Chapter 1111: Demigod Cat Mother Gem Cat (1)

After returning to the original space and time and discovering that the laws had recovered slightly, although Shi Yu felt that it was a pity that he couldn't witness it, it wasn't a big problem.

Sensing the changes in the entire Blue Planet, he took a deep breath and realized that the meditation efficiency had increased again!

This way, he might be able to break through to level 8 in two months.

The revival of laws this time was a huge benefit to everything on the planet.

Although it still couldn't give legendary/ demigod-level experts the chance to break through to the divine level, low-level lives could basically grow faster.

"There will definitely be some changes in the association this time. I've already imagined a pile of communication records..."

Shi Yu stood on the Space and Time Island and looked at the surrounding pets. "Let's return to Dong Huang first."

"Wuu ~" "Wu!!" "Yi!!"

Under the response of the pets, Shi Yu rode Buggy and first left the chaotic magnetic field on the Space and Time Island. He received an emergency communication from President Lin through the tenth bureau's Index. Then, he arrived at the edge of the Dong Huang Sea and received a bunch of messages from Senior Lu.

Their message content was basically similar. It was to ask where Shi Yu was now and when he would return to Dong Huang. It was all about the first revival of the laws.

Soon, Shi Yu descended on Dong Huang and called Senior Lu.

"Shi Yu, you're finally here." After the call was picked up, Senior Lu's overjoyed voice came from the other side.

"It's only been a few days." Shi Yu was also helpless. "You sent a total of 11 messages and called six times."

"It's all because you disappeared and couldn't be found. It's fine usually, but after such a big thing like the revival of laws happened, you didn't even return to Dong Huang. It's very difficult not to think too much."

"For example, encountering an awakened god and being smashed or something..."

Shi Yu said, "What a joke. I'm super strong now."

He had just defeated Emperor Wu!

Although it was not the peak stage and a Emperor Wu who Shi Yu relied on the rules to win... he definitely had the strength to fight a demigod.

Senior Lu said, "Although the rules are only the revival of the initial stage, there are already many gods who have awakened because of this."

"The gods in the best state have already recovered to the totem level. In addition to their Mythical Race and quasi-divine skills, they have demigod-level battle power. Moreover, demigods like them probably have battle power comparable to demigods who are close to the strongest ladder like the Blue Sea Sprite. Their strength even exceeds Senior Dragon God and the others."

Had the Dragon God already become a combat measurement unit?

"The gods in poorer states have basically recovered to the overlord level, similar to most of the gods awakened by the World Tree on Inatella Island previously. However, because the rules are a little more perfect than at that time, they can already move in the outside world for a long time."

So is Ancient God Golden Bull awake! He still owes me a reward!

"Of course, there are also weaker ones, such as those reincarnated gods. Their upper limits are those who awaken their memories at the totem level, and those who recover their memories at the overlord, monarch, commander, and transcendent levels. The difference in strength now is different."

It was like this.

"But with their potential, it's definitely not a problem for them to recover to demigod level before the Mythical stage completely revives."

Under normal circumstances, apart from Qi, Shi Yu muttered in his heart. In the end, he asked, "It's only been a few days, but there's quite a lot going on."

"Where are you now?"

Lu Qingyi: "President Lin established Bureau 14. At the moment, I'm the director. The original intention of this department was to find those divine beasts whose memories have awakened or revived from their sleep and rope them in."

"The nature is considered a combination of the first and eleventh bureaus?"

"Now that you're back, I'll leave this director to you," Lu Qingyi said tiredly. "Those divine beasts are too difficult to deal with."

"At the moment, in Dong Huang, an Elemental-level life form revived from the Mythical Ruins. After reviving, it came out and showed its divinity before returning. It ignored me completely and didn't open the door no matter how hard I knocked... There's also a reincarnated divine beast that has awakened its memories. This divine beast has a contractor. It has already broken free of the contract. Fortunately, it's still following beside the original contractor, but it has a little too many requests. It wants to rope it in and let Dong Huang take a few Mythical resources first. It's a headache."

Shi Yu was stunned.

A few Mythical resources were too much.

"How's the strength of that reincarnated divine beast?"

Lu Qingyi said, "Although the strength of the divine beast that awakened its memories has only recovered to the monarch level, it has mastered a quasi-divine skill and has totem-like battle power. Moreover, the quasi-divine skill is very special. If they're unwilling, we can't even enter their house. By the way, its original contractor has also become its little brother. Ah, no, its little sister. Moreover, because its identity is a bad girl with two dead parents, it's not easy to communicate. Now, it's completely focused on the other party and doesn't plan to stand on Dong Huang's side at all. I'm thinking of a way to resolve this incident steadily."

Shi Yu was amused. "That's normal. A ready-made divine-level thigh. I will definitely cozy up to this."

Lu Qingyi said, "Stop joking. Hurry up and think of a way."

"Cough, but is it that difficult?"

"Yes."

"Now, Teacher Ying is also assisting me beside me. Perhaps I've annoyed her... We can't even get close to their 1km range now. We're all isolated by the other party's spider silk domain."

Shi Yu: "Can't get close?"

[Unscientific Beast Taming](#)

Chapter 1112: demigod cat mother gem cat (2)

"Even Teacher Ying can't??? I've already given it the nine-colored divine light inheritance crystal. It already has top-notch totem battle power, why can't it even enter the domain of a monarch-level reincarnation god?"

"Wu wu wu wu wu." The gem cat's cry came from the other side of the phone.

The gem cat cursed from the other side. Could it be blamed?

A cat face leaned over and said, "It's not my fault. That big spider's spider silk domain contains special laws. The nature of the laws is 'indestructible', and it has nothing to do with strength. Although its level is still low and its quasi-divine skill isn't perfect, ordinary attacks are really useless."

"They've been moving around in the city, but I don't dare to use too powerful Skills."

"Where's your Instant Transmission?" Shi Yu said.

"The domain has also sealed the spatial Skill." The gem cat.

Shi Yu said, "The proficiency is too low."

The gem cat: "! #¥#@¥."

The gem cat was angry.

"The other party's spider silk domain is indeed very difficult to break. It has nothing to do with Teacher Ying, and I'm helpless... Fortunately, they didn't do anything illegal, but they're not interested in Dong Huang's rope."

Shi Yu said, "Then forget it. Some people like freedom and don't like to be restricted. Don't force it."

Lu Qingyi said, "That's indeed the case, but President Lin only feels that it's a pity. After all, even that girl doesn't have much of a sense of belonging to Dong Huang. It would be a pity if they left Dong Huang in the end."

"Why don't I take a look?" Shi Yu said.

....

After obtaining Senior Lu's message, Shi Yu quickly arrived at the Linglan City she described. This place was backed by a continuous mountain. It was a third-level city, located in the suburbs of a second-level city. The geography was very remote.

Shi Yu directly arrived at the hotel where Senior Lu had temporarily rested and knocked on the door to enter.

The door was opened through Psychic power. At this moment, Lu Qingyi was leaning against a chair and reading with a conflicted expression. As Shi Yu entered, she put down the book and said, "Why do you look so weak again?"

Shi Yu smiled and said, "I just underwent a high-intensity battle. I've almost recovered from my Restoration."

The supplements were all backed up in advance!

Shi Yu didn't tell Senior Lu that he had used Qi's power to transmigrate to an ancient parallel space. Qi didn't want anyone other than Shi Yu to know its identity. It was mainly because Qi was afraid of being captured because its ability was always coveted. She really didn't want to cause trouble.

The less people knew about it, the better.

Now that she knew that there were universe overlords stronger than the Abyss Race in the universe, Qi wanted to keep a low profile even more.

"In short, you're finally here." Lu Qingyi stretched and said, "The director of Bureau 14 is yours. I'm off work. How do you plan to deal with that spider?"

Shi Yu said, "Let's go take a look later."

"Eh, what's Teacher Ying doing? Why didn't it welcome me?" Shi Yu looked at the gem cat in meditation.

Why was it suddenly so hardworking? Shi Yu looked at the dozen or so gem cat clones lying on the bed meditating with a strange expression.

"The revival of laws. Many countries have life forms that have awakened their divine power. Teacher Ying also wants to work hard and see if she's the reincarnation of a god," Lu Qingyi said with a smile.

"I feel that it's really possible. After all, Teacher Ying's talent is very strong, and her bloodline is very special. She doesn't look like an ordinary gem cat."

Shi Yu was speechless.

It looked like it was working hard, but it turned out that it still wanted to take a shortcut to become stronger.

Impossible.

If it was the reincarnation of a god, Shi Yu could tell at a glance through the Mythical Revival teaching in the Skill Index.

For example, Qi. Because it was the reincarnation of a Time Sprite, even if all other skills couldn't be taught, the Mythical Revival directly showed that it could be taught.

Teacher Ying couldn't teach Mythical Revival, and it was only an intermediate Resistance. No matter how one looked at it, it didn't look like the reincarnation of a big boss...

"Teacher Ying, all the best. You might really succeed," Shi Yu said kindly. Although it was impossible to awaken, it wasn't bad to be able to cultivate hard!

This was also worthy of that inheritance gem.

The gem cat opened its eyes and said, "Really?"

"Really," Shi Yu said.

The gem cat: "I feel that you're lying to me."

Shi Yu : "..."

"Speaking of which, is Ancient God Golden Bull awake?" Shi Yu asked.

The gem cat: "Stop talking. The gods on Inatella Island are still sleeping. There's no movement at all."

"It's been watching with my clone for more than half a year..." The gem cat's main body had a pained expression.

The clones in meditation also revealed pained expressions. Although it wasn't them and they had never seen that clone, they were both in the same boat. There was no need for them to know pain.

Shi Yu scratched his cheek and said, "Teacher Ying, you've worked hard. This is for you."

Shi Yu took out a special Reincarnation Fruit from the ruins space and threw it to the gem cat.

The gem cat was stunned and caught the Reincarnation Fruit with its Psychic power.

This...

Wasn't this the Reincarnation Fruit that had awakened the power of the Abyss Demon Duck!!

It had wanted it previously, but Shi Yu had always rejected it with the excuse that its Resistance was too low. If it really had a previous life and was very strong, he was afraid that it would go berserk.

Was Shi Yu finally willing to give it to him?

"Alright!" The gem cat looked happy and said, "I'll watch Inatella seriously. You guys..."

It looked at the pile of clones and said, "You guys go patrol Inatella too. Report any commotion."

The gem cat clones: ???

Lu Qingyi: ...

Shi Yu said, "There's no need..."

The gem cat said, "Then I'll eat?"

Unscientific Beast Taming

Chapter 1113: demigod cat mother gem cat (3)

"If I can't even do it after I eat this, I'll give up." The gem cat's expression was serious.

Shi Yu said, "Eat, eat. No, let's eat in the Blue Sea Ruins."

Although the gem cat now had a medium-level Resistance, after being strengthened by its own nine-colored divine light, it was no problem for it to be comparable to a high-level Resistance, which was the overlord's Resistance. In addition, Shi Yu was different from the past now. Nothing could happen.

Lu Qingyi said, "What's this?"

Shi Yu said, "The resource my duck eats, the Reincarnation Fruit, is a resource that assists in activating the power of its previous life. If Teacher Ying really has a previous life and is the reincarnation of a god, it can be effective. If not, it's useless."

"Senior Lu, let's take a look."

...

A moment later, Shi Yu and the others entered the Blue Sea Ruins together.

The gem cat ate the Reincarnation Fruit excitedly.

Lu Qingyi stood beside Shi Yu and asked, "What do you think the chances of Teacher Ying having a previous life are?"

Shi Yu said, "I feel... 10%?"

Shi Yu's judgment of whether transcendent creatures had the foundation of their previous lives was through the level of Resistance and Mythical Revival. For example, Duckie and Susu were the reincarnation of demigods, so they had the Resistance of overlords at the transcendent level.

As for Teacher Ying, it was already at the totem level, and its Resistance level was still medium. It didn't look like the reincarnation of a big boss no matter how one looked at it. In addition, it couldn't learn Mythical Revival. The 10% chance was because of its talent potential.

Shi Yu didn't dare to say the chances were too low. After all, sometimes, the divine-level reincarnation of the sprite was only a precedent for the lowest Resistance...

What if?

"The taste is very strange," the gem cat said after eating it in two bites.

"Yes, it's a little spicy," Shi Yu said.

The gem cat said, "It's still acceptable, but it's slightly spicy!"

With that said, it was suddenly stunned. A huge power spread from the gem cat's body. Seeing this, Shi Yu and Lu Qingyi were also stunned. In the next moment, the gem cat's expression became even more serious. Then, nine-colored light slowly lingered on its body.

It was like the light of evolution.

"No way." Shi Yu said in shock, "It really works?"

Damn, there was really a previous life?!

At this moment, although the fragment-like power memories and identity memories were already blurry, the gem cat still recalled something.

At the same time, the power hidden in the deepest part of the bloodline appeared, causing the gem cat's life form to undergo a huge change.

Under the lingering light of evolution, the gem cat's figure was quickly outlined in the light, gradually forming a graceful figure. This humanoid figure grew cat ears and a long cat tail, directly stunning Shi Yu and Lu Qingyi.

Cat, cat girl?

However, before they could see clearly what the gem cat teacher would become after activating the power of its previous life, this power quickly disappeared. The gem cat returned to its original form and opened its beautiful blue gem eyes.

They were moved.

It wanted more Reincarnation Fruits!

It... actually had a previous life.

Moreover, it was a demigod!

Although it wasn't a god, it was also the king of totems who had mastered an empire.

The experience was also very legendary. As an ordinary transcendent creature, it was knocked out by the meteor gem that descended from the sky. When it woke up, its eyes mutated and it broke through to the totem level. It could be said to be a true daughter of luck.

Long before the establishment of the human ancient countries like Dong Huang and Ming Hua, it had established a super empire that dominated an area and was known as the Goddess of Day.

However... the final form he cultivated in his previous life was actually in a humanoid form like the Dragon God?? And it was a cat girl? The reason was that this humanoid form was easier to control the power of the Meteor Gem?!

Unscientific Beast Taming

Chapter 1114: The Age of Adults Has Changed

It was extremely quiet in the blue Blue Sea Ruins.

Shi Yu, Lu Qingyi, and the gem cat stared at each other.

After a long time, Shi Yu and Lu Qingyi accepted this fact.

"This lazing cat was actually a demigod in its previous life!" Shi Yu couldn't accept it.

It really succeeded in the bet?

Could this guy really go from an overlord to a demigod...

Shi Yu's eyes were filled with tears as he felt pity for the other demigods.

Also, no wonder its Resistance was so low. It turned out that it had won without doing anything in its previous life!

In this world, there were always a few people who were so lucky that they couldn't help but accept reality.

"Besides."

The gem cat looked elegantly at the surrounding sea and said, "I'm not an ordinary demigod."

It felt that in its previous life, it had not completely unearthed the power of that meteor gem.

In his previous life, it tried to transform into a cat girl to unearth more gem power.

Even the "gem cat" race was created by it to study the relationship between various gems and eyes.

In fact, even reincarnation was to unearth the power of the gem.

It could be said that it was the gem cat god.

Continuous research made the cat understand that the gem from the starry sky of the universe definitely had many secrets.

However, restricted by the laws of the world, it couldn't be completely developed.

When the Mythical stage completely revived, it might be able to activate the complete power of the meteor gem that had fused into its body, even if its power still followed after reincarnation.

At that time, not only would it be a demigod, but they might even have hope of reaching the divine level.

"Wu wu wu wu wu... I made it through."

The gem cat wiped its tears.

"Gem Cat God..." Lu Qingyi shook her head hard.

In the past, this was also an extremely extraordinary archeological Achievement.

Because the gem cat looked like an Earth ragdoll cat, it had a beautiful, cute, and elegant appearance, as well as the price of being close to the people, it was also a popular animal in the seven countries on Blue Planet.

Although the gem cats that could be seen now were constantly optimized by their race, their origin was really unknown.

It involved the origin of a world-famous race with super popularity and was also related to a demigod. It could probably double the gem cat's net worth.

The Reincarnation Fruit was really a good thing!

However, Shi Yu definitely didn't care about archeological Achievement of this level anymore.

"Shi Yu, you saw it, right! Give me ten boxes of Reincarnation Fruits to help me cultivate first." The gem cat looked forward to it just thinking about it.

Demigod, demigod!

Looking at Shi Yu's respect for the Dragon God and the importance Dong Huang attached to Dragon Palace City, the gem cat could understand that after becoming a demigod, it would directly take off on the spot.

"It's very tiring to create the Reincarnation Fruit." The corners of Shi Yu's mouth twitched. "Use the divine light to assist Baby Ginseng in creating it."

The gem cat fell into deep thought and nodded. No problem! This was easy!

"I'll get a hundred clones to assist Baby Ginseng!" it said generously.

Shi Yu said, "...You'll scare Baby Ginseng."

"Does Teacher Ying have any hope of becoming a demigod in the short term?" Lu Qingyi said. "At the moment, the Blue Planet Alliance in its prototype state is still mainly the Seven Nation Alliance. Among the seven countries, Shen Feng already has three Legendary demigods. If Teacher Ying can also become a demigod, Dong Huang might have a higher right to speak."

The gem cat looked smug. "Although I don't really want to be involved in this kind of thing, I have no choice... I'll become a demigod as soon as possible. Speaking of which, Qingyi, help me apply for some resources in the association to help me cultivate!"

Shi Yu smiled and said, "Teacher Cat, don't worry. There's no need to feel too much pressure. It's fine even if you can't reach it. There's still me. I've cultivated bitterly for half a year. Now, I can almost fight a demigod evenly. Dong Huang won't lose out."

The gem cat and Lu Qingyi: ????

"What kind of expression is that? According to the recovery progress of this law, demigods are probably going to be common. They're not worth mentioning, not worth mentioning..."

Pa.

The gem cat was immediately unhappy. Its face fell. No, demigods weren't enough. It wanted to become a god!

...

Linglan City.

In a certain luxurious mountain villa, a golden-haired girl in a baseball jacket and white shirt and a dark green short skirt was meditating with a serious expression.

Beside her was a 1.5-meter-tall humanoid white-haired spider girl in a wide white spider-patterned bathrobe.

"I'm level three." A moment later, the blonde girl opened her eyes excitedly.

"So slow." The spider girl beside her shook her head and said, "When you reach the level where you can contract a monarch-level creature, we'll leave here."

"Do we really have to leave Dong Huang?" The golden-haired girl looked hesitant and said, "This place is relatively safe. I heard that it's very dangerous abroad."

She looked at the spider lady in front of her. Who would have thought that a few days ago, the other party was still an Awakening-level white spider she had contracted?

In just one night, the other party broke free of the contract, and its strength became difficult to understand. It was even so resourceful that it could transform into a human form that was more suitable for this society!

"That's only now," the white spider girl said. "When it comes to dangerous times, the more lives there are in such a place, the more dangerous it is. The lives of this faction are too weak. There's no need to follow them."

"The titled expert you mentioned previously is only at that level."

"If you're conflicted, I won't take you away," the white spider girl said impatiently. If it weren't for the fact that the other party had saved its reincarnation and even contracted it to accompany it for so long, it wouldn't have bothered with this little girl.

"No, I'll listen to you," the blonde girl hurriedly said. She was still very convinced by the spider girl.

[Unscientific Beast Taming](#)

Chapter 1115: The Age of Adults Has Changed (2)

After all, Lu Qingyi, one of the ten titled legends of Dong Huang, was helpless against the other party.

Before this, the blonde girl was only a level-one Beast Tamer intern, the kind who purely raised pets as pets. Although she didn't know much about the Beast Taming Domain, she understood Dr. Lu's value.

Seeing that Lu Qingyi, who often appeared on the Internet and the news, had suffered and been rejected by the little spider she had contracted, she definitely trusted the white spider girl now and thought that it was the most powerful. After all... this was the reincarnation of a god.

Even the previous emperors of Dong Huang and the first president of Divine Source, who established the modern Dong Huang, had yet to reach the divine level.

In short, it was enough to believe in the little spider. Now, as an orphan, not only did she level up two levels in a short few days with the other party's help, but she also ate delicacies and lived in a villa. What else was there to ask for?

"Someone else is here. They're really haunting me." At this moment, the spider girl who was supervising the blonde girl's cultivation sensed the situation outside through the spider domain.

"Someone else? That Dr. Lu?" the blonde girl said.

"No, it seems to be a male this time," the spider girl said.

"Let me see the surveillance video." The blonde girl took out her cell phone and pulled up the surveillance video. Then, on the mountain road, she saw a short-haired young man in a white short-sleeved shirt and black pants walking over with his head lowered, playing with his cell phone.

The surveillance camera was quite clear. After she saw this figure, she stared at the other party's face carefully and kept feeling that it was a little familiar.

"Do you know him?" the spider girl said. "Forget it, ignore him. They can't enter anyway."

Its spider silk was indestructible.

< Name > Divine Silk

[Level]: Quasi God-level

< Introduction > It can condense spider silk that contains the indestructible law and has endless nature changes. The spider silk can't be destroyed by any form of power.

The Spider Lady was very confident in her Skill.

But soon, its expression suddenly changed, revealing an incredulous expression.

Its change also stunned the blonde girl beside it. "What's wrong?"

At the same time.

Shi Yu stopped and looked at the place where the reincarnation god was. He could clearly see that a huge semicircular spider silk domain wrapped the entire villa area in front of him.

The white spider silk was incomparably thin, interweaving into a cage.

"There are so many. Looks like the other party's quasi-divine skill is of the equipment resource type. It can be condensed and stored in advance. Not bad, I can get some to make clothes. It looks much better than Buggy's worm silk."

"Eleven." Shi Yu chuckled. Little Eleven crawled out of his pocket and gradually enlarged to more than a meter.

Pa.

Little Eleven's lightning Palm formed a hand blade that could even cut through heavenly lightning. It directly hit the spider silk, but in the next moment, with a sizzling sound, Little Eleven's palm was blocked outside the spider silk.

"Wuu?" Little Eleven was shocked. As Teacher Cat had said, it was so hard.

Shi Yu said, "There's also the connection barrier. From the looks of it, it can't shrink and enter either... Buggy's spatial level is inferior to Teacher Cat, and it can't teleport. It's indeed very difficult to deal with."

In fact, the current spider silk was still alright. After all, it was only at the quasi-divine skill stage. There was still a chance to break it with brute force.

When it really reached the divine skill stage, this skill that contained true laws was the most troublesome.

At that time, this kind of spider silk might really be indestructible.

If they couldn't find the right cracking method, even higher-level life forms might be helpless against the law divine skills of life forms with weak battle power.

Qi's spatial travel meant that as long as Qi could sense the danger, no one could catch it.

The battles of laws were mostly skill battles. They often needed to crack some special laws.

However, in most cases, Shi Yu was actually invincible.

Because Eleven's Yin Yang Millstone contained destructive laws that could obliterate everything, including laws. Therefore, as long as Eleven's divine skill proficiency level could keep up, most law divine skills could directly be obliterated by its law nature with the Millstone.

"Just give the other party a greeting gift. Don't wait for the other party to open the door."

"Eleven, Yin Yang Millstone."

"Wuu!!"

Little Eleven directly stretched out its palm, and a Yin Yang Millstone the size of a teacup condensed in front of its palm.

It didn't throw it out. It held it like this. As the millstone spun, dazzling lightning light began to obliterate everything.

< Name > Yin Yang Millstone

[Level]: Quasi God Level (Proficient)

After the battle with Emperor Wu and eating the World Tree Fruit as a fruit for half a year, Eleven's Yin Yang Millstone finally increased its proficiency by one point without adding any points.

It was even more proficient in controlling this Skill now. At this moment, just holding it in its hand, the strong destructive wave instantly obliterated the special laws on the surrounding spider silk domain.

Buzz!!!

The sound of the obliteration of the power of laws, accompanied by the huge spider silk domain that surrounded the entire villa, disintegrated into countless snow-white spider silk that flowed into the surrounding spatial cracks. In the villa, the spider girl's expression was shocked to the extreme.

"How can it have a top-notch law?" In its understanding, those who had such laws should be top-notch gods who had already left Blue Planet.

How could it appear on a pet contracted by a human?

BOOM!

The strong law suppression made the spider girl sweat profusely, soaking her white bathrobe.

[Unscientific Beast Taming](#)

Chapter 1116: The Age of Adults Has Changed (3)

"Who's the human who came?" it asked again.

At this moment, sensing the vibration of the entire mountain, the golden-haired girl also knew that something was wrong. Unfortunately, she didn't pay attention to the Beast Taming Domain previously. Lu Qingyi was the same, and so was Shi Yu. She didn't know them too well. She said uncertainly,

"Perhaps it's a legendary Beast Tamer with a title like Dr. Lu Qingyi. The world legend, Shi Yu, seems to be known as the strongest in the younger generation," the golden-haired girl said.

As they communicated, Shi Yu and Eleven had already cracked the spider silk domain that made things difficult for the gem cat and Lu Qingyi. With the help of Buggy's teleportation, they teleported in front of the two of them.

Buzz.

Shi Yu and Eleven appeared. Shi Yu smiled and made a handsome gesture to greet them.

"Yo, hello, are you interested in talking?"

"Has it changed?" The spider girl had a serious expression. It realized that it was wrong, very wrong. Although they were both titled legends, this Shi Yu was clearly much more terrifying than the girl and cat from before.

"How do you have such power?"

Although that cat's growth level was very high, it gave it the feeling that it was stupid.

However, although this bear looked harmless, the power just now directly made it feel the bloodline suppression.

"Lord Divine Spirit, times have changed. This is an era of win-win cooperation. Dong Huang might not be able to withstand your previous request, but there should be other ways to cooperate." Shi Yu smiled and said, "My name is Shi Yu. Come and talk."

Eleven nodded. For example, if you were a tailor, Dong Huang would pay you!

"You can't even bear to give me divine-level resources. Why should I believe your sincerity?" the spider girl said.

Shi Yu was stunned. "That's not true."

Shi Yu said, "Do you know gods like the Boar God, Xuan Ming, Lie Shanjun, Demon King Dragon, Holy Divine Deer, and Ancient God Golden Bull?"

"When I went to communicate with them, they were the ones who gave me divine-level resources."

Spider Lady: "?"

"Impossible." There were more Western gods among these gods. The spider girl had never heard of all of them, but what was the use of gods giving you divine-level resources?

"The reason is very simple."

"Looks like your status in the divine level isn't high. You know even less than a human like me, and you haven't understood the current situation on Blue Planet."

Spider Lady: "?"

Shi Yu shook his head and communicated telepathically with the spider girl.

In the next moment, through the mental scene, the spider girl saw the scene of gods giving Shi Yu divine-level resources and the scene of the planet's Resistance transforming into the World Tree to give Shi Yu blessings.

This was a mental connection.

It could sense if what the other party said was true.

"The top-notch god, Goddess Wa, brought back humans. Humans are the savior race of Blue Planet, the fate race."

"The Mythical Revival is imminent, and external enemies will invade again. Only humans can save the world. I passed the trial of the seven ancient gods and even defeated the Ancient God Golden Bull, allowing the World Tree to finally choose me. This is the will of the mother planet."

"You can go to the World Tree to verify it later."

"Therefore, cooperation is a win-win situation. We need your help now." Shi Yu smiled. "Don't tell me you want to go against the planet's Resistance? You don't want to be rejected by Blue Planet, right?"

Plop.

The spider girl's heart raced as she looked at the human in front of her in shock. She didn't expect the other party's background to be so big.

It was really as the other party said... Humans were actually the savior race brought back by Goddess Wa after leaving Blue Planet?

And this young man from Dong Huang in front of him was actually the savior chosen by the planet's Resistance in this savior race?

For a moment, the spider girl really found it difficult to believe. It was indeed as Shi Yu had said. Among the junior gods who survived, it was relatively transparent.

These secrets were very impactful to it.

It didn't take long for Shi Yu to leave. Apart from a few words, he was talking to the spider lady telepathically the whole time. Beside him, the golden-haired girl was blurry the whole time and didn't dare to move. She saw the spider lady sweating profusely beside her, her expression constantly changing.

"Did you say anything?" The blonde girl couldn't help but say when she saw the spider girl like this.

The spider girl was silent. After a long silence, she said, "We're not leaving. We'll stay in Dong Huang."

After all, it looked like it was arranged by the Blue Planet's Will. It... had to obey. It didn't want to be rejected by the Blue Planet's Will.

....

On the other side, after confirming that his Poof God template was pretty useful, Shi Yu prepared a copy for Senior Lu so that she could follow the lines of the Poof God in the future.

In these words, humans were a racial savior chosen by a top-notch god. There was nothing wrong with that. Almost no human faction knew about this information. At the moment, Dong Huang had the absolute advantage.

He had passed the trial of the Ancient God and obtained recognition, obtaining the blessings of the World Tree. There was nothing wrong with that. The whole world knew.

The only problem was that at this moment, the World Tree probably had yet to entrust the fate of Blue Planet to him. It didn't treat him as a savior and only nurtured him as a genius with potential.

However, it wasn't a big problem. It had the heart to be the savior of Blue Planet. It wasn't like the World Tree would despise him suddenly... It definitely couldn't wait for everyone to be the savior! Shi Yu only overdrawn his identity in advance.

As long as he convinced himself that he was thick-skinned enough and connected all of this together, he would have the absolute orthodox identity of the Blue Planet's Crown Prince. It was basically not a problem to trick most wild gods into joining...

Chapter 1117: The Age of Adults Has Changed (4)

Shi Yu returned to the hotel room. Seeing Shi Yu return so quickly, Lu Qingyi and the gem cat were stunned.

"It's over?"

"It's over. Is it very difficult?" Shi Yu said. "Perhaps I'm more handsome. That little girl and the spider girl were stunned."

Lu Qingyi and the gem cat: ???

"I'm just kidding." Shi Yu chuckled and said, "I've concluded a set of PY templates. Senior, you guys communicate according to this later. Later, you guys can talk to that spider girl and persuade it. Its ability is quite suitable to be a tailor."

"Tailor?"

"That's right." The gem cat nodded. It could tell too.

"No, no, what template? And you? Didn't you say that you would be the director of Bureau 14?" Lu Qingyi said.

Shi Yu said, "I'll come again if you can't solve it. It's basically enough with you and Teacher Ying. I still want to continue cultivating. Now that the laws have revived and with the blessings of the World Tree, I feel that... I'm not far from the level-eight Beast Taming Space."

Lu Qingyi was stunned. "So fast."

"Well, I should be able to break through to the Legendary level in two years like Lin Feng Legendary, or faster than him," Shi Yu said.

This directly made Lu Qingyi and the gem cat silent and feel a little stuffy.

Legendary below the age of 25... was a little too much.

"Speaking of which, because of the revival of the laws, many people broke through. White Brook and Xiu Zhu broke through to level six. Ji Feng even broke through to legend," Lu Qingyi said.

"By the way, I also placed the Talent Control Bead with White Brook and the others."

Shi Yu said, "I happen to have something to do with them. I obtained a batch of iron-eating beast evolution materials here. After looking for them, I'll go into seclusion again."

"I'll tell you the template first..."

"Huh...?"

....

If he wanted to pull people in, he had to show his background. This was the most convincing thing. Without the big skin of the World Tree and the Blue Planet's Will, it was too difficult to pull gods in.

To put it bluntly, just the Dragon God, Divine Source Legendary, and the others weren't qualified enough to slot. They couldn't obtain the recognition of the gods. Just describing Dong Huang's potential wasn't convincing enough.

80% truth and 20% lies could maximize Dong Huang's advantage. It was relatively easy to rope in a weak god like the Spider God.

After Shi Yu finished teaching Senior Lu, who had lost her way on the path of life, he headed to Wu Ling City.

Compared to Wu Ling City in Emperor Wu Space-time, the modern Wu Ling City was much more familiar to Shi Yu.

In the endless blue sky, Shi Yu lay on the ship Lady Ling in the sky. He held his cell phone and dialed Senior Lin's number. He greeted her in advance before going over.

"Shi Yu??" On the other side of the phone, Senior looked surprised. She didn't expect Shi Yu, who had been missing for so long, to still know to contact her.

"Senior, I heard you broke through to level six. Congratulations," Shi Yu said with a smile.

Lin Xiuzhu said, "Hmph, it's all thanks to Master (Ji Mengzhu) teaching me well."

"I'm going to Wu Ling City now. I brought gifts for you and Senior White Brook. Wait for me."

"What gift?" Lin Xiuzhu said.

"Hundreds of Iron-eating Beast first-stage evolution materials, thousands of Iron-eating Beast inscription evolution materials."

"There are all nine evolution inscription materials for the Iron-eating Beast."

"Among them, there are thousands of meteorite fragments. We should be able to arm the Iron-eating Beast Corps."

"You can evolve to your heart's content."

Bang.

On the other side of the phone, Senior almost threw her cell phone away, her face turning pale.

There were thousands of meteorite fragments?

You, you, you, you went to poke Yun An's nest?

However, Senior trusted Shi Yu unconditionally and didn't think that he was kidding.

Otherwise, with this mood fluctuating, she could beat Shi Yu to death.

Senior was immediately excited. Which ruin did Shi Yu obtain such a large amount of resources from? She had never heard Master Ji Mengzhu mention it.

...With these resources, wouldn't the Iron-eating Beast Corps be invincible?

It was indeed as Shi Yu had said. Their Iron-eating Beast could also become more perfect and stronger.

Coincidentally, she and White Brook had broken through to level six and had already made an appointment with Master Qu Jie for the advancement assessment of a top-notch master. They weren't confident yet, but if the Iron-eating Beast could evolve a few times, it would definitely be stable!!

Unscientific Beast Taming

Chapter 1118: Dragon Palace Searching for the Black Tortoise

Wu Ling City.

Shi Yu brought a pile of evolution materials over.

Ji Mengzhu, Lin Xiuzhu, White Brook, and the others were waiting for Shi Yu early.

As Shi Yu really poured a pile of evolution materials into the Iron-eating Beast Trial ruins, everyone's expressions were stunned.

"You, where did you get this?"

Ji Mengzhu was shocked. Even during the era of Emperor Wu Dynasty, such a large number of evolution materials couldn't be easily taken out.

"I cracked a ruin along the way. That's not important." Shi Yu looked at Aunt Ji Mengzhu and smiled.

He took it from her family and his uncle Emperor Wu.

As for the meteorite fragment, it naturally formed Yun An. However, it was an ancient dungeon ruin...

The entire parallel space was a training ruin in Shi Yu's eyes.

"Yes, Teacher, it's not important!" Senior Panda's eyes flickered at the side. She directly sat on the ground and picked up and observed these evolution stones one by one. She was like a little money-grubber.

With this, she could confirm that the Iron-eating Beast would completely become Dong Huang's number one pet!

Its status would correspond to those quasi overlord races that far exceeded other countries, national treasures that could reproduce steadily.

"Wu wu wu, my Iron-eating Beast can finally evolve." The beast-eared girl was extremely touched. The Iron-eating Beast was good in everything, but the inscription evolution materials were too lacking!

Seeing these evolution materials, she immediately didn't regret joining the Iron-eating Beast Corps. She wanted to contribute, she wanted to change the materials!

"By the way, Shi Yu, I have good news for you." Lin Xiuzhu, who was holding a rock, looked at Shi Yu.

"What?"

"After the revival of the laws, the probability of reproduction of most high-level pets of high-level races has increased. The experimental data on the iron-eating beasts are also extremely obvious. Before long, ordinary Beast Tamers can also contract iron-eating beasts." Lin Xiuzhu smiled.

This was today's latest research report in Dong Huang.

"This rule might also be applicable to humans. You can cultivate in peace now. You don't have to worry about having a child in the future."

"Ah, this." Shi Yu immediately smiled in embarrassment. It wasn't a big problem.

Even without the revival of laws, he could still become an ordinary person through physical control and the Time Fruit. In short, it was impossible for there to be a situation where Emperor Wu cultivated like crazy until the end and couldn't even give birth to a child. Cough, cough.

Brother Emperor Wu, miserable! When Shi Yu thought of this, he immediately didn't blame Emperor Wu for hitting him.

He didn't know if the few divine medicines he had left behind could help him...

If Emperor Wu of the parallel universe could give birth to a descendant with a top-notch Fusion Talent and nurture him with all his might, he could also carry the banner 20 years later.

Perhaps there would be a new Legendary between Emperor Wu and the empress.

"Bring me to see the current situation of the various armies. Let's have a meal together later. I have other things to do tomorrow, so I won't stay long," Shi Yu said.

"Busy person." The three of them were immediately speechless.

Shi Yu expressed that he still had to prepare for battle!

Break through to level eight and farm the Yun An in this world!

He had to do it as soon as possible. With the revival of the laws, Yun An's strength could probably improve again.

Yun An in this spacetime was already stronger than ancient spacetime. After the revival of the laws, it was undoubtedly stronger.

If Yun An was given more time to develop, Shi Yu was worried about another problem.

The ancient Yun An only used Blue Planet as a growth place. It planned to become stronger and become an extreme demigod. After absorbing the resources of Blue Planet, it would return to the starry sky.

Yun An in this space and time was undoubtedly closer to the extreme demigod. If it saw that so many gods had revived on the "low-level planet Blue Planet" one day and took things too hard, it wouldn't want to develop here anymore. Wouldn't Shi Yu suffer a huge loss if it directly ran out of Blue Planet?

At that time, it would be all for nothing.

Therefore, Shi Yu thought for a moment. He really couldn't wait for the World Tree to awaken. It was better to rely on himself than on others.

He cultivated again and called Old Master Divine Source and Sister Dragon God. With the latter two added together, the suppression power would definitely be stronger than Emperor Wu. It wasn't a big problem.

Next, Shi Yu, Senior and the others reminisced for a long time. They looked at the current development of the Iron-eating Beast Army, the Green Silkworm Army, the Mechanical Beast Army, and the Phoenix Army.

Among them, the Phoenix Army was built later. The Beast Tamers were all mixed-blood female soldiers with the Phoenix bloodline.

The current manager was Senior Lu's mother, Mrs. Lu.

The members were all carefully selected geniuses from various places. Shi Yu's batch of Beast Tamers, Zhang Qianyi, was also taking a leave of absence from school to join the army.

The four armies were developing pretty well. After Shi Yu arrived to inspect them, he thought that he had money and capital now, so he casually mentioned a plan to let the Green Silkworm Army develop into spatial and dragon types.

This way, the Iron-eating Beast Army corresponded to the strongest army of Emperor Wu Dynasty, the Phoenix Army corresponded to the strongest army of the empress dynasty, the Green Silkworm Army corresponded to the strongest army of the Dragon Emperor and the Space Emperor Dynasty, and the mechanical phantom beast army corresponded to the strongest army of the modern era. It was directly perfect.

This was what an army established by an archeologist should look like...

Forget about Emperor Shi's army. In Emperor Shi's army, Beast Tamers and pets were not special. They relied on the equipment and resources produced by Emperor Shi's time-element pets. The powerful one was Emperor Shi, and it had little to do with the army itself.

Baby Ginseng still had to take care of the first and second teams, Shi Yu, and the gem cat. It really didn't have time to take the time to lead another time-element army.

However, Shi Yu felt that he could poach the time-element totem of the Prediction Owl from Imperial Capital University and let it be a dog-headed military advisor to his four armies.

He was already at the totem level and had the ability to develop other time-element Skills on his own. Although it was a little unreliable in the past, his level was high now, after all. Bringing an army shouldn't cause him to be wiped out, right?

Unscientific Beast Taming

Chapter 1119: Dragon Palace Searching for Black Tortoise (2)

In a day, Shi Yu visited the in-charge of the four armies consecutively. After everyone gathered for a meal at night, Shi Yu left Wu Ling City under the cover of night.

He wanted to do the last thing before returning to Ping Cheng to cultivate.

He would go to Dragon Palace City and subdue a turtle and snake.

Today, he had already left the development EXP of the top-notch Fusion Talent to Senior White Brook and also left some resources. Coupled with the Talent Bead, she could already try to develop the talent.

As for Shi Yu, he still had to use the other secret skill he had obtained from Emperor Wu, the "Turtle Snake Black Tortoise Fusion Technique", to its effect.

At the moment, there were still four empty seats in the second team's contract slot. He planned to catch two pets to raise first.

The feedback from the growth of pets... It would be a waste not to.

Turtle, snake, turtle, snake... This kind of thing was definitely the most common in Dragon Palace City.

After contracting the turtle snake, there were still two slots left.

Shi Yu planned to find another little cat to evolve into a white tiger.

He had already gotten Teacher Cat to help pay attention. This guy knew many felines. Perhaps there were suitable ones.

As for Vermillion Bird, let's see if Chi Tong could cosplay through its clone.

At that time, the four holy beasts would be complete.

There was also the Horned Demon Divine Stone. This time, as the laws revived, its life aura became more active. It was just that he didn't know when it could be unsealed.

....

As Shi Yu flew to Dragon Palace City, his communication device rang. Shi Yu arrived at the deck of the mechanical spaceship and picked up the call side by side with Yun Hai.

It was President Lin.

"You're back? Where are you now?" On the other side of the phone, President Lin's tone was very experienced.

"I'm back. I'm in the sky..."

President Lin: "?"

"I'm flying in the sky and about to go home."

President Lin: ...

When Shi Yu returned, he also replied to President Lin, but the other party didn't immediately reply. He should be busy with something.

Now that he was calling, he should be done.

"I also saw the system report from Lu Qingyi and Ji Mengzhu. It's been hard on you for the past half a year," President Lin sighed.

He was originally very worried about Shi Yu running out to wander for so long. However, when President Lin learned that Shi Yu had just returned and turned the gem cat into a demigod potential and strengthened the Iron-eating Beast Corps at the epic level, all the negative emotions immediately disappeared!

Young people should go out and explore more. Only then could they gain more.

"I didn't expect you to actually find so many iron-eating beast evolution materials in foreign ruins," President Lin said. "Just looking at the amount of materials and not looking at the origin, I almost thought you went to farm Yun An alone."

"No, no," Shi Yu said with a smile.

It was a Party up.

"Recently, the various facilities of the Blue Planet Alliance have basically been perfected. I'm more busy here. Please help take care of Lu Qingyi's mission. There's actually one more thing. I wonder if you're interested."

"What is it?" Shi Yu asked.

He knew that President Lin would take the time to call him out of his busy schedule. He definitely had Quests again.

"In order to compete for the right to speak in some matters, the Seven Nation Alliance plans to hold an Alliance Meeting to decide certain plans with battle. The seven countries will each send a Titled Beast Tamer below level nine, which is below the legendary level, to represent them in the battle."

"You mean you want me to participate?" Shi Yu said.

"That's indeed what I mean. In a month, the conference will be held. Now that the rules have revived, the titled experts of the various countries are even stronger. Those who can fight are basically the number two's of that country. Dong Huang's titled experts are only stronger than other countries in terms of numbers and strength. Although there are Beast Tamers like the Tyrannical Sea Legend who can fight against top-notch totems, the difference isn't especially obvious."

"Moreover, the rules of this meeting are 1VS1. The army tactics of many experts are restricted."

"After thinking about it, you're the most suitable to participate. In terms of individual pet cultivation speed, among the titled experts in the country, if you say you're first, no one dares to say they're second. Moreover, after half a year of training, your strength must be stronger, right?" President Lin smiled like a sly old fox.

He was right. Although the legend of the Tyrannical Sea was strong, it was only strong in army tactics.

In his Mutated Leviathan's Infinite Devour Space, it raised an ocean army all year round as the backup power of the Mutated Leviathan.

With the support of this ocean army, the battle power of the Mutated Leviathan could easily suppress ordinary Normal totems. It was the same principle as the Iron-eating Beast Army defending against totem-level attacks at that time.

If it was the 1VS1 rule, the battle power of someone like the legend of the Tyrannical Sea would directly decrease.

Shi Yu could actually do this kind of army battle too. For example, the birth of life in Little Zi's body was actually Shi Yu nurturing his faith army.

"Alright, I feel that in a few days, I can represent Dong Huang," Shi Yu said.

President Lin was even happier. "Then I'll leave it to you. By the way, you have to prepare for battle seriously."

"The competition in this meeting will be very intense."

"The first time the laws revived, many reincarnated gods awakened their memories. Many gods woke up from their sleep. According to what I know, the trump card of a titled expert in Rongguang is the reincarnation of the angel god. Now, they have already recovered their memories."

"In other words, if both parties don't break the contract, this titled expert will have the battle power of a 'Mythical Race, overlord level'. Your solo advantage doesn't mean that you can still rely on quasi-divine skills and faith skills to kill everyone like in the World Tournament."

[Unscientific Beast Taming](#)

Chapter 1120: Dragon Palace Searching for Black Tortoise (3)

"What you have, the opponent will also have..."

"If this situation also happens in other countries and they reach a cooperation with a certain god to contract on an equal or unequal basis, it will make this Alliance Meeting even more complicated."

"This is also one of the reasons why I'm looking for you. It's still a little difficult for the other titled legends of Dong Huang to fight an opponent with quasi-divine skills, but you're different. You have the battle record of defeating Ancient God Golden Bull. Ancient God Golden Bull should be considered one of the best among the divine-level creatures at that time, right?"

Shi Yu was stunned before saying, "I understand. The opponent this time might have a contracted target of a Mythical Race, right?"

"Yes." President Lin sighed and said, "Rongguang is really lucky."

Shi Yu also sighed. He didn't expect that his quasi-divine skill advantage had only been maintained for more than half a year before the version was updated.

This way, the pressure was indeed a little high. After all, he still didn't know the situation of the opponent. If the opponent was an opponent with simple and crude elemental laws like Ancient God Golden Bull, Shi Yu didn't mind.

He was afraid that opponents with strange rules that involved various special phenomena would be beaten up for their information.

"But during this period of time, it's better to focus on meditation. It's a little tiring to add quasi-divine skills, and the efficiency isn't high. Well... I can start teaching Little Ji Mythical Revival, add points to

Duckie, and let it awaken the Abyss quasi-divine skill. This way, maybe soon, there will be two more Mythical Races in my team."

Law battles were very good at countering each other. With two more quasi-divine skills in the team, he could be more confident. Most importantly, by giving Shi Yu more power, he could open a longer and stronger domain.

After Shi Yu hung up, he continued to fly towards Dragon Palace City while telling the pets of the first and second clueless teams about the so-called Alliance Meeting.

The pets of Team One, Buggy, Chi Tong, and the others, were immediately excited when they heard that there was a divine beast reincarnation to beat up.

"Roar!!!" In the Beast Taming Space, Buggy took the initiative to volunteer. The divine beast from the last time was beaten up by Eleven. Could it be left to it this time?

"Me, me, me." Chi Tong turned into its Sword Maiden form and begged Shi Yu cutely.

"Yi..." Baby Ginseng, on the other hand, looked old. When it thought of the subsequent pile of work, it couldn't be interested in battle at all. It only wanted to self-destruct.

As expected, work was very easy to corrode Resistance.

Shi Yu felt that the problem was very big and got Susu to cleanse Baby Ginseng...

"Don't be excited." Shi Yu smiled, but soon, Shi Yu realized that the first team was pretty good.

The second team was even more excited.

"Roar!!!"

"Quack!!!"

Upon hearing Shi Yu say that he would use his meditation rest time to add points to them during this period of time, Little Ji and Duckie were extremely excited.

Why not let them fight the divine reincarnation this time? As long as they could also awaken quasi-divine skills, they could definitely do it!!

"Be more reserved. The opponent is an angel god, an angel god!!"

Little Ji: "Roar!! (It's a birdman. Eat my Earthquake!)"

Duckie: "Quack? (?? Why would you use earthquakes on a flying opponent? Can you hit it? Leave it to me!)"

Shi Yu: ...

As expected, he should give Little Ji some intelligence. Expert level basic intelligence wasn't enough.

No, even elementary school students should be able to understand this kind of entry-level knowledge!!

He still couldn't understand how Little Ji reached expert level.

Little Ji: "Roar!! (Your abyssal power is countered by the Angel's Light, you're the one who shouldn't fight! I still have the Space Splitting Sword!)"

Duckie: "Quack!" (Fight me after the meeting!)

Shi Yu: ...

He didn't know that the earthquake couldn't hit flying objects, but he knew that the Angel Light countered the power of the abyss? There was something wrong with him!

Was this guy really stupid or pretending to be stupid?

....

Dragon Palace City.

Shi Yu had returned to Dragon Palace City in a long time. Out of convenience, he directly entered this time. No one discovered Buggy's Instant Transmission.

In Dragon Palace City, probably only the Space Dragon King and the Dragon God had higher spatial attainments than Buggy.

After arriving, Shi Yu directly found the Frost Dragon King, the Frost Demon Dragon. He didn't expect that not only did this guy not take advantage of the revival of the laws to cultivate hard, but he was also counting treasures in his Dragon Palace.

"Who..." Space ripples flashed, and the Ice Dragon King was shocked.

Then, she saw Shi Yu and the one-meter-long little green dragon flying beside him.

The corners of Ice Dragon's mouth twitched. "..."

"Little ones, why are you here? Why didn't you knock!!"

It was shocked and almost thought that someone was going to snatch the treasure.

Shi Yu, that was fine. This guy probably didn't fancy this trash anymore.

Shi Yu scratched his cheek and said, "Didn't you say last time that I didn't have to be polite and just treat this place as home?"

"For convenience's sake, I directly teleported in at once."

Ice Dragon looked at Shi Yu and Buggy in silence. Alright, alright.

That seemed to be the case.

Ice Dragon grinned and said, "So, you didn't come to Dragon Palace City for no reason. Is the big leader here to inspect the work? Let me tell you, the work of the Green Dragon Faith in Dragon Palace City is pretty smooth, mainly because the eldest prince, who you beat up, cooperated well."

"Don't worry, with me around, there's no problem at all."

Shi Yu chuckled and said, "It's not about that. I'm here to ask you for two people. Ah, wait, sea beasts."

Ice Dragon: "Huh?"

Shi Yu said, "Do you have the 'personal resumes' of all the members of the various turtle and snake races in Dragon Palace City? I remember that Dragon Palace City is also very strict in managing personal information, right? Get me a copy."

Ice Dragon: ...

What was Shi Yu doing??

However, it was true that because of the Dong Huang Alliance, in terms of modernization, Dragon Palace City did very well compared to other totem countries! This also made it more convenient for the Dragon Kings to manage the various races under them.

"There seems to be such a thing in the Environmental Protection Department. I'll go find it." The Ice Dragon King took out something that looked like a shell and shouted at it, "Prime Minister Turtle, Prime Minister Turtle, are you there, are you there, are you there!!!"

"Ah... I'm here."

"Help me find something! No turtle speed!"

...

A moment later, the Ice Dragon King's exclusive Turtle Prime Minister flew over to the Ice Dragon Palace with a huge booklet. When it saw that Shi Yu was also here, it immediately bowed and greeted in surprise.

"Minister Shi Yu, wu wu wu..."

"Prime Minister Turtle, are there any geniuses in your Longevity Turtle Race recently?" Shi Yu smiled and took the faction booklet that included 11 turtles and seven sea snakes. At the same time, he didn't forget to ask.

Although there weren't many members of the Longevity Turtle, it should be the Turtle Race with the greatest power in Dragon Palace City. Its status was even above some pure-blooded dragons.

"Hehe, how can those melons in our race dare to call themselves geniuses in front of Minister Shi Yu?" the Turtle Prime Minister said.

"I'm nothing. I was just lucky. Isn't there any relatively special member in the Turtle Race recently?" Shi Yu asked.

In fact, it didn't matter if he was a genius or not. It didn't matter if he was a demigod or a god reincarnated. The most important thing was that he was special. At least, he had to have some shining points to contract him.

The Turtle Prime Minister was stunned. It glanced at the Ice Dragon King, who was also thinking hard, and also thought for a moment. Then, it immediately said, "Speaking of which, recently, our Longevity Turtle Race has indeed had a kid who became stronger quite quickly. He can be said to be a genius that's rarely seen in a hundred years..."

"It's just that..."

Shi Yu said, "It's what."

The Turtle Prime Minister said, "It was just a small accident. Its father used his connections to lock it in the 0.5th level of the underwater prison to reflect! It probably won't come out for a hundred years!"

Shi Yu was stunned. "As expected of your Longevity Turtle. One level is a hundred years. If this was a Green Silkworm, it would have long died a hundred times."

Buggy felt aggrieved. Did it provoke him?

"Did it do something wrong?" Shi Yu shook his head. If there was a problem with the turtle quality, forget it.

The Turtle Prime Minister pondered and said, "Sort of. It... it fell in love a snake race! In the Longevity Turtle Race, the mating of races is not allowed! What a sin."
