### Chapter 781

Then the man in black took them to a room with a compass, and then knocked on the bricks next door, but there seemed to be no reaction.

The man in black impatiently knocked a few more times. It was precisely because of his actions that the wall in front of them collapsed. Several people thought something big had happened here, but they didn't expect that a scroll would appear in the next second. fell on their faces

"This thing existed here before in Liuyun Dadi. We don't know what its purpose is, but it doesn't seem that simple."

A few people are here, each with one hand, flipping through the contents. I don't know what is mentioned in it, but after all, I thought of it, and there will definitely be some changes because of it, so I am not in a hurry right now.

Try to do it in the future. I found some clues that I should have, but this also made me suddenly stunned. The previous things seemed to be completely different from this. Not to mention that I have such a view now, let alone during this period. Something happened inside, which made me feel a little confused. Is this what they think?

But at this time, there were some exceptions. Even if I have great abilities now, I can't fly out from here..So

I must stick to what I told myself before taking care of Shaoyang. However, this aspect makes me feel a little weird now. There will also be a Bagua formation here. I don't know how he knows it so clearly. , I can only believe the method he said before.

Maybe he really came from that time period later. If this is the case, then everything is open to discussion.

"I really didn't expect that he would become our pillar of support at this time."

"Yes, when I met him before, he seemed to be carefree. It seems that time can really temper a person."

Several people were talking loudly here, but only at this time did he understand the reason. After all, during this period, he also understood clearly. If these situations really happen, no one can protect these people.

Although I can judge these things, after all, it is not so simple right now. However, the contents written on these scrolls really made me wait and see, but I did not expect that the contents above were really shocking to me. Liang, I'm afraid I need to think about this matter again.

"You see, the cave written on this scroll is completely closed. Let alone trying to escape from here, I'm afraid it won't be our turn even if there is any chance."

Hearing these words, the person in front of him frowned, not knowing how to answer this sentence, but what Natasha said was not necessarily true.

After all, he also learned in the following process that if they really If you have such an idea, then you won't be stumbling here, so at this moment, you can only blame things that are not going well.

"The content on the scroll is nothing more than the beginning of several events that are approaching. I didn't expect these people to be here to make preparations....."

The moment he heard his words, the surrounding gears began to rotate crazily. At first, Gu Shaoyang was far away, and Medusa did not hear any sound.

But more and more things followed, and even made me question it at this moment. But now Gu Shaoyang understood it, and the Seven Star Longyuan in his hand began to make a low whistling sound.

At this moment, he also guessed what they were doing, but for Gu Shaoyang, the 7-star Long Yuan in his hand was now not only a weapon, but also the only target that could contact them here.

So next, I have to make sure that this thing is safe and sound in my hands, otherwise I will be in trouble if something happens.

But then Gu Shaoyang was shocked by what happened. The people around him jumped out like frightened birds, but he didn't realize what happened.

"What are you going to do!"

I finally came back to my senses, and I reached out to grab the person next to me, telling him not to get excited here yet.

"How else could this be done? Didn't you hear their screams? If we don't go there at this time, we will definitely be in trouble."

But the people in front of them just smiled and shook their heads, as if everything was within the prediction range. Anyway, this moment made everyone have some doubts.

Although they heard the sound of the gear turning, there was no sound around them. No problems occurred, as if everything was within the predicted range.

Maybe this is because I have some troubles at the moment, but it is precisely because of such a situation that it really makes me a little afraid.

In the target state, I must be I learned a few things, so next I need to see who is the most prominent choice here. It happens to be that I have given some help, but during this period I also thought of some unnecessary things.

Chapter 782

But just when Medusa was excited, the people next to her also made some choices, and directly teased the people in front of them. To be honest.

Judging from my own abilities, I may not be able to think everything through so thoroughly, but it is precisely because of my initial prediction that this led to some subsequent incidents.

"Don't worry, the gear turning just now should be a normal thing."

The person in front of him nodded and said no more. With his words, he felt relieved. After all, everything happened for a reason. At this moment, he didn't want him to waste his time.

But Medusa knew it very well. What is there in this cave? After all, I am one of the members here, plus the special status.

Naturally, I can think of some troubles in the future, but in this process, if I am counterattacked, wouldn't it be the most embarrassing? After all, judging from his tone, Floating Cloud Land should have disappeared here, so the next step is his home court here. The situation may be different from what he thought.

But there is no need to question it now, on the contrary The Seven-Star Longyuan in his hand has a little color. Could this be some of the troubles before? I thought of something at this time, but I didn't predict too much.

After all, following the meaning of his words, I almost felt the same. Understood

"At the fastest possible time, how long will it take to get back? I'm afraid something will go wrong by then."

The person in front of him smiled and shook his head. This kind of thing would not be so clear if he asked himself, but what happened next was really the same as before his eyes. After all, he almost understood some things in the process.

"Don't worry, if these situations really happen, it's because I didn't do things well."

Hearing him promise himself here, the people in front of him breathed a sigh of relief. After all, no one wants to waste time at this time, let alone passing through this area. However, the purpose always makes me a little confused..

Could it be said that this is a changing area? Anyway, while thinking about it here, it is better to look forward to it, maybe there will be extra events.

Then the two people came to the air, and they didn't know why they suddenly saw it at this moment. With the clues in my hand, I really didn't expect that the thing on the Seven Stars Longyuan had revealed a special point.

This beam of light just happened to shine on it, connecting the two together at once. It seems that this Things must not be that simple once, but you also have to think about why such a process occurred.

In addition to some of the reasons that Zeng had experienced before, he reached out and took down the beam of light in his hand, and then taught Medusa hand.

The other party was a little hesitant at this time, feeling that this beam of light was not only itself, but even a bit hot. Gu Shaoyang walked down and patted his shoulder gently, as if to indicate to him that it was okay this time. question

"Don't worry, if something happens, Natasha will be here to ensure everything for you."

The person in front of me couldn't help but hesitate. It seems that I really should think about this matter this time. I can't continue to evaluate the work and make some choices here.

.....

On the contrary, Natasha picked up a bracelet-like thing from the ground here, and then gently put it on her arm. She didn't know why she shouldn't do this with the things she picked up.

But this bracelet seems to have an attraction, pulling me here, forcing myself to touch it. Such an incident does give me a bit of a headache, as if someone else did it on purpose.

"Is this beam of light useful?"

Gu Shaoyang in front of him nodded inexplicably, and then looked at him with a smile, as if he knew a lot about this matter.

But after all, this is someone else's business, and he is not personally involved. He must be thinking about it. There will also be some deviations above, and I happened to hear some echoes in the huge cave.

Now I have to be prepared to avoid some trouble.

To be honest, I have thought of some things before, control Although his behavior is important, it is obviously very different at this moment. At least from the directions he thought of, there must be some gap.

If this is the case, then I would rather not compromise than make some redundant things here. Action, after all, I can still do some of the things I choose to build the bridge here.

But it seems not that simple at this moment. Although this is a goal, it seems too complicated. The light in my hand immediately Here, some of the previous changes have been brought about, rising up and shining in the sky.

Chapter 783

Seeing this beam of light, the person in front of me couldn't help but ask, what is this doing? Is it a challenge to myself?

But at this moment, the people around him didn't mention anything special, as if they didn't have any opinions about him, but the current situation made me feel a bit weird.

It didn't matter what happened before, after all, it was enough to get through it, but this time the incident was not as simple as I expected.

However, this energy ball quickly came to his eyes. He had never expected these scenes before, but what appeared in front of him now was undoubtedly a blow to his head.

After all, I am very aware of the current situation. If there is some trouble now, it will undoubtedly start from here.

It's just that the flashing light on this energy ball doesn't seem to be as complicated as I expected. Could it be that what follows is just an idea in my heart?

But in the end, I overcame it all and stuck my head out here. To be honest, this direction of consideration must be something I have never understood before. After all, as long as I make some preparations, I will not fall into this deadlock.

"What do we do now?"

Looking at some of the functions flashing on it, I was stunned for a moment.

It seems that I really underestimated him. There is not a lot of potential here, but for Gu Shaoyang, what Qixing Longyuan did at this time Someone must have considered it before.

But to be honest, do some of the actions taken at this time also make people feel a little forced?

"You stand on my shoulder and look down, trying to capture all the light within this range before this happens."

How could Medusa know how to touch this thing, so she kept circling around it? If this is the case, then she definitely needs to hesitate more on this matter.

But the current situation does not seem to be that simple. , No matter how much I think about it at this moment, it is useless. On the contrary, the person next to me is watching here frequently. I think I want to get some clues from myself. Anyway, Gu Shaoyang will not say anything to him. After all, This light doesn't look very kind.

And it's not that bright, but has a dark color, as if I'm thinking about something here.

But this light hits my heart. It seems that this I must think about something here once, and I can be considered just right now.

But as for which path it is, it will not be so smooth. On the contrary, I have to understand what is my own in this process. What needs to be suspected most is that after all, we haven't been able to get certain contact with them here. If some trouble occurs at this time, it will be terrible.

So you must think about what you want these people to do before it happens. How to do it, but it is also because they are obviously involved in these things.

Although the beginning of another matter does not mean that it can be solved smoothly, their initiative here undoubtedly brought some relief to themselves.

Later, they specialized in admonitions here This Medusa hurt the other party and made some wrong actions, so she quickly told several other things here.

"There is actually nothing special about this ball of light. The most special thing is you, so now we must find a way to make things happen on both sides at the same time. I wonder if you are sure of this."

Medusa was stunned for a moment, and then shook her head. He was indeed very bright at this moment, as if his whole person had his own light.

But what he wanted to see was not that he was sure of everything like this. People, but now it seems that it is not as simple as expected

"Don't worry too much, you are Medusa, the strong one here, you should know something."

Hearing these words, the person in front of me was stunned for a moment. I didn't know what he meant at the moment, but I must have thought of the reason before.

Otherwise, how could I dare to do this, but at this moment, I am undoubtedly giving myself a good chance. For a moment, the ball in my hand suddenly became important.

After all, I had never understood this before, but it did not mean that this situation would end like this, and now I also understand this trend. Instead of If you are stumbling here, you might as well seize the time here.

"Everyone is here for a reason, so it's not surprising."

But what Medusa didn't expect was that he could actually have some common views among these people.

"You knew the purpose of the men in black and white early on, right?"

"There is really nothing wrong with it emotionally and logically, and I am someone who came from that period of time and I will definitely have a different understanding of these things."

Chapter 784

The person in front of him frowned very high, so he naturally understood what he meant by saying this. After all, at this stage, he had already understood that the other party actually had no intention of giving him such a chance here.

"Since they are not hostile to us, why can't we help."

Then Medusa nodded, and did not say any nonsense here. Instead, she looked at the position beside her. She had expected such a scene before. If such a thing really happened, then she would What kind of method should be used to stall this process? Blindly looked at it carefully, and it seemed that only this one was more in line with the previous standards, so it might as well be done through something like this.

Medusa in front of her nodded. The energy ball in his hand was placed next to him. Although he didn't know the purpose of this thing before.

But then he almost understood it. It was precisely because of the hard work before that he finally got some adjustments here. Since In this case, I won't waste time. Anyway, they don't have any hostility towards me now. But at this moment, several people discovered something extraordinary. If it is really as they thought, Why have they never given me such help before?

However, the current situation really caught me off guard. The current situation may not be what I thought, so I must seize the time.

"I know what you are worried about, but in order to avoid problems with them, we need to seize the time to capture him, otherwise other changes may occur at any time."

The person in front of him nodded, as if he understood what he meant. At this time, he felt a little relieved. If this was the case, then he was finally relieved.

After all, the current situation was all caused by what happened before. Maybe no one will do useless work here, so you have to think about it, what should you do if you encounter danger on this road?

However, the person in front of you seems not to give yourself such a chance at all, but instead follows the previous template here After going around for several times, I definitely wouldn't want to do it in the same way as before. After all, I still understand this kind of thing.

"These people are all selected from us. If you feel something is wrong, you can try it here."

And now the people in black and white must be able to defend this place completely, otherwise I would not dare to entrust people to them, but it is precisely because of my own views and choices. There are some exceptions, maybe this is what I have done before What I can't understand the most, but it doesn't mean that everything will be as I think, and in the process of this goal premise, I can understand it.

If it is really that simple, then how can I hesitate here? The undecision is not all due to the subsequent events.

But at this moment, I don't seem to know what to mention. Maybe this is the trouble I am having with the exchange now.

"You said how should we consider this process?"

The person in front of me frowned and immediately looked onto one of the directions. After all, I knew it clearly at this moment.

But the speed of these people was so fast that you hadn't adjusted it well on your side, and they were chasing after them directly. Coming here, and at this moment, Gu Shaoyang was caught off guard.

However, the cooperation with Medusa here was very good. Not only did he successfully win over these people, he even got another development. Anyway, he didn't I knew very well how to adjust, so I fortunately ignored this matter.

Coupled with some other reasons, I was in trouble on this matter. After all, I was hesitant about many things.

But right now At this moment, they did not give themselves a chance to return. They were caught in layers of crises on this matter, which meant that if they wanted to do something, they would definitely have to deal with it through him, but the person in front of them It seems that he doesn't have much understanding of this. After all, at this moment, several people are indifferent to the things they are harboring.

If this is the case, then I will not be polite. Anyway, this kind of thing will happen. route, but it does not mean that it is an area like this.

At this moment, I can't think more carefully. It is easier to prepare everything, so the next step is also the reason why I continue to hesitate here, but after experiencing These things.

After all, I have learned some lessons. I can't still be hesitant at this time. But at this moment, there are some things that make me think.

Logically speaking, if I really have these thoughts, then in fact, It's not a bad idea, but I'm afraid that the budget here won't be correct enough and the adjustment direction will still be a deviation.

Chapter 785

"You take this energy ball and protect him. I'll be with you for the rest."

The person in front of him took a look at his bad luck and didn't understand what he meant by his words, but the next second he got the most authentic answer.

Sure enough, there was a reason, but the way he looked now really made him feel a little helpless. , could it be said that this is the ultimate goal?

"This time the process will definitely start with us, so you must be prepared to avoid some trouble."

Melusa in front of her clenched the thing in her hand, as if she was what she needed to grasp most, but at this moment she still made herself pay attention to the situation on the left and right.

Logically speaking, she shouldn't have paid attention to it. , but these troubles happened to attract me passively, but if this process was slightly wrong, I just looked at it.

But I didn't say anything, as if all this was within the scope of my judgment. , after all, the adjustments for each event are definitely slightly different, so you have to ensure that you don't fall into other people's traps at this time.

"If you really thought about these things, why would you deflect them here? It's not because I feel guilty"

"you....."

At this time, Salo took advantage of the victory to pursue the victory and came directly over.

"If you really have the confidence, why don't you come here to talk nonsense with us? Besides, everyone has seen what happened before, and you don't want to fall into a passive environment here."

The man in front of me was stunned. Who taught me this? But then I thought of a person who was being questioned here.

Apart from him, I really couldn't think of anyone else who could do this. Something like this happened, but at this moment, I was really caught off guard.

If everything before had a reason, then why did the man in white agree with his statement.

But the man in black kept a straight line. Guan Ji was in a state of hanging high, but the person opposite suddenly spoke, as if he was explaining here, and also seemed to be distanced here.

"Don't worry, he will definitely not betray everyone here. For the man in black, this aspect may also make people hesitate."

Then the people in front of them nodded one after another. The Eight Holy Gods were not so stingy. It was just some of the actions this man had taken against them before.

It made Salo feel a little jealous, but Salo must have said that. It's not false. He not only cooperated with them later. He even helped them escape together. However, he did not expect that the two of them were solved by Emperor Liuyun.

But later, the two of them He was still found by these redeemers. If the man in black knew this information, he might not be so angry here.

But now this is considered an extreme. After all, I have never seen him so angry before. In addition, there must be a reason for certain things, and the suddenness made me feel a little strange.

Afterwards, some arrangements were made here, and several people quickly acted here according to the order of this round, but at this time Medusa He held the energy ball in his hand with a very cherished look.

It seemed that he regarded him as a treasure. When Gu Shaoyang turned around and saw this scene, he almost laughed out loud. He just let him take care of himself here. Look at her.

She is like the apple of his eye. But then the mechanism is activated here. He hears the changes in the gears under his feet, and then recalls the book where he worked alone last time.

These gears should all be related. Therefore, Emperor Liuyun will definitely appear here next to restore the gears to their original appearance.

Otherwise, they may escape here at any time. Isn't that man's real purpose to stop all this? But it didn't happen last time. How did they get out, which became the reason for doubts in his heart, but the moment in front of him made Gu Shaoyang think of something. Then he took out the 7-star Long Yuan and pointed it in the direction of the sky, guiding the steel The thunderbolt that came was released again. The God of Thunder who was resting in the heaven heard the sound and immediately stood up, holding the crystal ball on the table and watching. Unexpectedly, it turned out to be the boy just now. This time He also understood what he was doing, so he probably came prepared. Although he didn't know who was commanding here, it looked like it was the first time he took away his store just now, but why now? Why did it go so smoothly?

The seeds of doubt took root in his heart, but at this moment no one could smooth it all out. After all, no one thought that that person was actually the starting point here.

#### Chapter 786

In fact, everyone has the same suspicion at this time, so they must make some preparations so that everything can be settled. However, the moment in front of them seems not as simple as they expected.

"You two go forward from this road, and we'll see if other routes can be opened."

The men in black and white were colorful, and they led a group of people to appear here. Although I didn't know much about what happened before. It can be seen that the situation in front of me is very natural. I think it should be due to the previous changes, but Sa Luo and Christi found a special exit under the guidance of the man in white's compass.

If I remember correctly, this path should be the preparation of those before. Anyway, they couldn't guess it at this time. Thinking of that More.

I definitely fell into this one thing in the end, but I still remember the previous standards very firmly at this moment.

"The red light on this compass should be what we saw before."

Hearing these words, several people actually had an example. After all, no one can do something beyond their control here, but the more they do this, the more familiar they feel.

This path is what I learned. So the appearance of trouble at this time was not a surprise to me, and I also discovered a secret at this time.

It may not be that simple, but it is not like this at this moment, and I have even found some other ways to do it. , if we must get an explanation here, then this is undoubtedly a logical direction.

"Look, the road here looks a bit familiar."

The man in white also looked over. The scene where he had just rescued Yan Xia really made him think a little. After all, his ability to detect certain aspects was actually quite low, and there was even something wrong here.

But the gears were turning. At the same time, I gave myself a lesson. After all, no matter how specific I think at this moment, I have to do it through these things.

So in order to ensure that there is no problem with this matter, I am working hard now, but the next second I realize that I have worked hard here. The business scene has turned into what it is now.

If it had been before, I would have felt a bit regretful, but now this time is not an opportunity. After all, I can see clearly that what these people have done is There is a reason.

But I am so uneasy now because I did not expect it. Could it be that this was a premise before? Thinking of all this, I feel a little hesitant.

"You can hear the sound of people banging bricks here."

At the beginning, several people really didn't expect it, but then they discovered a secret. It turned out that there was more than just these things happening here.

They could even see some things they had never understood before from several nearby aspects. Yes, it seems that this time the incident has unveiled his mysterious veil.

Then the man squatted here and shouted. Unexpectedly, he heard the voice from the other end the next second. It turned out that Gu Shaoyang and Medusa actually I was only on the same wall with them.

Then a few people were searching for a way here and pulled the two of them over. I have to say that this scene really surprised me. It seems that in the process, the people in black and There must be a reason for the man in white to appear, but at this time, he definitely won't talk nonsense to attract people's attention.

"You two push this rock away, and I'll see if there is a passable route nearby."

Then the man in white nodded and went out with Christi here. Although he may not have been able to think so clearly before, but after looking at it now, no one will solve it so simply. Let's go Pushing the stone away, they found that the distance was not that short, and there was even a huge ravine in front of a few people. But it was not easy to see them before. The current situation did surprise them, but it seemed that they were not there. It's as simple as I expected. If this were the case, I would still be a little worried.

"Didn't you encounter any danger on your side?"

Saluo didn't forget to pay attention to the gap between the two sides' environments, which really made him not think clearly.

"There should be a suspension bridge in the middle, so be sure to take a closer look when you come."

Saluo shouted loudly, and Gu Shaoyang responded on the other side, and then disappeared here with Medusa holding the energy ball in his hand. In fact, he did not expect to encounter these things before. However

, The veins on the bright ball were very clear, and it looked like they had been carefully prepared here.

To be honest, this scene really made my eyes light up, and then on the way over, I discovered what he had described. The suspension bridge was displayed before his eyes, but he saw a special scene from above.

## Chapter 787

It turns out that there is a special button on the top of the fishing bridge at this time, which seems to allow him to return to the way it was before.

But I also know that this is just a one-sided idea. If it is really what I think it is, then I won't waste all my energy here.

However, the person in front of me didn't intend to explain this. The more I understand, the more I won't do it. Anyway, I should look at other things. If I understand these things, why can't I use them again? Other people's hands.

Then he looked at Medusa next to him, and grabbed his arm here.

"You must hold me. When the time comes to go down, I may not be able to guarantee your safety, so you must take the initiative to follow me."

The person in front of him nodded and turned around and walked away. This also surprised Gu Shaoyang. What was he going to do? Is he trying to keep a certain distance from himself?

But he also saw the same thing. After all, after he moved away, a raised stone under his feet attracted Gu Shaoyang's attention.

Then he picked up the thing from the ground and looked at it carefully, and found that it was the broken stone he had seen before. Porcelain shard.

Didn't he disappear here? Why did he suddenly appear in front of them again? This undoubtedly made Gu Shaoyang feel a little worried. Does it prove that Emperor Liuyun is beside them.

If so In this case, I would really not be able to let go of this level in my heart for a while, but Salo and Christi no longer focused on the two of them.

Instead, they followed the direction indicated on the compass. A particularly small room, and then the man in black was called over to help lift away the shelter on the manhole cover. The man in

black turned purple the moment he saw the long ladder below, as if he was worried about these things There was a very deep impression.

And at this time, Salo didn't know what he was saying, so he just asked tentatively. As a result, the other party grabbed his arm with a very stiff look on his face.

"I advise you not to go down there. This is where the nightmare begins."

Although it is a place I have never understood, I always feel that something is not quite right. If this is the case, I will not waste time and try my best to deal with this place as quickly as possible. It can be regarded as smooth sailing.

But in the next path, No one can guess what will happen, otherwise I would hesitate here frequently, but it is precisely because of my views here that

I am forced to create some other troubles. If I really have the skills at this moment, then You have to think about other things. You can't continue to wait and see here.

The men in black next to them left with Salo and Christi. The other people didn't know what to inquire at this time.

Then they just dodged around. , I thought this could bypass their vigilance, but I didn't expect these guys to be a lot more cautious.

It seems that this incident should not be solved so easily, and coupled with some subsequent processes, several people were It's a bit surprising.

After all, no matter how bad things went before, they still wouldn't have turned into what they are now. As for what is right and wrong, right and wrong, I definitely can't understand it from these few sentences..

On the contrary, because of some changes here, I am now forced to make some other judgments. But compared to before, I think everything has become more reasonable. It seems that this time the incident should be my fault. The one who was least able to grasp it.

However, the man in black also saw the look on Natasha's face at this time. When Salo left here before, he told himself not to show any malice to other people here. After all, there are only a few people here. Now they are all grasshoppers tied to a rope

"If this is the case, then I will help you and watch over you. You must be careful and don't take the initiative to test here. When we come back, everything can be solved."

The person in front of me frowned, but still agreed. To be honest, I never dreamed that I would be able to have some contact with them.

After all, I had already thought of this matter before, and it seemed unexpected. Things abound, but it is precisely because of the irrelevant opinions here that I think of some exceptions. This time the situation may not be as smooth as I thought. If you really have time, you might as well go and take a look at the extra ones. It can be regarded as solving the problem here.

But Gu Shaoyang and Medusa have also reached the end of this road. If I remember correctly, the direction recorded on the map last time should be here.

In order to avoid some problems now Unexpectedly, the person in front of him still walked there quickly, although what happened before was very different from what he thought.

#### Chapter 788

But there is no chance to hesitate at this time, and the energy ball Medusa is holding in her hand will be her best choice to take action here.

Therefore, no matter how stupid I am, I will not force myself here. First, there is no need to bother with these things. Second, I have no advantage in this matter. Not only will I not be able to find an exit, but I will also be tricked. Together, that would be bad.

Moreover, the former Emperor Liuyun did not know where he had gone, but the relationship between Furuosha and Manmo was still as bad as ever.

Looking back on that scene, I was really caught off guard. Could it be that the beginning of the problem this time was the result of my concern here?

However, after thinking about it carefully, it seems that there is a reason for my hesitation, but what I am worried about now cannot be the most important choice in my eyes.

So if you are still hesitating there, why not look in other directions? Maybe you can get some answers at this time.

"You watch for me below. If there is a green light, stop me immediately and ask me to go in that direction."

Medusa was stunned, and then nodded in a panic. She had always known that Gu Shaoyang had an inexplicable attraction to her.

But every time she recalled it, she found that she had forgotten some things. Could it be that this is the problem I am encountering now? But it is a bit surprising to say the least. After all, I must have thought of the method of searching here before. Even if I have great abilities, I still have to make choices in these aspects. , but the choice in front of me really makes my eyes shine.

Maybe I can take this action now, but I don't know what will happen here. But the people next to me have expected some exceptions. It turns out that Meidu Sha saw something floating below early in the morning, and she didn't take it to heart at first, but then his voice became louder and louder here.

Gu Shaoyang also had to pay attention to that beam of light. He was indeed locked on his On his body, Gu Shaoyang didn't feel anything was wrong.

Instead, he thought it was a guiding light here, but the colors that appeared were clearly familiar to him from the previous level.

And now at this moment, he had returned to this place. In this world, I had to kill them as before no matter what, but the wall in front of me suddenly collapsed in the next second.

The way out here was found so easily. What I thought of at this time must be something unexpected, although I don't know how to choose.

But there is no doubt that it is a reasonable thing at this moment. After all, I will never choose to waste time here.

On the contrary, I have also found a route. If everything before had been predicted by me It's almost the same, so this time I have taken advantage.

But what I think of in this current situation does not mean that others can understand it, so maybe I need to find another way, otherwise I may get into a deadlock here at any time.

"Can you help me see if there is any passage near this rock?"

Medusa and Gu Shaoyang were searching hard here, but they couldn't see anything, not even a shadow. They were really confused at the moment.

But the next second the problem arose. It seems This incident really surprised me, but the final result of each route must be slightly different.

So I must think carefully about what to do before this, otherwise I may end up here at any time. Creating trouble, to be honest, no matter how little I think about here, it is still a trouble now.

Suddenly a voice appeared next to my ears. If it weren't for the fact that I got to know him here, I would definitely want to avoid it. He, but at this moment, he didn't have time to think too much. After all, he was the one who was in trouble now.

"I know how to leave from here, but I hope you can negotiate cooperation with me. If you agree to this, don't say this, I can also give you some other benefits."

Gu Shaoyang in front of him looked in the direction where the sound came from, and then looked at Medusa next to him. The other party was a little surprised after receiving his look. What did he mean? Is he asking him to help here?

However, after searching for a long time, he did not find any clues here. In desperation, he could only stop here. Unexpectedly, it was because of his actions that another situation occurred here.

"Although I can't guarantee what will happen this time, the current situation cannot be solved with a few words. Since you know, I won't waste time with you here."

Then the voice immediately gave its true form here.

## Chapter 789

When you look closely, you see a black cloak with no pattern on it. I honestly don't know what this thing does, but the real situation appears the next second.

Although I cannot understand what is happening here, after all, there must be a reasonable path for adjustment now, so how to do it next has become the premise for me to speak here.

However, the current purpose makes me feel a little complicated. If it were before, I would definitely not think about these useless efforts.

But after all, at this moment, I also understand that the real problem does not start here, but because everyone's actions here cause some changes in the body.

Otherwise, it would not be involved to this extent, but precisely because of this view, I still explored some secrets around me.

Unexpectedly, I found out about the village where the barbarian demon appeared last time. It seems that everything is developing in this direction, but no one knows what will happen next moment.

"Do you think we are overthinking this time?"

Gu Shaoyang asked and looked at Medusa next to him. The woman's eyes were a bit inestimable. You could tell that he was exactly the same as before.

But the only thing that remained unchanged was the trust he had in the man in front of him. His mind suddenly softened, and it was indeed like what he said.

If it was really so difficult, it seemed that the barbarian demon could come here directly to attack, but nothing happened. It was just his wishful thinking here. After his hint,

Gu Shaoyang gently patted Medusa on the shoulder. He did not rush to the village to seek answers. Instead, he stood beside him.

He accompanied him back to the previous Bagua Array. In the area, everyone is guarding the side of the well, for fear that some demons and monsters will pop out of it.

After all, the expression on the man in black's face before was definitely not groundless. Although I don't know what he wants to explain here, the current situation makes me feel there are some surprises.

Before things develop, I can only do it in this way, otherwise there will definitely be some surprises, but for Gu Shaoyang, the more he thinks about it, there will definitely be a lot of trouble here, but here at this moment, I understood the views of the people next to me.

Instead of stumbling here, it would be better to follow his path. The moment they saw Gu Shaoyang, everyone breathed a sigh of relief.

Salo is here taking the initiative to stand up and tell the matter to Xin Xu, Gu Shaoyang's expression in front of him also became a little solid.

He didn't find any information about this well, and he didn't even know about the existence of this thing. It seemed that all this was caused by the man in black. Caused by the man in white and the man in white.

"Don't you know much about this thing?"

"There is a snake nest below, and it can be regarded as a bad idea before Emperor Liuyun."

You can hear a bit of trembling in his voice. It seems that he must have been greatly stimulated by the previous things.

But there is nothing I can do. If I can really understand these things now, it may not seem so troublesome. But it is precisely because of some choices now that I have other troubles. At this moment, I really should think of some ways, otherwise it will be terrible to waste time here.

"I didn't expect that this place is the same kind as Medusa....."

Before Gu Shaoyang finished speaking, he was glared at by the people next to him, although he didn't understand what their looks meant.

But now I also saw Medusa's expression. The other person's expression was not very good, and she was even a bit stiff here. Could it be that I said something wrong?

Then he thought about the fact that he was bitten by a snake here, and in desperation came up with some situations.

It turned out that they were here to worry about what happened before. Medusa did not show any troubled look on her face. Instead, while looking to the side, she noticed the people in the corner. It seemed that these people must have thought of it. matter

"Do you think we should go down and take a look this time?"

Medusa hesitated for a moment, wishing she could just avoid him here, but thinking about it, she knew that it couldn't be that simple.

Coupled with some previous reasons, she could only be led by others. If there is really a chance, it must be solved through the current aspects, so I must seize the time and see what is the most appropriate way to do it.

But on the contrary, there is a strong atmosphere here, which makes me feel It's a bit familiar. If I remember correctly, it shouldn't be much different from before.

But who took the initiative to make such a move here? I still need to hesitate. Gu Shaoyang next to him didn't say anything clearly. He grabbed Medusa's hand and climbed down the ladder here.

Chapter 790

It really surprised me, but from some aspects, I must have found some benefits now, but how to deal with the remaining things.

Then it wasn't his turn to talk nonsense, but this situation also made his eyes light up. I had never thought about why such a person would appear here before, but now it seems that it is somewhat appropriate.

There was nothing in the huge cave. On the contrary, I was a little surprised to see other directions. In fact, I had not thought about it too much before, but in order to avoid these considerations, it made me think of some problems.

Could it be that there is no one here at all?

After all, they can still see their malice at this moment, and the smell that comes along the wind is full of moisture. No wonder it is a well that smells this smell and almost understands it.

But to be honest, what happened before left an indelible impression on me, so I tried my best to avoid the location of these snakes while carrying Medusa on my back.

I want to avoid their whereabouts and pursuit, but things are not going so smoothly at this moment. The people in front of me take the initiative, making me very passive now.

"What happens this time still depends on their thoughts. If you are not willing to go down, I will take you up."

But as soon as he finished speaking, he turned around and saw that everyone had come down, and no one climbed the ladder. They basically flew down from above. At the moment, he felt a little overwhelmed, and his face was even more expressionless. It was a layered look of embarrassment.

Then Medusa couldn't hide the joy on her face, but she still patted him on the shoulder and motioned for him to put herself down.

Only then did Gu Shaoyang realize that because he disappeared midway before, I took a picture of myself and this situation happened again. I had always carried her with me.

Unexpectedly, I couldn't put him on the ground even though I was carrying him. Then I just leveled him down with a few words. Put it on the ground.

Although I had thought about the connection between the two people before, I didn't expect it to be such a process. To be honest, if I took the initiative to reflect on it, I would understand the subsequent problems.

"Things are going as smoothly as we thought before, so please be prepared."

Then Salo turned around and left here, not forgetting to pull Christi next to him. The girl opposite had a bit of confusion on her face.

But there was also a little mist in her big eyes. He felt the meaning in the air, the uncontrollable aura of excitement.

To be honest, if it had been before, he would have had no reaction, but now there were so many tempting moving objects around him.

Salo next to him Seeing his actions, you knew what he was thinking. He pulled the person to a corner, and then unbuttoned the clothes.

A broad shoulder was exposed here, and then Christie had the same hole in the moment. The color turned from sky blue to blood red and fell directly on Salo's shoulder.

Seeing him biting his shoulder wildly with his fangs, Salo just patted his head gently and did not say anything. What to say, the strength of the Eight Holy Gods is definitely not groundless, but every family has their secrets.

At that time, I also accidentally bumped into the scene where Christi went crazy. When he woke up, he found that his shoulders were already bloody..

But after being bandaged and sprinkled with powdered medicine in time, it became as clean and new as before. However, I still can't find the reason why Christie went crazy in the first place. But now a creature suddenly appeared here, saying Maybe he can do some sightseeing through it, as he felt the breath of blood and the satisfaction in front of his eyes.

Christie's eyes gradually returned to a clear state, and when he saw the miserable appearance of the man in front of him, he couldn't help but feel He frowned and was about to open his mouth to explain something, but unexpectedly the other party patted his head gently.

"Don't worry, I'm here and I'll take care of any problems."

Hearing what he said, Christie couldn't hold it back. Before his eyes turned red, he knew that he had met him several years ago, or maybe decades.

Since that incident, his memory has changed. Gradually declining, let alone understanding these situations now, but he can carefully remember all his problems every time. He even wants to hold

himself in the palm of his hand. Sometimes his behavior also makes him feel guilty. A bit touched, but talking too much nonsense is of no use.

Instead of stumbling here, it is better to truly believe that he will hand you over to him here. Anyway, the other party will definitely not harm you here.

Follow him The suggestive voice softened, and there was some reaction to this. Seeing that she fell asleep, the person in front of him breathed a sigh of relief.
