

Attributes 711

Chapter 712

At this moment, I am thinking of some other aspects. If I can predict errors, then maybe it won't be so complicated here.

Of course, Gu Shaoyang also had some surprises at this time. Maybe it was because he was in trouble here. Yang Luo and Natasha also found a way.

This was through the induction of Natasha's stone. Although I didn't know what it was before, it was through the support that Gu Shaoyang had instilled in them recently.

Including when these situations occurred later, I slowly realized that this was also a very important clue that could accurately hit some aspects of them.

You can even feel the scents coming and going throughout the cave, but sometimes you may not be able to solve them smoothly.

Things this time should not be much different from what we considered before, but more or less some redundant questions have arisen, that is, before an option here.

I can see these aspects, but after some explanation, all the clues seem to be lost.

It is now even more difficult for me to regain control of him, and I can even see the surrounding scenes, all in a direction that I had not thought of before.

And there are many bright spots on this road. I actually didn't expect this at the beginning. I just thought it was my previous misunderstanding.

But correspondingly, I also saw his. Although I was caught off guard in the target state, what happened this time probably still caused a danger.

Just as they were approaching there, the people next to them suddenly acted out of control. Logically speaking, it shouldn't have turned out like this. Could it be that this triggered other clues?

But the sudden subsidence of this place made Natasha pause. At this time, Salo directly grabbed his arm with a backhand.

Then the two of them fell into this abyss together. Although they didn't know what would happen around them, it was undoubtedly very important to them at this time.

After all, the dangers that should appear on this road are never less. Even if I can count on any one here, I'm afraid there is nothing I can do about it this time.

So during this process, you basically thought of some aspects. Maybe this is the telepathy between the two people. He also held a jade ring in his hand.

But this jade is constantly shining, and it is obvious that the things here should be completely different from the inferior ones I thought before. It appears alone.

The situation may not be obvious to me, but the doubt now is like adding scars here, so the person in front of me hesitated.

I swallowed this sentence again. Instead of causing trouble here, it would be better for me to remain silent.

And correspondingly, he also saw another situation. It turned out that he had been caught in a trap from before. Emperor Liuyun had already anticipated their direction a long time ago, including where they were going.

Now Zhao Yuyan also came out and held Gu Shaoyang's arm.

Chapter 713

"Who was that person just now?"

Hearing Gu Shaoyang's question, Zhao Yuyan's movements couldn't help but sluggish, and then he asked a very strange question here

"Who is it? I've been here for so long, am I not the only one staying with you nearby?"

Hearing these words, the people next to him were also stunned for a moment. Could it be that it was an illusion just now? No matter how you think about it, it seems impossible. It is obviously a real person beside you.

Then I was a little confused here. , but he just hid it in his heart but did not say it out.

After all, he could not see anything. If he said something rashly now, it would only cause widespread panic. So at this time, Salo knew very well.

What should be done I have also thought about what I should not do. As for what changes will occur to me within the current scope, I have no way of knowing.

However, Zhao Yuyan has been beside me, carefully helping me, and she may be making judgments at this time. I learned some other things.

But I have to be a little surprised. After all, each direction of consideration is different. If I have to understand some aspects here.

It seems to be an inadvertent situation, but at this moment I What they have to learn is definitely more complicated than they expected.

Not only that, everyone is relying on themselves to hold up here, so no matter how reluctant they are, they can only cooperate here.

"Did you just say who was here?"

"No, you must have heard wrong. Besides, in such a cave, I only heard the footsteps of the two of us."

If it is really the person who saw it, then it must have eased from this side, but I have also figured out some things. If it is exactly the same as I judged, then why didn't it go so smoothly?

But in addition , While I have no way to get in touch with Yagami and the others, I don't know what Medusa's current situation is, since she is so far away from me anyway.

I guess I won't be able to find any clues for a while, so I'd better stay here obediently to avoid appearing. Some unnecessary things, but one thing caught me off guard at the moment.

If everything happened before had a reason, then why was it that this passage in front of me seemed to have no end? He turned around and asked Zhao Yuyan next to him. , but the other party was evasive and secretive.

Now that I am considered a fool, I can basically understand his intentions. It seems that this time he is going to trap himself here. Who has he been bewitched by? He actually did it. With this appearance, I am only considering this stage now. As for what will happen in the middle, we still have to look at some follow-up things.

"Then can you take me to the side road and take a look? I always feel like there's something there."

Zhao Yuyan will definitely help with these words. After all, the task that the man gave her is just to delay here.

As for what will happen next, it has nothing to do with her. Even if something happens, it won't be. I am responsible here.

But being able to delay him for so long can be considered as completing the task. But when I was thinking about this matter, a voice suddenly appeared in front of me.

Chapter 714

"I actually know that you are trapping me here, but I just want to ask you why. After all, everyone knows the current situation.

If I can be trapped by you here, it will be impossible to take them away. It seems that I can walk into this abyss. Basically, you have contributed a lot here."

Zhao Yuyan was a little panicked at this time. Although she said she couldn't see it, Gu Shaoyang could hear his rapid breathing.

Even at this time, he was actively searching for himself. The state in front of him must have surprised him a bit. Yes, but thinking too much about that matter is not something that I need.

However, Medusa and the others had some doubts about this at this time. It seems that they also understood these aspects, but the news they heard at this time.

But it's not just these, there are even many other aspects. I think what I have to do at this time is to look for other troubles here.

Salo next to him took a fancy to him at this time, and seemed to want to lock this person. Is Medusa suspected of being marked by someone, but it seems a bit surprising to find that he has nothing here?

"Are you looking for something?"

His actions obviously made the Medusa in front of him feel a bit creepy. She kept looking at herself up and down, as if there was something on her body. It was really catching people off guard at this time. Fang didn't do anything at this time. Looking at himself, he was doing other things on his own.

It was as if the current matter had nothing to do with him. This incident also made him feel a little surprised, but maybe it was because of some other factors that he was At this time, I was able to detect some other things

"At this stage, we are sitting here waiting for him to come back. It is estimated that Gu Shaoyang will not show up for a while."

At this time, Medusa's eyes widened, seeming a bit incredible. After all, he couldn't believe this situation now. But to be honest, there were some things that he knew in his heart. After all, he After entering this cave for so long and not coming back, what happened in the meantime.

I also understand it, but I must not speak rashly now, and I cannot let them feel that they have no chance of winning here. Wouldn't that be a mistake? question, and correspondingly I also thought of some other things.

The previous thing was because they were studying Venus, so they divided into two groups, so now I have found another way, and maybe I can start from here. These things were resolved smoothly, and there would be no trouble in the process anyway. At this time, Venus did not merge with his shadow, and looked like a stumbling person. Seeing him like this, I was undoubtedly very happy. It hurts.

But needless to say, after all, every direction is different. Even if you have great abilities, you still have to measure whether you have such ability. After all, at this stage, you can understand it clearly. I guess you don't. It's so simple as I expected

"We will focus on him now, take her away first, and I will find a way to do the rest."

Chapter 715

Although several people feel helpless at this moment, what he said is undoubtedly the best solution now. After all, the shadow of Venus has been floating beside them. Float away.

It seemed that there was no way to return to the body, so now she had to seize the time to take him away from here, but Natasha touched a herb at this time

"This thing seems to have been left by Gu Shaoyang before. He asked me to wait here until the full moon and give it to Venus."

Saluo calculated with his fingers that today happened to be the day of the full moon.

This really surprised him. It seemed that he could calculate everything, but it also caught him off guard.

Correspondingly, he also saw some other aspects, maybe this method is not the only way to save Venus, I should pay too much attention to the person next to me, maybe he is the biggest help point.

But at this stage, but it also reminded Salo of some things. Christi had mentioned some aspects to himself before. If he remembered correctly, it should be pretty good for him to do so now, so he thought about whether he could do it from this aspect. deal with

"Now that he has gone down, we must seize the time to rescue him from there, but doesn't he have a companion with him? Maybe Zhao Yuyan can protect him here."

But Medusa next to him suddenly shook his head, as if everything had some thoughts in his mind.

"This time things are definitely not as simple as expected. Besides, don't you still know who he is?"

Now Salo also frowned. It was precisely because he knew who he was and had a preliminary budget that he hesitated in every possible way at this time. He hoped that this could solve the matter, but now it is like this. If I really have the ability to solve it here, then these complicated things may not occur. However, I am afraid that there will be some situations that are far from what I think, and then I may give frequent warnings. If you create trouble by yourself, then now is the time when you are in trouble.

At the moment when several people were about to move forward, Luo discovered a secret. It turned out that after they entered the magma before, they came to the cave where they are now..

But since going down to Salou, some problems have appeared frequently. No matter how stupid I am now, I can still see the direction here clearly. I guess it must be a bit biased as I guessed before.

"I guess we have to go into this passage too, so let's go in and take a look anyway."

The people in front of them all nodded in agreement, but the shadow in the air at this time was reluctant and wanted to run aside here.

But unexpectedly, he was dragged back directly and forcefully followed them. After entering this area, the shadow never did anything out of the ordinary during the process.

It seems that Venus must have known their intentions, but the previous resistance seemed rather abrupt. What was the reason for it?

It is impossible to do such a move for no reason.

And correspondingly, I have also seen some troubles. If I take the initiative here now, it means that I am facing everything alone.

Chapter 716

In fact, in the final analysis, the most trustworthy person here is only Salo, but it is a pity that he is not here at all, so everyone slipped down this passage.

But after entering, I found that the environment here was a place with flickering lights, as if the lights were not working well, but at the same time, several people also discovered another secret.

If I hadn't guessed it before, now it was a halfway point, but I was a little surprised during this process. After all, the ground was made of mud, and their footprints could be recorded.

But there is no Salo on this road. Logically speaking, didn't he pass by here? At the moment, everyone feels a little on tenterhooks.

Several people then found a passage nearby. When they saw this passage, they actually made themselves a little nervous.

After all, he knew what he should do, but he was forced to stop doing it right now.

But to be honest, what happened before really made my eyes shine, but several people found some footprints on this passage. Gu Shaoyang, who had disappeared for a long time, turned out to be here.

After locking the position, several people immediately started to move out, but the most excited one could be seen here was Medusa beside him.

Although I don't know what he is thinking, it always makes me feel that he is very impatient, but through such things, I also see some situations.

Although there was one thing that made me feel that it was included in the past, it was inevitable that there would be some redundancy, so now I definitely have to deal with it seriously and solve this matter.

As several people walked inside, Medusa suddenly heard the sound of water dripping from the side. The dripping could undoubtedly be said to be a warning to herself. After all, she still understood what to do in this lesson. , but the corresponding situation is also different from what I expected.

"There seems to be some special sounds here."

Then he walked directly over here, and Salo in front of him also went around just in time, and intercepted Medusa right here. It was indeed a bit unexpected at this moment.

After all, in During this process, I also discovered some things. Maybe what I thought of at this stage was a little different.

But now Medusa insists on going in quickly, but Salo still needs to be cautious. Think about it, after all, the aura revealed by Venus at this time looks a bit different.

And his shadow has also undergone some changes. There is a huge steel here, which is slowly reduced to a small piece. It was as if something was targeting him.

The current look really caught him off guard, and then he followed the direction of Salo's finger and saw Christie next to him.

He had been observing a small corner. It seemed like there was some kind of treasure there, but Natasha next to him was actually with him. The two of them kept staring at this place, as if they could see what kind of treasure there was.

Chapter 717

"What happened?"

"I don't know. I feel like there is a very unexpected magnetic field down there, which makes this place different. Now I should find a chance to get rid of it quickly."

Anyway, this state makes me feel a little caught off guard. After all, Gu Shaoyang is no longer here by himself, and he can't act recklessly.

It may also cause some other troubles, but correspondingly I have also thought of some things , instead of experiencing those incredible things in the end, why can't you search for some solutions right in front of you?

"Otherwise, let's do this. The few of us will divide into two groups here. As for the specific direction here, it still depends on the opportunity."

The person in front of him nodded, and then cooperated with Medusa and turned directly to the side. But to be honest, he really felt a little caught off guard. After all, there was a high probability that this situation was more troublesome than he thought.

But as I took the initiative here, I discovered something else. It turned out that at this time I saw the direction in the corner next to me. I happened to get some other help. Some bats flew over the sky, and there happened to be one Staying in front of her eyes.

Salo stared at the movements in his hands, and slowly began to approach her, seeming to be preparing to take it directly here.

Of course, this bat seemed to be in his heart. Thinking of this, I kept an extremely far distance from myself here, for fear that I would get close to her here.

This look made me somewhat defensive, and then I dodged directly to the side at this time, and happened to bypass her. After passing this area.

Anyway, I also understood some things at this moment. I must not drive this bat away, otherwise there may be some other troubles.

But this bat has been hovering above them. , as if waiting for him to take the initiative, this moment is really surprising.

But the person in front of him didn't seem to think so much. He has been keeping a distance from himself that is far and near, as if it was like waiting for an opportunity.

But the bat kept around him, and Medusa suddenly saw his figure at this moment, and then directly bypassed this direction at this moment. It seems that at this stage there must be some differences with what he thought. Anyway, at this moment, he has almost seen some directions. Generally speaking, the longer he hesitates here, the more and more troubles will arise, so Salo can only take the initiative. Here I grabbed Na Tasha's arm and took her away from here.

To be honest, at this moment, I felt a little impatient and didn't know why.

But correspondingly, I also saw some other things. Scenario, if it is done according to my previous guess, then there will be a lot of trouble at this time.

Gu Shaoyang also told himself these things before leaving, and he must not take the initiative to attack anything unfamiliar..

That will cause some trouble at any time, and precisely because of this thought, I did not continue to waste time here.

But correspondingly, I also saw some directions. Instead of waiting here, why can't I take the initiative? Anyway, in the end Isn't that just what happened?

Chapter 718

Medusa and a few people next to her suddenly discovered a passage and walked straight down. Unexpectedly, they happened to bump into something more precise.

Gu Shaoyang actually stuck his head out here. Although he couldn't see it here, he could follow the direction of the wind and smell their scent.

So I happened to get together at this time. I didn't expect to encounter these things by chance, which really caught me off guard.

Zhao Yuyan next to her tried her best to prevent herself from appearing at this time, as if she was eager to do so.

I'm really caught off guard right now, but there are some things that I can't just say and do. There are other aspects that I have to consider.

"Why don't we go to the side? I heard that there should be some clues on that side. I just saw the pattern drawn on the map."

At this time, he must have left with the person in front of him. After all, he couldn't see or understand what he was saying. However, this moment was obviously a bit surprising. After all, this time things usually didn't happen to him. so simple

"Well, remember to bring me back here later."

Zhao Yuyan immediately agreed with a smile, and then ran to the side with him, but he actually understood early on that the person in front of him was waiting for an opportunity to directly deal with it, but he had to be capable to do so.

Now he He is fully capable of winning. It is not something that can be done easily. Anyway, he is still waiting for an opportunity. Moreover, as soon as

Zhao Yuyan leads her to another direction at this time, she can also notice all this.

So or I also understand some aspects more or less, but at present, this is something I cannot reverse. After all, I have no right to speak arrogantly to others. I just kept testing his meaning during this process, and I thought he would Help yourself here, but now it may not be that simple.

Who is he being controlled by? Not only are you and him here, there are also the other eight saints. Now Xiao Hei and Xiao Bai have become their help.

Who will complete the rest here? It really surprises me now, but looking at these methods at present, it is not like what I expected. It is possible that this will be the final trouble.

Zhao Yuyan has been Taking him through this side, he was a little surprised when he heard the wind next to him passing through his ears. It seemed that the other party had no hesitation at all at this time. He even planned to sell himself to get everything he wanted. , then since it is of no use no matter how much you say, it is better to take the initiative to give this position to the person next to you.

Anyway, you can't see it now, and he will not make some unnecessary actions towards you at this time, but the more you In this way, I discovered a secret.

It is estimated that what I adopted here should not be much different from before. It is just that I have no room to resist here. When I wake up, that will be the time to attack in turn..

Chapter 719

The person in front of him did not hide anything, but walked directly in front of him, as if he never thought about whether he would think of something else here.

But it can be regarded as playing into his heart. For Gu Shaoyang, as long as Zhao Yuyan does this, he will still have some room to solve this matter.

Of course, judging from the target state, I also learned some other things. Compared with the previous things, this may be a good starting point. While walking around with him, I smelled a fragrance coming from the wind.

So she immediately pulled Zhao Yuyan and asked him to take her there. After the other party took her through some special stones, she came to the fragrance.

In fact, I had already smelled it far away. It should be a previous location, but the action I should take now is definitely not as simple as passing.

This thing is very similar to the herb that snake people use to communicate with each other here. After all, sometimes they put this kind of thing here when they can't find each other.

In this way, we can effectively find them and understand the surrounding factors. Is this a signal that they have found their location and sent it to themselves?

At the moment, I am also a little surprised, but there is nothing that should be considered. In the past, I was thinking carefully here.

I'm afraid I've missed anything. After all, I have a lot of thoughts on this matter, which can even be said to be quite complicated.

"You go and see what that is.

Then he directly took out a bottle of medicine from his body, took two pills and put them directly into his mouth. He saw that there was nothing in the bottle.

I just threw it aside and drank the whole bottle at once. I just hoped that it would take effect quickly instead of dragging my feet here.

After all, once the person in front of him realizes that he is in control, he may come back and give him a heavy blow at any time.

That would be troublesome. I didn't expect to cause such trouble at that time, but the current situation really surprised me.

But after he came back, he only held a herb in his hand. At this time, he could see the outline of his appearance. This actually surprised Gu Shaoyang. Could it be said that his illness was cured?

But I blinked hard and looked carefully here, only to find that things were different from what I thought.

The light above dimmed again, as if it was just a sudden scene, and he would return to his original appearance in the end.

It seems that it is just a joy for nothing, but at this time, I did not expect so many stages. It seems that at this time, I still have to attribute the real problem to Zhao Yuyan.

The fact that he was able to have an affair with outsiders and set all kinds of traps for himself here was indeed beyond his expectation. Was he willing to do so or was he forced to do it here?

Then Medusa also came closer at this time, and suddenly at the moment she met him, Medusa felt the energy in her body surge very strongly.

So he immediately took a step back and found that the breath had calmed down, and then patted Gu Shaoyang from a distance.

Chapter 720

"I seem to be about to advance, but the energy convergence point seems to be with you. I wonder if you can do me a favor?"

Gu Shaoyang in front of him agreed directly, but he didn't expect that the other party's cooperation was just right at this time, and now he was a little surprised.

Maybe the previous state was not as perfect as he thought, but Gu Shaoyang was pulled to sit next to him. At the next moment, I suddenly felt the surge of hostility in him.

Including those whirlpools that could not be calmed down, I could clearly feel that the other party was definitely superior in strength at this time, and even inspired some possibilities.

But how can I say that I I also want to ensure that these things go smoothly, instead of hesitating here, but at this stage, I also see other things. The bald scales on Medusa's body began to soften in large areas, and then bit by bit here It fell off and finally turned into gray-black dregs.

Then Gu Shaoyang in front of him looked a little frightened and stood asking for advice. He also fell in love with Salo, but the other party shook his head at him.

Knowing that he didn't If he dies like this, then he can rest assured. After all, he has never understood the previous state, let alone that there are creatures like snake people.

Therefore, there will be some changes more or less at this time, but the situation in front of him Natasha was a little worried, after all, she still knew him here.

If he encountered any danger here, but with this ability, he couldn't solve it, so he was still in the process of hesitation.

But the person in front of him didn't seem to have anything to do with it, as if this matter had nothing to do with him. At the moment, he was really caught off guard, but the person in front of him also thought of something.

He let himself accompany his colleagues here. Are you here to protect him? Then you have to hurry up to avoid causing other panic and confusion. Then Xiaji gradually took the initiative to approach him.

In the next second, I also saw some of his actions, It turned out that they looked like this when they advanced.

It actually surprised me a little, and then I watched some of the actions of the people in front of me. It seemed that things this time were definitely different from what I expected.

But at this moment, Several people were accompanying Medusa for fear of causing some trouble here, but they also saw some situations accordingly. After all, compared to the previous things, I thought this was more conducive to my subsequent affairs.

Of course, Correspondingly, the layer of skin that retreated from Medusa also fell to the ground at this time, and then turned into something like ashes.

Then Gu Shaoyang tentatively picked them up from the ground. Put it in your hands. After all, this thing may still be of some use to you.

Moreover, Salo and Christi also anticipated some situations at this time. Instead of thinking about so many complicated things before, why can't they be more happy? What?

Maybe this has always been a point that I have questioned before. Of course, at this moment, I have also thought of some other aspects. Instead of constantly entangled with some things when the time comes, why can't I deal with it properly before then.
