

## Beast 171

### Chapter 171: The Evolution Method of Baby Ginseng

“Then has Senior Lu been to the Heroic Ruins?”

Shi Yu asked again.

White Brook said, “I remember that she should have been there, but she wasn’t interested in contracting an undead. She only went to investigate the ruins, but unfortunately, she couldn’t find out what she wanted to know in the end.”

“Investigation?”

“Does she want to know the reason for the destruction of the Dong Huang Dynasty established by Emperor Shi?” Shi Yu recalled the question Senior Lu asked the little female dragon.

“It seems to be that!” White Brook nodded.

It was indeed that.

Why would the Dong Huang Dynasty suddenly encounter a huge calamity and be on the verge of destruction in an extremely short period of time? Then, the totem creatures that were expelled from the country made a comeback and divided the resources of the Dong Huang Continent again. These had always been the ten unsolved mysteries of the Dong Huang archeological world.

In theory, although Emperor Shi was old at that time, he still presided over the Dong Huang Ancient Country. His battle power was peerless, and there were countless successors. There was no reason for the Dong Huang Ancient Country to be destroyed so quickly, causing the Dong Huang Land to fall into war again coveted by the totems.

If it weren’t for the appearance of a person with talent not inferior to Emperor Shi, Dong Huang might have returned to the totem era and driven history backward.

What exactly happened at that time had always been one of the questions modern archeologists wanted to figure out. It was understandable that Senior Lu couldn’t forget it. Not to mention her, even a transmigrator like Shi Yu wanted to find out.

...

A moment later, Shi Yu left the recruitment venue.

After returning, he first started to read the information.

“The ten unsolved mysteries of the Dong Huang archeology world...”

Of the ten unsolved mysteries, five were related to the ancient Dong Huang Dynasty.

In the history of Dong Huang, a total of five peak dynasties had appeared.

Their common achievement was to end the totem war.

When a dynasty walked to its lowest point, it would definitely be coveted by the totem creatures again. At this moment, war often happened.

A true era of peace did not exist in the Dong Huang Ancient Country. Humans had never eliminated the threat posed by the totem creatures.

Of course, the other countries were even worse. Even now, some of the seven countries were in a state of war.

In comparison, the Dong Huang Ancient Country was considered lucky. In every era, an outstanding legendary Beast Tamer appeared.

After Emperor Shi was Emperor Wu, and after Emperor Wu was the empress. Legends of Beast Tamers with extreme talent ended the war time and time again until the modern era.

Among them, Emperor Shi was the beginning of the Beast Taming Era in the east.

The direction of the dynasty he established had an extremely important status in history.

“Since it’s ranked among the ten unsolved mysteries, it must be a mystery that many archeologists can’t solve.” Shi Yu was worried. Unlike the Ice Dragon Ruins that Bureau 11’s big boss didn’t fancy, this mystery should have been explored by many big bosses of Bureau 11.

However, they still got nothing. It wasn’t easy.

It was better not to think too much. He decided to first go to the Heroic Ruins to see if he could encounter interesting heroes. It was better not to think about the school period for the time being. Right now, accumulation was the priority!

After suppressing his curiosity, Shi Yu turned around and planned to add points and meditate.

The operation began according to the time allocation ratio of 4: 3.

Shi Yu meditated first.

The sweet aura that calmed the mind, the ruins meditation technique, and the super physique made Shi Yu use every minute and second efficiently.

Then, he added points.

After meditation, he added points, saving himself the trouble of wasting his meditation efficiency.

Shi Yu summoned the sleeping Buggy and didn’t wake it up. He just started adding points like this.

One of Buggy’s racial skills, Psychic. Under Shi Yu’s teaching, its proficiency quickly increased.

Moreover, Shi Yu would occasionally light up Buggy’s absolute sleep skill.

“Ji...” In the dream, Buggy slept very comfortably and was unwilling to wake up.

Under the baptism of the power of evolution, it had already evolved countless times in its dreams.

Among them, there were dreams and nightmares.

Sweet dreams where it evolved into beautiful butterflies, while nightmares evolved into ugly mosquitoes and beetles...

Shi Yu didn't mind what it evolved into. Its appearance was all superficial. With Buggy's potential, it would be extremely powerful no matter what it evolved into.

It now had an additional evolution form. Its racial potential had already exceeded its own race by too much. Shi Yu no longer had any extravagant hopes. Well, of course, it was best not to evolve into strange things.

Shi Yu devoted most of his energy to Buggy, but he didn't ignore Eleven and Baby Ginseng.

In the ruins space, Shi Yu built a huge house for each pet.

Eleven's house was filled with various metal minerals from level one to level six. There were hundreds of types.

These were all its snacks. Apart from being snacks, Shi Yu and Eleven were also studying whether the inscription was related to the hardening nature of different metal minerals.

Because he had relied on the gem cat, Shi Yu's resources immediately became much richer, directly improving the lives of his pets.

If Eleven's was a house of metal minerals, then Baby Ginseng's was a house of spiritual plants with various unique smells.

Although its max-level sweet aura could change the smell, if it wanted to match perfectly, it still had to let the ginseng baby come into contact with it in practice. After all, although it had hundreds of millions of smells in its inventory, it didn't know their specific effects and how to arrange them at the moment.

For example, the sweet scent that could make the opponent fall into a confused state was a scent that needed to be developed.

In the huge room, the research ginseng was wearing a mini white coat. It held spiritual plants and smelled them, frowning.

"Yi..."

Shi Yu meditated and added points in one go. His state was a little light-headed.

Because school had yet to start, there was naturally no need to study.

Unfortunately, Shi Yu still had a pile of other things to study.

At the moment, the evolution path of the ginseng baby was one of the most important research topics Shi Yu needed to study.

He wanted to find some evolutionary skills to teach the ginseng baby and help it find the path of evolution!

"Eye of the Gem and Carp Leaping Dragon Gate are both evolution-type skills."

"However, none of them match wood-element ginseng babies."

Shi Yu lay on the bed and flipped through the cell phone index.

Group message: "Mentor Ding: Students, we'll set off for military training in three days!"

Flip.

Shi Yu directly skipped over a bunch of evolution skills and useless information and eliminated the search target to the wood-element range.

He planned to find it from the wood element first. If he couldn't find it from the wood element, he would expand it to other elements.

Shi Yu immediately discovered the racial skill of the "forest spirit".

This pet happened to be one of the plant pets recommended by Senior Lu back then.

Moreover, Forest Spirit was also one of the few pets that could evolve naturally with their racial skills after reaching the requirements. There was no strict evolution ingredient rule similar to the Green Silkworm.

The wood spirit was a plant spirit born from the evolution of an entire forest. It could possess ordinary plants and accelerate the growth of one plant, helping it evolve into a spiritual plant and giving it battle abilities.

As it grew, it could control the entire forest. When the types, quality, and number of plants it possessed reached a certain limit, there was a chance of it evolving into the monarch species pet, the monarch of the forest.

Its racial skill was the "Possession Growth" of the wood and undead elements...

"In other words, if Baby Ginseng can learn this move, and at that time, find a high-level spiritual plant and graft it onto it... Can it fuse and evolve?" Shi Yu was speechless. It was too difficult to execute and imagine.

It felt a little unreliable.

He searched for other evolution skills.

Then, he found the wood-element "lush" skill.

There were a total of two pets with rich mastery, but they were not plant-type pets, but animals.

They were all high-level transcendent races.

One was a sprouting deer with tender branches on its head, and the other was a tree species turtle with seed grass growing on its back.

Both creatures were grass-eating wood-element creatures. One's favorite food was plant-type branches, and the other's favorite food was seed-type.

And their lush skill could subtly accumulate evolutionary heritage according to the nutritional content they ate.

When their racial skills reached a certain level of proficiency and they had also accumulated enough evolutionary heritage, they would complete their evolution by using “specific evolution materials” and using lush growth to activate their evolutionary heritage.

The Sprout Deer would evolve into a True Branch Horned Deer of a high class commander species.

Tree species turtles would evolve into tree world turtles of middle-level monarch races.

Although the evolution skills used by the two different pets were the same, the evolution materials were different, and the racial potential after that was different...

“Lush. I feel that Baby Ginseng can give it a try. After all, it has characteristics similar to that of a deer and little turtle... Isn’t there also a ginseng flower on its head? Moreover, it’s a plant itself... But it doesn’t seem to have the habit of eating plants.”

Shi Yu continued looking and discovered another wood-element racial skill, “Mutated Body”.

This skill was different again. Until now, only one plant pet, “Mutated Tree”, had mastered it.

This plant was very ancient. It was because of this racial skill that it had survived countless years ago.

The plant genes that had the skills of mutants were very unstable. It was very easy to evolve into a form that adapted to the current environment because of the differences in the surrounding environment.

Even if they were infected by light pollution, water pollution, soil pollution, and atmospheric pollution, they wouldn’t be easily extinct. Instead, they would mutate into breeds that were suitable for the current environment.

However, it wasn’t accurate to say that the mutation was evolution.

This was because after the mutation type creatures evolved, their race level might not change, or they might increase, but they might also decrease. They were mutated purely to adapt to the living environment, and the instability was extremely high. In addition, because the mutation skill might not have any concept of proficiency, or it was extremely difficult to increase, the mutant tree basically didn’t exceed the monarch race.

But generally speaking, in the face of harsh environments, the strange trees mutated and evolved towards higher races. This way, they could better resist the harsh environment of the outside world.

“Uh...”

“Mutants...”

“This skill is easier to understand. After all, Baby Ginseng mutated. It means that after Baby Ginseng masters the mutation, I only need to throw it into magma, glaciers, and radiation areas. As long as it doesn’t die, it can mutate and evolve on its own...”

“Lava Ginseng Baby, Glacier Ginseng Baby, Radiation Mutated Ginseng Baby...”

[Ginseng Baby:???

## Chapter 172: Arriving at the Heroic Ruins

Shi Yu meditated, added points, and conceptualized the evolution of the ginseng baby.

In the blink of an eye, three days later.

More than 600 new students from the Combat Department and the archeology Department of Ancient Capital University were about to head to the vicinity of the Heroic Ruins for military training.

During this period, Shi Yu thought for a long time and still felt that the skill “mutation” was more suitable for baby ginseng.

Because their baby ginseng was a mutated race.

It was absolutely impossible for an ordinary ginseng baby to be fine eating a level-eight Fruit of Life at the Awakening level.

But his baby ginseng had done it and even underwent a mutation evolution. Perhaps this meant that his baby ginseng’s adaptability was very strong!

Now, in addition to the source of life that almost made it immortal, it might really be able to complete mutation evolution through some extreme environments.

Shi Yu had also thought of the so-called extreme environment.

He planned to create and simulate it himself.

There were mainly three aspects: soil, light source, and water.

He planned to find some super high-level mutant soil, mutant water, and special light to combine the mutant skills and assist the mutation of the baby ginseng.

Among them, Shi Yu’s idea for these mutants was that it was best if they could cause huge pressure on the growth of plants, but also provide a positive boost.

In short, Shi Yu planned to reference the method of the first mutation evolution of the ginseng baby before letting it undergo a mutation evolution.

Of course, it wasn’t impossible to add more external conditions during this process. For example, giving Baby Ginseng another high-level spiritual fruit.

With the help of more comprehensive and higher-level overload resources, the ginseng baby would mutate towards a stronger race!

Before that, Shi Yu would also try his best to increase the skill point of the “mutant” skill.

Through this skill, perhaps as the special environment Shi Yu and the ginseng baby came into contact with became more and more harsh, it could directly solve all the evolution problems of the ginseng baby. It could allow it to mutate and evolve all the way to a Mythical race!

Plant Baby Ginseng on the moon and mutate into Baby Moon Ginseng.

Falling onto Jupiter, Baby Jupiter...

Throw it into the sun, Undead Ginseng Baby...

1

As for the “lush” skill, Shi Yu felt that the chances of evolution were not high, but if there was a chance, it was not impossible to replicate it.

Lush was actually a classic gardener skill. It was a low-level wood-element skill that could allow plants to flourish and increase the power of the wood-element skill. Some specific pets could indeed evolve through this skill and suitable evolution materials, but Shi Yu was not confident about Baby Ginseng.

Baby Ginseng was already a monarch race. It was a little unrealistic to rely on a low-level non-racial skill to complete its evolution. At that time, it would probably still need the so-called specific materials. It was really difficult to experiment, so it was better to mutate and evolve.

Compared to entrusting his hopes to lush, Shi Yu might as well look forward to a super skill, plant control.

This skill included the ability of most wood-element skills. Not only could it control the growth of plants, but it could also increase the quality of plants. Perhaps, when Shi Yu gave this skill to Baby Ginseng and upgraded it to “transcendent”, it could use this skill to help increase its quality and complete evolution again. It looked like it was much higher than the upper limit of the lush skill.

And the problem now was... the Mutant Tree was not easy to find.

Shi Yu had already paid attention to the relevant information. He hoped that he could replicate the mutation skill before he finished using up most of the baby ginseng’s racial skill points.

At this moment, Shi Yu had already started to get on the school bus to the Heroic Ruins.

...

“Are you all used to staying in school these few days?”

Stopping in the armored school bus in the school, Shi Yu’s students were already in position.

Mentor Ding stood in the front row and smiled at the students.

School didn’t start early before the end of the military training because it was to give the new students time to walk around the school, understand the school, and adapt to the school.

“I’m used to it!”

“Ancient Capital University’s number one!”

“The training facilities are too awesome, but they’re a little expensive.”

In the car, the students were very active.

A few socially awesome students shouted at the top of their lungs.

After all, Ancient Capital University was a top-notch institute that had cultivated countless master-level Beast Tamers and even legendary Beast Tamers. The internal training facilities could naturally satisfy the requirements of these new professional Beast Tamers.

“Well, not bad.” Mentor Ding smiled and said, “When we reach the location, remember to listen to the class monitor’s command. If you have any problems, you can also look for Student Shi Yu. Don’t cause trouble.”

As soon as Mentor Ding finished speaking, many people’s gazes turned to Shi Yu, who was sitting in the front row with his eyes closed, and Wang Ling, who was sitting uncomfortably beside him.

Wang Ling was the class monitor, so it was only right to look for him if there were any problems. As for Shi Yu... because he was too strong, Mentor Ding was especially relieved. Be it in the archeological field or strength, Shi Yu was much better than his peers.

However, it was also because of this that Wang Ling felt a headache. Why was he assigned to the same class as Shi Yu? At this moment, his ambition to surpass Shi Yu a few days ago had been halved after watching Shi Yu participate in the battle club assessment.

The stimulation he received was not much smaller than Yu Shu...

Originally, they wanted to rely on the Heroic Ruins to achieve a reversal, but now, Wang Ling, Yu Shu, and the others were feeling a little weak...

...

Soon.

A bunch of school buses started to set off from various places in Ancient Capital University.

The Heroic Ruins was located in a protected area at the edge of Ancient Capital City. With the Beast Tamer Corps guarding it, it was considered a relatively safe ruin. There had been no danger for the past two thousand years, only giving future generations opportunities.

The distance wasn’t very far. Two hours was enough.

During the process, it was alright at the start, but suddenly, Wang Ling, who was sitting beside Shi Yu, was a little nervous.

Something was wrong!

He glanced at the meditating Shi Yu and inexplicably felt that the smell on Shi Yu’s body was a little good. He even wanted to smell more, making him call himself a pervert.

“What’s your smell...” A moment later, Wang Ling couldn’t help but ask. Was it shower gel, shampoo, or some brand of perfume?

Shi Yu could clearly rely on his looks and talent to make a living, so why did he have to be such a fancy foil?

Although it smelled really good.

Shi Yu opened his eyes and looked at him.

Without saying a word, he took out a sachet that was constantly emitting a sweet aura and swayed in front of Wang Ling.

“A sachet made of sweet gas above transcendent can relieve fatigue, replenish physical fitness, and increase the efficiency of meditation.”

“How is that possible? It’s not like I haven’t used it before. How can it have so many effects? Where did you buy it from?” Wang Ling didn’t believe it.

Moreover, the taste was very special.

“You’ve never used it before. This is something we made ourselves. Do you need it? The friendship price of a classmate is 3 million yuan each. It can be used for about a month. I suggest packing a year for you to surpass Yu Shu. It definitely won’t be a problem.” Shi Yu smiled and looked at him.

“I can be so strong because of it.”

Wang Ling was stunned.

Extortion! It was f\*cking expensive!

The price was almost close to the level-five resources used by monarch-level creatures.

With this money, wouldn’t it be better for him to buy Ethereal Stones and other supplements?

“Stop lying to me!”

“In addition, to correct you, I’m stronger than Yu Shu to begin with,” Wang Ling said. “I don’t need this thing.”

“Alright then.” Shi Yu returned the sachet. You’re not confident about being given opportunities? He wasn’t lying.

As a strengthening talent, Wang Ling was also very weak. This sachet was definitely a supreme-grade divine weapon for strengthening talent Beast Tamers.

Not only could it assist the Beast Tamer in meditation, but it could also be used to relieve the fatigue after the Beast Tamer used his Beast Taming Talent to help his pet train. The cost-effective ratio exceeded other supplements. 3 million was really a friendly price.

...

After discovering the nature of Shi Yu’s “black business”, Shi Yu and Wang Ling were speechless.

“Everyone, pay attention to maintaining order.”

Soon, everyone arrived at their destination.

After arriving at the location, Mentor Ding appeared out of nowhere again.

The students in Shi Yu’s car and the dozen or so other cars nearby got off neatly under the guidance of their respective mentors.

“What a high city wall...”

After getting out of the car, the students could immediately see the wall dozens of meters tall in the distance.

In fact, every city close to the wild had city walls. For example, Ping Cheng had tall city walls that could withstand the ferocious beasts in the snow mountains. The materials of these city walls were special, and even ferocious beasts would find it difficult to break through.

Seeing the city wall, everyone clearly realized that this should be the edge of the ancient capital.

It was also where the Beast Tamer Troops were stationed in Ancient Capital City and the ruins of the Martyrs.

“A new student from Ancient Capital University is here.”

“They’re all good seedlings. I really want to pull them into the camp to train.”

“Unfortunately, there are very few talented Beast Tamers who are willing to come to the Beast Tamer Troops now.”

“What do you know? The country is pursuing comprehensive talents now. How can they all come to the camp?”

When the students arrived, not far away, a group of Beast Tamers in camouflage battle suits looked at them and communicated with each other.

“Stop chatting. Go receive the school leaders of Ancient Capital University,” said a leading officer.

On the way, the in-charge of Ancient Capital University, Director Li of the archeology Department and the Combat Department, Director He, walked towards the group of army Beast Tamers with a smile.

“Old Xu, long time no see.”

“It’s been a while.”

When the students went to the assigned accommodations to place the daily necessities, Director Li and Dean He of Ancient Capital University found the Old Xu they were talking about.

“Yeah.” The officer in the camouflage battle suit, Xu Kai, smiled and said, “How’s the quality of the students this time?”

“Of course it’s good. Let’s strive for ten people to obtain the recognition of the heroic spirit!” Dean He of the Combat Department chuckled.

There were many Spirit Mediums in his department, the chances were very high!

Unfortunately, Wang Ling and Shi Yu were intercepted by the archeology Department. He glanced at Director Li, who was also smiling.

“Looks like it’s pretty good.” The officer, Xu Kai, nodded.

Then, the mentors of the various classes and the instructors of the ruins protected area also met.

Soon, the students who found their temporary residence and placed their daily necessities came out.

Under the guidance of the mentors, the more than 600 students who had come to the Heroic Ruins for military training were quickly organized.

Shi Yu didn't have to think in the crowd to know that it was time for the so-called speech segment again.

On the wide ground, the students stood neatly. Xu Kai, Director Li, and Director He smiled and said a few words before walking to the conspicuous high platform.

At this moment, when they saw this dark-skinned, muscular officer with a little beard go on stage and reveal a serious gaze, the students below began to discuss softly.

"That's one of the top masters of the ancient capital, Xu Kai, an expert of the Beast Tamer Corps."

"He has a super battle record of leading teams and fighting the overlord undead for half a day!"

"It's said that he's also a Beast Tamer recognized by powerful ancient spirits."

Below, these new students from Ancient Capital University were also knowledgeable people. After all, apart from some who came from humble origins, most of them were still second-generation heirs. They were not unfamiliar with the experts in the Beast Taming Domain of Ancient Capital.

"Hello, I'm one of the in-charge of your military training, Xu Kai."

Xu Kai's gaze flowed through the crowd and said, "You're all proud sons of heaven, elites from top universities. I'm very honored to be your instructor. This time, I'll be together with your Dean Li and Dean He to show you the deeds of those ancient heroes!"

Not far from Xu Kai, Director Li from the archeology Department and Dean He from the Battle Department smiled and nodded.

The purpose of this military training was extraordinary. It was mainly to let these students who lived in relatively peaceful times know who brought them this hard-won life.

Apart from the Beast Tamers who were still guarding the edge of the city and the border of the country, there were also ancient heroes who should be grateful for the liberation of humans from the totems.

It could be said that the goal of this military training was to nurture the national identity of the young Beast Tamers.

If he taught people and ended up teaching a bunch of villains, it would be a waste.

With countless external enemies, no one could guarantee how long the stable situation could last.

After all, the ancient Dong Huang Dynasty was also incomparably glorious in the past, crushing the totem clans until they couldn't breathe. There were even dynasties who organized their armies to kill their way to the totem area.

But it still couldn't escape the law of the dynasty's decline, because in comparison, the lifespan of humans was too short. The alien races couldn't be defeated, and who could guarantee that the current peace would last forever? Now, the small-scale conflict at the border had never stopped.

In this situation, it was very necessary to let these elite Beast Tamers who weren't from the military path understand the history of Dong Huang from the past to the present. They had a certain amount of hot-bloodedness.

This Master Xu Kai was also an expert in speech. In just a few words, he mobilized the national honor of many young students present, making many people's blood boil. They even wanted to immediately drop out of school and join the army to fight the foreign races in the border battlefield and the totem area.

"In order to protect the future, the great Emperor Shi imprinted the traces of countless heroes of the first generation of the Dong Huang Dynasty in the heroic ruins in front."

"All humans of Dong Huang have hope of obtaining the recognition of the heroic spirits and activating their deeds!"

"In the subsequent thousand years of turmoil in the Dong Huang Dynasty, many heroes rose up and launched a counterattack with the recognition of the heroic ruins here."

"And up to now, all the heroic spirits in the heroic spirit ruins have yet to be unlocked, waiting for the inheritors of the future."

"In other words, if you have enough determination, faith, and aptitude, those ancient heroes might walk out of the long river of history and assist you in the form of undead spirits. They will continue to protect Dong Huang in another form!"

"In the past seven days of military training, apart from visiting the ruins in the ruins and understanding the deeds of every hero, you can also take the initiative to try to communicate with the ancient spirits that have not been summoned."

After spending more than an hour explaining the things to take note of, the student group dispersed.

Unlike what Shi Yu had imagined, the military training here was very different from the so-called military training in his previous life.

There were no strict requirements for discipline, and no special instructors were sent to manage a class, giving the students a relatively free space.

It was indeed as Mentor Ding said. They seemed to be here for a holiday.

Those instructors' subsequent duties were more like guides introducing the ruins.

He hoped that through the protected area of the ruins, he could let the students understand history and nurture their sense of national identity. He could really obtain some substantial thinking growth from this military training.

There were also some elite students who might obtain strength growth from the heroic spirit ruins.

In comparison, using some military-style training methods to train this group of elites who had passed the vocation assessment was really meaningless and unnecessary. It wouldn't have any huge effect at all.

Which one of them wasn't an elite of the same level? If they were pulled out alone, even instructors might not necessarily be able to defeat this group of students at the same level.

After the meeting ended.

The various classes gathered together again.

Wang Ling looked at the 32 students in front of him and took a deep breath. "Everyone heard that, right?"

"The most valuable thing about this military training is to obtain the recognition of ancient heroic spirits!"

"In seven days, everyone can try countless times. In addition, as the class monitor, I can teach everyone a small skill to communicate with the heroic spirit and increase everyone's success rate of communicating with the heroic spirit."

As the class monitor, Wang Ling was still very responsible. The moment he spoke, the students in the class below immediately became restless and looked at him.

Even Shi Yu looked at him. What little skill was this? Why didn't the beast-eared girl remind him?

"Class monitor, you're awesome. What little skills?" The other students also started to ask anxiously.

"Really? I heard that the success rate of the candidates communicating with the spirits during the military training in the Heroic Ruins over the years is only about 1%. In other words, among the six hundred of us, maybe only six will succeed..."

This probability was neither high nor low, but for most ordinary students, it was still a little despairing.

"In short, if I can successfully communicate, I'll treat the whole class to a meal," someone said.

Wang Ling looked at the excited students and chuckled. "Don't be anxious, don't be anxious. Listen to me..."

"This little skill is that it works if you're sincere..."

Shi Yu : "..."

Everyone: "...Let's change our class monitor?"

It felt like he was talking nonsense.

Everyone knew that sincerity worked.

Could it be that he had to communicate with the heroic spirit from the perspective of the totems?

That way, even if it could be summoned, it probably wouldn't be recognition, but manifestation to kill.

"There's still more," Wang Ling added.

"You've all seen the textbooks, right?"

“There are countless heroic deeds recorded on it. The power of these heroes must have been branded in the heroic spirit ruins.”

“Generally speaking, the stronger your faith in a certain person, the more familiar you are with his deeds, the greater your hope of obtaining its recognition.”

“Therefore, this week, if the first communication fails, don’t be discouraged. You can try to revise more heroic deeds and communicate with them with a sincere heart.”

“In addition, you have to be devoted. Don’t think that you can obtain the recognition of many heroic spirits. Just go for one person.”

“Also, do a good investigation. Many heroic spirits have already been summoned. At this time, no matter how much you understand them, it’s useless. It’s impossible for them to appear again.”

Wang Ling explained many small skills that he knew. This time, he even sounded like he was talking sense. The students nodded.

“Shiyu, do you have any suggestions?”

At this moment, a pretty girl in the class looked at Shi Yu, who was lazing around, with shining eyes.

Shi Yu was known as a new star in the archeology world and a famous figure among the new students. She also wanted to hear Shi Yu’s suggestion very much.

As soon as she finished speaking, the group of fans in the class immediately looked at Shi Yu.

“Uh.” Shi Yu was at a loss. Suggestion?

Shi Yu thought for a moment and said, “Then I’ll give you my opinion.”

“It’s said that Emperor Shi imprinted the power and deeds of all those with merits in the ruins of the heroic spirit in a special way.”

“One goal is to hope that the future generations will encounter a disaster. Their strength and faith can still be replicated in another form to protect Dong Huang.”

“And the other goal is to hope that their merits can be preserved in one more way.”

“This is also why when someone summons heroic spirits, not only will their power reappear, but their deeds will also appear.”

“There shouldn’t be anything missing from the records of Emperor Shi, but the later generations should have many incomplete records of the things that happened at that time. Because of this, if we can summon a hero that hasn’t been recorded in history, its deeds will appear. It should be a very valuable archeological discovery.”

“Therefore, maybe we can communicate with the ruins from the perspective of an archeologist...”

“Explore the unknown and restore the truth of history.”

In theory, in this special place modified by Emperor Shi, even without the gift of telepathy, the ruins could still appear!

However, after Shi Yu finished speaking, he suddenly felt that he had said a bunch of nonsense. This was too abstract. It was far inferior to Wang Ling's little skills.

However, Wang Ling nodded at this moment and looked enlightened.

"Shi Yu is right. My little skill is actually more suitable for students of the Combat Department. Our current identities are students of the archeology Department. If we want to achieve something in this field, compared to obtaining the recognition of a powerful heroic spirit, it's more valuable to explore things that have not been recorded in history or have ambiguous information that can't be judged in history."

"The heroic spirits of the heroic spirit ruins have yet to be completely unlocked. Many archeologists have come here to investigate mostly because they want to explore unknown deeds and not obtain the recognition of the heroic spirit."

"Indeed. Senior Lu Qingyi has investigated the ruins of the Heroic Spirit many times and rejected the Heroic Spirit's ownership just to investigate some truth." Shi Yu nodded.

"We understand!" When Shi Yu and Wang Ling finished speaking, the students from the archeology Department (1) class looked enlightened.

Although they didn't know what had happened, after Shi Yu and Wang Ling said this, they suddenly felt stable. They felt like their conception and understanding had been unlocked.

It was really good to have a big boss and a good class monitor to guide him.

Shi Yu : "..."

Did they really understand?

As everyone was talking, suddenly, a white light shot into the sky from afar, instantly attracting everyone's attention.

Not far away, an instructor widened his eyes and said, "Who is it? Are you students so efficient? Someone ran to the altar so quickly and successfully communicated with the heroic spirit?"

Many mentors also revealed shocked expressions.

"Which class?"

"It's the battle department (3) class. After they were disbanded, they were brought to the Heroic Ruins by class monitor Yu Shu..."

At this moment, no matter if it was the teachers, students, or instructors, they couldn't sit still anymore.. They all ran towards the Heroic Ruins to see what the battle department (3) class was doing over there.

Chapter 173: Summoning the Spirit

"Damn."

“Someone beat me to it.”

After arriving at an unfamiliar place, most of the students were still a little restrained.

Without the guidance of mentors and instructors, no one dared to wander around for a moment.

They only communicated in a small area and waited for lunch.

But at this moment, a class ran to the Heroic Spirit Ruins on its own and even successfully summoned the Heroic Spirit, shocking everyone.

“Battle Department (3) class, Yu Shu?”

“Meow.”

“It must be Yu Shu who summoned the heroic spirit!”

At the archeology Department (1) class, Wang Ling was stunned when he heard the discussion in the distance.

Why was Yu Shu so fast?

He had just arrived here not long ago, why did he run over?

Was he in a hurry to reincarnate?

“Are we going too?”

“Of course.”

“There are only so many heroic spirits in the ruins. There won’t be a single one after summoning one. Let’s go and see who the Battle Department’s people have summoned.”

The archeology Department (1) class also quickly followed the crowd to the Heroic Ruins.

...

The Heroic Ruins was a modified special ruin.

It couldn’t move, be entered, or be damaged.

It was an altar with the outside world.

This altar couldn’t be destroyed either. Moving, even the attack of the totem creature couldn’t hurt it at all.

When humans stood on the altar, they had a chance to communicate with the ruins space and summon heroic spirits.

At this moment.

The huge altar connected to the heroic spirit ruins was heavily sealed.

This place had always been heavily guarded, and it was not allowed to enter easily.

However, during the military training of the students of Ancient Capital University, the students could freely go through the blockade line and onto the altar to try to communicate with the heroic spirit.

The battle department (3) class was the first class to come here.

At this moment, a young man stood on the altar in a daze and surprise. He felt the white light around him and was at a loss.

Did it really succeed?

He had actually obtained the recognition of a certain heroic spirit?

The young man was very happy.

Not far from him, the surrounding soldiers revealed envious expressions.

The other students in the Combat Department (3) class also had looks of envy. In the crowd, Yu Shu chuckled and said, "Impressive."

"Brother Tao, heh~"

The first to take the initiative to ascend the altar and try to summon the heroic spirit was not Yu Shu.

It was a Spirit Medium that Ancient Capital University had dug out from Shen Du City, Tao Yi.

In the vocation assessment of the Divine Capital, he was ranked at the front and was also a Beast Tamer with very good strength.

However, at this moment, only a few people paid attention to Tao Yi.

More people looked at the altar shining with white light and the sky above the altar that had turned into chaos.

They wanted to see what kind of heroic spirit he had summoned.

At this moment, the sky above the altar was blurry and light was chaotic. It was like an illusory scene.

"It looks like a mirage..." Someone muttered.

After the white light shone, the heroic spirit didn't appear immediately.

Instead, it was this mirage-like chaotic area that began to reach the soul. In a form similar to telepathy, with words, it replicated this heroic spirit's achievements!

Apart from that, a heroic man in armor and holding a bow appeared in the sky.

The man's face was blurry, but his figure was tall and imposing.

[Sky Formation Army, Divine Shooting Camp, Lu Zhizhou]

Soon, his name appeared.

Everyone present immediately knew his identity.

Not only was it because the heroic spirit ruins had teleported his name to everyone's hearts, but also because Lu Zhizhou's deeds had been recorded in detail. Everyone was familiar with it.

"It's actually Lu Zhizhou."

"It's him...?"

Tao Yi was a little afraid. He felt that he didn't deserve his recognition.

[Lu Zhizhou, a Beast Tamer from the Heaven Array Army of the three legions under Emperor Shi...]

[At the end of the first totem battle, the battle of Sky Island Pass began. The Divine Shooting Camp was ordered to guard Sky Island Pass and stop the attack of the Feather Demon Empire.]

[At this moment, the difference in the strength of both parties is huge. Our supply is insufficient, and the battle is urgent. Lu Zhizhou, a member of the Divine Shooting Camp, took the initiative to activate the special array symbol left behind by the Heavenly Formation General. At the cost of burning all his and the five battle pets' lives, he shot out the Resplendent Arrow, igniting the determination of all the members of the Divine Shooting Camp.]

[For two days and two nights, the Divine Shooting Camp waited for reinforcements at the cost of the remaining three and countless sacrifices. They blocked the attack of the Feather Demon Empire and completed the defense mission.]

Then, the heroic spirit ruins even showed Lu Zhizhou's life experience. He died at the age of 33. From the time he became a Beast Tamer at the age of 17, he had responded to the battle of the totems and fought for 16 years.

His talent was ordinary, and even when he died, he was only a master-level Beast Tamer in today's time.

As an ordinary member of the Divine Shooting Camp, he could face overlord-level creatures and resist at the cost of his life.

After everyone understood Lu Zhizhou's merits, the traces of his strength and the heroic spirit formed by the power of faith finally appeared.

A white bow wrapped in a white cyclone appeared in the sky under the convergence of light. This was Lu Zhizhou's heroic spirit embodiment.

However, after the heroic spirit of the bow appeared, it wasn't over yet. The heroic spirit of the bow gathered strength in the sky, and its light was dazzling. It aimed at Tao Yi, making Tao Yi take a deep breath.

"After the heroic spirit appears, it might directly recognize its master, or it might choose to test the Beast Tamer who summoned it. If the summoner can't pass the test, the heroic spirit will disappear on its own." A large number of people had already gathered outside the altar.

More than 600 students had already arrived.

The mentors of the various classes, the instructors here, as well as the top masters of the Xu, Li, and various other classes also stared at the altar, and were planning to see if this student could pass the test.

“It’s actually not Yu Shu, but Tao Yi. He’s not bad either. His father is a martyr... Perhaps he was influenced by him since he was young.” Dean He looked ahead with mixed emotions.

In short, he was happy that their students from the Combat Department could obtain the recognition of the heroic spirit!

“It’s not Yu Shu. I don’t know him.” At the archeology Department (1) class, after everyone saw the situation in front of them, they started discussing.

“Lu Zhizhou, I’ve seen his story in the textbook...”

“He should be a master-level Beast Tamer. His trump card battle pet is the ‘Falling Feather Bow’.”

“I didn’t expect his heroic spirit form to also be a bow and arrow...”

In this world, mountains, rivers, and plants could all evolve. Books, swords, and swords could also nurture spirits. However, for some reason, after a historical break, weapons became unable to nurture spirits and complete evolution. Instead, in the modern era, mechanical weapons replaced these.

Beep...

[Discover information]

At the same time, below, Shi Yu, who had arrived, activated the index.

Unfortunately, there was no information.

This was the first time Shi Yu had seen “unknown” on Bureau 11’s index.

He originally wanted to see the racial level and growth level of this bow spirit.

However, it seemed that this bow and arrow spirit had yet to completely transform into an undead life form before it completely acknowledged the student in front of it.

Amazing!

How exactly did Emperor Shi manage to imprint the power traces of so many people and things here and make them become heroic spirits in the future? Shi Yu was extremely curious.

How great was this power?

“Come on!!!” At this moment, this student named Tao Yi from the battle department also steeled his heart and was incomparably excited. He planned to accept Lu Zhizhou’s heroic spirit’s test.

He summoned his pet and planned to withstand the attack with all his might!

Outside the altar.

Wang Ling said, “If this Tao Yi can pass the test, he will soar into the sky...”

“Lu Zhizhou was a master-level Beast Tamer when he was alive. With the support of the power of the Time Emperor and the power of faith in the future, his heroic spirit won’t be lower than the potential of a low-level monarch.”

“The upper limit of growth is very high!”

At this moment, Tao Yi, who was looking at the test from various places, started discussing it.

“Do we judge the race level by the strength of the heroic spirit when it was alive?” Someone from the archeology Department (1) class asked Wang Ling.

Wang Ling, a Spirit Medium, clearly knew more about this kind of undead ruins.

“It depends on strength and merits,” Wang Ling said. “It’s also related to the power of faith.”

“At that time, what level would the heroic spirits of the three generals under the emperor be?” Shi Yu also stood beside Wang Ling and asked as he looked at the altar.

Wang Ling said in front of the whole class,

“Under Emperor Shi, the three generals are equivalent to our modern ‘Titled Legends’. They are experts who can fight against totem-level creatures. Their heroic spirits must have the potential of overlords, and it’s very likely that they are a high-level overlord race.”

“Bai Lin, Tian Zhen, and Zhen Hai, the three great generals, also have one deputy general each. They are also equivalent to the legendary Beast Tamers of our later generations. Among these three deputy generals, someone has been summoned. Their heroic spirits’ growth potential is not inferior to low-level overlords.”

“Apart from the three great armies, there are also ten ordinary legendary generals under the command of Emperor Shi. Their heroic spirits have potential levels that aren’t inferior to overlord races.”

“Also, the peerless Iron Blood Hundred Battles Generals, the souls of these generals, have potential levels are all high-level monarch races.”

“As for warriors like Lu Zhizhou, who were master-level when they were alive and had huge merits, their heroic spirit potential levels won’t be lower than monarch races.”

“It’s because of this that the heroic spirit ruins are a treasure left behind by Emperor Shi for the future generations. It’s the foundation to ensure the eternal survival of Dong Huang! Emperor Shi is awesome!”

Wang Ling blushed as he spoke. His requirements weren’t high either. As long as he could obtain the recognition of one of the hundred battle generals under Emperor Shi, he would have no regrets in his life.

Boom!!!!

At this moment, Tao Yi had already endured the dazzling attack of the bow spirit.

In the huge energy shock wave, endless light flickered.

As the light faded, Tao Yi and his pet’s miserable appearance appeared on the altar.

At this moment, Tao Yi looked at the bow spirit in the sky weakly and smiled. He had endured it.

“The heroic spirits are all tested according to the strength of the Beast Tamer who summoned it. They won’t be too difficult...” A knowledgeable person looked at the scene on the altar and nodded.

At this moment, on the altar, the light of the bow spirit dimmed, turning into a white object similar to a "seed" that landed in the student's palm.

"Hahahaha, congratulations, congratulations!!"

At this moment, when everyone looked at this student enviously, the person in charge of the military training, Xu Kai, laughed and said,

"You're called Tao Yi, right? Congratulations on obtaining the recognition of Senior Lu Zhizhou's heroic spirit. You have to inherit his will well!!"

"Yes!!" Tao Yi's expression was excited as he held the heroic soul seed.

At this moment, although he had yet to contract it, he could clearly feel the connection between him and the soul seed.

"Well done." Dean He of the Combat Department also looked at Tao Yi in praise.

A moment later.

The laughing Xu Kai walked to his side and patted him on the shoulder. Then, he said to the more than 600 students present,

"Everyone, see this? This is the heroic spirit test I was talking about just now!"

"In the next seven days, all of you have the chance to ascend the altar and try to obtain the recognition of the heroic spirit!"

"Student Tao Yi, go down and rest. You've done very well," Xu Kai said as he supported Tao Yi.

At this moment, outside the altar, the students immediately became lively.

The topic discussed by the archeology Department (1) class was discussed again in each class.

After learning that Tao Yi seemed to have obtained the recognition of a low-level monarch race heroic spirit, the students were even more envious and looked at the altar eagerly.

However, for a moment, many students were quite afraid.

After all, there were too many people here. Moreover, one person had just obtained recognition. If they went up now and didn't obtain recognition, how awkward would it be?

"It's my turn next, right?"

At this moment, Yu Shu, who had brought Tao Yi over, smiled and looked at the altar.

Tao Yi's strength and talent were inferior to his. If he could obtain the recognition of the ruins, he definitely could too!

With that, Yu Shu wanted to walk towards the altar.

At the same time, another person walked towards the altar.

“Shi Yu...” In the archeology Department (1) class, everyone, including Wang Ling, was originally hesitating.

However, the curious Shi Yu couldn't wait at all. He couldn't help it.

1

After witnessing the wonders of the heroic spirit ruins, he didn't have the mood to watch anymore. He couldn't wait to immediately go up and try to see which ancient heroic spirit he could summon.

Yu Shu and Shi Yu, these two social buffs, were directly stuck in front of the blockade at the same time.

It fell into the eyes of all the mentors, instructors, and students.

Outside the blockade, the corners of Yu Shu's mouth twitched as he looked at Shi Yu beside him. His stomach hurt.

“What are you doing?” he asked.

“To the altar,” Shi Yu said.

Yu Shu :”...”

I f\*cking knew you were going to the altar, but why did you come with me!

“Why don't you go first?” Shi Yu saw that Yu Shu looked like he wanted to eat him up and said helplessly.

“No, you first!” Yu Shu turned around speechlessly. No, he wanted to see what Shi Yu could summon first.

Only then could he be confident when he boarded.

With that, Yu Shu returned to the class and remained silent.

At this moment, all their gazes landed on Shi Yu.

“Uh.” Director Li looked at Shi Yu. He didn't expect that Shi Yu, the big boss of Bureau 11 hidden among the new students, would be so curious about the Heroic Ruins so quickly.

But that was normal... The attraction of the Heroic Ruins to all Beast Tamers was terrifying.

“Next... can I go up?” Shi Yu asked the instructor who sealed the altar.

The instructors glanced at Xu Kai.

Xu Kai nodded.

Soon, the blockade was opened. Shi Yu boarded the altar under everyone's gaze.

Soon, the blockade was let in. Shi Yu boarded the altar under everyone's gaze.

The other students also discussed.

“It's Shi Yu...”

“He’s here again.”

“On the day of the club assessment... he was too monstrous.”

“I wonder if he can obtain the recognition of the heroic spirit...”

“Generally speaking, the more you come into contact with undead, the easier it is to obtain the recognition of the heroic spirit. This is also why the chances of a Spirit Medium obtaining the recognition of the heroic spirit are higher. Shi Yu’s three pets don’t have one undead element. It shouldn’t be that easy...”

“But he has the gift of telepathy. It’s hard to say if he can communicate with everything...”

Not only the students, but the examiners and teachers also looked at Shi Yu solemnly.

Although not everyone knew the identity of a member of Bureau 11 Shi Yu, they knew the identity of the top scholar in the assessment in Ancient Capital.

He also knew that Shi Yu was a new star in the archeology world.

They were also very concerned about Shi Yu’s performance in the Heroic Ruins.

“Actually, no matter what kind of heroic spirit’s recognition I can obtain, as long as I can resonate with it, I’ll be rich...”

Many people discussed below, because the heroic spirits that appeared in the heroic spirit ruins were rarely lower than monarch races.

Even if the predecessor of the heroic spirit was only an ordinary soldier, the symbol of an army had long been sublimated to the extreme under the erosion of the power of the Time Emperor and history, becoming extraordinary.

At this moment, Shi Yu had already ascended the altar.

Standing on the altar, he felt very strange.

However, after more than ten seconds, there was still no reaction from the ruins.

Shi Yu :”...”

Shi Yu shouted at the ruins through telepathy twice, but there was still no response.

“Well, do you need any specific actions or language to communicate with the heroic spirit...” Shi Yu looked down at everyone shyly.

Everyone :”...”

Yu Shu looked at Shi Yu speechlessly and shouted, “There’s no need. Just close your eyes and meditate. Don’t worry, it usually takes about one minute.”

Shi Yu nodded. So that was the case.

He began to wait quietly.

Moreover, after his heart settled down, his heart was sincere, and his heart was sincere... Seniors in the ruins, come out!

Miss General Ice Dragon, your Ice Dragon misses you and dragged me to bring you a message!

“A minute.”

A moment later, Shi Yu looked up.

The one minute law really worked.

In an instant, endless light appeared from the altar, and the light shot into the sky. Everyone widened their eyes.

Boom!!!

Below, Tao Yi, who had just gone down, widened his eyes.

All the students widened their eyes.

The phenomenon of Tao Yi summoning a heroic spirit... appeared again!!

“There’s a reaction!”

“Shi Yu and a certain heroic spirit have resonated!”

“I knew it.” Director Li’s eyes lit up.

As a member of Bureau 11, how could Shi Yu not be able to summon a spirit?

The only problem now was which heroic spirit Shi Yu had summoned and which one he had resonated with.

“Could it be a warrior spirit with the potential level of a high-level monarch among the hundred battle generals!” Director Li looked forward to it.

“This guy...” Yu Shu, Wang Ling, and the others didn’t expect Shi Yu to really be able to summon it successfully. Their hearts skipped a beat as they looked at the sky, wanting to know the story of the heroic spirit Shi Yu had summoned.

The students, teachers, instructors, and everyone looked up at the sky.

Soon, in the chaotic area that was like a mirage, the image of a valiant woman in armor with long hair but an unclear appearance appeared.

Although their faces couldn’t be seen clearly, everyone could feel her aura that far exceeded that of a man, the demeanor of a leader, and the aura that shocked the top masters present.

“A female general???” Everyone revealed shocked expressions when they saw the English phantom Shi Yu had summoned.

If it was said that he was only shocked at the start, then next, all the pores on his body seemed to have exploded, and his eyes nearly popped out.

[Ice Dragon General Mu Huiyin, Titled General under Emperor Shi, the strongest general under Emperor Shi, a heroine among women!]

[Mu Huiyin has never married in her life. She dedicated her life to the Dong Huang Ancient Country. In the battle of the totems, she resisted five totem attacks with a single soldier posture, killed 39 overlords, and destroyed countless monarchs...]

As the merits of the heroic spirit phantom appeared bit by bit, everyone was shocked to the extreme. They looked at Shi Yu, who was squinting on the altar, in shock!!

How was this possible?!

Who was this?!

Ice Dragon General?!

The strongest general under Emperor Shi?!

Why had they never heard of it...

After blocking five totem attacks, killing 39 overlords, and destroying countless monarchs... This battle result was completely not inferior to the other three generals!!

Damn, Shi Yu, are you still human???

How did he do it???

At the same time, on the altar.

“It’s not Emperor Shi’s Spirit...” Shi Yu looked at the phantom.. The Ice Dragon General was also very good. It was just nice to rectify the reputation of the Ice Dragon General!

## Chapter 174: Ice Dragon General

Ancient Capital, ruins protected area, Heroic Ruins, above the summoning altar.

At this moment, as a peerless and extraordinary figure appeared from the heroic spirit ruins, everyone around the altar suddenly fell silent.

He looked at the figure quietly.

And her contribution introduction.

Wang Ling, Yu Shu, and the others had dry voices.

Damn, how was this possible?

It was off the charts!

“This...”

Director Li, Dean He, Instructor Xu, and the others were also stunned.

A legendary general that had never been recorded in history?

The strongest individual general under Emperor Shi??

Everyone felt as if their hearts had been squeezed.

From the merits introduction, this seemed to be the second strongest battle power of the first generation of the Dong Huang Dynasty!

Unbelievable!

Why wasn't such a person recorded in the history books?

Also, if everything that was happening in front of him was real... Then this should be the strongest heroic spirit that had appeared in the ruins of the heroic spirit.

How did Shi Yu summon such an existence...

This boy was really a monster.

"The fourth general..." In the crowd, Wang Ling suddenly recalled what Shi Yu had said to him in class. His brain suddenly buzzed.

[Shi Yu: As everyone knows, there are four of the three generals. There's nothing wrong with that, right?]

"Holy shit." Wang Ling was shocked.

He felt that he and Shi Yu were not playing the same game.

So Shi Yu already knew what he could summon before coming here?

Specified summoning?

Cheating!

No wonder Shi Yu said that he wanted to communicate with the ruins from an archeological perspective...

"Wait, wait."

"It's not fair?"

After the phantom of the Ice Dragon General appeared, everyone held their breaths and focused on waiting for the Heroic Ruins to introduce Mu Huiyin's life.

For example, Lu Zhizhou just now, apart from his merits, the ruins also recorded almost all of his life from his birth to his death in the form of a brief introduction.

Although Lu Zhizhou's story was also recorded in the history books, the more detailed records in the heroic spirit ruins were undoubtedly another confirmation and supplement to history.

Compared to Lu Zhizhou, Mu Huiyin was undoubtedly more mysterious now. Her achievements were even more shocking!

Everyone wanted to know everything about this mysterious general.

“Why not?”

“Why isn’t it showing anymore?”

Everyone waited.

However, a moment later, everyone was stunned.

Apart from the name and huge merits, there didn’t seem to be any more detailed information about Mu Huiyin in the Heroic Ruins.

It seemed that not only in history, but even the time emperor who built the heroic spirit ruins didn’t have much information about her!

“Why...” Shi Yu stared at the phantom and was very confused.

It was fine if there were no records in history.

Why weren’t there any records of the heroic spirit ruins?

As a national hero of that era, there was no reason for this treatment.

There must be some unknown information hidden among them!

Why didn’t the frost dragon say so at that time!

Just as everyone didn’t know what was going on, something unexpected happened.

“Impossible...”

“What’s going on...”

Looking at the sky above the altar, some students suddenly spoke in shock.

Shi Yu’s gaze suddenly constricted.

At this moment, Mu Huiyin’s figure seemed to have walked out of the heroic spirit ruins, gradually revealing her clear face.

After all, for thousands of years, the appearance and figure of the heroic spirits summoned from the ruins were almost unclear.

But when it came to the Ice Dragon General... it completely changed.

In the next moment, everyone was stunned by the Ice Dragon General in front of them.

She had a beautiful face and was peerlessly handsome. She was wearing armor and a longsword. She had red hair and red eyes. Outside her phantom body that was like a soul, she was wrapped in spiritual aura that was like the flames of the sun. Her aura was peerless!

It really was like an ancient general descending into this world!

What was even more unbelievable was that everyone could clearly see Mu Huiyin's gaze sweeping across everyone.

This made everyone open their mouths in disbelief.

Then, the spirit body that landed on the altar locked onto Shi Yu and spoke slowly.

"How many years is it now?"

Her voice sounded, shocking everyone.

Holy shit!

Holy shit!

As the spiritual body that appeared from the heroic spirit ruins spoke, everyone present widened their eyes again. How was this possible!!

Weren't the heroic spirits summoned from the heroic spirit ruins brand new life forms without any memories?!

What was going on!!!

The spirit... spoke??

Shi Yu was also slightly shocked.

This didn't make sense!

According to his understanding, the heroic spirits here couldn't possibly have consciousness.

What had he awakened...

"2300 years after Emperor Shi established the Dong Huang Dynasty."

Shi Yu endured his shock and looked at the heroic spirit he had accidentally summoned.

Mu Huiyin's expression was emotionless.

"Is the dynasty still around?"

"The dynasty established by Emperor Shi has already died, but later on, someone rebuilt it again and repeated it until now."

Shi Yu replied.

"Why was it destroyed?"

Mu Huiyin asked.

"I don't know," Shi Yu answered and asked, "You don't know either?"

Mu Huiyin shook her head.

“Including me, all the spiritual bodies here are traces of power preserved by Emperor Shi through the power of time. I don’t know what happened in the late stages of the dynasty.”

“I’m just a trace of Mu Huiyin’s power. Perhaps she experienced everything herself, but I’ve always been here.”

She was an exception. She was the only spiritual body here that preserved part of its consciousness, and the only heroic spirit whose life had not been recorded.

After Mu Huiyin finished speaking, Director Li and the other archeological faculty mentors trembled slightly.

As expected.

There were many theories in the archeology world about how Emperor Shi modified the heroic spirit ruins!

Among them, some said that it was Emperor Shi who buried all the heroic souls here.

Some also said that Emperor Shi had copied a portion of their power at a certain node through the power of time, preserved it, and branded it here. Then, the traces of power settled over time and became heroic spirits under the baptism of the power of faith.

From the looks of it, it was indeed the latter.

The true bodies and souls of those heroes had either been destroyed or buried somewhere.

As for the undead born in the ruins of the heroic spirit, they were the same as the sword spirits and book spirits evolved from the elemental life forms evolved from the elements. They were completely new transcendent undead born from the combination of traces of power and faith.

Because of this, there were no memories of the predecessor. Because of this, there were various forms. Because of this, the forms of power were almost the same...

Emperor Shi’s method shocked the Beast Tamers present again.

This was equivalent to creating a new undead race.

His methods were not much weaker than Mechanics who could create mechanical lives in the modern era.

Time element... was indeed mysterious and powerful.

At this moment, when he heard Mu Huiyin’s heroic spirit’s answer, Shi Yu fell into deep thought.

Didn’t she know anything?

From the looks of it, this heroic spirit didn’t know about the subsequent suppression of the Ice River Totem by Mu Huiyin and the frost dragon?

After all, this ruin had been established quite early. Mu Huiyin should still be young at that time.

“Why... are there no records of you here or in the outside world?”

Shi Yu asked Mu Huiyin's spirit.

He had a new guess.

Standing on the altar of the heroic spirit ruins, Shi Yu wanted to understand two things.

He wanted to know why Emperor Shi died and why the first generation of the Dong Huang Dynasty was destroyed.

Second, it was why the Ice Dragon General was not recorded in history.

Mu Huiyin's spirit body didn't answer.

However, when Shi Yu looked at the characteristics of the Ice Dragon General, he deduced, "You didn't get Emperor Shi to record your story?"

As Shi Yu finished speaking, Mu Huiyin looked at him.

Everyone looked at Shi Yu.

"Did that dragon tell you?"

"I guessed so."

How could there be no record of a top legend whose battle power was off the charts and whose battle merits were off the charts? It was most likely that someone had deliberately erased her traces.

"Then continue to guess why I erased my traces." There was no change in Mu Huiyin's expression.

She and Shi Yu looked at each other.

At this moment, all the instructors, mentors, and students present were numb. They had no idea what was going on in front of them.

The situation was terrifying.

Even Instructor Xu and the others were trembling.

Damn, the fourth general under Emperor Shi... who knew it'd be this exciting? Also, this student named Shi Yu, he was so brave.

On the altar, Shi Yu looked straight at the Ice Dragon General.

The difference between Mu Huiyin and the image in his mind was very big.

He originally thought that the Ice Dragon General came from the Icefield Tribe, contracted the Ice Dragon, and titled the Ice Dragon. It would be a Beast Tamer with the talent of ice-element Beast Taming, but... from the fluctuations of her strength, her strength was fire-element!

This didn't make sense!

The power of the Ice Dragon General, the owner of the Ice Dragon, had talent that leaned towards fire? Moreover, her hair color and eye color...

"You... aren't a purebred human?" Shi Yu took a deep breath.

In that unstable period, a top expert had always fought alone. Apart from being ridiculously strong and no one could cooperate with her, there was another possibility. It was very difficult for her to integrate into the group, or rather, she didn't want to integrate into the group.

In addition, if there was a reason why someone didn't want their identity to be recorded, there was a possibility that even she hated her identity.

Shi Yu looked at the various characteristics of the Ice Dragon General. Her image gradually overlapped with the image of another character in history. He judged that she wasn't a purebred human, but a hybrid of a human and another race!

At this moment, as Shi Yu finished speaking, the Ice Dragon General still didn't say anything. Instead, the 600 plus students present suddenly opened their mouths wide with shock.

Holy shit.

What was Shi Yu saying...

They looked at the heroic spirit of the Ice Dragon General in disbelief.

At this moment, Mu Huiyin's heroic spirit looked at the humans present with a calm expression. "You don't seem to dislike this identity."

She didn't deny Shi Yu's speculation.

Moreover, she discovered that when the people of later generations heard this, their reaction was very different from the humans of her era.

Those who were not of the same race would definitely have different hearts. This was the common concept of that era.

But now, Mu Huiyin's heroic spirit strangely discovered that many young humans were looking at her with stars in their eyes, as if they worshiped and were curious... Their thoughts were especially open.

Unbelievable...

"Of course not," Shi Yu said. "After all, you're the hero of Dong Huang."

"That's really a good era," Mu Huiyin's heroic spirit said.

In her era, even if she became a human hero in the end, she still couldn't be trusted.

Mu Huiyin, who had had enough of being ostracized and suspected, finally chose to dilute her existence.

It was even to the extent that because of this, she didn't marry in her lifetime and completely severed this bloodline.

Because of this bloodline, she went through a lot of pain and could only contract powerful ice-type pets to cool down her strength.

The mixed blood gave her talent and potential, as well as many difficulties.

She didn't want such a bloodline to be passed down to future generations.

Apart from this heroic spirit ruin, there should be very few places with her name.

“Is there anyone similar to me in history?” Mu Huiyin’s heroic spirit asked.

Shi Yu nodded.

“There was a Great Empress in the future, just like you. She wasn’t a pure human, but she ended the totem war that lasted for decades and united the Dong Huang Land again, becoming a legendary Beast Tamer like Emperor Shi.”

1

Empress!

Upon hearing Shi Yu’s words, most of the people present revealed looks of admiration. After all, this was also a great legendary figure who had liberated the Dong Huang Human Race from the hands of the totems.

In history, there were indeed many hybrids like Mu Huiyin. Their birth was a tragedy. In ancient times, they were indeed excluded. Only when the empress appeared out of nowhere did this situation change.

At this moment, when she heard Shi Yu’s words, Mu Huiyin’s expression was in a daze.

“I see. I’m inferior to her,” Mu Huiyin was relieved.

However, combined with the information that the Dong Huang Dynasty had been destroyed and the Dong Huang land had fallen into totem war again, she couldn’t help but shake her head.

In her opinion, the destruction of the Dong Huang Dynasty was not something difficult to accept. Instead, she had long expected it.

Emperor Shi’s ambition was too big.

After expelling the totem, he was not satisfied.

He also wanted to live forever and become a legend, immortal forever.

He even locked his sights onto the sleeping Mythical creature.

If he succeeded, he would soar into the sky. If he failed, he would disappear.

Although he didn’t know what path Emperor Shi chose later, from the looks of it, the outcome wasn’t very good.

This caused Dong Huang to encounter a huge calamity and fall into war again.

Fortunately... it looked like the humans in the future had survived.

After saying that, she looked at Shi Yu.

“Since you’ve awakened me, let’s see if you have the right to inherit my power.”

More than two thousand years ago, in order to leave some power for the later generations, Emperor Shi used a certain super level time and undead dual-element skill that had been developed to the extreme

to imprint the traces of the power of many heroes in the Dong Huang Dynasty, letting them rely on the power of time to grow into heroic spirits.

At that time, Mu Huiyin had also preserved a portion of her power and had now evolved into an undead life form.

She looked at the sword beside her.

To be precise, the traces of her power had evolved into sword spirits.

A sword spirit of the fire element and the undead element.

Perhaps it was also related to her liking to use the sword. She had sealed her talent bloodline power inside.

This was an extremely violent sword spirit. She originally didn't want it to be born, because probably very few Beast Tamers could control it. However, Shi Yu had awakened her with the aura of the ice dragon. At that moment, she could only try to test Shi Yu and see if he had the qualifications to control it.

"After passing my test, I'll give you the Strength Soul Seed. You can hatch and contract it yourself."

The appearance of Mu Huiyin's heroic spirit shocked everyone present.

No one had expected that there was still a Titled Great General with extraordinary battle power under Emperor Shi's command who wasn't a purebred human.

He looked at Shi Yu in envy. Shi Yu... was about to obtain a young undead spirit of a suspected overlord race?!

"What test?" Shi Yu looked up with great interest.

## Chapter 175: Sword Spirit Possession

"What test?"

When Shi Yu asked, everyone present gulped.

It would probably be very difficult to completely obtain the recognition of this heroic spirit whose predecessor's battle power was comparable to a totem.

Could Shi Yu pass the so-called test?

"Two."

Mu Huiyin's spirit spoke.

"The first condition depends on whether you can withstand the possession of a sword spirit below the same level. This is a test of your body, heart, and will."

“Second path, control the sword spirit and defeat me.”

As soon as he finished speaking, most of the people watching felt their hearts beat faster.

Putting aside what the first test was, how was the second test possible?

Although the current heroic spirit was only a trace of power, it still had to be considered just who it was that left this power.

Moreover, in the long river of time, these traces of power did not weaken because of time. Instead, they gradually became stronger!

The test... was to fight an ancient general that was comparable to a totem?

Moreover, he had to win?

Even if it was a battle of the same level, this was also a fantasy, right?

At this moment, Mu Huiyin, who had red hair and red eyes, pulled out her sword. Her sword floated quietly in the sky.

Just like the Ice Dragon General, this sword was also in a spiritual body posture. It was wrapped in fire spiritual aura that was like the sun, dazzling.

The body of this sword was red, showing patterns, as well as Yang flames. The flames around it were oppressive, and two words were carved: Red Sparrow.

A moment later, the longsword fell into the altar and was inserted into it. It wasn't really inserted, but in the form of a spiritual body, as if it had fused. Half of the sword's body fused into the altar, leaving only half the sword and the hilt.

“Sword... Is this the final form of the Strength Soul Seed?” Shi Yu looked at the Sword Spirit.

His gaze trembled.

Just now, he was just very interested, very interested.

Now, seeing this sword, it was the universe's invincible super, super, and special interest.

Sword Spirit!

It was a sword!!!

This was more handsome than an archer. Shi Yu had already begun to imagine himself riding an Iron-eating Beast and then being possessed by a sword spirit, killing one small totem at a time.

“Yes, and no.”

Mu Huiyin said, “The Strength Soul will indeed transform into the form of a sword spirit in the end, but what it looks like in the end depends on the person who hatches it.”

“The Red Sparrow is just my sword, it's a weapon I use to seal the power of my talent bloodline. In the end, it and I will completely disappear and integrate into the soul seed to become a new sword spirit.”

“Do you want to take the test?”

Mu Huiyin said, “Let me remind you in advance that there will be life and death danger.”

“The sword spirit is evolved from the traces of my power. Even if it’s only at the transcendent level, it needs the body and soul of a Beast Tamer above fifth-grade to withstand its power.”

“In order to suppress my own strength, I was forced to contract many ice-element battle beasts and become the Ice Dragon General you name me as.”

“This is a sword spirit with extremely violent power. Ordinary Beast Tamers can’t control it.”

When Mu Huiyin finished speaking, everyone present was speechless.

F\*ck...

How strong were they?

Other contracted pets were all to better use their talent.

But this person did it to suppress her strength!

In addition, even if the sword spirit was at the transcendent level, it needed the physical and soul strength of a Beast Tamer above fifth-grade to control it?

In ancient times, the Dong Huang Dynasty had undergone a period of grading for the Beast Tamer level.

There were nine grades in total. Ninth grades was equivalent to a Beast Tamer intern. The initial level of the eighth-level vocation, the intermediate level of the seventh-level vocation, and the advanced level of the sixth-level vocation. As for the fifth-level, it was naturally the current master level!

In theory, if one wanted to control a transcendent-level pet, one just had to be a primary-level Beast Tamer. The second level of the Beast Taming Space was enough.

However, this sword spirit needed a level-five Beast Taming Space?

After everyone judged, there was only one possibility. Using the easier way to understand it now, it was that the racial level of the sword spirit was ridiculously high!

At the very least, there had to be a high-level overlord race, or even higher. Otherwise, they wouldn’t have such strict requirements for Beast Tamers.

“I’ve controlled its power to the transcendent level.”

“If you can pick it up with your own strength, the first test will be considered to be a pass.”

“If you can’t take the current one, you definitely won’t be able to control the new one in the future.”

Ice Dragon General’s expression was calm as she explained the truth.

“Shi Yu, why don’t we forget it?” At this moment, Director Li frowned at the Sword Spirit in the crowd.

“That sword spirit’s energy is very violent and strong. The load it brings might already be close to the level of a monarch. This is not suitable for ordinary Beast Tamers to contract at all.”

“Your Beast Taming Space is only level three, right? Your own safety is more important,” Dean He said.

They also hoped that Shi Yu could obtain the recognition of the sword spirit. This was a huge gain for Ancient Capital University and even for Dong Huang.

However, as top-notch masters, they could clearly sense the horror of the power of this sword spirit.

“Even if I want to pick it up, I’ll probably have to withstand a certain amount of pressure.” After Instructor Xu sensed it, his gaze was solemn. This was only a transcendent-level sword spirit.

It could be said that even if an ordinary master-level mentor went up now, they might not necessarily be able to withstand the power of the sword spirit.

The three top-notch masters persuaded.

However, many students realized that Shi Yu was still staring at the sword spirit seriously.

“Forget it, I know you’re very impressive, but don’t try random things like this.” Among the students, Yu Shu actually spoke too.

Although he was envious and jealous of Shi Yu, as a Spirit Medium, he knew the drawbacks of the undead element very well.

Especially the drawbacks of undead-type pets that could be possessed.

Most necromancers relied on devouring the life, soul, spirit, and physical growth of the Beast Tamer. Under the possession state, although it could increase the combat power of the Beast Tamer, the requirements for the Beast Tamer’s physique were ridiculously high, and the consumption was even greater than the Beast Tamer’s talent.

Shi Yu clearly had no experience in the school of necromancy, so he didn’t know the danger.

Shi Yu really couldn’t withstand a heroic spirit that was number one below Emperor Shi.

Moreover, there had never been a situation of going easy on the test of the heroic spirit ruins.

“Thank you for the reminder.”

“However, I still want to try.” Shi Yu looked at the sword spirit. Was the requirement for the strength of the body and the strength of the soul very high?

Shi Yu stepped forward and walked to the sword spirit.

At this moment, everyone held their breaths. They saw Shi Yu directly place his right hand on the sword hilt.

If it were any other request, Shi Yu might still be afraid.

However, his physical strength and soul strength, the feedback of his two lifetimes and the skill index, had reached the limit of his physical body at every stage. He was not weak at all.

Although he was only an intermediate Beast Tamer now, his physical strength had long reached the level of a top-notch master.

Boom!!!

The sun-like fire spiritual energy wrapped around the sword hilt directly wrapped around Shi Yu's palm.

Although the sword spirit was only a spirit body, Shi Yu still touched it directly.

At that moment, Shi Yu felt as if he had plunged his hand into the sun. It was extremely hot. The heat instantly invaded his entire body, causing Shi Yu to be instantly covered in sweat. His entire body seemed to be drenched in sweat.

As Shi Yu touched the sword spirit, the sword spirit's power was also released. With a boom, a huge heat wave erupted from the sword spirit. With a hum, a terrifying hot wind surged in all directions!

"What—"

Almost instantly, the students surrounding the altar felt dizzy as if they had suffered a heat stroke. At this moment, the entire altar and the surrounding ground were scorched by the sun. The thick air seemed to have frozen. The terrifying heat pressure made the students present unable to breathe and feel powerless to move.

"Quickly retreat!!!"

The master-level mentors present also didn't expect the power emitted by the sword spirit to be so terrifying. They almost made this group of students faint from the heat. At this moment, beads of sweat also flowed down their heads. They hurriedly organized the students and retreated.

"So hot."

"It's impossible for fire-type elemental life forms to have this temperature, right?"

Many students felt troubled.

This temperature... transcendent? It was ridiculous.

However, what was even more ridiculous was everything on the altar. After recovering, everyone looked at the altar in disbelief.

At this moment, the sword spirit was like a sun wrapped around its blade, as if it could instantly turn all external objects into dust. The current altar was like a scorching hell. Even if a master-level Beast Tamer relied on himself, it would probably be very difficult to last long. That was the place with the highest temperature, like the core of the sun.

As the sword spirit erupted with power and they felt that this wasn't a heroic spirit that ordinary Beast Tamers could control... Director Li, Director He, Instructor Feng, and the others regretted not stopping Shi Yu. How was this a transcendent-level sword spirit...

In theory, the burden produced by this sword spirit was probably something that only a top-notch master could withstand. However, as the blurry figure in the heat wave on the altar appeared, all the teachers and students who retreated widened their eyes.

Due to the core of the heat wave and the area with the highest temperature, Shi Yu's hand was still firmly holding the sword spirit's hilt.

At that moment, Shi Yu's sweat had already evaporated. The fire spiritual energy that was like the sun wrapped around his entire body, as if it was burning his physical fitness, making him feel like he was in the hottest sea of fire.

Buzz!

As Shi Yu exerted strength, the sword spirit inserted on the altar loosened slightly.

Everyone revealed incredulous expressions.

How was that possible!

Not only did Shi Yu persist, but he also really made the sword spirit loosen up?

Was he really a human?

Mu Huiyin, who was also on the altar, didn't show any expression, but she was already surprised that Shi Yu could do this.

Were the Beast Tamers of the later generations actually so trained?

When Shi Yu meditated on the altar to summon her, she could clearly sense Shi Yu's realm. In her era, even if it was a Beast Tamer with special talent, it was definitely impossible for their training to reach Shi Yu's level.

Even a hybrid like her might not necessarily be better than Shi Yu at the same level.

General Ice Dragon looked around the altar again and looked at the group of children who were bitterly persisting and seemed to have lost consciousness. She then looked at Shi Yu, who was in the center of the altar.

It seemed that this young Beast Tamer was extraordinary to be able to obtain the recognition of that dragon.

Like a humanoid ferocious beast, a huge power was hidden in its seemingly weak body.

"Damn, is he alright?"

"How exactly did he last?" Among the students, Yu Shu, Wang Ling, and the others didn't expect that they had also suffered an undeserved calamity outside the altar. Sensing the power of the fire sword spirit's eruption, they felt like their bodies were about to explode.

That Ice Dragon General didn't lie... It was completely difficult to imagine what it would feel like if this power appeared in a person's body. No wonder she had to rely on the power of an ice-type pet to suppress it.

However, at this moment, what made the students who resisted with difficulty but were unwilling to leave the heat... Was the unacceptable fact that Shi Yu, who was of similar level to them, was actually in the center of the heat wave at this moment, still slowly pulling out the sword spirit! Wasn't this guy afraid of the heat?

What kind of monster was he!

On the altar, the sword spirit was slowly pulled out.

During this period, Shi Yu's hair color and pupils were faintly visible. Coupled with the flames around him, he had almost turned from a Super Earthling to a Super Saiyan God. During this process, the power of the sword spirit was still gradually increasing, but Shi Yu also gradually began to adapt to the power of the fire sword spirit from a passive situation.

"Come out!" Shi Yu used all the strength in his body. His face was distorted to the extreme by the heat wave, and he was still forcefully pulling the sword spirit. Suddenly, with a boom, an even hotter orange flame erupted from the sword spirit. The fire was like a blazing sun. At this moment, the endless heat seemed to have been summoned by the fire overlord and gathered in the sword spirit again!

Hu hu hu ~

On the altar, amidst the dazzling flames, Shi Yu, who was pulling out his sword with both hands, suddenly felt relaxed. After the light flashed, the Sword Spirit's entire body was directly revealed in Shi Yu's vision!

With the sword spirit in hand, Shi Yu's entire body was still wrapped in the sun-like fire spiritual energy. Under the state of the sword spirit's possession, his hair, eyes, and body temporarily turned into a color similar to Mu Huiyin.

At this moment, time seemed to have stopped.

The students opened their mouths slightly and looked at the scene on the altar in disbelief.

Shi Yu, who had red eyes and was covered in flames, gave them the feeling that their hearts were trembling.

This was Shi Yu?

"Ridiculous." Yu Shu widened his eyes and took a step back.

Damn, it was really pulled out?

This guy was indeed not human.

"He..."

"He's indeed a monster!" Miao Dongdong also widened his eyes.

"It's been pulled out?"

At this moment, the masters also felt that it was very unbelievable.

Seeing the flames submit and change in attitude in front of them, everyone swallowed their saliva crazily.

"It feels pretty good."

At this moment, Shi Yu looked at his hands in confusion, as well as the sword spirit in his hand.

Success?

This power...

At this moment, Shi Yu felt that his blood had turned into flames. Although the burden was huge, it had infinite power. Perhaps he could instantly one shot Baby Ginseng with this.

[Ginseng Baby:???)

No, maybe it could even burn space and instantly kill Buggy.

[Buggy:???)

Under the deep breaths of everyone present, Shi Yu's gaze moved and looked at Mu Huiyin's heroic spirit.

Was this the form of a sword spirit's possession? It was indeed powerful.

Although it was very draining, Shi Yu could clearly feel that it had given him some other enhancements, but he didn't have time to explore it now.

"This... I should be considered to have completed the first test?" Shi Yu said, waiting for Mu Huiyin's heroic spirit's response.

#### Chapter 176: Shi Yu vs Mu Huiyin

"Yes."

She didn't say much.

Instead, she continued, "Then... let's begin the second test..."

As Mu Huiyin finished speaking, the students who were immersed in shock suddenly woke up.

They almost forgot that there were two tests. Everything wasn't over yet!

After saying that, everyone suddenly realized that a chill had risen.

A snowstorm suddenly appeared out of thin air on the ridiculously hot altar!

Under the snowstorm, a huge dragon's body slowly condensed...

"Roar!!!" A huge monster more than ten meters tall appeared.

The strong body of the creature in front of him was made of ice rocks. The color was ice-blue and dark purple, looking cold to the bone.

Not only its body, its neck, head, long tail, sharp claws, and fangs, its four strong feet, as well as its pair of wings, were all made of ice and stone. Its scales revealed coldness, and snow condensed!

Frost Dragon!!!

Upon seeing this fellow, Shi Yu was clearly stunned.

The surrounding students were also shocked.

What was going on... How did she summon it!

"F\*ck, it's an ice dragon again. Shi Yu can summon the Ice Dragon General. Could it be related to the Ice Dragon Snow Mountain in Icefield City?" Yu Shu recalled that Shi Yu's worm could also summon an ice dragon and couldn't help but analyze.

The more he analyzed, the darker his expression became.

He suspected that there was a conspiracy behind this. He suspected that Shi Yu was here to make fun of him and that he wasn't using a proper summoning channel!

At this moment, as the huge frost dragon appeared, the beautiful and peerless Mu Huiyin Spirit in armor slowly walked towards the frost dragon.

At this moment, this ice dragon phantom appeared and crawled down. It stretched out its huge claws, as if it was giving Mu Huiyin a staircase to climb its body.

Mu Huiyin walked up to the ice dragon's body step by step. During this process, the hilt of her sword ignited with sun-like flames again, and a new sword spirit appeared.

A moment later, the Ice Dragon General stood on the Ice Dragon's body and stared at Shi Yu, who was also holding a sword spirit.

"Mutated Frost Dragon, high-level overlord race, commander rank."

"Defeat us."

"Use the sword in your hand."

"I'll give you three chances to adapt."

As Mu Huiyin finished speaking, even the top-notch masters' voices were a little hoarse.

If it was said that everyone was still a little confused and feeling strange about the title of Ice Dragon General just now, then now, looking at Mu Huiyin standing on the body of the Ice Dragon, everyone only felt a strong pressure.

Defeat them?

From the looks of it, it was more than ten times harder than the first test.

This ice dragon was clearly a super ferocious beast that could casually help Mu Huiyin hunt overlords in ancient times!!

It was actually still a commander rank!!

Even with the support of the sword spirit, Shi Yu, an intermediate-level Beast Tamer, basically had no chance of winning.

In the face of Mu Huiyin in her current state, even if it was a master-level Beast Tamer, they wouldn't dare to say that they could steadily defeat her. After all, her name was too famous. The strongest

general under the Emperor Shi during the era of the Dong Huang Dynasty... In other words, she was the guardian of a country now!

At this moment, under the gaze of the Ice Dragon General, Shi Yu, who was holding a sword spirit, suddenly received two skill information.

It was a message from the sword spirit that possessed him.

Skill: Light Flame Sword

[Level]: Advanced

< Introduction > It's a fire-element skill. It needs to be used in the possession state. Focus the fire power on the sword and condense it into a Light Flame Sword with an extremely high temperature. It can instantly burn everything without a trace.

Skill: Interlocking Sword

[Level]: Super level

< Introduction > It's a fire-element skill. By concentrating the power of fire on the sword, it can absorb and integrate the power of the outside world. The more conflict this power has with the power of fire, the greater the increase in the power of the sword.

After receiving the skill information transmitted by the sword spirit, Shi Yu subconsciously condensed the so-called Light Flame Sword.

In the next moment, the sword spirit became extremely violent again.

Endless flames gathered on the sword, not only on the sword body, but also on Shi Yu's body!

It was as if it was wrapped in the sun, and flames covered its body and blade. At this moment, Shi Yu felt that his arm was extremely heavy, as if it was extremely difficult to control a sword spirit. He couldn't control it at all!

Sensing that the power of fire was about to burst him, Shi Yu lost control and aimed at the ice dragon. He could only release this power!

Boom!!!

Countless people looked at the altar and felt that the light in front of them was instantly snatched away. The world seemed to have fallen into darkness.

At this moment, everyone felt a fatal threat, as if they would fall into the abyss in the next second.

Then, with overflowing killing intent, a white light appeared. A sword light that seemed to have broken through the darkness streaked across, turning into a terrifying fire sword aura. When everyone reacted, they were already covered in sweat again.

At the same time, the sword light shooting out of the sword spirit in Shi Yu's hand swept up an extremely huge pressure and flew towards Ice Dragon and Mu Huiyin.

"This power..."

At this moment, everyone's hearts seemed to have been squeezed. They suspected the level of the sword spirit at this moment. Was this really the power a transcendent-level sword spirit could display with a Beast Tamer?

Even killing a commander-level ferocious beast with one strike didn't seem impossible.

Sword spirits of high-level overlord races... People didn't have any specific concept of this.

However, just as everyone was looking at the Flame Sword in shock, their expressions stopped in the next second.

On the frost dragon, Mu Huiyin's heroic spirit slowly unsheathed its sword with a calm expression. In the next moment, it was as if a wind pressure suddenly rose, transforming into an invisible hand that crushed the sword light Shi Yu had swung out. A huge power erupted in the sky, and a terrifying power surged down like a meteor shower.

Although the scene was huge, but...

"It was resisted just like that?"

Countless people opened their mouths wide and looked at the Ice Dragon General.

"I'll give you two more chances," Mu Huiyin said to Shi Yu.

At this moment, Shi Yu's palm was already injured from the burn and was trembling slightly.

However, as a ruthless person who injured himself and went to the infirmary in order to steal a skill, Shi Yu could still tolerate it!

"A mistake..."

Shi Yu raised his head and looked at Mu Huiyin on the ice dragon. He pinched his right hand with his left hand to stop it from trembling.

"This test allows the summoning of battle pets, right?" After realizing Mu Huiyin's intention, Shi Yu confirmed.

"Yes." Mu Huiyin nodded.

"Then there's no problem." After getting an answer, Shi Yu no longer hesitated and summoned the array.

Hu hu ~ ~

A white summoning array appeared. A little Iron-eating Beast about a meter tall opened its eyes from the summoning array. It first looked up at the huge frost dragon, and then at Shi Yu, who was possessed by the sword spirit.

"Sob. (You dyed your hair and even brought contact lenses.)" Eleven looked at Shi Yu.

Could he also dye its white parts black so that it wouldn't look dirty after the training battle?

Shi Yu : " ... "

There was a battle!

Without the white hair, it wouldn't be the national treasure panda anymore!

“Wuu!”

There was a battle!

Upon hearing Shi Yu's words, Eleven looked at the frost dragon and Mu Huiyin, who was holding a sword spirit.

In the next moment, it felt a strong pressure.

Its whole body couldn't help but tense up.

There was a chance to tear apart a dragon again?

But why was it an Ice Dragon again!

At this moment, Shi Yu placed his hand on it and said, “Relax.”

“This time, you're the support.”

Eleven was stunned and then showed an aggrieved expression.

“Huh?”

“Yes, Knight form.”

Eleven was stunned.

Again...

However, it couldn't refuse the Beast Tamer's orders.

It could only obediently transform into its mount form under Shi Yu's command, allowing Shi Yu to ride on it.

At this moment, Mu Huiyin fell silent.

Was Shi Yu imitating her?

However...

Looking at Shi Yu riding the iron-eating beast with the sword spirit in hand, the scene was completely incompatible. Mu Huiyin's heroic spirit was at a loss for words.

But clearly, Shi Yu wasn't trying to imitate her.

Shi Yu and the others had long tried this posture.

After the vocation assessment, the Iron-eating Beast Knight reappeared!

“Holy shit, Shi Yu plans to fight the Ice Dragon General on this thing?”

“It's very ridiculous.”

“Don’t underestimate the Iron-eating Beast. Have you forgotten this Iron-eating Beast’s performance in the vocation assessment...”

“The vocation assessment is a vocation assessment... The opponent is a high-level overlord race, a commander-level ice dragon... the trump card battle beast of the Ice Dragon General!”

Everyone looked at the altar and had no idea what Shi Yu was thinking.

However, it seemed like Shi Yu had no other choice.

However, if they didn’t remember wrongly, Shi Yu should have a commander-level ginseng baby...

“This Iron-eating Beast has also reached commander rank.”

At this moment, a master-level Beast Tamer with talent in detecting looked at the venue and said.

The mentor’s gaze was solemn. “Moreover, the energy level isn’t low.”

As soon as he finished speaking, everyone stopped talking.

However, there were still a few students who felt that it was a little ridiculous.

“F\*ck, not only has the supplement baby reached the commander rank, but its main battle pet has also reached the commander rank?” Yu Shu and the others were stunned.

Was Shi Yu still an intermediate Beast Tamer?

Yin Zhengfan didn’t cheat like you!

Don’t tell them that the worm was also commander level!

“This is very normal. Don’t forget Shi Yu’s physique...” After a moment of silence, Dean He said.

After this, everyone realized for the first time that Shi Yu’s physique was even stronger than a master-level Beast Tamer.

This was very sick. Even Beast Tamers with Fusion Talent weren’t this monstrous.

With such a powerful physique, contracting a high-level pet in advance would indeed be sustainable

“Monster...” In the crowd, Zhang Qianyi and the others said in a low voice.

Then...

Under everyone’s gaze, the little Iron-eating Beast under Shi Yu kept growing and enlarging. In the blink of an eye, it reached more than ten meters in length. Although there was still a difference in size from the frost dragon, the two huge creatures on the altar looked to be of the same level.

As this scene occurred, everyone couldn’t help but be speechless.

Shi Yu stood on the huge Iron-eating Beast and faced Mu Huiyin’s heroic spirit. This scene was really difficult for these young people to digest.

“Iron-eating Beast Knight vs Ice Dragon General...”

“I feel that something is wrong, but I also feel that there’s no problem...”

At this moment, on the huge altar...

The altar seemed to have become an arena.

On the ice dragon, Mu Huiyin, who was holding a fire sword spirit, stood at the side.

On the Iron-eating Beast, Shi Yu, who was holding a fire sword spirit, stood to the side.

The two parties faced each other. A moment later, Shi Yu took a deep breath.

“Eleven, harden.”

It was impossible to defeat the Ice Dragon General in front of him with the Flame Sword.

The Light Flame Sword was just a transition skill for him to adapt to the sword spirit.

What Mu Huiyin really wanted to do was not a battle of victory or defeat, but a guidance battle. It was to see if he could master the skill “Interlocking Sword”!

At this moment, Shi Yu gradually understood why Mu Huiyin, who had a fire talent and contracted an ice-element pet, could also become a super expert that could fight against totems.

This Interlocking Sword was the key!

Although it was a fire-element skill, and although the user had to concentrate the fire power on the sword body, it could absorb and integrate the power of the outside world. Moreover, the more the power that conflicted with the fire power, the greater the increase in the power of the sword.

Frost and fire were definitely conflicting forces.

In other words, the Interlocking Sword could allow these two powers to combine and unleash power greater than two?

“Fire counters gold. These two powers should also be considered to counter each other.”

At that moment, Shi Yu stood on Eleven. His entire body was armed and hardened, and his physique increased a little.

It was even easier to withstand the possession of the sword spirit.

Moreover, the hardening power even covered the illusory sword spirit. The huge power of metal and fire intertwined within the sword and increased each other. This was the second time Shi Yu tried to control the sword spirit!

At this moment, sensing the change in Shi Yu, Mu Huiyin’s heroic spirit revealed special emotions for the first time.

This Beast Tamer’s ability to accept things was pretty fast.

In an instant.

Shi Yu felt that his burden had reached its limit.

Buzz!!!

Above the fire sword spirit, golden flames spread this time!!

Countless people looked at this scene and still didn't know what had happened. They only saw Shi Yu lift the sword spirit for the second time and slowly land in the direction of Ice Dragon and Mu Huiyin!

Boom!!!

The next moment, the golden flames turned into a terrifying shock wave that seemed to have formed a huge domain that enveloped half the altar. Like a tsunami, it crashed towards Mu Huiyin in the direction of the ice dragon!

At this moment, everyone's expressions changed drastically. They felt a terrifying power fluctuation erupt. It was several times the power of the previous attack. Moreover, the violent wind swept by the energy tide almost made them unable to stand steadily on the spot.

"Wuu!!!"

The Interlocking Sword's pressure was released, and Eleven howled. It was very unhappy that it couldn't fight personally. Where did this sword spirit come from? It had completely stolen Shi Yu's soul. In the future, it would call him "Party Pooper".

On the other side.

Seeing this sword pressure, Mu Huiyin raised her hand again. She didn't use the long condensation like Shi Yu and the others. In an instant, a sword pressure formed by white and cold flames erupted from the opposite side with a bang. In an instant, it squeezed together with the crisscrossing sword Shi Yu released!

Boom!!!

Two huge shock waves directly formed a confrontation, compression, and collision situation in mid-air!

At this moment, a strong wind continued to blow. The two huge beasts and the Beast Tamer in the center of the battlefield could still be unscathed, but the students standing not far from the altar couldn't hold on anymore at this moment. Their faces seemed to be going bald from the strong wind.

"Damn it, Shi Yu, you're indeed a monster. In the future, I'll be a dog compared to you." When Yu Shu spoke, he drank a large mouthful of wind. His lips were blown backward by the wind, but his gaze was still fixed on the collision on the altar.

This power... probably reached the threshold of a quasi monarch.

What was going on!

Crack!

Everyone looked at the sword pressure collision on the arena in shock. A moment later, on Shi Yu's side, the sword pressure domain gradually froze. The huge ice flames were actually about to freeze the golden flames on Shi Yu's side into pieces.

Crack...

The fluctuations of the ice flames were still spreading, causing Shi Yu's expression to change slightly.

"Teacher..." Many students looked at the master-level teacher.

At this moment, the group of mentors also had a serious expression. "Although I don't know what move this sword pressure is, it seems to be created by the joint efforts of Beast Tamers, pets, and sword spirits."

"Shi Yu's obvious disadvantage."

The students no longer cared what skill this heaven-defying sword pressure was. They looked at the subsequent situation on the altar.

At this moment, Shi Yu fell into a dilemma.

He was wondering if he should let Eleven enter the Inner Power sharp state. In that case, he should be able to exceed the limit of the enhanced Interlocking Sword, but...

Crack...

At this moment, even though his body was protected by hardening, a portion of Shi Yu's skin, such as his fingers, still cracked and bled.

His body had already reached its limit.

If a stronger power erupted, as a Beast Tamer, he would definitely be heavily injured.

"What are you afraid of?"

A moment later, sensing that the sword pressure domain was about to collapse, Shi Yu gritted his teeth and made a decision.

Wasn't it just a little more load?

The Iron-eating Beast Knight would never admit defeat!

"Eleven, Blade Explosion!!"

"Baby Ginseng, remember to save me! I believe you!"

"Wuu!!!" Eleven hesitated and continued to listen. Didn't he believe in eleven?

Don't worry, it would control its strength well!

As Eleven roared, Shi Yu looked opposite with his sword in hand.

Mu Huiyin also looked at Shi Yu with her sword. Compared to Shi Yu's struggle, she appeared very calm.

From the beginning to the end, she had only used strength that was slightly higher than Shi Yu's to test him.

At the moment, Shi Yu had already performed very well, but he still didn't meet her requirements.

Although it couldn't be said to be weak, Shi Yu never erupted with the sharpness of his sword. His attack was too stable, and his potential had yet to be completely stimulated.

Born in that chaotic era, she had higher requirements for successors and pursued stable successors too much. It was very difficult for her to reach the peak. It was not what she wanted.

Mu Huiyin increased her strength again, trying to make Shi Yu give up or force out more of Shi Yu's potential.

At the next moment.

Under Mu Huiyin's gaze, the huge Iron-eating Beast under Shi Yu suddenly raised its head and roared at them.

Boom!!!

At this moment, under the frown of Mu Huiyin's heroic spirit, the Iron-eating Beast's entire body erupted with the light of evolution!!

Accompanied by the light, Eleven's body continued to increase. In an instant, it became closer and closer to the frost dragon. Most of the students were stunned and didn't know what happened. In the next moment, as the light disappeared, Eleven's sharp form appeared in front of everyone!!

The huge armor of black and white covered his entire body. The blue eyes under the armor were like lightning, and domineering blue lightning was still flowing between the metal armor. At the same time, the huge lightning power accumulated in the charging room in Eleven's body. The huge amount of lightning that far exceeded its own limit was operating crazily!!

"Wuu!!!" Eleven looked at the frost dragon.

The power of lightning started to flow along the hardened substance to the sword spirit.

After Eleven's own body passed through Shi Yu's body, the violent power of lightning made Shi Yu's body almost collapse. Even if Shi Yu's body was hardened, giving him resistance to lightning... Even if his physique had been strengthened by the Sword Spirit... He could clearly feel the pressure his body was under after exceeding the load!

But... all of this was a necessary process to exchange for stronger power!

Boom!!!

An even larger power of lightning replaced the power of metal and the power of fire to wrap around each other. It was also the most violent power. An even more magical energy reaction appeared between the lightning and fire. The flames on Shi Yu and the sword spirit suddenly increased in size and spread more than ten meters high.

In an instant, flames filled the sky and lightning filled the air, causing blue electricity to linger on Shi Yu and Eleven's bodies. Dark red flames flowed. At this moment, all the Beast Tamers revealed shocked expressions as they looked at the Iron-eating Beast and Shi Yu, who had suddenly changed.

"That, that, that's..." Yu Shu's mouth trembled and his eyes widened.

Wang Ling, Han Dong, Miao Dongdong, and the others were stimulated again!

“Iron-eating Beast Evolution!”

“Nine Li Battle Beast! Inner Power!” Director Li said.

“Shi Yu’s Iron-eating Beast has completed its evolution!”

At this moment, all the Beast Tamers had participated in the Ancient Capital vocation assessment, and they were people who had a very clear understanding of the Iron-eating Beast Nine Li Battle Beast’s evolution chain. When they saw the change in Eleven in front of them, they suddenly opened their mouths wide.

Holy shit, Shi Yu, how much stronger did you become after the vocation assessment? How many new trump cards did you add!

Were they really candidates from the same batch?!

Boom!!!

After the sharpness erupted, Eleven, as its new name suggested, became more like a battle beast. It, who was covered in armor, and Shi Yu, who was fully armed, became more and more like a real warrior at this moment. On the battle beast, Shi Yu felt that his muscles were about to explode. He couldn’t help but squeeze the sword hilt tightly again.

Seeing this scene and sensing the power close to the frost dragon that the Nine Li Battle Beast instantly erupted with, Mu Huiyin revealed a shocked expression.

Bang!!!

At this moment, the Golden Flame Sword that was frozen by the ice flames completely collapsed. The Ice Flame Sword that filled the sky pressed down, but in the blink of an eye, an even larger Thunder Flame Sword pressed down on Shi Yu!!

In an instant, the power situation instantly reversed. The terrifying Thunder Flame Sword pressed down and swallowed the power of the other party at lightning speed, devouring the frost dragon and Mu Huiyin’s heroic spirit.

Facing this attack, Mu Huiyin’s heroic spirit didn’t attack again, allowing the Thunder Flame Sword to swallow their illusions.

“Forget it, let’s stop here. If this continues, their bodies won’t be able to withstand it anymore.” Mu Huiyin’s heroic spirit gave up resisting, looking forward to how far the young Beast Tamer in this peaceful era would grow after experiencing the baptism of war one day.

“Roar!!!” Under the pressure of the Thunder Flame Sword, the blurry figure of the ice dragon roared.

Time seemed to have frozen. Under everyone’s shocked expressions, the illusory figures of the ice dragon and Mu Huiyin’s heroic spirit were instantly swallowed!

It was as if it had never appeared from the beginning to the end. At this moment, the sword spirit that had possessed Shi Yu directly disappeared. Shi Yu also returned to his normal appearance. Instead, under the condensation of countless light sources, a red ball of light appeared in the sky.

Everyone looked at Shi Yu on the huge Nine Li Battle Beast in a daze, as well as the red soul seed in the sky.

The ball of light slowly landed in Shi Yu's palm.

At this moment, in Shi Yu's blurred vision and consciousness, he felt it was more like a divine bean...

"Things are about to change," Instructor Feng said with a serious expression.

The pets of high-level overlord races were existences with enough resources that could definitely grow to the peak of the overlord level.

Moreover, this was the heroic spirit of the Ice Dragon General that could resist totems.

In other words, the upper limit of this heroic spirit's growth was very likely totem level!! That was the guardian level!!

The level of a guardian was the peak battle power of various countries. If a heroic spirit with the level of guardian recognized him as its master, this would definitely cause a huge wave internationally!

## Chapter 177: Birth of the Little Sword Spirit

Outside the heroic spirit ruins, there was silence.

Under the shocked gazes of the students, Eleven slowly shrank from the size of the huge beast and returned to its restrained form.

At this moment, looking at the change in Eleven, Yu Shu and the others had mixed feelings.

He originally thought that Shi Yu's performance during the club assessment was his limit.

He originally thought that his trump card was temporarily replaced by Baby Ginseng...

However, he didn't expect that Shi Yu participated in the club assessment for fun.

The trump card was never sent out from the start to the end.

Just a new pet alone shattered their values.

"I won't compete anymore, alright?" Yu Shu thought.

From the start of the survival trial, after countless blows, Yu Shu completely gave in.

Even with the talent advantage, he didn't know how to compete.

The sword spirit of a high-level overlord race!

This almost meant that Shi Yu would definitely become a legend.

This fellow's luck was simply explosive to have obtained the recognition of the Ice Dragon General's spirit.

However, Yu Shu couldn't feel jealous at this moment because even if he was given a chance, he didn't seem to be able to pass the test Shi Yu just experienced.

Not only was Shi Yu's pet ridiculously strong, but he was also ridiculously strong.

In fact, Yu Shu even suspected that Shi Yu had planned it himself when Shi Yu summoned the heroic spirit of the Ice Dragon General.

Everyone heard their conversation. Both parties clearly knew their common pet, Ice Dragon.

"Shi Yu!" "Shi Yu!"

When everyone reacted, they saw that on the altar, an Iron-eating Beast was still on all fours.

As for Shi Yu, he wasn't riding it anymore. Instead, he hung on Eleven's back like a bow-shaped pendant and closed his eyes. In any case, he didn't look sober.

"Yi!!"

On the iron-eating beast, apart from Shi Yu, there was also a ginseng baby diagnosing Shi Yu's situation.

A moment later, Baby Ginseng came to the conclusion that Shi Yu was too weak and had fallen asleep.

It condensed a nutrient tentacle and pried open Shi Yu's mouth. After letting him eat it first, it felt that it was enough.

As for Shi Yu's injuries, they were already healed by the Iron-eating Beast and the ginseng baby with high-speed healing a moment ago. It was as if nothing happened.

"What's wrong with him!"

At this moment, Director Li and the others ran up the altar in a panic. They looked at the fallen Shi Yu and trembled violently. If something were to happen to Shi Yu...

"Wuu, zz ~"

Eleven closed its eyes and pretended to snore. It was trying to tell this group of people Shi Yu's situation through the acting method.

He was sleeping.

Everyone : "..."

"The soul seed has already integrated into his body, right?" Dean He looked at Shi Yu.

"It should be." Examiner Feng nodded.

"I wonder when it will hatch."

The heroic soul seed was a very magical thing. Apart from the people it recognized as its master, outsiders could not hatch or contract it at all.

It was basically equivalent to binding a certain Beast Tamer after forming.

It would integrate into the Beast Tamer's body and wait to hatch. After hatching, even if it didn't contract, it would protect the Beast Tamer like a guardian spirit.

Therefore, the heroic spirit was very different from other pets. It was very difficult to covet it. Even if outsiders obtained it and didn't obtain the recognition of the heroic spirit, both parties would still be rejected.

Just now, everyone clearly saw General Mu Huiyin's spirit and sword spirit transform into light and condense into a soul seed before landing in Shi Yu's hand.

This meant that the Ice Dragon General had already acknowledged Shi Yu.

"Director Li, take them to rest."

"Next, we have to seal the heroic spirit altar here. We still have something to do."

Instructor Feng looked at the crowd below.

"Yeah." Dean He nodded. He had to let everyone present sign the confidentiality agreement today.

He couldn't expose the fact that Shi Yu had obtained Mu Huiyin's spirit.

Mu Huiyin was the number one person under Emperor Shi of the Dong Huang Dynasty back then. She must have participated in the first totem battle.

This person was indeed a person with a blood feud with the totem race.

Perhaps there were still many totem clans who had enmity with Mu Huiyin who had survived until now.

If Mu Huiyin's battle results were real, the hatred brought by her name would definitely not be small.

The revenge of the totem clans on the descendants of the war heroes had never stopped.

In Dong Huang, no one could be sure if there were any spies planted by the totem clans hidden.

At least, Dong Huang definitely had spies planted among the humans in the totem area. Then, there would definitely be spies from the totem clans in the country.

Before Shi Yu completely grew up, it was better to seal the news about Mu Huiyin to avoid unnecessary trouble.

Shi Yu had contracted an ordinary sword spirit. Where did this Ice Dragon General come from? That didn't happen. They didn't know anything!

He didn't know anything!

"Block the news first." Director Li nodded. The rest would be left to Bureau 11 to handle.

Shi Yu... As expected, none of the members of Bureau 11 were easy to deal with.

He had just arrived at the Heroic Ruins and already caused such a big commotion. He wondered if the old principal would faint from fright after informing him...

...

Shi Yu had a very long dream.

In his dream, Shi Yu seemed to have dreamed that he had become a red sparrow. Then, after being burned by the flames, he transformed into a phoenix after rebirth.

“Hu...”

A long time later, Shi Yu suddenly woke up.

He quickly got up from the bed and looked around.

It was an infirmary with a pretty good environment...

At the side, Eleven and Baby Ginseng were looking at their cell phones...

After discovering that Shi Yu had woken up, they quickly turned their heads.

“Wuuu!!” Eleven waved its hand excitedly.

“Yiya!!” Baby Ginseng was also very excited. They had discovered Buggy’s daydreaming diary.

Shi Yu :” ...”

Shi Yu reached out and looked at his palm.

In the next moment, a red light ball, which was the soul seed of the Sword Spirit, slowly floated up from Shi Yu’s palm.

Looking at the soul seed, Shi Yu fell silent for a moment.

During the final attack, his consciousness and vision were almost blurred, but he could still see that in the end, General Mu Huiyin also integrated into it.

So, Mu Huiyin’s spirit had disappeared just like that?

At that time, Mu Huiyin’s heroic spirit had indeed said that it would completely disappear in the end, transforming into a soul seed and forming a new undead life form.

However, at this point, Shi Yu suddenly felt a little regretful.

“Mu Huiyin’s main body died after suppressing the Ice River Totem. Now, her heroic spirit has also become a soul seed.”

“What a pity.”

Shi Yu still had many things he wanted to ask the Ice Dragon General. Compared to the soul seed, he wanted to know more about the early days of the Dong Huang Dynasty from the other party, especially about Emperor Shi.

However, there was something else that made Shi Yu very concerned.

That was Mu Huiyin's bloodline and identity.

She was half human, but what was the other half?

From the start until now, Shi Yu had caught two points.

One, the sun.

The feeling that the sword spirit's flames gave him was very similar to Sun fire.

2. Phoenix.

If the dream just now was related to this soul seed...

Mu Huiyin seemed to be intentionally or unintentionally forcing him to use the power of the sword spirit to exceed the load to fight.

After the battle, after Shi Yu recovered, he could clearly sense that he didn't have much of a negative impact.

On the contrary, his current state in various aspects was stronger than before the Sword Spirit possessed him.

The flames just now seemed to have revived him.

After the physical body experienced immense pain, a more perfect body was born.

The strength of physique, spirit, soul, and even the Beast Taming Space was almost an all-round increase.

"Sun, Phoenix?" Shi Yu was at a loss.

He was even more curious about Mu Huiyin's identity now.

How did such a ridiculous bloodline, which was close to a myth, come to be born in humans?

Shi Yu couldn't help but be curious. This was because the empress who established the third peak of the Dong Huang Dynasty seemed to also have the bloodline of the Phoenix and was of mixed blood.

It could still be a coincidence the first time, but there had been two such mixed bloods in history, and they had both become big shots. The probability of it being a coincidence was much lower.

1

"From the looks of it, I have to ask the little female dragon in detail," Shi Yu muttered.

Perhaps it could know something...

In addition, Shi Yu had a new discovery.

After the heroic spirit turned into a soul seed, it seemed to have been recognized as a special life form.

Shi Yu's index could already see its information.

[Name]: Soul Seed

[Attributes]: Undead, Fire

[Race Level]:???

[Level of Growth]: Unawakened

Energy Points: 100

Good lord, Shi Yu was speechless. What should he say?

He felt that it was even more ridiculous than the Green Silkworm's cocoon.

This was equivalent to being detected before the young spirit was born. It was still an egg!

Moreover, its energy level was not low. It completely defeated a normal green worm at level ten.

"Wuu!" "Yi!"

At this moment, seeing that Shi Yu was staring at the soul seed, Eleven and Baby Ginseng also looked at the soul seed and asked.

Was this light ball the big sister from before?

"Uh." Shi Yu nodded and said, "Sort of, but not all."

However, regardless of whether it was true or not, the little sword spirit at that time should be a female, right?

Eleven, Buggy, Ginseng Baby... Shi Yu felt that it was indeed time for a female pet to come beside him. It was balanced now.

Shi Yu looked at the light ball and sensed his current state.

He pondered for a moment and planned to awaken the soul seed now.

He also knew the speciality of heroic spirits. Their loyalty was very high. Even without a contract, both parties could communicate telepathically.

The premise was that the Beast Tamer used his own strength to hatch it.

Shi Yu held the ball of light and slowly fell into a meditative state.

However, just as Shi Yu entered meditation and wanted to hatch the soul seed, he was immediately interrupted by the awakened worm!

"What are you doing..." Shi Yu couldn't help but say in disdain when he saw that Buggy wasn't sleeping well. It was supposed to be waiting for evolution but it wanted to run out to watch the commotion.

"I know, I know. Just this once."

Unable to stand Buggy's pestering, Shi Yu summoned the cocoon-like Buggy.

After coming out, Buggy immediately looked over excitedly. Was a new teammate going to join the team?

And it was a little baby that had yet to hatch?

It was sleeping just now and didn't know anything. It was still shocked awake because Shi Yu was injured and unconscious.

It had almost evolved to save Shi Yu.

After learning from Eleven and Baby Ginseng that Shi Yu was alright, it finally calmed down.

"Sob." Eleven told Buggy not to be happy too early.

"Yi." Baby Ginseng also told Buggy not to be happy too early.

A fire-element teammate suspected to be a high-level overlord race. Would they be able to defeat it after adding points??

Baby Ginseng looked worried. Fire-element, and a high-level overlord.

Baby Ginseng would burn to death!

"!!!" Buggy was also shocked. It looked at the soul seed. Seriously?

As a worm, it was also afraid of fire.

Among the three pets, even Eleven couldn't maintain a very stable mentality.

This was because Eleven could sense that Shi Yu liked the little sword spirit very much. Eleven imagined it for a moment before its expression gradually became solemn.

It felt that the Iron-eating Beast Knight would be a common thing now!

In the future, it would probably have to go from the main force to the support of the charger.

All its power would be absorbed by Shi Yu...

"Shut up." Shi Yu looked at the soul seed floating in his palm and glared at the three pets.

The worries of the three pets were completely unnecessary in the short term.

Just now, he had already sensed that under the state of the Sword Spirit Possession, the burden on the Beast Tamer was very high.

The sword pressure from just now looked powerful... But in fact, the sword spirit's growth level at that time was the transcendent level.

This was ridiculous.

If the sword spirit grew to commander rank, Shi Yu felt that he would probably be drained dry before he could even swing his sword.

Therefore, as a proper Beast Tamer, he had to control the growth level of the sword spirit and not possess it randomly.

Iron-eating Beast Knight? Not him. He didn't want to die. In any case, he wasn't interested.

It would be best... if the sword spirit was always one level lower than Eleven and the others. This way, he could guarantee that he wouldn't be suddenly drained dry one day after holding the sword.

No matter how strong Shi Yu's physique was or how powerful Baby Ginseng was, Shi Yu was very certain that in his current state, he definitely couldn't contract and control a high-level overlord race commander-level sword spirit.

Shi Yu felt relieved.

He closed his eyes again and entered a meditative state.

He tried to communicate with the soul seed through his mind.

In the darkness, he searched for the wisp of fire.

One second... two seconds... three seconds...

In the outside world, the three pets stared at Shi Yu, who was hatching the soul seed in his palm.

After several minutes, Shi Yu finally established a certain connection with the soul seed.

At the same time, under Shi Yu's continuous efforts, the light on the bead-sized red light ball became even more dazzling.

Its form also slowly changed under the light.

Eleven and the other pets still stared at the soul seed that was gradually changing its form. They held their breaths and didn't dare to make a sound, afraid that they would disturb Shi Yu and the soul seed.

At this moment, although Shi Yu's eyes were closed, he could also feel the changes in the soul seed in the dark vision.

But a moment later.

Shi Yu opened his eyes in confusion and looked at the little undead in front of him.

At this moment, there was no longer any soul seed in front of Shi Yu.

In its place was an illusory figure with a dark red hilt. The sword was a red "Little Sword Spirit".

Its overall form was similar to Mu Huiyin's "Red Sparrow" sword, but perhaps because it was young, it didn't have that many markings.

It was indeed a sword spirit, but...

Shi Yu looked at the sword spirit in front of him that was the size of a fruit knife and the size of a dagger and fell silent.

No way, even a sword spirit had to grow up slowly???

"Mi ~ ~?"

"Mi ~ ~?"

"Why 'mi'? But that's not important..."

Shi Yu looked at the little sword spirit and was completely certain. A new sword spirit was like a new baby, young like a piece of white paper. In addition, it was very different from the sword spirit he had just taken earlier. It clearly had its own consciousness.

In addition, perhaps because of some connection, although Shi Yu had yet to contract the little sword spirit, he could clearly sense its situation with the index, just like how he sensed Eleven and the others.

[Name]: Unknown Sword Spirit (Unnamed)

[Attributes]: Undead, Fire

[Race Level]:???

[Level of Growth]: Level 1 Awakening

[Race Skill]: Soul Slash (High-level undead skill, Soul Star, can release Soul Slash, doubling the damage to undead creatures)

Possession (Advanced Undead-type skill)

Light Flame Sword (Advanced Fire-element skill)

Interlocking Sword (super fire-element skill)

Sun Flame (transcendent fire-element skill, Flame containing Sun Power)

Spirit Release (transcendent undead-type skill, Spirit Body with this skill, has the second, third, and fourth forms after liberation)

1

[Energy Points]: 500

Sensing the little sword spirit's feedback, Shi Yu's breathing became a little heavy. This was too strong!!

It had only awakened one level. Its battle power could probably break ordinary transcendent pets!

Shi Yu looked at the little sword spirit in surprise and joy.

"Mi ~ ~" At this moment, the little sword spirit had already stuck to Shi Yu's arm.

"Mi ~ ~" The little sword spirit communicated with Shi Yu like a spoiled child.

It wanted to eat a popsicle.. It was so hot.

1

## Chapter 178: Horrible Namer

"Wu..."

Sitting on the bed, Shi Yu looked at the little sword spirit, not knowing whether to laugh or cry.

Eat a popsicle?

Little guy... Are you serious?

Shi Yu had never heard of a fire-element pet having the thought of eating a popsicle.

“You don’t make sense.”

“Is it really alright to eat that kind of thing?”

Would it get diarrhea...

Alright, the sword spirit didn’t have these messy questions.

At this moment, the little sword spirit was leaning against Shi Yu’s arm.

Because it was a spirit body, the feeling was very different from normal weapons.

If the flames had a physical body, Shi Yu felt as if he had touched a soft flame.

It was like water, soft but hot...

After coming into contact with it, he also wanted to have ice cream to cool down.

“Mi...” The little sword spirit begged.

Shi Yu was helpless.

“Ice... No... How about this?”

Shi Yu stretched out his hand and an ice-element energy crystal appeared.

“Mi ~!!”

As Shi Yu took out the ice-element energy crystal, the little sword spirit let out a long cry as if it was very surprised.

He instantly ignored Shi Yu and immediately ran to the ice-element energy crystal that released cold air. It stuck to itself.

Although it was sticking to itself, Shi Yu, who was speechless, felt that it was more like it was sharpening a knife!

A fire-element sword, using ice to sharpen the blade... What the heck was this?

Was it practicing how to harm ice-type pets?

Swoosh!

As if it felt that this wasn’t cool enough, the little sword spirit’s sword immediately turned illusory. It passed through the energy crystal and wrapped itself in the sword.

“Mi!” The little sword spirit nodded in satisfaction.

At this moment, after discovering that the little sword spirit was a problematic child, Shi Yu, Eleven, Buggy, and Baby Ginseng were stunned.

Then, Buggy looked at Shi Yu.

That... wasn't that the energy crystal left for it to transform into an ice dragon??

It felt that... the energy crystal was melting little by little!!! It was purely wasteful!!!

Shi Yu turned around. Was there a problem?

Buggy: QAQ

No problem, as long as you guys are happy.

It suspected that Shi Yu's had a new favorite now!

But forget it. In any case, he had Ice Dragon Whiskers, so it was fine if he didn't get the energy crystal.

"Looks like he has perfectly inherited General Mu Huiyin's characteristics."

Shi Yu looked at the little sword spirit flying happily wrapped in the energy crystal and smiled.

Alright... Shi Yu could clearly sense that the little sword spirit was not afraid of heat, but rather hated high temperatures. Instead, it liked cold things very much.

Wasn't this similar to the Ice Dragon General? She also specialized in contracting ice-type pets to suppress her fire talent.

Well... as long as the little sword spirit was happy.

Shi Yu observed the little sword spirit that was stuck to the ice-element energy crystal.

As expected of an overlord race!

Shi Yu could clearly sense the huge power contained in the little sword spirit's body.

Even if this power was cooled down a little by the ice-element energy crystal, it was definitely not something any Beast Tamer trainee could adapt to.

Was this really an awakened pet?

Compared to the Green Silkworm that could be beaten up by a human with one hand, it was simply heaven and earth.

Race levels indeed enhanced strength.

Now, Shi Yu estimated that only intermediate Beast Tamers could normally control awakened-level little sword spirits.

As the little sword spirit's growth level increased, its existence, be it contracting, possessing, or fighting, would bring greater pressure to the Beast Tamer.

When it grew to the transcendent level, it would probably need a master-level Beast Tamer to control it.

Then what about commanders and monarchs?

It wouldn't require a Legendary-level physique, right?

The conditions for the use of the little sword spirit were indeed very harsh. If the Beast Tamer didn't meet the corresponding requirements and used it forcefully, he would probably be sucked dry, drained, and his body and mind would burn up.

"Fortunately, my physique far exceeds that of a Beast Tamer of the same level." Shi Yu was glad.

Otherwise, he would probably have to learn from General Mu Huiyin and contract an ice-type pet to suppress the sword spirit's power.

However, if there really came a day when his physique couldn't keep up with the little sword spirit's growth speed, this might be a way.

Shi Yu looked at the little sword spirit playing alone and searched for its racial skills again.

The undead of an overlord race... Another big spendthrift.

Six racial skills, three high-level and three super-level. Although Shi Yu felt that it was powerful, he was a little dizzy.

There was really no low-level skill.

In the future, he'd probably be constantly tired from adding points.

Although that was the case, the little sword spirit's skills were really strong.

High-level undead skill, Soul Slash.

Soul Star, the Undead skill. The little sword spirit had the aptitude to become an undead traitor at a glance.

However, it was indeed a good skill. Be it an ordinary life form or a spirit body, this move could cause huge damage and was impossible to guard against. After all, very few creatures mastered the skill to defend against souls.

High-level undead skill, Possession.

Needless to say, this was also a divine skill that superimposed its power on other life forms.

However, possession also required a certain compatibility.

For example, it was basically impossible for the little sword spirit to possess baby ginseng and the worm.

According to research, Beast Tamers were actually the best targets to possess.

Although Beast Tamers were weak, human physiques were the most inclusive. If both parties had a contract, they could enter a special resonance state.

After the Beast Tamer contracted with an undead that mastered the possession skill, they became partners who could stimulate the potential of both parties the most. They were even stronger than pets that had been possessed.

For example, if the little sword spirit directly possessed Eleven. Eleven using the Interlocking Sword was far inferior to the sword spirit possessing Shi Yu. If Eleven transmitted its strength to Shi Yu who was using the sword skill together, that would be much more powerful.

Therefore, many Spirit Mediums treated the undead that could possess them as their life-saving skill. Of course, it was only a life-saving skill. After possessing a human, the consumption and burden was really huge. This was also why even if Yu Shu's dragon soul pet mastered possession, Yu Shu didn't dare to go into battle himself and let the dragon soul possess the bone dragon.

Compared to the Fusion Beast Taming Talent, the disadvantage of the possession skill was that it consumed a lot of energy and was easy to overload.

Advanced fire-element skill, Light Flame Sword.

Shi Yu had used this skill before. It was a standard fire-element sword-type skill. Its characteristic was that the sword light was extremely fast, like a flash that could instantly destroy the enemy.

Super level fire-element skill, Interlocking Sword.

This super skill felt a little like Zhang Qianyi's elemental coordination talent in the vocation assessment, but also like the energy fruit of the ginseng baby, but it was different.

Although Baby Ginseng's Energy Fruit could contain two powers, the higher the compatibility between the two powers, the greater the power it could display.

Although the Elemental Coordination Talent could coordinate the power of different attributes, it was the same. Coordinating elements with high compatibility was easier for Beast Tamers. Coordinating the power that countered each other would also consume a lot of Beast Tamers.

However, the Interlocking Sword was different. The more compatible the two powers fused, the more ordinary the power. The more conflicting the two powers fused, the greater the power.

Fire borrowed the power of the wind, after all. This was a very common elemental combination skill, but it couldn't be done with the Interlocking Sword. When the wind and fire combined, it was inferior to the combination of the two powers that were incompatible, like fire and water.

This should be a skill that perfectly matched Great General Mu Huiyin.

After all, she had an incomparable fire talent, and her pets were all ice-element pets, which happened to counter her.

However, this move also had a disadvantage. The user himself had to withstand the super burden brought by the intersecting power. This was comparable to Eleven's restrained sharpness of Inner Power. They both used unconventional methods and paid a price in exchange for incomparably violent power.

This was also the reason why Mu Huiyin wanted to test Shi Yu first. If Shi Yu couldn't control the power of a sword spirit of the same level, even if Shi Yu directly obtained a sword spirit, to Shi Yu, the sword spirit would ultimately become something that harmed Shi Yu, just like the burden her physique placed on herself.

Sun Flame.

This was a super fire-element skill that contained the power of the sun. It was considered a type of different Fire skill. Its power was extremely strong, and it could also be enhanced by the power of the sun. At the same time, this move... seemed to be the nemesis of the undead element. To undead, what they feared the most was the sun.

The little sword spirit was walking further and further on the path of a traitor of the undead department...

As for Spirit Release, it was the skill that surprised Shi Yu the most.

Second, third, and fourth forms after Spirit Release? What would they look like... Shi Yu was very curious.

Unfortunately, the little sword spirit couldn't even reach the beginning at the moment.

The entry-level Spirit Release only provided one effect: It could allow the little sword spirit to increase the proficiency level of this skill by burning the soul of the enemy and killing the enemy.

This move required continuous devouring of souls to increase the skill level in order to free the second, third, and fourth forms. It was a very clear skill to increase the skill level. In a sense, it was to fight monsters and level up.

"Six high-level racial skills. This is too useless for Beast Tamers and Ginseng Babies." Shi Yu sighed again.

However, this Spirit Release skill could allow him to take a breather.

He could level up by fighting monsters. Shi Yu liked this kind of crude method of leveling up.

There was nothing else in the ancient capital, but there were many undead.

Shi Yu already had a premonition that the consumption of teaching a super skill could directly cripple him.

He was very happy about this skill that increased proficiency in a very clear way.

"It's better not to give it more points before contracting the little sword spirit. Let it grow naturally." Shi Yu thought for a moment and made a decision.

Letting the little sword spirit have a good childhood was the right way. It was not in a hurry to grow up at all.

He could still barely withstand the high levels of Eleven, Buggy, and Baby Ginseng. As for the little sword spirit, Shi Yu, who had experienced its power, felt that he really couldn't hold on in his current state.

But then again, if he also taught the little sword spirit healing and recovery skills and let it possess him, would his burden be lighter? This should have the same effect as contracting an ice-element pet to suppress the power of fire...

Shi Yu touched his chin and looked at the little sword spirit.

"By the way, I have to give you a name."

Shi Yu said to the little sword spirit.

“Mi?”

The little sword spirit wrapped in the energy crystal seemed to be drunk as it staggered towards Shi Yu.

“It’s just a name. I can’t keep calling you Little Sword Spirit, right? Just like them. Let me introduce you first. This is Eleven, this is Buggy, and this is Baby Ginseng. You have to get along well in the future.” Shi Yu introduced the three emperors in the team to the Little Sword Spirit.

“Wuu!” “!” “Yi!” The three emperors had also observed the newborn little sword spirit for a long time.

As soon as the little sword spirit was born, she was immediately appointed the Big Sister in the team.

Fire directly countered metal, worm, and wood. What kind of suffering was this?

“Mi ~” The little sword spirit shook. It still didn’t know who was who.

It only knew that it had a very deep connection with Shi Yu. Shi Yu was its mother!

Whatever Shi Yu said, it would do!

“How about calling you Little Red?” Shi Yu said.

The little sword spirit was speechless.

It took back its words.

The little sword spirit shook its head crazily. Perhaps it had retained General Mu Huiyin’s aesthetic sense, but it felt that this name was too lousy.

“Then...?”

“Mi!” The little sword spirit looked at Eleven, Buggy, and Baby Ginseng for help.

At this moment, the three pets showed helpless expressions.

From their names, haven’t you discovered the level of naming their Beast Tamer had?

Eleven’s name was the number of the Feeding Base.

Buggy was simply a word.

Baby Ginseng might as well be a race name. Occasionally, it would be called the towering emperor outside the team.

“Wuu.” “!” “Yi!”

Eleven and the others looked regretful. Why don’t we teach you how to read? Then, it could name itself.

“Mi...” The little sword spirit fell into deep thought. It wasn’t impossible.

Shi Yu: “?”

## Chapter 179: Senior Is Here

As he felt that Eleven, Buggy, and Baby Ginseng would prevent him from establishing his authority in front of the little sword spirit, Shi Yu directly called them back into the space.

These three guys were too ridiculous.

Were their names not nice?

He trembled.

It was clearly very appropriate.

After Shi Yu summoned them away, he looked at the little sword spirit again.

At this moment, the little sword spirit was a little nervous, afraid that Shi Yu would give it another name.

Shi Yu :“...”

“Forget it, adapt to the outside world first.” Shi Yu held his forehead.

“Mi ~” The little sword spirit turned around happily. Its gaze... No, its light was pointed at the fridge.

At the same time.

“You’re already awake?”

A voice suddenly came from outside the door.

When Shi Yu heard a familiar voice, he immediately looked over.

“Senior?”

The person was wearing a black T-shirt and brown shorts. A white research suit was draped over her shoulders, and her long legs were wrapped in black silk. It was Lu Qingyi.

“Why are you here?”

Shi Yu was rather surprised and immediately got out of bed to welcome her.

“You caused such a big thing. How can the police not send someone?” Lu Qingyi was helpless.

She looked at the red little sword spirit that had just entered the fridge. After a moment of silence, she asked,

“It’s probably a heroic spirit formed by General Mu Huiyin’s power.”

“After receiving the news that General Mu Huiyin’s spirit was summoned by you, I rushed over from Icefield City directly.”

“Uh.” Shi Yu nodded. “Wait, how long did I sleep?”

Shi Yu glanced at the time of the electronic clock.

Then, his expression darkened.

Holy shit, another day?

Although there were no injuries and his physical fitness had gradually recovered to its peak, Shi Yu still slept for a long time afterward...

"Then it's alright." Shi Yu scratched his cheek. He had never slept so much in his previous life.

"Senior, you're here because...?"

"There's nothing especially big. It's just that the matter of you obtaining Mu Huiyin's spirit is very important. Come and take a look," Lu Qingyi said.

"I didn't expect that what that ice dragon said was actually true. There really is a figure like General Mu Huiyin. This can be considered a very lucky coincidence," Lu Qingyi sighed.

Shi Yu and Mu Huiyin were both considered people of Icefield City. Shi Yu had also cracked many ruins in Icefield. It wasn't difficult for people to accept that he had summoned the spirit of General Mu Huiyin.

"Yeah, I didn't expect that either."

"By the way, how's the handling of the Ice River Totem?" Shi Yu asked.

"It's alright."

"Ice Dragon already has the intention to cooperate with humans to completely destroy the Ice River Totem. If it learns that you have obtained the recognition of General Mu Huiyin's heroic spirit, our relationship should be able to improve further."

"However, activating a forbidden weapon is very important. Even Bureau 11 doesn't have the right to decide directly. It might take a while to decide," Lu Qingyi said.

"Is that so..."

"You just said that General Mu Huiyin's heroic spirit has a huge impact?" Shi Yu asked.

"Is there anything I can do?"

"Just cooperate and block the news. The news that you obtained the recognition of General Mu Huiyin's heroic spirit has already been sealed. At that time, all the Beast Tamers present had already signed a confidentiality agreement. You should treat it as an ordinary sword spirit for the time being to avoid unnecessary trouble."

Lu Qingyi looked at the little sword spirit that flew out of the fridge timidly, shining and seemingly very excited.

It was difficult to imagine that this was the heroic spirit of Great General Mu Huiyin, who had repelled countless totems. It had degenerated too cutely...

"Ah, is it that serious?"

Shi Yu extended his hand and the little sword spirit landed on him.

Shi Yu still wanted to announce General Mu Huiyin's deeds.

In any case, this was also an impressive archeological discovery. If the secret was not announced, he could not share the curiosity that it had obtained. Wasn't this too lonely?

"Of course, although it's relatively safe in the country, you probably don't want to be targeted by those foreign races who have a blood feud with General Mu Huiyin, right?" Lu Qingyi smiled.

"At that time, the totems that were destroyed represented only a small portion of the world's powers. There are still many factions with strength at the level of totems, still active today..."

"They are still eyeing the human domain covetously. If they know that you have the spirit of a great general, you won't have it easy. Or do you want to lose your freedom and live under the surveillance of bodyguards 24 hours a day?"

Shi Yu was speechless. Lu Qingyi continued, "But I still found you a bodyguard."

"Who?"

"You should know. You're a student of Ancient Capital University now. You'll also be living there for four years. Your best bodyguard is naturally the Teacher Ying," Lu Qingyi said with a smile.

"Rich cat?" Shi Yu was stunned.

Lu Qingyi looked at Shi Yu strangely. What was this title??

"Cough, cough, cough, gem cat." Shi Yu was embarrassed and excited...

"Yes." Lu Qingyi didn't think too much and nodded.

"Don't worry, with it protecting you in Ancient Capital City, nothing will happen."

Shi Yu was at a loss whether to laugh or cry. Even without this, that gem cat seemed to have said that it would protect him in the future.

After all, at the moment, Shi Yu seemed to be the largest snack supplier for the gem cat.

"Senior, are you familiar with it?"

"Of course. On its birthday, I gave it a level-eight gem that was discovered in the ruins." Lu Qingyi said, "Then, Teacher Ying brought me to clear several ruins. We used to be partners for a period of time. We were comrades!"

Shi Yu : "..."

They did sound like buddies.

If someone gave him a gem worth more than a billion, he could immediately become sworn brothers with them.

The conversation between the two parties changed and returned to General Mu Huiyin.

"Speaking of which..." Lu Qingyi asked, "I heard that the Ice Dragon General is of mixed blood?"

“Yes, I feel that it’s related to the Phoenix race,” Shi Yu said.

Lu Qingyi was stunned and said, “Then wouldn’t it be the same as the empress?”

Shi Yu nodded and said, “Yes.”

Rumor had it that the empress had the Phoenix bloodline. The nine pets she contracted were all members of the Phoenix Race.

The Fire Phoenix, Ice Phoenix, and the other nine Phoenix Clans crossed the nine major attributes, and their strength all reached the totem level. For a time, they also pushed the empress to the position of quasi-mythical Beast Tamer.

When the female emperor ascended, there were even phoenixes dancing together.

In the future, archeologists believed that the empress might be a human emperor supported by the Phoenix Race and that her position was achieved through improper means.

But it couldn’t be denied that when the empress was in power, it was the most stable and fertile period in the Dong Huang Dynasty. At that time, the Dong Huang Dynasty was so strong that no totem clans dared to invade it.

With the citizens living in peace, no one cared about the background of the empress who had ended the war of totems.

Moreover, the Phoenix Race had always been close to humans since the totem era. They were good totems and often brought auspicious signs to humans. In comparison, humans accepted the Phoenix Race.

However, whether the empress led the Phoenix Race, or whether the Phoenix Race supported the empress... It had always been an endless debate.

“Senior, I remember that you’ve explored ruins related to the Phoenix race, right?” Shi Yu asked.

“What are your thoughts?”

Lu Qingyi shook her head. “I’m not sure, but there’s indeed a saying that the Phoenix Race deliberately nurtured humans and supported hybrid life.”

The dragons and phoenixes could be traced back to the Mythical Era at the earliest. The ancestors of both parties were the strongest batch of Mythical creatures. Unfortunately, after the Mythical Era ended, the descendants of the phoenixes didn’t do as well as the dragons.

The dragon bloodlines were spread across various species. The phoenix race had always pursued the purity of their bloodline through hybrid evolution, but it was precisely because of this that their race became smaller and smaller, and their atavism wasn’t as fast as hybrid evolution.

In the end, the Phoenix Race also started to learn from the Dragon Race and develop. Therefore, an archeologist speculated that the human race was one of the Phoenix Race’s goals.

It seemed that various signs indicated that the Phoenix Clan’s plan had reached its peak during the Great Empress period.

Unfortunately, there was no evidence.

In addition, as the dynasty established by the Great Empress collapsed due to the internal strife of the Phoenix Race, the Phoenix Race disappeared from the sight of humans again. This made the mystery even greater.

During the era of the empress dynasty, the Phoenix Race's internal strife was also one of the ten greatest mysteries in the archeological world of Dong Huang.

"If you're interested, you can investigate it yourself in the future," Lu Qingyi said. "Actually, some time ago, when you mentioned plant pets to me, I was investigating this matter."

Shi Yu looked up. "The undead battlefield outside the ancient capital?"

"I remember... is it because of the Phoenix race?"

"Yes." Lu Qingyi nodded.

"A totem-level undead Dark Phoenix is sealed below. It's suspected to be the one who experienced the internal strife of the Phoenix Race. Unfortunately, apart from that seal, we humans don't have any way to effectively defeat it at the moment, so we can only continue to let it be sealed like this."

It wasn't that Ancient Capital didn't want the surroundings to become more normal.

Unfortunately, due to the existence of the Undying Dark Phoenix, it couldn't do it at all.

There were plagues and curses everywhere. It was a paradise for the undead. If they didn't solve the key factor of the Undying Dark Phoenix, they could only let it be.

It was because of the existence of that Undying Dark Phoenix that the ancient capital became the current undead capital, producing undead-type pets.

"Let's talk about it after I reach the Legendary stage." Shi Yu smiled bitterly.

This wasn't like the Ice Dragon or even the Ice River Totem.

For example, the ice-element Ice River Totem belonged to transcendent creatures with relatively conventional abilities despite being strong. Humans could destroy it with fire-element forbidden weapons.

However, if it was a top-notch totem-level creature like the Undying Nether Phoenix, a dark dual-element creature, and one with a phoenix bloodline... No one was confident of completely annihilating it.

"But the Undead Battlefield is a good place..." Shi Yu looked at the little sword spirit and said, "There are more undead there. Perhaps it's very suitable for its growth. It needs to burn other souls to free its other forms."

Shi Yu was a little curious about the little sword spirit's other forms.

Actually, it was more because he had heard that there were many ancient ruins there...

"It shouldn't be dangerous there, right?"

“How can it not be dangerous?” Lu Qingyi was speechless. “It’s even more dangerous than the Ice Dragon Snow Mountain. But if you bring Teacher Ying along to travel, there won’t be much danger.”

“I understand, I understand.” Shi Yu nodded. He was good at sucking up to others.

Unfortunately, the rich cat’s wasn’t a big enough deal. After all, if it could hold down that phoenix and let the little sword spirit directly kill it, its Spirit Dispelling proficiency would probably directly reach perfect level and above...

## Chapter 180: Chi Tong

After Lu Qingyi arrived, Shi Yu wasn’t sleepy anymore.

Shi Yu chatted with her about many things regarding the Phoenix race.

Lu Qingyi still had a lot of research on this race.

After all, her Green Spirit Wind Bird was the phoenix bloodline obtained in an archeological ruin.

“Mi...”

However, as the two of them chatted, they almost ignored the real protagonist of this encounter.

The little sword spirit listened to the two of them talk about Dong Huang for thousands of years with a blank expression. Her head hurt.

Little Sword Spirit:(ಠ\_ಠ ^ ಠ\_ಠ).

In order to attract their attention, the little sword spirit condensed flames on the sword and used the flames to form a crying expression.

Unhappy!

“Mi ~!!”

“Uh.” Shi Yu looked at the little sword spirit.

“Are you hungry?”

Shi Yu realized that the little sword spirit was really talented. How long had it been since it was born? It could already use the power of fire as an emoticon.

Not only was he stronger than Buggy, but he was also smarter than Buggy.

“Mimi!!!” The little sword spirit nodded crazily.

It threw away the ice-element energy crystal. Although it was quite comfortable to carry this thing, it felt a little hungry after carrying it for a long time.

“Alright.” Shi Yu understood. After all, the little sword spirit had just been born and was an overlord race. It was time to replenish a large amount of nutrition.

“Uh, fruit to eat...” Shi Yu fell into deep thought.

The little sword spirit had mastered the Sun Flame. If Baby Ginseng could create a nutritional fruit by absorbing light, theoretically speaking... Well, it seemed unlikely. There was still a huge difference between sunlight and Sun Flame.

“Mi?” The little sword spirit landed in Shi Yu’s hand. What was that?

“You should give it the soul crystal.” Lu Qingyi helped the little sword spirit refuse this food.

Was it appropriate to feed a undead fruits?

Even if it was really nutritious, it was no different from giving the green worm rare metals.

It couldn’t absorb much at all!

“For undead creatures at the Awakening Stage, the Soul Crystal is the most perfect food. Even fire-element creatures can delay the cultivation and develop it after it reaches the transcendent level.”

“That’s true, but I’m not prepared. “Senior, do you have it?” Shi Yu said.

“I don’t have any undead pets. Go and ask Master Feng. The Beast Tamer Troops definitely have stock.”

“Or... Do you want me to bring you along to hunt personally? I just want to see its ability.” Senior Lu looked at the little sword spirit with interest.

“Outside the city wall?” Shi Yu’s eyes lit up.

“Yes.” Lu Qingyi nodded.

Soul crystals were the same as fire-element energy crystals, thunder-element energy crystals, and water-element energy crystals. They were all pure energy crystals.

However, natural elemental energy crystals like fire, lightning, and water were born in nature in the form of mineral veins or condensed by creatures above commander rank.

As for the soul crystal, its birth method was different. It only appeared in the bodies of undead creatures and was considered the core of the other party.

Therefore, the competition between undead creatures was also the greatest. All the races could form a food chain.

The Undead Battlefield was known to have tens of millions of undead. The Beast Tamer Troops were stationed nearby and would regularly sweep it. Resources like soul crystals couldn’t be lacking.

Even if the Beast Tamer went hunting himself, as long as he had the strength, he could obtain the Soul Crystal like picking up a rock.

“Didn’t you say that this little sword spirit has mastered the Spirit Release skill?”

“Yes.”

“From entry-level proficiency to proficiency level, the requirement to reach proficiency level requires devouring ten thousand transcendent-level undead and a commander-level undead.”

“The process of obtaining the soul crystal can also increase its Spirit Release skill. It’s killing two birds with one stone. In the future, you can come to the undead battlefield to train more,” Lu suggested.

Not only could it increase the skill proficiency, but it also obtained a large amount of reserve food!

“Then let’s go take a look?”

Shi Yu was also tempted. It was mainly because Senior Lu was bringing him. Even if he went to the Undead Battlefield, it should be very safe.

In addition, Lu Qingyi was right. This was the advancement requirement for the Spirit Release skill.

To release the second form, it needed to devour 10,000 transcendent-level undead and a commander-level undead.

Unlocking the third form required devouring a thousand commander-level undead and a monarch-level undead.

To liberate the fourth form, one needed to devour 100 monarch-level undead and one overlord-level undead.

It corresponded to proficiency, mastery, and perfection.

The Spirit Release skill was not exclusive to the little sword spirit. Apart from it, there were still some undead who had mastered the Spirit Release skill.

This kind of undead had a unified characteristic, which was that their race was too strong and their strength was too strong. They needed to seal part of their strength and unlock them one by one. Otherwise, excessive strength would interfere with their growth, causing their strength to go berserk.

At the moment, there was only a perfect proficiency record for this skill. He had never heard of a higher fifth form. Probably no pet had reached it. According to the previous conditions, someone deduced that it probably needed to devour ten overlord undead and a totem-level undead.

The former was still alright. It was too difficult to kill a totem-level undead.

2

This difficulty was not something that could be achieved under normal circumstances.

“Let’s go.” Lu Qingyi smiled.

“Let’s go.” Shi Yu pulled the little sword spirit over and said, “I’ll take you to a big meal.”

Because it was a spirit body, the texture of the little sword spirit’s body was not like a real sword. Its body could even bend and make various arcs. Shi Yu could also lengthen its sword body like rubber mud, as if he was pinching its face.

This was very cute. Otherwise, if it was a metal-element sword, Shi Yu would really be afraid of cutting off his hand when interacting with it.

“Mi!!”

...

“Dr. Lu, Shi Yu?”

When Shi Yu and the others came out, the instructors and mentors outside were immediately shocked when they saw them.

Shi Yu woke up.

“Shi Yu, how’s your situation?” Director Li asked in concern.

“You guys...”

Director Li, Director He, and Instructor Feng had been waiting outside. At this moment, when they saw Lu Qingyi bringing Shi Yu out and looking like she was about to leave, they couldn’t help but ask.

“There’s nothing serious,” Shi Yu said. “Thank you for your concern.”

The three top-notch masters had also heard from the doctor and the doctor that Shi Yu was alright, but he had slept for a day regardless. It was very difficult for them not to think too much.

“I’ll take them to the edge of the undead battlefield to take a walk. I’ll be back later,” Lu Qingyi said.

Shi Yu nodded. The little sword spirit that came out of Shi Yu’s pocket also popped its head.

“The soul seed hatched? It’s indeed a sword spirit!”

The three of them were stunned, and then they had bitter expressions.

What!

To the Undead Battlefield?

His superior had given the order not to let anything happen to Shi Yu. Now they were letting him go to the Undead Battlefield to cause trouble. Was it alright for him to take a walk?

“It’s alright,” Lu Qingyi confirmed.

“Alright, alright.” Instructor Feng was in a difficult position. Lu Qingyi had more power, after all. Moreover, Lu Qingyi’s strength was stronger than the three of them.

A top-notch master!

Lu Qingyi was currently one of the few master-level Beast Tamers who were close to the legendary level under the age of 30 in Dong Huang. In addition, although they were both top-notch masters, there was still a difference in strength.

After all, the threshold of resisting overlord-level creatures was too broad. It was possible for them to resist commander-level races and overlords, but it was also possible to resist monarch-level races and overlords. It was also possible to resist for a few minutes under the overlord’s bitter attacks. Or, it was possible to fight back.

Lu Qingyi, whose many pets had quasi mythical bloodlines, was clearly the batch with the highest battle power.

...

A moment later.

Outside the ancient capital.

Dark clouds lingered, and above the gloomy plain battlefield, a gentle starlight appeared.

A huge bird with a sky-blue body and beautiful blue feathers, bright colors, and a light body slowly appeared.

Its wings were as green as the sky and suffused with a gentle light. It wrapped the two figures on it and dispersed all the Yin energy.

Before long, the Green Spirit Wind Bird slowly descended.

Lu Qingyi and Shi Yu got down from it together.

Because the Plain Battlefield was filled with plagues and curses, for convenience's sake, Lu Qingyi simply let Shi Yu ride with her on a pet.

Shi Yu shouldn't have any experience training in such a place, but Lu Qingyi had come here many times for archeology. Whether it was her Green Spirit Wind Bird or the Wind Demon Lion with an evil suppressing bloodline, they all had the ability to dispel plagues and curses.

"Pfft..." Shi Yu stopped breathing as he stood on the black ground and looked at the bones and ghost flames on the ground.

What kind of lousy place was this?

"You'll get used to it." Lu Qingyi looked at Shi Yu and smiled faintly.

"...Alright," Shi Yu replied with difficulty.

The problem was that it was very difficult to get used to.

Shi Yu was considered bold. He had even slept beside a tomb. However, the environment here was really very oppressive. Apart from the pressure on his vision, there were also various negative energies suppressing his mind and heart.

"Mi!!!"

Shi Yu was depressed, but at this moment, the little sword spirit flew up excitedly.

Its entire body burned with flames!

Its battle intent increased.

In its opinion, the atmosphere here was very suitable for a big battle.

"Although it looks timid, it seems to be very brave."

Seeing the little sword spirit like this, Lu Qingyi couldn't help but smile.

“After all, it’s the spirit of Grand General Mu Huiyin. That person completely rose up in the war. Just the overlords she had killed alone are in the dozens, and the number of monarchs that have been destroyed is countless.” Shi Yu felt that since the little sword spirit had inherited the characteristics of Mu Huiyin’s liking for ice pastes, it probably had also inherited some battle will.

Beep...

The location where the two of them landed was not bad. There were many undead creatures nearby.

Just now, because of the aura of the Green Spirit Wind Bird, many undead immediately pretended to be dead and hid. But as the Green Spirit Wind Bird landed and put away its aura, many undead immediately became restless.

Shi Yu and Lu Qingyi both had indexes. Under the energy display of their indexes, they quickly locked onto a skeleton pile about 300 meters away.

In the skeleton pile, after a whoosh, a specter with burning ghost flames, facial features, and a terrifying face floated up like a red lantern.

[Name]: Lantern Monster

[Attributes]: Undead

[Race Level]: Medium transcendent

[Level of Growth]: transcendent

[Race Skill]: Ghost Flame

[Introduction]: It was originally a symbol of happiness, light, vitality, perfection, and wealth. It turned into an undead because of the war.

Energy Points: 555

“It’s a lantern monster.”

Lu Qingyi spoke and turned to look at Shi Yu and the little sword spirit. “It’s up to you.”

At this moment, Shi Yu also looked at the little sword spirit.

However, before he could give the order, the little sword spirit immediately turned into a red light. Before the lantern monster knew what was going on, it pierced a hole in the middle with one hit!

With a boom, the lantern monster immediately exploded. Flames surged out from inside, and ghost flames filled the air!

Then, an even stronger, hotter, and more dazzling flame covered the ghost fire and swallowed it in an instant.

In the explosion, a broken soul crystal fell. At the same time, a flame flew from the lantern monster to the little sword spirit’s side and fused into its body.

At this moment, the little sword spirit’s aura strengthened a little, and it cried out in joy.

“Mi ~!!”

After saying that, it looked at the Soul Crystal that the lantern monster had exploded.

It wasn't in a hurry to get it. Instead, it looked at Shi Yu like it was asking for credit, hoping to receive Shi Yu's praise.

“...Not bad, but don't attack rashly next time. What if the opponent is very strong?” After being stunned, Shi Yu said to the little sword spirit,

“Remember to listen to my command. I'll let you attack again. Of course, if you face danger, you can counterattack yourself.”

The little sword spirit was just born and had only awakened one level, while the lantern monster was at the transcendent level. It was a whole level higher than it.

The little sword spirit was reckless, making Shi Yu very embarrassed.

“Mi ~!!” It was unknown if the little sword spirit understood.

At the side, Lu Qingyi nodded slightly and said, “High-level skill Soul Slash, instantly killing the lantern monster. That was the Spirit Release just now, right? After burning the killed lantern monster, it can break it down into special spiritual power to increase skill proficiency.”

“It's just a little useless soul crystal.” She looked at the fallen soul crystal again.

The soul crystal that should have been fine now looked broken.

They couldn't sell it for a good price anymore. They could only let the little sword spirit settle it itself.

Unlike other energy crystals, it was not easy to get a high-quality soul crystal. It was very challenging for Beast Tamers to hunt undead.

“It's already not bad.” Shi Yu went to pick up the soul crystal. The little sword spirit flew over and quickly burned the soul crystal to death, devouring its soul power.

“Mi ~” The little sword spirit stuck to Shi Yu in satisfaction.

However, it still felt hungry... It looked around again.

“Don't worry ~ There are many undead here,” Shi Yu said with a smile.

“Senior, it shouldn't be a problem for the little sword spirit to be judged as a high-level overlord, right?”

“Well, three high-level skills, three super skills, in addition to this energy value that's comparable to transcendent level, and the attack just now... There's no doubt that it's a high-level overlord race.”

Lu Qingyi gave it a very high evaluation.

Generally speaking, with two transcendent race skills, the creature could be considered a low level overlord.

Three super-level skills was the baseline for middle level overlords.

Four super racial skills made up the skills of the high-level overlord race.

However, this was ignoring the other qualities of the pet and looking at the evaluation criteria of the skill alone.

Although the little sword spirit only had three transcendent racial skills, this ridiculous energy value was enough for it to be called a high-level overlord race.

“Impressive ~” Shi Yu looked at the little sword spirit.

At this moment, Lu Qingyi thought again and said, “Perhaps, it’s not just that. The Spirit Release skill is very special. It can’t be regarded as an ordinary super skill.”

“What do you mean?”

“Because the method to increase the proficiency of the Spirit Dissection is relatively clear.”

“The growth level is divided into seven stages. After the overlord level, it’s the totem level. Of course, there are many ways to call this level. Some people like to call totem level, some like to call humans at that level a guardian, and some people like to call this level quasi-mythical. It means that this is a level close to the Mythical Domain.”

“Do you know the requirement for overlord-level creatures to advance to the totem level?” Lu Qingyi asked Shi Yu.

Shi Yu shook his head.

“There are actually many ways to get to the totem level. Among them, one method is to train the transcendent racial skills to the ‘transcendent level’ after your growth level reaches the overlord level standard. At this time, transcendent racial skills will once again lead the growth of your pet to another level, which is the totem level we’re talking about.”

“You can understand that most totem-level creatures have mastered a transcendent skill.”

“General Mu Huiyin’s heroic spirit has mastered the Spirit Release skill. The Spirit Release skill is the most explicit skill to increase proficiency. As long as there are enough resources, it’s not too much to say that it has totem potential, which makes it a quasi-mythical race. After all, very few pets have such a clear path to advance.”

“Mi!” The little sword spirit was so awesome.

“The criteria for advancing to the totem level is for the transcendent racial skill to reach the transcendent level?” Shi Yu was stunned.

“Yes.” Lu Qingyi nodded and said, “But there are also differences between totems.”

“For example, a totem that has trained a super ability to perfection can only be considered an ordinary totem.”

“And some totems have already raised two, three, or even four superpowers to that level. They have new nicknames, just like how the Undying Dark Phoenix under this undead battlefield is a top-notch totem.”

“Under the influence of its power, even an ordinary red lantern that symbolized happiness could be turned into undead...”

“It’s off topic. So, as long as its growth is smooth, your little sword spirit might also have a chance to advance to the totem level,” Lu Qingyi said. “You understand what to do, right?”

“I understand.” Shi Yu nodded. Senior Lu meant for them to develop steadily.

Stable development, and not to be reckless!

“Then... let’s continue hunting with it,” Lu Qingyi said. However, she suddenly thought of something and looked at Shi Yu and the little sword spirit with interest.

A faint smile appeared.

“By the way, I seem to have also heard that after the Sword Spirit possesses you, you will become a red-haired and red eyed person, a Chi Tong?”

“I heard from Director Li that it’s also very elegant, no, divine. How about transforming for me?”

“If it’s pretty, I’ll also consider contracting a possessed undead.”

Shi Yu: “?”

Could it be that the purpose of her contract with the undead was to dye her hair and get free contact lenses?

“Wait,” Shi Yu said. “Senior, you just said Chi Tong?”

Lu Qingyi was stunned and nodded. “What’s wrong?”

Shi Yu looked at the little sword spirit and said, “Smile.”

The little sword spirit was at a loss, but it still followed Ji Yu’s request and used the flames to condense into a smile on the sword.

Its fiery red eyes were very lovable.

“Yes, I’ll call you Chi Tong. After all, after you possess me, your power turns me into a red-haired Chi Tong. It’s a symbol of our commonality. How about that?” Shi Yu asked the little sword spirit.

“Mi!!” The little sword spirit was stunned and nodded happily.. Alright, alright, it was better than Little Red and Little Mi.
