

## Attributes 691

### Chapter 691

Instead, he was waiting for the opportunity for the people around him to adjust. After all, he was also his helper and would definitely contribute something here, while Natasha beside him didn't say anything.

Here, he grabbed Christi and rushed over. Seeing the two people coming here, Salo in front of him directly stopped them.

"How do you know that this road must lead to the direction of Gu Shaoyang and Medusa? What if we get sidetracked?"

"No matter what, we should give it a try first. Could it be that the only thing left in your hands is suspicion? What's more, they have our locator. If they are really near us, they will definitely come to find us."

But they never thought that Gu Shaoyang did not do this this time. After all, at this moment, he was still accompanying Venus and the woman beside him.

In fact, he knew it from the beginning. Some things, but other reasons have caused a change here.

But no matter what you do, your mission here will never change. For you, you need to find the man in black here, and then let him stay away from these people, otherwise some unnecessary things may happen.

And once he enters the palace here, he will definitely not be able to handle it alone, so he also needs the assistance of others.

It happens to be in front of him at this time. The person became a target, and of course he also expected some other things.

After all, excessive transformation could not be matched with him, so now he had to guess some things to ensure that everyone could escape from here smoothly.

At this moment, the sound of footsteps behind him suddenly came. Gu Shaoyang looked back keenly and found that it did not seem to be the ones he had guessed before. It was probably other people, who would be naked, so he looked at Medusa in front of him. After making a gesture, the other party immediately fell silent.

Then looking at the person in front of him, he was a little caught off guard. The two people happened to bump into each other face to face, but there were several other people beside him.

Looking at the man in black, he knew that the advantage was that if he rushed up at this time, he would definitely be unscathed, and he could even get some benefits.

After all, he had two people with him, so it was impossible for him to be reckless at this time. He did something to himself, but he didn't dare to guess too accurately.

But at this time, the reason why Gu Shaoyang targeted the man in black was because if Venus beside him could get clues about this shadow from him.

Then That's good, so he stared closely at the man in black in front of him. The man was a little hairy after being stared at, and then he attacked directly.

Gu Shaoyang rushed over here with Qixing Longyuan, this black man The sword in the man's hand actually made a bit of a rustling sound.

"Did you make this shadow?"

The person in front of him looked at him confused. Gu Shaoyang didn't intend to believe his reaction, so he rushed up with his sword and fought with him several times.

When the two people separated, the man in black He looked at Gu Shaoyang in front of him with confusion. The anger on his face was definitely not fake, but he definitely wouldn't bear the blame.

"Did you make a mistake? You locked me into this secret room."

Chapter 692

After hearing what he said, Gu Shaoyang looked at him leisurely. He was locked in a secret room, but it didn't mean that he didn't have hands or feet here, so he couldn't do anything extra.

But after thinking about it carefully according to his thinking, he actually had no chance to come into contact with the Eight Holy Gods. After all, several people had direct contacts before.

As for the man in black, it seems that he appeared after the Eight Holy Gods disappeared, but how could he leave some room for him now?

No matter what, if he can't find the murderer behind this time, then he will assume that he is the one who did it. Even if he wants to clear away the suspicion, there must be some evidence.

But the person in front of him also saw that Gu Shaoyang didn't want to be reasonable at all, so he sighed here, and then rushed over with the sword in his hand, but this time his target was not Gu Shaoyang, but the one beside him. of Venus.

How could Medusa let her get hurt here, so she immediately stepped forward to block the attack for him, but the sword of the man in black also stabbed Medusa at once.

It just hit his shoulder, just shy of his heart, but from Gu Shaoyang's perspective, the man in black had already inserted the sword into his chest.

This made him so angry that he immediately took out the Seven-Star Longyuan and chased him. He knocked the man in black to the ground with three strikes, five and two.

But there will inevitably be some other situations. This man in white actually came over to study, but don't you have to consider whether you have the ability before doing something?

So he stood on the ground with the Seven Stars aside and looked at the person in front of him solemnly.

This man was a little afraid to move. The man in black didn't come here, but the man in black was still mumbling at this time.

"I advise you not to waste your time on me. Your sword is indeed a good sword. I can't beat him, and neither can Xiaobai, but your friend is not in a good state.

If his guess was correct, he should have been exposed to the soul-absorbing technique. Apart from the Miao people, only Emperor Liuyun knew this technique, unless his body was still alive."

Hearing these words, Gu Shaoyang suddenly remembered that the previous impostor, if he was most similar to Emperor Liuyun, it should be this aspect.

So at this time, he gradually figured it out. For some things, most likely this process caught me off guard.

But at this moment, I also thought of some other aspects. If it was exactly the same as what I thought before.

It seems that it will not develop to other stages, but At this moment, I am also hesitant, hoping to connect these two points together.

"Are you saying that Emperor Liuyun is still alive?"

"Don't embarrass Xiao Hei. If the two of us had known about it, we would have escaped with him long ago, and we wouldn't be hanging around here."

Hearing these words, Gu Shaoyang squinted his eyes and looked at the person behind him, but at this time Medusa grabbed his clothes.

"Forget it, we haven't found a few other people yet, so let's hurry up and meet them."

Gu Shaoyang could only sigh, and then agreed.

Chapter 693

However, he did not expect that the man in black and the man in white kept chasing after him, as if he was about to do something. Seeing the two people like this also made Gu Shaoyang a little bit I have a headache, but Medusa in front of me speaks here first.

"Are you two going to come with us?"

Xiao Hei in front of her didn't speak, she just raised her chin high, but Xiao Bai next to her took the initiative to explain.

"We were also used by him before. He promised to give our family an equal explanation here. I didn't expect how long it took.

He actually forgot about this, so he wanted to use you to find its route here to see if he could catch it in one fell swoop."

Hearing these words, Gu Shaoyang frowned and did not agree, but Medusa affirmed it at this time.

But Gu Shaoyang was also hesitant whether they were true or false. What the two people had done here before was very targeted. I also learned about it.

But at this moment, the Qixing Longyuan in my hand suddenly began to tremble violently. After I took it out, I found that the compass on it showed a ray of light, and this ray of light happened to be aimed at I just walked this path straight in front of me.

Then I took out the locator and found that the two coincided here. If so, it was a bit surprising to me.

But what I should do was not myself. It can be solved in a few words, but more time needs to be spent on this matter. Gu Shaoyang is also a little hesitant at this time.

After all, Qixing Longyuan's attack here was doubled before, so he is not sure what he is referring to. Who was it? But Medusa looked at Weiner who was tied to the pillar next to her.

The two masked men in front of her seemed to show their sincerity. At this time, they directly waved the swords in their hands and slashed the people on both sides of them. The iron chain was broken.

It was a bit surprising to see this. You must know that Qixing Longyuan also had such plasticity before, but it was not able to break them.

"There is a seal on it. We have been with him for a long time. It is appropriate to have this authority."

"Then can you help find the other eight holy gods?"

"This is a bit difficult, but if I can feel them perching on the road, I can almost identify their method."

"It seems that you should know the topography of this cave."

The person in front of him nodded. The man in black didn't say a word during the whole process. Only the man in white was here to deal with Gu Shaoyang in front of him.

Seeing this look made Medusa feel a little curious, and then she got closer. As for the man in black, although he plays the role of a big villain every time.

But I can feel that he also has a soft heart, otherwise he would not be here with Xiaobai for these things. She worked hard.

Unexpectedly, when she got close to him, she accidentally tripped over a stone on the ground and fell directly onto the man in black. With this feeling, Medusa immediately discovered that the man in black was obviously a woman. child.

As a result, the other party hurriedly pushed him away from him, stood up immediately, and resumed his previous cold posture.

Chapter 694

Seeing this, Xiaobai immediately came over to rescue the two people.

"Since we are in such a hurry, let's go quickly, and we can also see where the other people are."

At this time, the man in black glared at Medusa fiercely and signaled him not to speak. The other party naturally remained silent, but Venus next to him suddenly fell to the ground.

Gu Shaoyang immediately turned his head to look. He glanced at it, then turned out all the bottles and jars on his body, and then looked at them carefully, and put one of them under his nose. After just smelling it, Venus immediately woke up. It was obvious that he could see. It can be seen that the opponent's strength here is not very strong, and there is even a slight deviation, but there is no interference in Gu Shaoyang.

After all, the Seven Stars Long Yuan in his hand can still identify their position, but this compass The red dots displayed on it did not move. Could it be that they were knocked unconscious?

Thinking of this, Gu Shaoyang also made them speed up the pace. The man in white wound around here and passed some forks in the road.

Then came I arrived at the place where this red dot appeared, but I didn't see anyone here, even if they already coincided with this dot.

"I guess they were caught underground, Xiaohei, what do you think?"

The man in black in front of him nodded silently. For him, this is also the most likely direction. After all, Emperor Liuyun has not built anything else.

But he has built a lot of tunnels underground. If they can find one of them, , that should be considered a good thing

"The next step is to find their own direction here. There are tunnels here, and they should be in one of them."

Hearing these words, the people in front of me were caught off guard. They didn't expect that things would turn out like this this time.

"Where are these passages?"

"It is basically the place where Emperor Liuyun lived before. Although he was sealed, he is not isolated from the world here, so there will still be some connections."

Hearing these words also made Gu Shaoyang in front of him a little confused. Looking at the way the old man communicated with him before, he didn't look like an outsider. He was just like the kind grandpa next door. The intimacy was so great. It doubled, but through what he said, I also learned something.

It is estimated that the identity of Emperor Liuyun is not as simple as I imagined. After all, there are definitely not many people who can participate in the battle between gods and demons hundreds of years ago. Simple.

Moreover, he also won the victory in the battle, and even solved the snake man's territory here. Now Gu Shaoyang also learned part of the things related to him.

However, the situation of Venus next to him gradually improved, and then Salo came in. An area under the ground was locked here, and the Seven Star Longyuan was taken out and poked into the ground.

But unexpectedly, a puff of smoke suddenly appeared in the next second, wrapping a few of them in it. The man in white He immediately grabbed the hands of the two people next to him.

He stuffed a ball-shaped object into their hands, and then told them to quickly put it under their noses. The two people asked, and sure enough, they woke up a lot in this period of smoke.

Chapter 695

Venus, who was in shadow form next to her, was left aside and was not being disciplined. Of course, at this time, he still looked at the two people in front of him strangely.

It seems that the identities of Xiao Hei and Xiao Bai are not as simple as they thought. After all, the person who can really cooperate with Emperor Liuyun here is definitely not an ordinary person.

"Who are you two?"

"I told you that I just wanted to revitalize the family here and restore peace here, but I didn't expect that it would end up like this."

Hearing these words, the people in front of him were somewhat caught off guard. This is a very common explanation, and many people even have it.

But now it makes Gu Shaoyang feel a little headache, this is completely unacceptable. It's a true reflection that I can't say anything more.

"In this case, I can also help you. If you need anything, you can contact me after you go out."

At this time, Xiao Hei just sneered, and then left here with disdain. Xiao Bai next to him nodded, took note of it, and then looked at him with a smile, and the masks on the two people's faces were directly exposed. Their character.

At this time, Gu Shaoyang did not continue to talk to them, but took a longer view and looked at the surrounding terrain.

If he remembers correctly, the several nearby terrains at this time There should be some other changes to the location. After all, there were quite a few people who appeared just now.

If we can really capture them here, it would be a good plan, and I also saw the figure of Emperor Liuyun, who seemed to be in the distance. Passing by.

He didn't see his eyes. He didn't know whether it was true or not. It might also be a trap, waiting for him to jump into.

But he must have looked back on this trap. After all, if he was really capable, he wouldn't have to follow him here. I am hesitant

"This time our route is probably a lot clearer, so let's deal with it individually here."

At this time, I was indeed a little surprised. I didn't expect that he would become like this before. If I was a little distrustful before, I am definitely convinced now.

But for myself, I don't rely too much on it. After all, the person in front of me knew what he should do.

If he thought of some things before, he would definitely not be able to solve them smoothly this time, and correspondingly, he also noticed another thing.

At this time, the Seven-Star Longyuan in Gu Shaoyang's hand suddenly began to sway. If he remembered correctly, it should be the same as before at this time.

And there should be some other things nearby. If he could detect it before Yeah, it doesn't seem to be that simple at this moment.

"Are you talking about the person you found this time?"

"It's not that the information he gave me before was indeed accurate, but unfortunately, it's not as simple as we thought."

Hearing his words, Medusa also hesitated a little. After all, with the cooperation of several other people before, she now does not dare to guarantee whether this matter can be resolved smoothly.

Chapter 696

After all, there are several other people watching here. Even if you have great abilities, you still have to consider the subsequent situation, and correspondingly, you have seen some unnecessary troubles.

"You must have guessed what happened this time, right?"

The Medusa in front of her did not speak. After all, Venus beside her also felt the seriousness and solidification in the surrounding air at this time, and suddenly stopped making a sound. The next scene really caught me off guard. And it seemed that Correspondingly, I discovered some of the actions of the person in front of me. This time, Gu Shaoyang was definitely more powerful than he expected. He directly killed the person in front of him.

This sudden shadow really made everyone a little nervous. Nervous, after all, this is a one-way street, and no one wants to deal with some trouble here.

Moreover, at this time, Salo and Christi also showed their true strength, and Natasha seemed to have no sense of existence at all..

But according to Medusa, he is the strongest person here. Could it be that he has some misunderstanding about this being the strongest? It is really a bit unexpected at this moment, but I have also considered some of the corresponding aspects. situation, there is a high probability that he is taking measures for these things.

Therefore, there may be some deviations here, but the aspects that should be taken into consideration are also exactly the same.

And in the current situation, Gu Ye can't even I thought of some other things, why couldn't I guess these during the process?

And at this time, Salo spared no effort to make some tricks. He directly grabbed Xiaobai in front of him, lifted her to the upper level, and let He helped to check that there was nothing else in the sky.

It must be said that the field of view was much wider here, but the little white man did not find that there was a route out of this cave, and several people became more and more interested.

After all, there is a route It's true, but he couldn't find a way out, which always gave Gu Shaoyang a headache, and the explosion of Qixing Longyuan here also surprised him.

A kind of sword's brilliance flashed on it, and then a second later. A ray of white light rushed to his seven-star dragon abyss from the opposite side, one white and one golden, intertwined in this place. It really caught Gu Shaoyang in front of him a little off guard. He had never seen him holding a sword for so long. He had such ability.

Could it be that his guess about what happened before was inaccurate? However, Gu Shaoyang also saw some situations. If he had to emphasize something here, it didn't seem to be so difficult. It's just that now he clearly felt a hint of danger.

Salo next to him must have had the same feeling. At this time, he looked to the side and the person in front of him nodded towards him, which also made him He was a little surprised. It seemed that he must have expected some aspects during this process, but at this moment Gu Shaoyang also saw their whereabouts clearly.

So he discussed with Xiao Hei and Xiao Bai here to let them cooperate with him , lead the other eight holy gods out from here, only in this way can Venus be returned to his body.

#### Chapter 697

I have found enough talents to conduct batch experiments here. Otherwise, the error of my actions may cause some changes to Venus here, but the Medusa in front of me is still quite good. After all, the only one who supports him is to find the remaining companions.

Only by himself can he guarantee that Venus can be properly restored here, and this time the shadow seems to be less and less responsive.

No matter if you give him some stimulation here or something else, he always feels very bland, as if there is nothing to do with him in front of you.

This scene at the moment really made me a little stunned. If this was really the case, then I would have to consider whether there would be some other troubles.

After all, in the following process, I also have to guess some redundant aspects. Maybe excessive choices make me feel that I have not gained any benefits here, but the more so, I guess some other aspects.

"If this is the case, then I have almost mastered the clues and terrain here. With Xiao Hei and Xiao Bai here to help, I guess I can find the exit from this secret room soon."

I didn't expect that not long after I said these words, the two people in front of me immediately took a step back, leaving me alone here.

At the same time, these people in front of me still heard that I was eloquent here, but the two people beside me had already He had already abandoned himself.

After talking about the planned plan and then preparing to listen to Xiao Hei and Xiao Bai's thinking, he realized that the two of them had actually moved back a lot.

"What are you two trying to do to distance yourself? Can you stop participating in the war here?"

"It's not that we want to say that we don't care about the terrain here. If we really follow your plan, then I'm afraid you will have to rush up here by yourself, and we just have some involvement with the flow here."

Hearing these words, Saluo's face in front of him turned as black as the bottom of a pot, so Zhao Yuyan beside him had to come out to save the situation and return everything to peace again.

"If that's the case, then let's just be together. It's okay anyway."

Everyone was a little surprised. Why did Zhao Yuyan suddenly appear? After what happened before, didn't you already lose a certain amount of contact with him?

But at this time, the person in front of him just smiled, but didn't say anything. Explain this matter to them. In fact, his coming in and out only depends on whether the aura of Emperor Liuyun nearby is strong.

Now that I feel that he is beside me, and he has already developed to this point, then I must be Take the initiative here

"Our destination should be near here. I can smell its scent very clearly. If you don't think this matter can be completed successfully, just pretend that I didn't say so."

The person in front of him was a little embarrassed. Wouldn't it be disrespectful to him if he came up like this? So Gu Shaoyang glared at him. Then Zhao Yuyan changed her voice back, but Natasha next to her laughed.

"It seems that this little sister is quite happy. If this is the case, then we must have some things to talk about."

So here he looked helplessly at Zhao Yuyan in front of him

"We are indeed snake people, but there is no need to be so hostile."

Chapter 698

When they heard the other party say this, the person in front of them did not give them any good looks. Instead, they curled their lips and looked unconcerned.

To be honest, Zhao Yuyan's reaction made her a little angry, and in the end she just took him away. When she went back and saw Gu Shaoyang's actions like this, Natasha next to her was a little surprised.

But at this time, the person in front of him didn't say anything else, but looked at him silently. Gu Shaoyang smiled awkwardly at this time.

"Since his words are so useless, they can't provide any clues. It's better for us to look for them slowly. The compass is in my hands, and the overall situation is almost controlled here. It's his business to have biases. You don't need to feel any uneasiness about this."

Hearing these words, Medusa was a little surprised. When she saw the snake people, she thought they were a bunch of unlucky things.

So at this time, she was unwilling to get close to her. But now that this was true, she was a little surprised.

And his defense for himself was like the boy who stood in front of him so that no one could bully him.

The images of the two people suddenly overlapped, even if Medusa didn't want to remember it now. There was a way, and Salo next to him also felt the same aura.

Medusa was stunned at this moment. You must know that this has never happened before. Except for that man, no one can bring him here. Such emotions came.

But now I have to remind myself that they are in a cave and need to escape here, not by looking at the man in front of them.

"Since everyone has already discussed this, we will go directly to find... It seems that the only way to leave here is to find Emperor Liuyun."

Saluo in front of him also nodded. This state really caught him off guard. Let alone the person disappearing, there was even a shadow here.

It was true that he was a little surprised, but correspondingly I also saw some other options. If I wanted to break out here alone, I would definitely need the help of others. After all, I alone would not be so capable.

But correspondingly, I also expected some other options. Situation, if Gu Shaoyang has no one to help here, it is impossible.

But this Venus is always able to cause trouble for himself from various angles, and the nail on his body suddenly appeared for no reason. It fell off.

This made Gu Shaoyang in front of him freeze here. Neither did he cut it himself, nor did Anhui District. After all, the shadow was still looking at the nail next to him. It was as if two people were

looking at each other. , seeing this look made me a little embarrassed. But the Medusa in front of me picked up the thing, put it back again, and then pulled it out directly, but the Venus in front of me didn't have any Transformation, as if it was fixed here

"What is this scenario?"

"How do I know? Don't ask me if something suddenly fell off. Is it possible that I can put this thing back again?"

After saying this, Gu Shaoyang thought of Medusa's actions again.

Chapter 699

Later, my face turned as dark as the bottom of a pot. I packed my things and turned around and left. Maybe for me, these situations were not as simple as expected.

But I have to say that Venus did give them some help here. After all, his current transformation was something that no one had thought of before.

"Do you think the falling nail is reminding us of something?"

Just before Gu Shaoyang said his speculation and other plans, the ground suddenly began to shake. Then he hurriedly grabbed the wall next to him.

Watching Medusa fall here, he fell directly She reached out and grabbed him, but she didn't expect that Medusa's other hand was actually held by Venus next to her. At the moment, Gu Shaoyang felt a little creepy, but as the next second he I discovered a situation.

It turned out that the nail on the back of his neck had been knocked off, and it wasn't even there yet. Where did the Tao fall?

At the moment, these are the only things left in front of me. In fact, I was caught off guard, but I also thought of some unnecessary aspects at the moment.

If he could decisively pull the person out at this time, it would no longer be the case now. Could it be that the real reason is because his mother is currently looking at the person in front of her carefully, for fear of missing something.

When Medusa came up, her eyes were strange. She looked at Venus in front of her. She knew what the two of them were looking at, so she scratched her head and laughed.

"I don't know why it suddenly became like this, I was just hesitant."

Hearing these words made me a little surprised. After all, I also saw some other things during this process. If I say that the previous state was similar to what I thought, it is all nonsense. The shock here only made me There were some fluctuations among them, but the rest were still standing here, watching the process of the three of them surviving. It also made Natasha next to her look a bit complaining. After all, it was the first time she saw this. It was a bloody thing, but the nail was placed at their feet. Venus then told what happened when he left them.

It turned out that they were taken away by a man in the middle and fell into a coma. After entering the past and present world, he had a fight with Xiao Hei and Xiao Bai in front of him. So while he was conscious in front of him, he was also full of vigilance towards them, even on guard. But at this time, Xiao Hei and Xiao Bai didn't care. It seems to have nothing to do with them.

However, it also reminds me of other things. Instead of causing all these troubles here, why not consider it from other positions?

"The man had been leading us to a special machine before. Listening to his roaring voice, it seemed that he was making something, but when he looked down, he saw that there was nothing else underneath. It happened to be the magma in the cave."

Hearing these words, Gu Shaoyang was stunned for a moment. Several people had indeed been to a place with magma before, but the location didn't seem to be as simple as they expected. It's easy to get in, but hard to get out.

Chapter 700

So I have not made up my mind at this time, but I am looking at the plans of several other people. After all, this is not my own world, and I still need some cooperation from them.

However, the current situation does catch me off guard. After all, with a high probability, the things I have considered here have basically come to an end, and the rest is what I am hesitating about here.

"In this case, we might as well go and take a look. Anyway, we have passed by here before."

Gu Shaoyang and Salo in front of him were thinking the same thing. If he rushed in here, there seemed to be no room for him except being beaten. So he didn't want him to do this here, but the situation here made him a little bit uncomfortable. Caught off guard.

Could this be some of the reasons for the appearance here? Now I have found a few roads, but they should not appear here.

And at this time, the Eight Holy Gods must rescue, but they cannot suppress it in this way. What if there is any trouble?

It would be too much to regret, so at the moment I am also hesitating whether to really deal with this direction, and correspondingly I have also seen some situations. If I guessed correctly, then At this time, there will be some excess.

Moreover, the branches of the Eight Holy Gods here are also very scattered. Do you have to walk through the entire cave to save them? But seeing Medusa's pleading look next to her,

I suddenly I don't want to deny it, maybe this is a good process. In his world, when Zhao Yuyan saw his face, she couldn't help but snorted. A woman can hesitate here.

"I really didn't expect you to be so judged by appearance."

"So what happened? Isn't it possible that you also rely on my appearance to identify whether I am a good person or a bad person? Don't be too absolute about some things, otherwise you will encounter some trouble."

Zhao Yuyan in front of her didn't say... After all, everything she said here before has been blocked by him. Now she doesn't want to continue to do more unnecessary things.

And correspondingly, she saw some other changes. Why? Didn't Gu Shaoyang assist him like this before?

On the contrary, Emperor Liuyun suddenly appeared in front of the requester, which also caught several people off guard. After all, these were the only positions that could be seen clearly before.

But now Being covered by the Eight Holy Gods, even a few people in this secret room may not be able to escape. Correspondingly, I also thought of some other locations at the moment.

"What happened this time is probably a bit different from what we expected."

"This is natural, but since everyone has decided to save people here, I will definitely not refute it, but I hope that before leaving here, we can search carefully to see if there is any whereabouts of Emperor Liuyun."

At this time, several people lowered their heads and started to look at the ground and nearby walls. Suddenly Xiaobai shouted in a low voice here, as if he was in danger. Xiaohei rushed over immediately and found that he was hung up. In the middle of the two walls.

I don't know whether to praise her for being too thin or too fat. The place where he propped up was just enough to form a support.
