

## Attributes 821

### Chapter 821

When Gu Shaoyang started to study the route alone, the people next to him were searching for an area here, thinking that they could solve everything smoothly.

But now it seems that there are still some mistakes. It seems that I must think carefully about this incident to avoid some embarrassing things.

But the person in front of me is also a little surprised. Maybe the next incident is what I should think about the most, but it is not difficult to see at this moment that no matter how much I think, it will be of no use. On the contrary, it will create all kinds of troubles here..

So now I have to take advantage of the chaos to resolve this matter, but the person in front of me doesn't seem to have left me such a chance. The current situation really feels a bit immature.

But soon, the real trouble appeared. The more you guessed, the more embarrassing incidents would occur here, so now you have to make some extra preparations no matter what, even if you are here to help them.

But soon several people also paid attention to his condition at this time, and found that his face was pale, and he even performed some unnecessary behaviors here.

It was as if he was chasing them here. Anyway, seeing his appearance, several people thought of something in their hearts.

After all, no matter how much you say at this moment, it is useless. Instead of falling into an embarrassing situation, you might as well let yourself solve it smoothly. Maybe there will be many solutions in the future.

But at this moment, Gu Shaoyang's heart has been thinking about the incident just now. After all, he has to take care of the surrounding environment here.

He also had to ensure that those people could get in touch with him smoothly, and he was so busy that he was dizzy.

But soon some other problems arose that he could see, but also because of his views, he clearly knew how to deal with them in the future.

Salo and Christi taught themselves a lesson at this time, but the problem did not come from here. Instead, they should hesitate about other things.

After all, this is the most important thing for me next, but something very unexpected still happened. After all, I will definitely need to judge a few special points next, and it just so happens that the thing in front of me becomes a bit unsurprising..But he soon taught himself a lesson. Gu Shaoyang's strength could match some of the things he had known before. This seemed a bit weird, as if he had done something.

But now this incident has awakened me. Yes, everything that could have happened here has been solved smoothly, so why is this one not working? I know something must be wrong, so while several people are discussing here, I Instead, he paid attention to his surroundings.

Finally, I avoided their approach before they figured it out. In fact, sometimes I had seen through it all before.

But he didn't say it out loud. It was just because of some previous situations. Unexpectedly, he still didn't know what the reason was. The sudden arrival made him somewhat confused.

But I soon understood some aspects. No matter how much I think about it now, it is useless. Instead of doing this, I might as well consider some remaining things.

However, at this time, Gu Shaoyang finally successfully penetrated into the enemy's interior. He did not take the initiative to attack before getting accurate information.

Even if the soldier didn't make any other predictions, if he continued in this way, it would actually be a good direction for him.

But how can I know at this moment? After all, the things I know are always from this stage. In fact, they may also be unknown to everyone.

"The previous pillar was actually the connection between the outside world and the inside. It was a stepping board here. I know what you are thinking. At that time, I indeed suddenly disappeared and fell into a dream."

But the person next to him came up and patted himself on the shoulder, indicating that he should stop talking.

"There's no need for us to all know. You definitely didn't mean it. There's no way you'd leave us here. You're the most responsible person we've ever seen."

After hearing these words, the face of the person in front of me stiffened. Is this a compliment to myself? However, I soon learned about some unexpected events. During this period, I learned about a relatively complicated incident. process.

So when he said these words, he was a little surprised. After all, he thought they were going to blame him here.

But whether it was Medusa or Natasha, even they blamed themselves Salo, who was brought back, looked very happy at this time, as if something had happened.

"Don't worry, we'll be with you."

Chapter 822

After saying this, a few people split up and looked for a way out, but there were all walls around here, so how could there be such things.

So now I just bumped into an iron plate, but I have to say that this current situation does not surprise me. Is this the event that needs to be understood at the moment?

In order to avoid all of this, I may need to continue wasting time here.

But to some extent, it did make me think about it carefully. If there is anything I can take into consideration.

That was nothing more than an opportunity for Gu Shaoyang to take action, and Qixing Longyuan had never failed in his hands, so he had great trust in him.

However, I didn't expect that some results would suddenly evolve at this stage. If it were before, I would definitely try to avoid it, but I can see at this moment that no matter how smoothly I do it, it will not be as good as the current methods.

"Well, I think you should also be able to understand all this. It's just that what we are doing now is not smooth enough."

The person in front of me frowned. I didn't expect to think about it like this now. That may be a good thing. Anyway, no matter how much I say at this moment, it seems that I can't help them in any way.

It has become a hindrance. People, but they didn't seem to have any unnecessary opinions about themselves, which still surprised me.

But Salo quickly adjusted his posture here, preparing to win it all again.

But think about it and you know that this How could everything go so smoothly? If there is a chance, then I should still make some other adjustments. This is obviously not suitable for me. However, under their hints, I learned about some events, This Gu Shaoyang still likes him, but he just doesn't know what the reason is for him to do this.

After all, he has given him a lot of things before, and the result of telling him not to do this here is nothing more than Fetching water from a bamboo basket was all in vain.

But I didn't expect that the person in front of me was very stubborn. He looked at me here and even had a somewhat persistent look in his eyes. If he kept like this, then he would really lose his temper.

"You listen to me first. If it doesn't happen like this, then we will be in a bad situation next time."

"But have you ever thought about what would happen to you next without our help?"

The person in front of him did not speak, but your name is for Gu Shaoyang. No one knows some of the things happening here better than him, so he will not hesitate now. It's just that he quickly brought it to himself during this period. Some changes have become the only reason that threatens me here. However, there is a solution to the problem, but no one knows it now.

So as the only optimistic person here, I must give him a piece of advice and let him know Who will help him here next, and I don't want him to go back alone.

At first, I thought he came back here again and again for some treasure, but I didn't expect him to be blind. Because this thing is true, I am a little surprised.

But if this is the case, then my worries seem not to be of any help. Instead of thinking about these things carefully here, why can't I take the initiative, and this time for It went well for Gu Shaoyang, but he didn't know if they would listen to him.

Unexpectedly, he was rejected by the person in front of him. It did make him a little surprised at the moment, but the Seven-Star Longyuan in Gu Shaoyang's hand must be You can't lie.

The light above is constantly flashing here, as if it is always reminding him what to do next is the smoothest thing.

Anyway, people now have no intention of directly following his command here. Instead, they plan to avoid the opponent's sight.

Do some other things here, but guess what, it's not that simple, and the astrolabe tracker that Xun can't install on them can't be removed for a while.

No. It felt like a moment to know when he put it on. What happened now was indeed a bit surprising to me.

But there was more than just this happening soon, so I had to think about it next. Well, who is the best one here who can replace everything?

"Well, since you are worried so much, we might as well consider it now and take a step back from other events together, which can be considered worthy of you."

At this time, Gu Shaoyang took a breath and knew that what he said must be ironic, but there was nothing he could do. He couldn't let his brothers follow him to die here.

In addition, some events that happened before made him get married. Head, if this continues, I may be hit, so I did some unnecessary things at this moment.

I didn't expect that the other party would prevaricate everything I said before in just a few words.

#### Chapter 823

I originally wanted to take the initiative, and my thoughts of cooperating with the action were suddenly extinguished, but I have to say that this situation surprised me.

It's like what happened suddenly before and was suddenly forced to undergo some changes. If it had been before, then I definitely wouldn't have said anything.

But now I have learned some special points. Instead of thinking about these inexplicable events, why can't I think of some other ideas?

I originally understood some things, but I didn't expect that they would expose them all. Not only that, I even took the initiative to bypass their world here.

If this is the case, then I need to think about it carefully. After all, what I am preparing now is to create a two-way rush here, but I soon realized that it is not that simple.

I have to say that Gu Shaoyang's Seven-Star Long Yuan flashed a huge light at this moment. At first, he had not paid too much attention to this, but the next second he realized that the situation seemed to be a little different from what he thought.

There were some special diamond-shaped buttons popping up on the surrounding pillars. I didn't know what this thing was used for. Medusa and several others did not agree to let Gu Shaoyang step forward to test it.

Afraid that he would be dragged away at once, he had no choice but to let Salo walk over here and watched them keep retreating backwards.

It made Salo in front of him a little bit dumbfounded, but as he pressed the button in front of him, he soon fell into a special situation.

Suddenly, a ray of light enveloped them, and several people could no longer see the surrounding scenes. In desperation, they had to bypass the nearby area.

Although I brought some changes to myself here before, the problem still appeared successfully after all, and the incident itself this time was a little different.

He also spent a lot of money on the land deed, but Gu Shaoyang took the Seven Star Longyuan in his hand and ran straight to that special place.

No one knows what trouble will occur at this time, and no one knows what the scene hidden behind this block will be.

Anyway, I gave priority to myself when I was close, but I had to be prepared for a lot of fish to avoid causing other troubles, but I didn't expect that my idea went well.

I quickly got some exceptional events, but I didn't actually know that these so-called contents were all based on the step-by-step approach of the previous person.

"There is a manual here, which records some reasonable plans. Anyway, this is what I did before. You might as well try it. After all, no one can predict the follow-up."

Medusa took the book in his hand, flipped through it gently, and then saw a special picture on it. Isn't this the same thing she saw before?

A sculpture with a special shape looks like He is a person, but he seems to be a person without any reaction. In short, it looks contradictory and strange.

But the problem here soon changed again. After all, it is useless to talk more now. When the time comes, the fins will Why don't you think about whether other people can accept those idle reactions?

But soon Gu Shaoyang was here and contacted the environment inside through Qixing Longyuan. At the front of the sword, there was only something like this At that moment.

I quickly let myself see the rotten and bloody atmosphere inside, which really surprised me, but soon this problem produced some special phenomena. After all, I could understand these clearly, but But there is no way to avoid too much.

Some things have been calculated, but the changes that have been made now are other things. Anyway, I have helped to make some predictions at this stage, and the rest is Their own creation.

When Medusa was flipping through the book in his hand, he saw a special point. Then he only showed it to Natasha next to him, and soon the other party was also stunned.

Here he directly put the book Pulled in front of him, he looked at everything above with disbelief. In fact, he had learned all this before.

But he never expected that it would be such a process now. They were actually within the control of a snake man. Inside, I don't know who has the ability to play such a big game of chess.

But the person in front of me did not waste time, but looked at the position next to me, and directly booked the position of each of them here. location.

In fact, their Eight Holy Gods can leave directly from here, but Gu Shaoyang can't, and he is still carrying the orange gem.

This thing is not particularly auspicious for snake people, so now we have to think There is a way to take her to escape from here, but how can it be so simple? Otherwise, there would be a lot of people coming and going here.

#### Chapter 824

But in the next second, he realized that Gu Shaoyang was somewhat different from what he expected. The Seven-Star Longyuan in the opponent's hand was able to catch his breath and release it in a large amount.

When the time comes, add a few more scales to him, and he can actually act here and leave pretending to be one of the Eight Holy Gods.

I just don't know if all this is reasonable. After all, I have seen the current situation, although I know that it will cause some trouble after going out.

But I couldn't help it in my heart. After all, everything here was reasonable, but Tasha had always been worried about the incident just now.

After all, that is not a small trouble. If Christi were here, he would definitely be aware of these troubles. After all, this is the beginning of this place.

But soon the real problem appeared. What I could expect, others could also do, so now it was a reasonable situation for me.

But the moment I heard them talk about Bagua Zhen, I couldn't help but be stunned for a moment. According to theory, there must be no interoperability between the two, so who on earth set up such a chain here.

There is no need to doubt the people around you. What you should really consider is Liuyun. Except for him, no one in the Great Emperor can come and go freely in the cave. No wonder I think too much now. I made the decision with him here before. There were some events that were beyond my control. If I still blame myself for this, it would be a bit unreasonable.

"How about this, let's work separately. Didn't you also say that there is a Bagua array here? I can't see the shadow here right now, so I might as well bring someone with a good eye and follow me, and we'll just go around here."

The person in front of him hesitated for a moment, but still nodded. What he said was actually a good solution, so at this time several people gathered together the ones who had taken off the scales on their bodies.

"Snake people of the same kind can recognize each other, so just take my things with you."

Then Medusa stuffed its scales into Salo's hand. Salo sighed at this time, tied the others together, and handed them to Gu Shaoyang next to him. The other party was stunned for a moment, but he didn't expect it. To be honest, I was a little touched that they would treat me like this. Then I picked up the Seven-Star Longyuan in my hand and disappeared with Salo. Not long after they left, Christi came from the side. I walked back through a trail and was stunned for a moment when I saw the two people disappeared.

"Where has this person gone? Wasn't it still there just now?"

"The two of them went to find a way out. Anyway, their intuition was more accurate than ours this time."

But Medusa next to her has always looked gloomy, but she can't comfort him here. Let's start with the two of them. Thinking about it, I feel a little numb. So everyone wants to take the opportunity to escape at this time.

But troublesome incidents usually don't start from here. Even if you have great abilities, what can you do? In the end, it's not all in vain.

"To be honest, you have also seen the world before, and you may have some misunderstandings about these things."

Before he finished speaking, the people next to him suddenly came over. The moment he saw the expression on his face, he froze there, not knowing what he was going to do.

"Don't say anything yet."

The two people just huddled at the angle of the rock. It took a while for the people in front of them to realize what they were doing in secret.

However, it seemed that they didn't give them a chance to hesitate. Instead, they were thinking about it here. Some other events would happen on their own, and it all came to an abrupt end.

But soon I learned about some other aspects. No matter how much I said at this time, it was useless. It was better to take a good look at their transformation.

No Thinking of this, a burly man wearing a black cloak appeared in front of them, but the people in front of them saw the logo on his body at a glance. Unexpectedly, it was the man from before. It seems that this time it really surprised me, but trouble soon appeared. After all, no one could have guessed all this at this time, and no wonder he was doing these things now.

And after the man went out, he only ran towards the place where they had just come. On that road, is it necessary to catch the two of them directly here?

Salò in front of him was a little nervous. At this time, he quickly turned around and looked at the position next to him. Unexpectedly, he bumped into them at the right time. The man in the black cloak didn't speak, but looked at him like he was looking at a useless ant.

Anyway, this moment is a bit surprising to me, but the problem arises at the wrong time. If the time stuck just now was not too smooth, I am afraid that I will be sent away at this time.

Although the purpose was no different from what I thought, what happened here soon was a blow to my head. After all, the special points that came to mind were just these few things.

Unexpectedly, the black cloak directly picked up the ax beside him and chopped it down at them. There was still a little bit of bloody light on the ax. Could it be that he had just transferred from a certain place?

Gu Shaoyang's scalp almost stood up when he thought of this.

But at this time, neither of them dared to act rashly, for fear that something would happen, and coupled with the current one-sided situation, it might not be for themselves at all.

"Let's do this. We also solved the previous things together. Now it's probably a bit troublesome to move forward and retreat together. So you go first, one behind the other, and I'll stop you behind. By the way, you can help me see if there are any orange gems in front of me.."

This can't help but make Salo laugh. That thing is an unlucky sign for the snake people, and naturally it will not appear here.

But the current situation really caught everyone off guard. The approach was considered to be here at 1 o'clock. What happened was something else.

So how to do it, even if you have great ability, you can't reverse it all, and correspondingly, you also saw several nearby areas.

Originally here He can face it calmly, but since that happened before, he has decisively rejected him and does not want to see such an incident happen again. Maybe it was really unpopular before.

But now everything Everyone is in an emergency situation, and no one will waste this time, but to a certain extent, it does make me a little worried. I am afraid that some trouble will occur accidentally, but what the other party does is indeed my responsibility. Beyond the scope of consideration, if we can really grasp this standard now, it is still a reasonable event.

"Now that everything has been said, shouldn't we understand it again?"

When Salo disappeared, Gu Shaoyang looked at the position in the darkness. Since he can think about all this now, why can't he think about the unnecessary things? Anyway, he can also know the current events.

"How can we renegotiate this? The direction he is going now happens to be here. Sister Lan, are you ready for my way?"

But he didn't expect that the next second he took out something from his hand and pointed it in his direction. He himself also thought of some situations. Unexpectedly, he happened to learn about some events here.

This is a wide mouth. The bottle just happened to be put directly into it. Seeing that the black cloak hadn't reacted yet, he raised the knife and dropped it. He directly sealed the mouth of the bottle. I didn't think these things could be solved smoothly, but at the moment This incident has indeed taught me a good lesson.

After all, some of the following events will make me more discerning. After all, no matter which direction I look at, I am now a rare benefit.

In my hands The bottle exuded a heat, and then he turned around and walked to the other side. He didn't want to do anything here, but his previous provocation to him suddenly hit his mind. In addition, he I had already chosen to seek peace with him, but I didn't expect that not only did he disagree, but he even had various ideas of suppressing the barbarians here.

Such an incident would definitely make me a little impatient. As for whether he would continue to do so during this period, If anything happens, it's not his turn to think about it.

Just stay in this bottle and stay calmly. This can be regarded as his reward for his impatient actions just now. However, something happened soon, and it was him. I had never expected it before.

But to be honest, the actions he made here quickly caught Gu Shaoyang in front of him a little off guard. After all, this black cloak was not unreasonable at first glance.

If he really had the time , it is still possible to put the rest of the events on a broader matter. After all, no matter how much I think about it, there is no reasonable way.

But at this moment, I resolutely thought of some problems. This time, the time It is estimated that there is still a big gap between Salo and the others.

So this time I don't plan to let them come forward. I try to solve the matter alone as much as possible, which can be regarded as having many benefits. I just don't know whether it can be completed successfully. After all, this moment makes me somewhat overwhelmed, but on some levels it can be said that it surprises me. Although I don't know how to think about this matter.

Chapter 826

But it doesn't mean that everything will go smoothly. In addition, the scene is obviously different now. If I want to bypass this level at this time, it will be too abrupt.

So I took the initiative to distance myself here, for fear that the people next to me would attack me.

But a more embarrassing thing happened. It seemed that the other party knew a lot about the incident this time, but why they did this became the most difficult question in their hearts.

In itself, all this is logical, but this incident is the only one that has caused some surprises. I am definitely not willing to compromise on this matter.

So I wanted to find other ways to solve it here. I didn't expect that in the end, I would still get nothing, but several other points soon emerged.

At this time, he followed the direction that the black cloak pointed to him before and left directly on this road. Unexpectedly, he happened to lock several nearby areas.

To be honest, the sudden situation really caught me off guard, but soon, within the scope of Gu Shaoyang's consideration, I was successfully tricked.

It seems that the starting point of his previous considerations was indeed different, but the black cloak was quite persistent at this time, and instead kept staring at him closely here.

It seemed as if he would disappear here as soon as he turned his head. Being aware of her thoughts also made him somewhat speechless in front of him.

"How about this? Anyway, you can see that I am alone and helpless now. How about we unify and cooperate?"

"I think the time you deceived me before was enough. No matter how stupid you are, you won't be able to fall for it a second time."

But the black cloak was still staring at Gu Shaoyang at this time, and he knew that the opportunity had come. Although he said this now, he actually still has a chance to win.

If he can seize the time, it is indeed a good position, that is I don't know what he thinks and whether he is willing to give himself such an opportunity.

But the person in front of him looks a bit strange, as if he doesn't intend to know anything about himself here, but if that is the case, then It does give me a bit of a headache

"I really didn't expect you to think so concretely, and it really surprised me."

The person in front of him did not speak. After all, for Gu Shaoyang, it is necessary to spend some time to pay attention to his thoughts. As long as he can't do anything to him now, it will soon be his home court.

But now he must also make a choice As for the rest, it would be bad if there were some deviations in the incident. Moreover, during the process, I also realized several scenes.

Although I had thought about the relevant content before, the moment in front of me seemed too abrupt. In this case, there is no need to continue to waste time. Anyway, there will be no trouble at this time.

However, the person in front of him was not polite to him. After all, he must take into account the approaching incident this time. If there is any trouble in several areas, wouldn't it be a waste of time to draw water from a bamboo basket?

"This cave itself was shaped by my power. Your statement really surprises me now."

Hearing her comments, Gu Shaoyang just lowered his head in silence. Who doesn't know some of the situations happening here? No matter how much he thinks about it, he has no chance to resolve it.

So he must hurry up and see if he can handle it. But in fact, I have thought about these events early on. Once I can't form these problems, I can only fall into a deadlock now.

However, some scenes of siege in the cave really make my eyes shine. After all, to a certain extent, I will soon be able to understand some of the problems happening here.

As for how to decide on all of this next, they need to keep everything in mind here, but in fact, if you look at it before, if so, I wish I could dodge here.

After all, I still have a general direction for this kind of thing in Lushun, and I will soon know some directions here. As for what kind of development there will be in the end.

In fact, I still have to follow Medusa and the others discussed it. After all, the energy ball in his hand is indeed the step he needs to get out the most now, but he just doesn't know if it is reasonable. Moreover, time stopped here very quickly, and he doesn't know it at all now. How to deal with all this, but the purpose is definitely not that strong.

After all, the events he can do have also evolved some opinions at this time. It seems that he does not need to talk so much nonsense at this time.

Salo is here He rushed back at that time, but he didn't expect to be intercepted halfway. The person who intercepted him couldn't see his face clearly, which made the person in front of him a little helpless, but soon he I expected some trouble.

Chapter 827

Wouldn't it be terrible if the other party also suffered the same interference at this time? I wanted to avoid all this at this time.

But discovering the situation so suddenly is a bit difficult to figure out. If it continues like this, it will actually cause a lot of trouble to myself.

"To be honest, haven't you ever thought of helping me here before?"

The person in front of him frowned. He didn't know what he meant by what he said. Is he deliberately trying to play devil's advocate? Anyway, there are some things that I can't help myself with. I can sort it out so quickly, so I need someone here next. He agreed with his opinion.

But there were only these few people in the huge cave, which caught him off guard, and what happened before also surprised him. He felt that all this was a sudden disaster. As for who fell on it, then It's completely impossible to know

"Who are you?"

The person in front of him asked cautiously. Unexpectedly, the other person suddenly burst into laughter and seemed quite satisfied.

He didn't know what happened at this time, but the person was staring at his face. After all, I am very clear about what I should know about the incident at this moment.

If it really happened like this, why didn't I want to compromise? Anyway, I had calculated some of the processes correctly this time, and in the end it was all in vain. , then I can't care about it

"What are you two doing?"

Suddenly an old voice came from behind and stopped a few people here. If it had been before, then I definitely wouldn't have paid too much attention to it, but this thing in front of me was obviously a little different.

"Do you still need to worry about this? You just keep an eye on things here and keep your own affairs in mind. There is no need to continue to interfere here."

The man in black cloak in front of him suddenly retorted. He looked quite embarrassed when he said this, but he didn't say anything and kept talking.

Instead, he left a space in front of him for the other party, the two of them. I didn't want to be involved in the quarrel here, so I planned to hide here as long as I could, but I didn't expect that the situation was not as smooth as I expected.

Soon the person in front of me was caught directly. It seemed At the moment, I really feel that I am not in a hurry, but to some extent, I am really helpless.

It seems that this should be the premise of this matter, but to some extent, I still have to confirm the other party It is difficult to have an unexpected situation regarding his whereabouts, so now I am holding on to the belief that I am bound to win.

This old man should not be a fuel-efficient lamp, and I don't want to cause trouble with him here, but the people next to him He doesn't seem to realize all this.

Instead, he is still here stupidly. In this case, he doesn't mind giving him a lesson, but the current situation always surprises him.

At least at this moment, how to deal with it I have to be clear about this issue, otherwise I will always be stuck in a deadlock. However, other events happened at this moment in front of me. At the moment, I must be able to understand more than just this, so I am facing this old man. Extra respect.

In the huge cave, the appearance of any person will become an unnecessary trigger here, so now as the only pillar, I must be fully prepared.

Otherwise, any move now will become a source of unnecessary trouble in the cave. Here is the premise of overturning, but the behavior of the person in front of me made me a little surprised. Is this what they are doing now?

But soon the person in front of me taught me a lesson, and the old man walked unsteadily. In front of him.

Some of the symbols on his body are constantly attracting his attention. It seems that this time the incident is far from going as smoothly as he imagined.

Although the black cloak in front of him is very arrogant here, but he Being able to see the old man next to him is the most important factor here.

The man in front of him is just a foil, but he doesn't seem to realize it at all, so the person in front of him doesn't hesitate much and clicks here. I just bypassed it.

In this case, I have considered some aspects. If it can be solved through these incidents, then I don't mind letting this old man teach him a lesson. It is reasonable for someone with such an arrogant and domineering look like him to I should make some adjustments here, but some events caught me off guard.

Maybe the events I thought of were not reasonable at all with what they had considered, so I was also seizing the time to see if I could make this happen. Everything is solved, and I can still understand it to a great extent at this moment.

But the goal and my final result definitely cannot overlap.

Chapter 828

Moreover, the old man in front of him looked at me with some admiration, probably wanting to drag him away right here.

Thinking of this caught me off guard, and then I miscalculated and passed the message here. I wanted to solve all this, but I didn't expect that the old man followed me and passed it in front of me.

It seems that this time the situation still needs to be carefully considered by myself, but the current incident has obviously caused some accidents. Even if I know it clearly, I still need the help of this black cloak.

But the other party looked arrogant and seemed unwilling to help here. At the moment, the people in front of him were really caught off guard.

I wanted to shut down his actions here, but I didn't expect that no matter how hard it was, I couldn't get around the black cloak's thoughts.

Then an orange crystal suddenly appeared in his hand. The old man opposite was obviously a little scared, which also made him somewhat curious about the true identity of this thing.

After staying here for so long, I couldn't even recognize it, but the man in black opposite seemed to understand what I was thinking.

So here Bisheng whispered a few words, and then he realized that it seemed that this incident was not as simple as he expected.

To some extent, I will soon make an intraocular pressure change, but this is just my preliminary judgment.

Moreover, Gu Shaoyang is still facing some options. He doesn't know what will happen at this time, but the successive changes of several people have successfully attracted him.

"Do you think what happened this time will be different from what we originally judged?"

Saluo and Medusa, who were looking for a way in, were hesitant here. After all, no one expected to see these people at this time.

Coupled with some previous events, they were obviously a little surprised, but soon I have learned one aspect myself.

If you don't pursue so many reasonable goals, but instead consider those irrelevant things here, isn't this shooting yourself in the foot?

So the people in front of you are tearing it apart, but you should still consider this One thing passed by, but Christie next to him calmly raised a large tool in his hand.

He searched around in circles, which made Medusa a little strange, so she looked Turning to the person next to him, Salo shrugged his shoulders.

He had also seen Christie doing this kind of thing for a long time, but he didn't quite understand what he was doing, but he soon found out what he was doing. An unusual incident. It seems that my prediction is far from being of any help here.

But suddenly Gu Shaoyang's voice appeared around several people, but at this moment Salo thought he was hearing something and simply turned around and left..

But little did he know that Salo heard the shouts getting louder and louder, and then looked at Christi with lingering fear, who was slowly putting away his instruments.

"That is the amplified breathing sound. This is tracked according to the smell on his body. Don't be so afraid and act like I have done something big."

But several people looked at him with fear. After all, I had considered a lot of clues at this moment, and it didn't matter what I did at this moment.

As for the remaining events, it really made me a little careless. At the moment, At this stage, I quickly learned about certain events. Compared with the previous ones, this one may be more reasonable and orderly.

But the problem is that in the next process, it may not be as simple as I thought, so I must ensure that Make some improvements before this matter, otherwise you will fall into such difficulties.

But soon Gu Shaoyang gave some hints. He actually smelled the smell in the air, which was unique to Christi. Some of the smell is the same as the sweet smell in the blood.

That's why I was able to find his location at the first time, but I have to say that the current situation caught me off guard. What comes to mind now The more there are, there must be a lot to consider here, so I have to hurry up and see who can successfully win them all here.

However, several people outside quickly chased and blocked all the surrounding exits. I stayed here not for anything else, but to find their place here.

After all, I will be at a disadvantage here, so the current situation is really a bit surprising to me.

But to some extent , That said, it was really within the scope of my consideration. But where is that sweet smell?

I must seize the time to solve all this before they arrive, but to some extent, it also makes me feel uncomfortable. I was a little caught off guard. This should be some of the problems that evolved before.

Chapter 829

However, the voice spread farther and farther, and it quickly locked onto him. Originally, this situation would not have happened, but I didn't expect that such a situation would appear now. Plus, I was now isolated and helpless. It was really frustrating. It's a bit difficult to judge myself.

However, the smell has been spread in front of his face, as if he has a strong sense of this thing. If he could know why she came here.

All this would be much simpler, but it was obviously not that simple at this moment. He had to hurry up, but Gu Shaoyang soon found this position.

The source that appeared was right next to him, only two or three meters away. It was a particularly large piranha that exuded some special smell.

However, there are some special clues in the piranha flower. Is this the step that I want to take the initiative now? Anyway, at this moment, I may not be able to think it will be as smooth as I thought.

But instead of lingering here, it would be better to rush in front of him here, and maybe you can get other transformations. But I didn't expect that there was a trap here specially set for myself.

Gu Shaoyang definitely couldn't believe it and turned to look at the area behind him. No matter how many things he did at this moment, there were always some situations that he couldn't consider.

So next, you have to figure out what direction you are going in now, otherwise you will become the target of being sacrificed here at any time.

"How about this? You have also seen the trap I have laid here. I have only one request. As long as you can ensure that everything is in your hands now, then I will leave this matter completely to you."

You know what he means. It's nothing more than handing over an inheritance here to yourself, but you should have the ability to do so.

Now that everyone relies on one person, what else is there to say? Is it possible that he wants everyone to accompany him to die together?

In the process of getting closer, Salo didn't need his detector at all. After all, he could smell the smell here by following the wind. You must know that this is not a Good thing.

Otherwise, I wouldn't have smelled this smell from such a long distance. It was originally possible to successfully happen, but some troubles evolved in the middle, which made me fail.

But I quickly found the place before Gu Shaoyang left some marks. It seemed that she had tried her best this time, but several people also saw some traces of blood on the way there.

It was as if someone was injured here. Anyway, the person in front of her at this moment There is no way to escape, so you can only do it through the methods in front of you.

But you should also do some things. Even if you are helping yourself in other aspects, the deadlines for each thing here are completely different. Could it be that this was the only way for me to take the initiative?

Thinking about it, I felt a little undesired, so I decided to leave here.

But who would have thought that the smell in the air would give me a blow to the head. Chris next to him Ti was also a little angry, even wanting to go berserk.

Salo immediately stopped the person, handed Natasha on his back to Medusa next to him, and then picked up Christi here. Go straight to the puddle on the opposite side.

After both of them went in, the water slapping on his face calmed Christi down, and then he gently moved his hair away. He leaked his neck here. I gave it to him, but I didn't expect that Christie could actively control his body under the control of this smell.

"There's no need to do this, there won't be any problem anyway, but so much blood was lost here before, I really don't know how you kid can endure it."

Saluo in front of him just smiled but didn't say anything. For him, everyone is a companion, and it is impossible for him to abandon any one.

After all, during this period, he also saw some other people coming with him. When these insignificant events happen, why can't I be more proactive?

Once I have the opportunity to think of something alternative, I may be able to solve it directly before it happens, but in fact, I have so many problems in my heart. Hesitantly.

After all, various directions soon brought some changes to him. Although he could not control all this, the person in front of him did not seem to have expected this.

On the contrary, he came directly towards this matter. If he had done something else Before, I was eager to dodge, but the current incident is obviously very different. What's the use of thinking more at this time?

After all, the current situation also needs to be understood, but the problem lies in the matter in front of me. On the road, everything I thought came to an abrupt end at this moment. Anyway, I didn't know exactly what he was going to do next.

### Chapter 830

But soon the real ending appeared. The smell was getting closer and closer to him, and several people came to the bouquet of flowers, but Salo blocked several people behind him.

I took a step forward to test it here. Unexpectedly, the flower opened helplessly, and its bloody mouth was aimed at Salo in front of me.

Moreover, there were still some remains of blood and flesh in its upper and lower tooth sockets, which inevitably made the people in front of them think of Gu Shaoyang, who had disappeared here for a long time. Could it be that he was attacked here?

Although I thought about it this way, I did not take any other actions.

After all, in this state, I can still learn about many special levels, if any unnecessary events really happen at this time.

That was something I couldn't understand, but the moment in front of me was quite reasonable. After all, I was about to learn about these events. Although I might not have been so clear before, I quickly taught myself a lesson.

After all, among these things, I actually learned about unimportant things such as the subsequent vocalization of the fins. Why can't I consider some other events? Anyway, we all have a common starting point here.

However, the mouth on the big flower in front of me was full of blood and ferociousness. Seeing this look made the people next to me a little excited. After all, I was also adjusting to many directions at this moment. I didn't know what to do. How to think about it.

Although I have understood a lot of events in this situation, it may not be so smooth, and in addition, the current situation is completely satisfactory to me before.

But if I continue to seize time like this, then everything will actually happen soon, but the current situation may not be what I want to see the most.

Salo and Christi looked at her nervously, as if they were testing how all this would happen, but they did not give themselves any reaction at the moment, as if nothing had changed.

If such incidents continue to happen, it will really catch him off guard, but to some extent, he will understand certain incidents.

This piranha may have been placed here intentionally by someone else. Anyway, I don't dare to say anything at the moment. If something unnecessary happens, then I'm asking for trouble here..

But to some extent, I quickly taught myself a lesson. Although I could ensure that these events happened smoothly, I still couldn't overcome this hurdle in my heart.

In order to avoid taking the initiative to attack all these incidents, I am now trying my best to think that I happened to meet the person in front of me.

Gu Shaoyang had already left traces here with Qixing Longyuan. In addition, Salo and the others were tracking very quickly, and the whereabouts of several people here were immediately exposed.

Gu Shaoyang led Qixing Longyuan forward, but suddenly heard a burst of footsteps, so he immediately turned his head and looked behind him.

I didn't expect to happen upon what happened just now. If I followed this template, I would definitely be unwilling to do so.

But the current sword is a bit surprising to me. After all, it is likely to cause some interference to me to some extent, so I have to think about it.

Before this happened, what was the most effective thing to do? Once some changes really happened, now would be the most surprising situation for me.

But the footsteps were getting closer and closer to him, but he didn't hear anything. It was as if someone was deliberately hiding his breath here.

Anyway, this sword incident at the moment makes me feel a little careless, but the real trouble will soon appear. After all, even if I have great abilities, I still have to make some adjustments for this.

But the truth about the footsteps soon appeared before his eyes. It turned out that it was not just the problem here, but also a piranha next to it.

I didn't expect that this thing could be moved left and right. To be honest, I was a little surprised to see such a situation happen suddenly. However, the trouble that occurred during this time period was far more than that.

The trouble Christie encountered at this time was not only through the scenes on the left and right, but also mainly in the matter in front of him. However, no matter how you put it, some of the choices that evolved during this process, he was still in a good position. Must win

"Let's split up here and act together. The dragging speed is too long, and Gu Shaoyang's life or death is uncertain now. In order to avoid all this, we must take the first step and seize the time."

The person next to him nodded and did not waste time here. However, Gu Shaoyang's delay in finding the location of the two of them made him a little anxious. In fact, he did not let them come before, and the reason was very specific.
