

## **Ball God 691**

Chapter 691

“Father...” April stood next to Claren’s corpse. She pursed her lips, a hint of sadness in her eyes.

Her thoughts spread to the other side of the small forest. In a small cave, she found a little girl carrying a school bag and a candy can. She was about four or five years old.

Seeing the little girl eat a candy, April’s eyes became misty.

She knew that this was the most helpless time when she was young.

April wanted to come into contact with her past self, but she found that it was just a phantom, not a real body. Of course, in the eyes of others, this “Little April” was absolutely real. However, for April, who was a member of the time and space patrol, this was a projection.

This was really the past time and space.

Because after becoming a member of the Time Patrol team, April had already unified in time. In the past, she was just a phantom that maintained history.

“At this time, I will stay in this small cave for three days, and then because I am too hungry to bear, I went to the village house on the island to find food... An old granny gave me a full jar of honey.” Thinking of the past memories, April fell into a sentimental state.

At this moment, April remembered something and disappeared from the island in a flash.

...

Other-World.

The golden color was completely different from that of the World of the Living. The sky was light pink, and the ground was full of golden clouds that looked like cotton candy.

On a long and narrow path, a white smoke-like soul was being maintained by the staff of the Other-World. They lined up to wait for the judgment of King Yemma. Of course, those who could accept the judgment of King Yemma were definitely not nobodies. Ordinary people on Earth who had not reached a certain level of power level were not even qualified to meet King Yemma.

“This is the Other-World. It is a little different from what I imagined.”

April’s figure appeared in the Other-World. This was the first time she had entered the Other-World of the North Area, so she was not clear about the appearance of the Other-World. However, she had been to the Other-World of other worlds before, so she was familiar with it.

Soon, she found King Yemma. At this time, King Yemma was holding a judgment book to judge a soul. Seeing April suddenly appear, King Yemma was shocked. “Who are you? How did you come here? Hey, there is no halo on the top of your head. It is actually a person of the World of Living.”

King Yemma flipped through the book in his hand, but he did not find any information about April.

“There is no need to find me. You can’t find me.” April said lightly.

How could she, who did not even exist in the Time Axis, be recorded in a judge of the galaxy of management?

“Eh, I really can’t find it!” The book in King Yemma’s hand was the verdict of the North Area. All the people who entered the North Area, no matter which star region they came from, no matter if they were alive or dead, would be recorded in it.

Since there was no such thing in the verdict, there was only one possibility: the person in front of him was a god, and his status was even higher than that of King Yemma. After all, even the King of the Demon Realm, Dabura, would have to accept King Yemma’s trial after he died.

“My lord, what brings you to the Other-World?” King Yemma’s attitude became better.

April slightly released the divine power in her body. In God Mu World, she was also a top god, not to mention that she was almost equal to an Angel. When that trace of divine power was released, it immediately surged like a vast ocean. An ancient and drawn-out charm filled the entire Other-World. If not for April properly controlling the power on her body, this divine might would have been transmitted to the Grand Kai’s Planet of Heaven.

Of course, this was not what April wanted to see. After all, the duty of the Time Patrol was to maintain the stability of history as much as possible. She could not take the lead to destroy it.

As he endured the divine might that was as vast as a tsunami, cold sweat dripped down from Yemma’s forehead. He thought to himself, “Where did this goddess come from? Her divine power is even deeper than the Grand Kai.”

In the heart of King Yemma, Grand Kai was an amazing god, and the universe level gods above were rare even in tens of thousands of years.

“I need you to find two souls for me. Their names are Claren and Fiumia. They come from Earth, and they are all ordinary people. They should have died not long ago.”

“Okay, I will do it immediately.”

King Yemma nodded and immediately asked the staff to bring the people April was looking for.

Soon, the staff brought two masses of white gas into King Yemma Palace. April’s eyes flashed, and two streams of power shot out, restoring them to their human form. The man had golden hair, and he was handsome. The woman had brown hair, and her young face was quite similar to April’s. These two were April’s deceased parents.

Claren and Fiumia opened their eyes in confusion. Their minds were still in a state of confusion. At this moment, they saw April standing in the main hall, wearing a white research suit. A slight feeling arose in their hearts.

“You are...” Fiumia looked at April.

This girl looked like him, even the color of her hair was the same.

April was just about to explain her identity when she realized that King Yemma and the others were still around. If she said too much, it would affect the course of history. She said to King Yemma, “I will take these two people away. Just pretend that nothing happened today.”

“Yes.” King Yemma replied carefully.

Although he did not know why this goddess wanted to take away the souls of two mortals, it was better not to ask about it when it involved the great god.

April nodded. An invisible hand of energy swept over, bringing the souls of Claren and Fiumia to the corner of the Other-World.

The golden auspicious clouds floated around. As far as the eye could see, there was a golden light. April’s parents looked at her blankly. Then, after April’s explanation, they finally knew something.

“...Although Sipriel was sealed in ice after she fell into the sea, she would not encounter any danger. In a few decades, there would be an examination boat that would rescue her and have her own family. “

After roughly explaining what happened in the future, April took out the scroll that Chronoa had bestowed to the members of the Time Patrol. The power of the “Time and Space Ban” was sealed within it.

The Time and Space Ban could cover a certain period of time in the past to a certain extent. During this period of time, the people of the Time Nest could deal with the problem. They could change history slightly without serious consequences. However, the premise was that what happened in the air during the seal could not be too different from the original history. Otherwise, even with the power of Supreme Kai of Time, there would be a big problem.

April’s parents were just ordinary earthlings. They had nothing to do with the impact of history. Under the power of Supreme Kai of Time, they were quickly ignored by the time and space mechanisms.

In the past, this was something that could only be used during missions, but he never expected that April would use it on her parents.

“Father, Mother, I will seal you in my body. When I return, I will unseal you. When that time comes, you will be able to see Sipriel.” April said.

“I didn’t expect you to experience so much. It’s all thanks to the young man called Muiyang.”

Fiumia was a little emotional. The experiences of the past few days were still echoing in her mind. She did not expect that the young man she met in the southern train could achieve such great achievements in the future. It was a great fortune for April to follow him.

A trace of happiness appeared on April’s face. “Big brother has always been very good to me.”

When April’s parents saw this, they could not help but smile. Then, with April’s ability, Claren and Fiumia were turned into two sweet things, and then their small hearts were sealed in the alternate dimension in their bodies.

...

After solving the problem of her parents, April suddenly felt a lot more relaxed. When she returned to the World of the Living, she went to the Superpower Academy in Southern Region and secretly glanced at Mexia, who was still learning superpowers in the Superpower Academy.

Perhaps it was because of the influence of Melia and Melis, this Mexia was indeed a phantom, and it was not real.

After leaving the Superpower Academy, April returned to the island where she had wandered when she was a child. She sat on a big tree with her chin up and looked at the scene by the small stream from afar.

At the side of the small stream where the water was flowing, the thin and weak figure of "Little April" was squatting by the stream with her schoolbag on her back, and her small heart was washing her small sugar jar with water.

The neat clothes were also stained with dirt because they had been wearing it for too long, and some places even had holes in them. The stomach was still growling, and tears were swirling in the eyes.

"Weak, pitiful, helpless... The me in the past is too pitiful."

April shook her feet and looked at it with her chin in her hand, as if she was watching a historical documentary, giving comments from time to time.

Chapter 692

In the past time and space, "Little April" was still wandering. The kind old woman gave her a jar of honey, making her happy for a long time. She crept into a merchant ship heading to the mainland, but after getting off the ship, she lost her way. Until she met her best friend, Little Blue Dragon Growlie.

All of a sudden, the scenes in April's memory developed.

The whole process was like a catwalk, like a recording tape. April did not intervene the whole time, but quietly hid to the side to watch.

Even when she saw the young "herself" being chased by the Snake Charmer Legion, she did not show up, because she knew that "Muyang" would soon appear to save her who had gone over.

Sure enough, not long after, the little blue dragon was lying on the ground under the spear attack of the Snake Charmer Legion. Blood was flowing, and at the critical moment, "Muyang" descended from the sky and bravely repelled the Snake Charmer Legion.

Next, he should be saved and raised by "Muyang".

"If I hadn't met my brother back then, I would have been in trouble." April muttered to herself, unable to imagine what would have happened if Muyang hadn't appeared.

They might also escape from the hands of the Snake Charmer Legion or be captured by them, and then force themselves to work for them.

A little child who was more than five years old, no matter how she lived, she must be full of hardships. It was said that he would die young in other worlds, and the Red Ribbon Army where Dr.

Gero was in when he was young was born from the Snake Charmer Legion. When she thought about the Android 21 who had connections with Dr. Gero, a series of karma was connected.

April could not help but break out in cold sweat. This was not the experience she wanted.

Fortunately, she met her brother in this world.

After a moment of lingering fear, April felt dispirited and prepared to leave Earth.

“Sure enough, the brother in this world is also an image, only maintaining the right track of history!”

She sighed in her heart. April invisible appeared beside “Muyang”. Just as she was about to leave, “Muyang”, who was clearly an image, suddenly glanced in her direction and her mouth moved a few times.

“Found you...”

When such a voice entered April’s ears, April was suddenly shocked. When she looked again, she did not find anything wrong.

“Big brother seemed to have spoken to me just now. Could he see me?”

“Big brother is now a Level 10 Dimension expert. He, who controls the God Mu World, might have the ability to penetrate through the ancient times...” Watching “Muyang” who had saved the little blue dragon in the past and then leaving this vast plain with her childhood, April was stunned and did not come back to her senses.

Then he smiled and felt that he was thinking too much.

...

On the other side, after Muyang entered the space-time tunnel, he constantly searched for traces of April. He immersed his mind into the space-time, and his thoughts constantly spread. Countless thoughts flashed through his mind like lightning. Suddenly, Muyang opened his eyes, and there was a light in his eyes.

“I found you.”

The corners of his mouth curled up into a smile. He turned around, and the tide surged. Space and time suddenly boiled. A door suddenly opened, and Muyang stepped into it. He disappeared into the vast space and time.

On the moon, the uneven impact pit was covered in dust. The surrounding temperature was very low, and the weak gravity was only one-sixth of the earth, making it impossible for any signs of life to appear here.

April sat alone on a protruding stone in a ring-shaped pit. She dragged her chin and looked at the blue planet in the distance. Although she was a member of the Time Patrol, because she was not accepting missions to enter the past world, it was somewhat troublesome to return to the original space-time.

“It is too difficult to use scientific methods to connect to the future space-time. I don’t need to try the time machine...”

Under the restrictions of the laws of time and space in the entire universe, the Time Machine was essentially just a space shuttle. Even if it managed to cross time occasionally, it could only go back to the past and create a parallel world. It had never been heard of being able to reach the future. However, at this stage, April had no other way.

The only universe with the Time Machine in this entire universe was Universe 12. The Time Machine was managed by Supreme Kai in the Universe 12.

With my strength, the God of Destruction is definitely not my match. Even if I met an Angel unfortunately, I can still block a few moves. It is not difficult to get the Time Machine, but stealing things is definitely not my style. Oh right, Android 21 had once developed a space-time spaceship. There is no reason why I can’t do it.

Android 21 could be said to be completely the same as her. The knowledge she had was no less than that of Android 21. In addition, as a member of the Time Patrol team, her sensitivity to space-time energy would be very high.

April thought about it and found that in the end, she still had to develop a space-time spaceship to get rid of the current situation.

Then she would do it. April made up her mind and began to develop a space-time spaceship. She teleported back to Earth and collected all kinds of materials. She spent a period of time building a research room on an uninhabited island. Just as she set up a framework and was ready to run it officially, she found that there was an extra person in her research room.

“Brother?” April whispered in disbelief.

Muyang said, “It’s me. It won’t be easy to find you.”

April saw that it was really Muyang who found her and quickly rushed over. “How did brother find me? Could it be that after the Level 10 Dimension, you can ignore the entropy attribute of the timeline?”

“I am not Chronoa. How can I have such ability? Moreover, even if Chronoa wants to find you in the vast time, it is not easy.”

“Then how did brother find me?” April’s beautiful eyes were filled with curiosity as she leaned into Muyang’s embrace.

“Fortunately, you went to see the ‘me’ of the past, which allowed me to sense it. However, because the time of contact was too short, it took a long time to locate your coordinates.”

April opened her mouth. She did not know what to say. It turned out that the ‘Muyang’ phantom really had the consciousness of her brother at that time. Didn’t that mean that her brother could have found her long ago if she had come in contact with him earlier? Then why was she still studying the time spaceship here?

Seeing April's conflicted expression, Muyang found it funny. He looked at her again and found that her energy had reached the level of an Angel.

Could it be that the amplification of S-Cells was really so strong?

Muyang thought thoughtfully and then glanced at April's crude research room. "The research equipment here can not be left behind. Otherwise, it will interfere with the time and space of this world."

"Then destroy it." April knew that it was not appropriate to interfere with the past.

"Okay." Muyang nodded. A silver light flashed. The huge research room was illuminated by the light. In an instant, it seemed to have experienced an irreversible destruction. Everything turned into crystal powder and disappeared.

"Be careful when you study S-Cells in the future. I don't want any accidents to happen to you this time." Muyang said gently. April nodded playfully. "I know, but the research this time is very fruitful. I have successfully opened the S-Cells in my body. Through this research, I found that if other people on Earth want to open it, they need something else."

"What is it?" Muyang asked curiously.

"Blackstone."

"It's this again." Muyang touched his chin and murmured.

I don't know what black stone is. It can allow android to have eternal energy. Now, opening S-Cells actually requires it.

"Its constant nature can withstand the terrifying impact of the opening of S-Cells. Of course, even so, it means that all the people on Earth have a chance to open S-Cells. After all, the energy left behind by the Dragon God Zalama has almost been engraved into the rules. Only a few people can open S-Cells."

"I understand. It seems that I also have to study what this 'Blackstone' is."

Chapter 693

A few days had passed since Muyang found April and learned of the importance of blackstones.

At this time, Muyang had already brought April back to the original time and space. Because of the sudden increase in energy, April did not continue her research these days. Instead, under Muyang's guidance, she began to familiarize herself with the power in her body.

...

In the sky above the empty and deep Planet Wudao, the towering God Mu Palace stood.

Suddenly, with the God Mu Palace as the center, a vast and mighty energy radiated in all directions. Soon, the pressure covered the entire Planet Wudao. Then, with a loud "boom", a snow-white pillar of light rose from the spot.

Looking at the pillar of light that soared into the sky, Melissa's eyes revealed a look of envy. This pillar of light meant that April had officially stepped into the level of an Angel from now on. This was the first person in the God Mu World who had stepped into the realm of high-level gods with his own strength.

Even in the entire universe, April might be one of a kind.

Slowly withdrawing the aura from her body, April, who was in the form of a demon, floated down. Her pink and white hair fluttered, and every strand of hair was sparkling and translucent, filled with a fluorescent light. Her temperament had undergone a drastic change in the past. In the past, she was charming but revealed a bit of holiness. Now, she had the aura of a true goddess that was far away, making people not dare to blaspheme her.

Melissa walked forward and couldn't help but pinch April's body. She touched it and sighed from time to time.

"It's different. It's completely different. This is a Level 9 God. It's a pity that I don't have S-Cells like the ones on Earth. Otherwise, I can break through and see."

April rolled her eyes at her. "You don't know how high the risk of awakening S-Cells is."

Of course, Maylia was just sighing with emotion. She did not really want to do anything. In fact, she was already very satisfied with her physique.

After playing with Melissa for a while, April flashed and returned to her human form. Her brown hair was still shining and dazzling, emitting a divine light.

At this moment, two figures came from the entrance of the palace. There was a golden halo on their heads, proving that they were souls.

They were April's parents, Claren and Fiumia.

A few days ago, when April returned to the God Mu World, she brought her parents out of the alternate dimension in her body. From a selfish point of view, April hoped that her parents could be revived on Planet Wudao. After all, everything in this world was under Muyang's control, and it would be more beneficial for the future.

However, after discussing it with her parents, they decided to return to Earth to resurrect.

"Mom and Dad." April called out affectionately.

"April, we want to see Sipriel." His parents missed their other daughter.

"Brother."

Muyang nodded. "Then let's go back to Earth."

A smile appeared on April's face. "I'm looking forward to seeing her parents' expressions."

"When Sipriel went missing, she was still too young. Her memories of her childhood were long blurred."

Even when it came to his sister, Sirius did not remember it. Otherwise, he could have known her for several years in advance. He would not have waited until Brubs accidentally discovered that she looked similar to Sipriel before he finally confirmed it.

“I can help her recover her past memories.” Gaia suddenly floated over.

“There is no need to go through so much trouble. Just maintain your current state.” April’s father, Claren, knew that Gaia had an extremely high status, so he did not dare to trouble her.

“It’s alright, it’s just a matter of raising my hand.” Gaia waved her hand, as if she wanted to make up for her previous mistake. In the past two days, she had been especially warm to April, and even treated her parents politely.

April’s parents were naturally flattered. One had to know that although this blue-haired little girl in front of them was small, she was a great god like the creator!

Muyang looked at them quietly. Seeing that they had more or less finished chatting, he raised his hand. In an instant, a bright light flashed. He summoned Lazuli, Lapis and the others. “The few of you will go to Earth with us.”

“Okay.”

Lazuli and Lapis nodded at Claren.

Then, under the leadership of Muyang, the group teleported out of the God Mu World and reappeared in a city in the southern hemisphere of Earth.

After the couple retired, Sipriel lived on a small island that they had lived on before. Although the two of them were already very old, with the help of the dragon pearl, they still maintained their youthful appearance.

When Muyang brought April, Sipriel and her husband Nick were feeding wild animals on the island, just like Android 17 of the other world.

Seeing her parents again, Sipriel was a little confused. Then, with the help of Gaia, she recovered her childhood memories. Her eyes immediately began to water.

“Dad, mom!”

The Claren couple was also very excited to see their little daughter. The Sipriel of her hair was the same as Claren’s. Both of them were golden. The family had not seen each other for nearly a hundred years. Now, they were finally reunited.

“Hehe, next, I will revive you.”

Gaia’s eyes had completed the crescent shape. Two blue electric arcs shot out from her fingers. The Dragon God power entered the Claren couple’s body. Immediately, the circle of light that symbolized the soul disappeared and their bodies were reborn.

When everything was done, Sipriel hurriedly invited Muyang and the others to their house to sit.

To the Claren couple, this period of time was full of disbelief.

Two days ago, they were still rushing to the south when they met the young man named “Muyang”. Now, unexpectedly, after a hundred years, their two daughters had grown up and married. Everything seemed to be a dream.

They were very satisfied with their two son-in-law. The husband of Sipriel, Nick, was also a scientist like them. They could be considered peers. April’s husband, Muyang, was a young man they had met before. Now, he was a high and mighty god. What else was there to be dissatisfied about?

The kitchen immediately became busy. The sisters and their mother, Fiumia, prepared the ingredients together. Muyang chatted with Claren and Nick in the courtyard. As they chatted, they talked about Lazuli and Lapis.

“These children have been married for thirty years. When will they have children?” Nick felt that his hair had turned white, and he could not wait to have grandchildren.

Even if practitioner could not easily give birth to offspring, decades were too long.

“Wait slowly.” Muyang smiled.

Back then, when he and Melia were giving birth to Muqiu, he had worked hard for an unknown amount of time before succeeding. At this time, Lazuli was even stronger than they were back then. It would be even more difficult to give birth to a descendant.

Nick asked Gaia, “Do you have any ideas about this?”

Gaia was a little dumbfounded. “There are times when the Dragon God can not do it.”

Nick let out an ‘oh’ and stared speechlessly at the siblings. He seemed to be complaining about why they gave birth to children when they were not physically weak, and then poured wine for Muyang and Claren in a depressed manner.

The siblings shook their heads with a bitter smile, and could only pour wine for them.

...

While Muyang and his family were reunited on Earth, in the Universe 11 side, Jiren and Son Goku had already found the nest of the Demon Creature. Just as they were trying their best to destroy the Demon Creature, a deep spatial passage suddenly appeared in the depths of the Demon Creature nest...

#### Chapter 694

In Universe 11, Son Goku and Vegeta and others came to Demon Creature after receiving an invitation from Jiren. After they found the Demon Creature’s nest and fought for a while, they opened the Demon Creature’s nest. However, something unexpected happened.

After the Demon Creature nest collapsed, a dark and dark hole appeared in the depths of the starry sky. It was unknown where the black hole led to, but there was an uncomfortable aura coming out of it. The dark color made people shudder.

“It really makes people feel uncomfortable.”

Vegeta frowned and looked at it seriously. He released a ki wave toward the Demon Creature channel, but this ki wave was quickly absorbed. The huge energy wave did not even splash up.

“Be careful, this place gives me a sense of danger.”

Suddenly, a pitch-black energy splashed out from inside. Son Goku quickly pulled Vegeta to the side. A low humming sound immediately sounded, like a strong corrosive acid splashing on the cloth. The space where Vegeta was previously was gradually being corroded.

If this splashed on a person, even a god would be turned into ashes in an instant.

“Wow, it’s still powerful. We should retreat further away.”

“It seems to be devouring space.”

Son Goku looked at the dark passage of the demon cave. “Jiren, how could such a dangerous thing appear in your universe?”

Jiren’s large black eyes stared at the ferocious and distorted hole in the void. His face was ugly.

“The back of this passage is definitely not Universe 11. No wonder we haven’t found the nest of the Demon Creature in these years. It is actually outside the universe.”

In addition to the proud team led by Jiren, there were also Son GOU from Universe 7, Vegeta, Shasley, and Son Goku from Red King World World. These people were all top experts, but facing the sudden appearance of this channel, everyone was helpless.

What was more, this passage was still constantly swallowing the universe starry sky, and it was going to expand further.

Toppo blew his beard and glared. He realized the seriousness of the matter and said, “The matter here has already exceeded our scope of handling. It is better to let Lord Bellmond handle it.”

Jiren clenched his fists and nodded with an ugly expression. He then contacted the God of Destruction of Universe 11, Bellmond.

After about half an hour, the clown of Universe 11, the God of Destruction, Bellmond, and the Angel, Marcarita, crossed the void and rushed over.

“Jiren, is there anything else you can’t handle?” The clown joked after God of Destruction, Bellmond, came.

Jiren nodded and pointed at the black hole behind him that had already expanded a circle. “Lord Bellmond, look...”

Upon seeing this, Bellmond narrowed his eyes. A ball of light purple destructive divine energy condensed in his hand. Then, he threw it at the hole. However, after the purple destructive divine energy was released, it did not cause any splash. It was quickly devoured.

“Eh!”

Hammond exclaimed in surprise. His expression immediately turned solemn. He tried a few more times, but he was still unable to destroy the passageway.

At this moment, Marcarita's elegant voice rang out, "Lord Bellmond, you don't have to try. Destroying divine energy can not destroy this thing. Its power has already exceeded the scope of the Level 8 Dimension."

Bellmond asked Marcarita, "What do you think?"

Marcarita grabbed the angel staff and tried to probe the black passage. The magical ripples representing the rules of the universe gathered into a golden net. After a while, the net disappeared. Marcarita shook her head and put away the angel staff.

"Even you can't do anything to it?" Bellmond was shocked.

Marcarita thought for a moment, then said, "The other rules of the universe level are no longer effective against it. It is very clear that the world behind this hole is extraordinary. Lord Bellmond, and Jiren, Son Goku, you guys leave first. I want to report this matter to Lord Grand Minister."

"Alright, we will leave now. You have to be careful."

For the matter that needed the Grand Minister to deal with, Bellmond knew that it must be quite serious. His destruction of the divine body was small, so it was inconvenient for him to participate. Son Goku and the others really wanted to see what exactly was going on, but under Marcarita's persuasion, they had no choice but to leave.

Not long after, the Grand Minister teleported over from the palace and looked at the squirming space in the void. A flash of lightning flashed in his pale purple eyes.

"Lord Grand Minister, did you see anything?"

The Grand Minister nodded. "It is the energy of Universe 0, but why is their power here?" The Grand Minister closed his eyes and used the laws of the entire universe to forcefully break through space. A thought reached the back of the demon cave and saw a grand and majestic world.

"So that's how it is. Universe 0 established a spatial passageway in various parts of the universe a long time ago to continuously absorb the energy of the entire universe. And behind that is the nest of Universe 0 !"

"You mean this passageway is connected to Universe 0 ?" Marcarita said in shock.

The tentacles of Universe 0 had actually reached the Universe 11. If this had not been discovered early, wouldn't Universe 11 have been sucked clean? Then as an Angel of the universe, she would have committed a great sin.

The Grand Minister smiled faintly. "Fortunately, the discovery was timely and did not let their plan succeed. However, this is a good opportunity. I should let those guys who have been eroding the entire universe for a long time see how powerful they are." "Marcarita, you have to stabilize the Universe 11. Next, I have to invite some friends."

After saying that, the Grand Minister stretched out his hand and pointed at the void. Several golden rays of light were shot in different directions. Some went to the Red King World, some went to the Time Nest...

...

On Earth, Muyang and April stayed at Sipriel's home for a period of time before returning to the God Mu World. April's parents settled down on Earth, and all matters were settled by Dr. Brubis's family. Speaking of which, they were also relatives.

"Brother, I am going to study the method of fusing the black stone and the Dragon God's power. If I succeed, I can unlock the S-Cells further. You have to bless me to succeed as soon as possible!" April, who was in a good mood, leaned against Muyang, her smile as bright as a flower.

"Do you want me to find some more blackstones for you?"

"No need, there is still a little left from the last time we gathered." April smiled slightly. When they first got married, they had traveled to various worlds and collected a lot of blackstone along the way. Some of them were used as research materials, and there were still a few left.

Muyang nodded and gently hugged April's waist. At this time, a golden light came from the passage door on the other side of the palace to Muyang.

After receiving this message, Muyang was a little stunned. "The Grand Minister actually found the nest of Universe 0!"

Since the last time he faced the Dark Dragon God, Pulred and the others, Muyang was extremely afraid of them. Even if they had also reached the Level 10 Dimension, it could not reduce his worry about Universe 0. This group of evil and tyrannical fellows had long targeted the God Mu World. If they did not completely solve this hidden danger, Muyang was like a fishbone stuck in his throat, very uncomfortable.

"I have to leave for a period of time. Have Gaia cooperate well with you. Don't make any more accidents this time."

"Got it!" April rolled her eyes at Muyang.

Muyang laughed loudly and patted April on the head. After that, he found Melissa and told her about it before teleporting away from the God Mu World.

## Chapter 695

After passing through the barrier between the universe, Muyang quickly arrived at the Universe 11. According to the address given by the Grand Minister, he teleported again. His figure had already appeared in the starry sky that was now shrouded in dark demon energy. The surrounding area of tens of millions of kilometers collapsed inwards, and the edge of the space showed a strange distortion.

When he arrived next to the Grand Minister, Muyang discovered that he was the first to arrive. Standing next to the Grand Minister was the graceful Angel

Muyang nodded at Marcarita and looked at the huge demon channel behind her. “Is that the base of Universe 0?”

The Grand Minister said, “It should be. It is a vast and majestic world. Its scale is not any worse than the universe in the entire universe.”

“Then it should be.”

Muyang nodded and released his will. The channel was full of chaotic energy, but this energy could not stop the power of the tenth dimension. His will penetrated the back of the channel and a majestic world appeared in front of him.

Indeed, just as the Grand Minister had said, this was a massive world.

It should also be located in the Macro World.

Although the Macro World was incomparably vast, because it was filled with dangerous Primal Chaos, there were only a few spaces that could be established within it – the Time Nest, God Mu World, Red King World and the Sea of Time and Space where the four entire universes resided. Now that he discovered a space that was the size of a universe and filled with dark energy, it was most likely the nest of Universe 0.

Muyang and the Grand Minister waited quietly. After a while, a golden light flashed, and the goddess Chronoa appeared in front of them.

Chronoa wore a white divine robe, and her figure was light. Her long hair fluttered gently, and her pale golden eyes examined the entrance of the cave.

After a while, a magnificent palace broke through the void and flew over. A fresh and distant aura radiated in all directions with the appearance of the palace. Affected by this, the rules of the eleventh universe became restless. Soon, two beautiful girls walked out of the palace.

It was the Red King and the Grand Minister of the Red King World, Segari.

The Red King nodded at the crowd. After understanding the situation, he said, “Since it is true that this passage is related to the Universe 0, then let’s take this opportunity to get rid of the Universe 0 in one fell swoop.”

Segari said, “This passage has appeared for so long. The people of the Universe 0 should have discovered it long ago. It can’t be a trap to attract us in.”

Chronoa thought a little bit, nods, “It’s very possible, but no matter how big the trap is, it won’t be of any use to us, right?”

Schemes and crafty plots were useful against the weak. Once they met someone who was strong enough to ignore everything, any plots and schemes would be like paper tigers, unable to achieve any results.

In the past, they could not find Universe 0, which caused them to stir up trouble. Now that the location of Universe 0 had been found, there were five level ten experts, Muyang, Grand Minister, Red King, Segari, and Chronoa, gathered here. Even if all the elites of Universe 0 were mobilized, they would not be able to stop them from destroying the zeroth universe.

“Then let’s go.” Muyang nodded and said.

Right now, the biggest threat to Universe 0 was the God Mu World. Because the entire universe and the Red King World had extremely stable operating rules, and there were a few Level 10 Dimension powerhouses suppressing them, they were naturally safe.

Only the God Mu World was still under maintenance because it had been established not long ago. Its overall defensive ability was inferior to the other worlds, so among all the people, Muyang hoped that Universe 0 would be destroyed as soon as possible.

“Wait a minute.” The Grand Minister waved his hand.

Everyone looked at him in confusion. At this moment, they saw three other rays of light shoot over from the direction of Zeno Palace and enter the Grand Minister’s body. After these three rays of light entered his body, the Grand Minister’s divine might increased by a level. He looked even more mysterious and profound.

The Grand Minister smiled and said, “With the help of the God Mu World as a medium, I have temporarily fused with the other worlds. This way, I will be more confident in facing the Universe 0.”

“Yes, you are at your peak right now.” Red King said with a smile.

The Grand Minister nodded and ordered Marcarita to take good care of Universe 11. Then, he stepped forward and entered the channel. When the dark energy met the Grand Minister’s divine light, it was as if it had encountered its natural enemy and fled in all directions. It let out an ear-piercing sound.

Seeing this, Chronoa and Segari also stepped into the passage. At the back, it was Muyang’s turn. A divine light flashed in his eyes as he followed the Grand Minister into the passage in the other world.

There was no light in the dark and deep channel. The pitch-black color, along with the constant ear-piercing sounds, gave people a feeling of oppression and frustration.

However, Muyang and the others were all experts with extremely high mental states, and were not affected by the surrounding environment at all.

After about three minutes, the five people passed through the passage and came out. In front of them was a vast and magnificent world.

The entire world was a pale purple color. There were giant islands floating around. Each island was the size of a planet, and they were connected through crystal light pillars. In the center of the entire world, there was a vast continent. This was where the headquarters of Universe 0 was located.

Arriving at the headquarters of Universe 0, there was a magnificent and ancient temple in front of them. The walls of the temple were mottled, as if they had not been used for a long time.

“Yes, it is here. This feeling of chaos is exactly the same as the Universe 0.”

“Pulred and the others must have spent a lot of effort for this place.”

“Other than the basic time and space rules, there is no other rule, as if it was specially created... This is a world abandoned by people, probably waiting for

us.” The Red King scanned his surroundings, and his lips curled into a mocking sneer.

“Let’s go in and take a look.”

The Grand Minister had his hands behind his back, and his pale purple eyes swept across the surroundings. “No matter what kind of conspiracy there is, it will not be able to stop us.”

Muyang and the others nodded. The five of them entered the inner section of the shen temple. The surroundings were filled with a type of oppression. Because it had not been repaired for a long time, the surroundings of the Lookout were already covered in moss. It did not look like a place where a Level 10 Dimension powerhouse lived.

“It has been abandoned for a long time. The power of the Lookout has already disappeared.” Muyang observed carefully and his brows gradually furrowed.

At this moment, a purple glow suddenly rose in the sky. Along with the roar of a dragon, the earth shook violently. Muyang and the others flew into the air and saw red chains rising from the end of the earth. These chains intertwined together to form an even larger net. They were densely packed like a huge network, locking the entire central continent in the middle.

The Grand Minister raised his head, his expression calm. “The means of Universe 0 are here.”

The Red King revealed a sneer. “They intend to trap us here. Don’t they know that as the creator, there is nothing that can trap me. As long as I think about it, I can instantly return to my own world.”

Chronoa said, “I think they should know. Look...”

“Ow...”

The deafening roar of a dragon resounded through the world. At the end of the earth, five huge blood-red dragons raised their heads and rose from the horizon. The sky instantly fell into darkness.

“Is this summoning of a divine dragon?”

“Red dragon, it’s Black Star Dragon Ball...” Muyang was a little dumbfounded. Could it be that in order to deal with him and the others, Dark Dragon God Pulred had created five sets of Black Star Dragon Balls at once?

However, with just the ability of Black Star Dragon Ball, it was probably not enough to deal with him and the others.

Just as Muyang had expected, the Red King and Chronoa were the first to attack. When the five red dragons rose into the sky, the goddesses attacked in horror. The sky shook and the earth shook. Time and space were torn to pieces in an instant. Before the five dragons could exert the power of the dragon bead, they were banished to various space-time by the overbearing power and turned into powder in the tossing and turning of time and space.

The sky quickly returned to a pale purple color.

“Universe 0 has prepared for such a long time. Do you only take out these?” The Red King shook his head in disappointment.

Chapter 696

“Of course not, the good show is still to come!” A cold and evil-filled voice.

The figure of Dark Dragon God Pulred appeared in the void, beside him stood several other people from Universe 0. They looked at Mu Yang and the others from afar, with a few moments of mockery in their eyes, then their figures flashed, and quickly disappeared from the void, while the channel to the whole universe was destroyed.

The Red King looked at it with a stony face and said, “That is not their real body, but a shadow released across the distant space and time.”

Those present were all experts of the Level 10 Dimension, their eyesight was excellent, and the ability to judge the real and the fake was certainly there. Chronoa said, “It seems that this world is the abandoned lair of Universe 0, Pulred specially lured us here not knowing what he was thinking.”

“Can you use time rewind and check what they are up to?”

“Well, I’ll try.”

Chronoa nodded her head and whispered in a high and holy voice.

“Time Back!!!”

A mirror-like world soon appeared in front of the five people, everything around them quickly went backwards in time to long ago. The mottled palace instantly became light, and soon several figures appeared in front of Muyang and the others.

“Huh, there are six people, and they are not the same as the people in Universe 0 now.” Muyang found that the people in the flashback were not the same as the ones he had met in Universe 0.

The Red King calmly said, “For so many years, it’s not that the people of Universe 0 have not faltered, except for the Dark Dragon God, the others have long gone through a change.”

Muyang said, “So these years have really given birth to a lot of Level 10 Dimension experts.”

Segari replied, “They are not Level 10 Dimension, at best, they are only pseudo Level 10 Dimension. You know that the promotion of Level 10 Dimension is not easy, you must have the complete rule power or realm power to be able to call it Level 10 Dimension, now these people in the zero universe, such as the Demon God Race Mable, only obtained the Dark Dragon God’s bestowal to barely reach Level 10 Dimension. “

“Pulred can take back their power anytime if they don’t want it anymore.”

Muyang smiled, could not help but be surprised, then nodded.

Universe 0 with the Dark Dragon God Pulred as the head was not without reason, so that as long as the Pulred was resolved, the rest of them were not a big problem. It was important to know that even Gaia, who had just been promoted to the Level 10 Dimension, was able to block them.

“Dark Dragon God Pulred is quite powerful.” MUYANG lamented.

“He is from the same era as Dragon God Zalama, and the creation of the Divine Calendar Era can be said to be due to both of them, but they still went their separate ways later for some reasons.” The Grand Minister said while observing the space back in time.

It was the first time MUYANG heard about such a secret, but now that Dragon God Zalama had disappeared into Gaia, the reason why she and the Dark Dragon God had fallen out had become a secret forever.

Chronoa manipulated the time back to present the past, as if playing a video tape, the picture quickly jumped forward. Soon the six people in the picture gradually changed into the five people familiar to MUYANG, until one day, Pulred and others suddenly decided to abandon this headquarters world.

After losing the energy suppression of these people in Universe 0, Universe 0 headquarters rapidly decayed and was eroded by the power of time in just a few years, turning into the appearance that MUYANG and the others saw now.

But until the end, MUYANG and the others still couldn't figure out what exactly Pulred was up to.

“No, the key place was interfered by Pulred with the power of the Dragon God.” Chronoa said with slight regret.

“We can't effectively stop them without figuring out what they're doing, it's not just to trick us into coming here, is it?” The Grand Minister' brow furrowed.

“Maybe they want to take advantage of our absence to attack our world.” The Red King snorted, then looked at MUYANG and said, “If I were Pulred, my first choice would be MUYANG's world.”

MUYANG said, “I think so too, that's why I didn't let Gaia follow along.”

“Forget it no matter what they get up to, in any case, this world cannot be left behind.”

Chronoa gaze blandly glanced at the current world. The golden pupils of the eyes shot out a harsh divine light, raging energy like rolling waves. Like the collapse of the heavenly world of giant mountains suddenly descended to the mortal world, in an instant the sky shook, the entire Universe 0 was then submerged in this wave of air.

The thunderous power was suddenly unleashed, and with a sound like a ribbon being torn, Universe 0 gradually entered the rhythm of destruction.

The Grand Minister watched indifferently as the Red King stood unmoved by their power.

After the world disappeared, MUYANG's figures were exposed to the chaos-filled macrocosm, surrounded by dark tides. Without the support of powerful forces, even the Level 9 Dimension powerhouse would be quickly melted by the chaos.

This at that moment...

Clang! Clang! Clang!

An invisible ripple spread out, like waves cascading and rippling transparently. A crystal clear glitter flew out.

Muyang reached out and grabbed one of the flashes and saw that it was a stone with a dark body.

“Blackstone?”

A piece of doubt flashed through Muyang’s heart, no, this kind of stone was very similar to blackstone, but Muyang did not feel the same energy as black stone from it.

“This is the remains of the world after it fell, containing a part of the world’s rules. This kind of thing is useful for low-level deities, but it is of little use when you reach the Half-God Level of the Level 7 Dimension.” The Grand Minister explained.

Muyang was surprised for a moment and threw away the suspected blackstone in his hand, this kind of tangible and insubstantial thing could not be compared to the blackstone at all.

But the appearance of this kind of thing also made Muyang’s heart have a hint of speculation about the existence of blackstone, maybe those blackstones in April’s hand are the remains left after the destruction of large worlds, and the scale of such worlds was at least the whole universe level, otherwise it couldn’t carry the property of constant energy.

After destroying the headquarters of the Universe 0, Muyang and the others were ready to return to their respective worlds, coming out with great fanfare but only ended up destroying an abandoned world, this trip could be said to have not gained much.

“Everyone, I’ll return to the God World first.” The Red King nodded his head at Muyang and the Grand Minister.

“Well, goodbye.”

Muyang looked at them and bid them goodbye.

The Red King smiled gracefully and then disappeared as a stream of light together with Segari.

“I’ll go first as well.” Chronoa finished speaking and her figure became a blur.

The Grand Minister gestured towards Muyang and also began to return towards the entire universe, and after everyone had all dispersed, Muyang began to return to the God Mu World.

Because the direct passage to the whole universe had been destroyed by the Dark Dragon God Pulred, the return could only be made across the vast space of the waves of the Macro World, a process that would take a lot of energy.

.....

“Hey, the Grand Minister and the God Mu World’s Gods are still in the Macro World heading back, so we can take advantage of this time to strike.” Pulred’s face was grim, and a cold light emerged from his grim eyes.

The green-skinned old man, Letz, raised his eyelids, “Sacrificing a large world to have this opportunity, it must be firmly seized.”

“The God Mu World is a piece of fresh meat in our hands.”

Demon God Race Mabel smiled charmingly, her flirtatious face full of excitement. Several other people hemmed and hawed, in their opinion exchanging a universe-level world for a mega world was a completely reasonable deal, and if they succeeded in taking the God Mu World, all five of them would benefit greatly.

The Dark Dragon God waved his big hand, “Let’s begin, take the God Mu World with all your might.”

“Yes.”

“It’s finally time to begin.”

Several people from the Universe 0 stood on the periphery of the God Mu World and looked at the giant world in front of them with greed, as if they were looking at a piece of fat meat that they could get by rubbing their hands together.

Chapter 697

When Muyang approached from the Macro World a little bit, a long period of time had already passed. The magnificent and vast Macro World was vast and boundless, and in front of this vast space, any magnificent scenery seemed insignificant.

The curled space seems to be like the backward suction before the tsunami, continuously sucking the material of the surrounding space towards the top of the pillar. Even with Muyang’s power of the Level 10 Dimension, he had to be careful when approaching this area, resisting the huge suction from the space.

“If it was an ordinary god, it would not be able to get close to such a place at all.”

The eyes longingly glanced at the top of the giant pillar in the sky, which led to nowhere and attracted infinite reverie. One end of which was submerged into the chaos and the other supported the whole Macro World to keep it from collapsing. Worlds like the Red King World and the God Mu World all revolve around the pillar.

Finding the location of the God Mu World in the vast space, Muyang arrived at the periphery of the God Mu World soon after.

Suddenly, Muyang suddenly hit a jolt, as if something was suddenly missing in his heart, which made him feel a hint of an ominous omen.

High-ranking gods had an inexplicable sense of the future, especially gods like Muyang who were beyond the timeline and free from the bonds of time. The omens were even more obvious, which often represented that some kind of bad event was about to happen.

This made Muyang instantly alert as he examined his surroundings and secretly said, “The people of the Universe 0 lured us to the Universe 0, could it be for the purpose of ambushing us on the way back?”

Examining his surroundings carefully, the gray Macro World was full of chaotic substances. All scenes remained unchanged for ages, and there was no trace of those people from Universe 0, but this did not reassure Muyang, the uneasiness in his heart grew stronger instead.

Muyang pondered a little and his face suddenly became ugly, “Not good, their target is the God Mu World.”

He had left Gaia in the God Mu World in order to guard against the other party luring himself to the Macro World and then reversing direction to attack the God Mu World. Previously, there had been no movement in the God Mu World, making Muyang think that his judgment had been wrong, but he did not expect that the other party’s target was really the God Mu World, and did not officially launch an attack until he had parted ways with the Grand Minister and the others.

In order to completely swallow their own God Mu World, the Dark Dragon God and the others even went so far as to give up the long-running Universe 0.

“Gaia alone can’t stop the siege of so many of them.”

A sense of urgency flashed in his heart, and Muyang hurriedly headed towards the God Mu world, and with a crash, a tide of energy surged up, and Muyang broke through space and entered the God Mu world as a flash.

At this time, the vast interior of the God Mu World was filled with smoke, Gaia transformed into an infinitely huge dragon and fought with another pitch-black dragon. At the same time, because she had to maintain the safety of Planet Wudao, Gaia could not exert her power to her heart’s content, and was surrounded by several people from the Universe 0, and her blue scales were covered with scars.

Crackling ..... deafening sound resounded throughout the entire God Mu World, Gaia was severely attacked and her body retreated from the dragon state to the young human form.

With blood spilling from the side of her mouth, her body crashed directly into the solid earth of Planet Wudao, raising a cloud of dust behind her.

“Hahahaha, Dragon God, the new revenge about Zalama is settled together with the old, and we take this complete world.” A demonic smile appeared on Pulred’s face.

“Don’t even think about it.”

Gaia’s face turned pale as she suddenly rose from the ground, her blue figure suddenly rushing towards the Dark Dragon God Pulred.

Pulred saw Gaia still dare to rush towards him, and shook his head with an indifferent expression. He and Gaia tangled into a ball in the void, and with the power of the pastoral god world added, Gaia was higher to reach a tie with Pulred.

Hula!

The battle between the two Level 10 Dimension experts caused the entire Planet Wudao to tremble as if it was on the verge of disintegration, and the entire smooth space had cracked into a spider web of irregular cracks along the plane where Gaia and Pulred had impacted.

“General Carlyle, these angels are yours.” While stopping Gaia, Pulred barked orders at a big, burly man.

The five people of Universe 0 were the Dark Dragon God Pulred, the Demon God Race Mable, the sturdy man General Carlyle, the silver-haired man Shroom and the green-skinned old man Master Lertz, led by Pulred, each of whom was a powerful expert.

“No problem.”

General Carlyle laughed, clenched his fist and smashed towards the Angels around Gaia. Although the eighteen Angels were also experts of the Level 9 Dimension, they were no match for General Carlyle, and even if all the angels joined forces, they quickly fell into a disadvantage.

“Mable, Master Lertz, exert your power and transform this place into our new headquarters as soon as possible.”

“Oh, this place is much better than our previous headquarters.”

Mable and Master Lertz laughed as they first destroyed the portals connecting several Zeno Worlds, and then used the Demon God power to seize the rules of the God Mu World a little bit.

If they succeeded in capturing this large world, then it would be a profitable deal even if they had to give up their headquarters.

Boom! Boom! Boom!

Planet Wudao was shaken by Mable and Master Lertz's power, the whole planet seems to step into the stage of destruction. The terrifying pressure stirred the entire atmosphere, the aftershocks of the attack often instantly spread to all parts of the planet, countless mountain peaks mountain fracture, the two polar glaciers slide down the water, far in the 10,000 meters high altitude of the pastoral god palace also can not stop violent shaking.

“April, quickly think of a way, if this goes on Gaia is going to lose.”

Melissa's pretty face was filled with panic. She used to think her strength was already very strong, but with the five people from Universe 0 entering the God Mu World, she felt so helpless for the first time.

The Dark Dragon God Pulred headed by the group of five people were strong, Pulred has more than the strength of the General Level 10 Dimension, even if MUYANG touched him, without the support of the God Mu World, are not necessarily his opponent.

“I'm contacting my brother, I'll have a response soon.” April was the only one among several people who had reached the Level 9 Dimension, and faced with such a situation, she also panicked a little.

Below, the brutal battle continued, with more and more wounds on Gaia's body and her ice-blue hair somewhat disheveled.

Just when Gaia was really about to hold on, Muiyang finally rushed back in time, he took Gaia in one hand and hurriedly fed her an Senzu Bean, but at this time even the Senzu Bean couldn't replenish the energy she lost all at once.

"Lord Muiyang." Gaia finally breathed a sigh of relief when she saw Muiyang return.

"You go to the God Mu Palace to stabilize the entire world, don't let this group of people seize the world rules." Muiyang said and looked at the Dark Dragon God and the others, his dark eyes flashed a stern aura, and his face was full of fury.

"Mm." Gaia nodded her head forcefully and transiently moved to the God Mu Palace in a blue light.

"Oh, the rightful owner has finally returned." The Dark Dragon God smiled lightly, as if he had seen an old friend. He suddenly dissipated the rolling and agitated pressure around him, and the whole sky became incomparably calm at this moment.

Muiyang had a cold face, his face was as cold as frost, "You lured me to the Universe 0 to seize the God Mu World in my absence ..... but entering the middle of the God Mu World is your biggest mistake."

"No, the portal to other worlds in this world has been destroyed, which means there are only a few of us here, my people are changing the rules of this world, and even if you are a creator, you cannot unleash the power of the world at this time."

Pulred shook down, his face full of confidence.

"You are wrong, the God Mu World is different from other worlds, it was born and grew step by step from my consciousness, no matter how you change the rules, it is still my world."

A smile of imperceptibility suddenly appeared on Muiyang's face.

Pulred was a little surprised, and his brows were deeply knitted. These words of Muiyang gave him a not-so-good feeling.

Chapter 698

Pulred was a bit puzzled by the calmness shown by Muiyang, but at this time, the arrow was on the string and had to be fired, a winner had to be decided between the two sides, plus his own side had a total of five people, he did not believe that this person who had just broken through to the Level 10 Dimension could stop them.

In a flash of lightning, numerous thoughts flashed through Pulred's mind, which eventually turned into a sneer, allowing Mable and Master Lertz to continue to seize control of the world, while he

and his other two companions, General Carlyle, and the silver-haired man, Shroom, surrounded Muiyang.

The battle was immediately fought, at which point Muiyang's face flushed, and the pressure he faced steeply increased.

Without needing many words, Muiyang chose to take the initiative to attack, and the power of the God Mu World was added to his body, causing his power to instantly rise to a level comparable to Pulred's.

With a bang, white light floated and a soft chant of shattered air rang out.

Muiyang came to Pulred's side as a wisp of white light, and the attack then fell. Pulred sneered, his body slightly tilted to dodge over, and took a bold step forward, probing his arm towards Muiyang.

Muiyang seems to have been prepared, the eyes of the divine light in a flash, twisted through the body, hard fist with an unbeatable force swung out.

Peng!

The two fists collided, and instantly the sharp-edged sharp whirlwind spread out close to the plane of impact, like the illusion of thousands of fragmented satin, dense, shocking the entire void. The earth of Planet Wudao was instantly shattered, and the violent force directly flattened a thousand-mile radius.

By the impact of this force, Muiyang and Pulred both flew out.

In this test, the two of them were considered to have a tie.

Just then, the attacks of the big, sturdy man, General Carlyle, and the silver-haired man, Shroom, came one after another. Seeing this, Muiyang hurriedly braced his arms, and a white halo shone up.

**“Death God Chain!”**

Clanking, silver-white glowing chains appeared from the void and immediately wrapped General Carlyle and Shroom around. Because it was inside the God Mu World, the power exerted by the Death God Chain was far more powerful than that of the outside world.

General Carlyle and Shroom were dumbfounded by the sudden attack, and their bodies kept struggling, but the silver-white chains got tighter and tighter, and their faces suddenly turned dark.

**“Heavenly God Beam!”** Strong and powerful attacks followed each other, Muiyang stretched out his upper hand, and bright energy impacted.

Pulred's eyes tightened for a moment, rushing to stop the ki wave before the Heavenly God Beam attacked General Carlyle and Shroom and the others, defending General Carlyle and Shroom from the attack, raising his fist and smashing it down hard.

Boom!

The hard fist collided with the ki wave, the ki wave was bent by ninety degrees, Pulred grunted, and his whole arm was slightly numb.

**“Sure enough, although this guy has not long entered the Level 10 Dimension, but the strength of the attack is not weak at all, is it because it is located in the**

home world....” Shaking his slightly shaken arm, Pulred’s expression became grave.

“Thanks a lot.” General Carlyle thanked Pulred.

Pulred nodded his head, and a harsh aura swung out, tensing the chains wrapped around General Carlyle and them, “Be careful, for now this next one still has control over this world above us.”

The regained freedom of General Carlyle and Shroom nodded forcefully, these people were living through the long years of the demon gods, just now was just dumbfounded by the means of Muyang, really want to defeat them but not easy. The corners of their mouths showed a cruel smile, and the two of them rolled up a lavender halo of light, and then quickly disappeared from the spot.

Thump, thump, unreadable residual shadows spread all around the line of sight.

“Blood Attack!”

“Ultimate Destruction Bomb!”

General Carlyle and Shroom appeared instantaneously by Muyang’s side, attacking from both sides respectively, Muyang let out a low shout with a stony face, and hurriedly struck a group of attacks into the void.

“Thunder Shock Surprise!”

“Sky Splitting Fist!”

Without reservation, the light golden energy soared up from the abyss like an angry divine dragon, and with a heaven-destroying might, it crashed head-on into General Carlyle. The rumbling sound stung the eardrums, and space seemed to be completely torn apart, suddenly blooming into a short-lived flower, then quickly recovered continuously under the repair of the world rules.

“Dragon God Fist!” Pulred approached Muyang.

“Obliterate!”

The power of the rules came out, and the power of “Obliterate” met the “Dragon God Fist”, and the two forces together dissipated in the void, but the next three people’s siege, Muyang and God Mu World were under great pressure.

“Bang! Bang! Bang!...”

Boom!

The powerful attacks caused Muyang’s body to shake and a spray of blood suddenly spurted out of his mouth.

One after another attack caused Muyang to be overwhelmed, and soon suffered hundreds of attacks on his body. Space broke and recovered, recovered and broke again, in a continuous cycle.

Such attacks constantly challenged the rules of the God Mu World, and with Mable and Master Letz continuing to tamper with the world rules, the power Muyang was able to borrow became weaker and weaker.

“Poof....” MUYANG’s face turned pale as Pulred’s attacks continued to drain the power in his body, causing MUYANG, who was already slightly inferior to his opponent, to fall into a downward spiral.

The situation was becoming more and more unfavorable to the people of the God Mu World.

In the God Mu Palace, Gaia united all the Angels and April and others to maintain the stability of the God Mu World, but the battle below is getting more and more intense. The majestic energy fluctuations have interfered with the operation of the God Mu Palace, which is constantly shaking, like a water pump that frantically extracts energy to make up for the loss of the world.

Several Level 10 Dimension powerhouses were fighting in the God Mu World, and just suppressing these forces alone was taking all of Gaia’s energy.

Click, the square of the Lookout burst up countless fine stones, the originally flat ground was densely covered with tiny cracks, and the previously glorious palace became dull.

“Without removing those two people who tampered with the rules of the world, the hold on Lord MUYANG will only grow.” Gaia’s face turned white, and crystal sweat dripped down her cheeks.

Melissa bit her lip, “I’ll go and interfere with them.”

“No, the difference between your strength and theirs is too great.” Gaia strained to say.

“If we use the ‘Evil Containment Wave’, we might be able to seal them.” Melissa could only beat a dead horse at this time, and of all the moves, only the Evil Containment Wave could manage to overcome the strong with the weak.

“Evil Containment Wave can’t seal them.”

Gaia shook her head and did not agree. The Evil Containment Wave is a move that amplifies the power of the wielder under the rule system and thus achieves the effect of sealing the demons. It was effective against normal demons or gods, but now the opponent was a high level Demon God above the Level 9 Dimension, and the level of the Evil Containment Wave was not enough.

“But what should I do?” Melissa felt powerless.

Gaia gritted her teeth for a moment and said to April, “Sister April, I am now using the strongest power of the God Mu World to launch time acceleration, please make sure you research the reagent that allows Earthlings to awaken S-Cells within a limited time!”

“Yes, if brother can awaken the S-Cells, his strength can definitely soar as well.” April listened to Gaia’s words and her blue eyes snapped open.

It was because she had accidentally awakened the S-Cell that her power had been raised from the God of Destruction Level to the Angel Level. By analogy, if MUYANG also awakened S-Cells, then with his terrifying normal power, how powerful should he become.

It didn't need to break through too much, to raise the power by two or three percent, that was also a remarkable breakthrough.

"I know, it will definitely work." April said seriously.

"Well, I'm relying on you."

Gaia nodded, then combined the power of the God Mu World and her own Dragon God power to lay down a time acceleration for April. In this time-accelerated field, time was accelerated by millions of times, giving April enough time to study.

"Gaia, at this time also let us buy a little time for Muyang, even if there is an accident, as long as you are there, can not still let us resurrect?" Melissa said with a serious face.

Gaia hesitated for a moment, nodded her head, and then asked the angels under her to join Melissa and the others to interfere with Mable and Master Lertz's actions.

"Everyone, make sure to buy enough time for Muyang and April." Melissa looked at everyone.

"Hm."

"We have to contribute to this battle as well."

Broly, Muqiu, Lazuli, Kanalita, and the others nodded seriously, then turned into dozens of rays of light and shot down from the God Mu Palace.

Chapter 699

Rumble!

A huge cloud of dust filled the air. Melissa and Broly arrived Master Letz. Violent attacks instantly occurred. With the attack point as the center, everything within a radius of 10,000 meters was instantly vaporized by high intensity energy.

Since it concerned the survival of the entire God Mu World, no matter what, Melissa had to try her best to buy some time.

"Master Letz, leave these guys to me. You continue to seize the rules of the world."

Mable glanced at the ten people in front of her, and a sneer appeared on her charming face.

"I'll leave these little ants to you." Master Letz nodded. His yellow eyes flashed with a fierce light, and then he continued to use his strength to change the rules of the God Mu World. Mable chuckled, and her body turned into a cloud of smoke that headed towards Melissa and the others.

Peng! Peng! Peng! Peng! Peng!

Melissa joined forces with Broly and the other Angels to attack Mable. Even if Mable was much stronger than them, she would still be disturbed by their attacks for a while, unable to release an overwhelming advantage all of a sudden.

Hulala... Mable was knocked back dozens of meters after being hit by the collision. Her beautiful face showed a trace of ferocity. The resistance of Melissa and the others really provoked her. These little ants were really unforgivable.

“You don’t have much time. All of you, go to hell!”

Mable roared angrily. She raised her hands above her head. Suddenly, countless rays of light that were half an inch long floated in the air. Each ray of light was an energy blade. These energy blades were as thin as a cicada’s wing. They gathered together and shot out with an unstoppable might like a fairy scattering flowers.

Countless energy impacts that were hard to discern with the naked eye swept over.

In the face of Mable’s fierce attack, all the ice-blue haired angels formed a circle. At the same time, they raised the Angel God Staff in their hands, only to see a brilliant light flash. The mottled light converged into a large net, blocking all of attacks from the Demon God Race Mable.

At this moment, Melissa, Broly, Muqiu, Kanalita, and the others took a step forward, releasing the most powerful attack they had mastered at the same time.

“Hell Blizzard!”

“Bomb is a star!”

“Thunder Shock Surprise!”

“Heavenly God Beam!!”

...

The dozens of attacks merged together. The surging energy was like a giant dragon roaring in anger. Along with the dazzling light, the mighty attacks soared into the sky. At this moment, the distance in the space was no longer a problem. A huge ball of light that was as dazzling as the sun rose in the sky above Planet Wudao...

Rumble! The surrounding air waves rolled, like a hot knife through butter, like thunder shaking, resounding in the ears.

“Ah” Receiving such a strong attack, even Mable, one of the five people in Universe 0, let out a tragic cry.

After the smoke dispersed, Mable’s figure reappeared. Her blood-red clothes had been torn, and her hair was messy. She looked very miserable.

Mable gnashed her teeth. “Bastard, all of you are going to die.”

Whoosh! Mable accelerated in an instant. A short flash of light swept through the void. Her figure quickly arrived in front of Melissa. A charming face suddenly enlarged. Melissa thought to herself that this was bad. A powerful attack had already landed on her body.

“Pfft!” Melissa had a sweet taste in her throat as blood spurted out of her mouth. Her body floated down like a kite with a broken string.

Seeing this, Amelia and Kanalita hurriedly ran to rescue him. On the other hand, Lazuli, who had fusion into Super Android 18, attacked Mable together with Broly.

“Hmph, the ant-like resistance is simply overconfident.”

There was a hint of disdain on his cold face. Mable expressionlessly faced the attacks of Super Android 18 and Broly. Peng, peng, peng, endless pressure challenged everyone’s nerves. Even Super Android 18 and Broly were no match for the woman in front of them. It did not take long for them to be defeated one by one.

In the Lookout.

While maintaining the stability of the God Mu World, she anxiously looked down. When she saw that Melissa and Broly were seriously injured, Gaia quickly transmitted her voice to her eighteen Angels to ask them to save their lives no matter what.

“Puchi!” Suddenly, Gaia’s body shook, and her cute little face turned pale.

“Crap, that strange mage actually invaded the Core Zone of God Mu World. If this goes on, the God Mu World will really be under their control.” Gaia’s expression became ugly. She wanted to send a sound transmission to Muyang, but looking at the situation over there, Muyang’s battle was also very difficult.

It was already very difficult for Muyang to hold out against the combined attacks of Dark Dragon God Pulred, General Carlyle, and Shroom.

“What should we do?” Gaia’s brain started spinning, but she did not have much experience in the first place, so she could not think of any good ideas.

Just as Gaia was running around anxiously, in the territory of Time Acceleration, April’s research had come to an end. After a month of Time Acceleration, April finally developed a reagent to awaken S-Cells.

It was a tube of light purple liquid sealed in a syringe filled with a sense of technology.

“Gaia, my research has been completed.” April took out the reagent.

Upon seeing this, Gaia finally heaved a sigh of relief. “I will inform Lord Muyang now.”

After saying that, Gaia contacted Muyang through the invisible connection between her and Muyang. Muyang, who had been attacked by Pulred, found out that April had already developed an S-Cell reagent. He was immediately overjoyed. Then, he restrained the pressure on his body and suddenly chose a time to release the “New Solar- Flare”.

This “New Solar- Flare” had been modified by Muyang. In addition to interfering with the enemy’s vision, it could also stop the other party from using divine power to detect other people’s positions.

Using the “New Solar- Flare” to temporarily get rid of Pulred, Muyang teleported to the God Mu Palace.

“This reagent can awaken the S-Cells in my body?”

April said, “Yes, brother. When I was developing, I added a sufficient amount of ‘Blackstone’. I also used the power of the Dragon God from Gaia to support it. It was enough to break through the restrictions placed on Earth by the Dragon God Zalama.”

“Whether it works or not, you will know once you try.”

Muyang nodded and pointed the needle at his body with a determined expression.

Puchi!

After letting go of his body’s defense, the needle smoothly pierced into his skin. The light purple liquid slowly entered his blood vessels. In an instant, the cells in Muyang’s body began to boil. It was like a ladle of clear water had been poured into boiling hot oil. A large amount of bubbles began to churn violently. The old cells were burning bit by bit, and the shackles that came from the ancient times on the primeval cells were being released bit by bit.

Muyang opened his eyes, and his bright eyes became as deep as the universe. Just looking at each other made one unconsciously indulge in it.

Suddenly, a cold light flashed in Muyang’s eyes, and a wave of mighty pressure spread out. With him as the center, the entire God Mu Palace began to shake violently. The magnificent palace finally could not stand the strong pressure and collapsed one after another. Even the base of the palace that was suspended in the air seemed to be about to break apart.

“What’s going on? There is something wrong with my brother’s condition.” April’s expression changed.

“Lord Muyang is too powerful. After the S-Cells are unlocked, the accumulation of power in the past suddenly exploded. Even with Lord Muyang’s body, it is difficult for him to withstand such a powerful force.”

“Then what should we do?” April panicked.

Gaia took a deep breath and slightly curled her lips. “It doesn’t matter. As long as I fuse my power with Lord Muyang’s power, it will be the power of the Dragon God. I will definitely be able to stabilize the power in Lord Muyang’s body.”

After saying that, Gaia took a step forward and her body turned into a blue jelly-like substance that quickly wrapped around Muyang’s body.

Gaia’s body gradually merged into Muyang’s body. The blue power that represented the Dragon God was fusing with Muyang.

Puchi! Puchi!

The S-Cells began to sublimate, quickly replacing all the previous cells. The power that was originally locked by the Dragon God Zalama was suddenly released, and then restrained by the power of Gaia.

Originally, with Muyang’s state, he should be able to become a Super Saiyan now, but because there was still the power of the Dragon God Zalama in the Macro World, the path of Super Saiyan had been blocked.

But fortunately, with the addition of Gaia, Muyang could take another path – Super Earthlings.

## Chapter 700

Crackling!

The sound of frying beans rang out from MUYANG'S entire body.

At this moment, his strength continued to rise.

“Chi!”

A surge of power suddenly erupted. Everything around him trembled. It was as if a stone had been thrown into a calm lake. Intense water continuously rose. Under the influence of this powerful power, the entire God Mu World had been torn apart. Even if the world was restored on its own, it would not be able to keep up with the speed of shattering.

The change that MUYANG was experiencing now was neither the realm path of the entire universe, nor the rule path of the world founder. Instead, it was a path of power that was similar to the Red King World. The accumulation of S-Cells continued to leak out, allowing MUYANG to smoothly complete the path of power.

In just a few seconds, MUYANG'S progress on the path of power had reached the Level 10 Dimension.

Then, the three attributes of power, realm, and rules began to merge. MUYANG'S soul began to sublimate at a speed visible to the naked eye...

In a sea of golden light, MUYANG'S consciousness was drifting in it. The surrounding scenery was strange and bizarre, as if time was flowing backwards. The unknown scenes appeared in front of his eyes. He saw a man holding an axe opening up a world. He saw a silver-haired woman holding a brown dragon-headed cane creating time and space.

The faces of those people were blurry. MUYANG glanced at them in a hurry. He clearly remembered their appearances, but in the next second, he quickly forgot them. Later, he saw the formation of the Macro World. A giant pillar of heaven stood in the middle of the Macro World. One end was connected to the Primal Chaos, and the other end was plunged into the void, supporting the stability of the entire world of red...

Vaguely, he could even see the world connected to the other end of the giant pillar. There was a huge passage there, and it seemed that as long as he broke through, he would arrive at another world.

Everything he saw was like a wave entering a narrow bay, layered and constantly attacking MUYANG'S heart.

“Lord MUYANG!” With a clear voice, Gaia'S figure appeared in MUYANG'S consciousness.

“Gaia!” Looking at the weak Gaia before him, MUYANG held her hand and protected her.

“Lord MUYANG, what is this place?”

MUYANG said, “This is the center of the Macro World Central.”

Gaia asked, "How could we be here?"

"Maybe the Level 11 Dimension that Dragon God Zalama is pursuing is right in front of us."

Gaia tilted her head in confusion. Muiyang laughed out loud. It was as if a blessing had arrived in his heart. He suddenly thought of many things. Just like what Dragon God Zalama had originally pursued, the Legendary Level 11 Dimension did exist. After the strength, realm, and rules had all reached Level 10 Dimension, the next step was to merge them. That would be the eleven dimensions.

It could be said that Muiyang was very lucky to be able to reach this step. This was because the realm cultivation and world evolution from a young age had naturally given him the advantage in terms of realm and rules. Now that the S-Cells had awakened, the obstacle in his path of strength had suddenly disappeared. The hope of success was right in front of him.

After figuring this out, Muiyang began to cultivate on his own. The time inside his consciousness suddenly began to train, just like ten thousand years. Muiyang underwent a qualitative change inside, and his entire body continued to emit an awe-inspiring pressure. Time and space distorted in front of him.

Crash. The sparkling and translucent time and space turned into fragments, falling down like glass.

Muiyang's consciousness returned to his physical body. At this time, his eyes turned a crystal clear light purple, and his hair stood up like a Super Saiyan.

At this moment, the entire God Mu World erupted with a large expanse of dazzling golden light, as if welcoming the supreme gods from the God Realm. Whether it was Planet Wudao or the surrounding eighteen universes, they were all submerged in the golden ocean.

Rumble!

God Mu Palace instantly turned into powder under the violent power. Muiyang held April with one hand and released a wave of energy into the sky. This energy broke through the restraints of the God Mu World and directly entered the world. It echoed with the giant pillars in the world of the gods, officially announcing its achievements.

At the same time, the top personnel in the world of the gods felt the change in Muiyang.

In the royal palace, the Grand Minister looked at the sky in surprise. Extreme shock flashed in his eyes, and his mood could not calm down for a long time.

In the Time Nest, Chronoa opened her mouth, full of envy.

Red King World.

Saigari, "..."

Red King smiled. "His speed is quite fast. He is really amazing."

Segari envied, "In just a short hundred years, he actually surpassed us."

Red King replied, "It's just a preliminary understanding of the Level 1 Dimension. There's still a long way to go before I really break through."

"That's also very amazing," said Celine enviously.

In the God Mu World, the Dark Dragon God, Pulred, raised his head in confusion. He looked at the energy pillar that pierced through the clouds and into the void. He suddenly had an ominous premonition in his heart. He raised his eyebrows continuously. "No, how could this kid have such a big breakthrough?"

"The Legendary Level 11 Dimensions..." The eyes of the other people in Universe 0 were wide open, and their voices were trembling.

Originally, with the strength of the five of them, it was very easy for them to seize a mere freshman world. At the beginning, Pulred was full of confidence, but as the golden pillar of light broke through the clouds and endless pressure swept out, he knew that the situation was not good. Everything had gone beyond his control.

"Hurry, hurry up and leave this world." Pulred gritted his teeth and said.

"Is there really no hope?" General Carlyle struggled.

Pulred said, "If I don't leave now, it will be too late. Damn it, how can a newly advanced Level 10 Dimension comprehend the Level 11 Dimension so quickly!"

Pulred was full of unwillingness. He lived in the same era as the Dragon God Zalama. He had not even touched the surface of the eleventh dimension for a long time, and a nameless pawn in his eyes had actually surpassed him. How could he be willing?

But what could he do if he was unwilling? This was the truth.

"Mable, Master Lertz, we will leave immediately." He sent a voice transmission to his companions, preparing to open the passage.

Just then, a shadow blocked in front of them, and the passage that had just been opened instantly collapsed. Muyang floated over with a faint smile on his face, holding April's slender waist. "Since you've entered my world, you must be prepared to be killed."

"Let's go!" Pulred shouted hysterically.

"None of you will be able to leave." Muyang's voice was very cold. The terrifying divine might caused the surrounding temperature to rise by dozens of degrees.

"I..." Muyang's might caused his heart to palpitate. Pulred's pupils suddenly shrank into a black dot. However, what shocked him was that the surrounding space and time seemed to have frozen. He did not even have the strength to speak.

“All of you should turn into nourishment for the God Mu World. The energy of a Level 10 Dimension should be able to save billions of years for the evolution of the God Mu World.”

His finger gently pointed forward. A wisp of lightning leisurely floated out from his fingertip, slowly approaching the Dark Dragon God and the others.

With a crashing sound, there was no resistance. Then, in front of the shocked eyes of Melissa and the others, the bodies of Pulred and the others were like pottery figurines that had been buried underground for thousands of years, seeing the light of day again. Winding cracks began to appear on their bodies. Soon, more and more cracks appeared on their bodies. They had already spread throughout their entire bodies.

Crack! The sparkling powder fluttered. The group of people in the Universe 0 turned into energy to make up for the damage to the world of the God Mu World.

In front of Muiyang, even someone as strong as a Level 10 Dimension could not resist at all.

Melissa swallowed his saliva and looked at Muiyang's pale purple pupils and hair that resembled a Super Saiyan. “Muiyang, you are a Super God.”

April came out of Muiyang's arms. “My brother underwent a transformation similar to a Super Saiyan on the foundation of a Level 10 Dimension.”

“Although it is not as exaggerated as Super Saiyan, its strength has indeed increased by several times.” Muiyang felt the power in his body. The new form made him very satisfied. This state was called Super God state by him. He finally experienced a transformation similar to Super Saiyan.

“By the way, where is Gaia?” Melissa asked.

“I'm here.”

A clear and crisp body rang out from Muiyang's body, and then a blue figure floated out. “Lord Muiyang has something in his body that can help me grow. I want to stay in Lord Muiyang's body for the time being.”

Muiyang smiled. “You can stay here. Maybe one day you can comprehend Level 11 Dimension.”
