

Billionaire CEO Won't Leave

Chapter 424

"There is progress in biological research. Mr. u has paid a deposit of 10 billion yuan. Before delivery, you should follow him personally. After all, it matters a lot. Not everyone can intervene." Wei Xia's strong command.

Silence is not willing, but his mother's words, he can not disobey.

"I see. In a few days..."

"Go back to me today!" Wei Xia again gave a strong order.

Shen Shimo looked up at his mother and wanted to say something rebellious, but in the end, he didn't say it.

Musi is wandering outside the villa of Shen Shimo. He is thinking about his plan.

He didn't care much about what the Wei family was doing, but more about what the Wei family could do and how to crush Shen Hedan and Kang Mobei on the sole of their shoes.

"Oh, whose bereaved dog is this?"

When Shen Shimo walked out of the house, at the first glance, he saw Musi Li, who was wandering.

Mu Sili saw that Shen Shimo's face was still covered with gauze. When he saw this clearly, Shen Shimo had rushed over and his fist had already landed on his face.

Let Shen Shimo fight against himself. Without any resistance, Mu Sili only protects his head a little.

"I, I want to cooperate with you!" In the process of being beaten, Musi Li said a word difficultly.

Hearing this, Shen Shimo seems to have heard a joke. In Shen Shimo's eyes, he is a man who should have died long ago. How can Shen Shimo believe his lies again.

"I'm going to destroy Commodore! Even if you want to kill me! Before that! I want to

see Commodore die! " Mousse growled out of his way. During the growl, he got a foot in his abdomen again.

Shen Shimo, who was tired, took a look at Musi Li, who was beaten so bloody that he fell on the ground. He calmed down his breath a little, and his mood was almost better.

Just as he was about to leave, Musi Li suddenly jumped over and hugged Shen Shimo's calf: "I want to cooperate with you! I want to see Commodore die! "

"Get out of here!" Shen Shimo kicks away musili.

But it doesn't matter if Musi is kicked away. He is like a brown candy again, tightly wrapped around Shen Shimo's calf.

"I know that your Wei family has a lot of business in the United States, and you have a health company! I can do things for you! I can do anything I want! As long as you can make conumber die! I can do anything Mu Si is pestering Shen Shimo.

"Are you sick?" Shen Shimo was annoyed.

"To make so much money, to have so much influence in the United States! I know that the main business of your Wei family is not as simple as it seems! " Moussili roared.

As soon as Shen Shimo's face changed, he was afraid that others would hear a few words. Even though he was extremely disgusted with Musi Li, he couldn't help it. Shen Shimo picked up Musi Li and dragged him to a corner.

"I tell you, if I hear any rumor about the Wei family, I will count it on you! I advise you not to talk nonsense! " Silent and hard to deter.

"You Wei family It's viruses that make money, right? " Muse from shallow evil smile, a smoke a smoke corner of the mouth, does not seem to be silent threat in the eye.

"Try another word of nonsense!" Silent stare Musi from, fist, will be in his mouth the next second, let Musi from taste.

"The core business of the Wei family is biotechnology. They import biological viruses into war-torn areas and earn war-torn money. No wonder Wei Jiafu is an enemy."

Although there is no strong evidence, such a guess is not impossible for the Wei family, who has always been ruthless.

"You..."

"Your Wei family has fallen into a vaccine scandal in the United States, but it has been settled. I believe there must be powerful forces behind it to support you, right? Hum Musi Li interrupts the silent voice and continues coldly.

Shen Shimo said with a smile: "do you know that people who know these things are all dead?"

Musili is still fearless: "I'm not afraid of death, I just want to let commo go north to die."

Shen Shimei always thinks that musili is valuable, but he can't rest assured that musili is always two faced.

"You think I can't believe it. In fact, I can be a double agent. If you don't believe it, you can install a monitor for me. I promise that I won't change hands this time." Musi sat on the ground, raised his eyes, and looked at Shen Shimo with begging eyes.

"....." It seems to be a good idea. Shen Shimo looks at Mu Sili and thinks about it secretly.

If the Wei family wants to do business, Shen Hedan and Kang Mobei also need to get rid of them. Mu Sili is really valuable.

"Next month, a certain head of state in the Middle East will take a cruise ship to play on the high seas. We've got a new business, which is to do something on board. How about that? Are you interested?" Silent and mysterious smile.

"I can do anything for you!" Muse saw the play and said in a hurry.

"I don't believe you at all now. If I want to win my trust, it's very simple. That's to go to the cruise ship for me and do something." Shen Shimo said. "....." It seems that he can't do a good job. This is the first reaction of Musi Li. But after less than a second of hesitation, he once again said firmly, "I can."

"Wait until you see the simulation, then you can say yes or no." Shen Shimei walks to the car at the door of his home and slowly sits in the driver's seat.

Mousse quickly followed him. As soon as he was seated, the car drove away quickly.

In an abandoned chemical plant, dozens of chickens and ducks were enclosed in a glass curtain. In addition to birds, there were white mice, dogs, cats and other mammals.

Mousse doesn't know what to do here, just watching in silence.

"Ready?" Shen Shimo looked at the people behind him, all wearing white protective clothing.

The man in the protective suit nodded, and Shen Shimo dragged mousse further away.

About a minute later, in the glass curtain, the animals suddenly became restless. The restlessness became more and more intense. After a few minutes, the restlessness gradually subsided.

"This reagent takes four days to see the effect, young master. Are you sure you want to use this reagent this time?" This question seems to have been asked many times. The expert in protective clothing asked without expression.

"Well, it's more natural. You can make sure it works in four days." Silent light way.

Mousse can't do without understanding, can only stare at.

Shen Shimo chuckled and looked at Xiang musili: "if you stare here, you can see with your own eyes. I'll come back in four days to warn you that you are not allowed to go anywhere these four days. You can only stay here."

"Good." Mousse left the low voice.

Time passes very slowly, especially in the waiting time.

Moussili looked at the small animals, and there was nothing unusual at first. He probably guessed that the animals were restless just now, maybe because they saw the stranger's uneasiness, not because of the reagent.

Until the next day, the fur of these animals began to fester and fall all over the ground, but their spirits were very excited. Whether it was birds or mammals, they started an inexplicable struggle. It seemed that they were seizing something, and they were just fighting for the struggle.

For about four days, the skin of the animals was festering bit by bit. Finally, four days later, all the animals died in the festering
