment, I have also found starting points from several other positions. If there was a reason for what happened before, it should be true now, so I must find a starting point.

Of course, it is very likely that this place is where Medusa must be dealt with first. Only by knocking him out can he take the next step, otherwise he will hinder his progress here at any time.

But Salo saw something else. While accompanying Christi on the road, he clearly noticed a bright light on both sides of the road.

It has been flashing in front of my eyes, and it is constantly emitting light. At this time, I am definitely inevitable.

After investigating this scene, I originally thought of approaching here directly at this time, but as time changed, I found that the situation began to be inconsistent.

The road under his feet began to become crooked, and even made him defensive. If this was the case, then he might not be able to take Chris out.

Natasha next to her took out a bag and sprinkled it gently on the road. Seeing his actions, the two people in front of her were a little confused.

"This was something Shaoyang put into my hand when I entered the cave before, saying that he wanted me to protect Medusa on the road, but I didn't expect that I would retreat right away."

After hearing these words, both of them were stunned for a moment. After all, they didn't expect to be able to take such actions at this time. However, correspondingly, they also thought of some unnecessary things. They did understand some aspects before, but they didn't. Not from here

"As soon as you said this, I thought of the packet of medicinal powder he sprinkled on your ankle before. If I guessed correctly, that packet of medicinal powder should be something that only snake people can find."

After all, that is something unique to the desert. But at this time, I couldn't say anything else. After all, the things in front of me had reached a peak.

But at this time, I saw some other things, suddenly on both sides. He saw an entrance, but he didn't see it clearly at first.

But it wasn't until the next second that Gu Shaoyang suddenly saw his route clearly among several people. It turned out that the entrance of the cave should lead to the place he had guessed before.

But this How could such a hole appear out of thin air on the road? Is it just to connect them together? Thinking about it, it feels a bit incredible, but I didn't take the initiative to say this.
