Chapter 1231: Dragon Palace Rebellion (3)

Outside Blue Planet, in the starry sky, Buggy had been looking forward to it for a long time.

This breakthrough was not only an increase in growth level, but also an evolution. When the Dragon of Imagination reached transcendent proficiency, it would take it one step closer to the Green Dragon.

"During this breakthrough, I want to try the fusion of a top-notch super Skill."

"I'll try to fuse a quasi-divine skill for you." Shi Yu stood on the meteorite and smiled at the green dragon in front of him.

Buggy's pile of top-notch super Skills should have a higher success rate after reaching transcendent proficiency.

For Buggy's breakthrough, Shi Yu and the others could be said to be fully armed.

Baby Ginseng had long run to Shi Yu and connected its life to Shi Yu's to prevent Shi Yu from dying.

In the starry sky, Eleven, Chi Tong, Susu, Ling, and the others also looked at Buggy in disdain.

Although Buggy shouted that it would evolve first and that there was definitely nothing good about breaking through first, it was more excited than anyone to break through to the demigod level first. No one was willing to give in to the order.

"Roar!! (Beast Tamer, charge, charge!!)"

Buggy said excitedly.

"Then I'll start," Shi Yu said.

"Roar!!!" In the meteorite group, the green dragon Buggy's golden eyes filled with light as it roared and nodded.

Boom!!!

In the next moment, a terrifying dragon might erupted from Shi Yu's body. His black eyes also turned into golden eyes.

Psychic Domain, Green Dragon Domain!

Apart from that, Shi Yu also directly activated mental resonance and connected his and Buggy's hearts.

This way, it could better assist Buggy in breaking through and evolving through the power of points.

"Hu!" Shi Yu prepared to add points with one hand and used the illusory Book of Skills with the other to open the furnace page of skill fusion.

Dragon of Imagination.

Increase points!

Boom!!!

As Shi Yu added points, Buggy's aura rose steadily. Energy surged in its entire body, and it was filled with the light of upgrade.

At the same time, Shi Yu had also tried to drag skills that had reached transcendent into the skill fusion interface many times!

Skill: Imagination Domain, Dream Control, Four Holy Clones, Queen Mother's Power

[Fusion success rate]: Low

[Fusion Risk]: High

The success rate of these four Skills was low, but if all four of them fused, there was also a low success rate.

Shi Yu couldn't help but be speechless.

However, when he saw this scene, the current Shi Yu only had madness in his eyes. It was the madness of a gambler.

"Hahahaha, is this the peak of level eight? What if it reaches level nine?"

Shi Yu laughed crazily, making Eleven and the others speechless.

"Chi Tong, Baby Ginseng, Susu, Ling, Little Purple, get ready!"

With Shi Yu's command, many pets prepared to support and add points. Now, Little Zi's World Blessing Skill had also reached (Perfect+47). It was completely not inferior to the super support of other pets.

Not only could it assist Buggy's evolution through the power of faith, but it could also give Shi Yu blessings and reduce his burden.

"Roar!!!" At the same time, Buggy began to stop suppressing its strength and completely activated the power of the transcendent-level Dragon of Imagination, allowing itself to advance to a more perfect green dragon image.

This time, the evolution materials Shi Yu prepared for Buggy were similar to the evolution materials of Chi Tong's Vermillion Bird clone. They were faith items he had gathered from various spaces!

The power of faith inside!

Boom!!!

Under the lead of the power of skill upgrade, the power of skill fusion, and the power of faith of the Green Dragon, the energy on Buggy's body became more and more terrifying.

Like a self-destructing ginseng baby, its energy level kept expanding.

"Ah!!!!!"

"Roar!!!"

Under the light of the green-gold breakthrough evolution that illuminated the starry sky, Shi Yu and Buggy let out heart-wrenching Affliction sounds at the same time. Even with the support of Baby Ginseng, Susu, and many other pets, it was quite difficult this time.

Of course, this was the first time he was fusing with a top-notch super Skill. Shi Yu didn't care about the Affliction anymore. As long as he saw Buggy become stronger, he felt that everything was worth it.

In this evolution, Shi Yu sensed that Buggy's form had actually not changed much. The greatest change was its size.

Under the full multiplication eruption, the shocking body of a cosmic life form that was tens of thousands of meters tall occupied the outside of the star. It was as if the power of a claw was enough to destroy a city.

A terrifying aura swept through the starry sky for 50,000 kilometers.

"Roar!!!"

Of course, the benefits of Shi Yu's evolution breakthrough at the cost of his old age and white hair were far more than this.

Boom...

Under the lingering power of faith, it was like the sound of the world trembling. With Buggy's body as the plane, the entire starry sky seemed to have been torn apart and opened, developing the ground and sky, forming a new world.

In the blink of an eye, Eleven, Chi Tong, and the others were shocked to discover that there were no longer any traces of the starry sky around them. They seemed to have entered another space.

This space was extremely real. The feeling it gave Eleven and the others didn't feel like Buggy's Imagination Domain.

Among them, Baby Ginseng in Shi Yu's arms widened its eyes in surprise. It had discovered that its World Grace Skill could actually borrow the power of the world from this place. It was as if this was really a complete world!

After all, after leaving Blue Planet and arriving at the starry sky, its World Grace Skill couldn't be used anymore. What was going on now?

In the Desolate World, the world had just opened and was endless. At some point in time, clouds had condensed and spring rain fell. Every drop of spring rain stimulated a weak sound of laws. The sound shocked the heart, but it gently nourished the ground.

When it dripped on the soil, a thousand-kilometer-long green grass, flowers, and saplings grew out of the soil. During their growth, the sound of wood-element life laws intertwined with the sound of water.

In the clouds, the phantom of the green dragon was faintly visible. When they saw its figure, Eleven and the others immediately felt their bodies reverse and the universe reverse. It was as if they were facing the god of creation. They involuntarily lost all control of themselves and were under the pressure of the world.

"Wuu!!" Eleven and the others resisted with serious expressions.

In the next moment.

"Roar!!!" As the green dragon roared, the world shattered. Shi Yu and the others returned to the starry sky.

The weak Shi Yu was first stunned before being overjoyed.

Evolution was a huge success.

[Imagination Domain, Dream Control, Four Holy Clones, Queen Mother's Power] had already fused into the [Creation Domain].

Skill: Creation Domain

[Level]: Quasi God-level Faith Skill

< Introduction > The world is set up. The four dimensions are connected. Whether it's death or life, everything is done.

It contained the laws of creation and could borrow the power of faith to create everything, derived the laws of heaven and earth corresponding to the power of faith.

It was a rare top-notch divine skill that could give birth to many laws!

[Unscientific Beast Taming](#)

Chapter 1232: Creation Green Dragon God (1)

In the starry sky, the huge body of the Green Dragon Buggy occupied the outside of the meteorite group.

The green-gold light lit up the dark universe.

Be it Shi Yu or the pets who were saving Shi Yu, they looked at Buggy, who had completed a new round of evolution, in a daze.

"Creation Domain!"

Shi Yu shouted in disbelief.

What kind of Skill was this?

Creation Domain?

Damn, I made a killing.

Shi Yu was immediately blinded by joy.

It was as excited as Eleven when it awakened the Yin Yang Millstone.

He felt that the Dragon of Imagination wouldn't have such a huge gain.

Most likely, it was still the skill fusion and the Green Dragon Domain that underwent a qualitative change.

The laws of creation... After all, even if the legendary Green Dragon was a Creation God, his Buggy was only at the demigod level at the moment.

The Creation Domain could create the world, four dimensions, life and death, and everything!

It could even give birth to many laws in its world.

For example, the rain law Shi Yu and the others had seen previously, the wood life law.

Or it could be combined into the law of spring.

A Skill contained many power of laws.

Just now, Buggy even felt that it could evolve plants into transcendent life forms in the Creation Domain with a thought.

It completely had the bearing of a Creation God.

But soon, Shi Yu realized that although the current Buggy's strength had exploded, it was still too early to be called a Creation God.

The Legendary Green Dragon was first created and then believed in.

It didn't rely on the power of faith at all. It had the ability to create the world in the first place, and it didn't even care about the power of faith.

As for the current Buggy, it could only mobilize the laws of creation with the power of faith. The causal order was reversed. Although it was still powerful, it could still be seen that there was still a difference between it and the real Green Dragon.

Evolution was still not complete.

But even so, Shi Yu was quite satisfied.

Moreover, this skill could not only be used by mobilizing the power of faith.

Borrowing the power of faith could only make it stronger, but even without the power of faith, Buggy could control everything in the Creation Domain like a master of creation.

It perfectly included the nature of Skills such as the Imagination Domain, Dream Control, and the power of the Queen Mother. However, it couldn't use the creation law.

The Law of Creation was undoubtedly a top-notch law. Moreover, it was even more perfect and functional than Eleven's Yin Yang Millstone.

These two guys were simply a god of creation and a god of destruction now.

Although this Creation Domain... consumed a lot of faith power, once it was activated, Buggy was invincible.

As long as it consumed enough power of faith, it wasn't impossible to instantly suppress and insta-kill demigods. In the Creation Domain, as the Creation God, Buggy was like a divine level when facing demigods.

Without a doubt, it was another forbidden move in the team competition.

"Roar!!!" At this moment, Buggy could be said to be overjoyed.

Quasi-divine-level faith skill!!

Faith skills could also be cultivated into quasi-divine skills. For example, the Blue Sea Contract of the peak Blue Sea Sprite was both a faith skill and a quasi-divine skill.

Now, Buggy finally got its wish and became a Mythical Race.

[Name]: Buggy

[Race]: Green Silkworm → Green Silkworm cocoon → Butterfly of Imagination → Green Dragon (Second stage, in evolution)

[Race Level]: Low-level Mythical (Starry Sky Faith God)

[Level of Growth]: Totem level

[Race Skill]

"Super": Dragon of Imagination (transcendent), Faith Skill, Dragon Star Group (transcendent), Space Control (transcendent), Faith Skill, Green Dragon Indestructible Body (transcendent)

"Quasi God-level": Faith Skill, Creation Domain (Proficient)

Energy Points: 4,120 million

Because it was the fusion of four transcendent super Skills, Buggy had inherited a lot of EXP, so Buggy felt that it wasn't unfamiliar with using this new Skill.

It looked at Shi Yu, who had been healing for a long time and didn't heal much. It roared and activated the small Range Creation Domain, pulling Shi Yu and the others into a new world. It stretched out its claws and aimed at Shi Yu. The Spring Law was activated, and they strengthened and nourished Baby Ginseng and Shi Yu together.

"Yi ~" Baby Ginseng let out a comfortable cry and trembled.

"Stop, stop, stop." Shi Yu hurriedly shouted for them to stop. He sensed that he was quickly recovering his Restoration state and panicked.

"There's not much power of faith left, not much, don't waste it..."

"Roar!!! (I'll definitely do it next time!)" Buggy looked at Shi Yu's Enfeeble appearance. So be it. His health was more important!

"Mi!!" Chi Tong pulled Susu and looked. Why did it feel that Buggy's faith skill was much cooler than its?

"Ning..." Susu cried. Stop talking. It was the only one in the first team who wasn't a Mythical Race.

Fortunately, it was also fast. It could immediately rely on itself to cultivate the Blue Sea Contract and the Sea Cleansing Spirit into quasi-divine skills through the power of inheritance!

"Wuu!" Eleven rubbed its fists. Not bad, not bad. The law of creation. It didn't know if its Yin Yang Millstone could smash the world created by Buggy. But soon, it was pestered by Little Purple, indicating that it wanted to treasure and love the world!

Little Zi pulled the excited Eleven and looked at Buggy in admiration. So powerful. Although it could also do similar things, it couldn't do something like Buggy, which derived the sound of laws.

Eleven pulled Little Purple away and stared at it. So which one of them was the creator of the universe?

....

After an unknown period of time, Shi Yu and the others rode the shrunken Green Dragon back to Blue Planet.

On the Green Dragon's body, the pets were very excited.

Unscientific Beast Taming

Chapter 1233: Creation Green Dragon God (2)

Too strong.

The Skill fused by the four top-notch super Skills was too strong.

Not only was it a quasi-divine skill, but it was also a quasi-divine skill that contained top-notch laws.

Even Eleven, who was holding the Yin Yang Millstone, couldn't help but feel tempted. It wanted to fuse its other super top-notch Skills again.

Baby Ginseng, Chi Tong, and the others, who were holding a pile of super top-notch Skills, had the same thought.

At that time, if he could have three to four quasi-divine skills, he would definitely be invincible.

However, in fact, only Shi Yu realized that the food crisis in the team might be even more serious next.

As Buggy broke through to the totem level and had demigod battle power, the pressure came to Baby Ginseng again.

"Gulp..."

"Yi..." Listening to Buggy's stomach rumble, Baby Ginseng pouted. Buggy could already create the law of spring. Creating a fruit or something was much better than it.

It was recommended to be self-sufficient...

"Roar!" Buggy expressed that it wasn't impossible, but it was a little wasteful of the power of faith. Forget it.

At most... it could run to the starry sky to eat small stars in the future and more or less relieve its hunger.

"Yi!" Baby Ginseng stood on the Green Dragon Buggy with its hands on its hips, indicating that it was teasing it.

It wasn't a big problem!

The next was for Baby Ginseng to break through.

It didn't believe that a demigod-level world ginseng like it couldn't afford to raise the entire team of demigods.

It had the World Grace Skill and could mobilize the power of the world on Blue Planet. It could choose not to believe it, but it had to believe that Blue Planet could afford to raise a few demigods.

At that time, the consumption of it using the world should be much smaller, unlike when it was at the overlord level. In short, at that time, there would be no pressure to freeload on Blue Planet's nutrition.

"Ning, Ning!!" Susu expressed its support at the side. It was grateful for the gift of nature. It, who could connect to the sea, had never been hungry!

As the strongest ocean demigod, it made sense for Susu. Other demigods were still worried about food, but its food was inexhaustible. How could it not be strong?

However, Susu was still worried that it wouldn't be able to connect to the sea on Blue Planet when it explored the starry sky in the future. It looked at Shi Yu eagerly, so when would it evolve into a Star Sea Sprite? It wanted to sign a contract with the Star Sea!

"Don't worry, don't worry... It's your turn next." Shi Yu smiled bitterly and said, "When the time comes, I'll also use the skill fusion to assist in breakthrough evolution."

"Let's see if we can fuse your Star Sea Body with the Blue Sea Contract..."

"Ning!!"

"Master, Master." As Shi Yu and the others were chatting, Ling suddenly said, "Not good."

It looked panicked.

"President Lin sent a message saying that in the Dragon Palace City's coup, three divine dragons from the Mythical Era revived in the Dragon God Ruins. Because they wanted to destroy the faith of the Green Dragon in Dragon Palace City, the Dragon God fought with them."

"Now, not only do they want to let the Dragon God abdicate, but they also want to force a marriage."

"Roar!!!"

As soon as Ling finished speaking, the entire team was stunned. Among them, Buggy even roared.

"Destroying the faith of the Green Dragon and forcing the Dragon God to marry?" Shi Yu immediately frowned.

"Are you sure??"

Everyone knew that the Dragon God had protected Dong Huang for more than a thousand years because of her deep relationship with the Dragon Emperor. Now that the Dragon Emperor of Dong Huang had died, the revived god of Dragon Palace City actually targeted the Dragon God. When Shi Yu heard that, he was immediately angry.

Revival of a god? Was he tired of living?

Buggy had just evolved and was worried that there was no place to test the power of the Creation Domain.

"Ling, lock onto the location. Buggy, accelerate."

...

On the East Sea.

At this moment, everyone was paying attention.

Three gods had revived in Dragon Palace City. If they wanted to take back the power of Dragon Palace City and have a conflict with the current Dragon God, it couldn't be hidden from the entire world.

The impact of demigod-level battle fluctuations on this incomplete planet was too great.

Perhaps only after the rules of Blue Planet were completely perfected could a demigod-level battle become a small battle.

Because both parties were worried about destroying Dragon Palace City, after a high-intensity confrontation, the battlefield gradually shifted to the East Sea.

At that moment, there were three divine dragons hundreds of meters long. Each of them had an energy aura as vast as a star, and the power of a demigod was undoubtedly displayed.

The leading one was covered in black and golden scales and emitted a very terrifying aura.

Its huge dragon eyes actually narrowed slightly.

Opposite them was the already rather miserable Dragon God covered in injuries, as well as the gem cat girl with a serious expression, and President Lin.

Apart from that, demigods from all over the world who had rushed over to watch the show because of the battle fluctuations were also hidden in all directions, including awakening gods.

For example, the Black Dragon lord of the Western Dragon Empire had finally broken through to the demigod-level, the Tyrant Dragon King of the Dragonman Empire. These dragons were very concerned about the conflict in Dragon Palace City.

These three revival divine dragons probably had the intention to lead all the dragons. They guessed.

"You're not bad. As a future god, you can fight me to this extent."

"Seeing that your cultivation is not easy, as long as you agree to become our partner, you can still be the Dragon God of Dragon Palace City. We won't interfere too much in the matters of Dragon Palace City, but we still have to eliminate all the messy Green Dragon faith."

Dragons were perverted by nature. After sleeping for so long, they suddenly encountered a female with outstanding strength like the Dragon God. Although they went against each other at the start, soon, the Black Gold Divine Dragon and the others were gradually attracted by the Dragon God's strength and special looks.

Unscientific Beast Taming

Chapter 1234: Creation Green Dragon God (3)

The Dragon God panted deeply. It was naturally impossible for her to agree to the other party. However, every one of these three gods was very strong. It was probably not that easy to deal with.

"What if she doesn't agree?" The Dragon God couldn't be bothered with the other party, but the violent gem cat girl cursed.

"Don't agree? Then I'll let you forcefully agree. Treat it as atonement for betraying the faith of the Ancestral Dragon," the Black Gold Divine Dragon said.

"Sir, do you really want to be enemies with our Dong Huang?" President Lin's expression was dark. Previously, he had even taken out the World Tree, but these revived divine dragons were still unmoved, saying that this was an internal matter of the dragon race.

This made President Lin understand that they were not easy to deal with.

These guys were completely different from those individual gods.

The dragon race, the head of the five god races in the Mythical Era, actually ignored the World Tree?

However, President Lin also knew that he was indeed suspected of being ridiculous. The relationship between the World Tree and Dong Huang was far from that deep. Instead, the dragon race was a Mythical race that had contributed to protecting the world.

Even the World Tree was considered a junior in front of it. Unless the true body of the Blue Planet's Will woke up, only then could they respect it.

"You guys??" The Black Gold Divine Dragon couldn't help but become more and more annoyed when it saw a little cat and human who had appeared out of nowhere and wanted to interfere in the internal affairs of the dragon race.

"When Shi Yu comes, you're all finished," the gem cat girl muttered.

It knew that this group of people had destroyed a pile of Green Dragon statues in Dragon Palace City and killed many Green Dragon believers. The ice dragon that came out to stop them was also heavily injured and on the verge of death.

With Shi Yu's temper, he would definitely make this group of dragons pay the price.

"Roar!!!" With a disagreement, the two parties started fighting again. The Black Gold Divine Dragon's dragon claw gently pointed at the Dragon God.

Boom!

The black light ball turned into a dark tide and Devoured in the direction of the Dragon God.

"They're going to fight..." Around them, many demigods were watching the commotion. However, these people had no intention of interfering.

After all, the revived Mythical Dragon Race might be the most difficult existence among the revived gods. Yun An and the Abyss Demon Frog weren't even qualified to carry their shoes.

Even if the three gods only had demigod battle power now, they definitely suppressed the world. No one expected that not long after, Dong Huang would be in big trouble again.

The Dragon God's expression turned cold. The gem cat girl revealed a bitter expression. They were going to fight again... But then, the gem cat girl was delighted and looked at the sky.

At this moment, many demigods sensed a terrifying aura descending from the sky.

Moreover, it was accompanied by a voice that resounded through the hearts of all living beings.

"Damn, which idiot came to provoke me again? Can the Green Dragon Faith be smashed just like that?" Shi Yu's telepathy resounded through the world, stunning everyone.

"Don't you know that the Green Dragon is a pet cultivated by your father, me?"

As the voice spread, the three Dragon Palace City gods were stunned. The Western Black Dragon Lord was stunned, and the Tyrant Dragon King of the Dragonman Empire was stunned.

"Wow," the gem cat exclaimed.

With a boom, the sound of laws that sounded like the creation of the world sounded. A small crack appeared in the attack trajectory of the Black Gold Divine Dragon and enlarged with a bang, opening the world. A new world formed. Be it the two parties facing each other or all the demigods watching, they were shocked to discover that they were pulled into an unfamiliar place without being able to resist at all.

Buzz...

In an instant, the black dark tide was obliterated and dispersed. Moreover, in the clouds in the sky, an indescribably majestic divine might enveloped down. In an instant, the demigods looked at the sky in shock and saw three divine lightning descend from the sky.

A divine lightning was like a world falling. Its aura was terrifying, as if it could destroy the world.

Boom!!

Facing the Creation God Lightning, one of the killer moves derived from the Creation Domain, the pupils of the three divine dragons suddenly constricted. They felt a huge threat, and their hearts beat crazily. They felt that they had heard the laws of lightning, heard the laws of heaven and earth, and seen the laws of life. It was simply unbelievable.

Although every sound of laws was very weak, they actually combined to form a terrifying killer move.

"Who is it?" The three divine dragons, a black-gold divine dragon, a blue divine dragon, and a green-purple divine dragon wanted to resist in unison, but in the Creation Domain, they were like lambs waiting to be killed. They instantly widened their dragon eyes and endured the unbearable pressure. Their faces were pale as they felt a vast world pressure.

"Divine level!!!!" They shouted in disbelief.

"Impossible. It's impossible for there to be a divine level existence on Blue Planet at the moment."

Boom.

The divine lightning descended. With a crack, their bodies were wrapped in lightning, and their dragon scales instantly exploded. The violent lightning penetrated their life source. In just an instant, the skin and flesh of their bodies exploded from the lightning, and dragon blood splattered.

"Roar!!!" The miserable cries of the three divine dragons shook the sky and earth.

Under the suppression of the lightning, they were instantly penetrated into the ground and smashed to the ground.

Their huge dragon eyes bled and were filled with disbelief. Around them, President Lin, the gem cat, and the spectating demigods also looked at the three Dragon Palace City gods in extreme disbelief.

The Dragon God also looked in the sky in extreme disbelief.

"Who is it? The Beast Tamer of the Green Dragon! The faith statues you destroyed is all mine." The phantom of the Green Dragon, which was tens of thousands of meters long, circled under the starry sky. The figures of Shi Yu and his pets slowly descended into the lower realm. Seeing that it was indeed Shi Yu, the surrounding demigods revealed shocked expressions, not understanding what had happened.

They didn't understand why the skin and flesh of the three demigod-level Enfeebled gods exploded in an instant!

That was a divine-level dragon body.

"Blasphemer! You're disrespecting the Ancestral Dragon!" At this moment, the three revival divine dragons tried their best to break free from the Creation God Lightning. They looked at the phantom of the Creation Green Dragon God in the sky in anger and at Shi Yu, who had descended. At the same time, they felt that it was unbelievable.

However, Shi Yu's next words made their brains rumble and they were even angrier.

"Then let the Ancestral Dragon say it himself. The three low-level gods have a death wish. Buggy, crush them." Shi Yu's heart ached at this moment. After all, this time, the power of faith of the Green Dragon would probably be exhausted.

Therefore, he had to find resources from these three divine dragons. With a boom, the huge green dragon claw crossed the Void and pinched the three divine dragons. They widened their eyes and tried their best to activate quasi-divine skills to hit the green dragon claw.

Boom, boom, and vibration. The Green Dragon Claw was instantly broken but instantly repaired. As long as there was enough power of faith for the transcendent Green Dragon Indestructible Body, even if Buggy died, it could instantly revive like Baby Ginseng.

With a puff, the Green Dragon Claw resisted the three quasi-divine skills but didn't break. It pinched the three divine dragons in its hand and squeezed hard. The powerful dragon body of the divine-level dragon instantly exploded like a piece of paper, badly mangled. Only its last breath was left, waiting to be dealt with.

In an instant, everyone fell silent.

Shi Yu looked at the Dragon God and said, "Sorry, Senior Dragon God. Buggy and I are training in the starry sky and are late."

The Dragon God was silent. A moment later, she looked at the green dragon phantom in the sky and said, "What's going on?"

The Black Dragon Lord, the Tyrant Dragon King, and the other demigods who were still trapped in the creation domain also peed their pants in fright. They wanted to leave, but they didn't know how to leave this damn place. They looked like they had seen a ghost. What the f*ck was going on!!

Unscientific Beast Taming

Chapter 1235: Invincible (1)

The current situation was extremely strange for President Lin and the others.

After all, previously, Shi Yu still needed two demigods to resist Yun An and the Abyss Demon Frog for a period of time.

But which of the three gods in front of him wasn't a stronger existence?

However, they felt that Shi Yu's Buggy crushed them almost effortlessly.

"Buggy broke through to the totem level and took another step forward to the Green Dragon. Now, it can fight with the power of faith. It can fight a True God above its level as a demigod."

"It's naturally not a problem to deal with three low-level gods whose levels have been suppressed," Shi Yu said.

He explained to President Lin and the others why Buggy was so fierce.

Damn, he had almost spent all the power of faith. How could he not be fierce?

The key was that it couldn't easily solve the current situation without paying.

"Meow!!!" The gem cat was stunned. What a joke. Why were your pets getting more and more ridiculous after evolution?

Why, why did Shi Yu want to kill a True God above its level just as it reached the demigod level?

"Senior Dragon God, don't worry. From today onwards, Buggy and I will protect you," Shi Yu said to the Dragon God.

Sigh, femme fatale.

The Dragon God was speechless.

"This dispute seems to have attracted many guys to watch the battle." Shi Yu looked around again.

"One, two clueless, three, four, five, six, seven... There are actually seven demigods."

"There seems to be a familiar face."

"President Lin, have the Tyrant Dragon King and the Black Dragon Lord joined the Blue Planet Alliance?"

"No."

"The surrounding demigods didn't join the Blue Planet Alliance."

As President Lin finished speaking, Shi Yu grinned and looked around with ill intentions.

The Tyrant Dragon King was also a demigod. He had killed its son in the World Tournament, so it must have been hating him.

The Black Dragon Lord had also killed a general of their Dragon Empire. This had definitely been holding a grudge.

They were all potential enemies.

Among them, the Dragonman Empire and the Dragon Empire were also great enemies of Dong Huang in the previous totem battles. Shi Yu felt that since the Creation Domain had already been opened, it was better to deal with more enemies along the way.

This way, the cost-effective ratio could be maximized.

"Then..." Shi Yu's eyes turned golden. The Green Dragon Domain spread out and fused with the Creation Domain.

Under the starry sky, the divine aura of the Green Dragon was even more terrifying. The seven surrounding demigods were basically here to watch the commotion. Among them, there were three demigods from the post-Blue Planet era, and four were demigod-level reincarnation gods.

Boom!!

At this moment, the green dragon's killing intent lingered again. The miserable state of the three revived divine dragons just now had already scared the seven surrounding demigods into peeing. Even if four of them were reincarnation gods, they were extremely afraid of Shi Yu's power.

He felt that Shi Yu was even more terrifying than the last time he resisted the Abyss Race.

Moreover, this guy was simply crazy.

Not only was he ruthless in killing invading races, but he was also ruthless to the dragons who had contributed in the war of the Mythical Era.

In an instant, the three dragon generals were crushed.

Was he really not afraid of anything?

"Berserk Dragon King."

"Black Dragon Lord Juggernaut."

"Buggy, crush them too."

At this moment, as Shi Yu spoke, the divine might of the Green Dragon Buggy suppressed the surroundings. In the entire Creation Domain, deterrence shook the sky and earth. The pupils of the seven demigods, especially the Tyrant Dragon King and the Juggernaut Black Dragon Lord, constricted.

Damn.

This kid really wanted to continue attacking.

It still wanted to kill them.

At this moment, the two demigods were furious.

But in the next moment, it was very cowardly.

Because the miserable state of Dragon Palace City's revived gods was still vivid in his mind.

They believed that their strength couldn't exceed the three gods.

"Roar!!!"

Under the wreaking of divine might, the demigods in all directions of the Creation Domain instantly let out furious roars, feeling that Shi Yu wanted to kill them all.

"Shi Yu, do you want to start a war!!!"

The Tyrant Dragon King was furious, but in the next moment, the Creation God might that had condensed, compressed, and tempered to the extreme gathered on its huge humanoid body.

The sound of Spirit laws shook in all directions.

President Lin was stunned. He didn't expect Shi Yu to attack other demigods.

Was it really alright?

With a crack, in the Creation Domain, the Tyrant Dragon King, who had just advanced to a demigod, had yet to resist when its body transformed under the substantialized divine-level dragon might. The hard dragon bone in its body instantly shattered.

His brain rumbled, and dragon blood flowed out of his eyes. He spat out blood crazily, and his eyes gradually turned white.

With a boom, it was suppressed to the ground and thrown to the ground like a meteor. The surrounding demigods were extremely shocked.

Suppressing a demigod with deterrence?

What exactly was going on with this strange domain and strange world!

"The laws of heaven and earth are all controlled by it, like the world it created." A reincarnation god was extremely shocked as he looked at the miserable state of the Tyrant Dragon King.

"This is... the law of creation!! Impossible, no creature can master such power."

"I..." At this moment, the Tyrant Dragon King was extremely afraid, but it couldn't say the word 'submit'. Its body directly exploded from the pressure of deterrence and turned into a blood mist. Just like the divine dragons, it only had one breath left and waited to be dealt with.

"Shi Yu, that black dragon wants to run. Hurry up and hit it!" The gem cat was extremely surprised.

He didn't expect Shi Yu to become so fierce again after a few days.

It had long wanted to beat up this black dragon.

They actually didn't give their Gem Financial Group face.

This was an opportunity!

"Roar!!!" The Black Dragon Lord retreated in shock and retreated crazily. A quasi-divine skill condensed. It spat out a World Destruction Dragon Breath and aimed at Shi Yu, but it was only for show. It was instantly taken head-on by a dragon claw that swung over. The sweeping dragon claw slapped towards the Juggernaut's Black Dragon Lord.

Unscientific Beast Taming

Chapter 1236: Invincible (2)

Just like the Divine Claw, this was the true power that could sweep through the world and destroy everything.

In the Creation Domain, Buggy was both a Creation God and a World Destruction God.

"Shi Yu, you lunatic!!!"

The dark figure approached, and the Black Dragon Lord was taken by surprise as Shi Yu seemed determined to completely annihilate them, disregarding any consequences.

"Our Dragon Empire also has gods."

"Senior, save me..." Black Dragon Lord looked at one of the reincarnation gods, but the other party was indifferent. It was filled with fear toward the Green Dragon.

The pupils of the Black Dragon Lord constricted...

With a boom, it was pinched by a huge claw. Its body shattered, and a blood mist exploded.

From beginning to end, the colossal main body of Buggy merely hovered in the sky, casually moving its small claws throughout the entire process.

"Roar!!!"

After destroying five demigods in a row, Buggy's battle intent rose to the extreme as it locked onto the next target.

"Wait, wait, I have no grudge with Dong Huang." The remaining demigod of the later era of Blue Planet roared.

This was an Icy Snow Dragon from the Snowfield, an elemental life form. It wasn't a dragon, but it was in dragon form.

In the Creation Domain, Buggy was a god of death. Ordinary demigods couldn't withstand a single move from it, but that was normal. After all, this was a top-notch law enhanced by all the power of faith of the Green Dragon on Shi Yu and the others.

Apart from that, Shi Yu's Green Dragon Domain also strengthened Buggy's faith skill.

It gave Buggy true divine power!

"Roar, roar, roar!" Eleven and the others cheered. Buggy, kill, kill, kill.

If Buggy used up all the power of faith here, it wouldn't be able to participate in the team internal competition!

Buggy was indeed fierce, shocking Eleven and the others. They hurriedly prayed that Buggy would use up its terrifying power.

"They have gone mad with killing." Now, the other reincarnated gods dared not make any rash moves, as they had no grievances or enmity with Shi Yu. They didn't believe that Shi Yu would massacre them all, but deep down, they couldn't deny that they were worried and afraid.

They couldn't imagine how Shi Yu and the others had erupted with divine-level power in the Cultivationless Age.

This was the Green Dragon?

It felt like the Ancestral Dragon was suppressed in the demigod realm, and that was his limit of power.

The humans' hearts were in panic. Previously, they didn't feel much, but at this moment, they sensed the terrifying power of the Seed of Hope brought by Goddess Wa.

Even if the ones they left on Blue Planet were only low-level gods, it was really unimaginable for them to be killed indiscriminately by demigods of the later era.

"Don't worry." After heavily injuring the Tyrant Dragon King and the Black Dragon Lord in one go, Shi Yu smiled gently and said, "Dong Huang loves peace and will never initiate aggression. It's purely because the factions of those two guys once invaded Dong Huang, so I taught them a lesson."

"Moreover, they didn't join the Blue Planet Alliance. It's obvious that they aren't guys who yearn for peace. Eliminating them is also eliminating harm for Blue Planet, in case they become traitors and rely on extraterrestrial factions."

As Shi Yu finished speaking, the other five demigods felt their teeth hurt. They had yet to betray anyone, but he had already drawn conclusions. Who could argue with him?

"I'm willing to join the Blue Planet Alliance!!" Icy Snow Dragon was the first to shout, afraid that Shi Yu would attack.

President Lin's vision darkened. He didn't expect that the demigods from those difficult-to-communicate factions would be willing to join the Blue Planet Alliance in this manner.

"Welcome." Shi Yu smiled.

"Alright, next, I want to think about how to deal with these three guys."

Shi Yu looked towards the three Mythical Dragon Race members who were heavily injured and unconscious. He turned to the Dragon God and asked, "Senior Dragon God, with me here, you can rest assured that no one can snatch your position as the Dragon God. Even if Ancestral Dragon returns, he won't succeed."

"How should we deal with these three detestable guys?"

"Why don't we roast them and eat them? We'll split them with everyone in Dragon Palace City."

It was Shi Yu's idea to expand the faith of the Green Dragon in Dragon Palace City. Now that Dragon Palace City had been left in ruins by these three guys and many Green Dragon believers had died, Shi Yu really felt bad.

Only by dismembering these three guys and giving their dragon blood, meat, tendons, and ball to everyone in Dragon Palace City as resources could Shi Yu feel more comfortable.

"You'll get into big trouble like this..." At this moment, the Dragon God's mind was also greatly shaken. She found Shi Yu and Buggy's god-like battle power unbelievable.

However, after killing three divine dragons of the Mythical Era like this, she felt she would be in big trouble next.

"They might not be the only gods of the Dragon Palace. Perhaps other divine dragons will revive one after another."

Shi Yu smiled and said, "It's not a big problem. I just want to kill all the enemies. If they're friends, I'll welcome them."

Shi Yu's words made the corners of the mouths of President Lin, the gem cat, and the others twitch.

Shi Yu was definitely arrogant, but this exaggerated battle power was simply even more terrifying than the previous strongest Legendary title.

He could completely be said to be invincible. He even casually killed awakened gods!

"Roar..."

At this moment, the three divine dragons that had been crushed by Buggy slowly recovered some strength under their self-healing. Seeing this, Shi Yu immediately commanded Chi Tong.

"Just kill them."

"Mi!!!" Chi Tong, who was flying around in the sky in the form of a sword, had long been waiting for Shi Yu's words.

Its aura rose steadily, and its energy erupted, revealing the power of a demigod and shocking the people beside it.

It was unexpected that Shi Yu's sword spirit had also reached the demigod level.

"Boom!!!"

In the next second.

Chi Tong turned into a sword light and slashed at the three divine dragons, planning to harvest their souls first.

"Don't kill them!!!" At this moment, just as Chi Tong attacked, a voice suddenly sounded.

Unscientific Beast Taming

Chapter 1237: Invincible (3)

Shi Yu originally thought that it was one of the surrounding reincarnation gods. However, upon closer listening, he felt something was amiss, as the voice sounded somewhat familiar.

Crack.

In an instant.

In this Cultivationless Age, the Creation Domain that was comparable to a true divine skill was instantly torn apart.

An invisible power of the world turned into a huge hand that instantly blocked Chi Tong and gently bounced it away.

"Shi Yu, stop!!!"

After the green worm the size of an arm tore open the Creation Domain and blocked Chi Tong, it shouted nervously, afraid that Shi Yu would be fast enough to kill the three divine dragons.

"World Tree!!!"

At this moment, when they saw this little green vortex worm, the cat, the Dragon God, President Lin, and the surrounding demigods were shocked.

They didn't expect the World Tree, or rather, the World Tree clone, to suddenly appear here.

"Mi!!!"

At this moment, Chi Tong and Buggy were rather shocked. They felt that their strength was easily resolved by the World Tree clone, the little green vortex worm.

Shi Yu was also extremely silent. As he looked at the incoming World Tree clone, he kept feeling that there was big trouble...

It wouldn't be so easy to use the three divine dragons as resources.

"Senior World Tree..."

Boom.

The Creation Domain shattered, and the environment returned to its original state. The three divine dragons fell into the sea. The Tyrant Dragon King and the Black Dragon Lord also fell into a near-death state.

The other demigods had lingering fears. Since the World Tree was here, Shi Yu couldn't go crazy anymore, right?

"Lord World Tree, the three of them attacked first. I was defending myself!" At this moment, Shi Yu complained. He didn't expect the World Tree to wake up at this moment.

"I know. I've already understood the cause and effect."

"However, they have contributed to the Mythical War after all. Shi Yu, spare their lives. I promise you that they won't interfere in the Dragon Palace anymore." The World Tree had an extremely bad headache.

It didn't expect such a big thing to happen when it woke up.

Naturally, it couldn't let Shi Yu kill these three revival gods. If it did, what would the other gods who had contributed to Blue Planet think?

However, the World Tree had special feelings for Shi Yu. When it woke up, it realized that not only had Shi Yu killed Yun An and the Abyss Demon Frog and become the strongest human, but he could also easily kill five demigods. The World Tree was shocked and delighted.

It was also very concerned about a genius like Shi Yu. Moreover, this time, these three gods were indeed too violent, so the World Tree could only be a peacemaker.

"I'll use the power of the world to recover the casualties of Dragon Palace City," the World Tree clone said.

The Dragon God said, "Thank you, Lord World Tree. Shi Yu, let's forget it."

At this moment, since the World Tree had already said this, the Dragon God didn't want Shi Yu to offend the gods too much either.

Shi Yu frowned and said, "Alright, since Mother said so... But the Tyrant Dragon King and the Black Dragon Lord..."

The World Tree clone said, "I'm not your mother."

"You can do whatever you want with those two guys. I don't care anymore."

The World Tree clone felt a headache. Below, the three revival gods were directly put into an alternate space by it. At the same time, the green vortex worm glanced at Shi Yu and the others and said, "Shi Yu, let this matter come to an end."

"You... follow me to Inatella."

"I have something important to tell you."

"Alright." Shi Yu nodded and said, "Has the Ancient God Golden Bull woken up? It still owes me a divine-level resource..."

The World Tree clone shook its head. "No...!"

...

This time, the World Tree suddenly woke up and even said that something big had happened. Shi Yu decisively followed the World Tree.

In almost the blink of an eye, they were brought to Inatella by the World Tree.

After arriving, the World Tree clone looked at Shi Yu with a rather complicated expression.

It didn't expect Shi Yu's improvement speed to be so fast. He had reached the invincible level so quickly.

"Little brat, your strength has improved very quickly. On Blue Planet, you can be said to be invincible even when facing these gods who have awakened from their sleep."

Shi Yu said in embarrassment, "I'm still not your match."

World Tree clone: "?"

You still want to be my match?

The World Tree clone said, "You're indeed invincible, but the problem now is that the reason why I woke up is because I sensed a batch of powerful extraterrestrials approaching the galaxy where Blue Planet is."

"The opponent is incredibly powerful. Although not at the divine level, they have reached the pinnacle of the demigod realm. They might possess three, four, five, or even six or seven quasi-divine skills. I'm not sure if they're friends or foes! It's as if they come from a world with more perfected rules, or perhaps a lifeform born from a planet even mightier than Blue Planet."

"If they're enemies, Blue Planet will be in danger."

Shi Yu was stunned, and his expression changed. Holy shit, you just said that I'm invincible, but an enemy is coming from the sky?

[Unscientific Beast Taming](#)

Chapter 1238: Alien Beast Tamer Descends to Blue Planet (1)

At this moment, Shi Yu had mixed feelings.

They might have three, four, five, or even more quasi-divine skills?

They were indeed very terrifying guests from outer space.

In the Cultivationless Age of Blue Planet, apart from the Blue Planet lineage, there were at most two records of quasi-divine skills.

For example, the Blue Sea Sprite.

It was called the strongest demigod because it had two quasi-divine skills that could be used together, and one of them was a quasi-divine-level faith skill.

On the Blue Planet in the Cultivationless Age, cultivating two quasi-divine skills was already a heavenly talent.

Whoever cultivated three would definitely be invincible in the world.

But the alien guest mentioned by the World Tree this time didn't seem to be reasonable at all.

Four to five quasi-divine skills?

He felt that even if Eleven and the others had quasi-divine skills that contained top-notch laws, they wouldn't be able to fight easily.

After all, having multiple pets with quasi-divine skills wasn't the same concept as having multiple quasi-divine skills with one pet. The latter's strength was a qualitative leap.

Perhaps it could even use a combination divine skill.

However, Shi Yu wasn't afraid of them if they really fought head-on.

It wasn't difficult for him to let Eleven and the others each have multiple quasi-divine skills.

"In the same realm, I'm invincible, even if it's a cosmic demigod," Shi Yu said.

"As long as Lord World Tree provides enough resources to make me stronger, I'll kill whoever comes. When the resources are in place, even God Realm experts will be useless. You have no idea, I now have four totem contracts that surpass my level, and our team is almost overflowing. We can barely manage to keep everyone fed," said Shi Yu with a grin.

As long as the World Tree gave him resources, he would win this battle!

He would guard the Blue Planet...!

"So you know that you haven't even reached the Legendary level." The corners of the World Tree clone's mouth twitched. "I brought you to Inatella because I want you to stay and not get involved in these troublesome matters."

"If it's an enemy, I'll settle it. You can just cultivate here obediently."

Shi Yu: "?"

The World Tree naturally believed what Shi Yu said.

If the World Tree wasn't wrong, Shi Yu's skill that crushed the five demigods just now contained the law of creation. It was a quasi-divine-level faith skill.

If such a skill could be cultivated into a divine skill and had enough power of faith to support it, then Green Dragon...

Green Dragon would absolutely not be inferior to top-notch gods like Ancestral Dragon and Original Phoenix. Green Dragon would be a future entity with the potential to become a top-notch god, unparalleled among peers, and no one at the same level could be its match.

In addition to that who had mastered the destructive law, when Shi Yu grew up, he was definitely a good seedling that far exceeded any top-notch god back then.

Perhaps there was the hope of resisting super divine life forms like the Abyss Evil God, the Space Behemoth, and the Worm Empress alone.

Regarding such a genius, the World Tree naturally couldn't let Shi Yu face a strong enemy too early.

If anything happened to Shi Yu before he reached the divine level, the World Tree would cry to death. Not only would the World Tree have lost a super genius, but it would also feel that its previous blessings had been thrown away and wasted.

Therefore, the World Tree planned to protect Shi Yu well in Inatella when external enemies invaded. If they were really powerful enemies, the World Tree would deal with them.

Although excessive consumption of the power of the world would delay the recovery of the laws, there was no other way.

Who would have thought that someone from the starry sky would come at this time?

"You want me to cultivate here??" Shi Yu was stunned. He really didn't expect the World Tree to call him over not to let him, the strongest expert on Blue Planet, fight the external enemies, but to protect him instead.

But thinking about it carefully, there was nothing wrong with that.

He was still a child who had yet to grow up.

"That's right." Apart from that, the World Tree was also worried that Shi Yu would suddenly kill a few more reincarnation gods outside.

Now, Shi Yu had the complete aptitude of a super divine. It wasn't something the low-level gods on Blue Planet could compare to at all. Just as Shi Yu had said, he was invincible in the same realm.

"Then... will you provide food?" Shi Yu suddenly asked.

"If food and accommodation are provided, and Lord World Tree, if you take good care of Dong Huang, Dragon Palace City, and my friends, then I have no problem!"

"Of course, I don't want something like today to happen again. If it weren't for the fact that Lord World Tree said that you could revive the casualties of Dragon Palace City, I would have killed those three gods no matter what to commemorate those believers."

Shi Yu grinned.

The World Tree said, "Sure, no problem. I'll punish them well."

"I'll pay extra attention to your country and your friends. With this awakening, I won't sleep any time soon. With me awake, a situation like the one that appeared in Dragon Palace City previously will definitely not happen again."

"I'll take over the right of Blue Planet's Will to temporarily manage Blue Planet."

"Then thank you, Lord Blue Planet!!" Shi Yu was excited. Awesome. The World Tree provided food and accommodation. Didn't that mean that Eleven and the others could train unscrupulously on Inatella's side?

In fact, a demigod-level team battle could even be arranged.

On the other hand, he worked hard to meditate and strived to break through to level nine as soon as possible!

In that case, Shi Yu was willing to suppress his restless heart.

It was the same to level up first before going to have fun.

"By the way." Shi Yu suddenly recalled something and said, "My friend previously had a premonition."

"The premonition was that a legendary Beast Tamer from Dong Huang, who disappeared while exploring the starry sky, and Lin Feng, a Beast Tamer from Dong Huang, who once received your blessings and also disappeared, are still alive."

"After they disappeared, they arrived at a certain place in the starry sky and broke through to the divine level."

The World Tree was stunned. It looked at Shi Yu and said, "It's a premonition."

"There's indeed such a possibility. In the starry sky, no, even on Blue Planet, there are many things that the will of the planet doesn't know, just like how ordinary people can't know every minute phenomenon in their bodies."

[Unscientific Beast Taming](#)

Chapter 1239: Alien Beast Tamer Descends to Blue Planet (2)

"It's not impossible for them to reach deeper into the starry sky due to certain peculiar phenomena."

"Even in the Mythical Era, there have been cases of gods disappearing when exploring the starry sky."

"Including the high-level gods who left the Blue Planet after the Mythical Era ended... The reason why I said that I don't know if the guests from outer space are friends or foes is also because of this."

"Blue Planet is gradually reviving. Those who return might be enemies, but they might also be old friends."

"I hope... things can develop in a good direction." The World Tree clone looked out of Blue Planet again.

Shi Yu pursed his lips. World Tree clone, why don't you know anything? Is this why you don't know that I'm a transmigrator?

...

At the same time.

As the World Tree pulled Shi Yu away, Shi Yu took away the Tyrant Dragon King and the Black Dragon Lord. Many demigods immediately dispersed.

The non-Dong Huang demigod left dejectedly, while the Dragon God returned to Dragon Palace City to preside over the overall situation. The previous conflict had long thrown the Dragon Palace City into chaos.

There was even a batch of surrenderers who had joined the gods. The Dragon God wanted to settle the score.

As for President Lin and the gem cat, they couldn't help but heave a sigh of relief when they saw that the matter had ended successfully. President Lin said, "Teacher Ying, can I leave the matter of incorporating the Dragonman Empire to you next?"

"The Dragonman Empire is in the west and has the Dragon God presiding over it. It's not easy to deal with, but we can take back the Dragonman Empire's Green Dragon faith for Shi Yu."

The gem cat girl's eyes lit up. "Leave it to me."

This was a good thing for her!

The battle of Dong Huang ended here.

However, the end of the battle confused the various realms.

The coup of Dragon Palace City and the revival of the three divine dragons to seize Dragon Palace City were definitely not known only to a few demigods.

In fact, the various factions on Blue Planet, including the Seven Nation Alliance, quickly got wind of the news.

However, only demigods dared to watch this kind of thing up close.

According to various speculations, this conflict would definitely cause a super earthquake on the Blue Planet. After all, three revival gods were involved, and they were powerful dragon gods, as well as the strongest faction in the post-era of Blue Planet, the Dong Huang Alliance.

No one believed that they couldn't fight.

But in reality, the feeling this battle gave them was really no different from not fighting.

The factions that didn't have the guts to come to the scene to watch the battle had no idea why the East Sea was suddenly silent.

The Creation Domain was too terrifying, directly isolating the new world at that time from the Blue Planet system.

Everything that happened took place in another newly created world, beyond the perception of the outside world, which was entirely normal.

At the moment, on Blue Planet, probably only the Blue Planet's Will could sense the Creation Domain and interfere.

"What exactly happened in the East Sea? Why isn't there any movement?"

All around the world, there was considerable confusion and puzzlement over the sudden cessation of the great war.

However, the most terrifying thing was that after the demigods who were watching the battle up close left the East Sea, they also kept silent about this battle, afraid that they would get into trouble.

The internal waters of the Ancient God of the Dragon Race and the Blessor of the World Tree were too deep, and they were unwilling to interfere.

"Could it be that Dong Huang and the Dragon God have agreed to some conditions..."

Before everyone could figure out the truth of this matter, another big event happened.

All legendary and demigod-levels could sense very powerful auras approaching the Blue Planet from the starry sky.

They were rather shocked and didn't understand what had happened in the starry sky. The extraterrestrial visitors this time made no effort to conceal their power, displaying it freely, fearing that the inhabitants of the Blue Planet might not notice them.

Their aura was incomparably terrifying. Even if they were outside the planet, they still shocked the legendary demigods on the Blue Planet.

"Alien invaders?"

Inatella.

Boom.

Space trembled. The gods sleeping here were also shocked by this powerful wave. The Ancient God Golden Bull and the other gods woke up and looked at the starry sky in confusion.

"What's going on... Are the invaders here again? Moo!!!" The Ancient God Golden Bull roared, his voice resounding through Inatella.

Lord Lie Shan, the Holy Divine Deer, the Demon King Dragon, and the other gods stared at the starry sky with serious expressions.

They felt that the enemy... was getting closer and closer.

"Ancient God Golden Bull!!!" At this moment, when he heard these sounds, the one who was most surprised was none other than Shi Yu.

Damn, this guy has finally woken up!

Shi Yu immediately shouted at the Ancient God Golden Bull, who had awakened from the Mythical Ruins.

At the same time, the Ancient God Golden Bull was also stunned as he looked in Shi Yu's direction.

He saw the World Tree clone with a similarly serious expression and Shi Yu, who was waving at him.

"Bull God, it's me." Shi Yu summoned Eleven, wanting to remind the Ancient God Golden Bull of him.

"Wu wu wu!!!" Eleven also waved at the Ancient God Golden Bull.

Resources! Resources! Resources had yet to be given.

When the Ancient God Golden Bull saw Shi Yu, his expression darkened. Damn, why is this guy still here after I wake up?

"It's you." The Ancient God Golden Bull frowned and said, "What is it?"

"What else could it be? You haven't given us the resources we earned from passing the test in the World Tournament. Give us a metal-element resource!" Shi Yu's requirements weren't high. He just wanted a mythical metal-element resource that could fill Eleven's stomach.

"Wu wu wu!" Eleven nodded, suddenly feeling that the Ancient God Golden Bull had become much stronger after a few days!

Even so... he still had to give them resources!

Since the Ancient God Golden Bull dared to agree to the World Tree being an examiner, he shouldn't be as poor as the Golden-Winged Roc to rely on shedding his own body to produce resources, right?

Unscientific Beast Taming

Chapter 1240: Alien Beast Tamer Descends to Blue Planet (3)

Although the steak was pretty delicious, Shi Yu didn't want to eat familiar faces. He treated Inatella's friendly gods as good friends!

"#¥@#¥¥%" The Ancient God Golden Bull cursed in his heart and said, "I know, I won't shortchange you."

"You little kid... No, you actually mastered a skill of that level. Not bad, you're really not bad. Kid, you can have resources, but when you're free, fight with me again!!!" The Ancient God Golden Bull said indignantly.

The Ancient God Golden Bull's power, after the revival of the rules and a period of slumber, had also been restored to the totem level.

It was no longer the original overlord level.

In other words, it also had demigod battle power now, and as an awakened god, it was definitely stronger than demigods in the later era of the Blue Planet!

Sensing that the level of his quasi-divine skill had increased as the laws revived, the Ancient God Golden Bull gritted his teeth, wanting to spar with Shi Yu and the others again.

The last time, because of the suppression of laws, the Ancient God Golden Bull never collided with Shi Yu and the others. But this time, the Ancient God Golden Bull believed that it was definitely not a problem. The higher-level usage of its Golden Mountain Divine Body had already been unlocked with the revival of his power.

The Ancient God Golden Bull could rely on overload to obtain physical strength that exceeded that of demigods. He wasn't afraid of even the prototype of a top-notch divine skill...

"No problem," Shi Yu agreed readily. In any case, with the World Tree providing food and accommodation, the losses from the battle shouldn't be a big problem, right?

Seeing the cow's temper, he felt that the Ancient God Golden Bull could agree to another resource.

"You guys..." At this moment, the World Tree clone was rather speechless. "Is this the time to talk about this? My other clone has already gone to the starry sky to intercept the invaders."

"A huge battle might break out at any moment."

"You woke up at the right time. If a battle happens, please lend me your vitality. The power of the world that I can mobilize is limited. If the opponent is too strong, I might still need the life of Blue Planet to contribute a portion of my strength."

"It's indeed an invader!" When the World Tree clone said that, the awakened gods became serious. Shi Yu also looked at the starry sky, wanting to know what was going on.

...

At the same time.

In the incomparably dark starry sky, four huge flash meteors hit the Blue Planet.

The four meteors weren't big, and each was less than a hundred meters in diameter. But with their strength, if they hit the Blue Planet, it would definitely be an unimaginable disaster.

"This is..." At this moment, the Green Dragon, the 50% power clone of the World Tree, was already flying outside the Blue Planet, looking at the four meteorites flying over with a burning gaze.

It immediately thought of a meteorite life form like Yun An.

However, in fact, these four huge meteors were like controllable aircraft. After flying close to the Blue Planet, although they were still filled with huge fluctuations, their speed became slower and slower.

Boom!!!

When they were extremely close to the Blue Planet, or rather, the World Tree clone's Green Dragon, the four meteorites actually slowly stopped in midair in unison. Then, a door-like arc of light appeared on the four meteorites. They slowly opened like the doors of a spaceship.

Right on the heels of that, eight figures appeared together inside. Even the World Tree was rather shocked to see these eight figures.

Four of them were humans, two men, and two women.

From their appearances, they were all young men in their 20s. The men were handsome, and the women were beautiful. They were wearing clothes that were different from those of any country on Blue Planet. They wrapped their bodies tightly, only revealing the black battle suit on their heads. It was perfectly coordinated with the power of the starry sky, as if it was a super equipment prepared for the starry sky battle.

Apart from that, the source of the power sensed by the World Tree clone was also behind them.

A blue-purple Star Dragon whose body seemed to be covered in star spots was only more than ten meters tall, but its aura far exceeded any demigod on the Blue Planet at the moment. The feeling it gave the World Tree clone was even stronger than that of the peak Blue Sea Sprite.

There was also a huge phoenix with a red body and blue wings. Every feather was as deep as a nebula. Just like the previous Star Dragon, it was a cosmic life form that emitted powerful fluctuations.

In addition to that, he was an extraordinary humanoid life form with multiple platinum-colored angelic wings. With a handsome face and golden eyes, he was undoubtedly an angel. The sacred aura emanating from him was already approaching the level of a divine being.

The last life form was a female demon with black and red wings that looked like bat wings. She displayed her fiery figure vividly with a smile on her face. She sized up the World Tree clone curiously and licked her lips, looking rather tempting.

These four formidable demigod-level beings came out together with the four humans. They appeared to be of equal status, without any distinction of importance. However, there seemed to be a connection between them. The World Tree clone quickly deduced that each pair of these arrivals might have some sort of mutual contract or covenant.

"Lord Blue Planet..." The Beast Tamer of the Star Dragon, a mature woman with long black hair, walked out of the meteorite in the air and said telepathically, "We've finally arrived. You're the will clone of this planet, right?"

"Who... are you?" At this moment, the World Tree clone had already guessed, but it still asked.

"My name is Zi Lan. My teacher is a Beast Tamer who walked out of this planet. His former title here was the Space Emperor. This time, our group has come from the Cosmic Sea, bringing with us tools that can help the Blue Planet integrate with the universe."

"At present, the gods who walked out of the Blue Planet in the Mythical Era have already established several super-divine-level factions in the Cosmic Sea and stabilized their foundation. After learning that their mother planet is about to undergo restoration, they plan to welcome their mother planet and help it complete further evolution."

At this moment, the World Tree clone was rather shocked. It didn't expect that just as Shi Yu told it about the Space Emperor, a Beast Tamer sent by the Space Emperor would appear.

Who was Shi Yu's friend who had the premonition? He was incredible.

A disciple of the Space Emperor?

It was unbelievable.

Sensing the powerful aura of this long-haired mature sister and the Star Dragon beside her, the World Tree felt that their strength wasn't much inferior to Shi Yu. What kind of existence had that Space Emperor become?

The Beast Tamers of Dong Huang were all monsters!

Moreover, the World Tree also heard an important piece of news. After the Mythical Era ended, the gods who left the Blue Planet and settled in the universe had made significant breakthroughs, and some individuals even broke through to the super divine level!!

The World Tree clone heaved a sigh of relief. Fortunately, they weren't enemies. At the same time, the World Tree clone was excited and thrilled. Although it had some doubts about why these divine beings were doing well but were unwilling to bring back resources from the universe to help the Blue Planet

recover quickly, it couldn't dwell on that now. As long as they still acknowledged their home planet, the World Tree clone felt content.

"Welcome, children," the World Tree clone said happily.

The Beast Tamer of the Star Dragon, the long-haired mature sister, smiled and said, "Lord Blue Planet, we brought four Teleportation Key Stones this time. These keystones act as relic teleportation devices, allowing at least four individuals from the Blue Planet to enter another super planet. When that time comes, our teacher and others will be waiting for you on that super planet."

"More details might require you to communicate with them personally, Lord Blue Planet."

"No problem," the World Tree clone said. "You've traveled a long way, and I appreciate your efforts. Let me take you to the Blue Planet first."

The long-haired mature sister should be a figure similar to a captain. She looked at everyone and nodded. "Then I'll leave it to you, Lord Blue Planet. We spent several years on this voyage and consumed a lot of energy. We even sacrificed a teammate."

"There were a total of five of us at the start. Unfortunately... the representative of the Kirin Race died in the starry sky because of a cosmic accident. Before we reach our restoration state, we might have to disturb the Blue Planet for a period of time before daring to return."
