

Ball God 701

Chapter 701

“If Gaia can also advance to the Level 11 Dimension, then it can be considered to have reached the peak, right?” April looked at Muiyang with her gem-like clear eyes.

The purple-haired Muiyang looked very similar to Super Saiyan, but other than the deep and boundless pressure of a black hole, there was no trace of the cold and overbearing aura of Super Saiyan at all.

This pressure did not bring any pressure to April and the others. Instead, it was like a spring wind that made people feel comfortable.

Muiyang touched his chin and smiled. “It’s not that simple. I feel that the Level 11 Dimension is not the highest level. At least there should be something else outside of the Macro World.”

“There are even more profound levels”

Melissa and April widened their eyes in surprise. The Level 9 Dimension and Level 10 Dimension were already so powerful in their eyes. The Level 11 Dimension was almost like a legend, even higher than the Level 11 Dimension... They could no longer imagine it.

“Don’t think so much. This is still too far away from you. Even I have only grasped a little bit of the foundation of the Level 11 Dimension. I don’t know how long it will take to completely understand it.”

“I am very satisfied with being able to reach Level 9 Dimension.” Melissa said truthfully.

“Hehe...” Gently stroking the heads of the two women, Muiyang shook his head and looked through the God Mu World into the distant Macro World.

The vast Macro World was still full of secrets in the eyes of Muiyang, who had reached the Level 11 Dimension. With his strength, he could cover the entire Macro World with a single thought, but the place connected by the giant pillar in the center was still full of mystery.

In the process of breaking through the Level 11 Dimension, he vaguely felt that he was summoned from the other side of the giant pillar. It seemed that as long as he stepped through the barrier, he could step into another world. It was really full of temptation!

But now, Muiyang was not ready to go. At least, before perfecting his own strength, he had no intention to continue taking risks.

To be honest, Muiyang was able to comprehend the Level 11 Dimension, which was quite a bit of luck. If not for the Divine Spirit Realm and the power of rules coincidentally being at the tenth dimension and awakening S-Cells with the help of Gaia’s divine power, and then pushing his strength to reach the Level 10 Dimension, he would not have the chance to comprehend such a level.

No, even if the realm, strength, and rules all reached Level 10 Dimension, it would not be so easy to comprehend Level 11 Dimension.

Fortunately, he had the power of Gaia at that time to warm up every cell in his body, and there was a mystical item like Blackstone that played the role of constant power, allowing him to feel a wider world the moment his power increased.

These conditions lacked any of them, and MUYANG was unable to smoothly reach Level 11 Dimension.

“The Dark Dragon God and the others have been killed. Let everything return to normal!”

MUYANG smiled faintly, and a wisp of purple energy spilled out from his hand.

A supreme and unstoppable power was released. The world of the God Mu World seemed to turn back time, and all the destroyed places slowly returned to their original state. The collapsed houses and the cracked crust were all restored, and the blue Planet Wudao glowed with vitality, and the palace of the God Mu World in the sky also reappeared.

Auspicious energy was dense, and multicolored light spread. All the areas covered by MUYANG’s divine power were transforming.

In the distant sky of the stars, the twelve universes expanded again, and there were signs of new universes about to be born in the surroundings.

The dead and the injured had all recovered, and their strength had actually improved a step further.

“Aiya, my realm has reached the Level 9 Dimension.” Melissa beamed with happiness, and her realm was on par with April.

“Me too, it rose a lot.”

Other than Melissa, the rest of the people also felt that their realms had increased. Although they had not reached the Level 9 Dimension like Melissa, they had gone even further in the God of Destruction Level.

MUYANG smiled faintly, **“This is the feedback from the God Mu World to you. Anyone who has contributed to the protection of the world, the world will not be stingy with your rewards.”**

“There is such a good thing. We have to celebrate.”

“That’s right. Daddy has reached the Level 11 Dimension. We should have a grand celebration and hold a grand banquet.” Amelia suggested, pulling Lazuli and the others to respond. This was a great event in the God Mu World, and of course, they had to invite people from other worlds to celebrate.

MUYANG naturally agreed readily, so the invitation to the banquet was sent to the entire universe and the Time Nest. Even the Sky King, who had never been seen before, received the invitation from MUYANG.

Muyang was very curious about the Sky King whom he had never met before. After meeting him, he found that the Sky King was the same as the Red King. She was also a very beautiful goddess, and her appearance was actually somewhat similar, just like how the two sisters were born.

After some explanation, he found out that they were really sisters.

The real name of the Red King was “Hong”, and the name of the Sky King was “Ye”. It was a very simple name.

“I didn’t expect you to be the first person among us to reach the eleventh dimension.” The Grand Minister sighed with emotion. It was really enviable to achieve such achievements in just a hundred years.

“I was just lucky,” Muyang said humbly.

“It’s lucky that none of the Level 11 Dimension exist. With your achievements, you are enough to be the Great Universe Dragon God of this world.” The beautiful figure of the Sky King walked over. This was a woman who was as charming as the Red King. Even with Muyang’s current realm, he could not see through her immediately.

“The Universe Dragon God?” Muyang asked curiously.

“He is the manager of our Macro World. After becoming the Universe Dragon God, he can obtain the blessing of the rules of the entire Macro World. He can comprehend Level 11 Dimension faster. I am the Universe Dragon God of this generation. Dark Dragon God Pulred and Dragon God Zalama were once competitors for the Universe Dragon God, but they all failed.”

The Sky King explained, and a brown dragon head cane suddenly appeared in his hand.

Muyang’s dark eyes narrowed slightly. He had seen this walking stick before. When he broke through the Level 11 Dimension, he had seen a silver-haired woman use it to create time and space.

Speaking of which, the silver-haired woman was somewhat similar to the Void King in front of him.

Looking at Muyang’s slightly puzzled gaze, the Void King said, “The position of the Universe Dragon God is only a symbol of significance. Although many high-level gods want to inherit this position, it is not very attractive to me and the Red King. Now I will give it to you.”

Muyang said, “I don’t need this either. Give it to Gaia.”

“That’s right. That little fellow is the most suitable.”

The Sky King covered his mouth and chuckled. He pointed the dragon-headed cane forward and a small wave floated. Gaia was pulled out of Muyang’s body by the brown cane. Then, the cane directly merged into Gaia’s body.

“There are many parallel worlds in my world. Recently, I want to hold a ‘Super Dimensional Great Battle’. It is all individual collisions between parallel worlds. Are you interested in watching it together?”

“You are holding this kind of boring game again.” The Red King walked over with light steps.

The Grand Minister smiled and said, “If Lord Zeno knew about this, he would definitely want to go.”

Sky King said, “Unfortunately, Zeno is unable to leave his entire universe.”

Muyang smiled faintly. “An individual collision between parallel worlds seems to be very interesting.”

“Then all of you come and watch. I will definitely hold a grand competition.”

The Sky King welcomed others to enter her world. The more intense the collision, the more it could cause changes to her world. If the world that the Nether King had chosen to attack was not the God Mu World, but the world of the Sky King, she might have waited eagerly and prepared fruit drinks to watch.

It was a pity that Pulred did not have the courage to provoke the authority of the Sky King.

...

Chapter 702

[Next Chapter](#)

Next, the few of them made an appointment. Then, on the day of the competition, Muyang brought his wife, son, and relatives to the Sky King’s world view to watch a golden age competition.

The collision between individuals in parallel worlds was indeed very interesting. Melissa and the others were all enjoying it.

After the competition ended, Muyang returned to the God Mu World to enter seclusion.

Time passed slowly, and white steeds passed by.

A few hundred years passed by unknowingly. In these few hundred years, with the help of the dragon-headed cane, Gaia had continuously improved her realm. Now, she was an expert second only to Muyang, and Melia and the others had all become experts in a region.

The God Mu World had now transformed into a total of thirty-six universes.

Each of these universes had to God of Destruction and Supreme Kai. Without a doubt, Son Goku, Vegeta, Buu, Broly, and the others had all become candidates for the gods. Even the Caulifla of Universe 6 had been resurrected by Muyang and brought to the God Mu World to become a god.

It was worth mentioning that Caulifla finally married Mutian, and was currently in full swing in the Time Nest.

As for Muqiu, Lazuli, and the other juniors, after a long period of hard work, they finally gave birth to a descendant, finally ending the wishes of Sipriel and the others. It had to be known that they had been waiting for hundreds of years.

...

On this day, Muyang stood on the wide field of the God Mu Palace. Through the barrier of the God Mu World, he felt the energy brought about by the chaotic airflow outside.

Suddenly, Muyang's figure flashed, and he floated into the vast and deep depths of the Primal Chaos.

Waving his hand in the direction of the God Mu World, the huge world immediately turned into a water ball and entered Muyang's body. Then, he turned around and headed for the giant pillar in the center of the Macro World.

"Gaia, control the inside of the God Mu World. There might be a riot later."
Muyang transmitted his voice to Gaia in the world.

"Understood, Lord Muyang." Gaia replied seriously.

After receiving Gaia's reply, Muyang nodded. His eyes stared at the vast chaotic starry sky, and with a whoosh, he moved towards the top of the giant pillar.

Crash! The surrounding scenery instantly changed. The cool feeling made Muyang's mind shudder. He hurriedly adjusted his strength and strengthened the protection around his body.

Swoosh!

Chaotic turbulence hit Muyang's body, and he was calm and peaceful, his entire body burning with faint purple flames.

As he continued to shuttle to the top of the giant pillar, the surrounding scenery revealed an unusual five-colored color. The light in the entire starry sky was distorted, just like the field of vision around a black hole. A sparkling and resplendent light spread from afar, but it suddenly stopped when it reached a place. It disappeared into thin air, as if the entire space had been forcibly cut off.

Ding, ding, ding, ding, small stones hit Muyang's body, but they were blocked by the energy layer on the surface of his skin.

With a glance, what entered his line of sight were blackstones.

"Blackstone, so this thing came from the top of the giant pillar." The corners of his mouth revealed a faint smile. Muyang condensed his spirit to penetrate the last barrier...

Suddenly, the scene in front of him changed. Muyang came to a vast starry sky. There was nothing around him, and he had already left the range of the vast world.

In the Red King World, the Red King was playing chess with Segari. The slender hand holding the chess piece trembled slightly, and his bright eyes looked into the deep space. "He has completely taken the last step."

With a smile on his lips, he continued to put the chess pieces on the chessboard.

On the side of Sky King, the beautiful goddess had a smile on her face, and her every frown and smile was intoxicating. "The world over there is even more exciting!"

In the entire MAcro World, only the two of them sensed that Muiyang had left.

...

Earth.

This was the world that Muiyang had been dreaming about for a long time. He never thought that after passing through the door of the Macro World, he would actually return to the real world. However, this Earth seemed to be a little different from what he knew. The civilization of mankind had already reached the interstellar era.

Here, the footsteps of human beings spread throughout the entire solar system. Mars and the moon became the territory for the survival of human beings.

Feeling the power in his body, the surging endless energy showed no signs of decreasing. The God Mu World in his body was still running smoothly.

"The power has not weakened at all. It is still the strength of the Level 11 Dimension. The history of this world is exactly the same as the Earth in his previous life."

His mind swept across the blue planet, and the scene of history was presented in front of Muiyang.

It was now 2540 years old. Four hundred years ago, there was a biochemical crisis on Earth that affected all of humanity. That disaster suddenly took away 90 of life. All of a sudden, humans lost their position as the overlord of Earth. They could only struggle to live in the man-made city walls.

It was not until one day when a goddess descended from the sky that humans regained their original status.

"Oh my god... I didn't expect so many things to happen on Earth in the past few hundred years." Muiyang couldn't help but sigh after reading the history of Earth.

"Brother, have you arrived at your destination?" April's voice came through the God Mu Palace.

"We've arrived. This is another Earth." Muiyang did not say that this was the real world because in his opinion, there was no boundary between the real world and the illusion.

After releasing Melia, Melis, April, Gaia and the others, they were all sighing over the other Earth.

"It really is Earth, but it looks a little different."

“Lord Muiyang, I feel the aura of the dragon pearl here.” Gaia shook her head in confusion.

Muiyang was stunned for a moment. After searching for a while, he actually found the Dragon Ball. “Damn it, how could Earth in the real world have a Dragon Ball?”

...

In a city in the East Sea, a beautiful woman with good looks sneezed. If Muiyang was here, he would find that this woman looked very similar to the Red King and the Sky King.

“Sister, with your physique, you won’t catch a cold, right?” A red-haired woman was lying behind the beautiful woman, her chin resting on her shoulder.

The beautiful woman smacked her lips. “It’s probably the person Ye and Hong were talking about. I sensed the energy of my dragon-headed cane.”

The red-haired woman said, “Do you want to see him?”

It’s not necessary. If he can find the dragon pearl, he will find us himself. Oh, by the way, my animation surrounding shop should be getting new goods. The recently produced’

The red-haired woman rolled her eyes at her sister, then affectionately sucked in the fragrance in the air and got up reluctantly.

...

On the other side, after Muiyang found the dragon pearls on Earth, he carefully searched and finally locked onto a large anime shop. There was a “basket” at the entrance of the shop, filled with crystal clear dragon pearls, at least dozens of sets.

“Lord Muiyang, these dragon pearls are all real.” Gaia picked up a few Dragon Balls and examined them.

“I can see it.”

Those bright red beads really blinded Muiyang’s eyes.

“May I ask, who are you?” Muiyang held Gaia’s hand and walked in.

The woman sitting in the store manager’s seat looked very similar to the Red King. She was vaguely the silver-haired woman he had seen when he broke through the Level 11th Dimension.

The beautiful woman smiled sweetly. “My name is Ling Ye, the owner of this store. By the way, there is a person named ‘Gu Gu’ in the sound image store opposite!”

When Muiyang heard this, he was dumbfounded.

What was going on? Why did Gu Gu run to open a shop?

Was his Gu Gu Axe for sale?

...

Chapter 703

Time flew by. Spring passed and autumn came. Time still displayed its invisible magic, quietly changing everything in the world. In the blink of an eye, several years had passed since Muyang and the others returned to the real world.

During this period of time, Muyang quickly integrated into the modern life, and Melissa and April also began to slowly adapt to the life of the earth from the first time. Everything went on in an orderly manner.

After learning from the goddess named Ling Ye that the earth and the higher level world framework of the space where the earth was located, Muyang was surprised to find that the earth he lived on was actually the same as the one in the myths. Outside the earth, there was the Other-World and the Earth Immortal World, and there were legendary God and Ancestor Hong Jun in the chaos beyond the sky.

What made Muyang feel most incredible was that he really saw Gu Gu in the shop opposite him.

This boorish, slovenly, and carefree man was actually selling sound products.

When Muyang saw him, he saw Gu Gu sitting on a chair and watching TV. The content displayed on the screen revealed that it was an old item from hundreds of years ago. It was unknown how many times he had watched it. This burly man who exuded a sense of poverty... was actually the Great Kami King, Gu Gu?

Muyang's three views were about to be ruined.

"Ya, the fourth rookie has finally come out." When the other party saw Muyang, he revealed a harmless smile.

"Hello."

"Do you want a few plates of DVD s? They are all things from hundreds of years ago. They can be considered relics."

"No need, thank you." Muyang politely refused.

"Oh, then forget it. Is the world seed I gave you still useful? Looking at your condition, it must be useful." Gu Gu got up and poured a cup of tea for Muyang. As Muyang drank, he asked, "Did you give my Acceleration World to me?"

Gu Gu said, "Of course. You have to know that I have brought many people in, and only you have successfully transcended."

Only then did Muyang know that he was lucky enough to travel to the Dragon Ball World because of the power of Gu Gu. The world he entered was the world that Ling Ye had opened up before. In general, his current achievements were thanks to the help of Gu Gu and Ling Ye. If not for the opportunity they gave him, he would have already entered the Yellow Springs when he fell from the high-pressure tower.

"Thank you. Thanks to Acceleration World, I was able to get to where I am now." Muyang expressed his gratitude sincerely.

“It’s nothing. I just chopped the ax in your sea of consciousness. The rest was nothing”

Gu Gu laughed and raised the small ax at his waist. It was the legendary Gu Gu Axe.

Then the two continued to talk. Because they were both masters of the Level 11 Dimension, there were no obstacles in their conversation. Gu Gu was much stronger than Muyang. It was the first time to communicate with such a great god, and Muyang sincerely felt that he had benefited a lot.

It turned out that the illusory world was also called the “Infinite Dimensional Space”. It contained countless illusory worlds. Every minute and every second, countless worlds were born and annihilated. Gu Gu and the others kept sending people into the illusory world, hoping that someone could break the realm of illusion and reality and enter the real world with the power of the illusory world, laying the foundation for advancing to the higher level of level twelve.

However, after so many years, the number of people who actually returned from the illusion could be counted on one hand. Gu Gu and Ling Ye were still stuck in Level 11 Dimension.

...

After bidding farewell to Gu Gu, Muyang went to the outside Primal Chaos to meet Ancestor Hong Jun, the manager of this world. He was also a Level 11 Dimension expert. After a conversation, Muyang placed his God Mu World in the Primal Chaos and merged with the real world.

It was worth mentioning that after Muyang lived on Earth, he actually saw another group of cyborgs in Ling Ye’s house – Android 17 and Android 18. However, those two cyborgs were not siblings, but sisters.

This situation really surprised him.

Fortunately, although the two had the same name and identity, their appearances were completely different. It saved him the embarrassment of this place. Moreover, Muyang could vaguely see that Ling Ye’s family relationship was relatively chaotic. They had a faint aura of lilies. Muyang expressed his opinion about other people’s private affairs. He took care of his family and did not care about the rest.

One morning, the morning sun rose, dyeing the clouds in the sky red.

The kitchen robot served hot breakfast. Muyang watched the news while eating breakfast. After breakfast, one person came to the yard to move his limbs. He was already used to his current life.

Suddenly, there was a burst of cheers in the room of the villa. Muyang heard the sound and walked into the room. He saw April, Gaia, Androids 21, and Melissa, sitting around a virtual projection of a cube, talking non-stop.

“What are you talking about?” Muyang came over.

“April has developed something very interesting.” Melissa’s eyes fell to the side.

“Oh, what exactly is it?” Muyang patted April’s head.

April's face was flushed, and she was a little agitated. "Brother, during this period of time, Android 21 and I have been studying the structure between reality and illusion. Then, we studied a small fragment of the Good Fortune Jade Disk that Ancestor Hong Jun brought over. I didn't expect that with the help of the Divine Power of Gaia, we could actually create an item that could communicate with different illusory worlds."

Android 21 was a female doctor full of intellectual beauty. When Muyang established the God Mu World universe, he brought her over.

She adjusted her glasses and pointed to the cube projection in the void. "This is the tool to communicate with the illusory world. It can contact people from different worlds and achieve the material exchange and voice transmission between each other. If it is personnel transmission, it needs further research."

"Dimensional chat group?" Muyang asked curiously.

"Well, this name is good. It's almost the same function." Android 21 nodded and gave his invention the name "Two Dimensional Chat Group".

"Try running it and see if there is anything that needs to be perfected." Muyang was a little interested.

April nodded and then glanced at Gaia. Gaia smiled and her eyes curved into crescents. She threw out a blue dragon god power to drive the cube projection to work.

"Ding! System operation, please set up the system and name it."

"It's called 'Dimensional Chat Group'. Its function is similar to the online chat tool." Gaia assisted in the setting.

"Chi! Chi! Chi!" Silver blue light flashed and a dialogbox appeared in the void. The creator of the "Two Dimensional Chat Group", the carrier, the manager, and other information were written one by one. It was the names of April, Android 21, Gaia, Melissa, and the others. Then all the information was hidden and the people above were set to be the administrator.

Invitation letters were sent to different worlds, and then a message appeared in the chat box.

"Ding, Flame Maggie has joined the chat group!"

"Ding, Admiral Kuzan has joined the chat group!"

"Ding, 'Goddess of Goddess has joined the chat group!"

"Ding! Young Sect Master of Yun Zhengzhou has joined the chat group!"

"Ding! Piccolo King Piccolo has joined the chat group!"

"Ding! The Phoenix has joined the chat group!"

In just a few seconds, the names of the six members entered the page in the void.

“Oh, I really did it.” Seeing the success of the experiment, Melissa shouted excitedly and then began to chat with the girls.

Muyang looked at the few lines of names on the chat group with a strange expression and had already guessed the names of these people.

Soft Mist Spirit Lady was the Flame Spirit Lady in (Nine Planet). She was a mysterious woman who was as gentle as water and as passionate as fire. Her martial arts were strong and she had the ability to control fire. Needless to say, the Admiral Kuzan was definitely the Admiral Kuzan in (One Piece). “Goddess of Goddess.” The words were probably the big boss of (Fire Shadow Ninja), Big Boss.

Young Sect Master of Yun Zhengzhou is the first opponent of protagonist in the (Fighting the Firmament).

The other two were the main characters of the (Dragon Ball), the Piccolo and the main character of the (Stone of Destiny), Phoenix.

Tsk, after these people entered the group, how would the main characters in the original story live?

It would definitely be very miserable.

Oh, that’s not right, a few of them are the main characters in the original story.

“Miss Ling Ye has a lot of information from hundreds of years ago, and they must have it. Which one of you will go and get it?” Android 21 said.

“I’ll go get it for you!” Muyang shook his head and walked out. He did not dare to let his women come into contact with Ling Ye and the others. It would not be good if they were lured away by her.

However, the chat group created by April and the others was very good. Why not get one next time?

With this thought in mind, Muyang teleported to the entrance of Ling Ye’s anime shop.

After talking about the “Two Dimensional Chat Group”, Ling Ye was also very interested. After taking out the information that April and the others needed from Earth’s history, she gathered Gu Gu and the others to discuss building a super-large illusory construct similar to the “Two Dimensional Chat Group”.

Gu Gu and Hong Jun had been working hard to advance to Level 12 Dimension, and they were very interested when they heard it.

Therefore, under the joint efforts of several people, with the “Two Dimensional Chat Group” as the blueprint and the Good Fortune Jade Disk as the center, they built a super-large system together, which could communicate with countless illusory worlds and the modern world.

Two years later, the construction of the equipment was completed.

With Muyang, Ling Ye, Gu Gu, Hong Jun, and the four Level 11 Dimension powerhouses as the highest authorities, Hongye, Android 18, April, Melissa, Gaia, and the other six gods as secondary managers, the system was established.

“What is this thing called?” Ling Ye asked after the construction was completed.

“Why don’t we call it ‘The Myriad Worlds’? With the Good Fortune Jade Disk as the core, we can establish a super-sized world that connects the three thousand great worlds, billions of small worlds, and middle worlds. After that, we can constantly absorb illusions and all kinds of worlds in the real world. One day, we can use it to reach a higher Level 12 Dimension.”

Muyang thought for a moment and said with great ambition.

Everyone thought about it and felt that the name ‘Myriad Worlds’ was indeed very suitable, so they decided it.

“Alright, let’s call it ‘The Myriad Worlds!’”

One had to know that the illusory world was also known as the “Infinite Dimensional Space”. It contained countless illusory worlds. If the “Infinite Worlds” could grow and combine the power of the illusory world and the present world, it was obvious that it would become a grade-12 world group. At that time, Muyang and the others could benefit from it.

Therefore, Muyang and the others were very concerned about the protection of the “Infinite Worlds”.

...

After countless years, the gradually growing “Infinite Worlds” had indeed reached the legendary grade-12 world. Muyang and the others vaguely saw a higher realm.

Right at this moment, somewhere in the void.

A group of people had crossed the Infinite Worlds and arrived. Gu Gu, who was in charge of guarding the Infinite Worlds, thought that they were here to snatch their opportunities. He immediately pulled out the Pangu Axe at his waist and hacked at them with his axe.

Gu Gu was extremely powerful, and he had seriously injured three of the five people of the other side.

Then, Ancestor Hong Jun also rushed over. The two of them worked together to make the five people unable to escape.

“Tang Xing, those two are too strong. Hurry up and call Shaya and the others over.”

...
