

# Billionaire CEO Won't Leave

## Chapter 423

Hearing this, Shen Shimo's anger is aroused. He doesn't care how hard he can get in the car and let his subordinates work.

All he knew was that his heart was full of fire. When he mentioned Shen He Dun, he could not suppress his silence and hurried to open the door angrily.

Seeing Shen Shimo get off the bus, the enthusiasm of the reporters is raised again.

"Beat the journalist to death!" Shen Shimo roared and glared at the reporter who had just mentioned the word "Shen Hedan".

The little reporter was numb for a moment. When he reacted, his microphone and camera had been smashed to pieces. Even he was suffering from the smashed beating.

All of a sudden, the surrounding reporters screamed and stepped back.

"Well! Help The beaten reporters howled.

Hands, wait for silence to stop, still continue to beat the action, around the chicken like looking at the situation in front of the reporter, stupefied in situ.

The Secretary knew that if this scene was reported, it might affect Shen Shimo's image. He quietly ordered his subordinates in another car to smash all the reporters' cameras.

"I'll tell you, who will mention those disgusting words again! And the disgusting word "brother", your end! It must be worse than it is now

In silence, he growled to warn all the reporters, and no matter whether his behavior will have consequences or not, he only knew that he was very angry now.

Seeing Shen Shimo sitting back in the car, the secretary was in a hurry to drive away.

Shen Shimo threw bundles of cash out of the car through the window: "take your medical expenses and equipment loss expenses."

The car disappeared, and the cash on the ground was swept by the storm

"Rushuang, are you ready?"

Mu Sili and his sister mu Rushuang quietly return to Mu's home. Before returning to the United States, mu Rushuang wants to go home and have a look.

It's just that Mu Sili didn't have time to clean up everything of Mu family. At the beginning, the mess left by Mu Liancheng was still scattered on the ground.

Looking at the mess at home, mu Rushuang can think of what happened to his father, and also feel his father's pain, heart, anger and bitterness.

After all, she knew that she had brought all this.

"Like frost?"

Mousse stood outside the house. Seeing his sister standing in the same place, he called to the living room again.

"Well, it's almost ready," Mu Rushun raised her hand and wiped her face, sat in the wheelchair and slowly moved herself to the door, "let's go, brother."

The scheduled helicopter is already waiting on the apron.

For the sake of Mu Rushan's safety, Mu Sili personally escorted him to the United States. Before he left, Mu Liancheng finally decided to give up everything in city a and go to the United States to calm down.

On the streets of the United States, Mujia, a city with abundant financial resources, is just an ordinary person.

Looking at the bustling street, Musi Li recalls the past of musu. Musu is gone, but do you want to let Musu rise again?

His heart, obviously lack of motivation, and even think of the process of the rise of mu, he is full of pressure.

[after the outbreak of the vaccine scandal, where will the Department go? ]

passing by the newsstand, moussili caught a glimpse of similar news in the headlines of all newspapers and magazines.

Blue Biotechnology Musu murmured.

What caused a sensation in the United States is very strange to musili, who has been in

China for a long time.

Curious, Mousse picked up a magazine at will and flipped it at will.

[chairman Wei Xia said that the vaccine scandal will not affect the future development plan of Azure Biotechnology ]

"Wei Xia?" Mousse was surprised. "Weishi is in the United States. Do you have a biotechnology company?"

Mousse never knew about it.

With curiosity about Weishi, Mousse looked up the past news records related to Weishi and understood Weishi's business layout in the United States.

In the United States, Mr. Wei has never even been on the list of the rich. It's a little strange to keep a low profile.

At the beginning, it took Shen Shimo 4 billion yuan to take a stake in Mu Shi. After Mu Shi became a mess, the Wei family did not respond at all, just like the loss was not mentioned.

Mousse knows that it's impossible to find out what's inside from the outside. The only way he can think of that is, to approach Shen Shimo again and enter the Wei family through him. Only in this way can he release his curiosity.

However, just curious, Mousse will not do so.

Remembering the scene that Kangmobei and Bai Nianxi had a good relationship that day, Mu Si couldn't help watching Bai Nianxi and other men happy.

There's always something to do.

The powerful Wei family is his only choice.

"Don't get close to irrelevant people!"

Mousse is standing outside the gate of Blue University of Health Sciences. The security guard speaks English impolitely and expels him. [Blue Health Department, mainly engaged in the research and development of biological agents, has close cooperation with major cosmetics companies, pharmaceutical companies, hospitals, etc. ]

[at present, Blue Biotechnology has more than 100 patented technologies, with an

annual revenue of more than 10 billion yuan, and 10% of the annual revenue is used for scientific research. ]

[we welcome talents from chemistry, biology, medicine and other related majors to join us. ]

.....

Musi from staring at the laptop screen, carefully read the blue bio's enterprise home page.

"Brother, when will you return home?" Mu Rushuang gently opens the door and asks Mu Sili in a low voice.

Musi Li covered up what he was doing a little and looked back at murushuang: "Oh, I'll go back in a few days."

"Well..." The admiration is as frosty as frost.

"You have to learn to take care of yourself. My brother should be very busy in the future. I remember also learning to take care of my father." Mu Sili looked at Mu Rusheng and said seriously.

Mu Rushuang nodded: "well, I see."

A few days later, mousse left to fly back to a city. Since the stock of mousse began to plummet, Shen Shimo has no news, and the major media have not reported the relevant reports.

However, Shen Hedan's progress is very rapid. He uses his exclusive m + experience technology to apply it to various fields.

Mu Sili can feel that Shen Hedan is like a tree. Under the invisible surface, his roots are growing rapidly and orderly, firmly rooted in city A.

It is believed that in the near future, the news of cooperation with Shen Hedan will be heard from the big figures in various fields.

"Shi Mo, you'd better go back to the United States. It's a waste of time to make a fuss in a city."

In Shen Shimo's house, Wei Xia said impatiently.

"It's OK for the United States to preside over it. Why do I have to go back?" Shen

Shimo looks at the iPad. On the screen, there are some news about Shen Hedan.

“.....” Wei Xia frowned and said impatiently, "a business has been settled. You will take charge of it!"
