Chapter 1051: It's Always the Examiner Who's Injured (4)

Only the Fire God, Jones, and the others stood silently on the deck, as well as the Forest King, who was shocked and doubtful in midair.

No one expected this Water Slime to be so easy to talk to. It directly rolled up the frog's leg and left.

"As expected of the Blue Sea Sprite that protects the ocean. As expected, it's kind-hearted. It's not angry even if it's attacked." The Fire God Jones believed in the Legend.

"My leg..." However, looking at Susu, who had swept away the frog's leg, the Forest King's pupils constricted. It wanted its leg to grow back and reattach its broken leg. It was clearly easier for the latter!!

However!!

It was taken away by the other party!!

However, the Forest King didn't dare to ask for it. It was already afraid of the short confrontation just now.

Seeing that Susu had really left, the Fire God, Jones, suddenly looked at the Forest King and said, "Forest King, look what you've done."

"What kind of monster is that guy? What exactly is going on? I just want to fill my stomach. How would I know?" the Forest King said.

"Forget it, don't mention this again. Since the Blue Sea Sprite didn't pursue us, we'll negotiate when we reach Dong Huang's Battle Island." The Fire God Jones waved his hand, making the Forest King even more puzzled.

It felt that Jones seemed to be very afraid of the other party.

The Forest King landed on the battleship, already extremely regretful of going into the sea to fish.

"The creature just now was the Blue Sea Sprite. Haven't you heard of it?"

The Forest King shook his head.

"That's true. After all, the last time the Blue Sea Sprite appeared was 3,000 years ago."

"It also has another name. It's the strongest demigod of the ocean. It's an ocean faith god born from the power of faith of many sea creatures."

"The countless ocean factions in Dragon Palace City, the Ghost Sea, and the Infinite Sea have all received its favor. Even if there aren't a hundred demigods who lost to it, there are dozens!"

The Forest King's pupils constricted.

His heart almost exploded.

The one chasing it just now...

"Impossible. If it was a demigod, I would have long..."

"It's a reincarnation. Even the strongest ocean demigod doesn't have endless lifespan. It needs to rely on continuous reincarnation to maintain its life form."

"No, no, no," the Forest King said. "Then who's Shi Yu you were asking about just now?"

"What contracted target?"

Fire God Jones looked at it and said, "You have to be thankful for that."

"The Blue Sea Sprite has never looked for Beast Tamers, but the situation in this generation is a little different."

"A Beast Tamer named Shi Yu successfully contracted the reincarnation of the Blue Sea Sprite."

"If it weren't for the fact that he's Dong Huang's Beast Tamer and also a member of the Seven Nation Alliance, it might not have ended so easily just now."

The Forest King revealed an incredulous expression again, and the remaining three frog legs trembled.

"What a joke. You just said that even Dragon Palace City, the Infinite Sea Region, and the Ghost Sea have received the favor of the Blue Sea Sprite. Can such a creature acknowledge a human Beast Tamer?? Who is he? A legend of Dong Huang?"

The Fire God, Jones, shook his head and said, "He's not Dong Huang's legendary Beast Tamer, but he's indeed a legendary figure in Dong Huang."

"He's the current authority in the archeological field of the world. The person who spied on the Mythical Domain is also the champion of the World Tournament more than three months ago."

"You were still sleeping at that time... Unfortunately, I wasn't at the World Tournament either, but it's said that not only did this Shi Yu defeat the revived Enfeebled God in Inatella, but he also displayed the strength to instantly kill a totem-level life form."

"And at that time, he was only a level-six Beast Tamer. He hadn't reached the Legend level. Tell me, is he a legendary figure?" The Fire God Jones looked at the Forest King, completely making the Forest King open his mouth wide.

It didn't expect such a big thing to happen while he was sleeping.

"I still don't believe it. How can a level-six Beast Tamer instantly kill a totem? What Beast Taming Talent does he have? Even if he has the enhancement of a divine-level Beast Taming Talent, it's impossible. Could it be that his pets are all gods!?" King Sen was just about to question it, but suddenly, he recalled the Blue Sea Sprite just now and felt his legs hurt again.

"Indeed, his pet formation really has a few Mythical Races. Not only is there the Kirin Race of the Mythical Era, but there's also the Green Dragon God, the Blue Sea God..." The Fire God Jones understood the Forest King's mood. When he heard this information, his first thought was that he didn't believe it.

However, this was the truth. A monster really appeared in this year's World Tournament, making the geniuses of all countries dim.

"As for his Beast Taming Talent, although it's only telepathy, you're right. It's said that it's just an ordinary telepathy. It's also developed to the level of a divine-level talent by him. Once his talent is activated, he can trigger the sound of laws like a divine skill and increase the pet's battle power extremely powerfully."

"In short, this guy is the last person to be provoked."

"Monster, monster, monster." The Forest King took a step back and didn't dare to go to Dong Huang. After all, he had provoked the other party's pet. Was this Shi Yu human?? It was fine if he had a bunch of divine pets, but a telepathy talent could also trigger the sound of laws?

"Wait a minute." The Forest King was suddenly stunned. "Is the Beast Tamer I'm going to take the assessment on this trip to Dong Huang also a telepathy talent?! Level-seven... Could telepathy be the world champion after breaking through?!"

"That's not it. It's another Beast Tamer, but also a member of the Dong Huang World Tournament and an archeologist." The Fire God Jones reassured the Forest King.

However, the Forest King widened its eyes and looked at him. It didn't believe anything.

"No, no, Jones, my leg, my leg hurts. In my state, I might not be able to take the assessment. I want to go home. I seem to be a little unaccustomed to the environment. I have a strange disease that will give me a headache when I go to Dong Huang. You guys change examiners."

Fire God Jones: "No, you still have to go to Dong Huang with me to apologize. No, you're the one apologizing. The Shen Feng Nation won't take the blame for you."

Forest King: Gu gu gu gu gu gu!!!

Unscientific Beast Taming

Chapter 1052: Telepathy Talents Are Monsters (1)

On the endless sea, a beautiful woman sat on the side of a Green Phoenix, and a handsome man sat cross-legged on the head of a green dragon. Both parties flew above the clouds.

The beauty was Lu Qingyi, and the handsome one was naturally Shi Yu.

"Susu seems to have encountered some trouble," Shi Yu said.

"What's wrong?" Lu Qingyi looked puzzled.

Lu Qingyi also knew that Shi Yu had raised his pets outside to let them train on their own.

Could something have happened?

Shi Yu was really magnanimous. The other Beast Tamers of Dong Huang basically kept their pets in Dong Huang.

He was really something else. His pet had already run out of the Dong Huang Sea Region.

"It's not a big problem..." Shi Yu had a strange expression.

"Ning!! Ning!!" As they flew, they had already been above the sea for a long time. As the mental connection approached, Shi Yu and the others lowered their flying height slightly.

A water pillar shot into the sky. Susu lay on the water pillar and flew into the sky.

"Susu," Lu Qingyi shouted.

"Jiu!! ~" Lu Qingyi's Green Phoenix also shouted.

They all looked at Susu in confusion, like the huge frozen frog leg beside it.

"Sorry for the wait." After meeting Susu, Shi Yu also looked at the frog leg immediately and fell silent.

"What's this? Spoils of war?"

At this moment, Lu Qingyi couldn't help but smile when she saw that Susu still had the spoils of war.

This frog leg looked very plump and relatively huge. Because it was frozen by the Heavenly Frost Cold Energy, it was completely locked.

"Ning! (Battle spoils.)" Susu smugly controlled the Crowd Control water to condense an icon of swords colliding.

Nes ~

"This is what I said. Susu encountered a little trouble."

Shi Yu shrugged and said, "A totem-level frog life form's frog leg..."

Lu Qingyi was stunned. "Susu, you encountered a totem?"

Moreover... it even broke a leg of the totem?!

"Roar!! (Susu is awesome!!)"

Buggy shouted, "As expected of you, the strongest demigod in the ocean!"

To be honest, Shi Yu was more at ease with Susu when it went to the sea with Eleven to train.

Because Eleven's battle power had decreased in the sea.

However, Susu's battle power in the sea was an epic increase.

In an underwater battle, even with a quasi-divine skill, Eleven shouldn't be able to defeat Susu.

After all, at this time, Susu's opponent was facing the power of the entire sea.

"Ning."

The cheeks of the Water Slime were red. It looked at Lu Qingyi in embarrassment and smiled apologetically.

Lu Qingyi: Uh...

"Susu said that it's sorry to accidentally cripple your examiner, Senior. It's treating you to frog legs."

Lu Qingyi: "?"

The Green Phoenix: ???

"Roar?? (Huh??)" Buggy was also stunned.

Lu Qingyi widened her beautiful eyes and was stunned for a moment before concentrating on the frog leg. What, what did it mean?

"When the guardian examiner of the Alliance went to Dong Huang, he accidentally treated Susu, who was training at the bottom of the sea, as food. In the end, they fought."

Shi Yu shrugged and said, "Susu is still not agile enough. It only lost one of its four legs."

"Ning! (The other party runs very quickly, and I can't bear to use the Sea Cleansing Spirit.)" Susu felt aggrieved.

Lu Qingyi opened her mouth slightly and looked at Shi Yu and Susu in confusion. Shi Yu smiled and said, "Forget it, forget it. Let's eat this leg first. We've never eaten a totem-level bull frog... We'll talk about other things when we get to the Battle Island."

...

The one in charge of guarding the battle island was Dong Huang's titled legend, Heavenly King Du Ruo. He was a titled legend who was very strong.

Having defeated ordinary totems, her Beast Taming Talent was related to "meteorology", similar to Ji Feng's All Things Affinity.

Although it didn't involve as much as Ji Feng's talent, it only had incomparable control over the weather and could cooperate with pets to become the true king of weather.

It was precisely because of this talent that Heavenly King Du Ruo rarely had a match in the sky.

At this moment, Heavenly King Du Ruo, a woman in her sixties, had already met the examiner from the Alliance.

However, to Du Ruo's surprise, the examiner of the Alliance came with a broken leg. Although it was already treating it with all his might, it still didn't look like it could recover quickly.

In this world where extraordinary power was everywhere, it wasn't impossible to regrow broken limbs. However, it was definitely more difficult to give an ordinary life form broken limbs to regrow and a totem broken limbs to regrow. The consumption was greater.

"Ah, it's my fault, it's my fault, it's all my fault. It's a misunderstanding! Ribbit."

What was even more unexpected was that after the Alliance's guardian, the Forest King, arrived at Dong Huang Battle Island, he immediately apologized like he was crying.

The Fire God, Jones, stepped forward and looked at the Heavenly King Du Ruo who received them.

"Heavenly King Du Ruo, something unexpected happened when he headed to Dong Huang."

"Did you encounter the enemy?"

Du Ruo was stunned. That shouldn't be the case. A totem and a titled legend, and they came on a battleship representing the Seven Nation Alliance. Which blind totem dared to attack at this sensitive moment?

"This... When we were heading to Dong Huang, because the Forest King woke up from his sleep and was extremely hungry, he hunted food outside the Dong Huang Sea Region. In the end, because of some misunderstanding, he had a conflict with the Blue Sea Sprite of the legend of your country, Shi Yu, who was training outside."

Heavenly King Du Ruo was stunned again. What?

"Its injuries were caused by the Blue Sea Sprite. However, because this matter was wronged by the Forest King, the Forest King is willing to bear all the responsibility and apologize to legend Shi Yu."

Unscientific Beast Taming

Chapter 1053: Telepathy Talents Are Monsters (2)

"At that time, legend Shi Yu wasn't nearby, so I wanted to ask you to contact legend Shi Yu."

"Ribbit. Ribbit." The Forest King cried. What a sin. It would die on this stomach sooner or later.

That Shi Yu was not to be trifled with at a glance. He had already killed two totems!

Heavenly King Du Ruo's expression was complicated, and her expression kept changing. What was going on? That Shi Yu...

Du Ruo was naturally not unfamiliar with Shi Yu. As the core higher-ups of Dong Huang, she had long heard of Shi Yu when he first revealed his sharpness.

And now, Shi Yu had become the genius with the greatest potential in Dong Huang. Unfortunately, she had never seen Shi Yu because of her guarding work.

She glanced at the miserable state of the Forest King and was stunned. It was really impressive. As expected of the Blue Sea Sprite, it heavily injured a totem without a Beast Tamer beside it.

"This is a very serious problem." Heavenly King Du Ruo looked at the Forest King unkindly and said, "We'll contact legend Shi Yu."

"Sigh." The Forest King and the others sighed.

After settling the examiner team from the Alliance, Heavenly King Du Ruo contacted Shi Yu for the first time.

The handling of this matter still depended on Shi Yu.

However, to Du Ruo's surprise, she received news from Shi Yu that he was heading to the Battle Island with Lu Qingyi and asked Heavenly King Du Ruo to wait a moment!

"With Qingyi?" Heavenly King Du was stunned.

...

Shi Yu and Lu Qingyi also arrived at the Battle Island not long after. Heavenly King Du Ruo also personally came to welcome them.

"Aunt Du." Lu Qingyi clearly knew Heavenly King Du Ruo. When she saw him, she greeted him very warmly.

"Qingyi, there might be some problems with the assessment. We have to delay it." Heavenly King Du Ruo smiled.

"Shi Yu has already told me." Lu Qingyi smiled helplessly.

"Legend Shi Yu." Heavenly King Du Ruo also looked at the big boy beside Lu Qingyi, this legendary genius.

"Aunt Du, you're Senior Lu's elder. Just call me Shi Yu," Shi Yu said with a smile.

"Alright." Heavenly King Du Ruo smiled and said, "I wonder how you plan to deal with this incident, Shi Yu."

Shi Yu sighed and said, "Forget it, let Dong Huang deal with it. I'm not interested in this guy anymore. The meat looks fresh, but not delicious at all."

It didn't taste good.

Lu Qingyi said, "Well, it's all thanks to the heavy materials of the ginseng baby."

Shi Yu didn't like the remaining pile at all. Although it was nutritious, the taste wasn't good. He directly packed it up and got Buggy's clone to send it to the gem cat.

It saved him the trouble of wasting food. After all, it was totem meat. The gem cat should be able to eat it!

Heavenly King Du Ruo: "?"

After arriving at the Battle Island, because the Forest King was heavily injured, Lu Qingyi's title assessment naturally had to be delayed for a few days, waiting for the Forest King to recover.

This was just nice. Lu Qingyi didn't have much confidence yet. Now, she had a few days of special training.

As for Shi Yu, because this was his first time coming to the Battle Island, he started to sightsee leisurely.

Battle Island was one of Dong Huang's largest battle facilities. Many master-level Beast Tamers from the nine first-level cities and second-level cities gathered here to spar and increase their strength.

In fact, Legend-level Beast Tamers would occasionally fight here.

Shi Yu didn't have any battle needs now, so he didn't join in the fun. He only walked around and ate a few more seafood snacks to make up for the regret of eating the Forest King Leg previously.

Could it be that the Forest King was poisonous?

That shouldn't be the case. Wasn't the Black Ram also poisonous? After Susu purified it, it was still fragrant, and the taste immediately increased.

In the end, it might be because the Forest King was too lazy and pampered. It didn't have the fresh meat of totems like the Black Ram that worked for the Yun Race.

...

While waiting for Senior Lu to challenge, Shi Yu began a new round of points on the Battle Island.

At the moment, the super Skills of the six pets in the team were all above perfect proficiency.

However, most pets' super Skills had only just reached perfection. On this basis, they didn't add many points.

Shi Yu's final additional points plan was to add all the pets to the peak of the overlord level!

This peak didn't mean the battle power of a peak overlord.

It meant that in terms of growth, every pet had reached the extreme of the overlord level.

As everyone knew, one of the ways for overlords to advance to the totem level was for super skills to reach transcendent proficiency.

And now, although Eleven, Chi Tong, and the others had totem-level battle power, it was obvious that they didn't rely on normal methods.

Eleven was a quasi-divine skill that relied on quality to exceed super skills.

Buggy and Susu relied on faith skills, which was also not the same system as Normal super skills.

Therefore, they clearly had a lot of room for improvement in the normal system.

Next, Shi Yu wanted to fill this upgrade space.

Super Skills all added points to the extreme proficiency (Perfect+47).

This way, it was Eleven and the others' true peak battle power at the overlord level.

At that time, without quasi-divine skills and faith skills, he could fight totems above his level with other super skills alone.

This was the trump card of the Tyrannical Sea legend.

In this state, it naturally led their battle power to a new peak. Shi Yu felt that at this stage, all of them should have demigod-level battle power.

This stage was where one could go anywhere on Blue Planet.

Of course, demigods weren't stupid. They basically had a bunch of underlings. For example, the Dragon God had a bunch of totem dragon kings under her. In short, as long as Shi Yu didn't encounter two demigods ganging up on him or a demigod bringing all his underlings to gang up on him, there was basically no need to worry.

Unscientific Beast Taming

Chapter 1054: Telepathy Talent, All Monsters (3)

Peak overlord level! This was Shi Yu's next stage of adding points.

Six pets, dozens of super skills, 40 super skill points per super skill, more than a thousand super skill points... If it were in the past, it would take years to add them all.

But now, Shi Yu felt that it shouldn't be long. After all, his current physique was already extraordinary. Moreover, the support points of every pet had also improved greatly.

For example, Chi Tong could strengthen Shi Yu's energy through possession. Baby Ginseng was a divine healer, Susu could reduce the burden of adding points through the Sea Cleansing Spirit, and Ling... It wasn't a matter of fusion. Now, Ling was the strongest support in the team.

Because it had learned the nine-colored divine light.

This support skill that was so strong that it could even strengthen Resistance... In the end, only Ling met the teaching conditions.

Shi Yu originally thought that Baby Ginseng and Eleven, as light-element pets, could almost learn it. However, he was still naive. As the prototype of a divine skill, it had extremely high requirements for the body structure of the pet.

In a situation where the entire team didn't meet the teaching conditions, it was still Ling who used its top-notch intelligence to spend a month modifying its light Stats and modifying its body structure with the Gem Cat's Gem Eye. Only then did it barely meet the teaching conditions and become the only pet in the team to learn the nine-colored divine light.

Through this matter, Shi Yu also realized how extraordinary Teacher Cat was. At the start, as an ordinary transcendent race, to be able to mutate and grow to the totem level... Although there was an inheritance crystal, it didn't take long for it to perfectly control the nine-colored divine light so easily. This talent was completely unique.

If it weren't for the fact that Teacher Cat's will was too weak, Shi Yu would really suspect that it was the reincarnation of a big boss. Even the gem cat suspected that it had been asking Shi Yu to give it a Reincarnation Fruit to try.

In the early days, because the gem cat's will was too weak, Shi Yu was afraid that it would go berserk after eating the fruit, so he didn't give it to it. However, after the special training, Shi Yu felt that he could give Teacher Cat a try.

After all, Teacher Cat might not necessarily be able to defeat them now, let alone after the special training.

"Add more points!"

In order to increase the efficiency of adding points, Shi Yu first added Ling's nine-colored divine light, Susu's Sea Cleansing Spirit, and other skills.

....

In the blink of an eye, another few days passed. The Forest King finally recovered and nervously planned to give Lu Qingyi the title assessment.

At the super Duel venue of the Battle Island.

The Fire God of the Alliance, Jones, the Forest King Frog, and some record personnel, the Heavenly King of Dong Huang, Du Ruo, and the candidate, Lu Qingyi, were already present.

Shi Yu didn't show his face. He sat quietly on the high wall and looked at the situation inside.

He had fought the Forest King because of Susu, so he had some understanding of the Forest King's strength.

This Forest King should be a lucky person who accidentally broke through to the totem level with resources. In terms of super Skill proficiency, it was still far from transcendent. It wasn't considered a strong expert among totems, even weaker than that Green Dragon Prince.

In fact, it was even worse than the gem cat before it accepted the nine-colored divine light.

Even the mutated Leviathan that belonged to the legend of the Tyrannical Sea could try farming it alone.

It should be that Beast Tamers who knew that their telepathy talent was relatively weak, so the examiners sent by the Alliance weren't very strong.

However, totems were totems after all. Senior Lu's side was still not too stable.

After all, she was only a level-seven Beast Tamer. She had only contracted six pets, and although these six had all reached the overlord level, their growth speed was not high.

Most of the people who challenged titled battle pets were basically level-eight Beast Tamers with eight full pets. Ye Xing didn't succeed in the two challenges because he suffered a loss due to his low level. As long as he reached level-eight, he definitely wouldn't have a problem.

However... it wasn't like there was no chance at all.

Senior Lu definitely couldn't fight a protracted battle for a day and night. Her confidence in this challenge all came from mental resonance, and this high consumption state was also an explosive skill. It would be gone after one use.

Therefore, whether she could insta-kill or heavily injure her opponent and greatly reduce her opponent's battle power determined whether she could pass this assessment.

"As long as it's not that Shi Yu."

At this moment, the Forest King completely believed it. The Beast Tamer who challenged the title of telepathy wasn't the legendary Shi Yu.

It was a little girl with a straight face.

Great!!

Croak!

The Forest King had a happy expression.

"Come on, little girl, I'm your examiner, Lord Forest King!!"

The Forest King's huge body stood in the arena and looked at Lu Qingyi opposite him.

Today, Senior Lu was wearing a blue, white, and black cheongsam. Her long golden-brown hair was swept up by a white and gold hairpin. Her aura was transcendent and high and mighty.

"Qingyi sure knows how to dress up today." Heavenly King Du Ruo chuckled.

"Heavenly King Du, this is Dong Huang's third title challenge this year, right?"

The Fire God, Jones, had been wrangling with Dong Huang for the past two days. Now, he was finally going to carry out the title assessment and carry out normal work.

"Yes." Du Ruo nodded and said, "The first two times were Ye Xing, and the examiner was the Knight King of Rongguang."

"I can still understand Ye Xing, but this Dr. Lu..." The Fire God Jones said, "She shouldn't have advanced to the legend level long ago, right? It was not long before the world competition. "

For the Dong Huang assessment, the information work of the Fire God, Jones, naturally had to be comprehensive.

Ye Xing was first in the contestant sequence of the Dong Huang World Tournament. Although his limelight was snatched away by Shi Yu later, it was undeniable that as the grandson of the three generals, his potential, talent, and strength... Even so, Ye Xing couldn't pass the assessment...

Unscientific Beast Taming

Chapter 1055: Telepathy Talents Are Monsters (4)

As for Lu Qingyi, a person with a telepathy talent who had just reached level seven a few months ago, why did she come to join in the fun?

"It's not like it matters even if she didn't use the challenge opportunity," Du Ruo said calmly. "Can't you let the guardian of the alliance spar?"

"Alright, alright, of course." Fire God Jones shrugged.

Dong Huang had produced a Shi Yu. They couldn't wait to let the other legend geniuses become gods.

As the two titled legends of Dong Huang and Shen Feng spoke, the battle between King Sen and Lu Qingyi had already begun!

Buzz!!!

Six huge black summoning arrays appeared. Senior Lu's six pets were all summoned.

Wind Demon Lion, Green Spirit Wind Bird, Empress Flower, Mermaid Princess, Hurricane Demon, Courtyard Sprite!

"The pets have actually reached the overlord level. No wonder they dare to challenge," the Fire God Jones said when he saw Lu Qingyi's pets.

"It improved so quickly," Heavenly King Du Ruo couldn't help but say.

It was actually all overlords so quickly. Looks like Lu Qingyi's opportunity was not bad.

The relationship between Qingyi and Shi Yu... should be pretty good, right? Was it thanks to Shi Yu?

However, from the energy value, these pets were all at the Normal overlord stage... Even the energy value of the Hurricane Demon was less than 50 million.

The highest empress flower was only 60 million.

"Hu." The Forest King chuckled.

It also sensed that his opponent wasn't strong and heaved a sigh of relief.

However, opposite him, Lu Qingyi, who was wearing an elegant cheongsam and looked like a queen, had a calm expression from the beginning to the end.

"Use your full strength. Don't blame me for not giving you a chance," Lu Qingyi said to the Forest King.

Her words stunned the Forest King.

Then, it revealed an unfriendly expression. What did this candidate mean?

"Qingyi..." At this moment, Lu Qingyi's state also stunned Heavenly King Du, who was familiar with her.

She didn't understand why that gentle and generous Lu Qingyi's aura suddenly changed drastically, as if she had become a different person.

"She... What do you mean?" Fire God Jones was also stunned.

What did that mean?

On the high wall, Shi Yu chuckled. Of course, it was to act as a queen and strive to resonate with the empress flower.

"Huh??" At this moment, the Forest King was just about to ask Lu Qingyi if she was alright, but in the next moment, the Forest King's expression changed.

"Didn't you understand my command?" Lu Qingyi's hair fluttered, and her gaze was high and mighty.

As Lu Qingyi finished speaking, the air around her began to hum and vibrate. Substantial spiritual power and mental strength formed blue ripples around her.

At the same time, blue ripples also appeared on the body of the empress flower in front of Lu Qingyi.

Right on the heels of that, the energy began to increase steadily. The speed of the eruption was so fast that it didn't look like a normal method at all. At this moment, the Forest King was shocked and recalled that exaggerated Water Slime.

No, Blue Sea Sprite!

At the moment, this empress flower was actually Senior Lu's strongest pet.

Because it was also wood-element, it improved the most under Baby Ginseng's special training.

It had also undergone special training to deter the memory water drop a long time ago. Its Skill configuration was also very good.

Obviously, as a Spirit-type pet, not only could it enjoy the enhancement of mental resonance, but it could also enjoy Senior Lu's Psychic strengthening!

For this, in order to have a better mental resonance with the empress flower, Lu Qingyi played the role of a queen for many days with difficulty. It was difficult for her.

One of the derived skills of Dao Proficiency Psychic, Spirit Strengthening!

Second skill of Dao Proficiency Psychic Derivation, Spirit Link!

One of the derived uses of the telepathy talent, Psychic Resonance!!

In addition...

The eruption of the divine bloodline contained in the empress flower, Mythical Revival!

Boom!!!

In the extreme strengthening mode, the empress flower's cold red eyes stared at the Forest King. Its energy level quickly exceeded 100 million and continued to accelerate, reaching an unprecedented height.

Soon, the Spirit wave formed a strong storm that swept through the venue like a tornado. The aura of the empress flower itself underwent a tremendous change!

"This aura..." The expressions of the Fire God Jones, the Forest King Frog, and Heavenly King Du changed drastically.

It was like a totem!

It was not ordinary totem power.

The violent Spirit wave made many people present swallow their saliva, not understanding what had happened.

In the next moment.

Under the light of the blue Spirit fluctuations that filled the sky, a super Psychic power that was like a tsunami formed with a bang. It was spectacular and abnormal, like a huge hand that enveloped the world, suppressing the Forest King.

The deterrence wrapped around it was so strong that the Frog King was shocked.

The double pressure of divine might and max-level deterrence felt the supreme pressure coming from this move. It was stunned. It actually couldn't control its body for an instant and was frightened by the other party's king's might.

Something was wrong!

"Wait, little girl, aren't you a telepathy talent!!!"

"Oh God, what's this!!!"

"Jones, why would I believe you!" The Forest King shouted. What the hell was this telepathy talent?

The Forest King's expression changed drastically. Was Jones an idiot? Dong Huang had a Shi Yu who could upgrade telepathy to a divine-level talent, so it wasn't impossible for another person to appear. Why didn't he do his work well in advance and do his information!! It knew it shouldn't have come!

It couldn't dodge.

The Forest King felt that it couldn't dodge this powerful attack. It, who had just recovered from its injuries, felt that after this battle, regardless of whether it won or lost, it would be f*cking heavily injured again. This job wasn't easy at all!

His mentality collapsed. He didn't want to fight anymore!

It suspected that the Alliance was deliberately scamming it.

"Quack!!!" The Forest King mobilized its strength to resist with difficulty. The strength of the deterrence suppressed its performance.

However, the super Psychic power that erupted was like the combination of a tsunami and a super vortex. As soon as King Sen touched it, he felt that his entire body had suffered countless impacts and was about to fall apart.

Boom!!!

Half of the Forest King's body was flattened and he was directly sent flying under the super Psychic power.

"Quack..."

Its body caved in, and the Forest King widened its eyes in disbelief. This attack could be released by an overlord? The huge pain in its body made the Forest King's consciousness blur as it hit the protective wall...

Crack...

A crack appeared in the wall.

The Forest King slid down, its frog legs swayed, and its eyelids twitched with difficulty.

"Impossible!!!" Fire God Jones opened his mouth wide.

Five of the six pets didn't attack. They only used one to send the totem-level Forest King flying?

Was the Forest King still recovering from its Restoration?

"Isn't she a telepathy talent?!!!"

Jones shouted.

"This..." Heavenly King Du Ruo also looked at Lu Qingyi, who was standing on the arena like a queen, with a shocked expression.

They didn't understand what had happened to Qingyi.

That power just now... What was going on...

Could it be...

She recalled Shi Yu, who had come with Lu Qingyi.

"Aiya, aiya." At this moment, only Shi Yu, who was on the wall, shook his head regretfully.

"Unfortunately, it couldn't insta-kill the Forest King or affect its movements," Shi Yu said regretfully. On his shoulder, Eleven, Buggy, Baby Ginseng, and the others also watched the battle together and shook their heads regretfully.

In this attack, Senior Lu and the empress flower had exhausted all their strength. Whether the remaining five pets could drag down the Forest King determined whether Senior Lu could obtain the title of Surpasser.

"Unfortunately."

With Ling's perception, the Forest King's current state wasn't that serious. It could still display more than 70% of its battle power. In the next battle, Senior Lu was in a very dangerous situation.

It was indeed a gamble-like battle...

However.

"Wu wu wu?" Eleven and the others looked at the Forest King in confusion.

"Yi? (What's this guy doing?)"

They sensed that the Forest King, who clearly still had most of its strength, had been lying on the ground and refused to get up!

It seemed to be pretending to be dead!

On the other side, Senior Lu and the empress flower were really at the end of their rope. Instead, they were forcefully standing.

A sharp contrast.

"This guy..." Shi Yu couldn't help but stand up. The corners of his mouth twitched." Don't tell me it's afraid to fight anymore. Does it have any professional ethics? What's wrong with this Alliance examiner?"

"

"Playing dead?" On the arena, when Lu Qingyi saw this, she curled her lips and said, "Did I let you fall?"

"Get up!"

"Everyone... Mythical Revival!"

"Roar!!!" Lu Qingyi's pet directly attacked the Forest King, who was pretending to be dead. Shi Yu even patted his forehead. She and the empress flower have already erupted with all strength, so stop being so arrogant. She'd be beaten up.

Unscientific Beast Taming

Chapter 1056: Attacking demigod-level Battle Power

"I can't understand..."

When Lu Qingyi attacked the Forest King again, Heavenly King Du Ruo found it difficult to understand.

It was really because Lu Qingyi's state today had completely exceeded her understanding.

"I don't understand." Beside her, the Fire God Jones cursed.

"Forest King, what are you doing!"

His eyes were still wide open.

But at that moment, the Forest King felt that it was the most innocent one.

"It's too much!!!"

Seeing that the opponent didn't plan to stop attacking, the Forest King, who was pretending to be dead, immediately dragged its painful body and shouted loudly in a daze.

"How dare you underestimate me!"

This made the expression of the Fire God Jones better.

Fortunately, it didn't insta-kill the Forest King.

He didn't want to see another monster like Shi Yu who could instantly kill totems with a single pet.

But even so, the injured Forest King gave Jones a bad feeling.

Among Lu Qingyi's six pets.

The Wind Demon Lion, the Green Phoenix Bird, the Hurricane Demon, and the Courtyard Sprite directly mobilized the power of nature collectively and created the Wind Domain, modifying the venue into a wind environment.

At the same time, the first three pets attacked the Forest King and blew a storm.

In the domain, the Courtyard Sprite possessed the weak Lu Qingyi and used the characteristics of the elves to let the Beast Tamer recover his physical strength through the power of nature. However, because of the possession, Lu Qingyi's mental resonance with the empress flower was interrupted.

"Wu ~ ~ ~"

As for the mermaid princess, she was equivalent to half a healer. She used nourishing moves to help the empress flower recover its strength.

Although a round of eruptions consumed most of Lu Qingyi and the empress's physical strength, they had clearly found some remedies for this situation.

Just as Shi Yu had judged, the next battle was the key.

Boom!!!

On the Forest King's side, the substantialized green poisonous sound wave immediately swept towards the three pets like a tsunami!!

Buzz!

The storm swept up by the Wind Demon Lion, the Green Phoenix, and the Hurricane Demon was first obliterated by the sound wave. Then, the sound wave hit the three pets and sent them flying.

"Alright," the Fire God Jones shouted.

This was more like it. The collision just now didn't make sense at all. This time, it was much more scientific.

"Not good, it's poison." Heavenly King Du Ruo frowned.

It looked like that wasn't Qingyi's normal strength just now. This was bad. This Forest King still had strength.

"Hu... Hu..." At this moment, the Forest King looked at this scene with lingering fears.

This time, it felt like a totem. Because it was nervous, it used all its strength in this attack. The Effect was clearly very good. It instantly killed three overlords in an explosive state!

"Roar!!" "Jiu..." "Ling..." The three pets flew backward.

Green stripes appeared on the Wind Demon Lion, the Green Phoenix Bird, and the Hurricane Demon. Because it was mainly a poison-element attack, and the sound wave was slowed down by the combination storm, the Normal injuries on their bodies were not serious. It was just that if the toxin was not removed in time, their lives might be in danger.

Seeing that his opponent had already been poisoned, the Forest King had already recovered its emotions. It looked at Lu Qingyi and the others who were recovering.

"Haha, that attack just now was the eruption of overload, right? I see. Your normal strength is still at the overlord level. Now that the three of them have been poisoned, admit defeat. If you drag it out, it'll be..."

As soon as the Forest King finished speaking, blue water rings appeared out of thin air on the Wind Demon Lion, the Green Phoenix, and the Hurricane Demon. The most important and serious toxins on their bodies quickly dissipated.

After adjusting their state, they immediately stabilized their bodies and locked onto the Forest King again.

This scene directly made the Forest King widen its eyes!!

"What are you talking about?" Lu Qingyi said.

"My Wind Demon Lion has the Evil Suppressing Lion bloodline, my Green Phoenix Bird has the Phoenix bloodline, and my Hurricane Demon is an elemental creature. They all have pretty good resistance to poison. Most importantly, my Mermaid Princess is a student of the Blue Sea Sprite."

"Poison is just a small skill for them."

"Wind Demon Lion, counterattack!"

"Croak!!!" At this moment, when he heard the words Blue Sea Sprite, the Forest King's eyes widened, and his mentality collapsed again. He had clearly just regained his advantage, and his Warpath immediately decreased by 20%. His poison... was useless?

"This..." At this moment, when he heard Lu Qingyi say that his water-element pet was a student of the Blue Sea Sprite, the Fire God Jones was also stunned.

He had a bad feeling.

On the other hand, Heavenly King Du Ruo's expression was extremely happy. What? In this way, they might be able to continue fighting?

The Forest King's strongest method was a wood and poison dual-element sound wave attack. For enemies who weren't good at detoxification, even top-notch totems would have a headache from being poisoned. However, for enemies who knew how to detoxify, even if it was at the overlord level, it would still give the Forest King a headache.

Obviously, the mermaid princess cultivated by Susu was the top cleansing expert among overlords.

"Ning." On Shi Yu's head, Susu was very smug. Fortunately, it had foresight. In the past half a month, it had mainly been supplementing the mermaid princess with cleansing abilities.

"Don't be happy too early," Shi Yu said. "Even if the effect of the poison is greatly reduced, the opponent is still a totem."

"Master, you're clearly smiling the most," Ling couldn't help but say.

"After all, it's possible to witness the birth of a new titled legend in Dong Huang," Shi Yu said. "Next, what Senior has to do is use all means to delay the Forest King. As long as she can catch her breath and activate a second telepathy..."

"It won't end the battle by barely resisting the Forest King, but by General."

Unscientific Beast Taming

Chapter 1057: Attacking demigod-level Battle Power (2)

Eleven, Buggy, Baby Ginseng, Chi Tong, Ling, Susu, and the others looked at the Duel Arena, even more nervous than fighting themselves.

....

Half a day later.

In a study room surrounded by sandalwood in the headquarters of the Beast Tamer Association, the president of the Dong Huang Association, Lin Xiao, was quietly handling many international documents. In the quiet environment, an alarm-like mechanical life form suddenly lit up on the table.

Its screen was like a cell phone turning on, and a clown-like profile picture appeared. "President Lin, President Lin!!"

"What's wrong?" President Lin stopped what he was doing and looked at the mechanical life form. The mechanical life form said, "The title challenge of the legend Beast Tamer, Lu Qingyi, has ended."

"How was the battle?"

President Lin continued to deal with the documents and didn't pay much attention.

Ye Xing's previous two failures in the challenge had already made him calm. Lu Qingyi's strength was inferior to Ye Xing, so he didn't have much hope. He treated it as giving the young people a chance to train and test their strength.

"Congratulations! Legend Beast Tamer Lu Qingyi has successfully passed the assessment of the title of 'surpasser' and become the current tenth Titled Legend of Dong Huang!"

"Oh... Passed..."

Swoosh!!!

President Lin suddenly looked up with a look of disbelief and said, "What did you say?"

"Lu Qingyi successfully lasted a day and night under the guardian of the Alliance?"

How was this possible?

Lu Qingyi was only a new legend. In Dong Huang, dozens of old legends who had accumulated more EXP than her for many years couldn't do it. A new legend did it?

At the moment, including Shi Yu, Dong Huang only had nine living legends who had passed the title challenge.

Although there were also some old antiques who didn't like to show their faces and didn't participate in the Alliance's title challenge, there were very few such people after all. Without a doubt, no matter what method Lu Qingyi used to pass the title challenge, her strength was enough to rank in the top 20 of Dong Huang's Beast Taming Domain.

"No, according to the information, Dr. Lu Qingyi defeated the Alliance's guardian, the Forest King. When the Forest King lost its ability to fight, although Dr. Lu Qingyi herself was already unconscious, there was still a pet with consciousness. According to the rules, it was victory."

"What?!" President Lin was shocked again. Defeated the Alliance's guardian? What a joke. He said, "What exactly is going on?"

"In the battle, Dr. Lu Qingyi used a special Psychic skill twice. At the same time, her telepathy talent has also been converted into a special talent that can increase battle power. These two eruptions are the key to her victory."

President Lin was completely at a loss. Soon, he recalled that Lu Qingyi had been undergoing special training with Shi Yu recently. Her telepathy had been converted into battle talent? Could it be...

President Lin quickly contacted Shi Yu.

At the same time, on the Battle Island, Shi Yu picked up the call.

"President Lin."

"Shi Yu, Lu Qingyi passed the title challenge??"

"I heard that she's unconscious now. How's the situation?"

"I'm overdrawn, but it's not a big deal. I'm already awake. I can recover in a while."

President Lin said, "That's good. What's with Lu Qingyi's mental talent? Did you do it?"

Shi Yu smiled and said, "No, Senior Lu successfully developed it with the Talent Bead herself. It's called Psychic Resonance, and it's not inferior to the Psychic Domain. However, in the past half a month, I've indeed been working hard to help Senior Lu increase her strength. President Lin, I happen to want to apply for something. Next, I plan to go abroad for a period of time. In a few months or a year, a new genius has already appeared. I've completed your mission."

President Lin was slightly stunned.

Wait a minute...?

He had been wanted by Yun An for less than a month. Didn't they agree not to go out anymore? Why was he going out again?

However, Lu Qingyi's situation indeed concerned President Lin more at the moment.

Heart resonance?

A talent that could help Lu Qingyi, a new legend, defeat totems?

"Let her rest well. I'll go over later too," President Lin said.

....

After hanging up, Shi Yu entered the white ward again. At this moment, Senior Lu was still lying weakly.

Her physique was still too weak and not as strong as Shi Yu's, causing Baby Ginseng to not dare to directly nourish her, afraid that her body wouldn't be able to withstand it.

"Is it President Lin?" After Shi Yu entered, Senior Lu looked at Shi Yu, who was sitting on a chair.

"Yes, President Lin wants to come and take a look at you, a new titled legend. Congratulations, Dong Huang's tenth titled legend."

"Ah." Lu Qingyi still had a headache. "If I had known earlier, I wouldn't have needed a second mental resonance. This one of mine should be the weakest titled legend, right?"

Shi Yu smiled and said, "No, no. Senior, you haven't contracted your seventh pet yet. After training for a while, it won't be weak. Although the consumption of Psychic Resonance is high, the enhancement effect is comparable to the strengthening talent of a level-eight Beast Tamer. Believe in yourself."

"By the way, this is for you." Shi Yu took out a spatial jade.

"Huh? Spirit Accumulation Jade. That one I gave you?" Lu Qingyi looked at this. Wasn't this the resource she gave Shi Yu to nurture the power of the Demon God?

"Yes, there are nutritional supplements created by the ginseng baby inside. I feel that you'll need them in the future."

Lu Qingyi smiled and said, "Thank you. It's all thanks to you in the past half a month. Otherwise, forget about defeating the Forest King, it would have been difficult to even last a round against it."

Lu Qingyi knew very well that it was all thanks to Shi Yu that her strength could double in the past half a month. The effect of the Psychic Resonance developed by the World Tree Fruit was several times stronger than before. Her pets had also cultivated new sure-kill skills with Shi Yu's pets. If not for these, it would definitely not have become so strong.

[Unscientific Beast Taming](#)

Chapter 1058: Attacking demigod-level Battle Power (3)

"You're welcome." Shi Yu chuckled.

....

It didn't take long for President Lin to arrive at the Battle Island. President Lin was naturally very happy to see another super genius appear in Dong Huang. Even when Shi Yu said that he wanted to train again, President Lin wasn't that worried.

In any case, with Shi Yu's trump card, he wouldn't die. He could do whatever he wanted.

After obtaining permission, Shi Yu was happy.

He stayed on the Battle Island for about two more days. After Senior Lu completely recovered, Shi Yu directly set off from the Battle Island to the location of the Space-time Dragon Vein.

This Space-time Dragon Vein was located on an isolated island with a harsh environment, so there was no life habitat on it at all. The Dragon God only discovered the Space-time Dragon Vein hidden under this isolated island by accident.

Although the Dragon God didn't tell Shi Yu the location of the Space-time Dragon Vein, Qi knew where the Space-time Dragon Vein was. Therefore, Shi Yu and the others arrived first.

After setting off from the Battle Island, Shi Yu rode the Green Dragon Buggy and prayed to be a guide. The group began to run wildly above the ocean.

"Left. That way, right!" Qi tugged at Shi Yu's clothes and floated in the sky like a pendant.

After a period of time, Shi Yu and the others locked onto an island with cliffs at the edge of the island. According to the environment, that was the Space and Time Island.

This place was already very far from Dong Huang and Dragon Palace City, but it was relatively close to the factions in the Infinite Sea.

The environment near this island was indeed not very good. Huge vortexes frequently appeared on the sea, and the sky was always gray. From time to time, storms would blow, lightning flashed, and thunder rumbled.

In this situation, even if a legend arrived, it wouldn't be safe. Shi Yu and the others carefully landed on the island. Apart from being a little cold, a little Desolate, and a little chaotic, there was nothing special about the island.

"Is it here?" Shi Yu asked.

On his shoulder, Qi, who was floating, nodded excitedly and said, "Yes, this is the place. The space where the Space-time Dragon Vein is is under the island."

"Lucky," Qi said in surprise. "At this time, the Space-time Tide is in a relatively stable state. I can directly go in and absorb the power of the dragon vein. If I'm lucky, it will take about a year for me to awaken 'Space-time Travel' to the 'quasi-divine skill' stage."

"Moreover, because it's close to the Mythical Revival, the power of the Space-time Dragon Vein has almost recovered. It's much more abundant than the dried-up Dragon Vein I saw at the start. With its power, after the Skill recovers, it can quickly undergo the initial Space-time transmigration."

"Roar!!! (Charge, charge, charge.)" Buggy said excitedly.

There were actually other pets riding everywhere on its body. Eleven, Baby Ginseng, Chi Tong, Susu, Ling, and the others were also extremely excited.

"It's going to take a year? It's so long," Shi Yu said worriedly. "Speaking of which, why is your willpower level still low? Did you slack off during training? Little Ji has medium Resistance."

"Do you know how tempting it is for an archeologist to transmigrate?"

Qi immediately puffed up her face.

"No! Apart from not fighting every day like Little Ji, I've also done its training Quests," she argued reasonably.

"I still feel that a year is too long." Shi Yu touched his chin.

At the same time, he also summoned Little Ji, Duckie, and Little Purple.

As soon as Little Ji and Duckie were summoned, they wanted to fight. However, when they suddenly saw that the big brothers and sisters of the first team were all here, they immediately stopped.

"Roar!!! (The weather is pretty good.)" Little Ji said.

"Quack. (The smell of the sea.)" The duck stuck its head out and looked at the sea.

"Mi. (So tired, so hungry...)" Little Zi muttered.

At this moment, all the members of Shi Yu's first and second teams were on the Space and Time Island.

"Although the environment here is a little poor, we can stay in the ruins and the Beast Taming Space. I've decided. For the next period of time, we'll train here," Shi Yu said to everyone.

"I've prepared sufficient resources and brought all my assets."

"The goal is to awaken 'Space-time Travel'. Also, after all of us have strength comparable to a demigod and are evenly matched with Yun An, it's a signal to end our cultivation."

"I'll give it my all." Shi Yu gritted his teeth.

"Wuuu!!!" Eleven agreed with both hands. It had a premonition that after this seclusion ended, it would probably hunt Yun An.

"Alright, alright." Qi also looked at the Space-time Dragon Vein and said. She couldn't wait to find her strength.

"Wait, Qi." Shi Yu looked at it and said, "Next, don't you just sleep and recover in the dragon vein? Don't you think a year is too slow?"

< Name > Qi

[Race]: Time Sprite

[Stats]: Time, Space

[Teaching Skill]

"Super": Mythical Revival (Proficient)

[Resistance Level]: Low

"I'll help you." Shi Yu revealed a kind smile and said, "Although your will level is still low, I think it's not a big problem."

Ling possessed Qi and used the nine-colored divine light to strengthen Qi's will. Even if it was a low-level Resistance, it was comparable to medium-level. In addition, with the comfort of Susu's Sea Cleansing Spirit, the success rate of adding points to it wouldn't be very low.

If the proficiency of Mythical Revival increased a little faster, it might not take a year to awaken Space-time Travel.

"Huh?" Qi revealed a confused expression.

"Little Ji, Duckie, Little Zi, watch and listen. Next, you'll experience the same thing."

[Unscientific Beast Taming](#)

Chapter 1059: Attacking demigod-level Battle Power (4)

"Roar?" "Quack?" Little Ji and Duckie were also at a loss. What was it?

"Wu wu wu! (Good thing!!)" Eleven and the others said in unison.

The only way to become stronger was to increase points!

....

Then, Qi's miserable cry came from the Space and Time Island. Even if her Resistance was strengthened by the nine-colored divine light and she added points to teaching, it still made Qi cry.

However, after crying, she felt that although she clearly didn't come into contact with the Space-time Dragon Vein, the spatial power in her body was one step closer to recovery. Qi's big eyes were filled with confusion.

Her tears were filled with curiosity.

That day, Little Ji and Duckie also took turns to receive the baptism of points. However, Shi Yu first added low-level Skills to them.

"Roar??"

"Quack??"

After that, Little Ji and Duckie were also extremely shocked.

They had tried to train their skills hard, tried to use the memory water drop inheritance skill, and also tried to practice their skills under the enhancement of the comprehension of the World Tree Fruit. The increase in speed of various methods was still fresh in their minds.

However, the Skill proficiency increased in a second. It was comparable to the efficiency of long hard training, but it still directly shattered Little Ji and Duckie's values.

It didn't take much time.

Buggy flew in the sky. Eleven, Baby Ginseng, Chi Tong, Susu, and Ling sat on Buggy and looked at Little Ji and the others, shouting the best words in the team.

"Roar!! (Beast Tamer, increase points, increase points!!)" Little Ji begged eagerly, as if it had seen a shortcut to crush the duck.

"Quack!! Quack!! (I can bear hardship, I can bear that kind of painful additional points. I'll do it!)" The duck was also excited. It was relatively smart and knew that the greater the effort, the greater the gains. Seeing that Qi had been so painfully added points just now, it immediately felt that Qi's additional points would definitely have more gains. It also wanted this!

"Wu..." At this moment, Qi was still holding her head and wiping her tears, but she had also recovered from her confusion." I also want to... "

"Mi..." Little Zi was at the side. Although it didn't know what Little Ji, Little Duck, and Little Qi wanted, this curious Starry Sky Cat also blinked and looked at Shi Yu.

But soon, it was pulled over by Ling.

"You don't want to. Your willpower is extremely low, even worse than Qi. Moreover, your Skills are all super. You'll directly die after adding points once. It's fine if you die, but what about the world in your body?"

"Mimi??" Little Zi was shocked and suspected that Ling was bullying a child.

"Cough." At that moment, apart from strengthening all the members of the first team, Shi Yu naturally had to take care of the second team. After all, adding some super Skills was not a huge burden at the moment.

With Little Ji and Duckie's current potential, if they added points to the extreme, their strength would also be very extraordinary. Although they weren't stronger than the first team, it was definitely not a problem to surpass the invincible overlords of the World Tournament.

"In that case, let's begin the special training."

Shi Yu revealed a determined expression.

The wind was whistling, and the water was cold. His stamina was gone, and he couldn't return it.

"Wuuu!!" "Roar!!" "Yiya!!" "Mi!!" "Ning!!"

This was a celebration to become stronger.

It was also the time when Shi Yu was the most determined to survive until Blue Planet was invincible before coming out of seclusion.

"Wait, I almost forgot. Before training, let's carry out the team meeting first!"

....

This time, Shi Yu's determination could not be said to be small.

In the blink of an eye, half a year passed.

In half a year, although Shi Yu was paying attention to Dong Huang's movements at all times, he resisted all the temptation and focused on adding points, meditating, and cultivating.

On Dong Huang's side, talents appeared in large numbers in half a year.

Through the title challenge, Lu Qingyi shocked the country. Dr. Lu, who could fight with looks, instantly became a battle goddess pursued by the country.

After all, apart from Shi Yu, she was the youngest among the ten titled experts of Dong Huang.

Three months later, Ye Xing also made Dong Huang boil again through the title challenge. He had also obtained battle power to fight against Normal totems at the level of a level-seven Beast Tamer. This was very rare in the first few decades.

It had to be said that this batch of young people from Dong Huang was very lucky to have caught the first bus of Mythical Revival. Be it before or after the world competition, they had been nurtured by Dong Huang with all its resources.

However, all of this temporarily had little to do with Shi Yu. He had always been immersed in his bitter cultivation.

In terms of the level of the first Beast Taming Space, Shi Yu didn't gain much. It was still level seven. However, he was about to reach level eight. There was hope of reaching level eight in half a year.

It was mainly because he had first spent his time on the cultivation of the second Beast Taming Space. In the past half a year, the second Beast Taming Space had successfully been cultivated to level seven by Shi Yu and achieved an achievement that was in sync with the level of the first Beast Taming Space. Qi had also been contracted under the second Beast Taming Space.

The reason why he cultivated the second Beast Taming Space first was also to upgrade his physical control talent. This way, it would be easier to do anything.

Of course, Shi Yu did not delay the first Beast Taming Space. He had developed his Beast Taming Talent. With Senior Lu's experience, he had also developed the Psychic Resonance skill. However, because his pets were especially silly, Shi Yu was not used to using them.

Using it was the most compatible with Chi Tong. After all, it liked swords, and so did Shi Yu.

Shi Yu's cultivation progress was improved during the break time for adding points, so there was no doubt that his gains from adding points were the greatest in half a year.

Unscientific Beast Taming

Chapter 1060: Attacking demigod-level Battle Power (5)

At the moment, the super top-notch Skills of Eleven, Buggy, Baby Ginseng, Chi Tong, Susu, and Ling had all been added to the perfect proficiency by Shi Yu. This was the greatest gain.

Apart from quasi-divine skills that didn't dare to add points, it could be said that their battle power had reached the pinnacle of the current overlord level.

During this period, Buggy accumulated a meteorite with the full power of a demigod-level attack through the power of faith. The nine meteorites with the full power of top-notch totems floated in the starry sky, ready to attack.

With the support of points, Susu still accumulated two Sea Cleansing Spirits that were enough to cleanse the negative power of a demigod. The two Sea Cleansing Spirits that were enough to cleanse the negative power of a top-notch totem had a rich foundation.

Ling even learned the creation method of forbidden weapons and created two "forbidden Arms" that were enough to kill top-notch totems. It stored them in its body and could be released at any time.

After half a year of hard work, apart from feeling a little regretful that he had yet to reach level eight, Shi Yu could finally confidently say that he had demigod-level battle power.

Although there might be a difference between this rich heritage and veteran Legendaries like Divine Source Legendary and Legendary Z who had divine forbidden weapons, Shi Yu felt that it shouldn't be a big problem to heavily injure weaker demigods like the Heavenly Sword demigod.

Even Yun An, who had two demigod-level cleansing moves, wasn't very strong. He felt that with all of them together, he definitely had the qualifications to fight at 55%.

As for the second team, although Little Ji and Duckie's skills weren't as exaggerated as the first team's, they had also reached a normal level and had the battle power of invincible overlords. As for Little Purple, because time was too tight, Shi Yu didn't add much points to nurture it. At the moment, it had only reached the monarch level.

After adding points to the entire team for half a year, he was almost going to become a time management Master and a person.

At the moment, Shi Yu did not plan to continue adding points. Although Little Ji, Duckie, and Little Zi still had room to improve, Shi Yu could not sit still after holding it in for half a year.

This time, he was confident because he had already achieved all the goals he had set at the start.

He had the battle power to fight against a demigod.

And... Qi had awakened space-time travel.

In the beginning, Qi judged that it would take at least a year to awaken spatial travel through the power of the dragon vein.

However, with the help of Shi Yu's additional points, this time was fortunately shortened by half.

In just half a year, Qi revived the Space-time Travel Skill.

At that moment, Shi Yu and the others were surrounding each other and studying the Space-time Travel Skill with Qi.

"Can we experiment now?"

"The current power can only support transmigration within 5,000 years. Moreover, the quasi-divine skill stage can't lead to a stable future with spatial laws. It can only transmigrate to the past with incomplete spatial laws?"

In the face of Shi Yu's question, Qi, who had already shrunk to the size of a palm, nodded.

"Think about where you're going." Shi Yu asked for everyone's opinion.

"Mimi! (Emperor Shi, Emperor Shi!)" Chi Tong wanted to see Mu Huiyin.

"Wuu! (Emperor Wu, Emperor Wu!!)" Eleven wanted to hit Emperor Wu's

"Ning! (Emperor Wu! Emperor Wu!)" Susu stabbed Chi Tong in the back.

Shi Yu's pets shouted one by one.

At the moment, Shi Yu and the others were like bachelors who had been holding back for decades. When they saw beautiful girls, they were especially novel and excited.

Qi's Space-time Travel Skill undoubtedly satisfied their novelty.

"Emperor Wu," Shi Yu said to Chi Tong. "The minority obeys the majority. When we go to Emperor Shi Dynasty, we definitely have to call the Dragon Mother. Let's return to Emperor Wu Dynasty to take a look first."

"Go find Eleven's inscription materials that don't exist in the modern era."

"Mi." Chi Tong nodded. That made sense. Alright then!

"But, but!!" Qi said. "Space-time travel is still at the quasi-divine skill stage after all. After confirming the space-time coordinates, there might be a certain year of error, but... it shouldn't be very big! Of course, it's not a problem to return. I've already left a mark here."

"Moreover, apart from me, the longer everyone stays in other spaces, the more they will be rejected by space and time, so they can't stay for a long time. But... but now that we've contracted, maybe we can," Qi said.

"Come on, don't care so much. As long as we can come back," Shi Yu said. "Ling, prepare some automatic mail to reply to people first."

"Yes ~" Rubik's Cube Ling said quickly.

"Then..." Qi couldn't help but rub its face. It was also excited. It had finally recovered its strength. It also wanted to use it quickly.

Under the urging of Shi Yu and the others, soon, a pink and white light that enveloped Shi Yu and the others flickered first before calming down.

....

In the past space.

Dong Huang Calendar, year 548.

548 years ago, the human Legendary Beast Tamer, Emperor Shi, who rose like a star, expelled the totem clans and established a unified dynasty in the east, Dong Huang.

However, the newly established Dong Huang Dynasty didn't last for decades before it went into chaos because of Emperor Shi's disappearance.

However, although the Dong Huang Dynasty was extremely chaotic because of Emperor Shi's disappearance, the expelled totem clans were also heavily injured in the previous totem battle.

The collapse of the Dong Huang Dynasty wasn't that fast.

However, without the birth of a new Legendary Beast Tamer and carrying the banner, the titled legend of the Dong Huang Dynasty alone was no longer enough to occupy the rich resources in the east.

Therefore, after the totem clans recuperated, a new round of totem battles immediately erupted.

Dong Huang collapsed and disintegrated, entering an era where heroes were divided.

After that, the Eastern Land returned to its previous chaos. However, Emperor Shi's merits and the short peace brought by the Dong Huang Dynasty were always remembered by future generations.

Countless human Beast Tamers took it upon themselves to restore their country.

Until 500 years later, a new Legendary Beast Tamer was born in the human race.

He had a top-notch Fusion Talent and used the four holy beasts as a template to nurture pets, rising with a shocking speed.

After becoming a Legendary, he immediately killed the strongest totem king who occupied the Eastern Continent at that time, the demigod, the Heaven Eating Tiger.

Then, he even killed nine totems in a row and announced the end of the totem war with shocking battle results.

After this battle, a large number of totem clans withdrew from the Eastern Continent again. Legendary Beast Tamer Wu Dong called himself Emperor Wu and established the Dong Huang Dynasty again.

The entire east welcomed a short peace again.

However, this peace didn't last long. The revival of the strongest creature three thousand years ago, Yun An, and the birth and rise of the Yun Race made Emperor Wu Dynasty and Dong Huang Dynasty fall into a state of internal and external trouble again.

On the chaotic and lonely sea.

Figures appeared out of thin air on this Desolate Island under the dark sky with the pink and white spatial light.

"Success?"

An excited male voice came from the group. "No signal!! Looks like it worked!!"

"Yes, yes, yes, I'm back!" A little elf in pink and white flew in the air and nodded happily.

Great.

Strength returned.

"What era is this?" Shi Yu stood on the black ground and looked at the chaotic sea. For a moment, he couldn't tell.

"Has Emperor Wu Dynasty been established? Has it started to come into contact with the Yun clan?"

"Wuuu!! (Fight!)" Eleven climbed onto Shi Yu's shoulder.

Let's go, let's go to Emperor Wu Dynasty and get the remaining inscription materials.

It wanted to be a ten inscription panda!

"Roar. (Then I'll reluctantly fight Emperor Wu's Green Dragon.)" Buggy said.

"Yi. (I want to fight Zhong Xuan!)" Baby Ginseng said.

"I don't know. Let's return to the Dong Huang Continent first," Ling said. "We'll know when we get there."

"Alright." Shi Yu nodded.

"I hope I can meet Emperor Wu. He has a top-notch Fusion Talent. We also have a few of us. Wouldn't it be wonderful to fight?" At the moment, Shi Yu, who had demigod battle power, urgently needed an opponent.

Of course, this was not his most important goal. His most important goal was to deal with Emperor Wu. Just the iron-eating beast evolution materials were not enough. Shi Yu also wanted the development EXP of Emperor Wu's top-notch Fusion Talent...!

"Master, I advise you to be kind..." Ling looked worried.

It was not a problem for it to fight Emperor Wu, but the problem was that when everyone fused into a mecha, the one who would be beaten up would be it, Ling! It had just finished its bitter cultivation and stepped into the threshold of the demigod/legendary level, and it was here to challenge the number one ruthless person in history. Was it serious?
