

Billionaire CEO Won't Leave

Chapter 476

"Mom, I'm going to have a nervous breakdown."

After confirming that the sound outside is just an ordinary sound, he complains casually. He is always so nervous and is really about to collapse.

Wei Xia didn't pay attention to her silent voice. She gradually relaxed her tense nerves. Wei Xia sat on the sofa in the hotel room, her hands shaking.

"By the way, Mr. Shen," said the Secretary, holding the letter Shen Hedan had given him. As he was about to leave, he stopped and looked at Shen Hedan. "Since it's a position, then Can I have a look? "

Shen Hedan saw the Secretary ask, silent for a few seconds, and then nodded.

The Secretary got a response, walked out of the office and opened the envelope carefully.

There is nothing new in the letter paper. It just states the situation of Wei Xia's mother and son, and finally notes a location information - an idle empty house in the suburb of a city.

After reading the contents, the secretary was stunned, and immediately understood why the letter had to be delivered ten days later - Shen Hedan had not yet captured them, and after that, he would place them in the empty house.

"Mom, our money is in Swiss bank, but we can't go to Switzerland. What can we do? We don't have much cash." Shen Shimo casually lies on the bed in the guest room and says to his mother sitting on the sofa.

In addition to escaping and protecting her life, Wei Xia's most concern is naturally her own property. Fortunately, she used to deposit money in Swiss banks, so now she will not be taken away by her former backers after the incident.

"I'll find a way these days." Wei Xia frowned and responded.

Shen Shimo looks at the shrunken wallet and tosses it aside.

After the loud bang, several big men in black broke into the house quickly. Before Wei Xia and Shen Shimei reacted, they quickly wrapped their heads in black cloth bags and then roughly tied and dragged them away.

A series of catching actions are swift and quick.

"Mr. Shen, it's done." Gao Shun came to Shen Hedan's office with a straight face and a simple report.

Shen Hedan nodded and raised his hand to say "you can go out."

It's almost four days before the Secretary can deliver the letter to CCB.

On the other side, Shen Shimo and Wei Xia, for some unknown reason, did not move at all. Their heads were still covered with black cloth bags.

I don't know how long it took Shen Shimo to wake up suddenly. His eyes were wide open, but there was still darkness in front of him. When he tried to breathe, he realized that his mouth was sealed.

"Well! "No!" Shen Shimo struggled violently and twisted his body. He accidentally touched the soft touch beside him. The touch startled Shen Shimo and immediately tried to touch again

Touch, wake up Wei Xia, Wei Xia reflex like want to scream, but can't cry.

"Well!! Help... " Wei Xia can only put out the corresponding mouth shape, and her voice can only be sent out in a distorted manner.

Shen Shimei judged by his voice that his mother was beside him, but his heart could not relax.

"No, no!" Wei Xia struggles wildly because of her panic. She also makes a sound in her mouth, but she can't hear what she is saying.

Shen Shimo quickly calms himself down and listens quietly. The darkness is because his head is covered by a black cloth bag. There is no sound around him except his mother

After confirming that there was no one around him, he stood up silently and tentatively. With his hands and feet tied, he could only lift his hands from his back with extremely twisted arm posture, and then with a few fingers that could barely move, he took off the black cloth bag on Wei Xia's head.

Wei Xia suddenly can see the scene in front of her, but the scene in front of her is even more frightening.

All around is a strange and open space of cement wall. The wall is a gray cement wall without any decoration. On the ground, every one meter is a sewer. The sewer is covered with an iron well cover, and they are leaning against the huge square cement column alone and against each other. Such a column is in a regular form, every three meters or so.

"Well, well!" After Shen Shimo confirmed that he had taken off the black cloth bag on his mother's head, he saw that his mother didn't respond, so he asked his mother to help him take off the black cloth bag on his head.

When Wei Xia heard the sound, Shen Shimo had already arched her head on her for a few seconds. She barely moved her body. Wei Xia raised her hand difficultly and simply took off her headgear. It took nearly ten minutes to do it.

After Shen Shimo's sight was no longer blocked, he probably understood that they were imprisoned here. The person who caught them could not be sure who they were or whether someone would come next.

With his hands tied back, Shen Shimo tried to break free for a long time, and finally gave up. After thinking about it for a long time, Shen Shimo "cleverly" thought that, with his back to his mother, he would tear off the black tape on his mother's mouth.

Wei Xia also followed this practice and helped Shen Shimo remove the black tape on his mouth.

"Hoo Finally, I can make a sound. I am silent for the first time. I choose to take a deep breath. However, the smell of sewer in the space is so strong that I almost vomit in the next second." "Mom, are you ok?" Silent and tolerant of peculiar smell, open and concerned.

Wei Xia's eyes are desperate. In this environment, she has no way to judge where she is, in the United States, or

Therefore, it is impossible to determine who bound him here, or even how long he was in a coma before he woke up.

Ignoring the silent concern, Wei Xia's brain began to work quickly. All kinds of temptations made noises and confirmed that they would not attract the enemy. Then Wei Xia said in a cold voice: "find a way to untie us quickly. In case the person who tied us is Mr. u, we are finished!"

"Well Mother's words are too much involved. The first reaction of silence is obedience.

But his hands and feet were tied up so that there was no gap at all. He could only keep trying to loosen the rope that bound his hands. Although it was smelly around, the ground was too clean, and there were no two glass windows on the wall. He couldn't cut the shackles with the help of sharp props

Shen Hedan's secretary left when Gao Shun came to report the situation. He looked up at Shen Hedan and asked, "it means Have Shen Shimo and Wei Xia been brought back?"

Hearing this, Shen Hedan looked up at the Secretary: "have you read the letter?"

The Secretary bowed his head with a guilty heart: "well I've seen You said you would deliver the letter to CCB in 10 days. There are still four days left. Are you going to... "

Shen He didn't say a word with a smile. About a minute later, he said, "these four days, they've been locked up. Anyway, they can't escape."

In response to the Secretary's inquiry, Shen Hedan issued instructions to Gao Shun on his mobile phone:

[evacuate, don't stay there.]
