

Beast 121

Chapter 121: The Final Ranking Battle Begins

Although he said that he didn't care, Shi Yu still felt a little sad when he saw his exciting videos.

"At that time... Why didn't I prepare more?"

Until now, Shi Yu still stubbornly believed that their cooperation was pretty cool.

Sword kinesis, wasn't this more handsome than beast taming?

But the problem was that his clothes and behavior didn't match at all.

He was riding a panda and wearing a panda short-sleeved shirt. He was using a wooden sword to fight the enemy, so he looked a little strange.

What Shi Yu wanted the most now was not to delete the video, but to regret not wearing some strange clothes back then.

If he were like other candidates and wore some strange clothes, the contrast might not be so high now.

"Learn from this lesson. Be careful next time."

Shi Yu turned off his cell phone and found an empty place to enter the ruins.

At that moment, he only wanted to enter a weakened state through adding points to numb his brain. Then, he wanted to hold on until the competition began..

He had agreed not to add points, but Shi Yu didn't want to go anywhere now.

...

Ancient Capital Arena.

Although the exciting episode of the survival assessment just now was very interesting and worth analyzing, the most important thing now was still the assessment.

As the assessment time arrived, battles had already begun everywhere in the venue.

For a time, the sounds of battle in the huge venue shook the sky and earth, and the roars of pets were endless.

"Roar!!!!"

"Wuu!!!"

In any arena, extraordinary creatures with outstanding races could be seen fighting each other.

At the various rings, examiners stood solemnly at the side. Among these new vocations, only a few could control the battle situation well. Most of the time, the examiners and judges had to judge the winner.

"Excuse me, can I interview you?"

After an examinee left the assessment area, they were immediately pestered by the media.

The various media outlets began to look for candidates for interviews.

Only a reporter team walked pessimistically among the audience, looking for something.

“No, no. Looks like Shi Yu didn’t come.”

After the survival trial ended, the female reporter and the cameraman who interviewed Shi Yu were abnormally regretful.

She remembered how she said to “delete this part”. The female reporter wanted to slap herself.

How could they know that the random passerby they found would be the super hot topic examinee in the future...

“Ahhh—”

It was not only them. At this moment, many financial groups and even other top-level institutions were searching for Shi Yu.

Although Shi Yu had already decided to enter the Ancient Capital University’s Department of Archeology, they had to at least try to get him.

These were adults, after all. If they couldn’t get Shi Yu, that meant one thing... Their offer wasn’t good enough.

Currently, the 16 seeded examinees were the main targets of the various large factions.

Of course, the remaining 700 or so examinees were also not to be missed.

On the first day, the ranking assessment was carried out in full swing.

In a remote corner not far from the arena, in the ruins bead, Shi Yu silently added points to recuperate.

The next day, the ranking battle reached its most intense moment.

Shi Yu was still lying flat and resting.

On the third day, excluding the seeded candidates, the top 16 of the ranking battle were announced.

Shi Yu finished increasing his points and the recuperation ended.

He was like a wuxia cultivator in isolation from the outside world. He would occasionally go out to eat and look at the progress of the ranking battle on his cell phone. As for his own news, Shi Yu didn’t click on it at all.

“Alright...”

Shi Yu browsed through the information on the candidates who advanced as well as the seeded candidates.

There were a total of 32 people. There seemed to be 30 people who had commander-rank pets?

Only he and a Gu Master named Miao Dongdong had transcendent pets.

However, although Miao Dongdong's pet was of a transcendent race, it parasitized the corpse of a monarch species creature. It was also a cheat.

After seriously reading the current known information, Shi Yu began his final preparations.

After three days, Eleven didn't change much, but the changes in Buggy weren't small.

Green Silkworm

[Level of Growth]: transcendent

[Skill]: Worm Silk (MAX), Absolute Sleep (expert), Illusory Phantom (expert+4), Deterrence / False Dragon Might (proficient), Super Sight (proficient), High Speed Healing (proficient)

Shi Yu also taught it super vision and high-speed healing.

High-speed healing and supervision were both intermediate-level skills. With supplements, the pressure to teach wasn't high unlike high-level skills.

During the ranking battle, due to the restriction of the rules, Buggy couldn't use the Ice Dragon Whiskers. It could only use a level-three ice-element energy crystal that Shi Yu had bought. However, using this and transforming into an Ice Dragon wouldn't be able to unleash much strength.

It was probably only within the medium range of the commander race.

This way, even with Eleven protecting it, if it encountered any accident... Buggy would be in great danger. After all, its physical fitness was really weak.

Therefore, for the sake of the worm's safety, Shi Yu arranged for it to have super vision and high-speed healing skills. He even specially upgraded them to the proficiency level. After all, entry-level skills definitely had many flaws and weaknesses, so they were easy to counter.

With more skills, Shi Yu felt much more at ease.

...

Until August 10.

Shi Yu only appeared at the most critical moment of the professional assessment ranking battle.

This time, he changed into a black and red battle suit, even wearing a black cap and black sunglasses. His aura changed drastically.

Now that he was a celebrity, in order to not be harassed by the reporters, he should pretend...

"Uh, you are..."

In the examination candidates' passageway outside the arena, the security personnel looked at Shi Yu with a stunned expression. Why was he dressed so strictly?

"..." Shi Yu took off his sunglasses slightly, took out his candidate certificate, and showed it to the other party.

The security personnel immediately widened his eyes as if he had seen his idol.

“You’re Shi Yu...”

“My eight-year-old daughter likes your performance! Please do your best for the assessment.”

“I’m curious. Are you still going to fight today’s assessment yourself?”

Shi Yu: “???”

Shi Yu: “???”

Today was the last day of the ranking battle assessment.

According to the rules, the top 32 contestants today were to have their ranking completely determined!

There were several battles in a row without any rest.

After a battle every day, they would have to rest for a day or two. This was showbiz.

There was no need for such a performer in the professional field. Though, what was needed was an elite Beast Tamer with strong resistance abilities. Without stamina and energy eight times a day, it was as if one had kidney deficiency and would not be suitable to be a professional Beast Tamer.

After all, if another disaster really happened in the future, professional Beast Tamers would face high pressure. No ferocious beasts would give the enemy sufficient time to rest.

However, in order to be relatively fair, after every battle, professional medical staff would still provide supplements, medicine, and treatment services, helping examinees and pets recover to their peak state as much as possible.

“Have you seen Shiyu?”

In the arena, Zheng Yingjie, the head of the seven archeological elites, asked.

Although the viewing spots for the vocation assessment were an internal invitation system, they originally did not have the right to come, but they treated Director Li to a meal, after all...

In any case, the arena was very large, so they successfully joined the student recruitment team of Ancient Capital University.

This meal wasn’t for nothing...

“I understand. It’s social death. If it were me, I would definitely escape from Planet Blue overnight and go to the Moon to live.” Lin Yu’er smiled secretly.

She really wanted to know how Shi Yu had suddenly escaped from the research institute... He was too good at it!

“He said he’s already here.”

Senior Panda looked at the message on her cell phone and said, “He should be in the prep room.”

“As long as he’s still alive. I thought Junior had taken his own life.” Qi Yingjie and the others nodded.

It was not a big problem if he could still participate in the final assessment.

As the saying went, youth was wasted if you didn't do stupid things. Everyone had gone through this before, so they understood.

With that said, everyone looked at the surrounding audience and discovered many important figures.

Although the ranking battle of the vocation assessment was essentially a competition, the current atmosphere was not like that of a regular competition.

There were no VIP guests or commentators, only candidates and examiners participating in the battle.

Regardless of the identity, background, or strength of the audience, they would find a place to watch the battle themselves.

Be it the student recruitment instructors of the nine academies, the representatives of the five major consortiums, or the officers of the Beast Tamer Corps... The members of many factions were all sitting obediently in their seats, watching the big screen in the main venue.

Among the people from the nine great academies, the audience from Ancient Capital University who came to the scene was the most important.

After all, Ancient Capital City was the home ground of Ancient Capital University. Most of the Beast Tamers who came to Ancient Capital City to participate in the vocation assessment would also choose Ancient Capital University or related businesses.

Therefore, the recruitment instructors from the other colleges were purely here to gather information and see if they could find an opportunity to scout people.

On the seats of the Ancient Capital University, the Dean of the admissions office, Lu Dongsheng, and a group of student recruitment mentors were all here. Apart from the regular customers of the vocation assessment, Dean Li of the Archeology Department, Teacher Ding, and a group of members led by the beast-eared girl White Brook also came to join in the fun.

Lu Dongsheng looked at the group helplessly. He knew very well why they had come.

"Haha, Student Shiyu was internally decided by our Archeology Department. Dean Lu, you don't have to help other departments to dig people up. I know you have a good relationship with Old He from the Battle Department," Director Li said with a smile.

The corners of Lu Dongsheng's mouth twitched. He had indeed asked him to help recruit Shi Yu to the Battle faculty if he had the chance, although the chances were indeed not high.

Shi Yu's archeological discovery of the evolution of the iron-eating beast was no secret to some leaders in Ancient Capital University.

"I know, I know."

Dean Lu smiled and shook his head. He didn't intend to trouble himself on this matter. The mission of their enrollment was not to serve a certain department and target a certain person, but all of them.

They wanted to try to invite the 700 new professional Beast Tamers to study at Ancient Capital University.

Only if the students were outstanding enough could these top educational institutions obtain more education funds, then become more comprehensive and stronger, and finally attract more outstanding Beast Tamers. This was a positive cycle, and they couldn't fall behind any year.

"Big Sister, is it really good to slack off to watch the assessment?"

On the Ancient Capital University side, apart from the Archeological Seven Elites and the others, some people from the battle club had also come.

Faced with the other members' questions, White Brook rolled her eyes and said, "Who asked you to come along? When we go back, our training will be super doubled."

Everyone: "?"

"I have to think of a way to trick Shi Yu into joining the battle club." White Brook looked at the screen again. That day, after White Brook saw Shi Yu's video performance, she was silent for a long time.

As expected of someone she had taught. Her battle style had been deeply imparted to him, and he was a malleable talent.

White Brook had the urge to drag Shi Yu to various places to compete after he entered school.

In any case, how could there be so many ruins for Shi Yu to explore during his university days? It was better to nurture his strength first and follow them to compete.

Well, only by nurturing Shi Yu's battle power could Shi Yu be a better tool for Senior Lu. There was nothing wrong with that.

Apart from these people, there were also many important family members of the examination candidates.

For example, Yu Shu's mother, the top-notch Dragon Tamer, was quietly smoking in the corridor, waiting for the assessment to begin.

There was also Legend Yin, who was very concerned about his son, standing calmly on the high platform of the venue with an old friend, looking down quietly.

Every candidate had a separate prep room.

At this moment, Shi Yu had experienced many difficulties and finally arrived at the prep room. He felt exhausted.

It was too difficult.

The pains that he had taken to come all this way... It was one thing to be wary of passers-by and the media, but why did the assessment staff also climax when they saw him?

He even said, "You're the idol of my eight-year-old daughter. My daughter thinks you're very handsome." He directly forced Shi Yu to comprehend the Earth Escape skill, almost using his toes to dig out an escape path.

Shi Yu sighed slightly and looked at the supplements, medicine, and nutritional supplements filling the prep room. Then, he shook his head and finally looked at the most critical small television.

The opponent matching in the assessment had not been updated...

The other 31 candidates were probably waiting outside, looking at the big screen outside. However, Shi Yu was out of place. In order to avoid trouble, he hid in the prep room and waited.

...

8 a.m.

In the main venue, as the assessment time approached, the main examiner, Master Qu Jie, appeared again.

After he appeared, the assessment was about to begin. The thousands of spectators present looked at the big screen in the venue.

At this moment, the screen was playing the exciting battle episode of the 16 candidates who advanced in the previous ranking battle.

These 16 people were also very outstanding, not much inferior to the seeded candidates.

Those who couldn't be chosen as seeded candidates might lack some luck, such as luck that was heavily edited by the Heavenly Eye...

After three days of screening, 752 candidates had already obtained the approximate ranking of their vocation assessment.

Today was the last day of the assessment. Among the 768 candidates at the start, the 16 candidates who had broken through the tight circle would fight the 16 seeded candidates at the start of the ranking battle.

The rules were mainly based on the elimination system. The winner would advance, and the loser would carry out the subsequent ranking competition.

At the moment, as the final cycle of the battle album ended, the scene on the screen immediately changed. 32 names appeared and constantly rolled and combined.

"According to tradition, the advancement candidates and the seeded candidates should face each other first."

At the candidate area, Yu Shu leaned against the wall with his arms crossed and curled his lips. It didn't matter to him. He only wanted to hit Shi Yu now.

"Huh?"

Just as Yu Shu finished thinking about it, a name suddenly appeared on the big screen, accompanied by a half-body photo.

Shi Yu!

Two big words appeared in everyone's vision.

“It’s him?”

After discovering that the first candidate today was actually Shi Yu, everyone revealed excited expressions.

The effect of the opening assessment was explosive!

Furthermore, under Shi Yu’s square name, everyone was immediately amused when the photo of him riding a panda appeared.

“F*ck.” In the prep room, Shi Yu looked at his profile picture and his face darkened.

When would this end?

They arranged for him to be first and even used this as a profile picture. Shi Yu refused to believe that they weren’t plotting something.

However, it was indeed what everyone hoped for.

“Holy shit, it’s an Iron-eating Beast Knight.”

Towards Shi Yu, the thousands of spectators present were not unfamiliar.

The candidates who had been eliminated in the survival trial and the candidates who had completed their rankings looked at Shi Yu’s profile with complicated feelings.

After analysis, Shi Yu was indeed strong... But it was still a little painful to be weaker than such a guy.

In this day and age, not only were honest people bullied, ordinary people also had no future?

“Shi Yu...”

Now, with the appearance of Shi Yu’s name, the eyes of the remaining 31 candidates flickered. They wanted to meet Shi Yu, but they also didn’t want to meet this fellow too early.

But before they could think about it carefully, Shi Yu’s opponent’s name immediately rose up as well.

One of the 16 candidates for advancement, Han Dong.

Upon seeing this name, everyone immediately recalled his information.

Beast Taming Space level, level two.

Beast Taming Talent, Frost Strengthening.

Pet beast, low class commander species Frost Tree, high class transcendent species Ice Elemental Sprite.

In the basic test, the Frost Tree’s energy level was 1,300.

“...” At this moment, this candidate named Han Dong was standing at a corner of the venue in silence, staring at the big screen.

Speaking of which, he and Shi Yu also knew each other. On the plane to the destination of the survival assessment, the two of them were neighbors.

Now that he was facing Shi Yu, he had a strange feeling.

“Next, please head to the home ground. The assessment battle will officially begin in five minutes.”
Below the venue, Master Qu Jie’s very penetrating voice sounded in the arena.

Next was the battle of the best 32 people in this batch’s vocation assessment. The judge would be personally held by him, a top-notch master. Not only did he have to ensure that the Beast Tamer was not injured, but he also had to ensure that their pets could be safe and sound.

...

“This Han Dong... the trump card is probably that high-level transcendent Ice Elemental Sprite.”

Some of the audience present began to review the battle video from before.

In the video, a frost tree stood on the arena with dozens of ice-element sprites surrounding it. The scene was abnormally spectacular.

Opposite them were opponents who had already become incomplete ice sculptures.

Although the species level of that Frost Tree was higher, that Ice Elemental Sprite was his initial pet and trump card!

The other party probably used some ice type spirit item on the Ice Elemental Sprite to let it learn the “elementalization” ability that only elemental creatures could master after commander rank. However, because of the item, it could do so before commander rank.

Elemental creatures with the ability to elementalize could be greatly immune to some attacks. At the same time, they could have better control of their own attributes. This was a very impressive talent of elemental creatures.

On the home ground, Han Dong, who was wearing a blue battle suit, had already arrived. After greeting the main examiner, Judge Qu Jie, he stood quietly at the side and waited.

“Where’s Shiyu?”

After Han Dong appeared, Shi Yu didn’t appear for a long time. The audience began to feel puzzled.

They looked at the candidate passage, wondering if Shi Yu would come out on the iron-eating beast later.

But clearly, they were thinking too much.

A moment later, a handsome young man in a black and red battle suit with clean black short hair and a calm expression walked slowly to the arena. There was nothing strange about him.

The thousands of spectators felt that it was very normal.

But because it was too normal, it didn’t match his previous style, so they felt that it was even more abnormal.

Handsome, who are you?

What about Shi Yu, who was riding an Iron-eating Beast?

Shi Yu walked to the assessment venue like a quiet pretty boy. After nodding slightly at the judge and opponent, he also quietly waited for the assessment to begin.

His whole body tensed up, and his expression was stable and expressionless. He tried his best to not say a word and not let others find any flaws.

“Cough.”

Master Qu Jie and Han Dong looked at Shi Yu, who had suddenly returned to normal with strange expressions and seemed to have no reaction to what had happened previously, and felt strange.

Not only them, but everyone from Ancient Capital University and the audience also looked at Shi Yu in silence.

What was wrong with this guy?!

“Where’s your sword?”

On the other side, Han Dong couldn’t help but ask.

He really hoped that Shi Yu would still act cool this time.

Because in that case, the pets needed to be more careful to protect Shi Yu.

With Shi Yu, the Beast Tamer, as the target, no matter how strong Shi Yu was, as long as the judge determined that Shi Yu was in danger, victory would be his.

In a normal battle, he really didn’t have much confidence. No matter how low the level of Shi Yu’s two pets was, their skill proficiency was terrifyingly high.

He was convinced that low and intermediate skills with high proficiency wouldn’t affect them.

After all, the Iron-eating Beast and the Green silkworm didn’t seem to be able to cooperate. Moreover, Shi Yu himself had the gift of telepathy, so he couldn’t suddenly increase the battle power of his pet.

But his Frost Tree and Ice Elemental Sprite were different. In addition, with his talent increase, it might not be impossible to fight.

“...” At this moment, Shi Yu wanted to say that he didn’t need to use his sword to deal with him, but these words were something an eighth grader would say. He was afraid that he would be recorded and made into an emoji again.

“Beep!!” After a moment of silence, Master Qu Jie whistled, and Han Dong’s expression became serious.

At 8: 10 a.m., the first round of the assessment officially began.

“Beep!!!” Master Qu Jie blew the whistle to open the battle beginning again. In an instant, Han Dong’s expression became even more serious. He also knew Shi Yu’s terrifying strength. The moment the battle started, the ice elemental energy around him surged, instantly activating his frost strengthening talent!

Hu hu hu!!!

Right on the heels of that, under the condensation of the snow and wind, a creature that was three to four meters tall and looked like a pine tree, but its body was as white as frost. The tree crown was fluffy like a blue ice cloud as it took root in the frozen area and appeared outside.

In addition, inside the Frost Tree, a lump of ice-blue crystalline creature that looked like a nine-pointed star floated. The Ice Elemental Sprite also revealed its figure.

Frost Tree

[Attributes]: Ice

Skills: Cold Breath, Blizzard, Snowfall, Ice Block

[Name]: Ice Elemental Sprite

[Attributes]: Ice

Skill: Snow Concealment, Clone, Self-Explosion, Ice Ray, Elementalization

Swoosh! Swoosh! Swoosh! Swoosh! Swoosh!

The moment the two pets of the Han Dong appeared, the Ice Elemental Sprite, which was like a frost nine-pointed star, immediately elementalized and condensed into dozens of clones that densely circled around the frozen tree and merged into the snow. It was impossible to tell which was the real body.

On the opposite side of the Han Dong, on Shi Yu's side, the summoning array appeared. A one-meter-tall Little Iron Eating Beast stood on the field, and a green worm lay on the head of the Iron Eating Beast. The two pets stared at the ice and snow in front of them, their expressions as calm as Shi Yu's.

"Who can win?"

In the audience, an examinee who had lost to Han Dong looked at the venue intently.

Because he had fought Han Dong before, he knew very well how terrifying this fellow was.

There was no solution.

That Frost Tree, which seemed to have a higher racial level, was actually the charger of the Ice Elemental Sprite. As long as the Frost Tree kept creating snow and wind, the Ice Elemental Sprite that could elementalize could always have an almost immortal physique. Together with the clones and self-destruction, it made the clones charge at the opponent like a suicide squad. It was simply disgusting.

With the slowing and freezing effect of the frost, it was a nightmare for melee pets.

"Isn't it obvious?" Another candidate sitting beside this candidate muttered.

"What do you mean?"

"Transcendent Level Hardening, Perfect Level Thunder Palm... Isn't this a crushing proficiency? Also, you don't really think that the proficiency of their other skills will be low, right? You don't think that the deterrence skills displayed in the video can only deter the enemy but not cause any damage, right?" Bai Qi looked at him and said.

If not for cooperating with Shiyu's posturing, the mental deterrence that appeared in the video would probably be enough to instantly kill all opponents!

Bai Qi, who came from Icefield City and had competed with Shi Yu for the Evolution Sacred Spring, whose initial pet, Wings of Wind, was instantly killed by Shi Yu's Iron-eating Beast's monarch aura, looked at the arena with a mocking gaze.

With the charger's support, a large number of clones self-destructing tactics that could allow unlimited revival?

It was alright to deal with ordinary candidates, but against a monster like Shi Yu...

On the venue.

The candidates had just summoned their pets.

Facing the powerful combination of the Frost Tree and the Ice Elemental Sprite, Shi Yu was still expressionless. Eleven and Buggy were also extremely calm.

In the next moment, Eleven raised its head slightly and looked at the Ice Elemental Sprite and the tall Frost Tree. Buggy closed its eyes slightly and yawned.

This seemingly ordinary action suddenly caused the ice and snow around the Frost Tree and the Ice Elemental Fairy to change shape!

Wu wu wu wu!! The cold wind that was still howling just now seemed to be whimpering at this moment. It was extremely chaotic!

Boom!!!

In an instant, a huge mental deterrence spread from the Little Iron Eater and the Green silkworm. At this moment, a huge frost dragon phantom seemed to have formed behind them!!

"Hou!!!!!!!"

Buggy directly conjured the dragon's might of the frost dragon. The terrifying spiritual deterrence wave was almost physical. On the dragon's might, there was an even more terrifying spiritual deterrence, like a roaring tsunami, covering the sky and covering the earth around the dragon's might, pushing it towards the ice and snow ahead...

Buzz!

In the next second, two fused spiritual deterrence suddenly swept across the Frost Tree and nearly a hundred Ice Elemental Sprites. Then, with a bang, the venue shuddered from the thunderclap. Countless Ice Elemental Sprite clones exploded. The snow and wind triggered by the appearance of the Frost Tree and Ice Elemental Sprite almost instantly returned to calmness, and the venue was instantly peaceful.

Shi Yu raised his head slightly and looked at the extremely weak Frost Tree, which was unable to move anymore, and the remaining Ice Elemental Sprite that fell weakly onto the tree. He knew that the victory and defeat had been decided.

He took another look at Han Dong with an explosive expression and finally looked at Master Qu Jie, who was slightly agape.

“Can I go now?” Shi Yu asked.

The aura of an expert level deterrence!

Coupled with the frost dragon’s dragon might!

This kind of ice-type creature was not a match at all.

After a moment of silence, Master Qu Jie looked at the speechless Han Dong and nodded.

“Shi Yu advanced in the first round of the assessment!”

As soon as he finished speaking, Eleven and Buggy’s figures disappeared on the field. They were summoned back to the Beast Taming Space by Shi Yu. Then, Shi Yu’s expression was calm as he slowly left the field under the shocked expressions of thousands of people.

It was completely different from what everyone imagined the Panda Knight to be.

At this moment, everyone suddenly recalled the battle just now and couldn’t help but show shocked expressions.

Sixteen elite Beast Tamers who had advanced from more than 700 new professional Beast Tamers... He couldn’t even last one round against one of the seeded candidates, Shi Yu, and were insta-killed?

“King’s aura?”

“That’s... Dragon Might?! How is that possible!!”

At this moment, the venue erupted.

“He... He... He...” The Archeological Seven Elites pointed at Shi Yu in a daze. Expert-level deterrence, dragon’s might? What was going on?

“Calm down.” Sister Panda learned about it earlier than everyone else. Eleven was expert level in deterrence, and Eleven had mastered it before the transcendent level. As for Dragon’s Might... Shi Yu had told her about the use of the Moonlight Powder.

After all, only a small number of people knew about the aura of a monarch. At this moment, as Shi Yu displayed this godly skill of demolishing weaklings, many master-level figures fell silent again. The members of the Battle Club from Ancient Capital University were almost collectively shocked. There were also 30 other candidates whose pupils constricted.

Among them, only a small portion of the seeded candidates quickly recovered their calm after being shocked by the expert-level deterrence. Obviously, they had ways to resist. It was just Han Dong, so of course he was insta-killed.

At this moment, in the noisy venue, Shi Yu’s footsteps were even faster.. From this match, he had to quickly correct the stereotypes these people had of him... With the image of Panda Knight gone, he wanted to take the Newcomer King persona in the ancient capital!

Chapter 122: Wuji Airlines Is Here

"It's so difficult..."

In the candidate passage, Shi Yu could not hold it in anymore after arriving.

It was too difficult to pretend to be aloof!

He still liked to chat with his opponent before the battle and communicate with them. After the battle, he would shake hands with his opponent's pet to show his friendliness.

Pretending to be cold and aloof didn't fit the overpowered character setting.

In the passage, Shi Yu rubbed his face with both hands.

He was too tense. He should relax first.

"Shi Yu..."

At this moment, a voice suddenly sounded. Shi Yu's face immediately tensed up again.

He looked beside him mechanically and turned around with a calm expression. "What's the matter?"

It was a tall and sturdy middle-aged woman in a floral dress. Shi Yu saw the examiner's sign on her chest and understood her identity.

"I'm one of the examiners of this vocation assessment and also a medical staff member of this ranking battle."

The auntie grinned and looked at Shi Yu in appreciation.

"Follow me, I'll take you to the treatment."

She was also one of the nine master examiners this time. She had been paying attention to Shi Yu since the third assessment.

It was rare to see such a beautiful young man who was not restrained by trifles and had changes in personality. This reminded her of her first love.

"...Thank you, but no need for now."

"My pet didn't suffer any injuries or consumption in this battle. It just needs to recover with the nutritional supplements in the prep room."

Shi Yu sensed the enthusiasm of the master examiner and immediately said that he would definitely do it next time.

"I see." The medical examiner was rather regretful.

It seemed like it. Shi Yu was not injured at all in this battle.

"Don't you need to look for that Han Dong?" Shi Yu asked.

“That makes sense.” The examiner was stunned, then nodded and said, “Then I’ll wait here for him to come.”

Shi Yu :”...”

In this day and age, the people who should be taken care of the most were taken seriously.

Why?

However, at this moment, Shi Yu kept feeling that he had missed an opportunity to encounter a rare healing ability...

But it didn’t matter. It was still enough to injure Eleven in the next battle.

Eleven in the Beast Taming Space:???

...

Inside the venue.

The audience was still in shock.

Regarding the strength of the seeded candidates, the info might be limited to video.

But Han Dong and the other advanced candidates were ruthless people who killed their way out of more than 700 candidates under everyone’s eyes.

Then, such a big boss was insta-killed in a single move. Were Shi Yu and the others monsters?

“How can an extraordinary Iron-eating Beast master deterrence? And it’s an expert-level deterrence...”

“Isn’t the most ridiculous thing that should be that green worm? Dragon might, dragon might!”

“Moreover, judging from its aura, that green worm’s growth level has also reached a transcendent level!”

“This doesn’t make sense. How can a Green Silkworm be like this? I would even believe it if it was a young Green Dragon.”

“But one thing is for sure, it’s really similar. Maybe it’s really a dragon cub... Could it be a hybrid pet of the insect and dragon family?”

“Bullshit, there’s reproductive difficulty between the bug and dragon types, alright?”

The audience was very noisy.

The Iron-eating Beast that had mastered the aura of a monarch, the transcendent-level Green silkworm that had mastered the dragon might... At this moment, the thousands of candidates in the venue were all numb.

Even some master-level Beast Tamers couldn’t understand.

“F*ck.” In the crowd, Yu Shu’s eyes were red. Shi Yu really gave the Dragon Soul Grass to the Green Silkworm to use?

A proficient level dragon's might... Three days, heavens!

His expression darkened. Even if Shi Yu didn't have any high-level props, he still didn't know how to resist the dragon might and king's aura.

"Mom should be at the scene! I have to find her quickly to get a piece of mental equipment..."

This time, the new skills Shi Yu displayed in the video stunned most of the audience.

Yin Zhengfan and the others were a little silent, including big shots like Master Qu Jie. However, the assessment still had to continue. Being expert level in deterrence wasn't impossible.

At this moment, the second round of the assessment connected seamlessly.

Everyone looked at the target of the second assessment.

Seed candidate Fang Ji vs advanced candidate Li Hanfei.

According to the updated rankings, Shi Yu should be fighting the winner among them next.

...

In the prep room.

Shi Yu summoned Eleven and Buggy and let them eat the nutritional supplements in the room to replenish their energy.

Eleven and Buggy each carried a bag of "snacks" and stared at the small television as intently as Shi Yu.

From here, one could also see the battle situation on the home ground. It was a live broadcast.

Although it wasn't as clear as the real world, they could make do.

"Wuu!!!" "Ji!!!"

As they gobbled the snacks, Eleven waved excitedly.

When it saw the television, it wondered if it had not recorded their performance just now.

Buggy looked forward to it too.

Also, now that they had used up power to bully others, could they arrange for the next battle to showcase Wuji Airlines?

"I don't know."

Shi Yu was also bored and ate the low-level supplements in the prep room like candy as if it was the most normal thing to do.

It was obvious how bottomless Shi Yu's physique was.

"I asked... Senior Lin Xiuzhu to help. I wonder if she helped you guys film it."

It was too ridiculous for him to take the photo. He had taken the wooden sword in the survival assessment, and if he brought a camera to the arena... He guaranteed that he would make the headlines again.

“Wu!!” “Ji!!!” Hearing that someone was in charge of filming, Eleven and Buggy relaxed.

However, in the next second, they looked at Shi Yu.

(◉•◊•◉) What about Wuji Airlines?

They looked at the venue. It was open-air, and the sky was blue.

This was also to give some flying pets enough space to play.

But now, it seemed that Eleven and Buggy were very satisfied.

“This strategy...” Shi Yu looked at the small television.

“It’s not impossible.”

On the screen.

A two-meter-tall, ferocious-looking, and huge red Tortoise was standing in the arena.

There was also an illusory snake floating around it.

[Name]: Anti-Injury Black Tortoise

[Attributes]: Earth, Fire

[Race Level]: Mid-level commander

Skill: Thorn Fire Armor, Explosion Shield, Earth Chain, Earth Protection, Berserk

< Name > Illusory Serpent

[Attributes]: Spirit

[Race Level]: High Transcendent

Skill: Spiritual Fang, Spiritual Protection, Phantom, Spiritual Wave

Obviously, from the perspective of the pet race, this candidate was very shameless.

The Anti-injury Black Tortoise was a rare species that didn’t have active attack skills. It could only activate Enrage when it was bleeding and obtain powerful attack power.

However, although it didn’t have the ability to take the initiative to attack, its Thorny Flame Armor and Explosion Shield skills were all disgusting. Not only could it increase its defense, but as long as the opponent attacked it in close combat, it would reflect part of the attack back and deal stronger damage to the attacker.

On the other hand, in the face of the various defensive and recovery skills of the black tortoise that were far superior to the attack, the opponent also had to consider whether it could break through the defense and which party had more stamina and faster recovery speed.

After all, the Earth Chain was a skill that allowed the damage reflection technique to connect to the ground and use the power of the earth to recover its physical strength. The Earth Protection was similar to Impregnable, and it was a very comprehensive skill that increased defense...

Therefore, at the same level, very few pets could defeat the black Tortoises and injure them. Therefore, in nature, these pets had no natural enemies at all.

As for the illusory snake, it was relatively weak. However, it could attach itself to the Tortoise shell to attack the enemy. Under normal circumstances, it was impossible to catch it.

These two pets were the pets of the seeded candidate Fang Ji. At the moment, his opponent, the other advanced candidate, Li Hanfei, was extremely disgusted.

Her Mighty Strength Golden Armor Bug and the Fei Luo Vine that specialized in control skills couldn't do anything to the black tortoise.

"Looks like this Fang Ji is going to win."

Shi Yu couldn't help but shake his head when he saw that the girl named Li Hanfei couldn't break through its defense the whole time. Then, she was slowly destroyed by the anti-injury skill and the illusory snake hiding in the shell.

He couldn't blame this candidate named Fang Ji for having a disgusting battle style. He walked the defensive consumption route, after all.

This kind of tactic was actually the easiest to crack. Just have an even higher defense and power.

Of course, it was easy to say, but most pets couldn't do it...

Actually, there was another way to crack it.

In the end, this girl called Li Hanfei could no longer tolerate it. She directly took out a dagger and took the initiative to attack Fang Ji personally under the cover of the Vine, planning to directly control the Beast Tamer.

If one could directly attack the Beast Tamer... After all, the Beast Tamer himself could also participate in the battle. This was allowed by the rules.

However, in the previous ranking battles, very few Beast Tamers were used to doing this. Their mentalities clearly hadn't changed completely.

This girl was one of the few Beast Tamers who took the initiative to do this. Unfortunately, the moment she approached Fang Ji, she was stopped by an invisible barrier.

The Earth Protection that injured the black tortoise could be used on all life forms standing on the ground, including the Beast Tamer himself.

After losing the first attack, Li Hanfei, who had entered the battlefield, was instantly entangled by the illusory snake flying over. She was so scared that Li Hanfei's face turned pale.

"I admit defeat." She didn't want to fight anymore.

“Thank you for letting me win,” Fang Ji said to the pretty girl in front of him with a smile.

The illusory snake didn’t continue attacking.

Killing someone was against the rules. He didn’t have the habit of ruthlessly destroying a pretty flower.

“If we also attack Beast Tamers, I reckon that our next opponent will probably have to find some mental equipment at the last minute.”

Seeing this battle, Shi Yu chuckled.

Otherwise, even if the pets could defend against the deterrence, those Beast Tamers themselves would probably find it difficult to resist.

Of course, even if he knocked out the Beast Tamer himself, it wasn’t the end.

At most, it would make it impossible for Beast Tamers to use their talent to power up their pets. If the pets in the outside world weren’t dealt with, it still wouldn’t be the end of the battle.

After all, some pets that had established bonds with Beast Tamers knew who their enemies were.

Therefore, very few candidates in the assessment took the risk to attack the Beast Tamer themselves. They would win if they directly defeated their pets.

“Why don’t I use this guy to test the Ji Changkong battle strategy?” Shi Yu said.

The other party had Earth Protection and Spirit Shield skills that could be stacked to defend against Deterrence. The chances of insta-killing it were not high, at most it could cause a certain amount of Spirit damage. Since it couldn’t be instakilled, it was better to change tactics.

“Wu!!” “Ji!!!” Eleven and Buggy’s eyes lit up. They felt that it was alright!

“Eleven, prepare to be injured. We’ll receive master-level treatment later. Don’t heal all your injuries in one go after the battle.”

Eleven:???

So, its high-speed healing was just a decoration?

Eleven was angry.

...

In the outside world, the battle between the seeded candidates and the advanced candidates was especially intense.

However, the battles made the candidates discover a ridiculous fact.

One, two, three...

After seven or eight consecutive matches, there was still no candidate who could defeat the seeded candidates.

In the seventh round, the Spell Goddess Zhang Qian sent out a pet, the Thunder Cloud Sprite. Just like Shi Yu, a bolt of lightning directly completed the insta-kill operation.

In the eighth battle, Yu Shu's Soul-Armored Bone Dragon also used a Soul Fire Dragon Breath to sweep the two pets out of the arena in one go.

When it came to Yin Zhengfan, the Zonyan Rock Beast he summoned didn't even move. The Space Crystal Butterfly instantly killed the advanced candidate's pet with a spatial shackle.

They were on completely different levels.

After the sixteen battles ended, all sixteen candidates who advanced were eliminated!

The thousands of candidates in the audience fell silent almost instantly.

"The candidates who advanced actually all lost..."

Many shocked voices came from the audience.

However, some people felt that it was only natural.

"It's the same as our batch." Zheng Yingjie smiled.

"The situation in our batch was the same." The panda senior smiled.

As expected, these seeded candidates were still something.

This also indirectly illustrated the eyesight of these master-level examiners and the Eye of Heaven's Will.

You couldn't be chosen as a seeded candidate, not because you weren't outstanding enough, but because you weren't the best!

Unless some candidates deliberately hid their abilities, it was very difficult to fail the segment of the seeded candidates under the gaze of the Eye of Heaven's Will.

After all, even the Phantom illusions of Buggy and Eleven's almost passive supervision could be analyzed. The strength of these candidates was as clear to the Eye of Heaven. The skill Heavenly Eye was much stronger than perfect super vision.

...

Time flew.

The 16 battles in the first round only took slightly more than an hour, and on average, less than five minutes each.

This was still because some seeded candidates were taking their time.

Seed candidates like Shi Yu and Yin Zhengfan defeat their opponents in less than a minute.

"The second round is about to begin!"

As the first round of the assessment ended, the audience was filled with anticipation.

What did this mean?

This meant that it was Shi Yu's turn again.

Everyone wanted to see if Shi Yu was still as normal as before.

Shi Yu's name appeared on the battle map.

This time, Shi Yu appeared very quickly.

When the candidate named Fang Ji went down from the other side, Shi Yu also came out of the passage that connected to the prep room.

The two of them stepped onto the arena at the same time. Fang Ji's expression was serious and a little nervous.

The defense power of the Anti-Tang technique... could it defend against Shi Yu's Iron-eating Beast's skill?

Fang Ji started to do analysis.

"Even if his Iron-eating Beast's skill proficiency is ridiculous, it's still a pet of a middle-level transcendent race."

"Even if the Anti-Injury Black Tortoise doesn't use any skills, it might not be a problem to stand and let the Iron-eating Beast use hardening below expert level on it.

"Besides, it's not like the Anti-Injury Black Tortoise doesn't have skills. The Thorn Fire Armor and the Explosion Shield are both Intermediate-level skills that it has trained to the proficient level. In addition to the Earth Protection... and its elemental resistance strengthening talent, they might not necessarily be able to break through the defense..." Fang Ji analyzed in his heart.

His analysis made him believe it himself.

The difference wasn't that big.

However, although that was the case, Fang Ji still felt some pressure when he saw Shi Yu walk across him expressionlessly.

Considering that the rules allowed them to directly attack the Beast Tamer himself, he didn't dare to analyze it too fully. His Beast Taming Talent might not necessarily be activated. This depended on whether Shi Yu would attack him directly like that girl, and whether his two pets could help him block the deterrence!

"Beep!!!"

After seeing that the two candidates were ready, Master Qu Jie took a deep look at Shi Yu and blew the whistle again.

There was no chance. Fang Ji had no hope for this battle.

Perhaps the professional-level candidates didn't understand.

But these master-level Beast Tamers were very understanding.

In the survival trial, Shi Yu's Iron-eating Beast used the profundity combination skill of Hardening and Thunder Palm!

Just this alone could easily penetrate the defense of the black tortoise.

Now, the only thing worth being curious about was the Iron-eating Beast's own defense.

Because even if the Iron-eating Beast could injure the black tortoise, it would also have to bear a huge backlash.

This was what was strongest about the Black Tortoise the most.

"Roar!!!"

The whistle blew, and Fang Ji and Shi Yu summoned their pets at the same time.

On Fang Ji's side, there was a red black giant Tortoise and a gray, transparent, and illusory snake.

On Shi Yu's side, it was naturally still the simple-looking Eleven and the green worm on its head.

Now, no one dared to underestimate the combination of the Little Iron Eating Beast and the Green Silkworm.

This batch of candidates was too unscientific. Shi Yu's two pets had really broken everyone's understanding. They didn't understand how they were cultivated.

At the start of the battle, both parties were in a stalemate. No one attacked first.

At this moment, an unexpected scene occurred.

"Wu!!!"

"Ji!!!"

Staring at the cautious Tortoise in front and the shameless snake hiding in the shell, Eleven and Buggy denounced together.

"Wu!!!"

"Ji!!!"

"Damn, so that's how Iron-eating Beasts make noises. So cute."

Many spectators were stunned. They looked at the fat Iron-eating Beast. It was difficult to imagine that such a cute pet could instantly kill an opponent of a commander race with one deterrence.

"The cry of the green worm is also interesting." Some candidates couldn't help but smile when they saw the green worm.

"Who said it wasn't a green worm? Its cry was exactly the same as the green worm."

Although he didn't know if this was really a green silkworm, it immediately looked like a green worm. Its cry was also a green worm, so he called it a green worm.

However, how was Shi Yu going to fight this battle?

Many people stared at the arena, wanting to see how Shi Yu would crack this Tortoise shell.

“Aren’t you attacking?”

Fang Ji smiled.

Shi Yu remained silent and looked at Eleven and Buggy.

In the next second, Buggy closed their eyes slightly.

In the instant that Buggy closed its eyes, just like in the first round, something ridiculous happened on the field again.

Everyone realized that every time this green worm closed its eyes, nothing good would happen.

For the first time, as it closed its eyes, a dragon phantom hit the arena to release dragon’s might.

At this moment, the second time it closed its eyes, a pile of white light spots suddenly condensed and materialized on both sides of the Little Iron Eating Beast.

In the blink of an eye.

The Little Iron Eating Beast formed a pair of white wings.

Fang Ji was stunned.

Then, under everyone’s stunned expressions, a metal-eating beast actually swayed its wings on its back and flew up.

“Wu!!”

“Ji!!”

Eleven and Buggy were extremely excited.

“Holy shit.”

“This doesn’t make sense.”

“What’s going on?”

Many candidates looked at the Little Iron Eating Beast that kept rising into the sky and were extremely confused.

Fang Ji opened his mouth slightly. After being stunned, he was a little confused.

What was he doing?

Air battle?

However, his Anti-Injury Tortoise and the Illusory Snake were not pets that took the initiative to attack. Was there any point in fighting in the air?

They looked cautiously at the little metal-eating beast that was flying higher and higher.

One second, two seconds, three seconds... After more than ten seconds, the Little Iron Eating Beast disappeared.

Fang Ji: “?”

“Roar?” “Hiss...” The black tortoise and the illusory fish couldn’t help but stick their heads out to take a look.

Then, confusion.

What was the meaning of this?

“Letting your pet leave your side, do you want to leave the stage first?”

Fang Ji did not want to know what Shi Yu meant anymore. After he reacted, he realized that there was not a single pet protecting Shi Yu. He immediately gave the order.

He made the illusory snake attack Shi Yu directly, just like the previous one.

Although Shi Yu had no effect on the battle, and had only a talent in telepathy, the current problem was that Fang Ji really didn’t know what to do without attacking Shi Yu!

At the same time, he also wanted to force Shi Yu’s two pets to appear by attacking Shi Yu.

“Hiss!!”

Following the Beast Tamer’s command, the illusory snake was just about to attack when the sky seemed to collapse.

A terrifying mental pressure suddenly pressed down, scaring the illusory snake into quickly entering the defensive state. The black Tortoise was also instantly shocked. At the critical moment, its four skills were activated, using the Earth Protection to wrap itself and the illusory snake.

With the Earth Protection and the Spirit Protection, no matter how terrifying the deterrence aura descending from the sky was, under the continuous ripples and the difficult resistance that almost shattered the defense, the two pets finally didn’t suffer too much mental damage. It was just that their bodies were shocked until they couldn’t move and were a little soft.

Similarly, it included Fang Ji himself.

Since he wanted to attack him, Shi Yu did not stand still.

Some of Eleven’s deterrence directly pressed onto him. Even if Fang Ji had protection to increase his mental resistance, his brain instantly became dizzy and he almost fainted.

This was enough. The current Fang Ji could not use the elemental resistance talent at all.

“You dare to attack me without buying any mental defense equipment?” Shi Yu thought.

At this moment, everyone discovered that the Little Iron Eating Beast’s figure appeared in the sky again.

But at this moment, the way it appeared shocked everyone.

Where were your wings, your wings? And the green worm??

In the sky, a one-meter-long little Iron-Eating Beast the size of a metal lump directly gave up its wings at an unknown height and jumped down with its super vision.

At the same time, through deterrence, the enemy could not move and was locked on accurately!!!

The black dot grew bigger and bigger.

Fang Ji raised his head with difficulty.

Then, his eyes widened.

Eleven's falling speed was still very fast. At this moment, Eleven's speed might even exceed the explosive acceleration brought by the Perfect Level Thunder Palm!!

"Holy shit, what's this? He jumped down?"

At this moment, everyone was shocked. They didn't expect the Green Silkworm to fly into the sky with the Iron-eating Beast just to jump down.

However, at this moment, sensing the hardening Iron-eating Beast that fell like a black meteor, everyone understood the destructive power of its jump.

At this moment, the black tortoise and Fang Ji had no time to react.

It popped its head out of the shell and looked at the illusory snake that had fallen but was unable to move due to the deterrence. It immediately let out a pig-like cry.

Sensing the fear of the illusory snake, although it had its defenses, the tortoise was also stunned to the extreme.

It had been attacked by different enemies for so many years, but it had never seen such an attack pattern.

Boom!

Soon.

In an instant, the Little Iron Eating Beast that fell from the sky directly smashed into the Anti-Injuring Black Tortoise. The transcendent Level Hardening and the Tortoise's Anti-Injury Defense Skill made contact, and dazzling light immediately blossomed between the two...

Crack...

A terrifying shock wave spread out. With the Tortoise as the center, the arena immediately cracked open. With a bang, a huge hole several meters in diameter formed. The Little Iron Eating Beast and Tortoise were instantly buried in dust and gravel!!

The commotion was as if a demolition team had gone berserk.

Thump.

At this moment, the earth protection that protected the black tortoise and the deterrence of the iron-eating beast disappeared from Fang Ji's body at the same time.

His eyes widened. Because his legs were still weak, he sat on the ground in shock.

He quietly looked at the collapsed arena in front of him.

A moment later, Eleven, who had mostly recovered and only had a little injury, crawled out excitedly from the smoke.

“Wuu!!”

Although the fall hurt so much, it felt so good. Smashing people was much better than simply hitting the ground during training.

Right now, seeing that the little Iron-Eating Beast had crawled out unscathed while his own pets were still in the smoke, Fang Ji was dumbfounded. He sensed that both pets had fainted from the heavy injuries!

At this moment, all the masters fell silent.

Especially Master Qu Jie, whose mind had been raised to the extreme. His mouth was slightly agape as he looked at the messy venue. He was a little confused.

He was certain that all the Masters had guessed that Shi Yu would use the Thunder Armor Profundity Art to break through its defense and injure the Black Tortoise.

However, what the hell was with using gravity to accelerate and directly hardening it!!!

This was a battle tactic that a normal Beast Tamer could think of???

Moreover, the most ridiculous thing was that with such a huge impact, even if there was hardening protection, it had to at least respect the anti-injury skill of the black tortoise!

Everyone looked at the lively and jumping Little Iron Eating Beast and felt their stomach hurt. They didn't understand. Was this a f*cking Iron Eater?

“Wuu!”

At this moment, the Little Iron Eating Beast raised its head.

Everyone also looked up and saw the Green Silkworm slowly falling from the sky.

“Ji!”

It was indeed slow. Because it used the worm silk to make a parachute in the sky, it fell much slower than Eleven.

The huge parachute was formed by white and transparent worm silk. It was easy to engrave words in this way. On it, the worm put up the words “Wuji Airlines”.

Seeing the engraved parachute, Fang Ji's mentality collapsed.

What the hell was Wuji Airlines??

F*ck, you call this a battle tactic???

At this moment, the audience in the venue was collectively in a mess. The Panda senior who was in charge of taking photos also trembled. Junior Shi Yu wanted him to record this?

“As expected, he’s still abnormal.”

This thought appeared in everyone’s minds.

As for Shi Yu, when he saw the engraved parachute of the worm, his eyelids twitched and he was stunned.

“Damn.” He didn’t know there was such a segment. Who asked you to mess around? This strategy was already ridiculous enough, and you even announced the name?

Isn’t this harming my reputation as a Beast Tamer! What if others think that I came up with this idea!

Chapter 123: You’re A Gu Master?

“...”

Shi Yu looked at the engraved worm silk parachute and felt ten thousand iron-eating beasts rolling across his heart.

Could we discuss this in advance next time...

Why didn’t it transform into a wing like usual and weave a parachute instead?

“Shi Yu wins!”

Shi Yu was stunned. After Master Qu Jie announced the results, he finally couldn’t tolerate it anymore and directly put it and Eleven back into the Beast Taming Space.

Then, he turned and left, leaving the silent crowd behind.

It ended just like that?

Looking at the venue destroyed, everyone was speechless.

And now, Fang Ji had completely lost his dream.

He didn’t know if it was because of deterrence or because of Buggy’s frivolous actions, but his brain was buzzing.

“I’m just a Beast Tamer.”

Fang Ji didn’t understand why he had to take this blow that didn’t match his age.

“Unbelievable...”

A moment later, some master-level Beast Tamers in the audience also made comments.

At the spectator area of Ancient Capital University.

Dean Lu of the admissions office grinned and said, "What seems like a simple strategy is completely not simple..."

"Yeah." Archeology Department Director Li nodded.

"At that height, it can accurately lock onto the enemy... This seemingly ordinary attack contains something extraordinary..."

"How many trump cards are they hiding?"

Wuji Airlines' super vision and deterrence were indispensable.

Otherwise, it wouldn't be a battle tactic, but suicide.

"Moreover, that little Metal-eating Beast at the end only looked to be slightly injured..."

Director Li couldn't understand. This kind of physique, are you sure it's an Iron-eating Beast and not an Iron-eating Beast that had evolved?

Director Li had personally seen the evolution of the iron-eating beast that was comparable to a dragon's physique.

However, that was the result of spending hundreds of millions.

As for Shi Yu, it was clearly just an ordinary Iron-eating Beast!

But soon, Director Li's expression turned cold.

Holy shit, this Iron-eating Beast seemed to have also mastered transcendent Level Hardening. Don't tell him that at the moment, this Iron-eating Beast was in a reserved state and had already completed its evolution!

If that was the case, why would the other candidates fight!

"I want to know more about that green worm."

"Is that really a green worm?" Dean Lu had a strange expression.

He had never seen such a green silkworm...

He could accept transcendent-level worm silk and transcendent-level length.

However, the initial dragon might and the ability to create wings could no longer be explained by ordinary green worms.

"Haha..." Chief Physician Li laughed. Who the f*ck am I supposed to ask?

The Green Silkworm could learn skills other than worm silk? He had never even heard of it.

After all, the Green Silkworm was known as a pet that could not learn other skills before evolution.

However....

Things weren't that absolute either.

This was for ordinary green worms.

If the green worm had some other bloodline, it might not be able to be defined as an ordinary green worm.

“Could it be a genetic skill?”

On the high ground of the arena, the white-bearded old man standing beside Legend Yin touched his beard.

“It should be,” Legend Yin said slowly.

Perhaps this was a special green worm that had broken through the racial restrictions and inherited new racial skills.

Otherwise, even these top-notch masters and even legendary Beast Tamers couldn’t think of a better explanation.

That’s right. How could a genius like Shi Yu contract an ordinary green worm?

...

In the examination candidates’ passageway.

Shi Yu summoned Eleven again.

He took a look at Eleven’s injuries and immediately slapped his forehead.

Good lord, why were you almost healed?

How could it receive treatment like this?

“Wuu!”

Eleven felt wronged.

Because it had the transcendent Hardening defense, no matter how strong the impact was or how many opponents injured it, it wasn’t heavily injured in the first place.

Then, if it used a high-speed healing to heal itself a little, wouldn’t the injuries be almost nonexistent...

“Gulp ~” But one way or another, this attack consumed a lot of energy. Eleven rubbed its stomach and expressed that it was hungry.

“...” Shi Yu rubbed Eleven’s panda head.

Sigh, it was also a problem for pets to be too outstanding.

Such an outstanding pet, which outstanding Beast Tamer cultivated it?

“Then let’s go look for food.”

“No, I better go to the medical room to take a look first. No matter how small the injury is, it’s still an injury.”

Then, Shi Yu made a decision.

Let's see if we can encounter rare healing skills and recovery skills!

At the same time, he summoned Buggy that had yet to recover from their excitement and threw them at Eleven.

“Wuu!”

“Ji!”

Seeing Buggy come out, Eleven looked excited and matched its secret signal.

The parachute was really well made. If only the name of the Beast Tamer could be written on it. The words Wuji represented the two of them, but not their Tamer.

“Ji...!” Buggy expressed that he would try it next time and carve a pill symbol.

“There's no need.”

“Next round, listen to my command.”

Shi Yu was afraid that the two pets would do it again, so he said with a dark face.

...

In the medical room of the Ancient Capital Arena.

At this moment, the examiner auntie was leaning against a chair in the room, watching a small television as she waited for the next injury number to enter.

She yawned, looking bored.

It was such a waste for a master-level Beast Tamer like her to be on duty in such a small battle.

But these newly-promoted professional Beast Tamers to be the future of Ancient Capital City.

A knock.

“Come in.”

“Sorry to disturb you.”

After Shi Yu brought Eleven and Buggy in, he immediately saw the examiner auntie sitting on the chair.

At this moment, she was looking at Shi Yu excitedly.

“You guys are pretty fierce.”

“Fighting head-on against the Anti-Injury Black Tortoise, it must have suffered a very serious injury this time.”

She felt that Eleven was forcefully holding on. It must be a pile of internal injuries.

“Oh ~” As the examiner auntie got up, a lying deer-shaped pet beside the seat also got up and let out a happy cry.

This deer wasn't tall, and it had an earthen yellow body. It was very ordinary, but its antlers were like split green branches. No, to be precise, they were branches.

True Branch Horned Deer

[Attributes]: Wood

[Race Level]: High-level commander

In addition, on the table, there was a pet that was dozens of centimeters long. It looked like a big white radish and had features like a child. A pet with green radish leaves on its head swayed up.

Ginseng Baby

[Attributes]: Wood

[Race Level]: High Transcendent

At this moment, Shi Yu only saw the two pets and immediately felt that his body was very full.

The whiskers of a ginseng baby and the antlers of a real antler were all very nutritious...

At the side, sensing the Beast Tamer's thoughts, Eleven subconsciously observed the energy in the two pets with its supervision and opened its mouth slightly.

This ginseng baby's energy level was at least five times higher than its own, and the energy purity was even more flawless.

As for that deer, Eleven felt that the energy in its body was dozens of times more than his own. It was ridiculously terrifying.

“Sob...” Eleven carefully tugged at the corners of Shi Yu's clothes.

“Don't, don't, we can't win.”

Wait for it to work hard for a few more years.

“I know, I know.” Shi Yu slapped Eleven's bear paw away.

Good lord.

It should be a commander rank Ginseng Baby and a monarch rank True Branch Horned Deer.

Both pets had broken through the restrictions of their race level, just like Master Lin's Iron-eating Beast.

At this moment, the True Branch Horned Deer looked at Eleven and Buggy before turning to look at the Beast Tamer.

Something was wrong with them.

“Huh?”

The middle-aged lady was confused. Then, after hearing Lu's explanation, she immediately stared at Shi Yu and Eleven in disbelief.

"Your Iron-eating Beast has mastered the High Speed Healing Skill?"

"It treated itself just now?"

Because the True Branch Horned Deer told her that the Iron-eating Beast didn't have many injuries, and its body had signs of self-healing.

The examiner's auntie widened her eyes and cursed in her heart. In the end, it didn't look like it wasn't injured, but was it really fine?

She originally thought that the accompanying move of this Iron-eating Beast was already ridiculous.

Upon closer inspection, it actually discovered that it had wood-element healing skills??

This was unscientific!

"Uh..." Shi Yu was stunned. How could it tell? He said, "Yes, but this skill consumes too much energy. It hasn't been completely treated."

It meant that you guys should heal it a bit.

The examiner auntie was silent for a moment before looking at the True Branch Horned Deer.

In the next second, the True Branch Ant nodded.

The branch-like antlers emitted a green halo. The halo kept expanding, and the domain enveloped Eleven and the worm.

Then, the injuries on Eleven instantly disappeared.

Perfect-grade High Speed Healing!

In addition to the healing speed, faster effects, and better effects, it could also become a multi-body healing skill.

At this moment, the examiner auntie turned around and took out a box of nutrient solution from the drawer.

"This is an energy nutrient solution produced by liquefying energy crystals. The effect of replenishing energy is slightly worse than energy crystals, but the absorption efficiency is faster. The pet can completely digest in a few minutes."

"You should still have several battles ahead. Bring them all to your prep room. The effects are much better than the nutritional supplements there."

"Thank you..." Shi Yu took the nutritional fluid and felt at a loss. That was it?

Shi Yu recognized the skill that healed Eleven. It was also super fast healing.

It was just that its proficiency was a little high.

However, it didn't matter if its proficiency was high. Shi Yu wanted to see rare healing skills and recovery skills.

It was just an intermediate-level skill...

Could she show off a little?

After Shi Yu took the nutritional fluid, he looked at the big white radish sitting on the table, shaking its legs. He was curious about its skills.

The third pet, why not raise a white radish too? It looked pretty tender.

He could also produce supplements himself. Unfortunately, its race level was a little low, and its battle power was not high.

"What are you still looking at? You can't bear to leave?" The middle-aged lady chuckled.

"You don't need this thing. Baby Ginseng is for those Beast Tamers with enhanced talent to replenish their physical fitness and energy. You have a telepathy talent. On the battlefield, you're just a cheerleader who's watching the show. You don't need it."

Shi Yu : "..."

There was no need to be so direct.

Who did his telepathy talent offend?

"I'm just a little curious about the cultivation method of this non-battle pet," Shi Yu said.

The examiner's auntie smiled and said, "It's not bad to be curious. After you enter university, you will have a lot of knowledge in this area. A large number of crystals of wisdom from the Beast Tamer seniors are collected there, and it's much more profound than the public information on the Internet. You can go and understand it when the time comes. However, the knowledge on pet cultivation is too big. Even in a single field, a Beast Tamer can't possibly finish exploring it even if they spend their whole life. Remember to differentiate between the main and secondary aspects. It's good to find your own positioning."

"Animals, plants, elements, machines, undead... There are also such magical Gu worms. Each of them is a profound domain. This is also the reason why Beast Tamers are born into so many professions."

The middle-aged lady looked at the assessment that was starting again.

Now, it was the battle between the Gu Master Miao Dongdong and another seeded candidate, Lin Kai.

Shi Yu and the examiner auntie placed their attention on this little Gu Master with brown curly hair.

The opponent's battle style was very strange.

Although he only had the second-level Beast Taming Space, he had three pets.

Shadow Gu, parasitic Gu, and the corpse of the Emerald Tree Python.

Among them, the parasitic Gu and the Jade Tree Python's corpse could be seen as one, and were stored in the Beast Taming Space.

This pet combination was the magical thing about Gu Masters.

In fact, before the final ranking battle, Miao Dongdong's Beast Taming Talent and his other pet, the Shadow Gu, were very mysterious, and no one had known about it.

However, as the assessment progressed to this point, the mysterious veil on his second pet and Beast Taming Talent had been lifted.

"For example, this little kid. Because of his 'symbiosis' talent, not only can he rely on his own flesh and blood to nurture various Gu worms, he can also let them parasitize the body and display extraordinary strength."

"Perhaps only this group of people can understand the miraculousness of the path of Gu worms. Outsiders will never be able to get started."

On the screen.

The parasitic Gu controlled the Emerald Tree Python to fight the two pets at the same time.

Although the level of the Emerald Tree Python was not low, it was not its main body after all. The upper limit had been set. It seemed a little difficult to face the two pets carefully cultivated by the seed candidates.

However, at this moment, Miao Dongdong himself strangely controlled the shadow and assisted the Emerald Tree Python to control the other party's Beast Tamer for an instant, interrupting the use of the other party's Beast Taming Talent and seizing victory.

This was his first pet, the high-level transcendent Shadow Gu. Because of the "symbiosis" talent, it had always been fed by Miao Dongdong with flesh and blood to survive in Miao Dongdong's body. The advantage was that Miao Dongdong's physical fitness could be enhanced to the limit, far exceeding Beast Tamers of the same level and comparable to pets.

In addition, his life and mental connection with the Shadow Gu would be even stronger. Because their life forces were shared, he also obtained the ability to control the shadow, like how he could control his hands and feet, and control the Shadow Gu.

The coexistence talent of this Gu Master, the sharing talent of the shared skill, and the fusion talent of the fused pet had the same effect.

"Gu worms... are too strange." Shi Yu looked at the scene and shook his head in disgust.

The essence of Gu worms was worms.

He couldn't imagine the feeling of the insect parasitizing his body...

"Is that so? According to the advancement rules, the next battle seems to be between you guys." The examiner's auntie was full of smiles as she said, "I wonder which of you will come over to get treated first."

Shi Yu :” ...”

“Then I’ll go prepare for the next assessment first,” said Shi Yu.

“Go on, prepare well.”

“Alright.” Shi Yu was speechless. He planned to leave with Eleven and Buggy.

Before leaving, he didn’t forget to take a look at the big, watery radish.

He was curious about its whiskers and if it were better than divine beans.

At the same time, he was considering the cost-effective ratio of contracting a pet that could produce supplements on its own.

“Sigh.” In fact, it couldn’t save much money in the end. After all, under the situation of conservation of energy, what he replenished would have to be consumed by the pets. The consumption of the pets would have to be replenished with various nutritional supplements. Moreover, the cost of cultivating a pet was not small. It was better to buy supplements directly.

Or, it would be good to learn from Miao Xiaodong and contract a pet that could strengthen his physique.

“Sorry to disturb you.”

Just as Shi Yu was about to leave, Fang Ji rushed over.

When he realized that Shi Yu and the others were also here, his expression immediately changed.

He had just calmed down outside for a while, but now, his mind was blank again.

“Wuu!” “Ji!!”

Eleven and Buggy greeted Fang Ji and asked for their evaluation of the Airlines strategy.

However, Fang Ji couldn’t understand. He only felt annoyed when he heard Eleven and Buggy chirping.

Damn it, these pets and the Tamer were nothing normal.

Under Fang Ji’s disdainful gaze, Shi Yu left the infirmary with Eleven and Buggy smiling.

Although his reputation had been affected, Shi Yu immediately had a bad taste when he saw his opponent in such a miserable state. He found it interesting. Buggy’s handling of the situation had indeed almost made him laugh.

It even caused Shiyu to want to prank him more.

If he remembered correctly, one of the names of the various techniques that the worm had given its worm silk was called the Parasite Thread. It meant that it could use the worm silk to control someone like a puppet. Therefore, could it use the full-level worm silk to pull the parasite out of the body of the Emerald Tree Python and let the worm control the Emerald Tree Python?

Becoming a pseudo Gu Master to directly snatch a pet in front of Miao Dongdong? Although he didn’t know about Gu worms, a full-level worm-type skill, Worm Silk, was just that magical.

“Eh, isn’t this too crazy? In this case, what’s the difference between Buggy and the enemy...”

Buggy:???

Chapter 124: Going Crazy Again

A moment later, Shi Yu returned to the prep room.

When he thought of interesting tactics, he couldn’t help but want to experiment on its feasibility.

“This strategy looks very normal.”

Only by defeating his opponent in the domain the opponent was most proficient in could he showcase his strength.

●ω● If he won through technique, would this battle power show that he was intelligent?

Shi Yu pulled Eleven and Buggy over.

“When you face Miao Xiaodong in the next round, you guys will do this, then that, and finally this, understand?”

Eleven and Buggy nodded blankly. They understood, but not completely.

However, wasn’t his name Miao Dongdong?

“That’s not important.” Shi Yu stuffed the nutritional fluid in front of them.

Seeing the Happy Water, Eleven and Buggy’s expressions lit up.

“Wuuu ~”

“Ji ji ji ~”

There was no need to consider battles for the time being. It was better to recover the physical strength that he had consumed previously.

Eleven held up the Happy Water and gulped it down, while the worm used the worm silk as a straw...

As for Shi Yu, he looked at the small television and paid attention to the subsequent battle.

Next, he only paid attention to the battles of the winners.

As expected, the ones who advanced were still those few people.

As for the advancement battle of the Losers Group that had lost once, he was not interested. The chances of both parties encountering each other were not high.

...

Time flew again.

When Eleven and the others had already patched up, it was time for Shi Yu to fight again.

Eleven and Buggy blushed. They had eaten too many supplements.

The energy in their body was in a very full state...

Shi Yu's mouth was slightly agape. Even if it was your first time drinking the nutritional fluid made of energy crystals, you didn't have to eat so much, right?

These guys were even weaker at this than their Tamer?!

However, this wasn't a big problem. They just needed to consume a little more energy.

Buggy closed its eyes and projected two Ice Dragon Babies to slap it. Then, they immediately recovered.

Eleven, on the other hand, used transcendent Level Hardening to create a trophy and wished them the championship in advance!

"Sigh..."

Seeing that the two pets were so abnormal, Shi Yu reflected deeply...

...

In the venue.

The audience looked at the name and profile picture on the big screen with strange expressions.

This was the third round of the assessment.

Iron-eating Beast Knight, tactical genius Shi Yu vs the mysterious Gu Master Miao Dongdong.

They wondered what kind of sparks would fly between the two parties in this assessment battle.

"Although this Shi Yu isn't stable enough, his strength is really not bad. He has a lot of potential. Unfortunately, he seems to have been reserved by Ancient Capital University.

The teachers from the student recruitment offices of the other colleges who came from afar thought that it was a pity.

The next time they met, they might be competitors.

There were many conflicts between the nine academies due to the allocation of educational resources every year.

However, some financial groups felt that Shi Yu was quite interesting.

Even if Shi Yu entered Ancient Capital University, it actually didn't prevent them from cooperating with Shi Yu.

If Shi Yu became the top scorer of the Ancient Capital assessment this year, they would directly get Shi Yu to endorse an artificial mechanical light sword pet and shoot an advertisement. The effect wouldn't be any better for those hot-blooded young men.

In the arena.

Miao Dongdong, who was wearing a cotton shirt, had already walked up. After coming up, he let out a long sigh.

Opposite him, Shi Yu also stepped onto the arena as usual.

After coming up, Shi Yu kept staring at the ground before looking at Master Qu Jie.

Not bad!

Eleven clearly created a huge hole. After being repaired by Master Qu Jie's earth-element pet, there were no signs of battle at all.

No wonder the construction companies outside all contracted workers with earth, metal, and wood pets.

"This kid..."

"..." Master Qu Jie looked at Shi Yu, who had ill intentions towards the arena and himself, in silence.

He hoped that Shi Yu could battle normally next. How was he supposed to judge his playstyle?

"Beep, beep, beep..."

The two candidates arrived at the venue. After making preparations, Master Qu Jie quickly announced the start of the battle. After all, it was almost lunch time and everyone was hungry.

As for the outcome of this battle... Many masters still thought highly of Shi Yu.

Now, in the eyes of these master-level Beast Tamers, the only ones who had any hope of defeating Shi Yu were Yin Zhengfan, who really had the pet of a monarch, and Zhang Qianyi, who had the talent for violent battles.

As for Miao Dongdong... His Emerald Tree Python was a corpse. It could only be considered half a monarch's pet.

In the arena, as Master Qu Jie announced the start of the battle, a lightning storm flashed across Miao Dongdong's brain again, and his mind worked crazily.

"Our advantage is that the monarch shell of the Emerald Tree Python is an excellent protection. It lives in the body of the Tree Python, and the parasitic Gu can largely be immune to mental attacks... And since the Shadow Gu is in symbiosis with me, our mental fusion can also be immune to mental attacks to a certain extent."

This way, half of Shi Yu's trump card, expert level deterrence, was wasted.

Miao Dongdong, who had brown curly hair, stood opposite Shi Yu. He took a deep breath and felt the pressure for the first time because he wasn't facing a normal Beast Tamer.

Although with the advantage of a Gu Master, they could reduce the impact of Shi Yu's proficient level deterrence skill to the minimum, his transcendent level hardening, perfect level thunder palm, and that strange green silkworm still worried him.

"Let's fight!" At this point, Miao Dongdong couldn't think too much. He looked at Shi Yu sternly.

Hu hu hu!!!

In the arena, strong winds rose up. The two of them summoned their pets at the same time.

After Shi Yu quietly summoned the Iron-Eating Beast and the Green silkworm, a huge summoning array appeared on Miao Dongdong's side.

"Roar!!!"

A shocked roar immediately came from the array.

A green python nearly ten meters long suddenly appeared from the formation. It stood as tall as a tall building and looked down at Eleven and the bug with its green eyes in shock.

This was the magic of Gu Masters and parasitic Gu. It was hard to imagine that such a "living" Emerald Tree Python was actually a corpse with another owner controlling it.

"This is the first time I'm fighting a Gu Master..." Shi Yu looked at his opponent and thought to himself.

< Name > Parasitic Gu

[Attributes]: Worm

[Race Level]: High Transcendent

[Race Skill]: Parasitic (High-level bug-type skill. It can infiltrate the target's body and control the target. In the parasitic state, it can inherit the opponent's racial skill and have the ability to heal the target's injuries. It can also use the parasitic shell as a protective umbrella, immune to most attacks.)

This skill was very strong, but there was also a limit. It could only parasitize animals. At the same time, after the Host was parasitized, it lost her growth ability.

"Roar!!!"

In the arena, the giant python roared. Miao Dongdong stood not far from the giant python and recovered his previous calm expression.

On the other side, Eleven and Buggy were expressionless. They even felt that the other party was quite fierce.

However, although it was fierce, pandas were even fiercer!

"(“ ¥) Howl!!!" The little metal-eating beast's eyes widened. You dare to be arrogant again?

Boom!!

As it howled, an extremely huge invisible wave of air erupted from Eleven's body!

It stared at the Emerald Tree Python and Miao Dongdong. At this moment, the air in the arena began to hum and vibrate. The almost material deterrence wave turned into a violent wind that swept across the arena.

"It's here..."

At this moment, the Emerald Tree Python's body suddenly froze. The shadow under Miao Dongdong's feet disappeared instantly and fused with his body. A strange black tattoo appeared on Miao Dongdong's body.

Buzz!

As the mental storm swept past, Miao Dongdong gritted his teeth and felt dizzy. He subconsciously clenched his fists and smiled.

Similarly, the Emerald Tree Python quickly shook its head, its gaze gradually becoming clear, and it roared.

"Roar!!!"

"That's all?!"

Facing the terrifying deterrence wave, Miao Dongdong was covered in sweat, but he quickly stabilized and recovered. The parasitic Gu in the Emerald Tree Python's body was clearly protected by the protective umbrella of the monarch's shell, almost able to withstand this terrifying mental impact.

"Next, it's our turn to fight back."

Miao Dongdong raised his hand, and countless shadows appeared out of thin air, about to condense into a ball. It was surprisingly one of the abilities of the Shadow Gu, the Shadow Ball.

At this moment, the body of the Emerald Tree Python swayed slightly and made an attack pose, revealing its fangs.

This was the first opponent Shi Yu and the others had encountered to face Eleven's deterrence. Although he was affected, he could still continue attacking.

As expected, when facing a slightly stronger opponent, deterrence was immediately not as omnipotent.

"He resisted it!!"

"Miao Dongdong is awesome."

"You're the first one to make the Iron Eater Knight fail."

As Miao Dongdong and the others resisted the deterrence, waves of voices immediately erupted from the spectator area.

Many people's eyes lit up. They felt that this battle would be very exciting.

Those master-level Beast Tamers also revealed looks of admiration towards Miao Dongdong.

The Shadow Gu and Parasitic Gu were only two transcendent species of Gu worms, but they could be developed to such an extent by Miao Dongdong. He and Shi Yu were simply the two great inspirational candidates for this assessment.

However, at this moment, only a small number of people realized the severity of the problem.

“What are you guys causing a ruckus about... Do you have any eyesight at all? That’s just a deterrence. The Silkworm God hasn’t made a move yet.” In the spectator area, a pair of cousins stared at the Worm that started to close its eyes and felt that things weren’t that simple.

This deterrence didn’t look like it wanted to instantly kill the opponent... Instead, it wanted to attract attention!

As expected, soon, someone noticed the worm with its eyes closed.

This had already become the sign of Buggy’s anger.

“Look.”

“On the head of the Emerald Tree Python!”

At this moment, everyone was shocked to discover that the green worm was still lying on the iron-eating beast’s shoulder.

However, another identical Green silkworm appeared on the head of the Emerald Tree Python!

It was just like how the first assessment conjured dragon might and the second assessment conjured wings. This time, the green worm showed its own projection!

“What?”

At this moment, sensing the change, the Emerald Tree Python and Miao Dongdong were stunned.

“Roar!!!”

The Emerald Tree Python was still opening its mouth foolishly. In the next moment, the Green Silkworm on its head bent its body and flipped its body 360 degrees. Like a diving trick, it jumped into the Emerald Tree Python’s mouth.

This scene stunned everyone.

“Holy shit.”

Everyone was stunned.

“(☹ ☹) Uh...” The Emerald Tree Python also felt that something was wrong.

Miao Dongdong: d(ŐđŐ๑)? What the hell!

Miao Dongdong was momentarily stunned, not knowing what it meant.

Attacking from the inside of the tree python?

But the Tree Python’s poisonous stomach liquid skill could even corrode metal!

Suicide?

Just as Miao Dongdong didn’t understand, the next moment, the Emerald Tree Python suddenly widened its eyes and made a vomiting gesture, then showed an even more painful expression...

“Roar!!!”

Its body started to twitch crazily.

Inside the Emerald Tree Python.

Swoosh!

The Green Silkworm Phantom erupted with countless worm silk, making the worm silk stab into the body of the Emerald Tree Python like the hair of a lion.

Gulp ~

The stomach liquid that surged up encountered the worm silk and constantly corroded the silk, but the strong corrosive effect actually couldn't affect the levelless worm silk at all.

On the contrary, the silk were like small life forms with their own consciousness, launching fierce attacks on the Emerald Tree Python in its body!

Full level worm silk was definitely a product that no one could understand, even if it was a legendary Beast Tamer.

The effect of the silk that was derived from the full-level worm silk was something that even a transcendent worm silk didn't have, and it was something that only Shi Yu's worm could master!

At this moment, no one knew what was going on.

They only knew that Shi Yu seemed to be planning to attack from the inside of the tree python, and it seemed to have taken effect.

"Despicable city people."

Miao Dongdong, who came from the countryside, immediately recalled the warnings of his granny in the tribe. His eyes reddened.

Sensing the parasitic Gu's cry for help, he couldn't take it anymore. He quickly looked at Eleven and the green worm, and a shadow instantly appeared under his feet and stretched!

He wanted to use another skill of the Shadow Gu, Shadow Control, to lock the little Iron-Eating Beast in place. At the same time, the shadow ball in his hand had already been condensed and he suddenly threw it at the green worm.

Although he didn't know what was going on, it wasn't wrong to target the Green Silkworm...

Swoosh!

The shadow ball smashed at Eleven and Buggy like a black meteor, but Eleven didn't even have the intention to move.

Shi Yu: "Emerald Tree Python, block the attack!"

On the other hand, as a Beast Tamer, Shi Yu issued commands to his pet.

At this moment, the huge Emerald Tree Python suddenly pressed down on the shadow created by the Shadow Gu. At the same time, it used its huge body to block the shadow ball!

Miao Dongdong was speechless.

Everyone: “?”

Boom!!!

The Shadow Ball hit the Emerald Tree Python’s body, and the Emerald Tree Python’s eyes shone with a dark light. Its huge body only had a little scratch on it, and the injury was extremely light. This was the power of the physique of a monarch. Even without using any moves, it could still have an extremely strong pressure.

Everyone opened their mouths slightly.

It was strong, but something was wrong...

Why, why did this Emerald Tree Python listen to Shi Yu’s orders and help the Iron-eating Beast and the Green Silkworm resist the damage!!

“Could it be the legendary parasitic worm??”

“No, impossible!” Miao Dongdong was stunned.

What was happening?

At this moment, in a small room inside the Emerald Tree Python, whose main body was only a high-level transcendent race and didn’t have any other impressive skills... The parasitic Gu looked at the active insect silk surrounding it. Would it dare to move?

The only stomach liquid skill that could attack the invader in its body was useless against this worm silk. Would it dare to move??

“Ji!!!” The insect silk made an excited sound.

“Ji!!!” The parasite Gu screamed like a chicken.

Don’t come over—

What the hell was this!!

Was it a parasite or was the green worm a parasite!!

Why was this guy’s insect silk able to invade and control the tree python’s movements as if it had its own consciousness!!

This didn’t make sense!! The parasitic worm shouted at the Beast Tamer telepathically. This didn’t make sense...

Miao Dong Dong :”●△●”

Miao Dongdong was stunned.

In the outside world, everyone was stunned.

Including the master-level Beast Tamers, none of them knew what was going on when they saw the Emerald Tree Python helping the Little Iron Eating Beast block the attack.

In the arena, after helping the Little Iron Eating Beast block the attack, the Emerald Tree Python slowly stretched its body and approached the Little Iron Eating Beast and the others.

Then, under everyone's incredulous gaze, the little Iron-Eating Beast brought the Green Silkworm and climbed onto the huge body of the Emerald Tree Python, transforming into a python riding panda

Pa!

After riding the tree python, Eleven's transcendent Level Hardening was activated and immediately wrapped the tree python with powerful armor!

Compared to the parasitic skill of the parasitic Gu, Buggy's parasitic silk was still lacking in many ways. For example, it could only control its movements but couldn't inherit the moves. Therefore, if it wanted to have stronger output, it could only rely on Eleven's hardening.

"Wu!!"

"Ji!!"

When everything was completed, the tree python and Eleven looked at the tiny, helpless, pitiful, and confused Miao Dongdong in hostility.

Miao Dongdong subconsciously took a step back with a blank expression.

"This is impossible, impossible."

"How is this possible..."

"What exactly have you done..."

Shi Yu looked at the little Gu Master opposite him whose expression was starting to look strange.

His mental fortitude wasn't good.

"It's nothing. I just let the Green Silkworm hijack your parasitic Gu into a worm hostage."

"Therefore, the one controlling the Emerald Tree Python vest is the Green Silkworm."

"Don't worry, I'll return it to you after the battle."

Damn, worm.

At this moment, looking at the change in the venue, Master Qu Jie was confused again. As a judge, his professionalism didn't seem to be enough. He didn't know what had happened.

He kept feeling that Shi Yu was talking nonsense, but he couldn't refute it.

Everyone's mouths opened slightly as they looked at the change in the arena. What the f*ck was going on?

The battle was going in an unscientific and abnormal direction again! What kind of nonsense skills were Shi Yu's pets using?!

Miao Dongdong: (Pǎ`q.)... Ah!

At this moment, Miao Dongdong took another step back and widened his eyes.

He was the most confused.

Human... human language?

Who was the Gu master here?!

He looked at the green python that was approaching him and was a little stunned.

Parasitic Gu and the Emerald Tree Python were his trump cards. The Shadow Gu was to protect his own body. Now that his trump card had turned against him, how could he fight?

Many candidates also looked at the helpless Miao Dongdong in silence.

A perfectly fine genius... Why did he become like this when he encountered Shi Yu?

In a certain place, the expressions of Yu Shu, Fang Ji, and the others darkened. Oh my, oh my, this time, another candidate would go crazy. This Shi Yu was definitely abnormal!!

They advised him not to participate in other competitions in the future!!! He was deliberately messing with other people's mentalities!!

Chapter 125: Real Richness

Translator: Atlas Studios **Efditor:** Atlas Studios

In the third round of assessment, Shi Yu advanced without any surprise.

But at the same time, another youth lost his dream.

Until he was rolled into a wrapping by his Emerald Tree Python, then flung onto the wall and slid down, the miserable Miao Dongdong still didn't understand, didn't understand!

Why could the green worm snatch away the parasitic Gu's right to live with the green tree python?

Someone explain to him!

Even he, a Gu Master, couldn't understand, let alone the other Beast Tamers.

"Hmm..."

Towards this battle, many master-level Beast Tamers could only grunt in silence. With their experience, they couldn't explain this development.

Help!

What was wrong with this newcomer?

Could it be that the beast taming method of the new era was developing so quickly? There was a generation gap between them?

It didn't seem like it, because the surrounding young candidates were also extremely silent, feeling that it was ridiculous!

For example, Yu Shu, Zhang Qianyi, Yin Zhengfan, and the others who might encounter Shi Yu next... None of them wanted to say anything!

This indeed meant that there was something wrong with Shi Yu.

"Not bad."

"Yes, not bad."

Even Yin Chuanqi and his cousin, who were at a certain place, only commented in silence, not wishing to look deeper.

It was meaningless to guess. Let the guy be himself!

At the spectator area of Ancient Capital University.

"Say, after he enters school, his archeology direction is alright. But in terms of battle, will there be any teacher to teach him the battle direction?"

Dean Lu asked Director Li.

Director Li : "..."

Forget about being a wonder in battle, our teachers can only teach limited archeology.

The archeology of people from Bureau 11 was disgusting! It was like they were watching the history channel!

"Bro, this is too showy." At the same time, the archeological seven elites looked at the arena and sighed.

"No, it's not that he is too outstanding, but the worm is too outstanding. I originally thought that Junior Shi Yu's second pet was the Green Silkworm and was just a burden. Now it seems that I'm still too young and don't understand the world of cheaters."

"I, Zheng Yingjie, am willing to call it the strongest Green Silkworm!" Zheng Yingjie said. "The Worm God is reborn!"

Although they did not know what was going on, everyone could tell that the Green Silkworm had seized control of the parasite over the Emerald Tree Python.

Good heavens, it was just a green worm. Not only could it release dragon might as a giant dragon, but it could also use itself as a wing to drop nuclear bombs. Now, it could even use it as a parasite to snatch pets in front of people. Impressive.

"Senior Lin, you've always known that Junior Shi Yu is so awesome, right?" Lin Yu'er, a girl from the seven elites, asked Senior Panda.

Lin Xiuzhu, who was holding a camera :”...”

She felt that it was actually very normal before Shi Yu contracted a pet... Including Pet Eleven, it was also very normal and encouraging.

In the end, why did everything become like this, including the beast tamer himself and his pets? Lin Xiuzhu didn't know why.

“This is too showy.” On the battle club's side, the members of the Ancient Capital University team exclaimed.

During their vocation assessment, if Shi Yu had shown off half his power, he would at least have become a vice president now. Unlike now, where they had to train bitterly under the president's gaze.

“Shut up.” The beast-eared girl stared at the cell phone wholeheartedly.

No matter how strong Shi Yu was, he didn't attract her this time.

Because she was chatting with her goddess.

Lu Qingyi: “I'm outside the Ancient Capital Arena.”

White Brook: “Senior, I'll go pick you up!”

Lu Qingyi: “No need, I'll look for you later.”

White Brook: “Alright.”

White Brook looked at the chat record and exhaled slightly. She could see Senior Lu again. Great!

Although Lu Qingyi seemed to have come to look for Shi Yu...

Damn it, even though I was the one who talked to her first...

...

After the battle ended, Shi Yu returned happily.

It felt good to experience the feeling of stealing a pet?

Unfortunately, this was immoral. Only this time, just this once.

But it did prove the power of the worm's parasitic silk.

Apart from that, its insect silk could actually sew up wounds. Apart from not being able to let the target maintain their bodily functions and inherit their racial skills, it was really similar to the parasitic skill of the parasite.

It was like the full-level worm silk had simulated other insect-type skills. Although it was a simple version, it felt a little like it was on track, as if it had come into contact with the insect-type “rules”.

It meant that when a certain skill reached the pinnacle, it would come into contact with “Dao” if it advanced further. That was how the laws of the world worked.

“Since there are no records in history, why don’t I give it a name? In the future, it’ll be called ‘Dao Proficiency’.” Shi Yu stretched.

Skill: Worm Silk (Dao Proficiency)

Perhaps it was because the level of the Worm Silk skill was too low, and it could only be called progressing into the Dao. If it were a transcendent skill with max level points, it might really be able to touch the power that only Mythical creatures like Origins and Rules could master.

As for the divine skills mastered by Mythical creatures, they were abilities that could directly mobilize laws and Origins. Shi Yu really wondered if the skill index could replicate this ability.

Forget it, don’t think too far ahead...

“The next round seems to be the battle between Yu Shu and that Zhang Qianyi?”

Shi Yu touched his chin and returned to the prep room, planning to take a good look.

He estimated that this boy, Yu Shu, might not necessarily win.

Even he didn’t have much confidence in facing that Zhang Qianyi. If he wanted to win, he would have to go all out.

The opponent’s talent was too terrifying for the pet’s battle power bonus.

A moment later, Shi Yu returned to the prep room. However, just as he opened the door, he was immediately stunned.

In the room, a woman with fair skin and short brown hair that glowed slightly was sitting on the sofa looking at her cell phone in a white shirt, a black uniform short skirt, and a white coat. Her long white legs were casually crossed.

After discovering that someone had entered, she used the back of her hand to adjust her glasses slightly. She looked over and sighed silently.

“Senior... Senior Lu?” Shi Yu was at a loss. He didn’t understand why Lu Qingyi would suddenly appear here.

“...” Lu Qingyi didn’t know where to start.

She wanted to cry.

She didn’t understand why Shi Yu, who was still very normal in Ping Cheng, had become like this.

After watching the editing of Shi Yu’s survival assessment three days ago, she had insomnia for the entire night.

She felt a little regretful that she didn’t personally guide Shi Yu and instead handed him to the similarly abnormal White Brook.

In her opinion, Shi Yu, who was riding an iron-eating beast and fighting personally, was even more ridiculous than White Brook. White Brook liked to fight herself, and her personality was crazy because of

her fusion talent. However, Shi Yu was an archeologist with a telepathy talent, so why was he joining in the fun!!

If such a habit suddenly flared up during exploration of various ruins and mystic realms, it was very easy to court death!!

Lu Qingyi sighed slightly and rubbed her temples. "Long time no see."

"Senior, long time no see!" Shi Yu's eyes lit up, feeling that something good would happen.

After all, this person was the richest woman. Even the panda senior was a little inferior.

He hurriedly poured some water and handed it to Lu Qingyi.

"What's this?"

"Sorry, I took the wrong one. This is the Happy Water of the Iron-eating Beast and the Green Silkworm."

Lu Qingyi : " ... "

"Your survival assessment and that so-called Wuji Airlines..." Lu Qingyi took out her cell phone. On it was a screenshot of Shi Yu's various performances that White Brook had given her.

Lu Qingyi pushed out her cell phone and showed it to Shi Yu, looking at him playfully.

He was already so old, but he was still like a child.

Shi Yu blushed.

" ... "

Good lord.

She even snitched on him?

Shi Yu looked at the picture of himself riding a panda and thought to himself, Sister Beast Ears, I'll remember this.

"Cough, if I say that this was all Eleven and Buggy's idea, would you believe me?" Shi Yu pushed the blame.

He was indeed framed.

Lu Qingyi was stunned.

Who was he kidding?

An Iron-eating Beast and Green Silkworm could think of using gravity to accelerate? They could think of using worm silk to advertise?

She didn't believe that no one had instigated it.

"Forget it..."

Although she was also very concerned about this matter, it was Shi Yu's own business after all. As long as Shi Yu was happy.

When she returned, teaching White Brook a lesson was the most important. The root of the problem was definitely here. White Brook must have led Shi Yu astray.

"Let me tell you a piece of good news. The approval of the iron-eating beast evolution plan has been passed."

Lu Qingyi smiled and looked at Shi Yu.

Actually, she had been paying attention to this matter for a long time.

She was very pleased that Shi Yu could crack a new ruin in a short period of time after deciphering the ruin that he had awakened in Ping Cheng.

From the ruins of the Iron-Eating Beast, Shi Yu discovered the evolution method of the Iron-Eating Beast King's potential and gave new research ideas. With these, it could actually prove Shi Yu's talent. Shi Yu already had the qualifications to become an official member of Bureau 11.

Unfortunately, the assessment mission given to Shi Yu was to crack the Ice Dragon Ruins. Therefore, even if Shi Yu had other achievements now, he still had to wait a while.

"He passed? When?"

Shi Yu was stunned. He thought it would be the end of the month. So soon?

"Just this morning. If nothing goes wrong, the news of the iron-eating beast's evolution can be announced on the Internet today." Lu Qingyi tapped her finger on the table and said, "At the same time, your name should be able to spread throughout the country."

Shi Yu:!!!

Shi Yu's heart surged. However, was he the kind of person who cared about his reputation?

He wanted to know how much the reward for discovering the evolution of the iron-eating beast was!!

As the discoverer of the iron-eating beast's evolution method and one of the practitioners, and even the appointed chief iron-eating beast evolution planner, he was too poor!!!

If it weren't for the sake of raising Eleven and Worm, he definitely wouldn't care about the bonus. After all, his dream was to be a handsome man who didn't pursue fame and fortune. This was purely forced by life.

"That's not the most important thing." Lu Qingyi continued to smile.

"The most important thing is that I've read the evolution thesis you wrote. In it, it says that the Iron-eating Beast might still have a second stage evolution, right?"

"Yes."

"Then... let go and study it."

“As a reward for discovering the iron-eating beast’s evolution method, I’ve helped you apply for a billion yuan worth of evolution materials through Bureau 11’s channels. You can use it to buy the materials needed for your iron-eating beast’s evolution. Of course, it can only be used to study the iron-eating beast’s evolution.”

“Compared to other rewards, you definitely need this more.”

Lu Qingyi also knew that Shi Yu was poor. Lin Hongnian had spent hundreds of millions on the evolution of his Iron-eating Beast. She felt that Shi Yu’s demand would definitely be greater.

1 billion!

Shi Yu opened his mouth slightly.

“Really???”

“Of course,” Lu Qingyi said.

Shi Yu’s discovery was worth this value.

“1 billion...”

Even if Eleven multiplied its size, it could still equip a full set of armor!!!

His heart started to beat faster. He knew that something good must have happened since Lu Qingyi came.

This was too big!

Previously, when he sold resources, he couldn’t be considered rich at all. This time, he was!

“Alright.” Shi Yu’s expression was serious as he said, “The Iron-eating Beast’s potential is difficult to estimate. This money can indeed solve the urgent problem. Let’s carry out other experiments. I’ll use it well.”

Since the country provided this sum of money, he was confident that he could develop an iron-eating beast’s overlord race evolution path and provide a national-level pet to the Eastern Brilliance Ancient Nation!

Lu Qingyi crossed her arms and nodded.

At this moment, Lu Qingyi suddenly remembered the evolution method of the Goddess of Light Butterfly she had given Shi Yu.

“Your green worm... shouldn’t be planning to evolve into a Goddess of Light Butterfly, right?”

She had a helpless expression. If she remembered correctly, when she first saw that worm, that green worm was still very ordinary!

No, to be precise, including the Iron-eating Beast, they were also very ordinary.

But now, this bug seemed to have more tricks than the Iron-Eating Beast?

“Yes, I obtained some small gains in the ruins. The Green Silkworm obtained the inheritance left behind by an overlord-level Fantasy Clam,” said Shi Yu.

“Fierce Beast Phantom, Dream Clam, Illusion Phantom...” Lu Qingyi nodded.

This was the advantage of being an archeologist.

In exploring ancient ruins, one could always obtain unexpected opportunities from time to time.

A green worm had changed its fate just like that.

There was also Shi Yu’s Iron-eating Beast. Lu Qingyi estimated that it had also obtained quite a lot through the ruins.

This was in line with its current achievements.

However, Lu Qingyi didn’t want to ask too much about this. This was a secret that belonged to Shi Yu himself. Moreover, she was indeed not interested. Her gains in the ruins were much more than Shi Yu’s when she was young.

She had even come into contact with some Mythical opportunities.

Lu Qingyi thought of something again. It seemed that she had yet to tell Shi Yu about the Eleven Bureau assessment and the plant pet Shi Yu had mentioned to her!

“After you become a professional Beast Tamer, do you plan to explore the Ice Dragon Ruins?”

Shi Yu looked at the small television as he replied, “I should go exploring before school starts. I hope I can crack it successfully at once.”

Lu Qingyi nodded and said, “If you successfully crack it, you will be an official member of Bureau 11. As an official member of Bureau 11, we will usually distribute two items uniformly.”

“Item?” This was the first time Shi Yu had heard of it. He couldn’t help but look at Lu Qingyi.

“Yes.” Lu Qingyi nodded and said, “One is a technological product, equivalent to a universal illustrated handbook.”

“It can directly detect the information of all creatures from transcendent races to Mythical races recorded at the moment, as well as information on skills and resources. The level of access is very high.”

“In addition, it can also detect the specific growth level of the pet. The upper limit is the guardian level. It’s also a very good battle power detector.”

“At the same time, there are also all the maps of Dong Huang’s inside, including the distribution of some dangerous areas, mystic realms, and ruins. There are detailed records. Of course, they can also be used as communication devices.”

“This index can be customized. What style do you want? You can use me as a reference. The index I have is a cell phone model, and it’s equipped with a pair of glasses that can connect to the index data. This is more convenient.” She pointed at her glasses.

“Well... Actually, contact lenses can also be done, but I was more used to wearing glasses when I was young.” Lu Qingyi smiled.

After becoming a Beast Tamer, one’s physique would increase at the same time. Unless he was injured, there would basically be no short-sightedness.

Lu Qingyi said that she was used to wearing glasses when she was young... This proved that it was before she became a Beast Tamer.

Shi Yu sighed. It looked like she had been a genius since he was young...

But then again, this index sounded very fragrant.

It was completely a super encyclopedia.

He felt that there was no need to change his cell phone. This was enough. It was just that... It sounded a little corrosive. If he had this, wouldn’t it mean that he wasn’t allowed to memorize books seriously?

“Then I’ll also use the cell phone model. Then, I want a matching contact lens,” Shi Yu said.

“Then, do you plan to install an intelligent life form in this index? Or do you just want a program?” Lu Qingyi asked. “It’s probably the difference between a mechanical life form and an ordinary machine..”

Chapter 126: Expanding Benefits

Shi Yu was slightly stunned.

In that case, what would he want?

Wasn’t it better to directly ask for the design of the beautiful cyborg?

1

However, he didn’t dare to say this, nor did he dare to mention it.

He was afraid that after he said it, even his cell phone shell would disappear.

“What’s the difference?” Shi Yu asked.

Lu Qingyi replied, “Apart from the fact that one is purely a program and the other has its own consciousness, there’s no difference in function.”

“Of course... Don’t expect to use it as a battle-type mechanical life form. The growth potential of such a mechanical life form is close to zero.”

“At most, I’ll be your personal assistant.”

Shi Yu fell into deep thought.

She was looking down on him!

As long as it was a pet, even if it was a cell phone, he could add points to become a nuclear bomb!

Uh, through upgrading points...

“Then, why don’t we do a program?” Shi Yu thought to himself.

Eleven and Buggy didn’t have enough money. If another gold eater came, he couldn’t afford it!

Even if he wanted to add points, wouldn’t it be better for him to find a mechanical pet with more comprehensive abilities and a higher racial level in the future?

Starting from a low-level race would cost too much and consume too much energy.

At that time, if he added some points and bonded with it... He would be wanting to upgrade its configuration, and the evolution materials would cost hundreds of millions. Where would he find them...

The one billion yuan that Senior Lu sent was barely enough for Eleven to evolve, and it couldn’t become multiplied by too much. Otherwise, it would definitely be hopeless to be fully armed.

“Alright.”

Lu Qingyi smiled and said, “But there’s no hurry to make a decision. You can consider it slowly.”

“Yes.” Shi Yu nodded.

Then, Lu Qingyi stretched and said,

“You actually already have the second tool that will be distributed. It’s the ruin bead on your neck.”

“However, the quality distributed by Bureau 11 is better. It’s a relic left behind by famous legendary Beast Tamers in history. It’s relatively well preserved, unlike this defective product. Your spatial strength has an upper limit and is unstable. Letting extraordinary creatures enter is already the limit.”

A new ruin bead?

Shi Yu was stunned. “Are these two items standard for members of Bureau 11...”

“To be precise, it’s the standard for official members.” Lu Qingyi nodded.

Both of them could greatly increase the safety of archeologists.

In the country, only Bureau 11 had this foundation.

“It’s the same as this, no, even better than this?” Shi Yu touched the ruins bead on his chest and was a little shocked.

“Of course...”

“However, this ruin pearl is a clue tool to explore the Ice Dragon Ruins. It’s still worth a little. Perhaps it’s the key to open the Ice Dragon Ruins.”

“When the time comes, let’s see how it’s related to the Ice Dragon Ruins.”

Shi Yu nodded. At the same time, he sighed slightly.

“I’m a little glad to have joined Division 11 now...”

How generous!

10,000,000 starting funds... Now he felt that it wasn’t even a drop in the ocean!

Lu Qingyi smiled. Would she lie to Shi Yu?

The status of an official member of Bureau 11 was even higher than that of a legendary Beast Tamer. It was not a simple thing.

And the value that a person with the talent to listen to the Voice of History could create was not what a legendary Beast Tamer could compare to.

The discoveries in those mythical ruins could almost be described as priceless treasures. It was the path to becoming a god.

“But these can only be distributed after you become an official member. Now you have the motivation, right?”

“Yes.” Shi Yu’s heart surged.

After the vocation assessment ended, he immediately decided that he would want to go to the snow mountain and pulled Old Feng, Old Lin, and the others to crack the Ice Dragon Ruins!

No, it wasn’t safe yet. It would be best to gather all the masters from all districts and counties in Icefield City to form a team.

If there was another legendary Tamer, Shi Yu felt that it would be even more stable.

He fell into deep thought again. Speaking of which...

Ice Dragon Ruins was also a huge ruin space.

However, no one had been able to find a way to open it until now.

Of course, this was also related to the low potential value and lack of attention in the Ice Dragon Ruins. It was very easy to ignore. After all, apart from the Ice Dragon Ruins, there were many Mythical Ruins in the country that had not been conquered.

Shi Yu was a little curious. After the Ice Dragon Ruins was cracked, was there a similar ruin pearl? Also, could there really be an Ice Dragon inside...

“Then here’s the last thing!”

Lu Qingyi heaved a sigh of relief. She felt so tired.

She was clearly preparing to nurture Shi Yu into an assistant, but why did he feel like she was Shi Yu’s assistant tool person instead? Was it an illusion?

Investment, everything was still investment now!

“It’s about plant-type pets,” Lu Qingyi said.

"I wonder if you're still interested. I've already chosen a few targets for the plant-type pets you mentioned to me before. When your vocation assessment is over, I can take you to take a look."

"Therefore, when the time comes, don't be in a hurry to leave the Ancient Capital."

He still had to see with his own eyes to determine if the contract was compatible with him.

Sometimes, race levels were very confusing.

The few plant pets she chose for Shi Yu were all types that were useful for archeology and had diversified development directions.

Shi Yu was stunned. She remembered!

Seeing Senior Lu's expression, he felt that she had prepared another big gift for him.

"No problem..." Shi Yu agreed with a glint in his eyes.

Looking at Lu Qingyi was like looking at a goddess. One billion evolution materials, super illustrated handbook, high-level ruins space, news about plant pets...

These pieces of information made Shi Yu feel that the vocation assessment was boring and he wanted to end it quickly!

"I'm done talking." Lu Qingyi glanced at the time, then at the small television. "Then you continue preparing for the assessment."

"I'll go find White Brook." If they continued chatting, she was afraid that Shi Yu wouldn't be in the mood to take the assessment.

At the moment, the assessment was still more important to Shi Yu. The better the assessment results, the better it was for his future development.

"Alright." Shi Yu looked at the small television. At this moment, the battle between Yu Shu and Zhang Qianyi was already at the climax.

...

Ancient Capital Arena.

A black cloud Thundercloud Sprite with golden lightning flashing floated in the sky.

Inside it were two strange Little Spirits.

One was a Wind Sprite the size of a water bottle, similar to a small green tornado, and the other was a Fire Sprite similar to a flame. They were both elemental creatures of medium-level transcendent races. They were Zhang Qianyi's first and second pets.

Although the race level was not high, they had also learned high-level skills outside their race. The current battle power was also extraordinary.

Boom!!!

At this moment, Yu Shu fell into a huge disadvantage.

Under the Thunderclap Skill of the Thundercloud Sprite, the battle intent of the undead-type Soul Dragon was greatly affected, including Yu Shu's mentality.

Skill: Thunder

Skill Level: Advanced

< Introduction > With the power of thunder, it can intimidate the enemy and make them afraid.

Thunder rumbled continuously in the sky, the sound shocking the heart.

This was a thunder-type skill called Thunder Deterrence, Yu Shu clenched the silver necklace on his chest tightly. He was very glad that his mother had asked for level-three mental defense equipment at the last minute.

Otherwise, he wouldn't even be able to show his talent in this battle.

But now, even if he activated his talent, the situation was still pushing him back step by step. The girl opposite was too violent.

With a wave of her hand, a bolt of lightning descended from the sky. A storm swept past, and it was simply unsolvable.

"This girl is so strong... Is she really from an ordinary family? How can she have such a talent?"

At the spectator area of Ancient Capital University, Qi Yingjie and the others looked at Zhang Qianyi standing on the ground and spoke one after another.

It was fine if she faced other contestants previously, but Yu Shu was an internally determined genius in the battle department of Ancient Capital University!

His parents were both top students who had graduated from Ancient Capital University. Now, they were already top-notch Beast Tamers!

Even so, Yu Shu's Soul-Armored Bone Dragon was still retreating under the attack of the other party's three elemental sprites.

Drip, drip, drip...

In the arena, the Thunder Cloud Sprite summoned the rain clouds, causing the entire arena to enter a rain state. Under the rain, its lightning was even more violent!

In addition, under the combination of Zhang Qianyi's Elemental Coordination Talent, the Thunder Cloud Sprite's high-level skill Lightning and the Wind Sprite's high-level skill Storm directly formed a dual-element combination skill Lightning Storm in this weather.

A strong wind swept with the lightning and crushed towards Yu Shu's Soul-Armored Bone Dragon in an even more violent manner.

This lightning and storm were both proficient proficiency levels, and it wasn't even expert level. Moreover, it was used by two different pets. In theory, it was definitely impossible to fuse them, but at this moment, it had indeed successfully fused together, forming an exponentially greater power.

“Roar!!!”

The lightning storm swept over, and thick dark green flames appeared on the opposite side. The Soul-Armored Bone Dragon could still resist it with the Soul Fire Dragon Breath.

However, in the next moment, Zhang Qianyi's expression froze, and she got the Fire Sprite to join the battle. As soon as the super three-element combination skills formed by the high-level proficiency skills Lightning, Storm, and Fire Vortex were formed, the Soul-Armored Dragon's Soul Flame Dragon Breath was instantly obliterated!

Metal, green, and red storms blew over. In an instant, the bone dragon was swallowed.

The strengthened bones began to suffer the stimulation of violent lightning and flames. The recombination speed was far slower than the enemy's destruction speed. The powerful destructive power immediately caused the bone dragon to wail.

As the Beast Tamer of the Soul attached Bone Dragon, Yu Shu felt his heart trembling at this moment!

“F*ck, how unreasonable!!!” On the other side, Yu Shu was about to explode in anger.

Girl, this combination skill of yours was f*cking unscientific.

Wind, thunder, and high-level fire skills were completely unrelated. The proficiency was not high either, and you could just combine them?!

This elemental coordination talent was too unreasonable.

Facing this Elementalist with outstanding looks and her three elemental sprites, Yu Shu and the Soul attached Bone Dragon were directly defeated a moment later!

This was also the first time Zhang Qianyi had all three pets attack and use three high-level combination skills.

“...Zhang Qianyi advances in victory.” At the side, Master Qu Jie looked at the unwilling Yu Shu and the slightly tired Zhang Qianyi and announced the results.

In terms of Beast Taming Talent strength, Zhang Qianyi's Elemental Coordination Talent was indeed stronger. At the moment, it was alright. When her pet touched on seven or eight attributes and its level was a little higher, the super combination skill formed would be incomparably sick.

In comparison, although Yu Shu's Soul Strengthening talent was also extremely rare, it was still slightly inferior.

Of course, in the end of this battle, although the Soul-Armored Bone Dragon was heavily injured in the aspect of pets... Zhang Qianyi, who supported the combination skill of the three elemental sprites, still consumed more energy.

At this moment, her face was pale, looking like she had consumed too much energy. Obviously, it was not easy to support pets to use three combination skills.

“Thank you for the fight,” Zhang Qian said to Yu Shu.

On the other hand, Yu Shu was very unhappy.

“Unfortunately, I can’t bump into Shiyu.”

Among the two, the winner would encounter Shi Yu. It was clearly not him now.

“Shi Yu...” Zhang Qian was slightly stunned. Obviously, she didn’t expect that Yu Shu would care about this after losing to her.

“Well, although you defeated me, I don’t think you can defeat him,” Yu Shu said.

Zhang Qianyi: “?”

The pressure Shi Yu gave Yu Shu was much greater than this Zhang Qianyi. Even if that bug couldn’t use high-level props to transform into an ice dragon, he still felt that Shi Yu hid many trump cards.

Shi Yu was his greatest goal in this assessment! Although the other party had defeated him, only he, Yu Shu, could defeat Shi Yu!

“This idiot.” Somewhere in the audience, Yu Shu’s irritable mother saw her son talking to the bright girl opposite after the competition and immediately cursed.

It’s none of your business whether Shi Yu is impressive or not. How are you going to find a girlfriend like this?

“Your son is really a straightforward man...” Just as Yu Shu’s mother was extremely irritable, her cigarette was extinguished, and her lungs were about to explode from anger, an old woman walked over and smiled.

“...” Yu Shu’s mother looked over and said, “You’ve taken in a good disciple. This Zhang Qianyi’s use of talent is very good.”

The old woman nodded and said, “Yes, it’s a pity that her physique is lacking and she can’t use your talent multiple times. If only she were a boy.”

“Girls are better.” Yu Shu’s mother’s face darkened.

At this moment, when they heard Yu Shu’s conversation with Zhang Qian, the venue let out a cry.

This Yu Shu had a very high evaluation of Shi Yu.

The two of them were both popular seeded candidates. Could it be that the two of them knew and had contact?

...

“This unlucky child, why is he drawing attention to him?”

In the prep room, after Lu Qingyi left, Shi Yu ate potato chips. Eleven and Buggy had Happy Water and watched the small television together.

Seeing that Yu Shu did not forget to draw attention for him even after losing, Shi Yu immediately felt that there was a huge grudge and hatred. Wasn’t it just stealing three stalks of Dragon Soul Grass?

However, that girl called Zhang Qianyi... her output was so high.

Shi Yu looked at Eleven, and Eleven quietly licked the happy nutrient solution.

“Your Thunder Palm+Hardening Thunder Armor profundity seem to be a little difficult to resist that.”

“Wuu!” Eleven nodded.

After all, it was one against three, and the other party had the enhancement of her Beast Taming Talent.

“But if we add multiplication, it should be okay. Then, with your rich experience of being beaten and your recovery ability, our chances of winning are still very high,” Shi Yu analyzed.

Although the other party’s move was strong, after that girl used it once, it looked like she would become weak.

“Ji ji ji.” Buggy said to not forget about it.

“You...?” Shi Yu looked at Buggy and said, “Next, be it the Thunder Flame Storm or the Lava Explosion of Yin Zhengfan’s Mane Rock Beast, are you sure you want to go deeper into the battle?”

“Ji...” The green worm was stunned. It looked at its weak body and fell into deep thought.

It imagined the scene of himself being minced into pieces in the Thunder Flame Storm.

It imagined himself being burned into a worm’s ashes in the lava eruption...

Buggy shuddered.

Alright, then it would assist at the edge.

It would be a cheerleader!

After showing off so much, it was time to give up his position as the leader.

“Gulp! Gulp!” Eleven finished the Happy Water in one go and placed the bottle on the table with a confident expression.

“Wuu!!”

It raised its hands high. No problem!

“We have to fight the next two battles well...” Shi Yu’s expression was also serious.

Not only did he have to let Eleven be the main force, but he also had to win beautifully.

It was time to announce the evolution of the Iron-eating Beast.. He had to win first place with the Iron-eating Beast no matter what.

Chapter 127: Splitting Thunder

After the third round of assessment, it was a short break.

Whether it was the audience or the candidates, they could find something to eat.

Shi Yu stared at the small television quietly. There was still the last match.

Yin Zhengfan vs Ji Ke.

Ji Ke was that seeded candidate in strange clothes that looked like ancient wuxia clothes.

Her strength was not bad either. The two pets walked the technical path. For example, her Water Blade Mantis used the Water Slash skill as the core to create a fancy saber art. Unfortunately, it encountered Yin Zhengfan.

With a deterrence from Yin Zhengfan's Zonyan Rock Beast and a spatial shackle from the Sky Crystal Butterfly, he directly took away her two pets' winning chances.

Yin Zhengfan's Zonyan Rock Beast also mastered deterrence, but when Yin Zhengfan showed it, no one was surprised.

In the matches earlier, there was a Green Silkworm that could master the dragon's might. Mid-level transcendent iron-eating beasts could master deterrence. The Zonyan Rock Beast was a pet of a monarch race. It was too scientific to awaken its king's aptitude.

"Although the technical stream is good, you have to have the ability to support it."

After watching the battle, Shi Yu only had this feeling. Under the same battle power, it was indeed quite outstanding, but when it came to experts, it was immediately weak.

Letting Eleven use the Continuous Thunder Palm to execute a set of gorgeous and fancy palm skills was far inferior to directly multiplying it and using the Thunder Palm at full strength. It was simple and convenient.

"That lump of Thundercloud Sprite has Thunder deterrence, and this Zonyan Rock Beast has deterrence. It's not easy."

Eleven and Buggy ate quietly, not wanting to hear Beast Tamers' troubles.

Being difficult meant that the enemy couldn't be insta-killed. That was indeed difficult.

"Fortunately, Yin Zhengfan didn't contract too many pets..."

Shi Yu got up and stretched his body. Yin Zhengfan had the Beast Taming Space strengthening talent. In theory, he could contract four pets now. However, because he had been a Beast Tamer for too short a time, he couldn't nurture them. Currently, he only contracted two.

If he completed the contract, the pressure on Shi Yu and the others would increase.

"I'll go order a box lunch," Shi Yu said to Eleven and Buggy.

Although he had eaten a bunch of snacks and supplements in the house, he still had to make do with lunch.

“(▽)~□) Wu!” “Ji!!” Eleven and Buggy raised their glasses to send him off.

1

...

Ancient Capital Arena.

After the third round of assessment ended, there were immediately only a few scattered people left.

During lunch break, regardless of whether it was the contestants or the audience, they had to eat.

This time, Shi Yu held the lunch box and sat quietly on the high platform. With fewer people, he looked down at the venue from the perspective of the audience and other candidates.

From this angle, he must be very handsome.

“It’s faded...” Shi Yu finished the last mouthful of lunch. Then, just as he was about to get up and return to wait for the battle to begin in the afternoon, his cell phone suddenly rang.

It was from Senior Panda.

“What’s wrong?” Shi Yu took the phone.

“Where are you? The assessment passed!”

She was talking to the Iron-eating iron beast evolution details.

“Just now, my father and Director Li received the news!”

On the other end of the phone was Lin Xiuzhu’s excited voice.

Shi Yu smiled. Although he already knew, he still said, “Really?”

“Well, look at the time. It will be announced on the Dong Huang Network at 13: 00 PM!”

Dong Huang network, the official media of the country and the most formal information website.

Shi Yu glanced at the time. It was currently 12: 30. In other words, half an hour later?

At the same time, it was also the time for the first round of the afternoon assessment to begin.

Against Zhang Qianyi.

“I’m looking forward to it...”

Shi Yu looked at the time.

“Then I have to show off a little. After the battle, I’ll advertise on the spot...”

There were so many big shots present. Perhaps he could pull in some investment.

Now, Shi Yu and Panda’s Bamboo Stone Dojo and Iron-eating Beast Breeding Base were in a win-win situation.

Iron-eating Beast Breeding Base, cultivated Iron-eating Beasts.

Bamboo Stone Dojo, teaching the method to nurture iron-eating beasts.

The other industries of Panda's senior sister grew Iron-eating Beast related food resources.

He was the chief evolution planner of the Iron-eating Beasts, the spokesperson of the Iron-eating Beast Breeding Base in Ping Cheng.

He could completely arrange the Beast Tamers who wanted to nurture iron-eating beasts clearly.

Previously, Hall Master Lin had begged Shi Yu to join their family business almost every day.

As the chief evolution planner of the iron-eating beasts, Shi Yu was almost the spokesperson of any iron-eating beast breeding base. Any place with his face on it would become the orthodox symbol.

Behind him represented huge benefits. Hall Master Lin, who had spent hundreds of millions on the iron-eating beast's evolution, was counting on Shi Yu to save his life.

As for Shi Yu, in the face of Hall Master Lin's passionate request... Did he have a choice?

"So the current situation is that the richer Senior Panda's family is, the richer I am."

"Forget about everything else, I'll definitely have Eleven's food in the future."

Shi Yu sighed. This time, he shouldn't be considered a pretty boy of rich ladies, right?

He had also played a huge role.

However, in that case, he had to think of a way to let Ping Cheng's breeding base... No, let the economy of Ping Cheng rise.

After all, the business of Lin Xiuzhu's family had always been closely related to the economy of Ping Cheng, and it was half country-based and personal-based.

Speaking of which, if he could crack the Ice Dragon Ruins, he would be able to obtain the index and new high-level ruins space.

He just didn't know what use the ruin bead in his hand had when breaking through the ruins and whether it could be preserved after the battle.

If it could be preserved, its best use had already appeared.

Through this ruin bead, the largest iron-eating beast breeding base in Ping Cheng, the village of giant pandas in Dong Huang, the planting a large number of iron-eating beasts related spiritual plants... In the future, as the iron-eating beasts became monarch races and overlord races, Icefield City might be able to become a first-level city with this.

Many cities really developed under the light of unique pets.

After returning, he had to discuss it with Old Feng and Old Lin to make the greatest use of the ruin beads.

The premise was that when he cracked the Ice Dragon Ruins, this Ruins Bead would not be destroyed—God bless. He also wondered, after the Ice Dragon Ruins space was broken, would there be new ruins...

Shi Yu fell into deep thought. He suddenly understood why Bureau 11 had so many ruin beads to distribute.

...

January 10th.

In the afternoon.

The Ancient Capital Arena became lively again.

Many candidates and spectators returned to the arena after lunch to watch the afternoon assessment.

“Although I didn’t pass this year’s assessment, I’ve learned something new. They’re both transcendent pets, but other people’s pets can actually be so strong. Damn it.” In the audience, a candidate complained.

“You’re alright. I’ve already grown three years of experience. My Beast Taming Space has already reached level three, and I can’t even pass the third survival assessment...”

“Brother, it’s alright. We’ll work hard together in the next assessment.”

“Let’s give it a try!”

Various discussions came from all over the venue. The most discussed voices were the advancement battles of the next four semifinals.

Iron-eating Beast Knight, tactical genius, Master Player Shi Yu vs Elementalist Zhang Qianyi, who had the higher chance of winning?

“This time, Shi Yu should be punished, right?!”

Many people thought so.

It wasn’t that Shi Yu attracted a lot of hatred, but he was really a little out of place. Many Beast Tamers were secretly unhappy that they weren’t as good as this guy...

Could it be that acting like an eighth grader with eighth grade syndrome was the correct way to become a powerful Beast Tamer? They didn’t believe it! Unless Shi Yu could get first place, only then would they reluctantly follow the trend.

“Zhang Qianyi’s Beast Taming Talent is stronger. Compared to Shi Yu’s telepathy Talent, she’s clearly better. However, how did Shi Yu’s talent manage to train his pet to be so strong...”

“In terms of pets, Zhang Qianyi’s Beast Taming Space has reached level three. Forget about the strength of the pets, the number of them already won. Moreover, Zhang Qianyi can perfectly coordinate their strength into one. This is another advantage.”

The ordinary candidates analyzed, and the Masters also analyzed. This battle... was difficult to say.

Although Zhang Qianyi had hope of defeating Shi Yu, Shi Yu also had a very high chance of defeating Zhang Qianyi.

In the promotional video, the iron-eating beast's Thunder Palm and the profound skill of hardening were edited.

As for this profundity, because the opponent was too weak in the video, the duration it could be maintained was too short. It was only for an instant, so the power displayed was not obvious.

Now, the only thing that these masters were puzzled about was how Shi Yu's Iron-eating Beast's coordination was. Could it really control the profundities and to what extent?

This might be the most important deciding point of this battle.

Because, no matter how strong Zhang Qianyi's combination skill was, it was only in the category of combination skills. It was something professional Beast Tamers played with.

As for profundities, they were in another field. They were the unique skills of masters.

"Beep—" After the big screen displayed Shi Yu and Zhang Qianyi's avatars, Master Qu Jie whistled and signaled for the two candidates to go on stage.

He couldn't see his expression, but he was very curious about what Shi Yu would do this time.

Zhang Qianyi was a very orthodox battle-type Beast Tamer. Facing a beautiful girl, Shi Yu couldn't possibly destroy her, right?

It was a normal battle! Leave a good impression on the girl! Don't copy the Yu Shu style from the previous round!

Master Qu Jie didn't know why he was worried about the young people.

A moment later, Shi Yu walked out of the candidate passage.

He was still so handsome and cool.

"Junior Shi Yu, charge!!!"

At the spectator area of Ancient Capital University, the seven archeological elites cheered for Shi Yu.

If the top scorer this year could become a new student in the Archeology Department, the Archeology Department would definitely be very in a comfortable state for the next year!

Shi Yu represented their future!

After Shi Yu walked onto the stage, opposite him, Zhang Qianyi also stepped onto the stage at the same time.

There seemed to be more voices calling out to her.

The girls might not necessarily cheer for Shi Yu, but the male candidates would definitely cheer for Zhang Qianyi. As Shi Yu stood in the arena, he only felt that the world was cruel.

"That's... the sword hilt?"

"You brought a sword?"

After coming up, when Zhang Qian observed Shi Yu and saw something similar to the hilt of a light sword at his waist, she was immediately stunned.

Could it be...

Could it be that Shi Yu's battle with her this time would be as crazy as the survival trial?

Wasn't he afraid of being struck by lightning if he went on stage!?

She couldn't guarantee Shi Yu's safety.

"Holy shit, Shi Yu seems to have brought a sword."

"What do you mean? Is he going to overcome the lightning tribulation with the sword?"

Many spectators also realized that Shi Yu carried a prop with him and could not help but be surprised.

"No." Shi Yu said, "This is only an umbrella. Your Thunder Cloud Sprite's rain area is too large. I don't want to become a drenched chicken like Yu Shu."

Zhang Qianyi: "?"

Master Qu Jie:???

The audience, including Yu Shu:???

"Beep—" Master Qu Jie's expression darkened. He immediately blew the whistle, indicating for the competition to begin.

Stop chatting, stop chatting, hurry up and fight!

This is a professional assessment, not a chatting stage!

The whistle sounded. Both Zhang Qianyi and Shi Yu immediately summoned their pets.

Zhang Qianyi's summoning array appeared in the sky, while Shi Yu's summoning array appeared on the ground.

The figures of the Thunder Cloud Sprite, Fire Sprite, and Wind Sprite, as well as the Little Iron-Eating Beast and Green Silkworm, appeared on the arena in an instant!

Boom!!!

The moment it appeared, the thundercloud Sprite that looked like a black thundercloud activated its thunder skill. Electricity surged inside!

A deafening sound immediately spread throughout the venue, making many candidates cover their ears, their hearts trembling.

However, the main targets of this sound were still the little Iron-Eating Beast standing in the arena and the green worm on its head!

At this moment, with a boom, rain clouds immediately appeared on the field. The rain clouds condensed almost instantly. Raindrops fell, and the sky was pitch-black. The thunder was deafening.

“Wuu!” “Ji!!!” Seeing that the other party actually took the initiative to attack and used a deterrence skill, the dual deterrence of Eleven and Buggy suddenly erupted!!

Although the energy value of the Thunder Cloud Sprite was above Eleven, Eleven’s deterrence proficiency was higher, and he had the support of Buggy!

Boom!

The substantialized aura was intimidating, making the raindrops distort and disappear in mid-air. At this moment, the deterrence collision of the three sprites on the field and even the candidates outside the field could clearly feel... that it was abnormally scary!

With a bang, it was as if the air was colliding with each other. The entire arena was wrapped in two huge auras. As the auras collided, lightning flashed and thunder rumbled in the sky. However, an instant after the collision, the deterrence power of the Thunder Deterrence was quickly suppressed. Zhang Qianyi’s expression didn’t change. She didn’t expect that the Thunder Cloud Sprite’s deterrence could defeat the deterrence of the Little Iron Eating Beast. As long as it could withstand it, it would be considered a victory.

Her killer moves were still not used yet!

Boom!!!

After the thunderclap, along with the rain, a thick thunderbolt accompanied the thunderclap as it rumbled down.

With the double strengthening of storm and deterrence, the power of this high-level thunder skill, had reached its maximum. At this moment, the several-meter-thick thunder pillar descended. Eleven showed an excited expression, making Buggy’s eyes widen as it hurriedly jumped away from Eleven...

“Lightning Blade,” said Shi Yu, who was holding an umbrella at the edge of the arena.

“Wuu!!”

Upon hearing Shi Yu’s command, Eleven roared. A strong blue and white electric current began to appear in its palms. At the same time, the lightning began to spread throughout its body and invade it.

Zizi!!!

Under the lightning, its mouth and eyes seemed to be filled with lightning.

In the next moment, all the hair on its body stood up. Its Perfect-level supervision was also activated. It formed a profundity with the Thunder Palm and looked at the lightning in the sky. Its body seemed to have turned into a bolt of lightning itself!!

Then, in this berserk state, Eleven took a deep breath and finally stepped hard.

Crack!

A crack appeared in the arena.

The Little Iron Eating Beast’s figure disappeared on the spot!

The audience's breathing tightened.

What was it doing?

After a moment, all the candidates looked at the sky. Their hearts trembled violently, and they revealed expressions of disbelief.

Everything happened in the blink of an eye. In mid-air, the high-level skill lightning that the Thunder Cloud Sprite released, which looked like a lightning pillar, was actually divided into two at this moment. It was as if it was sliced apart by the sharpest weapon... And the energy dispersed stopped in mid-air!

Everyone saw that the one who sliced and tore apart the lightning was the little Iron-Eating Beast that leaped up with all its might. At this moment, the blue and white lightning on its hands formed a sharp contrast to the golden lightning summoned by the Thundercloud Sprite. Many people widened their mouths in shock. This, this could also be done??

The lightning was so fast, how did this little Metal-eating Beast cut through the lightning so accurately and quickly!!!

Monster!

Zhang Qianyi and the Thunder Cloud Sprite's expressions changed almost at the same time.

"Is this the power of the perfect-level Thunder Palm..."

The candidates looked at the little Metal-eating Beast that had fallen onto the charred ground again with high battle intent, and their hearts trembled.

Fuck.

Previously, it had always been Buggy showing off. Now that they saw the little Iron-Eating Beast attack, it immediately gave the candidates an illusion that it was a lifetime ago.

"Apart from the Perfect Level Thunder Palm, there's also the Perfect Level super vision," Legendary Yin said quietly. Otherwise, it wouldn't be so easy for this Iron-eating Beast to capture the movement of the lightning and the weak points of energy so easily and successfully cut it open.

This move couldn't simply be considered a perfect-level Thunder Palm anymore. Instead, it was a profundity formed by perfect-level Thunder Palm and supervision. It was a profound skill that could allow the Little Iron Eating Beast to perfectly control the lightning stimulation!

"Senior, is this the Thunder Palm of your Bamboo Stone Dojo? Impressive!!!" The seven archeological elites in the audience seats of Ancient Capital University said.

The panda senior was silent. She kept feeling that Lin Hongnian's Iron-eating Beast's Thunder Palm had never been so smooth...

Chapter 128: The Evolution of the Iron-eating Beast

The audience was getting noisy.

Even those master-level Beast Tamers were shocked to see the little Iron-Eating Beast cutting through the lightning so easily!

“After all, this Iron-eating Beast seems to be Shi Yu’s trump card...”

Everyone looked at Buggy, who had crawled to the edge of the arena to watch the commotion, and suddenly remembered that it was the second pet.

“What about this move?”

In the arena, the girl frowned. She was very dissatisfied with the Thunder Cloud Sprite being used as a foil for the Little Iron Eating Beast’s posturing.

She held her hands in front of her, her palms facing each other. Green and gold energy fluctuations immediately appeared between her hands.

“Wuwuwu ~ ~!!!”

In the sky, as Zhang Qianyi used the Elemental Coordination Talent, there was a strange connection between the Thunder Cloud Sprite and the Wind Sprite, as if their minds were also connected.

Zhang Qianyi could use two high-level combination skills multiple times, but using three high-level combination skills once was her current limit.

The lightning couldn’t affect Shi Yu and the others. Zhang Qianyi immediately activated his second most powerful combination skill, Thunder Storm!

It was also called Thunder Cloud Storm!

Boom!!!

Thunder rumbled.

“Yi, Yi, Yi, Yi, Yi...” In the sky, the Thunder Cloud Sprite and the Wind Sprite laughed wildly. The Fire Sprite distanced itself from them in disdain. Then, their bodies quickly turned around. In an instant, a powerful black thundercloud storm formed!

This tornado-like storm had black thunder clouds sweeping inside. Electricity flashed inside, containing a terrifying power of thunder!

Seeing the formation of this super combination skill, many candidates swallowed their saliva.

“How violent...”

In the next second!

The black thundercloud tornado was like a black thunder dragon as it swept towards Eleven, who had just finished showing off.

Thunder Cloud Storm!

“Ji!!” At the edge of the arena, the bug cheered for Eleven. This move was indeed strong. Unless it used the Ice Dragon Whiskers to transform into an ice dragon, it definitely wouldn’t be able to withstand it. Therefore, it was left to the leader!!

However, even Yu Shu’s Soul-Armored Bone Dragon’s Soul Fire Dragon Breath could resist this move, so Eleven was even less concerned.

“Wuu!!!” This time, Eleven also went all out. His whole body hardened, and a metallic texture filled his whole body. At the same time, he activated the Perfect Level Thunder Palm. This time, he chose to use the profundity of the Transcendent Level Hardening and Perfect Level Thunder Palm!

At this moment, it looked like it was wearing lightning armor!

“It’s here...”

Realizing that the Little Iron Eating Beast had entered this special state, many master-level Beast Tamers stood up one after another, wanting to see if it could control this arcane skill. If it could, then Shi Yu and the others were too monstrous. They had just become professional Beast Tamers, but they had already mastered the master-level profundities. They could no longer be described as geniuses.

“Wuu!!!” In the face of the Thunder Cloud Storm, Eleven roared and made a charging action under the state of the Thunder Armor!

Thunder Armor Profundity: a serious attack!

Buzz!!

When Eleven gathered strength, the air seemed to be trembling, and the surrounding lightning shot out intensely.

Crack!

The ground under its feet was also trembling continuously, and cracks spread continuously.

Boom!!

The thundercloud storm that came from the sky was almost instantaneous. Eleven, who felt that it had accumulated strength to the limit, looked up. Its black eyes seemed to have turned into blue lightning that contained peerless battle intent.

At this moment, the Thundercloud Sprite and the other elemental sprites were in the sky and had also released a powerful move... But suddenly, they had a bad feeling.

As the little Iron-eating Beast on the field moved, their bad premonition grew stronger.

Bang!!!

Eleven finally moved.

Under the full power of the Thunder Armor’s profundity, the ground under Eleven’s feet shattered again. The powerful reaction force helped Eleven accelerate and rush out. At this moment, its speed

could be described as godly. At this moment, under the enhancement of Hardening and the Thunder Palm, its speed and strength reached their maximum!

Eleven leaped up and directly hit the descending Thunder Cloud Storm!

Eleven, who was a meter tall, was much smaller than the thick Thunder Cloud Storm. However, when Eleven's thunder palm made contact with the Thunder Cloud Storm, a terrifying power wave erupted from its body and directly changed the form of the Thunder Cloud Storm!

The tornado-like Thunder Cloud Storm was hit by this terrifying palm until it was like a bent bow, and it changed shape with a bang. In the next moment, between the Perfect Lightning Armor's profundity and the Thunder Cloud Storm, a huge storm swept up, directly tearing apart the floor with cracks. Under the dazzling light and energy explosion, the entire arena was lit up!!

Boom!!!!

In an instant, the Thunder Cloud Storm directly disappeared in mid-air, as if it had been scattered by a punch. Under the sweep of the energy tide, the terrifying storm suddenly blasted towards the sky, forcing the Thunder Cloud Sprite and the other elemental creatures to rise into the sky with frightened expressions.

At the same time, the Little Iron Eating Beast was also blown down by the reaction force of the energy explosion.

However, when the scene on the arena was clear, everyone could see that the little Iron-Eating Beast was standing there unscathed, as if the combination skill just now was only so-so.

Zhang Qianyi, the Thunder Cloud Sprite, and the other pets had extremely serious expressions.

Yu Shu, Yin Zhengfan, and the others had especially solemn expressions.

"What the f*ck..." In the venue, everyone looked at the little Iron-eating Beast that was unscathed and opened their mouths slightly.

The Thunder Cloud Storm was gone just like that?

It was no problem to resist the Thunder Cloud Storm, and Yu Shu's Soul-Armored Bone Dragon had also done it. However, the problem was that regardless of whether it was the Thunder Cloud Sprite and Wind Sprite that used the Thunder Cloud Storm or the Soul-Armored Bone Dragon that used the Soul Fire Dragon Breath, they weren't alone! They were a two pet combo!!

Moreover, the combination skills had been enhanced by the Beast Tamer's talent enhancement!!

In such a situation, it was very normal for their big moves to be evenly matched.

But now, everyone looked at the Green silkworm that was cheerleading at the edge of the arena. No matter how they looked at it, it looked like a little Iron-Eating Beast. They directly defeated the joint attack of Zhang Qianyi, the Thunder Cloud Sprite, and the Wind Sprite without any effort...

1VS3?

This was too sick! This didn't make sense!

“The power of this move isn’t enough. What about the three-element combination skill that you used to instantly kill Yu Shu?” Shi Yu asked.

It was as if facing two combination skills was very unsatisfying.

Yu Shu: “F*ck.”

In the spectator area, Yu Shu’s expression darkened. How was he insta-killed? He clearly lasted for a few seconds.

However, was Shi Yu serious? That three-element combination skill was not something that an extraordinary pet could withstand.

“...” Zhang Qianyi ignored Shi Yu. In the next moment, she clasped her hands together. Three-colored starlight seemed to flicker in her palm, and an elemental rain descended from the sky.

Whoosh!!

Wind blades and electric arcs intertwined, water and wind blades entangled, and electric arcs fused with water.

Dozens of small dual-element combination skills descended from the sky, completely suppressing the enemy!!

Seeing the skill that fell like a small meteor shower in the sky, many candidates opened their mouths slightly.

“Show them more of your power,” Shi Yu said slightly. “Eleven.”

“Wuu!!!” On the ground, Eleven howled loudly. With a wave of its small right arm, the hardening substance was released. A hardening black umbrella was formed and raised up by Eleven. Its movements couldn’t be said to be very similar to Shi Yu, who was holding an umbrella beside the arena. It could only be said to be completely the same!

“Ji!” Buggy quickly crawled back to Eleven’s shoulder to avoid being affected.

Boom!!!

The three types of meteor shower suddenly made the already low visibility venue even worse. In the face of this move, Eleven used transcendent Level Hardening to easily block it.

“Thunder chain!!!”

Zhang Qian shouted, and lightning flashed from the Thunder Cloud Sprite in the sky again. The arena filled with water and electricity suddenly produced a chain lightning that sealed the entire arena and quickly spread close to Eleven and the bug.

Intermediate Lightning Control Skill, Thunder Chain!

At this moment, the entire venue became impossible to stay in.

This was a control skill with a strong paralysis effect. It wouldn't cause any damage, but it would numb the whole body, causing lightning restraints and affecting mobility. Even pets of the thunder family couldn't escape.

Eleven's Hardening and High Speed Healing couldn't defend against this move, and its thunder resistance wasn't enough to be immune to this skill. It could only dodge.

"It's useless." As the sky stopped raining, Shi Yu put away the umbrella.

The lightning chain flowed crazily in the arena. Under everyone's gaze, white light condensed on the Little Iron Eating Beast's back again, and a pair of wings appeared, slowly flying it up.

Everyone was stunned. They quickly looked at the Green Silkworm on its shoulder which had indeed closed its eyes again.

"The Insect God is making a move. The Phantom Illusion is here."

"Beautiful dodge."

At this moment, when they saw the worm starting to support the Iron-Eating Beast, many candidates revealed excited expressions.

Half a day had passed. In this Internet era, according to the insane performance of the green worm, literally everyone knew about its playstyles.

Although they didn't know why a Green Silkworm could master illusions, in short, the Worm God was awesome.

Swoosh!!!

As it had practiced it many times, Buggy's movements were relatively agile as he flew with Eleven.

However, the lightning chain on the ground also rose into the sky at the same time, turning into a lightning snake that chain in the sky, trying to catch up to Eleven and Buggy.

Zizi!!!

In fact, after leaving the water stain on the ground, the current lightning chain was much easier to deal with. Eleven could completely use the lightning palm to cut it open, and the worm could also cut it with the worm silk. However, as everyone looked at the little Iron-Eating Beast and the worm chased up by the lightning chain, their gazes flickered and suddenly felt that something was wrong.

It seemed like Zhang Qianyi didn't want to control his opponent at all. She purely wanted to force him to move.

"Thunder Flame Storm!"

Three colors flashed in Zhang Qian's palm again. Her expression was firm. Since Shi Yu wanted her to use the three combination skills, she would use them well.

Her teacher had said that even commander-level creatures would be injured if they resisted this move.

She was extremely confident in this move!

Boom!!!

In the sky, the Thunder Cloud Sprite, Fire Sprite, and Wind Sprite locked onto the flying Little Iron-Eating Beast and Green Silkworm.

She wanted to see how they could dodge this in the sky!

Although they flew pretty well, the combination of the bug and Eleven was actually full of flaws in the eyes of the pets that could really fly.

“Damn, this woman is so ruthless,” Yu Shu said as he looked at the venue.

Even if that Iron-eating Beast could withstand it, the worm was in danger!!!

It wouldn’t directly evaporate, right?

“!” At this moment, the judge, Master Qu Jie, narrowed his eyes. He was already prepared to control the situation at any time.

After judging this move, even if the worm had hardening defense, it would be very difficult to resist. After all, the basic attributes weren’t enough.

However, for Beast Tamers with rich battle experience, it was not impossible. At this moment, they could directly summon their pets back and then summon them again.

The Beast Taming Space was a perfect transit station!

In the wild, by taking back some pets from battle in time, they could largely avoid fatal injuries.

Of course, the premise was to take back the pet. The safety of the Beast Tamer himself had always been guaranteed.

Shi Yu could totally do that, but in a normal competition, recalling pets was generally regarded as giving up the right to fight for the pet to avoid danger.

Countless masters looked at Shi Yu.

However, at this moment, everyone realized that Shi Yu was not flustered at all.

He even crossed his arms and looked at the sky calmly.

It was as if Eleven and Buggy flying into the sky wasn’t forced by the opponent at all, but because they wanted to do it in the first place.

Under the lockdown of the Thunder Cloud, Fire, and Wind Sprites, Eleven and the bug flew higher and higher, quickly surpassing the height of the three elemental elves.

“F*ck, don’t tell me they still want to play Wuji Airlines?”

“These elemental elves aren’t living targets like Fang Ji’s elves.”

Fang Ji: “Are you crazy?”

Many spectators realized that Shi Yu seemed to be showing signs of wanting to play the Airlines battle tactic again.

Could it be that he was going to add the Thunder Palm this time?

A palm that descended from the sky in the state of the Thunder Armor?

There was no point. At this height, it might not necessarily be able to match the explosive speed brought by the Thunder Palm. Its power wouldn't increase much. Moreover, the position was too awkward.

Most people didn't know what Shi Yu wanted to do. Only those who were familiar with Shi Yu at the spectator area of the Ancient Capital University suddenly remembered something.

"Holy shit." They looked at Eleven, who was facing the three elemental elves who had condensed Thunder Flame Storm in the sky, and suddenly remembered something.

Boom!!

At this moment, under Zhang Qianyi's weak expression, the Thunder Flame Storm condensed with a bang. The golden, green, and red-colored storm intertwined with each other swept into the sky in a very violent manner, targeting the Iron Eater.

Yu Shu's Soul attached Bone Dragon was directly insta-killed under this move!

The terrifying destructive power could be clearly sensed by the audience from very far away.

"Can he block it??"

"No, can he dodge it?"

Everyone stared at the sky, but in the next moment, their expressions gradually became strange.

That was because in the sky, facing the rolling thunderstorm, the little Iron-eating Beast let out an excited howl again!

Its eyes were filled with battle intent.

"F*ck, he's crazy."

All the candidates saw the Little Iron Eating Beast's wings suddenly disappear. Then, wings appeared on both sides of the worm. The worm opened its eyes and continued to fly into the sky with horror in its eyes, as if it wanted to fly away, leaving the Little Iron Eating Beast without wings to face the Thunder Flame Storm alone!

It was going to fight head-on? Or in the sky?

Just as everyone was at a loss, they suddenly opened their mouths wide.

They saw an extremely shocking scene.

In the face of the Thunder Flame Storm, the one-meter-tall Eleven fell and hit the Thunder Flame Storm with a palm.

The process was very much like a mayfly shaking a tree. However, suddenly, Eleven's black hard palm increased dozens of times under everyone's stunned and unbelievable expressions!!

Boom!!!

In an instant, a huge black palm with a diameter of more than ten meters covered the sky with a bang. On the black palm, there was an intense and violent terrifying blue lightning. This time, compared to the palm, the Thunder Flame Storm became a lot smaller!!

It was expert level in one of the uses of multiplication, partial multiplication!

"How is this possible..." The shocking change made Zhang Qianyi widen his eyes.

In the next second, a huge hardening Thunder Palm that was more than ten meters wide directly hit Thunder Flame Storm!!

"Bang!!" With a bang, the Thunder Flame Storm that originally made Zhang Qianyi extremely confident was actually instantly distorted by the slap when it touched the huge lightning palm that fell down. Along with a terrifying explosion, it dissipated with a bang!

Then, the three types of energy fluctuations quickly wrapped around the Thunder Palm, but it was quickly swallowed by the violent lightning power contained on it, unable to break through the hardened defense layer!!

The huge palm was still falling. In mid-air, looking at the black shadow that fell, the Thunder Cloud Sprite, Fire Sprite, and Wind Sprite also widened their eyes and widened their mouths. But at this moment, facing the huge palm, they also felt a strong deterrence at the same time. This deterrence almost made them unable to react at the first moment. They couldn't escape the area where the huge palm landed!

Boom!!!

The huge palm "gently" swatted down, pressing down the three elemental elves and continuing to fall towards the arena. In a short moment, it was as if the sky was collapsing. As the huge palm fell, the entire arena suffered the most tragic destruction from the start of this match!!

With a crack, the entire center of the arena was directly flattened!!

A huge palm print was imprinted in the center of the arena!!

At this moment, the palm that destroyed the arena actually had a small tail. It was surprisingly a much smaller bear cat...

"Wuu!!!" The little bear cat let out a fierce roar.

How was it!!!

It named this move...

Before Eleven could finish naming it, the huge palm quickly shrank like a leak. Even shrinking was the size of Eleven's main body. After all, this move consumed too much energy. When Eleven shrunk to about ten centimeters, it could breathe calmly.

“Wuwu...” The hanging-sized Little Iron Eating Beast climbed onto the gravel and looked at the three elemental elves who fainted in the rubble, as well as the bug that jumped down from the sky again.

This time, Buggy didn’t do the job of advertising the skill name, but Eleven expressed his poor judgment!

Add the name of my combination skill!

The small Iron-eating Beast, the Green silkworm, and the three unconscious Elemental Elves...

There was also the smiling Shi Yu and the stunned Zhang Qianyi, forming the final battle scene.

Silence.

In the entire Ancient Capital Arena, there was an unprecedented silence.

Yin Zhengfan, Yu Shu, and the other seeded candidates and candidates who had already been eliminated looked at the venue in shock.

Not to mention them, countless master-level Beast Tamers were opening their mouths wide at this moment, feeling that it was ridiculous!

“How is this possible!!” Zhang Qianyi’s teacher, an old woman, said in shock.

Beside her, Yu Shu’s mother was also stunned.

This was... multiplication???

Transcendent Level Hardening+Perfect Level Thunder Palm+Expert Level Hardening?

Another high-level skill above proficiency level?!

This is a mid-level transcendent iron-eating beast?? Are you sure you’re here to participate in the vocation assessment and not the master assessment?

Countless candidates’ mindsets exploded. Isn’t this Iron-eating Beast a little too ridiculous! May I ask, where is it for sale?

“It’s indeed multiplication...” Only the Archeological Seven Elites swallowed their saliva and had an expression of ‘as expected’.

Senior Panda and the others’ hearts were thumping. They were extremely excited when they saw the little Iron-eating Beast’s performance.

So powerful...

At this moment, the one who was most shocked was still Shi Yu’s opponent, Zhang Qianyi. She opened her mouth slightly and wanted to say something, but she was already so tired that she couldn’t say anything.

She stared at Shi Yu with a pale expression, as if she wanted to see through him.

Even Master Qu Jie had mixed feelings.

“Are you trying to ask why the iron-eating beasts of medium-level transcendent races are so strong? Moreover, they can multiply?” Shi Yu looked at Zhang Qianyi.

Zhang Qian was stunned.

“Actually, it’s very simple. My Iron-eating Beast has awakened its ancient bloodline and is in a state close to evolution.”

Shi Yu chuckled.

“Evolution??”

The moment Shi Yu spoke, the entire venue froze. Iron-eating beasts could evolve?

Why had they never heard of it?

Many young candidates showed blank expressions.

“Iron-eating beasts... can indeed still evolve.” Master Qu Jie took a deep look at Shi Yu and announced the assessment results.

“Shi Yu advanced successfully in the fourth round of the assessment.”

“Those who want to understand the evolution of the iron-eating beast can go to the Dong Huang Network to check the information.”

As the person in charge of the assessment who had been paying attention to every seeded candidate, Master Qu Jie knew more.

When Master Qu Jie finished speaking, many candidates were stunned. Then, they subconsciously took out their cell phones and searched Dong Huang Net.

Just as they entered the page, the headline was a piece of news that stunned them.

‘The potential evolution of the Iron-eating Beast Monarch is born! Discovered by Archeologist Shi Yu!’

Chapter 129: Fame Across the Nation

The Iron-eating Beast King’s potential evolution?

Discoverer, archeologist, Shi Yu?

“Holy shit.”

Many candidates widened their eyes and browsed the news.

They suspected that they had not seen clearly.

Even some master-level Beast Tamers were very shocked at this time.

“Iron-eating Beast, mid-level transcendent race. Race skill is low-level hardening.”

“In ancient times, this pet had an ancient evolution form. It’s currently named ‘Nine Li War Beast’.”

“Archeologist Shi Yu, through deciphering the ruins of the Iron-eating Beast in the ancient capital, successfully found the evolution method of the Iron-eating Beast.”

“Moreover, in September last year, Master Lin Hongnian, owner of the Bamboo Stone Dojo of the United Ancient Capital University, confirmed the feasibility of the evolution method. The first Nine Li War Beast in the modern era was born, and its race level was judged as mid-level monarch!!”

As they extracted the main content of the news and read, the expressions of the candidates became stunned.

They had a ridiculous thought.

Firstly, they were shocked that the species level of the Iron-eating Beast was actually so high after its evolution.

Second, they were shocked that the archeologist mentioned in the news was actually Shi Yu, who was nearly their age or even younger than them. He looked very much like an eight grader previously!

“After the iron-eating beast evolved... is it that powerful?!”

A monarch race was a super race that might evolve out of millions of creatures. They had the “king aptitude” that stood above the transcendent.

Even in the entire Blue Planet, there weren’t many creatures with monarch races. All of them were favored by the heavens and had extremely high positions in nature, at the top of the food chain.

Until now, the beast pet of the monarch race had always been the best pet pursued by all Beast Tamers. It almost represented the highest race that Beast Tamers might contract under normal circumstances.

As for strategic overlord-level pets, at the moment, no country had a stable breeding channel. For legendary Beast Tamers, they were also hard to come by.

Therefore, the discovery of another monarch species pet was definitely super big news for the Beast Tamer domain!

The monarch race meant that as long as the growth situation was good, the growth level would definitely reach the monarch level. The chances of breaking through the racial limit and becoming an overlord were also many times higher than the pets of transcendent and commander races.

If the iron-eating beast’s evolutionary species level was that of a middle-level monarch, this meant that even among monarch species pets, the iron-eating beast’s evolutionary potential and battle power were very good for battle.

In comparison, although iron-eating beasts were rare, they weren’t very precious pets. However, someone had actually discovered an evolution path from a middle-level transcendent race to a middle-level monarch race. This evolution path almost crossed two levels. Everyone immediately knew what this meant.

The Iron-eating Beast was going to be awesome.

Shi Yu was going to be awesome.

No, they were already very impressive.

Everyone looked at the king-like Shi Yu and the Little Iron Eating Beast below and was speechless.

They finally understood why the combination of the unknown Shi Yu and the Little Iron Eating Beast was so powerful.

Ten years ago, Dr. Zuo Jiangyun discovered the evolution conditions of the low-level monarch race, the Ice Phoenix Moth. She shocked the entire academic world and received both fame and fortune. She had been talked about enthusiastically until today.

Actually, most people could accept this. After all, Dr. Zuo Jiangyun had been very famous before.

But now, a Beast Tamer who had yet to pass the vocation assessment had discovered a monarch race evolution method of pets. This was even more ridiculous news.

“I see...” In the spectator area, Yin Zhengfan looked at Shi Yu and the Little Iron Eating Beast with a complicated gaze. He understood what his father meant by “there’s always someone better”.

Through Shi Yu’s achievements, he understood why Shi Yu was so strong.

Yu Shu and the others also opened their mouths slightly. It was difficult to imagine that the main praise for this news would be Shi Yu in the arena below.

“F*ck.”

This feeling was like being a student, using his parents’ money, but others had already bought a car and a house with his talent. Comparisons were odious.

Relying on a telepathy talent to defeat a group of second-generation heirs, Shi Yu made everyone realize what a true genius was.

All of this might have come from Shi Yu’s unique cultivation method for pets through archeology!

Hiss, an Iron-eating Beast that had only awakened a portion of its evolution bloodline was already so strong. What if it completely evolved?

At this moment, many candidates were envious collectively. They had the urge to contract an iron-eating beast.

After all, after evolution, it would be a pet of the monarch race. If cultivated well, it would basically be 100% able to help them enter the master realm!

...

At this moment, not only was the professional assessment venue in Ancient Capital shaken.

Instead, the entire archeological world had different degrees of impact.

Apart from the Archeology Department of the Ancient Capital University, the archeology students and mentors of the other eight top universities saw the news immediately.

Divine Capital.

One of the nine great first-tier cities of Dong Huang.

If it was said that the ancient capital was famous because it was the capital of many ancient dynasties, then the Divine Capital was famous because there were the most Mystical ruins here. It was a super metropolis with a very rich mythical atmosphere. Some guardian-level creatures lived inside to protect the Dong Huang Continent.

Just like Ancient Capital University, the archeology department of Divine Capital University was also famous in Dong Huang.

At this moment, the archeology department of Divine Capital University was in an uproar. Many students were cursing.

In the class groups of various grades, one could see the mentors expressing their disappointment at their failure to meet their expectations.

[Students, you have to work hard!!!]

Many archeology students' faces darkened. What was the use of their hard work? The professional accomplishments of their own mentors weren't as great as this Shi Yu.

Many archeology students had a question. What was the background of this Shi Yu?

Archeology was a subject that consumed a lot of experience. At the same time, many ruins with great value were accompanied by a large amount of danger. The requirements for strength were also very high. Why hadn't they heard of this guy before?

"Union Ancient Capital University..."

Some people also discovered the key point. After all, the Archeology Department of Ancient Capital University was famous. From the looks of it, it was really impressive.

This news also indirectly promoted the Archeology Department of Ancient Capital University.

Apart from that, Master Lin Hongnian from Ping Cheng Bamboo Stone Dojo also received extensive attention.

At this moment, Icefield City.

In the many districts and counties under Icefield City, apart from Ping Cheng, some master-level Beast Tamers from the other districts and counties browsed the news in disbelief.

They knew Lin Hongnian.

He was the richest man in Ping Cheng and one of the master-level Beast Tamers in Ping Cheng. His strength was not bad.

It was actually his Iron-eating Beast that completed the first evolution?

Middle class monarch race?

Pets that had this race would be nurtured seriously in the future. Not to mention Ping Cheng, after that, Master Lin Hongnian's battle power would definitely become the top even in the entire Icefield City.

But the most important thing was... Shi Yu!

Shi Yu had become somewhat famous in Icefield City.

Back then, it was President Feng of Ping Cheng who led Shi Yu to beat up the geniuses chosen from their district counties until they were speechless.

Then, it was also him who cracked the Ping Cheng ruins!

In the end, not only did he crack the ruins of Ping Cheng, but he also unknowingly went to the ancient capital and cracked an iron-eating beast ruin on the way?

"Holy shit." The masters stared at the news with blank expressions.

After all, this Shi Yu was only an 18-year-old Beast Trainer.

This experience was too surreal.

"Hahahaha..."

Many Beast Tamers who knew Shi Yu in various parts of Ping Cheng had actually already received the news of Master Lin Hongnian's Iron-eating Beast evolution. For example, President Feng, the apprentices of the dojo, and Commander He. At this moment, when they saw the news again, they revealed excited expressions.

Although they didn't know what was going on, Ping Cheng must have become popular too.

Following the official media's announcement, the other major media outlets also crazily revolved the news of the birth of the iron-eating beast. Many comments below the websites were all asking where there were iron-eating beasts.

"Although I've used up most of the assets left behind by our ancestors to buy evolution materials, from the looks of it, this is the right step..." Master Lin Hongnian looked at the news and kept sighing.

Dr. Lu Qingyi coming to send Shi Yu over was not her asking Bamboo Stone Dojo to take care of Shi Yu. From the looks of it, it was clearly sending a god like Shi Yu to take care of Bamboo Stone Dojo!

Not only did he fulfill his wish and let the Iron-eating Beast successfully evolve, but his family's business might also soar into the sky with this.

At this moment, a group of archeological big shots, including Lu Qingyi, were also watching the news quietly.

The rise of a new star in the archeological world was definitely a good thing for the entire Nation.

Discovering the evolution of a pet monarch was considered a huge achievement. Some archeologists couldn't find such a valuable discovery even if they studied it their whole lives. They just didn't know if this would be the starting point of Shi Yu or the end point.

"Who exactly is Shi Yu?"

At the same time, this question quickly appeared in the relevant comments section. After all, the news of the iron-eating beast's evolution was more about introducing the iron-eating beast. There was not much information about Shi Yu.

However, it was not a big secret who Shi Yu was. After all... the Iron-eating Beast Knight's meme had unknowingly spread throughout the entire Ancient Capital.

"I think I know of a Shi Yu too. He's a candidate for the Ancient Capital vocation assessment. He also contracted an Iron-eating Beast. Holy shit, it can't be the same person, right? Quick, look at the Ancient Capital Association's official website. There should be a video of him on it. Expect something really crazy!

Ancient Capital Arena.

Many candidates basked themselves in the online questions about who Shi Yu was.

At this moment, Shi Yu, who had just finished advertising, completely did not realize the seriousness of the problem.

Shi Yu, the Iron-eating Beast, and the Iron-eating Beast Breeding Base... It was time to become popular, but the way to become popular might be a little different from what he imagined...

"This feeling is really good. This time, the "genius archeologist" will probably replace the Iron-eating Beast Knight as my greatest label."

"As expected of me, I'm so outstanding in everything I do."

At this moment, Shi Yu stood in the center of the venue. He felt the shocked gazes of everyone and felt a little emotional.

However, Eleven seemed to be even more excited than Shi Yu. After defeating its opponent, it raised its head and put its hands on its hips. It was so awesome.

Unfortunately, Little Eleven, who was only about ten centimeters tall, didn't receive much attention. Buggy couldn't help but chuckle beside it.

It felt that the shock it would cause after its evolution would definitely be stronger than that of its leader!

On the other hand, after Zhang Qian put away her pets, she silently watched the news on her cell phone.

So, was the multiplication skill caused by the awakening of the evolution bloodline?

Deterrence was also because of evolution itself! Therefore, awakening a king's aptitude wasn't that strange.

"I lost."

The pet's species level was lower than hers, their numbers were fewer than hers, and his beast taming talent was inferior to her. In such a situation, she still lost. Zhang Qianyi could only admit that her skills were inferior.

With that, she turned and left.

In the spectator area, seeing the genius student she had accepted stop here, Zhang Qianyi's teacher sighed slightly. It couldn't be helped, the opponent was too monstrous.

After his opponent left, Shi Yu also turned around and left. He walked towards the prep room with genius steps, planning to prepare for the final battle.

There should still be little Yin Zhengfan left.

He had to study battle tactics carefully.

The other party probably didn't know that the transparent worm silk of the Green Silkworm could capture ethereal targets, right?

Perhaps he could use this point to catch them off guard!

If it went smoothly, the bug could fight against the Spatial Crystal Butterfly. As for the monarch species' Zonyan Rock Beast, it would depend on whether Eleven could defeat it.

As Shi Yu thought about it, he kept feeling that he had forgotten something.

"Wuu!!!" "Ji!!!"

In the arena, Eleven and Buggy looked at Shi Yu, who turned and left calmly, with stunned expressions.

1

You forgot your pets!!!

Take us back before you leave!

The two pets quickly caught up to Shi Yu.

Everyone looked at Shi Yu, who suddenly stopped in his tracks. He only recalled his pet halfway through before thinking about all that stuff.

...

In the prep room.

Shi Yu sighed.

After returning, Eleven and Buggy immediately hugged the nutritional fluid and started drinking crazily.

Eleven, in particular, had consumed a lot of energy this time. If it didn't replenish his energy quickly, the next battle would be difficult.

Fortunately, the absorption effect of the nutritional fluid was pretty good. Eleven had shrunk and could recover faster with Absolute Sleep, so it shouldn't be a problem to recover to his peak state before the next battle.

As for whether it would tire out in battle, these were the most difficult factors to overcome in a continuous battle. They didn't exist for Eleven. After all, it could stay up late to undergo high-intensity training. There was no such thing as fatigue in the dictionary.

"Holy shit."

While Eleven and Buggy were resting, Shi Yu, who was also browsing the news of the Iron-Eating Beast's evolution, suddenly cursed.

His face was pale, his hand trembling.

F*ck, why was the video of the survival assessment that was only circulated in the professional forums and media in Ancient Capital previously edited? This time, there were news media all over the country reposting it!!

Shi Yu saw many comments below.

[Is this the archeologist Shi Yu who discovered the evolution of the iron-eating beast? I feel that it's a little different from what I imagined.]

[Survival assessment! Why does it seem so fun?]

[So iron-eating beasts are used as mounts? Then is the Nine Li War Beast also a mount? Please explain.]

[So, is the Iron-eating Beast a battle beast or a support-type pet? I'm confused after watching the video.]

[The Iron-Eating Beast Evolution Discovery is actually so young and a vocation candidate?! Who has the latest news of the Ancient Capital Assessment?!]

[I'm an examinee, I'm an examinee. The Iron-eating Beast is awesome, and Shi Yu is awesome. He can defeat high-level commander-level racial pets without evolving. He's definitely invincible after evolving.]

[F*ck, really? Is it too late to buy one before the price increases?]

Shi Yu : "..."

He silently turned off his phone, wondering if these people had paid attention to the wrong point.

However, he didn't feel that they had paid attention wrongly... He couldn't help but feel a little depressed.

"Damn it."

"Senior Panda, transfer the money!"

Chapter 130: Before the Decisive Battle

On the same day.

The commotion caused by the iron-eating beast's evolution was still brewing.

Shi Yu also realized that those who watched the commotion and liked it were basically young people.

And these people often forgot about the incident the fastest. It seemed like everyone was asking where to buy the Iron-Eating Beasts and whether the price would increase. Though, there probably weren't many who would really do it in the end.

"When you care about whether the Iron-eating Beast will increase in price, it means that you have no fate with evolution..."

Shi Yu analyzed silently.

"But I have to say. The evolution materials of iron-eating beasts are indeed not cheap."

"Among all the known evolution paths of monarchs, the conditions are also very harsh."

"After all, level-seven meteor iron is needed, and it comes from outer space. It's a rare resource that can't be replenished. The number is really limited, and it's not just for the evolution of the iron-eating beasts."

"In other words, the more people who nurture iron-eating beasts, the higher the price of the resource..."

Shi Yu was silent. Indeed, it was more suitable to call it a Gold-Eating Beast!

However...

He believed that when he researched the iron-eating beast's overlord race evolution method, these people would not regret it!

At that time, the national treasure would definitely continue to increase in price and become a national-level strategic pet. Every Beast Tamer who cultivated iron-eating beasts would probably be taken extra care of.

Therefore, the most important thing now was to use the Iron-Eating Beast to get first place in the assessment.

After all, judging from the direction of the Internet comments, many people were paying attention to the Ancient Capital vocation assessment now. They wanted to know if he could take first place this time.

"Wuu."

"Ji."

After Eleven and Buggy finished eating and drinking, they also opened their cell phones. After looking at the post about the vocation assessment for a while, they were slightly stunned.

In the forum, a group of spectators who did not know the truth were asking about the situation.

The professional candidates who participated in this batch expressed their views on the iron-eating beasts.

Even the Iron-eating Beast that had awakened part of the evolution bloodline could crush the Thundercloud Sprites of the high-level commander races. One against three, the true Iron-eating Beast's evolution form was definitely impressive. Please don't worry about investing in it.

"Ji!" Buggy raised its head. Was this considered false advertising?

The leader had indeed awakened the Ancient Evolution Bloodline, but the benefits it brought were only seeing the evolution form and multiplying its physical fitness. It wasn't as ridiculous as what was said here. If it were a real Iron-eating Beast evolving its form, it would probably be very difficult to do so.

"Sob." Eleven showed a proud expression. After all, not every iron-eating beast was like Eleven.

"This..." Shi Yu looked at the cell phone shared by the two pets.

They inputted together: "Low, low, low expectations, you people. It's not a problem to crush a dragon."

Shi Yu: "?"

Fortunately, because their cell phone numbers weren't tied, their identities as bystanders were restricted from commenting.

Otherwise, Eleven and Buggy would be the greatest false promotion!

Don't they themselves know that they couldn't crush a real dragon?!

...

"Looks like your son is fighting this Shi Yu."

On the high platform of the Ancient Capital Arena, a white-bearded elder who had been watching the battle with Legend Yin in a corner smiled and said.

"Who do you think will win?" Yin Shi looked at the venue below expressionlessly.

"Well..." The old man pondered for a moment and said, "That Iron-eating Beast's multiplied attack can be considered to be doing its full power."

"Its skill proficiency is very high, and it has mastered many skills, but its basic racial quality is inferior to your son's Zonyan Rock Beast. Under normal circumstances, these two pets should be 50-50."

"The key might be in the tactical arrangements, as well as the Sky Crystal Butterfly and the green silkworm with an unknown bloodline."

At the mention of a pet with a special bloodline, this involuntarily reminded the two of a graduate from an Ancient Capital University, Lu Qingyi.

As an archeologist of Bureau 11, Lu Qingyi's pets were even more ridiculous. Each of them had a special bloodline.

The Wind Demon Lion, which had the bloodline of the guardian-level creature, the Green Spirit Wind Bird, which had awakened the bloodline of the Phoenix, and the Mermaid Princess, who had the bloodline of the Dragon... These were all related to the gains of the other party's archeological expeditions.

“Although it looks like the Green Silkworm is inferior to the Sky Crystal Butterfly, I keep feeling that Shi Yu will win,” the old man said with a chuckle.

“Is that so...” Legend Yin muttered.

“Hahaha, no matter who wins or loses, I’m very happy.” The old man’s identity was that of the principal of Ancient Capital University. Yin Zhengfan and Shi Yu were both internally determined to enter Ancient Capital University. He would be happy to see who was outstanding!

Legend Yin said, “With Zheng Fan’s strong personality, if he loses, he might not necessarily enter the same university as Shi Yu. With my understanding of him, he should choose a place where the competition is more intense and can help him grow faster.”

The old principal of the Ancient Capital University:???

They were all from the Ancient Capital, could you not joke around?

Then should he be hoping that Shi Yu would lose?

He couldn’t help but look at Yin Zhengfan, who was preparing below.

Currently, Yin Zhengfan was fighting another seeded candidate whose Beast Taming Space had reached level three and whose basic test ranking was also in the top eight.

It was the armor-wearing idiot that Shi Yu had seen after the survival assessment ended.

To be honest, Shi Yu felt that he was much more “eighth grade” than him. Just his clothes were too silly!

However, the other candidates looked like it was only natural. They even envied the armor man’s clothes. This made Shi Yu very confused.

“The Chongyuan Group’s new third-level armor. Rich people. With this, they wouldn’t die from resisting an extraordinary-level pet’s attack, right?”

1

The special equipment worn by Beast Tamers was made of extraordinary creatures. The founder of the Chongyuan Group had said that transcendent beings were to be used to deal with transcendent beings, with the help of the nature of some special materials. In addition, as long as one side was alive, the other side wouldn’t directly die even if they were on the verge of death. Some special equipment indeed had the capital to allow Beast Tamers to face extraordinary attacks without dying.

Shi Yu :”...”

This was the benefit of being a big brand. Even if the design was second-rate, as long as it had brand effects and practical uses, a bunch of people would accept it.

Therefore, he, Shi Yu, was flashy without substance?

The armored man was a rich Beast Tamer.

Its three pets were relatively similar to Yu Shu’s style. The pets could be combined.

Because he had three pets, even if Yu Shu's basic test energy was a little higher, everyone still thought that he was slightly stronger than Yu Shu.

These three pets were respectively a high-level transcendent species, Undead-type, and Ghost Horse.

Mid-level commander race, Undead type, Skeleton General.

Mid-level commander race, metal and undead, Sword Ghost.

In addition, he was compared to Shi Yu because this Sword Ghost Beast pet could actually be used by Beast Tamers.

But it just so happened that this armored man, Wang Ling, made the general abandon its skeleton horse, abandon its bone sword, and change them into a Specter horse and Sword Ghost.

Look, this was what a normal Beast Tamer was. He armed his pets with everything. In comparison, Shi Yu formed a sharp contrast with him.

On the battlefield, the fully armed skeleton rider was facing off against the Zonyan Rock Beast and the Sky Crystal Butterfly.

Perhaps it was due to Shi Yu's provocation, but for the first time, Yin Zhengfan didn't let the Sky Crystal Butterfly finish its opponent. Instead, he let the Zonyan Rock Beast show off its abilities and used its second skill other than deterrence.

Super Skill, Lava Explosion...

"Roar!!!" The huge rock creature, which was more than four meters tall and looked like a two-legged dinosaur, smashed its fist over after deterrence. During the process of its fist smashing over, its arm directly turned into a huge lava fist made of lava. In the face of this terrifying fist, the expression of the armored man Wang Ling and the skeleton rider was solemn to the extreme.

At this moment, the Specter Horse used the Group Support Skill Charging Horn to increase the team's speed and strength.

The Skeleton General used the high-level skill, Commander's Sword. The more teammates it had, the more focused its willpower was, and the stronger the skill.

As for the Sword Ghost, it erupted with a dark light, summoning the Phantom Demon in the hidden sword and increasing its destructive power.

With the combination of the three skills and Wang Ling's Soul Strengthening talent, the impact of this attack reached its maximum. The entire venue suddenly became quiet.

However...

The next moment, the venue erupted, because the moment the Zonyan Rock Beast's Lava Fist made contact with the commander's sword of the skeleton sword riders, it was like a volcano eruption, spewing out countless terrifying magma that instantly swallowed the three pets and sent them flying!!

"Impossible." Seeing this scene, the armored man, Wang Ling, widened his eyes.

Everyone's mouths opened slightly, shocked by the power of this terrifying lava eruption.

"That's all?" Seeing this scene, Yu Shu revealed a disdainful expression. In fact, he knew Wang Ling. The elders on both sides were good friends. After all, the circle of Spirit Mediums in the ancient capital was only this big, so Yu Shu had grown up competing with Wang Ling since he was young. At this moment, he saw Wang Ling lose and shook his head in pity.

"The skills of the three pets are completely uncoordinated. 1+1+1 can't even be equaled to 3. It's far worse than Zhang Qianyi's three pets. This guy's supposed to be stronger than me?"

"The outcome was indeed Yin Zhengfan vs Shi Yu."

At this moment, the masters were analyzing the lava eruption in their hearts.

From the looks of its power, it wasn't as simple as just mastering it. Even if it didn't reach proficient level, it wasn't just at entry level.

It should have been trained and strengthened through the rare volcano resource for a long time!

The Lava Explosion that was known for its destructive power as a super skill, coupled with the powerful physique of the Zonyan Rock Beast, directly defeated the opponent unreasonably!

At this moment, after Yin Zhengfan defeated his opponent and spoke politely to him, he looked around and searched for Shi Yu, but unfortunately, he couldn't find him.

"Wu!" At this moment, Shi Yu was naturally watching the small television silently. Beside him, Eleven and Buggy widened their eyes when they saw the lava eruption. Why was its power so strong? Even as a super skill, it didn't make sense!

"Don't worry," Shi Yu said from the side. "Super-level skills can mobilize much more energy than low-level, mid-level, and high-level skills. It probably didn't feel good for it either."

Shi Yu's gaze was on the screen. Multiplication+Thunder Palm+Hardening. He was confident that Eleven could perfectly suppress this attack, but Eleven's physical fitness wasn't that much of an advantage compared to this Mane Rock Beast.

In addition, the Zonyan Rock Beast was a monarch race, and its racial foundation was much higher than the opponents he had encountered previously. In other words, it was more resistant to attacks. Thinking about it, it was really a little difficult.

"In this battle, not only do you have to be stronger than its endurance, you also have to make up for its shortcomings." Shi Yu quickly made strategic arrangements.

"Come here and discuss this!!"

"Wuu!" "Ji!"

Eleven and Buggy looked at each other. Shi Yu rarely personally arranged battle strategies for them, and when he did, it was either because he wanted to do something or because he valued his opponent very much. They didn't know which one it was this time.

...

In the venue.

The advancement battle between the losers was underway.

Shi Yu and Yin Zhengfan were resting silently.

At this moment, Zhang Qianyi vs Wang Ling, Yu Shu vs Miao Dongdong. These battles were also very interesting.

However, the audience was especially anxious now. They only wanted to see the battle between Shi Yu and Yin Zhengfan.

“Tell me, which one is more monstrous, Yin Zhengfan or Shi Yu?”

“One is ridiculously young and strong, while the other... Uh, alright, I don’t know how to describe Shi Yu.”

There was a flurry of discussion in the venue.

Those who were paying attention to Shi Yu also clenched their fists. For example, Senior Panda. She had a headache, and she felt even more nervous than Shi Yu himself.

She didn’t mind the potential promotion value Shi Yu brought to the Iron-eating Beast Breeding Base after winning the championship. Instead, she purely wanted to see the scene of the little Iron-eating Beast that no one had chosen to realize its dream and defeat all the strong enemies!

“Senior, senior, who do you think will win?”

At the same uninhabited spectating area, the beast-eared girl stood beside Lu Qingyi in admiration and asked.

“Anything is fine,” Lu Qingyi said.

She hoped that Shi Yu could win, but it didn’t matter if he lost. After all, the opponent wasn’t weak either. It was already very unexpected for Shi Yu to reach this stage.

In Lu’s opinion, this was just the beginning.

After the assessment, the Little Iron Eating Beast could directly help the Little Iron Eating Beast complete the evolution of its monarch race with a billion yuan worth of evolution materials. With its current foundation, it could definitely be almost invincible at the transcendent level. It wasn’t impossible to spar with dragons from overlord races of the same level of growth. After all, it had many skills and a high proficiency.

Therefore, Lu Qingyi regarded this battle with both importance and impassiveness. The vocation assessment was only the door to the Beast Tamer domain. Only after that would it truly begin.

Wasn’t this very obvious? Compared to Yin Zhengfan’s two pets, Shi Yu’s two pets had greater potential and could evolve at any time!

“Final assessment, Shi Yu, VS, Yin Zhengfan!”

The audience had no idea how long they had waited. Master Qu Jie, who was in charge of presiding over the assessment, was actually also waiting for this battle.

He took a deep breath and looked at the arena.

He hoped that it wouldn't be destroyed too badly this time.

He wanted to strengthen the arena so much!

However, that was not friendly to the earth-element pets. For example, the Earth Mouse might struggle during the digging process. Therefore, Master Qu Jie could only repair with tears in his eyes again and again.

The level of the battle determined the level of the venue materials, but the problem was that there was a group of bastards who had displayed the ability to fight above their level. They were usually the group of people that the judge had the greatest headache over.

“Beep—”

Master Qu Jie blew the whistle. Under the excited gaze of everyone, Shi Yu and Yin Zhengfan slowly walked up the arena from both sides.

As he walked onto the arena, Yin Zhengfan looked at Shi Yu with a glint in his eyes. Clearly, he had been waiting for this battle for a long time.

As for Shi Yu, he could only smile in response to the child's persistence. At the same time, he thought to himself,

“Don't blame me for being ruthless...”
