

## Ball God 681

### Chapter 681

Of course, Muiyang did not belittle himself. At this stage, he had indeed put some distance between himself and Gaia. However, he did not feel disappointed. Instead, he gathered his confidence and believed that he could catch up.

The others, such as Jiren, Toppo and the others, were not so calm at this time.

They were all trembling with fear. They carefully responded. Although Gaia still looked young, they did not dare to be disrespectful in the slightest. One had to know that Zeno also had the appearance of a child, but he was in charge of the life and death of the entire universe. Therefore, appearance did not affect the lofty status of the gods.

The Red King glanced indifferently at the Time Patrol members who were protected in the space-time fortress. He nodded and prepared to leave with Grand Minister Segari.

The members of the Time Patrol team knew that the other party was a noble god comparable to Zeno. Naturally, they respectfully watched them leave, especially the members of the Time Patrol team from the Red King World. When they saw the highest god in their world, they respectfully sent them off.

Chronoa was also ready to leave. She said, "Everyone contributed greatly to the success of pulling out this nail from the Dark Demon Realm. Although there was an accident in the middle, fortunately, there were no casualties. You can choose to rest for a while after you return to the nest. Muiyang, you can arrange it."

"Okay." Muiyang nodded lightly.

"We respectfully send off Lord Chronoa!"

Everyone shouted in unison as they watched Chronoa disappear in a golden light.

After Chronoa and the others left, everyone heaved a sigh of relief. In front of the goddess form Chronoa and the Red King of another world, they were under great pressure.

"Those two goddesses are the highest gods in the Red King world, right? They are really beautiful." Melissa looked envious. Strong and beautiful, they were the real goddesses!

Muiyang nodded. "The Red King and the Grand Minister Segari are quite mysterious."

"Alright, I will send you back to the Time Nest. In addition, the people from the entire universe can also go back with me. Everyone has worked hard, so you can relax a little."

Everyone smiled, but when they thought about how powerless they were in front of the people from the Universe 0, their feelings became complicated again. Those who could be chosen as members of the Time Patrol team were all well-known in their respective universe. They boasted that they were at the peak of the Half-God Level, and a few of them could even rival the God of Destruction. However, their previous powerlessness made them know that they were still too far away from the peak of the gods.

The other party casually threw a palm, and the wind pressure on the edge almost crushed them to death.

The gap was too big.

Son Goku scratched his head and said, "I plan to go back to Universe 7 and find Whis. I want him to train me well. This time, if not for Uncle Muyang protecting me, I'm afraid I wouldn't even be able to withstand the aftermath of their battle. I really can't accept it."

Vegeta agreed. "That's right, we have to find a deeper breakthrough in the Super Saiyan Blue Evolution realm within a short period of time."

The others couldn't help but feel a sense of crisis after seeing the Dark Dragon God attack. Although they came from different worlds, it was clear that the people from the Universe 0 were the common enemies of all worlds. They had to strengthen their strength to resist the threat in the future.

Looking at everyone's serious faces, Muyang pressed his hands together and then controlled the dimensional fortress to go towards the Time Nest.

Crash... Eight flat spheres. The hollow fortress in the middle penetrated through the void filled with chaotic matter. A few spots of light flashed a few times and arrived at the Time Nest in the depths of the universe. After arranging everyone, Muyang prepared to return to the entire universe.

"Uncle Muyang, take us with you."

Son Goku shouted. There were also a group of people from the entire universe around him. Although the members of the Time Patrol team could use the space-time energy to return to their own home, it was clear that Muyang was the fastest to teleport.

Muyang did not refuse them. He smiled and used his power to bring them back to the whole universe. Then he let them return to their own universe.

Son Goku returned to Earth with Vegeta and others to meet up with Bulma and other friends and relatives for a while. Then he rushed to God of Destruction Planet without stopping. It seemed that the zeroth universe had a strong blow to them.

Kale looked shy and pinched the corner of his clothes in embarrassment. "That... I want to stay on the martial arts planet to cultivate. Can you bring Sister Caulifla over as well?" Kale wanted to become stronger, but he didn't want to fall behind her.

"Of course there is no problem." Muyang smiled understandingly and said to Mutian, "Go to the Universe 6 and bring Caulifla over."

Mutian responded and used Acceleration World's power to head to Universe 6.

Following that, Muyang's family all entered Acceleration World and began to train on Planet Wudao. Because of this operation, Melissa felt that she was a coward, so as soon as she returned to Planet Wudao, she split into Melia and Melis, and then they fought in a specialized cultivation field to vent the depression in her heart.

Seeing this, April shook her head gently. After saying goodbye to Muyang, she entered the laboratory and continued to study the mysterious black stone and S-Cells.

Muqiu, Broly, and the others did not stay idle. They all entered Acceleration World's internal universe to increase their strength.

When everyone began to work hard for their goals, Muyang came to God Mu Palace ten thousand meters high in the sky. Only Gaia accompanied him. When he arrived at the wide area of the palace, Muyang took out the few Black Star Dragon Balls that he had gathered before.

Five Black Star Dragon Balls rolled on the ground, shining with golden light as they collided.

“Gaia, I'll leave these five Dragon Balls to you. They should be able to increase your strength.” After knowing that Gaia was most likely the Dragon God Zalama, Muyang knew that a mere Black Star Dragon Ball would not be able to harm him. Instead, it could increase his strength like a tonic.

“Yes.”

Gaia nodded happily. She bent down and picked up the Dragon Ball. It was as if she was holding a fresh peach. She rubbed it on her body twice, took a bite, and directly stuffed it into her mouth. With a few quick moves, she swallowed all the Black Star Dragon Balls into her stomach. A few strands of dark light shone, but they were quickly suppressed by the silver-blue energy on her body.

After burping, Gaia smiled with satisfaction.

The energy contained in the Black Star Dragon Ball was slightly insufficient for the current Gaia, but no matter how small a mosquito was, it was still meat. It could barely be used as a sacrifice.

Muyang looked at him and thought, Gaia has inherited the power of Dragon God Zalama. Its power is greater than before. By the way, there are four sets of Super Dragon Balls in the whole universe. Why don't we let it swallow them?

After reaching the Level 9 Dimension, the Level 9 Gods had no difference in the use of rules of the Dragon God. For example, Whis had the ability to resurrect the dead. Apart from the advantage of large-scale control, the Super Dragon Ball did not have anything particularly outstanding. It was better to increase the strength of Gaia.

With this thought in mind, Muyang wanted to put it into practice.

At this moment, a pressure permeated. He sensed that someone had come to the God Mu Palace and looked at the edge of the palace. It turned out that the Grand Minister of the entire universe had come.

Chapter 682

“Grand Minister.”

Seeing the Grand Minister arrive, Muyang did not feel any surprise. Ever since Acceleration World built a connection channel with the entire universe, the high level gods of the entire universe could enter Acceleration World through the channel.

The Grand Minister landed on the wide field of the God Mu Palace and said in a warm voice, “I heard that you met people from the Universe 0.”

“So the Grand Minister already knows.” MUYANG was surprised for a moment.

The Grand Minister’s expression became serious. “I learned from Lord Chronoa that the Universe 0 has always been a great threat to the entire universe, so Lord Chronoa will tell us anything about them.” Seeing Gaia squatting on the ground and digesting the energy brought by the Black Star Dragon Ball, the Grand Minister bowed slightly to him.

“Lord Dragon God... Congratulations on your successful advancement.”

Gaia had advanced to the Level 10 Dimension, and her status was equal to the Grand Minister. According to reason, the Grand Minister did not need to be so polite, but the Angel Race had always been humble and polite. They treated others kindly, and their etiquette was extremely thorough.

Seeing the Grand Minister greet her, Gaia panicked and stood up in embarrassment, blinking her eyes to hide beside MUYANG.

The Grand Minister laughed and then said seriously, “In the past, although the Universe 0 used the entire universe as the first target, but because I and Lord Zeno are here, they have not succeeded. Now that Acceleration World has appeared, their target is determined to change.”

MUYANG nodded in distress, “Yes, they have already targeted Acceleration World.”

Compared to the suppression of the Grand Minister and Zeno, the two Level 10 Dimension experts of the universe, Acceleration World was more like a piece of fat meat that could be easily eaten. If not for the fact that Gaia had temporarily inherited the power of Dragon God Zalama, it was hard to say whether Acceleration World still existed or not.

However, it was difficult to fight against four hands with two fists. Just relying on the strength of Gaia alone was not enough to fight against Universe 0.

Unless he also advanced to the Level 10 dimension and then joined hands with Gaia, borrowing the home advantage of Acceleration World to fight against the zeroth universe.

However, it was not that easy to advance to the Level 10 Dimension. It was clear that the angel Whis and others had stayed in the Level 9 Dimension for hundreds of millions of years and had not broken through. It could be seen that the Level 10 Dimension was mysterious and profound.

Back then, when MUYANG broke through to the Level 9 Dimension, he had already grasped Acceleration World’s universe origin energy. Moreover, he had a hidden grasp of the higher level of universe origin energy.

However, there was still a huge gap between being able to freely produce and control the universe origin energy.

“The evolution of the universe can only be done step by step. Even Lord Zeno and I can’t help you with this. I came here this time to strengthen our cooperation.” The Grand Minister looked at Gaia, “Because the appearance of the Dragon God has given us hope in the establishment of new order, Lord Zeno and I are more inclined to take the initiative to attack and directly find the nest of Universe 10.”

This is the Grand Minister's own idea... Everyone knows that Zeno does not have a mind of his own.

Muyang thought for a moment and nodded. "I understand the reasoning, but how can I find the other party's nest? You must know that even Supreme Kai of Time Chronoa can not lock onto their location."

The Grand Minister laughed, "This will depend on the power of the Dragon God. When Lord Zalama was still alive, why would the people of the Universe 10 retreat to the corner of the world of the gods? It was because Lord Zalama had a way to track their location through a power that was different from time. At that time, they had been hiding."

No wonder the Dark Dragon God, Pulred, hated the Dragon God, Zalama so much!

Muyang asked, "Gaia has such an ability?"

The Grand Minister said, "Not yet, but as long as he adapts to Lord Zalama's power, it will be fine."

Muyang said, "I understand. When Gaia has the ability to lock onto the location of Universe 0, we will join forces and attack."

The Universe 0 was always a restless factor, and the one who was most threatened by it was Acceleration World. Muyang had no reason to refuse the Grand Minister's proposal. At that time, he would probably have to pull Chronoa and the experts of the Red King World.

At this stage, Muyang was more important to improve his strength and quickly reach the Level 10 Dimension.

...

After the Grand Minister got the agreement, he left with satisfaction. This was what Muyang wanted to see.

After resting for a while, Muyang began to train in the God Mu Palace alone. After his strength reached the peak of the Level 9 Dimension realm, ordinary train would no longer be able to increase his strength. Muyang's training was completed at the core of the God Mu Palace. This was the center of the entire Acceleration World. It was equivalent to Zeno Palace of the universe. The surroundings were filled with the most primitive laws of the universe.

By comprehending these laws of the universe, Muyang gradually familiarized himself with the energy of the universe and then explored the energy of the universe.

The energy of the universe was born in the void and grew along with the chaos. It was a hazy mass of energy of the universe that could help condense the laws of the universe and grasp the life and death of the universe.

Strength, rules, realm, and all three paths could reach the Level 10 Dimension realm when cultivated to the top. However, at present, other than the creator of the world and the Grand Minister who managed the rules, the highest god was only at the Level 9 Dimension realm. Muyang was owned by Acceleration World, so theoretically, it was easiest to advance to the tenth level dimensional realm by following the rules.

In addition, because Muyang was born in the entire universe, his realm was also one of his main goals. Only the path of strength, because it was not passed down to the Super Saiyan, and because of the limitations of the environment, there was no progress at all.

Time passed quickly. In the blink of an eye, several years had passed. Muyang had been in seclusion in the God Mu Palace.

Suddenly, the towering palace shook violently, and then with a loud bang, a soaring pressure spread out.

It was as if a bright pillar of light descended from the sky. Acceleration World's essence energy quickly gathered, forming a layer of silvery-white radiance. The dazzling radiance spread out with the palace as the center. Strong winds howled, starlight flickered, and the heavy pressure brought up layers of invisible ripples.

Sensing the changes in the God Mu Palace, Melia, Broly, April... dozens of figures flew over.

At this time, the center of the palace was filled with a violent and intense energy vortex. They could only watch from afar and could not get close. Rumble! Streaks of winding and shining lightning tore through the air, making an ear-piercing sound. It was like thunder above the nine heavens, washing away the darkness accumulated in the mortal world.

After a while, a tall and straight figure walked out of the light pillar.

"How is it? Has it reached the tenth dimension?" Melia hurriedly asked.

Muyang laughed, his face flushed red, "How can a tenth level dimension be so easy to break through? But it can be considered a small achievement. I feel that I am closer to a big breakthrough."

"That's good." Everyone laughed happily.

"Oh right, where are Hongye and Elek?"

"Because Plaque and Pepe are going to participate in the 31st Martial Arts Tournament, the two of them went back to Earth to cheer for them," Broly explained with a smile.

After hearing this, Muyang nodded silently. In the blink of an eye, almost nine years had passed since the Martial Arts Tournament of the Majin Buu. The 1st Martial Arts Tournament had already reached the 31st Martial Arts Tournament.

When he first participated in the Martial Arts Tournament, it was still the 11th Martial Arts Tournament. Time passed really quickly.

Chapter 683

The early morning of autumn had a slight chill, and the mountain forest was filled with a faint fog. The sun rose, and warm rays of light sprinkled down through the leaves of the treetops, falling down scattered specks of light that were like copper coins.

On Great Azure Mountain, the disciples of the Kami School woke up early, and then they were led by the leading disciples to practice martial arts.

These young disciples worked hard and serious. Muiyang looked at them as if he saw himself when he was young. In the blink of an eye, eighty years of time passed by quickly, and Muiyang had already obtained great achievements.

In a few days, it was World Martial Arts Tournament of the original story. After Muiyang learned the news of the 31st Martial Arts Tournament, he specially rushed back from Acceleration World. In addition to Gaia, there was also Muiyang's only disciple, Kanalita.

Melia didn't follow them because he had to hurry up and cultivate. April seemed to have a breakthrough due to the research of S-Cells. She didn't have the time to come either. They naturally didn't know the special significance of this Martial Arts World Tournament for Muiyang. It was a childhood witness!

After setting up time acceleration for them, Muiyang returned to Earth.

Everything in Green Azure Mountain was the same as before. Time didn't seem to change the atmosphere of martial arts training here. Although the number of disciples recruited by the Kami School in the past few years had been greatly reduced, there were many elite disciples who walked out.

Years of development had allowed the Kami School to return to the elite route.

Muiyang stood in front of the Martial Arts building in Great Azure Mountain with a faint smile on his lips.

Back then, his old friends had all become old men. There were fewer and fewer people in the same generation. Even Muiyang's junior brothers and sisters had entered old age. Fortunately, because of the "Spring of Life" produced by Gaia, they still maintained a strong body, but they were already at the first line of martial arts training.

"Teacher, you seem to value this competition very much?"

Kanalita quietly appeared beside Muiyang. Her red hair was dancing like a ribbon, and there was no trace of time on her pretty face. She still had a youthful and beautiful appearance.

Although she had already been removed from the position of Earth's Kami, Kanalita, who was once Earth's Kami, still had a pivotal position. In the past Martial Arts Tournament, she would always invite her as a special guest. In the past few sessions, she had rejected all of them. This time, she would be the fourth guest of the Martial Arts Tournament.

Muiyang said, "When Teacher first participated in the Martial Arts Tournament, she was already as big as them. At that time, the Kami School was still called the Heavenly Sky School... Time flew. In the blink of an eye, eighty years passed."

Kanalita said in admiration, "That experience was already a Legendary of Kami School. It was because the Teacher won the Champion of the Martial Arts Tournament that Kami School quickly emerged. For this competition, Plaque will definitely be with Pepe in the competition. This will be a competition between the Kami School and the Turtle School."

"The beginning and the end, I hope that Plaque can win the championship and draw a full stop to the change of times."

“What era change?”

Kanalita did not understand Muyang.

Muyang laughed and did not explain. His figure flashed and he quickly entered the martial arts building.

“Could it be that teacher has seen the future? Right, with teacher’s strength, he will definitely be able to...” Muyang’s silence was clearly an unfathomable performance in the eyes of Kanalita. Thinking that the one participating in the Martial Arts Tournament this time would be the children of the new generation, the more Kanalita thought it was possible, the more she thought about it, the more she felt that it was possible. She could not help but sigh that her teacher’s ability was becoming more and more mysterious.

It seemed that the next leader of the Kami School would be produced in the new generation.

Kanalita estimated.

...

On an overseas island, the sun was bright and the weather was pleasant.

The thirty-first Martial Arts Tournament held once every three years was held. The host was still the golden-haired host of the past, but he was already old. People had to sigh at the power of time. No matter how powerful the breakthrough was, if not for a real god, it still could not resist the washing of time.

The Martial Arts Tournament was still held in a remote city as usual.

As the scale expanded, the blond host also brought a young man with him. As his assistant, he had a sense of inheritance and responsibility.

The old friends continued to chat. The blond host said, “Goddess Kanalita, you are still as stunning as ever. The conference has already arranged a viewing platform for you. It is really a glory for the Martial Arts Tournament to come.”

“Sorry to trouble you.” Kanalita was very polite.

“No, that’s what I should do.”

The golden-haired host had received specialized training in the Lookout. At that time, Kanalita was still a Kami of the Lookout, so she was full of admiration for her. On the other hand, Muyang, who was beside Kanalita, was not recognized at the first moment because of her mediocre performance due to her high-level divine spirit restraining her charm.

Then, under the guidance of the young man next to the blond host, Muyang and the others arrived at the independent stand on the second floor of the Martial Arts Tournament.

“Lord Muyang, this is the seeded player selected from the list of participants from this year’s Martial Arts Tournament.”

Krillin was the consultant of the Martial Arts Tournament. Before the official competition began, he would draw a detailed list of personnel and mark out the seeded players, so that the audience could understand the situation of the competition specifically.

Muyang nodded and opened the list of personnel to read. The situation of this list of contestants was very detailed, including the age of the participants, the martial arts school, the physical test during registration, and so on. If one had participated in the Martial Arts Tournament before, they would still mark their past achievements.

“The names of Plaque and Pepe are very far behind.” Gaia held the booklet and looked at it.

“After all, they have never participated in the Martial Arts Tournament before, and their performance in the physical test is also very ordinary... However, they are definitely the dark horses of this competition.”

Krillin knows the identity of two little girls, Plaque was the daughter of Son Hongye and Broly’s son Elek. Plaque was the daughter of Son Goten and his wife Angela. The two people represent the Kami School and the Turtle School respectively. They were the most powerful candidates for champions.

“Hey, Marron is also on the list.”

There was a picture of a red-haired girl among the seeded players. It was the daughter of Krillin and Suno’s daughter Marron.

Krillin smiled. “She is also a disciple of the Discle School. As long as her luck is not too bad, there is absolutely no problem for her to enter the top eight.”

“That’s amazing.”

Muyang praised. It was not easy to enter the top eight of the World Martial Arts Tournament in this era. It was impossible for one to not have two or three hundred combat strength. Judging from Marron’s appearance, he was only thirteen or fourteen years old. This strength was already very rare. Of course, this was related to Krillin and Suno’s training on Marron.

While Muyang and the others were chatting, the Martial Arts Tournament was about to begin. With a loud and clear sound, the competition officially began.

The preliminaries for the 256 contestants would be held at the scene. They would use three rounds to determine the top 32. The preliminary preliminaries had ended a month ago. This was also the reason why Son Hongye and the others had returned to Earth early from Acceleration World. After the top 32, the competition would draw lots again and then show their strength on the main martial arts stage.

Since the registration date was more than a month early and gave the organizers enough time to make arrangements, the Martial Arts Tournament went very smoothly.

...

“Du!” The referee blew the whistle. The morning match had ended.

The top 32 contestants had also been selected.

After the audience left the venue, they gathered in groups of three to five and continued to discuss their feelings for the matches.

The later matches would be held at one o'clock in the afternoon, enough for the audience to have a good rest after finishing their meals.

Chapter 684

In the afternoon, the competition continued like a raging fire. Because the top 32 competition had begun, the level of the players had significantly improved compared to the morning. Most of these players were elites from various martial arts dojo and schools. There were very few who cultivated alone and grew up. After all, as the level of the martial arts increased, high-level competitions could no longer be single-handedly cultivated.

Therefore, there was more competition between the major sects in the process of the competition.

“If the martial artists of the new generation were in the early decades, they would be qualified to enter the Lookout and become Kami.”

Krillin flipped the booklet in his hand and commented on the competition below.

Kanalita smiled elegantly and watched quietly. While she was a god, the martial artists of Earth started to walk out of the planet. As their vision improved, the strength of Earth's Kami had become the first consideration. Without super strength, the majesty that shrouded the god would lose, and they would no longer be able to lead the martial artists of Earth.

Her disciple was better than Videl. She was diligent and could endure loneliness. If it was the blonde Launch, she would probably abandon everything in a few days.

This was the reason why she chose to be a god when she was resigning, instead of Launch.

“By the way, how many battles are Plaque and the others in?”

Muyang looked down at the competition with interest. Although the performance of these martial artists of the younger generation was nothing in the eyes of people who had experienced hundreds of battles, like a small fight, Muyang looked at it with relish and did not feel any aesthetic fatigue at all.

Sometimes, it was also very interesting to taste the martial arts of the beginner.

“Oh.” Gaia grabbed the list of the top 32 and flipped through it. She pointed to the name on the list and said, “The Plague competition is in the eighth match of the top 32. Pepe is in the fifteenth match. They won't meet before the finals.”

“Marron is in the twelfth match. Their luck is very good and they didn't encounter each other in advance. If they perform well, they can achieve a good result.”

There was a smile on Krillin's lips. His daughter definitely had no problem in getting into the top eight, and he could also work hard in the top four.

“Watch carefully, maybe you can give us some surprises.”

Muyang narrowed his eyes and looked around. All the strength of the contestants fell into his eyes.

Because when Evil Buu first appeared, he was directly absorbed by Fat Buu, so there was no reincarnation of Evil Buu. If there were no accidents, the champion candidate would be between Plaque and Pepe. As for what kind of ranking Marron would get in the end, it would depend on her own performance.

The competition was in full swing. It was already three o'clock in the afternoon when the first round of the top 32 competition ended. At this time, the sun had already begun to set in the west, and the temperature had dropped a little at noon.

As a result, once the sun weakened, the temperature began to drop, but the audience who were immersed in the wonderful competition did not feel any chill. They all stretched their necks to cheer for the players who supported them.

**“Next, the competition for the top 8 begins. The first group of participants, please go on stage!”**

On the arena, the aged blonde host was responsible for mobilizing the enthusiasm of the venue, and his young assistant announced loudly.

As soon as he finished speaking, two contestants stepped onto the martial arts arena. One was an old man with a white beard, and the other was a strong young man. The wonderful battle immediately began. When the energy arts that shone with bright light appeared, there was a great tide in the arena.

An earth-shattering shout was heard.

Generally, powerful martial artists had a perfect figure, because the usual hard cultivation would not make the body possible to go out of shape. At this time, the two people on the arena were like this. Even the old man with a white beard revealed firm and strong muscles after the martial arts suit was broken because of the powerful energy. He was stronger than most young people.

The messy fight was too much for the eyes to take in, and the competition was brilliant...

Soon, it was Plaque's turn, and her opponent was a disciple of the Maple Leaf School.

Muyang leaned against the window and looked at the competition below. A ray of light flashed through his eyes. When he participated in the World Martial Arts Tournament, he met the disciples of the Maple Leaf School.

The competition began. First, Plaque saluted formally, and then he put on an offensive stance with a serious expression. His figure suddenly disappeared from sight...

**“Plaque won.”** Gaia opened her mouth and closed, her golden eyes seeming to see through the time.

Crash!

The young body of Plaque flashed quickly like lightning, leaving behind a few afterimages in an instant. A slender figure appeared behind the Maple Leaf School disciple, then turned in the air and kicked over without the other party noticing.

Bang!

The Maple Leaf School disciple was sent flying by a violent kick. With a thud, he smashed several cracks into the stone slab on the ground. However, the quality of the training of the ancient sects made him quickly react. His face turned cold, and he put up a defense with his whole body on guard.

Plaque appeared again, and his body was covered with a white light.

“Kami-ken!”

His strength suddenly increased by several times. Bang! Bang! Bang! Bang! Bang! The Maple Leaf disciples did not have the ability to resist this time. After struggling for a while, they raised their hands and admitted defeat.

The whole place was silent, and then there was an intense cheer.

“As expected of a disciple of the Kami School. Although the Plaque players are young, their strength can not be underestimated.” The young assistant announced the result very excitedly.

The golden-haired host nodded in satisfaction. He had always hoped that the World Martial Arts Tournament would have a wonderful competition.

...

The competition continued. Every match was brilliant. Marron’s performance was very eye-catching, but the later the contestants became stronger. Marron’s strength was above average, but he was unfortunately defeated in the competition for the top four. He stopped in the top eight and was not fated to be in the top four.

The two sisters, Plaque and Pepe, were in the limelight. Thanks to their good physical fitness and martial arts relationship, the two of them kept defeating their opponents and getting into the finals. The last match was even more powerful. It almost destroyed the entire arena. If not for the fact that Kanalita secretly took action to offset their energy, the entire city of the Martial Arts Tournament would have been destroyed by them.

The day of the competition, when the color of the sky darkened, the competition of the new era came to an end.

The audience dispersed one by one, and their enthusiasm did not diminish. The next thirty-second World Martial Arts Tournament would be held in three years, and the location was on Maple Leaf Island, a very meaningful place.

...

“Teacher, are you not going back to Martial Star with us?” After dinner, everyone began to separate. Kanalita was ready to return to Acceleration World’s Planet Wudao, while Muyang was temporarily not going back.

“I have something to do with Gaia. You and Hongye will return first.”

“Alright.” Kanalita knew that her teacher was practically invincible in this world, so after bidding farewell, she left with Son Hongye and the others.

After Kanalita and the others left, Gaia asked, "Lord Muiyang, what are we going to do?"

Muiyang's gaze became deep. "The people of the zeroth universe are eyeing Acceleration World covetously. My strength still needs to be strengthened. Let's go to a place where we can improve our strength."

Gaia tilted her head. She had never had a mind of her own. Whatever Muiyang said, she would do.

...

## Chapter 685

The sea of stars was vast and boundless. In the dark red night sky, countless bright stars flashed. On the scale of the Major Universe, the distance between the planet and the planet was extremely far. It would take a long time to cross the distance between the planet and the planet. However, all of this was extremely easy for Muiyang.

His will covered the entire Universe 7, and everything in the sky was nowhere to be seen under his eyes.

The extremely high God of Destruction Planet and Sacred World of the Kai were like the two poles of the universe. Below them were the rivers of stars, the Other-World, Heaven, Hell under the Milky Way, and even Demon Realm that was filled with dark power. As long as Muiyang advanced a step further, he would be able to rival the Grand Minister. Looking at Universe 7, he no longer felt as shocked as before.

After locking onto the target, Muiyang leaped into the void with Gaia. In a flash, he arrived in a vast void. The stars around him were shining. Since ancient times, they were constantly releasing light and heat, sending the basic energy for the surrounding planets to breed life.

Gaia turned her eyes to look at the scenery in front of her. She looked at Muiyang, as if asking him what he was doing here.

"Look over there..." She pointed in a direction. Muiyang's voice was calm and indifferent, and a divine light flashed in her eyes.

Gaia immediately looked to the side, and her eyes suddenly lit up. She saw a huge glass planet appear before her eyes, and a huge individual occupied more than half of her sight.

"Super Dragon Ball!"

"I let you swallow seven Black Star Dragon Balls. Although the energy has been digested by you, it still contains the power of darkness of the Black Dragon God. The Dragon Ball in front of you is a divine item left by the Dragon God, Zalama, in the entire universe. It comes from the same source as the energy in your body." The corners of Muiyang's mouth curled into a smile. "Go and devour it. It can more or less increase your strength."

To the entire universe, the effects of the Super Dragon Ball were already insignificant. Angels and Grand Minister were able to achieve similar effects.

Furthermore, with the new generation of Dragon Gods, it would be an easy task for him to create his own Dragon Ball in the future.

Gaia licked her lips and nodded forcefully. In an instant, her figure flashed and she suddenly disappeared from sight.

Ow!

A deafening dragon roar resounded through the world.

Countless stars trembled at the same time. A large ball of blue light suddenly appeared in the vast universe. In the next second, a golden auspicious cloud covered the entire galaxy. A blue dragon poked its head out from the auspicious cloud. Its huge body flipped over, and its silver and blue scales sparkled like crystals.

Of course, at this time, the body that Gaia had displayed was under control, so it was not particularly large. Otherwise, just the range of Universe 7 could not accommodate the Dragon God of a Level 10 Dimension.

Gaia's huge eyes looked at the Super Dragon Ball below, and she said in a loud voice, "Lord Muiyang, I want to eat it."

Muiyang nodded at Gaia, and his body floated above her head. The scale beneath his feet was as large as a continent.

"Wah wah..." The blue dragon opened its huge mouth and swallowed the Super Dragon Ball that was ten times larger than Earth. The dragon narrowed its eyes as if it was sensing the energy contained within the Super Dragon Ball.

The "Dragon of God" summoned by the Super Dragon Ball still contained an alternate dimension within its body. As a True Dragon, "Gaia" had a whole new universe in its stomach. Even if it swallowed the entire Universe 7, it wouldn't be a problem.

"What a spectacular sight." Muiyang smiled faintly. No matter how many times he looked at her, her body size was still shocking.

Light flashed, and the blue dragon returned to human form. Gaia rubbed her stomach in satisfaction and said in a clear voice, "After I swallowed the Super Dragon Ball, my stomach felt warm and comfortable."

"It seems to be effective. It is all the power of the Dragon God, Zalama. Try to collect as much as possible."

"Yes."

He was the heir of the Dragon God, Zalama. In name, he could gather all the Dragon God power.

The two of them did not stay here for long. After Gaia swallowed a Super Dragon Ball, they teleported to their next destination.

They did not know that their actions had truly frightened the Star Domain, Kai and Grand Kai. Originally, they were all dealing with the things in their respective territories on their own divine stars. Suddenly, a tangible pressure came from the lower realms. They were caught off guard and pressed tightly against the ground.

When they observed the lower realms, they discovered that an abnormally large dragon had appeared in their jurisdiction. It even swallowed a giant glass bead in one gulp. This scene immediately frightened them to the point that their faces turned pale.

Only after Muyang and Gaia left did they get up from the ground, wiping the sweat from their foreheads as if they had just survived a calamity.

“The two great gods have finally left.”

“How terrifying, if they wait a bit longer, the lower realm’s star system will collapse.”

Although they were not clear about Gaia’s identity, but the pressure exuded by her was unparalleled and sacred. It allowed them to know that the other party had an extraordinary background. As for the matter of a universe level god, it was better for a mere domain level god like them to mind their own business.

Of course, they were not the only gods that were shocked this day. Universe 7 and Universe 6’s Gods were terrified.

Even Whis and Vados, who were far away from God of Destruction Planet, noticed their actions.

Whis glared at the crystal ball on the Divine Staff of the Kami and observed the situation in the Lower Realm. He muttered from time to time, “Amazing, amazing, that blue dragon is actually Gaia... I already knew that he came from an extraordinary background, but I never thought that there would be a day when he would turn into a Dragon God.”

“A Level 10 Dimension is really a level that makes people flinch.”

Whis sighed with emotion. He had stayed in the Level 9 Dimension for countless years and had not even seen the shadow of the level ten dimension.

“Hey, Whis, help us train!” Son Goku urged him from beside him.

A burst of cold wind followed by Son Goku’s attack.

Whis smiled lightly. He lifted the Angel Staff and blocked Son Goku’s attack. The staff spun around his wrist and pushed forward. Bang! The crystal ball touched Son Goku’s chest and sent him flying.

“Hehe, Son Goku, calm down. Come, let me show you the intensity of the training that Lord Beerus had gone through.”

“Okay.”

Son Goku, Vegeta, and the others were looking forward to it. With a loud roar, he turned into a Super Saiyan Blue Evolution and attacked Whis from different directions. Whis responded casually. Every movement was smooth and smooth, full of artistic beauty. Even when Son Goku used Instant Transmission to attack, he avoided it.

“It is impossible to achieve the training effect with brute force. Try to comprehend the realm. Ultra Instinct is a good combat skill.”

“Hey, hey, no. It seems that it is too early for you to practice Ultra Instinct. You have to start from a more obvious part.”

...

While Whis was in high spirits training Son Goku and the others, Muyang had already found a complete set of Super Dragon Balls and entered Gaia's stomach. After digesting it for about three days, the Dragon God power contained in the Super Dragon Ball was completely absorbed, causing Gaia's power to emit a deeper color of silver and blue divine light.

Of course, there was not only one Super Dragon Ball in the entire universe. In other parallel worlds, there were also Super Dragon Balls. These were all Muyang's goals.

Soon, all the Super Dragon Balls in the four dimensions were swallowed up. At this time, Gaia seemed to be really stuffed. She was like a pregnant little girl. This state continued for three years, and only then did the Dragon God Zalama's power be absorbed by him.

At this time, if she encountered the Dark Dragon God, Pulred, she would be able to resist.

#### Chapter 686

After absorbing all the Super Dragon Balls, Gaia's strength had increased by a large step. If one considered the miraculous power of the Dragon God, he would not be much weaker than the Grand Ministe. At this time, Gaia already had the strength to rival him. On the contrary, Muyang and Acceleration World were slightly lacking in terms of standards.

Urgent need to level up as soon as possible.

...

In the depths of the Primal Chaos Void, a body lay flat in the void, emitting a faint light.

The ethereal and overbearing chaotic energy current washed over his body, continuously forging the strength of his body.

This was the Sea of Time and Space outside the Grand Universe Space, at the same level as Time Nest and Red King World. Muyang had been here for a long time. In order to quickly upgrade to a Level 10 Dimension as soon as possible, after the Grand Minister's deliberation, Muyang absorbed the cosmic energy needed to nurture the universe in the sSea of Time and Space.

The cosmic energy of the Sea of Time and Space came from a wider vast world. The energy that flowed into the Sea of Time and Space had all been processed by the rules of Zeno World. Thus, what remained was the essence, and it was used to maintain the power of the four entire universes.

Puff. The cosmic energy continued to enter Acceleration World through Muyang, increasing his level. At the same time, it also helped Muyang to condense the cosmic energy.

When he could completely produce and control the energy of the universe, it would be the time for him to advance to the Level 10 Dimensionn.

Time passed quickly, like a white steed flitting past a crack. Muyang did not know how long he had been in the Sea of Time and Space. Finally, one day, he let out a laugh full of joy, “I can finally independently generate the energy of the universe.”

In his heart, a transparent energy gradually grew stronger, slowly becoming seven colors.

The Level 9 Dimension first had to control the energy of the universe. In the entire universe, the energy of the universe was divided into the two elements of destruction, divine power, and Supreme Kai power, so advancing to the Level 9 Dimension was the process of merging the power of God of Destruction and Supreme Kai, and then referring to the problem of the realm.

However, Muiyang was different. His universe origin energy had fused with Grand Supreme Kai God Power, Time Force, Acceleration World (containing a portion of the Dragon God's power). It was a completely different form of energy, and its power was comparable to the entire universe origin energy. Now that the universe origin energy returned to its original state, it had changed from a colorless state to a seven-colored state. In an instant, it had completed the final advancement.

This was a transformation of rebirth!

It could be said that Muiyang had already taken a solid step towards the Level 10 Dimension.

Next, he could only wait for the seven-colored energy to continuously increase and expand Acceleration World at the right time. He could naturally reach the Level 10 Dimension.

At this point, the heavy burden on his shoulders could finally be lifted. Muiyang could finally breathe a sigh of relief.

“Keep up the good work. The peak moment will soon arrive.” Muiyang smiled with a relaxed expression. His heart was full of confidence, but he also knew that the next accumulation would take a while.

But it didn't matter. The most difficult stage had passed.

He closed his eyes and felt the changes in the Sea of Time and Space. The situation inside the four universes was all in his eyes. He could even clearly see the scene in the palace through countless dimensions: Zeno was playing games with a tablet out of boredom...Zeno was observing the situation in the Lower Realms, looking for something interesting.

The other two Zenos come together to play the 'Energy of Destruction' planet.

“Yi!”

The Grand Minister in different worlds sensed something at the same time. He spread his mind and came into contact with Muiyang in the Sea of Time and Space. After seeing his condition clearly, the Grand Minister could not help but smile and nod.

“Congratulations, you have taken the last step.”

“It will take some time for you to truly advance.”

Muiyang transmitted a hint of kindness to them, and then this rude behavior withdrew his consciousness from the palace hall. He continued to observe the situation of other dimensions. Countless small worlds and fragments entered the scope of observation. He saw many small worlds being born and many small worlds being destroyed.

This feeling of looking down from the roof was simply enjoyment, and it was a feeling of being satisfied after suffering.

Whoosh... Thick energy gathered in his body. Muiyang's mind was constantly being sorted out. He waved his hand towards the depths of the sea of energy. A silver and blue light flashed. Gaia's beautiful figure came to his side.

"Lord Muiyang, are we going back?"

"Yes." He nodded lightly. Now that he looked at Gaia, the deterrence on her body could no longer affect him.

"Gaia, since you have become the new Dragon God, why don't you write the name of the Dragon God?" Muiyang looked at Gaia and said, "After the Dragon God Sara's Dragon Ball disappears, you can create a new set."

"This is very simple." Gaia nodded. Her slender fingers moved in the air, and a silver-blue ball of light floated on her palm. It was as if she was a lively elf.

Her other hand gently tapped on the ball of light. With a click, the ball of light shattered into seven pieces, turning into seven pearl balls. They were also in the shape of glass, but the color was transparent. There were a few stars flickering in the dark blue color at the core. She gently blew a breath at the Dragon Balls, and the stars immediately became alive.

"Go!"

Gaia pursed her lips and hummed softly. After giving her life, she pushed the seven Dragon Balls toward the entire universe. When they approached the entire universe, the seven Dragon Balls instantly grew in size. They expanded from the size of a fist to the size of a planet. Similarly, under the influence of the laws of time and space in the entire universe, they split into four and scattered into Universe 6 and Universe 7.

It was just like the Super Dragon Ball from before.

After completing all of this, Gaia felt that there were still some steps that she had yet to complete. After thinking for a while, she suddenly threw silver-blue energy towards the entire void.

The energy spread across the various dimensions.

Affected by this power, no matter which time and space in the entire universe, all the Dragon Balls that had already existed changed their appearance in an instant. Their colors changed from orange-red to transparent, and the stars in the core also revealed a dark blue color.

"From today onwards, I am the Dragon God, Gaia!"

As if announcing her existence, a profound voice rang out from all over the universe. Mortals could not hear this voice, and only races and lives that had a deep relationship with the Dragon Balls could hear it clearly.

"Dragon God, Gaia!!"

Like a mark that had been engraved in the blood vessels, countless Namekian heard this voice. The Namekian in different space-time, all the Namekian put down their farm work and bowed down in

one direction. The Dragon Balls that the tribe worshipped and protected changed its color on the same day.

In Universe 6, the changes were completed in an instant.

On Earth, Mr. Popo was cleaning the Lookout when he suddenly found that the Dragon Ball in the Lookout warehouse had become colorless and transparent. He asked Dende doubtfully, but Dende said, "This is what the Dragon God Gaia meant."

At this moment.

In the entire time and space, there was only one Dragon God, and that was the Dragon God, Gaia.

...

In a hidden world, the Dark Dragon God, Pulred, sensed this change. He let out a roar and his mountain-like body began to circle. His terrifying aura instantly destroyed a world.

...

"What would the Super Dragon Ball you created be like if it summoned a divine dragon?"

"Of course it would be like me, a majestic five-clawed blue dragon that can swallow an entire galaxy in one go."

Muyang was stunned for a moment before he burst into laughter. It seemed that he had already adapted to the identity of the Dragon God.

Then, he would have to advance to the Level 10 Dimension.

Chapter 687

The concept of time in the Sea of Space and Time was quite vague. Muyang did not know how much time he had train. He only knew that the seven-colored energy he controlled was becoming larger and larger.

Until one day, he reached the point where he could split the world.

Whoosh... The surging tide raged and surged. The dense black hole absorbed the energy of the Sea of Space and Time. Just the aftermath released caused the entire space to turn upside down, unable to calm down. Suddenly, the energy that seemed to split the world drove away the vast area of the endless void. Primal Chaos matter condensed into a ball and fell into Muyang's hand.

The seven-colored energy of the universe rolled in his palm and struggled to get out. With a thought from Muyang, it was as if an invisible hand had imprisoned the seven-colored energy.

These were the most essential Primal Chaos essence. If it fell into the lower realm universe, it could instantly raise the level of the universe.

"It's time to break through." Muyang murmured. His figure instantly disappeared from the Sea of Time and Space.

A handsome figure suddenly appeared in Acceleration World. As soon as he appeared, the entire Acceleration World began to shake violently as if he had predicted something. Muyang smiled and

released the universe energy in his hand. The rainbow energy entered the void with a poof and turned into endless universe origin energy.

Crack! Boom! Boom! Boom! Boom!

Great thunderbolts that were as tragic as splitting the world were generated from the Primal Chaos, but the strange thing was that these great thunderbolts did not affect the stability of Planet Wudao and the surrounding twelve universes. Everything was as smooth as a small rain in early spring. Rays of silver-gray light covered the entire world. Unconsciously, Acceleration World became stronger. The twelve universes began to grow from the size of a third of the original universe to a real great universe.

At the same time, the location of the twelve universes also changed. It was as if the entire space was swelling up, and new areas appeared in the void. The laws that could be seen with the naked eye gathered together, and new universes were formed under the influence of the laws.

Crash!

A trace of the will of the great universe was produced from Muyang's mind. The silver and blue dragon shadow swam in the void, and a long roar resounded between the world. The rules of the universe changed. When the entire space was stabilized, the number of the universe increased from twelve to eighteen. These universes worked together and connected to each other, forming the whole of Acceleration World.

The whole process was very calm, so calm that it was unbelievable.

But in fact, the current Macro World was not calm. With the completion of Acceleration World's promotion, Acceleration World officially took root in the Macro World, becoming a large world that was not inferior to Zeno World and Red King World.

Violent ripples spread through the Macro World, and the changes in the Macro World immediately attracted the attention of several other Level 10 Dimensional experts. They all cast their gazes over, watching this new world.

Chronoa and the Red King were even more stunned, and they couldn't help but nod with a smile.

Then, they joined hands to provide more comprehensive protection for Acceleration World.

Of course, Muyang didn't know about these things. At this time, he was still immersed in the joy of the world's advancement... Acceleration World's feedback power returned to his body, and his dimension began to upgrade silently. Pop! It was as if he had broken through the shackles of his body. Muyang's strength rose, and his realm and dimension increased together. The energy in his body increased every second.

**"I have reached Level 10 Dimension."**

A smile of joy appeared at the corner of his mouth. Muyang clenched his fist, feeling as if the world were collapsing with a wave of his hand.

At this moment, he experienced the feeling of a king. Because all the rules were in his hands, he could control the rules with just a thought. If he wanted the universe to be born, the rules would be born. If he wanted the universe to be destroyed, the rules would be destroyed. However, unlike a

king, MUYANG not only grasped the power of the rules of Acceleration World, but his own realm was also a real Level 10 Dimension. There was no such thing as instability and lack of foundation.

It was quite difficult for the rules and realm to reach Level 10 Dimension at the same time. After training for a period of time, he might be able to reach the strength of the Red King.

“From today onwards, this is the ‘God Mu World!’”

MUYANG quietly closed his eyes, and a mysterious and profound information automatically floated into his mind.

After the God Mu World became a large world, it was still under the Time Axis like Zeno World. In other words, if there were people who used time machines in the future, they would also form a parallel space. Unless my strength reached the level of the Red King or Chronoa, it was enough to suppress the Time Axis.

Obviously, this was something that the current MUYANG could not do, but he was already very satisfied that he could rival the king.

In any case, because he had joined the Time Patrol, he had already jumped out of the Time Axis. Even if he created a parallel space-time, it seemed that it would not affect him.

With a relaxed smile, MUYANG’s figure instantly appeared in the current God Mu Palace, where Melissa, April, Gaia had been waiting for a long time.

When they saw MUYANG come over, they all greeted him with excitement.

“MUYANG, you have training for twenty years.”

“It’s actually been twenty years...” MUYANG was stunned. He was not surprised. After all, such a big breakthrough had already shocked the world in just twenty years.

Compared to the long evolution of the universe, this period of time was only equivalent to an instant.

The few of them gathered together and chatted happily. Then, they pointed out the problems in their training. The strength of Melissa and the others had reached the level of a God of Destruction. Next, they had to think of a way to upgrade to the level of an Angel.

In fact, MUYANG, who had reached the level of Zeno, had the ability to instantly increase everyone’s strength. However, he did not do so. Instead, he took a more stable method to allow them to break through on their own. This was because once MUYANG made a move to increase their strength, then the path of advancement for Melissa and the others would be sealed off.

Only by relying on his own strength to break through to the level of an Angel would he be able to advance to a higher level in the future.

On the other hand, MUYANG did not place much importance on the Level 8 Dimension. He was prepared to find some people in the universe of the God Mu World to serve as the God of Destruction and Supreme Kai.

“Kanalita, do you want to be the God of Destruction of the first universe?”  
Muyang looked at his only disciple.

“But my combat strength is far from enough.” Kanalita was stunned.

Muyang smiled faintly. “When you reach the level of a Universe God, what you value is the realm and not combat strength. Of course, God of Destruction does require sufficient strength. This is not a problem.”

“I want to give it a try.” Kanalita nodded after thinking for a bit.

When Muyang saw this, he sent out a strand of universe origin energy towards Kanalita. In the middle of the process, the universe origin energy split into two, turning into God of Destruction and Supreme Kai’s power. For his only disciple, Muyang was not stingy at all. He sent two strands of divine power into her body at the same time.

Then, he set up a time acceleration for her. Because the rules of the God Mu World were complete and the foundation was strong enough, one second outside was enough. In the space of acceleration, even the sea changed. This was something that even Supreme Ka of Time Chronoa, could not do.

When the acceleration was over, Kanalita let out a long sigh. She had already reached the level of a God of Destruction.

“Congratulations. From today onwards, you will be the God of Destruction in Universe 1.”

“Thank you, teacher.”

Kanalita said gratefully. Everything she had was given to her by Muyang.

At that time, she was only a female disciple of the Kami School. It was Muyang who had taken a fancy to her and accepted her as a disciple, which was why she later became Kami.

“Then next is Launch... and also Plaque, Pepe”

Muyang looked at the two unfamiliar girls.

Twenty years had passed, and the little girls had grown up. With the potential of their earthlings’ blood, training normally, there was almost no hope of becoming a Half-God.

Chapter 688

After Muyang became the ruler of a Level 10 Dimension, he immediately conferred the title of the God of Destruction in several universes. This gave some people who were destined to be unable to achieve great achievements a chance to reach the heavens in a single bound. However, Muyang knew that it was too late. Therefore, he did not seal all of the God of Destruction positions in one go. Instead, he roughly retained the god positions of the nine universes.

The nine God of Destruction positions were used for the future powerhouses of the God Mu World. Even Kanalita and the others could retire early and pass down their positions if they did not have enough god positions.

In fact, the importance of God of Destruction positions was in the comprehension of the rules after inheriting the god position. Losing the god position was only to affect the control of the divine power, but there were already some comprehensions that would not be lost.

After the God of Destruction positions were roughly settled, Muyang still needed to choose the person who would be chosen by Gaia. Of course, it was similar to the evolution of the entire universe. The angel of the God Mu World would be decided by Gaia.

These things had been decided a long time ago. Of course, it would be held by Gaia's clones.

“Gaia! I'll leave the matter of the Angels to you.”

“I know.” Gaia nodded vigorously.

An Angel's position was more important than the God of Destruction and Supreme Kai. They had to maintain neutrality and ensure that the universe would operate normally. At the same time, they had to stop the God of Destruction or Supreme Kai when they made the wrong choice. There was no position more suitable than the avatar of Gaia.

Gaia gently raised her arm. The avatar that had been scattered in the 12 universes instantly appeared next to Gaia. He split a few more avatars from his body and gathered the number of avatars to 18, giving them the strength and personality of their own.

This was easy for the current Gaia.

It was like creating a Dragon Ball to release a ball of light. After flying into the sky, the ball of light split into 18 rays of light and entered the body of the avatar. Immediately, it seemed to give life to the 18 avatars. The 18 avatars came back to life. Their silver-blue hair fluttered and they opened their eyes. Their pale golden eyes were full of divine light.

“Greetings, Lord Dragon God, Lord Muyang!”

These Angels, dressed in blue divine clothes, all knelt down on half a knee towards Muyang and Gaia.

Muyang looked at the eighteen Angels calmly. There were old and young women, nine men and nine women, all of them were in the Level 9 Dimension.

“Get up. From now on, the universe of the God Mu World will be under your management. Please ensure the balance of the universe. Now, you go and do the first thing. You will open up Sacred World of the Kai and God of Destruction Planet in your respective universes and condense the divine planet.”

Although Muyang and Gaia had already divided God of Destruction Planet and Sacred World of the Kai a long time ago, the present was different from the past. After the aftermath of the God Mu World, the original division of the divine realm had to be re-established. However, the structure of the four Sacred World of the Kai North, South, East, and West had not changed.

This was to reduce the possibility of the God of Destruction or Supreme Kai dying at the same time.

Of course, as the first generation of the God of Destruction, Kanalita and the others enjoyed special privileges and were not connected to Supreme Kai's life. After all, there was no Supreme Kai in the major universes now. More importantly, they were all Muyang's direct descendants.

“Yes, sir!”

The Angels responded sincerely.

Muyang nodded. Together with Gaia, they created ten or eight Angel staffs and bestowed them to the Sacred World of the Kai and God of Destruction Planet. They needed to use the power of rules to create the Sacred World of the Kai and God of Destruction Planet. The angel staff could help them complete these things.

The eighteen angels tapped the ground lightly after receiving the god staff. A seven-colored light suddenly lit up. All the Angels entered the universe with a “xiu” sound and began to carry out Muyang’s orders.

From today onwards, the God Mu World will determine the Divine Calendar. Now it is He boldly announced the calendar of the God Mu World.

Every highest level of god has its own calendar. When making major decisions, it would read the year to the gods. Time Nest had “Divine Calendar”, Zeno World had “Royal Calendar”, and the Dragon God Zalama had “Divine Calendar”, such as Super Dragon Balls, was created by Dragon God Zalama at Divine Calendar Year 41. The date of Zeno’s “Royal Calendar” was on the 3,135,500,603 at exactly 1:57 o’clock.

As a new world, the calendar of the Mu God World was the “Mu God Calendar”.

After everything was done, the Mu God World had entered a stage of growth. Muyang looked at Melissa and April. He saw that they were looking at him with worship on their faces. He couldn’t help but feel proud.

“By the way, brother, my experiment is about to be completed. With the help of Gaia, the S-Cells of the people on Earth will soon be solved.” April told him about his gains in the past few decades.

After studying for decades, April made a breakthrough in the S-Cells in the body of the people on Earth, and the deadline for the crack was right in front of him.

“Oh, are you about to study it?” Muyang was a little interested.

“Yes.” April smiled sweetly.

A long time ago, they knew that the source of the people on Earth was related to the Planet Sadala’s Evolved Saiyan. It could even be said that most of the people on Earth were direct descendants of the Evolved Saiyans. They had the same bloodline genes as the Saiyans of Planet Sala. However, due to the defeat in ancient times, the S-Cells in the bodies of the people on Earth were artificially sealed with the power of the Super Dragon Ball.

This kind of seal was impossible to break because the power of the seal came from the Dragon God, Zalama. Even if he made a wish with the Super Dragon Ball again, it would be impossible to make a wish due to the conflict with the previous wish.

This situation only appeared when Gaia became the new generation of Dragon God.

Using the new Super Dragon Ball created by Gaia, April obtained a portion of unlocked S-Cells. As long as these S-Cells were used to break the secrets of the S-Cells in the bodies of the people on Earth, then the people on Earth would also have the ability to transform.

Of course, because the power of the Dragon God, Zalama, was still there, it was impossible for the people on Earth to go against the previous power of the Dragon Ball to become Super Saiyan, but they could use this opportunity to create a new “Super Earth” form.

Muyang was very interested in this kind of research. Although the so-called super earthling form was very limited to him now, who knew the final result without trying?

Maybe there was an unexpected result!

Thinking about Muyang’s current Level 10 Dimension power, if he could still transform, even if it was only one or two times stronger, it would still be a shocking breakthrough.

After instructing Gaia to cooperate with April’s research, Muyang’s figure flashed and he left Earth.

...

The sun rose from the east, and the horizon was already suffused with the white color of fish.

As the sun gradually rose, the gentle sunlight penetrated through the clouds, dyeing the white clouds in a layer of cherry red, looking full of the luster of life.

Great Azure Mountain.

After not coming back for twenty years, Great Azure Mountain was still the holy land of Earth’s martial arts. However, there were several batches of disciples among them, giving people a feeling that things were different.

This time, Muyang came back to pick up his elders to enter the Planet Wudao. As the Kami School gradually became the legend of Earth’s martial arts world, Isaac and the other elders stopped managing things since a long time ago. They lived in seclusion in the back mountains, and when they had nothing to do, they would discuss skills with each other, living a very carefree life.

When he learned that Muyang’s world had been completely perfected, apart from being happy, Isaac couldn’t help but feel a little emotional. He remembered that the first time he knew about Muyang was when his daughter Mexia died. At that time, he felt that the small world was not simple. He didn’t expect that in a few decades, it would actually grow into a world comparable to Zeno World.

Isaac often said that the luckiest thing in the Kami School was that an outstanding disciple like Muyang appeared.

“We are already used to living on Earth. Even if the environment on the Planet Wudao is better than Earth, we don’t have the heart to think about the past. Why don’t we stay on Earth and watch the disciples of the Kami School grow up one by one?” Isaac refused.

“Yeah, I don’t want to go around at this age.”

“You leave us a place to stay on Planet Wudaot. It’s good to go on vacation when you are free.” Beyaros laughed.

“Of course. Planet Wudao welcomes everyone at any time. Everyone can enter the God Mu World through the Mountainside Teleportation Formation.”

Muyang smiled and nodded. Although the environment of the martial arts planet was superior, the population was small. It was indeed not suitable for the long-term life of Ai Sa Fu and others.

Therefore, they did not insist. Next, they used their own strength to strengthen their physiques. After such a cleansing, the hidden dangers brought by Isaac taking the elixir back then were all eliminated.

Isaac and others, who had regained their training ability, laughed. They were like children.

Chapter 689

God of Destruction Planet.

Beerus held a fishing rod and stared at the lake in a daze. Not far away, Son Goku was fighting with two experts whose bodies were covered with silvery white hair. The rumbling shook over and over again. Waves rose on the surface of the lake, and the splashing water sprayed on Beerus’ face.

A few blue veins appeared on his forehead. Beerus’ eyes were full of fierce light, almost angry.

Then Beerus took a deep breath and suppressed the anger in his chest. He continued to close his eyes and rest. In the past few decades, Son Goku and the others often came to his Divine Realm to compete. It was sad to say that he was almost used to such an agitated atmosphere.

“Thunder Shock Surprise!”

“Kamehameha!!”

Son Goku released a golden light around his body. The dark blue flames and the golden light mixed together, and the energy surged fiercely. One after another, destructive moves were released.

When the two people on the opposite side saw the attack released by Son Goku, their faces became serious. They retreated a few steps and raised their hands to counterattack.

These two people were Son Goku and Vegeta from Red King World.

“Kakarot, don’t lose to you in this world.” Vegeta shouted.

“Of course!” Son Goku’s eyes shone brightly. His silvery white hair shot up into the sky. He gathered his hands together and compressed the energy. Then, he blasted it out.

“Dragon Fist!”

“Final Flash!”

Super Saiyan 5 Son Goku and Vegeta worked together. A dragon-shaped energy art wave was released. It carried an unparalleled might and a deep dragon roar as it charged towards Universe 7’s Son Goku. Crash! Waves of energy shot out like arrows. In an instant, it exploded in the air like a star.

Suddenly, the target disappeared.

A sense of crisis came. The figure of Super Saiyan Blue Evolution Son Goku had suddenly appeared beside him at some point in time. Hiss... A crystal-like flash of light flashed past like a blade. His eyes turned silver gray. Son Goku, who was using the Free Spirit, had the upper hand. He defeated Super Saiyan 5 Son Goku and Vegeta.

In the past twenty years, Son Goku had not broken through the upper Saiyan Blue Evolution, but had comprehended Free Spirit in God of Destruction Planet.

Compared to the energy Son Goku was inferior to the self of another world, but the use of the realm of Zeno World made the Super Saiyan 5 Son Goku and the others confused. They had a powerful body but could not catch the figure of the other party.

“It’s our turn now.” Vegeta and Shasley watched for a long time. After Son Goku won, they could not wait to go on stage.

Son Goku waved his hands. “Wait a minute, the battle ends here. We are not here to fight.”

Vegeta said unhappily, “I’ve fought against Kakarot. Have a taste of my ‘Free Spirit’!”

After he finished speaking, Vegeta’s pupils were dyed with a layer of silver gray. His movements became mysterious. The Super Saiyan 5 Son Goku and Vegeta could not stop him in time and could only fight with him. The Super Saiyan 5 Vegeta was also a proud person. Seeing that the other him was so rude, the more he fought, the angrier he became. Gradually, it became a big melee.

The intense battle affected the entire God of Destruction Planet, directly tearing a hole in the sky.

“Tell me, what are you doing here?” Vegeta was panting, and he was greatly satisfied after the battle.

Son Goku said, “It was Jiren from your world who invited us here. He wants to solve a race called the ‘Demon Creature’.”

“Just like the monsters in the ‘Dark Demon Realm’?” Vegeta frowned.

“It seems different.” Son Goku shook his head.

At this time, Beerus’ voice was heard. “The monster that Jiren mentioned is very mysterious. You guys better be careful. Jiren has a teacher called Jieqing. He was killed by the monster back then, so he hates the monster very much. I’m afraid that he might have discovered something when he invited you guys here.”

“Lord Beerus, is that monster very powerful?” Son Goku asked.

“I don’t know. This is a matter of Universe 11. If you want to ask, go ask Belmond.” Beerus sat impatiently by the lake. Son Goku had caused him to not even catch a single fish.

“Then let’s go to Universe 11 and find Jire.”

After saying that, Son Goku and the others directly teleported away, heading to Universe 11.

“Tsk, even I don’t know the origins of those monsters. If Son Goku and the others go, something bad might happen!” Beerus put away the fishing rod and picked up the empty bucket, ready to go to Universe 11 to take a look.

“Ah, Lord Beerus, your character has become much better. In the past, you didn’t even want to care about such things.” Whis’ figure appeared next to Beerus. Beerus bared his teeth and said, “What else can we do? If something happens to Son Goku and the others, Universe 7’s evaluation will drop again.”

“Hehe, they are from the Time Patrols. It won’t be so easy for something to happen to them.” Whis narrowed his eyes.

“What the hell? I don’t even know how these Saiyan people train.”

Beerus knew that Whis admired them very much. In the past, he had always planned to let Son Goku to be God of Destruction Candidate. He was very ashamed to say that. After Son Goku and the others comprehended the Free Spirit, Beerus could only fight one of them to a draw. Such a terrifying training speed shocked him, and he also felt a little ashamed.

“But after Quitela’s death, my mental state has indeed become a lot more peaceful. Recently, there has been a lot of growth in the ‘self-improvement.’”

“Oh, then I have to congratulate Lord Beerus.”

Whis felt gratified. Beerus had finally made progress in tens of millions of years.

Just as Beerus was about to leave for Universe 11, a terrifying crack suddenly appeared in Universe 7’s God of Destruction Planet sky. A suffocating aura emanated from the crack, and it continued to rise. It was as if the entire world was about to be torn apart.

“What’s going on” Beerus looked at the sky in shock. God of Destruction Planet seemed to have been torn apart.

Whis’ expression suddenly became serious. He hurriedly tapped the Angel Staff a few times to repair the universe. After checking carefully, he did not find anything abnormal.

“It wasn’t Universe 7 who had a problem.”

“Could it be with Lord Zeno?” Beerus panicked. This was even more serious than the incident with Universe 7.

“It wasn’t Lord Zeno either.”

Whis’ eyes became deep as he muttered, “Could it be the world on Muyang’s side?” Thinking of this, Whis immediately had Destruction God Beerus maintain Universe 7’s stability. He himself headed to Zeno’s Palace and then enter God Mu World through the passage of Zeno World.

As soon as he entered the God Mu World, he saw Planet Wudao was in a mess, as if it had suffered a destructive attack. The entire planet was covered in cracks, as if it was about to disintegrate. It had to be known that the status of Planet Wudao was equivalent to Zeno World’s Jellyfish Planet. It was

not an exaggeration to say that it was the core of the God Mu Palace. The hardness of the planet was something that even an angel could withstand.

Whis came to Muiyang's side. He was recovering the original appearance of the Planet Wudao, and soon the Grand Minister also rushed over.

“What’s going on? Why is there a terrifying power affecting the outside world?”

Muiyang shook his head. “I just came back.”

“Lord Muiyang, it’s all my fault. There was an accident when I was experimenting with the S-Cells with April. My power clashed with the power of the Dragon God, Zalama. It caused the time and space to shatter.”

“Tell me slowly. What exactly happened?” Muiyang comforted Gaia.

“When I was doing the experiment with April, it went very smoothly and I already obtained the complete S-Cell reagent... Later, I planned to experiment on human body. April said that she wanted to open the S-Cell restrictions on her body, but who knew that she would actually go berserk. April was swept into the dimensional rift... and disappeared.”

Hearing this, Muiyang frowned deeply. “So, April has broken through the restrictions, and your strength has clashed with the power of Dragon God Zalama.”

“Yes.” Gaia lowered her head in guilt.

This was a competition between two Super Dragon Balls, which caused the power of the two Dragon Gods to collide.

Muiyang touched Gaia's head and comforted her, “Don't worry. As a member of the Time Patrol, April has the power of time. It won't be so easy to get into trouble. I will bring her back soon.”

Chapter 690

“After April was sucked into the spatial rift, she should have been lost in a certain space and time. I will bring her back as soon as possible. During the time when I am not here, you must protect the God Mu World well. Muiyang thought for a moment and made the arrangements.

Gaia said, “Yes, I will protect this place well. Lord Muiyang must bring April back.”

“Don't worry.” Giving Gaia a comforting look, Muiyang said to the Grand Minister, “I have troubled you all to make another trip. I am sorry for the impact of Zeno World.”

The Grand Minister smiled slightly, his expression calm. “It doesn't matter. The existence of the God Mu World is also to stabilize the Zeno World. As long as the God Mu World is fine.”

“I am interested in the S-Cells you are studying. If I remember correctly, it should be the cells that allow Saiyan to gain the transformation ability. Although the

increase in the realm will be weaker and weaker, from the fact that April can trigger a time and space crack, the effect of the enhancement is also good.”

“The main reason is that Gaia’s power conflicts with Dragon God Zalama.”

Muyang was not sure how much the power of April had played in the process of tearing open the time and space crack.

“Hehe, you can’t say that. The higher the realm, the more it is like crossing a wooden bridge. The other paths of the great mortals are also like this. I have a deep understanding of this. Maybe studying S-Cells will be a good way.”

The experienced and knowledgeable Grand Minister clearly understood that the path of training and the path of strength would become more and more difficult after reaching the higher levels, so there was no denying that there was any way to increase it.

This was the difference in vision brought about by the difference in levels.

In the lower levels, whether it was the Super Saiyan transformation or the Giant Ape Transformation, they were all amazing methods to deal with the enemy. This was because the strength of the universe level was generally low. Every increase in strength could increase the survival rate and the effect of killing the enemy. For the Super Saiyan Transformation to suddenly increase strength by 50 times was simply a mythical miracle. At least in the eyes of Kai, this was the case.

In the eyes of Old Kai, although the Super Saiyan Transformation still had some merits, it constantly pursued the overlapping of strength. And ignoring the norm and realm of the body was becoming evil, this was the common knowledge of the universe level gods.

Because these universe level gods had already stood at the height of the universe. In their eyes, only the path of the realm that was compatible with the universe was the right path.

But in the eyes of the higher level Grand Minister, they saw more, and everything seemed to return to its original state.

When the realm path reached the extreme, pursuing the path of strength was a way to make up for the short.

If it was a Level 10 Dimension, it could also increase strength through transformation. Even the Grand Minister were willing to try it, because in the end, all paths would lead to the same destination. What they pursued was the same result, and that was the Legendary Level 11 Dimension. The realm, strength, rules, no matter which path, it was all similar.

Muyang’s realm was still a bit lacking compared to the Grand Minister, but he could understand the meaning of the Grand Minister’s words. Thus, he nodded in agreement.

Ever since Muyang started training, he had always placed emphasis on the importance of the realm. Especially when he entered God of Destruction Planet’s training when he was young. Under the influence of Whis, he viewed the realm very seriously. However, he was different from others. Because there was a grotto-like Acceleration World in Muyang’s body, his grasp of the world’s rules also increased in sync every time he advanced.

Now that Muiyang had reached the Level 10 Dimension, he had actually arrived at the same time as the path of rules and realm. This was more comprehensive than the Grand Minister or Zeno.

If he could open the S-Cells in his body in the future, perhaps his path of strength would also increase along with his breakthrough.

To be honest, this was only Muiyang's personal guess, but this wonderful guess was so colorful and eye-catching that it triggered the association.

After that, Whis and the Grand Minister confirmed that the God Mu World was fine and returned to the whole king world. When they left, Whis told Muiyang that Son Goku and Vegeta of Red King World had received the invitation of Jiren and came here because of the reappearance of the "Demon" in Universe 11.

After listening to it, Muiyang expressed that he knew. Then he used the huge power in his body to break through the space and time and entered the space-time rift alone.

...

The sea breeze was swirling, and the beautiful sea scenery was reflected in her eyes. This was an island above the ocean. The afterglow of the setting sun shone through the clouds and dyed the sea with a bright red evening scenery.

Suddenly, a scarlet crack appeared in the void, and a graceful figure fell out of the crack.

April curled up in pain and lay on the grass soaked in dew. The energy in her body was constantly jumping up and down, and she was restless. She could only concentrate and try her best to keep her body from collapsing. But fortunately, April had the cells of the demon in her body. The huge devouring ability allowed her to slowly absorb the violent energy.

After an unknown period of time, April's painful expression became calm.

"Phew..."

She heaved a sigh of relief. When she came back to her senses, her sweat had already soaked the clothes on her body. When she thought about how her strength had gone berserk just now, April couldn't help but feel a lingering fear.

"The experiment was a success. The S-Cells actually increased my strength by a full 10 times." Feeling the violent power surging through her body, even if she didn't undergo the transformation, she could still know that her strength had increased.

Although it did not increase by 50 times like the Super Saiyan transformation, 10 times was already an impressive number. After all, the Super Saiyan who also possessed S-Cells, after becoming a Super Saiyan, the difference between Super Saiyan 1 and Super Saiyan 3 was only 8 times.

This unexpected increase in strength directly allowed her strength to rise from the God of Destruction Level to almost the Angel Level.

However, the danger within was also extremely strong. If not for the fact that she had the Majin Cells in her body, the violent power might have directly torn her apart.

“The people on Earth definitely can’t withstand this kind of tear, so if I want to awaken the S-Cells, I need to further study it. The reason why I was able to succeed was that apart from the Majin Cells, the black stone composition scattered in my body also played a crucial role. It allowed my strength to stabilize in a permanent state.”

April returned to her normal state. She stood up and looked around her surroundings. She did not feel any powerful energy reactions from this planet. There were even no lifeforms with power level that exceeded 1000.

“This is a Low-Level Planet?” With this judgment in mind, April rose into the air, ready to find a way back.

From the setting of the sun, this place belonged to the east side of the planet.

Suddenly, boom boom!

The sound of a series of guns broke the peace of the island and attracted April’s attention. She looked at an island, her good eyesight allowing her to see the scene of the island in the distance.

More than a dozen speedboats patrolled around the island. There was a fully armed team standing on the top. They were all in gray uniforms. They looked like both armies and robbers. When April saw this, she frowned slightly. This soldier outfit reminded her of some bad things.

“Earthling, and dressed in the Snake Charmer Legion... Could it be that I have returned to the past time and space, or is this another parallel world?”

April’s expression became unsettled. One had to know that the Snake Charmer Legion could be said to be April’s mortal enemy. Her father, Claren, was killed by the Snake Charmer Legion.

Thinking of this, April hurriedly flew towards an island. The scene was exactly the same as the one in her memory.
