

Ball God 621

Chapter 621

“May I ask where you High Gods are from?” Old Kai asked cautiously.

When Old Kai used the crystal ball to observe, he found that Muyang and his group were different. When he personally came into contact with them, he felt the mysterious charm coming from them. That kind of oppressive feeling was undoubtedly a high level god.

But Old Kai knew nothing about where they came from and why they came to this universe.

In fact, other than knowing that there were other high-level gods above Supreme Kai, Old Kai knew very little about the information outside of the universe.

“We are from Zeno World. Of course, you don’t have to know this very clearly. Anyway, it is not a system. By the way, how much do you know about the information about the’ God Realm ‘?”

“Are you talking about Sacred World of the Kai?” Old Supreme Kai hesitated for a moment and asked doubtfully.

“No, I’m talking about the divine realm above this universe.”

Muyang shook his head. The GT World was only one of the many universes below the Red King World. It was as small as a grain of sand on the beach. Compared to the vast super-sized world, it was insignificant.

Old Kai shook his head doubtfully. “I am only Supreme Kai of this universe. I am not very clear about the situation above the universe.”

This was not the entire universe. Old Kai’s dimension had not reached the level of beyond the universe, so he could not walk out of the universe at all. Even before Muyang said the word “God Realm”, he had not even heard of the word “God Realm”.

“You don’t have God of Destruction in this universe, right?” Melia continued to ask after listening to Muyang.

“I have never heard of the God of Destruction.”

Melia nodded. “Yes, even if there is a God of Destruction in this world, with the power of the God of Destruction, Beerus, I’m afraid that he has already entered the so-called’ God Realm ‘. He will not stay in the lower realm at all.”

Melis said, “Maybe there is no Lord Beerus in the root. The space in this universe is limited, and even nurturing a Half-God Level expert is very difficult. If Son Goku did not have the Super Saiyan Transformation, his combat power would not have reached the Half-God Level. In essence, Son Goku’s normal strength is only a few hundred million power level.”

Without the enhancement from the Super Saiyan Transformation, Son Goku’s strength was actually very limited. Melis suspected that with the capacity of the GT World, it was basically very difficult

to give birth to a complete Half-God Level expert like Universe 7, let alone the more powerful True God Level (God of Destruction Level).

After hearing this, Muiyang agreed with Melis' opinion. Perhaps in the original GT story, Son Goku finally left this world with the Shenron. It was because after fusing with the power of the Dragon Ball, his physical combat strength reached the limit of this world.

Thinking of this, this idea also made sense.

Without obtaining information about the God Realm from Old Kai, Muiyang was not very disappointed. In any case, he would personally go to that place sooner or later, not in a hurry.

As he listened to the conversation between Muiyang and Old Kai, he suddenly felt that his three views had been refreshed. Although he didn't know what level of High Gods Muiyang and the others were, seeing Old Kai's respectful and humble appearance, his background was definitely extraordinary.

Old Kai and Kibito came to Earth this time to meet Muiyang. After making sure that the other party would not harm the universe, they felt a stone in their hearts. They stayed in the Divine Hall for a while longer before carefully getting up and returning to Sacred World of the Kai.

“What is the God Realm you just mentioned? Are there many experts there?” As long as Son Goku met his opponent, he would be more excited than anything.

“That's right. The God Realm is a world above many universes, and there are definitely many experts. According to the general classification of strength, the Super Saiyan 4 that you transformed into before should be considered a Half-God Level. However, because your main body's energy is too low, you only have the combat strength of a Half-God Level, and you do not have the foundation of a Half-God Level.”

“And above the Half-God Level, there are also the True God Level (God of Destruction Level), Angel Level, and Grand Minister Level. Currently, they are too far away for you.”

When Son Goku heard this, he became excited. Even Vegeta showed some anticipation towards the God World.

“So there are so many levels above Super Saiyan 4. Then Super Saiyan 4 can definitely continue to transform.”

“Is that ‘Super Saiyan God’ a Half-God Level?”

Muqiu laughed. “Super Saiyan God is an authentic Half-God Level. It has the characteristics of many gods and is more adaptive in combat than Super Saiyan 4.”

Son Goku and Vegeta showed an expression of understanding. They admired the “Super Saiyan God” Muqiu mentioned, but when they thought of the harsh conditions to reach the “Super Saiyan God”, they felt helpless.

“By the way, Muqiu, you can try to learn the Super Saiyan 4 Transformation here. Although the ‘Super Saiyan God’ has a stronger advantage in endurance, in terms of explosive force, Super Saiyan 4 is still better.”

It was also a transformation above Super Saiyan 2 and Super Saiyan 3. Super Saiyan God and Super Saiyan 4 were two different directions of growth. They could be regarded as another life form that was different from Super Saiyan. It was difficult to judge who was better and who was worse.

However, in terms of overall, it should be that the Super Saiyan God had a greater advantage.

In the entire universe, the breakthrough in the direction of the realm was popular. The power path would be suppressed. Now that he was in the GT World, the power path was the mainstream.

Muyang was looking forward to Muqiu and the others being able to achieve something in Super Saiyan 4.

Of course, Super Saiyan 4 needed a tail to transform into a Super Saiyan based on the Grate Ape transformation. The Saiyan of Universe 6 Planet Sala, Planet Sadala, and its tail had completely disappeared in the distant evolutionary path. Muyang did not know whether Muqiu and the others, who had the bloodline of the Saiyan, had the potential to transform into Super Saiyan 4.

“Super Saiyan 4? Maybe I can give it a try.”

Muqiu licked his lips, a little interested.

“If you want to learn Super Saiyan 4 Transformation, I can help you.” Son Goku volunteered. In fact, he was looking forward to having a match with him.

Everyone present was well aware of Son Goku’s thoughts. They smiled and did not care.

In the next few days, Muyang and the others temporarily stayed on Earth. Muqiu and the others followed Son Goku and the others to learn the transformation of Super Saiyan 4. Perhaps it was because of the incongruity of their physique, they had not been able to transform for a long time.

After sighing and lamenting about having no fate with Super Saiyan 4, Muqiu decided not to dwell on Super Saiyan 4 and began to focus on studying the realm of Super Saiyan God, hoping to reach the level of God of Destruction quickly.

...

Chapter 622

In the Red King World, under the majestic Red King Palace, there was a vast space filled with golden auspicious clouds. This was the God Realm, and there was a green planet floating in it. Countless experts from the lower realms lived here.

On this day, the God who was in charge of managing the GT World detected the powerful aura that appeared in the lower realms, and immediately reported it.

“Lord Monluz, there is a powerful energy reaction in Universe 14, and it is judged that there are several Half-God Level energies.”

The God named Monluz opened his cold eyes, and his ancient attire that was like Beerus moved without any wind. “Universe 14 has always been inconspicuous under my command. They actually gave birth to a Half-God Level. Then why didn’t they report to the God Realm... Could it be that

those Half-God Level experts didn't receive any information from the God Realm when they broke through?"

"Or did they deliberately stay in the lower realm when they knew?"

There was deep anger hidden in Monluz's words.

Although the God Realm did not interfere with the matters of the lower realm, the rules restricted every Half-God Level expert to enter the God Realm in the shortest time possible. Otherwise, it would be sanctioned by High-Level Gods. It was so serious that even the entire universe would be destroyed.

However, Son Goku and the others had reached Super Saiyan 4 through their transformation. In essence, other than their explosive combat strength reaching the standard of Half-God Level, they were not Half-God Level Gods. Thus, they did not know that there was such a rule in the God Realm

Only Son Goku in the original story received the decree of the God Realm after fusing with the Dragon Ball, so he had to say goodbye to his relatives and enter a higher world.

The subordinate god said in a trembling voice, "This... Maybe the situation is a little special."

"This is a matter that violates the rules of the God Realm. The experts in Universe 14 and its interior must be punished."

Monluz snorted coldly. A trace of indifference flashed in his light purple eyes. He was a god that managed the Universe 1 to 15. According to the standards, he was the God of Destruction in these universes. If there were people who violated the rules of the divine realm, he had the authority to punish them.

"Take care of the rest of the universe. I will go to Universe 14 to take a look." After Monluz finished speaking, his body flashed and turned into a five-colored stream of light that headed down to the lower realm.

"Sigh, Universe 14 is going to be in trouble." The Half-God spirit sighed. The God of Destruction in charge of the universe would not easily make a move. Once it made a move, it would be a major event that would bring disaster to the entire universe.

Because in the Red King World, the great supreme Red King used her supreme power to suppress the timeline.

So no matter what changes occurred in the universe under the God Realm, the God Realm would never change because of the changes in the lower realms' space-time. It could be said that it was the only world since ancient times. Relatively speaking, those parallel universes that were constantly born did not seem to be that important.

In Zeno World, the job of God of Destruction was to destroy the necessary planets and maintain the balance of the universe. If one went too far, they would be punished by the king very quickly.

However, in the Red King World, in order to limit the number of universes, the proper task of destroying the universe was to destroy the work of gods.

Now that God of Destruction Monluz had hurriedly entered the lower realm, it could be imagined that it would be another disaster.

...

In God Mu Palace on Earth, MUYANG was comfortably lying on a long chair under the care of April. The young PLAQUE on the side was practicing boxing with a straight face. Her young face was red and her cheeks were sweating.

“Sister PLAQUE, you look like me when I was a child! But can you withstand such terrifying training intensity?” PAN, who was a few years older than PLAQUE, accompanied PLAQUE to train with great interest.

PLAQUE said seriously, “Great-grandfather said that if I don’t work hard, I won’t be able to become a Super Saiyan in the future.”

PLAQUE’s parents were SON HONGYE and ELEK. They were a hybrid of a Saiyan and an Earthling. After their blood was diluted, it was easy for the genes of the next Saiyan to become hidden. If they did not train and dig out the potential in their bodies from a young age, the genes of the Saiyan would fall asleep.

“You still have a chance to become a Super Saiyan. I have no hope.” PAN looked disappointed.

She only had a quarter of the Saiyan bloodline in her body. Other than inheriting a little combat talent of the Saiyan, she had no fate with Super Saiyan.

“Sister, practice with me. I want to attack you.”

“Okay.”

PAN stood a few meters away from PLAQUE and took a defensive posture. With a bang, PLAQUE leaped and kicked between PAN’s hands. The ground suddenly shook. PAN involuntarily took a few steps back, a trace of surprise on her face.

The little girl was so powerful that she couldn’t stop her at such a young age.

Under the parasol, APRIL’s beautiful eyes stared at PAN and PLAQUE. “I have checked the blood of the earthlings in this world. There is no trace of S-Cell in the body. In other words, the earthlings in this universe are just ordinary earthlings. In ancient times, they have nothing to do with the Saiyan people.”

MUYANG said, “There is no rational Saiyan in this world. The S-Cell in the body of the earthlings naturally can not be talked about.”

“In the future, PLAQUE still has the hope of turning into a Super Saiyan, but PAN is basically impossible. The Saiyan genes in her body will gradually be covered up

by the genes of the earthlings, and she will become an ordinary person with only a little combat talent.”

In a few years, there will be no Saiyans on Earth. This is the price brought by the mixed-blood. When the Saiyans of this world were destroyed on Planet Vegeta, they were destined to die.

“By the way, there is no hope for Muqiu and Amelia to become Super Saiyans 4. On the other hand, because Son Hongye and Elek have the blood of the Super Saiyans, they can cross the Super Saiyans God and directly advance to Half-God Level from Super Saiyans 4 state. This way, we will have two more Half-God Level experts in our forces.”

Her eyebrows, which were as light as smoke, curved slightly, and a smile appeared on her fair face. Son Hongye and Elek could be considered her and Muyang’s descendants, and they were also the two with better talent. She was naturally happy that the two of them were able to achieve great things.

With Muyang’s current strength, he already didn’t think much of Half-God Level. Of course, if the younger generation worked hard, he would also be happy to see it happen.

“Hmm?” At this moment, Muyang suddenly cast his gaze towards the sky.

“What’s wrong?”

April saw this and also looked towards the sky.

“There are experts coming down. It seems that they are not ordinary.” Muyang frowned. His deep eyes looked through the deep space barrier and detected a powerful force approaching.

April’s observation skills were also very sharp. Moreover, the other party did not restrain his aura. Thus, April quickly discovered the other party. Her expression changed. “This energy far exceeds that of a Half-God Level. Could it be that it is destroying another God of Destruction Level expert?”

“It is indeed a God of Destruction Level expert.”

“Lord Muyang, they are here with ill intentions,” said Gaia as she carried her clone over.

“They are merely at the level of a God of Destruction, nothing to worry about. However, this is not the entire king’s world after all. We still have to keep a low profile,” said Gaia. Muyang did not put a God of Destruction in his eyes at all. What he was worried about was an even stronger existence behind him.

Soon, it was as if a giant meteorite had broken through the atmosphere. The atmosphere of the earth instantly became chaotic. A person dressed in a suit of Egyptian Pharaoh entered his sight. His arrogant face was full of pride.

God of Destruction!!

Seeing the other party's attire, Muiyang muttered, "So in this world, besides Supreme Kai, there are also God of Destruction!"

It was obvious that the God of Destruction here was not on the same level as Supreme Kai.

Chapter 623

"The clothes that person is wearing are very similar to that of the God of Destruction, Lord Beerus. He should be the God of Destruction in this world. But what exactly is the reason for him coming to Earth? Is it because of us?"

Melia was not afraid of and used the worst malice to guess at the strange God of Destruction in the sky.

No matter which world, the God of Destruction was a group of unruly and cruel existences. They would never frown when destroying a planet. From the other party's menacing appearance, they probably did not come with good intentions.

"Look, the other party will not come to Earth for no reason." Muiyang's eyes narrowed and his expression was calm.

"Yes." Melia nodded and quietly stood to the side with April.

In terms of strength, Melia was only at the peak of the Half-God Level. Even if he merged with Melis' power and became Melissa, he had only just become a match for the God of Destruction. Facing the veteran God of Destruction who had been a God for a long time, he was definitely not a match. However, there were many experts on Melia's side. Other than Muiyang and Gaia, who were both true Angel Level experts, Broly had the strength to fight against the veteran God of Destruction.

Therefore, Melia was not afraid of the unfamiliar God of Destruction in front of him.

"You are the Half-God Level who are stranded in the lower realm? Don't you know that you must enter the divine realm after reaching the Half-God Level? This kind of behavior that violates the rules is absolutely not allowed."

The God of Destruction Monroe looked proud, and there was a faint killing intent in his voice.

Muiyang did not know that the Half-God Level of the Red King World had such a rule. They were not the gods of this world, so they were not allowed to guard this point. His eyes looked at the God of Destruction in front of him. The God of Destruction, Monluz, had a human appearance. His eyes were light purple, and there were two horns on his head.

It was roughly estimated that the power of God of Destruction Monluz was a bit weaker than God of Destruction Beerus, perhaps similar to an elephant handkerchief.

"We are not from your universe, so we are not clear about your rules."

"This is not a reason. Since you have violated the rules, you must accept punishment. As long as you obediently accept the punishment, then I can be merciful and let this universe go." The duty of God of Destruction in the Red King

World was to manage the universe under your command. When necessary, you could destroy the entire universe.

Therefore, to God of Destruction Monluz, his way of doing things was very benevolent.

However, this was not something that Muiyang could accept.

He sighed slightly,

Originally, he did not want to blow up the matter, but his explanation seemed to be ignored by the other party. He waved at Broly, "Broly, I will let you deal with this God of Destruction."

"Alright." Broly's eyes lit up as he looked at God of Destruction.

God of Destruction frowned and his expression turned cold. "Are you planning to put up a fight?"

Broly laughed loudly and came in front of Monluz. "I have fought with the God of Destruction, Beerus, and I have not been able to determine the victor. I wonder how your strength is compared to him..."

"God of Destruction, Beerus?" "Nonsense, there is no God of Destruction called Beerus in the God Realm. Even if he is boasting, he should investigate the situation clearly. Forget it, when I clean up this universe, I will punish this universe. Universe 14 will pay a heavy price for your arrogance."

There were 36 God of Destruction in the God Realm, and each of them had a head and a face. Although Monluz was not the most powerful God of Destruction, he could still be ranked in the middle class. He had never heard of God of Destruction, Beerus.

He wanted to let these people in front of him know that destroying the dignity of a god was not something that anyone could challenge.

"Let's fight!"

Broly's fighting spirit was high. The grass green energy wrapped around his body and instantly turned into a golden-haired super. Crash! The violent cyclone brought along a storm. He was like a ferocious beast that had come out from the depths of the Wilderness. The mighty pressure made the earth tremble.

Facing the violent power released by Broly, Monluz's face froze. He licked his lips cruelly, "The energy is enough to rival the ordinary God of Destruction, but it is still too low for me."

After saying that, Monluz gave a low roar, as if a volcano that had been sleeping for countless years suddenly erupted, the energy of the God of Destruction formed a vacuum of aura, colliding with Broly's energy, snorting, the wind howled, lightning weaved through the clouds, Broly's aura was suppressed.

All of the people in the God Mu Palace felt the pressure from Broly and Monluz, and their breathing immediately became hurried.

Melia, Muqiu, and the others were still alright. However, they were also forced to transform into the Super Saiyan God state. Mutian and Son Hongye and Launch were in a much worse state. Their

faces immediately turned pale. Seeing this, Muyang quickly raised his arm and waved it lightly. A wave of Acceleration World's power seeped out and set up a protective shield in the outer area.

“The power of that God of Destruction is not bad. If Broly wants to win, he must bring out all the strength he has.”

Sure enough, not long after these words were said, under the pressure of the other party, Broly had no choice but to become a green-haired super-form at his peak.

With this transformation, Monluz's pressure suddenly increased greatly.

Montrez opened his pale purple eyes and stared at Broly, saying fiercely, “Good, good, good. You really made me look at you in a new light. You really came prepared. With your strength, you still have a place in the God Realm. However, you have violated the rules of the God Realm. No matter how strong you are, I will destroy you!”

There was no compassion to ask whether the other party was willing to admit his mistake. The arrogant and cold God of Destruction did not have that kind of kindness at all.

He looked down from above, with the attitude of a superior. He shook his head helplessly, revealing an extremely regretful expression.

To be honest, it was rare to see a powerful human like Broly in the God Realm, let alone in the insignificant universe of the lower realm. Monluzi did indeed have a little bit of a heart for talent. Unfortunately, this little heart of talent was far from suppressing the urge to destroy his opponent.

The battle soon began, and the earth instantly became a battlefield that determined life and death.

Not long after the super one-star dragon crisis was over, the earth, which was still nervously rebuilding, was seriously injured again. If Muyang had not specially used his strength to limit the energy of both sides, the earth would have been torn apart in the first collision.

The Lookout.

Dende and Mr. Popo struggled to run The Lookout, extracting the energy in the star nucleus to stabilize the strength of the planet surface. However, this was a drop in the bucket for the battle of Broly and the others, and it could not be used to alleviate the damage.

“Who is that supreme being? Why would a god threaten a planet?” Dende had a bitter face, sweat dripping down his face.

“He wants to destroy the entire Earth!” Mr. Popo helped Dende stabilize the situation on Earth.

On the other side, Son Goku and the other Dragon Ball Warriors felt the aura coming from the God Mu Palace, and all of them were deeply shocked.

“The aura is even more terrifying than that of an Omega Shenron!”

“What's going on now? Could it be that an even more terrifying opponent has appeared?”

“Earth is really plagued by disasters.”

“The aura of fighting against the other party is Broly. Oh my god, Broly actually has such powerful strength.”

Some people were shocked by the energy released by the battle between Broly and Monluz. They were shocked and felt helpless. The strength of an Omega Shenron was already beyond their ability to resist. However, only a few days had passed, and an even more powerful energy had appeared on Earth.

They could not deal with such a strong enemy at all.

“I hope Broly and the others can win...”

Apart from Son Goku and Vegeta who were still struggling with a desire to surpass them, Son Goten and Son Gohan were a lot more salted fish. In any case, with the tall man holding them back, the fighting heart that had just been stimulated by Son Hongye not long ago became fragmented again in front of the cruel world.

Running away became the best choice.

Chapter 624

“Kakarot, take me to the place closest to the battlefield.” Vegeta endured the strong pressure. The veins on his head surged and he clenched his fists tightly. There was a strong sense of unwillingness in his heart.

Trunks hurriedly stopped him. “Dad, it’s too dangerous there.”

Vegeta angrily said, “Shut up, have you all lost the bravery of the Saiyan people? The peace on Earth made you become mediocre. If this goes on, you won’t have to count on you to protect your home after dozens of years.”

Son Goku and Vegeta were both fifty or sixty years old. Although the Saiyan people had a longer period of adolescence, their lives were not much longer than that of ordinary people on Earth. It was estimated that their strength would start to decline in a few years. Now, looking at the performance of Trunks and Son Gohan, the next generation was a little unable to support them.

The little Pan generation who had the spirit to fight, but because of the lack of bloodlines, their achievements would not be too high. If this went on, when Son Goku grew older, Earth would return to the state it was in decades ago.

Vegeta’s words were not to argue with Trunks and the others, and she was very disappointed in her words.

Trunks was reprimanded by Vegeta, and his face revealed a look of shame.

He looked helplessly at Son Gohan and the others, and Son Goku sighed. Then, he pulled Vegeta and instantly moved to the battlefield on the other side of the God Mu Palace.

Son Goten looks at Son Goku and the others had disappeared. “If Daddy goes over now, it will be dangerous!”

Son Gohan looks at Son Goten on the shoulder. “You have to believe in father. They will definitely be able to do it.”

Bulma couldn't take it anymore and scolded Son Gohan and the others. “What time is it? You still want to rely on Goku and the others for everything. This will cause them a greater burden. In fact, they have no responsibility and obligation to rush to the front of danger every time. Vegeta is right. In the past, no matter if it was the Cell Game or the Majin Buu incident, you were not like this. It seems that a long period of peace has really worn down your spirit.”

Although Bulma herself did not have the strength to protect the ball, he was at least doing the greatest support in the back, creating training chambers for Son Goku and the others, or providing the most advanced combat suits.

On the other hand, Son Gohan and Son Goten learned to rely on others after giving up the martial arts meeting. They hid behind every crisis and said that they had to believe the words of Son Goku and the others, but in fact, it was completely useless.

They originally thought that Son Hongye's words could wake them up, but now it seemed that they were still too naive.

...

God Mu Palace.

The battle between Broly and Monluz continued. After Broly took out his full strength, Monluz was in a difficult situation. Only then did he realize that he had underestimated his opponent. Those Half-Gods were not simple. The man in front of him, who was emitting a grass green light, was strong enough to compete with him.

“How can so many experts appear in Universe 14?”

God of Destruction Monluz couldn't figure it out. There were several other universes that were parallel to Universe 14, and this had never happened before.

A vicious killing intent flashed through his eyes. Monluz roared, and a pale red destructive divine energy surged. Huge waves rose from the deep sea, and the aftermath was enough to destroy a star sphere.

Bang!

Broly rushed forward. Under Monluz's shocked expression, a huge palm covered his face. Then, like a fierce beast, Broly pressed Monluz head against the hard rock wall. For high-level battles, such an advantage was enough to determine the outcome.

“Damn it!”

Monluz let out an angry roar. As one of the 36 God of Destruction in the God Realm, although his strength was not at the peak, he was still a God of Destruction. Now, he was actually being pressed down on the ground by a man of unknown origin.

“The outcome has been decided. That God of Destruction is no match for Broly.”
Muyang had guessed the outcome from the beginning. After all, Broly was on

par with the God of Destruction, Beerus. Against a God of Destruction who was not particularly experienced, victory was a matter of time.

“Is the battle over?” Son Goku and Vegeta came to the battlefield and saw the scene of Broly ravaging Monluz.

They could feel the horror of the horned man. His strength was far above that of an Omega Shenron. If they were in his place, they might be defeated by him in a few moves. However, Broly still had the advantage. It seemed that there was a big gap between their strength and Broly!

The strength of this Mr. Muiyang’s family was terrifying. Android 18 and others were stronger than him, and Broly was even stronger to the point where they could not see.

I really don’t know how they all train.

“You lost this battle, the God of Destruction!”

The muscles all over Broly’s body swelled, but his strong body did not lose its beauty like Broly in this world. Overall, it could be described as burly.

“I... I actually lost” God of Destruction Monluz found it hard to accept, and there was an expression of disbelief in his eyes.

“Yes, you lost.”

“No, a mere human from the lower realm, how can he defeat the God of Destruction?” Monluz roared angrily, and a faint red energy condensed in his hand. Seeing this, Broly revealed a cautious expression. This light red energy was the God of Destruction of this world, and if not for dealt with properly, it would be life-threatening.

Pa! At this moment, a slender figure appeared in the air. It was a figure with dark red hair. His voice was indifferent as he said, “Monluz, you have already lost. Don’t make a fool of yourself.”

“Ah, Lord Priest!”

Hearing the other person’s voice, God of Destruction Monluz trembled as if he had seen something terrifying. His voice trembled as he stood aside.

The priest with dark red hair glanced at Broly. “Your strength is not bad, but you are still a mere mortal.”

As he finished speaking, he turned the pitch-black divine staff in his hand. A terrifying energy attacked Broly. Not good! Broly’s pupils shrank, but his body felt like it was being imprisoned. No matter how he struggled, he was unable to break free.

“Are all the angels in this world so irritable?”

The beautiful figure flashed, and Gaia’s slender figure blocked in front of Broly. Her blue hair fluttered, and a blue light flashed, blocking the attack of the other priest.

The red-haired priest looked at Gaia seriously, and his eyes were deep. “I am a priest, not an angel.”

“They are all the same, just different names.” Gaia curled her lips and stared at him with her golden eyes.

Although Gaia had used Acceleration World’s power to enter the Level 9 Dimension after the mimicry, she had just entered the angel level. She did not have much chance of winning against the priests of the Red King World.

The red-haired priest glanced coldly at Gaia and the God Mu Palace below. Finally, his gaze fell on Muyang. He felt an extremely uncomfortable pressure from Muyang.

“Be careful. Even an angel has appeared.” Melia expressed his worries.

“Yes.”

Muyang nodded solemnly. His body fluttered to Gaia’s side. After Broly returned to recover his strength, Muyang looked at the red-haired priest in front of him.

Unlike the angels of the Zeno World, although this person in front of him dressed very much like Whis, his eyes revealed indifference and arrogance. It was completely different from the indifference and detachment of Whis and the others. It was more aggressive. The angels of this world had dark red hair, and it seemed to be related to their character.

“I am the master of Acceleration World. This time, I entered the Red King World through the introduction of the Grand Minister of Zeno World. I think there is no need for us to be enemies.”

“So it was introduced by the Grand Minister of Zeno World. It seems to be a misunderstanding.”

The red-haired priest had an indifferent expression. He turned around and scolded Monluz, “Monluz, your training is not enough. Go back to the God Realm and give ten million years of special training.”

“Yes.” Monluz was full of fear and quickly agreed.

Chapter 625

In the sky above God Mu Palace, Muyang and Gaia stood side by side. In front of them was a red-haired priest. His pitch-black robe moved without any wind, giving everyone a great pressure.

Son Goku and Vegeta had just arrived at the scene not long ago. They did not have a clear understanding of the identities of Monroe and the red-haired priest, but the other party’s strength was deeply engraved in their hearts.

Even someone as powerful as Monluz showed such cowardice in front of the red-haired priest, the other party’s strength must be extraordinary.

Son Goku could not help but feel a chill in his heart. He sighed to himself that there was actually such a mysterious expert in the world. They used to think of themselves as the rare experts in the universe. Presumably, they were a little arrogant. Everyone present, apart from Launch, Mutian, Son Hongye, and a few others, could fight them. There were even many who could defeat them in one blow.

“Who is that red-haired man? Why is that long-horned freak so afraid of him?”
Son Goku took a deep breath and suppressed the trembling emotions in his heart.

Son Hongye looked at the father of this world and explained, “That person should be an angel, but the other party calls himself ‘Priest’. Anyway, he is very powerful. Even the God of Destruction can’t withstand a few moves from them.”

An Angel, a Priest, a God of Destruction, many names he had never heard of.

By the way, Mr. Muyang had mentioned the name of the god of destruction in his conversation with Old Kai, but Old Kai’s answer seemed to be that he had no idea who the God of Destruction was.

He thought that the God of Destruction did not exist, but he did not expect it to appear now.

Then this God of Destruction should be a god that even Supreme Kai did not know about... There were many secrets hidden in this world!

Son Goku asked, “What kind of god is the God of Destruction?”

Son Hongye did not utter a word. April replied, “According to the rules of this world, the God of Destruction should be a god above Supreme Kai. It seems that it has full jurisdiction over the lower realms’ universe. When necessary, destroying the planet and the universe is their duty. Now, there is a God of Destruction who came out of this universe to enforce the rules of the God Realm.”

“Did we go against the rules of the God Realm?”

Son Goku was shocked. From what April said, he could imagine how high the power of God of Destruction was. Being targeted by such a god was not good!

April said, “Probably. I heard that the experts here have broken through to the Half-God Level after their strength.”

“I can’t stay in the lower realm. I have to enter the God Realm.”

Half-God Level experts posed a huge threat to the stability of the lower realm. With Supreme Kai’s strength, there was no way he could control it. Although the God Realm rarely cared about the situation in the lower realm, as the upper realm, it was based on the consideration of stabilizing the situation and sending fresh blood to the God Realm. In the distant past, it had already stipulated that all Half-God Level experts had to enter the God Realm.

When Son Goku heard this, his face suddenly became bitter.

The Super Saiyan 4 him and Vegeta were undoubtedly Half-God Level experts. According to the rules, they had to leave this universe.

However, without them, what would happen to the future of Earth? Besides, they were not willing to part with their loved ones!

While Son Goku and the others were still in distress, the red-haired priest had already ordered to God of Destruction Monluz to return to the God Realm. After Monluz left, the red-haired priest

stared at MUYANG and said, "You are experts from other worlds. Since the priest introduced you here, our Red King World naturally welcomes you."

"My name is Frange, one of the 36 Priests in the God Realm. I am in charge of managing the universe 1 to 15 and their parallel worlds. I can be considered as the superior of Monluz."

"My name is MUYANG. This is my friend, Gaia." MUYANG introduced.

"Well, you are all Angel level experts, especially this Gaia. I feel that he has the same aura as Lord Segari... He is worthy of being valued by the Grand Minister." In the face of two Angel level experts, the red-haired priest was very polite, and did not have the aura of a superior like Monluz.

It seemed that it could solve the problem peacefully.

It was not that MUYANG was afraid of the priest in front of him. If the Lord did not want to make a big deal out of this, perhaps out of respect for the Grand Minister, the red-haired priest also did not want to make things awkward.

He invited Priest Frange to his palace hall and treated him with delicious food. After tasting the delicious food, Frange's attitude became much kinder. Sure enough, in the Dragon Ball World, high level gods were basically gluttons. After introducing Melia and the others to him, a smile appeared on Frange's indifferent face. His gaze swept over Melia and the others.

"Most of the people in your palace hall possess great power, and there are even a few who can rival the God of Destruction. If you enter the God Realm, you will be able to have a place in the God Realm."

MUYANG smiled faintly at Frange's praise and asked, "By the way, can you tell me about the situation in the God Realm?"

"There's nothing that can't be done."

Frange put down the teacup in his hand and said, "The God Realm is a world directly opened up and governed by the great Lord Red King. On the golden auspicious cloud, there is an incomparably huge divine star called the Red Divine Planet. There are seven continents on the Red Divine Planet, and each continent is the size of this planet. There are countless experts on it, and there are no lack of Half-God and God Level experts..."

"Among them, there are a total of 36 priests and 36 God of Destruction. This is a regular god under Lord Red King, responsible for managing the universe below the God Realm."

The priests and God of Destruction in the Red King World were the same as the gods below the king. They were orthodox gods and had the responsibility to maintain the order of the world.

However, unlike the entire universe, the relationship between the priests here and the God of Destruction was more like a superior and subordinate relationship. When the God of Destruction

saw the priest, it was like a god seeing a realm king, trembling in fear, not daring to overstep any boundaries.

In the Dragon Ball World, the level of gods was distinct, and the difference in levels could not be crossed.

In addition to these regular gods, there were many other Half-God and God Level masters in the God Realm. Some of these masters came from the lower universe, some were born in the God Realm, and there were many of them. Some high-level masters combined to build a powerful and solid system in the God Realm.

Just from the number of priests and Gods of Destruction, the Red King World was stronger than Zeno.

Of course, if all the parallel dimensions in Zeno World were counted, the number of the two might be equal, but there was a reincarnation in every season in the entire universe. At that time, all the angels would fuse into one. In total, there were only 18 angels in the entire universe, less than half of the number of priests in the Red King World.

“The Red King is probably far stronger than Zeno.”

When he heard that the Red King was able to suppress the Time Axis, allowing the God Realm to transcend beyond the Time Axis, Muiyang had already compared her to Supreme Kai of Time, Chronoa. A level ten god like them was something that Muiyang currently could not hope to reach.

However, in the future, Muiyang was confident that he would be able to reach their level. Right now, Acceleration World already had twelve universes. Although the number was a little small, when Acceleration World entered the “Macro World”, it was clear that there was a hope of advancing to the size of the entire universe. When the number of universes in Acceleration World reached eighteen or more, Muiyang believed that they would not be much worse than Zeno.

Thinking about it like this, the gap did not seem to be particularly large.

Muiyang tapped his fingers on the table, making a dong sound. In his heart, he wondered if he should go to the God Realm to take a look. Perhaps it would be able to promote Acceleration World’s development.

Chapter 626

“So there are so many powerful experts in the God Realm. I really hope to go in and take a look.”

Son Goku yearned for the God Realm with so many experts. He was full of expectations, but if they were to enter the God Realm now, they would feel a little reluctant.

In fact, there were very few races like Son Goku and the others who grew up rapidly. There were more powerful experts in the universe, but they mainly relied on time to accumulate. As a result, the experts who reached the God Level were generally lonely and young. Said to be more than a thousand years old.

In all seriousness, Son Goku’s Half-God Level was added up by the Super Saiyan Transformation that was hundreds or hundreds of times stronger. His actual power level was only a hundred million or so. In the lower universe, it could only be considered average.

Muyang and Priest Frange talked for a long time and roughly figured out the situation of the God Realm. After the conversation ended, Priest Frange was about to return to the God Realm.

When he left, he said to Son Goku and the others, "I have observed the situation of this universe through the Divine Staff. The Saiyan beside you are the people who have reached the Half-God Level in this universe. According to the rules of the Red King World, you should enter the God Realm. I hope you won't make things difficult for me. After Monluz returns, there will be other God Level experts who will come to you in the future."

After saying this, Priest Frange nodded at Muyang and turned into a multicolored light and disappeared.

Son Goke's face turned pale. He said, "What he said is that in the future, there will be experts coming to find us."

Vegeta nodded vigorously. "We are being targeted."

Broly said, "If not for Father and the others, Priest Frange wouldn't have let you off so easily. It can be imagined that there will be other experts coming to find you. I think you have already seen the ruthlessness of the God of Destruction."

"What should we do? We will definitely not be able to defeat the God of Destruction..."

Even if he could defeat other God Level experts, he might have to deal with the Angel Level next. As long as he was still in this universe, this was unavoidable. Son Goku wished to challenge the experts, and even yearned for the Red King God Realm. However, this was definitely not the time.

If in a few decades, when there was no one on Earth to worry about, then even if no one came to find them, Son Goku would automatically choose to enter the God Realm to fight for it.

As for the difficulty of Son Goku and Vegeta, Muyang could do nothing about it. He could not bring Son Goku and the others to his Acceleration World. This was different from the entire universe. This was because in the entire universe, Muyang himself was Universe 7's people. He set Acceleration World's passage to Zeno Planet, and it was approved by Zeno and the Grand Minister. Red King World.

Muyang could not do this, otherwise, if he was not careful, he would cause a dispute between the worlds.

"Mr. Muyang, please train us. At least we hope to stay in this universe for a while longer." Son Goku bent down to ask Muyang.

"Yes, you can stay in God Mu Palace for training."

Muyang readily agreed.

Therefore, in the following period of time, Son Goku and Vegeta trained together with Broly in the God Mu Palace Hall. In addition to train with Broly, Son Goku and the others also taught Son Hongye and Elek about the experience of Super Saiyan 4 transformation. They were originally father and daughter of another world, so Son Goku told them very seriously.

On the other side, after Son Gohan and the others learned that Son Goku trained in the God Mu Palace, they also came to the God Mu Palace several times, but they left after not training for long. Perhaps after knowing the limit of the universe to Half-God Level, they had a resistance to more training, Son Goku could only sigh silently.

“When Gohan was at its peak, it had the strength of Super Saiyan 3. Now, I’m afraid that even Super Saiyan 2 is not strong.” After a few years of neglect, Son Gohan’s strength had completely regressed. Now, even if he knew the method of transforming into Super Saiyan 4, he would not be able to transform without the peak of Super Saiyan 2.

“This Son Gohan is not a qualified warrior,”

Son Hongye commented with an ugly expression on his face.

Both her and Son Gohan’s parents were Son Goku and Chi-Chi. Even the time of their birth was similar. The two of them should be the same person, but their personalities were too different. Even Son Gohan, who had lost his arm in a parallel space, was much stronger than the one in front of him.

Sometimes, the environment would really change a person. Too much peace would make warriors lose their drive, just like Krillin and Yamcha. They would also live a comfortable life in this world.

“You don’t have to ask so much. The strength of Gohan and Goten is not bad in the universe.” In the end, he still had the strength of a Super Saiyan, so he was not weak. As long as there were no more monsters like Androids, Majin Buu, Shadow Dragon, it should be more than enough to protect the ball.

“That... Has there been any waves of Bojack, Hildegarn or Janembas in your world?”

Son Goku was stunned for a moment. He asked, “Who are those people?”

“It seems that they haven’t appeared yet. Those people are all monsters. They are powerful enough to rival Majin Buu. But now, they might still be hiding in the corners of the universe...” Son Hongye said what he knew. When he knew that there were still such strong people in the universe, Son Goku was a little anxious.

These people were not particularly strong in Son Goku’s eyes, but if these guys appeared after he and Vegeta left Earth, Son Gohan and the others would probably not be a match for them with their strength!

“What should we do?”

The Dragon Ball was no longer usable, which meant that the powerhouses mentioned by Son Hongye could not be found at all.

Vegeta had a cold face and said coldly, “This is their calamity. We can go and remind them. If they still listen, they will train well, at least maintain the peak strength of the Half-God Level and below. If they can’t listen, then let them be.”

If there was no effect after the reminder, then Vegeta did not care about the outcome. Originally, in Saiyan’s mind, the law of the jungle was natural. They had saved the earth too many times, and there was no need to be a babysitter.

Although Son Goku did not agree with what he heard, seeing Vegeta and Son Hongye’s cold faces, he nodded helplessly.

He hoped that they could listen to the enlightenment rice.

While Son Goku and the others were cultivating with Broly, Muyang brought Melia, April, and the others to the God Realm. There, they saw a large number of experts. Passing through a lush forest, the vast scene of the God Realm came into view.

The Red King God Realm was a world with an extremely high level of space. On the Red God Planet, a huge binding force was transmitted along the space, as if it was a shackle. It became difficult to move. Even a Half-God Level expert could only exert about 10,000 power level on this planet.

Below the Half-God Level was even more unbearable. Other destructive power of Super Saiyan level could probably only destroy a small mountain.

Melia shivered, her beautiful eyes filled with disbelief. “The pressure here is very strong. My body seems to be restricted.”

Muyang smiled. “Just like how I used divine power in Acceleration World, this God Realm is the personal space of the Red King. All the experts here are restricted. En, following this direction, I feel several Angel Level experts.”

Melia’s eyes lit up and he carried her to his chest. His soft body covered her head. “That must be their base camp.”

Muyang shook his head and pointed to the sky. “No, their base camp is in the sky.”

Chapter 627

Just as Muyang and the others entered the Red King God Realm, there was a deep and strange world that was separated by countless spaces.

This world was detached from the world system. It was not in the entire universe, nor was it in the Red King World. It floated alone outside the long river of time.

Three fiery red planets revolved around an invisible point mass in the middle. These three planets were extremely large, and their diameter was about a hundred times that of Earth. The surface of the planet was crisscrossed with ravines, and the thick atmosphere was filled with a pungent smell of sulfuric acid. Logically speaking, such a huge planet should not be rotating out of thin air, and there must be an object pulling them in at the center.

The perspective gradually closed, and a tiny flash of light flashed by. It was difficult to attract the attention of others in the dark. It was a white jade palace with a frozen texture. Compared to the three giant planets, its size was negligible.

The reason why the three giant stars did not escape was because they were restrained by this palace.

There was a strange force field around the palace. Space was distorted and swallowed everything around it like a black hole. If it was a universe person with only 10,000 power level, they would be torn apart by a powerful force field if they were a little bit closer. The core of the palace even needed hundreds of millions of power level to barely support it.

Dong. The empty palace seemed to be uninhabited. The long cloister echoed with the explosive sound of energy collision.

“Hehe, the mysterious ‘Macro World’ actually has a new world. Other than the entire universe, there is a new goal...”

A deep and distant voice rang out. A pitch-black dragon opened his eyes. That towering mountain-like body hovered in the middle of the palace. After a smoky light flashed, a man wearing a black cloak and covered in scales appeared on a huge throne.

His fingers tapped on the throne for a long time. The man half leaned on his seat and looked at the scene in the void simperingly.

This man was called Pulred. He was a Dark Dragon God. He was skilled in the power of time and darkness. His ability was only stronger than that of the Dragon God, Zalama.

After a long while, the Dark Dragon God suddenly stood up. He walked along the winding winding corridor to the depths of the palace. The sound gradually faded away. These winding corridors were like a maze. Very quickly, one could not see the path they came from. Or rather, under the special effect of a powerful aura, it made one unconsciously forget where they had been.

He stopped in front of a white jade door. After the Black Dragon God pushed the door open and walked in, the white jade door slammed shut.

Inside was a huge conference room. There were only four seats on both sides of the long round table. There was another seat on the side of the round table, a total of five seats.

After entering the conference room, the Black Dragon God directly sat down in the main seat.

“General Carlyle, the meeting has begun.”

With a dull sound from the Dragon God, several shadows suddenly appeared on the four empty seats. The faces of these shadows could not be seen clearly, and their bodies were not solid. Their bodies were still in their respective worlds.

“Lord Pulred, long time no see.”

After several shadows appeared, they expressed their respect to the Dark Dragon God, Pulred.

The Dragon God nodded leisurely and waved his hands. The huge conference room seemed to have turned into a deep ocean. A giant pillar appeared out of thin air between the world, and several light spots revolved around the giant pillar.

“This is a small space that appeared before 82 years ago. It was originally only the size of a sleeve, but now it has expanded to one-third of the entire universe. It can already be called a world. What do you think we should do?”

“I think we should occupy this new world as soon as possible. We should take advantage of this time when the people of the Time Nest are targeting the Dark Demon Realm. It is a rare opportunity for us.”

The person named General Carlylei grinned and exuded a bloodthirsty aura.

“Let the people of the Dark Demon Realm continue to attract the attention of the Time Nest. I can’t help but want to take this newly born world into my pocket.” A silver-haired man beside him said.

“Ho... If the Demon Kai Mechikabura knew that we used his world as bait, he would probably be so sad that he would cry.” As soon as the silver-haired man finished speaking, a beautiful woman across from him propped up her chin and chuckled.

The silver-haired man smiled coldly. “That poor wretch. If we hadn’t acted in secret, he would have been sealed by Demon Kai like Mechikabura. Isn’t it normal to use his value now?”

“The people of the Dark Demon Realm are still a little weak.” The last old green skinned man sneered.

“It doesn’t matter. I can increase their strength.”

The Dark Dragon God, Pulred, said indifferently. He smiled coldly and took out a hand. Seven fist-sized orange-red glass beads floated on his palm. They were different from the common dragon beads. The stars in these dragon beads were black.

It was another set of Black Star Dragon Balls.

“I have injected enough darkness energy into this set of Dark Dragon Balls. Even if it is compared to Dragon God Zalama’s Super Dragon Ball, it is not much different.”

“The set of experimental subjects that I sent into the Red King World did not play any role in the end. This time, I strengthened its power. Moreover, the Dark Dragon Pearl Ball contains space-time energy will enter different space-time after it is scattered. If Demon Kai Mechikabura were to know about it, he would probably work very hard to travel between time and space.”

“In this way, the people of the Dark Demon Realm and the Time Nest will not notice us.”

“So Lord Pulred already has a plan. All we have to do now is to release the news to Mechikabura.” The old man nodded and chuckled.

“Leave this to me. Mechikabura is also a member of the Demon God Race. It is most suitable for me to tell him.” The only woman among the five was named Mable, from the Demon God Race.

As the name implied, the Demon God Race was born with the strength of a Half-God. Even when compared to the Angel Race, they were not inferior. However, the number of clansmen had always been very few.

“Alright. In this way, the people of the Dark Demon Realm and the people of the Time Nest will be arranged to enter. Next, we only need to keep an eye on the newly born world.”

After saying that, Dragon God Pulred threw the seven Dark Dragon Balls to Mable. Mable smiled devilishly and put the few Dark Dragon Balls into her dimensional space.

“Then everyone, we should think about how to devour that new world.”

“Such a large world should contain a lot of energy...”

“According to the old rules, each of us will take one fifth.”

Some of the people laughed darkly and bared their bloody fangs at Acceleration World.

Among the five people present, whether it was Dark Dragon God Pulred, or General Carlyle, Demon God Race, MTV, silver hair man, green skin old man, none of them were simple. They might not be a match for a level ten dimensional god if they fought alone, but together, they were not small forces.

In their eyes, Acceleration World was already an item in their pocket and could not run away.

The power that these people formed was called the zeroth universe, which was called Universe 0. In fact, it had nothing to do with the ranking of Zeno World and the Red King World.

Universe 0 was a non-existent universe. Their existence was very hidden and they had been secretly absorbing the negative energy of various worlds. They would only occasionally appear when the entire universe entered the cycle of reincarnation.

Of course, their existence was an open secret in the Angel Race. When Whis first entered Muiyang's Acceleration World, he had great expectations for him. In fact, it was because of the factors of Universe 0.

On the surface, Universe 0 seemed to be attached to the vicinity of the entire universe, absorbing the dark power from the inside. At the critical moment, it gave a fatal blow, as if it was specialized in going against the entire universe. In fact, this was only because the entire universe was the easiest to deal with among the few worlds in the current Macro World world. If a persimmon wanted to pick up a soft pinch, compared to the Red King World and the Sky King World, because Zeno was not mature, it would be easier to conquer.

Now that there was a new world like Acceleration World, Universe 0 also began to change targets.

The secret meeting did not last long. The five people set the plan, and MUYANG did not know about all the plans targeted at Acceleration World. As the meeting ended, other than the Dragon God Pulred, the others turned into a wisp of smoke and disappeared.

The Dragon God, Pulred, sat in the conference room for a long time. Then, he stood up with a sneer on his face.

The white jade-like palace moved in the deep and strange world. A white light flashed, and the mysterious palace disappeared into thin air.

The stability of the three-star system began to collapse after the disappearance of the white jade palace. It was like the end of the world. Three fiery red planets fell together under the traction of gravity after losing their fulcrum. The deep black sea rolled and monstrous waves rolled. The loud bang shook the entire narrow space.

Finally, everything returned to silence, and the entire space began to collapse.

At this moment, a young figure appeared in the space that was about to collapse. Supreme Kai of Time, Chronoa, scanned the surroundings in confusion. She frowned and vaguely felt something in the timeline.

Time began to rewind, but when the phantom of the white jade palace appeared in front of her eyes, it seemed to be hindered by something. Chronoa's body suddenly shook, and the time reversal collapsed.

The unconvinced Chronoa straightened her face and activated all her abilities in an instant.

Her slender body grew crazily in an instant. The body of the loli changed to the shape of a young girl. Her orange hair began to grow longer and soon reached her waist. At the same time, the divine robe on her body also changed. The blue top and trousers turned golden, and the outer divine robe turned pure and flawless white. The edge of the divine robe was inlaid with golden stripes, looking holy and elegant.

The royal sister of Chronoa officially appeared and let out a cold and sacred growl.

“Time Rewind!”

Chronoa looked elegant and graceful as he stared at the void. After a while, he gritted his teeth and said, “Universe

Chapter 628

There were as many experts as the clouds in the Red King God Realm. This was something that MUYANG had experienced deeply after entering the God Realm.

MUYANG, Melia, and the others passed through the lush and verdant forest. What greeted their eyes was a majestic and lofty city. Many strange and artistic buildings stood on the ground like stars, carrying an ancient and powerful aura.

Melia walked on the main road of the city in surprise. He detected pedestrians passing by, and each of them exuded a powerful aura.

“Amazing. If these people were really in the lower realm, they would all be as strong as Super Saiyans.”

Super Saiyans all had at least a hundred million power level.

The ordinary people of the God Realm were all so powerful. It was no wonder that their foundations were so deep. According to what Priest Frange had said, the Red King God Realm had 36 priests and 36 God of Destruction. These were the genuine gods on the surface. In addition, there were also some experts who had trained to the God Level on their own.

From the scene in front of him, the strength of the Red King God Realm was more than a level higher than the entire universe.

“Other than the lives born in the God Realm, many of the experts here are from the lower universe. Any expert who has stepped into the Half-God Level must abide by the rules and enter the God Realm. Because of this rule, over time, the number of experts in the God Realm will increase.”

Even if the lower universe produced a Half-God Level in several hundred million years, it could not hold up to the number of lower universes. It was not a problem to send over a hundred and eighty Half-God Level in a hundred million years. Other than some Half-God Level who died because of their lifespan and the battle origin, there would be a lot more left. After a long time and a long period of time, the Red King God Realm finally had its current scale.

Muyang led Melia and the others on the spacious road, curiously looking at the scenery on both sides.

“Do you think this planet is very similar to our Planet Wudao? When Acceleration World develops in the future, maybe it will also have such a scale.” Melis smiled and looked around.

Muyang was stunned for a moment and said with a smile, “Don’t say it’s quite similar.”

The core of the Red King God Realm was this area covered in golden auspicious clouds. Above the auspicious clouds was the current blue planet. Moreover, according to Muyang’s senses after entering the God Realm, the Red King’s palace was suspended in the sky above the Red God Planet. This arrangement and distribution was exactly the same as Acceleration World’s.

The only difference was the size of the scale.

Perhaps, his Acceleration World should learn from the Red King World and change his name to the “God Mu World”.

Let’s go to a place with more people.

Muyang relaxed in his heart. He walked forward with Melia and the other girls while talking and laughing. April held onto Gaia’s hand as if they were a family of people shopping with their daughters.

This place is simply a paradise for the strong. Perhaps if I stay here for a while longer, my strength will truly reach the level of a God

In the God Realm where there were as many experts as there were clouds and Super Saiyans as numerous as dogs, even the proud Melia had to touch her chest and sigh with emotion. She could be

considered an expert, but here, she could only be considered a somewhat powerful expert. She was definitely not at the top.

“The Legendary Super Saiyan.” In essence, she was closer to the Orc. With her crazy personality, she might be able to fight to a draw with the other God Level experts. However, although this transformation was powerful, its shortcomings were also very obvious. It was that the foundation was insufficient, and she could gain an advantage in a battle. As the battle continued, the gap between her and the real God Level experts would gradually widen.

This was a problem that any Super Saiyan had.

However, after entering the God Realm, Melia felt different. She breathed in the mysterious aura that permeated the air, and all the pores on her body opened up, faintly feeling that she was improving.

“The rules here are indeed different from the rest of the universe. It has a clear effect on the strong in the path of power.”

There is no need to think too much about the realm. By relying on the blood energy in his body to become stronger, the path of power is much rougher. There is a feeling of being decisive and forceful.

But no matter which path it is, it is the same when it reaches the top. Whether it is the path of realm, the path of power, or even the path of order that Muyang is not familiar with, when it reaches the tenth dimension, it begins to return to unity. For example, the king is in charge of the rules. Speaking of which, Zeno World is mainly realm, but when it comes to Zeno, it seems that the grasp of the power of rules is more, and the realm is not much higher. For example, Supreme Kai of Time, Chronoa. She can be considered to be in charge of order, but her realm is also extremely high.

If there were more advanced level eleven dimensions, then it must be a breakthrough in realms, strength, rules, and many other aspects.

To be honest, Muyang preserved his learning attitude and carefully observed the characteristics of the Red King God Realm.

In the world he knew, the Red King God Realm was the most similar to Acceleration World. It could be said that it was carved from the same mold. Although Zeno World also had palaces on the Jellyfish Star and the Jellyfish Star, because the Jellyfish Star was too precious, it was not as developed as Planet Wudao and the Red Divine Planet.

After traveling for a while, he benefited a lot and seemed to have found the road to the future development of Acceleration World (God Mu World).

Unknowingly, a month had passed.

On this day, Muyang and Melia were gathered in front of a stage, watching the match on the stage with interest. On the stage, there were two experts at the peak of the Half-God Level fighting.

The surrounding crowd surged, and the surroundings of the stage were filled with people.

On the stage, the two people fighting were surging with energy, their afterimages flickering, and from time to time, they would emit exciting battles that would cause people to cheer. Even in the God Realm where space was severely restricted, they could still unleash terrifying might.

“Sometimes, watching other battles of this level can also increase my experience.” Muyang looked at him with a faint smile.

“They are truly at the Half-God Level. They are much more powerful than me.” Melia blinked her eyes. Her clear, green eyes flashed with light. This month, Melia naturally benefited greatly. In the God Realm that was suitable for training, her physical combat strength was gradually catching up with her transformation ability.

She was reducing the strength gap between her transformation and her normal state.

This was the stage that Muyang had experienced dozens of years ago.

Rubbing Melia’s head, Muyang had a smile on his face. His eyes inadvertently looked into the crowd, but he saw a figure that surprised him.

Golden eyes, orange long hair that reached his waist, a graceful figure. He wore a golden top and a pure white robe on the outside. There were golden stripes on the edges, looking holy and elegant. This person was Supreme Kai of Time, Chronoa. Moreover, he was the mature version of Supreme Kai who displayed the goddess style.

“Lord Chronoa” Muyang exclaimed in surprise.

“Shh!” Chronoa raised his finger and made a soft gesture.

“Why have you come to the Red King God Realm?” Muyang asked in a low voice.

Chronoa said, “They’re not from the Dark Demon Realm yet. Recently, they have been too active. The members of the time and space patrol team under me are so busy that they don’t even have a holiday. Hmph, this must be because of the involvement of Universe 0. Don’t think that I don’t know.”

Chronoa complained, “I came to ask the Red King for help. I just happened to see you here, so I came to tell you. Your private world has been promoted to the level of a Major Universe, and it might have fallen into the sight of Universe 0. Those guys have been everywhere, you have to be careful.”

“Who is Universe 0?” Muyang asked with a serious expression.

“Those people are the villains led by the Dark Dragon God, Pulred. They have been secretly devouring the energy of the world. Compared to them, the Dark Demon Realm and the Kai Mechikabura, are simply child’s play. Recently, I discovered their little tricks, but I can’t catch their tails.”

“I was angry when I talked about the Dark Dragon God, Pulred. Ever since the Dragon God, Zalama, disappeared, he was the one who danced the most

happily. This time, Mechikabura was actually looking for the Dark Dragon Ball in different dimensions. It must be his masterpiece.”

Chapter 629

Dark Dragon God Pulred?

The Dark Dragon Ball!

Muyang caught a few key words from Chronoa’s words. These were things he did not know in his previous life. As he crossed the entire universe, some unknown information became more and more.

At this moment, Chronoa’s gaze fell on Gaia. A trace of surprise flashed on his face as he muttered, “Dragon God”

“No, it’s different from Zalama’s aura.”

Chronoa’s eyes lit up as she cast a time reversal on Gaia, and her memories of Gaia automatically appeared in her mind.

The cute girl’s image turned into blue jelly, and then turned into a spiritual body emitting blue light – on a huge Super Dragon Ball, threads of blue spiritual body seeped out of the Super Dragon Ball, and then condensed into a ball of jelly-like jelly.

This was the process of Gaia’s birth.

“Lord Chronoa, do you know where Gaia came from?” Back then, when the Grand Minister saw Gaia, he only came to the conclusion that Gaia was a dragon soul. He specifically asked him to ask Supreme Kai of Time, Chronoa. Muyang had gone to Planet Ampera to look for her when he destroyed Zamasu of the Universe 4. In the past, there was no other Gaia.

At the same time, he came to the conclusion that Gaia was also unique in the time and space.

Supreme Kai was stunned for a moment, and a smile appeared on her fair face. “The little fellow around you is not the usual one. It seems that he is still the administrator of your private world. If she is there, don’t worry about Dark Dragon God.”

When Muyang heard this, his face was even more puzzled. With Gaia here, there was no need to worry about the Dark Dragon God and the others?

What did this mean? Did Gaia have any ability to restrain the Dark Dragon God?

From the name, the Dark Dragon God, Pulred, should not be much inferior to the Dragon God, Zalama. Gaia was really becoming more and more mysterious. However, seeing the faint smile on Chronoa’s face, he did not seem to have any intention of revealing the specific information.

His palm stroked the silver blue hair of Gaia and gently picked her up. Gaia tilted her cute face, only to see a confused look in her eyes.

Chronoa said, “Let’s put the matter of this little fellow aside for now. I came to find you for a reason. Accompany me to see the Red King. Your world has been formed and you are qualified to participate in the meeting of the highest level.”

“Okay.”

Muyang nodded.

As a powerhouse of Level 9 Dimension, Muyang was only lacking the last bit of accumulation compared to the Red King. Therefore, when Chronoa asked him to meet the Red King, Muyang did not show any signs of stage fright except for an accident.

“Melia, you guys walk around here first. I will come with Chronoa soon.”

Melia and April were also women who understood the severity of the situation. When they heard this, they nodded gently and gestured to them. Muyang and Supreme Kai of Time slowly walked out of the crowd. In the blink of an eye, they disappeared from everyone’s sight.

The surrounding scenery changed and a dazzling light flashed. When his vision recovered, Muyang found himself standing in front of a glorious palace.

The green mountains were of a variety of colors. The blue water rippled, the auspicious air was dense, and the multicolored light spread. The glorious palace that had existed since ancient times was antique and decorated with carved railings and jade buildings. It was filled with a distant, natural, and tranquil temperament. At this time, the door of the palace suddenly opened and a red figure walked out of the door.

It was a beautiful woman with red hair.

Segari was elegant and refined, and any words used to describe beauty could be used on this woman.

Her hair that was as red as blood naturally hung down, and her crimson red eyes were like a clear bay that rippled slightly.

“Segari, welcome to the two of you. Lord Red King has been waiting in the inner hall for a long time.” The beautiful woman in the red divine robe invited Muyang and Chronoa into the palace.

Chronoa said, “She is the Grand Minister of the Red King World, Segarii, an archangellevel expert. She is responsible for managing the daily affairs of the Red King World.”

Muyang nodded slightly. The identity of this person in front of him was like that of a Grand Minister in the entire universe. It was also the same as the identity of Gaia in Acceleration World.

After walking along the long winding corridor for a while, they stopped in a small courtyard. It was like a small bridge in a garden courtyard with flowing water and silk bamboo in the ears. The air was filled with a refreshing fragrance.

“Chronoa, long time no see.” A woman with flax-colored hair sat in a pavilion in the courtyard, sipping a cup of black tea in her hand.

“Red King.” A smile appeared on Chronoa’s fair face.

“Hello, young posterior.”

“Hello.” MUYANG greeted politely, then looked at the Red King gracefully and politely.

“This is the Red King, the master of the Red King World!”

Unlike Zeno, the appearance of Zeno was hard to describe, and the Red King had a beauty that left a deep impression on him the first time they met. In terms of temperament, even if it was Vados or Melia, they lacked a detached and refined feeling.

As expected of a powerhouse of the tenth dimension, he was essentially different from ordinary people.

“Tell me, you won’t come to me if there is nothing.”

“Aye, I came to ask you for help. Recently, those people have been too much. I don’t have enough people under me. Help me a little.” Chronoa sat beside the Red King and casually brewed a cup of hot tea for himself.

The Red King glanced at Chronoa, “Do you still lack people?”

Chronoa straightened his face and said, “My staff will also be on holiday.”

“I didn’t expect you to be a good boss.”

“Yes, Aye. Help me with a few people. A few dozen is enough. I will think of a way to deal with the rest.” Chronoa had her own plans. She wanted to expand the scale of the Time Patrol. She wanted to get dozens of people from the Red King and dozens of people from the Space King. Zeno could also get some people.

“Your Time Patrol team is a lucrative job. If you openly recruit people, you can fill a city.”

“You also need to choose carefully. You have a lot of elites here.” Chronoa smiled faintly.

Only then did MUYANG know that Supreme Kai of Time had come to see the Red King. It turned out that he wanted to expand the scale of Time Nest and the Time Patrols.

Speaking of which, he was also a member of the Time Patrols, but he had only been in name for a long time and had not participated in specific work.

Entering the Time Patrols was a lucrative job. At least he could get the reward of Supreme Kai at that time and reach an agreement on the timeline to prevent future trouble from being killed by the space-time users in the past.

After thinking for a while, MUYANG said, “How about I have a few people here too?”

“Your world has just developed... but that’s fine too. The Time Patrol team is actually not in any danger. If you join, you can enjoy the benefits. However, not everyone can join the Time Patrol team. You must be an elite. I will give you ten

spots. In addition, I, Red King, have twenty spots here. The Sky King and Zeno also have twenty spots.”

“After these spots are selected, they will have to be divided into groups when they arrive in the Time Nest. Yes, they will form ten teams.”

Chapter 630

Red King raised her eyebrows. “I haven’t promised you yet, and I’m already thinking about the next selection?”

Chronoa said, “This is an opportunity for the elites. Besides, isn’t protecting the stability of time and space also reducing your trouble?”

“My strength is enough to suppress the timeline. I’m not afraid of the instability of time and space.”

“What about the universe below you? There are too many parallel dimensions. It’s troublesome to manage it, isn’t it?” Chronoa said.

“Alright, I’ll give you 20 people.” The Red King thought for a moment and agreed.

“Then the selection will be held four months later. The people I want must be elites.” “Alright, let’s leave the rest to Segari. You will lead the people four months later. In advance, don’t think of taking away all the God of Destruction experts here.”

“Got it.”

After that, he discussed the matter of selecting the members of the Time Patrol team with Angel Segari. It was rare for Muiyang to participate. Only then did he know that apart from expanding the Time Nest, Chronoa also wanted to capture the Dark Demon Realm and Universe 10 in one fell swoop.

The expansion of the Time Patrol team involved many things. Just the early selection alone required a series of planning. The team made by Chronoa did not say it explicitly. Perhaps the next step of the test would be after the Time Nest.

Speaking of the members of the space-time patrol team, Muiyang thought of the two little guys, Pitou and Noether. At that time, their strength was probably a little stronger than Super Saiyan 3, but they definitely had not reached the complete realm of Super Saiyan God. From the talents that Supreme Kai recruited this time, each and every one of them was not simple.

From the Red King God World, the members were at least at the Half-God Level, and there would even be other experts, God of Destruction Level.

“I also have ten spots in my hands now. When the time comes, we have to distribute them well.”

There was nothing to lose by joining the Time Patrol. Even from the perspective of obtaining space-time energy, it was still a great profit. Not only could it eliminate the hidden dangers in the timeline,

but it could also greatly strengthen the strength of an individual. If Melia and the others knew about it, they would definitely be very happy.

After leaving the palace where the Red King lived, MUYANG wandered around the God Realm alone and soon found Melia and the others.

Upon seeing this, MUYANG couldn't help but laugh. What an impatient fellow. Melia and Melis had actually turned into the appearance of Melissa in the arena competition, and her opponent was an expert who had broken through to God Level.

“Melissa won't be able to hold on for long!” MUYANG's gentle voice rang in April's ear.

Feeling the itch in her ear, April shrank her neck and said angrily, “Brother!”

MUYANG laughed out loud, stopping April's slender waist.

“The combat experience of an expert from the Red King God Realm is much richer than that of Melissa. Even if Melissa's energy is better than her opponent, in a battle where strength is the most important, Melissa won't be able to gain any advantage at all.”

There were benefits to paying attention to the realm. In a battle, one could raise two to five role in fearless battle. And the path of strength also had its own excellence. Pure violence, strength beyond the limits of the physical body. The fist and fist collided, and the solid collision was also its beauty.

Sure enough, the result of the battle was as MUYANG predicted. In the end, Melissa's opponent was a level higher. After a fierce battle, Melissa regretfully fell out of the arena.

“Are you saying that we also have a chance to join Time Patrol team?”

“Yes, I have 10 spots in my hands. Of course, we are still Universe 7's people. We can also grab the 20 spots in the entire universe.” MUYANG smiled. In the end, his Acceleration World was still lacking in foundation and had not cultivated an expert that truly belonged to Acceleration World.

Melissa's eyes lit up. “The entire universe will hold a large-scale martial arts competition?”

MUYANG nodded. “Under this influence, it should be possible. Chronoa has already decided to place the 20 spots belonging to the entire universe in Universe 3, which is the time and space we are in. After Zeno and the Grand Minister received the notice, they should begin to hold a selection competition. It can be considered an alternative ‘Tournament of Power’.”

Reasonably speaking, Zeno had been looking forward to a large-scale competition for a long time. A few months ago, when the Zeno asked MUYANG if he had any suggestions for the competition after the big competition between Universe 6 and Universe 7, MUYANG said that he wanted to think about it. Wasn't a formal competition right in front of him?

The selection of the Time Patrol team was enough to make Zeno excited for a while.

“When is the specific time?”

“Four months later.”

“Brother, we will represent Universe 7 to fight. You should keep the places in your hands for now.” April was very intelligent. Based on their relationship with Muyang, they could use Acceleration World’s spot to enter. However, April and Melissa were proud people, so they naturally had to fight for such status.

Muyang looked at them with a smile. He knew what they meant. There was no point in staying in the God Realm anymore, so they returned to the GT World together.

After telling Muqiu and the others about the selection, everyone looked very interested.

“Finally, we have to go all out.”

“All of us will participate. We will definitely sweep through the later stages of the selection.”

Of course, Muyang had yet to tell them that he had ten spots that represented Acceleration World in his hands.

Yes, after they returned, they would have to make Acceleration World’s uniform and divine equipment. At that time, they would not lose face in the light of the Time Nest.

“I really envy you guys. You can participate in such an intense competition.” Son Goku looked at Muqiu and the others with a face full of envy.

“That’s right, in fact, you can also participate in the selection. This time, the Red King God World also has 20 spots. If you enter the God Realm and win the spots, then you will be a member of the space-time patrol. At that time, it will be easy to stay in the lower universe!”

“Really? You can stay on Earth if you enter the Time Patrol?”

“Of course, the God Realm will definitely give you this bit of face. Even if you can’t, you can stay in the nest of time in the future and return to Earth often.”

“Aiya, I’m burning up my fighting spirit.” Son Goku was excited, and his eyes were burning with flames.

“There are still four months left. If I hurry up, I might be able to break through. Super Saiyan 5. Just thinking about it makes me excited.” Compared to the other races in the universe, the talent of Saiyan might not be much, but their transformation ability made many races lose their luster.

Breaking through before the battle was what Son Goku and Vegeta were best at. Now, there were four months left. It was not impossible to reach Super Saiyan 5 by using the spiritual time house. Even if they did not reach Super Saiyan 5, it should not be a problem to advance to the peak of Half-God Level.

If that was the case, it was really possible to snatch two out of the twenty spots.

“Vegeta, let’s go to the Hyperbolic Time Chamber to cultivate for a few years before entering the God Realm. This time, I am willing to give up.”

“Kakarot, I think so too.”

This rare sense of urgency reminded them of the day before the battle of Planet Namek, as well as the time before the Cell Game...
