

## **Ball God 651**

### Chapter 651

There were only five minutes until the end of the competition, and there were only ten and five contestants left on the arena.

So far, there were three people left in Universe 1 – one of them was Kayim, who was still fighting with April. The battle between the two lasted for a long time, and there was still no winner.

Universe 2, Universe 3, Universe 4 had all been wiped out.

There were two more people in Universe 5, one of whom was fighting against Super Android 18 and splitting, and the other was fighting with Melissa. Only Kale was left in Universe 6, and although he had not been eliminated, he did not get much points. Universe 7 had the most people left. Son Goku, Super Android 18, Melissa, April, Broly, and the others were still alive. Vegeta and Shasley were defeated by Universe 12 not long ago. Muqiu, Amelia, Android 17 had also been defeated by the strong.

There were only two people left in Universe 8, and they were both relatively powerful masters. Next, Universe 9 and Universe 10 were wiped out, and Universe 11 still had Toppo and Jiren, and there were still two left in Universe 12.

These 15 players were undoubtedly very powerful, and most of them had the strength of God of Destruction Level.

In the remaining time, they would fight for the final score.

Time slowly passed, and the match was about to end.

When the Grand Minister noticed the last grain of sand in the hourglass, he loudly announced, “The match is over. All participants, stop attacking.”

With the Grand Minister’s announcement, the six Angels around the arena waved their Angel staff at the same time. A brilliant energy rose into the air and acted on the entire arena. The arena seemed to be locked up, and all the energy disappeared.

April was fighting against Kayim from Universe 1. Suddenly, her body became sluggish, as if she was wrapped in wet cloth. The energy that was released turned into a crystal flash and disappeared.

Son Goku was fighting to his heart’s content. He had just struck out a Thunder Shock Surprise, but the energy disappeared in the next moment. Son Goku looked at his hands in surprise, unable to use the slightest bit of energy.

“This is the end of the competition!”

All the battles came to an abrupt end.

Broly silently looked at his opponent. After a long time, he turned and walked towards Universe 7’s resting area.

“Wait a minute.” Jiren’s voice came from behind him.

Broly turned to look at him. Jiren said, “You are very strong. I hope that the next time I meet you, I can finish the competition.”

“No problem.” Broly raised his hand.

“... “

Jiren’s dark eyes looked at the back of Broly. The arm hidden behind his back was constantly shaking. He had already lost consciousness. If not for the whistle at the end of the match, he would have lost this match.

“Universe 7, Broly, he is an expert who surpasses me.”

...

“Lord Zeno, what do you think of this competition?” The Grand Minister asked the four Zenos in the palace, his gentle voice making people feel as if they were bathing in the spring breeze.

The four Zenos raised their hands together, making cheerful sounds like children.

“Great!”

“It’s shiny. Every battle is very exciting. This kind of competition is very interesting. It will be held frequently in the future.”

The Grand Minister nodded and looked at Muyang. Muyang responded with a bright smile. Then, according to the statistics of the Angels, the Grand Minister selected the 20 contestants who had the most points.

“Next, I will announce the contestants who have the most points in the competition. Because there is a situation of mutual destruction in the competition, the two sides who perish together will each get one point. After the statistics, the 20 people who have the top points have already come out. But before that, we need to resurrect all the contestants.”

After the Grand Minister finished speaking, he raised his palm and hundreds of colorful lights shot out from his palm. The halo erected behind him flashed simultaneously. If the rules were reversed, all the people who died in the competition would be resurrected.

“Ah, I am resurrected.”

“I seemed to have slept just now. My head was empty.”

“Has the competition ended?”

Then, with the reminder of his companions, the resurrected players knew that the Zeno Tournament had ended. Under the leadership of the God of Destruction and Supreme Kai of various universes, everyone returned to their own camp and listened to the Grand Minister’s instructions.

Looking at the situation below with satisfaction, the Grand Minister said majestically, “The top 20 contestants for this competition are: Melissa, Kayim, April, Hit, Broly, Jiren, Amons, Muqiu, Oupu, Amelia, Lasuli, Lapis, Son Goku, Vegeta, Jiren, Toppo, Frieza, Maji-Kayo, Obuni, Kale.”

“All above will obtain a spot to enter the ‘Time Nest’.”

According to the score, the top 20 were listed. Other than the people who were lucky to be on the stage, many of them had already been eliminated, such as Hit, Frieza, Muqiu and others.

When the God of Destruction Beerus heard the list of people announced by the Grand Minister, he could not help but feel relieved.

“According to the agreement before the competition, all the universes that obtain the quota will be rewarded by Lord Zeno. As for the specific rewards, please ask the God of Destruction and Supreme Kai of their respective universes to go to Zeno Palace later to receive them.”

“Of course, those universes that have not obtained a single quota will have a limited time period for inspection. Please work hard. If you fail to pass the inspection, you will be punished by Lord Zeno. At that time, whether you want to clean up the universe or replace the God of Destruction, I don’t know.”

Universes 12 competed for 20 quotas. In fact, on average, each universe should have one. Those universes that were completely wiped out could only be said to be in an unqualified state.

The Grand Minister’s warning was definitely not without reason. His words made all the gods break out in cold sweat.

Especially Universe 4. At this time, Quitela had already panicked.

Champa swallowed his saliva and said happily, “Fortunately, both Kale and Hit of our universe have been selected.”

Lord Beerus said, “It’s all thanks to Son Goku and the others.”

This time, Universe 7 could be said to have made a name for himself in one battle. He actually occupied half of the troops. This made Beerus show his face in the crowd of destructive gods. He had a feeling of exaltation.

After everything was announced, the Grand Minister looked at the Zeno and Muiyang. Zeno stood up and said, “Well, that’s it then. The rest of you have to work hard. This competition is very interesting. I still have to hold it in the future. It depends on your performance.”

“Yes, Lord Zeno.”

When some people heard this, their faces couldn’t help but turn bitter.

Because this competition was for the selection of people for the Time Nest, Zeno didn’t make things difficult for these universes. However, if the next competition was held again, it would not be so easy to pass. There was no lack of cleaning up a part of the universe.

However, no matter how helpless they were, the will of Lord Zeno was not something they could reverse. They could only accept the order with a bitter face.

“Now, please return to your respective universes and destroy the gods and Supreme Kai. Zeno will reward you. In addition, those who have obtained a spot in the ‘nest of time’, please be prepared. In the near future, someone will bring you to the nest of time...”

After the Grand Minister finished speaking, he waved his arm and the magical power moved everyone out of the world of nothingness.

When they opened their eyes, they found that they had returned to their respective universes.

Chapter 652

Universe 7, God of Destruction Planet.

“Uh... We’re already back?” Son Goku and the others had already returned to their own universe. They looked around but did not find Beerus, Muiyang, and the others.

“What a pity. I haven’t defeated my opponent yet?” Son Goku mumbled.

Melissa smiled. “Muiyang and the others should still be at Zeno’s place.”

“I wonder what rewards Zeno will give to the victorious universe?”

“Wow, we don’t care about that. I just want to know where the ‘nest of time’ is.” Frieza wagged his tail. He didn’t care about anything, but he was more interested in the Time Nest.

Vegeta frowned. “You actually got a spot.”

Although he was not very familiar with Frieza, the aura of sin emanating from him made him very uncomfortable. Perhaps the Saiyans were born to clash with Frieza, and the two of them disliked each other.

“That’s because we killed enough people. Sometimes, killing is the best choice.” Frieza licked his lips and was a little proud. In terms of the number of people killed in the competition, he was almost the same as Shtt. It was because of his ruthlessness to the enemy that he got enough points.

Melissa frowned and said coldly, “If you go to the Time Nest with this attitude, you better restrain yourself. Otherwise, you won’t even know how you died.”

“Oh, it seems that Miss Melissa knows some things about the ‘Time Nest’. Can you tell us?”

For Melissa, Frieza was polite, and his attitude was very cautious.

The person who killed him back then, Melissa had also contributed, but Frieza did not dare to have the idea of revenge. In addition, the other party was Muiyang’s wife and was strong. Even if he provoked the God of Destruction, Frieza would not want to provoke Melissa.

“I don’t know much about the ‘Time Nest’. It is the territory of Supreme Kai of Time, Chronoa. It is independent of the timeline. Anyone who joins the ‘Time

Nest' will get a reward from Chronoa and get the ability of time... Well, if the members of the Time Patrol team maintain the stability of the space-time, their work is to go to other space-time to clean up the people who disturb the time..."

Melissa roughly explained what she knew.

"It looks sacred to maintain the stability of space-time." Son Goku did not understand.

"I am more concerned about the matter of time ability... Hehe, that is, we can kill people openly, we like it very much." Frieza's eyes lit up, and under his sinister expression, no one knew what he was up to.

April warned, "Supreme Kai of Time is a god not inferior to Zeno, put away your little thoughts."

"What a pity!"

Frieza shrugged his shoulders. He knew his own level. For the time being, Zeno Level was not something he could spy on. As a Half-God, he could not even defeat the God of Destruction, Beerus.

When the others heard about the benefits of joining the space-time patrol team, they were all envious. This time, Universe 7 had obtained a total of 10 spots, including Melissa. His results were quite good.

"Unfortunately, we did not have the chance to enter the 'Time Nest'."

Lazuli shook her head regretfully.

Android 18 had already obtained a spot, but only she, the real one, had not obtained a spot. She immediately felt a sense of defeat.

Seeing this, April placed her fair and delicate hand on her niece's shoulder. "It doesn't matter if you don't get it. To tell you the truth, other than the 20 spots from Zeno World, our Acceleration World also has 10 spots. There will definitely be you."

"Really? I can get it too?"

"Of course..." For her niece and daughter-in-law, April naturally loved her dearly.

"So we still have ten spots here. Then it will be easy."

"We all have a chance."

After everyone knew that Muyang still had a spot in his hands, they suddenly relaxed. In their opinion, the journey to the Time Nest had already been cleared.

Then, the topic of their chat changed to the competition that had just happened.

Son Goku asked his daughter curiously, "Hongye, what was the transformation you underwent with Elek during the competition?"

Son Hongye said, "That state was called Super Saiyan 4."

After Son Goku heard this, his eyes flashed with curiosity. He said with interest, “What is Super Saiyan 4? Quick, tell me...”

Hence, Son Hongye told him about what he had seen and heard in the other world. When he learned that he had transformed into Super Saiyan 4 with the Giant Ape Transformation and Super Saiyan transformation in the other world, Son Goku’s eyes lit up.

“So that’s how it is. There is such an interesting thing. I really want to fight them!”

“Dad, you don’t have to worry. The Dad of the other world is also fighting for the spot to enter the ‘Time Nest’. Maybe you will meet soon.”

“Hahaha, that would be for the best. I definitely won’t lose to him.”

“I’m also very interested in the other world’s Kakarot.” When Vegeta found out that Son Goku and Vegeta were also fighting for the chance to join the space-time patrol, he immediately emitted a strong fighting spirit.

At this moment, a light appeared in God of Destruction Planet. The God of Destruction Beerus and Supreme Kai Shin returned. At the same time, Muyang also returned with Gaia.

“Lord Beerus, what rewards does Lord Zeno have for Universe 7?”

The God of Destruction, Beerus, was in a very good mood. He laughed and said, “Hahaha... All the universes that have obtained spots will receive an additional quarter of the God of Destruction energy and a quarter of Supreme Kai energy. Overall, the level of the universe is equivalent to an upgrade. Moreover, because Universe 7’s performance was particularly outstanding, Lord Grand Minister gave us an extra chance to be exempted.”

“In other words, the next time we hold Zeno Tournament, Universe 7 can choose to participate or not participate.”

This was equivalent to getting a chance to avoid punishment. What was more worth being happy about than having one more life?

If Universe 7’s experts were strong enough, Beerus would not mind participating in the competition, but if there were not many experts, then he should not go and embarrass himself.

The one who suffered the most in this competition was Universe 4. Because of the poor results, Universe 4 was heavily named by the Grand Minister, destroying the ban on Quitela for a million years. If his performance was not good next time, his position as God of Destruction would be changed.

Thinking of the terrible expression on Quitela’s face when he received the punishment, Beerus felt as if he had drunk iced soda, and his whole body was comfortable.

“By the way, how are we going to distribute the ten spots here?”

“What quota?” The God of Destruction, Beerus, asked doubtfully.

Muyang told him about Acceleration World's quota.

The God of Destruction, Beerus, was stunned after hearing that. He had an envious look on his face. "So you've already obtained the qualifications. Then why are you still participating in Zeno Tournament? But as expected of Lord Grand Supreme Kai, you did well!"

In other words, it didn't matter if Melissa or April didn't participate in the competition this time. Their participation could be considered as snatching the spots of other universes.

In the eyes of the God of Destruction Beerus, the matter of harming others and benefiting oneself was too great.

Muyang rolled his eyes and looked at Son Hongye, Lazuli, and the others beside him. He already had an idea of the next candidate.

### Chapter 653

From the fact that there were only 20 spots in the entire universe, it could be seen that the spots to enter the Time Nest were extremely precious. Muyang only had 10 spots in his hands, so he naturally had to be extremely cautious about the selection of people.

Apart from Melissa, April, and the others who had already obtained the spots, there were still Mutian and Lazuli who did not have a spot among Muyang's younger generation.

Therefore, two of them had to be given to them. Other than that, Son Goten, Son Hongye, Majin Buu, and Shasley could also give them a spot. In addition to that, the 10 spots were quickly distributed.

As he calculated the candidates he had chosen, Muyang thought for a moment and said, "Mutian, Hongye, Goten, Lazuli, Elek, Cell, Shasley, Millif, Alex, Majin Buu, I gave you this 10 quota. There may be a selection after we arrive at the Time Nest. You will have to rely on yourselves then."

Entering the Time Nest basically meant joining the Time Patrol team, but it was still uncertain which team it would be assigned to.

"En, we will perform well when the time comes."

"I didn't expect that we would also have a chance to enter the Time Nest. I wonder what kind of place it is?"

"It must be very mysterious."

"You can go to other space-time in the future."

The announcement of the remaining ten places caused a burst of cheers to ring out in the crowd. Seeing that his wife and son were among the candidates, a smile appeared on his hard face.

Even the God of Destruction, Beerus, had a look of envy on his face. "Tsk, it makes me want to join too."

Although the members of the Time Patrol team were not as noble as the God of Destruction, they represented different meanings. At least, they did not need to worry about being wiped out at any time.

Whis glanced at Lord Beerus. "If you want, you can mention it to Lord Zeno."

Lord Beerus hurriedly shook his head. "I don't dare. I will be cleaned up."

Old Supreme Kai said, "Universe 7 can enter so many people. He will take care of them when he gets there."

"Speaking of which, that Supreme Kai of Time is also Supreme Kai. How can his power be so powerful?" East Supreme Kai was puzzled.

Old Supreme Kai slapped East Supreme Kai on the head and scolded him in panic, "You have to call him Lord Chronoa. Lord Supreme Kai of Time is not comparable to ordinary Supreme Kai."

They were both Supreme Kai's titles, but the meaning of the Supreme Kai of Time was no small matter. The East Supreme Kai and Old Supreme Kai were the powers created by the Universe Power of Creation in Zeno World. Although the Supreme Kai of Time had the name of Supreme Kai, she was equal to Zeno. It represented time. Her countless clones were nobler than ordinary Supreme Kai.

The East Supreme Kai rubbed the parts of his body that had been hit and did not dare to express dissatisfaction with Old Supreme Kai. He admitted his mistake in a wronged manner, "I'm sorry, ancestor. I know I was wrong."

"In the future, when you speak, remember a little. You can't say anything casually."

"Yes."

Son Goku looked at the Old Supreme Kai reprimanding him. He himself did not care about the matters of the God side. He was more concerned about when he could head to the Time Nest. "I wonder when the messenger of Supreme Kai of Time will come to pick us up? If it takes too long, Chi-Chi and Bulma will be worried."

Muyang said, "Soon. The candidates of the other worlds are also being selected at the same time. It should be completed in the next few days. Mable will let Whis inform you. You can rest assured and prepare here."

Son Goku nodded. Whis had a way to contact Bulma. He told her that he was going to stay with God of Destruction Planet for a period of time, and Son Goku put down a burden.

Looking at Broly, Son Goku was refreshed. "Broly, I want to challenge you."

When Broly heard that Son Goku wanted to challenge him, a confident smile appeared on his simple face. "Come at me. You are no match for me."

"I will only know after I fight. I have a new discovery in this competition. I feel that I will soon break through."

"Well, let's find a remote place to compete."

After saying that, Broly's body flashed and disappeared from his sight in the blink of an eye.

Son Goku smiled and moved in an instant. Soon, a terrible energy rose from the other end of God of Destruction Planet. Whis saw the energy of Son Goku and Broly fighting. He nodded slightly and turned the angel staff to limit the range of damage to a certain range.

“Kakarot, that guy, actually made a breakthrough again!”

Vegeta’s face changed. He had just caught up with Son Goku and he had a breakthrough in his back foot. This feeling of chasing after him was quite uncomfortable.

Muyang glanced at Vegeta. “You can ask Whis for advice. He should be able to continue transforming after the Super Saiyan Blue.”

Vegeta sighed when he heard this. Other than continuing to work hard there was no other way. Vegeta was a proud person. He would not admit defeat so easily.

“Whis, please guide me.”

“Of course there is no problem. Everyone, come together. In the future, Universe 7 will have to rely on you to maintain him.” Whis smiled and readily agreed.

Seeing that Whis was leading the others to train, Muyang couldn’t help but nod. Perhaps in a short while, Vegeta would be able to further develop the power of the Super Saiyan Blue into a dark blue form.

The Dark Blue Saiyans definitely had the strength to rival the primary God of Destruction.

Although he didn’t advocate the transformation in his heart, to the Saiyans, apart from the transformation, they had no other effective means of becoming stronger.

Before transforming, Son Goku and the others could not even reach the strength of a Half-God. Compared to the other powerhouses in the entire universe, it felt like they had a heavy head and a foot. Muyang did not comment on this.

“Dad, Sister Kale also got a spot this time. Unfortunately, Sister Caulifla has been eliminated.” Mutian said with some regret.

“You really hope that Caulifla will get a spot?”

“Of course. I’m so close to Sister Caulifla,” Mutian said, embarrassed.

Muyang stroked Mutian’s head. “Next time, I don’t have a spot in my hands anymore.”

“Yes.” Mutian was a child, but he knew how precious the spots for the Time Nest were.

...

Universe 6.

Champa returned to God of Destruction Planet with a happy face. Looking at the vast grassland that rippled like the sea around him, he suddenly felt like he had just survived a disaster.

“Kale, Hit, thanks to you, our Universe 6 has also been praised by the Grand Minister.”

Universe 6 had also received the Grand Minister’s reward. That quarter of the destructive power was enough to save Champa many years of bitter training. When he thought of the miserable faces of the God of Destruction who had not received the reward, Champa stuck out his chest.

Caulifla had a look of annoyance. “My score is just a little bit off. It’s the same as opening up.”

Kale was very lucky to be selected. Because Caulifla moved with Kale, her score was actually not much different. However, in the end, she was stuck at the threshold, but she missed the opportunity because her ranking was lower.

Kale was a little embarrassed. “How about, sister, you go on behalf of me.”

Champa was shocked and hurriedly stopped him. “Please don’t. You will implicate the entire sixth universe by doing this.”

Vados fiercely said, “Lord Zeno will not allow such a thing to happen.”

Kale rubbed and pinched her as he looked at Caulifla.

Caulifla waved her hand and said angrily, “No need. I don’t like that spot. I just feel a little unwilling.”

“Really?”

“Of course.”

Her cold face curved into a smile. Caulifla looked like a little girl. Her smile was very light, but it was like the spring wind blowing on her face, giving people a very comfortable feeling.

Chapter 654

Several families were happy and several families were worried. The universe that had been rewarded by the Grand Minister was naturally filled with laughter. Its prospects were vast, and the universe that had been punished was not so peaceful.

Universe 4.

The cave-like palace hall was filled with a cold and gloomy aura. With a bang, God of Destruction Quitela angrily threw a flower pot to the ground. His bloodshot eyes coldly glanced at the group of people kneeling in front of him.

“Trash, you actually didn’t even get a spot. It caused me to lose face in front of Lord Zeno.”

“Lord Quitela, we are useless.” Ganos half-knelt on the ground.

A cold killing intent flashed across Quitela’s face. “Even a mere Universe 7 can’t compare. What’s the use of keeping you?” A ball of purple energy condensed in his hand. Countless rays of light revolved around the purple energy ball.

“Destroy!”

A cold voice came out of his mouth. Quitela released the God of Destruction energy toward Ganos. Ganos did not think that his God of Destruction would turn hostile so easily. He did not even have the chance to resist. There was a stunned expression on his face. His whole body turned into fragments and disappeared.

The God of Destruction was a group of moody masters. He was cold and ruthless and did not recognize people. He easily destroyed planets and lives. He had no humanity at all.

“Humph!” The God of Destruction, Quitela, sat down on his seat. The warriors below were silent and no one dared to make a sound.

Looking at the people kneeling down below, Quitela pulled a long face. His eyes suddenly became sharp, and an invisible pressure instantly made people feel cold. He said, “The death of Ganos is a warning. If you make me lose face again in the future, all of you will report to the Other-World.”

“Understood.”

“Thank you for the grace of not killing Lord Quitela.”

The remaining nine players said, trembling.

“All of you, get out of here!” Quitela shouted angrily.

They hurriedly ran out of the palace in panic. When they went out, they found that their backs were wet. They knew that it was difficult to serve God. It was a pity that Captain Ganos was killed by Lord Quitela.

“Cognac, you go out as well,” Said Quitela to his Angel.

Middle-aged Angel, Cognac, looked at the God of Destruction he was serving and shook his head before walking out.

When he was the only one left in the palace, his hysterical roar rang out once more. Damn it, why did Lord Beerus have to be rewarded by the Grand Minister? He is clearly just a piece of trash... I can't accept being grounded for a million years!

“Mr. Quitela seems to be very angry.”

A cold voice sounded, and two figures suddenly appeared in the cave palace hall.

Quitela's face turned cold, and he released a pressure. “Who are you?”

“Let me introduce myself. My name is Mechikabura. This is my subordinate, Towa...” The one who spoke was an old man. He was not tall, and his old forehead was full of wrinkles. Beside him was a beautiful and enchanting woman. At this time, she was bowing slightly to Quitela.

“Mechikabura? I seem to have heard of this name somewhere...”

Quitela calms down and regains the composure of the God of Destruction.

“Does Mr. Quitela want to take revenge on the God of Destruction Beerus? I can help you.” The Demon Supreme Mechikabura said.

Kui Tela sneered, “Your strength is no match for the God of Destruction. How can you take revenge for me?”

Mechikabura said, “I am naturally not a match for the God of Destruction Beerus now, but what if it is in the past? To be honest, I have the ability to travel through time. It is easy to find the God of Destruction Beerus in a weak hour.”

“You can travel through time?”

If it was the previous God of Destruction, Quitela, he probably wouldn't believe that someone could travel through time with their own strength. However, after knowing the news about the Time Nest, he already believed it.

“Of course, the person in front of you is the Demon Supreme Kai, Lady Mechikabura. Time is a piece of paper that will be broken with a single stab, and it won't form a parallel space at all. In other words, as long as you kill the God of Destruction Beerus in the past, then Beerus in this world will also die.”

“Crossing time is against the rules of the gods.” Quitela's expression was gloomy and uncertain.

“I don't need Mr. Quitela to help me. As long as you give me a token and ask you to help me find something, I can help you get rid of the God of Destruction, Beerus.”

“Let me think about it.”

Quitela was silent for a long time. As a God of Destruction, he knew the consequences of breaking the rules, but if he only helped to find something, he was a little tempted.

Quitela asked, “What do you want me to help you find?”

Mechikabura and Towaa looked at each other and smiled. Mechikabura, “A Dragon Ball with black stars imprinted on it. It is probably in Universe 7 or Universe 6.”

“I understand.”

A hint of determination appeared on his face. A purple glass ball condensed in his hand. “Give it to me in the past. He will cooperate with you.”

“Don't forget to help me kill the past Beerus.”

“Of course. I guarantee that you will be satisfied.” After putting away God of Destruction Quitela worries, a smile appeared on Mechikabura's old face. A hint of viciousness flashed through his eyes, but it quickly disappeared. It was as if he had never appeared before. He laughed and turned to leave.

“Wait for my good news!”

Looking at the disappearing Mechikabura and Towaa, Quitela looked at the ceiling with a gloomy face and muttered, "This is just to teach Beerus a lesson."

"But what is the Dragon Pearl of the black star that Mechikabura asked me to find? Forget it, I will do it anyway. It has nothing to do with me."

In Quitela's impression, once someone crossed time and space, the mechanism of the entire universe would automatically form a parallel world. In another world, there would also be the God of Destruction Quitela and God of Destruction Beerus. What happened there would not affect his side, so he just needed to reap the benefits.

Although he did not know how the Demon Kai Mechikabura, would suppress such a mechanism, it seemed that it had nothing to do with him. He only gave a token.

However, Quitela did not know that Mechikabura's space-time method was the greatest damage to the entire universe. Once the past space-time was greatly different from the present space-time, then the light time would be reduced to ashes, and the heavy would cause the two space-time to disappear together.

This was also the reason why the Time Nest constantly sent out Time Patrols.

...

Three days passed peacefully.

Son Goku and the others were waiting for news from the Time Nest.

On this day, a meteor suddenly fell from the sky. A faint golden light lit up in a corner of God of Destruction Planet. The bright color illuminated the sky. Son Goku and the others were shocked. They knew that the messenger of the Time Nest had come.

"The messenger is here. Let's go over and take a look." Muiyang opened his eyes from meditation.

Whis confirmed it and said, "It is on the east side of gods planet. It is only more than 100 kilometers away from here."

Chapter 655

"Goku, all of you go over immediately. Don't let the messengers of the Time Nest wait for too long."

Let Son Goku and the others fly towards the area where the starlight landed, while Muiyang himself slowly followed behind them, not seeming to be in a hurry at all.

The distance of a hundred kilometers was in the blink of an eye for Son Goku and the others. Son Gokug and the others were extremely fast. They passed through the vast forest and arrived at the place where the messengers of the Time Nest landed in a few seconds.

In a dense forest, the straight trees were arranged like guards. A girl in a red windbreaker flew in the air. The person was not very tall. Her black hair was tied into a ponytail and a brown tail was wrapped around her waist.

"Noether!!"

When Melissa saw the other person's appearance, she immediately recognized that the other person was the member of the Time Patrol that she had met thirty years ago – Noether.

After so many years, the other party still looked like a little girl, and time had not left a trace on her.

Noether narrowed his eyes, his two eyes curved into the shape of crescent moons. "Sister Melissa, long time no see."

"I didn't expect that you would be the one who landed on Universe 7."

Noether said, "The Time Nest is lacking in manpower. Other than the members who normally carry out missions, I am the only one who is relatively free. Lord Chronoa said that we can receive people from Acceleration World here, so I came over."

"Mom, do you know her?" Amelia looked at Noether curiously.

"I met her a long time ago. She was a member of the Time Patrol."

Vegeta was sizing her up when he came to Noether. When he noticed the tail coiled around her waist, a light flashed in his eyes, and the corners of his mouth curled up slightly. "This girl is also a Saiyan."

In other dimensions, Saiyans might not be rare.

At this time, Muiyang, Whis, and the God of Destruction Beerus arrived. When Noether saw them, a smile appeared on his fair face. "Hello, Mr. Muiyang. We will be bringing everyone to the nest later, so please be prepared."

Muiyang smiled and said, "I've already prepared it. I can go at any time. By the way, aren't the people from the other universes going to take it over as well?"

Noether shook his head. "I'm only in charge of your place. The other universes will have others in charge."

"Everyone, please follow me to the Time Nest."

"Alright."

"Mm." Noether nodded. She took out a card from her pocket and threw it on the ground, forming a cube that was five meters long. "Everyone, come in. It will take about half an hour to get to the Time Nest from here. Follow me closely later. Do not leave this cube area."

When everyone heard this, more than twenty people entered the cube. Fortunately, this cube was big enough, and it did not feel crowded at all after entering.

"Whis, we will go first." Muiyang waved at Whis.

"Have a safe journey."

Whis nodded and looked at them with a smile.

A clear voice. "Let's go!"

Noether controlled the cube to cross the barrier of the universe. Along with a golden light, the huge cube turned into a stream of light and entered a seven-colored space-time tunnel from God of Destruction Planet.

This kind of tunnel was very similar to the tunnel that Whis used when he teleported. It was a bit similar to a wormhole. Inside, there were sparkling and resplendent specks of light, like star fragments, but in fact, it was different. Whis' Wrap was a space teleportation, and Noether was not only using the space ability, but also the time ability.

The Time Nest was located in the "Macro World". Like Acceleration World, it was located in a very hidden place. There was no special opening method and no one could enter.

Apart from Muiyang who had observed the Macro World when Acceleration World leveled up, the rest of the people present had no experience of crossing the Macro World. For a moment, they blinked their eyes in surprise and looked around. Every dot of light in the seven-colored passage was a projection of the past.

"From now on, we have entered the space-time channel. We will reach the Time Nest in about twenty minutes."

"Wow, what a strange space." Frieza stood with his hands crossed over his chest and stretched out a finger to touch the scenery outside.

"Don't touch anything outside. We are now crossing the timeline. Any extra movement will cause a turbulence in the entire time and space. If you are careless, you will easily fall into it and not get out."

Nort warned softly, scaring Frieza into putting away his finger and standing there awkwardly.

Because the Time Nest was outside the timeline, it was not convenient to travel.

Time flew by, and dozens of minutes passed.

Noether blinked. "Alright, we're here."

The seven-colored space suddenly disappeared as if it had teleported. Muiyang and the others arrived at a dark night scene. The sky was dark, like a curtain adorned with diamonds. Between the specks of starlight, a huge garden object floated there.

The outer layer of the garden was covered with a transparent protective layer. It was like a small world with forests and palaces.

"That is the Time Nest."

"Let's go down now."

Noether controlled the cube to get close to the garden. When he got closer, he found that the garden was actually very large. Although it was not as large as the God of Destruction Planet that Beerus had, it was not inferior to Grand Kai's Planet. After all, in addition to Supreme Kai of Time, there were also members of the Time Patrol.

Entering the protective layer of the garden, Noether led everyone to descend to the side of a group of buildings.

“This is the place where the Time Patrols rest and work. Everyone can follow me in to take a look. When all the people are here, we will go to meet Lord Chronoa.”

Son Goku glanced around curiously. He saw members of the Time Patrol team in red uniforms coming and going. These members were very busy. Each one of them held a scroll and entered a special transmission array. Then they were teleported away.

Noether introduced, “All the members who have accepted the mission will be sent to their destination as long as they take the mission scroll.”

“So that’s how it is. This is quite convenient.”

Muyang had been a member of the Time Patrol for many years, but it was also his first time entering the Time Nest. Therefore, he was very curious about the operation of this place. To be honest, with his current status as Acceleration World’s master, it was no longer suitable for him to carry out the mission.

This time, in addition to strolling around the Time Nest, there was also the intention of escorting Maylia and the others. After all, there were people in the court who were easy to handle. Muyang had no reason to let Melissa and the others suffer.

Then, under the leadership of Noether t, Muyang and the others began to tour Time Nest and understand its operations.

The entire Time Nest was neither big nor small. It could be said to be complete. From the mission hall to the transmission hall and to the space-time monitoring center, the division of labor was clear and orderly. This was a model that had been passed down for many years.

In the distance, there was a library for people to look up information. When all the members were resting, they could choose to return to their own world except to enter the library. As long as they rushed back in time when they were out of the mission.

Son Goku and the others wandered around the Time Nest while Noether went go back and submit the mission.

“You can settle down here or walk around. Many places in the Time Nest are open to you. Oh right, there is an independent small building in the middle of the palace. That is where Lord Chronoa is resting. You should not go near to avoid disturbing Lord Chronoa.”

Noether tilted his head and specially reminded.

Son Goku and the others nodded. They did not want to offend the mysterious Supreme Kai of Time. Even the bold Fossa was not interested in asking for trouble.

After agreeing to meet here the next day, Noether returned very easily to submit the task.

“Melissa, arrange the rest of the time yourself. Where do you want to go?”

“I’ll go take a look at the missions in the mission hall.”

“I want to go to the library to look up information.” April said.

After that, the few of them split up and started to wander around the Time Nest according to their joy. April directly went to the library.

The library in the Time Nest had a rich collection of books, and it was almost possible to find books of various eras. As a scholar, April immediately threw herself into the ocean of books. After carefully choosing a few books, she picked up a pile of books and walked towards the reading area in the corner.

Before she sat down, she saw a familiar figure. The other person also saw her, and the two of them were immediately stunned.

“Why are you here?”

Chapter 656

“Why are you here?”

When April saw the person who appeared in front of her, she was so shocked that she almost jumped up. The books in her hands were scattered all over the ground, and her blue eyes were filled with disbelief.

The person had brown hair, a fair and pretty face, and an exaggerated pair of glasses on the bridge of his nose. He looked very intellectual. She was the Android 21 that she had met before.

Android 21 was also very surprised to see April. She did not expect to meet someone familiar here. “April, why are you here?”

“This is what I want to ask you, Android 21.” April looked at her with a strange expression. She crouched down and picked up the fallen books.

Android 21 was slightly surprised. She chuckled and helped April organize the books. “I am now a librarian here. At the same time, I am a space-time observer. It can be considered a civilian job.”

“When did it happen?”

After a moment of surprise, she calmed down. April sat next to Android 21 and asked.

The Time Nest was not a place that ordinary people could enter. It was hard for her to believe that Android 21 could be here.

Android 21 smiled brightly, showing her skillful ability to talk. “Not long after I arrived, I was already monitored by the Time Patrols. After the Evil Android 21 was killed by Muyang, I wandered in the universe and was soon found by the Time Patrols...”

After listening to the whole process, April sighed what happened to Android 21. It happened not long after Muyang broke through to the level of an Angel.

It had only been more than a year.

At that time, because of the pursuit of Evil Android 21, Android 21 sent a letter to Muiyang with a “figurine”. Muiyang, who had received the news, directly opened a space tunnel and rushed over. Muiyang had told April about this matter, but she did not know that Android 21 met the Time Patrol.

April looked at Android 21, who looked exactly like her, with a frown and a smile. “Are you joining the Time Nest?”

Android 21 smiled and said, “You can put it that way.”

“By the way, this thing is no longer needed. I’ll return it to you.” Android 21 flipped over his body and took out a miniature crystal figurine from somewhere. It was shaped like a majin in the form of Android 21.

The Time Nest had its own way of communication. This figurine was no longer useful. Moreover, it felt strange to have it with him.

“You can keep it as a souvenir.”

“I’m a little embarrassed to bring it with me.” Android 21 smiled slightly.

“Uh...” April looked at the uniquely designed figurine. She felt strange in her heart. She rolled her eyes and thought to herself, How could Muiyang make such a model on the communication device?

The two of them had been together for a period of time. They understood each other very well. As they chatted about their own experiences, several hours passed without them noticing. There was no difference between day and night in the Time Nest. The outside world was always pitch-black with no light to be seen. When it was close to afternoon, Android 21 stood up and locked the library.

“Do you want to take a look at where I live?”

Android 21 sent out an invitation. April nodded and happily agreed. The two of them left the library and headed for Android 21’s residence.

The residence of Android 21 was not far from the library. As a space-time observer of the Time Nest, Android 21 was considered a civilian staff, so he needed to stay in the Time Nest for a long time. Unlike other members, who could have other residences in other worlds.

After staying in Android 21’s room for a while, the two of them joined hands with Muiyang and the others. When the others saw Android 21, they were all shocked.

“There are actually two mothers...” Mutian rubbed his eyes in surprise.

“I am not your mother.” Android 21 adjusted his glasses.

“This is Android 21 from another world.”

Muiyang greeted Android 21 with a smile and then introduced him to everyone.

“It wasn’t Mom!” Mutian said.

“Android 21, is she also a Android?” Android 18 looked at Android 21, and his bright eyes lit up.

“You can treat her as another April.”

“Yes.” Android 18 nodded and then looked at Android 21’s face. This Android 21 looked exactly the same as Aunt April. She just didn’t know how her power was.

After that, the few of them became familiar with each other. Since Android 21 had entered the Time Nest earlier, she would be the one to introduce the situation of the Time Nest to everyone.

“Android 21, do you know how Supreme Kai of Time is going to divide the people selected? ” April asked.

Android 21 drank a mouthful of water and a quiet voice rang out, “According to the previous rules, each group should have no less than three people and set up a team leader. Of course, according to the strength of the group, the number of people in the group will be adjusted.”

“Recently, the space and time around is not very stable, so there are more missions. This is also the reason why Lord Chronoa has increased the number of people...”

After the introduction, everyone roughly knew the situation of the Time Nest.

They also knew that the current manpower of the Time Patrols was in a predicament.

Muyang keenly caught a bit of information from Android 21’s words. He guessed that the increase in space-time events might have something to do with Demon Supreme Kai. Perhaps there were also factors related to the Dark Dragon God. All of these were related to the Black Star Dragon Ball. In short, it was not a good thing.

Muyang thought that he should leave some methods to protect Meissa and the others.

“You are all elites selected from the entire universe. Maybe you will assign tasks separately.”

“Anyway, no matter what task it is, it is right to meet many experts.” Son Goku clapped his hands.

“That’s right.”

“There is nothing that can be difficult for us.”

Everyone laughed. They were filled with the future days. Frieza sat on the side and looked outside with a cruel smile on his cold face from time to time.

The next day, the Time Nest operated normally.

Within the protective layer, the weather was clear and the light was bright, forming a sharp contrast with the darkness outside.

The Time Nest was constantly moving rapidly in the dark space. Even if someone invaded the periphery of the Time Nest, it would be impossible to break in.

At this time, the broad field of the time nest became lively. The messengers sent to other universes brought the selected members to the time nest. Jiren, Toppo and others all arrived. Son Goku saw them and greeted them. At this time, all the people of the universe and Acceleration World were here.

Just as everyone gathered together and chatted from all over the world, another group of people appeared. As soon as they appeared, dozens of powerful auras rushed over.

Son Goku and the others changed their expressions, and their faces became serious.

“So strong. I haven’t felt such a domineering aura for a long time.”

“Who are these people?”

Whether it was Son Goku or Jiren, their bodies all trembled, and then a strong desire to fight arose.

In the whole universe, after advancing to the Half-God Level, the aura would change and hide. Except for a few people like Melissa and Broly who walked the path of strength, the aura would be revealed, but it was only in battle, not like this group of people who appeared now.

The aura was like a flood and ferocious beast, which could not be taught.

Chapter 657

“They are from the Red King World...” A faint smile appeared at the corner of his mouth. Muiyang swept his gaze over the twenty people. With a glance, he could see through their origins. The Red King World advocated the path of strength. The more powerful a person was, the stronger their aura would be.

The auras of the dozens of people in front of him lingered. With a glance, one could tell that they were not ordinary people. There were even some who had reached the level of a God of Destruction.

It seemed that the selection of the Red King World was also very intense. The people chosen were all experts.

“Kakarot, look!” Vegeta seemed to have seen something. His expression suddenly changed, and he pointed to the two people in the crowd and shouted.

“Huh?” Son Goku looked in the direction he pointed. His eyes flashed with a light. There were two familiar figures in the crowd of the Red King World. They were covered in red hair and black hair. The majestic energy rolled as if it was solid.

Super Saiyan 4!

Son Hongye and Elek have used all their power in the Zeno Martial Arts Competition.

“It’s us from another world,” Son Goku said solemnly.

“They really did pass the test.” Muyang chuckled, wondering if they had activated the Super Saiyan 5 form.

In the other world, Son Goku and Vegeta displayed the Super Saiyan 4 form. Although it was slightly different from Son Hongye and the others, they could still recognize it at a glance.

At this time, the two of them also looked over. With a flash of illusory lightning, a gust of wind blew, and the Super Saiyan 4 Son Goku and Vegeta arrived in front of Son Goku and the others.

“You guys are the two of us from another world, right? We can’t tell how strong or weak you are at all. Let’s have a match when we are free.” Son Goku was very straightforward.

Son Goku agreed very readily. “Sure, I’ll be waiting for you at any time.”

“Two more damned monkeys came.”

Freiza’s piercing voice rang out.

“Freiza...” Super Saiyan 4 Vegeta frowned and looked at Freiza with disdain. “Such a weak guy can actually come to the Time Nest. In my world, he is just a guy who can be crushed to death at will.”

Freiza’s face turned cold. “Vegeta, say it again!”

Super Saiyan 4 Vegeta shook his head and ignored him. When the Super Android 17 incident happened in his world, because Dr. Gero opened the passage between the Other-World and the World of Living, many demons in the hell returned to the World of Living. Freiza was one of them, but he was instantly killed.

For Freiza, who he had once regarded as a great enemy when he was young, Vegeta believed that he had the power to kill his opponent instantly.

A mere Freiza was nothing to worry about.

What really caught his attention was the people around Son Goku, especially the big man in red tights (Jiren). His strength was unfathomable.

“Son Goku, have you ever sent out a Super Saiyan 5?” Muyang asked with a smile.

In an instant, Son Goku and Vegeta perked up their ears. Although they were walking on the path of the divine realm, they also wanted to know if there was another path for the traditional Super Saiyan transformation.

Son Goku grinned with some pride. “Thanks to Mr. Muyang’s reminder, we have developed it.”

In order to reach the level of Super Saiyan 5, they had gone through arduous training. Not only had they worked hard in the Hyperbolic Time Chamber for a few years, but after entering the Red King God World, they had also challenged experts non-stop. Only then did they have the strength to advance by leaps and bounds.

“Quick, show us.”

“Alright.” The Super Saiyan 4 Son Goku agreed readily.

After calming down, the muscles all over his body tightened. With a loud shout, a ball of energy that seemed to be burning like flames spread out. Son Gokug and the others were all intimidated by Son Goku’s aura. After a gust of wind, silvery-white lightning appeared, and his body suddenly grew taller. His state was like Super Saiyan 3, but all the hair on his body turned from red to silvery-white.

His hair also turned silvery-white.

“Everyone, this is Super Saiyan 5!”

Son Goku, who was standing proudly, looked ferocious.

Freiza was intimidated by the power of beyond 5. He took a few steps back and said with a gloomy face, “A mere Saiyan is actually so much stronger than us!”

“So that’s how it is. It looks very similar to Super Saiyan 3, but the difference in energy is like heaven and earth. I don’t understand how such a powerful energy can be withstood by a mere mortal.”

Super Saiyan 5 Son Goku did not have a super body like Broly, nor was he a Super Saiyan God like Muqiu. However, he was able to resist the power of Super Saiyan 5. He was truly a freak. It could be seen that the Saiyan in the Red King World and the Saiyan in the entire universe were fundamentally different. The Saiyan in the Red King World was more brutal, more ferocious, and more overbearing.

Son Goku stared at his other self without blinking. “This power is already above that of the Super Saiyans Blue. If I can stabilize the state of the Super Saiyans Blue Evolution Form, I might be able to fight.”

Vegeta suffered a great blow. “Does the other me also have such a powerful power?”

In a rough comparison, an ordinary Super Saiyan 4 was equivalent to a Super Saiyan Red, a red-haired Super Saiyan 4 corresponded to a Super Saiyan Blue, and a Super Saiyan 5 was comparable to an ordinary God of Destruction.

The strength of Vegeta had not yet reached the strength of the Super Saiyan Blue Evolution, which meant that he could not compare to the self of another world. This was something that he could not accept.

However, it was no wonder that Vegeta in the Red King World had trained for more than ten years than him in the Zeno World. Even if he had not completely erupted in the early stage, his foundation had accumulated bit by bit.

Super Saiyan 5 Son Goku released his transformation state and returned to Super Saiyan 4. His eyebrows were somewhat tired. “I’m not familiar with this state yet. I can’t transform for too long.”

Muyang nodded, “After all it’s a mortal body. That’s understandable.”

The next few people started chatting and laughing. Perhaps it was because the system was different, the experts of the entire universe couldn’t get along with the experts of the Red King World. Other

than Son Goku, the others were separated by a distance. It was only when the 20 people from the Legendary Sky King World arrived that the Supreme Kai of Time appeared.

“Muyang.”

Chronoa nodded at Muyang as soon as he appeared. Muyang responded and took Gaia far away. What followed next was Chronoa’s time.

There were a total of 70 people who entered the Time Nest this time. If they were divided into groups, they could be divided into twenty or thirty groups and solve the problem of manpower to a greater extent.

Muyang brought Gaia far away and leaned against the wall of a building. He watched as Chronoa, who was displaying the goddess form, gave time to everyone.

This was something that Muyang had experienced before. After obtaining the power of time, even if he really jumped out of the timeline, he would become the only individual in the future. No one would be able to kill them in the past. This was the benefit of becoming a member of the Time Patrol. After all, the person they had to deal with was Supreme Kai and the others who had disturbed the space-time. Their own safety was extremely important.

However, Melissa was formed from the fusion of Melia and Melis. This time, they used a spot to enter the Time Nest. It was unknown if it would affect them.

Looking at Chronoa and the others accepting the power of Chronoa with a smile, Muyang stood at the side leisurely. Android 21 said, “I heard that your world is developing very well now?”

“Yes, I’ll visit him when I’m free.”

“I don’t have time. I’m busy. Let’s talk about it later.” Android 21 looked at Gaia and stroked her soft hair. “I wanted to ask you for a long time. Who is this little guy?”

“My name is Gaia...” Gaia blinked her golden eyes.

Android 21 looked at “Him” and smiled. Looking closely, it seemed that there was something special about her and Melissa.

Soon, the gift from Chronoa was over, and then there was a group. High-level powerhouses could be in a group alone, but in order to take care of each other, basically two people were in a group. Because Muyang was sending a message halfway, Melissa and April were divided into groups. Muqiu was in a group with Lazuli, Android 18, Amelia was in a group with Lapis, Kale, Mutian, Fat Buu...

Considering the different attributes of strength, the people in the Red King World were separated from the people in the Zeno World.

Chapter 658

Having been given the power of time by Chronoa, Melissa and the others seemed to have been reborn. Their thoughts became clearer. They looked at their past as if they were watching a movie. Every detail was clearly visible. Even some things that they had forgotten were clearly revealed.

This feeling of looking at their past from the perspective of a third party was very novel.

The magical feeling only ended after the time energy had completely fused into their bodies.

“En.” Melissa let out a clear sound. She opened her bright golden eyes. Grass green energy lingered around her, and she was like a fairy floating in the air. Her bright eyes were pleasing to the eye, filled with infinite beauty.

She looked around and found that the others had already woken up, and she was the last to wake up.

Chronoa’s eyes passed over and she looked at her with a smile. “The past of Melissa is more complicated, so it consumed more time energy. In the future, when the fusion is over, I have to familiarize myself with the power again.”

Knowing that her state had been seen by the other party, she looked at Chronoa with embarrassment.

“Sister, how do you feel?” April laughed.

Melissa recalled her feelings just now and smiled. “I feel great. No one can hurt me in the past now.”

Only after becoming a member of the Time Patrol team would they discover that the most fatal attack was not from the present but from the past. Even if the current attack caused serious injuries or death, it could be revived with the dragon bead. Only when the past was wiped out would it be true death. Even the dragon bead could not be resurrected.

Fortunately, they did not have this hidden danger now.

“Everyone, continue to familiarize yourselves with the time energy. Next, there will be an old man from the Time Patrol team to guide you in the trial. Please master the skills that the members of the Time Patrol team need as soon as possible. Five days later, the mission will begin. It can be regarded as the first test for you.”

Chronoa combed her waist-length hair, and her ethereal figure suddenly disappeared.

After Chronoa disappeared, the seventy elite powerhouses from different worlds finally recovered from their shock and began to study time energy in high spirits.

Muyang and Android 21 walked over and took away the people they knew. Android 21 was a Time Observer of Time Nest. Although he was a civilian staff member, his strength was not weak. With her guidance, he could integrate into the status of the members of the space-time patrol faster.

Android 21 said, “The main task of the Time Patrol is to alleviate and solve the strange mutation that happened in the past and maintain the overall stability. The cause of the space-time mutation may be random, or someone deliberately did it. Our job is to correct this.”

“Of course, because we have the power of the space-time seal on Lord Chronoa during the mission, we don’t have to limit our power. But remember, when you carry out the mission, you should try to avoid unnecessary interference in the past world. Otherwise, the consequences will be very serious.”

The seal of space-time could cover a certain period of time in the past to a certain extent. At this time, the people of the Time Nest could deal with the problem. However, if what happened in the air during the seal was too different from the original history, then even with the power of sometimes Supreme Kai, there would be big problems.

Everyone nodded and remembered these things in their hearts.

Time passed, and soon five days passed.

On this day, the sun was shining brightly and the weather was clear. The Time Nest had good weather all year round.

Under the lead of the young female clone of Chronoa, the new members of the Time Patrol changed into a unified red trench coat and came to the mission hall to receive their tasks. The huge platform was about a meter high, and there were scrolls piled up like a small mountain. Each scroll represented a task point. Even if there were new members joining, it would take an unknown number of youths to complete these tasks.

Muyang and Gaia came in together to take a look. When they saw the mountain of scrolls, they were stunned and asked, “Why is there so much?”

Supreme Kai of Time said somewhat helplessly, “So I am also very annoyed. There are so many tasks, I have no choice! The space and time outside are giving birth to new small worlds at every moment. In addition, some lawbreakers randomly disturb the space and time, which has increased my workload a lot.”

“Those who invented the time machine and randomly shuttled through space and time should be arrested.” Supreme Kai of Time puffed up her cheeks, her hands on her hips, and she was furious.

“... “

Son Goku and Vegeta smiled awkwardly.

Touching the back of his head, he thought that both Bulma, who seemed to have invented the Time Machine, and Trunks, who crossed time and space, had committed crimes. However, they were trying to save their own world, so they should be understood.

Supreme Kai, who was in the form of a child, was very childish and couldn't take his words seriously.

“Hey, you guys go pick your own missions. After choosing the scroll, go to the Teleportation Hall. Only by completing the mission on time can you become official members of the Time Patrol team...”

He casually pointed to the platform that was like a small mountain. Supreme Kai let everyone go to receive the mission, but he himself sat on the stairs. He took out a small tablet in his hand, which recorded the remaining number of missions.

The young face was a little distressed.

65327!

This was the number on the top.

“You’ve accumulated quite a lot of things.”

“Take your time. The Teleportation Hall will send people to the designated time. It doesn’t matter if you delay for a while.” Supreme Kai pouted like a child.

“By the way, where is your main body?” Muiyang asked.

“I went to suppress the timeline. Nothing special happened. My main body is in a deep sleep.”

Muiyang nodded. This meant that Chronoa was quite tired. In order to maintain the operation of the Time Nest, he was constantly paying attention to everything happening inside the space and time.

After a long while, Maylia and April picked up a scroll and walked over. The mission was to save a planet that might be destroyed because of a sudden incident.

This was a small mission, and it was not difficult.

“Father, take a look at this mission...” After Broly opened the scroll, his face turned serious.

[Mission description: In ancient times, the bestial Saiyan leader ‘Ellipmont’ led a large army to attack the planet Sadala. Evolved Saiyan base camp, ‘Karamdo’ from Universe 6 rescued across the universe, the two sides fought fiercely in the Universe 7, but the natural vision, ‘Ellipmont’ being possessed by an evil power, the strength is greatly increased, and the Universe 6 reinforcement is unable to resist and is in a desperate situation.]

[Mission Requirement: Return to the ancient era and rescue.]

Muiyang looked at the mission with a serious face, and his thoughts drifted to the moment when he fought with the ancient Saiyan on Planet Sala.

Ancient Feiyan’s Chief Felix said that “Ellipmont” was Legendary Super Saiyan. In the days when he was with Angel, Muiyang learned about that history—the two Saiyans had mutual evils, because the battle across the universe led to Zeno. The dissatisfaction, the double heads were also cleared by Zeno.

At the beginning of the battle, “Ellipmont” was attached to the external power, and the strength passed the Universe 6 reinforcement. It is reasonable to say that Zeno of the time period should have not noticed what happened to Universe 7.

“Father, what do you think?”

“This mission is more challenging. The other party is the legendary Super Saiyan. You can take the mission and pay attention to your safety, especially to avoid Zeno.”

“Yes.” Broly nodded. Even if he had the power to destroy gods, he would not be able to fight back against Zeno. However, what interested him was the ancient Saiyan called “Ellipmont”.

The Legendary Super Saiyan, I wonder how strong he is!

“Be careful.” April also reminded.

The other party’s strength was not ordinary after all, so he could not let his guard down.

Broly smiled and entered the teleportation hall with his teammates.

Chapter 659

For the Saiyan people, the work of the Time Patrol was a kind of exercise, and it was also a dream experience, so that the Saiyan people who could not find enough opponents had the opportunity to enjoy the battle to their heart’s content.

Broly is looking forward to the ancient Legendary Super Saiyan “Ellipmont”.

Similarly, Son Goku and Vegeta also rubbed their hands and rubbed their heads in the mountain-like mission scroll... The reason why they valued this was because of the hidden fighting desire of the Saiyan people in their bodies.

“Kakarot, look at this, the mission to eliminate the demon...”

“There’s also this. There was an unknown modification 10,000 years ago. It looks very good.”

“Let’s choose this one.” Shasley thought for a moment and pointed to the mission 10,000 years ago.

“Okay, we will go over now.”

“Remember to say that each of us will have an attack meeting. Don’t think about destroying the enemy by ourselves.” Vegeta especially reminded Son Goku sincerely. Son Goku hurriedly nodded. “Got it. Let’s go quickly.”

The three of them argued with each other and walked towards the mission hall with scrolls.

Behind the three of them, Frieza wagged his tail and looked at them coldly. Cell frowned and walked over. He, who was in the same group as Frieza, had received orders from Muyang to monitor Frieza.

“Don’t look anymore. Hurry up and choose the mission.”

Frieza chuckled and politely picked up a few scrolls. He glanced at them and threw them down with disdain. “We are not interested in such a small mission.”

“Frieza, don’t cause trouble.” Cell’s handsome face darkened.

Frieza waved his hand and asked Cell to choose.

Cell stared at Frieza for a while and dug out a scroll.

[Mission Description: ‘Multiverse No.1 time and space, Royal Calendar 3.1 Billion 35.5 Million 587 126, Planet Namek fight has been seriously changed, evil Frieza accidentally won Dark Power, so that the strength is greatly increased, Super Saiyan Son Goku should have defeated it, but he was seriously injured and unable to continue, and the time and space trajectory was seriously deviated.]

[Quest Requirement: Return to the battlefield of Planet Namek, defeat Evil Frieza, and retrieve the source of the power of darkness to ensure the normal operation of the historical trajectory.]

Frieza read the contents of the scroll word by word. His deep cold eyes flashed with cold light. He asked calmly, "What does this mission mean? We will be defeated by Super Saiyan Son Goku?"

There was a deep anger hidden in his voice.

Cell laughed happily. "Hahaha, this is the past of my world. According to the records, you in that world will indeed be defeated by Son Goku who turned into a Super Saiyan for the first time. After that, Planet Namek will disintegrate. Because of your terrifying physical fitness, you survived the impact of the planet explosion by accident..."

"After that, the body was changed into a mechanical body by King Cold and joined King Cold to invade the earth more than a year later. The warriors on the earth spent a lot of effort to drag Son Goku to arrive, and at the end of the day, they destroyed you all in one go."

The world where Cell was born did not have the so-called Trunks transmigration. The death of the Freiza and his father was all thanks to the Dragon Ball Warriors.

After hearing this, Freiza put on a smile that did not smile. Thick killing intent flashed through his deep eyes. There was resentment towards Son Goku and the others, as well as dissatisfaction towards his own parallel space in the past.

"That trash was actually defeated by a mere Primary Super Saiyan. This is not us!"

He was defeated by Muiyang that day because the other party really had terrifying methods. Freiza was convinced. Moreover, now that Muiyang was in a high position, the resentment in his heart could only be buried.

Now that he heard of his tragic encounter in another world, he couldn't help but feel unhappy.

"How about this mission?"

"Wow, just in time. We want to see the self of another world and see if he is qualified to be the overlord of the universe."

Frankly speaking, after being resurrected, Feiza had already lost interest in the position of the overlord of the universe. Having seen the wider world, he really didn't care about a small place like the North Area.

If he was given the chance, he might as well build a small interstellar fleet that specialized in the trade of planets.

If not for to expand his territory or earn commission, it would be meaningless.

He wanted to enjoy the expression of despair when the other party was destroyed. The so-called hiding in the city was hidden in the wilderness. When Freiza realized that his vision was high, he

had already broken away from low-level interests. He no longer cared about the size of his territory and began to learn to enjoy life.

It was good to pick something he liked to do and enjoy it slowly.

Although what he did was a nightmare to others.

The two of them thought about it and accepted the mission of turning the tides of the battle of Planet Namek.

Arriving at the Teleportation Hall, Freiza humbly lined up. As the teams in front of him disappeared into the teleportation array one by one, Freiza happily stepped into it.

After a round of spinning, time and space changed. When he opened his eyes, Freiza and Cell had arrived at the battlefield of Universe 1, Planet Namek.

At this time, the weather was gloomy, and the dark and dull sky seemed to turn over a huge vortex, like a whole bottle of ink poured down, and the entire day was pressed down.

The wind howled, and the murderous air struck the soul. The entire Planet Namek was full of desolation.

“Wow, this is Planet Namek. There is a scene of the end of the world.” Freiza judged and looked around with satisfaction. Lightning flashed in the sky, and the darkness pressed down. The vast earth was full of cracks, and the planet’s core had been shattered. It would soon disintegrate.

Cell twisted his neck and looked at his surroundings. “This planet only has the aura of Son Goku and Freiza. The others have been teleported to Earth.”

Freiza pursed his lips and chuckled. “You know a lot.”

Cell knocked on his head. “I have Saiyan and your cells in my body. Naturally, I know more than you do.”

Freiza glanced at him coldly. “Go find that Saiyan Son Goku. Don’t tell me I killed the other one already...”

After the two of them finished speaking, they flew towards the place where the energy reaction was the strongest. Son Goku’s ki was getting weaker and weaker, and it might disappear soon. Although Son Goku in this world would eventually die from a heart disease, that was more than a year later.

At least before completely wiping out Freiza and his father, Son Goku could not die.

...

In the broken zone filled with lightning, the rolling waves set off waves that were dozens of meters high. The continent was overturned, and the light blue vegetation fell into the ocean, and the entire world fell into the end of the world.

In a few minutes, the beautiful Planet Namek became the dust of the universe.

“Super Saiyan is only so...” The blood-red eyes of Freiza sounded indifferent. Although the ultimate form of Freiza was short and his tail was broken, he was now holding Son Goku by the neck and floating in the air.

Son Goku struggled and his body began to feel weak. He looked at Freiza in disbelief. “Damn it. I was not my opponent before, but I suddenly became so much stronger.”

Son Goku looked at Freiza’s chest. An orange-red bead was embedded in his chest. The flesh and blood around him were coiled. The blood vessels were moving and constantly transferring energy. A black star could be vaguely seen in the dragon bead.

“Is it because of this Dragon Ball? But why are the stars in the middle black?”

Son Goku struggled weakly. He, who had just become a Super Saiyan, did not have the ability to break free from the hands of the deteriorating Fossa.

“I’m done for, but I really can’t accept dying here.” Son Goku laughed bitterly. He was indeed too proud, but fortunately, he had already sent Gohan and Krillin away...

#### Chapter 660

According to the original development of history, after Son Goku became a Super Saiyan, he had the ability to kill Freiza in Planet Namek. However, the subsequent changes were beyond Son Goku’s expectations.

Just as Son Goku was about to kill Freiza with the strength of Super Saiyan, an evil force suddenly broke through the air and landed on Freiza’s body, causing his strength to suddenly increase, causing even the Super Saiyan Son Goku to be no match for him.

North Kai’s Planet.

North Kai was keeping an eye on the Planet Namek, as the sweat on the cheeks dripped.

“What exactly happened to Freiza? Goku is clearly about to win... Is there really nothing we can do?” North Kai looked anxious. After a long time, he realized that Son Goku’s defeat was already a foregone conclusion. He could not help but sigh. He sighed that the only person who could stop Freiza was going to die. The North Area would fall into darkness.

Suddenly, North Kai discovered something. His expression changed greatly. “Wait, why are there other people on top of Planet Namek?”

“That person is... impossible, how could there be a second Freiza? There must be a mistake somewhere.”

North Kai took off his glasses in disbelief. Two figures appeared in the image he sensed. One was a crustacean lifeform with green spots, while the other looked exactly the same as the ultimate Freiza.

His heart trembled. “Could it be that some other clansman of Freiza has also come to Planet Namek?”

As the rain continued to fall, North Kai felt that the sky was about to collapse.

Planet Namek.

In the sky above Son Goku and Evil Freiza, Freiza frowned and looked down at himself. He felt that something was wrong with his other self.

Cell glanced at him indifferently. "He has already been controlled by another force. How pathetic. Although he has obtained a great amount of power, he has completely lost himself. The culprit is that thing on his chest."

Freiza's expression was cold. "Useless trash. We will not admit that he is the overlord of the universe."

"Eh!" Freiza exclaimed in surprise. He suddenly saw the Black Star Dragon Ball on Evil Freiza's chest, and a trace of surprise flashed across his cold face.

"That thing seems to be something that Mechikabura is looking for."

Freiza had once been controlled by Mechikabura, and knew that the other party was looking for the Black Star Seven Dragon Balls in various dimensions. The corners of his mouth curled up into a cold smile. Freiza's eyes turned, and he chuckled. He flew straight down toward Evil Freiza.

When he arrived in front of Evil Freiza, Freiza crossed his arms and flapped his tail. Evil Freiza noticed the sudden interference. When he saw that the other party looked exactly like him, his pupils shrank, and a cold aura suddenly erupted.

"Damn it, who the hell are you? How dare you pretend to be us!" Evil Freiza looked at Freiza coldly, his body emitting a cold aura.

"Wow, you look so pathetic. You are indeed possessed by an evil energy... Tsk, tsk, you are simply trash. Let us send you on your way."

Freiza's expression changed immediately. The gentle gentleman instantly turned into a demon who killed people without batting an eye. A bloodthirsty aura suddenly spread out and attacked Evil Freiza.

"Clang!" Evil Freiza shook off Son Goku and turned all his attacks towards Freiza.

Evil Freiza let out a high-pitched cry, and a ball of energy condensed in his hand – Death Ball. The bright red planet destruction bomb rapidly expanded, and when it reached a diameter of more than a hundred meters, it brought with it a terrifying might and crushed at Freiza.

Freiza laughed, blocking the planet destruction bomb of Evil Freiza with one hand. He clenched his palm and instantly destroyed the energy.

"Even with the support of the power of darkness, it is only a few hundred million fighting strength. Such strength is simply too weak, hehe, we actually came from such a weak..."

Shaking his head, Freiza sighed with emotion. He looked regretfully at his other self, whose evil had deteriorated. His eyes were fierce, and he directly reached out his hand to Evil Freiza's chest.

Evil Freiza was shocked, but he was unable to stop Freiza.

“This Dark Dragon Ball is quite rare. The mission this time is to recycle it.”

With a loud sound, the Black Star Dragon Ball was forcefully pulled out of Evil Freiza’s chest, along with a large piece of flesh and blood that scattered all over the ground. Evil Freiza let out a miserable scream, and his body fell from the sky. When he fell to the ground, he created a huge pit on the ground. After losing the Dark Dragon Ball, Evil Freiza regained a bit of his rationality and crawled out of the impact pit with difficulty.

He looked at his other self in the sky in disbelief, his face filled with disbelief.

“What the hell is going on?”

Evil Freiza was completely confused and roared in his heart.

Not to mention the Freiza of this time and space, even Son Goku was completely stunned at this time.

Who was that person, the other Freiza?

Why did he help him?

No, the other party was not helping him, but for the dragon pearl of the black star... Son Goku stood up, sore all over, barely maintaining the state of Super Saiyan.

Cell coldly glanced at Son Goku and Evil Freiza, then teleported to Fossa’s side. “Son Goku is seriously injured. If this goes on, he will not be a match for the other Freiza.”

“Then what do you want to do?” Freiza asked, playing with the Black Star Dragon Ball in his hand.

Ball smiled and said coldly, “Leave it to me.”

After saying that, regardless of whether Freiza had agreed or not, Cell swooped down towards the ground. In a flash, he appeared in front of Evil Freiza. Evil Freiza panicked and saw a thin energy disk flash past his eyes. The next second, his vision began to change. He saw a bloody lower body...

That lower body was his own.

“Ah!” A heart-wrenching pain flowed through his nerves to his brain. Evil Freiza twisted his face and let out a hysterical roar. The veins on his forehead were surging and his expression was ferocious. The intense pain almost made him faint.

“Hehe, that’s enough.” A hint of ruthlessness flashed across Cell’s handsome face.

“Cell, you’ve gone too far.”

Cell said, “In order to maintain the stability of history, this is our job, isn’t it?”

Freiza glanced at Cell angrily. He did not say anything and turned to look at his other self. His heart was suddenly filled with endless killing intent. Although he was disappointing in this time and space, being abused like this was also a slap to his face. "Forget it, this kind of small fry is not me at all. I don't care."

Cell narrowed his eyes and came in front of Son Goku. He sent a stream of energy to the other party through the air.

After Son Goku received the energy, he no longer looked dispirited. He asked warily, "Who are you people?"

Cell said, "Don't worry about who we are. Planet Namek is about to be destroyed. Think of a way to leave. As for this Freiza, let him be destroyed along with Planet Namek."

"Thank you!"

Son Goku silently thought for a moment, thanked Cell, and then turned to leave.

Because of the sudden increase in strength of the Evil Freiza, the battle had been delayed for a long time. Now that Planet Namek was about to be destroyed, he had no chance to defeat Freiza himself. With this trace of regret, Son Goku looked deeply at the half body of the Evil Freiza, and then flew to the place where the Ginyu Force landed.

There should be a few intact spaceships there that could take him away from Planet Namek.
