

《Billionaire CEO Won't Leave》

Chapter 38

Half an hour later, everyone handed in their own virus code, and the professionals began to test one by one.

However, after a round of testing, all the competitors who were full of confidence in their own viruses were defeated one by one. That is to say, none of the challengers in the whole field could make the virus to break the firewall.

Weiss has a confident smile on his face. Up to now, it has fully proved the firmness and safety of his product. Some people have begun to pay for it.

Only Lolo's virus hasn't been tested, but he doesn't have to worry at all.

However, just one minute after the technicians started the test, the crowd on the field began to hear bursts of exclamations. The onlookers may not understand it, but they can see at a glance that there is a loophole in Weiss's firewall!

Weiss's face changed from sunny to cloudy. His eyes were staring at the big screen. Then, under his gaze, his firewall was finally broken by the virus made by Lolo. Finally, the computer on the field was paralyzed, which took only three minutes.

The crowd began to make a sensation. If they hadn't seen it with their own eyes, they couldn't believe that such a child could make such an aggressive virus!

Bai nianxi blinked. Is that all?

Lolo suddenly thought, by the way, he should keep a few computers to do the second round of testing!

Wes first fell into shock, then slowed down. There was not too much embarrassment on his face, but only full of admiration and admiration for the little genius in front of him.

Luo Luo light asks a way: "excuse me still have the computer that is attacked?"

The numb staff shook their heads.

"Then what? I've made two viruses, and now I've tested one! "

.....

So this kid wrote two virus programs in 30 minutes?

Almost all the people were shocked, and Wes was even more shocked. When he came slowly, he was full of exclamation and said, "no, you don't have to test any more. You have successfully proved your extraordinary ability. You are the only one of the challengers who successfully broke our firewall!"

"But..." There seemed to be some embarrassment on Lolo's face, and he asked, "what about the prize?"

"Prizes?" Weiss replied with a smile: "you are worthy of the first prize, of course, to take the first prize."

Lolo blinked and asked again, "really don't test? But I also want to take the second prize... "

Kangmobei's face is not good, let Lolo competition is because he knows that Lolo want to get the camera to Bai nianxi, but the Kang family is not short of anything, what does he want the second prize for?

"Lolo, you can't be greedy." Conmobeir taught with a black face.

"It doesn't matter." Weiss seems to understand the meaning of Lolo, immediately said: "I believe that with your ability, the second set of virus has no ability to break my firewall. If you want any prize, just take it

Luo Luo came on stage, first took the camera to Bai nianxi, and then, under the gaze of the crowd, put the second prize into Xiaoguo's hand.

Xiaoguo's expression is full of confusion. What does brother Luoluo mean?

Lolo was a little impatient and said, "didn't you say you wanted this? Here you are Finish saying, a face proud Jiao of turn round to leave.

Bai nianxi was stunned! She's going to call Lolo for her family! Crazy call!

After returning from Switzerland, Bai nianxi felt a little exhausted. At that time, she didn't feel tired when she went shopping. Unexpectedly, after returning home, the sequelae began to show.

Bai nianxi howled bitterly at home for two days and finally stopped.

"What is this?" Just came home from work, looking at a cup of green things handed over by Bai nianxi, Kang Mobei asked with a slight frown.

"Butter juice, just hit." Bai nianxi is flattering.

Kang Mo North um of a, took the juice, did not drink, put in front of the tea table.

"Come on, what are you going to do?"

“.....”

She didn't say that. Conmberg knew?

"Well, didn't I borrow you 80 million last time?"

"So?" Before Bai nianxi said it, Kang Mobei had a premonition of what Bai nianxi was going to say. His face was covered with a layer of black fog. How could he want to pay back the money and get rid of the relationship with him?

"I must pay you back the money."

"You want to pay me back? Can you afford it? "

Bai nianxi feels that his throat is blocked by something. Does kangmobei have to be so ugly?

"Bai nianxi, listen, I'm giving you the money. Since it's for you, you don't need to pay it back. If you insist on giving it back to me... " Conmber sat gracefully on the sofa.

"In view of the relationship between you and me, I'll charge interest at 10% per day."

Ten percent daily interest rate?! Is that usury? That's 80 million yuan of interest alone. It's enough for her to pay back the year of the monkey. Bai nianxi really doesn't understand how his brain circuits grow? I've never seen such a person who doesn't dare to pay back the money.

It seems that we can only take circuitous tactics.

After thinking about it, he said, "well, I'm bored to stay at home every day. There's nothing I can do except teach Lolo painting occasionally. So, can I go to work in your company?"

After hearing this, Kang Mobei felt a little shocked on his face, and then his eyes gradually deepened, thinking.

Bai nianxi's request, he really did not expect, when she has leisure to want to work in his company?

But if she goes to work, he can see her all the time, right?

Bai nianxi thinks like this. With her current salary, if she wants to pay 80 million yuan, it's still very urgent for her to find a part-time job. If she can work in comomo north company, it's time to repay her kindness.

"Yes." After a little meditation, Kang Mo quickly nodded, "go to work on Monday?"

White read Xi a Leng, "need not interview?"

In a company as big as Kang's, all the people recruited are dragon and Phoenix among the people. It is necessary to treat talents strictly. As early as before, Bai nianxi had heard that the annual recruitment fair of Kangshi group was the biggest in the city, but it also had the lowest passing rate.

Kang Mobei stares at Bai nianxi, "I'm here, don't you think?"

Er, so, is comomobei going to open the back door for her?

"Not very good, right?" Bai nianxi still has some confidence in her own strength. If she takes the formal procedure, she is sure to pass the interview.

Kang Mo north is astringent eyebrow, way: "good."

Then he pulled off his bow tie and said, "the interviewer is here. You can do it yourself."
