

# Billionaire CEO Won't Leave

## Chapter 387

Bai nianxi nodded. After Ji Zhiye recovered from the shock, he still had no sense of reality.

"That Although there are many relics in Juji Island, I plan to find a suitable island for setting in more than 50 surrounding islands It costs a lot... "

"It doesn't matter. Money is not a problem. You just need to think about what you want in this movie. Other problems should be solved by the director of the planning office. You can go back to Qianqiu and take the director and some responsible persons to confirm the shooting site first."

After Bai nianxi said that, he took out the checkbook, wrote a series of numbers on it, tore it off and handed it to Ji Zhiye.

Ji Zhiye trembled, took the check and counted it. There were six zeros in total.

"It's the expenses for your activities and shooting. You can just tell the minister. He will solve it. If you need money, I can also pay you for your work first."

"No! That's enough

Ji Zhiye is very excited. The spring he is waiting for seems to be today

There was no time to follow the rules of the world and say something grateful. He could not express his superficial politeness. He got up, made a cursory bow, and then ran away without looking back.

Bai nianxi smiles bitterly, closes the door and sends a short message to the minister.

[listen to the director, I will transfer the budget to the designated account, and cooperate with the director. ]

.....

Lumi island is still under construction, but a three story office building has been completed first.

In the three storey office building, looking at the rough interior without partition wall, we naturally imagine the layout and decoration in our mind.

"Here, the conference room." While looking forward, the Secretary beside him carefully recorded his words, because his words are the requirements for decoration and internal separation.

Walking to the stairway, kangmobei turns around and looks at the empty blank building which has been walking back and forth for several times. On the left side, it has been set as the planning department, on the right side is the design department, and in front of it is the technology department. A month later, this building will be decorated as the M + game operation center.

Time went by slowly, and a month passed quickly.

Ji Zhiye took several panoramic photos of the desert island in perfect proportion and sent them to Bai nianxi for a look.

In the photo, the structure and construction of the scene are almost the same as those of Bai nianxi's brain when he was watching the script. Time and action have proved that Bai nianxi's choice is correct.

On the other hand, kangmobei has led the game management, and has advanced to Lumi island. The man-made river around the island has been flowing with clear water, and the business of the game operation center has been carried out in full swing.

[shocked! American plutocrats parachute in a city! Rich, worth more than the provincial richest man! ]

on this day, Shen Hedan's news was on the front page of all the major news.

It took Shen He a month to finish his career in the United States and sell all his real estate. Such a move has created a sensation in the United States, not to mention in city A.

In addition to technology patents, Shen Hedan sold off all his assets in the United States and returned home with a huge amount of US dollars.

The masses are guessing what Shen Hedan wants to do, but after Shen returned home with capital, there was no movement.

In a luxurious private room in a five-star hotel, there are only kangmobei, Bai nianxi and Shen Hedan. Even the Secretary can only guard outside.

"Brother, what are you going to do when you come back this time?" Bai nianxi smiles and pours a glass of wine for his brother Shen Hedan.

"Harm, I don't want to do anything," Shen Hedan didn't even look at Kang Mobei. "You don't know that crazy man Shen Shimo. I'm in the United States, and I have to receive more than ten lawyer letters a day from Shen Shimo, either suing me for commercial crime or suing me for illegally using other people's patents. It's really annoying."

"....." Bai nianxi hasn't talked about Shen Hedan's business for a long time. When he heard this, he was speechless and helpless. He didn't know what to say.

"What do you want me to do?" he said

"Do you think I'm using the Kang family as a shield? When Kang was still in the Kang family, his quiet tricks were all used on him. Now that Kang doesn't belong to the Kang family, I have been maliciously attacked. Hum, it's really hard to clean the Yellow River. " Shen He Dun had no choice but to let out a glass of red wine.

"I didn't mean that. You said it yourself." Conmobei is noncommittal, playing a word game.

Shen Hedan's disappointment with Kang Mobei's inaction has lasted until now.

"You don't care if Kang changes hands?" Shen Hedan also raised his voice by three points.

"My father doesn't care. Why should I care?" Kangmobei put down his glass and looked directly at Shen Hedan without fear.

"Well, you," said Bai nianxi. She was secretly working with kangmobei to run the new Kang family. At present, only the two of them know. Bai nianxi didn't plan to tell her brother in advance, "let's have dinner. Let's leave business for work."

"By the way, when will the case of moussili go to court?" Shen Hedan is very interested in eating this melon. Bai nianxi slightly lowered her head. In her heart, there was a little hesitation. But after the first trial, Mu Sili's desperate appeal and defense shattered her last hesitation.

When Mu Sili applied for an appeal, he didn't forget to take a little guilt off mu Rushuang. Bai nianxi knew that he attached great importance to his family. However, despite other people's pain, mu Rushuang was determined to defend his misdeeds, and he was still unrepentant. This made Bai nianxi feel a little disappointed.

"By the way, when I go back to China this time, the legal team will take it with me. Nianxi, if you want to let Musi leave..."

"No, look at his own fortune. I don't care about him." Bai nianxi interrupts.

Shen Hedan was a little silent. He knew that the Mu family had tied a knife to the Kang family. He also knew that Bai nianxi had tied Mu Rushan with the rope of the law. Later, when Mu Sili was detained, he also knew that he thought that his sister had started the ruthless and malicious mode of fighting back.

"Nianxi, let go of musili." Conmo North secluded, light said.

"If in the future, musili is not good to you and me, then there will be no need to show affection." Conmobei added again.

"Well." Bai nianxi's heart is calm, and his complex cognition and friendship with Mu Sili can't be explained in a few words. Bai nianxi nods.

Shen Hedan only felt that he could not understand what they were thinking more and more. If he let go of his strong competitors in the future, it means that the struggle between mu family and Kang family will be staged again.

"The richest man, where are you going?" Seeing Shen Hedan get up and leave the table, Kang Mobei looks at Shen Hedan jokingly and asks.

"Take the lawyer to see musili." At the same time, the sound of closing the door came.
