

# 《Billionaire CEO Won't Leave》

## Chapter 230

Bai nianxi tried his best to resist, but because soon after the production, he didn't recover completely and couldn't make any effort, so he had to struggle with his survival instinct.

At the end of the day, she just felt that she was going to have to turn her back.

The strength on the face suddenly relaxed, and a breath of air came from the nose.

Bai nianxi fiercely opens the pillow on her face and breathes heavily. Then she sees the situation in the ward. Because the light is too dark, she only sees two people in white coats entangled together.

Because of lack of oxygen for a long time, Bai nianxi almost fainted.

In the brain a burst of dizziness, Bai nianxi and weak lie back on the bed, for a long time to slow down, when she regained consciousness again, already don't know how long has passed.

There was no one in the ward.

There is no one in the tool room.

Both men were wearing white coats and blue masks.

"Who are you?" Jiang zhiang asked, "why kill Bai nianxi?"

Originally, it was just a plan to stir up the relationship between Bai nianxi and kangmobei. Unexpectedly, he was really right. Did kangmobei really start with Bai nianxi?

"Who are you?" Sue is very alert.

This man is also very strange. If he was a normal doctor, he would have called someone when he found out that he killed Bai nianxi. But he not only didn't call, but also brought him here. It seems that he has something to talk about.

If neither of them chooses to announce their identities openly, they can only start talking about the terms directly.

"I know you want to kill Bai nianxi, but she can't die."

"Why?"

Because, she has a very important role for him, to determine the fate of his life.

Jiang zhiang directly took Su Yi'an as a member of kangmobei and said, "let's make a deal."

"What deal?" Sue is curious, too.

.....

"Is that true?" Su Yi An is wringing eyebrows, if this person can really like what he said, take away Bai Nian Xi, that also can be regarded as a good thing.

He didn't want to kill people, but he was really forced by Bai nianxi's words.

You know, his position in front of Kang Xinyue is not stable, and his emotional foundation with Kang Xinyue is not deep enough. His feelings with Kang Xinyue can not withstand any impact now.

Jiang zhiang nodded, "I will make her disappear, cleaner than death."

Both of them are just for their bright future.

But bumped together by mistake, reached a safe cooperation.

"Good!"

Deal.

Because of what happened last night, Bai nianxi didn't fall asleep all night.

Last night's thing, because in the heart of the default is to send people to do, she did not choose to make public.

When Kang Mobei came, Bai nianxi was sitting on the hospital bed, his face looked very bad. At the moment when he saw Kang Mobei, there was a trace of fear and hatred in his eyes.

Kangmobei still went directly to Bai nianxi's bed and sat down, "how do you feel today?"

Bai nianxi looks at Kang Mobei, only to think that the beautiful face is just a mask to hide evil.

She thought he was a good man, but she didn't want to. He just wanted the baby in her stomach.

He was so indifferent to her that he only regarded her as a tool of childbirth. When she gave birth to a child, she would no longer have any use value for him.

He would rather kill her for the sake of a secure family reputation.

How can people be so terrible.

"I want to see the kids." Bai nianxi said.

Kangmo North squinted, as if some doubt, Bai nianxi suddenly put forward this request.

In fact, it's not surprising that a mother's request is natural.

In fact, after a period of careful care, the child's condition is still stable and can be brought out of the incubator.

It's just that there's another reason why conmba is worried.

He can clearly feel that Bai nianxi has not been in a good state since she gave birth to her baby. It seems that she is not willing to stay with him.

He can't tell what he wants.

Behind everyone's back, let Bai nianxi give birth to the baby. Now, I don't want to let Bai nianxi go.

For a while.

"Want to see it?" Conmobei asked, his voice was so light that people couldn't hear the hidden emotion.

Bai nianxi nodded.

"Good." Conmber nodded and agreed.

The next day the child was sent.

Commobei also put down the company's business and came along.

Xiaotuanzi was originally crying. When he was held in his arms by Bai nianxi, the cry gradually stopped, and he lay on Bai nianxi's chest, very attached.

The nurse of the same trade is a baby care expert invited by commobei from the United Kingdom. Seeing this situation, she also smiles and says: "because of premature delivery, the baby always loves to cry, but when it comes to the mother's arms, she doesn't cry. It seems that the relationship between the mother and the baby is stronger than we think." Commobei squinted at the woman and the child in front of him, did not speak, and then motioned for the nurse to go out.

Bai nianxi is staring at the baby in his arms. He just thinks that the baby is so cute. For a moment, he is stunned.

All of a sudden, the baby in her arms opened her eyes, and pulled out a bright smile at Bai nianxi.

Bai nianxi's heart melted.

"Did the child take a name?"

Conmber shook his head.

"Call it Lolo."

The name came into being in vain.

So much for Lolo's family reunion with daddy and Mommy.

Bai nianxi finally persuades kangmobei to leave Luoluo in the ward, but in the evening, Jiang zhiang suddenly comes over and says that he wants to take Bai nianxi away.

Bai nianxi wants to take Luo Luo away. Jiang zhiang didn't let him go, but Luo Luo is just aware of something. As soon as he leaves Bai nianxi's arms, he will cry.

When he arrived at the airport, Bai nianxi had to give Luoluo to Jiang zhiang because he had to go to the toilet. When he got out, Jiang zhiang had sent someone to take Luoluo back to the hospital, but lied that he had taken Luoluo on the plane first. After Bai nianxi got on the plane, he found that there was no Luoluo at all.

But she had no strength to quarrel.

Jiang zhiang gave her and Lolo sleeping pills.

When I woke up, bainianxi had already arrived in England.

When kangmobei received the news, there was no Bai nianxi.

In the hospital, only little Lolo, who was sleeping in her infancy, left her child and him and ran away.

What a cruel heart.

Secretary Xing was shocked when he saw a baby in kangmobei's arms. When he heard that kangmobei said it was still his baby, his eyes almost fell off.

This

President Kang suddenly gave birth to a child?

Because it's not long since Secretary Xing has been with kangmobei, kangmobei doesn't trust him completely, so he doesn't tell him about Bai nianxi.

He hid Bai nianxi and Luo Luo from everyone, but now

Kangmobei asked people to find the trace of Bai nianxi, but Jiang zhiang made a careful plan in advance. In order not to be found by kangmobei people, he even made several flights, first to Britain, then to Russia, and finally to France.

In the end, the people in conbmer got nothing.

The Kang family almost fell out because of this child. The matter finally subsided after Lord Kang forced Luo Luo to have a paternity test to confirm Luo Luo's life experience.

Everyone gradually accepted this reality, and kangmobei, after looking for Bai nianxi for three months, finally gave up.
