

Ball God 261

Chapter 261

While Melissa contemplated maintaining her position for the next few years, April, on this side of the table, warmly pulled Melissa down and then offered her tea and snacks as a treat.

“Melissa, this is my favorite snack and dessert; try some too,” April greeted warmly.

Well, it wasn't that easy to buy me off!

Melissa glanced at her with bright eyes. She sat down, picked up the snack, and opened it. She took a bite, and her eyes suddenly lit up. It tasted delicious, much better than the snacks she had eaten before.

As she ate, she asked, “You've been living here for the past few years?”

“Yes, I used to stay at the institute when I was working outside and stayed at the teacher's house when I came back, but then Senior Sister Mexia told me to move here when she was reincarnated,” April spoke softly, adding. “I'm just following Senior Sister Mexia's wishes.”

Quite honestly, Melissa nodded her head as if she were a child.

Then they talked about April's situation in the past few years. April, taking in Mexia's previous authority over her and answered honestly.

Melissa's knowledge of April was limited to the fact that she knew there was such a person. She had no idea what her personality was like or what she was like.

“Melissa, don't keep staring at me like that, okay.” April was a little embarrassed by the stare.

Melissa flattened her mouth and said, “I suddenly realized that you're quite cute and have a good body. Do you think there was something wrong with my brain in my previous life?”

“What?” April was slightly stunned, not sure what Melissa meant by that.

She was about to ask when Melissa stood up.

“Where is my room?”

April said, “I'll make arrangements for you. The room next to mine is always vacant, so you can stay there.”

“Don't be so troublesome; I'll stay with Muyang,” Melissa said indifferently.

However, April held her hand and disagreed, “No, you can't. You're not suitable now. Even if you want to live together, you have to wait until you grow up a bit more or regain Senior Sister Mexia's memory.”

“But I prefer to stay with Muyang,” Melissa said childishly.

“No.” April didn’t give an inch.

Even if she was the reincarnation of Senior Sister Mexia, it was not appropriate to live with his brother.

Muyang came out of his room and saw Melissa and April quarreling over the accommodation. He then knocked on their heads, “What’s there to fight about?”

Muyang hammered out the arrangement. Since Melissa and April had no counter-argument, they could only accept it.

“By the way, April, how’s the research on Saibamen going this time?”

As early as a few years ago, April had researched Saibamen into eight categories. The highest level of Saibamen had a power level of 1600, with a survival time of 24 hours.

It could be said that April had always been very talented in the research of artificial life.

April smiled and said, “I’ve already researched the ninth Saibamen, which has a power level of 3200. Unfortunately, the survival time can’t go up further.”

“A 3200 power level Saibamen is already quite terrifying if mass-produced.”

Muyang stroked his chin, “At least many planets in the universe don’t have such masters.”

“Well, I’ve already produced 100 of them here. I’ll go and bring them to you.”

With that, April went to bring the new generation of Saibamen seeds, about a bottle of them.

Picking up the green seeds, Muyang scrutinized them. It looked the same as the previous Saibamen Seeds, but the color was much better.

Melissa looked at April with some surprise. Although she didn’t care about the only 3200 power level of the Saibamen, she could see that this weak woman was quite smart.

After traveling to many planets with Muyang, she had a rough understanding of other planets’ strength.

“Well...” Melissa paid more attention to April this time. This was a woman with a combination of beauty and intelligence; the threat was too great.

Muyang took the seeds of the Saibamen for a while, put them back into the bottle. He then asked April to put them away carefully.

After that, he looked at Melissa and April and asked them to go to the residence of Isaac and Alice together.

Melissa was a little nervous at the thought of meeting her former parents soon.

.....

On top of the green mountain, not far from the martial arts building, in a hut, Isaac and Alice were living a leisurely life as usual.

When he saw MUYANG's figure, he smiled and then turned their attention to Melissa, beside MUYANG. He vaguely saw the shadow of Mexia on her face.

"MUYANG, is this the reincarnation of... Mexia?" Isaac became emotional.

He smiled and nodded, "Yes, she is the reincarnation of Mexia, and her name is Melissa!"

"Melissa. What a good name. Very similar to Mexia." Alice's eyes were red and glistening with tears.

"Hi guys... sorry, my memory is not fully restored." Melissa didn't know what she was supposed to call Isaac and Alice, so she just whispered.

"It's fine. It's good to see you back." Isaac laughed happily.

After patting MUYANG's shoulder vigorously, he asked April and Alice to go to the kitchen to prepare the ingredients. MUYANG then gave a wink to Melissa, asking her to go in together to help.

Melissa nodded her head and walked into the kitchen.

Even if she was the Planet Sala princess, she still had to help out in the kitchen when she arrived at Great Azure Mountain.

The sumptuous meal was ready in no time, and the delicious aroma was overwhelming the nostrils. The few small dishes on the table were delicious.

"So, Was I used to be not good at it," Melissa whispered to April.

April blushed with shame and held her glasses down in embarrassment, "Senior Sister Mexia is a great cook."

Melissa snorted, "When I regain my memory, I'll be able to cook what I knew in my previous life."

April was dumbfounded.

Right, when she regained her memory, Senior Sister Mexia would return. Senior Sister Mexia wouldn't talk rudely like her, so she would get along well.

As everyone enjoyed their meal, the sound of chopsticks falling to the ground with a clanking sound was heard.

A white light flashed, and Melissa split into Melia and Melis in front of everyone, appearing younger.

Seeing Melissa become two people, Isaac, Alice, and April, were stunned.

Chapter 262

"Senior brother, what's going on? How did Melissa become two people?" April was completely confused about the situation.

Seeing everyone's puzzled expression, MUYANG coughed lightly and said, "Ahem, this is the original appearance of Melissa..."

"At the beginning, Mexia wasn't often controlling two bodies. All because of the 'Divine Divided Soul Tempering' that Mexia became two people after

reincarnation. They are twin sisters, one called Melia, and the other called Melis. Melissa is the fusion of the two sisters as an individual.”

After MUYANG’s introduction to Melis and Melia’s situation in general, everyone on the spot opened their mouths wide. They looked at the twin sisters incredulously.

There was actually a way to a person reincarnate split into two people?

April’s eyes were full of curiosity. However, soon she realized that, in this case, wouldn’t her senior brother have to marry both of them in the future?

Senior brother would have at least two wives... It was no longer monogamous.

For some reason, April’s emotions suddenly became elevated.

“Hello guys, my name is Melia.” Melia kept Melissa’s high spirits. She possessed Melissa’s memories and already knew everyone present.

“My name is Melis...” Her sister Melis was much shyer and more aware of manners.

Isaac took a hard sip of wine and laughed out loud. Alice then took another set of dishes from the kitchen, “Come on. You two sisters look so identical; I can’t tell the difference.”

“This is easy. I’m the older sister, with turquoise eyes.” Melia pointed to her own eyes and said. Alice took a closer look and saw that they were indeed turquoise, exactly the same color as Melia’s eyes.

April also tried to communicate with the twin sisters. Later, she found that the two sisters were much better to talk to than Melissa. At least not so defensive.

Well, before Melissa’s memory had awakened, it would be better to get along with them.

.....

In the Acceleration World.

The two light green light flashes in the sky. From time to time, the collision burst out dazzling sparks, and the wind howls on the central planet as Melia and Melis keep attacking each other.

They soon separated, along with the ground green lawn glide out of a distance.

At that moment, a dozen black shadows came out from all directions and pounced on the two green figures.

SNAP!

Melia’s face was full of fury, gasping for breath while slapping the air towards the black shadows.

The vast transparent palm cut through the air; several black shadows were slapped away. Soon these black shadows reversed direction and defiantly flew towards her.

“Is it over?” Melia’s forehead was covered with sweat, and her clothes were stained with sweat.

After a good fight to knock off those black shadows, Melis appeared in front of her again. The two sisters looked at each other and winded up in a battle again. There was a lot of residual shadows, with fist and palm shadows all over the place.

“Phew!”

After a long time, Melia fell to the ground exhausted, panting heavily. Not far away, Melis was in a similar situation, both of them too tired to move.

At this time, April, dressed in white, jogged over and helped them up. She gave them a few sips of nutritional fluid to help them improve their condition.

“Thanks.” Melia was still gasping for breath.

April smiled sweetly, “No need to be polite. If only Melissa could talk so well after you two fuse.”

Melia laughed heatedly, “I can’t help this; my personality has changed a bit after the fusion.”

“No matter what, we will get along well in the future.” April knew that Melissa was always bothered with her because of her senior brother.

Compared to Melissa, the twin sisters were younger and got along better.

“Yeah.” Melia nodded her head forcefully.

“The Saibamen you made is so powerful; it almost tires me out.” Melis sat up and wiped the sweat off her forehead with her hand.

April said, “It’s nothing. It’s mostly because your powers are imprisoned here.”

“I did this to train them better. Yet, you don’t have any positive spirit.” At this time, Muiyang walked over and waved his hand to release Melia and Melis’s power confinement.

In the Acceleration World, Muiyang could manipulate the rules inside at will. He waved his hand, confined the twin sisters’ power to only about 3000 power levels, and then let them attack each other, supplemented by the Saibamen to interfere.

With that, at least the two sisters’ combat experience would grow rapidly.

Gaia jumped down from Muiyang’s shoulder, puffed, and moved to Melia and Melis’s side. It then spat out two Senzu Beans from its stomach.

“Thank you, Gaia!” Melia happily hugged Gaia in her arms.

After eating the Senzu Beans together with Melis, the two of them recovered their strength at once. They looked at each other, and without seeing any movement from them, a cluster of white light was born on the surface of their bodies, and soon Melissa’s figure appeared.

“Muiyang, let me also exercise!” Melissa said.

Muiyang smiled and nodded. He pressed his palm towards Melissa, and a mysterious rule suppressed her power to 3000 power level. Muiyang then gestured towards April’s side.

April narrowed her eyes, smiled, took out the latest development of Saibamen, and planted them down. There were twenty of them.

Click, click, click.

The soil broke open one after another, and the main body of the Saibamen curled up and burst out of the soil.

Seeing that all the Saibamen had been generated, April ordered loudly, “Listen up, all of you, attack that brunette woman with all your might. No need to be polite; teach her a lesson with all your might.”

Click, click, click.

Twenty Saibamens opened their blood-red eyes at once and rushed towards Melissa with strange screams.

When Melissa saw this, she glared up proudly and looked contemptuously at these Saibamens. She was just about to attack when she realized that her power had been restricted, and she couldn't help but scream strangely, “Good for you, April, how dare you take personal revenge!”

April's white cheeks showed a smile, “No, I planted so many Saibamens because I trusted you.”

Melissa's eyes began to fire, “I don't believe you. Damn it!”

This brunette woman was so hateful!

As she watched Melissa dodge the attacks of the twenty Saibamens in a mess, with a constant roar coming out of her mouth, April's shoulders shook, and she let out a giggle.

“Hey, what a hoot!” Looking at the nonsense between Melissa and April, Muiyang didn't bother to interfere. Instead, he found it quite interesting.

“Next, it's my turn to train myself.”

Muiyang found a quiet place to sit down, and he began to practice. While training the twin sisters, Muiyang also insisted on training, and now his strength was steadily rising.

Chapter 263

As the days passed by, a greenish figure appeared in a castle made of white bones at the edge of the Dark Demon Realm – the Greater Demon Realm.

“What exactly is happening here?” Garlic Jr looked at his father's castle in confusion. The entire castle had been deserted. The dark corners were already covered with cobwebs as if no one had used it for a long time.

“Don't hide. I've already found you.” Garlic Jr said indifferently.

At that moment, a black shadow flashed out from the corner. When he saw Garlic Jr, he shivered and prostrated himself on the ground, “Lord Garlic Jr, you have finally returned.”

“You know me?” Garlic Jr asked unexpectedly with the corners of his mouth raised.

The black shadow was busy nodding, with a panicked face, “Yes, I know you. My name is Buddy. I used to serve Lord Garlic and had the honor of seeing your portrait.”

“Are you father’s subordinates? Then tell me... what happened here? Where did everyone go?” Garlic Jr was very thin, but the power he released between his words made the whole castle shake violently.

Where had Buddy seen such a powerful force? The six demon warriors that Garlic had invited from the depths of the Demon Realm were already mighty. However, they couldn’t even compare to a shadow in front of Garlic Jr Buddy.

“About twenty years ago, Lord Garlic invited six masters from the depths of the Demon Realm. He then led many people to attack Earth through the passage of the Earth attached to the Demon Realm...”

“Were those six people you mentioned Hawke and the five Karov brothers?” Garlic Jr remembered that those men were the ones he sent over to help his father conquer the Earth.

“Yes, it was exactly those lords. They entered the Earth with Lord Garlic, but they seemed to have encountered a strong enemy and never returned after that. I have inquired about the whereabouts of the earth passage, but the entire Demon Realm seems to have been cut off from the Earth all of a sudden. Not even a single passage can be found.”

Buddy didn’t know that after Garlic led the Earth’s invasion, Mr. Popo used the Dragon Balls to close all the passages and strengthen the space around Earth.

Garlic Jr listened carefully and doubted, “Earth is only a Low-Level Planet. There should be no master on it who can threaten father and others.”

“My lord... this little one is not lying.” Buddy trembled and looked at Garlic Jr.

Garlic Jr waved his hand and said, “Is it true that not a single passage can be found?”

“Yes.... yes. This little one has searched, and there really is none.”

“That’s interesting.” Garlic Jr nodded his head, and a dangerous light appeared in his eyes, “Since the spatial passage cannot be found, then we will go directly through the cosmic space of the earth.”

The Earth wasn’t crucial to Garlic Jr. Even if he conquered it, it would be meaningless. However, the reason his father never returned aroused his attention.

Garlic Jr had served King of Demon Realm Dabura for many years and knew something about Earth. It was said that a terrifying monster was once sealed there.

Even Lord Dabura and Babidi kept a close eye on it. Although the monster had been quietly transferred away by Lord Dabura hundreds of years ago, there might be something missing.

Thinking of this, Garlic Jr intended to make a trip to Earth himself. Something that could concern Lord Dabura, even if there was a hint of omission, it might be of great help to him.

“Buddy, are you familiar with the situation on the earth?”

Garlic Jr stared straight at Buddy. The seeping gaze made Buddy couldn't say a word no, “I had gone to Earth twenty years ago with Lord Garlic. I came back later because I had to organize the people of Earth Demon Realm...”

Garlic Jr waved his hand and interrupted Buddy, “That's enough. We will go to Earth with the spaceship, and you will lead the way.”

“As you command!” Buddy gulped and was only able to follow orders.

In fact, Buddy didn't dare to tell the truth that Lord Garlic was most likely already dead. It was he and Kanglu who first discovered the spatial passage to Earth. When Kanglu stayed on Earth to guard the spatial passage, he died inexplicably.

Buddy returned to the Demon Realm to report the news to Lord Garlic, which prompted Lord Garlic's intention to attack Earth.

He didn't dare to report this matter to Lord Garlic Jr; otherwise, his life would be in danger.

On the other hand, Garlic Jr was also thinking inwardly, “I heard my father say that there is a Lookout or something like that on Earth. Maybe my father didn't return because he fell into their path.”

He knew the reason why his father couldn't forget about Earth. However, honestly, the Lookout on a Low-Level Planet was not in his mind.

At best, it could only suppress a few thousand masters in combat power. Thinking that Garlic Jr had a staggering 1.4 million power level, how could he be afraid of a Low-Level Planet?

When he arrived on Earth, he wanted to find out the reason why his father never returned. He might be able to find something that Lord Dabura had missed.

After thinking about it, Garlic Jr raised his cloak and turned around to prepare to go back to his base.

Since he was going to travel, he had to take his men and horses with him, plus prepare a good spaceship.

.....

At this time, of course, Muyang didn't know that the Earth was being targeted by a demon again.

Muyang's now taking the teacher role again and instructing his disciple Kanalita to practice.

He knew that he was irresponsible as a teacher, accepting people as disciples but not personally training them for a few years.

Now, at the age of eighteen, Kanalita had grown up to be a beautiful woman, with fiery red hair like her mother, Ness, and a pair of starry eyes.

According to Isaac, Kanalita has been appointed by the Old Kami of the Lookout as the next successor of Kami. In this regard, Muiyang didn't oppose the opinion.

Both Muiyang and Son Gohan refused the arrangement of the Kami's successor. This time, they finally found a good seedling, and the Old Kami said he wasn't willing to let it go.

Reasonably, the disciples of the Kami School had a Kami-level character. So, it wasn't a problem, of course.

Thanks to the martial arts crystal perceptions left behind by Muiyang, today's Kami School could be described as a generation of masters.

There were already several masters in Muiyang's generation of junior brothers and sisters. Even the next generation, already produced several masters.

Today's Earth was truly different from the original story. It was easy to become a martial arts master.

Kanalita was undoubtedly the best in the younger generation. She passed the Korin Tower and the Lookout in the past few years and practiced in the Mount Five Element for quite a long time.

In the absence of Muiyang, it could be said Son Gohan and Annin were instructing Kanalita.

Muiyang, as a teacher, felt very ashamed.

.....

At the back of the mountain in the martial arts field, Kanalita, under Muiyang's guidance, and three Saibamen were training.

Poof.

There was crystal light in Kanalita's body surface floating a few times. Kanalita tossed her red hair, her fingers facing forward, and suddenly shot several sharp energy rays.

On the side, Muiyang and the twin sisters floated in the air, carefully watching Kanalita's performance, "Uncle, this disciple of yours almost has 3200 power level. She should be considered the most potential on Earth." Melia's childish face pretended to be deep as if she was a young adult.

According to the seniority, she was Kanalita's "master wife"!

Muiyang laughed, "I can't say that she has the most potential, but she should be at the top of the earth."

Melis said, "I think her potential is above that Son Gohan."

The two sisters have visited the Mount Five Element and had met Son Gohan. In general, Melis thought that Kanalita could surpass Son Gohan in the future. After all, she was only eighteen years old and already had such strength.

Chapter 264

PENG! PENG! PENG!

Kanalita waved her fist and defeated every single Saibamen that attacked her. She then calmed her breath and flew towards MUYANG and others.

Seeing Kanalita flying towards her, the twin sisters touched hands. They quickly turned into a more mature Melissa, standing side by side with MUYANG.

“Teacher Mu, Teacher’s Wife Melissa.”

Kanalita was very disciplined in addressing the two without having any opinion in Melissa because she was young. After all, Kanalita knew about her teacher’s wife since she was a child.

She even played with Mexia when she was a child. At that time, Mexia was even more petite and was almost used as a doll by her.

MUYANG smiled and nodded, then pointed out Kanalita’s shortcomings in the battle just now.

MUYANG’s eyesight was very sharp. He saw the problem exceptionally thoroughly and gently put her problems out.

Kanalita listened carefully. Little by little turned MUYANG’s words into a plan for her actions, and the effect was soon evident.

.....

On the way back, Melissa suddenly leaned towards MUYANG’s body with her body, and her whole body almost hung up.

“What’s wrong?” MUYANG asked.

Melissa’s face was red for a while and then white. Her expression kept changing, and her body was emitting a green glow, “MUYANG, I feel so uncomfortable. It seems like I’m about to wake up.”

“Is this the time now?” MUYANG’s face was shocked. His expression immediately became serious, and he hurriedly sent Melissa to the Acceleration World.

.....

In the Acceleration World, MUYANG arranged a tranquil place for Melissa. He then apprehensively sat not far away to pay attention to the changes in Melissa’s body.

Mexia’s consciousness would soon merge with Melissa, and he didn’t know how the process would evolve.

The relationship between Mexia, Melia, Melis, and Melissa was very complicated. He couldn’t tell what would happen during the fusion process, but with the divine power set up by Whis in advance for protection, there shouldn’t be any accidents.

Time passed little by little, and Melissa’s body began to emit a fiery flame.

Boom!

The majestic and turbulent energy emanated from Melissa’s body and was soon suppressed by silver energy.

Clang, clang, clang.

The ground began to shake, and the central planet’s lawn began to appear partly collapsed.

Muyang watched quietly, holding Gaia in his arms. He then waved his hand to regulate the distribution of energy around him, trying not to get in the way of Mexia's awakening.

Boom!

Melissa's eyes turned golden, and her aura rose again. The greenish glow on her body swelled up violently, and her body began to grow gradually, slowly, shifting from a loli state to a maiden state, and then continued to grow.

Puff, puff, puff!

A pale green costume had burned away in flames, gradually growing away from the delicate body, wrapped in a thin layer of cloud.

As that ethereal cloud became thinner, a slender body appeared.

Melissa's body at this time had grown to a height of close to 1.7 meters. The body was slender and voluptuous, athletic but not too soft.

Her delicate face became very mature with green eyes like emeralds and only a few strands of hair naturally hanging down to her chest, revealing a fearless temperament.

That was right, the charming and seductive eyes, the knitted brows, and a smile.

It was definitely a fusion of Mexia and Melissa.

“Senior brother.”

A pleasant and clear voice sounded in Muyang's ears. The familiar address made Muyang's heart tremble, and he naturally flew up to take her in his arms.

“Mexia, you have finally awakened.”

“Mmm.” Melissa nestled in Muyang's arms. “My name is now Melissa; call me Melissa from now on!”

The fusion of Mexia's consciousness had changed Melissa's personality again. She was full of heroic and high-minded and full of charm in her bones.

“It's the same whatever you call it.” Muyang laughed out loud.

His wife Mexia came back, and the figure became adult all of a sudden.

“Muyang, bring my clothes.” Melissa pushed Muyang away and used her hands to cover the sensitive parts of her body. Her cheeks were already flushed with scarlet.

“Why do you even need clothes? I am most familiar with your body.” Muyang joked.

Melissa threw a blank look over, “It's not the same. My current body is new; you haven't even touched it.”

After saying that, Melissa very shamefully divided herself into two. Melia and Melis's body appeared again.

At this time, Melia and Melis's body were still tiny, less than ten years old. Even if they were naked, there was nothing to be embarrassed about.

"Hmph, so there's no need to worry." Melia, who retained Melissa's consciousness, sighed in relief.

"Melissa?" Muyang asked tentatively.

"Of course, it's me. Whether it's Mexia or Melissa, Melia, Melis, the consciousness is the same; only the body state is different. The personality may have a little deviation. In the future, I will be called Melissa in my fusion state. When we are separated, we will be called by our respective names."

Melia and Melis said together when they separated. Melia's personality inherited the original, which appeared to be on a high and lively side, while Melis' was a little more gentle and quiet.

Muyang wondered, "How did your consciousnesses fuse?"

Melia said, "I don't know. Anyway, it just fused."

Melis and Melia's thoughts were connected, "If you want to ask, ask Whis, but I don't think she can figure it out either."

Muyang was a little confused. Now that their personalities had wholly fused, no longer distinguishing who was who.

They were all the consciousness of one person. With this thought, Muyang's face revealed a smile, casually beckoned the two to their clothes, and then watched them put it on.

"Muyang, let's go out; I still have to settle a score with April!"

"Settle what score?" Muyang asked.

"She knows it well in her own heart." Melia narrowed her eyes.

Her face changed, and she suddenly waved her hand, "Forget it. Let her go for the sake that she took care of you for so long. She already has a lot in her mind."

"It was really a mistake before," Melis added.

.....

In the vast universe, the stars were brilliant and crystalline.

In another part of the deep and quiet universe, a very grand spaceship set off from the distant side of the starry sky, heading continuously in the earth's direction.

"Lord Garlic Jr, in a short time, we will arrive at the starfield where the earth is located."

In the spaceship, Buddy was very seriously comparing the interstellar map. This was the first time he had left the Demon Realm and was following the great Lord Garlic Jr.

He felt as if he had become a superior demon all of a sudden, and his heart was filled with pride.

“About how much further is the journey?” Garlic Jr was sitting in the middle of the cab. His white hood covering his body, and a hood on his head, making it hard to see his expression.

Buddy studied the star map carefully and said, “There are still three hours to go before we enter the solar system where the earth is located.”

Garlic Jr nodded his head, “Everyone listens to me. When you get to earth, don’t make any rash moves for the time being. Investigate the situation up there in secret before you make your move.”

“Yes!”

“As ordered.”

This time Garlic Jr didn’t bring many people, including himself and Buddy, only twelve people. However, except Buddy, everyone was good. Their power level was more than 10,000.

“There is no need to worry; there are no masters on earth. A Low-Level Planet, I will be able to suppress with the flip of a hand. The main thing is to investigate the cause of my father’s disappearance.” Garlic Jr didn’t put the earth in his eyes at all, just interested in Garlic’s disappearance.

“Of course, Lord Garlic Jr’s power is certainly invincible in battle.”

“A mere Low-Level Planet.”

“Finally, I can ravage those weak humans. I heard that the blood and flesh of upright walking humans are very delicious. I’m really looking forward to it!” All the demons laughed loudly, gleefully full of anticipation.

.....

Three hours later.

The spaceship sailed into a planetary system centered on a yellow dwarf. In the third orbit of the habitable zone, a beautiful azure planet floated, with a small moon orbiting around it.

Boom, boom.

The spacecraft gradually entered the earth’s atmosphere and finally landed in a place called Yunzabit Height.

Chapter 265

In the Yunzabit Heights, where the cold wind blew and rolled up the sand.

This place was desolate with little water and few people. All that stepped into the eyes were the bare mountains and the endless colossal canyon.

At that moment, the rumbling sound of a vast shadow cast down. Accompanied by a tremendous roar, a very luxurious spaceship landed from high altitude.

When the spaceship stopped, twelve figures flew out from the hatch.

Garlic Jr stood in the center of several people, navigating the barren landscape of Yunzabit Heights.

“Earth is still as unchanged as before, as frail and weak as ever!”

Three hundred years ago, when his father was still on earth, Garlic Jr had lived on earth for a while. The earth was so weak then that it hadn’t changed a bit after several hundred years.

Earthlings were truly a Low-Level Race, and they couldn’t be strong even if they were given more time.

“Lord, should we scatter out to detect the situation?” An obese demon stepped forward with his stomach held out.

“There is no need; we will go directly to the Lookout where we can see everything on the earth.”

Garlic Jr wasn’t interested in conquering the earth, only in Garlic’s disappearance – Lord Dabura might have left something special behind after taking away the earth’s sealings.

However, unbeknownst to Garlic Jr, it was all just a fantasy of his, and there was nothing on earth that he needed.

On the contrary, there were several people, far too strong, were waiting for them.

“From what my father said, the Lookout floats just above the Korin Tower, which is located on the north side of the earth...”

Garlic Jr judged roughly and then flew towards the Sacred Land of Korin in the north of the earth.

.....

In the Big Azure Mountain, a light green robe wrapped Melissa crossed her legs as she sat on the sofa. Her two long and slender legs were constantly swaying.

On the opposite side of her, April was sitting upright with a pair of watery eyes carefully glance at the suddenly grown-up Melissa.

It should be known that not long ago, when April first saw Melissa’s adult version, she was shocked.

Now, knowing that the consciousness of Mexia had awakened, April was terrified.

“Sister April, do I treat you well?”

April was intimidated by the surprised’s queen-like aura, and she answered weakly like a scary daughter-in-law, “Senior sister has been very good to me.”

She was surprised and stood up with a swish. Her face came up to April’s and gently removed her glasses, “I’ve been so good to you, but you don’t listen to me enough!”

April's body trembled a little, and said pitifully, "No, I always listen to you."

"You don't admit it, do you?" Looking at April's pitiful appearance, Melissa suddenly burst into a smile.

"Forget about teasing you. Look how scared you are. There is nothing else on your mind, is there?" Melissa's face was frozen. She pinched April's chin and swept her body. "It was my mistake to let you stay and supervise MUYANG, but for the sake of all the years that you have honestly taken care of MUYANG and didn't do anything out of the ordinary, I won't bother you."

"What exactly happens in the future will depend on your performance." After Melissa said these words, she gave April a meaningful look and then returned to the sofa to drink.

Since her reincarnation as a Saiyan, her appetite had become better. She could digest anything she ate, and she could eat openly when she came across something she liked, and it wouldn't affect her figure.

"Senior sister, what do you mean by that?" April sat next to Melissa.

Melissa sipped her drink, "MUYANG rescued you back when you were just over five years old. After so many years, you have grown to adulthood, since you have lived here, from now on, you will continue to do so." Melissa extra aggravated her tone, "But at home, you have to listen to my words."

April responded at this point and immediately stated, "Senior sister, I will definitely listen to you."

"I hope it will be as you say." Melissa nodded and frowned. "April, your martial arts are indeed poor. Don't always spend your time on scientific research. You should know that your strength is the most important thing."

April said, "I know, but my qualifications can't compare to yours. I can only rely on external forces to become stronger. Recently I am studying Saibamen technology. If I can apply this technology to the human body, I can also quickly become stronger."

For April's research mind, Melissa knew very well that April was determined to become stronger in this direction, and Melissa had nothing to say.

"Hm?" Melissa, who was chatting with April, suddenly frowned, and her eyes suddenly looked out the window.

"What's wrong?" April asked suspiciously, looking out the window, but saw nothing.

"There are several powerful ki descending on the earth. Are they demons?" Melissa discerned the strength of that several ki. Her eyes faintly glanced at the sky outside the window.

At this time, April also felt the several strands of ki and exclaimed, "Could it be that the demons have come to earth again?"

Twenty years ago, if it wasn't for Mexia and Muyang, who arrived at the West City in time, she and Panchy might have perished at the hands of the demons.

“Don't worry, just a few little ants; I won't let them come back.” Melissa sneered.

Back then, she was forced by the demons to almost collapsing her soul. Now she had just awakened her consciousness.

So, how could some demons dare to come to earth? It seemed that God was giving her the chance to take revenge!

All this hatred had come back.

“April, you stay at home and do not go anywhere. I will go and return.”

After saying that, regardless of April's worried gaze, Melissa's body turned into a gust of wind and disappeared from the room.

.....

“Muyang, you already feel it, right?” Melissa said lightly as she ran into Muyang outside.

“Yes.” Muyang nodded, “There are twelve demons in total. The leader has about one million power levels. The remaining ones are around ten thousand power level.”

“It's quite powerful.”

Melissa smiled lightly, and a cold light flashed across her clear and elegant face.

Sensing the direction in which the demon's ki was moving, it was easy to tell that their target was the Korin Tower or the Lookout above the Korin Tower.

“They are moving to the north, where the Korin Tower is located,” Melissa said.

“That's their destination. Leave the leader to me; you go and pull Son Gohan on. The battle later must be quick; we can't give them time to react.” Muyang pulled Melissa's hand.

If it was on the outer planets, Muyang could let go of the battle. There was no need to have such scruples.

However, on earth, the slightly larger attack was enough to cause a destruction effect, and improper handling would lead to a disaster.

Melissa understood the destructive nature of high-level energy battles and nodded in agreement.

Then the two of them used the Instant Transmission to go to the Mount Five Element, where Son Gohan had also felt the ki of the demons.

.....

“Muyang, you guys are here.”

Son Gohan saw Muiyang and rushed forward, noticing Melissa's astonished expression. A few days away, Melissa had actually grown so much. The Saiyans were truly a magical race that could develop really fast.

Muiyang said, "Melissa has recovered the memory of her previous life."

Son Gohan laughed and said, "So that's it. Congratulations."

Muiyang nodded, and he's back to the topic, "Everyone understands the situation. This time the demons who come are very powerful. The strongest demon has a power level of more than a million, which I am afraid that only Muiyang and Melissa can deal with. The other ten is not weak, but I can handle it."

As for the weakest, Buddy, with a few hundred power levels, had been automatically ignored.

"Give the strongest one to me," Muiyang said benevolently.

"Okay, but I want seven." Melissa seemed to be dividing the cake and crossed off seven for herself.

Son Gohan laughed, "Then the remaining three will be given to me."

These years Son Gohan had been studying hard the martial arts crystal left behind by Muiyang. His strength continues to rise, but he had reached middle age. Now, he had 100,000 power levels and hundreds of thousands of power levels if he used the Kaio-ken. Three demons with more than 10,000 power levels were just a piece of cake for him.

The main thing was to control the range of attack not to cause too much burden to the earth.

Each of the three people assigned opponents then looked at each other and laughed, not at all worried about the situation.

Chapter 266

Sacred Land of Korin was located on a vast plain in the North Hemisphere, with a lofty mountain range rising from the south to the north in the west, blocking the water vapor from the western ocean.

At this moment, twelve black shadows were rapidly traversing, constantly approaching the Sacred Land of Korin.

"Lord Garlic Jr, this earth is really weak. We encountered only a few humans with more than a hundred power levels along the way. If we were in the Demon Realm, it would be challenging for them even to survive."

Several demons laughed loudly. The weakness of the earth's people made them feel contempt.

How could such a weak race occupy such a beautiful planet? It was clear how unfair the heavens were.

"Oh, after all, it's a Low-Level Planet. What kind of master can there be." A demon with a pointed head was full of disdain.

A cold smile appeared on his ugly face, "But, flesh and blood of the earthlings taste good. If they can be bred, they can be used as a good source of food."

Garlic Jr glanced at it and said indifferently, “After I find out the truth, about that time, this planet will be given to you as a territory.”

He didn’t care about this palm-sized piece of earth. Since his men were interested in the taste of earthlings, he might as well reward them.

“Lord Garlic Jr is really generous.”

Buddy followed behind, and a glint of envy flashed in his eyes when he heard that Garlic Jr had rewarded the earth so easily.

Buddy, who lived at the edge of the Demon Realm, lived in relative poverty and was full of desire for the green scenery of the green hills on this side of the earth.

“Hm?” Just at this time, Garlic Jr suddenly stopped in his tracks.

“My Lord, what is it?” Buddy hurriedly stopped when he found that three human figures had appeared in front of them at some point.

They were two men and one woman, all with black hair.

Muyang, Melissa, and Son Gohan came from the Mount Five Element with Instant Transmission.

‘Another few earthlings who came to die.’ Buddy looked at the three people who appeared in front of him, and a cold light appeared in his eyes.

Previously, Garlic Jr led a group of people to fly towards Korin Tower, and along the way, they met several martial arts practitioners who thought they could stop them. The results were that they were invariably killed.

Now came three more.

Garlic Jr, whose white cloak rustled in the breeze, faintly glanced at Muyang and the others. He waved his hand and ordered one of the demons at the side, “Gore, go and dispose of these three earthlings.”

The demon named Gore smiled sinisterly and walked forward with his head held high, “Don’t worry, Lord Garlic Jr, leave it to me!”

On Muyang’s side, Melissa and Son Gohan was already assigning themselves to annihilate their opponents, not putting Garlic Jr’s group in their eyes at all.

“Muyang, the seven on the left, hand them over to me.” Melissa’s clear and cold voice rang out.

Son Gohan said, “Then the three on the right are for me.”

“End the battle as soon as possible.” Muyang nodded his head. His eyes glanced at the short demon in the center who was cloaked in a white cloak, showing green skin all over.

A trace of surprise flashed in his eyes. Muyang had already recognized the identity of the opponent.

No wonder he had more than one million power level, it turned out to be Garlic’s son – Garlic Jr.

He was a character who appeared in the theatrical version and was also considered a relatively powerful demon.

Did he come to earth to avenge his father?

Muyang couldn't help but think of the Garlic's invasion of the earth twenty years ago. At that time, he hadn't been that strong.

That battle could be considered one of the most challenging battles. Even Mexia was sacrificed in that battle.

Now that he thought about it, Muyang couldn't help but smile slightly. This was just a small fight.

After twenty years, it was Garlic Jr's turn. Unfortunately, his luck was as bad as his father's, and he was bumped into him.

"Let's begin!"

The first thing that happened was that he disappeared. When he reappeared, he was already in front of Garlic Jr. Without any extra action, Muyang's arm swings directly towards Garlic Jr's head.

"WHAT KIND OF SPEED IS THIS?!" Garlic Jr was stunned by Muyang's speed.

Looking at the sudden appearance of the upright figure, a look of shock appeared in his eyes. Just now, he actually couldn't see clearly how the opponent moved over. Just when he was about to make a move, the opponent's enlarged fist had already attacked towards his head.

BANG!

Blood splattered, Garlic Jr's face was distorted, half of his head was directly sunken in by the blow. The muscles on his brain shell squirmed, making Garlic Jr dizzy for a while.

The corners of his mouth twitched, and his thinking became sluggish all of a sudden after losing half of his head.

"How can he's not dead?" Muyang looked on in amazement.

He shook his head and attacked once again towards Garlic Jr. This time, he was not polite, and pounds of energy shone white at the tip of his fist.

As his fist cut through the air, the friction with the air made the tip of his fist light up with a faint red glow.

Garlic Jr's face changed violently; his eyes had tightened to a point.

How could this happen? Isn't earth a Low-Level Planet? How could there be such a master?

Garlic Jr's liver and guts were split at this moment. He was desperately pushing the energy in his body to counterattack, but it was too late. Garlic Jr was simply incapable of blocking Muyang's attack.

It was too late!

"NO, IT SHOULDN'T BE LIKE THIS." Garlic Jr let out a desperate roar.

BANG!

The hard fist attacked down, and the overwhelming force acted on Garlic Jr's body. In that instant, Garlic Jr's face became stiff, and then several ring-shaped shock waves were born along the plane of the attack.

CLANG!

Garlic Jr's body was beaten to pieces under the brute force. The excess power had nowhere to vent, so it extended downward along with the point of impact and a radiant pillar of light.

The famous Garlic Jr of the Demon Realm actually didn't even have the chance to transform and exert his full strength and was beaten into flesh by Muiyang's fist in three or two blows.

Silence!

Terror!

Shock!

The scene fell into an eerie silence, and only after a few seconds did an inhalation of breath erupt.

The stir caused by Garlic Jr's death was huge, and the demons behind them were all frozen in their tracks.

They didn't expect that in just a few seconds, their biggest backer, Garlic Jr, would be beaten to powder. In such a state that he had no power to fight back.

It was a lie; the earth was such a horrible planet.

Where was the promised Low-Level Planet?

Buddy and the other ten demons trembled, and cold feeling rushed to their hearts. At this time where they still have the previous bravado, all retreating with a frightened gaze towards the black-haired earthling in the center.

“RUN!”

“HURRY UP AND LEAVE THE EARTH.”

These demons completely lost their fighting spirit, and the deep fear stimulated their nerves.

They only wanted to go back to their spaceship in the opposite direction and then leave the earth as fast as possible.

However, Melissa and Son Gohan wouldn't give them such an opportunity; they had been watching intently for a long time.

When these demons were ready to escape, they were shocked to find that they couldn't move their bodies!

Confinement!

Since when are we being confined?

Then they saw, not far from them, a black-haired young girl with her hair slightly upward, and her turquoise eyes fiercely opened.

Her slender white arm raised, and an invisible wall of air then crushed over, making the space around her even more unbreakable.

“It’s my game next.” Melissa lowered her head like a demon and said in a low voice.

When the demons were forced, and their souls nearly collapsed, now all the old grudges would come back.

As soon as the words left her mouth, her body kept flickering back and forth in the space where she had imposed the confinement. The seven ugly demons immediately suffered violent attacks.

Click, click, click.

The sound of bones breaking.

BANG!

Clattering, blood seemed to drip down from their bodies like raindrops.

The seven demons were now worse than dead after Melissa was ravaging them. Although these demons had more than 10,000 power level, in front of the fighting race Saiyans, how could this power be considered?

Moreover, Melissa’s strength had reached a terrifying 120,000! What was more, it wasn’t something they could resist.

“How ferocious!”

After Son Gohan easily killed his three opponents, he turned around and looked at the situation on Melissa’s side.

He immediately shrank his neck as he was scared by Melissa’s brutal side.

Never mess with Melissa in the future; the consequences were too terrible.

“Melissa, kill them directly.”

Although he knew that the opponent had been imprisoned by Melissa’s superpower and couldn’t possibly do harm to the earth, Muiyang still frowned and told Melissa to finish the opponent as soon as possible.

The two delicate palms suddenly opened and then closed as hard as a mosquito. The space around the palms closed, followed by a sharp collapse, and the seven demons were crushed into powder.

“So... there is still one left!”

Three pairs of tiger eyes cast over. Muiyang, Melissa, Son Gohan floated to Buddy’s side, surrounded him in the center.

With a power level of only a few hundred, this demon was actually followed by several 10,000 or more demons. How interesting.

Buddy’s body stiffened. His face was pale as he swallowed a little, wailing in his heart.

Being stared at by these several terrifying to the extreme characters was so much pressure compare to his 500 power level!

Buddy cried and said, "You all don't look at me like that. I can explain; these are all misunderstandings..."

Chapter 267

"534 power level!" Muiyang seriously stared at the demon named Buddy and said with a severe expression.

"This is true, his power level." Melissa followed and nodded.

Son Gohan sucked in a breath of cold air, "With such a power level, how dare you invade the earth!"

Did he really think that the earth was still the earth of over twenty years ago?

Although the power of the ordinary masses on earth was still very weak, there were many masters.

Even without their help, some outstanding martial arts practitioners on earth could have shot him to death.

Buddy cried, "Lords, I have no malice..."

Before he could finish his words, Melissa's vicious gaze stared over, frightening him so much that he couldn't speak. Buddy saw how this vicious woman killed several demon "masters" just now.

In front of her, Buddy felt he was as weak as a white flower.

"What about this guy?" Son Gohan asked.

Muiyang thought for a moment and said, "Send him to the Lookout to Kami. Let's see if he can figure out something."

"Let's do that." Son Gohan and Melissa listened and nodded gently. This matter was better left to the Kami to handle; this would also give the Kami a headache.

So, in Melissa's superpower confinement, Buddy didn't have a little resistance to be tied up. After that, space rippled slightly, and Muiyang performed Instant Transmission to transfer everyone to the Lookout.

.....

The Lookout.

The Lookout was located in another dimension. In accordance with its height, it had long exceeded the atmosphere, but it was far from reaching outer space.

On the wide square, the Kami stood on the edge of the Lookout with a crutch. His face was staring intently at the lower realm.

Behind him, several earthly martial arts practitioners were practicing under the guidance of Mr. Popo.

When Muiyang and the others had destroyed and killed Garlic Jr and his group, a smile finally appeared on the Kami's pale face.

“Kami, that ki just now has disappeared.” Mr. Popo said as he walked over.

The Kami nodded his head and said with relief, “It was Muyang and the others who stepped in. Thanks to them, earth avoided another big crisis.”

It was hard to believe that if Muyang and Melissa weren’t on earth at this time, when Garlic Jr invaded, what purgatory earth would have been!

The thought of Garlic Jr’s imperceptible and terrifying strength, making Kami couldn’t help but fear.

Fortunately, there was still a master like Muyang on earth, and he happened to be on earth at this time.

At this time, there was a cluster of unreadable flashing lights. Muyang, Melissa, and Son Gohan came to the Lookout and casually threw Buddy on the ground.

The Kami looked at Muyang and the others and smiled, “Thanks to you guys; otherwise, the consequences would be unthinkable.”

Muyang waved his hand, “It’s just a small help. I’ll leave this demon to you.”

“Yes, leave him here.”

It was his duty, and Kami didn’t push back, so he asked Mr. Popo to keep Buddy in custody, “Mr. Popo, you go and ask questions to find out the purpose of Garlic’s son coming to earth. After that, detain this demon to the room for practice, and use it as a companion for the Lookout martial arts practitioner in the future.”

“Okay.” Mr. Popo nodded slightly.

His words have always been minimal. He then walked up, directly lifted Buddy, and headed to the interior of the Lookout.

At this time, the martial arts practitioners practicing on top of the Lookout saw the situation.

These young martial arts practitioners had just ascended the Lookout not long ago. They had never seen Muyang and Son Gohan.

At this time, they were shocked to see someone actually talking and laughing with the Kami.

“Look, guys, doesn’t that person look like the image figure that appeared in the martial arts crystal?”

“I know who that person is!” A robust martial arts practitioner shouted out.

The martial arts crystal left by Muyang in the Lookout had become the most valuable secret treasure of the Lookout.

All the martial arts practitioners who ascended the Lookout had to feel the martial arts inside in front of the altar, which was dedicated to the martial arts crystal, so they all had a vague understanding of Muyang’s image.

“The God of Martial Arts, Muyang!”

“Ah, yes. He is Mr. MUYANG. I had the honor of meeting him when I was practicing at Korin Tower.”

As soon as they were reminded, the other martial arts practitioners also woke up. The man in front of them, wearing black casual clothes, wasn't he the God of Martial Arts, MUYANG?

He was exactly the same as the figure in the martial arts crystal!

After passing down the martial arts crystal, MUYANG was already a worthy God of Martial Arts.

It was rumored that the future successor of the Kami, Goddess KANALITA, was also a disciple of the God of Martial Arts.

He was a legendary figure!

The crowd stood together and couldn't help but chatter and talk.

“Don't stop; keep practicing.”

Seeing that the martial arts practitioners in the square actually slacked off in their training, the Kami immediately put up a face.

Through the glory of MUYANG and the others, the Kami was now considered extremely majestic.

He turned his head to MUYANG and said, “These are the practitioners who have just ascended the Lookout.”

MUYANG nodded with a smile, “They all look quite familiar. Did WUTING and the others have already gone down to the world?”

WUTING and the others were MUYANG's former companions. If they had followed the original development, they were destined to die out in the trajectory of history.

However, because of MUYANG's intervention, today's condition has been extremely different from the original story.

So, WUTING and the others had a new chance; their strength had broken through one thousand and was struggling on their path.

“Yes, I no longer have anything to teach them here, so I let them figure out their way to practice.” The Kami smiled. “I think after referring to the martial arts crystal you left behind, they will all be able to find a new direction to practice.”

MUYANG nodded, “The water on earth is still a little shallow after all.”

Without enough masters to compete with, the improvement of martial strength would inevitably come to a standstill, which was why MUYANG had gone to the universe to train in the first place.

“Kami, this incident reminds me of one thing.” Suddenly the topic changed; MUYANG said something else, “As the earth martial arts continues to strengthen, the destructive power of the martial arts is also rising geometrically. Before, it could be ignored, but if it continues, it will give a feeling of being tied up.”

Son Gohan also followed, "Muyang is right. The earth is not strong enough. If a big war occurs, it is easy to cause damage to the planet itself."

For example, this time, Garlic Jr's invasion, if Muyang and others were not strong enough to kill him instantly, with Garlic Jr's power level of more than one million, he would easily make humans lose their home and rely on for survival.

After listening to this, Kami's face became serious, "I have thought about this problem. What do you think we should do?"

Melissa said, "Let's use the Dragon Balls to strengthen the earth. We don't need it to block the enemy's attack, but at least let the earth could recover quickly from the destruction."

The Kami pondered on Melissa's words, and his eyes looked at Muyang, who shrugged and said, "That's what I mean too."

However, the power of the earth's Shenron was limited. It was impossible to resist the energy that was enough to destroy the planet. That kind of intensity of the attack even Porunga of Planet Namek couldn't resist it.

So, switch the idea and enhance the strength while giving the earth the ability to recover quickly; at least it wouldn't be destroyed at once!

The Kami agreed, "I will consider your ideas."

Muyang and Melissa looked at each other, and both smiled. They didn't stay on the Lookout; Muyang took Melissa's slender waist and directly took her back to their home in the Great Azure Mountain.

.....

In the Great Azure Mountain's villa.

April saw that Muyang and Melissa returned safely and soundly, and her heart finally relaxed.

"Senior brother, it's great that you guys can come back."

Muyang rubbed April's head, "It's just a small demon, don't worry at all." Turning back to Melissa, he said, "It's past time for lunch, Melissa; you go to the kitchen and get some food over."

"Sure!" Melissa smiled lightly.

She had regained her memory from her previous life, and her cooking skills had also been restored.

Nodding her head, Melissa winked at April, who immediately followed Melissa into the kitchen – according to the agreement between April and Melissa, she would listen to Melissa in the future at home.

The first time Melissa saw her, she was so obedient.

After living with April in the Acceleration World for so many years, Muyang thought he already knew April's character very well.

'This child was well behaved, but sometimes also very playful. So, she should not be very obedient.'

Especially some time ago, she and Melissa were still in a disagreement.

Chapter 268

Early in the morning, the sky was hazy.

Muyang embraced the soft body of the young girl. There was a cool sensation of the white skin against his body.

Muyang opened his eyes just in time to see Melissa sleeping on her pillow, looking at him with a scarlet face.

“What are you doing with your eyes open? Why don’t you sleep? It’s still early?”
Muyang stroked Melissa’s black hair.

The girl’s delicate face was attractive, and her naked skin was as white as snow. Her reverie-inducing body was perfect with hardly a trace of fat from top to bottom, especially a pair of moist eyes that seemed to drip water.

“Muyang, when are we going to have another wedding?”

After her body returned to its adult state, Melissa moved directly from the next room to Muyang’s room.

In the past few days, Melissa had already given her body to Muyang, so she began to urge for another wedding.

Muyang was surprised for a while, “There is no need for a wedding. We have been married before.”

Melissa unhappily curled her lips, “It’s not the same. I am now the princess of Planet Sala; I can’t just follow you for no reason. A wedding is definitely needed.”

Muyang said, “That is even more inappropriate. Think about how old Melia and Melis are now. If you want a public wedding, at least wait for you to become an adult. How about I make up the wedding for you after eight years?”

The twin sisters’ public identity was only ten years old. If the wedding was held at this time, wouldn’t Muyang be regarded as a lolicon?

Melissa thought about it. With her current status, it didn’t seem appropriate to hold a wedding, so she let go, “Well, such a bargain. I already gave you all my pure and flawless body.”

“You are still pure...” Muyang dumbfoundedly laughed.

Melissa’s body was definitely pure, but Mexia’s previous life had long polluted her mind. He was afraid that the associated Melia and Melis were similar.

Melissa spit and suddenly smiled flirtatiously, “Senior brother, do you want me to change my image?”

Muyang was interested, “Do you relearned the Shapeshifting Technique as well?”

“Of course, this is the most useful ability.”

After saying this, Melissa stretched out her onion-like fingers and snapped her fingers in the air. With a snap, Melissa kept changing her appearance. After changing her appearance to a dozen beauties in a row, Melissa smiled strangely and changed her image again –

A tan, slightly curly hair. Two sapphire eyes, flawless face, white skin like snow, and two small tiger teeth open mouth. This girl, Melissa, actually turned herself into April's appearance in front of Muiyang.

"Melissa, why did you turn into April? Hurry up and change back!"

When Muiyang saw Melissa turn into April's appearance in front of him, he was shocked and hurriedly wrapped her body with the quilt.

He was afraid that he would do something he shouldn't do on impulse and be embarrassed when he faced April.

Melissa laughed out loud and changed back to her original appearance, "Haha, well, what do you think of my appearance just now? Isn't it sexy?"

Melissa stuck to Muiyang's body and winked playfully. Muiyang slapped her on the body, "What nonsense! If April knows, she will fight you to death."

Melissa waved her hand, "It's okay. I'll just talk to her next time and get her consent."

Muiyang said, "She will cut you down."

Melissa fluttered her eyes, "Well, I'm not going to mess with you."

Melissa crawled out of the blanket by herself and simply dressed. With a slight movement of her mind, she quickly split herself into two people, Melia and Melis.

The body then shrunk, and the appearance became childish all of a sudden.

"Melissa's body has been given to you. Melis and I will not give you our bodies until the day of our wedding." Melia stood by the bed and whispered.

Melia inherited all the memories from her time as Melissa, but her personality became more arrogant.

'Even if you gave it now, he couldn't take it!'

Muiyang's heart shouted. He always thought he was a decent man. Melia and Melis were still little girls; how could he possibly lay his hands on them.

However, Melis was understanding and whispered in Muiyang's ear, "Don't bother with Melia; Melissa too influences her."

"I understand." Muiyang nodded his head.

Although Melissa or Melia and Melis were actually the same consciousness and memory, because of the difference in their bodies, their personalities also behaved completely differently.

Melissa was a replica of Melia, Melia was quite open, and only Melis was much more reserved.

After Melissa awakened, probably because of the influence of the divine power left behind by Whis back then, the Planet Metamor's Fusion Technique had become unrecognizable.

They had become almost capable of fusing and splitting without any limitation in terms of time.

.....

“Senior brother, you’re up. There’s Someone outside looking for you; I told him to wait in the courtyard.”

April was sitting very ladylike in the living room, but her cheeks were slightly flushed with scarlet. Her pair of shining eyes glanced at Muyang’s room from time to time.

After seeing Muyang and the twin sisters come out, she hurriedly walked up and whispered.

“Do you know who is looking for me?”

April shook her head, “I don’t know; it seems to be from the Central Area.”

Muyang nodded and walked straight towards the courtyard outside the villa. Melia bounced to April’s side and whispered to her about Melissa’s previous behavior.

April knew that Melissa used the Shapeshifting Technique to turn into her appearance to tempt Muyang.

Her cheeks immediately reddened to the point of dripping blood, hoping to find a crack to drill down.

A small spaceship was parked in the courtyard. Muyang could see clearly from a distance that the opposite person was a staff member wearing the Galaxy Mercenary Headquarters uniform.

“Surprisingly, it’s Someone from the Galaxy Mercenary Headquarters. What is he doing here on earth?”

After getting a clear picture of the other person’s identity, Muyang couldn’t help but be astonished.

He knew that the Galaxy Mercenary had always only issued and offered bounties for missions. There had never been an instance where a staff member needed to go out personally.

“Hello, is this Mr. Muyang?” The Galaxy Mercenary staff member saw Muyang approaching and quickly stepped forward and asked.

“Yes. Are you looking for me regarding something...”

“It’s about this.” The Galaxy Mercenary staff took out a piece of equipment and handed a communicator to Muyang after confirming his identity, “I accept the commission from Mr. Birgil to hand this communicator to you.”

“Did something happen to Birgil? Why didn’t he contact me?” Muyang said with a calm face as he took the communicator, slightly surprised in his heart.

Birgil was the Namekian who lives in Planet Ambera with super high strength of more than seven million power levels.

Back when Muyang was still weak, Birgil had helped him a lot. It was when he took Melissa to chase and kill the Ginyu Squad; they had been communicating. It seemed that there was no need to ask Someone to send a special contact device.

The Galaxy Mercenary staff said, "I don't know about this; I just accepted the commission from Mr. Birgil."

Muyang nodded to show his understanding, then watched the staff of the Mercenary Headquarters leave.

"Muyang, is something wrong?" Melia and Melis gathered around.

Muyang shook his head, "I'm not sure yet."

After pressing the Birgil's contact, an image of a Namekian appeared in the void. Birgil said with a bitter smile, "Muyang, I'm afraid I need your help this time."

Muyang asked, "What happened there?"

Birgil sighed, "Someone has discovered my whereabouts, and now he is driving his ship towards the Planet Ambera. Maybe he will arrive in a while; I have no other way but to ask for your help."

"Is the person you are talking about Lord Slug?" Muyang's eyebrows furrowed deeply.

"That's right. It's him."

Muyang sniffed and took a deep breath.

The slug was a Warrior-type Namekian. Just like the Planet Namek Grand Elder, Old Kami, and Birgil, he was an ancient Namekian who had survived the climate catastrophe.

Chapter 269

Near the center of the Central Area, an azure planet quietly orbits the central planet. A giant Super Dragon Ball and Planet Ambera orbit each other quietly as a twin planet in the same orbital position.

Planet Ambera.

Somewhere on the huge and full of life planet, along with a bright light that suddenly shone, Muyang appeared in the middle of a big forest with a rich atmosphere. After sensing Birgil's ki, Muyang settled his mind and quickly teleported over again.

"Birgil." Muyang appeared in front of Birgil.

"Muyang, you're here." After seeing Muyang's arrival, Birgil's expression relaxed quite a bit.

The fact that Muyang was able to come over at this time really touched him.

Planet Ambera was extremely far from earth. Without the Galactic Patrolman's special high-speed spaceship, it would take at least several years to navigate an ordinary spaceship.

Muyang was able to arrive so quickly, all thanks to his Instant Transmission ability. Because he knew that he was facing the Namekian Lord Slug, and his true strength was still unknown, Muyang refused Melissa's request to come along and teleported alone to the Planet Ambera.

Muyang nodded towards Birgil and asked, "How much longer until Slug arrives?"

Birgil said, "One day if it's fast, seven days if it's slow."

"That's quite fast." MUYANG thought to himself.

The shuttle between universes could take months or even years. Slug could arrive in a few days meant that Birgil found out about Slug's arrival only after he was getting closer.

Thinking of this, MUYANG looked at Birgil, "How did you get discovered by Slug?"

Birgil smiled bitterly, "I was too careless. I didn't realize that Slug's probe scouted me during a long journey. If the Galactic Patrol hadn't released Slug's whereabouts, I wouldn't have known that his spaceship was approaching towards Planet Ambera."

MUYANG's face was serious, "How strong is Slug?"

In the early years, Birgil was able to leave scars on Slug's face. So, it was reasonable to say that he should not be powerful. However, this information was from many years ago. According to the opponent's performance in the theatrical version, Slug's strength was not as strong as Super Saiyan, but his strength was certainly much stronger than 10 million.

"I have asked the people of the Galactic Patrol to poke around." Birgil face was gloomy. "According to the Galactic Patrolman officers, Slug's power level is afraid to exceed 60 million!"

60 million?

Slug was actually so strong!

MUYANG raised his eyebrows a little unexpectedly.

He then pondered, "My power level has reached 10 million. If I use six times Kaio-ken, I can roughly reach 60 million power levels. If I resist hard, seven times, Kaio-ken can also withstand for a while..." When he thought of this, MUYANG's heart was clear.

MUYANG's face became relaxed, and he said, "Slug's strength is quite strong."

Birgil smiled bitterly, "Yes, he is an extremely gifted Warrior-type Namekian. I wonder what he has gone through in the past few hundred years to become so terrifying."

Slug was always active in the area where the North Area and the East Area meet. Because the North Area was under the Frieza Force's control, Slug could never penetrate into it. That was why he began to infiltrate towards the East Area. In the early years, Birgil could still compete with Slug, but now he was far from capable.

If he hadn't met MUYANG at the Galaxy Mercenary Headquarters some time ago and learned of his strength during the conversation, he wouldn't have thought to ask for his help in this crisis.

"To be honest, if we fight on Planet Ambera, the environment here may not be able to withstand it," MUYANG said in advance.

Once the high-level battle starts, it wasn't easy to control the power. It was questionable whether Planet Ambera could survive. In fact, he felt that the most appropriate approach now was to snipe Slug's ship halfway or simply abandon Planet Ambera.

However, it wasn't easy to find a planet suitable for life in the vicinity. Even Muiyang, who could survive in a vacuum for a short time, didn't dare to engage in a battle with Slug, who had a huge gap in strength, in the universe.

Birgil said, "We have to make an effort whether we can keep it or not. We can't give up so easily. What I'm worried about is how I can stop Slug if he finds the Super Dragon Ball and wants to take it for himself."

This was the most critical. Slug was also a Namekian; even if he hadn't seen the Dragon Ball before, with the sense of the Dragon Ball in his bloodline, he would also be interested in the Super Dragon Ball.

With the location of Planet Ambera exposed, Birgil didn't want to watch what he had been guarding for hundreds of years fall into Slug's control, which was why he would rather ask Muiyang to come and help than avoid Slug.

Muiyang nodded and sat on the lawn by the lake with his buttocks. At this time, a cloud of blue lifeform Gaia came paddling over from the lake.

Thump!

Gaia's pillow-like body jumped to the side of Muiyang. Its blue body touched Muiyang as if touched by transparent jelly, cold and very comfortable.

With a smile on his face, Muiyang picked Gaia up. This Gaia was the original body of the Gaia in the Acceleration World of Muiyang. Because it couldn't resist the temptation of the "Acceleration Space" environment, it split itself into two halves, half of which remained on Planet Ambera and half of which entered the Acceleration World.

Birgil looked at Gaia and said with concern, "This little one is also a problem. Don't get caught in the battle later."

"I do have a solution." Muiyang smiled and said, holding Gaia, "Gaia, Planet Ambera is in danger; why don't you enter my Acceleration World."

A question mark surfaced on Gaia's head as if it didn't know what Muiyang meant. Muiyang smiled shallowly and opened a small section of the entrance to the Acceleration World. At that moment, divine ki was revealed, and the evolved "Acceleration Space" attracted Gaia, and its body twisted restlessly.

"To... go inside...."

"Then I will send you in. When you go inside, give me a good planting of Senzu Beans." Muiyang laughed loudly and waved his hand to send it into the Acceleration World.

It was nothing more than a little energy consumption for Gaia to live in the Acceleration World, but it could help him reclaim the land to plant Senzu Beans. Usually, it could also provide him with the Spring of Life, so it really couldn't be a more perfect little assistant.

After settling Gaia's matter, Muiyang had no intention to transfer the other beings on Planet Ambera into it.

.....

As a little bit of time passed, two days passed in the blink of an eye.

Two days later, powerful and tyrannical ki gradually appeared outside the atmosphere of Planet Ambera.

Did he finally come...

Muiyang opened his eyes from meditation, and a flash of light in the pitch-black eyes flashed.

Muiyang thumped up, frowned, and looked at the sky, "Slug's ki is much stronger than expected. Worthy of being the Super Namekian."

In Muiyang's sense, Slug's ki has been over 70 million, a little higher than Frieza when he was in his Final Form. Although Frieza use 100% of his power, and his power level could reach 120 million, that power was tough to control. Frieza usually could control only 60 million power level; the rest of the power was very rusty.

If he really wanted to fight, Slug would only be a little bit worse than Frieza's Final Form.

He was a formidable enemy. Muiyang's dark eyes were shining, and his body emits a strong battle intent. A warmblood in his heart surged up.

"What exactly has Slug gone through? His power is actually so strong." Birgil also felt the ki from Slug and opened his eyes wide in shock.

After only two hundred years of not seeing each other, as a Warrior-type Namekian, Slug's power actually surpassed him by so much. Compared to Slug, his 7 million power level was like the light of a firefly competing with the white moon. There was nothing to compare at all.

Muiyang smiled and looked at Birgil without saying anything.

If Birgil knew that in the future, there would be a Super Namekian called Piccolo, with a power level of several billion, Muiyang wondered how he would react!

At this time, in the sky, there was a shadow through the thin atmosphere.

A huge spaceship crashed on the top of the soil rocks, emitting a "click, click" sound, and finally, a yellow costume of Slug came out of the spaceship.

"Hahaha, is this Planet Ambera? Birgil is very good at making a living. He actually lives on such a beautiful planet." Slug grimaced. Every time he thought of Birgil, the wound at the corner of his eyebrow will be faintly painful.

"This familiar feeling. Is it the feeling of hometown... you're making me a little reluctant to destroy this planet."

Slug had noticed the Super Dragon Ball in the same orbit as Planet Ambera. His delighted heart had already classified it as his own. However, he didn't expect to feel a familiar feeling on top of Planet Ambera.

Just when Slug was alone and intoxicated, two upright figures flashed without warning. MUYANG and Birgil appeared brightly in front of him.

“Slug, we have been waiting for you here for a long time.”

Chapter 270

“Birgil, you still look the same after all these years...” Slug laughed lowly and looked at the nemesis, who was also a Narmekian in front of him.

He then noticed the dark-haired young man standing beside him.

The young man’s face was blank, his ki was weak, and he looked like an ordinary human with no fighting ability.

However, those who could stand with Birgil wouldn’t be ordinary people. Slug quickly understood that the other person was a helper invited by Birgil.

“Birgil, your power has grown very limited over the years!” Slug stretched out his arm to compare.

The great power gap between the two made him very happy.

“What’s the use of having this kind of power full of evil intent,” Birgil said coldly.

Slug’s face turned black. He wanted to show off a little. Unexpectedly he was choked by the opponent, “How can there be evil and righteousness in power? The most important thing is to be strong, and that’s enough. Anyway, you have been living here very comfortably all these years. If it weren’t for you, I wouldn’t have been able to discover this strange planet...”

With that, Slug’s finger pointed towards the sky and pointed to the orange-red Super Dragon Ball hanging in the sky and asked, “What kind of planet is this? There is actually a star inside.”

Looking at Birgil’s gloomy face, Slug laughed loudly, “It doesn’t matter if you don’t tell me because, from this day onward, it is mine.”

Ignoring Slug’s self-talk, Birgil then turned his gaze to MUYANG’s side, “Slug’s power is extreme, so I’m counting on you next.”

MUYANG casually waved his hand, “Don’t worry, I will defeat him.”

With that, MUYANG stood tall. His body couldn’t help but give off a powerful and overpowering aura.

“Kid, I can’t see that you are actually a master.”

When MUYANG showed the ki on his body, Slug’s expression changed slightly. He realized that the black-haired man in front of him was also a tough person. However, if this young man only had this power, he was far from being his opponent.

“Oh, you probably have 10 million power levels. This kind of power in the universe is indeed considered very powerful.” Slug stroked his chin and smiled evilly. “Unfortunately, you don’t know the gap between you and me. To tell you the truth, my power is 72 million power level!”

“You must have been tricked by Birgil. I’m telling you, you’ll lose your life. However, if you’re willing to join me, I’ll let you go.

As a strong man in the Dragon Ball World, Slug had the same common problem as other strong men, who was talkative!

Probably because they were strong, they’d been too high up and lonely for too long, which made them always wanted to show off their power to the weak.

“Did you just said you have 72 million power level?” Muiyang asked confirmingly.

Slug nodded his head very proudly, “That’s right. Do you want to join me?”

Muiyang grinned. If he only had 72 million power level, then it was a relief for him. He estimated that with his fighting skills, he could probably make five to six times Kaio-ken, and it would be enough to deal with Slug.

He looked at Slug quietly for a while. The mighty Super Namekian seemed very strong, wearing a yellow-colored coat.

However, behind his strong body, there were still traces of age that could not be defeated.

Slug’s eyes were already cloudy, which was the sign of an old man, signaling that his body was, in fact, no longer young.

“It’s impossible to get me to defect to you,” Muiyang said indifferently.

He even fought Frieza Final Form. Would he be afraid of a mere aged Slug?

After hearing Muiyang’s words, Slug’s face darkened. A brutal coldness swept over him, spreading in all directions with him as the center. Muiyang raised his mental gaze, and his eyes snapped open.

“You’re looking for death.” The hem of Slug’s coat rustled in the fierce wind.

He didn’t mind spending more time with the weak, but he would never allow anyone to disobey him.

Within seconds, overwhelming energy had exploded entirely out, and the entire Planet Ambera trembled violently.

“It is indeed a powerful force.”

Muiyang swept a glance towards Birgil, meaning for him to retreat a distance for the time being.

Birgil nodded his head and quickly retreated away. After Birgil left, Muiyang took a few steps forward and suddenly bellowed.

“SIX TIMES KAIO-KEN!!”

To be on the safe side, Muiyang used the Six times Kaio-ken as soon as he came up!

The terrifying power of the Kaio-ken suddenly burst out as the dark red energy continued to spread. Muiyang’s body burned with a constant flame. The raging surging energy was like a long-stored

reservoir suddenly opened the floodgates. When the two forces collided in the air, the sky seemed to split into two at once.

“Your power actually rose so much at once!

Slug exclaimed in disbelief, and a burst of awe-inspiring killing intent erupted from his eyes.

If the killing intent turned into a solid, several dozen meters of steel plates would be penetrated.

Just a moment ago, there was such a big gap, but all of a sudden, it rose to the point of approaching him.

What kind of power was this? Slug’s heart shook and vaguely felt some unease.

However, he thought his fears were superfluous, knowing that as a Super Namekian, his power in the universe was already very superior.

The man in front of him had become much stronger, but it was clear that there was some limit to this power.

Perhaps the opponent was bluffing and couldn’t support it for long.

“Humph, let’s see how long you can support.”

Slug’s eyes were fixed on Muiyang, trying to find a trace of tension in his expression. Unfortunately, Slug was going to be disappointed.

Until the end, Muiyang’s face did not change. Except for being cold, there was no trace of panic. The burden of the six times Ksio-ken was something he could bear.

“Coming to Planet Ambera is your biggest mistake.”

Muiyang walked forward. His speed wasn’t fast, but with each step, his ki was changing drastically.

When he was only a few meters away from Slug, the overwhelming power had climbed to the extreme. Outwardly powerful, inwardly restrained.

The ground lawn was scraped away by a layer of terrifying ki. It cracked out potholes and broken areas.

The leaves floating down around had been crushed.

Swoosh!

Muiyang’s body bowed, fiercely began to accelerate. In an instant, it was like a transient quickly appeared at Slugs side.

The slug was surprised for a moment and hurriedly used his fist to meet the attack. The two fists collided in the air, and the terrifying force was released, turning into a shock wave visible to the naked eye.

Slug, full of anger, took a small half step back, “I’ve underestimated you. You are actually so strong.”

Muiyang smiled lightly without making a reply.

In fact, five times Kaio-ken was enough to deal with the aged Slug. More importantly, Muiyang still kept his biggest card – the seven times Kaio-ken.

As long as the battle continued, the victory would eventually be at Muiyang's.

BOOM, BOOM, BOOM!

Muiyang and Slug blasted each other punch by punch. Their terrifying power canceling each other out as the two moved quickly—countless residual shadows appearing all over the sky and ground before quickly disappearing again.

“THUNDER SHOCK SURPRISE!”

“SUPER EXPLOSIVE WAVE!”

Muiyang and Slug entangled into a ball, quickly turning into two rays of light, one red and one white.

They sometimes hit each other and promptly scattered; sometimes, they connected into one group, swooping from the sky until hundreds of meters below the ground, with terrifying wind power raging.

Peng!

Peng Peng!!!

The energy burning with dark red flames collided with Slug. After the battle continued for some time, Slug's physical strength began to run out. The gradual decline of his physical power made him start to pant violently.

“Damn it. Where the hell did this monster come from? Why have I never heard of him before?” Slug was indignant.

Generally speaking, as long as a person's power exceeded one million, that person would be famous in the universe.

For example, Slug had a great reputation in the universe, but today he met a monster who had the power not inferior to his, yet he had never even heard of him before.

It should be known that there weren't even a few masters in the universe who had reached this level.

“He's so powerful. The power of the battle between Muiyang and Slug has affected the whole planet!” In the distance, Birgil stabilized his body with difficulty. His gaze was horrified at the two people fighting in the distance.

The movements of Muiyang and Slug had been so fast that even he could only barely see some images. The detailed process was beyond his ability to see. It was hard to believe that Birgil, who had more than seven million power level, could only act as a spectator at this time.

There was a buzzing!

The gale swept along, mercilessly crushing everything around.

Muyang and Slug collided again, splashing sparks of steel clashing. The terrifying whirlwind squeezed each other, and the air buzzed with an ear-splitting pop.

The whole Planet Ambera seemed to have entered into the apocalypse all of a sudden.

All kinds of natural disasters and mutations were frequently staged everywhere.

The lofty mountains split in the middle, revealing deep canyons; the seawater poured in, flooding the hills, and the original desert turned into lakes.

The only surprising thing was that such a severe geological disaster did not trigger any volcanic eruptions or lava surges.

It was really hard to understand!
