

## Ball God 281

Chapter 281

Acceleration World, over the vast forest.

Maintaining their strongest state, Muiyang and Melissa continued to practice against each other.

Both of them were under huge gravity and spatial restraints, but once they fought, the wind still swept through them, unusually terrifying!

A loud rumbling sound!

The two crimson energies roared and crashed together. Muiyang and Melissa brushed past each other, then quickly reversed their direction and came crashing towards each other.

Their movements were extremely fast, like two lightning bolts repeatedly colliding, flashing up sparks while rolling around a burst of harsh wind blades.

Melissa's pale and smoky eyebrows were slightly raised. Her golden eyes looked toward Muiyang, who was burning with a silver-white flame not far away.

Suddenly Melissa's body straddled forward, penetrating the foggy space. Her body incomparably nimble to come in front of Muiyang.

The corner of his mouth rose as he looked at the sudden approach of Melissa. A silver-white energy spread in all directions, one of his arms suddenly poked forward and grabbed Melissa's arm directly, then threw it upward. He then moved quickly above Melissa the moment her body flew out.

BANG!

Both hands clasped fists smashed down.

Melissa's arms protect her chest as Muiyang's fist collided with her arm. A black shadow rushed straight down from the sky, dragging up a string of fierce impact airflow afterward.

When approaching the ground, Melissa released a wave of ki to break free from the downward trend.

Muiyang's strength was much stronger than Melissa's. The reason why it seemed to be evenly matched was that Muiyang was under greater restraint.

One thing that was good about the Acceleration World was that the rules inside could be adjusted according to Muiyang's wishes.

It thanks to the training environment created by the Acceleration World, Muiyang and Melissa was able to keep getting exercise.

The battle with Melissa continued for a long time, and only when the vast forest was covered with shadows, punches, and palm shadows, Muiyang ended the battle. Both sides were exhausted and panting like cattle.

"That's all for this time."

Tearing off his clothes, which were already rotten to cloth, Muiyang twisted his neck, which immediately resounded with a “crackling” sound.

Across from him, Melissa was also undressed, exposing a large area of white skin like snow. Her two long legs were also uncovered.

Looking at Melissa’s ragged appearance, Muiyang’s eyebrows raised.

In high energy battles, clothes were quite fragile and most easily damaged. Although Melissa’s current appearance was a feast for his eyes, such an image would be harmful if she was in a real battle.

With a snap of the fingers, a magical force attached to the two, and then a white light changed into brand new clothes.

Just like North Kai’s restoration of Son Goku’s clothes in the original story, all the gods who had reached a certain level of life dimension more or less have some magical ability.

“It seems that we have to find a way to get a few sets of clothes that are not easily damaged.” Muiyang was a very petty person.

He would never let others take advantage of his wife.

Once he told Melissa about his idea, Melissa stroked down her ink-like black hair with a pair of bright eyes penetrating a smile, “The strength of our level? Even the strongest battle-armor will be damaged in battle....”

“Then we can use the Dragon Balls to wish for a few pieces of self-repairing clothes.” Muiyang thought about it and said.

Shenron’s was limited and couldn’t possibly withstand energy attacks in battle. However, Muiyang could have Shenron create several battle-armor that could repair themselves after damage.

The speed of repair should be fast, preferably faster than the speed of naked eye recognition.

“This is possible.” Melissa’s eyes lit up for a moment, and she nodded with a smile.

If you had a problem, look for the Dragon Balls!

This was the most effective solution. Now the Earth Dragon Ball in their hands had long lost its mysteriousness, and it could only be of use in everyday times.

The two finalized their next plan and looked at each other with a big smile—they then flew to the North Kai.

.....

“This is the improved version of the ‘Kaio-ken’ that you want. Although it has become suitable for earthlings to practice, the power has also appeared to be reduced. For the time being, it will be called ‘Kami-ken!’”

North Kai took out the document that recorded the Kami-ken.

“Thank you.” MUYANG took the document and put it away.

North Kai waved his hand with a flat face, “It’s nothing. It didn’t take much effort.”

After saying that, North Kai swept a lingering glance at MUYANG’s Planet Wudao and thought of his own pocket-sized North Kai’s Planet. His heart was incomparably envious.

“Now send me back to North Kai’s Planet.”

“Don’t you want to stay a little longer?”

North Kai shook his head, “No, the whole North Area needs my supervision. I can’t be as dashing as you guys!”

MUYANG laughed, “Okay, I’ll send you back now.”

With that, he waved his hand to open the passage to the outside of the Acceleration World.

MUYANG locked the North Kai’s Planet location, only to see soft energy wrapping several people up.

After a flash, North Kai had returned to his North Kai’s Planet.

In the face of a suddenly cramped environment, North Kai was momentarily unable to adapt. There was only deep envy in his eyes for MUYANG’s divine planet.

.....

Earth, Great Azure Mountain.

When MUYANG and Melissa returned, April happened to go to an academic conference, so she was not home.

Instead of staying at home, MUYANG and Melissa went directly to the residence of their disciple Kanalita.

They saw Kanalita standing in the courtyard from a distance, holding a whip to train a little blonde girl who looked only four or five years old.

That little girl looked aggrieved and didn’t dare to speak out in anger.

“Snap!”

The whip in Kanalita’s hand hit the ground.

“Launch, move a little more. Arms up. Wrong again.”

“Okay!” The blonde Launch stubbornly flattened her mouth, discontent in her heart but didn’t dare to show it.

“Kanalita, aren’t you being too strict with a little girl like that?” MUYANG and Melissa came from afar and said in a gentle voice.

“Teacher, Teacher’s Wife, Melissa!”

Kanalita respectfully addressed MUYANG and Melissa and then said seriously, “It’s not a matter of being strict or not. If Launch wants to become stronger, she must receive such training from a

young age. Teacher, you used to train me like this; I had to run around the Big Azure Mountain several times a day when I was as big as Launch.”

Muyang smiled. He did train Kanalita this way back then, but Kanalita was extremely fit and could withstand such training.

Another look at the blonde Launch; her little face was red. Her face aggrieved, she looked like a little girl who had been abused.

The blonde Launch’s character was somewhat unruly, but now the look was bizarre and pitiful.

“Launch, you go aside to rest first.”

Seeing that Kanalita had something to say, Muyang shook his head.

“The desire for speed is not enough. Different people should have different training methods. Stupid birds want to fly first, provided that their wings have grown full. So, they are taught according to their abilities.”

He let Launch go to the side to rest first, while Muyang gave the “Kami-ken” that North Kai had compiled to Kanalita, and let her study it herself.

“This is the Kaio-ken that you want. It is now suitable for earthlings to practice.”

“Really?”

Kanalita took the “Kami-ken” and flipped through it. Her eyes grew brighter as she looked at it and said joyfully, “Great, this is perfect for the earthling’s body. If it was used properly, it could bring out more effective power than the Kaio-ken.”

“This is good, and you can do the spreading yourself. After all, you are the future Kami; you always need some merit.”

“Thank you, teacher.” Kanalita smiled happily.

She really admired her teacher too much now. He was worthy of being the God of Martial Arts, improving the training method suitable for earthlings in such a short period. If it were her, she might not have succeeded even if given more time.

## Chapter 282

After handing over the Kami-ken to Kanalita, Muyang completely let go of the matter, leaving the next promotion matters to his disciple to execute.

Anyway, when he got the Kami-ken, it was mainly for the martial arts practitioners in Kanalita’s tier.

In the following days, Muyang and Melissa took the Dragon Ball radar as planned and left the Great Azure Mountain in their RV. On the way to enjoy the natural scenery, life was enjoyable.

In recent times, with the full promotion of the Capsule technology, the earth’s technology world was like being dropped by a giant bomb, rumbled and exploded a huge ripple.

Thousands of families felt the convenience brought by Capsule technology.

Who would have thought that a small capsule could fit a house, a car, or an airplane?

It was incredible!

When you travel at home, just packed a small box of capsules, and it would take care of all the previous troubles.

As you go, stop anywhere you wanted. As long as you found an open space, you could place a small building. So, it was a must for home travel.

So, it was the beginning of a wave of technological transformation that swept the world.

Now, the world's major groups' business departments were lining up to cooperate with the Capsule Corporation.

A large number of products were installed with the Capsule technology, and patent fees alone made the Capsule Corporation leaped to become the world's most famous company.

As the major shareholder, the benefit Muiyang, Dr. Brief, and Dr. Gero got was conceivable.

Moreover, with Muiyang as the support, no consortium had the guts to hit the Capsule Corporation's idea.

The Capsule Corporation was like a snowball rolling bigger and bigger. In just over a year, it had become the largest corporation in scale.

.....

While Muiyang and Melissa were comfortably looking for the Dragon Balls to pass the time, the North Kai, dressed in black, walked around.

He was using the two tentacles on his head to review the situation in the Lower Realm.

Suddenly, a small charred yellow grass caught the attention of North Kai.

The small grass above the North Kai's Planet was evergreen in all seasons, and each small grass represents a certain planet in the lower world.

At this time, the unusual condition of the small grass triggered North Kai's suspicion.

“That side is near the East Area, is something wrong?”

North Kai walked towards the withered little grass in doubt. The two tentacles on his head sparked up like antennae, and the situation in the North Area Southeast Part immediately surfaced in his mind.

Gradually, North Kai saw a desertified planet. On it grew a huge tree that shot up into the clouds, its luxuriant branches and leaves choosing the sky, at least tens of kilometers in extent.

Its thriving roots penetrated deep inside the planet, constantly taking in the life essence of the planet.

“This huge tree, it's actually a Tree of Might!”

The Tree of Might was prevalent in the Upper Realm. That was the fruit tree planted by God.

It needed divine energy and divine liquid to grow. The fruit produced could strengthen God's Dimension and have the effect of prolonging life.

For God-Level characters like North Kai, the Tree of Might fruit was just a fruit to relieve the mouth and tongue; it was nothing special.

However, the Lower Realm was different. The lack of divine energy in the Lower Realm was simply not a condition to grow Tree of Might.

Once the Tree of Might seeds sprouted, it would definitely absorb the attitude essence of the planet.

Once the essence of a planet was lost, the planet would be reduced to a dead planet.

Only the legendary Supreme Kai in charge of “vitality” could give life back the vitality of that planet.

“Which irresponsible deity discarded the seeds of the Tree of Might to the Lower Realm?” North Kai was somewhat dissatisfied.

At this point, the Tree of Might had grown, which meant that one of the planets under his jurisdiction would turn into a dead planet.

North Kai expanded his search, vowing to find the person who did the evil.

Just then, a disc-shaped spaceship entered the sight of North Kai, and Frieza’s cold and heartless face appeared in front of North Kai.

The cold ki passed over, and North Kai staggered backward a few steps, almost fell to the ground.

“F..... Frieza, how could that villain appear in the Southeast Part of the North Area?”

North Kai was shocked and hurriedly investigated Frieza’s route. He found that his spaceship was heading towards the “Planet Munster,” where the Tree of Might was growing and was about to enter the planetary system where Planet Munster was sitting.

“It’s over; Frieza’s target is planet Munster.”

If Frieza got the fruit of the Tree of Might, there was no telling what kind of storm he would create.

If it were just a Tree of Might, the North Kai wouldn’t be so anxious. However, the problem was that seeds were born from the Tree of Might fruit.

If Frieza got a taste of it and planted Tree of Might on a large scale, his North Area would be finished.

“Aiyaaah, this is trouble.”

North Kai was so anxious that he kept spinning around. He then remembered Muiyang, who might be the only one capable of stopping Frieza at this time.

Thinking of this, the North Kai hurriedly found the earth’s location and then contacted Muiyang through the North Kai’s telepathy.

When North Kai’s voice came through, Muiyang and Melissa had already collected all the Dragon Balls and made a wish to make several sets of battle-armor.

“Muiyang, something big has happened!”

“What’s wrong?”

Muyang, who was sitting with Melissa by the river grilling fish, asked.

“...Frieza, that villain, has set his eyes on a planet in the North Area with a Tree of Might growing on it. If Frieza gets the Tree of Might fruit, the North Area will be finished.”

The tone of North Kai was very urgent, and his voice was shaking as he spoke. Perhaps afraid that Muyang didn’t know the origin of the Tree of Might, North Kai explained the Tree of Might characteristics again.

North Kai pleaded, “Now the only people in the North Area who can stop Frieza are only you and Melissa. I beg you to stop Frieza.”

“Where is the exact location?”

Muyang knew the efficacy of the Tree of Might and the Tree of Might fruit. If he let Frieza get it, it would indeed cause big trouble.

North Kai hurriedly said, “Southeast Part of the North Area, on a planet called ‘Planet Munster,’ I will transmit the exact address to you.”

As if he had grabbed a lifeline, North Kai hurriedly transmitted Planet Munster’s coordinates to Muyang.

“Tch, Frieza actually ran to the North Area Southeast Part, and it was almost close to the East Area.”

Muyang received the coordinates with some surprise, but once he thought that the Tree of Might was there, he understood somewhat.

Frieza had always pursued immortality; if he knew the effect of the Tree of Might fruit, not to mention the North Area Southeast Part, he would also run to it even if it is Central Area.

Speaking of which, though, the Tree of Might was indeed a good thing.

“Leave the matter of Frieza to us!”

“Thank you, the safety of the North Area depends on you.” North Kai said gratefully.

After cutting off the contact with North Kai, Muyang looked at Melissa, eating grilled fish at the side and telling her about Frieza.

Melissa’s eyes lit up fiercely, and she was emotionally excited, “Are you going to fight? I’ll go with you this time.”

The full burst of Melissa had 60 to 70 million power level, coupled with a bizarre superpower, Muyang did not refuse her request to go with him, “Frieza’s full power is 120 million power level. Although this power of his is not too stable, you still have to be careful.”

“Mmm!” Melissa nodded her head, excitedly. She liked fighting very much.

Muyang gave Melissa a light tap on the head and told her to take it easy. This time she was facing Frieza; she must not be careless.

The first thing he did was to use Instant Transmission to lock in the location of the planet given to him by North Kai.

After a flash of light, Muyang and Melissa disappeared simultaneously, reappearing on a planet called "Planet Munster" in the far North Area Southeast Part.

.....

Planet Munster.

The huge tree branches covering the sky extended to the outer surface of the atmosphere.

The leaves were spreading like a huge umbrella page, blocking the warm sunlight from the star outside.

"Wow, is this the Tree of Might? It's too big."

With a cry of surprise, Melissa looked with wide eyes at the giant tree reaching into the clouds, with a dark red fruit hanging between the leaves.

The same large tree she had only seen in the God of Destruction Planet. However, the God of Destruction Planet's tree was filled with a lofty, pale aura, much more advanced than the Tree of Might in front of her.

"These fruits are Tree of Might fruits; it is said that eating one can greatly increase energy and life span."

Muyang landed on a tree branch, reached out, and plucked a fruit. He put it in his mouth and bit into it; it was sour and tasted quite good.

Chapter 283

The Tree of Might fruit was the fruit that came from absorbing the essence of the living planet, which was not very useful to High-Level God.

However, for mortals, the Tree of Might fruit could replenish energy and enhance internal vitality, but only for those below the million of power level.

Unfortunately, Muyang's Dimension Level was Level five, equal to Kai. His power level was even at the 10 million power level, so the Tree of Might fruit was no different from ordinary fruit, except that it tasted good.

However, this didn't mean that Muyang would give up these fruits in front of him.

Feeling the ki above Planet Munster, Muyang frowned slightly. It seemed that there were a lot of Frieza Force above Planet Munster.

The strength was mostly around four or five thousand. This kind of strength, Muyang didn't put in mind at all. What he was concerned about was the upcoming Frieza.

"Let's collect all the Tree of Might fruits here and leave none of them to Frieza."

With that, Muiyang pointed to the green fruits, “Even those that are not ripe pluck them all together.”

Melissa sniffed; her clean face revealed a smile. The Tree of Might fruit wasn't beneficial to her either, but the Tree of Might fruit's taste was good as a fruit. The Saiyans had few other virtues, and they weren't picky eaters.

“Leave it to me. I promise not to leave a single one behind.”

Melissa warbled. Her body then floated up a few thousand meters to reach the place where the trunk of the Tree of Might forks, then raised her arm.

At once, a greenish glow emanated from her palm, which soon transformed into a huge tornado storm, in which each bundle of cyclones was a sharp energy blade.

Clap, clap, clap!

Just like cutting leeks, half-inch milliseconds of light flashed in the air. As if the gale was sweeping down the leaves, thousands of uncountable Tree of Might fruits fell like rain.

Whether it was a dark red ripe fruit, or a half green, or green fruit, Melissa didn't let go of any of them.

The superpower in her hand was held upward, and a large number of fruits were gathered together. Looking at the Tree of Might fruits piled up like a small mountain in front of her, Melissa's eyes had narrowed into a crescent shape.

“These fruits, I can eat them for a long time!”

Seeing that Melissa didn't let go of any of them, Muiyang couldn't help but give a thumbs up.

These fruits weren't useful to them, but they were of great use to others. So, of course, the more they picked, the better.

After nodding towards Melissa, Muiyang opened the Acceleration World's passage and put all the Tree of Might fruits on top of the Wudao Planet.

He then looked at the huge fruit tree behind him, and with a tap on his head, Muiyang remembered something and leaped up to the top of the Tree of Might.

Looking up, the huge Tree of Might was like an umbrella covering the top of Planet Munster. Such a huge tree, no wonder it sucked the essence of the planet dry.

With his eyes looking at the top of the Tree of Might, Muiyang finally found a well-hidden Tree of Might fruit near the main trunk of the giant tree. Unlike normal fruits, this one was dark golden.

“Found it.”

With a happy face, Muiyang took the fruit into his pocket. Although ordinary fruits contained great energy, they couldn't be used as seeds; only the golden fruit at the top of the trunk could be used as seeds.

There were not many golden fruits, and a Tree of Might might only produce four or five of them.

With these Tree of Might seeds, Muiyang could also plant Tree of Might on his planet Wudao.

Planet Wudao had risen to level five strength with Muiyang's advancement, and with the ubiquitous divine ki in the Acceleration World, the whole environment was like the divine world.

So, there was no need to worry that the Tree of Might would suck Planet Wudao dry.

When he thought about the future of the Planet Wudao planted with Tree of Might, the shade of the trees, and Senzu Beans below the shade, this picture was so beautiful.

.....

Time passed, and while Muiyang and Melissa were having fun picking the harvest, the Frieza Force's aliens stationed on Planet Munster were all panicked.

"Ahhh! Where is the fruit, where did all the fruit go?"

"King Frieza will be here soon. What can we do?"

"This can't be good!"

If Frieza's account of the guardian task weren't completed, their heads wouldn't be saved.

At this time, all the aliens present panicked and could only watch as a Tree of Might fruit inexplicably flew away.

"Ahhh, who are you, people?"

The aliens belonging to the Frieza Force stirred and finally discovered Muiyang and Melissa.

However, not a single Tree of Might fruit was left on top of the Tree of Might at this time.

Damn!

If King Frieza knew about the situation here, they would be dead.

All the alien's eyes were glowing red. Only by arresting the person who stole the fruit in front of them and asking about the fruit's whereabouts would they be able to make up for their mistakes.

"ARREST THEM!"

"Quickly tell the whereabouts of the fruit, or when King Frieza comes, you will not be able to live." The aliens affiliated with the Frieza Force came forward, surrounded Muiyang as they said.

Unfortunately, in the face of their threats, Muiyang disdainfully shook his head, "Frieza Force is nothing good. Even their eyesight is not good."

Melissa laughed, "Except for using scouter, they can't judge the opponent's strength. Their strength is also not good."

The Frieza Force on Planet Munster consisted of about three hundred people, each with a power level of no less than three thousand.

This force was already quite impressive. Even if it was placed on top of Planet Vegeta, it was not a trivial force.

Unfortunately, in front of Muiyang and Melissa, this kind of low-strength power couldn't get them to take it seriously at all.

“Are you coming, or am I coming?” Muiyang asked with a smile.

Melissa shrugged and tossed her black hair, “You do it. I'm not interested in such a fight.”

Muiyang laughed, “Then leave it to me.”

Suddenly a cold wind brushed the ground, and the leaves of the Tree of Might rustled.

At this moment, it was as if the God of death had come to Planet Munster, and all the Frieza Force members felt a cold chill.

They saw Muiyang calmly stretching out his palm and looking at them with an indifferent face.

The Acceleration World rules broke open a big hole and descended on top of Planet Munster, and the whole world seemed to become Muiyang's domain.

“OBLITERATE!”

The palm of his hand squeezed into a fist, and a glorious light rose, making more than three hundred aliens affiliated with the Frieza Force were dumbfounded; even their minds seemed to freeze.

The next second, their bodies started to turn into powder from the bottom up, and when the wind blew, they completely disappeared.

Melissa watched with considerable surprise and asked, “When did you develop such a powerful move?”

Muiyang shook his head and said, “I just projected down the field of the Acceleration World; it doesn't count as a movie. It wouldn't work for people whose strength is equal to or stronger than me.”

“But this is also very powerful,” Melissa said very seriously.

As soon as Muiyang explained, Melissa knew the principle of the “obliterate” move just now.

In the Acceleration World, Muiyang was the supreme master, and all the rules were under his control.

As the Acceleration World continued to grow, Muiyang project some of the Acceleration World rules into the outside universe, forming a small field.

The outside universe would crowd this small field, but also could play a part in the authority.

For the cosmic people's strength far weaker than Muiyang, Muiyang was equivalent to control their life and death.

Only those whose strength was equal to or far superior to his could be spared.

At this time, if Melissa knew about Zeno, she would have realized that this move of Muiyang had already taken the shape of the Zeno “Erase” skill.

## Chapter 284

“Muyang, should we destroy this Tree of Might?”

There was no more life on Planet Munster except for Muyang and Melissa. Looking at the Tree of Might that didn't have a single fruit left, Melissa was thinking about whether to destroy it or not.

Muyang shook his head and said, “There is no need to destroy it. There is no more fruit and seeds on it; even if Frieza obtains it, it does not matter.”

With that, he took Melissa's thin waist and brought her to sit on top of a tree branch. He then contacted North Kai, “North Kai, when will Frieza's ship arrive?”

After a while, the North Kai's voice came.

“It's almost there. It's now approaching the planetary system where Planet Munster is located.”

After listening, Muyang nodded his head and closed his eyes to sense that there was indeed an icy aura flying towards Planet Munster.

“The real battle is about to start. Melissa, adjust your state.”

“Hmm.” Melissa nodded vigorously with a glint of excitement in her eyes.

She was about to fight a master, and the Saiyan blood in her body couldn't help but boil up.

“Do not underestimate Frieza. That villain is terrifying.” North Kai's gruff voice rang in his ears.

“Don't worry... I know his strength very well.”

.....

At the periphery of Planet Munster, the vast and empty cosmic starry sky. Bright and dark starlight shining, like crystal dotted in the darkness of the night.

Wow...

A bright light quickly crossed the night sky, and when we looked closer, it was a brown disc-shaped spaceship.

When approaching Planet Munster, the disc spaceship began to slow down, as if looking for a place to land.

Inside the ship, Frieza stood sullenly in the command room. His eyes were looking out at a planet that had become dimly lit outside the spaceship, and on one side of the curved horizon, a huge mushroom-shaped plant could be vaguely seen.

“Ho ho ho ho, that giant tree is the Tree of Might. It really absorbed the essence of the whole planet all!”

Frieza rubbed his chin, and his bloodshot eyes flashed a cold aura.

“To be sure, that is the Tree of Might.”

Zarbon humbly bent down, “King Frieza, please prepare to enjoy the fruit of the Tree of Might.”

“Well, very good.” Frieza laughed openly.

Planet Munster now really looked just like Zarbon said; the Tree of Might absorbed all the essence. Frieza wondered what kind of fruit could be produced by the Tree of Might, which had absorbed so much vital energy.

Immortality might be just around the corner. When Cooler sees him, he can only obediently give way.

When he thought of this, Frieza couldn't help but feel unprecedented excitement.

The spaceship slowly through the atmosphere, landing on a wholly desertified land.

This area was initially a riverbed, but with the Tree of Might growth, the river disappeared, and the muddy riverbank cracked with winding cracks.

Sha Sha Sha .....

Yellow sand filled the sky and raised the wind and sand.

Frieza and Zarbon came out from the hatch of the spaceship, followed by many aliens who appeared like wasps.

The group kept approaching the lofty and upright huge Tree of Might. The sky-blocking leaves blocked the sun, and no sunlight could be seen when standing underneath.

“It is indeed thriving. Its roots are already rooted in the inner part of the planet.” Frieza said in a cheerful mood.

“As expected of a fruit tree planted by the gods, I am now getting more and more hopeful about the Tree of Might fruit.”

“Mr. Zarbon, you lead the way to see if the Tree of Might fruit has ripened.”

Zarbon smiled like a gentleman and led Frieza towards the main trunk of the Tree of Might.

On the way, Frieza kept commenting on the Tree of Might and looked very satisfied.

Well, this huge fruit tree actually didn't even have a fruit. It must have concentrated the essence together.

That was right; such a fruit possessed the effect of an increasing life span!

Frieza and Zarbon came to the main trunk area of the Tree of Might and didn't see a single fruit on the way.

However, Frieza's heart had already found a good excuse for this.

If he knew that the fruit of the Tree of Might he was looking for had already been taken away by Muiyang, what would be the expression.

“Mr Zarbon, the fruit is around here, right?” Frieza put his hands on his back courteously.

Zarbon frowned a little and said, “It should be in this location. It’s strange. Where did those armies I left behind go?”

Frieza’s face was still smiling, but his tone was indifferent as he joked, “Those people didn’t sneak away to pick the Tree of Might fruit and escape, right…”

Zarbon said, “Please, King Frieza trust the members of the force. They will never betray the king.”

Just somehow, Zarbon’s heart suddenly emerged a trace of ominous omen, as if something bad was about to happen, or had happened.

“Ho ho ho ho, that’s the best!” Frieza laughed lightly.

He was convinced that those of his men didn’t have the guts to betray him.

The search took a long time, but not even a single fruit was found. By this time, Frieza’s face had turned grim, and he wondered if his men had embezzled the Tree of Might fruit he wanted.

However, someone soon reported that all those army’s spaceships were still stuck on top of Planet Munster.

“Strange. Where did all of my men and fruits go?” Frieza’s face was a bit gloomy.

This time, with a “click,” Frieza stepped on something and lifted his foot to find a leftover fruit kernel with nibble marks on it.

Frieza’s eyes snapped, “This is.... the Tree of Might fruit!”

CLANG!

Another fruit kernel fell from the sky, smashed into Frieza’s head, and then fell to the ground.

Frieza jerked up his head, just in time to see in more than two hundred meters above the ground on the fork of a tree, a man and a woman were hugging each other sitting on it.

The woman was continually wiggling her feet while eating the fruit and throwing fruit kernels below.

“SAIYANS!!!”

Frieza saw the appearance of the person in the tree. The corners of the mouth coldly squeezed out a few words.

He picked up the fruit kernel and sniffed; a wonderful fragrant smell came over. Frieza knew then that this was the Tree of Might fruit he was looking for.

However, it had already been eaten, and those two, surprisingly, were the Saiyans from his many men!

Frieza’s guesses about Melissa deviated but didn’t misidentify her racial identity.

“Saiyans, where is my Tree of Might fruit!”

“I picked it!”

“Where did you put the picked fruit?” Frieza asked, still holding a glimmer of hope.

“I ate it!”

Melissa stuffed a Tree of Might fruit into her mouth, eating it so she would have the strength to fight.

“Well, well....” Frieza was furious and bubbling with a cold aura.

In a moment, the majestic energy spread out; it was as a deep cold chill that made Zarbon and the aliens who followed fall into the ice cellar, and their bodies seemed to freeze.

“Saiyans, it seems that I have been too kind to you by keeping you as my combatants. Because you ate my Tree of Might fruit, I will make your whole Planet Vegeta pay the debt!”

Clap, clap, clap!

Melissa clapped her hands with a cheerful look.

Frieza looked like a Universe Emperor now. However, the more than 500,000 power level was still a little less.

By the way, Muiyang said Frieza could transform, and now this power resulted from his suppression.

He was a weird person, he had a powerful force, but he could only suppress it so much.

Muiyang then stood up with Melissa in his arms. There was nothing to indicate that Frieza had identified them as Vegeta’s Saiyans.

If they admitted that he was wrong, Vegeta’s Saiyans still had to take the blame.

“Melissa, go say hello and get rid of the aliens around Frieza.”

Muiyang’s face was calm as he pointed at Zarbon and others beside Frieza, who by this time had given them a death sentence.

“Leave it to me. I’ll send them all to the Other-World!”

Melissa tapped her chest, and her eyes turned golden yellow. A terrifying aura burst out, and before Frieza and Zarbon could react, green energy had swept over like a storm.

“This is not good. This Saiyan is extraordinary!”

Faced with the sudden attack, Frieza subconsciously felt the danger, which made him think of the light shadow man he met years ago.

He hurriedly put his hands in front of his chest and prepared to transform, but it was already too late.

The sharp energy blades cut on all the limbs; it was like entering a meat grinder, a stabbing pain rushed to the heart. Frieza's limbs skin open flesh, clattering blood flowed on the ground.

“Bastard, you made this king injured.”

After the energy storm swept through, Frieza's face was gloomy, and his body was covered with scars.

“Huh, Mr. Zarbon....” Frieza looked back, but the scene he saw made him furious. He saw his trusted man, Mr. Zarbon's face stiffened.

His two eyes were bulging out, and his body covered with deep claustrophobic wounds.

He had been tragically killed, along with those of his followers, all of whom had died in one fell swoop.

“.....”

Frieza gritted his teeth, and suddenly his anger was withdrawn. His face was calm as he looked at Melissa in front of him.

His heart was squeezed to the peak of hostility, and he already had the impulse to destroy the planet.

Chapter 285

“I can't believe you resisted my attack in this state.”

Seeing that Frieza didn't die in his first wave of attacks, Melissa shouted in surprise and turned to wrinkle her nose fiercely.

Although Melissa didn't use her full strength in the attack just now, the energy value size was not something that Frieza could withstand in his Base Form.

It was true that the power contained in Frieza's body would always block the fatal attack for him at the critical moment.

Muyang also looked at Frieza with the same surprise. In his expectation, originally, he thought that Melissa's attack would at least let Frieza break a few legs and feet.

However, the result was only that the surface of his skin bloomed wounds. Compared to the last time when Muyang transformed into a shadow man and fought Frieza, Frieza's ability to resist blows had improved significantly.

Was this the genius of the Frieza Clan? Even without training, the ability could be quickly improved.

Or was it that after experiencing the last lesson, Frieza had targeted the strengthening of defensive capabilities?

At this moment, Muyang deeply felt the potential of Frieza. As long as he was given enough time to train, he could easily grow into an invincible master.

Of course, the premise was that Frieza subjectively aware of the importance of training.

So, he couldn't give Frieza any more time to continue to get stronger. If he really forced out the Golden Frieza, then Muyang would only be surprised.

“Melissa, let’s join forces to dispose of Frieza.”

A cold voice came out from Muyang’s mouth, followed by Muyang no longer reserved.

Silver pillars of light rushed up to the sky, and a terrifying aura then erupted on Planet Munster.

In an instant, yellow sand filled the sky, raising sand and dust, and the entire Planet Munster shook violently.

“Yes!”

Melissa was also a master who didn’t want to make a small fight. She was sweetly revealing a smile, and with a fling of her arm, an equally powerful aura took off into the air. The couple tacitly cooperated and pressed forward, and the two figures surrounded Frieza, blocking his way back.

At this time, Muyang’s body was wrapped in silver flames, burning flames, not hot, but it gives incomparably heavy oppression.

Under the crush of Muyang’s terrifying ki, Frieza’s eyes widened in disbelief. Even if he couldn’t perceive the existence of ki in detail, he could still see the terrifying energy in front of him.

He really didn’t expect that the two Saiyans in front of him actually possessed such an ominous power that could almost rival his Final Form.

This was a joke. Frieza held a breath and didn’t breathe.

Suddenly an aura flashed in his brain, making Frieza’s grim face showed a trace of clarity.

“Could it be that.... you are the Legendary Super Saiyan?” Frieza asked with narrowed eyes.

Such a terrifying power, only the Legendary Super Saiyan rumored in the clan could be.

In the past, Frieza thought that the so-called Legendary Super Saiyan was just a heroic legend in which Saiyans put gold on their faces and deceived themselves. However, now it seemed that the legend was probably not empty!

The Saiyans could really give birth to such a master. Frieza had a thousand thoughts in his mind and had already made up his mind that he would have to deal with this unstable race of Saiyans after his return.

Although the Saiyans were useful combatants under his command, as long as it threatened his rule, Frieza would exterminate without mercy.

“I am not a Saiyan...”

Muyang said lightly, looking at Frieza’s face that showed a look of disbelief. He smiled lightly, and the next moment his body suddenly fell short, leaving a blurred residue in place, reappearing already leaning to Frieza’s front.

This is not good; when did he get close?

Frieza’s eyes flashed doubt, and he was about to make a counter-attack. Muyang’s hand, which was as hard as a steel pincer, had fallen on Frieza’s arm.

In a whirlwind, Frieza had no time to react, and his body had been knocked out.

Muyang flashed and appeared in the position where Frieza was about to arrive. His hands were clasped in fists and raised high, then struck down hard.

**BANG!**

His body twisted at an exaggerated angle and fell at high speed.

Because of the greed for ease, Frieza's body restrained too much of his energy.

Without releasing his full strength, he simply had to take a beating in the face of Muyang's attack.

This time, Melissa also didn't stay idle. She came to below Frieza's fall, tilted her body, raised her leg, and bang, like kicking soccer, she kicked Frieza away.

In a short instant, Frieza felt the pain through the heart.

**"AHHHH!!!"**

With blood spitting out of his mouth, Frieza let out a miserable scream of pain.

The Base Form of Frieza was not a match for Muyang and Melissa. So, just a few attacks made him experience the powerlessness of the weak.

This painful feeling, Frieza had tasted only twelve years ago in a battle with the light shadow men.

**"Damn it. They actually make this king feel the pain. I will kill them."**

Frieza viciously put out fierce words, but at this time, he had no prestige at all.

**"I have to release the Final Form as soon as possible. As long as the full power is released, this kind of character is simply not enough to worry about. Wait and see, damn Saiyans; I will not let you go!"**

Even though he suffered some pain now, but Frieza was confident that he was still invincible in his Final Form, and he would definitely settle this score with them then.

**"Muyang, this cold-blooded lizard is not going to let us go." Melissa's face was cold, and her golden eyes flashed with cold light.**

Muyang said, "Then don't give him a chance, just kill him."

**"Yes, yes!"**

Melissa clapped her palms. In an instant, the air lurched, as golden and green energies tangled together. A shocking aura suddenly rose from her body. "Boom...." at this time, a transparent arrogance was burning all over her body.

This energy flame in soft and violent components and Melissa raised her power to the peak in one fell swoop.

The power of the "Legendary Super Saiyan" had already unfolded.

**"GO TO HELL!"**

Melissa took a step forward. Her body suddenly disappeared, making Frieza's eyes widened.

He subconsciously looked around. Then he saw a fist appeared in his vision, getting bigger and bigger, and moved directly towards his head.

The wild and rampant cyclone surrounding the fist, and the flow of light just stopped, containing the iron fist's endless power will mercilessly hit the Frieza head.

BANG!

Blood splashed up, and Frieza let out a painful scream. His head was smashed out of a hole.

His body had been like a high-speed meteor, flying backward along the horizon.

“AHHHHHHH!!!”

Frieza flew backward all the way, and soon there was no shadow.

“Where are you running!”

Muyang used the Instant Transmission and appeared above Frieza's parallel flight trajectory.

His palm pressed to Frieza's shoulder, and with a boom, he struck a ki wave with force.

The trajectory of Frieza's flight was immediately bent at ninety degrees and moved straight toward the ground.

Rumble!

The violent impact resounded deafeningly. The entire Planet Munster shuddered violently; even the state of rotation was stationary for a second.

Upon seeing the situation, Muyang's mouth's corner raised slightly after a successful move. A kick shovel threw Frieza out of the impact point.

In the distance, Melissa had been waiting there for a long time. When she saw Frieza's white body flying over, she reflexively kicked it.

BANG!

Frieza's face was distorted; the intense pain made him unable to speak. Both of his eyes stared at Muyang and Melissa, if this killing energy into substance, enough to penetrate several meters thick steel plate.

Frieza couldn't say anything for a long time.

It was as if he had been beaten to autism.

.....

North Kai watched dumbfoundedly at the North Kai's Planet as Muyang and Melissa chased after Frieza and beat him up. He was already too surprised to speak.

“Great, Muyang and Melissa's power is actually so powerful. If they put in more effort, they might really be able to kill that bastard Frieza.” North Kai thought excitedly.

Frieza, his father, and his brother had been the most unstable factor in the North Area.

If they could get rid of Frieza, the North Area's order would hopefully return to normal.

“But Frieza's life is callous. Why I feel that his body also contains a more terrible power!”

North Kai carefully observed the situation on Planet Munster and vaguely felt some uneasiness in his heart. Unconsciously, he gave North Area a stand.

Next to him, Bubbles “uh-oh, uh-oh, uh-oh” shouted, tilting his head, not knowing what North Kai was looking at.

Chapter 286

“Hurry up and release it, my full power!!!”

Frieza, who was beaten up by the couple, was now incredibly remorseful about why he didn't exercise correctly so that he was still in his weakest state.

If he could unleash his full power, no, not all, just 50% of his power, he would be able to fight back in turn.

However, Muyang simply didn't give him such an opportunity.

“HEAVENLY SKY BEAM!”

A bright white wave of ki descended from the sky, making Frieza's eyes condense into a pinpoint.

His heart called out hard to the power in his body, but it was no help at all, and this powerful force soon swallowed him up.

A loud rumbling sound was transmitted, and a mushroom cloud tens of thousands of meters high rose from the surface of Planet Munster.

At this moment, the energy comparable to tens of thousands of large-yield nuclear bombs were released together.

The atmospheric structure was severely damaged, and a ring of shock waves shattered space as it squeezed and spread out.

If a person were standing in outer space, they could see a huge light rising in one of the planets, and then the shock wave immediately spread to the entire surface of the planet.

The continental plates instantly fractured, hot magma and pungent smoke filled the air.

Under the blow of the terrifying energy, Planet Munster was like entering the starburst stage.

When the smoke cleared a little, a huge ring-shaped impact crater of hundreds of thousands of meters square with an unknown depth appeared in the field of vision.

The original flat ground had ceased to exist, and the magnificent spiritual tree was only a remnant, burning in the air with the last ashes.

The surrounding cracked area that stretched out for millions of meters was littered with a horrific sight of disfigured faces.

Frieza was lying miserably in the center of the impact crater, half of his body buried.

“Is Frieza dead?” Melissa floated in the void.

“Not yet; his ki is still there.”

Muyang stared straight ahead, knowing in his heart that this attack couldn't kill Frieza.

Even if with the power that could destroy the whole planet, it couldn't simply kill Frieza.

“He's such a tough guy.” Melissa snapped her tongue.

Muyang nodded gently. Frieza was indeed adamant. Among the many villains, he had lived the longest.

Even in Planet Namek and earth, he was forced into a desperate situation by Son Goku and Trunks several times, but he still came back from hell after many years. His power even rose and turned into golden Frieza.

Even when he had repeatedly defeated, but the stronger the fight, the better he got!

Looking calmly at Frieza in the ground, disturbing energy suddenly swept over.

Muyang's heart burst as he saw Frieza's scarred hands, feet, and tail swelling rapidly without warning, and with a boom, the violent and rampant energy was suddenly released.

“This is not good!!!”

Faced with a sudden and violent impact, Muyang pulled Melissa's arm and led her to teleport some distance away.

At the back of Planet Munster, Muyang appeared with Melissa. As soon as he appeared, he felt a hot impact coming from behind him, while the energy that covered the sky impacted over.

“Muyang, what's going on?”

“That guy, Frieza, actually blew himself up.”

Muyang cursed with a gloomy face and stagnated with Melissa in the high air covered by the awe-inspiring aura.

“What's going on? Why Frieza's ki has become stronger?!”

Suddenly Melissa sensed an evil aura that can freeze even a soul was released. Melissa shivered, and her face turned a few shades whiter.

Muyang looked grave up and said, “Frieza released his full power!”

With self-destructive arms and legs to buy him some time, Frieza was ruthless to others and himself.

However, this was also because Frieza was forced to be really out of options. If he didn't show his Final Form, he would only be beaten passively.

In the dark energy smoke, Frieza's petite figure came out. His white torso and two blood-red eyes were particularly noticeable.

He had a cold face without a little expression and looked at Muiyang and Melissa's eyes full of killing intent.

Melissa gulped. It was the first time she saw Frieza's Final Form, and she was shocked by the aura on the other side.

"Is this Frieza's Final Form?"

"That's right. The king of the universe is not to be underestimated, so we have to be careful next!" Muiyang nodded his head stonily.

Frieza's 120 million power level was far beyond their power. However, the good thing was that Frieza's mastery of this power was not very proficient, and he and Melissa teamed up, so there was still a great hope of winning.

"Saiyans, I've kept you waiting. Did you have a good fight just now?"

Frieza's icy eyes looked at Melissa, and a terrifying aura suddenly rushed towards her. Muiyang stepped forward and stood in front of Melissa.

"It's quite enjoyable," Muiyang said honestly, but he was looking forward to the next battle even more.

"Ho ho ho ho, it seems that in the past, I have not been paying enough attention to your race. The district of Saiyans, surprisingly, has given birth to masters like you!" Frieza said in an icy voice.

"But it's not too late in paying attention to it. When I kill you guys, I'll go destroy Planet Vegeta."

Muiyang shrugged; admittedly, Frieza turned into his Final Form, and his power level had improved a lot, but to say that he could kill Muiyang and Melissa, that was overconfident.

Twelve years ago, he was able to fight with Frieza for several rounds with a limited power level of 21 million.

Now, with a full power level tending to 80 million, and with the cooperation of Melithea, he didn't believe that he couldn't kill the 120 million Frieza.

"Humph!" Muiyang's insensitivity makes Frieza's face instantly cold.

'Did these two pathetic Saiyans still think they were strong enough? That would be a big mistake.'

Frieza's deep cold eyes swept the two people in front of him, and the corners of his mouth condensed into a cruel smile.

'Just, let them see how majestic is the king of the universe!'

"To tell you the truth, this king's power level is a terrifying 120 million. This terrifying power is something that this king cannot easily grasp, so don't cry in fear later."

Just blow!

Muyang and Melissa already knew the power level of Frieza, so how could they be frightened by his bragging.

Seeing that the two Saiyans didn't respond, Frieza raised his eyebrows and suddenly felt disinterested.

Of course, although Frieza's bragging didn't scare Muyang and Melissa, it scared North Kai on North Kai's Planet.

After knowing Frieza's true strength, North Kai froze, with cold sweat dripping from his head.

“120 million power level. Oh my god, what kind of monster is Frieza!”

North Kai was paled, “I didn't expect Frieza to be so strong. Now Muyang and Melissa are in trouble.”

.....

On Planet Munster.

After releasing his full power, Frieza regained his usual calmness; his words and actions became elegant.

His cold face glanced toward Muyang, and his body disappeared without warning.

However, Muyang had long been on the alert for a long time, so when Frieza disappeared, Muyang's ki locked Frieza's position.

When he appeared to kick over, Muyang slightly dodged Frieza's attack sideways, and then flashed behind Frieza, grabbing his tail.

Frieza's power was strong, but the weakness was also apparent. Frieza's control of his power was too low.

“Melissa, proceed!” Muyang flung Frieza over.

“Wait for it!” Melissa's hair was now all fried, and the raging power was ready.

CLANG!

Melissa clenched her fists together, her elbows down, and she struck Frieza's back hard with her elbow joints.

The elbow joint was one of the hardest parts of the human body, and the damage caused by the violent attack was even greater than the fist.

Frieza didn't expect his opponent's movement to be so agile, and when he was hit in the back by Melissa's attack, Frieza cried out in pain, and his eyes were filled with blood.

And at this time, Muyang also strides forward. The attack becomes more and more intense, not giving Frieza a chance to react at all.

BANG! BANG! BANG!

There were several more heavy blasts in a row.

Thanks to the constant sparring in the Acceleration World, Melissa and Muiyang have an excellent understanding of each other.

They knew each other's intentions with a glance. With the couple's cooperation, Frieza, who had lost his rhythm, was momentarily confused.

Within a few seconds, Muiyang and Melissa had already struck countless crazy blows, each blow driving the planet to send out a dull trembling.

Frieza was being beaten to the point of dizziness, and his face had become bruised and swollen in his ultimate state.

“HO!!!”

Frieza fiercely propped up his hands, the majestic to strong power swept out, breaking free from the siege of Muiyang and Melissa.

“Awesome, your power is actually stronger than I thought.”

Frieza, who fiercely broke free from the downwind, wiped off the blood from the corner of his mouth.

His face finally became serious, and it was then that the power of the king of the universe was truly revealed.

Chapter 287

Frieza, who had been used to smooth sailing, probably wouldn't have thought that because of his momentary carelessness, he would actually be caught by the two Saiyans. This humiliation was exactly the same as twelve years ago.

He admitted that he had underestimated the power of the Super Saiyan. However, with this energy alone to cause harm to him, his strength was still far from adequate!

“Super Saiyan was just a boring legend. Even if you are really Super Saiyan, you are not a match for me.”

Frieza's gaze swept towards Muiyang and Melissa. Frieza licked his lips and sneered.

Suddenly, with a flash of light, Frieza's white body appeared at Melissa's side. His body was tilted, and a hand knife slashed down at Melissa.

“Melissa, be careful behind you.”

Muiyang fiercely surprised and shouted, but Frieza's speed was too fast. It was too late to go to the rescue.

When Melissa heard Muiyang's shout, her body suddenly went cold, and she subconsciously made a defense, and a furious force erupted out. Clang!

The riotous power collided with Frieza's hand knife, and a dazzling spark bloomed.

Muiyang received a strong impact, and her whole body flew out sideways like a cannonball.

After Frieza's success, he laughed out loud and went after Muiyang to add a slash.

However, just as Frieza's attack was about to land on Melissa again, Muiyang suddenly appeared in front of her. Boom!

Muiyang combined his hands to block Frieza's attack for her and then tangled with Frieza.

Suddenly, Muiyang's body sank, and the attack from Frieza made his arm tingle.

"Ho ho ho ho, your strength is ranked in the top five among the masters this king has seen, but it is still too far from this king." Frieza wrapped his hands around his head.

His white tail was crackling and slapping the ground, the hard rock snapping into pieces.

After a period of relief, Frieza gradually adapted to his Final Form's power and spoke with increasing complacency.

Muiyang, however, wrinkled his face, and his spiritual power probed out and sensed Melissa's condition.

It was good to see that she was not in any severe condition. The first round of fights ended, Muiyang roughly figured out Frieza's power.

In general, compared to twelve years ago. Perhaps because of the Final Form's infrequent use, Frieza's energy had not been significantly improved, but all this time had not passed in vain.

At least Frieza's adaptation to his Final Form power had improved a lot.

"Frieza, compared to more than ten years ago. Your growth is minimal, and your combat skills are still as crude as ever!"

"Huh?"

This time it was Frieza's turn to be surprised. Why did the male "Super Saiyan" say such things in front of him?

Was it to mess with his mind, or did they really fight?

Frieza carefully sized up Muiyang, and his eyes narrowed together. After he mentioned this, Frieza found that the person in front of him seemed to be familiar from somewhere.

Upon carefully recalling the masters he had fought in recent years, Frieza's face suddenly changed, and his voice was chilly.

"Could it be that you were the light shadow man twelve years ago?"

"Aren't you supposed to be dead?"

Damn!

Muiyang secretly exchanged glances with Melissa. As Frieza shouted in shock, the two simultaneously burst out with strong light and attacked Frieza together with a flourish.

CLANG, there was a heavy blow!

"Ho," Frieza grunted, his face became hideous.

“So you’re not dead. Well, old grudges and new grudges, I’ll count them back together this time.” In a loud shout of anger, Frieza’s arm resting on the vitals.

After carrying the first wave of attacks from Muiyang, he began to make a counterattack.

**SWOOSH, SWOOSH, SWOOSH!**

Frieza shrieked strangely, and suddenly his eyes were certain. His fingers kept clicking on the void, waving a laser-like energy beam.

Frieza’s energy was so abundant that he couldn’t even think of wielding it recklessly like this.

This was something that no other master could even think of. Each of his beam attacks contained enough energy to pierce the masters’ bodies, whose strength reached tens of millions of power level!

Muiyang and Melissa’s bodies nimbly weaved through the slits of laser energy, and their strange techniques quickly closed in on Frieza’s body.

At this time, Frieza sneered, but his entire body flashed quickly, suddenly narrowing the distance between him and Muiyang.

Of course, the battle skills of Frieza couldn’t be compared with Muiyang, but the advantage was that he had plenty of energy and could afford to squander it.

If you had a few shots, you could always get the dates.

**BOOM, BOOM!**

The riotous energy beams and the force of Muiyang’s attack collided and scattered in all directions.

The flurry of energy exploded into a mess, and the whole Planet Munster became more miserable. The continental plates rode on lava and drifted away from each other.

At Kai’s Planet, North Kai looked at the battle on top of Planet Munster with fear and trepidation. He took out his handkerchief and kept wiping his cold sweat.

“They’re too strong. However, Muiyang and Melissa’s energy is not as strong as Frieza’s. If they can’t determine the winner in a short time, the situation will be very unfavorable for them!”

North Kai’s eyes were fixed on the Lower Realm, and the tentacles on his forehead were constantly bubbling with electric light.

The battle above Planet Munster was already beyond his imagination, not to mention control. With his eyesight, he could no longer see the specifics. However, he thought that Muiyang and Melissa were losing out on the energy intensity with his years of experience.

**PENG!**

Muiyang’s fist landed in front of Frieza’s face.

Clang! Frieza coldly stood in place. One hand held Muiyang’s fist, then threw it towards the sky.

Frieza followed by a leap, his body rotated 360 degrees, and a hard thigh overhead kicked down.

SNAP!

Muyang's face showed a painful look, and a mouthful of blood couldn't help but spurt out; his body was like a cannonball straight down. There was a loud boom, and the whole planet shook, flying up a sky of yellow sand.

“MUYANG!!!”

Melissa roared in anger. Her whole body kept flashing with green and golden light.

“I told you a long time ago; you will not be my opponent.” Frieza laughed loudly, crushing. This was the power of being the emperor of the universe.

However, before he could be complacent for long, Melissa was like a mad bull that went berserk and charged toward Frieza.

“FRIEZA, I'LL KILL YOU!” Melissa rampaged and charged without defense.

“Hmph, you are no match for this king either.”

Frieza smiled coldly, and a silvery-white cold light glowed between his two fingers.

He raised his arm and was about to launch an energy attack when suddenly his body shook as if his body was wrapped with countless tough ribbons. His arms and legs could not move.

The next moment, Frieza's face became gloomy. His forehead was green with veins, but he could not break free.

“GRAVITY SPACE!”

Hundreds of times, more gravity was exerted on his body, and Frieza felt that his body sank and his movements became more difficult.

“Bastard, what the hell is going on!” Frieza shouted furiously.

“TORNADO STORM!!!”

Countless green whirlwind coalesced into half-inch blades. The thin energy blades like cicada wings through the bright flash, hovering like a tornado storm, spilling over towards Frieza.

Each blade was concentrated on the extreme and contained terrifying energy.

These energy blades cut into Frieza's body as if they had been drilled into his flesh, making him suffer.

Blood splattered and gushed out.

Dripping beads of blood fell to the ground, and Frieza's white torso was soon ravaged to the ground.

“AHHHHHHHHH!!!” Frieza roared in pain and fury.

“Damn it. I will kill you all!” With his arms open, the energy of up to 120 million suddenly burst out.

The power exerted by such high-intensity energy bursting together was astonishing.

Melissa's face turned pale for a moment as Frieza forcefully broke her superpower bondage.

“Poof!”

A mouthful of blood spilled out of the corner of the mouth. Melissa's spirit shriveled up, and the golden eyes of the Legendary Super Saiyan couldn't last much longer.

Just at this time, a magnificent figure appeared at her side. A wave of energy affixed to her body hit, immediately suppressing the injury in her body.

“You rest for a while, leave the next to me.” Muiyang face like frost said.

Melissa's throat moved slightly, temporarily retreat to the side to recuperate.

Chapter 288

The windswept, raising the yellow sand. The entire Planet Munster had become like a half-dead planet, and the vision had become dim and yellow.

Muiyang and Frieza were facing each other. Two terrifying ki collided together, rubbing against each other and dividing the sky into two distinct pieces. Faintly, Frieza's ki overpowered Muiyang's ki momentum.

With a swish sound, there was a shudder at the junction of qi, and the two people moved together.

Muiyang immersed in the state of battle as if forgetting everything in the outside world.

This time his power exploded out more terrifying. Even though Frieza's skills weren't as good as Muiyang's, his terrifying power was still something for him to squander even after the previous tragic battle.

PENG! PENG! PENG!

The silver-white lightning collided with Frieza's gloomy energy, exploding and causing the climate catastrophe that swept the entire planet.

At this time, there was lightning and thunder on Planet Munster, and the air was full of doomsday.

The planet had already entered desertification after the excessive ingestion of the Tree of Might.

Because of the battle between Muiyang and Frieza, it was officially declared to have entered the countdown to destruction.

BANG!

Muiyang and Frieza's bodies collided high in the air, and after the terrifying energy spread out in the form of shock waves, more intense battles continued.

The two of them now couldn't help each other. Every time they collided, they were almost destroyed.

.....

“HO!”

Muiyang's big steel-like hand grabbed Frieza's tail, but Frieza swung his body hard and threw Muiyang out instead.

Frieza laughed loudly, the corners of his mouth flowed cruel smile, and a pair of bloodshot eyes cold light.

His body sprinted forward, close to the trajectory of Muiyang's body as he kicked Muiyang hard.

Muiyang half squinted, coughing up a mouthful of blood. His hand then grabbed Frieza's foot, pushing him back towards the ground.

RUMBLE!!!

Planet Munster shook violently. Even at the back of the planet, you could feel the terrifying aura.

As time passed a little, the continental plates had long since sunk several pieces. The fiery lava met with the seawater and made an ear-piercing sound of buzzing while the air was already boiling hot steam.

"I can't intervene in the battle between Muiyang and Frieza."

Melissa, who quietly swallowed Senzu Bean, looked at the light and shadow in the sky that kept colliding and separating in an open space.

She felt a strong sense of resignation. She was already a Saiyan, but I still felt so powerless. Melissa vowed to work out harder when she returned.

"HAHAHAHA, GO TO HELL!!!" Frieza's face was cold, and his eyes were as cruel as a demon.

"SOLAR FLARE!!!"

A second sun appeared in the sky. The strong sunlight suddenly blinded, Frieza was momentarily unaware of the blinding light and lost his eyesight for a short time.

For an alien-like Frieza who couldn't use ki to sense the universe, his eyes' failure meant the collapse of the battle.

Sure enough, the next was Melissa's home turf. At least until Frieza regained his eyesight, the battle's pace fell completely under Muiyang's control.

"Melissa, let's destroy Frieza together."

"Okay." Melissa heard and then responded.

She then swung her arms with force and exploded with all the power in her body, converging with Muiyang and then launched a fierce attack on Frieza together!

"HEAVENLY GOD BEAM !"

"TORNADO STORM!"

"THUNDER SHOCK SURPRISE !"

"TRI-BEAM!"

White, silver, green, all kinds of different moves emitted different colors, and in a short period, these big moves did not bring out 100% of the user's power but gathered them together, which was enough for Frieza to drink.

PENG! PENG! PENG!

Frieza became unbearable. He could only defend passively after losing his eyesight. Of course, the result could be imagined.

With a poof, a bloodied tail was cut off by an energy blade and fell from the sky.

“AHHHHHHHHH!!!”

The intense pain distorted Frieza's face, and endless killing intent welled up in his heart.

“AH, MY TAIL!”

Frieza, who regained his vision, looked dumbfounded at his tail that had been cut off.

This was his Final Form; it was not the suppressed Base Form or other forms. So, when the tail was broken, it wasn't easy to grow.

“Bastards, all of you must die!!!” Frieza hissed resentfully, veins surged on his forehead, and the terrifying energy made the planet begin to disintegrate.

Since birth, he had only been humiliated like this a few times, and they were all related to this “Saiyan” in front of him.

He swore that he had never resented a person so much. Even Cooler was far better than the person in front of him.

He would never let them go, and the Saiyans on Planet Vegeta. He wanted to destroy all of them.

The ferocious gaze reveals a bloody cold light. Frieza had no regard for the injuries on his body and only intended to destroy the opponent.

BANG!

The air lurched for a moment.

With a snap, Muiyang and Melissa's bodies were catapulted out of the way. A lightning bolt flashed quickly, and the two were once again hit hard.

Muiyang's whole energy erupted and pushed Melissa's body away from him for some distance, and when Frieza's figure appeared in front of him, his body slightly sideways and attacked. Muiyang looked ruthless and directly collided with Frieza.

Boom, his body's internal organs were in severe pain. Muiyang insisted on twisting off one of Frieza's arms, while he was also badly hit, half of his body was almost bloody.

“Hey hey hey, is that all your strength? This is no match for me!”

Frieza said with a drooping eye, holding his injured arm, and pretending to be strong.

“.....”

Muyang's hands and feet were numb, and half of his body lost perception.

At this time, Frieza was so much more powerful than twelve years ago that Muyang was on the verge of being helpless.

A few wisps of divine light flashed through his dark eyes, his arm suddenly lifted and said coldly, "Frieza, you can only talk tough up to this point. I really want to defeat you by force, but your growth potential is too great, leaving me with too many scruples."

"Hmm?" Frieza let out a strange cry of shock and confusion.

However, he saw a sudden difference in the dark and dim sky. As if the sky had been torn open by some force, a dark red spatial rift showed up.

The vast and reckless dreary aura enveloped down at once.

In the center of the blood-colored crack, a few silvery lights flashed a few times.

For some reason, when seeing the points of silver light, Frieza's heart suddenly grew an omen of danger, as if the next moment they will lose their lives. This depressing feeling was too unbearable.

**"DEATH GOD CHAIN!"**

Muyang pointed his finger, and the other end of the spatial rift had communicated with the Acceleration World.

The silvery-white aura was like lightning sweeping out from the other end of the world. The winding electric light transformed into a silvery God Chain in the air. These divine chains descended from the sky and at once bound Frieza's arms and legs, with several more chains wrapped around Frieza's neck and torso.

**"What the hell is this?!"**

Frieza panicked. When he was entangled in the god chain, he felt bad. His body struggled violently, but the energy chains tightened as if to drag him into the "black hole."

He had a feeling that if he really went in, it would be the end.

The back of that big hole was connected to the Acceleration Space. Once Muyang grabbed him, Frieza's end would be imaginable.

**"No, I can't give in easily!"**

**"I want to fight!"**

Frieza's eyes were bloodshot. His eyes were full of madness, and suddenly his eyes looked towards the pale and broken ground, and his face bloomed with rage.

**"AH!!!"**

Frieza forcefully put his hands against his chest, painfully resisting the bondage of the silver God Chain.

His mouth roared in pain, and his whole body muscles began to tremble, "If you want to kill this great king, you are still far from it. I would like to see if you can be safe in front of the power of planetary destruction!"

In a serious threat to life situation, this moment, Frieza completely went crazy.

He put his hands in front of his body and roared with evil intent, Destroy The Planet !”

A fierce light flashed, which was an even more terrifying move than the “Death Ball” that Frieza usually uses to destroy planets.

Destroy a planet was actually very easy, as long as the core could be destroyed.

However, whether you could survive the horrific energy of the planet explosion was a great test of a person’s strength. Frieza was 80% sure that he could survive, but the opposite “Saiyan” might not.

Even if the opposite “Saiyan” could escape the power of the planet’s destruction, it couldn’t survive in a vacuum environment!

After all, the Saiyans’ physical quality was not as good as his Frieza Clan!

Either way, it was a death for the Saiyan. At the time of life and death, Frieza was completely desperate, whether to succeed, he needed to fight the opponent!

Chapter 289

The “Destroy The Planet,” which contained the ultimate power, came down from the sky with a loud rumble.

Muyang wanted to stop it, but he could not do anything while maintaining the Death God Chain.

A dazzling ball of energy hit Planet Munster’s rocky crust in the endless starry sky and then “poofed,” it entered the planet’s interior very easily.

The ground surged violently, and the planet’s core began to crumble under Frieza’s energy attack.

Frieza’s face twisted with laughter, “Saiyans, you’ll struggle in the explosion of the planet’s destruction, and then die a painful death!

“You will never be my match!”

Not to mention the power generated by the detonation of the planet core, which was enough to make any life gone, Saiyans couldn’t even survive in the vacuum. Frieza was sure that he would win this battle.

The thought of the “Super Saiyan” dying in front of him made Frieza happy and want to laugh.

Muyang looked at the rising ground within his line of sight. The bright and brilliant light had been revealed, and the energy inside Planet Munster was about to explode, making Muyang couldn’t help but cuss.

At this time, the anxious voice of North Kai came, “Hurry up and run, Planet Munster is about to collapse.”

“Frieza is a madman!”

Cursing on his lips, Muyang retrieved the God Chain that was wrapped around Frieza’s body.

With a few flashes of starlight, he arrived in front of Melissa, then took her by her thin waist and cast Instant Transmission to leave.

“Ah, how did they disappear?!”

Frieza dumbly looked at Muiyang, and Melissa suddenly disappeared without a trace amidst a daze in his eyes.

The enemy actually ran away, which made Frieza dumbfounded for a moment. However, the constant surge of energy in the surrounding environment made him unable to think more, and immediately urged the energy to protect himself.

Although Frieza could easily destroy a planet, he did not dare to underestimate the power of a large planetary explosion.

BOOM!!!

RUMBLE!!!

In the dark universe, a bright planet exploded in brilliant colors, and Planet Munster finally disappeared.

It was like a big fireball blossoming into a beautiful flame at the moment of disappearance.

The horrible energy eventually disturbed the planet's stability, and scattered planet remnants floated in their original orbits and turned into small broken meteorites.

These small meteorites were still red, with molten rock surging away, and the cold universe gradually cooled into black and blue meteorites.

After multiple disasters, Planet Munster could not escape the end of destruction after all.

This result was already predetermined when the seeds of the Tree of Might fell.

Muiyang appeared with Melissa on North Kai's Planet..

As soon as he landed, Muiyang coughed violently. He hastily took out the Senzu Beans and ate them to stabilize the injuries on his body.

Melissa's injuries were much lighter than Muiyang's because she had already taken Senzu Beans before.

"How's Frieza? Is he dead or not?" After recovering his strength, Muiyang asked North Kai.

North Kai said excitedly, "Muiyang, I didn't expect that you guys could actually resist Frieza. He's mighty." He then probed the situation over Planet Munster.

However, since Planet Munster had just been destroyed, the terrifying energy disrupted all probing, and North Kai could not distinguish the situation there for a while.

"Although it is not clear how exactly there, Frieza is definitely dead." North Kai said with confidence.

Muiyang shook his head, "Do not be so optimistic; Frieza's life force is stronger than you think."

In the original story, Frieza, who was only left with half of his body, survived the explosion of the destruction of Planet Namek.

Moreover, Frieza's body was intact, and Planet Munster's size was not as big as Planet Namek.

"No way. How can Frieza survive?" Melissa wasn't too convinced either.

“The possibility is high,” Muiyang said seriously.

Regarding the future stability of the North Area, North Kai did not dare to be careless. His face was serious as he said, “In that case, I will pay attention to the situation there on Planet Munster. Once I find any trace of Frieza, I will immediately inform you.”

Now, Muiyang could force Frieza to use the “die together” trick. Undoubtedly, he became the biggest support of North Kai, and the North Area’s stability also depended on the power of this couple.

Muiyang nodded his head and was also concerned about the situation on Planet Munster.

However, the diffuse aftermath had not yet dissipated, and the abundant energy blocked all perceptions.

It made it impossible for Muiyang to distinguish whether Frieza’s ki still existed.

“You guys wait. I’ll go to the Other-World now and take a look.”

After a little thought, Muiyang spoke to Melissa and North Kai. Hopefully, Frieza was already dead; if not, then he must be found and killed as soon as possible.

Never leave him time to train, or else what kind of consequences they would get into, no one knew.

“That’s a good idea.” North Kai’s eyes lit up for a moment.

All beings who died within the North Area had to report to King Yemma.

After a while, Muiyang’s figure reappeared in the North Kai’s Planet.

“So, is Frieza dead yet?” Both North and Melissa looked at Muiyang

Muiyang shook his head, “No soul of Frieza was found at the Other-World.”

Melissa was dumbfounded, “Indeed, he’s still alive.”

North Kai hissed, “Frieza’s life force was too strong.”

“Keep an eye on the starfield where Planet Munster is located. Frieza must still be there.”

“I know.” Without Muiyang’s instruction, North Kai knew what to do.

At this time, Muiyang said to Melissa, “You were bullied enough by Frieza just now too. I’ll take you to get revenge!”

“Where do you want to take revenge?”

Muiyang laughed and said, “There are quite a few colonial planets and headquarters under Frieza. Let’s go pick them one by one.”

“This can be possible!”

Melissa’s eyes lit up, and her eyes turned up like clouds of smoke, obviously very interested.

North Kai couldn't wait for the forces under Frieza to be disbanded entirely and hurriedly told Muiyang all the news he knew about Frieza's legion.

After getting the information about the headquarters under Frieza from North Kai, Muiyang took the excited Melissa and transferred there with Instant Transmission.

“There may be a large area in the North Area that can get some peace.”

North Kai couldn't help but think of the bright side in his heart and turned to continue his serious search for Frieza's whereabouts in the vicinity of Planet Munster.

.....

At the second headquarters planet of Frieza, which had become the most important planet of Frieza's power at a very early stage, today, the aliens inside the headquarters were staring at the big screen, as usual, managing the flow of all information within Frieza's power.

Suddenly, a violent alarm sounded on the second headquarters planet. The planet's defense system detected an extremely large energy approaching; when all the defense systems were activated, there was a bright and shiny ball of energy slowly falling from the sky with glorious colors.

All the aliens at the headquarters stared at the energy ball with their hearts full of doubts.

BOOM!!!

When the energy ball fell, everything was already too late. The interior of the headquarters planet instantly disintegrated, and the end of destruction awaited them. This time, the aliens scattered outside came to their senses in the intense flashing warning lights and ran towards the spaceships in a hurry.

The rumble was over, all together, and no one could survive the destruction of the planet.

In the endless but dark red-backed universe, an upright figure and a woman with fluttering black hair stood in the cosmic starry sky.

Her eyes were leisurely looking at the planet where the destruction occurred.

“Muiyang, next time it's my turn to strike. I also want to try to destroy these sinful planets.” Melissa pulled on Muiyang's arm and said.

“No problem.” Muiyang gave her a look.

Chapter 290

In the next few days, the number of armed fortresses destroyed at their hands reached twenty. The number of lives was countless, but in Muiyang's opinion, they all deserved it.

There might be a few members of the Frieza Force who were forced to join the Frieza team, but it was their misfortune to be killed by Muiyang accidentally. After death, there would be an arrangement from King Yemma.

After destroying several important planets in succession, one day, North Kai contacted them.

“Muiyang, I found the whereabouts of Frieza.” North Kai's urgent voice came to his ears.

“Frieza is still alive. This guy actually managed to survive the planet explosion.”

If it wasn't for Muiyang's reminder, which made him persist in searching for several days, he had let Frieza escape, and next time it wouldn't be easy to kill him.

Muiyang looked gloomy, “Just find him, and send me his location.”

“Hmm, okay.”

After North Kai finished speaking, a string of data surfaced in Muiyang's mind.

Muiyang checked this message and found that Frieza's current location was actually on a planet not far from Planet Munster.

The two planets were in the same stellar gravitational field.

However, Frieza, who had lost his communicator, could only wander through the universe by drifting without a dedicated person to pick him up.

It was unknown how much time it would take to float to a planet with civilization.

.....

Planet Munster was located within the planetary system, not far away from a not so big planet.

At this time, Frieza weakly collapsed in the middle of a huge crater.

This crater was about two hundred meters in diameter, more than fifty meters deep.

Because the planet was rainy and watery, half of Frieza's body was soaked in the rain.

“Damn Super Saiyans, one day I will kill you.”

Frieza's gloomy cheeks filled with fury. His current situation was so bad that his Final Form body was already scarred.

The energy of the planet explosion behind him almost killed him. Now, Frieza had no extra power to preserve the Final Form, his body degraded to its Base Form.

The lower half of the Base Form of Frieza's body was bloody. One of his arms was half broken, and what hurt Frieza more was his tail, which was cut off in his Final Form and was difficult to recover from.

Frieza's eyes were half-open in pain. He regretted that he didn't listen to the community's rumors and destroy the Saiyan planet in advance.

Otherwise, the Super Saiyan might not have appeared at all. With the two Super Saiyans' age, they should have been born after he ruled Planet Vegeta.

“I regret it. Perhaps even father did not think that the legend of Super Saiyan is actually true.”

“But the Saiyans won't be able to get complacent for long. When I recover my body and go to train for a while, I can definitely take this revenge back.”

Frieza was secretly thinking about the next plan.

Truthfully, Frieza's talent was considered the most outstanding because he was born with terrifying power.

It was so much that he was a self-proclaimed emperor who did not care about training and had never seriously exercised his body.

Until now, it was Muiyang and Melissa who forced him to this point, making the arrogance in his heart collected and really intend to start training.

With Frieza's talent, as long as he was given a few years, he could easily surpass those Super Saiyan's.

At this time, a spaceship flew over in a distant direction. After a search, it found the miserable-looking Frieza.

“Hurry up and find King Frieza!”

Why was King Frieza's face swollen?

The spaceship landed, and the hatch opened. When Frieza saw that it was his subordinate who had come, a cold smile finally appeared on his face.

“Gurgle....”

Inside the repair cabin, Frieza's body was immersed in the nutrient solution.

“Tell this king what happened these days? Why only a few of you came to pick up this king? Isn't this king has a huge army?”

“King Frieza, our headquarters planet, was destroyed by the opponent...”

A short, fat subordinate suddenly cried out, “We lost contact with the legions below. Also, some Legion Commanders got the news from somewhere that King Frieza had died, and they.... they were making a fuss to disperse...”

“Humph!” Frieza snapped his eyes wide, making the restoration cabin resounded with a gurgling bubbling sound.

“Go on!”

“In just a few days, our armed fortress has been destroyed by the mysterious people in more than twenty places.”

“The Legion Commander who governs the eighteenth planet domain has disobeyed the orders and changed the name of the legion as well.”

“The Legion Commander who governs the twenty-sixth planet domain, with his legion, has defected to King Cooler....”

Frieza: “.....”

It was really one bad news after another, “So, my huge foundation, almost completely collapsed away?”

“.....Yes, it is.”

“Ho ho ho ho, interesting!” Frieza soaked with a cold face. “You guys, don’t worry. I only have a small injury and will soon be able to recover.”

The subordinates: He couldn’t even move. How could it be a minor injury?

However, thinking of Frieza’s past authority, they obeyed, not daring to raise any questions.

Now they were like dogs in their homes. They were on the wanted list of the Galactic Patrolman.

Unless they joined King Cold or Cooler, their lives would not be saved. Of course, now that they had found King Frieza, the situation was a little different.

They hope that Frieza could recover from his injuries as soon as possible.

However, the heavens always gave people the right amount of despair when they were most hopeful. At this time, an icy voice reached Frieza’s ears –

“Finally, we found you, Frieza!!!”

“Ah, King Frieza, that’s the voice, that demon is catching up again.”

As soon as the crowd of subordinates saw the visitor, they all trembled with fear.

“Grunting....”

Frieza opened his eyes with difficulty. His eyes suddenly contracted to the size of needlepoint as a handsome man, and a beauty beyond words woman appeared in front of him.

“Super Saiyan, it’s you guys again. How can you find me!

Frieza’s “fat face” twisted and was filled with intense resentment and unhappiness. He turned his head to look at his subordinates, and he suspected that it was these careless subordinates who had led this fury here!

Did God not even give him the chance to take revenge?

How could he be an opponent to the two Super Saiyans in front of him in his Base Form?

This was....the end.

Muyang smiled at Frieza and said, “You don’t need to worry about how I can find you.”

The Base Form of Frieza, who was wounded, could not be better to deal with.

With that, Muyang stretched out his palm towards Frieza, and magical energy along with the repair pod enveloped.

Frieza struggled, his body was firmly locked, and let out a final wail, “No, I am not willing. I am the emperor of the universe, Frieza. Even if I die, I cannot die in your hands.”

“Do you want to blow yourself up again? You won’t be given a chance this time.”  
Muyang’s face was cold.

“Obliterate!”

After the cold voice just fell, a mandatory rule descended, as if another world squeezed in.

The universe's rules retreated one after another, and the extremely injured Frieza was enveloped by a white light, unable to resist at all.

In a strong reluctance and struggle, his body began to turn into powder gradually.

It started with the lower half of the body, then the abdomen and chest, and finally even the head faded away in the breeze.

Whew...

A large hole appeared in front of his eyes, and Frieza's figure, along with the restoration chamber filled with culture fluid, had long since disappeared.

"Is Frieza finally dead now?" Melissa asked.

"Yes," Muiyang affirmed.

"Then these guys..."

"Let's send them on their way together."

On the North Kai's Planet, North Kai looked excitedly at the place where Frieza disappeared.

He was jumping and dancing with excitement. Frieza, who was hindering the Lower Realm's peace, was finally dead, and a big stone in his heart was dropped.

"Muiyang, Melissa, thank you ....."

"No need to thank. I also have quite a grudge with Frieza." Suddenly, thinking of something, Muiyang looked at Melissa and smiled, "Melissa, let's go see what happened to Frieza."

"Yes!" Melissa responded with a smile on her face.

Muiyang nodded, took Melissa's hand, and used Instant Transmission to take her into Other-World.

In the Other-World, inside King Yemma's office, the large red-faced King Yemma was busy with his work, when suddenly there was a noise and Frieza with a golden halo was escorted into the hall by the ghosts.

"Ah, Frieza, how come this villain is dead?" King Yemma jumped up from his chair when he saw Frieza.

As the ruler of the Other-World of North Area, the red-faced King Yemma knew too much about the World of the Living affairs.

Because of this understanding, he was clear about the power of Frieza and that such a great master would actually have a day of unnatural death. God really opened his eyes.

"Let go of me. How dare you treat the great Great King Frieza like this!"

Frieza twisted his body, and the surrounding smoky souls backed away, leaving a large field empty in King Yemma's large hall.

Frieza kept screaming, yet he who had lost his physical body could not even cope with the tiny ghosts of the Other-World.

Under the Other-World rules, only people with great merit and great power could have the appearance they had in life after death.

Otherwise, they could only have a small cloud of white smoke as a soul carrier.

Those who were qualified to enter Heaven deserved to have a physical body with the same power as before they died. Others, even if Majin Buu died, he would be subject to the rules of the Other-World.

Bang, bang, bang, bang, bang, bang, bang, bang, bang, bang, bang, bang, bang.

“Frieza, be honest when you die. No one in the Other-World cares if you are some kind of universe emperor.”

King Yemma’s sturdy body was like a small mountain close to Frieza, and the dense sub-dimensional pressure shook Frieza to speak out.

“Damn it. If I were still alive, I wouldn’t be afraid of you, a tiny deity.” Frieza’s face turned blue, and there was a kind of frustration.

Bang Bang Bang!

“Silence. The sentence will now be pronounced...”

“Wait a minute, King Yemma...”

just when King Yemma intended to pronounce the sentence on Frieza, Muiyang entered the Hall of King Yemma with Melissa and interrupted the sentence on Frieza. “For Frieza’s punishment, I have a few suggestions.”

“So, Muiyang, what are your suggestions?”

After King Yemma saw Muiyang, his two eyes stared as if they were lanterns looking at Muiyang’s Dimension Leve.

When he heard the transmission from North Kai, he knew that Muiyang was the one who took credit for killing Frieza.

According to the instructions from the North Kai, Frieza’s trial could be deferred to Muiyang.
