

Ball God 341

Chapter 341

Once Carliss was alerted, it became less easy for Melissa to get an advantage on her again.

The light body of Carliss flickered around the ring from time to time, cleverly avoiding Melissa's supernatural abilities, and then seized an opportunity to attack Melissa violently.

Melissa was actually prepared for this. When she saw that Carliss was coming towards her, she turned her body by a small margin, and her arm traced a half-moon arc in the void and pushed forward with a rough punch.

BANG!

With a cracking sound, Carliss's clear face flashed a hint of surprise. She waved her hand to resist, then her body quickly disengaged by force while a ki wave struck out.

“STARLIGHT CLUSTER!”

A silvery-white shine blasted towards Melissa.

“Hmph!”

A wildness flashed in Melissa's eyes. She cast her hand and was ready to catch the attack, but this attack from Carliss was so powerful that Melissa let out a muffled grunt, and her feet sank slightly into the ring floor.

BANG!

With a bang...., the ground crumbled, and Melissa leaped into the air.

“Look at me!”

Her face flushed a fierce color. The green glow of her body was released at once, and the light green energy intersected with the golden and green glow of the Legendary Super Saiyan, which looked majestic.

The energy had another huge boost compared to before.

“TORNADO STORM!”

BOOM!

BOOM!

BOOM!

The sky shook, and the earth moved; the momentum was like a rainbow, and the majestic energy turned into a hazy fog mass for a while, radiating away as if it was a wave.

The silent and oppressive venue suddenly set off a piece of strange ripples.... and in a moment, spread to the distance, colliding with the protective shield in front of the audience, rippling even more violent movement.

Carliss's body shook. She frowned a little and continued to fight with Melissa.

.....

Everyone in the audience tilted their heads to look up at the glistening sky and couldn't help but tsk up.

Although Melissa and Carliss's power was not as powerful as Pikkon's, in terms of visual shock, Pikkon's previous battles were far from being comparable to them.

Because the impact of the previous fights gave the audience confidence in the shield, they were no longer afraid that the energy in the field would reach them. Besides, in the field were two women, after all. Although the fight was equally ferocious, the subconscious still made them feel that the beautiful women were harmless.

People were like that. Once there was no threat, all kinds of arrogance and luxury came to mind, and inevitably had to point out some.

"This Melissa maybe even stronger than Carliss. The East Area is in trouble this time."

"I also think so. The North Area may have two people in the top four."

"Tsk, two of the four seats, impressive!"

"No, Carliss' strength is also very strong. It's not clear who will win or lose."

Some people argued, but there was no doubt whether it was the previous Muiyang or the current Melissa. The strength of the North Area players had left a deep impression on them.

In the past, the weakness of the North Area among the four galaxies was notorious. That was definitely the bottom of the existence; the status was unshakeable. However, with this Martial Arts Tournament, the next pattern might be changed.

It should be known that the power of a peak powerhouse was enough to change the entire direction. If MUYANG or Melissa were willing, it would simply be able to sweep the entire North Area powerhouse.

The existence of the Matthew effect was bound to make the strongest constantly strong. If one master could emerge, a second one could emerge and then enter a virtuous cycle.

“Jialin, do you hear that? Everyone is talking about MUYANG and her!”

“I heard it. Earth must have changed a lot over the years; I really want to go back and take a look.”

The ancient seniors from the Earth lineage were also emotionally moved by the constant exclamations coming to their ears. They all looked at the top of the ring with expectation. Although with their eyesight and perception, they couldn't see anything at all, everything didn't affect them to cast the greatest enthusiasm.

Sicos looked at the ring invigoratingly. The intense light made him unable to even open his eyes.

.....

“No matter what other tricks you have up your sleeve, I won't be defeated by you!”

Carliss conversed with Melissa from a distance. As she spoke, she violently mentioned her air, and a wave of hot air was released. The ground began to melt and sink, washing out a ring of depressed areas in all directions.

“Ah, so hot!”

Melissa's heart couldn't help but feel a throbbing, even from dozens of meters away. She had no choice but to fly towards the area's edge because of Carliss's hot energy.

At this point, Carliss's body seemed like a small, hot sun. As long as she was close, she would be burned.

“I told you, you will not defeat me. So, the one who loses is you.”

Looking intensely at Melissa in front of her, Carliss decisively chose to pursue the attack. She let out a loud cry, fiercely stomped on the earth, swooshing up like a lightning aura, while waving her hand to spill a large mass of energy to entangle Melissa; one strike was the full force.

Melissa had the intention to avoid Carliss's attack, but her arm was quickly burned with a scar.

"Damn it, back off!"

Melissa's face was furious. She was wrapped in a layer of energy protection and rushed towards Carliss. When she arrived at the front, she reached out and grabbed Carliss's shoulder and pressed it into the ground, smashing it with a boom into a large human-sized crater.

Melissa was very violent when she started her rampage and was perhaps a little more destructive than Uyamons, both violent people.

"AGH! IT'S HOT..."

Melissa screamed. Clearly, she was the one who won the attack, but she was the one who screamed the most.

BOOM!!!

Between the two energies formed a hot glue zone, the heavy pressure, the ground again broke open a tiny crack, and then sharply expanded, not long cracked slit into a chasm.

Carliss face suddenly changed. There was actually some suppression of Melissa's energy.

"What's going on? Why has her power increased again?"

In Carliss' line of sight, Melissa's black hair kept fluttering, and her entire body shone with golden and grass-green light as if she had gone off the rails.

ROAAAAR!!!

The Legendary Super Saiyan power was terrifying when it explodes out. Not to mention that Melissa was in the second level of the Golden Eyes State, which was even more malice than the general state Legendary Super Saiyan.

"HELL BLIZZARD!"

The golden light shines in the eyes, and a clear, crisp voice emerges from the lips and teeth. Melissa held out her arms, and bits of gravel floated up.

The gorgeous light flashed blind. Countless rubble was caught in the swirling storm, then crushed into fine dust under the action of powerful energy, forming a tornado-like energy impact.

BANG! BANG! BANG!

The fierce collision began. Melissa's energy continued to penetrate a scorching wave of air on the surface of Carliss, like a grinding wheel, constantly polishing.

Carliss's face was white, her pupils slightly shrunken, gritting her teeth to release energy to resist.

“RESIST!!!”

Carliss panic, trying to boost her energy.

BOOM!

The huge energy rose, turning into a crystal shining starlight, inch by inch scorching flame constantly flashing...

.....

Muyang watched calmly from the bottom, with a touch of calmness on his face.

“Mr. Muyang, do you think Miss Melissa will win?” Dofira came to his side and asked in a small voice.

“Carliss still underestimates the power of the Legendary Super Saiyan... Don't worry, Melissa is about to win.”

“Really?”

Dofira revealed a trace of surprise. No matter how he looked now, Miss Melissa was looking very bad. On the side, Kerter, Kayo, and others also looked concerned.

Muyang blandly smiled and didn't say anything.

.....

As expected, Melissa, who was in the center of the storm in the ring, had a miserable white face at this time, but a beautiful light flashed in her golden pupils, and her expression became even crazier.

“HAHAHA!!!”

“How could this happen?!”

Carliss' face suddenly changed when meeting Melissa's wild and disorderly energy. Her heart actually had some trembling, then she gritted her teeth and met the attack without rebellion.

“GRAVITY SPACE!”

“HEAVENLY GOD BEAM!”

With a delicate cry, Melissa exploded in a desperate attempt.

In an instant, countless bright rays of light began to impact from the side of the ring, as if folding a fan to unfold a huge fan-shaped impact belt...

SWOOSH~

SWOOSH~

Crystalline flashed of light cut through the void, Carliss gritted her teeth, but her body took a step back in the impact.

“Not good. It’s going to be unstoppable!”

Finally, near the edge of the ring, Carliss was gasping for breath. Her feet started to collapse at this time, and with them, Carliss fell off the stage.

The scene remained silent for a long time, and it was only after a long time had passed and the light gradually dissipated that the entire audience once again resounded with intense cheers.

“NORTH GALAXY NO. 190 MELISSA WINS AND ENTERS THE FINAL FOUR.” The referee said in a final verdict.

“Hahahaha, finally we won!!!”

After the referee announced the result, Melissa tilted her head and was ready to laugh, but her body went weak and withdrew from the Golden Eyes State, squatting on top of the ring unbearably.

Muyang dashed to the top of the ring, picked Melissa up, and stuffed a Senzu Bean into her mouth. Under the Senzu Bean effect, Melissa finally recovered and slapped her chest with a palpitating heart.

“So close, I almost lost.”

Muyang said, “There was a lot of luck in winning this time. If it weren’t for the ring collapsing because it couldn’t withstand your energy blasts and bringing Carliss down, by the time she had survived your attack, the one who would have lost would have been you!”

Melissa nodded softly, “hmm.”

.....

“How could... Carliss lose?!” The East Kai’s face was dumbfounded, looking in disbelief.

Just this moment, how could East Kai’s good situation be buried like this? Her two players were all lost, and not even one person entered the top four? At this moment, East Kai felt what North Kai felt in the past.

Chapter 342

“Damn, the elite of my East Area would actually lose to those weak guys of the North Area?”

East Kai was still having a hard time accepting it for a moment, especially when she saw the playful expressions cast at her by North Kai next to her. A moment of malice overflowed, and a great sense of humiliation lingered in her heart.

“Aiyaa, East Kai you lost it. It’s too bad; my people eliminated both players. I didn’t want this, but there’s nothing I can do!” North Kai’s smug voice came over with a villainous look.

“Now you know the power of my North Area, right?” North Kai laughed. His mind was overjoyed, and it was hard for him not to take advantage of the moment to show off.

Her opponent’s happiness was no different from her pain. East Kai yelled angrily, “Don’t be smug there!! This time it was just luck that let you win once. Wait until the next Martial Arts Tournament; you won’t be so smug.”

“Oh, it’s hard to say, who knows what will happen next time. Maybe I will win again! Besides, in a few thousand years, maybe the strength of the North Area will have completely surpassed your East Area.”

“You’re dreaming!” East Kai gnashed her teeth.

“Aiya, are you angry? It’s not good; just put your mind at ease. Look how calm I am.” North Kai said with a smile squeezed on his face towards the East Kai.

North Kai had never been so comfortable as now. He felt that even if MUYANG and Melissa lost in the next round, it did not matter. He got the face he should take, to be a man and a god, to know satisfaction, he suddenly found that his consciousness was still very high.

With a twinkle in his eye, North Kai looked at West Kai and said, “Look at them, one person from East Area stopped in the top sixteen, and two people entered the

top eight. According to the tournament rules, the total points count up to five, not bad!"

"You...." East Kai shivered with anger.

West Kai was also not used to seeing North Kai's smug look. He couldn't help but frown high, "Your North Area only have two people to enter the quarterfinals and haven't got the champion. What are you proud of?! Do not forget that your people have to face Pikkon in the next game. The last person to win is definitely Pikkon, plus Melissa also has to face Uyamons...."

"Tsk, it's all about the future!"

"Hey hey, West Kai, what do you mean by that? What do you mean 'that Melissa also has to face Uyamons'? Do you think my South Area's South House will definitely lose?"

The last match of the sixth round had not yet been played, and West Kai said that Uyamons would win. When these words were heard in the ears of South Kai, they became quite harsh.

Did it mean that it was determined that South Area's South House would definitely lose?

"Daliz, do you think your people can defeat Uyamons?" West Kai asked rhetorically.

South Kai had no words at once. Although the strength of several Kais was not very strong, the eyesight was still there. It was actually clear at a glance who was stronger and who was weaker between South House and Uyamons, but it was just inevitable that South Kai was a little unconvinced in his heart.

When he saw that South Kai did not speak, West Kai sneered and turned his attention to the top of the martial arts ring.

.....,

In the center of the large venue, the vast and wide martial arts ring had become pockmarked after the battle just now. Now, the Yardratians living in Heaven were doing their best to repair it.

CLANG!

A sound like a yellow bell came.

The Martial Arts Tournament proceeded to the sixth round of quarterfinals' final match, with South Area's South House taking on Central Area's Uyamons.

The final result was obvious. Although South House's strength was very strong and belonged to the South Area's top, there was still a huge gap between him and Uyamons.

When the match was roughly 15 minutes long, Uyamons suddenly raised his energy and roared. An invisible energy hand broke the space. Inch by inch, the crystal light shone, and the terrible power fell on South House's body. South House's face was pale, and he flew out of the field like a kite with a broken string.

Uyamons rightfully won the last match after fighting with South Area for fifteen minutes, which had already given enough face to the South Area. Even South Kai gave some gratitude to him.

.....

At this point, all the top four players were crowned were Muyang, Pikkon, Melissa, and Uyamons.

Since the competition had been held for several days in a row, the spectators' spirits were already a bit tired, so to ensure the viewing quality of the martial arts meeting, the semi-final battle of the seventh round would be put on 24 hours later, during which there would be a long period of time for the players and spectators to relax.

.....

After the top four were produced, Grand Kai led each of the four Kais to exit the stage.

After the Kais left, hundreds of thousands of spectators began to disperse. They discussed with each other in groups; apparently, the previous competition gave them many unending emotions to talk about.

"Muyang.... Long time no see!"

Just as Muyang and several other players from the North Area were about to move to the rest area, an old voice rang out in his ears.

Muyang followed the voice and saw a white-haired old man walking towards him, followed by another two dozen people who looked a bit restrained. They were men and women, old and young, and their racial forms were no different from Muyang's; they were all earthlings.

These people are naturally Noah and Mutaito, Sicos, Jialin, and others who were on top of the stands before.

As a matter of fact, for the Earth to produce such a strong person like MUYANG and Melissa, those ancestors from the Earth were very interested in getting to know each other. However, due to the gap in strength, they carefully considered the idea... The good thing was that MUYANG came from the Kami School. So, it's easier for Noah and Mutaito to help to introduce MUYANG and Melissa to others.

The next thing that happened was that everything fell into place. When the Grand Kai announced the intermission of the Martial Arts Tournament, Noah and Mutaito took the idea of trying it out and led the crowd towards MUYANG.

At this time, except for Noah and Mutaito, who maintained a certain calmness because they had short contact with MUYANG, several other Earthling ancestors were very humble and formal out of respect for the strongest.

After all, the status of MUYANG was now different, and it was not too much to say that he was the strongest person in the entire North Area. In the face of such a strong person, they did not dare to put up a front. Even the highly respected ancient hero, Sicos, only had 100,000 power level, which was definitely weak in the Other-World masters, but in the Earth lineage, it was already an appalling existence.

“Ancestor Noah!”

Seeing the visitor, MUYANG called out in surprise. In fact, at the beginning of the conference, he had already noticed Mutaito and others, originally thought to wait until the competition was all over before looking for them, but did not expect them to come over first.

“No, no, just call me Noah.” Noah was busy waving his hand.

When he saw that Noah was so insistent, MUYANG also went along with their wishes. However, for the basic etiquette, MUYANG would still abide by.

At this time, he pulled over Melissa to Noah and introduced them, “This is my wife, Melissa; she was also a disciple of the Kami School. By the way, the Kami School is the former Heavenly Sky School, which has now changed its name to Kami School because of the promotion of the Kami School martial art forty years ago.”

“Good change. Seeing your performance this time, I knew that the Earth martial arts doctrine must have changed drastically.” Noah looked at Melissa and was somewhat curious in his heart as to what all changes had taken place on Earth.

“Hello,” Melissa said gently without losing her manners.

“Greetings.” Noah nodded his head.

At this time, Dofira and other North Area contestants looked at Noah and Mutaito. They seemed to be surprised that Muyang had so many “impoverished relatives”.

He said to Muyang, “Mr. Muyang, since your relatives is here, we will not bother you anymore and wish you good luck in the following competition. We will be cheering for you from the stands next!”

“Good, you guys go ahead and do your thing. ”

“Bye.”

Dofira, Kerter, and others finished speaking, then nodded towards Mutaito, Sicos, and others, and then walked past them from the side. Mutaito and the others hurriedly returned the salute, then looked at their backs with a sigh of relief. If it were the usual case, they would not even have the chance to touch these great masters, let alone salute each other.

“Mr. Mutaito, long time no see.” Muyang smiled and looked at Mutaito.

Mutaito was not tall, wearing a white martial arts uniform, and his white beard forked to the sides.

Among several people, he was most familiar with Mutaito; he had a long time contact with Mutaito when he was training in The Lookout Illusory Realm. Although “Mutaito” was not the one in front of him, his personality and psychology were the same.

“It’s been a long time. More than 40 years have passed; you must have had a colorful experience.”

Mutaito still looked at Muyang with an incredulous face. So many years had passed, but Muyang’s appearance had not changed a bit.

Chapter 343

More than forty years ago, Muyang was already close to twenty years old. Seriously speaking, this year, Muyang was already sixty-one years old. If it was a normal earthling, he should be showing his old age at this time. Even if the body were particularly tough because of its great strength, it would not be possible to remain in his twenties like Muyang.

Mutaito understood in his heart that Muiyang's experience must be extremely extraordinary; otherwise, it would be impossible for him to achieve such achievements in just a few decades.

To Mutaito's surprise, Muiyang smiled heartily. After looking around at the gradually dispersing scene, he turned his head to these ancient heroes of Earth and said, "Let's find a place to sit first. We'll talk about the details later."

"Yes, let's find a place first." Noah also felt something inappropriate about standing in the meeting hall and talking, so he nodded approvingly, and the others certainly had no problem with it.

The Dragon Ball World still followed the rules of the strongest. Even if the strongest were a little capricious, it's still completely reasonable. Even that, to say a few words to a super master like Muiyang, was a great honor. How could they not be happy?

Muiyang smiled and led them to the outside of the martial arts venue.

The entire martial arts venue was located on a meteorite star specially built by Grand Kai and the Yaedrarians for this Heaven Martial Arts Tournament. There were many small planets around it for rest. After passing through the dark curtain-like spatial barrier, several people landed towards one of the nearby small planets.

.....

Above a white planet, a section of waterfall cascaded down from a high cliff, white water splashing up. Pikkon sat calmly on a boulder on the waterfall side, his white tunic hanging down naturally and his black hat rushing up to the sky.

To cope with the next game, Pikkon was here to close his eyes and recuperate.

Suddenly, a subtle movement came, and with a twitch of his ear flap, Pikkon opened his eyes. Appearing in front of him was a strong man with green skin.

"Uyamons, what brings you here?"

Uyamons laughed loudly, "I came to see you for a moment. It seems that for the next match, you don't seem to be a sure winner either?"

Pikkon closed his eyes again, "I will win."

"That earthling named Muiyang is not weak." Uyamons sat on his butt on edge, "Obviously, he had only 2 billion combat power, but he can continuously defeat Yahalo and Arqua. Honestly, I can't even figure out how he made his move."

“Screw it. You will lose to him.” Uyamons chuckled.

“Don’t worry about it!”

“Tsk!” Uyamons shook his head and threw a stone towards the water, which immediately spread a ripple on the lake, “If you lose to him, you won’t have a chance to challenge me.”

“……” Pikkon was like an old monk in meditation, without any reaction.

When Uyamons saw this, he felt bored and looked at the splashing water, shaking his head still couldn’t understand what was so magical about MUYANG’s martial arts. Studying martial arts was not his forte, and he thought he could get some hints from Pikkon, but it looked like it was a wasted trip.

“Okay, you continue to enlightenment; I’m leaving.”

After saying that, Uyamons’ body flashed, and he had already left.

……..

On another small planet for resting, many spectators dispersed from the martial arts arena had gathered on it at this time. When they saw MUYANG and MELISSA coming, these people hurriedly made way and whispered in the back.

The service staff immediately came up and brought fresh drinks and fruits. In this Heaven, if it weren’t for a golden halo above the head, it would really be like being on a planet in the Lower Realm, with all the available services.

“MUYANG, this is teacher SICOS. He is the oldest hero among the earthlings. Back then, it was he who led the earthlings to find the Korin Tower and was the first to ascend to the Lookout.”

After taking his seat, Noah introduced SICOS to MUYANG because of his close relationship with him.

“Ah, so it’s the senior!” MUYANG was busy greeting him.

“Too much praise, too much praise. I’m just a bad old man who has lived a few more years in Heaven.” SICOS hastily stood up and said modestly.

MUYANG’S attitude towards them was extremely good, so it could be said that he gave them enough face. However, if they didn’t know how to advance or retreat and took face for face, it would be a bit too much.

If people really think that they could rely on their old age, it would be a big mistake.

At this time, Mutaito said, "Teacher Sicos is the source of the earth's martial arts, but also the first Kami of Earth, the Earth's lineage can grow up, thanks to the efforts of Teacher Sicos back then."

Muyang listened and can't help but be surprised; the legendary Korin Tower and the Lookout had existed for an unknown period of time. The specific builder wasn't verifiable, but Grand Kai once told him that the Korin Tower and the Lookout were built by the ancient "Beiyaian". The construction style of the Korin Tower and the Lookout was very similar to the Yardratian temples, perhaps even a bit related to the Yardratians.

Or maybe the ancient "Beiyaian" are the ancestors of the Yardartians.

The rise and fall of Primitive Civilization to Advanced Civilization, from Primitive Civilization to Advanced Civilization. For one reason or another degraded to primitive civilization, several rounds, many relics have disappeared, only the Kailin Tower and the Lookout have withstood the erosion of the years.

If the Sicos in front of you is really the first strong man to ascend the Lookout and served as the first Kami, then he really played a role in promoting the development of Earth's civilization.

Just then, Muyang frowned a little. He thought of a problem.

If the first Kami was created 4,000 years ago, what was the matter with Annin, who has been guarding the Five Elements Mountain for tens of thousands of years? Was she still an earthling from the previous civilization?

He stored this doubt in his heart. Muyang intended to go back and ask Annin properly.

The ancient Earth seemed to be a bit mysterious...

At this time, Noah introduced the others to Muyang, "These are Jialin, Kosap, Oyu... they are all earth's successive generations of Kamis or heroes who have made great contributions to the earth."

"By the way, Jialin is the tower keeper of the Korin Tower. When Korin Tower was still called Jialin Tower... Oyu, on the other hand, is the creator of the Superpower Academy. Your wife has superpowers... you should know the Superpower Academy, right!"

"I know. I spent several years there as a child." Melissa's clear and crisp voice said.

“That’s very kind,” Ouyu revealed a smile, somewhat flattered at first glance.

This was like an internationally renowned award. If ordinary scientists receive it, it could be called the scientist’s glory. The contribution made by the actual benefit of the entire human society, then the karma would be reversed, the award would be awarded to it. This scientist gladly accepted the glory of this award now.

Muyang and Melissa greeted these heroes with respect. The ancient Earth was not as peaceful as now. When the Earth was surrounded by many passages to other spaces, some to the Other-World, some to the magic world, and some rare and weird worlds, in which monsters would come out from time to time to harass the people of Earth. It was these heroes who fought bravely to close the doors of these spaces one by one.

“Muyang, quickly tell us about the situation on the Earth. I want to understand what kind of changes have happened on the earth side in the past few years to actually be able to give birth to strong people like you.”

After introducing both sides, Mutaito and Noah said impatiently, knowing that this Muyang in front of them was still the Muyang they once knew.

Muyang smiled and nodded, “Don’t be anxious. The Earth has indeed changed quite a lot in these few years. The Earth has opened the era of martial arts, more precisely, the era of technology and martial arts in parallel!”

Nowadays, the Earth’s rapid changes have only exceeded Mutaito’s expectations. Thoughts back to the year when the demon invasion, Muyang slowly recounted...

“By the way, Gohan’s power level now also reached more than one million, considered one of the strongest on earth.”

Son Gohan’s normal power level, of course, only a few hundred thousand. The more than a million power level was the power after Grand Kai. Perhaps because of the potential limited by the Earth’s people, Son Gohan had not broken through for a long time. However, in the Mount Five Element, he was tainted with the divine spirit. Subconsciously, the physique was also changing.

He should continue to get stronger in the future.

Once Mutaito heard Son Gohan’s achievement. Although it could not be compared with Muyang, it was very shocking. They then nodded with relief.

Next, Muyang told them about Kanalita, Wuting, Liz, Gillo, and others.

Everyone was so surprised that their jaws fell off.

These offspring living on the Earth, their achievements were about to surpass them!

Not bad. The Earth was really well developed.

According to the common division method of the universe, more than 10,000 power levels belonged to the high-level planets. The Earth at this time could already be classified as a High-Level Planet. A few decades from the Low-Level Planet to the High-Level planet, it wasn't something that dared to think in Noah and Mutaito era. Of course, at that time, they did not know that there was such a division.

When completely listening to the narrative of Muyang, Sicos and others were muddled, feeling like they were dreaming. Those descendants on Earth really brought them a big surprise, and they didn't have to worry about the safety of the Earth in the future.

They looked at each other and suddenly felt a little heartbroken. They and others' power levels were only tens of thousands... now, they were worried about people with a power level of several million.

Chapter 344

Simultaneously, just when Muyang and several ancient warriors from Earth were having a good conversation, on the other side of Heaven, Grand Kai was also hosting East, South, West, and North Kais.

.....

Above Grand Kai's Planet.

The garden where the four seasons were like was full of flowers. The colorful flowers were in bloom, beautiful and sweet. The air was filled with a refreshing aroma. Grand Kai had changed out of his solemn divine robe and was wearing jeans of great youthful vigor, with loud and intense music playing next to him.

Grand Kai picked up his tea and blew a sip of hot air, then sipped it in small sips.

"This Martial Arts Tournament is going well, especially for North Area. I am impressed." Grand Kai's gaze was profound as he put down the tea in his hand and beat his fingers to the music.

"Hey, hey, how? It's mainly because North Area has produced a few talents. Oops, the strength can't be hidden!" North Kai's face was glowing red. This compliment from Grand Kai made him smug as hell.

“Humph.” West Kai snorted coldly, lowering his head and drinking tea in a muffled voice.

East Kai and the South Kai felt sour. However, they did not argue with each other in Grand Kai’s courtyard as they did before because they knew that Grand Kai must have something important to talk about by bringing them here.

Grand Kai coughed and said, “Actually, I called you all over for one more thing.”

The four Kais looked at Grand Kai at the same time when they heard this, and Grand Kai said in a deep voice, “Something has happened to the Prison Planet.”

“What?” The Kais scurried up with a swoosh at the words.

The prison planet was located in a special dimension of the Galaxy, specializing in holding criminals with deep sins and those who could not be easily killed. It was the most heavily guarded place in the entire Galaxy. In addition to the Galactic Patrol members guarding the periphery, the four Kais also had members guarding the periphery, while the ancient Heaven masters guarded the interior.

How could something go wrong in such a bronze-walled defense area!

As soon as they heard Grand Kai’s words, the four Kais were shocked. At the same time, they could not hide some worries in their hearts.

In addition to the prisoners captured by the Galactic Patrol, many people were imprisoned there after being sealed because they didn’t know how to kill them.

If these people escape, the devastation caused could be much more serious than Cooler..

Although Frieza and Cooler had long harassed the North Area, North Kai seemed to be at his wits’ end as if he could do nothing. However, in fact, if he really reached the end of his rope, he did not have to ask. The Grand Kai would send people to help him eradicate those people. The key lay in whether the Grand Kai felt to this degree.

However, those villains in Prison Planet were different. There were many demons there that were sealed up during the Supreme Kai’s period – they were supposed to be regularly destroyed by the God of Destruction, Beerus, but the God of Destruction was dormant for a long time. There was nothing Grand Kai could do at that time.

“Grand Kai, is the matter of the Prison Planet serious?”

Grand Kai waved his hand and laughed lightly, “Don’t worry, it’s not as serious as you think. It’s just that a hole broke in one corner of the prison, and a few criminals escaped.”

Many years ago, there was a Demon Beast who escaped from the Prison Planet. At that time, Muiyang went to kill it. Probably the loophole already existed at that time; it just did not attract enough attention.

“Only a few criminals, that’s okay.”

As long as it wasn’t those ancient demons, even if the other criminals escaped from the Prison Planet, the Four Kais would have a way to deal with it.

“Grand Kai, who are those criminals who escaped?”

“Oh, I’ve already had someone count them. A total of five people escaped.” Grand Kai stroked his beard, “They are all guys who are not particularly powerful. The power of Heaven is enough for suppression. Their names are Zangya, Bujin, Kogu, Bido... and, Loomu!”

“So it’s them!” South Kai’s brow furrowed.

Zangya, Bujin, Kogu, Bido, and Loomu were quite impressive. It was said that they were Galaxy Soldiers from other galaxies who had been causing chaos everywhere after entering their part of the Galaxy three hundred thousand years ago and had once caused a catastrophe that affected the entire Galaxy.

At that time, Heaven was not as strong as it is now. There were not many masters back then, so Heaven could only passively retreat when it faced Zangya and other Galaxy Soldiers. Finally, the masters of Heaven united with the masters of the World of the Living in a desperate battle, in which their boss, Bojack, was seriously injured and sealed by the four Kais on a barren planet.

Without Bojack, the Galaxy Soldiers were left leaderless, but the people of Heaven were unable to kill the Galaxy Soldiers, and finally, they could only be imprisoned on the Prison Planet.

“Wait, Grand Kai, you just said that Loomu also escaped?” North Kai exclaimed.

“These few Galaxy Soldiers are not enough to worry about, as long as Pikkon or Uiyamons make a move, it will be enough to take them down, but that Loomu is troublesome.” East Kai fanned her fan and said.

“Yeah, his ability is the biggest headache.”

What worried several Kais was not Loomu’s power level but his Mind Control’s Dark Magic. He could control people or intelligent creatures, and they would follow his orders. Loomu’s power level was not strong, but he was a phantom person himself, without a real entity at all, so it was difficult to kill him.

Grand Kai looked at East Kai and said, "There is an intelligent life form living on the 'Big Gete Planet' in your jurisdiction. Unfortunately, all the life on the Big Gete Planet has been controlled by Loomu."

"How can Loomu move so fast to take control of a race like this?!" The South Kai said in surprise.

The East Kai's face was ugly. The Big Gete Planet was a metal planet at the edge of the East Area. The intelligent life on it was all-metal life. If something went wrong, the harm caused would be too great.

"Let me detect the location of the Big Gete Planet."

"Do you plan to destroy the Big Gete Planet in advance?" The West Kai looked at the East Kai.

"This is the easiest way." The East Kai squeezed out a few words.

Grand Kai laughed, "These guys who escaped from the Prison Planet are troublesome, but there are ways to deal with them. This time, they won't do anything, so I'll treat them as a test for you guys, so you have to work hard."

"What?"

These words of Grand Kai made the four Kais dumbfounded.

"Grand Kai, you are not going to send the master of Heaven to fight?"

"Those are criminals who escaped from the Prison Planet!"

Without the masters from Heaven, the World of the Living couldn't deal with these criminals with those of them!

Grand Kai said, "Alas, these tens of thousands of years, you are all too lazy. At this rate, our Galaxy is going to fall behind other galaxies. This time is a test for you, don't try to get people from Heaven."

"This...."

The Kais had no words. Compared to other galaxies, their World of the Living seemed to be a little weaker.

"I'll see where all those criminals are first."

East Kai inquired about the area he was in charge of, then looked at the North Kai and said, "Big Gete Planet stays at the junction of the North and East Area, which was originally Slug's territory."

“Zangya, Bujin, Kogu, Bido, and Loomu were not found. They seem to be hiding.”

The four Kais investigated the area they managed simultaneously. They found no trace of anyone else except for Big Gete Planet people, who was also just a race controlled by Loomu, and where he was, was not yet known.

“What is this all about?” North Kai tilted his head and lamented.

Grand Kai took a sip of tea, “Don’t rush this matter. Take your time. You can investigate after the Heavenly Martial Arts Tournament is over...”

“This is the only way.”

The four Kais smiled. They had to wait until the end of the tournament to investigate the matter of the Galaxy Soldiers and Loomu. Now they were worried that even if they found them, they had no one in their hands to restrain each other!

Perhaps as Grand Kai said, there were too few masters in the Galaxy World of the Living.

Chapter 345

The ordinary people naturally couldn’t know about the Prison Planet’s change and the discussion of several Kais.

.....

The time passed, inadvertently it was time for the quarterfinals of the Martial Arts Tournament again. The large Martial Arts Tournament was again crowded with people. Races from different planets of the galaxy gathered together. The previous rounds brought them too much shock, which made them look forward to the next matches.

TOM!

A loud and clear sound resounded throughout the arena, and the aftershock echoed in the void.

Before the match began, all the spectators knew that this was a battle at the pinnacle of the galaxy. To enjoy the exciting match below, these Heaven Spirits had already raised their spirits.

There was a flash of MUYANG appearing on top of the ring. His green martial arts uniform rustling in the breeze and his steely eyes were shining with divine light.

On the other hand, Pikkon moved a wrist, and there was a sound of bones clicking.

The battle would soon begin.

At this time, the two were more than a hundred meters apart. The ki began to collide as the protective shield rose. The venue was like a transparent pot cover was inverted, all the audience's heart "fluttering flutter" wildly.

"Pikkon, let me see how powerful you really are!" Muiyang looked at Pikkon, eyes focused on the opposite person.

According to the original description, he knew that the strength of Pikkon was powerful. Once he kicked away the Perfect Cell in hell, but at that time, Cell had already lost his physical body, and his strength had disappeared, so it was not accurate. However, based on the previous game's observation, Muiyang estimated that if Pikkon was at full power, the strength was not worse than the Perfect Cell.

So when it came time to face Pikkon officially, Muiyang was ready to go all out from the start. There was no room for sloppiness in the confrontation between strong people.

The silvery-white flame rose, and Muiyang half-squinted his eyes, watching Pikkon with full concentration. Pikkon also looked over with the same seriousness.

Their eyes crossed each other. After the referee announced the start of the match, with a swish, both people disappeared at the same time.

The sound of thumping fights rang out in the venue. Countless lightning and shadows flashed. From the sky and the ground, a blazing awning burst out as they exchanged blows. Compared to all the previous battles, the battle between Muiyang and Pikkon was more intense.

One strike.

Two strikes.

Three strikes!

The ground kept collapsing and cracking. The complete tournament ring became completely unrecognizable not long after the battle started, collapsing into a large hole with potholes.

Pikkon kept attacking Muiyang with a sullen face, while Muiyang's body was naturally dodging. Some of the Unfettered Instinct he had mastered was used to the

extreme, but in the face of the waves of Pikkon's attacks, crystal beads of sweat began to hang on his cheeks.

"It's really the same as I speculated. Your technique is very odd, but unfortunately, your biggest weakness is your lack of energy. What's the use of a technique that is odd but can't cause damage to the other side!"

Pikkon couldn't see through the magic of Unfettered Instinct, so he came out from the essential angle. Even if he stood there and fight, what was the use of an attack that couldn't cause damage to the opponent?

Pikkon almost directly hit Muiyang's soft spot, which was the fighting style that he had thought out, especially for Muiyang.

"HEAVENLY GOD BEAM !"

"THUNDER SHOCK SURPRISE !"

"TRI-BEAM!"

CLANG! CLANG! CLANG!

One by one, Muiyang's ki waves were inflicted on Pikkon's body. However, they quickly dissipated into mist-like air currents. Under Pikkon's defense, all these attacks lost their effectiveness.

"Is he strengthened in defense?"

Seeing several attacks did not work, Muiyang's body leaned back and flew out several hundred meters, looking at Pikkon across a distance.

The power level of Pikkon might be close to 4 billion. In a full-strength, Muiyang only had 2 billion power levels, and most of his attacks will be useless. At this time, Pikkon could only be attacked by surprise, and a single blow was enough to defeat him.

"It seems that you really have no other way." Pikkon's low voice rang out, and his body suddenly flashed and appeared beside Muiyang.

Pikkon raised his fist, and the riotous energy swung over.

"This type of attack, I learned from Uyamons...."

Muiyang's heart was astonished, already had a judgment. His flashed sharply in succession.

BAM!

Pikkon's fist pierced the air, brushing past the side of Muiyang's cheek. The harsh fist wind was rigid and swift, cutting several scars on Muiyang's cheek.

RUMBLE!!!

Energy enough to destroy a huge star rose on one side of the martial ring, and all the burst of storm slapped on the protective shield's air wall.

Immediately, it was like a block of ice falling into a frying pan, turning into thin airflow in an ear-splitting squeak.

.....

At the Central Area side.

Uyamons's eyes glowed as he watched the battle above the ring, nodding secretly, "Pikkon directly adopted my style of combat, which can indeed bring out a terrifying power..."

"...But can this really defeat Muiyang?"

Uyamons was not very sure. His heart was far more afraid of Muiyang than Pikkon. Pikkon strong was okay, but he had been in Heaven for so many years and had fought with Pikkon. Only this time, he encountered Muiyang, and it gave him a feeling of brightness.

"One power down. Theoretically, it can cause great oppression to the opponent whose power level is lower than their own. However, the body burden is also extremely heavy, not suitable for long-term use by those who have not been exercised. At first glance, it looks like an advantage is taken, but it may not really be an advantage gained."

If a normal fight was to turn on the tap to drain a barrel of water, Uyamons's fight directly lifted the barrel for dumping, which was more powerful. However, the water's capacity in the barrel was limited, and it couldn't support water for too long.

By the same means, unless Pikkon could finish Muiyang in a short time, this type of fight would become messed up instead.

.....

Under the bleachers, Melissa had some nervousness at first. However, after seeing Muiyang dodge the early attacks, a faint smile appeared on her bright face.

"Although such a fighting method has a certain theoretical basis, but it will not work for Muiyang. Muiyang's best skill is technique. The Unfettered Instinct is a martial

arts axiom taught by Whis. The loss itself is less, wait a little longer, Muiyang can take the advantage.”

However, Pikkon was also an experienced martial art practitioner.

After Muiyang dodged the first few rounds of attacks, he quickly realized that such a fighting style did not work and made timely adjustments to revert to the original fighting style when his physical strength was not depleted. This kind of self-destructing attack method put a lot of pressure on Muiyang instead.

‘No one from Heaven was a simple character. Their control and analysis of the battle situation is superb.’

With a secret sigh in his heart, Muiyang had to deal with the attack of Pikkon. Fortunately, he still had the power of the Acceleration World hidden and was not without a bit of resistance.

The battle went on in full swing, and soon half an hour passed, during which time Muiyang and Pikkon did not know how many thousands of times they had exchanged blows.

The flat ring had long since lost a piece of its integrity.

.....

“Unbelievable, their battle actually made the whole space shake.”

“If this shield wasn’t protecting us, we would have been swallowed up by their ki.”

The audience was already shocked by such a fierce battle, and they all shouted enthusiastically.

“MUYANG! MUYANG! MUYANG!”

“PIKKON! PIKKON! PIKKON!”

The audience no longer cared about who won or lost. They enjoyed the fierce battle brought to their hearts and minds, and all the spectators forgot to shout. Their enthusiasm rose one wave after another.

The sound of one voice after another resounded through the venue, pushing the conference to the climax.

Chapter 346

Unlike the jubilation on the floor, the martial arts ring's atmosphere was very depressing at this time. With MUYANG and PIKKON facing each other, their bodies' power rolled over in stronger waves. The light appeared strangely distorted by these majestic energies.

SWOOSH!

Like sharp arrows flying, the two people took a moment to stop and fought together once again. All of a sudden, intense energy rays swept in all directions, and the two fighting parties kept releasing terrifying energy waves.

Countless regal explosions followed the gorgeous light.

BOOM BOOM BOOM!

Even with the shield's barrier, the wave after wave of oppression still greeted the spectators present and immediately pressed down on their hearts like a big drum beating.

"Goo~"

The slightly weaker audience, such as Mutaito and others who were tensing their nerves at the moment. They only felt some dryness in their throats and their bodies unconsciously trembling.

Mutaito's voice trembled as he said to Noah, "It's too strong. Even with the shield, their ki is overwhelming me."

Noah's face was equally unpleasant as he nodded approvingly, his eyes unblinkingly looking above the ring. Although his eyesight had long been unable to see the changes above the ring, he still did not want to move his gaze away.

Sicos and others were also unblinking, unwilling to miss this once-in-a-lifetime battle.

On the other side, Melissa's bright eyes kept following the changes in breath, but the intensity of the battle between MUYANG and PIKKON continued to increase. Even she felt the nerves in her eyes starting to sore.

SWOOSH!

MUYANG dodged PIKKON's attack by side-stepping his body.

"FOUR HOLY PUNCHES!"

Four figures wrapped in silver light suddenly appeared, then in a flash, made the same action. The four MUYANG attacked from four different directions. When they

were close to Pikkon, the four figures put their hands together, and in an instant, a crystal pillar of energy light poured over.

“TRI-BEAM!”

Four sharp pillars of light blocked the front and back of Pikkon. Pikkon saw the situation, and his pupils snapped. He opened his hands at first to prepare to block the attack of the four Tri-Beam, but Pikkon gazed at the attack this time, and the burning energy made his face change.

“Humph!” Pikkon coldly snorted, gave up resisting strongly, and his body fiercely scurried upwards.

At this time –

The four imaginary figures disappeared again as if they had turned into bubbles, and the next second they came together.

“SKY SPLITTING FIST!”

The hard fist blasted forward with an incomparable and terrifying force.

“BACK OFF!” Pikkon roared coldly as his fist collided with Muiyang’s fist in the air. He immediately resembled a star collision, exploding with dazzling light.

Both men had given their all, and the whole field was flooded with raging energy.

.....

“Who will win the battle between Pikkon and Muiyang?” The four Kais looked down with their eyes wide open on the podium of the Martial Arts Tournament.

Truthfully, although the strength of the Kais was not good, their eyesight was good. It was just that when it came to a battle of this magnitude right now, even the Kais could not begin to keep up with the pace.

“Pikkon power level should be similar to the Galaxy Soldier’s boss, Bojack!” South Kai suddenly said.

“It shouldn’t be as strong as Bojack, but it’s much stronger than Bojack’s four men.”

Because the mood was disturbed by the matter of the Prison Planet, the four Kais had not been looking at the tournament results as much as before. Compared to who could win the martial arts tournament’s final championship, they were more concerned about the whereabouts of the five people who escaped from the Prison Planet.

“That Muiyang is not simple. Obviously, the power level is so much lower than Pikkon, but he can fight with Pikkon to this extent... He may be able to defeat those Galaxy Soldiers. Did you guys see what kind of martial arts he actually used? His skill gives a very profound feeling.”

Several Kais shook their heads.

“That Dimension Level is really strange. It seems he’s a Level 5 Dimension like us!” The East Kai suddenly said.

“Ah, I really didn’t notice it.” South Kai was a little surprised.

At this time, North Kai picked up a teacup and took a sip of tea, and the corners of his mouth curled up, “Muyang is the ace of the North Area. I’m not afraid to scare you by saying it. He is someone who is valued by Lord Beerus, the God of Destruction, and had been well-received training in the place where Lord Beerus lives.”

North Kai already knew that Muiyang had “received” good food and drink in the God of Destruction Planet. At that time, Muiyang’s original words were, “Thanks to the recognition of Beerus and Whis, I was invited to the God of Destruction Planet to train.... in the God of Destruction Planet, I was treated with good food and drink....”

Wasn’t this the unusual thing about Muiyang?

To be able to be valued by Lord Beerus was why North Kai especially believed in Muiyang. The result also confirmed North Kai’s suspicions, Muiyang’s progress speed was really beyond imagination, worthy of being a person valued by the God of Destruction.

Several Kais just heard about this for the first time, and when they heard that God of Destruction Beerus valued Muiyang, they got up from their seats at that time.

“North Kai, the God of Destruction, Lord Beerus, you said, is that the ..” South Kai couldn’t hide the shock in his heart.

North Kai nodded with tears in his eyes, “It is the God of Destruction who destroyed my planet.”

Hiss!

Several Kais could not help but suck in a breath of cold air. The gaze towards Muiyang became different. He was a master, simply a godman.

“No wonder the difference in energy with Pikkon was so much. Turned out, he could still fight to this extent because he was taken care of by Lord God of Destruction.”

The three Kais looked at North Kai enviously. If the Galaxy’s World of the Living also had masters like Muiyang and Melissa, why worry about those few Galaxy Soldiers and the threat of Loomu?

Grand Kai’s expression was also a bit surprised and nodded, “So it’s from the attention of Lord Beerus, the God of Destruction. No wonder he was able to become stronger for a short time.”

“North Kai is really lucky.”

“So envious of the stability of North Area.”

“Hey, you guys can’t envy it. From today onwards, I can rest on my laurels in the North Area.”

North Kai was so pleased by the idea of being able to rest on his laurels. However, if he knew that in a few decades, the terrifying Super Saiyan, Androids, Majin Buu, and even God of Destruction Beerus would appear in his North Area. Could he still be proud of himself?

He would be in tears.

Back to the topic. When the Kais were considering how to calm the Prison Planet’s storm with the power of Muiyang, the spacious martial arts ring was showing through the smoke.

.....

At this time, both Muiyang and Pikkon’s bodies were covered with wounds.

One of Muiyang’s arms was hanging down, showing a weird twist, and blood flowed out from the injury.

On the other side, Pikkon was not in a good state either. His whole body was half-kneeling on the ground; half of his body was sunk into the rocks.

“Cough cough, there is actually a master like you among the World of Living...” Pikkon coughed and wiped the blood from the corner of his mouth.

“You are not bad either. You will receive my strongest blow next.” Muiyang forced his body to endure the pain of injuries. His eyes were half-open and half-closed with difficulty, and his state was even worse than Pikkon.

“Cough... After all, I didn’t spend all these years in Heaven for nothing.” Pikkon grinned. He wondered how this guy trained. How could he hone such a strong power in the World of Living? Without training in Heaven, he was no match for Muiyang.

This was especially true when the opponent’s ki was so much lower than his own, yet he could still beat himself to a draw. If the Ki were the same, he was afraid he wouldn’t resist a few moves. It seemed that his training was still not enough!

“I feel excited to meet you. It seems that there is one more opponent that I recognize.” Pikkon said seriously.

“I’m honored!” Muiyang said properly.

After thinking for a moment, Pikkon did not intend to continue the match, “You won this match.”

After saying that, Pikkon looked deeply at Muiyang and walked down from the martial stage.

He lost to Muiyang, not because Muiyang defeated him, but he felt fighting someone whose strength was so much lower than he was already a defeat in itself.

Pikkon was very persistent in the pursuit of martial arts; he was not afraid of failure. Failure was an incentive for him.

Being able to meet opponents like Muiyang and Uiyamons was a blessing in itself.

When he heard Pikkon concede defeat, Muiyang was dumbfounded. Then, a smile appeared on his face, and he nodded towards Pikkon. He then walked out of the ring to use Senzu Beans to heal his wounds.

“You actually admit defeat?” Uiyamons walked up to Pikkon and said with a smirk.

Pikkon looked at him and said indifferently, “There’s nothing surprising. Muiyang is a very powerful opponent, and I dare to say that if he hadn’t limited his power, he could just defeat us with a little bit more boost.”

“Maybe so, but right now, he is not my opponent yet, so the championship is mine.”

Uiyamons was calm and confident.

Seeing this, Pikkon did not retort and shrugged, “You can only be complacent for a while. Even if you win the championship this time, who knows what the result will be when we meet next time.”

“.....”

Uyamons was stunned for a moment and said, “I will also continue to get stronger.”

“You’re quite confident.”

Pikkon smiled. His eyes flicked over Muyang and Uyamons’s body, and it became steely. Next, he would start a more rigid training until he could defeat the two people in front of him.

.....

The following was the second match of the semi-finals, which was the battle between Melissa and Uyamons. Both of them were brutal and wild types, good at crushing by strength. However, compared to the heavy and calm of Uyamons, Melissa was much lighter, and her power level was also a cut above.

Looking at Melissa’s bitter face, Muyang smiled, “Go on, it’s your turn to play.”

“That Uyamons is so strong, I don’t have confidence....,” Melissa bit her lower lip.

“This is not like the usual you. The Melissa I know is quite high and cold.”

“I usually can still distinguish the minimum strength and weakness... But that Uyamons... I can’t see through at all. Humph, I’m sure I’m going to lose when I go up there later.”

Although said so, Melissa still a pedal. Her delicate and light body leaped out of the ring.

.....

“Melissa....” Uyamons chuckled, “Are you Muyang’s wife?”

“Humph! So what if I am?” Melissa raised her eyes as if she would face the verdict and let go of her hands and feet solicitously.

“Oh, I won’t show mercy just because of who you are. ”

“Let your horses go.”

The semi-final match only lasted for ten minutes and was quite exciting, but Melissa was indeed much inferior to Uyamons. Even if she exploded with her full power as a Legendary Super Saiyan, she was still no match for Uyamons. In the end, she was regrettably lost to Uyamons.

This taught Melissa, a Legendary Super Saiyan, to feel ashamed of herself as a Legendary Super Saiyan with her face burning.

.....

At this point in the competition, the next was the final. The battle between MUYANG and UYAMONS would finally begin.

At this point, the ranking of the four pieces of the galaxy had come out.

East Area had one person stays in the top sixteen, and two people advance to the top eight. According to the competition rules, one point for the top sixteen, 2 points for the top eight, and 4 points for the top four, the final total points were 5.

South Area had one person entered the top sixteen, and one person entered the top eight, so the total points were 3.

Next, West Area had two people in the top sixteen and one in the top four, and the total points were 6.

North Area had two people in the top sixteen and two (MUYANG and MELISSA) in the top four. Even if MUYANG lost the next final, their total points would be at least 14, and they would be firmly locked in the top spot of the four galaxies.

The Central Area had two people stopping in the top 16. One person at the top 8 and only one person (UYAMONS) entered the final.

If MUYANG won the final, the North Area would have 22 points, exceeding the Central Area by 12 points. If not, the North Area would have 14 points; the Central Area would have 20 points, The Central Area would still be in the lead.

It could be said that the final match was directly related to the height that the North Area could reach.

To be reasonable, North Area's achievement in this Heaven Martial Arts Tournament had already satisfied North Kai.

The battle began in full swing, and the final was the most significant explosive point of the entire martial arts meeting. The whole audience cheered for this grand competition and took out all their enthusiasm.

.....

Most of the people of Heaven didn't know what was going on, in the Lower Realm, at the border of the East and North Areas, the area that belonged to Slug's rule, at the time when the Heaven Martial Arts Tournament was in full swing.

The universe was vast, and the stars were shining.

Less than a few light-years away from Planet Munster, where the Tree of Might was discovered in a remote starfield was found, a white spherical behemoth was rapidly weaving through the vast starry sky.

On the white frosty spherical surface, numerous gut-wrenching deep gun ports were revealed by pits.

Next to it were neatly curled up rows and rows of numbingly numerous battle droids, with red beacons flashing at their heads, which would swoop down on its enemies like locusts at a command.

This giant behemoth was the Spaceship of Big Gete Star Lifeform. The whole white giant was like a medium-sized planet. Whenever it encountered a suitable planet, it would open its giant net and seize the resources above the planet.

It was an all-metal life form, not fixed in shape, but each body's neural network was connected and shared a database, a rare life form in the universe.

At this moment, located in the center of the white star, a giant about a thousand meters tall with its eyes tightly closed, its body connected to countless pipelines, connected to the ship's various systems.

“Hull 25454 reporting: No trace of powerful life searched in the eastern direction.”

“Hull 68241 reporting: No traces of powerful life searched in the southeast direction.”

“Hull 95234 reported: Powerful energy was found in the northwest direction, being screened.... compared with the database, the lifeform is a Demon Beast Yakon, with a power level of 30 million, in line with the capture requirements.”

The huge metal lifeform in the center snapped open its eyes, and green electric light flashed from its eyes, “Capture immediately.”

Just as the command was given, the huge Big Gete Star began to change its direction and headed towards the northwest direction where the magical Demon Beast Yakon was found, while countless Battle Robots on the surface of the star began to break away from the start and head towards the northwest in droves.

“Lord Loomu....”

A signal pierced through the vast starry sky and was transmitted with peculiar fluctuations to a low-level planet above.

.....

In a cavern on Planet Yellowstone, a black phantom sat in front of a campfire.

“What’s the matter?” The phantom named Loomu said in a low voice.

Loomu’s race was the phantom race without a specific body. It was not decisive, but it could control others through black magic and was a special kind of life that was extremely difficult to deal with.

“A powerful life response was found at the North and East Areas junction and was determined to be the Demon Beast Yakon.”

“Demon Beast Yakon... is it a foreign beast from the Dark Planet that can devour energy light?” Loomu passed the signal out with a sullen face.

“Yes.”

“What is the approximate energy of this Demon Beast?”

“30 million.”

Once Loomu heard it, he stroked his chin and smiled, “30 million power level is not low. Now my men are exactly short of such props. I order you to immediately capture the Demon Beast Yakon. I allow you to use technology to transform the Demon Beast. I need more and stronger combatants.”

“Comply with orders, data adjustment, begin to develop the Demon Beast transformation plan...”

Hearing the voice from the other end of the signal, Loomu coldly smiled. He just escaped from the Prison Planet, his ability had not yet fully recovered, but the thought that he would soon have a group of powerful men, he could not help but become soothed.

“If those few Galaxy Soldiers were willing to cooperate with me, the whole galaxy would be my world. However, they are all hiding somewhere now.”

“Obviously, they escaped from the Prison Planet together.”

Thinking of Zangya and the others, Loomu couldn’t help but feel a little regretful. If he could get the Galaxy Soldiers’ assistance, why would he need to hide his whereabouts carefully?

Chapter 348

The phantom Loomu had the Dark Magic of Mind Control. In terms of real strength, it was far inferior to Zangya. However, in terms of hazards, the two were comparable. Under the control of Dark Magic, Loomu was soon able to pull together a team that was threatening enough.

After leaving the Prison Planet, Loomu kept a low profile, intending to work with Zangya and the others for greater ambition. However, Zangya and the others did not appreciate him. After leaving the Prison Planet, they were nowhere to be found, perhaps having gone to their boss, Bojack.

Without the cover of these strong men, Loomu naturally had to hide more carefully. Even now that he had taken control of the Big Gate Star, he had no idea of going from behind the scenes to the front.

It was only right to develop indecently, slowly build up strength and bide one's time.

Like some pretentious and stupid people, who started to wave from the beginning, that was the real self-seeking death and would definitely be eradicated by the Gods at the top in the first place.

Loomu thought he had enough patience and could wait for his team to grow gradually.

“When Big Gete Star captures Demon Beast Yakon, and combine it with the Big Gete Star' technology for transformation, soon we can use the flesh and blood of the Demon Beast Yakon to create a powerful demon army. When the army passes, all the places are my territory. Even Kai can not stop my path of domination.”

Loomu's face was fierce, and a cold smile surfaced on his face.

The bonfire in the cavern was bright and dark. The sparks crackled, and Liomu's figure gradually became illusory, then lurked into the gloom, absorbing the energy of Planet Yellowstone little by little.

Meanwhile, on the other side of the distant starry sky, the Big Gete Star lifeforms' giant spaceship quickly traversed the universe.

After receiving the instructions from Loomu, the Big Gete Star giant machine began to calculate at high speed. It controlled countless battle droids to track down the Demon Beast Yakon's whereabouts while building the details of the “demon plan” with its extremely high computing power processor.

After a few astronomical units away, the sky was filled with mechs emitting a metallic glow, as if a metallic cloud was drifting in the universe, surging towards a light red planet.

“Coordinates have been determined, current location... High-Level Planet.”

“Demon Beast Yakon went away, at a distance of three thousand kilometers away.”

“Start capturing!”

A series of commands were given, and swarms of Battle Robots swarmed to the neatly lined up in column after column with black shadows that blocked almost the entire starry sky.

BOOM!

A blaze of fire shot up into the sky, and the first time the Battle Robots of the Big Gete Star discovered the traces of the Demon Beast. They unleashed their Energy Ball. Thousands of meters in circumference were instantly destroyed, smoke rose, and the blazing heat turned the earth directly into a molten state.

The Demon Beast Yakon, which was previously asleep, was awakened by the great commotion and instinctively shielded its body with energy. When it came to its senses and saw the dense technological creations in front of it, the Demon Beast Yakon let out an angry roar.

“ROAR!!!”

Rolling hot energy was thrown out, dissolving everything in front of it.

The energy released by the robot failed to hurt it but instead ignited the anger in its heart. The Demon Beast Yakon opened its arms like a scythe, and the terrifying energy of up to 30 million was instantly unleashed, destroying hundreds of mechs at the front of the line directly into the powder.

Buzz!!

“Warning, high energy response ahead.”

“Change capture strategy, use bio-virus!”

The Big Get Star Battle Robots share a database pathway. What happened ahead was first transmitted to the entire data network. The Big Get Star Lifeforms immediately switched to using a virus to capture the Demon Beast Yakon.

“Hey, If you want to capture this master, you are looking for death.”

The Demon Beast Yakon's eyes gurgled and opened its bloody mouth, biting a mech and tearing it to pieces, "Blah blah blah. What a thing, no energy at all."

"That's a lot of... roar!!!"

The glued energy sprayed out and turned into atomized energy streams in the air. These energy streams contain extremely strong corrosive, almost stained with a little even metal can easily dissolve. Although the Big Gete Star Robot's body had a special material, it couldn't carry the Demon Beast Yakon's energy erosion exceeding the specifications. A large part of the mecha became cosmic garbage.

However, Big Gete Star had too many robots, and densely packed would never be finished.

"Tired old man, do not play with you guys. Follow the destruction of this planet together!"

After a while, the Demon Beast Yakon found that the number of the opponent was endless. So, he destroyed the whole planet together.

Splash Mercury was a High-Level Planet. The primitive natives living on it were, to put it bluntly, the food bred by the Demon Beast Yakon. Although the energy was small, it could provide it with a bit of energy from time to time to fight for its teeth.

"It's a pity that the planet is full of oil and water." A few hints of regret flowed from the eyes, and the Demon Beast Yakon quickly spat out the energy ball indifferently.

RUMBLE!

A great explosion for the ages occurred in the deep universe. A roar shook the starry sky, and the huge planet swelled into a big, gorgeous ball of fire. The High-Level Planet Mercury ended its existence, and together with the countless lives on it, it also turned into dust in the universe.

"Hahahaha, all dead!"

The Demon Beast Yakon went floating in space, looking around only the remains of the planet fragments. There was a bloodthirsty maniacal laugh, but soon the Demon Beast Yakon's smile froze.

Not far from it, a frosty white planet was slowly approaching. The energy flowing from the huge cannon excited it.

"That's a lot of high-quality energy." Demon Beast Yakon's eyes glowed, but halfway to the flight, the Demon Beast Yakon stopped again.

“No, there is danger. This energy is too strong; I can’t swallow... I have to go!”

This Demon Beast Yakon was extremely wise, unlike the original Yakon that rashly lunged towards the energy cannon but chose to retreat halfway. Greed wasn’t enough to swallow the elephant; too much energy would kill you.

The Big Gete Star Lifeform saw that the Demon Beast Yakon had left the battlefield and naturally pursued closely. Both sides fought and stopped, approaching towards the North Area. The Demon Beast Yakon had destroyed countless Big Gete Star mechs along the way, but the greatest feature of technological creations was their ability to replicate on a large scale.

A constant stream of mechs pounced on the Demon Beast Yakon. Over time, even the Demon Beast Yakon was feeling tired.

.....

At this time, the last final match of the Heaven Martial Arts Tournament was nearing its end.

On the ring, two figures stand on each other.

The breathing was both awe-inspiring and stern.

The entire ring was hardly intact, with gullies spreading beneath their feet. At this moment, the surrounding audience knew that the battle had reached the most critical time. They all lowered their shouting voices and held their breath as they watched the ring with rapt attention.

“You are very strong. You really did not let me down.” Uyamons suddenly spoke, looking seriously at his opponent in front of him, “But the victory in this match belongs to me.”

Muyang grinned and looked at him coldly.

“Your physical ability is really sick. With such reckless release of energy, your body can actually still carry it.”

“Haha, Pikkon once said so...”

“.....”

He could see that Uyamons was quite narcissistic.

“Kid, let’s engage in a few more hands to end this fight.”

“Good!”

Muyang responded and looked at Uyamons with a grave expression. He was indeed intimidated by that inhuman physique and strength.

He had to admit that in terms of strength, Muyang was indeed not a match for Uyamons. At least at this stage, without using the Acceleration World Divine Power, all his attacks would not greatly affect Uyamons.

Muyang guessed that Uyamons's power might be about to reach the level of Super Perfect Cell.

That was already at the level of Super Saiyan 2.

Muyang knew that although he had mastered the use of some Unfettered Instinct, he was indeed too far behind Uyamons in terms of strength.

For the victory of this game, he no longer expects too much. He couldn't always win in life and occasionally lose a few games to see his flaws better.

Next, let him put aside the expectation of victory and enjoy the thrill of battle.

PHEW!

Both sides began a new round of battle.

.....

"Huh, the rhythm of their battle has changed."

Below the stage, Melissa's eyes widened.

"It's become sharper, but it also seems.. become friendlier. I can't figure it out!" She shook her head repeatedly.

"This is...." Grand Kai was surprised, then laughed, "Uyamons, are you finally getting serious now?"

"Grand Kai, are you saying that before, Uyamons had been holding back?" North Kai said in horror.

Grand Kai nodded, "That's right. It's only now that Uyamons is truly using his full strength!"

"It's actually... so terrifying."

Several Kais looked at each other. They really could not imagine that Grand Kai actually still had such a trump card pinched in his hand.

"It turns out that Grand Kai has long held the championship in his hands."

'How treacherous!' Several Kais thought at the same time.

"Hahahaha...." Grand Kai laughed out loud.

"Is this the real strength of Uyamons?"

In the audience, Pikkon's eyes shone with a sophisticated expression.

.....

BANG!

Just at this moment, a boom rang out from the ring.

Under Uyamons's bold attack, Muyang's body's energy was gradually depleted, and his face became tired.

"HEAVENLY GOD BEAM!"

Fierce energy erupted out.

After another match with Uyamons, Muyang summoned his whole body energy to condense his attack into a single point. However, in the end, he was unable to match Uyamons and unfortunately lost this last match.

Tick!

"Now I announce that the winner of the final match is Uyamons from Central Area Heaven, and the runner-up is Muyang from North Area World of the Living!"

With the referee's whistle sounding, the Heaven Martial Arts Tournament finally came to an end.

Chapter 349

After a short period of calm, the scene then broke out into thunderous cheers.

Although Muyang lost and came in second, the result of the competition was a remarkable achievement in the total points. The runner-up could get 8 points, so the final total score of the North Area was 14 points, much higher than the scores of the other three galaxies. Despite the defeat, the North Kai's face was already smiling crookedly at this time.

"Although there is a little pity that Muyang did not win the championship in the end, such a score is already very good." North Kai sighed in mock regret, but in his heart, he was overjoyed.

The remaining three Kais didn't know that North Kai was trying to show off himself, so they simply turned around and chatted with each other, ignoring him directly.

The topic of conversation was just about the Prison Planet. The results of the Martial Arts Tournament had already been expected, so they were not surprised. At this point, they were more concerned about the whereabouts of Zangya and Loomu, who had escaped from the Prison Planet.

"You are nakedly jealous!" Seeing their behavior, North Kai was a bit angry in his heart, but then he thought of something and became smug again.

.....

Amid the crowd, Grand Kai stood up from the podium. His majestic figure was standing there, and the whole audience suddenly quieted down, waiting with bated breath for Grand Kai's speech.

"Everyone, this wonderful Martial Arts Tournament has ended. I think everyone is satisfied with the whole process of the tournament. Now I will honor my previous promise and reward the winners of the tournament."

"Uyamons." Grand Kai called out.

"Grand Kai!"

The stoutly built Uyamons' body flashed and came directly to Grand Kai's heels.

Grand Kai revealed a benevolent smile and said, "As the champion of this Martial Arts Tournament, you will receive my personal instruction. However, considering your strength, this little reward may be insignificant to you, so I will additionally grant you a separate training planet."

"If you have any requirements for the training environment of this planet, just say so, and I will mobilize the people of the Heaven to satisfy you as much as possible."

What Grand Kai was most proud of was those secret chambers for his training. He now decided to create one specifically for Uyamons according to his request. Granting a Heaven Planet alone, this was a big reward, and Uyamons was certainly satisfied.

"I just want a planet that can continue to strengthen my body." Uyamons laughed out loud.

“Well, is that the request? I will discuss with the Yardratians in the Heaven afterward and try to meet your request.”

“Thank you, Grand Kai!” Uyamons said contentedly.

Grand Kai nodded his head, and his eyes turned to Muiyang’s body. The champion had already given the necessary reward; the runner-up was naturally no exception. However, considering that Muiyang was not from Heaven, it seemed inappropriate to gift the Heavenly Planet.

Wrinkling his brows in thought for a while, Grand Kai suddenly remembered one thing.

“Muiyang...”

Grand Kai gave a summons, and Muiyang also teleported to Grand Kai’s side.

“For you, any reward is inappropriate, but I have exactly one thing here, which can be a gift for you.”

After saying that, Grand Kai’s dry and thin palm slashed in the void, and a vast starry sky scene appeared out of thin air.

The deep and quiet cosmic starry sky was twinkling with stars, and the disc-shaped spiral star rivers were countless light-years apart, but they were like one with each other to form a glorious big picture of the universe. When the line of sight is gradually drawn closer, the spiral galaxy was also gradually enlarged, a giant red or yellow or blue stars from the sides of a flash.

Finally, the picture rested on an orange-red planet above.

It was a lonely starry sky, empty around, not even much light. However, at this time, there was a wandering planet out of the star system floating there.

“This planet, could it be....” Muiyang looked at the appearance of the planet on the screen, and his expression was stunned.

This planet was glazed, bigger than the average planet. The most important thing was that the middle of this planet was inlaid with three hot gold bright red five-pointed stars.

He was too familiar with the look of this planet.

‘Is it another Super Dragon Ball?’

Grand Kai laughed loudly, “Doesn’t it feel familiar? I found it on my way back after attending a gathering of Grand Kai in another galaxy.”

“When I first saw it, I was surprised. I didn’t think there was a planet in the universe that was so similar to Planet Namek Dragon Ball. Even I was amazed by the ghostly work of nature. Perhaps Planet Namek ancestors’ configuration of the appearance of the Dragon Ball was derived from this object.”

It was not the Planet Namek Dragon Ball’s appearance outside the configuration of the reference to the Super Dragon Ball, but the entire function was a copy of the Super Dragon Ball.

Super Dragon Ball was the original version of the Dragon Ball, followed by the Planet Namek Dragon Ball and the Earth Dragon Ball, all of which were copies of the Super Dragon Ball. Even the ability was downgraded.

Grand Kai obviously didn’t know this.

“As a reward for the Martial Arts Tournament, I’ll give you this planet. Although this one has no great purpose, it’s rare and collectible.” Grand Kai said generously.

This was a Super Dragon Ball!

Only four of them existed in the entire Universe 7, and they even treated the Super Dragon Ball as an ornamental object.

Muyang was stunned in his heart. Looking at Grand Kai’s expression, it was evident that Grand Kai did not know about the Super Dragon Ball.

After settling his mind, Muyang immediately accepted Grand Kai’s reward.

He didn’t look for them because there were three more in universe 6, and he couldn’t get them together with his current ability, so he didn’t search for them.

Although this reward was dispensable to him, now, since Grand Kai offered the Super Dragon Ball as a reward, of course, Muyang would not refuse it.

“Many thanks to Grand Kai.”

“No big deal. Do you want me to have someone send this planet to the planet where you live?” Grand Kai asked with concern.

Muyang politely declined Grand Kai’s kindness, “That’s not necessary. Grand Kai, just tell me the coordinates. I will figure it out myself.”

Grand Kai nodded his head in understanding, “Well, to be appreciated by God of Destruction, it is indeed not difficult for you to move a planet.”

“?”

Muyang was puzzled. He did not know that North Kai had already shaken out all the information he thought he knew.

Next, Grand Kai gave appropriate rewards to those who won the top four and top eight. He announced the official end of the Heaven Martial Arts Tournament. Once again, the whole audience resounded with fierce applause.

Whether it was Muyang or Uyamons, they were all amazingly strong and worthy of their worship and admiration for the audience.

The Martial Arts Tournament ended in a lively atmosphere.

After everyone left, the whole meteorite was sealed away to await the start of the next Martial Arts Tournament.

.....

“Grand Kai would actually give you a Super Dragon Ball!”

Melissa stood with her head cocked at Muyang’s side, a bright and pretty face dripping with smiles.

Muyang also found it interesting and laughed, “I didn’t expect that there was already a One-Star Dragon Ball and a Five-Star Dragon Ball in the Acceleration World. Together with this Three-Star Dragon Ball, we are close to collecting all the Super Dragon Balls in Universe 7.”

Universe 7 had a Four-Star Dragon Ball, located in the middle of a void of space in the universe. The entire Dragon Ball seemed to be like Planet Ampera, covered with cosmic dust and particles. The original Universe 7 God of Destruction Beerus and Universe 6 God of Destruction Champa had held a tournament there. Until the end of the tournament, Super Dragon Ball revealed its true appearance.

For the Super Dragon Balls, Muyang was not deliberately pursuing them now, but they always seem to appear in front of him automatically.

‘Could it be that I have the constitution to attract Super Dragon Balls?’

It was a bit ridiculous to think about it. Muyang shook his head and put this absurd thought away.

Next, Muyang and Melissa did not leave Heaven right away but planned to take this time to properly communicate with the masters of Heaven, especially Uyamons and Pikkon. He felt he had a lot to communicate with them.

This Martial Arts Tournament was an excellent motivation for Muiyang, especially when he realized the “Unfettered Instinct” during the battle.

This was a huge leap, meaning that Muiyang’s martial arts had left the stage of pure energy competition and reached a higher realm level.

Originally, with a 2 billion power level, it would have been rare for him to enter the top four like Melissa. When he met an opponent like Pikkon, it was unlikely that he would win. However, the Unfettered Instinct’s comprehension allowed him to have a strength comparable to that of Pikkon.

Chapter 350

When they came outside, Kerter, Dofira, and others from the North Area had been waiting there for a long time. When they saw Muiyang and Melissa coming out, they gathered around and said goodbye to them.

“Muiyang, Melissa, come and visit my planet sometime in the future.” The World of the Living contestant, Jieke, issued a request to Muiyang.

Jieke was the ruler of a High-Level Planet in the North Area. Although he had long since stopped meddling in the management affairs of the planet, he was like a guardian on his planet.

“I will go when I have the chance,” Muiyang said with a smile.

After they paid their respects and they left, Mutaito, Noah, Sicos, and others also came forward. After some friendly conversation, they also said goodbye in turn.

Next, Muiyang first took Melissa to visit Pikkon.

After a few days, he found Uyamons with Pikkon. At this time, Uyamons was inspecting the artificial planet he got from Grand Kai. When he saw that Muiyang, Melissa, and Pikkon were all visiting, he was excited to show them the training environment on this planet.

Later on, they stayed in Heaven for some time.

During that time, Muiyang, Pikkon, and Uyamons had an in-depth exchange on training problems. The two of them, who felt that they had gained a lot, were satisfied and planned to leave.

.....

Just after leaving Heavenly, a dazzling white light lit up Melissa’s body, and her body split into two people, Melia and Melis.

This was the longest time that the two of them had been together. From the time they entered Heaven to the time they left, a total of several years, which was considered to have pushed the Fusion Technique's time to a new level.

When you think about it, Melissa's body was quite strong. Even if she was pregnant, she should be able to support the child until it was born without any problems.

Melia and Melis hadn't been pregnant, so how about trying to get Melissa pregnant?

The two women gave him a blank look and said, "Muyang is a true daring thinker."

Their hearts were quite impressed. When they recovered their spirits, they could try it sometime. They were so old that it was a bit wrong to have no children at all.

After frolicking around for a while, Muyang searched for information about the planet where the Super Dragon Ball was located according to the star map given to him by Grand Kai, but the distance was too far, and Muyang needed to carefully screen the information.

When he opened his eyes again, he had already planned the route, followed by finding the right direction, and began to sense the ki.

"You guys hold onto my hand."

When Muyang finished speaking, Melia and Melis leaned over. Each person grabbed Muyang's palm with one hand, a refreshing fragrance wafted over, and the spirit was immediately cleared.

The three of them were distorted and left the original space.

Planet Yardart's Instant Transmission was a little bad. Every time you use it, you needed to sense the ki in the distance. If you were searching for energy-free objects like the Super Dragonball, you could only know the location beforehand and then search for the ki nearby to move instantly, which was actually very inconvenient.

.....

Earth.

In the laboratory filled with green and blue vessels, the indicator lights of the instruments blinked on and off. The central air conditioner whistled, regulating the temperature of the entire laboratory.

In front of the test bench, the brown-haired girl in a white lab coat carefully drew a section of solution from the vessel and injected it into another larger container.

The large container was filled with green solution, and inside floated an opaque black stone. On it was one of the three black stones that April had carried around since she was a child.

After the solution was injected, the green liquid in the container suddenly tumbled violently, generating a series of bubbles...

April observed the phenomenon in front of her through the instrument and carefully recorded the experimental data.

“Solution conductivity all normal, found a little discharge phenomenon. The overall system appeared a trace of rise.... spectral analysis no obvious microwave radiation. The surface temperature is close to the natural temperature....”

At this time, a wave peak appeared. April looked at it in surprise and hurriedly operated the computer to collect the data. She then recorded the obtained data into her notebook, chewing on a pencil while thinking and making complex calculations.

After a long time, April put down the pencil in her hand, sat on top of the soft seat, and closed her eyes to think.

“How can this be? There’s no extra energy added to the system during the experiment, so where did this extra energy calculated by the theory come from?”

Although it was only a tiny amount of energy, this phenomenon could not be explained by existing theories.

“Is there a principle of action that I don’t know about?” April was filled with confusion.

Energy could neither arise nor disappear out of thin air. It could only be transformed from one form to another or transferred from one object to another. In the process of transfer and transformation, the total amount of energy remained the same.

This was the theorem of energy conservation.

This theory taught us that the energy of all things in the World was conserved within a large system. There was no machine that did not consume any energy but could continuously do work externally.

However, the current experimental phenomenon violates this law. The output energy was traceably higher than the input energy. No even slight mass loss was

observed, so what about perpetual motion? It completely exceeds the first law of thermodynamics.

“No, this newly generated energy is confined within a very small microscopic scale, beyond which it disappears. There must be a mechanism I do not know that plays a role in the experiment.”

April's blue eyes lit up, and the appearance of this new energy meant that her experiment had entered uncharted territory. If she continued to experiment, she might be able to make remarkable discoveries that would be a great boost to her further research on cyborgs.

Imagine how great it would be if androids were no longer bothered about the source of power, and the function of the organism was no longer limited by energy!

Taking off her white lab coat to reveal the tight blue and red dress inside, April grabbed the phone and contacted Gero and Dr. Brief.

‘I have to tell them about this discovery.’

When April's father left her a total of three such black stones, April was alone in the early years of research. Later on, as the research progressed, the research difficulty continued to increase. Hence why she asked Gero and Dr. Brief to join in. The three had one black stone each and were doing different experiments.

.....

The Research Center at Capsule Corporation was located on the outskirts of the West City, at a distance from the Capsule Headquarters. It was one of the many research and development centers that the Universal Capsule Corporation had invested in.

Knock knock-

The door of the Research Center Management Department was knocked on.

“Please come in.”

Dr. Bilinda, who was responsible for the daily management of the Research Center Management Department, lowered her head while formulating research reports and shouted towards the door. Through the blinds, she could see the orderly work situation outside.

The door opened, and a young lady with blonde hair walked in.

“Researcher Cyril, what can I do for you?” Dr. Bilinda saw the lady who entered, and a smile appeared on her face.

The blonde woman named Cyril held out her slightly bulging curved stomach and said shyly, “Dr. Bilinda, I’m here to resign. My husband Nick thinks I should go home now to recuperate in peace...”

Dr. Billinda’s eyes fell on Cyril’s bulging belly and persuaded, “I can understand you, but the Research Center of Capsule Corporation is the most promising institute in the World. If you leave here, it won’t be so easy to find such a good unit again.”

“I know that, but my husband thinks he can work alone and wants me to go back to rest in peace.” The blonde woman’s voice was soft, and her face was full of happiness.

“Your husband does love you.” Dr. Bilinda smiled a little.

After a bit of persuasion and seeing that the other side’s mind was made up, she signed her name very dryly on the top of the application form rustling.

“If you want to come back in the future, you are always welcome here, researcher Cyril.”

“Thank you!” Cyril, the blonde woman, said coyly.

After thanking the head of the Research Center of Capsule Corporation, Cyril went back to pack up her belongings, put them all into the blank universal capsule, and then left her office with her satchel.

.....

Today, the Capsule Corporation has penetrated into thousands of households, involving hundreds of millions of economically well-off people’s clothing, food, and living.

Without the Capsule Corporation, life would become inconvenient.

“Oops...”

When walking around the corner, she almost collided with a guy with a cigarette across the street. Cyril protected her stomach and retreated to the side, “Oh my God, this person... Oops, it’s Dr. Brief!”

Dr. Brief was still pondering the question on his mind when he heard someone call him before he looked up in confusion.

“Sorry, I was just thinking about a problem and almost bumped into you.”

“No, it's okay.” Cyril shook her head.

Dr. Brief was a big figure in today's society. The reason why Earthling's habits had changed was due to the Capsule Corporation technology invented by him, Dr. April, and the others.

These people were her idols, and it was usually difficult to see them.

Dr. Brief rarely came to this institute, and she did not expect to meet Dr. Brief this time. She actually almost collided with him. It was good that both sides were not injured.

She was considering whether to say something to apologize, but she saw that Dr. Brief was actually staring at her face. Cyril was puzzled, “Dr. Brief, does something bother you?”

Brief looked back and shook his head, “Nothing, you go ahead and get busy!”

Cyril nodded, walked past Brief, and quickly took the elevator from another corner to leave the Research Center Management Department.

“Strange. Her face is so familiar; where have I seen it before...”

Brief stood in the same place and thought for a long time but could not remember.
