

## Ball God 581

### Chapter 581

In the entire universe, the realm was the foundation of the gods. As a Half-God Level, the Super Saiyan God naturally placed importance on the realm, which could bring about long-term combat ability and super recovery ability. At the same time, the aura of the gods would also be completely concealed, making it impossible for people to detect it.

The “Super Saiyan God Form” that Son Goku and the others had obtained through shortcuts could barely be considered the state of “Super Saiyan God”, but compared to the “Super Saiyan God” that they had truly relied on their own strength to achieve, there was still a clear difference.

Due to haste, the advancement of the Super Saiyan God people was very difficult. Son Goku was a pragmatist, so during God of Destruction Planet training, he still gave up the realm and turned the Super Saiyan God and went into a Super Saiyan Blue to pursue strength.

Of course, the Super Saiyan Blue people were not completely useless. After all, they were transformed after absorbing a portion of the Super Saiyan God’s power. Their strength was equally powerful, but compared to the perfect Super Saiyan God, it seemed to be lacking something. However, this might be the path that Son Goku and Vegeta were pursuing.

To make them seriously comprehend the realm, it was actually a bit difficult for them.

This was the difference between the two. As long as Muqiu and Amelia were able to calm down and comprehend the realm under the guidance of an Angel, then when the realm was perfect, the strength they reached would not be inferior to the Super Saiyan Blue.

To be honest, after absorbing the essence of the Majin and advancing to the Half-God Level state, it would take a period of time to adapt, and the most effective way to adapt was to coordinate the strength in the body through combat. Thus, above the dense forest, Amelia and Muqiu stood there.

The two of them were first-class beauties, with a frown and a smile, with a charm that could charm the world.

Whoosh! Her beautiful hair moved without any wind. There was not a trace of energy on April’s body, but the entire sky was condensed into a solid aura. The power of Melissa’s green hair burned fiercely. In the next second, the two quickly approached and quickly separated.

The space suddenly exploded after a moment of delay.

Bang! The two people came into contact again. The two fists collided, and there was a real collision. Except for the place where the two fists collided, there was no earth-shattering and dazzling light. When the power rose to the Half-God Level, the scene of the battle was completely different from the past. Each action was simple and unadorned, but it contained great power.

Bang! Bang! Bang! Bang! One figure after another appeared above the martial star. The aftermath of the battle had already affected the entire martial star.

Muqiu and Amelia, who were receiving guidance from the angel not far away, raised their heads in surprise and then carefully observed the movements of April and the others.

This is the power of a Half-God Level.

“This is the power of the Half-God Level.” MUYANG and AMELIA looked up and watched, and the eyes continued to turn with the silhouette of the sky.

“Auntie April has just broken through and she is already so powerful!” ANDROID 18 looked at it seriously.

“How scary. I should hide a little further away.”

FAT BUU shrank his body. He was a martial arts genius. Although he had recovered the energy taken away by SKINNY BUU in the past two years, with his current strength, there was still a difference between heaven and earth between him and a demigod.

ANGEL MARCARITA from another Multiverse has an elegant smile, “Hehe, their power is relatively powerful in the Half-God Level.”

“The Android body with the body of a Demon God, coupled with the eternal energy source, such a state is naturally impossible to measure by realm.”

ADOS smiled and picked up Divine Staff to continue to drill on MUQIU.

After MUQIU and AMELIA had witnessed the battle between April and MELISSA, they were filled with anticipation for the Half-God Level. Without having to say anything more, both of them entered consciousness training and began to sublimate their comprehension of realms.

Beside him, MUTIAN, who was already nine years old, asked BROLY, “Brother Broly, how are you compared to mother?”

BROLY pondered for a moment, “Just based on strength, I’m probably a bit stronger.”

“Wow, so powerful!” Little MUTIAN immediately opened his mouth wide.

“Alright, hurry up and cultivate as well.”

“En.”

Little MUTIAN nodded. As soon as he opened his eyes, his entire body immediately lit up with bright white flames. After all, he had inherited his mother April’s excellent genes. Other than his energy, MUTIAN also possessed some unique superpowers.

Just as everyone in Acceleration World was working even harder on their training.

Universe 10, Sacred World of the Kai.

The huge word “Boundary” was erected on Supreme Kai divine planet. Under the word “Boundary”, there was a small path that led directly to the residence of Supreme Kai GOWASU in Universe 10.

In a garden with beautiful scenery, Supreme Kai GOWASU was sitting in a pavilion, tasting a cup of tea. Beside him stood a green-skinned man, holding a teapot in his hand. His behavior was gentle and refined. His name was ZAMASU; he was the trainee Supreme Kai of Universe 10.

Gowasu was the yellow-skinned Supreme Kai. The corners of his eyes and forehead were full of wrinkles. He was an old Supreme Kai. At this time, there were two Supreme Kai sitting opposite Gowasu. It was Universe 7's Old Kai and East Supreme Kai.

Carefully tasting the warm tea, Gowasu smiled and said to Old Kai, "Gowasu, you haven't come to me for a long time. This is the current Universe 7, Supreme Kai, right? I have never seen him before!"

East Supreme Kai said humbly, "Hello, Senior Gowasu."

Old Kai chuckled. "I just came out of the seal of the Z Sword. So many years have passed in a flash, and you are the only one left in the same era."

"The God of Destruction, Lord Beerus, sometimes really makes people helpless." Gowasu shook his head, "But there is no other way. Your Universe 7's Supreme Kai changed too quickly. It has only been 750 million years, but he has changed fifteen. It seems that Lord Beerus is very famous."

Old Kai rolled his eyes. In fact, he was also wondering why his own universe's Supreme Kai was so useless.

"Universe 7's Supreme Kai is indeed worse than the previous generation. This, this kid has become Supreme Kai, but he still needs me to continue teaching." Old Kai pointed at East Supreme Kai with a look of indignation.

East Supreme Kai lowered his head in shame. Now that he thought about it, he had indeed neglected his duty as Supreme Kai for millions of years. He had not even properly managed the basic management of the universe.

Supreme Kai said, "Your previous Supreme Kai was very good, and he was also very strong. However, he disappeared somehow."

East Supreme Kai said, "He was absorbed by Majin Buu."

"Oh, so it's the Majin! With the strength of that Universe 7 Supreme Kai, it should be impossible for him to lose to the Majin." Gowasu shook his head regretfully. Universe 7's previous Supreme Kai could be said to be one of the most outstanding among Supreme Kai. He was strong and had a high realm.

Gowasu's words made Supreme Kai recall the words that Muiyang had once said. It seemed that "Grand" Supreme Kai's strength had been greatly damaged in order to seal a certain monster more than ten million years ago, which was why he had lost to the Majin Buu.

"Teacher, your tea is cold." Zamasu held the teapot and filled it with hot tea.

"Zamasu, your heart is not calm enough. You can only brew elegant black tea when you are calm!" Gowasu put down the teacup in his hand and said to his disciple.

"Yes, teacher!"

Zamasu said politely. Then, he made another cup for everyone.

Old Kai savored the taste of black tea. “If not for Lord Grand Supreme Kai, I would have been sealed for who knows how many years.”

After coming out of Supreme Kai’s sword, the familiar Supreme Kai was left with only Gowasu. He felt that things were different, but people were different.

Chapter 582

“Grand Supreme Kai?” Guevara asked in surprise.

Old Kai laughed out loud, “Even you don’t know?” It turns out that there is a Grand Supreme Kai who controls all the universe above all Supreme Kai. He is an extremely lofty god! I only confirmed it after I met the Grand Minister recently. “

Gowasu was surprised, and his good qualities made him calm down. “I see, I am actually lonely.”

At this time, Zamasu, who was serving beside him, asked, “Senior, what kind of god is Grand Supreme Kai?”

“Zhmar!” Guevara scolded.

“It’s fine. I don’t think Grand Supreme Kai will blame me.” Old Kai narrowed his eyes, “Grand Supreme Kai is an extremely strong god. Although I have never seen him fight with my own eyes, I feel that he is more powerful than Lord Beerus, the God of Destruction. And from the way he interacted with the Grand Minister, his status seems to be equal.”

“After all, even the Grand Minister called him Mister!”

“It’s actually such a lofty god!” Gowasu was shocked.

A Grand Supreme Kai and a Grand Minister represented the highest god in the entire universe.

This was something that even Old Kai himself was shocked. However, if he had seen Muiyang’s Grand Supreme Kai Divine Equipment, he would be able to see the similarities between the Grand Supreme Kai Divine Equipment and the Grand Minister’s clothing.

“May I ask what kind of attitude Lord Grand Supreme Kai has towards humans?” Zamasu’s eyes lit up as he asked.

Old Kai looked at Zamasu in surprise. He was curious about the other’s question.

Gowasu frowned and waved his hand to interrupt Zamasu’s question. Then, he ordered him to brew another pot of hot tea. “Zamasu, the tea is a little cold. You can brew another pot!”

“Yes, teacher.” Zamasu nodded humbly and went to prepare the tea.

Old Kai narrowed his eyes. “This disciple of yours seems to have a bit of a problem with his thoughts.”

Gowasu said, “Zamasu is an outstanding candidate for Supreme Kai. When he was the king of the North Area in the lower realms, he personally handled many matters and contributed a lot to the stability of the galaxy at that time. However, even now, his ideas have not changed from being a Zeno World!”

“He still doesn’t understand. Supreme Kai is different from a Zeno World.”

Gowasu said solemnly.

“This point was correct. Supreme Kai was the God of Love created by palm of hand, so he needed to understand the kind and natural heart. From the perspective of a great universe, in front of the big difference, he absolutely could not be bound by the narrow-minded ethics of the mortal world. Only by letting the universe run normally for a long time, would that be true justice. If he couldn’t even see through this point, it meant that he could only be an apprentice Supreme Kai, and not qualified to be Supreme Kai.”

Old Kai nodded with a serious face. At the same time, he glanced at East Supreme Kai and also taught him the necessary common sense as Supreme Kai.

East Supreme Kai carefully savored the words of Old Kai. This concept was often told to him when the previous Supreme Kai was still alive.

Justice in the mortal world was very narrow. It was just a value concept of secular ethics. For a race, as long as they were concerned about the development of their own race, they could be defined as “justice”.

From the perspective of mortals, the God of Destruction was a ruthless and terrifying demon. It could easily destroy planets and destroy life. There was no humanity at all. However, this was the work of the God of Destruction, eliminating the hopeless civilization, in order to better continue the operation of the universe.

God of Destruction destroys the planet, destroys the planet that affects the operation of the universe; Kai, the creation of the palm, creates the planet of life. The two complement each other and together maintain the order of the universe.

As for punishing evil and raising good, that was neither the responsibility of destroying the god nor Supreme Kai, but the responsibility of the mortals and Kai of the lower realms.

Zamasu had already become a trainee Supreme Kai, so his concept had to rise to the level of the entire universe instead of still keeping the values of Kai.

“Zamasu is a god with great potential. I hope that he will wake up soon and realize Supreme Kai’s duty.”

Gowasu sighed. He was full of expectations for this disciple of his. However, things in the world were often contrary to their wishes. In the future, Zamasu would make an unforgivable mistake. However, under the circumstances that the Time Ring was turned over, it was hard to say what would happen in the future.

“Sorry, the future Zamasu might disappoint you.”

At this moment, a dazzling light suddenly flashed in the beautiful garden. Muiyang’s elegant figure appeared in front of Gowasu and the others.

Old Kai and East Supreme Kai saw Muiyang appear and hurriedly welcomed him.

“Greetings, Lord Grand Supreme Kai.”

“He is that Lord Grand Supreme Kai?” Gowasu saw how respectful Old Kai and the others were and immediately went up to greet them.

“Lord Grand Supreme Kai, why have you come to the tenth universe?” Old Kai asked doubtfully.

Muyang came to the stone table and sat down. “Naturally, it’s for the trainee Supreme Kai here!”

Gowasu asked in confusion, “Could it be that Zamasu has done something wrong?”

Muyang said, “There are no mistakes, but the future is uncertain...” As he spoke, he recounted what had happened in the other worlds. When he learned that the future Zamasu had killed Supreme Kai and stole the Potara Earrings and the Time Ring, Gowasu suddenly aged a lot.

“Is this reason why the Grand Minister took back the Time Ring?” Gowasu muttered to himself.

“That’s more or less the case. Therefore, for a disciple like you, you must be strictly watched. His pursuit of absolute justice is already a kind of distortion in his heart.”

Old Kai said, “This is because I don’t have enough cultivation.”

Gowasu asked carefully, “Did the Grand Supreme Kai come here to punish Zamasu?”

“Of course not. A small apprentice Supreme Kai is not enough to attract the attention of me and the Grand Minister. Moreover, without the Time Ring, Zamasu is just a small character with a fighting strength of billions. In addition to informing you about Zamasu, I came here to find Old Kai.”

“Looking for me?”

“Yes, I heard that Old Kai has the ability to develop the potential of the human body. My children are currently facing a bottleneck, so I need Old Kai’s help.”

“If it’s just to activate the potential, I am indeed good at it.” Old Kai smiled proudly.

When his superpower opened the potential of the human body, it would not damage the foundation. It could be said to be a very complete superpower. In the original story, after Son Goku accepted his potential development, he directly reached the “mysterious state”. It was very similar to the state of “God Realm”. If Muqiu and the others received the help of Old Kai, they would be able to greatly shorten the time to reach the Super Saiyan God Realm.

As for the request of Lord Grand Supreme Kai, Old Kai naturally agreed very readily.

At this time, Supreme Kai, who was in the tenth universe, hesitated and asked, “Lord Grand Supreme Kai, I wonder what you can do about the problem of Zamasu?”

Muyang poured himself a cup of tea and said, "Since there is a problem with the mind, then let's start from this point. The reason why Zamasu hates humans is because he witnessed and interfered with the affairs of too many mortals when he was the North Kai's Planet. It is to the extent that he believes what he has done is true justice."

"You just need to let him correct his position."

"What exactly should I do?" This was what Gowasu was distressed about.

"Doesn't he hate humans very much and want to carry out his own justice? Then let him be a human for a period of time and let him live with the humans he hates."

"I'm afraid this will backfire..." Gowasu was a little hesitant.

Muyang smiled coldly. If he can't even break through this mental barrier, then it only means that he doesn't have the qualifications to become Supreme Kai. It would be better if he was eliminated earlier. If he became Supreme Kai, it would only bring disaster to the universe.

Muyang didn't have much of a good impression of Zamasu. He was just a mere apprentice Supreme Kai. It would be polite if he didn't kill him directly.

Gowasu thought for a moment, then gritted his teeth and said, "Alright, then let's follow what Lord Grand Supreme Kai said and let Zamasu become a mortal. When will he be able to overcome the demons in his heart and let him return? However, regarding the matter of sealing Zamasu's power, I hope that Lord Grand Supreme Kai will take action."

Gowasu bowed towards Muyang and requested.

"No problem." The seal that Muyang had set up would probably only be broken through by the God of Destruction or stronger experts.

"As for the planet for training..."

"Universe 7's Planet Namek is very good, the Namekian is a natural and kind life, and Zamasu goes to the Planet Namek and is sure to get good training." East Supreme Kai made his own suggestion.

Although Planet Namek was in a difficult condition, it was the perfect place for ideological modification.

Chapter 583

Following the suggestion of East Supreme Kai to exile Zamasu to Universe 7's Planet Namek, Gowasu and Old Kai thought about it and felt that it was a way. Muyang looked at East Supreme Kai with a little surprise and nodded lightly, so the punishment for Zamasu was almost settled.

When Zamasu came back with a hot tea, Gowasu told him about the experience. Even though Zamasu was struggling in his heart, he still made a look of agreement on the surface.

"Grand Supreme Kai, please seal the energy in Zamasu's body." Gowasu sighed and requested.

“Yes.” Muiyang nodded slightly. A bolt of lightning entered Zamasu’s body. In an instant, the energy in Zamasu’s body seemed to be frozen and sealed deep into his body. There was no more energy on the surface. This seal contained a special power. Even if the god of destruction attacked, it would not be so easy to undo it.

Zamasu only felt his body turn cold, and a feeling of powerlessness surged into his heart.

“Zamasu, your next training will be arranged by Universe 7 and Supreme Kai. When you pass the test, you will be the true Supreme Kai of Universe 10.”

In the end, Gowasu had high hopes for his own disciple and personally made a promise.

As long as Zamasu could overcome the demons in his heart and understand Supreme Kai’s attitude when dealing with things, it was only natural for him to become a qualified Supreme Kai. Muiyang did not object to this.

Zamasu did not clear out the reason for his training this time. He thought that it was a test that all Supreme Kai had to go through before he became a full-fledged student. He said with a righteous face, “Teacher, don’t worry. Disciple will become a qualified Supreme Kai.”

“Well, the final test is not easy. I hope you can return safely.” Gowasu smiled to show his encouragement.

He turned to look at Old Kai and said, “My disciple is counting on you.”

Old Kai narrowed his eyes and chuckled. “Don’t worry, the Namekians are a kind race. As long as Zamasu calms down and works with Namekians, he will be able to understand the state of mind of mortals. In a few years, he will meet your requirements.”

Even though he knew that it would not be easy for Zamasu to gain experience, for the sake of his only disciple not falling down the wrong path, Gowasu could only follow the arrangements. Thus, following Muiyang’s arrangements, the few of them returned to Universe 7 together. Before sending Zamasu to the nemesis of Planet Namek, Muiyang first went to Acceleration World and sent Muqiu and the others to Sacred World of the Kai.

After a turnaround, when Muiyang took Zamasu into New Planet Namek, it was an hour later.

New Planet Namek.

This new home found by Namekian using a Dragon Ball was not a planet with particularly superior natural conditions. In the eyes of ordinary people in the universe, the life of the Namekian could be said to be extremely difficult. With this planet as home, it was mainly because it was extremely similar to the original Planet Namek, giving Namekian the feeling of living on the home planet.

In front of the small house where Grand Elder Moori lived, dozens of short hemispherical buildings were scattered on the slightly barren land. Namekian maintained the habit of living in villages. Each village had about one elder and a hundred Namekian.

“So you are friends from Earth. Welcome to the Namekian.” Moori warmly welcomed Muiyang.

Thirteen years ago, when the King Hilch led the Army to invade the Planet Namek, if not for the generous help of friends from Earth and accepted them to live on Earth for a period of time, the Namekians might have long disappeared in the vast universe. Therefore, when they learned of Muyang's identity, Moori and the others showed great enthusiasm.

“Where are Nail and Birgil?”

Muyang sensed the ki of Planet Namek and, but did not find any trace of them.

Moori said with a smile, “Nail accepted the commission from Galactic Patrol and went to the Central Area to gain experience, while Senior Birgil was on the companion star of New Planet Namek. After all, his strength is unusual, training on New Planet Namek It is easy to cause damage to the newborn's natural environment, and our new home can't stand the toss.”

Muyang nodded in understanding. As he expanded the search range, Birgil's silhouette was found on a companion near New Planet Namek.

After not seeing Birgil a few years, his strength had also increased. Now, it had broken through 100 million, so he could be considered a great expert.

Retracting his gaze, Muyang looked at Zamasu and said, “Follow Elder Moori and experience the life of a mortal. Forget your past and understand what Supreme Kai should do and what he should not do. When your state of mind is truly calm, the restrictions in your body will automatically disappear.”

“Don't think about breaking my seal with the help of external forces. This will cause you to fail your training. I hope that you will become a qualified Supreme Kai as soon as possible.”

“Don't worry, Lord Supreme Kai. I will not disappoint you and my teacher. I will definitely become a qualified Supreme Kai as soon as possible.” Zamasu bowed humbly, looking very polite.

Muyang glanced at Zamasu from the corner of his eye and nodded noncommittally.

According to his original intention, it was actually a disguised form of exile for Zamasu to be exiled to Planet Namek. The possibility of reversing one's state of mind was extremely low. As long as it did not affect the overall situation, then it was simply a character that had nothing to do with importance. To be honest, a mere trainee Supreme Kai really could not attract his attention.

He did not care whether or not Zamasu would succeed.

Following that, under the lead of Great Elder Moori, the few of them began to wander around Planet Namek. Planet Namek did not have many good places to look at. The environment where resources were scarce would not produce rich lives. However, for Namekians who only needed water and sunlight to survive, nothing mattered.

To the people of Planet Namek, a poor life was also a form of entertainment.

Before leaving, Muyang thought for a moment and set up a protective barrier on Zamasu. Using the rules of Acceleration World and Zeno World, he made it so that the power of the Dragon Ball could

not be used on Zamasu. Thus, he was not afraid that he would take notice of the Dragon Ball in Planet Namek.

After doing all this, Muiyang's figure disappeared from Planet Namek. He would continue to cultivate at the Grand Minister's place until he had the confidence to break the eighth limit.

...

Time flew. In the blink of an eye, another two years had passed.

Four years had passed since the Majin Buu incident. According to the time, the plot of Dragon Ball Super was about to begin.

Among Acceleration World, eight terrifying energies were entangled on Planet Wudao. With just a glance, one could tell that it was an intense battle. The entire battle was earth-shattering. If not for the fact that the four angels had the power to stabilize the planet, the surface of the martial arts community would have already fallen into the apocalypse. However, in fact, even with the support of the power of the angels, the surface of the planet was not very good.

Out of the eight energies, Muqiu, Amelia, Lazuli, Lapis, and Android 18 were in a group. Their opponents were Melissa, April, and Broly. Although they had the advantage in numbers, they did not gain the upper hand in battle.

Flap, Muqiu had a head of red hair, and his eyes were bright red like rubies. He was in the state of a Super Saiyan.

This was different from Son Goku's dexterous Super Saiyan God Form, because it had experienced water overflowing and reached the state of a Super Saiyan that had a normal breakthrough, so their strength was comparable to the Super Saiyan.

In addition, Lazuli and Lapis, and the others were not inferior. They were all Half-God Level Androids, but the three androids with eternal energy combined were still unable to break through the defense of the three people opposite them.

"Brother, if this goes on, you won't be a match for mother." A trace of unwillingness flashed across Amelia's cold face, and with a furious snort, the flame-like divine flames on his body began to boil.

Muqiu narrowed his eyes. After taking on a single attack from Melissa, he quickly flashed to the side of Android 18 and the others.

If one looked closely, they would discover that amongst their opponents, Melissa and Broly only maintained their most basic Golden Eye Transformation state, but this state was actually able to withstand Muqiu and the others' attacks.

"Lazuli, what can we do now?"

Android 18 revealed a sneer, "At this time, only Super Android 18 can make an appearance."

The single Half-God Level Androids is not an opponent. Using Fusion Technique, she has seen Son Goku and Vegeta Fusion on Zeno's "Tournament of Power".

As an essential person to fuse with Android 18, Lapis agreed to Android 18's suggestion, so Muqiu and Amelia quickly bought time for them. After a few seconds, Android 18 appeared, and the strength comparison had increased several times...

The terrifying energy instantly shook the entire Planet Wudao. The planet shook, as if it had fallen into the apocalypse. The Fat Buu in the distance quickly hid behind Whis and the others with his arms around Gaia.

Chapter 584

“Aiya, this Super Android 18 is no worse than God of Destruction in terms of energy alone, and Planet Metamor's Fusion Technique cannot be underestimated.”

Vados smiled and spun her divine staff around her wrist a few times to block the sudden burst of energy.

Vados comes from Multiverse No.4, and she saw the magic of this Fusion Technique on Zeno “Tournament of Power” four years ago.

“In Universe 11, probably only Jiren can block this kind of power.” Marcarita silently took out his own universe's expert for comparison, unfortunately even Jiren, in the face of Super Android 18, she would not be able to gain any advantage.

Super Android 18 was not like the Super Saiyan Blue Gogeta, it had the drawback of energy and physical strength. As long as the time was enough, the Super Android 18 could even keep fighting at full energy.

“We will try our best to maintain the stability of the battlefield. You have to know that the three people opposite are not simple either.”

April was far better than Amelia, and Melissa and Broly, she did not use their full strength at all. From the fact that they only used the Golden Eye State of the Super Saiyan, it could be seen that they had kept a strong backup plan.

The combat forms of the Super Saiyan were divided into several types. Above the “Golden Eye State”, there were the two levels of “Super Saiyan” and “Legendary Super Saiyan”.

In the original story, Broly can match Super Saiyan God's Son Goku, and even suppress Super Saiyan Blue Vegeta, while the immediate Broly gets Muiyang and Melissa training from an early age, and accepts Angel's guidance, whether it is fighting consciousness or power level is far superior to Broly in original story.

To put it bluntly, if Melissa and Broly use full strength, even God of Destruction Beerus may not be their opponent.

But even so, at this time, the four Angels such as Whis were still very relaxed, and they looked at the battle in front of them. To know that even if the level of combat achieved the God of Destruction Level, for Angel, it is just a few hand chop things.

“Mother, why don't you leave Super Android 18 to me to fight with?”

Broly's eyes were filled with the desire to fight.

At this time, Melissa did not compete with Broly and nodded lightly, "Use your full strength and let them know the power of the Legendary Super Saiyan!"

"Of course!"

Broly roared, and a vast amount of energy gathered together. Broly clenched his fists and roared, His black hair directly turned into grass green, and his body became a lot more burly.

"Super Android 18, bring it on!"

An invisible sound wave swept over, causing the eardrums to hurt. If it were for an ordinary martial artist, even a Super Saiyan powerhouse would faint under this pressure.

Super Android 18 was no ordinary warrior. She sneered, her light blue eyes filled with coldness. She took a step forward, and with a dive, a giant pit with a radius of a thousand meters suddenly appeared under her feet. As the hurricane rose, Super Android 18 had already begun to fight with legendary Super Saiyan Broly.

The surging energy stirred up a strong cyclone, and layers of afterimages, fist shadows, and palm shadows spread all over the place. The speed of Super Android 18 and Broly was already beyond imagination.

"Lapis, why don't we try fusing with it?" Muqiu's red eyes were filled with shock and envy as he shouted at Lapis.

"Alright!"

Lapis had the experience of fusing with the Super Android 17, but the current Android 17 of the other world was not here. To deal with Melissa who was on par with Broly, she could only try to fuse with Muqiu.

"Hehe, I'm afraid you won't have the chance."

Meissa's agile figure came to the side of Lapis and suddenly split into two people. After Melia and Melis separated, although their strength would be reduced by half, the strength of the two sisters was still not something that Muqiu and the others could resist.

There was no need to use the "Legendary Super Saiyan" form, just to promote the power to the "Super Saiyan" level, Melia and Melis suppressed the Super Saiyan God's Muqiu and Half-God Level's Lapis.

In addition, April suppressed Amelia, leaving them with no room to resist.

"The battle is over..."

Whis turned to Divine Staff to recover the environment destroyed by Planet Wudao. Super Android 18 is not Broly's opponent at the end, insisting on re-separating into Lazuli and Android 18 half an hour.

“What a wonderful battle. In terms of strength, you are undoubtedly among the best in many universes, especially Broly and Melissa. I’m afraid only the God of Destruction can fight you.”

Vados evaluated objectively.

She had seen the strength of Legendary Super Saiyan,. She couldn’t help but think of the Kale in her universe. If she patiently train him, he might become an amazing God fo Destruction. She knew that Universe 10 in the same world had already pulled Broly over to be a God of Destruction.

Melia smiled lightly, “Our strength is only at the initial stage of breaking into the god level, but Muyang has already walked far on this path.”

“Father, you are indeed much more powerful than us.”

Broly admired his foster father the most.

With the frail body of an Earthling reaching the peak of destruction, there was no one else in the entire universe.

It had to be known that if not for Acceleration World providing a good environment and the guidance of a few angels, it might have taken them a few more years to achieve their current achievements.

It was impossible for martial arts training to be achieved overnight. Especially when one reached a high level, a bit of comprehension and breakthrough would take a long time to accumulate. For gods like the God of Destruction, Lord Beerus, who had stayed in the position of the God of Destruction for so many years, their progress was still slow. It was not that they were lacking in talent, but at that level, the realm of martial arts could not be improved just because they wanted to.

In fact, those who could become the God of Destruction or the God of Destruction were all the best in the universe.

Melissa, Broley, and the others were very lucky. Not only did they have the support of Acceleration World and the Spring of Life during the ascension of their training, they also had the guidance of an angel in the later stages. At the same time, they received the guidance of four angels from different worlds. Even the God of Destruction did not have such good fortune.

“Um, can I come out and play? I have been here for many years.” After the battle had subsided, Fat Buu asked with a belly.

Kusu said, “Mr. Muyang is not there. If you want to go back to the universe, you can only turn around through the portal of Zeno World.”

“Can you take me back?” Fat Buu begged.

“Alright, which one of you wants to go out?”

Kusu hesitated and nodded. After asking everyone, he found that apart from Fat Buu who wanted to go back, only Melissa had the same idea. The others planned to continue training in Planet Wudao.

“I won’t go. I’ll train for a while longer.”

“Sister, help me take care of Mutian when we get back,” April said to Melissa.

“No problem.”

The four Angels took turns every year. At this time, only Kusu was the angel of the world that Muyang lived in, so Fat Buu and Melissa to return to Earth, and naturally needed Kusu to escort them.

What they didn't know was that just as Melissa and Fat Buu were about to return to Earth, in God of Destruction Planet, the God of Destruction, Lord Beerus, who was at the apex of the universe, finally woke up after sleeping for 39 years under the reminder of the bomb alarm clock.

“Whis, I had a very long dream. I dreamed of a super strong warrior...” Lord Beerus ate the food that Whis prepared.

Whis smiled and inquired about the situation in the lower realm. “What kind of warrior did Lord Beerus dream of?”

Lord Beerus gulped down a mouthful of soup and put down the big bowl. “It seems to be called the Super Saiyan God...” Hmm, Whis, your cooking has improved. You haven't given up practicing these years. Not bad, not bad. “

“Haha, thank you for your praise, Lord Beerus.” Whis laughed.

“Oh right, Whis, do you have any clues about the Super Saiyan God? I have a feeling that this will be an interesting opponent.”

Whis held the divine staff and looked at it. “If Lord Beerus wants to find the Super Saiyan God, he needs to go to Earth. However, that planet is not easy to mess with.”

“Oh, is there a planet in the universe that I, Lord Beerus, can't afford to offend?” The God of Destruction, Lord Beerus, was disdainful. “Eh, I seem to have heard of the name Earth before?”

“Lord Beerus, have you forgotten the Muyang who came to God of Destruction Planet to train? He is an Earthling, and now he is amazing.”

“What's so amazing?” Lord Beerus was curious.

Whis smiled and said, “This is something that Lord Beerus has to experience himself. If he is lucky, he might be able to meet him.”

Lord Beerus frowned. “Then let's go to Earth and take a look. However, I am more interested in the Super Saiyan God.”

Whis glanced at Lord Beerus. Lord Beerus, you have been asleep for 39 years. The structure of the universe has changed dramatically. Now, Muyang is already the Grand Supreme Kai!

Forget it, let's not tell Lord Beerus!

Presumably, it will be very interesting when the time comes, Whis thought in his heart.

Chapter 585

On Universe 7's side, Lord Beerus, the God of Destruction, was eager to go to Earth to see the so-called Super Saiyan God. He pointed at Whis to let him open the space teleportation. As an illusory ripple spread out, a seven-colored light engulfed the two people.

From God of Destruction Planet to Earth, it would take about forty minutes.

The journey was already very long.

At the same time, God of Destruction Planet of Universe 6.

Champa squatted in a patch of grass and dozed off. Suddenly, there was a bird's cry not far away. A huge black shadow spread its wings and swept across the lake. Champa's body trembled and his hazy eyes opened. His face, which was like a big pancake, revealed a pleasant surprise.

"Aiya, I waited for so long and finally waited."

Champa jumped up happily and rushed to the place where the black shadow flew.

A giant bird nest built on an ancient tree was covered with thick hay. In the middle, there were three things the size of an ostrich egg. There was still some warmth on the surface. Champa laughed. "Ha ha ha, there are actually three Cooing Bird eggs. Now I can enjoy them for a while."

"It is indeed the smartest way to let Barbossa raise the Cooing Bird in God of Destruction Planet."

Thinking that he would be able to enjoy the freshest food in a while, Champa was as happy as a little fat boy of three hundred pounds. He ran from one side of Champa to the other, holding the three Cooing Bird eggs that he had just harvested. "Vados, help me cook these eggs. I can share one of them with you."

Vados frowned and then smiled. "Lord Champa is too polite."

"I think so too. You know that I spent more than two years guarding the Cooing Bird, so you have to bring out the best cooking skills to make them delicious." Champa said and looked at Vados with anticipation.

Vados took the three Cooing Bird eggs, washed them with clean water, and threw them into the big iron pot in disgust. In fact, it was just boiled eggs with warm water.

"Vados, are you done?" Champa had his fingers in his mouth, and his eyes did not blink.

"It will be done soon."

After saying that, Vados used his divine power to scoop the Gugu Bird egg out of the clear water. The surface of the eggshell emitted heat. Champa completely ignored the heat and directly grabbed it with his hand. Then, he knocked open the eggshell and began to eat.

"Aren't you going to eat it?"

There is one left for you.

Champa, who had finished gnawing on a Gugu Bird egg, saw Vados sitting on the grass, but did not eat the boiled egg. He could not help but ask.

Vados chuckled. "Of course I have to leave delicious food for Lord Champa to enjoy. I'm just a mere servant, how can I have the nerve to compete with Lord Champa!"

Champa was very moved after hearing this. His golden eyes squeezed out a drop of tears and looked at the remaining white boiled eggs hesitantly. "Since you say so, then I won't be polite."

"Please do as you please, Lord Champa."

"Yes."

He swallowed a mouthful of saliva and knocked on the other two white boiled eggs to enjoy. After he finished eating, he licked the remnants of his lips and fingers clean and then said with satisfaction, "It is indeed the most delicious thing in the world. I have been waiting for two years in vain. Hehe, that Lord Beerus guy can't enjoy such delicious food."

"Lord Lord Beerus really won't eat this."

Champa nodded happily. "Right, Lord Beerus should still be sleeping at this time. Otherwise, I will let him see the food that only I can enjoy."

"..."

Vados nodded politely.

Champa rested for a while and suddenly said, "The eggs of the Cooing Bird are delicious, but the output is too low. As a God of Destruction, I can only eat a little in a few years. Don't you think it's a bit ridiculous? Oh right, doesn't our Universe 6 have a wishing star? Why don't we use it to increase the speed of the eggs of the Cooing Bird? That way, I can often eat the eggs of the Cooing Bird."

Vados was stunned. "Lord Champa, are you serious?"

"Of course." Champa's tone was very firm.

"But the wishing star is scattered between the sixth and Universe 7. It is not unique to Universe 6. If you are not careful, you might cause Lord Lord Beerus to be dissatisfied." Vados persuaded Champa to give up the idea of searching for the Super Dragon Ball, but Champa was firm. "Don't worry about him. As long as Lord Beerus doesn't find out, it's fine."

"When Universe 7's people came here to train, I already gave them face. This time, Universe 7's Angel also has to give me face."

Seeing this, Vados knew that he could not dispel Champa's idea, so he let Champa fool around, only telling him to be a little less careful when searching for the Super Dragon Ball.

Champa agreed indifferently, and then rushed down to the lower realm.

Although he had the assistance of Vados, the process of Champa searching for the Super Dragon Ball was not smooth. Because there was no Dragon Ball Radar, Champa could only search through galaxies one by one. The whole process was very time-consuming. In the end, he decided to collect the Super Dragon Ball from Universe 7 first.

In case Lord Beerus woke up and knew about this matter.

After the two of them settled down for a while, they opened Universe 7's passage. After the space teleportation was activated, the passage slowly closed.

“Ha ha ha, as long as I collect all the wishing stars, I will soon have endless Cooing Bird eggs to enjoy. When the time comes, let Lord Beerus be envious!”

Glancing at the smug Champa, Vados stroked his forehead and thought to himself, “If Lord Koh knows what Lord Beerus eats every day, I'm afraid you will be the one to suffer a blow!”

Beep! Beep! Beep! The crystal ball on the divine staff flashed. It was a message from Whis.

“Sister, why did you come with Lord Champa to Universe 7?” Whis' voice rang out.

Vados smiled faintly and said, “Lord Champa wants to collect wishing stars. I really can't persuade him.”

“What a coincidence. Now that Lord Beerus has awakened, your actions will probably be discovered by him.” Whis' calm voice rang out, but Vados' smile did not change. “As long as we are careful, Lord Beerus should not be able to discover us.”

“I hope so!”

Whis shrugged, not caring at all.

“Whis, who are you talking to?”

A few meters away from Whis, Lord Beerus stood on the street and looked at the dazzling goods on both sides of the street. At this time, they had already arrived on Earth. Looking at the scene that was no different from other planets, Lord Beerus did not feel anything new. He did not know how many such technology planets there were.

“Nothing, just communicating with other angels about the management of the universe.” Whis put away the Divine Staff.

“Oh!”

Lord Beerus replied with an “oh” and continued to walk forward without a care. However, he was soon attracted by the fragrance coming from a food store and even forgot about the search for Super Saiyan God.

Whis shook his head and followed Lord Beerus into the store.

After enjoying the delicious food with satisfaction, Lord Beerus patted his stomach and said, “So the food on Earth is so delicious. I want to know why Muyang was so good at cooking back then.

Oh right, Whis, tell me the whereabouts of the Super Saiyan God. I want to see if he is as powerful as I dreamed.”

“Hehe, as you wish.”

Whis smiled, and the whereabouts of the Saiyan on Earth appeared in the crystal ball.

At this time, the Saiyan people on Earth were gathered on a luxurious cruise ship. This cruise ship was the asset of the Capsule Corporation. Because today was the birthday of Bulma, she specially invited all her friends to her cruise ship to attend the party. At the same time, she also prepared a dragon pearl as a reward.

Chapter 586

“Is there the Super Saiyan God I’m looking for among these Saiyan people?”

Lord Beerus saw Son Goku and the others on the cruise ship through the crystal ball. Although he had just finished enjoying the delicious food, when he saw the food on the dining table, his mouth secreted saliva.

“These people are Universe 7’s most powerful Saiyan. The Super Saiyan God you are looking for might be among them.”

“Then what are you waiting for? Hurry up and go over.” Lord Beerus urged.

“Okay.”

Whis picked up the Divine Staff and lightly tapped it. A faint ripple spread out, and a magical force supported Whis and Lord Beerus’ bodies as they headed for Bulma’s cruise ship.

At this time, on the cruise ship, as if he had sensed something, Melia raised his head and stared at the blue sky.

“It seems that some expert has come to Earth...”

Melis’ eyes flashed with light.

“There are no traces of aura. It should be a god!” Melia said with certainty.

“Hey, this pudding is very delicious.”

Seeing the pudding in his arms, Melia smiled. “You brought so much pudding. Are you worried that you will be absorbed by April, so you want to please us? In fact, April doesn’t care about your energy at all.”

“Hehe, I am not worried.” Fat Buu found a chair and sat down. He spread the pudding in his arms on the table and tasted them one by one.

Melia smiled and ignored Fat Buu’s simple and honest appearance. He looked at Melis and then silently disappeared from everyone’s eyes.

...

In Zano World.

The surging tide of energy hit Muyang one after another. He had been sitting like this for a long time. This place was located in the depths of the palace of the king, and there was a huge amount of energy rolling around.

The Grand Minister appeared there. The light blue divine ring was erected behind his head. All the energy in the surroundings automatically avoided and dissipated when it was within a meter of him. In the distance, there was a layer of dazzling light around Muyang. There was gold,

There was silver and jade green.

These bright lights intertwined and were resonating with the source of the universe bit by bit.

The Grand Minister's purple eyes stared into the depths of the energy, his hands behind his back, full of dignity as he said, Carefully comprehend the rules of the universe, try to use your thoughts to touch the spiritual energy. That is the primordial energy at the beginning of the birth of the universe, and also the most essential nutrients for all the divine energy.

The energy of the universe is born in the void, and with the growth of Chaos, it is the most important material to condense the universe.

Muyang half-closed his eyes, and his thoughts slowly came into contact with the hazy energy of the universe with the Grand Minister's guidance.

This was the deepest part of the entire universe. The blue light dots flashed and disappeared, and when they fell into Muyang's eyes, they automatically appeared one after another. These rules were written in the most basic symbols. Muyang did not recognize them, but he could understand what they contained.

These rules were just like the Death Chains that he had created with the help of Acceleration World. They all represented the most fundamental power of a world.

Whoosh... A divine pressure crushed over. A light force broke out of the shell, raised its head like a little snake, and spat out letters. At this moment, Muyang seemed to have a connection with the rules of the entire universe. Looking carefully, it was actually Acceleration World's power.

In an instant, a vacuum appeared around Muyang. All the energy disappeared, as if it were for the meeting of the highest gods in the world. Endless energy and rules all avoided it.

Only the purest energy of the universe was left behind.

The Grand Minister looked at him calmly and said calmly, "The Level 8 Dimension is the highest level that a universe can accommodate. So if you want to transcend to the Level 9 Dimension, you have to leave the universe, at least to the level of the universe, or even beyond the universe. Therefore, every Level 9 Dimension powerhouse has the energy of a universe."

"The angels are like this, the Dragon God is like this, and even the stronger Captain of the Time Patrol is like this."

As he spoke, the Grand Minister's figure suddenly disappeared, and then he quickly came to Muyang's side. "Look carefully, the energy of the universe will transform into vitality after entering the universe. Only by absorbing enough vitality will the world automatically give birth to the energy of the universe. Only then will the development of the entire world be considered to have entered the standard."

“Supreme Kai’s divine power is actually a type of vitality. Supreme Kai’s transformation of the planet is the process of giving a certain amount of vitality to the planet.”

“Supreme Kai released vitality into the planet according to the norms, while some races in the universe can reverse vitality and extract vitality from life and even the planet. This is the reverse operation of vitality.”

“However, these are all low-level operations. Level 9 Dimensional powerhouses should have the ability to control the energy of the universe at will. And further, the Level 10 Dimension is to return vitality to origin, sublimate it into the energy of the universe, and conduct more thorough control. For example, Lord Zeno’s ‘Erase’, such as the ‘Obliterate’ you explored, belongs to the universe of Universe Energy.”

Muyang carefully savored the words of the Grand Minister and suddenly felt enlightened.

A few simple words pointed out the key. He seemed to have understood the development of the road ahead.

The origin energy bomb of the North Kai used the origin energy to form a terrifying destructive power. The goat Moya of Universe 6 absorbed the energy of the planet as a means of attack. It was just that one needed the consent of a living being, and the other had nothing to do with the other. It was mandatory to extract.

These were all basic operations of the universe origin energy. In other words, as long as one understood the use of the universe origin energy, releasing the origin energy and absorbing the origin energy was only a thought. It was only a thought to grant life and take away life.

Angels can revive people and even make a series of operations against the rules of the universe. The starting point is the control of the universe origin energy.

The Level 9 Dimension has such a domineering ability. It is a completely different concept from the level eight dimension where the God of Destruction is located.

Similarly, the level 10 Dimension and level nine dimension are another dividing line. Although there are similarities, the power of the operation is different...

Boom. At this time, his mind was clear. The divine power on Muyang was even more violent, like a supernova explosion. The surrounding universe was abnormally distorted. The entire universe core was submerged in the destructive thunder storm, as if it were forwashing away the filth of death and everything was disappearing.

The next second, the space was torn apart and the blue and dreamy starry sky pattern reappeared in front of them. Muyang and the Grand Minister had already returned to the palace of Zeno.

“You should already know what to do about the advancement of the ninth dimension.” The Grand Minister said calmly.

Muyang said, “I understand now.”

“Then let’s hurry back and break through. I think Acceleration World will have another development. I really look forward to the time when Acceleration World and the entire king world are synchronized.”

“Muyang, are you going to break through?” Zeno’s slender voice sounded.

“Yes, there are no more obstacles.”

“Wow, so powerful!” His eyes were as wide as copper coins. He reached out to shake hands with Muyang, but because he was short, he could only stand on tiptoe.

Muyang revealed a smile. He raised his hand and an invisible force dragged Zeno’s body to a high position. He then shook hands with Zeno and looked at the Grand Minister, “Grand Minister, I will go back first.”

The Grand Minister looked at him with pale purple eyes and smiled like a spring breeze.

Seeing this, Muyang smiled and immediately communicated with Acceleration World to teleport back to his world.

Chapter 587

“Kusu, Vados, Whis, Marcarita, you guys return to your own world first. I’m going to upgrade Acceleration World.” Muyang found the angels from different worlds and explained the situation to them.

When Whis and the others heard this, they could not help but sigh at Muyang’s rapid cultivation. They nodded and returned to their own world through different passages.

In addition, after learning that Muyang was going to upgrade the world, the few people who were cultivating in Acceleration World all had excited expressions on their faces. Without Muyang saying anything, they left Acceleration World in turn.

After adjusting his state of mind and calming down for a while, Muyang’s body gradually flew out of Planet Wudao. There was almost nothing in the vast void. There were only six bubbles the size of planets surrounding the martial arts planet in a certain order. These six water balls contained areas the size of a galaxy, but with recent development, the internal world had expanded a lot.

“Next, I will break the limit and head for the Level 9 Dimension.”

After receiving the enlightenment from the Grand Minister, Muyang already had a clear path to how to advance to Level 9 Dimension.

A god with the highest capacity in the universe could hold the Level 8 Dimension. As a pioneer, if Muyang wanted to reach the ninth level, he had to constantly expand to Acceleration World. Of course, the main expansion now should be several galaxies.

The Level 9 Dimension first had to control the universe origin energy. In the entire universe, the universe origin energy was divided into the two elements of destruction divine power and Supreme Kai power. If one wanted to control it, one had to simultaneously possess the two positions of

destruction divine and Supreme Kai. Therefore, in a sense, the angel of the nine dimensions represented the universe itself.

Muyang's situation was different from that of an Angel. If he wanted to control the universe origin energy, he could not simply fuse it with the destruction divine power and Supreme Kai power, but could only create it himself.

I now possess the power of Supreme Kai, the power of the Time Patrol team, and the silver energy that I cultivated to contain the power of the Dragon God. So logically speaking, I should be able to fuse it into a unique universe origin energy.

As soon as he said he would do it, Muyang mobilized the ability in his body. Immediately, golden energy, silver energy, green energy, the three energies continuously collided in the spiral vortex in his body.

As time went on, the three distinct energies showed signs of merging. During the entire process, Muyang was extremely careful and didn't even dare to breathe.

Huuuummm... A transparent light spot lit up in the middle of the silver river spiral. The quantitative change reached a qualitative change. The moment the transparent energy was formed, Muyang's body suddenly shook. His soul seemed to have sublimated and surpassed his physical body as he looked down from the sky. At this moment, Acceleration World saw everything. All the subtle changes were under his control.

**"It's done."**

With a smile on his lips, Muyang continued to work hard. At the moment when his own universe origin energy was formed, the entire Acceleration World began to transform automatically.

The entire world began to shrink. A violent storm that seemed to split the world was generated from the void. The martial arts star in the center began to tremble violently. There was no change in its size, but its strength continued to rise. The most obvious thing was the six planetary bubbles around Planet Wudao. At this time, they seemed to have turned into six black holes and began to approach each other. With a rumble, the six bubbles collided and suddenly shattered into twelve pieces.

The broken bubbles gradually dispersed, then bent and deformed, forming the shape of bubbles again, but the size was only the size of a satellite.

**"The life in the galaxy universe is not all destroyed, right?"**

Muyang could not help but worry, so he transferred his consciousness into the galaxy universe and found that not only did the world inside not destroy, but the size of the space had also expanded countless times.

It had actually reached a third of Universe 7's size.

Out of the twelve universes, it looked like a water ball the size of a satellite, but inside, it was a third of Universe 7's size... In other words, the current Acceleration World was already a third of the size of the entire universe.

Muyang calmed himself down, an indescribable excitement in his heart.

Looking at the space that had undergone earth-shaking changes, the dark void was now filled with beautiful blue crystals. The entire space seemed to have shrunk, but in reality, the strength was increasing.

At this point, Acceleration World's advancement could be considered complete. Muyang's strength had reached the level of an angel, and his strength had increased by who knows how many times.

The strength of an Angel is equivalent to grasping the energy of a large universe. No wonder he was able to knock out the God of Destruction with a single hand knife.

**“His strength has increased by several times in an instant.”**

Hearing is believing, seeing is believing. Only after reaching the level of an angel can one experience how powerful he is. No wonder Whis always acts like he doesn't care about anything, because he has absolute confidence in dealing with any dangers in the universe.

After Muyang broke through to the Level 9 Dimension, not only did his power change, but his control over the world also became more proficient. Because he had already mastered the universe origin energy, he seemed to have a faint grasp of the higher level of universe energy.

This was the difference between being the founder and ordinary martial artist.

When he could freely produce and control the universe energy, it would be time for him to upgrade to the Level 10 Dimension.

**“It's time to leave this place.”**

Returning Planet Wudao to its original appearance, Muyang smiled with a comfortable expression. Just as he was about to leave, he suddenly felt a touch in his heart.

Muyang looked at Acceleration World doubtfully. He thought that Acceleration World had something to do with her. After a check, he finally found out that the source of his feelings came from several universes of the entire universe...

When April had lost her mind because she had transformed into a At first, April was transformed into a Majin Form, and there was a case of berserk. At that time, Android 21 saved her and took her to a fragment world. When Muyang retrieved April, he used his power to create a Majin Transformation Android 21 crystal hand for Android 21. He also said that when you encounter difficulties, he only need to break the crystal and he will know.

The touch that Muyang was feeling now came from that crystal.

In other words, Cyborg Android 21 was in trouble now and needed help.

Thinking of this, Muyang raised his hand to cut open the void and directly created a passage that connected to another world. Then he stepped forward and walked into the void passage.

...

In a fragment world of the entire universe, the deep universe was filled with wreckage of spaceships. The tragic scene was as if they had just experienced a cruel interstellar war.

And the actual situation was almost the same. Two girls with the same appearance in the void looked at each other from afar. These two girls had cold expressions, and their pink and white hair fluttered.

The only difference was that one of the pink girls' eyes was blue, while the other one's blood red eyes were filled with killing intent, and her body was covered with dark patterns.

Whoosh, the two illusory figures tangled together, but unfortunately, the power of human creation Android 21 was no match for evil Android 21, and her pale lips were already overflowing with blood.

"Hahaha, Android. 21, you will soon become my nutrients." Evil Android 21 smiled coldly.

"Hmph!"

Android 21 grunted and tugged at the fabric hanging on his chest. Because of the intense battle just now, the black shirt on his body had a few large holes, and pink skin was exposed from the damaged clothes. Even the clothes transformed by Majin could not withstand the powerful energy impact.

"If the other me can make it in time, I might be able to defeat Evil Android 21."

Android 21 tried to stall for time, waiting for Muiyang or April to come over.

Evil Android 21 frowned and looked at Android 21. He wondered why the other party had not attacked for a long time. He suddenly remembered the crystal figurine that she had broken just now. It was reasonable to say that Android 21 would not be so bored as to make his own figurine with him.

A trace of uneasiness suddenly appeared in his heart. Evil Android 21 decided to defeat Android 21 as soon as possible so as not to have too many nightmares.

Chapter 588

Peng! Peng! Peng! Peng!

The intense battle continued. A violent gale suddenly blew up in the void. In the end, Android 21 was still no match for Evil Android 21. Soon, he was seriously injured and crashed into a medium-sized planet. Boom! As the planet was torn apart, the chaotic wreckage of the planet flew everywhere.

Evil Android 21 teleported to the front of Android 21 and grabbed her hair. Android 21 was thrown away again. Just as Android 21 was confused and disoriented, Evil Android 21's pretty face came close to Android. 21 and kissed her forehead.

"Poor Android 21, obediently become my power."

The power of the demon was activated, and Evil Android 21 used the "food hunting" skill on Android 21.

"Shit!" Android 21 opened his eyes wide, and a look of horror appeared on his beautiful face.

At this moment, the void in front of Android 21 changed, and a large hole appeared. Evil Android 21's "food hunting" energy directly hit the hole and hit Muiyang who came out of it.

With a "bo" sound, the energy of the hunt was scattered in the clouds, but it did not work. Evil Android 21 looked at it in astonishment, with a look of disbelief.

"My 'Transfiguration Beam' ability actually failed? Ah, it's you!!"

Evil Android 21 pointed at Muiyang and shouted. His body quickly retreated and looked left and right. When he did not see the angel appear, he finally let out a sigh of relief. She was really afraid that the matter of being crushed into minced meat by Whis more than 20 years ago would happen again.

"Muiyang, luckily you came in time." Android 21 approached Muiyang.

Muiyang took a look at Android 21's sorry state and stretched out a force to change the broken clothes on Android 21. "Why are you alone? Where is Android 16?"

Android 21 sighed. "Android 16 has been destroyed by Evil Android 21. I don't know where she got the powerful force. Her strength suddenly surpassed mine."

Muiyang turned to look at Evil Android 21. This Majin's power had indeed increased by a lot. "There is a power of a time and space cage around this space. It seems that someone deliberately guided you here to make you the energy of Evil Android 21."

Android 21 was surprised. "Who could it be?"

Muiyang frowned and looked at a place through the void. He grabbed forward.

\* Hiss \* The dark red starry sky background was torn apart, and two red figures appeared in front of them. It was a man and a woman. They had light green skin, and they were wrapped in skintight clothes that were as red as blood. The male muscles were coiled, but the female was abnormally enchanting, and had some characteristics of an angel.

"Someone is actually hiding beside me..."

Evil Android 21's face darkened, and he vaguely felt that he had been used again.

Why did he say 'again'?

"Mira and Towa around Demon Supreme Kai?" Muiyang looked at them calmly.

These two people are under the guise of Kai Mechikabura and have been trying to destroy and copy the Multiverse over Time Patrol. Demon Kai Mechikabura has been hiding in Dark Demon Realm after being defeated by Supreme Kai of Time. He had not moved for more than 70,000 years.

Android 21 did not know Mechikabura, but he could also see that the strength of the two people was at least a lot stronger than himself.

"Muiyang, be careful."

"..."

“It doesn’t matter. They are no match for me.” Muiyang smiled confidently, “Looks like Evil Android 21 has always been a chess piece in your hands. When Evil Android 21 entered Universe 7, it was also arranged by the few of you, right?”

“You are a member of the time and space patrol?” Mechikabura coldly.

Muiyang looked at them and did not say anything. He directly attacked with a force. Bang! Mira opened up her defense to block the attack. However, this defense was useless. With a crack, a thick energy fell on Mira’s body, causing her body to split into pieces. Even the most outstanding dark warrior of the Dark Demon Realm could only admit that he was unlucky in the face of the attack of an angel.

“So powerful!” Mira gasped for breath, her broken body actually recombined.

“He actually didn’t die?”

Muiyang frowned, preparing to attack with even more force.

At this time, Mira and Towa’s expressions changed, and they all fled towards the void. “Lord Mechikabura, requesting time and space teleportation.”

As soon as he finished speaking, two energies that disturbed time and space descended from the sky. Muiyang raised his head and looked at them indifferently. Judging from the dark aura contained in the energy, it was the power of the Dark Demon Realm. The person who attacked should be Demon Supreme Kai, who was defeated by Supreme Kai Of Time Chronoa

I won’t let you escape.

“Wipe them out!”

A clear voice rang out, and a regular force swept towards Mira and Towa. The two of them immediately felt their hairs stand on end, and they tried their best to flee.

Crash! Mirawas struck by Muiyang’s ‘Obliterate’ power, but her body was still shattered from the bottom to the top.

“Mira!” Towa cried out in alarm.

“Let’s go.” Mira sent a stream of energy towards Towa, quickly sending her into the passage opened by Kai Mechikabura. The moment Baby entered the passage, her body completely shattered and her head turned into crystal fragments.

“One of them escaped,” Muiyang murmured.

Android 21 looked at the sudden scene and was a little speechless. After a long time, she asked, “Who are they?”

“The people of the Dark Demon Realm often do things that destroy time and space. They are the sworn enemies of the Time Patrol.”

Muyang replied. In fact, until now, he did not know what they wanted to do except that he knew that the people of the Dark Demon Realm were not stable.

“Oh.” Android 21 nodded and looked at Evil Android 21 with her beautiful eyes.

“Help me fix her. I want to solve this problem completely.”

Muyang nodded and used the power of the world to imprison Evil Android 21. Evil Android 21’s face was pale and she struggled with all her strength. However, all her resistance was futile. The Angel level confinement was not something she could resist.

“Hunt!” A bolt of lightning, under the horrified gaze of Evil Android 21, Android 21 turned her into a dessert.

After enjoying the dessert, the power of Android 21 increased by leaps and bounds. Perhaps because Android 21 and Evil Android 21 were originally one person, after swallowing Evil Android 21, the power of Android 21 suddenly rose to the Half-God Level.

“What are your next plans?” Muyang looked at Android 21 quietly.

“I don’t know. I will probably rebuild the spacecraft and find a way to resurrect Android 16. Then, I will take it step by step. Maybe it will be good to become a space-time patrol.” After the big problem that had troubled her for countless years was solved, Android 21 smiled happily.

“Well, this is pretty good.” As he spoke, Muyang once again used his strength to condense a crystal and handed it over to Android 21. It still looked like the demon-like Android 21.

“You can come and find me when you have time. Little April misses you quite a lot.”

“Alright, I’ll come find you guys in the future.”

Android 21 turned into a human. His every frown and smile were filled with charm. If not for the fact that Muyang was especially familiar with April’s aura, he would have thought that this was the one in front of him! His strength and appearance were exactly the same.

“We shall meet again if we are fated!”

“Goodbye!”

...

At this time, on Earth, the God of Destruction Lord Beerus and Whis had barged into the birthday party of Bulma. Lord Beerus’ terrifying strength had intimidated everyone. In the end, under the pressure of Lord Beerus, Son Goku had finally reached the super-red Saiyan form by gathering the strength of several Saiyan people.

Although his strength was far from comparable to Lord Beerus’ he was still recognized by the God of Destruction, Lord Beerus. In addition to the temptation of food on Earth, Lord Beerus finally let Earth go.

Melia and Melis, who were also at the banquet, had already known that this would happen, so they stood beside Whis and did not interfere.

“Oh, long time no see, you two! In just a few years, you have become so much stronger.” The God of Destruction, Lord Beerus, still remembered Melia and Melis. His memory of their cooking was still fresh.

“Can you prepare some delicious food for me?”

“We naturally have to agree to Lord Lord Beerus’ request,” Melia said with a smile.

The God of Destruction, Lord Beerus, nodded and looked very satisfied. “You guys are straightforward. Look at those people. Just now, they had been dawdling for such a long time for a Super Saiyan God, and this god almost destroyed this planet.”

Chapter 589

“Lord Beerus, Earth is a planet that has been strengthened by the Super Dragon Ball. It is actually not easy for you to destroy it.” The corners of Melia’s mouth curled into a faint smile as he pointed at the vast and boundless land.

“Oh...”

“What is a Super Dragon Ball? Is it the same as the Dragon Ball they just used?” Lord Beerus asked.

Whis ate the delicious food and wiped his mouth, “The Super Dragon Ball is a divine object created by the Dragon God, Lord Zalama. Its ability is much stronger than the Dragon Ball on Earth. If Earth has been strengthened by the Super Dragon Ball, it will take some effort for Lord Beerus to destroy it.”

Hearing this, Lord Beerus frowned. He closed his eyes and felt the situation on Earth. He was sure that he found a strange power flowing in the heart of the Earth. This power allowed the strength of Earth to reach the level of Sacred World of the Kai. And according to the external forces, the strength would also be different.

“Little interesting, but this God can destroy this planet if he wants it, although it will cost a lot. Well, these are your masterpieces?”

Lord Beerus looked at Melia. Melia nodded slightly. It was indeed their idea to strengthen Earth with the Super Dragon Ball.

Seeing Melia nod, Lord Beerus smiled, then picked up the drink on the table and drank it.

Super Dragon Ball might be very mysterious in the eyes of others, but in the eyes of the God of Destruction Lord Beerus, it was actually just that. His vision was so high that he did not put Super Dragon Ball in his eyes at all. If he had any wishes to fulfil, he could arrange for Whis to do it. After all, the ability of an angel was not inferior to that of a Dragon Ball.

“By the way, what about that kid Muiyang? I have been on Earth for so long, why hasn’t he come out?”

“He is training with the Grand Minister.” Melis replied from the side.

“So he’s with the Grand Minister... Eh, Grand Minister!” Lord Beerus choked on a mouthful of water. He stared at her and shouted, “Wait, why is that kid with the Grand Minister? Whis, what is going on?”

“Lord Beerus, I told you a long time ago that Muiyang’s current status is extraordinary. It’s just that you have never cared about it.” Whis calmly replied.

“You never told me that he could train with the Grand Minister.” Lord Beerus shouted at Whis with an ugly expression on his face.

How could ordinary gods have the qualifications to follow the Grand Minister? Even if they were lucky enough to meet him, it would be a blessing that they had train for several lifetimes. One had to know that the Grand Minister had a high status. Even if he was the God of Destruction, Lord Beerus had to be respectful when he saw him. Without the summons of the other party, he could not go and disturb him.

In fact, for those top gods, Lord Beerus had always been as far away as he could, and he did not dare to take the initiative to contact them.

“It is also the recent years. I originally planned to tell you later.” Whis said.

“I think you want me to make a fool of myself.”

“What is his identity now? Why is he able to train with the Grand Minister?” Lord Beerus said solemnly.

“Muiyang is the Grand Supreme Kai of the entire universe. His status is a little higher than all the God of Destruction and Supreme Kai.”

“Grand Supreme Kai?” Lord Beerus muttered to himself.

From this title, he could roughly associate it with some key things. He did not expect that after not seeing him for decades, that ordinary human had actually achieved such great achievements.

Suddenly,

Lord Beerus frowned and looked in a direction with his golden eyes. A figure appeared in front of him.

Whis was slightly surprised and revealed a faint smile.

“Muiyang, you are back.” Seeing that figure, Melia and Melis called out softly.

“En.”

Muiyang smiled and said, “En.”

At this time, Lord Beerus walked over calmly and circled around Muiyang a few times. “It really does look different. I actually can’t see through you.”

Whis stared at Muyang for a while and said, "That's right. You have already reached the Level 9 Dimensional. There are few people in the entire universe who are your match." Whis' eyes were very sharp, and he could guess Muyang's realm from the faint divine power emitted from Muyang.

"I just reached the level of an Angel. I still need some time to get used to it."

Muyang smiled faintly. Frankly speaking, after the birth of Acceleration World's twelve universes, his strength had undergone earth-shaking changes. Ordinary angels might not be his match.

Of course, energy improvement was one aspect, but in terms of combat skills and the use of various magical powers, he was still inferior to an angel.

When they heard that their husband had reached the level of an Angel, Melia and Melis were pleasantly surprised, as if their training had made a breakthrough.

"Angel Level."

At this moment, Lord Beerus was already stunned. He turned his head stiffly, "Whis, you said that his strength has already reached the same level as yours?".

"Yes, he is not bad even among Angels."

Lord Beerus was immediately hit hard. He suddenly had a feeling that his time had been living on a waste. The other party was only in his 80s, but he had actually surpassed his tens of millions of years of training. If he train for a few more years, would he be able to surpass the Grand Minister and Zeno... Uh, that was definitely impossible.

Lord Beerus did not even dare to think about the matter of surpassing Zeno.

"Whis, we are going back now!" Lord Beerus suddenly shouted.

"Ah, I haven't finished enjoying the food here!" Whis said.

"Enjoy my ass! Hurry up and go back. This god also needs to train harder. Even a mere earthling can reach the power of an Angel. I don't believe that I can't reach it."

"Alright." It was rare for Lord Beerus to be so diligent. Whis did not want to ruin his mood. He asked Muyang to deliver the food to God of Destruction Planet when he was free. He waved his divine staff and brought the God of Destruction, Lord Beerus back to God of Destruction Planet.

"Eh, has Lord Beerus and the others left?" Son Goku walked over with a five-story cake in his hands.

"They just left."

"What a pity. I still want to ask them about training!" Son Goku said regretfully.

"Don't worry. I've already asked the person called Whis for his contact information. I can help you contact him when he comes to Earth in the future."

“That’s great.” Son Goku laughed loudly.

Muyang stared at Son Goku for a while with his deep eyes. He saw through his physical condition and said, “You have already reached the state of a Super Saiyan God, but because of tricks, your realm is not stable.”

Son Goku’s Super Saiyan God was more of a power than a realm. Although the short-lived six-year-old Saiyan’s power has broken the barrier between Half-God Level and Mortal, his realm was not stable. After the energy was exhausted, the advancement brought about by his realm also disappeared.

Fortunately, Son Goku was talented in combat and fused with a part of the essence of the Super Saiyan God. If he train it well, he could still recreate the state of the Super Saiyan God.

Son Goku nodded solemnly, understanding his own situation. “Next, I will continue to train that power and strive to Body Transformation with my own ability.”

“Hmph, this time we injected energy into your body to let you have a breakthrough. Next time, it will be my turn.” Vegeta and Shasley walked over and said unhappily after hearing Son Goku’s words.

“Sure, we can try again when we have time. Let you also reach the state of the Super Saiyan God.”

Among the few Saiyans on Earth, apart from Son Goku, the only ones who had the qualifications to reach the Super Saiyan God were Vegeta, Shasley, and Broly’s son, Elek. The rest, even Son Hongye and Son Gotem, were still a little lacking from that stage. After all, if they wanted to transform into a Super Saiyan God, they needed a certain amount of strength to accumulate.

Otherwise, even if they had the state of the Super Saiyan God, without the power of the Super Saiyan God, they could not be considered a true Half-God.

It was said that the first Saiyan to reach the state of the Super Saiyan God in ancient times was transformed by gathering the power of the kind Saiyan and Body Transformation. In fact, the strength of the Super Saiyan was only ordinary.

Chapter 590

After the God of Destruction, Lord Beerus, and Whis left, the birthday banquet of Bulma continued. However, because they had witnessed the battle between Son Goku and Lord Beerus, all the ambitious warriors decided to work harder in the following days.

“Right, the child of Elek and Sun Hongye is about to be born. The doctor said that it will be a girl.”

Although Elek was not his biological grandson, Melia and the others watched him grow up from a young age. He was no different from their grandson. Thinking that even Elek was going to have a child, why was Muqiu and Amelia, who were much older than him, still not moving? It made Melia began to feel anxious.

When Muyang heard this good news, his face revealed a pleasantly surprised expression. “The child of Elek and Hongye!”

“Elek wants us to come and give the child a name. What do you think it should be called?”

Melia blinked her jade-green eyes, her face filled with happiness and worry.

Muyang was also in a difficult position for a moment. He had never picked a name for the child! Looking at the name he gave his child, one was called Muqiu, and the other was called Mutian. It sounded good, but in fact, it was to separate the word “autumn”. In the eyes of those who understood the truth, these two names had no meaning at all.

He thought to himself, Son Hongye is the daughter of Son Goku and Chi-Chii. From another perspective, she is equivalent to the “Son Gohan” in the original story. In the original story, Son Gohan’s and Videl’s the daughter is called Pan... Why don’t we call the child Pan?

At this time, Muyang suddenly remembered Son Goten’s situation and asked, “What is the name of Son Goten and Angela’s child?”

“It seems to be called Pepe. Because she is late, she will probably be one month younger than Hongye’s child.”

Pepe, this name was actually another translator for “Pan”. In addition, there were also different interpretations names such as Plaque, Abao, and so on.

Muyang suddenly had an idea.

“Elek’s child, let’s call him Plaque!”

“Plaque, not bad.”

Melia read it a few times and felt that it was clear, so he decided.

Thinking about it, it was quite magical. Son Goku’s child and Broly’s child would actually get married, and the child’s name was also borrowed from the original story’s name – Pan.

“Look, Elek’s child is about to be born, but Muqiu and Amelia, who are older than them, have no children until now... They won’t be like us, waiting for many years before having children, right?” Especially Muyang and April, how many years had they waited for in total?

“It’s already difficult for Half-Gods to give birth to children. We should wait patiently. We have plenty of time anyway.”

“That’s true.”

The topic came to an end here for the time being. Next, Melia and Melis asked about Acceleration World. When they learned that there were already twelve universes in the new Acceleration World and that they were one-third of the outer universe, their faces all revealed excited smiles.

In fact, before Muyang returned to Earth, he had already brought April and the others back to Acceleration World’s Planet Wudao. In addition, he had set up a time acceleration for the twelve

universes. The flow of time was about 512 times that of the outside world, and it was already faster than the Hyperbolic Time Chamber.

However, even if this was the case, it would still take a long time for these twelve universes to grow.

Acceleration World had basically already passed the initial growth period by the time he had developed to this stage. The following development had already formed a scale, and there was no need for others to interfere.

Therefore, apart from maintaining the four space-time gates above the Planet Wudao, Muiyang did not allow any angels to enter Acceleration World.

Of course, this was not because Acceleration World did not need angels. On the contrary, as the universe in Acceleration World grew increasingly mature, the existence of angels was essential.

Next, Muiyang was prepared to give birth to Acceleration World's own angel.

Therefore, Whis and the others had to avoid interfering with the birth of Acceleration World's angel.

However, how could he give birth to an angel? This problem was still bothering him. Even if he asked the Grand Minister, he would not be able to solve the problem.

It's troublesome, but an angel is the key to maintaining the order of the universe. The first to be born should be an existence like the Grand Minister, whose authority is almost below mine.

Muiyang had considered passing this authority to either Melissa or April, but the life structure of an angel was different from that of an ordinary person. It needed the power to accommodate rules.

It would be best if it did not have a pure physical body.

This point was not suitable for Melissa and the others.

Uh... The only one who was most suitable for this point among Acceleration World seemed to be Gaia. According to the Grand Minister, it was the dragon soul of the Super Dragon Ball, so it should have some magical abilities.

Forget it, let's consider this question later. When the time comes, let's ask Gaia what it thinks.

...

"Hey... Muiyang, can you hear me?" A nervous and hurried voice sounded in his ears. It was the North Kai.

Muiyang asked, "North Kai, what is the matter?"

"I heard your conversation with Lord Beerus just now. I heard that you are the Grand Supreme Kai. I think... can you please expand my North Kai's Planet a little? Just a little is enough." North Kai asked nervously.

Muiyang smiled. He was wondering what was going on. It turned out that North Kai had asked him to increase his North Kai's Planet. En, North Kai's Planet was a little small. TNorth Kai's request was just a small effort for him.

“Of course there is no problem. Why don't I come over now?”

“Oh, that would be best.” North Kai's voice immediately became excited.

After cutting off the connection with North Kai, Muiyang smiled and explained the situation to Melia and Melis. “North Kai wants me to expand his North Kai's Planet”

Melia chuckled and said, “His planet is indeed a little small. Go help him.”

“Let's go together.”

As he finished speaking, an invisible force wrapped around them. With a 'xiu' sound, the three of them appeared in the high dimensional Kai space.

The faint pink sky remained the same. Below them, there was a golden sea of auspicious clouds. A winding and long Snake Path lay across the auspicious cloud, only revealing a drooping snake tail. The other end extended to the other end of the endless space. Below the snake tail was a planet with a hidden treasure. It was no more than 50 meters in diameter.

There were only a few large trees and a low room on North Kai's Planet. On a small path that circled around North Kai's Planet, North Kai was nervously waiting.

With a sparkling ray of light, Muiyang and the girls appeared.

“Muiyang... my planet will depend on you.”

“It's just a small problem.” Muiyang smiled and waved his hand, asking, “How much do you want to expand North Kai's Planet to? Do you want to make it as big as the Planet Wudao”

“No need, no need. Just the size before it was destroyed by Lord Beerus is enough.”

Grand Kai's Planet that Grand Kai lived in was not as big as Planet Wudao. As one of the four Kai of the galaxy, how could his planet dare to be bigger than Grand Kai's Planet?

Muiyang smiled and nodded, indicating that he already understood. Then, he raised his finger and condensed a green light spot at the tip of his finger.

“This is the energy created by Supreme Kai. This can allow your North Kai's Planet to expand several times.”

As he spoke, the green dot of light on his fingertips floated down. When it touched the ground, it instantly disappeared. In the next second, the entire North Kai's Planet trembled violently. The surrounding trees began to increase. The curve of the ground gradually became flat and slippery. The size of North Kai's Planet began to increase.

When North Kai saw this, his fat body jumped up and down excitedly. After about ten seconds, North Kai's Planet stopped growing. At this time, the entire planet had expanded by nearly a hundred times. Finally, it looked like a planet.

Grand Kai's Planet that Grand Kai lived on was a planet with a diameter of tens of thousands of meters. North Kai was a bit worse than him, but it was also more than ten thousand meters in diameter.

Although it was still a pocket planet, North Kai was already very satisfied.
