Chapter 1031: Welcome to the Mythical Era (2)

President Lin said, "During this period of time, I've been thinking about what Dong Huang will use to welcome the Mythical Era."

"Even during the peak of the Mythical Era, Blue Planet was only a small corner of the vast starry sky."

"Although the World Tree entrusted the hope of Blue Planet to humans, the time left for human development is still too short. Even if every Legendary is a genius with the potential to enter the Mythical Domain in the future, there are still too few such people."

"Dong Huang needs more geniuses like you. You're already in front. If you can help them, that would be best."

President Lin thought for a long time. Although Shi Yu was a genius and had extremely strong talent potential, he couldn't place all the fate of the country on Shi Yu alone.

Every Legendary Emperors were a figure who suppressed an era. However, when an accident happened to them, Dong Huang would immediately be in danger.

No one could guarantee that Shi Yu could definitely grow successfully. From President Lin's perspective, he hoped that the entire Dong Huang was powerful and everyone was like dragons, not Shi Yu alone. Of course, the difficulty was even greater.

"Yeah." Shi Yu nodded. He didn't want Dong Huang to bet everything on him either.

At the thought of this, he suddenly understood Lin Feng Legendary.

Legendary Lin Feng's goal in nurturing the second team was to let them protect Dong Huang, so he could wander around without any worries.

Instead of the current situation, where people like Divine Source Legendary were very tired and needed to sleep at all times to protect Dong Huang.

In fact, Shi Yu looked forward to being like Lin Feng Legendary more. If he kept staying in Dong Huang, he would suffocate to death.

"Then I'll nurture more geniuses with Legendary potential," Shi Yu said.

Please don't put everything on him.

Compared to staying in Dong Huang, space-time travel, starry sky travel, and the unknown place mentioned by the World Tree attracted Shi Yu to explore more.

Well... He also wanted to learn from Lin Feng Legendary and nurture some second teams. He just had to leave them behind to help him take care of his acquaintances in Dong Huang.

"I'll help," Shi Yu said. "Dong Huang doesn't have any other plans."

"In order to welcome the Mythical Era, Dong Huang has already started to prepare," President Lin said with a smile.

"Thanks to you and the Blue Sea Sprite, Dong Huang has already completed an alliance with most ocean totem factions like the Endless Sea and the Ghost Sea."

"Now that Dong Huang has basically mastered the hegemony of the sea, it can travel the sea freely and come into contact with most totem factions through the sea."

"Now, under the threat of external enemies and the guidance of the World Tree, Dong Huang can already try to open up world trade and earn more resources. It can even lead to upgrading the Seven Nation Alliance to the Blue Planet Alliance. If Dong Huang can become the master of the Alliance, the fate of the country will be tied to the fate of the planet. It can use a large amount of resources to change the talent potential of the Beast Tamers in the country and nurture more geniuses."

Shi Yu said, "Blue Planet Alliance? Economic globalization? Benefiting the community?"

It was indeed not bad, but...

"Not only between humans and the totem country, but there's also a blood feud between the totem countries. Even if there's the threat of external enemies, it's very difficult to establish a planet alliance, right?" Shi Yu said.

"Yeah." President Lin nodded.

"Therefore, the Seven Nation Alliance is planning to develop a large-scale ruins mystic realm that can connect the entire world and build a second virtual world with the power of technology. At that time, through the various benefits of the second world, it will lure the totem country to join. This might become a key step in establishing the Blue Planet Alliance."

Shi Yu was stunned. A virtual game?

The Seven Nation Alliance was going to play big this time.

It sounded quite interesting, but unfortunately, he was also busy establishing the "planet world" and couldn't spare the energy to mess around with the seven countries.

"The Heavenly Fox Nation and the Heavenly Sword Nation I've been to don't have any technological foundation. Most totem countries are the same. Using the power of technology to invade culture is indeed a dimensional reduction attack," Shi Yu said. "But this way, the technological level of the totem country will quickly get on track."

President Lin smiled and said, "This can't be helped. As long as high-end technology is in the hands of the seven countries, it's fine. The most important thing now is still to welcome the Mythical Era."

....

After talking to President Lin for a long time, Shi Yu stretched and lay on the bed again to look at the ceiling.

After the incident with Yun An, it was normal for President Lin not to want him to run around.

As for the ruins mystic realms in the country, there were indeed a few that interested Shi Yu.

For example, he had never been to the ruin that trapped the strongest person in Bureau 11 who had yet to come out.

For example, Shi Yu had yet to find the ruins corresponding to the ruins crystal that flew out of the heroic spirit ruins established by Emperor Shi. He didn't know if it was in Dong Huang.

Shi Yu stretched again and was thinking about where to start exploring, but in the next moment, he suddenly looked in the direction of the East Sea, which was the sea area of the Ice Dragon Snow Mountain. He sensed at least two totem-level fluctuations from there.

"Ling."

"Well, it should be the totem dragon king of Dragon Palace City. It seems to be the aura of Senior Ice Dragon. The other one is relatively unfamiliar. Golden Dragon King?" Ling said.

"Let's go take a look," Shi Yu said.

...

In the Ice Dragon Snow Mountain Sea area, as the headquarters of the Environmental Protection Department, the navy was still stationed here.

Huang Qi, Cen Mingzhi, and the others underwent special training at the sea base every day. At the moment, they were the highest commanders of this godforsaken base.

[Unscientific Beast Taming](#)

Chapter 1032: Welcome to the Mythical Era (3)

These two had once gone to Dragon Palace City as navy representatives and gone to the Pirate King Ruins to adventure with Shi Yu. Now, they were also pillars of the Marine Environmental Protection Department. It could be said that their future was promising.

However, they were actually very depressed because the Marine Environmental Protection Department was too f*cking free. The original highest commander, Xiao Qin, directly ran to be a general for Shi Yu's mechanical phantom beast army because she was too free and didn't come here at all.

Only they were left silently guarding this sea and pulling a group of Ping Cheng recruits to train, train, train... They solved a large number of employment problems for Ping Cheng and Icefield City.

On this day, the wind was gentle and the sun was bright. The new recruits looked at the black dot in the distance in confusion. The invisible pressure made them swallow their saliva and reveal incredulous expressions.

"Energy Ripple No. 1, unable to detect."

"Energy Ripple No. 2, unable to detect."

"Energy Wave 3, 7.6 million."

"What's going on?" Huang Qi quickly arrived beside the reconnaissance device in the base. As he captured it, he was stunned.

It was a Western dragon and two Eastern divine dragons.

The dragon was mainly made of black and blue scales, and its might was terrifying, as if it was the leader of three creatures. As for the other two, one was a white divine dragon, and the other was an even larger golden divine dragon. When he saw them, Huang Qi was clearly stunned.

He didn't know the dragon, but he felt that the golden divine dragon and white divine dragon were a little familiar.

"It's the eldest and third princes of Dragon Palace City." Beside him, Cen Mingzhi quickly said, "It's not the enemy, it's the divine dragons of Dragon Palace City."

However, although it was Dragon Palace City, Huang Qi and Cen Mingzhi still quickly chose to send a signal to intercept. At the same time, they immediately informed Shi Yu.

Even members of Dragon Palace City couldn't enter Dong Huang without official procedures.

"Roar!!!"

A moment later, the Frost Demon Dragon, the Nine-clawed Golden Dragon, and the White Azure Dragon arrived together and floated above the Marine Base of the Environmental Protection Department.

Countless recruits looked at the sky in shock. They had never seen such a powerful creature.

"Your Highness, Your Highness... And this lord..." Huang Qi and Cen Mingzhi immediately ran to welcome him.

In the sky, the Frost Demon Dragon raised its eyebrows and said, "I'm the Frost Dragon King, the in-charge of the Environmental Protection Department of Dragon Palace City. Even I don't know how you guys carry out your professional training."

Huang Qi and Cen Mingzhi were shocked. The Frost Dragon King didn't look like this. Why did it look like it had turned into a demon?

Forget it, forget it. Totem level, together with the eldest and third princes, it was most likely the Frost Dragon King.

They said, "Greetings, Lord Frost Dragon King. May I know why you're here in Dong Huang?"

"Looking for Shi Yu," Ice Dragon said.

"We've already contacted Minister Shi Yu."

"That's good. Let's wait." Ice Dragon nodded.

"Yo, yo, yo, yo, charge, charge." Beside him, the little white dragon snorted.

"Big Brother Golden Dragon, are you really going to challenge Senior Shi Yu..." It looked at the noble and incomparably powerful Nine-clawed Golden Dragon beside it.

"Yes." The eldest son of Dragon Palace City had a calm expression.

It was the son of the Golden Dragon King of Dragon Palace City, the eldest prince of Dragon Palace City. Its talent potential had even obtained the recognition of the Dragon God.

At the monarch level, it was invincible. At the overlord level, it was invincible. Now, after multiple trials, it relied on transcendent super Race Skills, Legendary resources, and overlord Resistance to break through to the totem level.

As soon as it broke through to the totem level, it returned to Dragon Palace City from the ruins mystic realm. Right on the heels of that, it learned about the end of the world competition.

It learned about Shi Yu's legend experience in Dong Huang from his parents.

A Beast Tamer who cultivated a Mythical Race and a Green Dragon... A Beast Tamer who could instantly kill totems above his level as an overlord.

Various legendary experiences shocked the Golden Dragon Prince. When many Legendaries heard this, they really wanted the Golden Dragon Prince to challenge Shi Yu, Shi Yu's Green Dragon, and the Mythical Race. It didn't believe that there was a dragon stronger than it at the same level. However, after telling its father this thought, it was immediately denied.

"It's impossible. The Green Dragon Prince of the Dragonman Empire is also at the totem level. It was insta-killed by a meteorite. Although it's countered by the Green Dragon bloodline, it's not much better for you to go."

Regarding this, the Golden Dragon Prince didn't believe it, but it wasn't arrogant either. It chose to enter the Dragon God Ruins to train first. As soon as it entered, it was very lucky to obtain five Legendary resources. With the help of these five resources, its strength increased greatly in just two months. Its strength was close to the standard of a top-notch totem. It was completely incomparable to a totem like the Green Dragon Prince that relied on external forces to advance. Therefore, it had the thought of challenging Shi Yu's Green Dragon again.

This time, the Golden Dragon Prince finally obtained his father's recognition.

After asking the Dragon God, he also obtained the Dragon God's recognition, so he came to visit Dong Huang to challenge.

At the same time, for some reason, the Dragon God even sent the Frost Dragon King to accompany it. As for the little white dragon, it was purely here to join in the fun.

"Hi."

As the ice dragon, golden dragon, and little white dragon waited, soon, spatial ripples rippled. Shi Yu appeared out of thin air in the sky above the sea.

"So free to come to Dong Huang?"

Shi Yu floated in the sky with his Psychic power and smiled at the Ice Dragon and the little white dragon. At the same time, he looked at the powerful Nine-clawed Golden Dragon beside him in slight surprise. It was already close to top-notch totems like the Golden Dragon King...

Golden Dragon Prince...

Previously, he had understood that it was only an invincible overlord. It had only been a few months, but its battle power had actually reached the level of a top-notch totem?

"The Dragon God told us to." After Mother Dragon saw Shi Yu, she immediately welcomed him with a smile. It couldn't be helped. Shi Yu had given it a divine-level evolution resource. Apart from Mu Huiyin, Shi Yu was its closest relative!

"The Dragon God asked me to send you some equipment. She seems to be saying that you broke the one she gave you previously," Ice Dragon said.

"Uh." Shi Yu was stunned and immediately realized.

The Dragon God definitely sensed the use and destruction of the Dragon God Protection.

This was... creating another one for Ice Dragon to send over.

"Also, also, Big Brother Golden Dragon wants to challenge your Green Dragon, Senior Shi Yu. It said that the Green Dragon is only so-so. It can also fight with its two claws," the little white dragon beside him said.

It immediately made the Nine-clawed Golden Dragon turn to look at it.

The eldest prince: "?"

When the f*ck did he say that?

Why did it feel that the little white dragon had become arrogant recently? Why was it so cheap and angry?

It didn't bully the little white dragon as much as the clueless prince.

"Challenge Buggy?" Shi Yu was stunned and looked at the Golden Dragon Prince.

So that was the case.

However, why was it challenging Buggy? How good was it to challenge Chi Tong?

It wasn't that Shi Yu was afraid that Buggy couldn't defeat it. Not only did Chi Tong fuse a pile of top-notch super skills, but Buggy and the others were also the same. Skills like the Green Dragon Indestructible Body were all explosively strong. Moreover, it was just an ordinary battle. It didn't matter if it won or not. Shi Yu didn't even want to use the meteorite, afraid that it would waste the power of faith. It was mainly because Chi Tong had just evolved and he hadn't had time to see the power of the Immortal Slaying Sword Formation.

Shi Yu looked at the Golden Dragon Prince seriously. Then, he looked at the Dragon Mother, who had reached a top-notch totem and looked even fiercer than the Golden Dragon Prince. A bold idea appeared in his heart.

"Alright, I accept the challenge," Shi Yu said with a smile.

The Undying Dark Phoenix was still a mother, and so was Mother Dragon. Why not let Chi Tong hit this mother first?

At this moment, as Shi Yu accepted the Golden Dragon Prince's challenge, for some reason, Ice Dragon felt a cold aura and chill rising from behind...

Unscientific Beast Taming

Chapter 1033: Four Holy Beasts Descend (1)

The super genius from Ping Cheng, the legend of the world, Shi Yu.

Dong Huang's most important ally, the eldest prince of the strongest ocean faction, Dragon Palace City.

To the new recruits of the Environmental Protection Department below, these two were both legendary existences that they needed to look up to.

And now, they wanted to fight in a few words after meeting, immediately making these new recruits excited.

Holy shit.

It seemed like he was about to encounter big news.

"Minister Shi Yu... do you want to fight..."

Below, Huang Qi, Cen Mingzhi, and the others were also instantly excited.

There was a good show to watch.

"Oh?" Shi Yu looked down and said, "It's none of your business. Continue training."

"Remember to activate the Protection Facility to avoid the aftermath interference."

In a battle of this level, how could he have the time to protect a group of new recruits?

What the hell?

"Huh?"

As Shi Yu finished speaking, the excited expressions of most of the people below stopped.

So heartless.

"Let's go to the isolated island." The eldest prince of Dragon Palace City was rather satisfied to see Shi Yu accept the challenge.

...

Then, Shi Yu and the others flew to an isolated island in the East Sea. During this process, Ice Dragon handed the new Dragon God Protection to Shi Yu.

During this period, the Golden Dragon Prince wanted to say something but hesitated many times. It said, "What the little white dragon said just now was nonsense. I didn't say it."

Although it wasn't afraid of Shi Yu, it didn't want to take the blame!

The little white dragon: "Ah, no? Did I remember wrongly?"

Shi Yu : "..."

"It's alright, there's no need to overestimate it. It's still far from the real Green Dragon," Shi Yu said.

Ice Dragon and Little White Dragon: "Nonsense!"

They had seen the World Tournament. How could they not know if that strength was the real Green Dragon?

"Oh?" However, when the Golden Dragon Prince saw that Shi Yu had shown weakness before the battle, he became even more confident.

Soon, Shi Yu flew to an isolated island with Dragon Palace City.

After arriving, the ice dragon and the little white dragon immediately turned into melons and ran to the side excitedly.

"I'll protect the venue," Ice Dragon said.

"I'll cheer you on," the little white dragon said.

"Roar!!!! (Then I won't hold back. Sir Shi Yu, thank you for the battle.)" In the sky, the hundred-meter-long Golden Dragon Crown Prince circled up, its golden scales shining.

Shi Yu could sense the strength of the Golden Dragon Prince's physique. The Golden Dragon Race was also a race known for its physique. Because of the advantage of level, its current strength was even above Buggy. This time, Buggy would have a difficult battle.

Shi Yu didn't plan to help Buggy, including the Green Dragon Domain and Spirit connection. His current body didn't allow it either. He would treat it as letting Buggy train itself.

"Same. Please do your best, Your Highness." Shi Yu smiled politely.

"Roar." In the next moment, the huge black summoning array behind Shi Yu shone with a green-gold light. In the spatial ripples, a hundred-meter-long green divine dragon appeared. Its golden eyes stared at the golden dragon in front of it.

The two dragons looked at each other, their eyes especially red.

"You're the lucky guy who evolved into a green dragon?!"

"Come on, let me see how strong the Green Dragon's faith skill is." The Golden Dragon Prince's gaze was serious as he made a full battle state, wanting to see how strong the Green Dragon's faith skill was.

"Ji. (I refuse.)" However, Buggy turned around proudly.

If he wanted to see faith skills, he had to pay more!

Golden Dragon Prince: "?"

The Golden Dragon Prince raised his eyebrows and said, "What do you mean?"

Shi Yu smiled and said, "Your Highness, the use of the Green Dragon Faith Skill will consume rare power of faith. It's not suitable to use it easily."

"We're just sparring. There's no need to work so hard, right? Let's stop when it's time."

Golden Dragon Prince: "?"

"Roar." The Green Dragon Buggy nodded. Yes, yes, every time a piece was smashed, its heart would ache.

There was no benefit in defeating him. Wasting the power of faith was a huge loss.

"It's at the overlord level, and I'm at the totem level. How can it fight me without the power of faith?" The Golden Dragon Prince frowned and said, "What I want is more than just a spar. Please be more serious and do your best."

The reason why the Golden Dragon Prince wanted to challenge was because he sensed the threat of Shi Yu and the Green Dragon Buggy.

At the moment, it was said that Dragon Palace City, such as the Frost Dragon King, the Sea Dragon King, the Azure Dragon King, and even the Dragon God, respected the Green Dragon very much.

This made it, the eldest prince, feel a sense of danger.

Under normal circumstances, after the Dragon God abdicated, it was a Dragon Palace genius with a high chance of becoming the new Dragon God.

Now, the talent and potential of the various Dragon Kings were inferior to it.

Initially, the future was incomparably beautiful, but now, a green dragon had appeared out of nowhere and was even supported by most of the factions of the Dragon Palace. How could the Golden Dragon Prince be at ease?

It had come this time to test the Green Dragon's trump card, but if the opponent didn't want to expose it, what was there to be happy about even if it won with its high realm? In the end, it still didn't obtain any information.

Only by defeating the overlord-level Green Dragon that erupted with all its might could it deduce the threat the Green Dragon posed to it after entering the totem level. Only then would it know how to become stronger.

No one could snatch the position of the Dragon God!

"Your Highness, don't worry. Even if it doesn't use the power of faith, it won't be weak," Shi Yu said.

The Golden Dragon Prince: "Nonsense."

Did they even take a totem level like him seriously!

"Roar!!!" The Golden Dragon Prince's dragon eyes flickered. Damn it, to think it had cultivated for so long before coming to challenge. In the end, the so-called world legend was actually so timid.

Shi Yu and Buggy's attitude made the Golden Dragon Prince grit its teeth in anger. It could even use a meteorite to fight the Green Dragon Prince of the Dragonman Empire, so why couldn't it use it on it?

Unscientific Beast Taming

Chapter 1034: The Four Holy Beasts Descend (2)

"Don't be afraid. It's just a little power of faith. How can the Crown Prince let you suffer? Regardless of whether you win or lose, the Crown Prince will definitely promote faith in Dragon Palace City to replenish it for you after the battle!!" Ice Dragon said from the side.

"Yes, yes," the little white dragon also said.

"Really?" Shi Yu looked at the Golden Dragon Prince.

Golden Dragon Prince: Huh?

It looked at the Frost Dragon King and the little white dragon.

What exactly were these two dragons doing?

In the face of Shi Yu and Buggy's gazes, the Golden Dragon Prince's mouth opened slightly.

The few Dragon Kings of Dragon Palace City had their own spheres of influence. Although Ice Dragon was trying its best to help Shi Yu promote the Green Dragon faith in Dragon Palace City, it was not easy to touch other people's territory.

Now, after seizing the opportunity, Ice Dragon immediately scooped up benefits for Shi Yu.

The golden dragon was silent.

Facing Shi Yu and Buggy's burning gazes, they fell silent.

Then, it gritted its teeth.

"I'm not, I didn't, I didn't say it!!!" The straightforward Golden Dragon Prince didn't fall for this. It was mainly because it didn't have the guts to decide for its father. However, in order to let Shi Yu and the others fight with all their might, the Golden Dragon Prince still added,

"It's not impossible for me to help, but you have to win my recognition."

"It's a deal." It was unknown what switch the Golden Dragon Prince had touched. In the next moment, the Green Dragon and Shi Yu put away their perfunctory attitude.

The Golden Dragon Prince was shocked. Then, his gaze became unfriendly.

"Roar!!!"

The Golden Dragon Prince roared, and golden light flickered all over its body. It directly used its transcendent super skill, Golden Dragon Nine Revolutions.

Boom!!!

The huge golden divine dragon circled in the sky for an instant. Then, the sun in the sky burned even more fiercely. When the sunlight shone on the dragon scale, it turned into a golden beam of light with a bang, sweeping up the dragon might that filled the sky and hit the green dragon.

Golden Rainbow Piercing Sun!

Buzz!!

In the face of the golden beam, the green-gold Psychic fluctuations that filled the sky appeared out of thin air like a tide on the path of the Golden Dragon Prince's attack. They changed qualitatively into the nature of water, wanting to turn into a huge net to slow down the Golden Dragon Prince's attack.

Using softness to counter hardness.

However, the Golden Dragon Prince's body didn't stop at all. It instantly penetrated a huge hole in the Psychic Tide. The hot golden light instantly evaporated the Psychic Tide and rose.

"Roar!!!" Seeing this, Buggy roared. The power of the green dragon filled the world. It stretched out its dragon claw and slapped at the golden light.

The pure golden light immediately squeezed and collided with the green-gold light.

Boom.

In the dazzling light, the figure of the Golden Dragon Prince couldn't be seen clearly. Buggy's Green Dragon Divine Claw pressed against the golden light. The deterrence that intertwined and wrapped around each other instantly tore apart the clouds in the sky, causing countless cracks to appear on the ground of the island, and even making the endless waves tremble.

Seeing this, the ice dragon immediately froze the sea to prevent the aftermath from sweeping up a tsunami.

"Wuhu ~" The little white dragon was also shocked. It enjoyed watching others fight.

"What strong power."

At the same time, after the collision, the Golden Dragon Prince was shocked to see that not only was the other party not penetrated by his Golden Rainbow Penetrating the Sun, but it also blocked him with a claw. He couldn't believe that this was the power of an overlord.

In the huge roar, under the deterrence, the Golden Dragon Prince actually felt his bloodline body tremble.

"It's alright." Shi Yu's voice came from the strong wind in the distance.

Super physique skill, Green Dragon Indestructible Body!

Multiple Skills, mainly the Green Dragon Roar and Dragon Raising Its Head, fused together, completely transforming Buggy's physique into the Green Dragon Divine Body.

Its longing would transform into super Psychic power. Its roar would make a god tremble. Its body had extremely strong self-healing abilities. Its dragon eyes could see through all weaknesses. Apart from that, it could multiply at will and mobilize the power of faith to forge an immortal body.

"That's all?!!" In the shocking collision, the Golden Dragon Prince roared. After the energy flowed around his body, his Stats increased greatly, and he erupted with an extremely strong power, instantly shattering the green-gold light. The golden rainbow instantly burned the Green Dragon Divine Claw of the Green Dragon Buggy pitch-black. With a crack, it broke, making half of Buggy's claw disappear.

"Roar!!" Buggy was angry.

Then, just as the golden rainbow was about to penetrate Buggy's body, spatial ripples flashed, and Buggy instantly disappeared in front of the Golden Dragon Prince.

Space Control, Move!

Buzz!

Buggy's figure appeared higher in the sky. It didn't have time to look at its half-clawed hand. Instead, it quickly looked at the golden rainbow that refracted like light.

Boom!!!

Buggy immediately entered a concealed state, but the Golden Dragon Prince's attack was already enough to distort space. With a bang, its hidden body distorted and penetrated a large wound, forcing Buggy to leave the range of the attack through Instant Transmission again to avoid being heavily injured by the hundred-meter-long golden rainbow.

Swoosh.

Buggy's figure appeared again, but the Golden Dragon Prince's attack became more and more fierce.

Strength, speed, and energy Stats continued to increase.

The power of the spatial distortion became stronger and stronger, blocking Buggy's teleportation speed. This time, before Buggy could react, the golden rainbow that intertwined in the sky directly hit Buggy's body and smashed towards the island ground.

The hundred-meter-long golden light looked like a meteor with the green divine dragon.

At the same time, the previous hot attack seemed to be accompanied by frost this time. The cold air that filled the sky dyed a layer of ice clouds, continuing to freeze Buggy.

Unscientific Beast Taming

Chapter 1035: The Four Holy Beasts Descend (3)

"It's the Golden Dragon Nine Revolutions." The little white dragon was shocked and said, "It looks like the increase is even greater. Looks like it relied on this move to advance to the totem level."

"A skill that can continuously increase your strength?" Shi Yu frowned when he saw Buggy being suppressed.

Boom!!!

As Buggy was penetrated by the Golden Dragon Prince to the ground, a thousand-meter-wide pit appeared on the entire island. Right on the heels of that, the island began to crack in all directions. After succeeding in one hit, the Golden Dragon Prince excitedly turned into golden light again. Its body appeared in the sky and looked down at the green dragon in the huge pit below.

Moreover, its aura was still increasing.

Golden Dragon Nine Revolutions. Every time the energy flowed in his body, it could increase his strength in all aspects. He could also obtain an elemental enchantment that could mobilize the power of nature. It could increase at most nine times. As for the Golden Dragon Crown Prince, who had trained the Golden Dragon Nine Revolutions to transcendent, he could already reach the Golden Dragon Ten Revolutions. After the Ten Revolutions, he could fight top-notch totems.

"You're not my match. It's better to use the Faith Skill." The Golden Dragon Prince circled in the sky, but in the next moment, its pupils constricted.

In the huge pit, the injured Green Dragon Buggy flew up without any ripples in its dragon eyes. During the process of flying up, the injuries all over its body quickly healed themselves in less than two seconds. The Green Dragon Claw that the Golden Dragon Prince was heavily injured at the start had long recovered to its original state without a trace of injury.

When Buggy completely flew up, there were no longer any injuries on its body. It was no different from before the battle.

"Impossible." The Golden Dragon Prince was shocked when it saw this. It could sense that it had clearly heavily injured its opponent, but why... Even its aura didn't weaken much.

"Holy shit." Ice Dragon and the little white dragon also exclaimed.

What was going on?

They had only seen the meteorite insta-kill in the World Tournament, but they didn't expect Buggy's other abilities to be so terrifying.

"Roar!! (I acknowledge you.)" At that moment, after Buggy flew up, it looked at the Golden Dragon Prince solemnly.

The last person who could use such a fierce attack to defeat it so badly was its Leader.

However, because of the existence of the Green Dragon Indestructible Body, it wasn't that easy to defeat.

A heavy injury of this level could be recovered in an instant. This was not Restoration with the power of faith, but the self-healing ability of the pure Green Dragon Indestructible Body. It was a dazzling sublimation after high-speed healing combined with the Green Dragon physique. If the enemy couldn't insta-kill it, they could only fight a battle of attrition.

If it really used the power of faith, even if it was on the verge of death, it could instantly revive. Even if it was really dead, it could use faith in rebirth and be immortal.

Unless it was at the level of a demigod, it was very difficult to defeat and exhaust Buggy's strength.

"Continue!!!" The golden dragon didn't believe it. As its Stats rose steadily, a golden light ball directly condensed in its mouth, and a terrifying energy wave instantly sealed the space.

Boom!!!

The golden light ball directly turned into a golden pillar of light that stretched to a hundred meters in diameter during the spewing process. It attacked the green dragon below, as if it wanted to blast the green dragon and this island into the bottom of the sea.

The Golden Dragon Prince was determined to win this attack. However, after knowing that the power of the golden dragon would continue to become stronger because of the golden dragon's nine revolutions, Shi Yu and Buggy couldn't sit still and watch it steadily become stronger.

"Buggy, Four Holy Clones."

"Suppress its power and don't give it a chance to become stronger."

Shi Yu said.

[Skill]:

"Super": Imagination Domain (Perfect+), Dragon of Imagination (Perfect+), Dragon Star Group (Perfect+), Queen Mother's Power (Perfect+), Space Control (Perfect+), Green Dragon Indestructible Body (Perfect+), Four Holy Clones (Perfect+), Dream Control (Perfect+)

Dream Control, Queen Mother Power, Space Control, Four Holy Clones, Green Dragon Indestructible Body... These were all new skills fused by Buggy.

Each stronger than the other.

It was so powerful that the Golden Dragon Prince was very shocked and stunned.

It was so powerful that even without the power of faith and without borrowing other powers, Shi Yu was confident that Buggy could fight the totem-level Golden Dragon Prince.

The direction of the golden pillar of light's attack was clearly sealed by the Golden Dragon Prince, but Buggy's figure was like a mirage, quickly blurry and distorted. Almost instantly, the sky darkened. No, it seemed like everyone was dragged into another world.

Under the dazzling stars, the Golden Dragon Prince was stunned. This was... the starry sky?

"Roar!!!"

When the Golden Dragon Prince reacted, the target of the golden pillar of light was no longer the Green Dragon Divine Dragon, but the huge black-striped white tiger covered in snow. The island under its feet had already disappeared, disappearing for no reason and turning into a star.

Standing on this star that contained rich metal power, the white tiger opened its mouth. Its mouth seemed to contain a black hole as it directly swallowed the golden pillar of light. The aftermath that

filled the sky swept across, completely stunning the Golden Dragon Prince and stunning the Ice Dragon and the little white dragon.

When they reacted, they strangely discovered that not only had the ground changed, but the surroundings had also changed. They were indeed in the starry sky. It wasn't just this star and the huge white tiger that appeared. There were also new gods born in other directions.

On a red star, a divine bird with the appearance of a bird and shocking flames burning on its body stared at the Golden Dragon Prince with burning eyes, and the stars around it were ignited.

On a black star, a huge black turtle was lying there. A huge green snake was wrapped around its body. Under the deep gaze of both parties, the Golden Dragon Prince immediately felt a chill.

Unscientific Beast Taming

Chapter 1036: The Four Holy Beasts Descend (4)

At this moment, the Golden Dragon Prince's original target, the Green Dragon Buggy, was already circling on another star in the starry sky, staring at the Golden Dragon Prince from a higher altitude. Seeing this, the Golden Dragon Prince's pupils constricted, unable to understand.

Four... Four Holy Beasts!!!

White Tiger, Vermillion Bird, Black Tortoise, Green Dragon!!!

The four holy beasts had all appeared?!!

"Illusion is still an illusion." Under the Golden Dragon Prince's roar, he directly erupted with energy and tried to break free from the illusion, but he failed. He even sensed in panic that his strength was strongly suppressed under their gaze.

"What Skill is this?" The Golden Dragon Prince was confused.

In the next moment, the Four Spirits of Heaven in four directions attacked together and locked onto the Golden Dragon Prince in the center.

Just now, it was the Golden Dragon Prince who pursued the victory. In the blink of an eye, the situation reversed, and it was attacked from both sides.

"This is the Four Holy Clones," Shi Yu said. This was a top-notch super skill fused with the Anti-Demon Domain, Four Symbols Star Formation, and Illusory Phantom as the core. Because of the speciality of the Green Dragon Indestructible Body and Illusory Phantom, this skill could even strengthen the phantom clone with the faith equipment of the White Tiger, Black Tortoise, and Vermillion Bird. It could be said to be the greatest gain from the fusion of the skills on Buggy.

In fact, Shi Yu even had the thought of the second team nurturing a Black Tortoise and a White Tiger. Of course, they didn't have to use faith equipment to fight the Golden Dragon Prince now. Just the combination skill of the Imagination Domain and the Four Symbols Clones could display huge power.

When all the Four Symbols clones were present, the power of each of the Four Symbols received a legendary increase, equivalent to the main body. It also formed an army skill. It was a move that consumed a lot of energy and could also mobilize the power of the starry sky.

At the same time, under the pressure of the four Saints, the enemy's power was greatly suppressed. All natural power and Void power were forbidden to be used.

Roar!!!!

The white tiger moved. It first formed a pair of white wings and headed towards the Golden Dragon Prince. It slapped out with its tiger palm. Boundless metal-element power and murderous aura instantly made the Golden Dragon Prince feel that it was unbelievable. He felt that this guy was even stronger than the Green Dragon's main body at the start.

No... It wasn't that it was too strong, but that it had become weaker.

The power increased by the Golden Dragon Nine Revolutions instantly fell to the bottom under the suppression of the Four Saint Domains!

"Boom!!!" The dragon and tiger fought, and the tiger palm and dragon claws collided. The two parties were in a stalemate. The Golden Dragon Prince curled up his dragon tail and slapped at the white tiger. The white tiger also opened its huge mouth and directly attacked the dragon tail.

Under the sharp metal teeth, the dragon scales cracked and dragon blood spewed out.

"Roar!!!" The Golden Dragon Prince screamed in anger. Was this a white tiger? What kind of Creation God White Tiger bit people randomly?

"Holy shit." Seeing this, the little white dragon was shocked again. What skill was this? So handsome, so handsome.

"Is this also a Green Dragon faith skill?" Ice Dragon was also shocked. It thought that the meteorite was the only faith skill. This was also so strong. As expected, just as it had expected, even the eldest prince was definitely not a match for abnormal Shi Yu!!

The Dragon God had sent it here to watch over Shi Yu and not let him kill the eldest prince!

However, why did this white tiger look so familiar?

What they didn't know was that this was a white tiger created by Buggy with the gem cat as its prototype. It had very good teeth.

In the pain of biting, the Golden Dragon Prince was shocked and felt another heat wave attack. It suddenly turned around and saw a huge divine bird that swept up flames, spreading wings of fire, slashing at it.

Yes.

It was slashing over.

This guy was using its wings as a sword.

"What the hell? These are the four holy beasts?"

Flames spread on the wings, forming a Fire Blade. The Golden Dragon Prince, who was in a stalemate with the White Tiger, couldn't resist immediately. "Jiu!!!!" Under the high cry of the Vermillion Bird, the Vermillion Bird slashed onto the Golden Dragon Prince's body, making it let out a painful cry again!!

"Roar!!!"

It was immediately struck from the sky and smashed towards the Black Tortoise. What made the Golden Dragon Prince's pupils shrink even more was that the Green Dragon also leaped up and flew in front of it during the process of flying backward.

Combination profundity, finishing touch!

Buggy's gaze flickered, and the dragon-shaped fluctuations around its body enlarged. Soon, it became a ten-thousand-meter-long green dragon. The huge phantom turned into a green-gold light that collided with the Golden Dragon Prince. With a bang, it was Buggy's turn to penetrate the Golden Dragon Prince.

"Roar!!!"

Under the intense pain, what the Golden Dragon Prince couldn't understand was that during the process of being attacked, its life and energy were continuously absorbed. This green dragon was like a worm, and it could also suck blood and energy.

This skill really stunned the Golden Dragon Prince, and what stunned it even more was the image of the four saints.

It roared in pain, "Roar!!! (Aren't you a green dragon? Why are you like a worm? Why are the four holy beasts all out? Didn't you say not to use faith skills? You can't hold it in anymore? Hahahaha, as expected... I'm too strong.)"

Buggy: "I'm Buggy."

The Golden Dragon Prince's expression stiffened.

Shi Yu also said, "Who said this is a faith skill? The power of faith hasn't been mobilized yet. As for a faith skill, its power is several times this."

The Golden Dragon Prince refused to believe it.

Boom.

Under the joint attack of the Green Dragon and the Black Tortoise, the Golden Dragon Prince was immediately smashed into the depths of the starry sky with the shattering of the stars.

It had to be said that the Golden Dragon Prince was strong enough, as this couldn't defeat it. It was just that its injuries were similar to Buggy from before. It floated in the starry sky domain broken, its dragon eyes staring intently at the four Saints in front of it.

[Unscientific Beast Taming](#)

Chapter 1037: The Four Holy Beasts Descend (5)

"You're telling me this isn't a faith skill?" The Golden Dragon Prince didn't believe it at all.

The four holy clones were all out. Wasn't this a faith skill?

Its transcendent super Skill was even suppressed. These clones all had extremely strong strength like the main body. If this wasn't a faith skill, what was? If not, how could it be so strong?

"It doesn't seem to be. I don't see any power of faith," the little white dragon shouted.

"Indeed, there are no fluctuations of power of faith." Ice Dragon was also quite shocked at this moment. It suddenly realized that the four holy clones weren't faith skills.

It was actually a pure and incomparably powerful super phantom-type Skill. No, there was even the effect of an army skill and a domain skill.

The Golden Dragon Prince's expression stiffened again and it was a little silent. Indeed, it didn't sense the power of faith either.

The manifestations of power such as faith, nature, space, and Elemental were still different.

"Big Brother Golden Dragon, charge!!!" At this moment, the little white dragon crazily cheered and said, "Senior Shi Yu's extraordinary power and Beast Taming Talent have yet to be used, as is Senior Buggy's faith Skill."

"Stop warming up. Hurry up and show your full strength to fight Senior Shi Yu seriously. Don't worry, Senior Shi Yu will definitely work hard to obtain your recognition." The little white dragon continued to shout, making the Golden Dragon Prince's expression become more and more stiff.

Motherf*cker.

Little white dragon, just you wait.

How could it not tell that the little white dragon was fanning the flames?

It was clearly already fighting very seriously.

However, the little white dragon's words made the Golden Dragon Prince's expression turn pale. He had yet to use his extraordinary power, Beast Taming Talent, and faith skills...

It naturally knew what these were. So, was the other party really warming up now...

To be honest, the Golden Dragon Prince regretted leaving Dragon Palace City at this moment.

He regretted even more that he had said that as long as he won its recognition, he would help Shi Yu and the others promote the Green Dragon faith in Dragon Palace City.

At this moment, the Golden Dragon Prince was in a dilemma...

Monster...

This was the overlord level?

"Is that all?" However, its pride as the eldest prince of Dragon Palace City didn't allow it to admit defeat just like that!!

"Watch me tear you apart one by one!!!" The Golden Dragon Prince roared and attacked the Green Dragon, White Tiger, Vermillion Bird, and Black Tortoise that were staring at it again.

White, red, black, and green pillars of light locked onto the Golden Dragon Prince.

In an instant, the Berserking surging pillar of light swallowed the Golden Dragon Prince's figure.

The light first compressed and focused, then light bloomed like the explosion of the sun.

Boom!!!

The Golden Dragon Prince was directly Devoured by the Four Holy Punishments. A shocking scream immediately penetrated space and spread throughout the East Sea!!

"Holy shit." As the ice dragon and the little white dragon cried, the frozen sea also shattered, and Gusts swept out.

At the Environmental Protection Department base, the new recruits who had returned to their training state were stunned when they sensed the Gust that suddenly blew over and the screams that sounded a little like the Golden Dragon Prince coming from afar.

They looked into the distance with stunned expressions.

....

The battle finally ended in the Golden Dragon Prince's defeat. It directly fainted and lost consciousness. Buggy was exhausted beside it and cursed this golden dragon for being too resistant to beatings.

With the strength of the Golden Dragon Prince, which was close to a top-notch totem, without paying money, also known as using the power of faith, Buggy was almost exhausted after defeating it. However, in order to show off, Buggy still pretended not to use much strength and watched the Golden Dragon land. As for it, it casually turned into a little green dragon and flew into Shi Yu's pocket.

After the battle was completed, the little white dragon and the ice dragon gulped. They didn't expect the Golden Dragon Prince to lose just like that. They really didn't expect that in the end, the eldest prince actually didn't force out some of Shi Yu's trump cards such as extraordinary power, Beast Taming Talent, and faith skills. They originally thought that even if Shi Yu could win, he would have to spend a lot of power of faith...

"Say, His Highness the Crown Prince should keep his promise and help promote the Green Dragon faith in Dragon Palace City, right?" Shi Yu muttered. A battle couldn't be fought for nothing.

"Senior Shi Yu is impressive, awesome, Senior Buggy is impressive, awesome!! Don't worry, if Big Brother Golden Dragon doesn't keep his promise, I'll go to the Dragon Palace to spread it everywhere that it doesn't keep its word." The little white dragon immediately took sides.

"Little white dragon, don't be naughty." Shi Yu looked at it with a smile. He felt that the little white dragon was becoming more and more sensible. Was this growth?

"Kid, you guys are much stronger than during the world competition again." At this moment, Ice Dragon was also shocked at the side. Not only had Shi Yu broken through to the legend level, but Buggy was definitely much stronger than during the world competition.

It was certain that Shi Yu's current strength had already exceeded Mu Huiyin.

"Yeah, it's not just Buggy and me. Chi Tong has also become much stronger. Its improvement is even greater than Buggy. Mother Dragon, do you want to test Chi Tong?" Shi Yu said casually.

Chi Tong had improved so much. Its growth also had to be shared with its elders.

"Really?" Ice Dragon was delighted. Among Shi Yu's pets, it definitely liked and cared more about Chi Tong.

"No problem..." Ice Dragon laughed. It was just about to say that there was no problem, but the cold air that appeared on its back previously appeared again, making Ice Dragon's expression stiffen. It had a bad feeling.

Its evolution this time had awakened a dangerous perception time-element Skill.

At this moment, Ice Dragon, who was just about to say that there was no problem, felt that this skill was unprecedentedly excited.

Skill: Run!!! That sword isn't a good daughter!!!

Thump.

Ice Dragon seemed to have seen the scene of itself lying in the Dragon Palace with serious injuries. Its gaze exploded as it looked at Shi Yu and said, "No, no, no, who would want to?!!!"

"Wait, with your strength, you should be able to find that Undying Dark Phoenix, right? How about I accompany you to test it?"

[Unscientific Beast Taming](#)

Chapter 1038: Senior Lu's Arrival

"Huh?"

Seeing Ice Dragon, who had originally agreed, suddenly change its expression, Shi Yu was completely stunned.

Why did it go back on his word?

Moreover, it even circled around so much and let the Undying Dark Phoenix take the beating in its place.

Although Shi Yu and Ice Dragon had indeed made an agreement to kill the Dark Phoenix together...

"Senior Ice Dragon, Senior Shi Yu!" At this moment, when the little white dragon saw that Shi Yu and Ice Dragon were chatting happily, it couldn't help but say,

"Aren't you going to care about Big Brother Golden Dragon? It's about to sink to the bottom of the sea!"

"Wuu. (It's alright, it can't die.)"

In Shi Yu's pocket, Buggy, who was being treated by Baby Ginseng, popped its head out.

Its Psychic power extended infinitely and entered the ocean. Then, it pulled the Golden Dragon Crown Prince that had sunk into the sea up and placed it on the floating island.

"Wuhu. (Understood.)" Seeing the miserable state of the Golden Dragon Prince, the little white dragon nodded.

After treating Buggy, Shi Yu sent Baby Ginseng's clone to jump down and treat the Golden Dragon Prince slightly.

"Aren't we fighting?" At the same time, Shi Yu scratched his cheek and looked at Ice Dragon. Could it be that the Ice Dragon was afraid?

"Heh heh!" Ice Dragon looked at Shi Yu and said, "Tell me, between Chi Tong's current strength and Buggy in your pocket, who's stronger?"

"Uh." Shi Yu was stunned and looked at Buggy.

This...

"Almost as strong?" Shi Yu said.

Ice Dragon took a step back, its eyes constricted, and the corners of its mouth twitched. Damn it, was this appropriate?

Why didn't it know that its Beast Tamer's heroic spirit could compete in strength with the Green Dragon God!

Even if Mu Huiyin was reborn, she wouldn't dare to say that she was about as strong as that green dragon!

In Shi Yu's pocket, Buggy also pouted. How could this be!

It had clearly never fought before, so why was it almost strong? It was definitely stronger.

After obtaining the information from Shi Yu, Ice Dragon was completely convinced that this battle shouldn't be fought!

"Is it the effect of the World Tree's Blessing?" Ice Dragon thought.

It quickly changed the topic and said, "So, when are you preparing to meet that guy who calls itself Chi Tong's biological mother?"

Shi Yu said, "In a few months, I still feel that it's unstable. After all, the Undying Dark Phoenix might have demigod battle power at its peak. Who knows if it has any backup plans?"

"Moreover, before the operation, we have to get Dong Huang to cooperate. After all, it's too close to the city, and it's not easy to stretch. After applying for a process, the procedures will definitely be long and smelly."

At the moment, the Sea Cleansing Spirit Susu had accumulated could already cleanse the negative power of a top-notch totem level, but it was still a little short of the demigod level.

"Hmph," Ice Dragon said. "It has already died once and been sealed for so long. It's not bad to have the strength of a Normal totem. Call me when you're ready."

"I want to see if it's Mu Huiyin's biological mother or not. It made Mu Huiyin suffer so much. I have to teach it a lesson!"

"At that time, I'll go with Chi Tong!" Ice Dragon was extremely serious.

Shi Yu looked at Ice Dragon suspiciously, suspecting that this guy was changing the topic.

"Cough, cough, roar!!!" At this moment, under the crazy healing of Baby Ginseng's clone, the Golden Dragon Prince quickly recovered its consciousness. It suddenly widened its dragon eyes and breathed quickly.

"You're awake." In the sky, the little white dragon eating melons looked at the Golden Dragon Prince and said.

The Golden Dragon Prince looked at the sky with a complicated expression. Green Dragon...

"I'll definitely come and challenge again." It had just recovered a little from its injuries and directly crawled into the sea to leave, stunning the ice dragon and the little white dragon.

At this moment, the Golden Dragon Prince couldn't accept that it had been defeated without even seeing the Green Dragon's faith skill. It only wanted to become stronger and stronger and think of ways to become stronger.

"This... It hasn't decided if it's going to help promote the Green Dragon Festival."

Shi Yu realized that the Golden Dragon Prince was indeed resistant to beatings. His speed of leaving was even faster than when he attacked Buggy. He didn't look injured at all. He clearly looked like he was running away.

"Ah, this..." Ice Dragon also fell into deep thought and said, "It's not a big problem. It can't escape. I'll talk to its father about this now. I've also delivered Lord Dragon God's things. Shi Yu, I'm busy with Quests over there. I'll leave first."

"Tell Chi Tong to work hard!"

Shi Yu: "?"

In the blink of an eye, the ice dragon also let out a long roar and followed the Golden Dragon Prince, leaving behind the stunned Shi Yu and the little white dragon.

"What's going on?"

Shi Yu fell into deep thought. Then, he looked at the little white dragon and said, "Little white dragon, do you want to come to my place to sit? By the way, my two second team pets are also at the monarch level..."

The little white dragon:!!!

The second team, monarch level? Could it be that they wanted it to be their sparring partner?

Could it be the duck reincarnated Abyss Demon God?

The little white dragon's pupils constricted. What a joke. That was an Abyss demigod. It immediately said, "Ah, no, I'll help Senior Ice Dragon. I'll supervise Big Brother Golden Dragon. Goodbye, Senior Shi Yu."

With that said, it also slipped away at an extremely fast speed, making Shi Yu, Buggy, and Baby Ginseng look at each other.

Seeing the three Dragon Palace City members who arrived excitedly at the start leave like they were dodging a plague, Baby Ginseng couldn't help but say, "Yi! (Beast Tamer, do you know how to socialize?)"

He scared the dragons.

Why were they fighting all the time?

Mother Dragon and the little white dragon, these two big hooligans, clearly didn't like to fight.

"There's no hope." Shi Yu shrugged and said, "The Mythical Era is coming soon. I still don't know how to quickly increase my strength."

"Forget it, let's go back."

Shi Yu put away the new Dragon God Protection and stretched, letting Buggy bring him back to Ping Cheng.

[Unscientific Beast Taming](#)

Chapter 1039: Senior Lu's Arrival (2)

After returning, Shi Yu informed Susu and Ling to prepare for Little Ji and Duckie's fusion and evolution.

Previously, he had promised Little Ji, Duckie, and the others to fuse divine-level resources when the Heavenly Sword Nation Quest was done. It was time to fulfill his promise.

However, with their current growth level, it would probably be difficult to complete the fusion of power without half a month.

As for Shi Yu, he naturally listened to Ling's suggestion and rested. He planned to hold a new team meeting after he recovered and Little Ji and Duckie completed their evolution. Then, he would head to the Space-time Dragon Vein to train in a new and best team state.

"In the past half a month, should I meditate and rest, or..." Shi Yu thought about the content of his conversation with President Lin, but soon, a call made a decision for Shi Yu.

"Senior Lu..." Shi Yu smiled and picked up the call. Then, he waited for Senior Lu's arrival.

That day.

"Roar ~!!" With a roar, it roared in front of the door of Shi Yu's villa. A dog-type creature with fluffy white hair and dignified blue eyes, its neck, limbs, body, and long tail were surrounded by black cloud

patterns. It was especially domineering. It stood beside a beautiful woman in a blue and black battle suit and knocked on the door for her.

"Coming, coming." Upon hearing the Wind Demon Lion's cry, Shi Yu walked out of the door and welcomed Senior Lu and the others.

"Sorry, I encountered a wanted criminal on the way over. I took care of it and wasted some time," Senior Lu said with a smile when she saw Shi Yu.

"The big dog has made a contribution again." Shi Yu looked at the Wind Demon Lion. Because it had obtained the Evil Suppressing Lion inheritance, Senior Lu, this big dog, had the ability to sense evil thoughts. Therefore, during Senior Lu's archeology, she would be lucky enough to make a contribution and catch bad people one by one.

"Roar!!" The Wind Demon Lion chuckled.

"This familiar configuration reminds me of the first time we met." Shi Yu smiled and looked at the beautiful Senior Lu. "Back then, Senior, you brought the Wind Demon Lion to my place."

"Yeah." Lu Qingyi smiled and said, "Who knew that I would find a world legend?"

"I can't fall behind either. I came this time to show you my new ability."

"Senior, you really succeeded," Shi Yu asked.

"Yes." Lu Qingyi nodded and said, "But unlike your mind domain, it's in another direction."

After Shi Yu awakened his body control talent three months ago, he gave the Talent Bead to Senior Lu to develop her Beast Taming Talent.

And Senior Lu's call just now was to tell Shi Yu that she had finally succeeded in developing it.

It also developed telepathy into a battle-type ability.

In the courtyard, Shi Yu and Lu Qingyi looked at each other. Lu Qingyi said, "I named it 'Psychic Resonance'. It's an ability that's a little more scientific than your mind domain."

"Uh."

"If during the battle, my pet's emotions, heart, and Resistance can be in a harmonious coherence state, we can activate the ability of mental resonance."

"In the situation of Psychic Resonance, be it my various Stats or my pet's various Stats, they will receive a very good increase."

"Of course... the consumption is slightly greater than normal strengthening talent."

"It can roughly be seen as the use of 'spiritual and emotional power'."

"For example..." Lu Qingyi patted the Wind Demon Lion beside her. In the next moment, the Wind Demon Lion's expression became solemn. Its eyes lit up, revealing a dignified expression that abhorred evil. It was righteous.

At the same time, Lu Qingyi's aura beside it also changed completely. Just now, she was still a gentle senior. At this moment, she was like a valiant policewoman. Her eyes revealed a firm will and her face was filled with righteousness. Under her gaze, Shi Yu couldn't help but feel guilty, like a child who had done something wrong had encountered a police officer.

Buzz.

Because they both had the mental characteristic of hating evil at this moment, Lu Qingyi and the Wind Demon Lion completed a perfect mental resonance. Shi Yu could sense that Senior Lu's mental strength and the Wind Demon Lion's various strengths were quickly increasing.

Shi Yu opened his mouth slightly. He had already seen the energy value of the overlord-level Wind Demon Lion increase to 82 million. He felt that it was extremely unbelievable. After all, the current Wind Demon Lion had yet to activate Mythical Revival.

A moment later, Lu Qingyi and the Wind Demon Lion's state stabilized. Senior Lu recovered her smile and the corners of her mouth subconsciously curled up. "How is it?"

"It can also resonate with other pets?"

"Of course."

"For example, my Empress Flower... By the way, it's my Imperial Concubine Flower. It evolved. It's different from the Wind Demon Lion. Its mental characteristics and personality characteristics are that it has a proud heart. If I can adjust my mental emotions and understand its personality, I can also complete the coherence with it and undergo a mental resonance state."

"But this... is relatively difficult to do," Senior Lu said with a helpless smile.

It was fine to make her hate evil, but to make her as arrogant as an empress flower... She had tried many times, but she had only succeeded a few times.

Shi Yu couldn't help but say, "This telepathy resonance is even more popular than the telepathy domain for many Beast Tamers with telepathy talent."

"Senior, you're better than me."

"I definitely can't do it without you." Lu Qingyi smiled and said, "I've already summarized my experience and sent it to you. Let's study it together?"

[Unscientific Beast Taming](#)

Chapter 1040: Senior Lu's Arrival (3)

"If you can learn it, you'll definitely do better than me."

"Alright." Shi Yu smiled and said, "But my current state is a little poor. Ling doesn't allow me to use my talent and extraordinary power too much. I'll talk about it in the future, but I can assist Senior in developing it deeper."

"What's wrong with you again?" Senior Lu looked at Shi Yu and said with concern, "Don't tense yourself up too much. It's fine to relax a little."

"It was an accident, an accident," Shi Yu said in embarrassment. He was already lazing around. It was purely a cheat.

"Senior, mind resonance, Mythical Revival, multiple eruptions. Can your pet's energy level exceed 100 million?" Shi Yu asked.

"It's still a little difficult now..."

"It shouldn't be a problem to train again," Shi Yu said in surprise. "I feel that after cultivating for a while, Senior, you can also have the strength to challenge a 'title', right?"

"It's still very far." Senior Lu waved her hand and said, "But if there's a chance, I really want to challenge the title of 'surpasser'."

"You already have the title of 'world legend'. You probably won't snatch it from me, right?" Lu Qingyi smiled.

The title of surpasser was one of the titles issued by the Seven Nation Alliance. It was specially prepared for Beast Tamers with a telepathy talent. This was because telepathy didn't have the effect of increasing battle power. Up until now, no Beast Tamer with a telepathy talent had obtained titled battle power, which was totem battle power.

This title had naturally been vacant for a long time.

Shi Yu had clearly fulfilled the conditions previously. However, he had already obtained the world legend title in advance, so he naturally ignored the title of surpasser.

"A Beast Tamer shouldn't be able to obtain two titles, right?" Shi Yu scratched his cheek. A title issued by the Seven Nation Alliance didn't seem to have any substantial rewards apart from the honor bonus.

Otherwise, he felt that the Alliance still owed him the title of "Dragon King".

The Dragon King title required him to control a dragon-type pet to fight a dragon-type totem for a day and night. This was the lowest standard, and he had already controlled a dragon-type pet to destroy a dragon-type totem and defeat a dragon-type totem. It should be given to him! This was how it was easy to make a certain young man named Yu Shu lose his dream.

"There's indeed no precedent." Lu Qingyi smiled and said, "Why, do you still want to try?"

"Or do you have a dream series to give every pet a title?"

"Forget it." Shi Yu smiled and said, "I don't have the energy."

"Senior, stay with me for a period of time. I happen to have a resource that can allow your strength to increase pretty well in a short period of time. When the time comes, let's see the increase in effect. Perhaps you can challenge the title of 'surpasser' soon."

"No, in half a month, go and challenge it and see how big the difference is."

"Huh?" Lu Qingyi was stunned. She felt that Shi Yu was kidding. Unless it was a Mythical resource, why would she have titled battle power in half a month?

At the moment, there were only nine Beast Tamers with titles in the entire Dong Huang.

This included Shi Yu, a new titled legend.

After the World Tournament ended, Ye Xing went to challenge the title of battle pet warrior. He had already challenged it twice and had yet to succeed.

"I'm just trying out the difference. Senior, don't tell me you think you can resist a totem in half a month?" Shi Yu asked with a smile.

"What's wrong with that? If it's your special training, it might really be possible." Lu Qingyi smiled.

"Shall I prepare a room for you, or will you stay in the ruins?" Shi Yu brought Lu Qingyi to the villa.

His so-called resources were actually Baby Ginseng's Perfect-level World Tree Fruit and the new cultivation materials developed after the fusion Skill.

Coincidentally, Senior Lu had developed a new use of telepathy. Shi Yu was also more curious about how far she could develop with this resource.

...

That day, President Lin received Lu Qingyi's application. She applied to challenge the title of "surpasser" half a month later.

He could not help but fall into deep thought.

The title of titled legend was certified and issued by the Alliance of the Seven Nation Alliance. The various countries only applied for the challenge and didn't have the right to do the assessment.

"What exactly are Lu Qingyi and Shi Yu trying to do?" President Lin fell into deep thought. He had already learned that Lu Qingyi was undergoing special training with Shi Yu.

The title of surpasser required a Beast Tamer with a telepathy talent. When the seven pets, including the Beast Tamer, fought with all their members, it was a draw with a totem-level life form. Compared to titles like the Dragon King and the world legend, it wasn't difficult to obtain them in terms of requirements, but the difficulty was that the battle power of a Beast Tamer with a telepathy talent was inferior to challengers with other titles.

"Forget it." President Lin thought for a moment and still applied for Lu Qingyi. The number of applications every year from every country's association was limited. After all, he was letting the totem guardian of the Alliance be the examiner. However, no one else from Dong Huang wanted to take the assessment anyway. It was fine to keep the opportunity, but it was the same to use it.

"I wonder when Shi Yu can become a Legendary... Don't delay his cultivation because of love..."

President Lin, who had wanted Shi Yu to have a child quickly, jumped up again.

Because he had received news not long ago that Shen Feng had a new legendary Beast Tamer.

The World Tournament was held a total of four times. In the first year, Lin Feng of Dong Huang was the champion. In the second year, the Beast Tamer of Snowfield was the champion. In the year more than

20 years ago, the Shen Feng Beast Tamer was the champion. The champion of every World Tournament actually had Legendary potential, but unfortunately, apart from Lin Feng, the next two championships weren't very awesome and exciting.

The world legend of Snowfield was directly assassinated and died by the totem faction not long after the World Tournament.

The world legend of Shen Feng was a biological modification-type Mechanic, but because of an experiment failure, a few contracted pets died, preventing him from advancing as quickly as Lin Feng. There had been no news for a long time. Who knew that recently, there was news from Shen Feng that this world legend had also become a Legendary Mechanic?

One country, two Legendaries, and one demigod!

Shen Feng vaguely showed signs of becoming the number one country.

This made President Lin extremely envious. He only hoped that Shi Yu could be faster. Otherwise, Shen Feng would probably snatch more right to speak in the next Blue Planet Alliance.
