

# Billionaire CEO Won't Leave

## Chapter 446

"Hello, I'm Shen Hedan. Mr. Kang is injured now, so I'll take charge of the official conversation for the time being."

Shen Hedan kept smiling and looked at Tian Huarong with a cold and proud face.

Tian Huarong raised the corner of his mouth: "then I'll make a long story short. When an accident happened in Lumi Island, our artists were seriously injured. You, Lumi Island, on behalf of Fang, have an unshirkable responsibility."

Hearing this, Shen Hedan's eyes widened: "what? Lumi island has an unshirkable responsibility? Are you kidding? "

"I'm not kidding. It's reported that someone was maliciously smashing Lumi island at the time of the incident. I have reason to suspect that the vicious incident happened to my crew because there was a serious lack of safety management in Lumi Island, which caused our crew to suffer huge losses in the shooting process. Therefore, I come here to follow up the investigation results of the case in addition to the injuries of the artists, At the same time, we will file a claim against you for the loss. "

"Ha ha," Shen Hedan understood the purpose of the Zi family and chuckled, "excuse me, Mr. Tian, when you were shooting a blasting play, who was holding the blasting button?"

"It has nothing to do with who manipulated the blasting. The thugs could easily enter Lumi island and smash it maliciously. This shows that the blasting props we arranged in advance at the scene are likely to be manipulated secretly by these thugs..."

"Oh, originally, you only care about whether your interests are damaged. Please allow me to interrupt. As the capital side, will you take responsibility before the end of the investigation? Such as the treatment of the wounded, such as the follow-up arrangement of the injured artists. " Shen Hedan asked with a sneer.

"These are all incidents that happened in Lumi island. If you want to take responsibility, Lumi island should ask yourself if you should take responsibility for the huge losses caused by your poor security measures?" Tian Huarong said aggressively.

"Hahaha," Shen Hedan was almost laughed with anger, "according to the current

investigation results, the explosion accident was caused by the improper operation of your crew, which had nothing to do with the security of Lumi island."

"Are you sure there's evidence? The blaster has disappeared, and the only person who can prove that the operation of the crew is improper is the blaster. Since he is missing, how can you conclude that the accident has nothing to do with the security of Lumi island? " Tian Huarong didn't give in at all. He said coldly.

Shen Hedan shook his head with a wry smile and said helplessly: "since the words are all about this, I want to ask you, the faces of the three seriously injured male stars have been destroyed, but they have signed a contract with you. At this juncture, how would you choose? I guess you will abandon these three young people? Because of time, you can't afford to delay, and they have lost the value of making profits for you, right? "

"That's our business in Letian. It has nothing to do with you. Let's talk about the compensation. In view of the serious injuries of the three artists in our company, they need to be treated at present and in the future. In addition to the cost of their work delay and their value, the one-off price is 300 million. As long as the compensation is made, you and I will make a settlement, otherwise..."

"No, although I come here on behalf of komobu, I have the right to refuse your proposal. I can reply to you immediately for the compensation you mentioned. Go to court. 300 million, dream." Shen Hedan stares down at Tian Huarong.

"Hum, I'm not a fool. Your series of explorations just now are all trying to find out what attitude I will hold as the capital side. Since you speculate about me from the aspect of capital, I have to return to you. You are just a Zi family, and we are all the same." Tian Huarong did not give in, and they were tit for tat.

"So, for your capital, for your interests, and for your subsequent choices, I can guess that you will abandon these three artists." Shen He said coldly.

"As I said, we are all the same. There is no mistake in pursuing profits. You are waiting for a long investigation. Believe me, in the long investigation time, your losses will not be less than 300 million." Tian Huarong put on his sunglasses and was ready to end the negotiation.

Just now extremely sober, in the slow passage of time, gradually disintegrated, Linze felt the pain, pain, consciousness is also gradually disintegrated.

All he knew was that when he was pushed into the ambulance, the bumps of the vehicle would cause severe pain of splitting his body.

"Here comes Lin Ze!"

The media outside the hospital swarmed around the ambulance when they saw it coming.

"Please give way! The patient needs first aid immediately! No delay! Please get out of the way

"Linze! Show me how you are hurt! "

The doctor quickly unloaded the stretcher from the ambulance and put it on the cart. Lin Ze was covered with a blanket from head to foot.

"Let's go! Go away! Don't delay the first aid

While shouting, the doctor frowned and urged the reporters around to disperse.

A reporter stretched out his hand slightly to lift the blanket covering Lin Ze's face.

A face as black as coke scared away all the reporters.

"Wow! Is it done like this? "

"My God! How can it be treated? Give it to me and I'll die! "

“OMG! Tut tut! What a pity.....

The piercing words hurt Lin Ze's heart, but the physical pain was even more painful. The stabbed heart made his body even more painful, because tears could not help spilling over his eyes. The burned wound was like salt

Bai nianxi tells a security guard that in addition to Kang Liqing and Kang Xinyue, even doctors have to check their identity before they can be put into the ward. After that, Bai nianxi rushes to another hospital. Shen Hedan says that he wants to see three injured artists. In addition, he has something to tell her.

When they came to the hospital, the reporters surrounded the gate of the hospital. Shen Hedan specially arranged his subordinates to keep the reporters away. Although they had no right or obligation to do so, they did so.

Seeing Bai nianxi, Shen Hedan pulls Bai nianxi together and enters the hospital through the back door.

"How was the conversation with Lota?" Bai nianxi asked as he walked.

Shen Hedan said with a wry smile: "in terms of conversation, Letian thought that I was going to negotiate. It would cost 300 million to open my mouth."

"What? claim damage? Claim on us? " Bai nianxi was surprised and wondered, which matter between Lumi island and Letian is worthy of claim?

"Because of the lack of security in Lumi Island, Letian plans to shift the responsibility for the explosion accident to Lumi island. When the accident happened, there was a smashing incident. They plan to make an article on it, so we have to be prepared. Letian has no conscience at all and is a complete family." Shen Hedan's tone was slightly angry.

"Oh..." Bai nianxi heard the words and shook his spirit for a moment, "that..."

"Lota intends to give up the follow-up of the three artists and even tear up the contract signed. If there is no medical treatment in time, the three artists will be destroyed. They are still young and can't stand the long investigation process." In his words, Shen Hedan was worried about the future of the three injured artists.
