Chapter 1081: Poor and Helpless Yun An (4)

It was actually true??? There was really such a person?

The miserable state of the Black Meteorite Yak and Black Goat seemed to have already told him that it was indeed!

Just as the Beast Tamers of the Iron-eating Beast Corps were extremely shocked, in the next second, the two figures on the green dragon's head were teleported out.

After entering the impregnable domain, he easily cracked the army skill.

At this moment, Buggy's gaze also focused on the two totems that wanted to make a cheap shot, a cheap trick...

Chi Tong's sister, come quickly!

...

In the domain, Shi Yu's clearer appearance was seen clearly by all the Beast Tamers and battle pets here. He was wearing a dark red battle trench coat, and his short hair was slightly blown by the wind. His extremely young face made them a little confused.

At this moment, General Ji Yun, who was on the Demon God Iron-eating Beast, looked at Shi Yu, who had been teleported over with his daughter, with a cold expression.

"Father, this is Shi Yu. I told you just now." Ji Mengzhu first called out to General Ji Yun.

At this moment, Ji Yunchong took a deep breath and bowed gratefully at Shi Yu with a serious expression.

Then, he looked around.

"Everyone, these are the reinforcements I told you just now. They've arrived."

"I didn't make it clear previously that the reinforcements aren't the border army."

"It's the expert recruited by the national recruitment this time, Sir Shi Yu."

"Among the two Yun clan totems just now, one of them wasn't lying. General Black Dragon indeed invaded Dong Huang's Wu Ling City. However, thanks to Sir Shi Yu... General Black Dragon, who invaded Wu Ling City, has already been killed by him!!"

"After that, they even sensed the danger and came to support us."

"Sir Shi Yu, on behalf of Dong Huang, I thank you."

As soon as he finished speaking, the brains of the other Beast Tamers of the Iron-eating Beast Corps instantly rumbled as they looked at Shi Yu in disbelief.

They looked at Shi Yu, who had easily suppressed the two totems just now.

National conscription... Beast Tamer recruit??? What a joke.

....

"Bastard, what exactly is going on!!!"

At the same time, in the depths of the Yun Nation.

A Demon God with a body like a city was fighting the domineering man in front of him with several totems beside him.

Yun An originally wanted to teach Emperor Wu a lesson this time, but he didn't expect that in such a short period of time, Emperor Wu's strength would actually improve quickly. The last time, he was even suppressed by it, but this time, he could actually suppress it.

"Is this all your tricks?" Emperor Wu stared at Yun An. Although his body was covered in injuries, Yun An in front of him and the various totems under its command were also heavily injured by him and his pets.

Looking at the totems that left Yun An's side one by one and were teleported away by Yun An, Emperor Wu locked onto this number one enemy.

"Hahahaha." Yun An felt a headache. It didn't want to continue fighting for the time being, because things were a little unexpected.

At this rate, he couldn't deal with this human Legendary at all. It was better to let him be naturally poisoned to death!

"Wu Dong, I advise you not to pester me anymore. Let me tell you, your country is currently being invaded by my other generals. If you don't go back quickly to take a look, the dynasty you built with much difficulty will be destroyed!"

As Yun An finished speaking, Emperor Wu's expression changed. In fact, he had already noticed that there was something wrong with the number of totems under Yun An just now.

"You don't believe me? Hahaha, then let me communicate with them and let you see the miserable state of their perspective??" Yun An said.

It directly used a secret technique to contact the Black Space Divine Dragon, the Black Meteorite Yak, and the Black Ram.

These totems were all modified by it, so it naturally had a way to contact them like a Beast Tamer... This connection was not important.

Yun An then roared angrily with a look of disbelief.

"Wu wu wu wu wu wu wu!!!"

Emperor Wu: "?"

[Unscientific Beast Taming](#)

Chapter 1082: Shocking Emperor Wu for Ten Thousand Years (1)

"Roar—!!!"

Yun An roared at the sky, an angry roar that blew away sand and rocks, causing space to tremble.

Its angry appearance made Emperor Wu fall silent.

He had never heard Yun An's miserable roar.

Even when he Maced the meteorite fragment, this guy didn't even frown.

"Wu Dong!!!" Yun An's anger burned.

The current Yun An was indeed even more furious than having a few pieces of his body hammered off.

So be it if the fragment fell. As long as it absorbed enough nutrition, it could recover again anyway.

Elemental life forms were very tenacious.

However, every one of the twelve generals under it was modified by it with greater effort!

The resources spent far exceeded a few body fragments!

After all, this was transforming 12 overlords into 12 totems!

According to the probability of a Legendary resource having a one in ten chance of strengthening a totem, Yun An's investment was at least dozens of Legendary resources!

It had invested all their assets in order to unify the east today.

3,000 years ago, Yun An woke up for the first time. Because he was too arrogant, he challenged the entire world alone and was attacked by a group.

Now, after 3,000 years, Yun An had learned to be smart.

After waking up, it directly developed carefully for many years, unearthed 12 top-notch overlords with good talent, and cultivated them.

Only when he gathered 12 powerful subordinates did he dare to come out.

These subordinates indeed made Yun An worry less.

There was no need for it to do anything personally. It didn't take long for Yun An to understand the benefits of having power.

It could be said that the twelve totems were its hearts.

Even when fighting Emperor Wu, it was especially careful to avoid its subordinates being killed.

In fact, Yun An had done it.

When fighting Emperor Wu, who was clearly much stronger than it, none of its subordinates died.

However, what Yun An couldn't accept was...

Instead, three of the four subordinates it sent had problems!

The Black Space Divine Dragon it trusted the most was sent to Dong Huang's Wu Ling City. When Yun An used a bloodline mystic technique to contact it, it directly sensed that the Black Space Divine Dragon no longer existed.

A heart-piercing pain that was like a knife was transmitted from the bloodline contract, making Yun An widen his eyes.

It saw the scene before the Black Space Divine Dragon died.

It was in the huge Air Sword Formation, facing a red-eyed girl in silver armor.

The girl controlled the sword formation, and space was instantly sealed. Under the soaring sword intent, a wave that could even kill gods rose with a bang!

"Roar!!!" Amidst the angry roar, Yun An was also mixed with some Affliction.

"Quasi-divine skill!!!!!"

If it weren't a quasi-divine skill that had touched the laws, it was impossible for it to feel the pain of the Black Space Divine Dragon so clearly just by relying on its bloodline connection!

How was this possible!!

Yun An couldn't understand.

They couldn't believe that there was still a life form who had mastered a quasi-divine skill in Dong Huang.

After all, the Emperor Wu in front of him had yet to cultivate a quasi-divine skill.

It was purely suppressed by the powerful power condensed by the fusion of multiple pets.

In terms of skill, it was far inferior. Otherwise, Yun An wouldn't be so confident that Emperor Wu couldn't heal its radiation injuries.

Therefore, Yun An really couldn't understand why Dong Huang still had such an expert.

The Black Space Divine Dragon disappeared under her attack.

The bloodline connection was completely severed, and the signs of life completely disappeared.

His strongest general... was dead?

It was even to the extent that without a complete corpse, the body that contained the power of the bloodline had become nothing.

Apart from that.

The signs of life of the Black Meteorite Yak and the Black Mountain Demon Goat had also completely disappeared.

Although he could sense that their bodies still existed and had yet to be completely destroyed, their life fluctuations had indeed disappeared.

The scene transmitted by them before they died also shocked Yun An.

That was the power of faith!!!

The faith skill that swept up the dragon might directly heavily injured the two totems to the verge of death.

The terrifying dragon might was even close to divine might, making the Black Ram and the Black Yak feel fear that came from their hearts.

"Ah!!!" Yun An also felt a heart-wrenching pain.

"Starry Sky Faith God!! The power of a meteor!"

"Who is it again!!!"

Yun An was shocked and furious. Apart from him, there was actually such a strong cosmic life form on Blue Planet?

Moreover, from the looks of it... they were all under Emperor Wu!

Yun An was immediately extremely angry. He looked at the broken Emperor Wu and the totems behind him.

He originally thought that this battle was all under his control.

However, it didn't expect that Dong Huang's foundation was far richer than it imagined.

Emperor Wu dared to enter the enemy's nest not only because he had broken through, but also because he had sufficient backup plans.

"Wu Dong, very good, very good. I underestimated you."

"So you're the one who's fully prepared."

"Life that has mastered a quasi-divine skill, Starry Sky Faith God..."

"You can actually kill the three generals I sent. Apart from you, Dong Huang actually has such a guy." Yun An's eyes were filled with anger.

Emperor Wu: "?"

The Emperor Wu in front of Yun An was seven meters tall. Although it retained its human form to a large extent, the beast characteristics on its body were very obvious.

Bull horns, dragon blood, tiger patterns, ghost armor, sparrow robe... All kinds of independent beast characteristics appeared on his body, making Emperor Wu look very domineering.

Although black blood was dripping and the armor was continuously cracking, Emperor Wu maintained his calm and tried his best to recover his strength.

Behind him, the huge Iron-eating Beast and the other totems that had yet to fuse with Emperor Wu were also covered in injuries, but they still stared at Yun An.

Unscientific Beast Taming

Chapter 1083: Shocking Emperor Wu for Ten Thousand Years (2)

However, Yun An confused them.

What was going on?

Someone... killed the three generals Yun An sent?

Moreover, Yun An even said that it was Dong Huang's Beast Tamer?

What a joke.

Emperor Wu was silent. Why didn't he remember that he had such a backup plan?

When Yun An just spoke, Emperor Wu was indeed a little worried.

After all, it was a fact that his whereabouts had been exposed and he was surrounded by Yun An and the eight Yun clan totems.

If it weren't for the fact that he broke through first, he might really have failed.

His whereabouts had been exposed, and so had most likely the whereabouts of the Iron-eating Beast Corps.

With the top battle power of the dynasty not around, Emperor Wu thought from Yun An's perspective. The Yun clan definitely wouldn't miss this good opportunity.

Not only was it a good opportunity to destroy him and Ji Yunchong, but it was also a good opportunity to destroy the stability of Dong Huang.

If the Yun Race really did this, the confrontation situation between the two parties would be even more complicated.

If the city invaded by the Yun Race didn't have enough defense power, the people would undoubtedly be plunged into misery and suffering.

As for the Iron-eating Beast Corps, they would definitely fall into a bitter battle.

In this situation, even if he successfully suppressed Yun An and obtained the meteorite fragment, it might not necessarily be a complete victory.

And the reality was that the situation was really developing in this direction.

However... the final direction of development was a little different from what Emperor Wu had analyzed just now.

This Yun An... had just said that the three totems it sent were all killed?

A life form that had mastered a quasi-divine skill? A starry sky faith god?

Emperor Wu was certain that Dong Huang definitely didn't have such a life form.

Therefore, he couldn't figure out the current situation.

"What exactly happened in the outside world?"

In an instant, Emperor Wu was also filled with confusion.

He looked at Yun An expressionlessly.

Was this guy lying to him?

"Surrender." Just now, the blood from the injuries all over Emperor Wu's body was still dripping and polluted by the darkness. And now, the injuries had already condensed.

After adjusting his state, he retracted his pet outside and punched in the air, ignoring what Yun An said.

"Extreme Martial Emperor Fist!" He roared and punched the huge Yun An in the air.

The surrounding Void and natural power instantly seemed to be absorbed by the fist and quickly condensed. The earth-shattering punch shattered the surrounding mountains with the fist wind alone.

"Wu ah ah ah ah!!" Yun An was furious.

It had never wanted to fight Emperor Wu before, so at this moment, it didn't want to fight Emperor Wu even more.

"You're already a dead person. There's no point in fighting you anymore." Yun An looked at Emperor Wu as if he was looking at a dead person.

"Your people killed three of my subordinates. Then, it's not too much for you to return the favor, right?"

"That cosmic faith god, compensate me!!"

At that moment, although Yun An was furious, he suddenly discovered the nature of the skill that made the Black Meteorite Yak and the Black Ram feel fear.

That creature... That creature's skill... was very nutritious for it!

The Dragon Star Group contained the power of the cosmic meteorite and the power of faith, and as a meteorite life form, Yun An was a creature that ate meteorites.

Yun An decided that although Dong Huang had the advantage in this battle, it definitely couldn't lose out!

It wanted the life form that had mastered the power of the starry sky!

"Secret skill, Corpse Reincarnation!"

It wanted to use the corpses of the Black Ram and the Black Meteorite Yak to directly descend to where the cosmic life form was!

"Huh?" Emperor Wu was shocked.

His fist arrived with a bang and indeed landed on Yun An.

But at this moment, Yun An's entire body was also filled with shocking light.

It was as if it had self-destructed or been swallowed. Its body was sucked into the alternate space from the inside out. At the same time, a shocking dark wave bloomed from its body.

It squeezed with the fist wave.

"You want to escape?" Emperor Wu immediately entered into the Void.

Boom!!!

A violent explosion directly turned an area of tens of thousands of meters into a radiation area.

A shocking wave shot into the starry sky.

A moment later, Emperor Wu's figure slowly appeared. He frowned and searched for Yun An.

"This is the first time I've seen this skill."

A voice from his pet quickly came from his body.

"Wu Dong, the skill it used just now is very special. It went very far. Hurry up and chase after it. It wants to pass you and attack the others!!"

"Hurry up and go to Ji Yunchong and the others. They might be in danger."

"I know." Emperor Wu frowned and flew quickly in the direction of the Dong Huang border.

Elemental creatures were what he hated the most.

This Yun An was too difficult to deal with. It was much harder to kill than the demigod tiger he had killed previously.

It had to be fine over there.

...

On the Iron-eating Beast Corps' side.

With Buggy's cooperation, Chi Tong directly finished off the Black Ram and the Black Meteorite Yak.

It ended their lives by attacking their souls.

Their so-called souls were also directly imprisoned by Chi Tong in the undead space.

This time, Chi Tong could be said to have had a huge harvest.

Its Undead Revival Skill was a teaching skill. It had already reached transcendent proficiency and could control totem-level undead.

One Black Space Divine Dragon, one Black Ram, and one Black Yak. That was three!

It wasn't to use them to fight, nor was it to Spirit Release them. Instead, it was to be a scapegoat.

With these three guys, Chi Tong felt that as long as it replenished its energy in time, its body could also withstand the burden of using the Immortal Slaying Sword Formation three times in a row.

At that moment, Shi Yu still received the shocked gazes of the army.

Unscientific Beast Taming

Chapter 1084: Shocking Emperor Wu for Ten Thousand Years (3)

Ji Mengzhu followed beside Shi Yu like a fangirl.

Too strong.

Shi Yu's strength refreshed her understanding again.

It was really as strong as Emperor Wu.

No, it was even stronger than Emperor Wu.

Back when the totem battle ended, Emperor Wu was the same. Destroying totems was like destroying ants.

But at that time, Emperor Wu had already stepped into the Legendary stage.

And the current Shi Yu was clearly a legend.

"He shouldn't be as young as he looks, right?" After knowing that Shi Yu was recruited by the entire country, the Beast Tamers in the Iron-eating Beast Corps were in an explosive mood.

It felt like a dream.

So the national conscription could recruit a powerful Beast Tamer who casually destroyed two totems?

In addition, Shi Yu looked too young, so they didn't know how to accept it.

"No need to thank me."

At this moment, Shi Yu smiled at General Ji Yun's gratitude.

"If you want to thank me, it's not too late to thank me when we go back..."

"Definitely!" Ji Yun looked at his daughter. Although he didn't know where Ji Mengzhu had recruited such a Beast Tamer, but...

Ji Yunchong was shocked, but without a doubt, with the exaggerated strength of the young man in front of him, he could definitely obtain the highest level of treatment from Emperor Wu.

A titled general was not enough to match Shi Yu's current strength.

He wondered how Emperor Wu would feel when he saw the young man in front of him...

"Not good, Emperor Wu!" Ji Yunchong was suddenly shocked. Then, he suddenly looked at Shi Yu.

"Sir Shi Yu, I have a presumptuous request. Just as the communication said, our whereabouts have already been exposed, so His Majesty Emperor Wu's whereabouts must have also been exposed."

"Even we were attacked by two totems. Then His Majesty Emperor Wu's situation is definitely even more dangerous."

"It's even very likely that he will be personally surrounded by Yun An!!"

"Yun An is the king of the Yun Race. His strength can be called a demigod, and he's far stronger than the Heaven Eating Radiance Tiger that occupied the Ancient Capital previously. Previously, we had a conflict with Yun An, and His Majesty Emperor Wu almost lost his life."

"This time, the Yun Race is prepared. His Majesty Emperor Wu might be in greater danger."

"If possible, I hope Sir Shi Yu can travel with us to support His Majesty Emperor Wu. I, Ji Yunchong, will repay your kindness with all my might later." General Ji Yunchong was extremely nervous.

The dynasty had just started, and only Emperor Wu couldn't have anything happen to him.

However, at this moment, General Ji Yun also felt very apologetic.

Shi Yu had already saved Wu Ling City and even helped a large group of them escape. In the end, he actually wanted the other party to take the risk...

"Sir Shi Yu, please help." At this moment, as General Ji Yun finished speaking, Beast Tamers in armor were about to kneel down in unison and ask Shi Yu for help.

Although they didn't know who Shi Yu was, through the scene just now, they knew that Shi Yu was very strong.

Now, perhaps only with Shi Yu's help could Emperor Wu be safe and sound.

The Iron-eating Beast Corps knew Yun An's strength very well.

At that time, it was them who fought Yun An with Emperor Wu.

Shi Yu: "?"

"Cut it out."

Boom.

Invisible Psychic power pulled the Beast Tamers back one by one, making them reveal shocked expressions.

The corners of Shi Yu's mouth twitched. "I don't like this. Since I'm already here, I'm naturally here to help. There's no need for you to request like this."

"Don't worry, Emperor Wu should be fine," Shi Yu said.

He had heard from his future Aunt Ji Mengzhu that... after Emperor Wu stepped into the Legendary stage, his strength improved by leaps and bounds every year.

The first time he fought Yun An, he was still suppressed, but in the second battle, he could already vaguely suppress Yun An.

In the end, they almost chased after Yun An and beat him up. Yun An didn't want to play anymore, so both parties started playing hide and seek.

However, it couldn't be said that Emperor Wu was stronger, because from the final outcome, the winner was Yun An.

Avoiding battle and relying on the radiation poison to grind Emperor Wu to death was the strategy Yun An chose.

He clearly knew that he would definitely win and chose to fight passively. He didn't want to waste more strength. Perhaps it was also Yun An's intelligence.

This dragged on for more than ten years. In the end, Emperor Wu's body collapsed. Instead, Yun An became stronger, and only then did the final tragic battle happen.

However, in the final battle, Yun An even said that he had underestimated Emperor Wu and relied on self-destruction to complete the mutual destruction.

As for the current time period, Emperor Wu was still at his peak. Perhaps he didn't take Yun An's poison seriously at all and was in an incomparably stubborn period. It was probably very difficult for Yun An to hold down such a Emperor Wu.

"Next..." Shi Yu looked at Buggy, Chi Tong, and the others.

At this moment, Buggy had already recovered to its normal size of more than a hundred meters to avoid exhausting its stamina too much.

After Chi Tong imprisoned the soul, Buggy just put the two corpses into its spatial pocket.

They would talk about cleansing later.

"Thank you very much."

General Ji Yun thanked him excitedly.

"Shi Yu... thank you."

The young Aunt Ji Mengzhu didn't know what to say. She felt that Shi Yu was simply Dong Huang's second savior.

However, at this moment, Shi Yu's expression suddenly changed.

[Roar!! (Retract, can't take it in.)] Buggy's stunned voice came from the Black Ram and the Black Meteorite Yak.

It was clearly just two totem corpses, but it actually couldn't be put into the spatial pocket.

That shouldn't be the case.

Previously, he had taken in the remains of the Black Meteorite Yak and kept it well.

"Mi?" Beside it, Chi Tong, who was in the form of a sword spirit, also shook the sword hilt, feeling confused for Buggy.

[Unscientific Beast Taming](#)

Chapter 1085: Shocking Emperor Wu for Ten Thousand Years (4)

Boom!!!!

They weren't puzzled for long.

In the next moment, the corpses of the Black Ram and the Black Meteorite Yak were directly filled with black light.

A strong wave instantly came from it, shocking Buggy nearby.

What erupted from the two bodies was not a powerful destructive power, but radiation fluctuations.

In fact, when Buggy crushed the Black Ram and the Black Meteorite Yak just now, its body was inevitably infected with toxins. However, there was no need for Susu to cleanse it at all. Apart from the self-healing effect, its Green Dragon Indestructible Body also had a certain cleansing effect. It directly ignored these.

However, at this moment, the radiation poison that erupted from the Black Ram and the Black Meteorite Yak for the second time exceeded Buggy's imagination.

In just an instant, it felt a fatal threat. It definitely couldn't touch it.

Buzz!!!

Buggy directly brought Chi Tong and teleported away, fleeing towards Shi Yu and the others.

"Roar!! (Not good, a corpse came back to life!!)"

"Mi!! (Fortunately, I got the soul.)"

After Buggy and Chi Tong flashed to Shi Yu's side and shouted, Shi Yu immediately shouted, "Everyone, don't resist."

At that moment, before everyone could react, the entire Iron-eating Beast Corps, including Shi Yu, was directly teleported further away by Buggy.

After everyone came back to their senses, they were first stunned. Then, they looked into the distance in shock.

Black mist spread out from the place where the corpses of the Black Ram and the Black Meteorite Yak were just now. Space ripples kept shaking, and countless cracks appeared in the sky, releasing unknown magnetic field radiation.

Rip.

The ground instantly turned pitch-black. In the power that crushed everything, a terrifying aura rose. A ridiculously huge guy outlined a corner of its figure with a black shadow that covered the sky.

With the help of the corpses of the Black Meteorite Yak and the Black Ram, its image gradually outlined. This was like a deer-shaped creature. Its huge intertwined horns were like continuous mountains, and its entire body was filled with dazzling black light. Just looking at it, it was as if its heart would sink into the abyss in the next moment.

Its body was incomparably huge, like a city. It was made of prismatic metal. On these metals, white and black gradually changed, emitting a terrifying Demon God aura. It was extremely oppressive. Because its body was too huge, its upper body was directly hidden in the black clouds. Only its two terrifying eyes could be seen through the clouds.

"Yun... Yun..." At this moment, when they saw this huge monster and sensed the terrifying aura it emitted, the pupils of the Iron-eating Beast Tamers of the Iron-eating Beast Corps who were teleported further away by Buggy constricted.

Their faces were filled with disbelief.

"Yun An!!!" Ji Yunchong and Ji Mengzhu said in disbelief at the same time.

The king of the Yun Race, the totem half-god, Yun An!

At that moment, these Beast Tamers knew why Shi Yu had told them not to resist. It was because Yun An had just descended, and a large area around it had directly become a silent place.

If they didn't evacuate in time, just the radiation spreading from Yun An's body was enough to fester the lives of these guys who weren't even at the totem level.

At this moment, the Beast Tamers were stunned, unable to understand why Yun An would appear here.

Didn't they say that Emperor Wu might be surrounded by Yun An?

"Roar!!!" In the sky above everyone, the Green Dragon Buggy circled in the sky and looked at Yun An in front of it in anger. It finally understood why it couldn't put the corpses of the two totems into the spatial pocket.

So this big guy was behind this.

At that moment, Yun An's appearance completely exceeded everyone's expectations. Even Ji Yunchong's eyes kept swaying. Even the number one person below the Legendary level would be shaken when facing a real demigod, and a powerful demigod like Yun An.

Demigods... were not in the same dimension as ordinary totems and top-notch totems at all!

Be it using Legendary resources or training a super Race Skill to transcendent, they were all considered Normal totems.

As for top-notch totems, they were strengthened by more Legendary resources on the foundation of Normal totems, or multiple super Skills were trained to transcendent and could be combined into profundities.

These were actually understandable for top-notch Beast Tamers. It wasn't that difficult to deal with.

However, at the demigod level, that was already another level of battle power. Compared to a single super skill, the control of Normal totems and top-notch totems over super skills was above [64]. Very few exceeded [100], and demigods basically mastered super skills above [256].

In Shi Yu's opinion, it was equivalent to one adding points 64 times, while the other had to add points 256 times.

Moreover, on the basis of adding 256 points, this creature still had to combine its skills with its race to optimize and evolve before it could be considered a [demigod].

This was an overwhelming advantage.

The growth brought by the upgrade of the Race Skill to this extent was unimaginably powerful.

The Beast Tamers and Iron-eating Beasts present looked at the incomparably huge Yun An, their eyes filled with fear. They took a step back in unison.

"Oh no."

"Yun An..."

"We actually need support ourselves."

"Your Majesty Emperor Wu..."

Some Beast Tamers looked at Yun An with their scalps numb.

In the clouds, Yun An's eyes looked over casually and landed on Buggy circling in the sky.

Unscientific Beast Taming

Chapter 1086: Shocking Emperor Wu for Ten Thousand Years (5)

This... was its goal.

"It's you..."

"You killed my two subordinates."

Its words directly made the hearts of the Beast Tamers present skip a beat. They also raised their heads slightly in unison and looked at the green dragon in the sky above them.

They instantly understood that Yun An was here to avenge his subordinates.

Because Shi Yu had sent his pet to kill the Black Ram and the Black Meteorite Yak, Yun An personally descended and came here.

"Set up the array!!!"

"Prepare to fight!!!" General Ji Yun shouted, his forehead covered in sweat.

"Yes!!!" The Beast Tamers and pets of the Iron-eating Beast Corps had just removed the Golden Domain. At this moment, they encountered such a dangerous moment and had no choice but to mobilize their army skills again.

However, be it Shi Yu or Yun An, they ignored this group of people.

Yun An asked the Green Dragon Buggy.

As Buggy's Beast Tamer, Shi Yu also asked Yun An.

"Hey, Yun An, where's my cow, where's my sheep???"

An exasperated voice came from the ground.

A figure couldn't take it anymore and floated in the sky with the help of invisible Psychic power, staring at Yun An.

Under the breeze, Shi Yu's clothes and short hair fluttered in the wind. Words that stunned both parties came out of his mouth.

Yun An: "?"

"Master, it should have descended here with the bodies of those two totems. It's a skill that's not in the records," Ling analyzed.

"I can tell." Shi Yu was speechless.

Yun An had such a Skill?

Shi Yu felt a lingering fear. This was because in this space and time, he had brought the Black Meteorite Yak's body with him for a long time. If he knew that Yun An had such a Skill, he wouldn't have brought it along no matter what... Good thing it was delicious. He might have eaten all the Black Meteorite Yak before Yun An revived.

So speaking of which...

The Black Meteorite Yak and Black Ram they had just obtained were directly sacrificed by Yun An??

"Sir Shi Yu, be careful. That guy is terrifyingly strong," General Ji Yun said solemnly. "It has mastered an unbelievable skill! Even Emperor Wu can't take it head-on!"

"In addition, no matter what, it's best not to let the pet come into contact with it."

"Yes." Ji Mengzhu looked around nervously. Yun An had actually descended here. This meant that Emperor Wu didn't fight it!

Then where was Emperor Wu?!

Now, it wasn't them supporting Emperor Wu at all.

Instead, they urgently needed the support of Emperor Wu!

"I know." Shi Yu nodded.

At that moment, Yun An had no mood to care about others at all. It was all focused on the Green Dragon Buggy. It had paid a huge price to descend here with its injuries just to take away this Green Dragon.

Only in this way would its three dead totems not be a loss.

"Little worm, are you already prepared to withstand my anger by attacking my subordinates?" Yun An stared at the Green Dragon Buggy and directly attacked.

Quasi-divine skill, Annihilation!!

The ultimate strengthening skill of its Yun Race, the so-called radiation virus, was one of the manifestations of this skill.

If the Skill hit, it would definitely cause irreversible injuries.

Even if an injured person used legendary medicine, used divine medicine to eliminate it, obtained strong treatment, and obtained strong cleansing... It would only recover the appearance and suppress the power of destruction.

The true power of destruction would remain in the attacker's body from the beginning to the end, unable to be completely cleansed.

This was the "law".

A colorless mist wrapped around Yun An's entire body, and the sound of laws that resounded through the world erupted.

Yun An's body changed at the same time in the attack. The black metal prism all over his body flowed and turned into a huge beast form standing on two feet. He stretched out a huge palm with three claws and pinched the Green Dragon Buggy.

An earth-shattering divine might also wrapped around this pinch.

Boom!!!

Under the deterrence, the Iron-eating Beast Corps' Golden Domain just condensed before collapsing unstable.

Everyone's pupils constricted, unable to understand this terrifying power.

"Not good!!!" Ji Yunchong was shocked. He didn't expect Yun An to use his final ultimate move the moment he came up.

But that made sense. As an existence that could easily kill a Yun clan general, the green divine dragon was worth Yun An's treatment.

However... Could this green dragon resist Yun An?!

General Ji Yun couldn't judge in his heart.

At the same time, in the face of this shocking squeeze, Buggy suddenly fell into memories.

Half a year ago, no, even longer ago, all of them had also faced a similar attack from Yun An.

Buggy still remembered the life-and-death threat it felt at that time.

They knew that they were unable to resist and could only take out the Dragon God Protection and use the Blue Sea Ruins to escape.

But now...

Buggy didn't feel any life-and-death crisis when facing this attack.

With its current strength, it indeed couldn't deal with Yun An alone. It could only be considered a top-notch totem.

However, it still had teammates! And Beast Tamer!

"Roar!!! [Ji!!! (Ji!! Beast Tamer, save me, Susu, save me!)]" In the sky, Buggy shouted.

The Annihilation Palm attacked, and a dragon roar resounded through the world.

The expressions of General Ji Yun, Ji Mengzhu, and the other Beast Tamers of the Iron-eating Beast Corps changed drastically.

But in the next moment, something unexpected happened.

A huge black summoning array appeared in midair under Shi Yu's feet.

Legend array?!

At this critical moment, Shi Yu's summoning did not attract Yun An's attention at all, even if the array blocked the direction of its attack.

Unscientific Beast Taming

Chapter 1087: Shocking Emperor Wu for Ten Thousand Years (6)

A mere legend Beast Tamer.

"Legend?" The color of Shi Yu's summoning array also stunned General Ji Yunhai and the others of the Iron-eating Beast Corps.

They originally thought that the green dragon was at the totem level. Shi Yu was also a legendary Beast Tamer like Emperor Wu.

However, the color of Shi Yu's summoning array was only Legend?

How was this possible? What was going on?

Wasn't the Green Dragon Shi Yu's pet?

At this moment, they gradually couldn't understand.

In the next moment, they were even more confused.

"Yun An!!!" In the distance, the Void tore.

Emperor Wu burned his blood essence and rushed over, letting out a heaven-shaking roar.

As he had expected, Yun An came to attack the Iron-eating Beast Corps.

However...

The situation here was a little different from what Emperor Wu had expected!

Emperor Wu, who had just descended in the distance, and the Beast Tamers of the Iron-eating Beast Corps were suddenly stunned. They looked at this scene in the distance in confusion.

At this moment, a strong blue light condensed on the black summoning array under Shi Yu's feet.

The light of the ocean spread, and a shocking aura wave swept out. A noble figure gradually appeared from the light!!

On the huge black summoning array, behind Shi Yu, a huge water elemental creature a hundred meters tall appeared in the sky in front of the green dragon.

She looked like a mermaid. She had beautiful blue long hair, bright blue eyes, beautiful appearance, and a body made of water. Her aura was incomparably noble, and she had an otherworldly aura.

What kind of creature was this?

In a short instant, countless people were puzzled. However, the holy, pure, and clear fluctuations emitted by Susu were enough to move anyone.

Even Yun An, who was opposite, was slightly stunned.

However, the attack didn't stop.

In the face of this attack, Shi Yu's gaze was strict.

"Have you asked me before you tried to attack my pet?"

For the first time, Shi Yu's voice was valued by Yun An. At this moment, it understood two things. First, the green dragon that had killed its two subordinates was this human's pet.

Second, this summoned water elemental life form was also this human's pet.

But... So what?

"Roar!!!" Yun An let out an angry roar.

At the same time, Susu's power erupted.

Buzz!

As if its soul had left its body, a blue Sea Cleansing Spirit that looked similar to Susu directly covered the original body and erupted with a huge energy wave!!

Demigod level, Sea Cleansing Spirit!

Susu had accumulated two demigod-level Sea Cleansing Spirits that could be said to be comparable to quasi-divine skills in half a year!

If Shi Yu and the others had anything that could resist Yun An...

Then, Susu's demigod-level Sea Cleansing Spirit was undoubtedly the most effective!

"Crush it."

Under Shi Yu's voice.

This Sea Cleansing Spirit gradually expanded and gradually enlarged. Soon, it expanded to a height of more than a thousand meters. It was majestic and spectacular, corresponding to Yun An from afar. The Holy Purification aura on its body was even richer, and the energy fluctuations as deep as the ocean shocked Yun An for the first time.

Buzz!!!

The sound of laws sounded.

"Half-god!" Yun An's expression suddenly changed drastically.

It never expected the creature opposite to suddenly erupt with such strong strength.

"What's that..." In the distance, Emperor Wu's expression also upheaval.

Boom!!!

Under the shocked expressions of the Beast Tamers of the Iron-eating Beast Corps below,

Susu's huge palm directly smashed towards Yun An's huge palm.

Right on the heels of that, a scene that shocked everyone to the extreme appeared. The two huge palms collided. In the next moment, a sizzling sound came from Yun An's palm. Then, right on the heels of that, white smoke that was like a mist of ice spread from the huge water palm.

At this moment, Susu's palm was like a monstrous tsunami that swept over, instantly devouring Yun An's palm. Then, the water palm kept enlarging, covering the world, and swung at Yun An's main body.

It was completely countered!

Facing such a ridiculous counterattack, even Yun An instantly revealed a panicked expression.

In the next moment!

"Roar!!!" A miserable cry sounded.

Yun An's huge body seemed to have been splashed with a layer of water, and this layer of water was very strong. In an instant, it flipped Yun An, who was like a mountain peak, over!!

Moreover, the water of the Sea Cleansing was like boiling water. White mist kept blooming on Yun An's body, interweaving with terrifying power.

"Ah!!!!" On the ground, the king of totems, the half-god Yun An, screamed in pain. His miserable shout spread in all directions.

Boom.

A huge dust mist shot into the sky and filled the sky.

At that moment, no matter who it was, they could see Yun An's miserable appearance.

Ji Yunchong, Ji Mengzhu, and the others opened their mouths when they saw this. It was difficult to understand, and their brains gradually lost their ability to think.

Yun An... was defeated in one hit??

An attack that even Emperor Wu didn't dare to take head-on was directly blasted back??

In the distance, Emperor Wu, who had just teleported over, froze when he saw Yun An directly defeated by this mysterious water elemental creature.

What happened?

Wait, wait, something was wrong.

At this moment, Ji Mengzhu looked confused. Didn't Shi Yu say that he couldn't resist the Yun Race, so he came to form an alliance with Dong Huang?

Then what was going on!!

"It's not working?" In the sky, Shi Yu looked at Yun An, who still had the strength to struggle, and frowned.

"Roar!!!" When Yun An shouted miserably, it rolled its body and swept its gaze over again. It was no longer as impressive as before. It looked at Shi Yu, the Blue Sea Sprite Susu, and the Green Dragon Buggy in shock.

Unscientific Beast Taming

Chapter 1088: Shocking Emperor Wu for Ten Thousand Years (7)

"Who are you?! Who are you!!!"

Yun An was shocked to discover that not only was its quasi-divine skill suppressed in that attack just now, but the attack also landed on it, causing it even more damage than Emperor Wu's attack.

At this moment, its body, which was already covered in injuries, was already completely injured.

Yun An really couldn't understand what that attack was about. It had been a long time since he had suffered such a serious injury.

At the same time, Yun An suddenly sensed that the aura of a Emperor Wu had also appeared in the distance. He was even more panicked.

Not good!

"Tch." In the sky, Shi Yu looked at Yun An. No way.

The full-strength attack of the demigod-level Sea Cleansing Spirit only heavily injure Yun An??

Susu had saved up for half a year only to save two.

Could the next one kill Yun An?

Shi Yu wasn't confident.

He planned to use other pets to consume Yun An first.

He could sense that at this moment, Yun An at most had 70% of the strength of Yun An in the Heavenly Sword Ancient Nation. From the looks of it, not only had Emperor Wu not grown up, but Yun An wasn't at his peak at this moment.

However, if Shi Yu wanted to fight, Yun An didn't seem to want to anymore.

After a round of confrontation, Yun An's heart was shocked to the extreme. It was continuously attacked by Emperor Wu and unknown Beast Tamers. At this moment, its heart was heavily injured.

Yun An had no idea that Susu only had two attacks just now. In addition, Emperor Wu had already arrived. In this situation, it crazily suppressed its urge. How could it still think about the Starry Sky Green Dragon? It directly rolled its body and instantly teleported thousands of meters away. It circled around Emperor Wu and turned to run!!

"Wu wu wu wu wu wu wu wu!!! (I'll definitely come back!!)" Yun An let out a miserable roar.

As long as there was life, there was hope.

Yun An chose to retreat strategically.

"Wait, wait!" Seeing this, the Beast Tamers of the Dong Huang Iron-eating Beast Corps, who had always regarded Yun An as their final enemy, were stunned. They widened their eyes and revealed incredulous expressions!!

Yun An... didn't dare to fight... ran away?!

What a joke.

Didn't they say that Yun An was the strongest demigod?

They looked at Shi Yu in the sky in disbelief.

Yun An... was chased away?

The Beast Tamers who were still in fear of Yun An's descent just now completely didn't expect the situation to change so suddenly.

Who exactly was this Shi Yu? And what was that water-element life form?!

Why could it suppress Yun An?!

"Roar!!!" At that moment, seeing that Yun An was even suppressed, Buggy was abnormally excited and immediately wanted to chase after him.

Want to run after swallowing the sheep and cow? No way!

Sword Spirit Chi Tong instantly flew into position around Shi Yu.

Buggy immediately prepared to bring Shi Yu to chase after it.

"Senior Emperor Wu." As he prepared to pursue, Shi Yu sent a voice transmission to Emperor Wu.

At this moment, Shi Yu had long noticed Emperor Wu in the distance.

After noticing Emperor Wu, Shi Yu finally knew why Yun An was so weak. Before it descended, it had definitely been almost exhausted by Emperor Wu.

A Legendary, a legend. An expert like an ancient Legendary, and a genius who was a modern legend. At this moment, they finally met after crossing 2000 years of space and time.

"Do you want to go together?" Sword spirits surrounded Shi Yu, and behind him were the huge Blue Sea Sprite and the Starry Sky Green Dragon. In the distance, at this moment, Emperor Wu Dong no longer had the stability of a Legendary Beast Tamer.

Even when he fought Yun An, Emperor Wu had never been so shocked.

He looked at Shi Yu in front of him solemnly...

This person... What was going on? Could it be that he was the one Yun An mentioned... However, did he even defeat Yun An just now? What a joke!!

The corners of Emperor Wu's mouth twitched. He was very certain that he had seen the color of Shi Yu's summoning array with his own eyes. That was clearly at the Legend level!!

On this day, when he saw Shi Yu's, his perception of strength began the first step... He wanted to know where this person came from.

Unscientific Beast Taming

Chapter 1089: Not From This Space and Time (1)

"Your Majesty Emperor Wu!!"

At this moment, the Beast Tamers of the Iron-eating Beast Corps and Ji Mengzhu were very shocked.

Not only was Yun An, who wanted to attack them, forced back by a single attack, but he also chose to escape.

At that moment, following Shi Yu's invitation, they realized that the Emperor Wu they had been searching for had finally appeared.

Everyone couldn't help but look over in joy.

"Come on," Emperor Wu said.

In the face of Shi Yu's invitation, Emperor Wu chose to pursue with him.

Although he couldn't figure out what was going on, Yun An's condition was indeed worse.

Moreover, the direction Yun An escaped in was far from Dong Huang and the crowd. This made Emperor Wu even less worried.

Right on the heels of that, the Beast Tamers of the Iron-eating Beast Corps saw a historical scene.

A green dragon tore through the air. Shi Yu stood on its head and chased after Yun An.

At the side, Emperor Wu flew in the air. Both parties were on the left and right, making Yun An, who was further ahead, howl and curse. He escaped even faster!

One was a Legendary Emperor that the Iron-eating Beast Corps was extremely familiar with, and the other was a super expert that had descended from the sky like a divine weapon and was recruited by the country. Even if the opponent was a demigod, Yun An, they had never been so at ease.

...

A moment later, Shi Yu and Emperor Wu chased.

"This again!" Emperor Wu couldn't help but say.

With a boom, the fleeing Yun An's entire body was filled with shocking light.

It was as if it had self-destructed or been swallowed. Its body was sucked into the alternate space from the inside out.

At the same time, a shocking dark wave bloomed from its body.

"Roar!!! (I won't let you off!!!)"

Right on the heels of that, Yun An disappeared in front of Shi Yu and Emperor Wu. The strong explosive wave made them retreat together.

In midair, Shi Yu's expression was uncertain.

"This is the skill it came to us with just now, right?" Shi Yu said.

"It should be a spatial Skill that can only be escaped by sacrificing a certain subordinate. Be it itself or its subordinates, the consumption is huge."

Spatial attainments... were even above Buggy.

No wonder it could modify the Black Space Divine Dragon.

Shi Yu was not surprised that Yun An had successfully escaped.

He had chased after him this time because he didn't think he could successfully defeat Yun An. Instead, he wanted to consume some energy or hammer a few more fragments.

If he really wanted to capture Yun An, he had to be more prepared.

"Your Majesty, you fought it just now, right? Did you collect its fragments?"

At this moment, Emperor Wu, who was standing in the air, looked at Shi Yu and said, "Yes."

"In that case, don't chase after it or look for it. Let it leave first. It can't escape."

"What do you mean?" Emperor Wu said. "Its current state is unprecedentedly weak. It's the best time to completely kill it."

Shi Yu said, "It's impossible to succeed. Yun An has mastered the super self-destruction Skill. If it's forced into a corner, we'll all die. As an Elemental life form, it still has hope of reviving."

"At most, it will wait for thousands of years to revive again, and if we die, we will completely die."

"I don't want to die with it." Shi Yu smiled slightly. He wasn't an iron-headed kid like Emperor Wu.

A demigod-level self-destruction could probably directly blow up his body and soul. The Undying Fruit was useless.

Repelling Yun An just now was the limit Shi Yu could do. He really didn't dare to let Yun An fall into a desperate situation.

Otherwise, the outcome of Emperor Wu in history would be Shi Yu's outcome.

"I just returned to Dong Huang and haven't prepared enough. Since Senior Emperor Wu has obtained the meteorite fragments, it's easy."

"Lend me a few meteorite fragments later. Give me some time to study them. I can develop tools to locate Yun An and sealing tools to seal its self-destruction ability."

"He might even be able to capture Yun An alive."

Emperor Wu was stunned. "Who exactly are you? Why are you helping Dong Huang?"

Emperor Wu felt that the young man in front of him knew Yun An better than him and the Iron-eating Beast Tribe.

In terms of strength, it was probably not weaker than him, or even stronger.

However, he really couldn't see through Shi Yu.

"Me? I've been training in the West since I was young and only returned recently. I was originally responding to the national conscription in Wu Ling City, but I didn't expect to encounter such a bunch of things." Shi Yu laughed.

"Wu Dong, don't believe him." When Emperor Wu looked at Shi Yu, the voice of a pet in his body sounded.

"This guy... There are fluctuations that are rejected by this space and time on his body and his pet."

"This person and his pet might not belong to this space and time!"

"You're lying. You're not from this space and time," Emperor Wu said. "Who exactly are you?"

Shi Yu was slightly stunned.

He looked at Emperor Wu in surprise.

Shi Yu originally thought that if he transmigrated to the past space and time, among the five emperors of Dong Huang, only Emperor Shi of time or Emperor Kong of space could tell that he wasn't from this space and time.

He didn't expect that Emperor Wu also had this ability.

Was it his, or had he contracted a special pet of the time or space element?

"Has it been seen through?"

"Forget it, there's nothing to hide anyway." Shi Yu smiled and said, "Then I'll tell the truth. You can understand that I'm from a future parallel space where Emperor Wu Dynasty has already been destroyed and Emperor Wu has already died in battle."

"Of course, since I'm already here, the history of this space and time might have to be rewritten."

When Shi Yu finished speaking, Emperor Wu widened his eyes in shock.

[**Unscientific Beast Taming**](#)

Chapter 1090: Not From This Space and Time (2)

The pet that reminded him just now was also shocked.

This guy came from the future?!

What a joke.

"I'm an archeologist from Dong Huang. I actually came this time to take a look at the local customs of Dong Huang and come to do archaeology.

"You..." Emperor Wu didn't know if Shi Yu was telling the truth, but this was too ridiculous.

At this moment, he has redefined archeology.

It was even more ridiculous than Shi Yu defeating Yun An in one hit.

"You're saying that I'll die in battle? Emperor Wu Dynasty will be destroyed??"

"Yes, under normal circumstances, Senior Emperor Wu, you would have perished with Yun An, just like what I said just now... Therefore, I don't recommend forcing Yun An so tightly," Shi Yu said.

Emperor Wu's expression changed slightly.

"If what you say is true, you didn't come here just to help me, right?"

Shi Yu said, "That's right."

"I also took a fancy to the two things on Senior Emperor Wu and want to take away some extinct resources."

"What?"

"The development experience of the top-notch Fusion Talent, as well as the 'Fusion Skill' you created, Your Majesty Emperor Wu."

Emperor Wu was silent, but he felt that it was only natural.

These things were indeed the most unique on him.

"Of course, in exchange, I'll assist Your Majesty in killing Yun An. In addition, Senior Emperor Wu, you can't fight Yun An like this."

"Its attack has the characteristic of being incurable and unable to be cleansed. Even if Senior Emperor Wu feels that the injuries on your body have been treated and cleansed, that's only on the surface."

"Actually, the damage it caused to you has always been hidden in your body. When a certain time comes, it will erupt again."

"This is also why you'll lose to Yun An in the future."

"As for me, apart from helping you kill Yun An, I can also help you completely cleanse this kind of injury. It should be considered an equivalent exchange, right?"

Apart from the top-notch Fusion Talent, Shi Yu was also more curious about the Fusion Skill on Emperor Wu.

The Fusion Skill was a super Skill manual developed by Emperor Wu himself according to his top-notch Fusion Talent. Only Emperor Wu mastered it. After the Emperor Wu Dynasty was destroyed, this skill was severed.

Shi Yu had also learned about it from Aunt Ji Mengzhu.

This skill, just like its name, could allow the two pets to fuse and evolve for a short period of time. It was similar to the fusion talent of the Dong Huang Sequence trainer, Zhou Ming.

However, one needed the cooperation of the Beast Tamer, and the other needed the pet to rely on its own strength.

Of course, the difficulty of learning this skill was also very high. Among Emperor Wu's pets, it was said that only Zhong Xuan and the Nether Snake had mastered this skill.

It was specially developed by Emperor Wu to evolve the "Four Holy Beasts: Black Tortoise". Its goal was to let the divine turtle "Zhong Xuan" and the undead "Nether Snake" fuse and evolve.

The reason why Shi Yu took a fancy to this skill was because the Green Dragon had been cultivated. Moreover, Buggy had mastered skills like the Four Holy Clones, so it naturally had the intention of cultivating the White Tiger, Black Tortoise, and Vermillion Bird.

There were still so many vacancies in the second team. Every time he contracted an additional pet, the more attribute feedback he could obtain. In today's history, apart from him, the closest to nurturing a green dragon was definitely the Dragon Emperor. If there was anyone closest to nurturing a black tortoise, it was undoubtedly Emperor Wu.

The Fusion Skill was the key to nurturing the Turtle Snake Black Tortoise.

"No matter who you are, since you helped Dong Huang avoid the damage of the Yun clan totem, I'll thank you to the greatest extent," Emperor Wu said.

....

Sixth Year in Emperor Wu Dynasty.

Dong Huang and the Yun Race had a second large-scale conflict.

In this battle, the half-god of the Yun clan and the twelve totem generals of the Yun clan all fought.

Among them, three totems were killed by Shi Yu, eight totems were heavily injured by Emperor Wu, and a totem that intercepted the reinforcements at the border of Dong Huang was urgently transferred back after Yun An discovered that the three totem generals had died in battle.

Under the situation where the half-god Yun An was also chased away, it could be said that Dong Huang's side completely won.

"Your Majesty Emperor Wu, Sir Shi Yu!!"

At this moment, the Iron-eating Beast Corps at the border of Dong Huang had already met the Iron-eating Beast Corps in the Yun Nation. In the army, Ji Mengzhu and the others couldn't help but have happy expressions when they saw Emperor Wu and Shi Yu return together.

"Your Majesty, where's Yun An?"

At this moment, Emperor Wu had already recovered his appearance as a normal person. It was considered normal for him to be more than two meters tall among the body-forging Beast Tamers. He glanced at Shi Yu, who was yawning behind him, and said, "Yun An escaped."

"Return to Dong Huang first and enter a battle state."

"Soon, we'll attack the Yun Nation."

"Yes!" General Ji Yunhai immediately said.

"Your Majesty, are your injuries alright? Shi Yu, what about you? Are you injured?" Ji Mengzhu came over and asked about Emperor Wu and Shi Yu's injuries.

"I'm fine." Emperor Wu shook his head.

"I'm fine." Shi Yu chuckled and said, "But Emperor Wu has injuries. He's forcing himself."

Emperor Wu: "?"

Ji Mengzhu: "Ah..."

"But don't worry, I have a way to treat Emperor Wu," Shi Yu said.

Emperor Wu glanced at Shi Yu again. Did he really expect Yun An's attack to affect him that much?

At this moment, in the eyes of Emperor Wu, Shi Yu was very much like a medicine seller in the martial world. He even said that he was sick even if he wasn't sick.

Although he also felt that Yun An's attack was indeed not that simple...

It was even very likely that they were exposed this time because of the remnant power of Yun An on their bodies.

"Then, I'll leave it to you," Ji Mengzhu said.
