

Beast 1131

Unscientific Beast Taming

Chapter 1131: Too Cruel, Too Cruel

Alliance calendar, August 1, 180.

Location, Alliance Island, weather, clear sky.

Five-colored fireworks bloomed in the sky everywhere.

This Alliance Meeting was actually equivalent to a mobilization!

In order to establish the Blue Planet Alliance, they mobilized the world!

During the World Tournament, the countries already knew that the Mythical Era was about to return.

However, after that, the various countries didn't inform the entire country immediately.

After all, there was no benefit in telling too early. It would only cause chaos. Every country still needed sufficient time to prepare.

Therefore, what they knew were secrets known by a small number of high-level Beast Tamers.

Ordinary Beast Tamers knew nothing about this.

But as the first law revived, changes occurred all over the world. The news that the Mythical Era was about to return couldn't be hidden no matter what.

It could be said that this Alliance Conference was the stage for the various countries to officially announce the return of the Mythical Era.

For this meeting, the seven countries worked together. The Beast Tamers of the seven countries who originally didn't have a deep connection could see the live broadcast of the Alliance Meeting on television, computers, and cell phones.

At this moment, in Dong Huang.

The major television stations were broadcasting the opening of the Alliance Meeting. The major live broadcast applications on the Internet also placed the Alliance Meeting's live broadcast in the main recommendation slot.

Under the push of the policies of the various countries, various departments, universities, and major channels were broadcasting the venue of the Alliance Meeting live. It could be said to be the focus of the world.

There weren't many people in the venue. They were basically Beast Tamers from various countries guarding Alliance Island.

Under the camera, the presidents of the seven countries sat down one by one, making the Beast Tamers of the various countries excited and curious.

Most Beast Tamers actually didn't know much about the presidents of the Beast Tamer Associations of the various countries. Even they didn't know much about their countries.

But it didn't stop them from knowing that these seven people could be said to be Beast Tamers who stood at the peak below the Legendaries of the seven countries.

"Logan, president of the Beast Tamer Association of the Shen Feng Nation..."

"Lin Xiao, president of the Beast Tamer Association of Dong Huang..."

"Auland..."

"Ashaya..."

Under the camera, the presidents of the various countries were introduced. Then, they began to speak one by one, announcing the complete return of the Mythical Era and the intention and goal of the seven countries to establish the Blue Planet Alliance!

"Nine months ago, in the Kingdom of Glory, at the World Archeological Conference, archeologist Shi Yu from Dong Huang used his archeological results to lift a corner of the world's future."

"The Mythical Era that was lost in history is about to revive in the near future. Now, there are already gods from the Mythical Era waking up all over the world... Even back in Inatella, there were gods who were awakened by the World Tree and participated in the trial of the World Tournament."

"In this magnificent era that hasn't happened in billions of years, we will be the first batch to enter! In the unknown era, there are endless opportunities and crises. Only by cooperating can we welcome better development!"

Beast Tamers who knew the inside story were alright, but those who didn't, especially the Normal Beast Tamers, were stunned when they heard the official announcement.

The potato chips in his hand fell to the ground, and the soda in his hand squeezed out of the paper cup.

"Holy shit." Everyone was stunned.

What did they hear... The Mythical Era? It was about to descend?

The era described in the movies, the divine beasts, gods, and mythical novels, was about to return?

"You're kidding..."

"I can also witness history???"

"Really... I'm a little panicked. No matter what, long live peace."

"The descent of the Mythical Era is definitely a good thing!"

At this moment, the world trembled.

The various forums of the various countries were farmed out immediately. Those who participated in the world competition finally heaved a sigh of relief. They could finally talk!

...

In Dong Huang, the bad girl Ai Yu, who had encountered the reincarnation of the Spider God, was also watching the live broadcast with the Spider God.

They had already been convinced to join the Dong Huang Association.

They naturally knew about the Mythical Revival long ago, but watching the live broadcast now was still a different pleasure.

The spider girl pointed at President Lin Xiao on the television and said, "The information on the return of the Mythical Era was actually developed by the previous human archeologist?"

"I thought it would be the World Tree or other gods who told humans."

"Therefore, legend Shi Yu is indeed very strong. The presidents of the other countries personally participate in the battle, but Dong Huang sent him," the bad girl, Ai Yu, said.

"That's for sure." The corners of the Spider God's mouth twitched. That was a quasi-divine skill that contained the prototype of a top-notch law. Even if it was a god of the same level, it wasn't easy to defeat that black and white bear.

Just watch. If the pets of the other presidents were only mortal spirits, they would definitely be killed by that black and white bear!

...

"The return information of the Mythical Era was actually developed by archeologists??" Most of the low-level Beast Tamers of the seven countries were very shocked.

Not long ago, the revival of laws and the sound of laws resounded throughout the world. Everyone realized that something had changed on Blue Planet. Everyone thought that the seven countries had hurriedly convened the Alliance Meeting because of the Mythical Revival deduced from this time.

He never expected that nine months ago, at some World Archeological Conference, archeologists would determine the exact time of the Mythical Revival.

Dong Huang, archeologist, Shi Yu. Everyone was familiar with this name.

It was said that this batch of world legends had killed two totem-level foreign races from the totem country in the World Tournament and ended the competition in the preliminaries! How could they be unfamiliar!

[Unscientific Beast Taming](#)

Chapter 1132: Too Cruel, Too Cruel (2)

Apart from that, Dong Huang had also traded the mechanical phantom beast technology to the other six countries at a certain price. The mechanical phantom beast technology rose in the various countries. The name of Shi Yu, the father of the mechanical phantom beast, couldn't be unfamiliar to most Beast Tamers of the seven countries.

At this moment, more people understood why Dong Huang had sent Shi Yu to represent Dong Huang and not President Lin. This Shi Yu's resume was really strong!

Before accepting the Blessing of the World Tree, he could kill totems and learn the information of the Mythical Era early. Now that more than half a year had passed, it was only natural for him to become stronger.

"Not only that..." There were also contestants who participated and watched the World Tournament. From the beginning to the end, they sneered. This Shi Yu was far more ridiculous than everyone imagined. After all, when he won the World Tournament, he wasn't even a level-seven Beast Tamer.

Now that so much time had passed, who knew how strong Shi Yu, who had obtained a pile of divine inheritance, was?

However, some countries didn't panic. Although Shi Yu was in the lead previously, fortunately, times had changed.

For example, Rongguang obtained super battle power.

Who would have thought that the angel contracted by the Holy Emperor was actually the reincarnation of a god? Moreover, he had made a deal with Rongguang and promised to help Rongguang participate in this Alliance Meeting?

Rongguang also showed the Angel God the recorded video of the World Tournament. The Angel God was very calm about the process and outcome of the battle.

Rongguang thought for a moment and became calm.

Shi Yu was indeed very strong, but he could win at that time because at that time, the laws had yet to revive for the first time. The gods who had been forcefully awakened by the World Tree were severely Enfeeble.

Now that the laws had revived for the first time, the gods who woke up at this time would be much stronger than before.

Under the revival of the laws, the gods recovered their former strength, while Shi Yu improved from scratch. It was obvious at a glance who the increase brought by the first revival of the laws was greater.

Moreover, Shi Yu being able to defeat Ancient God Golden Bull at that time was equivalent to a clueless one against one.

At that time, if there was also a Beast Tamer who could use his talent to strengthen Ancient God Golden Bull, the outcome of the battle might not be certain.

Now, although there was no Ancient God Golden Bull, there was a super expert who had been immersed in level-eight for dozens of years who could strengthen the angel god with all his might. It was still unknown who would win in the end.

Now, the only thing Rongguang was worried about was that Shi Yu had also reached level eight. If Shi Yu was still at level seven, even if his Beast Taming Talent was very ridiculous, the enhancement shouldn't be too different from the level-eight Holy Emperor. After all, although the Holy Emperor didn't have a divine-level talent, it was still a top-notch Beast Taming Talent.

This way, it might not be impossible to fight. Moreover, so be it if they lost. They might not necessarily have to fight for the head. Apart from Shen Feng, the other countries weren't that enthusiastic about competing with Dong Huang... Most of them only wanted to lie flat and wait for the changes of the Mythical Era!

...

"In that case, the preview of the Alliance Conference battle is a battle between the various countries to fight for the right of the Alliance??"

"It should be!"

At this moment, the onlookers were even more looking forward to it. After announcing the relevant matters of the Mythical Era, the presidents of the associations of the various countries stood up and started to leave after greeting each other.

"Hello, everyone."

"Hehe."

After the presidents of the association left, spatial ripples flashed in the huge venue. A mechanical creature that looked like a cell phone appeared in the venue.

It was completely different from the serious style of the presidents of the seven countries just now.

"What's this silly mechanical cell phone?" Its sudden appearance stunned many spectators watching the live broadcast.

The cell phone quickly introduced itself and said, "I'm a super artificial intelligence developed by the Seven Nation Alliance, Black Light."

"Inside me, 99.99% of the information of the seven countries is recorded. My growth level is as high as a guardian. Be it my horizons or strength, I'm one of the best. I can be called an ultimate mechanical life form. Therefore, next, I'll explain the battle between the representatives of the various countries to everyone."

...

"Who's this guy?" Somewhere in the venue, beside Shi Yu, who was dozing off on the railing, Ling flew out and looked at the black cell phone.

It actually dared to say that it was an ultimate mechanical life form. What a joke. It was the only ultimate mechanical life form!

"There are many strange things in the Alliance. Don't worry about it," Shi Yu said with a laugh.

At this moment, Beast Tamers were complaining about this cell phone everywhere. However, in a battle of this level, compared to human explanations, it indeed made the mechanical intelligence capture and explain more technical.

"Squeak, squeak, but I'm only in charge of explaining. Apart from me, there's another person in charge of protecting the venue and acting as the judge. Next, I'll leave the safety of this place to him."

The black cell phone looked at the place where the presidents of the seven countries had left just now. A moment later, a young man in a black sleeveless t-shirt and purple pants with mechanical tactical goggles on his head slowly sat in the middle of the presidents of the seven countries just now.

Then, he crossed his legs and looked at the main venue.

The black cell phone: "It's him, it's him! The previous world legend, the legendary Beast Tamer, Mr. Wexy!!"

"This cell phone is so annoying," Shi Yu said.

Now that he was the world legend, could he not randomly give this title to others?

As expected, one title was still not enough. He happened to come to Alliance Island. He would go and see if there were any more impressive and awesome titles later.

Unscientific Beast Taming

Chapter 1133: Too Cruel, Too Cruel (3)

"Right, right?" Ling also agreed that this cell phone was very annoying.

However, at this moment, the gazes of the world indeed focused on this young man named Wexy.

He couldn't be more than 50 years old, but he had already reached the legendary level, so he looked very young. It was no longer a secret that the Shen Feng Nation had a new Legendary. Now that they finally saw him in person, the Beast Tamers of the various countries were stunned.

"Legendary Wexy, that legendary new Beast Tamer should be the youngest Legendary Beast Tamer at the moment."

"Yeah, a Legendary under the age of 50, at the peak."

"He's actually the judge."

"That's true. After all, next is a spar between presidents of the various countries. Only Legendaries are qualified to be judges."

The appearance of the Divine Wind Thunder Legendary was very shocking. This legendary Beast Tamer in his strongest state immediately made many experts of his generation recall some bad memories.

But his appearance was also reasonable.

The other Legendaries of the seven countries were already old people from the previous era. Because of the overload of the totem battle, their bodily functions had already begun to decrease.

For example, Dong Huang and the Shen Feng Mechanical Legendary, who had modified themselves into machines, had already stopped attacking when possible to avoid too much loss.

At this moment, only a new Legendary like Legendary Wexy could have sufficient energy to be the judge of the Alliance Meeting.

Although he was young, the capable were the first. Although the presidents of the various countries were more experienced, they were really one level inferior to legendary-level creatures. He was indeed qualified.

"Let's begin," Legendary Wexy said after sitting down.

The black cell phone also added, "I believe the Beast Tamers representing the various countries are already prepared. Then let's begin. The rules this time are the 1v1 rules of the two pets. The points competition system. In other words, every Beast Tamer representing the various countries has to fight the representatives of the six countries one by one!"

The reason why the rules this time weren't a full-strength battle, but a 1v1 battle between two pets was also because it represented the Beast Tamer in six battles. The consumption of all the members was too high.

"Next, I'll draw lots..."

"Wuu, the first to draw the battle..."

The projection of the black cell phone's lottery was projected in midair. Through the live broadcast, the audience could clearly see the name list on it.

In the first round, the president of the Beast Tamer Association of the Snowfield Nation, Star God Monkalov, vs a member of the Beast Tamer Association of Dong Huang, the world legend, Shi Yu.

As soon as this name list appeared, Dong Huang cursed.

He didn't expect the first round to be so exciting.

Dong Huang, Xue Yuan, and Shen Feng. The overall national strength of the three countries was in the top three of the seven countries.

Shi Yu actually faced the president of Snowfield the moment he came up?

....

Star God Monkalov.

A rather legendary Beast Tamer was the record holder of the number of times the Seven Nation Alliance had ascended to the starry sky.

His pets were basically evolved and cultivated towards cosmic life forms. They were all very strong.

It had once ascended to the moon 64 years ago and fought and won against the unfamiliar totem on the moon. Its name shook Blue Planet.

He had personally cultivated many new racial pets such as the Star God Bear, the Star God Tiger, and the Star God Eagle.

Among them, some pets had even been cultivated to the totem level by Monkalov with the resources of the country and had totem battle power.

Unfortunately, he was limited by his Beast Taming level and couldn't contract the totem he had personally cultivated.

Therefore, the most interesting thing about Star God Meng Kalov was that his contracted first team pets were basically invincible overlords, but some uncontracted second team pets that he personally cultivated had grown to the totem level.

It was impossible for such a figure to be unknown in the world. Star God Meng Kalov's name had resounded on Blue Planet decades ago.

This was also the reason why most people had doubts when the news compared Shi Yu, a young man, to these older experts.

"Shi Yu..."

On the Snowfield Nation's side, they were also very surprised to see Shi Yu drawn right from the start. The Star God Meng Kalov was slightly stunned. Shi Yu cultivating the Starry Sky Faith Divine Green Dragon had always been something that Xue Yuan cared about. He didn't know if he could fight Shi Yu's Green Dragon in this battle. If he could, he would ask for guidance.

"Coming, coming. The name list for the first battle is out. Let's wait for the two legends to enter."

"The representative of the Snowfield Nation is the fabled number one person below the Legendary level in Snowfield, President Star God Meng Kalov. He's nearly a hundred years old now. He obtained the title of Star God 64 years ago and has a record of killing totems. He worked for Snowfield for half his life and is the soul of Snowfield!"

"The representative of Dong Huang rose with a shocking force. His strength is also enough to kill totems. Moreover, in Inatella, he passed many trials of gods and obtained the recognition of gods. He's a super legend of the new generation, the strongest of the younger generation, Shi Yu!" the black cell phone said excitedly.

In terms of battle results, Shi Yu wasn't weak either. Among them, Shi Yu had an even stronger battle result, which was that he had defeated an Enfeebled Divine Spirit. However, the black cell phone didn't dare to talk nonsense. After all, Ancient God Golden Bull was only in an Enfeeble state. If it directly said that Shi Yu had defeated a Divine Spirit, wouldn't that be disrespectful? Who knew if Ancient God Golden Bull remembered to bear a grudge? Therefore, everyone tacitly said that Shi Yu had passed the test of the Ancient Divine Spirit and obtained recognition, not defeat. After all, that wasn't Ancient God Golden Bull's full strength.

[Unscientific Beast Taming](#)

Chapter 1134: Too Cruel, Too Cruel (4)

"Coming, coming."

"I'm already looking forward to it."

"The super expert of the older generation vs the strongest of the younger generation!"

The audience of the various countries held their breaths and watched. Among them, the group of people from Dong Huang who knew Shi Yu hugged the television and stared intently. The audience who had seen Shi Yu's shocking performance in the World Tournament also fell into deep thought.

They wondered how Shi Yu's strength had improved after obtaining the Blessing of the World Tree. If he could defeat or equalize President Monkalov, it wouldn't be too much to say that Shi Yu had the strength of the top ten in the world.

A moment later.

Shi Yu, who was wearing a black and red battle suit, and President Xue Yuan, who was wearing a white-gold presidential suit with fur decorations, appeared in the sky.

Shi Yu was a young man, while President Xue Yuan was a short old man with white hair and beard.

At this moment, blue Psychic power lingered around their bodies. They flew with Psychic power and didn't seem to have pets beside them. The audience wasn't curious about this move.

For powerful Beast Tamers, even if their pets were in the Beast Taming Space, their Skills would still affect the outside world. Most of the audience in front of the television thought that both parties were flying in mid-air with the power of their pets.

However, the experts present could sense that President Monkalov had indeed borrowed the power of his pet, but that Shi Yu was really using his Spirit Psychic power to fly in midair.

Both parties' black hair and white hair fluttered in the wind. After Shi Yu and President Xue Yuan greeted each other slightly, they landed on the arena.

At the same time, the presidents of the other countries also returned to their seats and looked at the home ground with different feelings, including Legendary Wexy, who was the judge. He narrowed his eyes and observed Shi Yu and Monkalov, very concerned.

Be it the new generation of world legends or the current strength of Shen Feng's old opponent, the president of Snowfield, he was very concerned. Perhaps he could spy on them through this battle.

"Thank you for the battle between the world legend and the legend of the Star God!!"

"Please send out your pets... Battle... Begin!" As both parties landed, the black cell phone looked at the home ground.

This was a huge stone square venue that looked to be only a few hundred meters in length and width. However, if one believed what they saw with their eyes, they would be wrong. This was a venue built of spatial materials, equivalent to a half-fused mystic realm space. Another space overlapped, and the area was actually quite large.

It was the highest-level battle arena in all aspects in the current Seven Nation Alliance. It was only provided to titled Beast Tamers to fight. The control core of the mystic realm was currently in the hands of Legendary Wexy.

"Charge, charge, charge, Shi Yu, blow up that old man!!"

"Blow him up."

In Dong Huang's Wu Ling City, some people led by the beast-eared girl were cheering crazily for Shi Yu. Beside them, Senior also shouted excitedly.

"President Monkalov shouldn't lose to a young man in his early twenties, right?"

"It's impossible to lose after decades of cultivation and battle experience suppression."

"Although the other party has also defeated the totem guardian, including the Star God Bear guardian, President Monkalov has personally cultivated a bunch of guardians."

On the Snowfield Nation's side, the Beast Tamers were also analyzing.

At the scene, although Shi Yu and Monkalov had heard the command to start the battle, neither party immediately engaged in an intense battle with their swords. Instead, they calmly activated the summoning array.

At the same time, they praised each other.

"It's rare to fight a young person. Dr. Shi Yu, you have to give in to my old bones a little. My current energy is much inferior to before," President Monkalov said with a smile.

A huge red summoning star array appeared in front of him, and the figure of a huge beast was outlined!

Red summoning array, level-eight Beast Tamer!

He was only a step away from level-nine Legendary. For a level-eight Beast Tamer of this age, it was very difficult to break through to level-nine unless there were suitable divine-level resources. However, as the laws revived, the veteran level-eights of the various countries might have the possibility of stepping into the Legendary domain in the future.

"President Monkalov, you're too polite," Shi Yu said with a smile.

A black summoning array also appeared in front of Shi Yu with a bang!

A level-seven legend Beast Tamer!

Seeing that Shi Yu had already broken through to the Legend level unlike in the World Tournament, no one was surprised. After all, he had obtained the blessings of the World Tree. It was possible for him to break through to the Legendary level in a few years. At this moment, Shi Yu had yet to reach level eight, and many people were already relieved.

If Shi Yu reached level eight, it would be really difficult to resist. Titled legends like them, the strongest tier of the older generation, would be completely pulled apart by Shi Yu from various dimensions.

"Roar!!!!!"

"Roar!!!"

Under the praise of both parties, the figures of the pets of both parties completely appeared!!

A huge white leopard emperor six to seven meters long appeared in front of Monkalov. Its body was dotted with star-like spots that shone brightly. A terrifying aura bloomed, making the presidents of the various countries freeze.

"It's President Monkalov's Star God Leopard!!!" The black cell phone said, "It's one of his signature pets, an invincible overlord. According to the records, 20 years ago, this Star God Leopard had two super racial Skills trained to the limit close to transcendent!! It has the ability to fight against totems alone!! It's long been only a step away from the totem level!"

Unscientific Beast Taming

Chapter 1135: Too Cruel, Too Cruel (5)

"Holy shit." As the black cell phone finished speaking, many Beast Tamers cursed.

Was this the pet of a titled legend in the strongest tier?

If a super Race Skill reached transcendent, it would be at the totem level. If two super Race Skills reached transcendent, it would be top-notch totem battle power. If this Star God Leopard wasn't restricted by President Monkalov's level, it would probably have long reached the totem level.

At the moment, the energy level of this Star God Leopard that appeared in front of Shi Yu had also broken through the hundred million level and reached the standard of "???".

It could be said that with the strengthening ability of the other party as a level-eight Beast Tamer, it was indeed powerful. After all, even if it was the most ordinary strengthening talent, as long as the Beast Tamer reached level-eight, it could increase the pet's energy level by hundreds of millions. Moreover, Monkalov was an old expert who had stayed in the level-eight domain for many years. His talent development would definitely be stronger.

"It's indeed very strong. Even without quasi-divine skills, Little Ji Duckie and the others will feel pressure."

Even Shi Yu, who was his opponent, had to admit that the strongest titled legends in the various countries were much stronger than the strongest titled legends in ancient times.

For example, this President Monkalov should be much stronger than the Iron-eating Beast General at the founding stage.

This was normal.

After all, these modern titled experts had relied on the power of a country to develop steadily for nearly a hundred years under the protection of forbidden Arms and Legendary experts. They were on a completely different level from the resources enjoyed by ancient Beast Tamers.

"Roar!!!" The might of the Panther Emperor enveloped the world, and a roar that contained majestic and wild will shook space.

"Roar!!!" Similarly, the pet Shi Yu sent out also displayed a ferocious dragon might. The aura of the two parties collided, instantly making the ground and sky tremble. On Shi Yu's side, it was a ferocious pet ten meters tall with dry brown skin and the appearance of a Tyrant Dragon. It drooled and stared at its opponent with red eyes!!

It was the land overlord Little Ji, who relied on its form to switch to the Tyrant Dragon form to reduce consumption!

For a moment, both parties relied on their auras to bombard the arena.

"Overlord-level Tyrant Dragon!!!" Shi Yu's pet surprised everyone!

"Is it a mechanical phantom beast?"

Especially Monkalov himself, who was very shocked.

After all, all Shi Yu's contracted pets had been displayed in the World Tournament previously. Every one of them was very strong!

Those six should be Shi Yu's absolute main force.

Although now that Shi Yu had reached level seven, there was indeed a new contract slot and he could already contract a new pet, the cultivation strength of the new pet was actually very difficult to surpass the old pet in the short term.

Half a year was too short.

However, Shi Yu still sent a new pet. This move was completely unexpected.

"Yay!!!" Of course, some people were suddenly excited. For example, Fang Lan, who was far away in Dong Huang's Kong Capital, saw that Shi Yu had contracted the mechanical Tyrant Dragon. Her eyes lit up and she immediately called out her mechanical Tyrant Dragon.

In this era, it was impossible for there to be a living Tyrant Dragon. Then, this Tyrant Dragon was definitely a mechanical phantom beast.

Now that the various countries had obtained the mechanical phantom beast technology, the first goal of research was the ancient earth overlord, the Tyrant Dragon. They were naturally not unfamiliar with the mechanical Tyrant Dragon...

However, they still didn't expect Shi Yu to contract another mechanical phantom beast when he had already contracted one!

"It's actually a new pet, and a mechanical phantom beast!" Most Beast Tamers who had experienced the world competition were very stunned.

"Not the Green Dragon, not the Iron-eating Beast. Young man, are you looking down on me?" President Monkalov said.

In the Alliance Meeting, everyone had to experience several battles. They definitely had to leave most of the stamina of the trump card to the most important opponent. In Monkalov's opinion, Shi Yu sending a new pet to fight him was looking down on him!

"President Monkalov, please don't underestimate it," Shi Yu said.

"It's really surprising. Legend Shi Yu sent out a Tyrant Dragon, an extinct earth overlord. This should be a mechanical phantom beast!!" As the black cell phone deduced, the two pets had already fought!

The white leopard emperor stepped heavily with all four feet. Its figure was like the speed of light, difficult to capture with the naked eye. Its explosive power was extremely strong, and the ground trembled under its sprint. Little Ji's speed was crushed by the other party. Only when the other party was extremely close did Little Ji roar and activate Earthquake!!

The ground rumbled and emitted vibrations, but the Star God Leopard's battle skills were extremely high. In the face of the shaking ground that emitted terrifying vibrations, the light seal under its feet formed, and it easily maintained the stability of its speed. It instantly arrived in front of Little Ji.

Its starry eyes stared at Little Ji.

The Star God Claw tore out, and dazzling light erupted. A shocking wave erupted, directly tearing apart Little Ji's body, leaving a shocking wound mark on its abdomen. A brown light that was like blood spread from the wound.

Little Ji's pile of skills was all at the initial stage of the Perfect Level and had yet to be added. Under normal circumstances, it was very difficult to deal with the Star God Leopard. If Shi Yu wasn't wrong, this Star God Leopard should have at least three super racial skills that had reached the stage above (Perfect+45).

However, there was one thing. Little Ji wouldn't lose to this guy, which was its physical fitness.

It was a professional at getting beaten up.

"Roar!!! (You actually dare to hurt the overlord of the earth?!!)"

Little Ji, who had widened its red eyes and resisted its opponent's attack, activated its furious reverse scale as the light in its abdomen exploded. Its anger erupted, and its dragon tail turned into a sword. Since its speed couldn't compare to its opponent, it used the form of an injury exchange battle. The super heavy sword swept down with gravity and instantly crushed the panther emperor that tore its chest to the ground!!

Unscientific Beast Taming

Chapter 1136: Too Cruel, Too Cruel (6)

Boom!!!

As its figure landed, the Star God Leopard was suppressed to the ground. Its body caved in and shattered the ground. A huge pit appeared in the ground. In the smoke, another light breath shot out of the dust mist, crushing the ground and continuing to attack Little Ji's wound. In an instant, it also flipped Little Ji over and sent it flying again. With a rumbling sound, a scratch dozens of meters long was pulled out.

"Who has the advantage?!"

As the two overlords fought, the audience in front of the live broadcast swallowed their saliva and couldn't tell the situation.

Only Beast Tamers above the legend level could tell that both parties were still warming up.

President Monkalov didn't use his Beast Taming Talent, nor did Shi Yu use his Beast Taming Talent. It looked like no one wanted to exhaust themselves first.

Shi Yu stood calmly on the spot. President Monkalov's white cloak fluttered, and his eyes were serious.

From the warm-up situation, the mechanical Tyrant Dragon was clearly at a disadvantage!

"President has the advantage!" The Beast Tamers in Snowfield were extremely happy.

Buzz!!!

A ball of light condensed in the sky. The Star God Leopard, which had been crushed into the ground by Little Ji, descended from the ball of light and appeared above the fallen Little Ji. Two long fangs of light condensed in its mouth and locked onto Little Ji's throat.

Light lingered as it swooped down, but with a roar, hot red light flashed in Little Ji's eyes and body on the ground. Lava that was like the light of red evolution flowed on its body and erupted!!

Countless magma balls and volcano bullets bloomed from its body, instantly forcing the Star God Leopard back and making it condense the Star God Claw. As it blasted away the magma eruption, it retreated and distanced itself from the source of the magma eruption.

"Magma? That's not a simple mechanical Tyrant Dragon!!" Little Ji's move immediately made people realize that it wasn't as simple as a Tyrant Dragon.

"That mechanical phantom beast has two fossil illusions!!!" Countless Mechanics were extremely incredulous and widened their eyes.

A mechanical phantom beast could actually fuse two fossils!!

Now, this Tyrant Dragon had clearly changed its form!

Damn, apart from how to fuse the Mythical fossil, the mechanical phantom beast technology Dong Huang shared with them indeed had other aspects!!

Moreover...

The appearance of the dragon-shaped creature in front of them directly made many archeologists and presidents of associations widen their eyes.

"I said not to underestimate it." Shi Yu was amused.

"This is... bad!"

Monkalov's gaze was shocked. As the magma ball fell, the mechanical Tyrant Dragon that had been blasted away by the Star God Leopard also got up again. At this moment, there were no injuries at all. Or rather, its entire body had cracked.

It completely changed from a Tyrant Dragon to the appearance of another ferocious beast, making Monkalov's expression change.

"Roar!!!" Under the magma bath, Little Ji's body enlarged. It changed from the Tyrant Dragon form to the Wingless Dragon form. Many cracks that looked like dry land appeared on its skin. In the cracks, the power of magma swam, containing an extremely violent aura.

F*ck.

Everyone was shocked.

Wasn't this...

Wasn't this the phantom appearance of the Mythical creature, the Earth Divine Dragon, that Shi Yu had displayed at the World Archeological Conference!!

Damn, he even fused the phantom of the divine beast, the Earth Divine Dragon, on the foundation of the mechanical Tyrant Dragon??

No wonder Shi Yu contracted it!

Boom!!!

The dragon might that was filled with violent anger erupted again, making the retreating Star God Leopard's entire body tense up, revealing an extremely serious expression. It felt that the dragon in front of it was no different from a totem level!

"Roar!!!" Little Ji roared and used gravity control. In an instant, under the shocked gaze of the Star God Leopard, the surrounding thousands of meters of domain was immediately covered by the gravity field.

A red arc of light flashed in Little Ji's pupils.

A terrifying gravity suppressed everything around it with it as the center!!

The dust that spread was instantly suppressed by the overwhelming gravity field. The Star God Leopard, which had condensed the Wings of Light to dodge the magma eruption and retreat into the sky, also instantly sensed the aura that descended from the sky.

Bang!

A shattered rock was pressed into the arena again. The entire arena seemed to have been flattened. The violent blurry gravity field made everyone's scalps tingle.

The Star God Leopard felt that the gravity strength displayed by the other party this time was several times the power displayed by the other party just now. It was extremely terrifying. In an instant, it lost the ability to resist and its entire body quickly fell!!

After switching to the overlord form of the land, Little Ji directly activated the transcendent Mythical Revival and immediately obtained a body, Spirit, Soul, Energy, and Life comparable to a Mythical Race. Mythical Revival was equivalent to a comprehensive attribute strengthening skill. In an instant, Little Ji, whose skill proficiency was inferior to the Star God Leopard, used this taught skill to crush the other party in terms of Stats!!

Boom!!!

The Star God Leopard descended like a meteor. Little Ji roared again. In the direction the other party fell, the ground shattered. An earth blade that pierced into the sky like a mountain peak rushed out of the ground and hit the falling Star God Leopard!!

Space Splitting Sword!!!

Little Ji cursed, "Fly!!!"

In an instant, the situation reversed again.

Everyone in the snowfield looked at the imminent danger of the Star God Leopard and immediately revealed incredulous expressions.

"Star Soul, Possession!" On the other side, President Monkalov, who was fighting Shi Yu, also had a serious expression. He knew that he couldn't continue like this. He immediately activated his Beast Taming Talent with all his might before Shi Yu!

Unscientific Beast Taming

Chapter 1137: Too Cruel, Too Cruel (7)

Star Soul Talent. He and his pet used the power of the stars in the starry sky to condense the power of the stars into a beast-shaped star soul. The talent that possessed his pet was even stronger than ordinary strengthening talents.

"Roar!!!" As starlight enveloped President Monkalov's surroundings, his eyes turned into the color of a vast star. The surrounding aura rose steadily, and starlight lingered around the Star God Leopard. Under the continuous entanglement of the starlight, it condensed into a silver leopard-shaped star soul that wrapped around the Star God Leopard like a starry coat.

Immediately, its energy value, which had already exceeded 100 million, almost doubled, erupting with an even more terrifying power. Its various qualities also received an all-round increase like Little Ji. At the same time, its affinity for the power of the stars was also strengthened.

"Roar!!!" After the Star God Leopard obtained the possession of the Star Soul, it struggled free from the restraints of the gravity field with a boom and adjusted its position. At the same time, with the acceleration of its fall, it condensed the Star God Claw and smashed it at the Space Splitting Sword.

Boom!!!

Not only was the Space Splitting Sword shattered, but countless cracks also appeared on the ground from the aftermath. The entire gravity field shattered. Seeing this, the Beast Tamers of Snowfield heaved a sigh of relief again.

In the next moment, the Star God Leopard Emperor attacked again under Monkalov's command. During the Beast Taming Strengthening stage, be it pets or Beast Tamers, there would be a certain burden.

At the level-eight stage, although the strengthening time of a Beast Tamer was no longer as short and weak as that of a low-level Beast Tamer, and it was not a problem to maintain it for a few hours with normal strengthening, Monkalov knew that he was already old. In addition, there was still a battle later. He was unwilling to consume too much energy here and only wanted to end the battle quickly.

"Damn it, go." He watched as the Star God Leopard collided with Little Ji again. At this moment, the Star God Leopard seemed to have turned into a ball of light that kept hitting the huge mechanical dragon. No one could see the figure of the Star God Leopard clearly at all, and they could only hear the spatial collision sounds.

Under the other party's fierce attack, Little Ji didn't fall into a disadvantage. Its huge dragon claws and dragon tail swept up hot magma, wrapped in divine-level dragon might, and fought the other party fiercely. For a moment, neither side was evenly matched.

However, when this scene landed in the eyes of the presidents of the associations and the audience, it was extremely serious. They subconsciously swallowed their saliva because President Monkalov had even used his Beast Taming Talent. As for Shi Yu opposite them, he still had his arms wrapped around his chest with a calm expression. He had no intention of interfering in the battle of pets!!

That mechanical phantom beast was fighting the Star God Leopard and a level-eight Beast Tamer alone!

"Who said that it's impossible for the younger generation to defeat the older generation? Come out and get beaten up!" Countless spectators were shocked to have one's jaw drop and to be slack-jawed. They couldn't believe their eyes. After all, the other party was the strongest titled legend in the Snowfield Nation. The other party had already used all his strength and used his Beast Taming Talent, but Shi Yu's mechanical dragon was still more than enough to parry!

Large beads of sweat had already flowed down Monkalov's head.

It couldn't be helped. Although the transcendent Mythical Revival was a teaching Skill, once this skill was activated, Little Ji was basically no different from a pseudo totem.

However, the opponent wasn't weak either. After all, with the combination of the two, it was really difficult to determine the winner for a moment.

Just as everyone looked at the anxious battle with burning gazes, new changes occurred.

Boom!!!

After the attack, an even greater heat spread from the overlord of this land. Sensing the threat, even during the strengthening period, the Star God Leopard stopped its fierce attack and stopped in midair, looking at the enemy cautiously.

Sensing that his opponent's battle was getting braver, President Monkalov's expression froze.

"The battle is so intense..." The black cell phone finally spoke with lingering fears.

"The collision between the two parties has been even for too long. The confrontation has temporarily stopped. Looks like there are new changes..."

As soon as it finished speaking, blue veins had already appeared at the edge of the Eye of the Stars.

"The most powerful is the Star Soul Fusion, Star Splitting Claw." President Monkalov gave the order. The Star Soul wrapped around the Star God Leopard directly fused into its body, causing its muscles to increase exponentially, and its strength to increase again, entering a higher load state!

"Roar!!!"

In midair, the leopard emperor's body had reached more than ten meters long. Its body was even stronger, and its sharp claws were filled with a shocking light, as if it could tear apart stars. An even more terrifying aura appeared on its body.

Seeing this, the black cell phone immediately pulled up the data and shouted excitedly, "It's the final profundity of President Monkalov's Star Soul Talent, Star Soul Fusion!!! It's said that after the Star Soul Fusion, the pet's next attack can unearth all the pet's potential, gather all its strength, and release the strongest profundity. However, after the attack, it will also lose its ability to fight!!!"

"Looks like President Monkalov doesn't plan to let the Star God Leopard fight the opponent anymore. He chose to bet everything!!!"

The final profundity of the astral soul fusion!

President Monkalov was also very helpless at this moment. The rational thing to do was not to fight a freak like Shi Yu head-on. After all, Shi Yu had not even displayed his divine-level Beast Taming Talent. Leaving it to his physical strength to deal with other countries was the right thing to do.

However, President Monkalov was also a stubborn person. He didn't want to admit defeat directly in front of a junior.

It was just stamina, so it should still be enough. This time, he didn't plan to let this set of old bones go back comfortably in the first place. He just had to sacrifice the Star God Leopard, but it didn't matter much. His other seven pets were also at the level of the Star God Leopard, enough to support the next battle.

[Unscientific Beast Taming](#)

Chapter 1138: Too Cruel, Too Cruel (8)

He wanted to use all his strength to see where Shi Yu's limit was.

Of course, President Monkalov knew that Shi Yu definitely had a trump card, his divine-level Beast Taming Talent. However, the consumption of a divine-level talent that exceeded a top-notch Beast Taming Talent was definitely several times, more than ten times, dozens of times higher than a top-notch talent like his!

The stronger the talent, the greater the consumption.

Shi Yu might not necessarily be willing to use it too early. After all, there were more opponents next. There were also opponents of Mythical Races. That should be the target Shi Yu should deal with with all his might, so he was taking a gamble.

President Monkalov's current goal was to at least defeat this mechanical Illusion God.

It had to be said that President Monkalov made the right bet.

Shi Yu was indeed unwilling to use his mind domain at this time. Even if it was telepathy, he was unwilling to use it too early. He felt that it was a waste of energy.

However, President Monkalov made the right bet, but not completely. Apart from the enhancement of the Beast Taming Talent, Shi Yu and the others... had another trump card!

"The final profundity? It's useless." Shi Yu looked at his opponent.

The next moment, what Monkalov was most worried about happened.

Boom!!!

The Star God Leopard was like a flash of light, a huge dragon that shot from the sky to the ground. Countless spectators had their hearts in their throats as they watched this attack, wanting to see what kind of damage President Xue Yuan's final profundity could cause to the opponent.

Could it change the situation in one hit?

But suddenly, the expressions of the Star God Leopard and President Monkalov changed.

Legendary Wexy, the presidents of many associations, and the audience's expressions changed drastically.

As the enemy attacked, Little Ji looked up.

The surroundings rumbled and trembled. Accompanied by the vibration, the sound of laws resounded through the venue.

President Monkalov's pupils constricted.

"Earth, space, the vibration of the sound of laws. As expected, not only did you fuse with the Earth Divine Dragon fossil, but you also successfully awakened its law divine skill!"

"Another Mythical Race."

Their hearts were miserable, and their faces were pale.

What he was most worried about happened.

It understood that there was completely no room for a comeback.

Even if Shi Yu didn't use his Beast Taming Talent, he would still lose this battle!!!

Quasi-divine skill, Cataclysm!

Amidst the trembling sounds around, the ground under Little Ji's feet quickly cracked and spread like the speed of light. In an instant, there was no intact place in a radius of hundreds of meters.

Little Ji raised its head and roared!!!

"Roar!!!"

In an instant, shocking magma flames spread from the cracks in the ground. As the ground trembled, they swept up like a tsunami, devouring the ground and sweeping with layers of power. In an instant, they spewed out like a volcano eruption!

Boom!!!

The entire arena was like a volcano. With Little Ji as the core, the ground was instantly filled with a magma sea of fire. The magma pillar of fire that was more than a hundred meters in diameter swept up the power of the shock wave and shot into the sky. It immediately Devoured the incoming light. The other party's attack didn't cause any ripples before it was obliterated in the endless earth and magma vibrations.

Bang!!!

The entire Alliance Island rumbled, scaring Legendary Wex Yi. However, he immediately realized that Shi Yu and the others had controlled their strength very well and didn't affect the outside of the arena much.

"This is... a quasi-divine skill? Another mechanical Illusion God? How is this possible?" His expression was shocked.

They, Shen Feng, had studied the fusion of the Mythical fossil in detail. Even Legendary Z asserted that Shi Yu could successfully create a mechanical Illusion God purely because the Kirin Race was relatively special and had the enhancement of luck to pass down the divine skill.

However, the scene in front of him directly shattered Legendary Z's judgment.

Shi Yu, this monster, had cultivated and created another divine pet!!!

Countless people revealed incredulous expressions.

"World Destroyer, Earth Divine Dragon!" The angel god sensed the change in the laws and also appeared beside the Rongguang Light Pope with a slightly shocked expression.

"It's not the main body, but it's indeed its power."

"Is the Earth Divine Dragon very strong?" the Holy Emperor asked.

The angel god nodded and said, "It's a god who left Blue Planet behind. It's an existence in the first tier. Its power was actually inherited."

Lava erupted from the ground for more than ten seconds. During the entire process, the figures of the Star God Leopard and Little Ji were Devoured without any sound.

When little bit of magma fell again, turning the entire venue into a magma venue, everyone finally discovered the figures of the two pets.

The mechanical phantom beast was still bathing in the magma and standing on the arena unscathed. However, there was no longer a trace of intactness on the body of the Star God Leopard. It lay in the magma on the verge of death and completely lost consciousness.

The so-called final profundity was instantly killed by the other party's stronger ultimate move before it could even approach the opponent!!

In the first round, the winner was decided.

At this moment, most of the audience looked at the live broadcast in confusion. They didn't understand.

"Damn, what's this?!!!"

Looking at the arena that had turned into a sea of lava, countless people were stunned. Didn't they agree on the final profundity? Why was it insta-killed by the opponent in the blink of an eye?!

What Skill was that!

They didn't understand, but they could understand the ferocity of this move.

The divine skill scene that spewed out just now was still in everyone's eyes, making them open their mouths wide. Even the black cell phone couldn't say anything at this moment.

It was slightly shocked. Now that it looked back, it was clearly a one-sided battle. If Shi Yu's pet had used this move from the start, the battle would probably have ended not long after it started!!

"You guys..."

"Pfft." Because of consumption and Retaliation, as the Star God Leopard fell, President Monkalov directly spat out a mouthful of blood. His face was even paler as he covered his chest.

They were completely stunned by the strength of Shi Yu and the mechanical Earth Divine Dragon.

He could sense that the surging energy contained in this move had even exceeded the meteorite summoned by Shi Yu in the World Tournament! It was incomparably terrifying. In fact, this was even if the other party held back. If it erupted with all its might, it might be comparable to the mysterious millstone.

President Monkalov was directly dizzy.

The Beast Tamers of the Snowfield Nation were stunned when they saw their president's miserable state through the live broadcast. They couldn't accept that their president, who had been famous for decades, had been defeated by a young man.

The Beast Tamers of the various countries couldn't believe that the president of the Snowfield Nation had actually lost a round in a crushing defeat.

Moreover, from the aura of that dragon, it seemed to still have energy? It still had energy after using such a strong skill?

How strong was Shi Yu?

"Dr. Shi Yu is impressive, awesome!!! He actually crushed the pet of the president of the Snowfield Nation Association!!!" The Beast Tamers of Dong Huang who were watching the live broadcast had excited expressions. No wonder, no wonder Dong Huang sent Shi Yu to fight!!

As expected, what did they know? Dr. Shi Yu was forever a god. Was this the strength of a mechanical phantom beast?? Was this the value of the strongest world legend?

They were definitely going to take the Mechanic class of Ancient Capital University!!

"Don't worry, it's fine. President Monkalov, do you want to continue?" Shi Yu said.

Fortunately, Little Ji had already finished warming up and was already familiar with the power of laws here. Otherwise, it would really be difficult to control this skill. It would be very dangerous to use it immediately. The opponent wouldn't even be left with ashes. Now, it was alright, alright. Little Ji could already control the power of the Crowd Control... It was all thanks to the proficiency of the Cataclysm that it had reached the proficient level because of the Mythical Revival.

It could still do it again!

President Monkalov's face darkened.

"Damn, another Mythical Race. This monster!!!" At this moment, the expressions of the presidents of the associations became even uglier.

Moreover, it was the phantom beast Earth Divine Dragon known for its destructive power!!

Now, they finally understood why Shi Yu still contracted this one even though he already had a mechanical phantom beast.

It was very normal for Shi Yu to contract a new pet. In the speculation of the various countries, even what Shi Yu would contract with in the seventh contract slot had been speculated a few times.

The countries estimated that Shi Yu was most likely to give this contract slot to the Abyss Demon Duck that had obtained the divine-level resource, the Abyss Seed, and the reincarnation of the Abyss Evil God. It was also possible to contract the cub of the Mythical Demon Race he had obtained from Lord Lie Shan!

However, in the end, it was a mechanical phantom beast! What did this mean? It meant that the potential of this mechanical phantom beast exceeded those in Shi Yu's eyes, even exceeding that Wind Kirin phantom beast.

In fact, in their eyes, the performance of this mechanical Earth Divine Dragon was even more terrifying. It could actually control divine skills with ease!!

Just one move. Regardless of its functionality, its battle power might have already exceeded that sword spirit and the Blue Sea Sprite. Its battle potential had probably already approached or even exceeded Shi Yu's top six pets!! This Shi Yu was even more troublesome... He had to quickly analyze the strategy to resist this mechanical Earth Divine Dragon!

Unscientific Beast Taming

Chapter 1139: Poor Sword Spirit

At the moment, Shi Yu vs Monkalov. The current situation was that Monkalov was at an absolute disadvantage!

Moreover, because he assisted the Star God Leopard in attacking with all its might, he also suffered a backlash.

"This Shi Yu is simply abnormal. It's better not to fight him." When the titled legend of Xue Yuan saw this, he couldn't help but think to himself and look at his president.

The other countries took advantage of the Mythical Revival to befriend divine beasts.

In the end, Shi Yu cultivated another one after half a year?

Moreover, in terms of strength, it was simply stronger than the pet strength he had displayed in the past.

Fight my ass.

This guy was abnormal.

Their Snowfield was relatively unlucky. Although they had successfully befriended a reincarnation divine beast, that divine beast's growth level was only at the monarch level.

Its strength had yet to recover, so it couldn't participate in a battle of this level at all.

Therefore, President Monkalov could only fight personally.

But who would have thought that the opening was disadvantageous, and it was the sharpness lost by a young Beast Tamer!

"Continue." Monkalov calmed his breathing.

Apart from the final outcome, the aura during this Alliance Meeting was also very important.

As the leader of the Snowfield Nation, if he admitted defeat to a young man and couldn't even defeat the other party's pet, the morale of the Snowfield Nation would suffer a huge blow.

This wouldn't do.

"Jiu!!!!!"

Everyone looked at the arena and saw that after President Monkalov recalled the Star God Leopard, he summoned a new pet!!

In the sky, a red summoning array appeared. A long, clear, and sharp cry with extremely strong penetration sounded.

Then, a huge vulture with a light blue body that spread its wings more than ten meters descended.

Its sharp eyes were like blue stars, looking down at the ground.

Star God Vulture!

Seeing this pet appear, the presidents of the various associations understood Monkalov's determination.

It was impossible to admit defeat. However, Monkalov didn't dare to send out his trump card.

His trump card was an ice-element Star Bear Race. It looked like he had indeed chosen to leave it to other countries.

However, this Star God Vulture was not weak either. It was not inferior to the Star God Leopard just now.

If Shi Yu's Mechanical Illusion God had used more than half of its strength in that attack just now and didn't change pets, this battle might not be easy.

"President Monkalov changed pets!!! He sent out his Star God Vulture!!!"

"This pet is also quite powerful! It once defeated a totem with the support of President Monkalov!" The black cell phone shouted in introduction in shock.

However, his gaze kept stopping on Shi Yu and the mechanical divine dragon.

In the introduction, its tone suddenly froze as it looked at Shi Yu and the others.

"Roar!!!" The huge Lava Dragon suddenly turned to look at Shi Yu and its Beast Tamer.

Little Ji: I'm not playing anymore.

Shi Yu: "Oh?"

Shi Yu was rather surprised because Little Ji actually still had the strength to fight. If he gave this Star God Vulture another disaster, it should be able to insta-kill it.

But from the looks of it, Little Ji meant that it still wanted to appear more times.

Now that it had two quasi-divine skills in a row, it would definitely be crippled. Even with Baby Ginseng's treatment, it couldn't get up in the short term.

On the contrary, if he maintained this good state and received nourishment, he could still fight in a pretty good state.

Let Duckie do it!

Little Ji was very generous.

Shi Yu was even more surprised. After hearing Little Ji's analysis, he actually realized that Little Ji had become smarter and knew that battles had to be controlled.

This wasn't like its personality...

It clearly didn't add any intelligence to it.

"Alright." Shi Yu chose to listen to his pet's suggestion and put away his little phone.

According to the rules, after a pet lost its ability to fight, both parties had a chance to change pets once.

Shi Yu also decisively chose to change.

Seeing Shi Yu retract his little phone, the black cell phone immediately said in surprise, "Legend Shi Yu chose to retract his pet!"

"He's going to send out a new pet."

"Looks like that move just now consumed a lot of this pet's strength!"

It had to be said that Shi Yu's action of retracting his pet had left President Monkalov with a lot of face.

If Little Ji defeated a pet and didn't consume much stamina, and it could still pass through two opponents at once. It was simply pressing Xue Yuan's face on the ground.

Shi Yu's action of retracting his pet could instead make some people comfort themselves. Little Ji had already done its best just now.

"Change pets? Which one is it?" President Monkalov's expression turned cold.

All eyes were focused on Shi Yu's newly activated summoning array.

"I guess it's the Green Dragon. The Green Dragon is the god of faith in the starry sky. Its cultivation level will definitely be above that old kid, Monkalov's pet. It will definitely win steadily. Xue Yuan will lose face this time." President Logan of Shen Feng was also watching happily.

"The other mechanical phantom beast is also possible. The Star God Vulture is better at flying than the Star God Leopard. The Earth Divine Dragon is not easy to deal with, but the Wind Kirin, the overlord of the sky, is more suitable!"

Everyone guessed. A new pet image had already condensed. It was also at this moment that the expressions of almost all the Beast Tamers who had experienced the world competition suddenly froze.

Even President Monkalov was stunned again.

Because a duck appeared on the huge summoning array.

A huge black duck five meters tall with dark blue patterns all over its body.

On its neck, the pure golden-blue water that was like cleansing water froze like a ribbon, becoming a scarf-like part that floated behind it in an extremely domineering manner.

Unscientific Beast Taming

Chapter 1140: Poor Sword Spirit (2)

As soon as it appeared, it looked at the ground and cursed. Seeing that the entire venue was filled with magma, Duckie immediately exploded in anger!

F*cking land overlord.

It knew that nothing good would happen if Little Ji replaced it.

Duckie immediately jumped up from the heat and roared at the sky. It was very angry.

"Quack!!!!!!!"

The sky was instantly pitch-black, and black water droplets fell from the sky.

Dark Sky Wave Rain!!!

A terrifying Demon God aura lingered between the sky and the ground. A dark red light flashed past the duck's eyes. It looked at the Star God Vulture unkindly... planning to vent the anger it had suffered at home on outsiders.

"Huh??" Shi Yu summoned a new pet, the Abyss Demon Duck. It could be said that the number of people who could guess it at the scene was almost zero.

How was this possible?!

Shi Yu's first six pets, Iron-eating Beast, Green Dragon, Baby Ginseng, Sword Spirit, Blue Sea Sprite, Wind Kirin...

The seventh was the Mechanical Illusion Divine Dragon.

And now, as a level-seven Beast Tamer, Shi Yu had sent out his eighth pet!

It wasn't the first six pets that had appeared in the World Tournament. Instead, it was the abyss demigod reincarnation known as the "second team" at that time. It had temporarily not contracted and obtained the divine-level Abyss Seed.

Although the image was a little different, from the power fluctuations, it was the power of the abyss!

Holy shit.

Shi Yu had even contracted it!

Therefore, what was going on? Shi Yu had broken the contract of the first pet??? Otherwise, how could he contract two new pets in a row?

Shi Yu's previous pets were also top-notch pets. Although the Abyss Demon Duck with divine-level resources was indeed very strong, it didn't have to be broken just like that, right?

For someone of Shi Yu's status, although the side effects of breaking the contract were not difficult to recover from, it would more or less affect the relationship between Beast Tamers and pets. How could he bear to do that?

"Iron-eating Beast, impossible. That's the ferociousness that defeated the Enfeeble Divine Spirit."

"Green Dragon, even more so. That's the Eastern God in Dong Huang's heart, the god of faith in the starry sky. It's not easy to nurture it. Only a fool would abandon it."

"A time-element ginseng baby that can revive and self-destruct. Any Beast Tamer can't break the contract with such a strategic pet."

"The Blue Sea Sprite is the strongest demigod reincarnation. It's known by the gods as the strongest tier god after stepping into the Mythical Domain. It's impossible to give up."

"Could it be..."

Everyone recalled that Shi Yu had contracted a new mechanical phantom beast. Could it be that he had broken the contract with the Wind Kirin?

They quickly shook their heads. The Wind Kirin had mastered a divine skill of luck, and it was a Mythical Race. Shi Yu shouldn't be that stupid.

From the looks of it...

The greatest possibility was that Shi Yu had broken the contract with the sword spirit!

Although that sword spirit was also very strong, its performance in the World Tournament was far inferior to Shi Yu's other pets.

Compared to the Green Dragon and Baby Ginseng that killed totems and the Iron-eating Beast that defeated the Enfeeble Divine Spirit, its battle record of possessing Shi Yu had only killed an invincible overlord.

The greatest function was to possess a Beast Tamer.

Compared to other divine beast teammates, as a heroic spirit, it was severely affected by its previous life, and the upper limit of its growth was also relatively low.

Moreover, as a heroic spirit, even if it broke the contract, it wouldn't betray the Beast Tamer. It was a life and death binding. Therefore, it was very likely that the sword spirit had been broken by Shi Yu and eliminated, replaced by the current mechanical Illusion God, the Earth Divine Dragon, and the Abyss Demon Duck.

At this point, everyone felt that they were close to the truth. They couldn't help but feel pity for the sword spirit. Poor sword spirit. It was clearly very strong, but the pets later were even more monstrous.

"What are these guys imagining?" President Lin Xiao noticed that in the huge venue, even Legendary Wex Yi fell into deep thought. His expression kept changing, as if he was guessing something. He couldn't help but be stunned.

That made sense...

If Shi Yu had not told him in advance, he would definitely be equally stunned.

It was an extremely pity to break the contract of Shi Yu's pets.

But was there a possibility that Shi Yu had not removed any of them, but obtained a contract slot that was different from ordinary people under the blessings of the World Tree??

Double contract slot!

Perhaps even the legends of the previous three worlds didn't have this treatment.

"Star God Vulture, Starlight!"

While everyone was still guessing which pet had been eliminated by Shi Yu, the battle had already continued. President Monkalov was indeed experienced. Just now, he looked extremely weak, but in the blink of an eye, he was enough to assist the Star God Vulture in the battle with all his might.

Boom!!!

A huge star soul possessed the Star God Vulture. It let out a long roar. As it expelled the black rain that corroded energy and attacked its body, it summoned starlight, wanting to disperse the dark sky wave rain from the source.

"Jiu!!!!!!!"

In terms of Skill proficiency and various Stats, the Star God Vulture was still better. At least, it pulled open two small steps, so with the experience provided by Little Ji, this time, as soon as Duckie came up, it activated the peerless mode, Abyss Liberation!!

It didn't want to be tortured by the other party in its normal state.

Little Ji's Cataclysm also needed to warm up to increase its control over the Skill, but it didn't need it!

Firstly, it was because the core of the move was all gathered in the body and wouldn't cause too much damage to the outside world. Secondly, it had moves that restricted quasi-divine skills.

Bang! Bang! Bang! Bang! Bang! Bang!

The Star God Vulture discovered that it could immediately disperse the dark clouds. However, with a strange thumping sound, it let out an ominous roar and circled in the sky, discovering that the dark clouds were even stronger.
