

Billionaire's Ex-Wife And His Hidden Babies

57

Sophia's POV

"After all, haven't you heard that the enemy of our enemy can be our friend? Ethan tried to play the same trick, but little did he know that Brandon was planning against him for long, and he had already planned everything."

"Brandon's Dad betrayed my dad," I concluded everything in short.

Henry shook his head before adding, "Ethan betrayed Logan that night by killing innocent werewolves. Logan didn't help Ethan in entering the pack that night with the aim of hurting innocent supernatural creatures. A true hunter maintain a safe distance from all the supernatural creature but never hurts them for having fun, and I'm sorry to say, for a minute, I can admire Oscar and Owen but your dead brothers and father who brought Alpha on their knee by using his mate... his Luna. They attacked from the back like a coward and by using Luna and future Luna as their shield."

"Luna means Brandon's real mom and future Luna means Brandon's twin's brother mate?"

"Yes! You guessed it, right, and don't you want to know who was the Luna of Hardin, Brandon's brother?" he asked, on which I narrowed my eyes. How would I be knowing that?

"Abby."

My eyes widened in shock hearing that name. "The same Abby who was Brandon's girlfriend."

"Hmm," Henry nodded. "She was the mate of both the twin's brothers, but in the end, she chose to be with Hardin, Brandon's brother, after her breakup with Brandon."

"Mate of both brothers?"

"Yes! In 90% of cases, twins share the same mate. It's a girl's decision to choose one of them or to stay with both; it depends on situation to situation.", he explained. "Coming back to where we were, Brandon had come to know about his real parents on the same night after reading his adoptive mom's diary. He wanted to meet everyone; not sure how did everyone react by looking at him, but...."

"But he didn't get a chance to meet everyone?"

"Except his mother, who happened to take her last breath, who told him everything that happened that how his adoptive father bought the head warrior with his money and then how hunters entered into their pack and everything that happened after that. It wouldn't have been a deal if he would have killed everyone, but they raped Abby because she was a human, a weak among all and easy target."

"They?"

"They gang raped her.", Henry said.

No. My dad or my brother couldn't do anything like that when Abby was of his daughter's age.

My brother couldn't do anything like that when they had a sister of the same age.

Henry was lying.

Obviously, he was trying to clean their image in front of my eye and was brainwashing my mind.

"Not, just they raped her but also took her with them.", he added, "No one knows what happened to her after that until Levi told us that they fucking sold her in the brothel and your father only know about details."

Don't let any of these words in your mind, Sophia.

Don't.

Everyone had lied to you from the start.

They were still lying to you.

Liars.

"We still tried to find her with everything we have in the past year, but we didn't find anything about her.", Henry kept speaking. "And yes, you might be made with the thought that we killed your mother, but the truth, we didn't."

Don't let any of these words in your mind, Sophia.

Don't.

Everyone had lied to you from the start.

They were still lying to you.

I repeated the same thing in my mind and was planning to keep thinking the same so that his words wouldn't affect me.

"Your father did.", When he said this, my heart missed a beat. And I gave him a look like, 'do you even know what you're speaking?'. "And soon, Oscar and Owen will also figure about especially but testing the sample from John's body. Though your mother was killed just in the way we have killed your other brother but trust me, we didn't kill your mom."

"You're lying. Why did my dad do anything like this in the first place? He loved mom."

"Because your dad is an asshole. He killed your mom to get help from your other two brothers, who were powerful enough to kill us while we were limited in number. That's why he planned everything in such a way that we will look the real villain in front of your brothers and you."

I didn't want to believe him, but I wasn't sure whether I should trust dad completely now? Not until I got to know from Brother Oscar and Owen what kind of person the dad was.

"I agree, everyone played with your feelings, Sophia, including me, but when I get to know you in all these months. I realized how amazing you are, and at that point, I couldn't hate you for being the daughter of my enemy. At that moment in time, I didn't want to be your friend just because Brandon wanted me to, but that's because I want to be your friend genuinely.", he told me. I didn't have a lie detector machine, but it didn't look like he was lying.

"And even though Logan reluctantly played along in this game, he always treated you like his own daughter. He had an idea that whatever happened on festival night wasn't in Brandon's knowledge, so his father instinct woke up, and he ended up killing one of our members because he knew that Brandon would have done the same." I looked away, trying my best not to show that I wasn't not going to believe him in any way.
