

Ball God 531

Chapter 531

Muyang's family had a very close relationship with the Sipriel family. The children of the two families were raised almost at the same time when they were young. The time that Sipriel took Muqiu and the others was even more than Muyang and the others. Therefore, after April clarified their relationship, the problem was naturally not big.

Although Lapis and the others were not even twenty years old, in the Dragon Ball World, it was common to get married early. There were also many parents who were eighteen or nineteen years old. Since they had already decided to be together, of course, they should get married early and then go out independently.

When the idea was set, the parents of both sides hit it off, and the matter was settled.

As for the details, of course, Muyang and the others needed to carefully decide, but with the experience of Broly and Launch before, Muyang and the others did not mess up.

On the same day, the news was transmitted to the higher-ups of the Kami School. When the elders, such as Isaac, Alice, Clarissa, heard the news, they were all overjoyed. They simply took over most of the matters and busied themselves on behalf of Muqiu and the others. There was no need for Muyang and the others to interfere in the entire process.

Soon, two brand-new small buildings began to work not far from Muyang's villa. Isaac worked hard to command the construction team to do their homework, and the scene was bustling with activity. On the contrary, Muqiu and Lazuli, who were preparing to get married, were put aside.

In a gazebo at the foothills.

Android 18, dressed in a light blue shirt, leaned on a chair at the side in boredom, one foot on a stone bench. "It's just a marriage. Is there a need to make such a big fuss..."

She glanced at Muqiu and Lazuli with disdain. Android 18 smelled a sour smell. She turned to Lazuli and asked, "Hey, where do our parents live in this world?"

Lazuli was in a good mood recently, so she did not compete with Android 18. "They live on the islands in the south. The address is 1060 in the South... Do you want to see them?"

Android 18 said, "Let's go take a look. In my world, they passed away when I was very young."

Muqiu said, "Do you want us to accompany you?"

Android 18 said indifferently, "No need. You should stay with you Lazuli."

After saying that, Android 18 flew away, leaving Muqiu and Lazuli behind. Lazuli pursed her lips. "I think it is a mistake to bring her here. Do you think she will use my identity to stir up trouble with my parents?"

Muqiu said, "The two of you are clearly the same person. Why can't you get along well?"

Lapis chuckled. "Who told her to make me unhappy every time!"

Muqiu shook his head.

In fact, when Android 18 went to look for her parents, she simply wanted to see her parents and did not have any bad intentions.

Earth was a small planet. With the speed of Android 18, they arrived at the southern island in a few minutes. After hesitating for a while, Android 18 pressed the doorbell of her parents' house. It was Seoul who opened the door.

"Lazuli, why are you back alone? Muqiu did not accompany you?"

"Mom!" Android 18 whispered a few times, but she was more excited.

Sipriel put her hand on Android 18's forehead. "Are you okay?"

Android 18 shook her head and then revealed her identity to her parents. When she found out that the girl in front of her was actually from a parallel world, Sipriel opened her mouth in surprise. However, she was a scientist after all, and it was easy for her to accept the affairs of a parallel world.

When she learned that this girl had lost her parents when she was a child, and that her younger brother, Lapis, had been captured and transformed into android, a pained expression appeared on her face. She pulled Android 18 into her arms.

"Lazuli, you can stay here from now on!"

"Yes." Android 18 did not object. In any case, the world's Lazuli was going to marry Muqiu, so she could live in her parents' home.

After that, Lazuli knew that Android 18 had replaced her and lived in the house. She said unhappy words, she did not show any objection. After all, she was another herself. If she was not allowed to live in her parents' house, would she still live in her and Muqiu's house?

Lazuli was not so stupid!

Half a month later, the wedding between Muqiu and Lazuli was held normally. Because Muiyang's two children were married at the same time, the whole Great Azure Mountain was particularly lively. Even Son Goku, Vegeta, and others, who were nervously training to prepare for the future android crisis, took the time to attend the wedding of Lazuli and others.

Of course, Son Goku and the others did not know that Lazuli was actually the android they took precautions against. They did not know how they would feel when they learned the truth in the future.

On this day, Android 18 also formally attended the wedding of Muqiu and the others.

"For the sake of your marriage, this is a gift for you." Android 18 took out a gift box and gave it to Lapis.

"What is this?"

"Open it after the wedding." Android 18 glanced at it and said.

"Alright!" Lazuli smiled slightly and put away the gift. Seeing this, Android 18 walked towards Amelia and Lapis and also gave them a gift box. However, it looked slightly bigger than the one she gave Lazuli.

"What did she give?"

"Open it quietly and take a look."

After Android 18 left, Muqiu opened the gift box Android 18. In the small box, there were piles of banknotes. The number was probably several million. Muqiu immediately did not know whether to laugh or cry. This marriage directly gave money. Was there a need to use a gift box to store it?

Lazuli was very satisfied with Android 18's gift and looked very happy.

Muqiu sighed. Lazuli and Android 18 were indeed the same person. Their preferences were the same. It was better to send flowers and cakes directly than to send money. It seemed that in the future, in order to make his wife happy, he had to often show off his gold and silver.

The wedding of Muqiu, Lazuli, Amelia, and Lapis lasted for more than a day before it ended. After sending off all the guests, the pace of life returned to its previous state. Other than taking some time to study Acceleration World's changes every day, Muiyang was also comprehending a whole new realm.

Time passed day by day. Spring went and autumn came, and white horses passed quickly. In the blink of an eye, two years passed.

In these two years, Muiyang's harvest was very brilliant. Not only did it stabilize Acceleration World's structure, but his strength had also greatly improved. His comprehension of the Ultra Instinct had also improved.

To be honest, a realm like the Ultra Instinct was an extremely difficult concept to comprehend in the level of the God of Destruction. However, for an Angel, this realm could only be said to be the first level of entry. Why were all angels silver-gray hair? It was because they had comprehended the Ultra Instinct.

Now that Muiyang had broken through to the first level of the God of Destruction, the next level was the Angel level. However, to break through this level was even more difficult than advancing to the True God Level.

Even after training for more than two years, under Acceleration World's 256 times acceleration, Muiyang had only comprehended a little bit.

At this time, the importance of a good teacher was reflected. In the past, because of Whis' guidance, all the difficulties before the True God Level could be pointed out one by one, allowing him to take fewer detours. As his realm increased, the following training would be of little help to Whis.

After all, Whis himself was only at the Angel Level. To guide others to reach the Angel Level was really a bit difficult.

Chapter 532

"The training of a True God Level is extremely difficult. To advance to the level of an Angel, it is absolutely not something that can be broken through with just comprehension."

Thinking about those God of Destruction who had stayed in the Level 8 Dimension, they had cultivated for many years but were still unable to break through. It was not that their aptitude was poor, but in fact, every person who could become a God of Destruction was an elite in the universe.

The reason why they had stayed at the True God Level for so long was because the road to progress was too difficult.

Muyang's bottleneck was not in the breakthrough of the realm, but in the development of Acceleration World, if he relied on Acceleration World to develop the universe by himself, this growth stage would take countless years.

Taking out the token given by the Grand Minister, the blue light emitted a warm and harmonious light.

Muyang wondered if he should seek the Grand Minister's help.

If he could get the Grand Minister's guidance, it would greatly enhance his future training. However, when he thought of contacting the Grand Minister, it was inevitable that he would come into contact with Zeno. Muyang felt a little scared.

Zeno's character was too uncertain. If that guy entered Acceleration World through the world channel, who knew what would happen!

Forget it, he had to think of a way to fill up the six galaxies universes in Acceleration World first, and then think about whether to meet the Grand Minister.

Putting aside those worries for the time being, Muyang remembered that he had promised to help April find the black stone. It was better to take this opportunity to fill up the galaxy universe and complete it together!

There were many small worlds and fragments around the entire universe. Many of them were split from the time fragments of the entire universe. If they could find a small world like the android world, there was a high chance of finding the black stone.

After leaving the cultivation room, Muyang sent a message to Whis to ask about the Grand Minister. Then he walked into the courtyard and saw April and the others.

In the courtyard, a few people were leisurely basking in the sun and eating melon seeds under the care of Millif.

Ever since Muqiu and Amelia had their own families, their lives in the villa had been restored. Their small lives were very comfortable. Because there was no one to disturb them, it was as if they had returned to their youth. They didn't talk about music every day, but at least they were full of husband and wife lives.

Thanks to more than a year of hard work, April, who had been looking forward to it for a long time, was finally pregnant. That was a child that contained the power of the Majin Buu.

It was not easy for the strong to give birth to a child. After knowing that she was pregnant, she was happy.

Now, in order to take care of the fetus in peace, she had transferred all the research work to Bulma and Dr. Brief.

"April, why don't we take a vacation outside the universe and find the whereabouts of the black stone? If we see a satisfactory planet, we can move it directly to Acceleration World."

There were six small universes the size of a galaxy in Acceleration World, and the planets needed were huge.

April lay down, her white face full of red light. She had been in a very good mood for a while.
"Well, I don't have much work now anyway. Just treat it as a vacation."

"What about the two of you?" He turned to look at the Melia sisters who were served by Millif.

"We won't go. Melis and I feel that our strength is about to break through to the Half-God Level. We need to prepare for a period of time in one go." Melia waved his hand, but when he saw her open her mouth to eat the grapes handed by Millif, it was impossible to tell that it was for training.

"Up to you!" Muiyang ignored them.

According to the growth of Melia and Melis, if they reached the "Legendary Super Saiyan" mode, their strength could indeed reach the strength of the Super Saiyan God. If the two of them did not work hard, they would soon be surpassed by Broly.

"I wish you two a good time!"

Melis waved at Muiyang and April.

Muiyang nodded, held April's hand, and disappeared together.

The first person they went to was Acceleration World, who was in the middle of traveling through the world. In addition, to make it convenient to take care of April, Muiyang brought Gaia along this time. The blue jelly lay in April's arms, and its soft body caressed April's stomach.

...

After Muiyang and April traveled to the world, they arrived quietly on May 12th.

On this day, the sun rose from the horizon as usual. According to the information that Trunks had brought back then, today was the day the androids appeared.

Son Goku and the others finished their cultivation one after another and then came to a large island nine kilometers away from the southern city.

According to the information provided by Trunks, androids would appear nearby. In another space and time, the entire island, along with hundreds of thousands of people, would be brutally killed by androids.

Chi-Chi stood beside Son Goku and pointed at the island below.

Son Goku nodded solemnly. Then he looked at Bulma beside him. "Nonsense, what are you doing here? If the artificial human really appears, we can't protect you at all."

Bulma smiled indifferently. "I just came to take a look. I just took a look at the artificial human and left."

The so-called Android 17 and Android 18 are the Lapis and Lazuli. They are all my relatives. What is there to worry about, Bulma?

"Bulma, this place is really dangerous." Chi-Chi opened her mouth and smacked it.

"It doesn't matter. I contacted Lazuli. She will protect me."

Lazuli mentioned by Bulma was the name of Android 18 in this world. Because he had never used the name of Android 18, Son Goku and the others still did not know that Lazuli was the Android 18 that they were looking for.

"Mom, we will also protect you well."

"Yes."

The petite and cute Son Hongye and Son Goten with a head of light purple hair stood beside BramaBulma

"What a good child." Bulma stroked the heads of the two children happily.

At this moment, several figures flew over from afar. It was Krillin, Yamcha, Tien Shinhan, and the others. Although they were many times stronger than in the original work after going through the experience of the universe battlefield, they were actually no match for the android. However, when they knew that the Earth was about to face a disaster, they still stood up resolutely.

"Krillin, Tien Shinhan, you are here too."

Krillin landed on the ground and was a little surprised when he saw Bulma. "Why did you bring her out too? What if there is danger?"

"You don't have to worry about it. I will protect her." A clear female voice appeared beside Bulma.

"This beautiful girl seems to be called Lazuli!"

Yamcha nudged Krillin's shoulder and whispered.

"Yes, she is Bulma's cousin." Krillin had seen Android 18 at Muqiu's wedding, but he never knew that the other party was also a martial artist, so he was also very surprised.

"By the way, why aren't Piccolo and Vegeta here?" Looking around and seeing no sign of Piccolo and Vegeta, Tien Shinhan asked curiously.

Son Goku explained, "Piccolo is monitoring the situation on Earth with Katanaa in the Lookout. As for Vegeta... that guy doesn't intend to come. He is busy training with Shasley in the Hyperbolic Time Chamber."

"So that's how it is."

The sun gradually rose, and the clear sea surface shimmered under the sunlight. Son Goku and the others stood on a small mountain on the island. Soon, it was ten o'clock in the morning. The whereabouts of the artificial human still did not appear.

"It's already at this time. Why hasn't the artificial human appeared yet?" Krillin was monitoring every energy of the island city, but he still had not found any traces of android.

"According to Trunks, android beings have no breath," Chi-Chi said.

"Could it be that because of the difference in time and space, there are no android in our world at all?" Yamcha guessed uncertainly.

Android 18 stood beside Burma with a cold expression. He crossed his arms around his chest and tapped his fingers lightly. He sneered in his heart. Idiot, the android in this world are Lazuli and the

others. That woman is currently having a lovey-dovey time with Muqiu. She won't have the mood to come to this remote island.

"Even if you wait to die, you won't wait for them."

Chapter 533

"Why don't we wait a little longer? If the androids still haven't appeared, we'll go back." Son Goku stood on the hill, his back facing the city below.

Krillin said worriedly, "If the androids don't have any energy, we won't be able to find them either! Do we have to wait for them to make trouble before we can find them?"

Chi-Chi said, "There will be countless casualties like this."

"Then it will be difficult."

"If I can't sense their energy, I can only use my eyes to judge. Sigh, it really is a headache." Tien Shinhan and Yamcha were still searching for traces of the android. However, several towns were scattered on several islands near the southern city. Although there were not many people, there were hundreds of thousands of them. It was not easy to find them.

"Everyone, split up and see if you can find anything!"

Although they began to doubt whether the androids would appear, the Dragon Ball Warriors led by Son Goku could not let go of a trace of threat. After Son Goku finished speaking, several people turned into several rays of light and scattered everywhere in the small city.

Seeing Son Goku and the others disperse, Bulma, who stayed in place, shrugged and looked at Android 18. "Why don't we go back? I just studied a new material that can make clothes with extremely high reparation. I'll give it to you to try."

"Okay."

Android 18 knew that Son Goku and the others were destined to be useless this time. If not for the fact that the southern island was near her parents 'home, she wouldn't have come with Bulma no matter what. When she heard that Bulma was going to go back, Android 18 nodded in agreement.

Just as Android 18 and Bulma boarded the plane and were about to return, in the distant temple, Piccolo and Kanalita were also monitoring the situation in the lower realm strictly.

Piccolo looked down seriously. "There are no dangerous existences found on Earth."

"Could it really be that youth called Trunks made a mistake?" Bick Piccolo suspiciously. Kanalita remembered the time light machine that she found four years ago and shook her head. "There should be enemies, but they might not be the people we are thinking of. It is better to pay attention to the situation below."

On the Lookout, a black-haired youth walked out from the palace corridor. "I don't know why you are so worried. There are experts like Melia and Melis on Earth. No matter what, it is not your turn to worry."

The Old Kami followed Son Goku out. His wrinkled cheeks revealed a smile. "Gohan, what you said is naturally reasonable, but we can't beg Melia and the others for everything. The new generation of Earth also has to shoulder the responsibility of protecting Earth."

In fact, I am not worried about how strong the enemy will be, but whether the earth can withstand the powerful energy.

Son Goku was stunned for a moment. The strength of the earth was indeed a problem.

Because of taking the elixir, even after dozens of years, Son Goku still maintained his appearance when he was young.

Suddenly, a terrible energy attracted the attention of Kanalita and the others. The faces of several people became serious at the same time. Son Goku said in surprise, "It can't be, there really are enemies?"

Son Goku had learned the "truth" from Melia and the others early in the morning. He knew that androids would not threaten Earth, but the energy that appeared now was clearly beyond his expectations.

Through the dense clouds at the edge of the Lookout, the situation in the lower realm clearly appeared in front of them.

In the lower realm, Son Goku was attacked by a strange person covered in metal. Fortunately, he turned into a Super Saiyan in time and barely managed to survive the attack of the other party. When they sensed the aura released by Son Goku, Chi-Chi, Krillin, Tien Shinhan, and the others also quickly gathered over. Son Goku swallowed an immortal bean before he suppressed the injuries on his body.

The two robots that entered his line of sight were two robots with green luster all over their bodies. The two robots had the same appearance and were well-built. They had sharp ears and two small horns on their foreheads. There were symbols similar to "M" between their eyebrows.

"Could they be androids? They have finally revealed their true colors!" Tien Shinhan and the others noticed them and thought of the future that Trunks had mentioned. Their eyes revealed an oppressive cold light and the energy in their bodies quickly increased.

"Be careful. They are very strong. I was almost killed by them just now!"

"Are they really that powerful?" Krillin asked in surprise.

"They are definitely very strong. The strength of these two guys is beyond that of ordinary Super Saiyan!" Son Goku warned him in a serious tone.

"Goo!!"

This time, Krillin, Yamcha, and the others were all nervous. In terms of strength, they could not even compare to Super Saiyan, let alone be more powerful than Super Saiyan.

Son Goku frowned and took the initiative to block in front of Krillin and the others. He suddenly shouted, and his entire body immediately burst out with a golden light.

Son Goku, who had turned into a Super Saiyan, rushed to the front of the two robots. Then, he started an intense battle. Peng, peng, sounds of explosions rang out incessantly. Rays of dazzling light flashed in the smoke. The island where mountains stood and strange stones were scattered was attacked by powerful energy, and it actually continued to sink.

Rumble!

A bright energy streaked across the ground, and a thick smoke rose. The entire city not far away was instantly razed to the ground.

"Damn it, they actually destroyed the entire city." Krillin's eyes were about to crack. However, the battle on Son Goku's side was not something they could interfere in.

Peng! Peng! Peng!

The sky trembled and clouds surged. A large amount of violent energy spread in all directions, and the earth rumbled.

"Pu!" Son Goku was surrounded by two metal men, and soon he spat out blood from his mouth. He quickly took out immortal beans from his pocket and ate them. Son Goku shouted at Chi-Chi and the others, "Let's go, these two people are too strong."

Chi-Chi and the others knew that staying here would only be a burden. They retreated backwards while Son Goku was holding them back. However, the other party did not intend to let them leave. While Chi-Chi and the others were retreating, they broke through and flashed forward, blocking the way in front of Chi-Chi and the others.

The metal man said, "None of you can leave. You all have to become nutrients for higher stars."

Son Goku had a dark expression on his face. The golden light on his body became even more violent. However, there was a metal man beside him that was wrapped around him, making him unable to provide any help at all. Just as the metal man was about to attack Chi-Chi and the others, Android 18, who had left with Bulma, rushed back.

With a bang, Android 18 blocked the metal man's attack with his arm and retreated a few steps back.

"Who are these two guys?" Android 18 frowned.

"Careful, Lazuli, they are androids!" Chi-Chi shouted at Android 18.

Speaking of which, Android 18 rolled her eyes. How could she not know who the androids were? The two metal men in front of her were definitely not androids.

"They are not androids!"

Android 18 stared cautiously at the two metallic men in front of her. Their bodies were glowing with green light. The energy in their bodies began to surge. Although they had been muddle-headed for the past few years, Android 18 was only a bit weaker than Super Perfect Cell. However, she had almost been unable to block the opponent's attack just now.

"Son Goku, Tien Shinhan, all of you leave. This battle is no longer something you can interfere in." After Android 18 shouted, a cold light flashed in her blue eyes.

Xiu!

With a step in the air, Android 18's body flashed and suddenly disappeared from sight. She reappeared in front of the metal man. She grabbed the metal man's arm and twisted it hard. Violent

energy exploded on the metal man's chest. In an instant, an energy that could destroy the earth burst out.

Boom!

A violent explosion came. The ground was dug three feet into the ground again. What shocked Android 18 was that after suffering such a powerful attack, only cracks appeared on the surface of the metal man's body. He did not lose the ability to fight.

Suddenly, Son Goku did not retreat. Instead, he advanced and joined in the battle. Countless lightning flashed, just like a great disaster in the climate. The area of dozens of kilometers was covered by thick smoke. The visibility was reduced to an invisible level.

Chapter 534

"These two guys are much more powerful than Android 16."

Android 18's clothes were torn, and a pair of bright eyes stared at each other. Because of the eternal energy, Android 18 did not look tired except his hair was a little messy. However, it was difficult for Android 18 to gain a big advantage against the enemy.

If Muiyang or Supreme Kai were here, they would recognize that these two metal people emitting green light were the King of Demon Realm Dabura.

Or, it was the clone of the King of Demon Realm Dabura.

At that time, Dabura worked together with the phantom Loumo to give the Big Gete Star Central Lifeform to be transformed. However, halfway through the transformation, because of the death of Loumo, the center of the taller star actually regained its subjective consciousness. After recovering its consciousness, the taller star directly killed Dabura on the platform and continued to transform with his flesh and blood.

These two green glowing metal Dabura were the first batch of super warriors. Each of them had strength slightly lower than that of the Super Saiyan 2.

Unlike Android 18 who was indifferent and did not know exhaustion, Son Goku was panting heavily at this time. Even the Super Saiyan state was almost unable to maintain. At this time, two waves suddenly flashed across the sea surface. The waves of air cut open the sea water. The figures of Vegeta and Shasley appeared in Son Goku's sight.

"Humph, Kakarot, you are in a sorry state now!" Vegeta floated alone in the air, golden light floating. He was clearly in the Super Saiyan State.

"Vegeta, the other party is really strong."

Son Goku smiled bitterly at Vegeta.

"Humph! We can deal with this kind of trash robot alone. Kakarot, watch carefully."

As he roared at Son Goku, a golden light burst out from his body. He rushed toward Metal Dabura excitedly. Seeing that Vegeta was in a hurry to fight, Shasley also cooperated and went forward. The couple quickly found one of the Metal Dabura, and began a fierce battle.

Android 18 landed on the ground and carefully examined it for a while. He thought, "The energy explosion of Super Saiyan only lasted for a moment. The strength of Vegeta and the others is similar to Son Goku. Even if they join hands, they are not a match for the metal people."

"Where did these two metal come from?" Suddenly, Android 18 glanced at the sea and a green light appeared in her sight.

Upon closer inspection, they were also metal men.

Her pupils suddenly shrank.

Android 18 was shocked. "Not good, there are far more than two metal men."

Just as he was about to shout out, the Metal Dabura rushed out from all directions. Peng, peng, peng, Son Goku, Vegeta, Shasley were surrounded and attacked. They quickly vomited blood and retreated.

"How could this be? Why are there so many of them?" Vegeta's face was ugly, and he roared with a livid face.

Son Goku, Vegeta, Shasley, Android 18 were surrounded by more than a dozen Metal Dabura. Apart from Android 18 who still had the ability to resist, Son Goku and the others were all mortal bodies. Even if they had enough immortal beans, they could not continue to fight. The situation became very bad.

"Crap, there are so many enemies. I wonder if Chi-Chi and the others will be able to escape." Son Gokusaid with a worried expression.

"Bastard, let's break out of the encirclement first."

Vegeta roared in exasperation. He had originally thought that he would be able to show off in front of Son Goku after finishing his training in the Hyperbolic Time Chamber, but he had not expected that the enemy was far stronger than he had imagined.

"Vegeta, don't be rash." Son Goku shouted loudly.

However, Vegeta would not listen to Son Goku. His figure flashed quickly and quickly fought with Metal Dabura. However, even if Vegeta's strength increased greatly after his training, he was still no match for Metal Dabura, who was in a metal state. It did not take long for Vegeta to fall into a complete disadvantage.

At this time, other than Son Goku and Shasley, Android 18 was not interested in saving him because she herself was facing the siege of more than a dozen Metal Dabura.

"Damn it, these robots are too difficult to deal with." Android 18 shouted irritably.

Whoosh! A straight ray fell from the sky like a long sword cutting through the void. It instantly separated the dozen or so Metal Dabura in front of Android 18. Android 18 looked up and saw several figures appear in front of her.

Muqiu, Lazuli, Amelia, Lapis, Super Perfect Cell, Millif, and the others all came. A few illusory figures flashed by, and several Metal Dabura were repelled by the ground.

"Are you alright?" Muqiu came to Android 18's side and said.

Android 18 shook her head and stroked her messy hair, "I'm fine. Do you know their identities?"

At this time, Melia and Melis teleported over, and Broly also came over. Melia said, "I have asked professionals. The original body of these metal is called Dabura, the Ruler of Universe Demon Realm. However, because of all the reasons, they were transformed into metal bodies by higher star beings..."

"Professionals?" Android 18 tilted his head.

"A person called Whis." Melis said lightly, "The metal people here are only second-class, and their strength is a little higher than Cell's Full Power Form According to the information I received, the most powerful Metal Dabura has close to ten billion combat strength. Even the average Super Saiyan 2 is not their match."

"Unfortunately, the Big Gete Star is now approaching the solar system. It will enter the solar system in about ten days."

"Oh." Android 18 took a complete set of clothes from Lapis and put it on. "In other words, Earth will face a great crisis in ten days."

Melia had a tranquil expression. "For you guys..."

Super Perfect Cell and Millif had about six or seven billion power level. Facing a super metal man of ten billion level, there was a great danger, but for experts like Melia, Melis, and Broly, even if the highest level Metal Dabura came, it was just a doll that could be killed easily.

"Cell, Millif, take out all your strength to clean up these metal men." Cold and ruthless orders.

When Super Perfect Cell and Millif heard this, they immediately displayed strength that exceeded everyone's imagination. Super Perfect Cell released seven or eight Little Cell, and Millif also used the Super Saiyan 2 form to approach Metal Dabura, then used an extremely violent force to tear them apart.

Seeing this, Vegeta said in horror, "What's going on with that woman's Super Saiyan?"

Son Goku said, "I know. That's called Super Saiyan 2. It's an even more powerful transformation than Super Saiyan."

Beretta was shocked. "Super Saiyan 2"

Son Goku did not reply. He gasped and thanked Muqiu. "Thank you. Oh right, how are Chi-Chi and the others doing?"

Muqiu said, "I've seen them. I've already told them to wait in the Lookout."

"Thank you!" Son Goku let out a sigh of relief.

On the other side, after confirming that the energy behind them had gradually subsided, Chi-Chi and the others finally let out a sigh of relief. Then, following Muqiu's instructions, they flew towards the shrine. At this time, Trunks, who had come from another world, appeared in front of them.

"Aunt Chi-Chi!" Trunks said politely.

Chi-Chi introduced, "He's the Trunks who took the time machine from the future."

Krillin observed Trunks in surprise and said gratefully, "So you are Trunks. It's all thanks to you this time. Without your reminder, we wouldn't even have known how we died this time."

Looking at the area in the distance where fierce battles seemed to have taken place, Trunks asked, "Have you already encountered androids?"

Krillin sighed and said, "We did. As you said, those two guys are too powerful. If not for Miss Melia and the others rushing over, we wouldn't have been able to keep our lives."

"Miss Melia?"

Trunks was puzzled. This was someone he didn't have. He organized his thoughts and said, "The androids are indeed very powerful. Although they are young, they have eternal energy. In my time and space, all the warriors are at a disadvantage."

"Wait, what do you mean by the androids are young? Those two monsters don't look young at all." Metal Dabura looked middle-aged at first glance. It had nothing to do with his youth.

"What's going on? Did you make a mistake?" Trunks frowned.

Next, Krillin described the appearance of the Metal Dabura they had encountered. After listening, Trunks said, "What you have encountered is not the androids in my memory. In my world, the androids who have harmed the world – Android 17 and 18 – are two young men and a woman."

Android 17 was a black-haired youth with a scarf around his neck. Android 18 had the image of a young girl. She had golden hair and was dressed rather fashionably. They all had cold looks and wore golden earrings. Right, their eyes were blue – they were quite beautiful.

"Wait, a man and a woman, black hair and blond hair, and blue eyes. I seem to have some impression of the two people you mentioned." Yamcha frowned, feeling that he had seen the two people somewhere.

Krillin said with a black face, "I also seem to have seen them somewhere."

Chapter 535

Listening to the features of the androids described by Trunks, Krillin and Yamcha had a similar feeling. The image of a pair of beautiful siblings could not help but appear in their minds. It was Lapis and Lazuli. However, even Krillin himself felt that it was inconceivable to say that they were androids from the Trunks World.

There must be a mistake somewhere.

"Trunks, in your world, the androids killed all the warriors?" Krillin confirmed again.

"Yes, Vegeta, Piccolo, and all of you, including you, have all died at the hands of the androids."

"Over the past few decades, countless earthlings have died at their hands, so much so that when I came over on a time machine, there were only a few million survivors left in the world."

"If not for Brother Gohan protecting me, I wouldn't have been able to hold on until now. It was just that Brother Gohan was also killed by the androids in the end."

Trunks had a sad look on his face. "By the way, Brother Gohan is the son of Son Goku and Aunt Chi-Chi."

"So miserable. No wonder the future Bulma wanted to create a time machine." Krillin frowned.

This was the first time he had heard Trunks talk about another time and space with his own ears. The description of the person who had experienced it was different from what the others had told him. However, the child who was in another time and space was called Gohan. It seemed that the two times were indeed different.

"According to Trunks, if the two people just now weren't androids, then who exactly are we fighting against?" Chi-Chi asked nervously.

"I don't know. Perhaps because of my arrival, the history of this world has changed a lot."

Trunks looked at Chi-Chi and the others in a daze. He was a bit absent-minded. The so-called time and space of this world made him feel a sense of unfamiliarity.

Tien Shinhan said, "Don't worry about these things for the time being. We will first meet up at the Divine Hall according to Miss Melia's instructions, and then we will discuss it in detail." Everyone nodded in agreement. At this time, Trunks asked in a daze, "Is the Divine Hall you were talking about the legendary palace located in the Heaven Realm?"

"Yes, has Trunks never been to the Divine Hall?"

Trunks shook his head. "In the era I lived in, the Divine Hall had already fallen in battle. Even Korin Tower was only left with half of it."

Krillin was stunned, feeling sorrow for the future world.

Just as the few of them were about to head to the temple,

A flash of light flashed across the sky, and an ancient-looking flying device flew to their side.

Bulma poked his head out of the cockpit. "Wait, Chi-Chi. I'll go to the Lookout with you. Take me with you."

"You haven't returned yet?" Chi-Chi asked in surprise.

"I was going to go back, but she urgently went back to save you, so she left me on a nearby island." After saying that, Bulma greeted Trunks, "Hey, Trunks, you really came to this world too."

"Hello." Trunks nodded silently and looked at his young mother.

"Don't be nervous. I've been to another parallel world, so I've seen you from another world."

Bulma's blue and purple eyes sparkled as he looked at Trunks with a smile.

"What"

Trunks looked at Bulma in disbelief and cried out involuntarily.

Although there were many questions in his heart that he wanted to ask, he could only endure it when he saw Bulma make a silencing gesture towards him. Why did the mother of this era seem to be different from the future? Moreover, she had actually been to another world. This was the reason why she had researched the time machine in advance?

Trunks, whose heart was filled with countless questions, followed beside Krillin and the others. Then, the few of them moved in the direction of the shrine.

"Why, mother, can you go to another world?" Trunks flew next to the Bulma's flying transport and couldn't help but ask.

"Call me aunt. The person I marry in this world is Goku." Bulma said while driving the flying transport, "As for why I was able to go to other worlds, it was mainly because I obtained another time machine. Because I accidentally went to another world..."

Then, in the explanation of Bulma, Trunks only understood what happened to Bulma. When he learned that this mother in front of him had a son with Son Goku whose name was Son Goten, Trunks was stunned for a long time. Fortunately, he had been mentally prepared before, so Trunks quickly adjusted his mentality.

"So that's how it is. Auntie, your experience is really rich."

After learning that the future of another time and space had been saved, Trunks' heavy heart relaxed a little.

It seemed that androids were not invincible.

The few of them quickly moved forward and quickly entered the territory of the Sacred Land of Korin. They flew straight up towards the tower. The towering building of the Lookout soon appeared in front of everyone. Because it was the first time they saw the Lookout, Trunks' eyes were filled with shock. He swore that he would never let this world fall into the apocalypse.

In the Lookout, Melia, Melis, and the others had arrived early because of Instant Transmission. They were now chatting with Kanalita and the others.

On the side, Son Goku and Son Gohan were chatting about their recent gains in cultivation. Vegeta and Shasley were leaning on the stone pillar of the Lookout, looking at them coldly.

Seeing Chi-Chi, Trunks, and the others arrive, Son Goku and the others went up to greet them.

This was the first time Trunks had seen Son Gok in person. Because he had been influenced by Son Gok and Bulma in the future, he was full of curiosity towards this legendary warrior. However, when he saw Son Gok standing together with Bulma, he still felt strange in his heart.

At this time, Trunks' gaze swept over Lazuli, Lapis, and Android 18. His expression suddenly changed, as if he had seen his mortal enemies. His eyes were red, and his entire body flashed with a violent aura.

"Android 17, Android 18, you guys are actually here!!!"

With a loud shout, Trunks transformed into the form of a Super Saiyan, then pulled out the sword on his back and rushed towards Lapis and the others.

"Wait, Trunks, you misunderstood..." Bulma hurriedly shouted.

At this time, Lapis, who was whispering to Muqiu, saw an unfamiliar youth rushing towards her, and it was obvious that he had killing intent. She was stunned in her heart, and then she raised her eyebrows, disdainfully extending a finger towards Trunks.

Clang! Two slender white fingers caught the sword, and Trunks' attack came to a sudden halt.

Switching positions, Lazuli got close to Trunks and extended a finger towards the center of his brows.

With a snap of his fingers, Trunks gave a loud cry and his body shot out of control.

A storm swept away in place, and Trunks flew dozens of meters away. His feet landed on the ground, and the sword slid into the ground, shooting out sparkling sparks. He was pushed back several meters before the impact was dissipated. By the time he stabilized, he was forced to withdraw from his Super Saiyan form.

Trunks gasped for breath and was stunned to find that his attacks had no effect at all. His face couldn't help but reveal an expression of disbelief.

"How is this possible? How can the strength of Android 18 be so strong?" After many years of training in the future world, the strength of a twenty-year-old Trunks was already comparable to that of the Android in his world, but here, he couldn't even withstand a single finger of the other party.

"Young man, why are you attacking my wife?" Muqiu stepped forward, and a terrifying pressure enveloped Trunks.

"Your wife?"

Trunks widened his eyes as he looked at the "girl" in front of him. Upon closer inspection, he discovered that the other party was actually a man. However, what made him even more astonished was that Android 18 was actually married.

"Yes, Lapis is my wife. Shouldn't you explain your actions just now?" Muqiu once again defended his wife.

Although it felt unpleasant to be attacked for no reason, she was very happy to see Muqiu protect her like this. And Android 18, who was next to her, saw everything. She, who came from another world, had probably guessed the identity of Trunks. At this time, she was folding her arms across her chest and putting on an appearance of watching a good show.

"Muqiu, you misunderstood. This child is called Trunks, a Saiyan from another world. The reason why he attacked her was because he regarded her as an android." Chi-Chi hurriedly stepped forward to explain.

At this time, Bulma also stepped forward and winked at Trunks. "Trunks, you really have mistaken her for someone else. She really isn't an android in your heart. In terms of seniority, you have to call her aunt."

"What do you mean?" Trunks came back to his senses at this time.

He carefully sized up Lazuli and Lapis and discovered that the other party was indeed a little different from the androids of his world. The world's Lapis actually had the aura of energy.

When he looked at Android 18 who was standing beside him with a cold smile, his pupils couldn't help but shrink. There were actually two Android 18!

Chapter 536

"Lazuli is Aunt Sipriel's daughter, and Aunt Sipriel is my mother's sister. So according to our relationship, I should call Lazuli my sister..." Bulma gave Trunks a look.

Bulma's sister was naturally the aunt of Trunks. It was the same regardless of whether it was in terms of bloodline or relationship.

"Ah!!" Trunks found it hard to believe that Android 18 was actually his mother's sister. In other words, the android in his dimension was also his relative

The corners of Krillin, Yamcha and the others' mouths twitched. They thought to themselves, "Sure enough, the androids in the future dimension are precisely Lazuli and the others, and all of us will be killed by them. This is truly unimaginable!"

"Alright, the few of you stop messing around. Muqiu, put away your power." "Trunks, this world is different from your place... You already know this. What we have to worry about next is not the androids, but the Big Gete Star that is about to arrive on Earth."

"According to the metal bodies that were destroyed before, their strength is far beyond your imagination."

Muqiu nodded and said, "The strength displayed by the metal bodies before is only a little weaker than the Super Perfect Form Shalu. If a large-scale invasion really happens, among us, apart from me, Amelia, Cell, and Millif, who have a little resistance, even Lazuli and the others are in danger."

Son Goku said with a solemn expression, "Muqiu is right. The power of those metal bodies is far beyond our imagination. Unless all of us reach the Super Saiyan 2 realm, our chances of winning are not high."

"Are the opponents you met before really that powerful?" Due to the late arrival of Trunks, he did not meet up with Metal Dabura.

"By the way, Mr. Goku, what is the form of the Super Saiyan 2 you mentioned just now?"

Son Goku heard Trunks' question and swept his gaze towards Muqiu.

Muqiu said, "Super Saiyan 2 is another form of transformation on the basis of Super Saiyan... Its strength far exceeds that of Super Saiyan by several times." Seeing that Trunks looked like he couldn't understand, Muqiu scratched his head and simply turned into a Super Saiyan in front of everyone. Then, under the golden light, he underwent a level one transformation, his energy becoming stronger and stronger.

"From 'Ordinary Level' Super Saiyan, Body Transformation to 'Ascended Level' Super Saiyan, then achieved 'Full Power Super Saiyan' based on supreme Body Transformation."

"These are the three forms of Super Saiyan first stage, and above them are Super Saiyan 2!" After saying that,

Muqiu shouted in a dark voice, and his entire body flashed with silver lightning. His golden hair became even straighter, and an energy that was twice as strong as Super Saiyan erupted.

Vegeta looked at the form Muqiu displayed with hot eyes.

"Yes, this is the transformation that the woman called Millif displayed before. Super Saiyan 2 is my next target. I will definitely reach it."

Beretta clenched his fist and secretly swore.

At this time, Trunks was a little dumbfounded. With his meager martial arts foundation, he could not understand the state Muqiu displayed. However, the warrior's intuition made him faintly know the strength of the other party.

"If I can reach Mr. Muqiu's strength, no, as long as I surpass the ordinary Super Saiyan, it will be enough to kill the artificial human of my world."

Because the experts of the future world had withered and martial arts had declined, no one had ever explained the difference between Super Saiyan to him. Therefore, when he saw Muqiu become a "Super Saiyan" Super Saiyan, he was already unable to imagine it. He did not expect that there would be a higher level of transformation later on.

The android of a parallel world only had a power level of a few billion, and reaching the state of "surpassing" was enough to defend world peace.

Muqiu removed the Super Saiyan transformation and said, "Out of all of us, other than the two mothers and Broly, only me, Amelia, Millif, and Cell have reached the Super Saiyan Level 2. If a large-scale invasion occurs, Earth will become very dangerous."

Krillin frowned in distress and said resentfully, "Even if we have the strength to reach the other side, Earth can't withstand such a powerful energy, right?"

Although it had been strengthened by the Earth Dragon Ball, to be honest, the strengthened Earth would not be able to withstand such a terrifying attack.

Melia said, "That's why we have to move the battlefield as far away from Earth as possible. According to reliable information, the higher star will enter the solar system in ten days. There is not much time left for us. You have to reach the strength to resist them within ten days."

"Then we can only rely on the Hyperbolic Time Chamber." Kanalita said.

However, ten days was too short, so she looked at the two master's wives for help. Although she did not know much about the strength of the wives, if they were willing to make a move, it should be easy for them to compete with the Big Gete Star right?

Melis said, "Melia and I will protect Earth. I will leave the battle of the Big Gete Star to you."

As the last mountain rock, Melia and Melis will protect the safety of Earth, and if the battlefield is placed outside the solar system, the main force of the battle will be Muqiu and the others.

To be honest, the higher star invasion this time was nothing to them. Even if Broly or Fusion Android 18 made a move, they could easily win. It was better to use this as an opportunity to train the children of the new generation. Therefore, Melia and the others did not even take out a big move – to use the Dragon Ball to make a wish to transfer the solar system.

Vegeta said, "I want the first day of the Hyperbolic Time Chamber with Shasley."

Son Goku said, "Then I want the next day."

"I want the third day..."

Muqiu, Lapis, and the others all snatched the remaining time. Because there was only a total of ten days, a few groups of people were gone, so it was basically very difficult to have a second chance to enter.

At this time, Trunks had already recovered from his shock. From the words of everyone, he roughly understood that the SHyperbolic Time Chamber was a place for training. He took a deep breath and said, "Seniors, please allow me to join in training. I also hope to become stronger."

"Then, young man called Trunks, you can go in with Cell. I will let him train you well." Melia said.

"Thank you, I will work hard!"

Trunks bent down and thanked him politely.

As long as he could grow again, even if he could not defeat the so-called Big Gete Star, it would be of great help to save his own world. Trunks had cultivated for many years, and what he lacked was the guidance of an expert.

Melia's clear eyes swept across the crowd. "I can provide everyone with enough Senzu Beans and Tree of Life' Fruits. Of course, Boulma also has a spare Gravity Room. I only hope that you will work hard to improve your strength in the next days."

"No problem!"

"We can't wait to go in."

Everyone rubbed their palms together and prepared for the battle ten days later. After that, all the people who entered the Hyperbolic Time Chamber were determined.

Day 1: Vegeta and Shasley;

Day 2: Son Goku and Son Goten;

Day 3: Muqiu and Lazuli;

Day 4: Amelia and Lapis;

Day 5: Trunks and Cell;

Day 6: Android 18 and Millif;

Day 7: Piccolo and Yajirobe;

Day 8: Krillin and Yamcha;

Day 9: Tien Shinhan and Chiaotzu;

Day 10: Chi-Chi and Son Hongye.

They hoped that after ten days, they would be able to grow by leaps and bounds. Of course, because there were enough immortal beans and spiritual tree fruits, and with the help of the gravity room, everyone's improvement could be expected.

...

In another dimension, Muyang was traveling with April. April was holding Gaia as if she was holding a blue bolster. Gaia was obediently lying in April's arms, not letting out a "Yiyiyiyiyiyiyiyiyaya" sound. Since following Muyang, Gaia's small life had been very enjoyable and not too comfortable.

Suddenly, Muiyang received a signal from Earth through a special communication device.

April rested her head on Gaia's head, her chin resting on Gaia's cold body. "Brother, is there any news?"

Muiyang said, "Earth encountered a strong enemy invasion, but they were no match for Melia and the others. It was just that through this incident, they thought that Earth might be visited by more enemies in the future, so they hoped that we could think of a way to strengthen the strength of Earth."

"Do you want to make another wish with the Dragon Ball?" April tilted her head and said.

Muiyang laughed out loud, "If it's a Dragon Ball, how can it compare to a Super Dragon Ball?"

Coincidentally, after joining the Time Patrol, Muiyang was bestowed with the power of time. At the same time, he also understood the language used by the gods. It was perfect for him to try it out. Thinking that Earth would become the birthplace of Majin Buu and the God of Destruction in the future, Muiyang felt that it was really necessary to strengthen it.

Speaking of the God of Destruction incident, would the God of Destruction Lord Beerus come to Earth... Muiyang felt that there was a high probability that he would still do it! Not to mention that this was both the inertia of history, just by staying on Earth alone, the possibility of Lord Beerus coming was greatly increased.

Chapter 537

Having made up his mind to use the Super Dragon Ball to strengthen Earth's defense, Muiyang had no choice but to put aside the travel in other small worlds and start preparing to collect Super Dragon Ball.

To collect Super Dragon Ball, one had to enter the multiverse. Currently, there were four whole multiverse in the Sea of Time and Space, which meant that there were a total of four Super Dragon Balls that Muiyang could obtain. However, considering that the Earth that needed to be strengthened was in the third universe, Muiyang and April returned to the universe they lived in.

There were a total of seven Super Dragon Balls in the entire set. They were scattered in Universe 7 and Universe 6. Because of the experience he had collected last time, Muiyang was very familiar with the entire process.

He took out the Dragon Ball Radar and checked. The radar showed three Super Dragon Balls that existed in Universe 7, and the other four were located in Universe 6.

Muiyang glanced at April beside him and said, "I'll send you to Planet Wudao. Gaia, help me take care of April."

April chuckled and said, "I'm not that delicate."

Gaia, on the other hand, nodded. "Don't worry..."

"You are pregnant now. Of course, you have to be careful." Muiyang smiled and rubbed her slightly curly hair, sending her and Gaia to Acceleration World.

Next was to find Universe 7's Super Dragon Ball.

Every time the Super Dragon Ball finished making a wish, it would spread out in a regular pattern to Universe 7 and Universe 6. Due to the last wish, three Super Dragon Balls returned to Universe 7 after dispersing. Therefore, Muyang quickly used the Dragon Ball Radar to lock onto the coordinates of these Dragon Balls.

He instantly moved and activated it. A spatial ripple that was light like smoke and dust spread out, and Muyang's figure gradually disappeared into the vast void.

In a distant galaxy, a glass planet that was several times larger than Earth steadily stopped on a small asteroid belt. Because of the gravitational effect of great mass, the original asteroid belt had changed. Countless tiny meteors surrounded the Super Dragon Ball in the middle, forming a beautiful astrolabe.

Suddenly, there was a flash in the air, and a handsome figure appeared. His black hair danced in space, and his pair of starry eyes shone with an intimidating light.

Muyang approached the Super Dragon Ball and looked up. Two bright red stars flashed on the surface of the orange-red Dragon Ball.

Because the Super Dragon Ball had taken a special physical rule when it was created, no matter which angle one looked at it from, the Red Planet inside was exactly the same.

Muyang knew that this was because of the powerful gravitational field inside the Dragon Ball.

April had once shattered the Earth's Dragon Ball and studied it. The answer she got was that the Dragon Ball had dark star substances similar to black holes. Every beam of light emitted from the Dragon Ball was strongly restrained, forming a layer of lens.

"The first Super Dragon Ball has been found. Let's put it in Acceleration World first."

With a thought, Acceleration World's rules descended from the sky, and then like a giant taotie beast that devoured all things, it swallowed the Super Dragon Ball in one bite.

And without the powerful gravity of the Super Dragon Ball, the astrolabe formed by the Super Dragon Ball suddenly broke apart, and the scattered meteors flew everywhere like headless flies. The asteroid belt that was not very stable suddenly became even more chaotic.

It would take at least a thousand years to stabilize again.

However, this was not something Muyang had to care about. After obtaining the first Super Dragon Ball, Muyang quickened his pace and quickly headed for the second Super Dragon Ball.

Gathering Super Dragon Balls was unimaginable for ordinary people, but for Muyang who had Acceleration World and Dragon Ball Radar, it was an easy task.

A few hours later, all three Super Dragon Balls of Universe 7 entered Acceleration World. Looking at the three huge stars that were stable in Acceleration World, Muyang left Acceleration World and headed for Universe 6.

Compared to the last time, with the identity of a "member of the Time Patrol" in charge of the safety of the multiverse, there was no need to greet the angels in the universe. Therefore, Muyang did not contact the Angel Vados of Universe 6 and directly entered Universe 6.

Opening the Dragon Ball Radar, the signal that represented the four Super Dragon Balls of Universe 6 appeared on the radar.

Muyang nodded and teleported to the position of the super dragon ball.

Just as Muyang was collecting the super Super Dragon Balls quickly, on Earth, Vegeta and Shasley were training hard in the spiritual time house. For the Saiyan Prince who valued his self-esteem more than anything, after learning the realm of Super Saiyan, he would not allow himself to fall behind again.

In the vast and vast white world, Vegeta was sweating profusely as she trained. Suddenly, she shouted, and the muscles all over her body swelled up. Her strength suddenly increased by a lot.

"No, that's not it. Although this state has increased my strength, it has sacrificed my speed. It is not the Super Saiyan 2 I want!"

Vegeta shook his head and glanced at his wife beside him. Sharly was floating in the air with her legs crossed, and the powerful air waves swept away the dust on the ground.

Suddenly, Vegeta's eyes lit up. She seemed to have been inspired, and the corners of her mouth curled up, revealing a smile.

"Hahaha, I understand. Super Saiyan 2 is not only an increase in strength, but also the mastery of energy... The state of Super Saiyan is a huge burden to the body. If the rigid increase in strength is not achieved, the body may be crushed first."

"Although in essence, Super Saiyan 2 is the advancement of Super Saiyan 1, I can't blindly follow the old path."

"So in terms of control of energy, I need to improve it."

His eyes became brighter and brighter, and he felt that he had found a direction.

Beretta was a genius to begin with, especially after seeing the Super Saiyan 2 forms of Millif and Muqiu, he had a certain understanding of this state.

"Swoosh!" A terrifying aura pervaded the Hyperbolic Time Chamber, and then silvery-white lightning appeared. The winding lightning crackled and beat. Vegeta raised his head, enjoying the satisfaction brought by the strong power.

On the other side, Shasley felt the terrifying power that erupted from Vegeta's body. She immediately retreated from the meditation and said happily, "Congratulations, you have reached the Super Saiyan 2 State first."

Vegeta laughed in satisfaction. "Shasley, I will help you advance to Super Saiyan 2!"

"Okay."

Shasley smiled and nodded. Her delicate face was full of smiles.

...

On the other side, Son Goku and Muqiu didn't waste time when Shasley and vegeta were bitterly cultivating in the Hyperbolic Time Chamber. They all entered the gravity room and fought for every minute.

In the few days when the original work went to the nemesis of Gohan and Son Goku used Senzu Beans to practice on the edge of life and death. At this moment, Amelia provided a sufficient amount of Senzu Beans and Hyperbolic Time Chamber. Son Goku's training was even more crazy. When Vegeta and Shasley came out of the Spiritual Time House, Son Goku's strength had obviously improved.

Vegeta was wearing a ragged combat suit, and his face was full of proud smile. "Goku, I'm already one step ahead of you."

Son Goku said nonchalantly, "I'll be able to catch up soon."

"Tsk!" Vegeta looked at Son Goku with a faint smile. The improvement of his strength made him feel extremely good. He did not express his unwillingness to admit defeat to Son Goku. Then, he went to change into a brand new combat suit with Shasley.

"Well, it's finally our turn. Goten, are you ready to cultivate in Purgatory?" Son Goku moved his wrist.

"Yes, I'm ready," Son Goku said seriously.

"Then let's go in!"

Son Gohan clapped his hands and led Son Hongye into the Hyperbolic Time Chamber.

Chapter 538

"Goku and the others are becoming more and more powerful. What this era needs is experts." The Old Kami looked towards Piccolo with a wrinkled face, "It seems like the time for the fusion is about to arrive. Truth be told, I never thought that there would be a day when I would actually merge with you."

Piccolo had an indifferent expression, "I also didn't think of that."

"Hehe..." The Old Kami smiled easily. He was also much more open-minded. Sensing the invasion of a powerful enemy, the Old Kami who was about to reach the end of his life finally chose to merge with Piccolo, turning his soul and bloodline into potential and merging with Piccolo. He returned to being the original genius dragon race.

This fused out Narmekian is both called Piccolo and Ma Junior.

Everyone was working hard in their training. Trunks was naturally no exception. One had to know that in the world that Trunks lived in, martial artists and Dragon Ball Warriors had long been submerged in the flow of history. The only remaining warrior, Son Gohan, had not received any formal training, so Trunks had basically not undergone any systematic martial arts training.

One had to know that the core of Earth's martial arts lay in the control of ki. One could even defeat the stronger when they had an exquisite grasp of it. However, that kind of martial arts concept that was deeply ingrained in the culture would definitely require a long time of exploration. This was what Trunks lacked.

"Trunks, I know that you want to save your world, so I'll be training you now. There isn't much time left. How much you can learn depends on yourself. When you enter the Hyperbolic Time Chamber, only Cell will temper you. Don't think that he will show you mercy."

Melia wore an elegant dress, giving off a feeling of swift and decisive.

"I understand. Please advise me."

When Trunks heard this, his entire body suddenly shook and he shouted excitedly.

Melia nodded and then began to instruct Trunks on martial arts. Because time was limited, Melia didn't have the time to gradually correct the mistakes on Trunks' body. Instead, she picked a few key points to improve Trunks' martial arts training as much as possible.

Trunks listened seriously as if he was drinking wine. Because he had experienced Whis' training, listening and listening to him made Melia's words and actions filled with charm. Often, a simple sentence would make Trunks feel enlightened.

Half a day later, Melia ended his teaching of Trunks and let him digest it alone.

Right at this moment, the entire sky was suddenly suffused with a golden glow, and the entire earth seemed to be covered in a layer of dazzling and resplendent outer clothes.

"What is going on?" Everyone was shocked by the phenomenon that occurred on Earth.

"Could it be that an enemy has invaded?"

Don't worry,

This is Muyang strengthening the structure of the earth. You will soon see a different earth.

Melis smiled and pointed to the golden liquid that gradually gathered from the sunlight in the sky. Along with her soft voice, those golden drops fell from the sky, like the light rain in the early spring, nourishing everything. The strength of the earth continued to increase.

Kanalita, who controlled the central Lookout of the earth, first felt the change of the earth. In her perception, the earth's crust and earth's mantle were enhanced by a mysterious force, and the hot magma inside the core was replaced by the golden liquid bit by bit. Kanalita had a feeling that even if the earth was under the direct attack of Super Saiyan 2 at this time, only the surface of the mountain would be damaged, and it would absolutely not harm the interior of the planet.

In essence, the earth strengthened by the Super Dragon Ball had already surpassed the Divine Planet of Supreme Kai's world in terms of strength. Even if the God of Destruction level fought on the planet, they would not be able to destroy the earth at once.

If Supreme Kai knew that there was a planet stronger than Supreme Kai in the mortal world, it was unknown how shocked they would be!

Of course, the earth was no different from ordinary planets without external forces. It was not affected by reclaiming land and developing construction.

With such a strong and sturdy planet, Muyang and the others no longer had to worry about the destruction of the earth.

Among the few people, the happiest one was Kanalita. Although after entering the new era, the power of Kanalita was slightly behind that of Son Goku and the others, but her responsibilities were the heaviest. Muiyang's actions were equivalent to helping her solve her worries.

"How is it? Are you satisfied?" Melia said beside Kanalita.

Kanalita nodded happily. "Of course. In the future, we won't have to worry about anyone blowing up Earth anymore."

"As long as you're happy. The Earth Dragon Ball has already disappeared with the disappearance of the Old Kami. I don't want to use the power of the Namekians to restore Earth. However, there can't be a lack of Dragon Balls on Earth. In any case, you can think about it yourself."

"I understand. I will think about it."

After all, as a god of Earth, Kanalita had her own judgment.

...

The sun rose from the east and set in the west. Day and night alternated. Soon, ten days passed. At this time, Son Goku and the others all completed a round of cultivation. Everyone had achieved great achievements.

In terms of the number of Super Saiyan 2, there were more than a dozen of them than in the original work. At this time, the white star that was higher than the star was about to enter the solar system.

"The enemy has already entered the solar system. I'll leave the following battles to you guys. Feel free to test the results of your training in the past few days!"

After Melia finished speaking, Kanalita picked up her divine staff and used the earth's divine power to bless Son Goku and the others. "This divine power can probably support you in an environment without oxygen for an hour. Everyone, the safety of the earth will be left to you."

"Don't worry, Miss Kanalita. We will protect the earth well."

"One hour is enough."

Everyone was filled with enthusiasm and could not help but let out a long and excited roar.

Vegeta twisted his neck and made a "click" sound. "Kakarot, I know you must have reached the state of Super Saiyan 2. Let's compare who has killed more enemies."

Son Goku chuckled. "Alright, I'll compete with you."

Muqiu revealed a smile. "Amelia, Lazuli... should we compete too?"

"Sure!"

"Sure."

Both Amelia and Lapis nodded, but Android 18 disagreed. "I'm not interested."

Muqiu said, "According to the number, as long as there is one more than me, I will reward you with ten million."

Android 18 did not hesitate at all. "Then there is no problem. I just happen to lack pocket money."

"Hehe, Lapis is still so easy to talk to..." Melia looked at Android 18 and activated his superpower. A green ball of light rose into the air and covered everyone. In an instant, everyone was moved to the edge of the solar system.

"Everyone, the power level competition has begun."

Son Goku shouted and rushed toward the Big Gete Star.

After that, Vegeta, Muqiu, and Cell followed closely behind. They saw a series of sparkling and translucent streaks of light flash through the void, and they interrupted the advance of the taller star.

"Broly, how long do you think it will take for them to destroy the Big Gete Star?"

In the Lookout, Melia sensed the situation at the edge of the solar system. The warriors dispatched this time were extremely gorgeous. The Super Saiyan Level 2 alone, including Son Goku, Vegeta, Cell, Millif, had twelve of them. In addition to the super strong new Piccolo, there were about thirteen people.

Not to mention Muqiu and Amelia, whose strength was infinitely close to Super Saiyan Level 3 after being tempered in the Hyperbolic Time Chamber.

Broly sat on the ground with a calm expression. "If Big Gete Star doesn't have a trump card, then half an hour is enough."

Melia chuckled. "I think so too."

At this time, Son Goku came with a bottle of wine. "You guys are really calm. There is a battle outside that concerns the safety of Earth."

"It's just some chickens and pottery dogs," Melia said in a very domineering manner.

Son Goku was speechless for a moment. He found that he had no common language with these strong people. They were clearly standing on the same front to defend against the enemy decades ago.

Chapter 539

The dark outer space was shrouded by a nebula. At the edge of the solar system, a huge white planet was slowly moving toward the interior of the planet system. Suddenly, a loud "boom" echoed in space. Bright light rays and waves rippled out, and the violent energy overturned the outer defense of the planet higher than the outer layer.

Inside the planet, the highest lifeform on the Big Gete Star quickly detected the energy reaction of the outside world. The intense alarm immediately responded. The scouter detected twenty terrifying energies, and thirteen of them... were even more extraordinary.

In the next second, all the waiting Metal Dabura was awakened at the same time and rushed towards the intruders.

At the same time, the highest metal body automatically determined the threat level of the invasion and activated the highest defense.

"The Central Star has been attacked. Activate the highest defense!"

"First-level metal body is fully activated. Super metal body is waiting to be awakened..."

Countless densely-packed tank-like objects rose from the ground. In addition to the Metal Dabura that had awakened before, the green metal body formed an array. Like locusts, they stepped out of the hibernation room in the cabin. Following the command of the highest lifeform, they all rushed to the enemy. There were so many of them that it made one's scalp tingle.

These green-colored Metal Dabura were the first batch of metal warriors created by Big Gete Star using Dabura's body. Their strength was slightly weaker than the semi-retrofit of Dabura when he was alive. However, they had also reached the level of a complete Cell. Their power level was around four billion.

Of course, these metal bodies were not a big threat to Son Goku and the others. However, there were too many of them. Each of the green dots of light was a metal warrior. There were more than ten thousand of them. This was the first batch. After that, the special metal bodies and super metal bodies that were waiting to be awakened were even more powerful.

"Warriors of Big Gete Star, destroy the intruders completely!"

The command of the highest life form of Big Gete Star was issued coldly. The command was transmitted to the core controller of every metal warrior in a one in ten thousand second.

"Kill! Kill! Kill!"

The bloodthirsty killing intent made people feel cold. These many Big Gete Star metal bodies arrived in front of Son Goku and the others. Then, they set up a formation in the space, and their scarlet eyes suddenly lit up.

Suddenly, they roared wildly. As if they had found prey, they swarmed toward Son Goku and Muqiu. In the blink of an eye, the densely packed figures occupied the entire field of vision. When they looked up, they saw a vast expanse of green.

Son Goku grinned, and his forehead could not help but drip with cold sweat. "My God, this number is too much. It seems that we are in big trouble."

Vegeta said coldly, "No matter how many come, I will destroy them all."

After saying that, a violent golden light flashed. Vegeta was the first to turn into a Super Saiyan. His dark eyes showed a cold green color. With a flash of cold light, Vegeta rushed directly to the green metal body.

"Then, the battle is starting!"

Shasley followed closely behind. A cold light flashed in her eyes. Together with the energy released by Vegeta from the other side, the magnificent energy waves gathered together. The deep and vast starry sky was immediately filled with magnificent energy.

Son Goku did not want to fall behind. He roared and also burst out with the most powerful strength.

Super Saiyan was the most powerful when he was emotional. Facing the enemy, Vegeta showed a more decisive killing intent than Son Goku.

Crash... Endless energy wreaked havoc and blew away the debris in the starry sky. When all the warriors exerted strength together, the quiet starry sky of the universe suddenly boiled. A huge

energy wave swept through the sky. Suddenly a hole rushed out of a green back. The Metal Dabura that was swept by the energy instantly melted and turned into a pool of "molten iron".

"Lazuli, Android 18, fight with all your strength for the earth behind you." Muqiu roared, his white face full of fighting spirit.

"Okay!"

Lazuli shouted coldly. She glanced at the metal bodies and then clenched her fists. Her slender body suddenly burst out a ball of amazing energy. Lazuli suddenly flashed and shot out like a cannonball. All the metal bodies in front of her were smashed by her fists.

Soon, the green limbs scattered in space like raindrops.

Android 18 was not to be outdone. Her blue eyes flashed with a glimmer of light. With a light shout, her body turned into a ball of fire and almost smashed a metal body with one punch.

The effect of training in this period of time was reflected. As artificial people with eternal energy, Lazuli and Android 18 would not feel tired. In addition, the terrifying energy far exceeded that of ordinary Metal Dabura. Compared to Big Gete Star metal warriors, the metal body was only ravaged. Pa! A palm slapped, and a metal body was directly smashed into pieces.

Peng! Peng! Peng!

"Swwoosh" The metal fragments collided in space. Not far from Android 18 and the others, Super Perfect Cell released more than a dozen of Cell. Each Cell did not show any mercy when they killed the metal.

On the other side, Amelia, Millif, and the others also displayed extraordinary performances. As the Metal Dabura continued to decrease, the scales of victory began to tilt towards them.

At this time, the special-class metal warriors who were stronger than Big Gete Star also appeared. The bodies of the special-class metal warriors emitted a silvery-white color. Their energy directly reached the level of Perfect Cell. Fortunately, there were not many silver metal bodies like this. Muqiu and Amelia were enough to deal with them.

"Son Goku, leave these silver enemies to me and Amelia. You go and eliminate those green ones."

Muqiu shouted at Son Goku and the others. He swung his arm, and the violent energy burned like a sun.

Son Goku and the others had just entered the Super Saiyan Level 2. They were more than enough to deal with the green metal bodies. However, they were still a bit powerless against the silver-white Metal Dabura. When they heard Muqiu's voice transmission, they also listened to the arrangements and instantly completed the division of labor.

"Bang!"

Trunks was being besieged by two metal bodies. He turned his body and a ball of energy condensed in his hand and shot towards one of them. At this time, another metal body approached Trunks' body. The violent attack hit Trunks' body. Trunks' face paled and he spat out a mouthful of blood.

After all, he lacked the foundation of martial arts. Even if he had been training like a filler, he still lacked experience in high-level battles. At this time, Shasley suddenly appeared beside Trunks and helped him out.

"I heard that you are the son of Vegeta from another time and space?" Shasley asked Trunks as she unleashed her energy.

"Yes."

Trunks admitted straightforwardly.

"As the son of Vegeta, you are not domineering enough. At this time, there is nothing to hesitate about. Take out all your strength! I think that no matter which world's Vegeta is, she will not hope that her son is a waste."

Shasley looked at Trunks indifferently. Her golden hair fluttered as she finished speaking, and her body headed in another direction.

Trunks looked at the back of Shasley in a daze and a smile appeared at the corner of his mouth.

"The wife of my father in this world is quite decisive."

"Next, I will work even harder. After dealing with the enemies here, I will go back and save my own world..."

Trunks was suddenly enlightened. At this moment, a sense of heroism lingered in his chest. He was full of confidence in the future, and his energy had actually improved significantly.

The intense battle lasted for more than ten minutes. The energy consumption of Super Saiyan was very intense. After the initial period of eruption, the strength of Son Goku, Vegeta and the others could not avoid failing. However, what made people happy was that the warriors on the higher star were also decreasing rapidly.

The battle had progressed to this point, so it was naturally not suitable for them to disperse and fight. Therefore, everyone gathered together. In front of the terrifying energy that erupted from them together, the green metal body was destroyed by them easily...

Chapter 540

Half an hour after the battle with the Big Gete Star, the ordinary green metal warriors had been completely wiped out. A few silvery-white warriors were gradually reduced under the combined efforts of Muqiu, Amelia, Lapis, and the others.

Seeing that the battle was about to end, the Big Gete Star super warrior "Gab's Dabura" finally woke up after a long call.

The golden warriors were the ultimate combat strength of the Big Gete Star. Their strength far surpassed the green metal bodies and the silver metal bodies. From the beginning of the battle, they displayed incomparably tyrannical strength. Even Muqiu and the others were almost no match for them. In the end, it was only after Android 18 and Lapis combined their fusion skills to form Android 18 that they were finally able to eliminate them.

Pang!

Big Gete Star's subordinates were all destroyed, followed by the main culprit, Big Gete Star.

It was detected that the golden warrior was also destroyed. Originally, it came to Earth to obtain more energy to achieve the purpose of leveling up. The highest life form of Big Gete Star almost crashed. The next escape became its first choice. However, how could such a huge higher star escape the sight of Son Goku and the others? In the end, in the joint attack, a violent solar flare appeared in the periphery of the solar system.

Big Gete Star and its countless warriors were drowned by the turbulent sea of energy, turning into dust in the universe.

At this point, a crisis that threatened Earth was solved by Son Goku in outer space before it arrived on Earth. Of course, there were still some sacrifices in the entire battle. For example, Krillin, Yamcha, and the others went to the Other-World to report because they were not strong enough. To revive them, they needed to borrow the power of the Dragon Ball.

For this reason, the newborn Piccolo specially made a trip to the New Planet Namek and resurrected them through the power of the Dragon Ball. At the same time, when he returned, he brought back a young Namekian named "Dende".

Dende was a genius Dragon Clan. The Earth Dragon Ball was quickly revived by Dende. It should be said that it was worthy of being a genius with the talent of the dragon race. The process of reviving the Dragon Ball looked very easy.

Moreover, the newly created Earth Dragon Ball inherited the advantages of the Planet Namek Dragon Ball. It could fulfill three wishes at a time. At the same time, Dende also said that if the wish was to resurrect many people at once, it would consume the Dragon Ball's wish power. The number of wishes would change from three to two.

But no matter what, the ability of the Dragon Ball was strengthened.

...

After the event ended, Trunks was about to return to his own world. Son Gohan, a generation of Grandmaster, personally trained Trunks in the Hyperbolic Time Chamber for a year. Although Son Gohan's strength is not comparable to Trunks, but literacy, Trunks is absolutely not comparable to Son Gohan.

Especially when he knew that Son Gohan was Son Goku's teacher, Trunks cultivated even more diligently.

However, every time he called out the other person's name, the image of the one-armed Brother Gohan would always appear in Trunks' mind.

A day quickly passed in the outside world. A day in the outside world would be a year in the Hyperbolic Time Chamber. This year, Trunks could be said to have been reborn and finally grew into a warrior who matched both strength and inner strength. His strength was even stronger than Son Gohan in the original Cell Game.

Only a few people participated in the final farewell. When Trunks took a jar of Senzu Beans from Melia with a face full of surprise, Trunks' expression was as if he had seen a ghost.

He never knew that the container containing Senzu Beans could actually be used as a "jar". Shouldn't it be a small pouch or a small box?

Who knew why this Miss Melia had so many Senzu Beans in her hands.

Thinking back to his own world, the regret of Son Gohan leaving his arm behind because he couldn't bear to eat a Senzu Bean, Trunks felt more and more sad. Sure enough, the world was different! Thus, he held the small jar of Senzu Beans even more carefully.

"Trunks, you already have the ability to save your own world. You have to work hard!"

Bulma shouted at Trunks.

"En!" Trunks nodded forcefully, his face full of confidence.

"Pay attention to Cell when you get back. The Cell on your side will appear in three years and will be as evil as the other androids." Melia reminded. Trunks glanced at Cell in the crowd and thought of the different natures of the androids in the two worlds. He nodded seriously, "Thank you for your reminder, Miss Melia. I already know."

Piccolo said, "The people who died on Earth can revive through the Namekian Dragon Balls. I have given you the planet coordinates."

"Thank you, everyone!"

Trunks said in a loud voice and then jumped onto the time light machine.

Whoosh. The time machine slowly flew up. Through the transparent glass cover, Trunks waved goodbye to Son Goku and the others. Then, he saw Vegeta and Shasley beside the big tree. Beside them stood a child named Alex. Their gazes met Trunks', and Vegeta and Shasley nodded slightly at him.

"Goodbye, friends of this world!"

Trunks muttered as a warm current flowed through his heart. Then, he smiled and pressed the button for the time machine.

Next, he would have to face the artificial human Android 17 and Android 18 of his world, as well as the threat of the future – Cell.

However, after experiencing the training of Big Gete Star, a few androids with over a billion combat strength were no longer his match. The future peace would soon descend.

...

Outside the entire universe, in the vast sea of time and space, other than the four huge water balls, there were also countless specks of light that were like starlight attached to the surface of the sea. These specks of light could not be compared to the heads of the entire universe, but each of them was a small world.

Muyang and April floated in the sea of time and space, their bodies surrounded by the power of time and space. Then, Muyang held onto April's hand and entered the world of the hidden treasures.

Earth of the small world.

A stone forest stood tall. For some reason, the surrounding environment had been severely damaged. The surroundings were full of broken walls and ruins. The earth was also covered with winding and terrifying cracks. On this day, the earth was covered in dark clouds. At this time, a battle that determined the life and death of the earth had already reached the final stage.

"Roar!" A wild beast roared. A fifty-meter-tall giant ape slapped another twenty-meter-tall giant ape away. For a moment, the sky shook and the earth shook. A terrifying shock wave swept out in all directions.

"Gohan!"

In the messy pile of broken stones, a young man with a bare upper body was lying on the ground in pain. The bones of his hands and feet were all crushed. Not far from the young man, a bald man struggled to climb over.

"Goku, we are doomed this time. I didn't expect Saiyan to be so powerful!" The bald Krillin gasped for breath, and his face showed a desperate expression.

Son Goku looked at the sky unwillingly. The ground trembled, and the giant ape who had slapped Son Goku away came to Son Goku's side. It raised its foot and trampled Son Goku to death.

"Hmph, pathetic lower level warriors, this is the result of defying our children!" The giant ape, Vegeta, opened his blood-red eyes. His voice was cold, and his eyes were filled with a cold expression.

Son Goku smiled bitterly and waited for death to arrive. The warriors on Earth were all defeated. At this time, there was nothing to do.

As for Son Goku and the giant ape, Vegeta, they did not know that in a place where they were not paying attention, two vague figures suddenly flashed. Muiyang held April's hand and appeared next to the stone pillar on the hill. April held Gaia in her arms and watched the scene in the distance with her beautiful eyes.

"Brother, we seem to have come to a small world formed with Earth as the foundation."

Muiyang said, "This is a fragment world, only the size of the North Area."

After saying that, Muiyang frowned and looked at Son Goku, who was about to be trampled to death by the giant ape, Vegeta. "Strange, shouldn't there be Yajirobe coming out to cut off Vegeta's tail at this time? But Son Gohan has been sent flying, why has Yajirobe not appeared yet?"

Muiyang closed his eyes and quickly opened them in surprise. This planet actually doesn't have the aura of Yajirobe

This was a serious mistake. If Yajirobe had not appeared at this time to cut off Vegeta's tail, then Son Goku would have died without a doubt. Although the little fatty in the original work was not very reliable, he played an important role at the critical moment.
