Unscientific Beast Taming

Chapter 1241: The Look of the Starry Sky (1)

Under the lead of the World Tree clone, the eight guests from the starry sky followed it to the Blue Planet and descended on Inatella.

When they transmigrated to the atmosphere, the eight guests from the starry sky immediately sensed that their strength was suppressed.

Among them, the golden-haired and blue-eyed man who contracted the angel said, "In such a broken world, I'm afraid they can't even cultivate a slightly powerful demigod, let alone a divine being."

"I feel that any battle on this planet will cause the color of the world to change, causing an impact worldwide."

"Cut it out. Don't you know that the mother planet is still recovering?" The angel with platinum wings said elegantly, "If the mother planet can nurture an expert like Master God, then after its recovery, it'll surely ascend to become an advanced planet."

"Sorry, sorry, Lord Blue Planet, I didn't mean anything else." The golden-haired man scratched his head with a smile.

In theory, the Blue Planet was the mother planet of the Angel Race, but it wasn't his. He was only a descendant of the Cosmic Human Race who joined the Angel Race later.

Blue Planet was considered a relative.

After enduring countless hardships, he finally arrived on the Blue Planet. He originally wanted to spar with the powerful beings from his mother planet, but it seemed better not to. Setting aside whether this place was suitable for battles or not, under such fragmented laws, it was unlikely that any strong beings could be cultivated here.

"Lord Blue Planet, if you can contact the World King Planet, there might be a way for you to accelerate your restoration," the female succubus said with a faint smile. However, she couldn't help but wonder in her heart whether they could truly find any geniuses in such a low-level planet system back in their own clan.

She felt that she could defeat all the invincible people on Blue Planet alone... Apart from the Blue Planet's Will clone in front of her.

The World Tree was still strong. Even if a top-notch god suppressed it to the demigod level, they might not necessarily be its match. After all, its main body was the Blue Planet itself.

The World Tree clone sighed, feeling rejected.

At the side, the mature woman with long black hair and the Phoenix man who had contracted the Star Phoenix were relatively calm. To be precise, the two of them, including the sacrificed teammate, weren't on the same team as the other two.

The three of them were followers of the human faction established by the Space Emperor and Lin Feng. Although their pets came from the Dragon, the Phoenix, and the Kirin races, and both parties were in an equal contract relationship, they were still led by humans this time and mainly came to help Dong Huang.

As for the other two parties, they came from the Blue Planet's Angel Race and the Demon Race. They were led by transcendent lives, and their goals were different.

"Lord Blue Planet, I wonder if Dong Huang, the hometown of Teacher and Lord Lin Feng, is alright?" Zi Lan, the captain of the few of them, asked.

The World Tree clone said, "Dong Huang... is developing very well."

Zi Lan heaved a sigh of relief. This way, after their teacher and Lord Lin Feng learn about it, they should be able to relax.

...

Inatella.

Shi Yu and the seven gods sleeping here looked at the eight experts brought by the World Tree clone in a daze. Just now, they had already learned from the World Tree clone that the newcomers weren't enemies.

Instead, they were the Blue Planet's experts who left and ventured into the universe, eventually returning with knowledge of the universe's starry sky.

"Oh?" After this group of aliens descended to Inatella, they also observed the awakened gods of Inatella curiously.

"Let me introduce you."

The World Tree clone immediately introduced themselves to each other. First, it introduced the origin of this group of aliens again, and then it introduced the sleeping gods.

This made the group of people sigh. Sealing and slumbering truly turned out to be an effective method, allowing them to survive for so long.

The Ancestral Dragon, Yuan Feng, and the top divine ancestors who had left the Blue Planet were all dead. However, this group of low-level gods was actually still alive.

"This is Shi Yu. At the moment, he's the strongest Beast Tamer on the Blue Planet and is also from Dong Huang. He's currently cultivating with me." The World Tree clone introduced Shi Yu, who immediately attracted everyone's attention more than an awakened god.

This was because they knew that those who remained on the Blue Planet were only junior gods, and the divine skills they had mastered during their peak were only entry-level. Perhaps even in their prime, they might not be able to defeat those who ventured out. Apart from having a bit more experience, there was nothing else worthy of attention. They were all at the bottom of the Mythical Era.

They were different from the Beast Tamers who could become the strongest Beast Tamers on the Blue Planet in the Cultivationless Age. One was the last tier of an era, and the other was the top tier of an era. Obviously, the latter was more worth paying attention to.

Especially since Shi Yu looked so young...

Moreover, he also came from the same country as the Space Emperor and Lin Feng, shocking everyone.

Not to mention these guys, even the Ancient God Golden Bull and the other gods were shocked. They looked at Shi Yu and wondered when he had become the strongest Beast Tamer on the Blue Planet.

Not long ago, wasn't he only the strongest in the younger generation... However, when they thought of this kid's terrifying talent and the favorable opinion of the World Tree, they came to terms with it.

Only the Ancient God Golden Bull fell into deep thought.

Why does it feel like this guy's growth speed is faster than my restoration?

"You're from Dong Huang??" The long-haired mature sister, Zi Lan, looked at Shi Yu, who wore a shy expression and had a cute lying on his shoulder, with a very surprised expression on her face.

She remembered that Lord Lin Feng had told her that the ruler of Dong Huang should be a mechanical old man named Divine Source. Moreover, Divine Source Legendary couldn't be considered the number one Beast Tamer on the Blue Planet. She didn't expect that after a hundred years, the Blue Planet and Dong Huang would have already undergone such a huge change.

"Sister, are you Senior Space Emperor's disciple? Hello, I've been looking up to Senior Space Emperor for a long time. I'm still good friends with the second team pet, the Void Mantis, that Senior Space Emperor left on the Blue Planet. I also know some of the descendants of Senior Space Emperor," Shi Yu said warmly.

[Unscientific Beast Taming](#)

Chapter 1242: The Look of the Starry Sky (2)

This is great.

Prediction Owl, you're the best!

Emperor Kong and Lin Feng are really still alive.

They even sent someone back to the Blue Planet.

Shi Yu felt that they definitely had the method to use the Teleportation Key Stone!

Tears welled up in Shi Yu's eyes. The experts who left Blue Planet finally sent someone back. He felt that once he gained their support, he could venture into the universe fearlessly and accomplish great things!

It was awesome. He was long tired of playing on the Blue Planet. If it weren't for the fact that he had a parallel space to go to, he would have died of boredom.

"Really? Then you have to bring me to see them later." Zi Lan smiled. She didn't expect that the top expert on the Blue Planet would be someone as young as them. She thought it would be an old man.

"No problem," Shi Yu said.

The Space Emperor's disciple, Zi Lan, was very happy. Having just arrived on the Blue Planet, hearing such good news was undoubtedly a huge gain. This time, apart from the main quests, the Space Emperor also told her a bunch of things about his past on the Blue Planet. She also knew about the Void Mantis, but she didn't expect it to still be alive.

Teacher will definitely be very happy to hear that the Void Mantis is alive.

"Little handsome, I feel that you're only in your 20s. You've become the strongest Beast Tamer on the Blue Planet at this age. How exaggerated." The person with a contracted demon had a beautiful face like a demon and was a charming woman. She gave Shi Yu a flirtatious glance and also felt quite amazed.

The female succubus beside her also thought highly of Shi Yu. She felt that this was the genius the race wanted. Unfortunately, he was part of the Space Emperor and the others' race...

"It's all because the seniors are old that we juniors have a chance. If it were their peak, I definitely wouldn't have any hope," Shi Yu said humbly with a smile.

Shi Yu's words earned the approval of the angel and the Phoenix men. They looked at Shi Yu's ridiculously young appearance and couldn't tell at all from his appearance that he was the strongest being on the planet.

Although this planet was already broken like a low-level planet, it was still a quasi-high-level planet that had produced several top-notch gods and defeated three super divine invaders...

How could the strongest Beast Tamer look like this?

"The current situation on the Blue Planet is that the sleeping ancient gods are gradually waking up, and the new generation of geniuses is gradually growing. Although it might take a while to recover to their previous state, without the threat of the outside world, it's only a matter of time."

"Those invaders shouldn't descend to the Blue Planet again, right? Is there any news of them in the universe?" the World Tree clone asked.

Zi Lan smiled and said, "In the starry sky of the universe, planets are the life forms that contain the greatest resources. Low-level planets that can't give birth to divine beings might not be worth the effort for powerhouses to invade. The gains from a single invasion may not even outweigh the costs of a long journey. However, it's a different story for intermediate or high-level planets."

"So much time has passed. The enemies who invaded the Blue Planet back then might no longer exist or have forgotten the Blue Planet, but new invaders will definitely be born as the planet upgrades. However, don't worry, with Teacher and the others' current factions, it's completely no problem to protect the Blue Planet."

"In the universe, the divine level is also known as the star level, and the super divine level is also known as the radiant sun level. The latter can be understood as an expert as dazzling as a star in the entire starry sky of the universe. There won't be more than 1,000 such experts in the universe. As for Lord Space Emperor and Lord Lin Feng, the two of them once joined forces and killed a super divine life form above their level."

"Apart from that, a super divine life form was also born among the five divine-level races that walked out of Blue Planet, the Dragon Race, the Phoenix Race, the Kirin Race, the Angel Race, and the Demon Race."

"Even in the starry sky of the universe, the Blue Planet lineage isn't a weak faction," Zi Lan said.

"You have to know that there are only five lives above the super divine level at the moment. Apart from the four universe emperors and that universe overlord, the super divine level is already the strongest in the universe."

"Therefore, you can rest assured and recover. You can even come into contact with the cosmic civilization and obtain more cosmic resources to complete the evolution. This way, be it the Blue Planet itself or Teacher and the others who left the Blue Planet, they can benefit."

"Teacher and the others should have prepared a 'planet transfer plan' to let you leave this desolate star domain and head to the Cosmic Sea. There, the laws of the universe are more perfect and more suitable for the evolution of planets. It can be said to be the center of the universe."

"Of course, this plan might take several decades or even over a hundred years to complete. The first priority is for both sides to establish contact through the Teleportation Key Stones."

As soon as Zi Lan finished speaking, the few awakened gods were rather shocked. Having experienced the Mythical War, they naturally knew how terrifying the super divine level was. Back then, the three super divine level beings almost destroyed the Blue Planet. They could still accept that one of the five large races that walked out of the Blue Planet could break through to the super divine level, but what did they just hear... Two humans joined forces and killed a super divine being?

In addition, the aliens in front of them were also mysterious and had powerful auras. The gods suddenly understood why Goddess Wa brought back the Human Seed for the Blue Planet...

Its potential was too terrifying. In the universe, humans must be a very powerful race.

Could it be... that there were humans among the four universe emperors or universe overlords?

"I see..." The World Tree clone said, "I heard from you just now that you brought four Teleportation Key Stones that can lead to a super planet called 'World King Planet'?"

Unscientific Beast Taming

Chapter 1243: The Look of the Starry Sky (3)

"At least four life forms can go there?"

"That's right. Each Teleportation Key Stone can only be bound to one life form. It's a binding tool."

"Therefore, in theory, a Teleportation Key Stone can only teleport one life form over."

"However, there's also a shortcut, which is to bind the Teleportation Key Stone to humans. This is because the unique contract talent of humans can allow the Key Stone to treat humans and their contracted targets as a whole. This way, more individuals can enter the World King Planet at the same time."

"Moreover, the generated consumption only depends on the individual's level, making it the most efficient usage for humans. By the way, 'World King' refers to the planet will of the World King Planet, a cosmic-level planetary life. Currently, it's the most advanced type of planet in the universe," Zi Lan explained.

At this moment, the few gods on the Blue Planet couldn't help but stomp their feet again.

When they heard that they could use the Teleportation Key Stone to head to some super planet, they were initially quite happy and felt that there was a better environment to increase their strength.

However... the other party had only brought four Teleportation Key Stones, and they were still bound to a single life form.

Binding a transcendent life form meant they could only send one individual over.

However, binding a human Beast Tamer could teleport multiple lives over, and the consumption was the lowest? This was unreasonable!!

The gods were anxious. In the end, the Blue Planet's Will would definitely give it to humans.

What about them?

Could it be that they had to lower themselves and sign a contract with a human to hitch a ride?

At the moment, perhaps only Shi Yu was calm. He was very happy to be born a human.

"I wonder what it takes to activate the Teleportation Key Stone." The World Tree clone asked the most important question.

"Cosmic crystal, divine-level cosmic crystal. It's a resource that only planetary life forms can absorb the power of the universe to condense. In theory, a divine-level cosmic crystal can allow a Level 9 human to teleport to the World King Star one-way once."

"The reason why I used Level 9 as an example is that at least a Level 9 life form can withstand the burden of teleportation. This is the rule set by Lord World King."

"If you want to teleport back, you also need a divine-level cosmic crystal. If it's a divine life form, you need a super-divine-level cosmic crystal... The stronger the target of the teleportation, the further away from the World King Planet, the greater the consumption, and so on."

"It's worth mentioning that a god who was once at the divine level but was suppressed to a lower level because of the incomplete world is also considered a divine level... If you want to go to the World King Planet, you have to consume super-divine-level resources."

As soon as Zi Lan finished speaking, the seven awakened gods were even more stunned.

The World Tree's heart skipped a beat.

Shi Yu, who was beside him, took a deep breath. So the method to activate the Teleportation Key Stone was a cosmic crystal... He knew this!

Little Zi could also condense it.

However, the current Little Zi couldn't even condense a legendary cosmic crystal, let alone a divine-level cosmic crystal.

It was impossible to activate the Teleportation Key Stone.

At this moment, when it heard Zi Lan's words, not only did the World Tree's heart skip a beat, but its vision also darkened.

Obviously, condensing a divine-level cosmic crystal wasn't an easy task for the current Blue Planet.

In addition, after Shi Yu came to a realization, he was also worried. His expression couldn't help but turn bitter because he wasn't Level 9 yet.

The lowest usage level of the Teleportation Key Stone was Level 9??

What a joke.

Upon hearing the laws of the World King, Shi Yu's heart turned cold.

Now, he had yet to reach the level of cosmic crystals and teleportation.

He wanted to cultivate! No one could stop him!

"You should have brought enough cosmic crystals, right?" the World Tree clone asked.

Zi Lan said regretfully, "Actually, we originally brought five Teleportation Key Stones and kept them on five people, respectively. We also drove on different routes to the Blue Planet, worried that something would happen during the voyage."

"In the end, whatever we were worried about came. The Cosmic Sea is also as unpredictable as the ocean. We encountered a starry sky storm. A teammate was the first to bear the brunt and died in the starry sky, disappearing with a Teleportation Key Stone, so there are only four left."

"And we also consumed a lot of energy because of this accident. Among them, because the energy consumed to sail is also cosmic crystals, not to mention cosmic crystals that can be used on the Blue Planet, even the cosmic crystals we need to return to our home have been completely consumed."

"In addition, we actually also have our own key stone that allows us to freely head to World King Planet, but now, because our resources have been exhausted, we can't even teleport to World King Planet to find Teacher and the others to ask for cosmic crystals."

"Therefore, we might have to rely on you, Lord Blue Planet. In theory, we only need one piece. At that time, we can take back more cosmic crystals from Teacher."

At this moment, the few cosmic Beast Tamers and cosmic life forms looked at the World Tree clone eagerly. Now, it was all up to the Blue Planet. Otherwise, they wouldn't be able to return home.

This godforsaken place... They didn't want to stay for a moment longer. Only by successfully returning could they receive the rewards for this mission from the Space Emperor and the clan.

If they couldn't go back, there was nothing left for them.

"I understand." The World Tree nodded and said, "I'll think of a way to get the cosmic crystal."

"But these four Teleportation Key Stones..." The World Tree said, "Looks like we have to distribute them to humans to maximize the benefits."

Unscientific Beast Taming

Chapter 1244: The Look of the Starry Sky (4)

Zi Lan said, "Here's the thing. My suggestion is to distribute them to the strongest humans and let the demigods with the strongest battle power sign an equal contract with them. There are many opportunities on the World King Planet. Only by sending them there can we potentially gain greater rewards."

"The resources on Teacher and the others' side aren't very sufficient for this return. It might be a little difficult to rely on them alone in this plan."

"We also need the experts of the Blue Planet to work hard themselves."

"Among them, according to Teacher's request, at least two of the five Teleportation Key Stones have to be assigned to Dong Huang."

"Little Brother Shi Yu, do you have any thoughts of exploring the starry sky?" Zi Lan asked Shi Yu with a smile.

"Of course," Shi Yu said. Eleven, who was on his shoulder, also cried out. It felt even more motivated.

"Teacher and the others will definitely be very happy to see a young genius like you. You became the strongest Beast Tamer on the Blue Planet at such a young age. After arriving at World King Planet, your improvement speed will definitely be faster," Zi Lan said. "According to what I know, there's still a significant gap between the cultivation systems on the Blue Planet and those of the human race in the starry sky of the universe."

"Therefore, you still have a lot of room for improvement. Your future is promising."

Shi Yu: ...

Was she implying that he was very lousy now?

"Is there anything different?" Shi Yu couldn't help but ask.

The Phoenix man beside Shi Yu looked at him and said, "Beast Tamers on the Blue Planet should only have one Beast Taming Ability, right? Lord Space Emperor and Lord Lin Feng seemed to be like this at the start."

Shi Yu and the others were stunned. Could it be...

"In the Cosmic Sea, humans can cultivate freely. Although their cultivation speed and final battle power are inferior to other races, they are the race with the best strength system."

"In the words of the Blue Planet, a Beast Tamer can rely on himself to cultivate two, three, four, five, or even 10 types of Beast Taming Talents. Apart from being born with Beast Taming Talents, they can also rely on themselves to cultivate additional talents the day after tomorrow to assist in contracting the target or strengthening themselves."

"For example, Captain Zi Lan, the strongest among the few of us, developed four Beast Taming Talents in depth. Among them, she has even cultivated spatial strengthening talent to the level of a 'quasi-divine skill'. On a low-level planet, she should be able to easily trigger the sound of laws and strengthen an ordinary totem-level spatial life form to possess the power of a demigod."

"If used with other Beast Taming Talents, its battle power will be even stronger."

The Phoenix Man even looked at the Star Dragon. This big guy had four quasi-divine skills.

Coupled with Zi Lan, it should be a crushing battle power for the life forms on this planet.

He felt that it was the limit for the demigods of this planet to have two quasi-divine skills. If there were more, they would be severely suppressed by the laws of the world and couldn't advance further.

Zi Lan smiled and said, "Teacher taught me well."

When the Phoenix man finished speaking, Shi Yu was stunned.

A Beast Tamer can have dozens of Beast Taming Talents? Isn't this purely cheating!

"Multiple Beast Taming Talents? Quasi-divine-level Beast Taming Talent? Then, isn't this considered invincible?" Shi Yu couldn't help but say.

The Ancient God Golden Bull and the other gods looked at Shi Yu. Holy shit, wasn't this talking about Shi Yu?

In their opinion, Shi Yu's telepathy, the World Tree Domain, and the Taiji Domain that could trigger the sound of laws were no different from multiple Beast Taming Talents.

This was also why they felt that Shi Yu was more monstrous than other Beast Tamers.

So such Beast Tamers were everywhere in the starry sky of the universe?

However, why was Shi Yu so shocked? This little girl could only let the spatial strengthening talent touch the sound of laws as a Level 9 Legendary Beast Tamer. Shi Yu himself had already done it at Level 6.

Could he look himself in the eye first?

Although they were shocked by the power of the cosmic Beast Tamer, these gods also felt that Shi Yu was even more ridiculous.

They began to wonder if he was a native human of the Blue Planet.

Zi Lan smiled. "It's alright. Time and energy are necessary to cultivate. Ordinary people can only cultivate three to four abilities to use together."

The World Tree was also silent at the side. The humans who had transformed into native life forms on the Blue Planet were indeed inferior to the initial batch of Human Seeds brought back by Goddess Wa.

That batch of Human Seeds had stronger talent potential and had become like this because, at that time, the Blue Planet couldn't nurture humans of this level and didn't have enough planetary resources.

"In short, at that time, as a newbie on the World King Planet, you will have many opportunities to become stronger. If you grasp it, advancing to the divine level will definitely not be a problem," Zi Lan said.

"Lord Blue Planet." Zi Lan looked at the World Tree and said, "That's all. Next, I wonder how you plan to arrange things."

The World Tree clone sighed in its heart and said, "You guys rest on the Blue Planet first. I'll condense a cosmic crystal first. In the Blue Planet's current state, it'll probably take a while to condense only one."

"I have to focus my attention on condensing a cosmic crystal. I can't entertain you anymore."

"It's alright." Zi Lan expressed that there was no problem. "Then we'll rest on the Blue Planet first. We can go to the ancestral lands of the various races to take a look first."

"Little Brother Shi Yu, please take us to Dong Huang."

"As for the two of them, they should be going to the west. Just let them go over themselves."

In the face of Zi Lan's words, the angel man and the female demon shrugged.

Because this mission was led by the Space Emperor, the Space Emperor's disciple was the captain.

[Unscientific Beast Taming](#)

Chapter 1245: The Look of the Starry Sky (5)

At the same time, the Space Emperor's disciple was indeed strong. They couldn't defeat the captain, so they still had to be obedient.

"Uh."

"No problem." However, at this moment, Shi Yu was also stunned. He asked the World Tree, "Then can I still return?"

Shi Yu remembered that the World Tree had previously provided food and accommodation for him to train in Inatella, right?

Now that the World Tree didn't even keep the extraterrestrial guests, Shi Yu felt that...

"I'm going to condense a cosmic crystal for you with all my might. Inatella might also close... I won't keep you," the World Tree said. "By the way, Shi Yu, you shouldn't have killed the Tyrant Dragon King and the Black Dragon Lord yet, right?"

Shi Yu's expression darkened. "Yeah, what's wrong?"

The World Tree said, "Leave them to me. Creating cosmic crystals can be done faster with the power of other demigods. I plan to let them and those three guys assist me in creating cosmic crystals. When they're created, they'll be distributed to Dong Huang first."

"Uh, is that alright?" Zi Lan was stunned. This mother planet was ruthless. It actually wanted to squeeze demigods to accelerate the creation of cosmic crystals. It wasn't easy for the current Blue Planet to

produce a demigod, right? However, it was for the best. They just had to obtain cosmic crystals as soon as possible.

"It's alright," the World Tree said regretfully. "Unfortunately, you killed the Abyss Demon Frog too quickly..."

Otherwise, they could also be pulled over to mine.

Shi Yu was stunned, and the corners of his mouth twitched. He had Little Zi, so he naturally knew the thoughts of the World Tree. To put it bluntly, it was free labor. "Alright, then my cosmic crystal depends on you."

"When the time comes, remember to give me more..."

"Yes." The World Tree nodded. If not Shi Yu, who else could it give the cosmic crystals to?

Shi Yu, who had a double contract slot, definitely had to be nurtured as the main force.

"In that case, I'll leave Inatella too," the Ancient God Golden Bull said.

"Me too. Condensing a cosmic crystal is more important," the Boar God said.

A few gods who were originally sleeping and recovering their restoration power on Inatella's side spoke one after another.

What a joke.

What if the Blue Planet didn't like them one day and pulled them to mine too?

They couldn't stay here for long.

Shi Yu was stunned. He said to the Ancient God Golden Bull and the others, "Then seniors, why don't you come to Dong Huang too?"

The few gods looked at each other and said, "As long as Dong Huang welcomes us, there's naturally no problem."

After hearing about the power of the Space Emperor and Lin Feng and realizing the extraordinariness of the human race, joining Dong Huang was undoubtedly the best choice.

In any case, they had nothing to worry about. Shi Yu was also a big shot in front of the World Tree. They had also given Shi Yu benefits, so how could Dong Huang treat them badly?

...

After Zi Lan and the others handed the four key stones to the World Tree, Inatella was closed.

Shi Yu and the others separated. Shi Yu brought Zi Lan, the Phoenix Man, and the Ancient God Golden Bull to Dong Huang.

As for the angel man, the female demon, and the others, they went to their ancestral lands.

Zi Lan and the Phoenix Man were both from the Dong Huang bloodline and were followers of the Space Emperor and Lin Feng. They had contracted descendants of the dragon and Phoenix Race. At the moment, they could find more members of the same race in Dong Huang.

At this moment, during the process of heading to Dong Huang, Shi Yu had many questions and wanted to understand more about the appearance of the starry sky.

"Sister Zi Lan, is that cosmic overlord very powerful? Previously, there was a Yun Race invader on the Blue Planet. My hometown seemed to have been destroyed by the cosmic overlord's army."

"How big is the difference in strength between a cosmic overlord and a cosmic emperor?"

Zi Lan said, "I don't know either. Their strengths are worlds apart, even compared to a super divine level. I'm afraid even Teacher and the others don't know how strong a cosmic-level life form is. However, what's certain is that killing a super divine being should be as easy as breathing for them. Destroying a planet should be just a matter of moving a finger."

"After all, even in the army of a cosmic overlord... there are also a bunch of super-divine-level subordinates. We can't afford to provoke them. Both parties are in two different worlds, not in the same dimension. After you enter the starry sky, don't offend them."

"Alright, don't think too much first. Our most important thing now is to wait for Lord Blue Planet to condense a cosmic crystal. At that time, you can personally see the appearance of the starry sky."

"You're a newbie of the World King Star and the strongest Beast Tamer on Blue Planet. At that time, you can get Lord Blue Planet to invest more resources in you. You can participate in the God Sealing Battle of the World King Star. If you can achieve pretty good results, you'll harvest great gains. It's hugely beneficial to the evolution of the Blue Planet."

The Phoenix man said, "It's a little difficult. His foundation is still a little inferior to those guys in the starry sky. Even the Space Emperor, Lord Lin Feng, and the others suffered a lot at the start."

Zi Lan said, "What's wrong? I think he's much stronger than you. He became a Legendary Beast Tamer at this age and is the strongest expert on the planet. Do you think you can achieve the same things on a low-level planet?"

The Phoenix man was speechless.

At this moment, the Ancient God Golden Bull and the other gods also looked at Shi Yu silently.

After a moment of silence, the Ancient God Golden Bull said, "Shi Yu, you were only a Level 6 Beast Tamer when you participated in the World Tournament. Why did you become a Legendary Beast Tamer so quickly? Did the World Tree give you some special treatment?"

The Ancient God Golden Bull was considering whether to fight Shi Yu. Although he loved to fight, it was too difficult to do so in the Blue Planet's current situation. If it were a one-sided retaliation, it might be manageable, but the Ancient Bull God wasn't foolish enough to risk being beaten up again.

He might as well give the resources to Shi Yu and forget about the battle...

"No, Lord World Tree only said that I'm the strongest Beast Tamer on the Blue Planet, but he didn't say that I'm a Legendary Beast Tamer. I'm only at Level 8 now. When I return, I have to cultivate as soon as possible. Otherwise, I won't be able to use the Teleportation Key Stone." Shi Yu hated it.

"Sister Zi Lan, do you have any relatively powerful meditation techniques that can accelerate leveling up?"

As soon as he finished speaking, Zi Lan and the Phoenix man paused and suddenly looked at Shi Yu.

Level 8?

Wasn't the current upper limit of Blue Planet Level 9?

Lord Lin Feng, the Space Emperor, and the others had all reached Level 9 on the Blue Planet.

Among them, Lord Lin Feng said that even Mechanical Legendaries stronger than him at that time couldn't become the strongest Beast Tamer on the Blue Planet.

And this guy was Level 8?

He had become the strongest Beast Tamer on the Blue Planet, certified by the World Tree?

What was going on?!

What about the other legendaries?

Were they all dead?

"Uh," Shi Yu said. "No?"

"Oh, I see. You just reached Level 8 and already became the strongest Beast Tamer by surpassing levels, huh? Impressive, just like back then." Several gods who had experienced the World Tournament and were well aware of Shi Yu's extraordinary strength nodded in agreement. It turned out he was stronger in terms of combat power, even if his level hadn't caught up yet. It was understandable and very much like Shi Yu, always full of surprises.

The Holy Divine Deer said, "Shi Yu could easily kill a totem-level being when he was a Level 6 Beast Tamer. Now that he's Level 8, it's barely acceptable for him to become the strongest Beast Tamer on Blue Planet."

The Demon King Dragon said, "He'll definitely be considered a monster if placed in the universe."

"No, no. It's all luck." Shi Yu didn't dare show off in front of this group of aliens, afraid of being beaten up. At the moment, he felt that he couldn't defeat them. He would wait until his strength developed for a period of time!!

Zi Lan and the Phoenix Man: ???

The two of them fell into deep thought and looked at the harmless Shi Yu. Why did they feel that there was something wrong with this guy?

[Unscientific Beast Taming](#)

Chapter 1246: The Alien's Mentality Collapsed (1)

The arrival of aliens received a lot of attention.

All parties were probing and maintaining vigilance against the impending "enemy" from the starry sky.

Dong Huang was no exception.

Just as they finished experiencing the Dragon Palace coup, an abnormality suddenly appeared in the starry sky. The higher-ups of Dong Huang, who knew some inside information about the universe, were worried.

President Lin and the gem cat originally wanted to deal with the related incidents of the Dragonman Empire, but they also stopped.

"The other party... has come to Dong Huang?" President Lin's expression changed.

"Yes... the other party's energy fluctuation has appeared on the East Sea."

"In the Demon Capital," the gem cat girl said with a sigh. She suddenly felt that becoming a demigod wasn't a good thing.

In the past, she only needed to eat, drink, and sleep at Ancient Capital University. But now, there was a pile of troublesome matters.

She was just a cat!

She was frustrated and furious.

"However, it doesn't seem to be an enemy... Shi Yu is also there?"

The gem cat subsequently sensed that Shi Yu, who had just left with the World Tree, was also with the group of cosmic guests.

There was even... a pile of familiar fluctuations.

For example, Shi Yu had been asking her to find Niu Niu.

Ah, could the clone finally get off work?

"Let's go take a look." President Lin fell into deep thought. Was it related to Shi Yu being called away by the World Tree?

The gem cat and President Lin immediately rushed to the East Sea.

Shi Yu and the others were teleported to the East Sea by the World Tree.

As everyone chatted, they talked about Shi Yu, the strongest Beast Tamer on the Blue Planet, who was only Level 8 at the moment.

This really made Zi Lan, the Phoenix Man, and the Starry Dragon Phoenix feel incredulous.

For a moment, they didn't know if they should say that Shi Yu was strong, or that the other legendary beings were too lousy.

"He became the strongest being at Level 8?" Zi Lan realized that she had underestimated Shi Yu previously.

"Qi Mu, why don't you spar with Shi Yu? I suddenly want to know his strength."

"Little Brother Shi Yu, what do you think?" Zi Lan looked at Shi Yu and asked.

"I'm suddenly very curious about your strength too. You can satisfy my little request, right?"

As for Shi Yu, the corners of his mouth twitched. "Let's not."

"Aren't you guys in a very poor state?"

In addition, Shi Yu had just fought five demigods.

Although it mainly consumed his power of faith, at this moment, his desire to fight wasn't very strong.

He was in Sage Mode.

After all, he had just activated the Green Dragon Domain for a while and was quite tired.

"It's alright."

When the Phoenix man heard the captain's command, his expression first turned bitter, but soon, he said naturally, "We can still take it if we spar appropriately."

He didn't want to either, but on second thought, this wasn't a bad job.

The plan for the joint effort between the Space Emperor and Lord Lin Feng's forces, along with the five god races of the Floating Planet, to guide the mother planet had caused quite a stir over there.

It could be said to have received attention from many parties.

The various factions were waiting for the news to be transmitted back.

And if he defeated the most talented and powerful Beast Tamer on the Blue Planet, wouldn't he become famous after the Floating Planet learned about it?

The level of this mission was very high. He had to achieve something!

"..." Shi Yu was silent.

This kid.

"Let's give it a try and fight." When the Ancient God Golden Bull saw this, he was stunned for a moment before suddenly provoking the aliens.

"It sounds pretty interesting." The seven sleeping gods revealed intrigued expressions.

Between an extraterrestrial Beast Tamer and the most monstrous Beast Tamer genius on the Blue Planet, who was stronger?

"With the seven of us demigods around, nothing will happen." They all joined in the provocation.

"Didn't you want special meditation techniques previously?" Zi Lan smiled and said, "We don't have special meditation techniques, but we have a bunch of cultivation skills in the starry sky of the universe."

"For example, skills to develop the third and fourth talents..."

"I even have the skill to develop the spatial strengthening talent."

"If you win, I'll pack it up for you."

The Ancient God Golden Bull and the others were stunned.

Damn.

Shi Yu, this kid, was already monstrous enough. If Shi Yu still had multiple Beast Taming Talents, they couldn't imagine how strong he would be when the time came.

"This..."

At this moment, Shi Yu felt that even if they didn't fight, Emperor Kong, Lin Feng, and the others would still give these skills to Dong Huang.

However, it wouldn't be bad if he could obtain it in advance.

"This... Alright then." Shi Yu smiled.

Forget it, so be it.

"Wu wu wu."

Eleven looked at the Star Phoenix with a serious expression.

The Star Phoenix seemed like a strong enemy.

"Hm?"

The Star Phoenix looked at Eleven calmly.

Everyone was very satisfied with the outcome.

"Meow~"

At this moment, two spatial ripples blinked.

The gem cat girl brought President Lin here.

At this moment, just as President Lin arrived, he saw the group of Inatella gods behind Shi Yu, and couldn't help but be stunned.

However, when he saw Zi Lan, the Phoenix Man, and the Starry Dragon Phoenix behind them, he was even more shocked.

"Yo, President Lin, Teacher Ying," Shi Yu said. "You're here."

Zi Lan and the others also looked at President Lin Xiao and the gem cat girl.

"Shi Yu, they are..." President Lin said.

"Let me introduce you. This is Zi Lan, the disciple of the Senior Space Emperor. This is Qi Mu, a follower of Senior Lin Feng."

"These two are descendants of the Blue Planet Dragon and Phoenix Races in the Mythical Era. They have a contractual relationship with Zi Lan and Qi Mu."

"This time, they were entrusted by Senior Space Emperor, Senior Lin Feng, and the others in the Cosmic Sea to bring the Teleportation Key Stones to help the Blue Planet connect to the starry sky. Next, they have to rest in Dong Huang for a period of time," Shi Yu said.

Unscientific Beast Taming

Chapter 1247: The Alien's Mentality Collapsed (2)

"What!" After Shi Yu introduced them, President Lin was shocked.

"This is President Lin, Senior Lin Feng's great-grandson. He's now the president of the Beast Tamer Association of Dong Huang. This is Teacher Ying, the strongest guardian of Dong Huang." Shi Yu also introduced him to Zi Lan and the others.

"You're Lord Lin Feng's great-grandson?" Upon hearing President Lin's identity, Zi Lan and the Phoenix man were both very surprised.

At this moment, President Lin and the gem cat girl were stunned. They had the same thought as Shi Yu.

The owl... The owl's premonition was right again???

No, it shouldn't be a prediction about the future. From the timeline, it looked like the owl had spied on the past and seen the Space Emperor and Lin Feng handing the key stones to these people.

What's wrong with the owl?

Is he on steroids? He's so impressive.

"And these gods also plan to come to Dong Huang to stay for a few days," Shi Yu said.

"I'm Lin Xiao. Welcome, everyone." At this moment, President Lin was shocked. Although Divine Source Legendary was sleeping, he had already decided to wake the old man up later.

This world was about to change.

Sensing the powerful auras on the Starry Dragon Phoenix, Zi Lan, and Qi Mu, he felt that these two young people were stronger than any Legendary Beast Tamer he had ever seen.

Great-grandfather... What level of expert had his great-grandfather become in the universe?

And Inatella's gods were also here... President Lin took a deep breath and was extremely excited. He felt that Dong Huang's rise was already unstoppable!

"This place isn't suitable to receive everyone. Let's go to Dong Huang first," President Lin said.

"There's no hurry. Qi Mu and Little Brother Shi Yu still have to spar." Zi Lan smiled and said, "Let's do it here. There's basically no one around."

President Lin and the gem cat: ???

They looked at Shi Yu.

President Lin opened his mouth slightly and felt a headache. His heart almost stopped.

Shi Yu, Shi Yu, aren't they guests? Why do you want to fight them the moment they arrived?

Furthermore, didn't you just fight five demigods? Can your body take it!

"Come on, come on." The earth-element Lie Shanjun, the big tiger, looked down, and its eyes lit up.

With a boom, a huge island was pulled out of the sea.

"I'll build a venue for you."

Shi Yu looked at it and said, "Thank you."

Lie Shanjun: "You're welcome."

In midair, Zi Lan said, "Qi Mu is at Level 9. Little Brother Shi Yu, you're at Level 8. This spar is a little unfair to you, so I'll reveal some information about him to you."

Shi Yu looked at the Phoenix man.

Qi Mu: "Go ahead."

Zi Lan smiled and said, "He mainly cultivates four abilities. One is fire-element strengthening, the other is light-element strengthening, the other is fusion, and the other is star flame. It's a relatively normal ability configuration among contractors in the Cosmic Sea."

"He has also cultivated other skills such as telepathy and spiritual power, but he doesn't major in them, and doesn't use them well. Only those four were developed to his current level."

He had four Beast Taming Talents?

No, it was more than four!

President Lin and the gem cat, who still didn't know that cosmic Beast Tamers could have multiple Beast Taming Talents, were stunned.

Wait, this worked?

"His partner, Feng Jiu, is at the demigod level. She has mastered three quasi-divine skills, one fire-element attack-type quasi-divine skill, one light-element attack-type quasi-divine skill, and one defensive-type quasi-divine skill to strengthen the Phoenix bloodline and body."

"When they partner up, they're very strong. Even Lord Lin Feng acknowledges them very much."

Zi Lan introduced with a smile, wanting to see Shi Yu's shocked expression.

Shi Yu was indeed very shocked. Three quasi-divine skills...

They weren't easy opponents.

President Lin and the gem cat started to have toothaches.

Damn, just now, they were still worried if it would be bad for Shi Yu to bully the person sent by the Space Emperor and the others.

But now, when President Lin heard the other party's ability configuration, he felt that it was ridiculous.

This ability configuration was completely overpowering experts on the Blue Planet indiscriminately.

"Don't worry, we'll show mercy," the Star Phoenix said.

"Don't be nervous. Relax. Just treat it as a normal spar," the Phoenix man said.

Shi Yu was stunned. "There's no need."

"We're not weak either."

President Lin and the others pursed their lips. Indeed.

Although Shi Yu didn't have a pet that had mastered three quasi-divine skills, he had four demigod-level pets that had mastered one quasi-divine skill each.

Previously, the way the Green Dragon effortlessly dealt with five demigods seemed anything but merciful or lenient.

"Alright." The Phoenix man smiled.

"I remember that the contract system on the Blue Planet is used to a Beast Tamer contracting multiple pets, right?" Zi Lan asked.

"Yes, this is the Beast Taming System of the Human Nation." Shi Yu nodded.

"That's what Teacher and Lord Lin Feng said too. But in the Cosmic Sea, for various reasons, more humans only contract one beast and then concentrate on resources and energy to nurture it."

"In this way, the strength of both parties can actually increase faster," Zi Lan said.

"I learned from Teacher that the Legendary Beast Tamers on the Blue Planet basically haven't cultivated demigod-level pets, but in the Cosmic Sea, although humans only contract one beast at the legendary level, the contracted Beast Tamer basically has demigod battle power... There are very few who haven't reached the demigod level."

"One pursues numbers, while the other pursues elite cultivation. They're considered two different directions."

"Therefore, if Little Brother Shi Yu has also contracted many pets, you can send them all out next to fight Qi Mu, Feng Jiu, and the others. Only then will it be fair."

"They're a pair, but you don't have to fight 1v1."

"Then I won't hold back." Shi Yu smiled.

Unscientific Beast Taming

Chapter 1248: The Alien's Mentality Collapsed (3)

Shi Yu could also understand this. After all, Feng Jiu should be a natural Mythical Race with multiple quasi-divine skills. Just nurturing such a top-notch contracted beast would consume countless resources.

The few Beast Taming Talents of the Phoenix Man should also be tailored for cultivating in tandem with the Star Phoenix.

In short, at this moment, when he heard that the opponent only had one contracted beast and that the other party didn't mind him sending out all his contracted pets, Shi Yu was slightly more confident in this battle.

Sigh, he didn't have a pet with three quasi-divine skills. The quality wasn't enough. Fortunately, he could make up for it with numbers.

Shi Yu didn't believe that Eleven and the others couldn't defeat the other party when they attacked together.

They weren't to be trifled with either.

If Shi Yu remembered correctly, divine-level talents seemed to be very rare in the universe, but he had mastered them at Level 6. This was his advantage.

Between him and the cosmic Beast Tamer, it was still uncertain who was stronger.

"Then let's begin."

The Phoenix Man landed on the ground. For the time being, he had no intention of fusing with the Star Phoenix and entering the strongest mode.

He planned to let the Star Phoenix fight Shi Yu and the others one-on-one first.

"Send out your contracted beasts." The Star Phoenix flew in front of the Phoenix man and looked at Shi Yu, who had landed opposite it.

Shi Yu was silent... Then he... would really send out all his pets!

Don't blame him for bullying them!

Under the gazes of Zi Lan, President Lin, the gem cat girl, and many gods...

Shi Yu's short black hair swayed slightly with the wind, and his expression became serious. At the same time, five huge red summoning star arrays appeared around his body!

"Come out, everyone."

One, two, three, four, five... six...!

This number made Zi Lan, Phoenix Man, and the others nod.

It looked like Shi Yu wasn't that greedy to nurture eight pets.

How could he nurture all eight of them?

The resources needed to break through to the divine level were almost a sea of resources. One was enough.

Nurturing two was basically equivalent to saying goodbye to a super level pet in the universe.

Next, it depended on the cultivation level of Shi Yu's pets.

A white Rubik's Cube appeared in the first array.

Because it wanted to fight, Ling left its energy-efficient form and directly revealed the powerful fluctuations of the Mythical Race at the overlord level.

"Mechanic." The Phoenix man didn't care. He sensed that Ling wasn't very strong.

Therefore, this was the disadvantage of contracting multiple pets. It couldn't be helped that not all of them would be very powerful.

However, as the strongest Beast Tamer on Blue Planet, he didn't believe that Shi Yu didn't have more tricks up his sleeve.

As expected, as Ling was the first to come out of the summoning array beside Shi Yu, it directly armed Shi Yu's body and turned into a tactical eyepiece!

Shi Yu pressed the tactical eyepiece slightly and moved it in front of him.

Boom!!!

His aura began to climb steadily. Nine-colored light spread in his eyes, and his perception of the outside world reached an extreme state.

"Ling, activate support battle mode."

"This is..."

After Ling loaded itself onto Shi Yu, in addition to Shi Yu's terrifying body that had been trained to the extreme, Zi Lan, the Phoenix Man, and the Inatella Gods were surprised to discover that Shi Yu's aura was actually comparable to that of a demigod.

Although it was a weaker demigod, the Phoenix man was still very surprised to see this. After all, Shi Yu was only Level 8.

"What a strong physique. The fusion compatibility between the two parties is quite high."

"That's the nine-colored divine light," the Holy Divine Deer said.

With the enhancement of the skill and the fusion of the Beast Tamer, have both parties actually temporarily reached demigod battle power?

Zi Lan and the Phoenix Man both acknowledged Shi Yu.

In fact, Shi Yu only wanted Ling to be a support at this moment.

After all, his current state wasn't very good. He needed the gentle, nine-colored divine light to strengthen him!

Then, to Zi Lan and the Phoenix man's surprise, with a hum, an invisible wind of luck wrapped around Shi Yu.

Seeing this, Zi Lan was shocked. "Isn't this... the race divine skill of the Wind Kirin that has already been exterminated in the Kirin Race, the Wind of Blessing?"

The inheritance of the Wind Kirin still exists on the Blue Planet???

The Phoenix Man was also astonished. Showcasing the prototype of a divine skill coupled with the energy fluctuations of the demigod level, without a doubt, the Shi Yu before them could be considered to possess the power of a demigod.

In addition, he had other pets...

No wonder he was the strongest Beast Tamer on the Blue Planet.

"Roar!!!" After Ling's appearance, the sky darkened. The Green Dragon, Buggy, flew out of the sky array. Under the flickering of the starlight, the shocking dragon roar made the pupils of the Star Dragon beside it shrink and look over.

The Star Phoenix was also suddenly shocked by Buggy's aura eruption. Under the multiple enhancements of quasi-divine skills, faith skills, and cosmic life physiques, Buggy's individual foundation was barely passable.

The pressure it gave Phoenix Man and the others was undoubtedly that of a demigod.

"Another demigod-level battle power..." At this moment, the Phoenix man was stunned.

So that was the case. He was a demigod and had a demigod dragon. No wonder he could become the strongest Beast Tamer.

As for the two demigods, he suddenly felt that this battle could be slightly more interesting.

However, in the next moment, the expressions of the Phoenix Man and the Star Phoenix changed.

"Jiu!!!!!"

The summoning array appeared in the sky once again. Under the spreading of the Sun Flame, the terrifying temperature inside rose, as if it could burn everything. A Sun Vermillion Bird flew out and released the powerful power of fire. Its energy fluctuations were close to those of a demigod, but it was only a clone.

On its body stood a beautiful girl with a cold expression. She held a red sword and looked down at the Star Phoenix and the Phoenix Man from a high place. A demigod-level sword intent erupted.

[Unscientific Beast Taming](#)

Chapter 1249: The Alien's Mentality Collapsed (4)

The auras of both parties overlapped. The shocking sword intent that was enough to crush ordinary demigods made its aura not inferior to the Green Dragon at all.

The Phoenix Man and the Star Phoenix were speechless.

This guy named Shi Yu was Level 8 and contracted two demigods? Moreover, he could reach demigod-level battle power himself?

What a freak!

Although the Star Phoenix felt that the aura of one of the lives summoned by Shi Yu was inferior to it, they had to take them seriously when three appeared at once.

The Star Phoenix felt that... it would take a little effort.

But this... wasn't the end at all.

In the interweaving of red and blue, Susu transformed into the form of a Blue Sea Sprite, rejuvenated by the convergence of water elements, and descended upon this place. On the Blue Planet, it possessed boundless energy, allowing it to erupt without restraint. Empowered by the Time Fruit, it wielded a demigod level of strength, manifesting as vast energy fluctuations akin to the ocean, directly emanating from Susu's being.

Another demigod!

At this moment, the Phoenix man suddenly felt a little numb. Four demigod-level battle power...

How was that possible?

Boom!!!

Four was far from the limit. In the array on the ground, the World Ginseng rose from the ground in the form of a divine tree and activated a quasi-divine skill. It communicated with the power of the world and activated the Time Fruit on the tree to enter a life-burning state.

"Pop..." The sound of laws resounded, and the tree fruit swayed. The demigod power that wasn't inferior to Susu, Shi Yu, and the others also erupted with a bang, making the towering emperor standing on the tree very smug.

"Yi! (I'm the towering emperor. Alien, come!)"

The fifth demigod battle power!

"Roar!!!"

At this moment, Eleven, who was in a restrained, energy-efficient state, also leaped down from Shi Yu's shoulder. As it walked onto the battlefield, it gradually enlarged and turned into a hundred-meter-tall behemoth. Black and white lightning intertwined on its body, and it entered the Chaos form. The final demigod also ascended the battlefield.

Panda King, go!

Zi Lan, Phoenix Man, and the others were stunned!

Six demigods!

In order to welcome the strong enemy, Shi Yu decisively let the six main forces appear and let them enter their strongest state.

Those without totem levels could also rely on various methods to temporarily reach demigod battle power, and they weren't weak demigods.

"That's it. The other pets have slightly weaker battle power, so I won't send them."

As Shi Yu finished speaking, on the other side, after seeing Shi Yu, a Level 8 Beast Tamer, send out six demigod battle powers, the Phoenix Man and the Star Phoenix were already stunned.

"This is impossible," they couldn't help but say.

The Ancient God Golden Bull also widened his bull eyes with a stunned expression. When the gods and spirits saw Shi Yu's posture, they were all moved.

Holy shit, this was too much.

Was this really Shi Yu, a low-level Beast Tamer, challenging a higher-level Beast Tamer??

Why did they feel that something was wrong?

In short, the Phoenix Man and the Star Phoenix were stunned. Although they recalled that as the strongest Beast Tamer on Blue Planet, Shi Yu would be stronger than ordinary legendary Beast Tamers, his strength should be limited.

After all, according to their understanding, the legendaries of the Blue Planet didn't even have the ability to nurture demigod-level battle power.

As the strongest Beast Tamer, it was enough for Shi Yu to have two demigod battle powers.

However, who would have thought that Shi Yu would take out six demigod battle powers at once?

Was he playing with them?

"This, this, this, this." This was the first time Zi Lan, the disciple of the Space Emperor, had seen such a ridiculous Level 8 Beast Tamer. Even on the floating planet, she had never seen a Level 8 Beast Tamer with the battle power of multiple demigods.

At Level 9, she might be able to find them, such as the Space Emperor and Lin Feng at that time, but at Level 8, she had never seen them before.

"Ha... Ha, let's just say that this kid is very abnormal. Although you guys come from a big place, the Blue Planet also has monsters not inferior to starry sky geniuses," the Ancient God Golden Bull, who was a rough person, said dryly.

It was mainly because the stronger Shi Yu was, the less unjust his loss to him was!

"Qi Mu..."

At this moment, Zi Lan was unable to predict the battle's outcome.

Although the Phoenix Man had a huge individual battle power advantage, the other party had too many people of the same level. Six demigods could indeed pose a threat to him.

However... he shouldn't lose, right?

"Well, we're going to attack," Shi Yu shouted.

At this moment, the Phoenix man could be said to be extremely serious. He no longer had his previous arrogance.

However, apart from being serious, he was also encouraging himself. Although Shi Yu had displayed the battle power of six demigods, the Phoenix man could also tell that a few of them had demigod battle power temporarily obtained with skills.

With his and Feng Jiu's combined strength, they should be invincible on the Blue Planet. Then it shouldn't be difficult to defeat those six demigods one by one. It wasn't a big problem.

In short, he couldn't lose a battle against a Level 8 Beast Tamer on a low-level planet, right?

If he did, how could he face his companions or return to the Floating Planet...

"Come on," the Phoenix man shouted, his warpath raised. As expected of Lord Lin Feng's home planet. So there was such a genius, but he wouldn't admit defeat!

"Taiji Domain, open!" On the other side, as the battle began, Shi Yu directly activated the mind domain he had developed.

"Eleven, Yin Yang Millstone."

It used its strongest unique skill to test the strength of the enemy.

As Shi Yu's Psychic Eye spun, a strong domain bloomed from his body. With him as the center, it quickly formed a domain that enveloped the world.

In an instant, an incomparably huge spinning Taiji Painting appeared in the sky and ground.

The Phoenix man and the Star Phoenix were stunned. Their expressions changed as they instantly felt their bloodlines being suppressed.

[Unscientific Beast Taming](#)

Chapter 1250: The Alien's Mentality Collapsed (5)

The entire world became black and white.

On the horizon, there was even a star that was identical to the patterns in Shi Yu's eyes. In this domain, it replaced the sun and moon.

That was the manifestation of Shi Yu's Eye of the Heart. It hung on the horizon of the domain and watched everything!

Under its gaze, the pattern in the Taiji Painting spinning in the sky and ground seemed to have turned into two Yin Yang fish that slowly appeared and wrapped around Eleven.

At the same time, the planet trembled, and an incomparably deep sound of laws appeared on Eleven's body. Its hands swayed as the Yin Yang Fish swam. The laws fused, and a huge pressure appeared on the entire island.

"It's this move!" The Ancient God Golden Bull was afraid.

The consecutive changes could be said to have shocked Zi Lan and the Phoenix man.

"Roar!!!" The main attacker, Eleven, had the Yin Yang Fish swim into its hand. On its palm, a circular metal formed, showing black and white colors, one yin and one yang, one light and one dark. It was filled with two-colored lightning that fused, converted, and collided. It was extremely mysterious.

All around, everything turned into a chaotic void, the balance shattered and was erased by its influence.

The two voices of law fused and directly completed the combination of a quasi-divine skill!!

No, this wasn't a simple combination of Eleven and Shi Yu. There was also Ling's help. After all, Ling's Armor greatly increased the strength of Shi Yu.

At this moment, as Shi Yu used a baffling ability, the Phoenix man was stunned.

What the f*ck is this? The Phoenix man was extremely shocked. Beast Taming Talent? Did the Beast Taming Talent that Shi Yu used just now trigger the sound of laws?

Wait a minute, isn't Shi Yu's Beast Taming Talent a talent in mental strength? Just now, when they saw Shi Yu use psychic power to fly and even know telepathy, they originally thought that it was a talent in this aspect.

In addition, the Beast Tamers on the Blue Planet basically only had one Beast Taming Talent, so they didn't think about it much at all. But at this moment, what was this thing Shi Yu used?

A divine-level talent that triggered the sound of laws? Among the younger generation below the Floating Planet's divine level, only Zi Lan, the personal disciple of the Space Emperor, had mastered a divine-level spatial talent.

Moreover, she had mastered it at Level 9.

But how did Shi Yu master a divine-level ability at Level 8?

Moreover, due to the law's fluctuations, they even felt suppression. This was undoubtedly a top-notch law skill. Be it what pets or Beast Tamers used, they were all top-notch law skills that complemented each other!!

Destructive power, breaking the laws!

"Impossible!!" The Phoenix man couldn't believe this fact. He couldn't believe that Shi Yu had actually mastered such a strong skill. Moreover, that black and white bear was actually a pet with top-notch divine aptitude.

However, the attack was completed.

Sensing the huge pressure, although he was shocked, he had to accept it.

"Holy sh*t, do you have to be so... Feng Jiu!" The Phoenix man himself shouted. His body directly turned into a beam of light and fused into the Star Phoenix.

At this moment, the Star Phoenix was also stunned. What the hell?

Although it had three quasi-divine skills, it didn't have top-notch quasi-divine skills.

It was fine if there were six demigods of the same level, but why was there such a monster among them?

"Jiu..."

In the next second, the starlight flickered. A birdman with a human body but four limbs and wings with the characteristics of the Star Phoenix circled in the sky under the starlight.

Explosive fluctuations that shook the stars came from their bodies, but the Phoenix man didn't become as calm as before at all. He was still extremely nervous.

"Fire-element strengthening, activate, light-element strengthening, activate!"

"Bloodline strengthening, activate!"

Buzz!!

A terrifying energy eruption that was indeed stronger than Eleven and the others alone shook the entire Blue Planet.

However, facing the huge that leaped over with a huge millstone in hand, they were still extremely nervous.

"Profundity, Feather Fall Star." The Phoenix man gritted his teeth. His body spun 360 degrees in the air, and his wings flew. Blue and red starlight bloomed, and like the speed of light, it also triggered the sound of multiple laws.

Light, fire, and bloodline divine techniques astonishingly formed the essence of the three law quasi-divine skills. Beneath the swirling wings, they now resembled falling stars, carving a tricolored light trace across the void—incredibly dazzling and magnificent. They collided with the eleven strikes from the Yin Yang Millstone wielded in hand.

Boom!!!

The collision of mountains and seas and shocking stars immediately caused space to shatter, shattering the Taiji Domain as if it was pulling both parties into another world.

"What exactly is this?" Zi Lan looked at the shattered Taiji Domain fragment and found it unbelievable.

President Lin said, "Shi Yu's Beast Taming Talent developed a second time through telepathy, Psychic Domain..."

Zi Lan was shocked. "You mean he developed other talents on the basis of only one telepathy talent??"

How was this possible?

Even the geniuses in the universe developed other talents through the cultivation methods passed down. Where did Shi Yu get the cultivation methods on this planet?

Zi Lan was stunned. Moreover, it was a Level 8 talent that had cultivated to the divine level... Could it be that they're telling them that Shi Yu was really a peerless genius? His talent even far exceeded that of the Space Emperor and Lin Feng?

"Roar!!!"

"Damn it."

In the incomparably violent collision, this was the first time Shi Yu and the others suffered in such an all-out state. Eleven's painful roar came from the shattered spatial tide. Although the Yin Yang Millstone created by the ultimate combination of it, Shi Yu, and Ling sent the Phoenix Man flying, Eleven's own Yin Yang Millstone was also shattered by the other party.
