

Ball God 541

Chapter 541

"Brother, aren't you going to save Son Goku?"

April hugged Gaia in her arms and looked at Muyang with a calm expression. Because there were too many worlds to travel through, April also learned to treat different worlds with a normal heart. For example, the Son Goku below did not matter whether he was saved or not. To them, it was insignificant.

There was a feeling of being able to see through life like the God of Destruction, Lord Beerus. Of course, the God of Destruction, Lord Beerus, had comprehended a higher meaning because his realm was too high. However, April was completely indifferent to others.

Muyang smiled and responded to April. A cyclone appeared on his fingertips. A sharp energy blade whistled out and an inch of light flashed. The target was aimed directly at the tail of Vegeta.

Pang!

A thick tail fell to the ground, kicking up a cloud of sand. The giant ape, Vegeta, let out a painful roar, and its body quickly shrank to the size of an ordinary person.

"Ah! Who attacked me?"

Vegeta bowed, his face full of anger.

Son Goku and Krillin barely opened their eyes. Suddenly, they saw two figures appear on the mountain in the distance. Son Goku said, "It seems that we still have hope!"

"Yes... another warrior bravely stood up, but I don't know if he is a match for the Saiyan."

Krillin drooped his eyelids and struggled to regain his spirit.

Vegeta noticed the sudden appearance of Muyang and April. He endured the waves of pain coming from his body and his expression became even uglier. "Good, good, good. In addition to Kakarot, there are actually people on Earth who are against our children..." But then, Vegeta was speechless, because a terrifying hand knife fell on his body, directly knocking him out.

"At this time, Vegeta still has to speak less." Muyang said with a smile.

"Thank you!" Son Goku lay on the ground and expressed his gratitude with a weak voice.

Walking to Son Goku and Krillin, Muyang threw down two Senzu Beans and said, "You don't have to thank me. Tell me what happened. Although this Saiyan is strong, you shouldn't be in such a sorry state."

Son Goku was surprised that the other party had Senzu Beans in his hands. But now was not the time to think about these things. After eating the Senzu Bean, Son Goku and Krillin's injuries all recovered. Krillin ran to check on Son Goku's condition, while Son Goku looked straight at Muyang.

This look shocked him.

Because he could not see through the other party at all, and he could not even sense his aura.

After a pause, Son Goku rubbed his head and said, "I didn't expect this guy to be so powerful. I only managed to fight him with three times the Kaio-ken x3... But the other party suddenly turned into a gorilla. I am no match for him."

Muyang nodded after hearing this. This was basically the same situation as in the original work, but the difference was that there was no Yajirobe here to kill Vegeta.

"You are so powerful. You knocked this Saiyan out in one move." Son Goku marveled at Muyang's strength.

"Not bad. It's more than enough to deal with a three-legged cat."

Muyang said lightly. It was not a big deal for him to knock Vegeta out. However, this calmness made Son Goku itch. If he did not know that he was no match for the other party, he would definitely launch a jump battle against Muyang.

At this time, Krillin carried the unconscious Son Gohan and flew over. April twisted Gaya into a ball and squeezed out a few drops of clear liquid from its body and sent it to Son Gohan to wake him up.

"By the way, where is Yaquiuobei?" Muyang asked.

Son Goku was stunned for a moment and then said, "Ah, you know Yajirobe? He is already dead."

Muyang was a little surprised and asked, "How did he die?"

"A few years ago, he took too many Senzu Beans from Immortal Korin. There was one time when he was drunk and ate too much in one mouthful, and then he was stuffed to death." Although Son Goku knew Yajirobe, there was no special situation, so he would not specially use the Dragon Ball to resurrect him.

To think that he was stuffed to death by eating Senzu Beans. This fatty had finally received his retribution. After hearing Son Goku's words, Muyang did not know how to ridicule him. A few black lines appeared on his forehead.

However, it was fine if he died. After all, Yajirobe was not of much use in the future. In addition, it was a different world. Muyang was not willing to care about the life and death of this "small fry". After understanding the general situation of the current world from Son Goku and determining the situation of the small world, Muyang nodded to April and the two disappeared without a trace from Son Goku and the others.

Looking at the two of them who had disappeared in a hurry, Son Goku said emotionally, "So there are so many powerful masters on Earth. It seems that I haven't worked hard enough before!"

Krillin held Son Gohan in his arms and tied up Vegeta firmly. Then, he began to collect the corpses of his companions with Son Goku.

Looking at the corpses of his companions, Krillin's face was sad. He said fiercely, "Goku, what are you going to do with this Saiyan?"

Son Goku shook his head. "I don't know either. Why don't you do as you see fit?"

Because of the appearance of the stronger Muiyang, Son Goku did not target Vegeta, so he lost interest in Vegeta.

"I understand." Krillin's actions were very decisive. He knew how to eliminate the roots when dealing with his enemies.

Next... Bulma and Master Roshi, Chi-Chi and the others of this world drove a spaceship to the wasteland and met up with Son Goku and the others. In order to find a way to revive everyone, Son Goku and the others decided to go to the Planet Namek... However, all of this had nothing to do with Muiyang and the others.

At this time, Muiyang and April were on their way to find Dr. Gero.

According to the past communication with Android 18, April knew that although Dr. Gero had captured Android 18 and the others, he had yet to modify them. In other words, there were still a few more black stones in Dr. Gero's hands.

Muiyang flew all the way to the research institute in the north. When he approached a mountain range near the Arctic Circle, he found the entrance to Dr. Gero's research institute.

The two of them landed on a collapsed rock wall at the side of the mountain. They aimed at the metal door on the rock wall and released a ki wave. With a bang, the steel door was directly blown open. Dr. Gero was still adjusting the Android 16 inside. He heard the commotion outside and stopped what he was doing.

When he realized that someone was attacking his base, Dr. Gero was furious. "Who are you? How can you break into my lab?"

"To create androids for revenge, what's the point of this kind of research?"

April looked at the misguided Dr. Gero with a complicated expression. After all, they had been colleagues for many years.

Dr. Gero frowned, his eyes staring at April. Suddenly, his fingers trembled as he pointed at April. "You are April... No, April has passed away for decades, and she is not as young as you. Bastard, could it be that someone stole April's genes..."

As a biological scientist, the first thought that came to mind was – April in front of him was a man-made replica.

He activated the Android 16 with a ferocious face and ordered, "Android 16, kill these two people immediately, especially the one with April's appearance."

"Sorry, I refuse!" Android 16 said woodenly.

"What did you say? I am your maker, you have to listen to my orders!" Dr. Gero was flustered and exasperated as he took out the detonation device in his hand.

April couldn't stand it anymore. A laser destroyed the detonator in Dr. Gero's hand. "Gero, Android 16 is an android created with your son as the prototype. How can you bear to destroy him?"

"Shut up, you damned woman!"

Dr. Gero's face was cold and his eyes were filled with killing intent. When Muiyang saw Gero's eyes, he could not help but snort coldly. Acceleration World activated his power and directly banished him to an uninhabited planet. He would spend the rest of his life on the wasteland planet!

April sighed. "Is this Gaia from another world? How pitiful."

Muiyang said, "From the moment he joined the Red Ribbon Army, Dr. Gero was no longer a normal person."

April nodded and said to Android 16, "Android 16, take me to see the people who were captured by Gero."

Android 16 nodded and opened the passage to the underground floor of the research room. Android 16 had a gentle personality and was easy to talk to. As long as he was not allowed to kill, verbal communication was the best choice. On the underground floor of the research room, there was a super computer running at full speed. There was another floor below this floor where the captives captured by Dr. Gero were imprisoned. There were about a dozen people, and each of them was very young.

Originally, there were more people, but many of them had died in the experiment.

Chapter 542

Among the dozen or so people, April saw a familiar figure. Her finger touched Muiyang's arm, and April whispered, "It's Lazuli and Lapis."

Muiyang said, "Go and comfort them. I'll find the whereabouts of Blackstone."

"Alright!"

Then, Muiyang began to search in Dr. Gero's research institute. He found a secret door behind the computer room. The secret door was connected to the third underground floor of the research institute. There, Muiyang found two black stones and a Lifeform. There was an embryo like object in the training cabin.

This embryo is not Cell. Could it be the prototype of Android 21? However, at this time, Gero had not yet matured his theory. It was a waste of a black stone.

In the entire Sea of Time and Space, there was only one Android 21. It could be seen how difficult it was to train Android 21. In addition, without the cells of the Majin Buu, Android 21 could not be successfully nurtured.

Regrettably, Muiyang erased the embryo of Android 21. He put away the two blackstones and returned to the first floor. There, all the captured people cried with joy. After April gave them a certain amount of food and currency, she asked them to go to the nearby cities to call the police.

With the help of the police, these young people all found their own families. Only Lazuli and Lapis were an exception. They were now orphans.

"Android 16, are you willing to take care of them?" April was distressed about how to take care of Lazuli and Lapis. The earth he lived on already had two Lazuli. It was impossible to take them back.

Android 16 nodded. "Yes."

"Excuse me, have I seen you somewhere before?" A timid voice sounded. Lapis raised her head and looked at April.

April shook her head and said, "We have never seen it before. From now on, follow this big guy. Don't be filled with resentment towards the world because of your past experiences."

"Oh!" Lapis nodded in disappointment, but in her heart, she felt that the other party had something to do with her.

Finally, under the arrangement of MUYANG and April, Lazuli and Android 16 lived in a suburban area of the South City. MUYANG invested a lot of money to buy them real estate and large fields. It seemed that their family would be very prosperous in the future. This was the only thing that April could take care of them.

After bidding farewell to Android 16 and the others, MUYANG and April traveled in other places in this small world. On the way, they collected some beautiful planets to enter Acceleration World. As for Earth, it was too familiar. In addition, the people above all had them in their own world.

Therefore, they did not collect them.

After leaving this world, April already had two blackstones in her hands. After that, she followed similar experiences to search for several worlds. However, black stones were originally mysterious things. Even in other small worlds, it was very rare to find their traces.

It wasn't until Acceleration World's six galaxies contained countless planets that the number of blackstones in April's hands reached 12, which was barely enough for her to continue her research.

By the way, during the journey, April gave birth to a little boy full of vitality for MUYANG.

Coincidentally, the birth date of this little guy was also born in autumn, so after thinking about it, MUYANG simply named him Mutian. Together with Muqiu, it meant "autumn".

Mutian was born with the ability to use magic. His talent could be said to be extremely high. Later, even Muqiu and Amelia felt that their younger brother would surpass them in the future.

"It's really troublesome to take care of children."

Lazuli and Amelia were responsible for taking care of Little Mutian. This was to train their maternal instincts, but in reality, it was April and MUYANG who did not have the time to take care of children.

During this period of time, April had once again devoted herself to the siege of the scientific research problems. After MUYANG learned that Melia and Melis were about to break through, he had already brought them into seclusion on Planet Wudao.

On this day, a gale blew on Planet Wudao, and April had no choice but to come out of the scientific siege. Together with MUYANG, they watched Melia and the others break through.

Melia and the Melis sisters tightly closed their eyes, fully concentrating on adjusting the strength of their bodies. As their momentum was released, their golden hair was constantly fluttering. "Bang! Bang! Bang! Bang!" A sound like a heartbeat echoed in their ears, and strands of grass green light spread along their dancing hair.

Muyang opened his eyes and looked at their forms seriously. He shook his head. "Still a little bit more. Although their ki has already reached the peak of the 'Super Saiyan', they are still a bit lacking in breaking through that layer of shackles."

"The Legendary Super Saiyan" The state was generally divided into four levels, "Base Form", "Wrathful Form", "Super Saiyan", and "Legendary Super Saiyan". If it corresponded to an ordinary Saiyan, the "Wrathful Form" state could deal with Super Saiyan, Super Saiyan 2, and Super Saiyan 3, while "Legendary Super Saiyan" could deal with "Half-God Level" Super Saiyan God.

However, in fact, this was only a general correlation in strength, but the essence was completely different.

There was a threshold for each Super Saiyan transformation. For example, Super Saiyan's transformation had a minimum power level of three million, or Super Saiyan 2. The minimum requirement for advancement was that Super Saiyan had a combat strength of five billion. Otherwise, they would all belong to the category of Super Saiyan 1.

Melia and Melis were very strong, but now they could not even perform the basic transformation of "Legendary Super Saiyan".

This was still in Acceleration World. Muyang used the power of rules to shield the influence of the entire universe as much as possible. Otherwise, in the entire universe, under the influence of the realm, Melia and the others did not even have the hope of breaking through.

April watched nervously, her beautiful eyes suddenly flashing. "It should be about time."

Muyang smiled and nodded. "Yes, it's almost time."

Seeing that the time was right, Muyang shouted, "Melia, Melis, take this opportunity to fuse together and break through the shackles."

"Good!"

"Fuse!!"

Melia and Melis roared on the spot. Their auras began to rise along with the sound waves. In a brief flash of light, Melissa's well-proportioned body appeared. The power in her body suddenly doubled, and this increase immediately broke the last barrier!

Suddenly, a few muffled sounds rang out.

Melissa's body floated up. Her golden hair was replaced by a hint of grass green color. A brutal and violent pressure spread out. When her golden hair all leaned towards the grass green color, Melissa's pupils dilated, but her golden eyes did not disappear.

The real Legendary Super Saiyan!!

Broke through.

Melissa had been stuck at the "blonde Legend" stage for a full 17 years.

Legendary Super Saiyan, the lowest energy level reached the "Half-God Level" level, which was the strength of the Super Saiyan God that Son Goku had transformed into in the original work.

"It's finally completed."

Muyang revealed a smile on the corner of his mouth. He could not help but nod in satisfaction when he saw that Maylia had not lost her mind because she had become a "Legendary Super Saiyan."

"Sister has become powerful all of a sudden." April said enviously.

If she doesn't break through, she will be surpassed by Broly. She is obviously sixteen or seventeen years older than Broly, but her strength is almost the same. She is also the 'Legendary Super Saiyan'. She will lose face soon.

When Broly appeared in the theater version in the original story, the Golden Eye State was already enough to match the Super Saiyan God Son Goku. Looking at how Melissa is now, Green Hair Legendary Super Saiyan Form is barely achieved "Half-God Level". There is still a huge gap between the two sides.

Of course, according to normal history, that would only happen after 11 years. At that time, even in the Golden Eye state, Melissa should be able to reach the strength of the "Half-God Level".

Chapter 543

Melissa's talent was not as good as Broly. This was not a secret at all. Even if she was a step ahead now, there was nothing to be proud of. Perhaps Broly would be able to reach the same strength as her in a few days.

However, Melissa's breakthrough was worth celebrating after all. Other than Muyang, she was the second person to reach the Half-God Level. Therefore, after a conversation, Muyang decided to hold a small celebration on Planet Wudao.

The people who participated in the celebration were the closest people. Muyang only informed a few people from Great Azure Mountain, plus Muqiu, Amelia, Broly, and their families.

Planet Wudao was beautiful with clear water. Beside the gurgling stream, Isaac and the other elders gathered together to reminisce. Next to them, Lazuli and Amelia learned to take care of little Mutian under the education of Alice. The other young people also sat together, drinking and chatting happily with each other. Even the childhood playmate, Blue Dragon Growlie, was brought in and was lying on the side snoring.

On the side, the son of Broly Elek, who had grown up a little, was lying in the grass with interest, staring at Gaia with big eyes and small hands grabbing onto Gaia, almost kneading her into a lump of jelly.

"You... stay away from me." Gaia said softly, using an unfamiliar language to express her emotions.

"Gaia, let me take a good look at what kind of creature you are, okay?"

Elek blinked his eyes with interest. It just so happened that he was at an age where he was interested in the outside world, so he completely ignored Gaia's dissatisfaction and continued to pull at Gaia's body.

"Humph!" Gaia broke free from Elek's hand. Blue waves of electricity appeared on the surface of her body, and then a ray of magic power was released towards Elek. The magic waves hit Elek, and immediately, like frost forming a layer of frost on the surface of his body.

Elek shivered and shouted. His body was confined by Gaia, and he could not move at all.

"—(▽?)—*"

Gaia shook its body proudly. It was unknown whether it was a slime or a jelly-like body that swayed like a water ball. A few jumps climbed onto Muiyang's shoulder and then settled down on top of his head.

Muiyang grabbed Gaia from the top of his head and hugged her in his arms. "Don't be naughty. Elek is just playing with you."

As he spoke, he waved his hand towards Elek. Acceleration World's energy was used on Elek, but in the next moment, Muiyang was stunned. His strength was actually unable to immediately undo the imprisonment on Elek's body.

Frowning, Muiyang glanced at Gaia in surprise, "Your magic power is very interesting. You are actually able to block Acceleration World's rules."

Why aren't you releasing Elek?

Only then did Gaia snort twice, slowly and unhurriedly spitting out a mouthful of emerald green liquid towards Elek, melting the frost on his body.

April said with interest, "That cute little fellow, Gaia, is becoming more and more mysterious. Its has grown a lot in the past few decades."

Muiyang looked at Gaia. "Who knows what species it is? In any case, even Whis can't see through it."

Gaia was born on Planet Ambera, which was once guarded by Birgil. Planet Ambera was actually a Super Dragon Ball, which meant that Gaia was a living being born on a Super Dragon Ball. There was probably no second species like it that could produce the Spring of Life in the entire universe.

Perhaps, he could go to the other universes to look for it. If he was lucky, he might be able to find a few other planets that were not destroyed, but he did not know if there were other Gaia there.

Muiyang glanced at Gaia, who also tilted its head and cried out. Her sweet voice was very pleasant, making people feel happy.

"Mother, can you let me see what kind of power the real 'Legendary Super Saiyan' has?" At the end of the celebration, Broly eagerly asked Melissa very seriously. He really wanted to see the transmission of high-level forms. Perhaps it could be of inspiration to him.

"Why not!" Melissa happily agreed. In fact, she also wanted to show off on purpose.

When everyone heard that Melissa was going to release the power of beyond, they immediately retreated a few steps, especially Isaac and Alice. Their strength was not strong, and Muiyang used Acceleration World's energy to set up a protective shield on them.

Everything was ready. Melissa calmed down for a while. She took a deep breath and slowly exhaled. The next second, Melissa opened her golden eyes. Her hair immediately turned into grass green. The violent energy immediately spread out like a huge wave along with the green light. It could topple mountains and overturn the seas. Layer after layer...

Crack. The ground under their feet suddenly collapsed. The winding cracks spread out in all directions and quickly formed a broken area with a diameter of ten meters. Only a small piece of land under the feet of Melissa was still intact.

The terrifying energy wreaked havoc on the entire martial arts planet. Everyone felt as if there was a huge stone pressing down on their chests, and it became very difficult for them to breathe.

"This ki is so terrifying."

"Standing in front of this power, I don't have the courage to fight at all."

Muqiu, Lazuli, and the others were the best in martial arts. They could also boast to be strong, but when facing the energy released by Melissa, they couldn't help but have a feeling that the light of fire couldn't compete with the bright moon. They really couldn't compare. If Muqiu and the others were like this, then even more so for Isaac and Beyaros. If not for the protective shield that Muyang had set up beforehand, he would have been crushed by Melissa's power to the point where he couldn't stand.

"It turns out that this is the higher order power of Legendary Super Saiyan!"

"It's completely different from my father's power."

Broly placed his hand on his forehead to block the violent energy whirlwind, but his eyes were shining as if he had already found a direction to move forward.

"How is it? Do you have a general idea?" Melissa maintained her Legendary Super Saiyan Form, and there was an absolute arrogance in her words. This was probably a side effect brought by the transformation.

"I understand now. As long as you give me some time, I think I will be able to reach this state soon." Broly was full of confidence.

Melissa nodded and smiled as she exited the Legendary Super Saiyan Transformation. After all, the Legendary Super Saiyan Transformation consumed a lot of physical strength.

Legendary Super Saiyan does not inferior Half-God Level in Power Level, that is Super Saiyan God level. However, the difference is that the energy of Legendary Super Saiyan is violent. It was not as reserved and gentle as the Super Saiyan God. Therefore, the shock it caused to Broly, Muqiu, and the others was far greater than Muyang's True God level.

Isaac and the other elders could only smile bitterly and shake their heads. As Muyang and the others continued to grow stronger, they had realized a long time ago that their horizons could no longer keep up with their footsteps.

"Right, now there are six galaxies in Acceleration World. Which one of you is interested in helping me manage them?" Muyang suddenly pointed at a few huge water balls in the sky and said.

Amelia asked doubtfully, "There must be a space the size of a galaxy inside those water balls, right?"

April nodded. "My brother and I moved many planets from other worlds. Some of them even stuffed the entire small world inside, so the galaxy already has life."

Android 18's eyes lit up. "I am very interested in becoming the manager of a universe, but I am afraid I can't manage it well with my ability."

"I can release a part of the authority, so there is no need to be afraid of not having enough power."

Muyang said softly. He had the idea of forging Acceleration World into an entire universe. However, now that Acceleration World had just advanced to the acceleration universe, even the galaxy universe inside was still in a very immature state. It was completely incomparable to the mature world like the entire universe.

"Why don't we try to manage it?" Lazuli glanced at it.

"It seems to be a little interesting." Muqiu nodded.

Isaac waited for the old man to speak. "Don't worry about us. This is a matter for you young people."

"There are a total of six galaxy universes now. How about this, Muqiu, Lazuli, Amelia, Lapis, Lasuli (Android 18), Broly, each of you. By managing the universe, you might be able to comprehend a deeper level of power of rules. It will be helpful for your future comprehension of realms."

Broly said, "Forget about me, I don't need to comprehend realms."

Muyang looked at Broly and nodded slightly. Then, he looked at Launch. She seemed to be very interested, but Launch's strength was still a little low. She thought for a moment and said, "Then the sixth Galaxy Universe will be handed over to Ilke."

Launch was a little regretful that she did not get a territory as big as the galaxy, but if her son managed it, it was no different than giving it to her. Anyway, she just wanted to be a boss.

The matter was temporarily settled. Next, Muyang gave the six people the authority to manage a part of the management. In a sense, they were also the "Gods" among Acceleration World.

Chapter 544

After celebrating the end of the banquet for Melissa's breakthrough, Muyang sent everyone off one by one. Not long after they returned, Muyang received a call from Whis.

"Hey, Whis, what's the matter?" Muyang spoke to Whis.

On the other side, Whis' voice sounded, "I have already settled the matter of you asking me to contact the Grand Minister. Please come to God of Destruction Planet immediately. The Grand Minister wants to see you personally."

Although it was not the first time he had seen the Grand Minister, it was another Grand Minister of the entire universe. Muyang had never seen the Grand Minister of his own universe. Thus, after receiving Whis' reply, Muyang immediately perked up.

"Alright, Whis. Wait a moment, I will be right there."

Regarding whether or not he should communicate with Acceleration World to the entire king world, Muyang had considered it for a long time. After discussing with Whis, he decided to try to contact the Grand Minister.

Firstly, he had the token of the Grand Minister of another world in his hands. The Grand Minister of his own world should not have any ill intentions towards him. Secondly, if he did not contact him, would the Grand Minister not know? As the Chief Steward of the entire universe, he paid attention to every little movement. He had used Acceleration World's rules many times in Universe 7 to defend against enemies. The Grand Minister probably already knew about this.

Rather than letting the other party find him, it was better to contact him personally.

That was why he had asked Whis to contact the Grand Minister, and even brought the token given to him by the Grand Minister of another world.

"Melissa, I need to go to God of Destruction Planet, and I will be back soon." With that, Muiyang calmed himself down, and his power quickly communicated with Universe 7's highest dimension – God of Destruction Planet, and then he teleported away.

In God of Destruction Planet, Whis had been waiting there for a long time. Seeing Muiyang come over, Whis said, "This time, the Grand Minister attached great importance to it. He even personally came over."

"But you don't have to worry. The Grand Minister is much easier to talk to than you think."

The high-level gods in the Dragon Ball World were all very modest and polite. They treated everyone and everything differently. For example, Whis was smiling at everyone... But this was actually because their realms were too high, and they no longer cared about worldly matters.

Muiyang nodded and said, "I hope it is as you say."

In the entire universe, aside from a very small number of gods, they are all very upright.

Since the Grand Minister personally came to see him, he would not have any malicious intentions.

Otherwise, there was no need to inform him at all, he would just directly go and capture him.

To be honest, Muiyang was rather doubtful about whether his own Acceleration World could block the Grand Minister's power. After all, Acceleration World only had six galaxies. Even Universe 7 could not compare to him. Fortunately, Acceleration World was located in the misty sea of consciousness. He seemed to be separated from the entire universe by who knows how many dimensions.

Just like that, Muiyang and Whis stood together and waited for the Grand Minister to arrive. About an hour passed.

A brilliant light suddenly lit up in the sky above God of Destruction Planet. Then, a sacred golden light descended on God of Destruction Planet, gradually forming a spatial passage in the shape of a vortex. Muiyang and Whis looked serious. They knew that the Grand Minister had personally come.

"He's here!"

Muiyang and Whis looked at each other and jumped to the bottom of the golden whirlpool. At this time, the dark green figure of the Grand Minister came out of the whirlpool passage.

"Welcome, Grand Minister!"

"Well, you don't have to be so polite."

The Grand Minister gently raised his palm. His gentle voice was like a warm spring breeze that warmed the heart of people. He glanced at MUYANG and then nodded slightly to Whis.

"You must be MUYANG. I have been paying attention to you since you used the energy of the other world. You did not disappoint me. First, I obtained the power of the space rules from the wishing star created by Dragon God Zalama. Then, I obtained the power of the time rules from Lord Chronoa. Moreover, I even met the me of the other world before me."

MUYANG said humbly, "It is my honor to be able to get the attention of the Grand Minister."

"Hehe, there is no need to be modest. Your potential surpasses other gods. You are the person with the highest possibility of breaking through in the entire universe." The Grand Minister spoke in a very gentle manner, and it was impossible to tell that he was a supreme god at all.

"I have already discussed with Lord Zeno about your situation. In fact, Lord Zeno and I hope that you can connect your world to the entire king world as soon as possible. Oh right, I see that you have already reached the 'True God Level'. I wonder if you are willing to join the ranks of all the gods in the universe."

"Of course, with your potential, this is temporary, but walking in the entire universe, it is very necessary to have an identity on the surface."

"Could it be that the king and the Grand Minister want to confer me the title of god?" Looking at the Grand Minister with a smile on his face, MUYANG thought in his heart.

Indeed, walking in the entire universe, especially when leaving Universe 7 and entering other universes, having the identity of a god could save a lot of trouble. Looking at Whis and seeing him nod at him, MUYANG said, "Thank you, Grand Minister. Of course, I am willing to become a true god."

The Grand Minister chuckled and said, "Don't worry, this identity is only for you to have some convenience. There will be no restrictions on you."

Level 8 Dimension's Gods, such as the God of Destruction and Supreme Kai, might have obtained special abilities bestowed by the laws of the universe, but their actions would also be restricted, especially the treaty of life and death between the God of Destruction and Supreme Kai. If one side died, the other would also die. This rule caused countless experts to shrink back.

Of course, after becoming a god, a long life was also enviable. It was difficult to determine whether it would be lost or not.

For races that did not have long lifespans, it was naturally beneficial.

He nodded towards MUYANG and Whis. The Grand Minister extended a hand and took out a golden scroll from the illusory space. He slowly opened it.

"Next, I will announce Lord Zeno's decree. Mister MUYANG, please step forward."

When MUYANG heard this, he tidied up his clothes and took a step forward, putting a distance between him and Whis.

The Grand Minister looked at MUYANG and his tone became solemn. "Mister MUYANG, the creator of the new world. Due to the initial creation of the new world, Lord Zeno has decided that on the

Royal Calendar 3.1 Billion 35.5 Million 591 212, officially appointed as Multiverse 'Grand Supreme Kai' God Position, which is on top of all Supreme Kai.

"In addition, give Muiyang the power of 'life creation'."

"Mr. Muiyang, please receive the rule power of the king." The Grand Minister said. A green energy broke through the space and then hovered in the air.

"Okay."

Muiyang replied with a serious expression after a brief moment of distraction.

With a swish, all the energy that represented Supreme Kai's creation of life entered Muiyang's body. As soon as the energy entered his body, Muiyang's entire body shook. His entire body emitted a holy and majestic charm. That green energy was the power of creation of Supreme Kai. It could be used to create and improve the vitality of the planet of life.

To Muiyang, who had just created the world, it had a very important role. It seemed that the Grand Minister had also used some brains on this conferment.

"Congratulations, become the Grand Supreme Kai of Multiverse. All Supreme Kai will see you in the future, and with your power, God of Destruction must also respect you."

Putting away the golden scroll into the illusory space, the Grand Minister's expression was still warm.

The "Grand Supreme Kai" that Muiyang obtained this time was different from the "Grand" Supreme Kai that Universe 7 had self-proclaimed. In fact, the "Grand" Supreme Kai of Universe 7 was essentially just Supreme Kai's God Position, while the other few Supreme Kai were just Supreme Kai Apprentice.

This was also the reason why after "Grand" Supreme Kai died, East Supreme Kai was so unbearable.

The reason was that East Supreme Kai's cultivation had not reached perfection.

Chapter 545

Muiyang's Grand Supreme Kai God Position is Multiverse level. After accepting God Position, his clothes become God's uniform, while the ordinary Supreme Kai different, Muiyang's Grand Supreme Kai attire is light gold. The waist is not a ribbon, but a blue belt marked with the "Grand" character symbol.

Even because he was a member of the Time Patrol, after fusing with Grand Supreme Kai's divine power, his back faintly showed a jade green divine halo.

It looked very similar to the Grand Minister, making people want to worship him.

Multiverse's Grand Supreme Kai. In the future, when the Gods met Zeno, there would be Muiyang's exclusive seat beside the palace. Although he was below Zeno, but compared to the other Gods who needed to kneel down, his status was much higher.

Grand Supreme Kai was comparable to the Grand Kai and the Kai. That was a difference in rank. Even other Supreme Kai had to bow to him when they saw him.

To be honest, Muiyang was a little surprised that the Grand Minister and Zeno had given him such power. But after thinking about it carefully, he understood.

In addition to Acceleration World's potential, the most important thing was that the Grand Minister and the others wanted to use themselves as a bridge to communicate with the four entire universes. This could allow them to more effectively manage all the time and space. In comparison, the position of Grand Supreme Kai was nothing amazing.

"Thank you for your kindness, Grand Minister." Muiyang expressed his gratitude in a neither humble nor humble manner.

The Grand Minister smiled faintly. "This is what you deserve. I still hope that you will shoulder the responsibility of this divine seat. When you have time, help us manage the Supreme Kai of the entire universe."

The implication was that if he was not free, it did not matter if he did not have to carry out his responsibility. In any case, the divine power of the rules of Zeno had already been bestowed, and it was to let him develop Acceleration World.

At this time, Muiyang certainly gave him enough face and expressed that he would do his best to manage all Supreme Kai.

The Grand Minister laughed and reminded Muiyang to open the passage to Zeno World as soon as possible. After saying these words, the Grand Minister also left.

After the Grand Minister left, only Muiyang and Whis remained.

Whis smiled and congratulated Muiyang, "Congratulations on becoming a high-level god. Now even Lord Beerus has to be polite to you."

"I also didn't expect that the Grand Minister would actually let me become Grand Supreme Kai." Muiyang sighed with emotion.

Although the Grand Supreme Kai did not have the authority to manage the God of Destruction, he still said,

However, he could manage Supreme Kai. This was equivalent to indirectly restricting the God of Destruction. After all, Supreme Kai was connected to the life of the God of Destruction. No matter how strong the God of Destruction was, he still needed to give face to Supreme Kai. Moreover, Muiyang's strength was not inferior to the old God of Destruction.

"The Grand Minister must have his own considerations," Whis said with a smile.

The Grand Minister is the Steve Steward of Multiverse. His responsibility was to maintain the stability of the entire universe. In fact, the existence of multiple dimensions was not a stable factor in itself. It was undoubtedly a good method to maintain the stability of the entire universe.

In this conferment, apart from the Grand Minister pulling Muiyang into the ranks of the gods of the entire universe, it also gave Muiyang benefits. Supreme Kai's Power of Creation could create and improve the vitality of the planet of life. For Acceleration World, who had less life, it could be a very good promotion.

"Right, when do you plan to establish a passage to Zeno World? You can't make the Grand Minister wait long."

Whis warned with a serious expression.

Muyang said, "After I get used to the power bestowed by Zeno, I will start to build a passage."

"That's good. Grand Minister is still easy to talk to. If Lord Zeno is unhappy, then it will be bad. Lord Zeno's mind is quite simple. It is possible for him to do anything."

"Yes." Thinking of communicating with the entire king world, it was inevitable to meet Zeno. Muyang felt a headache about the childish and supreme god.

The power of Zeno was great. A single thought could destroy a universe. However, this power would become very terrifying once there was no balance. Because it was fearless, it was lawless and pure. The more innocent it was, the more terrifying it was. Only a god with a high status like the Grand Minister would be fearless against Zeno.

Muyang nodded silently. Then, God of Destruction Planet tested out Supreme Kai's power.

However, God of Destruction Planet was the place where the God of Destruction lived after all. To test Supreme Kai's power, he would still be disturbed by the aura of the god in the air.

After thinking for a while, Muyang immediately went to Sacred World. Speaking of which, this was a rare place for Muyang to enter Sacred World.

The environment of Sacred World was similar to God of Destruction Planet's. They were all made up of several divine stars, but the difference was that the power of the gods flowing in Sacred World was created, which was more suitable for Supreme Kai's survival.

Using the power of creation in his body, a vibrant green energy flowed between the cells. If one looked carefully, they would find that there were several strands of energy flowing in Muyang's body clearly, and they did not interfere with each other.

What occupied the main body of each cell was still the silver-white liquid energy. It was the power that Muyang trained himself. It combined a part of the power of space, and then it was the golden energy that represented the time attribute. Because the power of creation had just been inherited, the volume of it was relatively small, and it was squeezed to the side by the silver-white and golden energy.

Muyang used the power of Grand Supreme Kai to try to improve the environment of divine planet. Soon, this power resonated with the rules of Sacred World. A large expanse of dense vegetation emerged from the soil. The low saplings quickly grew and formed a vast forest in the blink of an eye.

The power bestowed by the Grand Minister was much greater than that of ordinary Supreme Kai. Thanks to this experiment, the energy in Muyang's body suddenly flowed from a trickle to a trend of the development of the river.

Well, I have roughly grasped Supreme Kai's ability. With this Power of Creation, I can fill some barren planets with vitality faster.

Muyang looked at his masterpiece proudly, and the corners of his mouth curled into a smile.

He had not stayed in Sacred World for long. After mastering the power of Grand Supreme Kai, he teleported back to Whis.

After Muiyang left, East Supreme Kai, Shin and his Attendant Supreme Kai Apprentice Kibito. When they came to the divine planet that Muiyang had stayed in, they looked at the endless forest, and they could not get over it for a long time.

"Lord Supreme Kai, this divine planet did not have these plants before, right?" Kibito asked in confusion.

"Yes!"

Supreme Kai squatted down and stroked the green grass on the ground. He sensed a strong life force from it and was secretly surprised. "This kind of abundant life force can only be achieved by the cooperation of several Supreme Kai years ago."

What exactly happened to this divine planet? Why was it suddenly full of life?

...

Chapter 546

"You have grasped Supreme Kai's power so quickly?" Whis was surprised to see Muiyang.

Muiyang said, "Probably I have already grasped Acceleration World's rules, and the Power of Creation is also a kind of rule."

Whis nodded. Acceleration World had a more complete set of rules. Previously, he lacked the seeds to open the rules. Now that he had the gift of the king and the great priest, it was like a catalyst. All of a sudden, Muiyang's ability was stimulated.

"So that's how it is. If you can perfectly grasp Acceleration World's rules, then even if you break through to the Level 9 Dimension, it is not a distant matter." Whis was very optimistic about Muiyang.

"Acceleration World can only provide support for me. How can it be so easy to break through?" It had only been a short while since he advanced to Level 8, and it was unrealistic for him to think about breaking through now.

Whis shook his head and said, "It's different. In the past, you had to explore on your own, but now it's different. The Lord Grand Minister is there. If you have any questions, you can ask him directly. We angels are all taught by the Lord Grand Minister. With a good teacher, we can walk fewer crooked paths."

An angel like Whis could guide things about martial arts, but in terms of high-level control of rules, the Lord Grand Minister was naturally more skilled.

Muiyang patted his head and suddenly came to a realization.

Yes, with his current status, if there was a problem, he could go to the Grand Minister. The Grand Minister would definitely not refuse him. Thinking of being able to receive the Grand Minister's guidance, Muiyang was a little excited.

However, before he troubled the Grand Minister, he had to first set up a space channel that connected Zeno World. With the effort, when he asked the Grand Minister for guidance in the future, the other party would be able to do his best.

Thinking about it, MUYANG did as he said. He teleported into Acceleration World. This time, Whis also came with him. Arriving at Planet Wudao, MUYANG began to circulate Acceleration World's energy. Soon, an illusory hole appeared in a restricted area of Planet Wudao. From the other end of the hole, it emitted a supreme and divine charm.

Whis looked at it in surprise and nodded. "That's right, that's the aura of Zeno World."

"Let's go together."

"Okay."

After saying that, MUYANG and Whis entered the space channel together. The other end was connected to the Zeno World of the entire universe. On the huge water planet of the golden auspicious cloud, the Grand Minister was already waiting outside Zeno's Palace.

Very good, with this passage,

The Grand Minister looked at MUYANG admiringly.

At this moment, a short figure ran out of Zeno's Palace, followed by two tall and slender guards, who looked panicked.

Zeno shouted, "Hey, Grand Minister, is he the founder of another world? I finally see someone who looks similar to me... Well, hello, my name is Zeno."

Reaching out, Zeno stood on tiptoe and looked at MUYANG.

At this time, MUYANG saw Zeno, the horizontal oval face, the blue and purple on both sides of the middle were divided into three areas, and the two copper coins like eyes were dotted on it, looking a little cute.

"Greetings, Lord Zeno"

Whis bent down from the side.

MUYANG was stunned for a moment before extending his hand. "Hello, I am the creator of Acceleration World."

"Yes, I know. The Grand Minister told me about it." "Is the world behind you? Can you let me go in and take a look?" Zeno pointed to the passage.

Although Zeno was asking, it also gave MUYANG a lot of pressure!

"Of course."

At this time, the Grand Minister said, "Lord Zeno, please wait a moment."

"Huh?"

Zeno looked at the Grand Minister doubtfully. The Grand Minister raised his hand and waved towards the passage that connected to Acceleration World. A golden door appeared and wrapped around the door to form a small palace. The palace was shaped like a "large" structure.

"Lord Zeno, I have already set it up."

"So beautiful, then let's go together." Zeno pushed the door with his hand in high spirits, and a flawless passage appeared.

Muyang led the way, followed by Zeno, Grand Minister, Whis, and Zeno's two guards. They glanced at each other and then followed closely behind.

At this time, only Muqiu, Amelia and a few others were in Acceleration World's group. They were still familiar with the power that Muyang had shared with them and were controlling their own galaxy. When they saw Muyang bring in a group of people they had never seen before, their faces could not help but reveal a surprised expression.

"Wow, this is Acceleration World! It is completely different from Zeno World."

Zeno was like a mischievous child. He ran around the martial arts planet and felt fresh from everything he saw. After all, Acceleration World's Planet Wudao was much bigger than the "Jellyfish Planet" where Zeno's Palace was located. The scenery above was much more colorful than the "Jellyfish Planet".

The Grand Minister had his hands behind his back and looked up at the surroundings. He said indifferently, "This is a new world. It is filled with the aura of chaos."

"Grand Minister, look, there are six beautiful planets in the sky."

Zeno looked up, his copper eyes unblinking.

Muyang introduced, "That is a small universe that has just been born. However, it is only the size of a galaxy."

The Grand Minister said, "It is already at its initial stage. When the time is right, it will naturally evolve into a large universe. It is not inferior to Lord Zeno's universe at all."

There were twelve water balls around the palace of Zeno World, representing the twelve universes of the entire universe. Acceleration World was much lower level than Zeno World and the number of universes was not as many as the king world. However, the Grand Minister did not deny the potential of Muyang's world.

"Hey, this place is so beautiful. I want to walk alone. Don't follow me."

Zeno said to the two guards behind him. The guard hesitated for a moment and looked at the Grand Minister uneasily. After seeing the Grand Minister nod, he was relieved to let Zeno leave alone.

"Father, who was that just now?" Muqiu, who was not clear about the identity of the Zeno, asked quietly. They had seen Whis beside Zeno. At this time, seeing Whis standing respectfully at the side, they could not help but be curious about the identity of the other party.

"Zeno!"

Muyang moved his lips and stared at the figure of Zeno.

"He is the master of the entire universe and has the ability to destroy a universe with a wave of his hand. Even if he wants to God of Destruction and Supreme Kai, it is only a thought. And the person next to him is the Grand Minister of Multiverse, the Angel Whis, whose status is not below Zeno."

"Hiss, it is such a powerful god. Should we take good care of him?"

Muqiu and Lazuli, and the others were immediately shocked. The terror of Zeno shocked them, and the high God's lofty status also surprised them. For Acceleration World to suddenly come in such a terrifying character, this was going to be heaven-defying!

Muyang waved his hand. "It doesn't matter. Zeno and the Grand Minister won't care about this. You just have to do your own things."

"Your Excellency Muyang, are these managers you chose?" The Grand Minister smiled faintly.

"Yes, they are my children."

"It is not easy to manage the universe. Do you need me to send a few angels to guide them?"

"If that is the case, of course it is best."

Chapter 547

Muyang did not refuse. First, he had the guidance of the angel. It would be very helpful to Muqiu and the others. Second, Muyang was not afraid that the angel would do something beyond his control after entering Acceleration World. After all, among Acceleration World, unless Zeno or Grand Minister personally acted, Muyang was confident that he could suppress anyone else.

The Grand Minister smiled. He needed to think about the candidate of the angel stationed outside.

Originally, he wanted to send the six angels who were idle in the universe, but after thinking about it, he felt that it was best to choose someone he was familiar with. He looked at Whis and said, "How about this, let Whis stay here for the time being. Universe 7 does not have many things to do, so let's take over!"

"I don't have any problems." Whis nodded.

Muyang had no objections to this. He was very familiar with Whis. He was also very assured to let him enter Acceleration World.

"It's settled then. If there is anything, you can ask Whis to contact me. Of course, you can also come to the entire king world to find me personally."

"Sure."

Muyang and the Grand Minister talked for a while and settled the matter. At this time, Muqiu and the others did not interrupt and obediently listened from the side. When they knew that they would be able to receive guidance from the angels in the future, they were faintly looking forward to it.

Next, in front of the Grand Minister, Muyang went to several other universes. Then, he opened up the passage to Zeno World of those worlds respectively. Soon, the other three Zeno and the Grand Minister also passed through the passage.

The four Zeno met at this time. It was as if four mentally handicapped children suddenly appeared in the scene. The ears became noisy, but Zeno were very happy.

"En, Muiyang, I'm very happy. In the future, you have to come to my world often to play!"

In his reluctance to part, Zeno said goodbye to the other few of them and returned to his world under the escort of the guards. The few Grand Ministers, because they had to communicate with the entire universe, stayed for the time being.

After Zeno left, the jelly-like Gaia carefully revealed her head and jumped into Muiyang's arms with a look of lingering fear.

"Eh? The thing in your arms is interesting."

The Grand Minister looked at Gaia in surprise.

"The Grand Minister knows about Gaia's origins?" Muiyang asked doubtfully. Gaia also tilted her head. Gaia was also confused about her identity.

The Grand Minister smiled and said, "There was a trace of the Dragon God aura on its body. It seemed that because it stayed with Acceleration World, it was also contaminated with a trace of the aura of rules. It was really a strange little fellow."

"Gaia found it on the planet formed by the Super Dragon Ball," Muiyang said.

"That's no wonder. It might be the incarnation of the Dragon Soul, but I can't completely judge its specific identity. It's better to ask Lord Chronoa. He is the most familiar with the Dragon God."

Muiyang nodded. He had a faint premonition that Gaia had an extraordinary background.

"Alright, we have to go back first. According to our previous agreement, the four of us will each send an angel to Acceleration World. In addition to training the six new universe masters, it also has the function of contacting the four entire universes. Please wait for a few days. After choosing a suitable candidate, I will let them come over."

Four Grand Ministers sent Angels representing each of their Multiverses. In addition to the Multiverse No.3 (Muiyang's Birth Timeline) decision to be managed by Whis, the other three candidates also need to be selected.

"Yes."

After the Grand Minister and the others left, Acceleration World regained his calm. Three days passed like this.

On this day, the entrances to the various universes lit up with a dazzling light at the same time. When the dazzling light gradually dissipated, three figures appeared in front of him.

The three of them were dressed in uniform. They had silver-gray hair and held a divine staff in their hands. They were the angels sent by the other universes.

One of them was wearing a purple divine robe. She was petite and had a ponytail. Her young face was full of seriousness. She was the angel of Universe 10, Angel Kusu.

The one on the left was a beautiful royal sister dressed in a green robe. Her silver gray hair was tied into a bundle. A ponytail hung down through a hairband. She was delicate and pretty. She was the angel of Universe 6, Angel Vados.

The one on the right was a stranger. She wore a dark blue robe. Her appearance was extremely similar to Vados, but she was a little younger than Vados. This angel had a slender and enchanting figure, and her skin was delicate and smooth. Other than the blue halo around her neck, her silver gray hair was tied into two long ponytails. Two strands of style hair stretched out from her forehead, and her actions were elegant and moving. She looked full of youthful vitality.

Her name was Marcarita and it is Angel of Universe 11.

The age of an angel naturally couldn't be judged only by her appearance. After all, with a celestial mountain like Kusu, Muyang couldn't be sure who was older or younger.

"Hello, my name is Marcarita. I am an angel from Universe 11."

The young girl smiled, as quiet and elegant as a lotus flower, and spoke with a strange accent.

"My name is Kusu, Universe 10."

"My name is Vados. I come from Universe 6. Please guide me in the future."

Kusu and Vados then greeted Muyang. These angels came from other universes, so they were not Kusu and Vados whom Muyang had seen before. For them, this was the first time they had seen Muyang.

They were very curious about Grand Supreme Kai, which was personally enshrined by the Grand Minister.

Muyang smiled gently and said, "No need to be polite. We will get along more often in the future. I hope we can cooperate happily."

"Muqiu, Lazuli... Come here. These people will be your teachers in the future. Under their guidance, you have to manage your own galaxy."

Muqiu and the others, who already knew that the other party was an angel, hurriedly stood in front of Vados and the others, looking at them cautiously.

"Aiyaya, looks like they are some young little fellows!"

Vados was as gentle as water, but no matter which world Vados was from, he was a little black-bellied.

Marcarita glanced at Vados and smiled to show her affinity. Even as sisters, Marcarita and Vados had always competed with each other. Only Kusu looked at them calmly. She said to Muyang, "The Grand Minister asked us to do our best to help you manage this world. If you have any requests, feel free to tell us."

Muyang smiled faintly. "This is mutual help. My world has not been established for long, and there are pitifully few lives in the universe. It is not troublesome to manage them. It is just these little fellows. Please train well."

Kusu said with a steady face, "Leave it to us. I will make them qualified managers as soon as possible."

Kusu, Vados, Whis, and Marcarita were the angels sent by the four universes. Of course, because they were also responsible for the position of angels in their own universe, they had to go back to work every year to transfer other angels over.

However, the angels that were transferred over would still be these few, but they were replaced by individuals from different parallel worlds.

Chapter 548

The addition of the four Angels immediately accelerated the development of the world. Under the guidance of Whis and the others, Muqiu, Amelia, and the others were slowly grasping the mysteries of maintaining the stability of the universe. Moreover, the four Angels were very good instructors. They train with them, and their strength grew every day.

On this day, the sky above Planet Wudao was clear for thousands of miles.

Suddenly, there was a violent whirlwind in the sky. A beautiful light broke through the clouds, and grass green flames burned fiercely... Broly had finally completed a further breakthrough! However, the violent and raging energy was also challenging his reason bit by bit. Broly controlled the raging energy in his body with difficulty.

With a rumble, it was like a great sun suddenly exploding in the sky. The majestic energy instantly engulfed everything in a radius of several thousand meters.

The terrifying momentum caused Planet Wudao to tremble.

Muyang waved his hand to stabilize Planet Wudao. Standing below, he frowned. Although Broly had also reached the form of "Legendary Super Saiyan", it seemed to be a little out of control compared to Maylia's transformation.

"Broly's situation is not good!" April said worriedly.

"This has never happened to me before." Melissa frowned.

Muyang said, "This is the real 'Super Saiyan' from the legends. It is purer than you, Melissa, but Broly's control is still unable to control this power."

Melissa was affected by the Demon Ki in her previous life, and with the excellent bloodline genes in this life, she revealed the form of a Legend. Broly was much purer than her, and it would be strange if he did not go berserk when he truly awakened his beast

"Do you want us to stop them?" Whis looked at Broly indifferently.

"Wait, let's take a look at his condition first."

Muyang shook his head. No matter how strong Broly was, he had only just reached the "Half-God" level. No matter if it were for Muyang or the four Angels, if they really wanted to attack, they could stop him with a single hand knife. However, Muyang did not want to do so. He hoped that Broly could control his own strength.

"I haven't seen the Legendary Super Saiyan for many years, except for Ellipmont. But such a Bloodline is too easy to get out of control..."

Marcarita smiled tenderly, her delicate face without a trace of worry.

Vados's green skirt fluttered, revealing a smile, "In my Universe 6, there is also a Saiyan of similar blood,

Now, he was already one of the top experts in Universe 6.

The Multiverse No. 2 of Vados was in the entire universe, which was also the world that Trunks lived in. It was 17 years faster than the timeline of the current world. There was a Legendary Super Saiyan named Kale. He had also been violent when he was growing up. Later, he had mastered the power of the legend under the guidance of Vados. He was now the most powerful warrior in their universe.

"Hmph, don't say that backward universe of yours. No matter how strong you are, you can't compare to my Universe 11. Our Jiren is a powerful Warrior that even God of Destruction 'Belmod' appreciates."

Marcarita glanced at Vados and said with equal harshness.

Vados looked at Marcarita with a brilliant smile. "I'm really sorry. I know about the guitar that you mentioned. In my place, our two universes had a competition. Your strongest warrior, Jiren, lost to the opening of our universe."

"Impossible, how could Jiren lose to the people of your universe"

Marcarita's first reaction was disbelief. Jiren was the main force of the proud battle of Universe 11. Even the God of Destruction, Belmod, didn't dare to underestimate his strength. How could he lose?

"That's the truth. You've seen the power of the Super Saiyan. My world is faster than your world by more than ten years. Kale is the next God of Destruction in our world!"

Vados' beautiful face looked at Marcarita, not forgetting to attack her sisters with words.

"Hmph!" Marcarita rolled her eyes at Vados unhappily.

"The two of you need to be quiet."

The petite Kusu coughed twice, picked up the divine staff and knocked on the heads of Vados and Marcarita. When the two female angels saw their elder sister speak, they all fell silent.

Kusu sighed helplessly and flew to Muiyang's side. "Master Muiyang, this child of yours needs to strengthen his mental training. Why don't you let me train him?"

"Are you good at mental strength?" Muiyang asked.

Kusu said, "Every angel has their own specialty. I know a bit more than Weiss and the others."

"Then give it a try!"

"En."

Kusu nodded. The crystal ball of the divine staff aimed at Broly in the sky. A bolt of lightning shot out, and a dot of light spread out into an infinite dimension in the air. A spherical space about a hundred meters in diameter suddenly appeared in the sky, and then firmly covered Broly inside.

With a tap of his toes, Kusu stepped forward lightly and entered the spherical space with a pop. That spherical space was actually a space of the spiritual domain. The flow of time inside was different from the outside world. A second outside might be a long time inside.

About two minutes later, Kusu came out of the spiritual space, and Broly followed behind him. However, looking at his current appearance, it was obvious that he had stabilized the strength in his body.

“Amazing.” Muiyang praised. He could tell that Broly was in a good state.

If they really fought, maybe even Melissa might not be his match.

Whis said, “This is Sister Kusu’s Innate Talent. Other than the power of the Time Rule, each of our angels has at least some other abilities. However, only Sister Kusu is familiar with the power of Spirit.”

Muiyang nodded. The time in the spiritual world was different from the real world. Moreover, there were many strange and bizarre things in it. If it were for used to defend against enemies, it would definitely give the opponent a headache.

“Father.”

Broly shyly came to the side, his body emitting waves after waves of aura.

“Hahaha, very good. Other than Melissa, we have a second Saiyan who has reached the Half-God Level.”

“Broly, let’s compare who is stronger.” Melissa looked at him and said.

Broly looked at Melissa awkwardly and nodded, “Alright, let’s stop here.”

Melissa laughed, “Don’t worry, we have so many experts here. You can fight as much as you like, don’t worry about hurting them.”

Muiyang also said, “Do your best to fight Melissa. All of you are Super Saiyans. Fighting is the best way for you to grow.”

“Okay, let’s begin!”

“Come on!”

Melissa shouted arrogantly, and the grass green energy burst out. Then he clenched his fist and attacked Broly. Broly’s eyes flashed, and at the same time, he displayed the power of his green hair. Soon, the shockwaves spread throughout the entire Planet Wudao. In an instant, the two of them exchanged countless blows.

“The battle between the Super Saiyan people reminded me of the battle in ancient times.” Whis looked at the sky.

“Was it the battle of Ellipmont?”

“That’s right. Back then, they were the elites of our two universes. If not for the chaos in the end and the anger of the king, both of them wouldn’t have been wiped out.”

When Mu Yang heard this, he asked curiously, “What are you guys talking about?”

Weiss said, “We were talking about a war between Saiyan people. In the past, Ellipmont was the expert of the God of Destruction competition with Lord Beerus. Unfortunately, because of Race, it conflicted with the Saiyan leader of Universe 6, which caused the universe. The great battle between 6 and Universe 7 Saiyan.”

“Later, Lord Zeno was very angry and wiped them all out with a wave of his hand. Otherwise, Lord Beerus might not be the one who is now serving as the God of Destruction.”

Vados continued, “If not for that farce, the God of Destruction of my Universe 6 might not have been Lord Champa.”

Chapter 549

So that’s how it is... After listening to Whis and Vados’ explanation, Muyang nodded in understanding.

He already knew that there was a conflict between the two races, but he didn’t know that it involved the candidate of the God of Destruction. Thinking about it, the ancient Saiyans were quite powerful, and they actually had the qualifications to compete for the god of destruction.

Marcarita sneered, “Your Saiyans are too easy to cause trouble, but you should also be glad that Zeno didn’t clean up the Universes 6 and 7.”

Vados nodded and said, “Now that I think about it, I’m quite lucky.”

While Muyang was chatting with Vados and the others, the battle between Melissa and Broly in the sky was coming to an end. Broly’s strength was obviously slightly higher than Melissa’s, but Broly was not as skilled as Melissa in terms of skills. Therefore, the battle ended with Melissa winning slightly, but in fact, if they were given a little more time, the one who would lose would be Melissa.

“Sister, you’re about to lose to the younger generation.”

April bent her eyes and handed Melissa a brand new set of clothes.

Melissa snorted and pinched her cheek. “April, you are not much better than me. At least I am a Half-God, and you are still wandering in front of the threshold of Half-God Level.”

April had a helpless expression. “If I can’t break through to the next level, I can’t do anything about it either!”

To be honest, the threshold of the Half-God Level was like a huge sieve. Apart from countless people with insufficient talent, there were still some left behind. And this sieve was even more thorough. It was simply impossible for people to see the hope of breaking through. Generally speaking, experts who could break through to the Half-God Level in a universe were the minority.

For example, in the current Universe 7, other than the God of Destruction Beerus and Muiyang, the only ones who had truly reached the Half-God Level were Melissa and Broly.

Of course, if Melissa was counted as Melia and Melis, then there would be three people.

“By the way, father, it will be Krillin’s wedding in a few days. Goku asked me to ask if you have time to attend the wedding.”

Broly changed his clothes and said to Muiyang.

Muiyang was stunned for a moment, “Krillin is going to get married? Who is the bride?”

He had been to other universes, and the timeline was much more advanced than here, but he had never seen Krillin get married. More importantly, in the original story, Lazuli had already become his daughter-in-law.

“It’s a girl named Suno. She seems to be a public officer in the West City. She is a police officer... Krillin has known her for many years.”

We have always talked. This time, after the end of the Big Gete Star incident, she was transferred to West City. It can be considered a long-time reunion.

When Muiyang heard this, he became interested and quickly expressed that he would bring someone to attend Krillin’s wedding.

“Muiyang, I heard that someone is getting married here?” “There must be a lot of delicious food at the wedding, right?” Whis walked over.

Your ears are really sharp...

Muiyang glanced at Whis. “There is indeed a lot of delicious food. It is boring for you to stay on Planet Wudao. Why don’t you come with me to Earth?”

“That must be good.” Like Beerus, Whis loved delicious food the most. He had long wanted to go to Earth.

Vados said with interest, “If there is food, I don’t mind.”

Marcarita said, “If you want to eat something, just say it.”

Vados licked her lips and said with a playful smile, “Don’t you want to?”

Marcarita, “...”

I really want to fight Vados.

Kusu said, “We come from another parallel world. Theoretically, we should not set foot on other planets.”

“It doesn’t matter. The Grand Minister did not forbid you from leaving and accelerating the world,” Muiyang said.

“Then let’s go over and take a look.”

Thus, under the lead of Muiyang, Whis and the other four Angels came to Earth. The clothes and hair color of the four Angels were different from ordinary people, but what kind of species didn't exist on Earth? Therefore, it didn't attract the attention of the surrounding people.

In a restaurant, Whis ate a piece of delicious food with a happy face, as if he was floating in the air.

"It's too delicious. I should have come to Earth earlier." "Oh, it's a pity that Lord Beerus is still sleeping and has no chance of such delicious food."

"It is indeed not bad." Marcarita tasted the delicious food gracefully.

"Logically speaking, there should be such a planet in the sixth universe, right?" Kusu asked.

"It's a pity that the Earth of the Universe 6 has been destroyed because of the stupid war of the earth people. Mnnn... If Lord Champa knew, he would definitely go crazy."

Vados tasted the delicious food with small bites and did not look sad at all.

In fact, even if he took some of the earth's food back to Champa, Champa would think it was delicious food.

"Speaking of which, Muiyang, you are still an excellent chef, right?" Whis put down the plate in his hand.

"Yes, if you go to Great Azure Mountain, you can also taste the real home-made snacks there. Launch's family's restaurant is very famous in the area."

Muiyang chuckled, as if he remembered the days when he studied at Launch's restaurant.

A few days passed quickly. In the past few days, Whis and the others put down their usual work and enjoyed the life on Earth.

On this day, it was the day of Krillin's wedding.

When Muiyang saw Krillin's bride, he roughly recognized her identity. It turned out that this Suno was actually a red-haired girl who lived near the Muscle Tower" in the Northern Part. In the original story, she had saved Son Goku's life.

It was a cute and considerate little girl.

But how did she get together with Krillin? The two of them should not have had any interaction.

After quietly asking Krillin, Krillin was embarrassed to say that he used the dragon pearl to make a wish to find his future bride. Because Suno was still young at that time, he only got familiar with one person. Later, as time passed, Suno grew up little by little and learned a bit of martial arts under Krillin's guidance. Only then did he become a police officer.

After listening to this, Muiyang looked at Krillin with disdain. It turned out that when Suno was so young, he had been targeted by Krillin, this strange uncle.

When he told about Krillin and Suno, he also received the same disdainful smile.

“Hmph, one person is the same. I was raised by you for two lifetimes!”

Melissa raised her rosy lips.

April said, “The first time I met my brother, he was only five years old.”

“...”

Muyang was speechless for a moment. This topic seemed to be unable to be discussed with Melissa and the others, making him seem like a weird uncle.

...

Time passed quickly. In the blink of an eye, more than six years had passed. By now, seven years had passed since the incident with the Big Gete Star incident.

In the past few years, Whis and the others had changed several batches, accelerating the growth of the world under their support. Similarly, Muqiu and the others’ strength was about to touch the breakthrough of the Half-God Level.

Of course, apart from Muqiu and the others, many things had happened on Earth in the past few years. The most serious thing was that two years ago, a monster named Hildegarn invaded Earth. Because at that time, Muyang and the others did not interfere in accelerating the world, it was Son Goku and Vegeta who spent a lot of effort to resist the attack of the enemy.

However, the result was that when Hildegarn was repelled, Earth also suffered serious injuries. Fortunately, Earth had already been strengthened, so there were no fatal injuries.

However, this disaster still affected the stability of Earth. Even the 28th Martial Arts Tournament that should have been held two years ago was helplessly delayed for two years.

Chapter 550

In the northern hemisphere, the towering mountain range that stretched for hundreds of kilometers was like a giant dragon lying across the continent.

This place was full of jagged rocks. The forest was dense, and the towering mountain peak was clear and bright. Under the gentle light, it seemed quiet and full of nature. Because it was hundreds of kilometers away from the city, the surrounding of the mountains isolated this place. There were very few signs of human activity.

This was the paradise of real wild animals.

Rumble. A dazzling light broke through the void, and the pillar of light rose into the sky. The huge fireball broke the silence here.

Influenced by this, the earth trembled violently. The huge destructive force cut off the mountain peaks from the middle, leaving a bottomless chasm. The stone statue shot out like a cannonball, smashing into the ground and splashing a large amount of dry sand.

The vast forest echoed with the low roar of beasts, constantly fleeing in all directions. The birds were startled, and in the blink of an eye, they turned into black dots on the horizon.

And the ones who caused all this were two young people of sixteen or seventeen years old.

One of them had black hair. He was delicate and pretty, about the age of an adult. He was more than 1.6 meters tall, and his slim figure was full of the charm of a young girl. The other was handsome, not tall, not short, not thin or fat. He looked like a heroic youth.

They were Son Goku's eldest son, Son Hongye and Broly's son Elek.

Seven years after the Big Gete Star incident, the children of that year had all grown up.

Son Hongye, who was 16 years old, was studying in a high school in a nearby city. Because she had inherited Chi-Chi's good genes, her pretty face seemed to have been meticulously carved. She was a rare beauty in the class and was very liked by the students around her.

But sometimes, she would also be worried about the powerful strength in her body.

Because she could not play with her classmates, every time after school, she would go home early on the Flying Nimbus. She would find a quiet and secluded place to fight to her heart's content with the person with the best relationship. Of course, it was all because of Elek who gave in to her. After all, Elek had received the training of an angel in Acceleration World. His strength had long surpassed that of Son Hongye.

Xiu, countless rays swept through the mountains and rivers. Elek nimbly dodged and threw out a ball of energy. With a rumble, the trees in a radius of a thousand meters were bent by the storm. The trees with a diameter of several meters were directly cut in half at the waist.

"Elek, you are getting more and more powerful. I can't beat you." Son Hongye gasped for breath and withdrew from the Super Saiyan state.

"Hahaha, if you are willing, I can train you well. I guarantee that you will become even stronger.

"This is what you said."

Son Hongye's beautiful eyes looked at Elek. His eyes were like crystals, full of spirituality.

"Of course." Elek patted his chest. Under the guidance of an angel, he had also mastered the advanced martial arts philosophy. Moreover, he felt that staying with Son Hongye was also a relaxing thing.

Son Hongye gently pulled up her hair and giggled, "In two months, it will be the World Martial Arts Tournament. Although that kind of competition is relatively low for us, I think it is quite interesting. Shall we go together?"

"Alright, we've never participated in the World Martial Arts Tournament before. It's good to go and play." Elek agreed readily.

"Oh yeah, is there a lot of bonus for the Martial Arts Tournament?"

"It's okay, it should be a few million." Son Hongye replied.

"It seems like we don't have to think about winning the championship. I think Aunt Lasuli will definitely participate as well."

Elek's expression immediately fell. Andorid 18 was a money grubber. As long as there was a prize money competition, she would be there. He really didn't know why she wanted so much money.

Son Hongye also could not understand Andoid 18's love for money. She said, "If Aunt Lisuli is participating, then we can only aim at the runner-up."

"Yes, that's the only way." Elek took out two cups from the all-purpose capsule and handed one to Son Hongye. While drinking water, he chatted with Son Hongye. "Since you want to participate in the competition, why don't you call Goten and Alex together? It'll be lively when there are more people."

"Sure!"

"Right, what is Goten doing now?"

"I don't know. Ever since I met a little sister called 'Angela', I went home very late after school."

"He must have a girlfriend."

Elek immediately guessed that Son Goten was in a relationship. Otherwise, he would not have gone home so late.

Son Hongye spread her hands. She had seen the girl called Angela before. She had orange curly hair and looked very cute. However, they were only 16 years old. Would it be too early for them to fall in love? She secretly glanced at Elek's handsome face. Well, it seemed that it was not too early.

"What are you looking at?" Elek placed his hand on Son Hongye's head.

Son Hongye's voice was as soft as a mosquito's whisper. "It's nothing."

...

"Hey, Goten, are you interested in participating in the World Martial Arts Competition two months from now? Yes, both me and Hongye will participate... Call Alex as well."

"Alright, it sounds very interesting."

Son Goten quickly gave a reply. After receiving Son Goten's reply, Ilke immediately contacted Alex. However, this matter was soon known by Alex's father, Vegeta. When he learned that a few children were going to participate in the Martial Arts Tournament, Vegeta was immediately interested.

In the last notice, even Son Goku and Piccolo were going to participate.

When he learned of this result, Ilk was stunned for a moment. If Son Goku, Vegeta, and the others were going to participate in the competition, then what were the juniors playing?

A perfectly fine match had turned into a big gathering. In his heart, he did not know how to describe it, but he quickly pulled himself together.

Wasn't it just Son Goku and the others? He had been trained in Acceleration World for so long, and his strength was not much inferior!

Perhaps, he should use his own strength to test the strength of his elders!

...

On the other side, as the World Martial Arts Tournament that had been delayed for two years gradually approached, all the experts in the world were rubbing their fists and waiting for the competition. In the Lookout, Kanalita was teaching her little disciple. This disciple of hers was called Videl, and she was the youngest martial artist in the martial arts family who had entered the temple in recent years.

Videl was born in a martial arts family, and his father was a relatively famous expert who had once achieved good results in the World Martial Arts Tournament.

Because the martial arts era was popular in this world, Satan was far more knowledgeable than in the original story. Although he was still a little narcissistic, he was not a swindler who deceived the world. Instead, he specialized in martial arts and achieved a lot of achievements. Therefore, under the influence of this environment, he was more determined to become an outstanding martial artist than Videl since she was a child.

Fortunately, Videl's martial arts talent was better than Satan's. At a young age, he passed the test of Korin and was selected to be sent to the Lookout.

When Kanalita saw the young Videl, it was as if she had seen her own childhood, and she immediately planned to cultivate her as a successor.

She stood at the edge of the Lookout, and when she saw that Ilk and Son Hongye were talking about participating in the Martial Arts Tournament, she went to look for Videl.

“Videl, come here for a moment.”

“Teacher!”

Videl nimbly jumped over.

Kanalita said, “The lower realm is about to hold a martial arts competition. There will be many experts participating in it. You should also participate in it as a form of training for you.”

“Will there be many experts in the Martial Arts Tournament below?”

“You will understand once you go there.”

“Oh.” Unparalleled was not interested in the Martial Arts Tournament, but since it was her teacher's order, she could only comply.

Kanalita seemed to have seen through Videl's mentality. She smiled and did not speak. This little disciple of hers had never experienced failure, and her standards were too high.

When you see Son Hongye and the others at the Martial Arts Tournament, you will know that there is always someone stronger than you, and there is always someone stronger.
