Unscientific Beast Taming

Chapter 1071: Reporting the Yun Race for Feeding (2)

Not every Iron-eating Beast had a ginseng baby as a kitchen ginseng and medical ginseng.

Obviously, with the strength Eleven had displayed just now, the Iron-eating Beast ancestor felt that it was not its match under normal circumstances.

"This space can't withstand my power. There's no need," the Iron-eating Beast ancestor said.

"I'm very curious now. You, little guy, are ridiculously strong. Your talent potential is even above mine. Moreover, you seem to have taken the evolution path of our race," it said. "How do you know the evolution method??"

"Moreover, the aura on its body just now was the aura of a Demon God, right?"

"I almost thought you were spies of the Yun Race, but thinking about it, Yun An shouldn't be able to nurture a Beast Tamer like you. He can't help but eat you."

It asked the most important question that Ji Mengzhu had wanted to ask previously.

Shi Yu smiled and said, "As I said, I'm an archeologist. This little guy's evolution method and evolution materials were all archeological from the ruins."

"It's indeed eaten the meteorite fragment."

"As for the spies of the Yun Race... that's even more impossible. How can a spy walk into a trap and deliberately expose himself?"

They were all from archeology!

Ji Mengzhu, Ji Nai, and the others thought so too. However, they looked at Eleven. Its main body was actually really the Demon God Iron-eating Beast?

At the moment, only Ji Mengzhu's father had the Demon God Iron-eating Beast.

The meteorite fragment came from the first battle between Emperor Wu and Yun An.

After obtaining the meteorite fragment, Ji Mengzhu's father was the first to carry out an experiment and successfully evolved.

Unfortunately, there were no more meteorite fragments. Including Emperor Wu's Iron-eating Beast, Dong Huang's other Iron-eating Beasts had yet to complete the evolution of the Demon God.

Shi Yu... had actually completed it?

"Archeology, what the hell?" The Iron-eating Beast ancestor had a serious expression. It looked at Ji Mengzhu and Ji Nai.

Tomb robbing was so strong?

Ji Nai said, "I didn't expect Sir Shi Yu to have a historical talent... Ancestor, this Beast Taming Talent has a chance of awakening the dusty ruins mystic realm and prying into the secrets of the ancient times."

"Back then, 'Zhuge Yan' in the army had this talent. Do you still remember him?"

"The origin of the iron-eating beast's evolution can be traced back to a long time ago. The branches are complicated, and it's not impossible to spread to various places. Three thousand years ago, Yun An was also defeated by the Eastern Race Alliance together, so it's indeed possible for Shi Yu to obtain the meteorite fragment that was left outside."

The Iron-eating Beast ancestor said, "Now that you mention it, I remember. It's that... We were exploring the ruins when he insisted on hearing a sound. In the end, the ruins collapsed all of a sudden, and a sealed overlord ferocious beast ran out. Is that the one?!?!"

Shi Yu smiled and said, "Yes, listening to historical talent can indeed hear some historical voices and cause changes in the ruins. Therefore, they are also known as ruins vandals."

The Iron-eating Beast ancestor curled its lips and said, "Strange talent. Bring him out to stay later. Don't leave him here. Don't destroy my mystic realm."

Shi Yu said, "Don't worry, this mystic realm has just been established. It hasn't contained strong traces of time. It's not enough to be called a ruin. It won't resonate with my talent..."

Just as Shi Yu finished speaking.

Boom!!!

The ruins trembled.

Space cracks of various sizes appeared on the ruins.

The expressions of the Iron-eating Beast ancestor, Ji Mengzhu, and Ji Nai suddenly changed as they looked at Shi Yu.

What did he say?

Shi Yu: "?"

Eleven: Wu wu wu?

"Something happened outside." Shi Yu's expression suddenly changed.

What happened?

"There's an invader." The Iron-eating Beast ancestor quickly reacted.

"Roar!!!" It was burning with anger.

He quickly opened the ruins and Teleported all the lives inside.

The other party might be controlling the nearby space. Otherwise, it wouldn't have caused the ruins to change.

In the outside world.

The wind and clouds changed.

The sky of Wu Ling City was already covered in dark clouds.

A thousand-meter-long pitch-black divine dragon circled in the sky, its golden eyes staring at the entire Wu Ling City.

"Roar..." Under its dragon roar, space was quickly sealed.

The entire Wu Ling City seemed to have been sealed in a huge spatial domain. Space changed and the Void trembled.

At this moment, a terrifying Demon God Dragon Might spread. Most of the Beast Tamers in Wu Ling City sensed the change and looked at the dark-element divine dragon in the sky in shock.

The weaker people's bodies were pressed down, and his entire body trembled in extreme fear.

After the Iron-eating Beast ancestor, Shi Yu, Ji Mengzhu, and the others came out, they also looked at the monster in the sky with serious expressions.

"The strongest totem among the 12 generals of the Yun clan, the Black Space Divine Dragon," Jinai said with a shocked expression.

"What's it doing here? Does the Yun Race want to start a war directly?"

The Black Space Divine Dragon was the strongest totem modified by Yun An.

Although his predecessor was only at the overlord level, because after being modified, he had spatial, dragon, and dark elements and was supported by Yun An's resources, after stepping into the totem level, his battle power was enough to be called a top-notch totem.

After seeing it, be it the Iron-eating Beast ancestor or Ji Mengzhu and her daughter, their expressions changed as they felt a life-and-death crisis.

"It's real."

"Not good, the other party doesn't come with good intentions."

"Ji Mengzhu, Ji Nai, I'll find an opportunity to break through space. You guys try your best to escape. I'll deal with the other party."

[Unscientific Beast Taming](#)

Chapter 1072: Report the Yun Race for Feeding (3)

Sensing the terrifying pressure of the Black Space Divine Dragon and noticing that the surrounding space had been sealed, the Iron-eating Beast ancestor said to Ji Mengzhu and Ji Nai with a serious gaze.

"Ancestor..." The expressions of Ji Mengzhu and the others changed. Clearly, they had also sensed the change in the Iron-eating Beast ancestor's tone.

"Don't worry, don't forget, I have the divine crystal bestowed by Emperor Wu. If I'm lucky, I might be able to smash it into pieces!" the Iron-eating Beast ancestor said.

It felt that in a normal battle, it was definitely not a match for this Black Space Divine Dragon.

However, it relied on the transcendent Inner Power to enter the totem level.

As an important contribution to the founding of the country, the divine-level resources bestowed by Emperor Wu were stored in its source of physical strength.

With this, it could burn its life and erupt with the strongest edge to suppress the enemy.

"You want to sacrifice yourself?"

Shi Yu's expression also changed slightly. He had heard of an incident where Wu Ling City was invaded by the Yun clan. In this incident, it was the Iron-eating Beast Ancestor who sacrificed himself and heavily injured the Black Space Divine Dragon that prevented Wu Ling City from being destroyed. He didn't expect that he would coincidentally catch up.

"Don't do anything stupid."

Shi Yu also said.

"Roar!!!!!"

At this moment, absorbing the fear that filled the city, the Black Space Divine Dragon felt comfortable.

They weren't in a hurry to attack.

After it descended, deterrence directly enveloped the entire city, making all creatures tremble incomparably. Fear flowed out.

The fear of humans was a very good resource for it to become stronger. Now that the space was sealed, no one could escape. As a spatial element, no one could keep it down. It had to play with this group of lambs well. Otherwise, it would be meaningless for it to take the initiative to volunteer this time.

Back then, it was Dong Huang who expelled it from its hometown. Now, it could finally take revenge.

"I'm a general under the King of the Yun Race, the Black Space Divine Dragon. I'm here to destroy this city!!" The Black Space Divine Dragon laughed with a violent gaze.

Boom!!

The Beast Tamers and ordinary people in the city looked at the Black Space Divine Dragon in the sky in horror. Unlike in the modern era, in this era where the war had just ended a few years ago, people had yet to walk out of the shadow of the totem battle.

At this moment, seeing the incomparably terrifying Black Space Divine Dragon directly descend with the faith of destroying the city, in Wu Ling City, the emotions of the Beast Tamers, regardless of their level, were extremely unstable.

"Totem level!"

"Your Majesty, save me!!!"

"Your Majesty Emperor Wu, where are you!"

At this moment, ordinary people immediately cried and shouted helplessly for Emperor Wu, hoping that Emperor Wu would quickly deal with this guy.

Upon hearing these subtle voices, the Black Space Divine Dragon smiled even more happily and used words to stimulate these people's fear emotions again.

"Scream, scream. Your Emperor Wu isn't in Dong Huang at all now."

"You will die, and so will he."

"This city has already been sealed by me. Don't try to escape, don't try to contact the outside world. It's useless. Only death awaits you."

"Speaking of which, aren't there legend Beast Tamers and guardians in this city? If no one comes out to stop me, I'm going to start a massacre." The Black Space Divine Dragon laughed loudly and waited for the strongest expert in this city to appear.

He planned to kill him first to stimulate the fear of the thousands of creatures here to a greater extent.

After this battle, it would completely stabilize its top-notch totem battle power!

"What should we do?" At this moment, as the only two legend Beast Tamers in Wu Ling City, Ji Nai and Ji Mengzhu were already anxious.

They were the strongest experts in this city!

The others didn't understand how strong this Black Space Divine Dragon was, but they knew very well.

Even if the entire city attacked together, they wouldn't be a match for this Black Space Divine Dragon.

"Roar..." The Iron-eating Beast ancestor growled, flames burning in its eyes. It looked up at the Black Space Divine Dragon.

It knew that it couldn't delay any longer. Only it could deal with this guy.

However...

"Kid, are you really not an enemy?" The Iron-eating Beast ancestor was not in a hurry to enter a battle state. Instead, it was worried about Ji Mengzhu and Ji Nai. Just now, it trusted Shi Yu very much, but now, with the appearance of the Black Space Divine Dragon, it immediately didn't believe Shi Yu anymore.

They suspected that he was cooperating with the Black Space Divine Dragon.

Apart from being obtained from archeology, the meteorite fragment could also be bestowed by Yun An.

It was very afraid that once it entered a battle state and faced the Black Space Divine Dragon, Ji Mengzhu and Ji Nai would encounter misfortune first.

In its eyes, Ji Mengzhu and Ji Nai were much more important than all the lives in Wu Ling City and here.

Its priority protection target was these two.

At this moment, Ji Mengzhu and the others' gazes suddenly landed on Shi Yu again as they cautiously took a step back.

Obviously, it also sensed that something was wrong.

Shi Yu and Eleven: ???

"How can I be..." The corners of Shi Yu's mouth twitched. "Have you ever seen such a handsome spy?"

"Forget it, I can't be bothered to explain to you. There's no time either."

Iron-eating Beast Ancestor, Ji Mengzhu, Ji Nai: ???

"The current situation is indeed a little dangerous. Leave this guy to me to settle," Shi Yu said as he looked at the sky.

"Wu wu wu!!! (I'll beat it up.)" Eleven asked to fight.

"No, it's a spatial element. The changes are a little strange. Your skill isn't very stable. After hitting, it will cause a huge aftermath. This is a city," Shi Yu rejected.

"Wu wu wu." Eleven cried.

Iron-eating Beast Ancestor, Ji Mengzhu, Ji Nai: ???

[Unscientific Beast Taming](#)

Chapter 1073: Report the Yun Race for Feeding (4)

What were they talking about!!

For a moment, they couldn't react.

In the next moment.

They saw that Shi Yu's body began to become blurry and hot. Red Fire Silk slowly erupted and lingered around him.

Then, under the illumination of the flames, his hair quickly turned bright red. His eyes even turned into the mysterious Chi Tong's burning eyes. His skin also became even fairer under the illumination of the fire spiritual aura!

Fusion Talent? No, Undead Possession!

Soon, the Iron-eating Beast ancestor, Ji Mengzhu, and Ji Nai realized the changes in Shi Yu.

At the same time, what shocked them even more was that the aura on Shi Yu's body suddenly became incomparably powerful, comparable to a totem.

"Don't worry, someone of this level can only become nutrients for the Immortal Slaying Sword Formation."

"Remember to report the Yun Race for feeding kills."

The red-haired and red-eyed Shi Yu slowly raised his arm and aimed his palm at the Black Space Divine Dragon in the sky.

"Huh??" At this moment, as Shi Yu's aura erupted, the Black Space Divine Dragon suddenly looked over and immediately discovered the totem-level Iron-eating Beast here, as well as the mysterious Shi Yu.

It was just about to smile and celebrate that it had found the strongest expert in this city, but suddenly, it felt that something was wrong.

Everyone in the city also discovered that something was wrong as shocking sword cries sounded. They looked at the sky in shock.

At some point in time, four huge sword phantoms suddenly hung in the sky. Each of them was a thousand meters long and looked larger than the Black Space Divine Dragon.

One of them was silver-white, containing purple light that reflected the profundity of space. One of them had a curved and red sword body, and red light lingered around the entire sword body. One of them had darkness and blue-green death aura interweaving on the sword body, containing nirvanic death fluctuations. One of them had a sharp metal sword light that pierced through the sky, extremely dazzling.

The four Swords hung in the four directions, directly trapping the Black Space Divine Dragon in the center.

"What is it?" The Black Space Divine Dragon's gaze trembled. Suddenly, its pupils constricted, and it had a bad feeling.

Its information didn't record such a thing in Dong Huang.

"The skill to end your life." A voice sounded. The Black Space Divine Dragon was shocked and looked in the direction of the voice. It saw that at some point in time, a woman in silver armor had appeared in front of it. She had a beautiful face and was peerlessly delicate. She had red hair and red eyes.

"Roar!!!" The Black Space Divine Dragon roared angrily.

Above, a shocking change occurred. The incomparable four shocking immortal swords also made the Iron-eating Beast ancestor, Ji Mengzhu, and Ji Nai look at Shi Yu, whose aura had completely changed, with shocked expressions.

"What's this?"

At this moment, Shi Yu and Chi Tong had actually already fused into one and completed the fusion. At the same time, their minds were in the optimal state.

"You can understand it as the final profundity that Emperor Wu has always pursued."

"The prototype of a divine skill."

The Spirit and soul power in his body were vast. Shi Yu's aura rose steadily, as if it was endless. A shocking sharpness shot out of his eyes.

Buzz!!!

At this moment, it was as if the world had trembled, and an incomparably deep sound of laws appeared. The spatial power and natural power in the world were all suppressed.

The air buzzed and vibrated, and the Void was pierced. The sound of laws was like the cry of a sword, like a peerless divine sword about to be unsheathed and slaughter the world.

"Roar!!!" Before anyone could react, in the next moment, extremely terrifying mixed sword intent tore through the air from the four immortal swords and penetrated space. Just as the Black Space Divine Dragon was stunned, tens of thousands of miserable sword marks instantly appeared on the thousand-meter-long divine dragon's body with light.

A huge life wave flowed out of the sword scar, making the Black Space Divine Dragon extremely frightened.

He actually felt that he had lost a hundred years of life in an instant.

The anger that erupted just now was instantly suppressed.

"Roar!!!" The shocking pain and consumption made the Black Space Divine Dragon's pupils reveal a shocked expression. It was shocked and let out a wail that resounded through the world.

"Divine skill!!!"

"Who are you?" It shouted in pain and looked at the cold-eyed Sword Maiden in front of it in horror.

Its eyes were filled with fear.

What exactly was going on?

Wasn't this the supreme divine power possessed by His Majesty Yun An? Why... who was it? Who was this undead!!

"Spare me..."

At this moment, the Black Space Divine Dragon, which was trapped by the Immortal Slaying Sword Formation and was still majestic just now and wanted to destroy the city, was instantly scared out of its wits, stunning countless people in the city. However, this was only the beginning.

"Roar!!!" As it shouted for mercy, the Black Space Divine Dragon forcefully entered a concealed state, wanting to escape into the Void and escape the sword intent domain.

The space around it changed exquisitely. Countless alternate spaces folded and turned into shadows.

However, this was only useless.

The Immortal Slaying Sword Formation would definitely hit after the Skill locked onto it. With Chi Tong's current strength after possessing Shi Yu, even if a demigod came, they would have to take it head-on. The sword formation could only be broken by four demigods!

Boom!!!

Facing the Black Space Divine Dragon that used spatial moves to escape,

The four sword projections hung in the sky like thunder rumbling. The sword light swayed and kept shrinking, flying towards Sword Maiden Chi Tong. At the same time, the four fused into one and landed in her hand. However, the huge sword formation formed by the sword intent and sword light didn't disappear.

Boom!!

Space distorted.

The entire sky seemed to have turned into a world of swords. Countless sword shadows leaped, as if forming tens of thousands of divine swords that hung in the sky, causing the sword fluctuations here to shake the sky and earth.

[Unscientific Beast Taming](#)

Chapter 1074: Reporting the Yun Race for Giving Their Heads (5)

Under the illumination of the Sword Light, the barrier sealed by the Black Space Divine Dragon just now was instantly pierced. At this moment, the Black Space Divine Dragon was in the endless sword world and lost its direction.

In the next second, under the frightened gaze of the Black Space Divine Dragon, it felt that the entire world instantly cracked, as if countless sword lights from the God Domain were destroying this world.

Crack!

Thousands of sword lights appeared.

The sword world formed by the Immortal Slaying Sword Formation collapsed with a bang under countless sword lights. As it collapsed, the Black Space Divine Dragon inside endured all the damage.

The chaotic and broken domain looked like a shattered world at this moment. Countless spatial fragments fell from the sky like meteors.

In the outside world.

The scene was even more shocking.

What shocked the Iron-eating Beast Ancestor, Ji Mengzhu, Ji Nai, and even the people in the city was that as this meteor shower-like spatial fragment fell, the sword light swept across, and the Black Space Divine Dragon's body divided into two with the naked eye. Then it divided into four, and the four divided into eight...

On its huge body, the injuries were filled with a shocking red light. In almost a few seconds, its body shattered into pieces and exploded into a blood mist that filled the sky. It was directly slashed into an incomplete corpse. The black dragon blood that enveloped the sky directly descended from the sky like a majestic rain.

Blood dyed the sky.

The entire city was shocked and didn't know what had happened. However, this blood rain was polluted after all. Shi Yu wouldn't let it fall. In an instant, the black blood rain also completely disappeared from the sky under the burning of the red flames during the descent.

A spatial totem-level life form with top-notch battle power was directly killed. It couldn't even escape.

This was the power of the Chi Tong God's evolution and possession of Shi Yu. Both parties controlled the quasi-divine skill, the Immortal Slaying Sword Formation.

Anyone below the demigod level could be killed.

The Beast Tamers below couldn't understand. They looked at the sword concubine holding a red immortal sword in the sky as if they were looking at a god. Everything happened in a minute. They didn't know the cause and effect at all.

Who exactly was this person?

At this moment, after completing the Killing Quests, the Sword Maiden Chi Tong, who was the array spirit, slowly dispersed its spiritual body and transferred its consciousness to Shi Yu below. At this moment, Shi Yu sighed. His red hair and red eyes had also returned to their black hair and eyes. He recalled Chi Tong to the Beast Taming Space to rest.

At the same time, he looked at the Iron-eating Beast ancestor beside him, Ji Mengzhu, and Ji Nai.

At this moment, the three of them looked at Shi Yu in shock and disbelief. They found it very difficult to understand.

Their worldview shattered.

The Black Space Divine Dragon was the number one general under Yun An, a top-notch totem battle power.

Even Ji Mengzhu's father, General Ji Yun, could only resist at most and not kill him.

However, such a powerful top-notch totem was killed by Shi Yu easily just now.

Instant kill.

In the entire Dong Huang, probably only Emperor Wu had this strength.

However, Emperor Wu was a legendary Beast Tamer, but wasn't Shi Yu in front of him a legend Beast Tamer?

It was two levels lower!

And that move just now... The Black Space Divine Dragon's miserable cry... Quasi-divine skill?? Shi Yu used a quasi-divine skill just now??

Ji Mengzhu was still wondering if Shi Yu's Iron-eating Beast was so strong and if his strength could reach the titled level.

But from the looks of it... her expression was stunned. Even Dong Huang's strongest titled expert, her father, was only so-so.

"Now you believe that I'm not a spy of the Yun Race, right?" Shi Yu said with a smile.

"It's a pity that the Black Space Divine Dragon has all its resources."

Fortunately, the undead spirit had already been captured and not wasted.

"Wu wu wu!!! (Ahhh.)" Eleven was helpless.

"Who exactly are you..." At this moment, Ji Mengzhu and her daughter indeed believed that Shi Yu wasn't a spy of the Yun clan. However, they felt that the unknown Shi Yu was simply even more terrifying and mysterious than the Yun clan.

They could see through Yun An.

However, Shi Yu's figure in front of him was as deep as an abyss, making it impossible to see everything about him.

What exactly was the sword spirit controlling the sword formation just now!!!

How could anyone control such a powerful sword spirit?

"Ababa, Ababa." The Iron-eating Beast ancestor looked at Eleven, who looked unhappy that it couldn't fight, with a frightened expression. Through the conversation between the Iron-eating Beast and Shi Yu just now, it was shocked to discover that even this little Iron-eating Beast also had the strength to kill that Black Space Divine Dragon!

Something was definitely wrong with this person! It was a little glad that it had rejected the battle with Shi Yu just now.

"Is this the main point now? The invasion of the Yun clan totem is a signal. Emperor Wu and General Ji Yun shouldn't be in Dong Huang, right?"

Ji Nai's expression changed. "Emperor Wu and the others... are indeed not in Dong Huang."

"If I'm not wrong, Emperor Wu and the others are probably fighting the Yun Race now."

"It's even very likely that he will fight Yun An." Shi Yu took a deep breath. In history, this was the second time Dong Huang had fought the Yun Race. Should he... support Emperor Wu and the others?

Unscientific Beast Taming

Chapter 1075: Ultimate Mechanical Ling

As Shi Yu finished speaking, the expressions of Ji Mengzhu, her mother, and the Iron-eating Beast ancestor changed.

Wu Ling City and Imperial City were very close.

The fact that the Black Space Divine Dragon dared to attack the city was most likely because the Yun clan had already learned that Emperor Wu wasn't in Dong Huang.

Ji Nai knew very well that Emperor Wu and her husband had gone deep into the Yun clan's territory to investigate information.

Shi Yu might be right.

If the information was exposed, it was very likely that they had already gone against the Yun clan.

Although these two people were very strong, it was the territory of the totem demigod after all. If they were surrounded by the enemy, even if they could retreat unscathed, they would probably sacrifice a lot.

Now, not only did Wu Ling City encounter a crisis, but Emperor Wu and the others might also encounter a crisis.

"I'll contact the other three generals and mobilize reinforcements," Ji Nai waved her sleeve and said anxiously.

"With the support speed of the Dong Huang Dynasty, it'll be too late by the time we rush over," Shi Yu said.

Apart from the Space Emperor Dynasty, even in the modern era, the support speed was very slow. On the other hand, in the modern era, there were advantages that other eras didn't have, communication.

Fortunately, Shi Yu remembered that in this encounter, the high-level and top-notch battle power damage of both parties was only totem.

On the Yun clan's side, a totem was killed. On Dong Huang's side, the Iron-eating Beast ancestor died in battle, but it also beat the Black Space Divine Dragon to the verge of death and barely protected Wu Ling City.

But now, if he helped the Iron-eating Beast Ancestor kill the Black Space Divine Dragon in advance, he didn't know what would happen to the battle over there.

"I'll go provide support," Shi Yu said.

"You're going to support...?"

At this moment, the Iron-eating Beast ancestor, Ji Mengzhu, Ji Nai, and the others looked at Shi Yu in confusion.

Shi Yu, an outsider who had yet to join the Dong Huang Dynasty, could actually do this for Dong Huang, even going deep into the dangerous areas of the totem country?

However, when they recalled the strength Shi Yu had displayed just now, everyone was relieved.

The strongest general below Yun An couldn't even withstand one move from him. What could stop him?

With such reinforcements, it was simply like a divine weapon descending from the sky.

Now was not the time to dig deeper and figure out Shi Yu's thoughts.

Ji Mengzhu quickly said, "Sir Shi Yu, can I really rely on you? I'll go with you! I have a communication positioning jade pendant with my father. After we get close, we can quickly lock onto their location and contact them."

Shi Yu looked at her and nodded.

"Then, it's decided. Just in case, Senior Ji Nai, Ancestor, protect Wu Ling City and deal with the aftermath just now," Shi Yu said to Ji Nai and the Iron-eating Beast Ancestor.

"You flatter me, you flatter me." The Iron-eating Beast ancestor was shocked. Damn, what right did it have?

"Wu wu wu." Eleven felt that there was no problem. After all, if it hadn't risked its life to resist the Black Space Divine Dragon, the thousands of Iron-eating Beast cubs in the Iron-eating Beast Training Mystic Realm would have all died.

Its ancestor might be inside.

"Then you have to be careful. You have to return safely." Ji Nai saw that Ji Mengzhu had taken the initiative to follow and had no objections. Her race had all wandered through the totem battle and had long ignored life and death.

As a legend of Dong Huang, if Ji Mengzhu couldn't even withstand this little Quest, she would be letting down the nurturing of the entire race.

"Then how are we going?" Ji Mengzhu asked.

"On a spatial battleship." Shi Yu looked at her and smiled, stunning Ji Mengzhu.

Boom!!!

Behind Shi Yu, a huge black summoning array that was a hundred meters in diameter appeared again. Under the shocked expressions of Ji Mengzhu, Ji Nai, and the Iron-eating Beast ancestor, a green and white whirlwind lingered and light outlined. Soon, a contracted creature they had never seen before was summoned.

As ancient people, they were naturally unfamiliar with such Arms, but if it were a modern person, they would definitely shout "machinery battleship"!

This was a super battleship that was like a futuristic Arms in a sci-fi masterpiece. It was completely white in color, and some devices lingered with green light. Its structure was abnormally complicated, and the huge cannon weaponry was perfect!

This huge battleship was filled with a sci-fi beauty. It was completely surrounded by a green whirlwind, as if it was absorbing the wind elemental power around it.

"Space battleship, Green Dragon, ready." Ling's mechanical and emotionless female voice sounded.

"Follow me," Shi Yu said to the confused Ji Mengzhu.

At the moment, Buggy's spatial control, Instant Transmission, was actually not Shi Yu's fastest transportation.

The strongest speed in a short distance was undoubtedly Buggy, but in a long-distance journey, in terms of endurance, it was undoubtedly Ling.

And fusing their powers into one was clearly the true strongest speed.

Before the World Tournament, Ling had already become a seven-in-one mecha. Now, Ling, whose top-notch intelligence had been activated (Perfect+47), might be the mechanical life form with the highest intelligence on Blue Planet.

All kinds of mechanical operations had already been studied and mastered by it. At the moment, its race was no longer suitable to be described by the Hundred Transformations Machinery or the mechanical phantom beast, the Wind Kirin.

It was already an ultimate machine. It could do whatever other mechanical lives could do. An ultimate mechanical Skill was naturally able to form a battleship with Buggy.

< Name > Ling

[Race]: Mechanical Life (Hundred Transformations Mechanical → Mechanical Beast, Wind Kirin → Ultimate Machinery)

[Stats]: Machinery, Wind

[Level of Growth]: Overlord

[Race Skill]:

"Super": Wind Element Control (Perfect+47), Divine Net (Perfect+47), Ultimate Machinery (Perfect+47), Turning Misfortune into Luck (Perfect+47), Wind Spirit Bead (Perfect+47)

Unscientific Beast Taming

Chapter 1076: Ultimate Mechanical Ling (2)

"Quasi God-level Skill": Wind Blessing (Initiate)

[Taught Skill]

"Super": Mythical Revival (Perfect+47), Nine-Colored Divine Light (Perfect+47)

After fusing most of Ling's mechanical Skills and modifying it with the Divine Net, it was now the ultimate body of a mechanical life form. It used Buggy as a component in an ultimate mechanical posture. Obviously, Ling could use its power to carry out stronger spatial travel.

The Iron-eating Beast ancestor, Ji Nai, and Ji Mengzhu looked at the huge battleship in a daze. They couldn't understand, but they were greatly shocked, especially the Iron-eating Beast ancestor. It felt that the pressure this big guy gave it was completely not inferior to the sword spirit just now and the little Iron-eating Beast on Shi Yu's shoulder.

Who exactly was this Beast Tamer named Shi Yu? Where did he come from? His pets were all... strange!

"Is this also a unique pet of Tingxiang?" Ji Mengzhu muttered in her heart. She kept feeling that the overall strength of Tingxiang was going to completely exceed the east...

....

Soon, Ji Mengzhu and Shi Yu were teleported to the control room of the mechanical battleship.

The complicated driving control room made Ji Mengzhu a little absent-minded.

"Can you hand me the communication positioning jade pendant?" Shi Yu asked Ji Mengzhu.

Upon hearing that, Ji Mengzhu immediately took out the jade pendant.

Shi Yu took it and placed it right on the heels of the heels on a glass pillar on the operating table.

Ji Mengzhu watched eagerly, feeling like a country bumpkin.

Buzz!

Then, the huge black screen in the sky opened. The image of a beautiful girl in a white, black, and red uniform appeared. She had long white hair, and her long hair was tied into a ponytail at the back of her head. There was a strand of hair on her head.

Seeing this, Ji Mengzhu retreated slightly. In the next moment, the girl slowly opened her eyes and let out a clear, experienced, and pleasant female voice. "Master, we'll arrive in 15 minutes."

"You've worked hard."

"This is..." Ji Mengzhu was confused again.

"My contracted target, Ling," Shi Yu said. "It's most powerful in computational analysis. The essence of any item can be cracked. The range of that jade pendant's extreme communication is limited, but under its cracking, it expanded and broke through to the limit."

"We've already locked onto General Ji Yun and the others' location. We are estimated to arrive in 15 minutes."

"Look, the map." Shi Yu pointed at the huge screen in the center. At this moment, two positions clearly appeared on the huge screen. One of the light spots was quickly moving towards the other light spot. Below, the changes in distance, speed, and estimated time were also marked. It was even more difficult for Ji Mengzhu to understand.

"Wu wu wu!!!" Eleven jumped off Shi Yu's shoulder and sat in the driver's seat eagerly. It patted a button and told Buggy to hurry up and not slack off.

This wasn't his limit!

Buggy: "?"

Buggy: I have to save my strength to fight!!

"Shi Yu... You..." Ji Mengzhu looked at the mysterious young man in front of her and felt that he had countless secrets. "Do you like beautiful women very much? Why was the sword spirit so beautiful just now? This contracted partner is also so beautiful."

Although one was an undead and the other didn't look like a normal life form and felt like a virtual illusion, it couldn't change the fact that they were both very beautiful.

"Wu wu wu. (There's also an Elemental life form.)" Eleven muttered in its heart. Susu wasn't bad either!

Shi Yu: "?"

Was this the main point? As expected, women were boring. This was a battleship, a battleship!

It could also transform into a mecha! A mecha! How handsome!

"Wait, we... can reach the Yun Nation in 15 minutes?!?! 15 minutes?!" Ji Mengzhu, who was wearing a white Han suit, said in disbelief, her beautiful eyes widening.

"Isn't your reflex a little long?" Shi Yu couldn't help but complain.

Well, that was normal. The future Aunt Ji Mengzhu was also so shocked when she saw Eleven, Baby Ginseng, and Future Technology.

"I'll enter the ruins first..." She placed her left hand into the bracelet on her right hand and said, "I'll go change my armor. "

Although she felt that the nearby space was also very large, it was in Shi Yu's pet's body after all. She felt that it was more suitable to go to the ruins space to change.

"Wait, we're in the midst of a spatial jump. If you enter the ruins space, you'll be thrown away."

Shi Yu said, "In addition, I think it's more convenient to contract armor-type equipment. Contracting five Iron-eating Beasts isn't very meaningful..."

"Wu..." Ji Mengzhu was stunned. Her few contracted pets were indeed Iron-eating Beasts.

This wasn't a secret...

Most of the Beast Tamers of the Iron-eating Beast Tribe were like this. At this moment, when she heard Shi Yu's words, Ji Mengzhu nodded.

In ancient times, antique swords could still nurture spirits. Shi Yu felt that contracting a pile of such armor and Arms to equip himself was the best combination.

Be it General Mu Huiyin or Emperor Wu, they had contracted creatures similar to Arms.

Contracting a bunch of Iron-eating Beasts, even Senior wasn't this crazy...

[Not only do I have to get Eleven evolution materials, but if possible, I can also plunder more inscription evolution materials and turn Senior Panda's Iron-eating Beast into nine inscriptions.] Shi Yu looked at the screen and thought.

"What if His Majesty Emperor Wu and the others really encounter Yun An?" Ji Mengzhu asked again.

Shi Yu shook his head and said, "I hope so..."

[Unscientific Beast Taming](#)

Chapter 1077: Ultimate Mechanical Ling (3)

"It's just nice to cooperate with Emperor Wu and kill it."

Ji Mengzhu was stunned.

Now that Yun An wasn't that cowardly, he would kill it!

Emperor Wu had yet to grow to the peak. At this stage, Yun An shouldn't be afraid of Emperor Wu and think that Emperor Wu was only so-so.

It was the best time to destroy Yun An.

Unlike later, in order to avoid Emperor Wu, Yun An obtained a bunch of life-saving skills that were not easy to fight at all.

"Master, we'll approach the communication distance immediately."

"Alright, tell your General Ji Yun." Shi Yu looked at Ji Mengzhu beside him.

...

In the Yun Nation.

At this moment, the Iron-eating Beast Corps was discovered and attacked by the two totems, causing the Iron-eating Beast Corps to fall into a bitter battle.

These two totems, a top-notch totem and an ordinary totem.

Cow and sheep combination!

Among them, the top-notch totem Black Bull was dealt with by the Iron-eating Beast General Ji Yunchong, and the Normal totems were dealt with by the Iron-eating Beast Corps.

At that moment, the members of this Iron-eating Beast Corps were not complete. Excluding Ji Yunchong's pet, there were only four overlord-level Iron-eating Beasts and 60 monarch-level Iron-eating Beasts. This was the key to making Ji Yunchong and the others fall into a bitter battle.

Under Ji Yunzhong's eruption, he could only fight against the top-notch totem, the Black Meteorite Yak. It was impossible to determine the winner in a short period of time.

Under the eruption of the army skills of all the members of the Iron-eating Beast Corps, although they could suppress the Black Ram, they couldn't quickly decide the winner. Both parties directly fell into a stalemate of consumption.

At this moment, both parties had already completed a round of battle. Neither party could do anything to the other.

The Iron-eating Beast army led by Ji Yunchong and the Demon God Iron-eating Beast was pitch-black. They faced the two huge totems in front of them and temporarily stopped fighting because of their tactical choices.

Because Ji Yunchong and the others judged that if they continued fighting, there wouldn't be much results. Therefore, all the Iron-eating Beasts used Impregnable to form a domain to resist the attack of the two totems and wait for reinforcements.

Now, Ji Yunchong's heart was burning. They had been discovered, and the situation was very bad. If Emperor Wu didn't come to support, it meant that Emperor Wu had also been discovered and fallen into a predicament where he couldn't escape.

Then, he could only hope that the army far at the border would quickly discover the abnormality and come to support.

He had already sent out the military seal.

As long as all the members of the Iron-eating Beast Army gathered, a mere two totems could be defeated with the smallest price before going to support Emperor Wu.

"Ji Yunchong, a chicken, a coward, a scaredy cat, remove your domain if you have the ability." The huge Black Meteorite Yak roared. Its attack landed on the impregnable defense formed by dozens of Iron-eating Beasts, unable to break through its defense.

"They're stalling for time and waiting for reinforcements," the mountain-sized black ram couldn't help but say.

"Reinforcements, there are no reinforcements. Your reinforcements will naturally be stopped by others. Your Emperor Wu can't even protect himself now," the Black Meteorite Yak said.

"Let's see how long your domain can last."

Boom!!!

The Black Meteorite Yak spat out black light and hit the impregnable domain again, causing the ground to instantly tremble.

"Coming." Ji Yunchong ignored the other party's words and realized that a communication jade pendant had lit up. He couldn't help but be delighted, but soon, General Ji Yunchong's expression stiffened again.

Because the person who sent the message was not the legendary general of the Iron-eating Beast Corps at the border, but his daughter, Ji Mengzhu, who should be far away in Wu Ling City.

"Father, Wu Ling City was invaded by the Yun Race's totem, the Black Space Divine Dragon. They might have already discovered that Emperor Wu isn't in Dong Huang. Your whereabouts have been exposed. Don't go deeper into the enemy's territory."

"If you haven't encountered the enemy's attack, please retreat immediately. If you're already fighting, please hold on. I'll quickly bring reinforcements to the battlefield."

"In addition, there's no need to worry about the situation in Wu Ling City. At that time, the national recruitment happened to conscript a powerful Beast Tamer whose strength was comparable to His Majesty Emperor Wu. He had already dealt with the Black Space Divine Dragon, and Wu Ling City wasn't too injured. At the moment, we're the only ones heading to your side."

After receiving the huge communication content, General Ji Yun's heart underwent a violent emotional change.

Ji Yunchong: "?"

The first sentence was that Wu Ling City was invaded by the top-notch totem of the Yun Race, the Black Space Divine Dragon. It almost scared his soul out of his body. After all, the Black Space Divine Dragon was the strongest general under Yun An. It was much stronger than these two.

What were those armies guarding the border doing? They didn't even know why the Black Space Divine Dragon had entered Dong Huang.

His wife and daughter were all in Wu Ling City, so it was impossible for Ji Yunchong not to be worried.

But right on the heels of that, Ji Mengzhu sent a message saying that she had recruited a Beast Tamer whose strength was comparable to a Emperor Wu and had already defeated the Black Space Divine Dragon. This was even more ridiculous, extremely ridiculous!!

Ji Yunchong was stunned.

Who was Emperor Wu? He was the most talented Beast Tamer in the Eastern Land in the past 500 years after Emperor Shi. Such an existence was casually recruited by a national conscription? Did Dong Huang have such a Beast Tamer?

Unscientific Beast Taming

Chapter 1078: Poor and Helpless Yun An

In the Yun Nation.

The huge Ram and Yak were like small mountains together, looking down at the golden domain in front of them.

The golden domain was a semicircular barrier more than a thousand meters in diameter. It was transparent and golden.

Inside, dozens of Iron-eating Beasts supported the barrier in the form of the Five Elements Formation.

These Iron-eating Beasts had all undergone clueless evolution and were quite strong.

In the center of the formation were the support pets and Beast Tamers accompanying the Iron-eating Beast Corps. They were also in charge of operating and strengthening the operation of the impregnable domain.

Army skills were the mainstream battle skills in the armies of the various dynasties. They were the key to the army defeating the strong.

At this moment, Dong Huang clearly didn't have a single totem level, but the two totems had never been able to break through the Iron-eating Beast Corps' array.

Standing on the Demon God Iron-eating Beast that had enlarged to more than ten meters tall and was holding a black sword, Ji Yunchong looked at the two totem generals of the Yun clan in silence.

"General, is there any news of reinforcements?" At this moment, a deputy general couldn't help but ask when he saw Ji Yun take out the communication jade pendant.

Although they could still last for a period of time like this, it wasn't a long-term plan after all. They couldn't spend all their strength on defense. This was too passive.

Ji Yunzhong said, "There's news. Everyone, hold on for a while more."

"Roar!!!"

"Wuu!!"

"Wuu!" Upon hearing that, in the Golden Domain, the soldiers and Iron-eating Beasts worked hard, their eyes like ferocious wolves as they stared at the two totems.

Damn, when the reinforcements arrived, neither of these two totems could escape.

In fact, if it weren't for the fact that the power on their bodies was too filthy, they would have killed them no matter what!

"Hold on a little longer, reinforcements are about to arrive!!"

The morale of the Iron-eating Beast Corps was even higher.

As for Ji Yunchong, although he was suspicious of his daughter's message, that jade pendant could indeed only be used by Ji Mengzhu herself.

However, the situation was still too strange.

He wanted to reply to the communication, but he realized that the other party was not in the communication range at all.

The other party wasn't within the range, so how did he contact him?

Ji Yunchong was silent. At this point, even if it was filled with Enigma, even if it was very difficult to believe, he could only believe it for once. After all, according to the Black Meteorite Yak and Black Ram, the reinforcements at the border had probably been intercepted by the Yun clan. It wasn't something that could be rushed over in a short period of time.

"After the reinforcements arrive."

"Cleansing Camp, cooperate with the Thunder Camp. Blazing Flame Camp, listen to my command and prepare to launch a counterattack!!"

Boom.

At this moment, the Black Meteorite Yak and the Black Ram were still attacking. They also knew this kind of army skill. It consumed a lot of strength, and the Iron-eating Beast Corps couldn't last long.

As for the reinforcements, it was nonsense. Since they dared to surround the Iron-eating Beast Corps team that went deep into the country, the Yun Race was naturally sufficiently prepared. Not only the Dong Huang Army at the border, but even the interior of Dong Huang would be turned upside down.

"Roar!!!" After using its strongest Skill, Demon Mist Horn, but failing to penetrate the Golden Soup Domain, the Black Ram cursed.

"Forget it, let's not waste our energy. Since they're willing to wait, we'll wait," the Black Meteorite Yak said. "As long as we maintain the Skill, they will consume a lot of energy. Let's rest first."

"Alright." The black ram stopped attacking and looked into the dazzling golden barrier. Although it couldn't hear the voice inside, it believed that the people inside could definitely hear its voice.

"Ji Yunchong, your Emperor Wu has already died in the hands of His Majesty Yun An."

"In addition, you don't know, right? Our Black Dragon General has already arrived at Dong Huang's Wu Ling City and is destroying the city. Your family and your clansmen should be there, right?"

"I think none of you want your family to lose their lives, right?"

"Now, you still have a chance. Give up resisting, and we won't kill those who surrender!"

"Not only will you receive preferential treatment and the opportunity to be modified into the Yun clan, but your families will also be safe and sound. Don't you want that group of Iron-eating Beasts to become as strong as your Boss? It only obtained a portion of His Majesty Yun An's power and already has such strength. You can do it too!" After stopping the attack, the black goat carried out a verbal attack, wanting to disturb the Iron-eating Beast Corps' morale.

Inside the domain, the expressions of the Iron-eating Beasts and Beast Tamers didn't change.

Only the killing intent and Warpath in his eyes were even stronger.

If the morale of the Iron-eating Beast Corps could be shaken by a few words from the enemy, it wouldn't be the number one army of Emperor Wu Dynasty.

...

"Lucky."

At the same time.

In the void, in the spatial battleship, as the distance got closer and closer, Ling had already detected the situation on General Ji Yun and the others' side.

On the huge screen, their situation was not very clear.

Everyone was bitterly using army skills to resist the attacks of the Black Meteorite Yak and the Black Ram.

"Not good, there are two Yun clan totems!"

In the room, although she didn't know why Shi Yu's pet could suddenly see the situation on the Iron-eating Beast Corps' side, after discovering that her father and the others were surrounded by the two totems, Ji Mengzhu's expression immediately changed and she was a little nervous.

"Fortunate? What's lucky about that?"

"Don't worry, aren't they still fine?"

"These two Yun Race totems aren't strong. I know them!" Shi Yu licked his lips.

"One is a cow, and the other is a sheep. Moreover, they're not strong. Even if they can't leave their corpses intact, most of their bodies should be able to be preserved. We can completely control the situation within a controllable range."

"After their meat is cleansed, it's very delicious..."

Unscientific Beast Taming

Chapter 1079: Poor and Helpless Yun An (2)

Ji Mengzhu: "?"

The Black Meteorite Yak and the Black Ram weren't spatial. Moreover, the battle venue wasn't in the city. Although he had his own people there, they were all in very safe domains. Shi Yu felt that apart from the undead, he could finally have some additional gains.

"What do you want to do..." Ji Mengzhu said in confusion.

"Kill them like how you killed the Black Space Divine Dragon just now?"

"No." Shi Yu shook his head.

"Just now, my sword spirit used a quasi-divine skill. Both of us consumed a lot of energy. Under normal circumstances, it's not suitable to carry out high-intensity battles for a few days."

"Leave it to other pets to settle," Shi Yu said.

"Buggy, you settle it. Chi Tong, harvest and carry out the final attack. Ling, remember to give Buggy a buff."

Chi Tong's Immortal Slaying Sword Formation was invincible against one person, and it could control the attack in a domain. The aftermath was not big, but the power was too great, and it was easy to shatter the enemy. Moreover, the attack just now had indeed greatly exhausted his and Chi Tong's strength. They still needed to recover for a while. Next, he would only leave the last saber to Chi Tong and let it imprison the undead.

It was the same for other pets to defeat the Black Meteorite Yak and the Black Ram.

However, he couldn't use quasi-divine skills to fight.

Chi Tong and the others' quasi-divine skills were all in the entry stage, and their strength control was not very good.

Therefore, it was better to use other skills with high proficiency so that he could control his strength to the greatest extent... As for power, with the enhancement of Ling's transcendent nine-colored divine light, it was definitely not weak.

"Other pets..."

The corners of Ji Mengzhu's mouth twitched.

It looked at Shi Yu in confusion.

As expected, his other pets were also very ridiculous, right!!!

He was clearly a legend Beast Tamer, but now he was going to face two totems, but he said that he could guarantee that the battle Crowd Control was under his control??

"Buggy is..." Ji Mengzhu asked.

"Sob." At this moment, Eleven, who was sitting in the driver's seat, waved at Ji Mengzhu. Eleven was here. He wasn't Buggy.

Ji Mengzhu was silent. She knew that he wasn't Buggy.

"Ji." As spatial ripples appeared, a green little green worm appeared on the control table.

He looked at Eleven.

Look, look, Shi Yu indeed let me fight!

Eleven said weakly, "Wuu..."

It couldn't be helped. After all, it would be a waste not to use the power of faith in this spacetime.

At this moment, seeing that the Buggy Shi Yu was talking about was really Buggy, Ji Mengzhu was stunned again.

She could understand the Iron-eating Beast, the sword spirit, and this mysterious battleship.

However, was Shi Yu's Contract Pet a Green Silkworm??

"We're about to arrive. Do you want to go together?" Shi Yu said.

...

"Again..."

A moment later, General Ji Yun suddenly realized that another message had come from the communication jade pendant.

[Reinforcements are about to arrive. Don't withdraw the army formation, don't attack, defend with all your might.]

Ji Yunchong: "?"

What did it mean?

He didn't sense where the reinforcements were coming from at all. His communication jade pendant still didn't move. How did the other party know that they were maintaining the army skill?

At this moment, General Ji Yun was deeply puzzled.

"Stubborn."

In the outside world.

Black Ram also shook its head, disappointed in this group of stubborn guys.

Just as it was about to speak again, the Black Ram, the Black Meteorite Yak, and the entire Iron-eating Beast Corps suddenly discovered the changes in their surroundings.

Space fluctuations!!!

Boom!!!

A spatial ripple instantly attracted everyone's attention.

After all, in this stalemate between the two armies, it was difficult for the two parties not to care if a third party entered the battlefield with a spatial jump.

"Are they reinforcements!?" The dozens of soldiers of the Iron-eating Beast Corps in the domain spoke one after another.

They looked over in unison and waited for General Ji Yun's counterattack command.

"In the sky!!!"

They quickly captured the core area of the spatial ripples. At the same time, they were puzzled, because teleporting down from the sky was not the support method of the Iron-eating Beast Corps.

Even the other armies didn't have such a support method!

"Who is it?" The Black Meteorite Yak and the Black Goat didn't move rashly before figuring out the identity of the person.

However, reinforcements didn't appear.

What came were only two extremely dazzling lights that suddenly appeared in the sky.

With strong power!!!

The Black Ram and the Black Meteorite Yak quickly looked over, and their expressions changed drastically.

It was two green-gold lights that looked like meteors. They were like two divine dragons that had descended from the starry sky. They bared their fangs and brandished their claws, coming from the starry sky with an incomparably terrifying dragon might!!

Looking carefully, the so-called dragon form was just flames produced by their friction with the atmosphere, and its main body was two huge meteorites!

Faith skill, Dragon Star Group!!!

The incomparable meteorite made the Beast Tamers in the domain widen their eyes.

It would be a waste not to use the power of faith in this space and time. The dragon star that Shi Yu had gotten Buggy to accumulate in advance could be used at this moment.

At this moment, the Dragon Star Group had actually undergone a tremendous change compared to the World Tournament.

Apart from power, there was also Crowd Control.

After approaching transcendent proficiency, Buggy's control over it had undergone a huge change. For example, when the current Dragon Star Group attacked, the more the enemy didn't believe in the Green Dragon and was hostile to it, the greater the power. However, the damage and aftermath of the Dragon Star Group would be reduced to the lowest among the believers acknowledged by the Green Dragon, and they wouldn't even be injured by the power of faith.

At the moment, although Buggy had just arrived at the Emperor Wu Era and had yet to mobilize much power of faith, it was enough to deal with the Black Ram and the Black Meteorite Yak. After all, Shi Yu didn't want to crush them into dregs like he did with the Green Dragon Prince.

Unscientific Beast Taming

Chapter 1080: Poor and Helpless Yun An (3)

Boom!!!!

The meteorite fell, leaving traces of tearing space. The huge power directly made the Black Ram and the Black Meteorite Yak feel as if they were facing a great enemy.

"Roar!!!"

The two of them immediately wanted to leave the range of the meteorite's attack. They quickly dodged to the left and right. At the same time, they didn't forget to watch the trajectory of the meteorite's descent. However, as the Void trembled and starlight condensed, a scene even more shocking than the meteorite's descent appeared in front of the two totems.

The weather changed.

The entire sky and world seemed to have darkened.

It was still daytime just now, but at this moment, all light was stripped away.

As spatial ripples flashed, a shocking image appeared. A shocking creature more than ten thousand meters long that looked like a dragon appeared under the starry sky. It had two golden horns on its head and was covered in green scales. Its eyes and tail seemed to be burning with golden flames of Spirit faith.

"Roar!!!" Under the gaze of the divine dragon's golden eyes, its body swayed. Two strong dragon claws directly grabbed the two meteors that had just descended beside it!!

In an instant, it grabbed the two meteors and changed their descent trajectory!!

Boom!!!

Then, it pressed down on the meteorite like it was an Arms weapon, pressing down on the shocked Black Ram and the Black Meteorite Yak. They wanted to move, but they realized that in an instant, the surrounding space was sealed and they couldn't move.

It was comparable to transcendent spatial control!

Under the seal, Buggy roared. The meteorite pressed down and directly hit the Black Ram and the Black Meteorite Yak. These two totems also instantly counterattacked. The Demon Mist Horn condensed, but Buggy, which had been strengthened by Ling's nine-colored divine light, ignored these guys in terms of strength!

The meteorite pressed down, and with a boom, the huge horns of the Black Ram and the Black Meteorite Yak were bent. Right on the heels of that, under their shocked expressions, their entire bodies were pressed to the ground by the dragon claws and the huge meteorite!!

Crack!

The meteorite shattered, and a huge shockwave swept out!

"Roar!!!" The two totems let out miserable cries and spat out blood.

The raging fire of faith burned their spirits, souls, and bodies, producing incomparable pain.

Boom!!!

The ground cracked, and the surrounding mountains kept shaking. Ripples kept appearing in the Golden Domain, making the Beast Tamers and Iron-eating Beasts inside open their mouths wide.

What happened?

Where did this green dragon come from!

What was wrong with that meteorite!

"Faith skill??" General Ji Yun said in disbelief.

That was... the Fire of Faith!

"Who is it!!!"

This wasn't the end. After succeeding in one hit, the green divine dragon directly let go of the gravel in its hand and retreated into the sky. It didn't continue attacking. At this moment, the Black Ram was completely heavily injured, but the Black Meteorite Yak still had a trace of mobility.

"Moo!!!" Its huge body stood up with difficulty. Its eyes were filled with supreme anger as it pushed open the gravel that filled the sky. But in the next second, its bull eyes instantly widened, revealing an incomprehensible expression.

They saw a shocking scene.

A young man with a calm expression was standing on the dragon head and staring at it.

Behind the young man was a Beast Tamer it was very familiar with. Ji Mengzhu, the daughter of General Ji Yunchong of Dong Huang, was tugging at the young man's clothes with a panicked expression, as if she was shocked.

"What... what a joke!!!" At this moment, the Black Meteorite Yak realized that something was wrong. Didn't the Black Dragon General go to Wu Ling City to destroy the city? Why should the daughter of Ji Yunchong, who was guarding Wu Ling City, appear here?

And who exactly was this guy!!

"I'm showing mercy, but not to let you have the strength to resist." As Shi Yu finished speaking, with a boom, the huge Heavenly Dragon Tail swung over again and hit the Black Meteorite Yak. With a bang, the Black Meteorite Yak's huge body was suppressed again.

On the green dragon's head, Ji Mengzhu's brain lost the ability to think. She completely didn't expect that the little green worm just now would suddenly become a ten-thousand-meter-long green dragon in such a state.

Her brain was buzzing. Although Shi Yu had already displayed his strength in Wu Ling City just now, she was still shocked again when she saw Shi Yu defeat the two totems effortlessly.

"It, it's also at the overlord level?!!" Ji Mengzhu couldn't understand.

Shi Yu smiled and said, "Sort of, but it's a god of faith in the starry sky, so it's a little stronger."

"You've heard of the Green Dragon, right? Emperor Wu should also be nurturing it."

"This kind of predecessor isn't even a totem. It's purely an Unholy totem modified by Yun An with the power of a Demon God. It's impossible for it to be the Green Dragon's match," Shi Yu said.

Ji Mengzhu's expression changed drastically again.

Green, Green Dragon??

She had felt that something was wrong just now. At this moment, Ji Mengzhu's mouth opened wide again. She couldn't believe that she was on the Green Dragon God.

At the same time.

"General, there's actually someone up there!!" Inside the golden barrier, all the Beast Tamers and pets were extremely stunned.

Their faces were filled with shock and disbelief.

The two totems that were in a stalemate with them just now and couldn't determine the winner, forcing them to wait helplessly for reinforcements... were suppressed in one round??

"Isn't that Miss Ji Mengzhu?!?"

At this moment, Ji Yunhai's deputy general looked at the woman on the green dragon's head in shock.

Who else could that woman in a white Han suit be but General Ji Yun's daughter?

Then, who was the young man beside Ji Mengzhu?

At this moment, General Ji Yun also looked at Shi Yu in shock. Don't tell him that this person was the powerful Beast Tamer recruited by the country after defeating the Black Space Divine Dragon that Ji Mengzhu mentioned had strength comparable to a Emperor Wu.
