

Beast 181

Chapter 181: Shi Yu and Emperor Shi looking at each other

Shi Yu directly named the child on the spot.

Lu Qingyi was rather speechless. She thought that Shi Yu wanted to do something.

This Beast Tamer was too big-hearted. He actually got inspiration from daily conversation to find the name of his pet...

"Then I should also have half the credit for naming it," Lu Qingyi said at the side.

"Uh." Shi Yu was speechless. If she said so...

"No other requests ~ Hurry up and transform," Lu Qingyi said.

"It's only at the Awakening level now. Even if it possessed you, you shouldn't feel any pressure, right?"

Shi Yu was vexed. He really wanted to see it.

That was true, but... he had already sworn not to be an Iron-eating Beast Knight. It was a little addictive.

It wasn't a good habit.

Forget it, this was the last time. Next time, definitely not.

"Alright then..." Shi Yu nodded and looked at the little sword spirit. "...Chi Tong, possess me. "

"Mi?!"

The little sword spirit was stunned for a moment. After understanding what it meant, it immediately flew in front of Shi Yu and circled around him. After pausing for a moment, it slowly fused into Shi Yu's heart.

At the same time, Shi Yu closed his eyes.

This was the first time he was possessed by the little sword spirit. The test didn't count.

The proficiency of the possession should be quite high, and the proficiency of the other skills shouldn't be low either. However, his little sword spirit was clearly only at the entry level at the moment. It was a new student and very unfamiliar.

Therefore, the two parties might take a longer time to bond.

Lu Qingyi watched carefully.

One second... two seconds... Three seconds later, a cyclone began to swirl under Shi Yu's feet, blowing dust.

Right on the heels of that, Shi Yu's body began to turn blurry and hot. Red flames slowly erupted and lingered around him.

Buzz...

The fire threads slowly became dense. At this moment, Shi Yu slowly opened his eyes. After opening them, his gaze seemed to contain flames as it gradually changed in the direction of Chi Tong's burning eyes.

However, perhaps because both parties had yet to contract, the little sword spirit was not very proficient in using Possession either. The fusion process between the two parties was still a little difficult. Shi Yu's pupils kept changing between his black pupils and Chi Tong's burning eyes.

Apart from that, his hair color also flashed between black and red, constantly changing.

After a few seconds, the two parties finally matched.

With a boom, countless fire threads condensed. A fierce spiritual aura that was like the flames of the sun transformed into flames that wrapped around Shi Yu's entire body. At this moment, Shi Yu's entire body seemed to have become thinner but more powerful!!

Moreover, at this moment, his hair had completely turned bright red, and his eyes were the same as before. His skin also became even fairer under the illumination of the fire spiritual energy!

At this moment, Shi Yu's aura had completely changed. He no longer looked like a human. The emotions in his eyes had faded a lot, and his voice had become much more ethereal. He stretched out his hand. In the next moment, an adult version of the Chi Tong Sword Spirit appeared in his hand like a flaming sword.

"Senior, it's done." Shi Yu looked at Lu Qingyi and saw that she was full of praise as she kept nodding.

"Very good, it looks much more reliable than White Brook's Fusion Talent."

Compared to White Brook, who had become a beast-eared girl, Lu Qingyi felt that Shi Yu's special effects were a little more handsome.

She had decided. The next pet would be an undead with a possession skill!

Moreover, the race level couldn't be low. At least, it had to be an overlord race.

It wasn't that she had never seen undead who possessed humans before, but the humans never changed much after the bond.

Perhaps it was related to the power of the undead. Those undead were too weak, causing the special effects to be a little low.

Unlike Shi Yu, whose pet simply changed the aura of the Beast Tamer.

Were there any relatively cute undead creatures with high racial levels?

Lu Qingyi fell into deep thought.

"Alright, alright!" Lu Qingyi hurriedly said while in deep thought.

“Alright.” Shi Yu exited the Sword Spirit Possession state. The flames on his body disappeared, and his hair and eyes returned to normal. The Sword Spirit in his hand also slowly degenerated into a young spirit form that looked like a fruit knife at the start.

“Hu...” Shi Yu sighed. Although the little sword spirit was only at the Awakening level, its consumption was not small.

“We can continue now, right?”

“Let’s go.” Lu Qingyi smiled, satisfied.

After her curiosity was satisfied, Lu Qingyi began to seriously bring Shi Yu to fight monsters.

However, to put it bluntly, it was purely to bring Shi Yu to familiarize himself with the environment at the edge of the Undead Battlefield.

After learning that the little sword spirit had mastered the Spirit Release skill, Lu Qingyi knew that the Undead Battlefield was the best training place for Shi Yu and the little sword spirit.

The ten million undead here could satisfy the advancement requirements of most of the little sword spirits.

There were even totem-level undead!

As long as someone was able to kill it.

Soon, Lu Qingyi and Shi Yu walked together. They brought the little sword spirit to hunt more than ten undead.

It was all hunted by the little sword spirit.

They let it fight above its level!

Its growth level had also broken through to level two of Awakening.

[Name]: Sword Spirit Chi Tong

[Attributes]: Undead, Fire

[Race Level]: High-level overlord

[Level of Growth]: Level 2 Awakening

[Race Skill]: Soul Slaying (Initiate), Possession (Initiate), Light Flame Sword (Initiate), Interlocking Sword (Initiate), Sun Flame (Initiate), Spirit Dissection (Initiate)

After the little sword spirit grew up, Lu Qingyi saw it.

“I was wrong. It’s killing three birds with one stone. Bringing it here to hunt undead can increase the proficiency of the Spirit Release, and it can also solve the food problem. Its racial skills will increase. After absorbing nutrition from the food, it will also increase its growth level...” Lu Qingyi smiled and said, “This is a good place, right?”

At the side, Shi Yu, who was watching the little sword spirit burn the soul crystal, felt helpless. It was a good place, but a good place...

However, in the villa, enjoying the air conditioner and inhaling fragrance was pretty good too.

However, one thing was for sure. If there was a big boss leading the team, it wasn't impossible for them to be at the Undead Battlefield.

"Yes." Shi Yu agreed.

"By the way, Little Chi Tong, are you full?" he quickly asked Little Chi Tong.

At this moment, Lu Qingyi glanced at the time.

"Continue, or go back?"

"I think so too. Otherwise, Director Li and the others would be anxious," Lu Qingyi said.

"Little guy, are you full?" She also asked Little Chi Tong telepathically.

The little sword spirit: "Mi ~!!"

The little sword spirit nodded. Anything was fine.

It had a satisfied expression. Of course, it wasn't really enough, but it was enough.

When Shi Yu saw the little sword spirit eating, he smiled and said, "Then let's go back first."

Lu Qingyi nodded. A moment later, she summoned the Green Spirit Wind Bird.

They went back through the same transport.

On the Green Spirit Wind Bird, although the Wind Bird's flying speed was very fast, because it was wind-element, it formed a perfect wind domain. Inside, Lu Qingyi and Shi Yu couldn't feel any wind pressure.

The two of them weren't far apart. As they flew, Lu Qingyi turned her head slightly and glanced at Shi Yu, who was staring ahead. She raised her arm and patted his shoulder.

"Did the iron-eating beast give you your physique?" she suddenly asked.

After rushing over from the icy plain, Lu Qingyi heard a lot from Director Li and the others. There was also something about Shi Yu's physique.

If Shi Yu didn't have a physique that wasn't inferior to any master, it would probably be very difficult for him to control an extraordinary sword spirit normally and obtain the recognition of General Mu Huiyin's heroic spirit.

"Indeed, Eleven gave me a portion of it. As for the other portion, there was another opportunity. Why?" Shi Yu was curious.

After Eleven upgraded and evolved, the strength of the physique that it gave Shi Yu was not low either. To say that his current physique was all enhanced by points of feedback, that was not entirely true.

"Didn't you tell me previously what you saw at the iron-eating beast ruins?"

“Hundreds of Iron-eating Beasts have mastered the hardening of their proficiency above transcendent, and then completed the evolution through this skill, right?” Lu Qingyi said.

“Yes.” Shi Yu nodded.

“Aren’t you curious? The corresponding period of the Iron-eating Beast Ruins is the Wu Emperor period,” Lu Qingyi said.

Shi Yu continued to nod. This was actually the point that made Shi Yu most conflicted. He felt that the Iron-eating Beast should be even further away in time. It was best to involve Huang Emperor and Chi You. Only then would it be explosive.

However, on careful thought, it was basically impossible. In the Mythical systems of the Huang Emperor and Chi You, Mythical creatures were frequent visitors, and during the Mythical Era in this world, humans had yet to be born.

The truth was that the history of the iron-eating beast ruins was only two thousand years.

This was the ruins of the Wu Emperor Era, still after Emperor Shi.

“At that time, such ruins might belong to a special army of Emperor Wu,” Lu Qingyi said.

“That’s indeed a possibility.” Shi Yu didn’t deny it.

The Wu Dynasty was one of the few dynasties in history with relatively clear reasons for its destruction.

Emperor Wu was too warlike. For example, after Emperor Shi and the empress unified the dynasty, they didn’t continue to launch external wars. However, Emperor Wu was a war fanatic. After banishing the totems, he had been chasing after it and frequently brought his troops to fight with the totem clans in the totem area.

He went deep into the danger ground many times, hoping to completely destroy the enemy totem.

For decades, the totems were suffocated.

However, perhaps because of the years of war, the humans also felt the pressure.

Before the totems died, there was already a conflict among the humans.

It was said that the injuries of a late-stage Wu Emperor were very difficult to treat. He needed to rest regularly. The people around the Emperor were familiar with this. For unknown reasons, they betrayed him one day and joined forces with the totem clans to rebel against the Wu Emperor. A peak dynasty was destroyed.

Then, the information about Emperor Wu was also deleted and changed by the usurper, who maliciously smeared it.

“In the history of humans, Wu Emperor is a Beast Tamer who has tempered his body to the extreme. All its battle pets are pets known for their physical bodies. If the Iron-eating Beast army is the secret army of Emperor Wu, and if the potential of the Iron-eating Beast is so strong, could it be possible that Wu Emperor himself contracted the Iron-eating Beast to evolve?”

Lu Qingyi asked, "Apart from the feedback increase of the Fusion Talent on the physical body of a Emperor Wu, the feedback of its pets should also be the most important thing for the incomparably strong physical body his."

Shi Yu was stunned and said, "Now that you mention it, that's indeed a possibility. After all, just one evolution is enough for the Iron-eating Beast's physique to match that of a giant dragon."

"Eleven is now a quasi overlord race... It's because its physique isn't inferior to any overlord race..."

"Right, according to President Feng, aren't you guys doing something about the Iron-eating Beast Village? If the archeology team discovers that the Iron-eating Beast's evolution form is a battle pet of Emperor Wu, the value of the Iron-eating Beast will probably increase," Lu Qingyi said confidently.

Shi Yu first smiled before immediately feeling sad.

"Stop, I have a headache now."

"Emperor Shi, Emperor Wu, Empress... This is impossible!!!"

Emperor Shi, Emperor Wu, Empress, Dragon Emperor, Emperor Kong, evolution talent big boss, and Mechanical Giant, who could also be said to be one of the first ancestors of the Mechanic class...

There were seven legendary Beast Tamers in the history of Dong Huang. Shi Yu didn't expect that he would be related to three in a short period of time that needed to be investigated!

This woman dug a big hole for him.

Lu Qingyi smiled. "Life goes on."

...

A moment later, the two of them returned to the protected area of the ruins.

In the protected area, Instructor Feng, Dean He, Director Li, and the others were still waiting.

"Ah, you guys are finally back."

Finally, they had returned!

Seeing that Lu Qingyi had returned with Shi Yu, the three of them were relieved and wiped their sweat.

"I already said it'll be fine." Lu Qingyi was helpless.

At the edge of the Undead Battlefield, Shi Yu's little sword spirit alone could sweep through it. What could happen?

It was fine, unless the Undying Dark Phoenix broke out of the seal...

"I'm just worried about you guys," Director Li said with a laugh.

"Well, is Dr. Lu staying here today? I'll get someone to prepare a room for you." Instructor Feng looked at Lu Qingyi.

"No, thank you. I'll leave later," Lu Qingyi said.

With that said, she looked at Shi Yu and said, "Do you still plan to continue the military training?"

"It's better to return to school with me directly."

Shi Yu thought for a moment and said, "I still want to stay here for a longer time. When the time comes, I'll go back with the other students."

"By the way, Director Li, I remember that one person in the Heroic Ruins can summon multiple heroes, right?" Shi Yu asked.

"Uh." Director Li was stunned. He smiled bitterly and said, "That's indeed the case. You still plan to summon one?"

Shi Yu shook his head continuously. "No, no, I was just asking casually. I don't have this intention anymore..."

Even if he summoned another great general spirit, he wasn't interested anymore. Having a little sword spirit was enough.

He really couldn't afford more.

"I just want to stay longer and understand history more," Shi Yu said.

"Alright." Lu Qingyi nodded and said, "I hope you can gain something."

She had also stayed here for a long time back then, but unfortunately, her gains were not much. It was not as much as Shi Yu's gains from staying here for a day.

Comparisons were pointless. Shi Yu's talent was better than she imagined.

"I hope so..." Shi Yu also hoped that there was. He looked at Director Li again and said, "Director Li, did anyone still receive the recognition of a heroic spirit?"

"The Martyr's Altar hasn't been unsealed. After you came down, no one has gone up yet. Everyone's busy signing a confidentiality contract." Director Li chuckled and said, "Now that you're awake, it's time to unseal that place again."

Shi Yu nodded.

Then, Shi Yu answered the three top-notch masters' questions about the little sword spirit again. He started to return to the proper training.

After Senior Lu exhorted information from Shi Yu, she left directly and ran to Ancient Capital University to settle things.

At this moment, the heroic spirit ruins finally began to be unsealed.

The students were stifled.

Seeing Tao Yi and Shi Yu summon awesome heroic spirits consecutively, no one wasn't envious.

Among them, the heroic spirit summoned by Shi Yu made them sign some confidentiality contract. Although this group of students was a little confused, they could feel Shi Yu's awesomeness.

Now, after the seal of the heroic spirit ruins was lifted, hundreds of students immediately swarmed towards the ruins.

They hoped to recreate Shi Yu's glory on the altar. At the very least, it would be good to have an archer like Tao Yi.

...

"Damn it, I was a step too slow..."

After learning from the instructors and mentors that the ruins had been unsealed, countless students ran over.

However, there were definitely fast and slow students among the hundreds.

It was impossible for more people to go up the altar together, so they could only queue.

People like Yu Shu and Wang Ling, who felt that they could summon heroic spirits but couldn't get in the front line, could only worry.

The scene of the altar was lively all of a sudden.

Even though it was almost evening, this place was still extremely lively.

"How lively." Shi Yu packed up. After changing his clothes, he also wore a hat and came to the scene to watch the commotion.

At this moment, looking at the students putting on painful masks on the altar, he couldn't help but smile.

At that moment, everyone's attention was focused on a person on the altar. Shi Yu had changed his clothes and was wearing a hat and mask. As he walked in the crowd, no one noticed him.

"This disguise talent..."

Just as Shi Yu felt that his disguise talent was invincible, a palm suddenly landed on Shi Yu.

"You... are awake??" Wang Ling and Yu Shu were together, looking at Shi Yu in a daze.

Shi Yu took back his words.

"Yo!" Seeing this pair of good friends, Shi Yu waved and greeted them.

"Good evening."

Good my ass!

Wang Ling and Yu Shu looked at Shi Yu with complicated expressions.

He wanted to ask Shi Yu about General Mu Huiyin's heroic spirit, but unfortunately, due to the contract, he couldn't say it.

"Shi Yu, do you think that manual is real?" Wang Ling said.

"What manual?" Shi Yu was stunned.

"I have to communicate with the spirits with the intention of 'archeology'." Wang Ling and the other students from the archeology Department (1) class had long treated Shi Yu's words as a mystic manual. They remembered it in their hearts and waited for the moment when they went up to summon it.

Yu Shu also heard about it and felt that it could be tried.

"Uh..." Shi Yu was speechless.

This thing... how should he put it?

Shi Yu looked in the direction of the altar. It was completely difficult to say. It all depended on luck.

For example, now, he was going to the ruins with the intention of archeology. He wanted to know more about Emperor Shi and Mu Huiyin. Was it useful? Was it useful? He didn't care!!

"..." Just as Shi Yu was about to tell the two of them that money could change one's life, his brain suddenly trembled.

His eyes were confused and his mind was a little dazed.

Everything around him seemed to have fallen silent.

Shi Yu's mind seemed to be isolated from the outside world.

Just now, with the mood to try it out, Shi Yu used telepathy to communicate with the ruins again.

However, to Shi Yu's surprise...

He felt it again.

This time, a scene appeared in front of Shi Yu's eyes again. It was a very vague scene. Although it was vague, he felt like he was in that world.

In the scene, there were two backs.

One of them was a domineering middle-aged man who stood with his hands behind his back. Shi Yu couldn't see or recognize him.

However, Shi Yu could vaguely see the image of Ice Dragon General Mu Huiyin in the blurry figure behind him.

"Are you leaving?" The man's dignified voice sounded.

"I plan to return to the icy plain and guard there. A snow mountain is not enough to isolate the huge ocean empire," the woman said. "Leave the border of the dynasty to me, but remember to erase my information."

"It's a pity. I still want you to continue fighting with me."

"I'm not interested in the Mythical domain, much less longevity. It's best you don't immerse yourself in it. This is the most critical moment of the dynasty."

“We’re already close. How can we not take a look? Don’t worry, I’ll leave enough backup before exploring. This heroic spirit ruin is one of them. With it around, even without me in the future, humans can still have the power to resist the totems.”

“Your bloodline is relatively special. I’ll use my strongest power to preserve the traces of your power. At that time, your heroic spirit can transform into an unparalleled general to intimidate the totem!”

The woman began to remain silent, and the man also began to remain silent.

At this moment, Shi Yu, who seemed to be in an alternate space, had already gone numb.

His heart was shocked to the extreme, as if he had heard a huge secret!

Then, what made Shi Yu’s heart nearly explode was that in the blurry historical scene, the man standing with his hands behind his back seemed to have sensed something. He suddenly turned his head slightly and turned around. His dark pupils seemed to have passed through the river of time and completed eye contact with Shi Yu.

“Who’s there?”

Crack!

The scene stopped. The world Shi Yu saw shattered completely. He was so shocked that he broke out in cold sweat.

“Shi Yu, Shi Yu, why are you in a daze? What do you want to say?” Beside Shi Yu, Yu Shu and Wang Ling looked at Shi Yu, whose expression had changed drastically, in confusion.

Chapter 182: Mysterious Crystal

“I wasn’t in a daze. I cracked,” Shi Yu muttered.

This time, after hearing the Voice of History, he was shocked that the ruins didn’t crack!

That was... Emperor Shi and Mu Huiyin?

Was it the conversation between the two when the heroic spirit ruins were built?

But why did Emperor Shi suddenly turn his head as if he had discovered his spying!

Shi Yu was shocked when his gaze landed on him.

“You cracked?” Yu Shu and Wang Ling were at a loss.

Shi Yu looked at the two of them and then at the heroic spirit ruins.

After waiting for a few seconds, he realized that the Emperor Shi had not crossed the River of Time to catch him. There was no Emperor Shi Spirit appearing either. Even the other heroic spirits in the ruins didn’t move. Shi Yu said to Yu Shu and Liu Qiyue,

“The waters here are too deep and the implications are too big. I’m not playing anymore. All the best.”

After Shi Yu warned the two of them, he felt a little weak and wanted to go back and lie down.

At this moment, Yu Shu and Wang Ling were stunned again.

“What do you mean?”

Yu Shu said as he watched Shi Yu leave.

He looked at Wang Ling.

Wang Ling said, “Didn’t you hear what he said? I just want to say that I understand everything. It’s very difficult for me to explain the parts that I don’t understand. Try it yourself carefully.”

Yu Shu: What the f*ck???

...

Not long after he left, Shi Yu returned.

His mind was a little confused now. He wanted to calm down. The ruins were too noisy.

Shi Yu began to recall the situation from the beginning.

To trigger the Voice of History, Shi Yu had many experiences. There was nothing to say about this.

From the conversation between the man and the woman in the “video”, their identities were undoubtedly Emperor Shi and Mu Huiyin.

The heroic spirit ruins were established after the battle of the totems. At that time, the war had already ended, and the Dong Huang Dynasty had completed its unification and walked on the right track. It was the start of the Eastern Beast Taming Era.

After the dynasty got on track, Mu Huiyin seemed to have chosen to return to her hometown. Her goal was to guard the dynasty’s border.

This was not difficult for Shi Yu to understand. Icefield City had a special geographical location that was adjacent to the ocean.

During the totem era, the Ice River Totem had led its clansmen to fight the totems in the sea many times to snatch resources.

After the Beast Taming Era, while the land totems were fighting humans, the sea totems had taken advantage of the situation many times.

However, humans couldn’t do much about ocean creatures either. It was as shameless as hiding in an alternate space.

It was only when the Dragon Emperor reached an agreement with the underwater dragon race that the sea posed less of a threat to humans, now that the Dragon Palace City dragon race was an ally of the Dong Huang Dynasty.

“Judging from the conversation, after expelling the totem, Emperor Shi didn’t seem to have given up on fighting, but the target doesn’t seem to be the totem.”

“According to the records, at that time, Emperor Shi was incomparably powerful. He led the Dong Huang Dynasty and was completely capable of continuing to destroy the fleeing totems like Emperor Wu, but he didn’t choose to do so... Instead, he looked at a higher domain.”

“From what the Ice Dragon General said, the Mythical Domain... Immortality... At that time, Emperor Shi was pursuing these??” Shi Yu sat on the bed and frowned.

Why did every emperor want to be immortal and become a legend?

However, it seemed normal. After reaching that level... there wasn’t much to pursue other than this.

Shi Yu was still young and had no feelings for these things. He wasn’t sure if he wanted to just die or become immortal after he grew old.

“In that case, the destruction of the first generation of the Dong Huang Dynasty is very likely because Emperor Shi challenged the Mythical Domain. They even really managed to find the long lost Mythical Creature, causing the Dong Huang Dynasty to encounter an unknown calamity?”

This was a very surprising secret, but not that surprising. Legend had it that when Beast Tamers pursued the Mythical Domain, this was very normal. Perhaps every Beast Tamer who had reached that level had done this, including the legendary Beast Tamers that weren’t limited to the Dong Huang Ancient Country. The legends of the other countries must have also pursued the Mythical Domain.

Even those totemic foreign races were chasing to advance to the Mythical stage.

Emperor Shi pursued the Mythical Domain, and the Dong Huang Dynasty might have perished because of Mythical creatures. Even a high school student might be able to guess this guess, but in the absence of evidence, guesses were forever guesses. They couldn’t become true history.

But now, as Shi Yu saw the historical video, this guess became even clearer. Emperor Shi was indeed preparing something. In fact, at that time, Emperor Shi had already found a target and knew that he might fail! Therefore, he had left behind the so-called backup plans he mentioned.

However, compared to this, what confused Shi Yu the most was still the Emperor’s reaction at that time...

Wasn’t the image of history recorded by the “historical spirit” that was naturally produced? In theory, when he looked at the historical image, it should only be equivalent to looking at a recorded video. Why could the person in the video still sense who was looking at him? This time, the elemental wall had broken.

Or could it be that there were parallel universes of the past, present, and future? The Ancient Emperor of that time could sense that someone was spying on him in the future because he had mastered the power of time?

Or could it be that there were also Shi Di’s spirits in the ruins?

“Do you know anything?”

Shi Yu asked the little sword spirit that crawled out of his chest.

“Mi?” The little sword spirit was at a loss.

“Ah...” Shi Yu was helpless. This was no longer the Ice Dragon General.

“Forget it, rest well tonight. We’ll start investigating tomorrow,” Shi Yu said.

Although he said that the ruins were magical and that the waters were too deep and the implications were too great, Shi Yu still had to continue investigating.

He belonged to the type of person who would be more obedient when encountering strange phenomena, but after calming down and analyzing it carefully, he felt that the more he took a step back, the angrier he was.

“I’m a Beast Tamer recognized by the heroic spirit of Grand General Mu Huiyin. The Ice Dragon that has made great contributions to the Dong Huang Dynasty even asked me to call it Grandma, what’s there to be afraid of?! Even if Emperor Shi is still alive, we’re all family...”

After Shi Yu figured it out, he meditated and rested.

In the past few days, he had clearly just strengthened the Beast Taming Space to level three, but Eleven had evolved and broken through, Baby Ginseng had broken through, Buggy had evolved and broken through... He was also possessed by the Sword Spirit. Shi Yu felt that before he even cultivated much, the Beast Taming Space seemed to have improved a lot...

Although it couldn’t be said that he could reach level four immediately, he felt that it shouldn’t be a problem in another two to three months.

Compared to the feedback of the pet, the feeling it gave Shi Yu was more like his space was too small. The pet had broken through consecutively and accidentally enlarged it. Otherwise, it would feel uncomfortable staying here.

While he was cultivating, Shi Yu didn’t forget to let Little Chi Tong, Eleven, and Baby Ginseng improve their relationship.

“Little Chi Tong, go play with Eleven and Baby Ginseng in the ruins.”

“Use your Sun Flame to help them train their fire resistance. Well, just burn them.”

Shi Yu realized that Eleven, Baby Ginseng, and Buggy were all a little weak in his team.

The fire-element team was really superior.

“Mi ~!!” The little sword spirit was confused, but its attitude was very serious.

“Wuu!!!” A moment later, in the ruins space, Eleven was extremely excited. As long as its new teammate trained with it, everyone would be good friends!

As for Baby Ginseng, it wore a painful face. How was this training its fire resistance? It was clearly training its healing ability... Compared to Eleven, it was clearly weaker in fire. Even if its level was very

high, it couldn't be said to be unscathed after resisting the little sword spirit's super-level fire, because it was a plant.

Among the three weak guys in Shi Yu's team, only the worm in the Beast Taming Space escaped because it was in a delicate phase...

...

That night, Shi Yu heard a lot of commotion.

Light appeared outside the window, as if someone had obtained the recognition of the heroic spirit.

After casually taking out his cell phone to look at the group message, he realized that it was only an ordinary heroic spirit, so Shi Yu didn't pay attention.

Until the next morning.

Shi Yu arrived at the place yesterday.

There were still many people here today. After all, it was already very late when the ruins were unsealed yesterday.

There was no time for many people to try summoning it.

"Can't I?"

Near the Heroic Spirit Ruins, Shi Yu tried to find the feeling he had yesterday. Unfortunately, he couldn't enter that strange feeling again.

Shi Yu naturally didn't believe it.

The ruins altar didn't crack. In theory, it should still be able to enter a listening state.

If it was like the stone statue of Ping Cheng or the stone wall of the Iron-eating Beast Ruins, it would have directly cracked. Shi Yu wouldn't have to go through so much trouble. After all, the dead were to be respected, but the problem was that it hadn't cracked yet.

"Have breakfast and read some books first, I guess."

Shi Yu turned and left...

He decided to spend the remaining five days of the military training with this ruin.

As for any more time than that, he really couldn't afford to waste much. After all, he still had a pile of pets to raise.

Throughout different times in the day, Shi Yu secretly came to the ruins altar many times.

When others summoned their spirits, he was chatting with the altar in the corner.

When others accepted their tests, he held a memorial for Emperor Shi in the corner.

When others happily obtained their soul seed, Shi Yu was depressed. He really hoped that he could answer Shi Di's "who's there".

In fact, because he missed Emperor Shi, Shi Yu even specially found Director Li and Instructor Feng to apply to ascend the altar again when no one was around.

What if there really was an Emperor Spirit inside?

“Didn’t you say you weren’t going?”

“And why do you need to be alone when you do it?”

Director Li and Instructor Feng looked at Shi Yu and were stunned.

“I originally didn’t plan to go up, but I made another discovery. This is part of an important archeological plan.”

“In order to avoid making a big commotion again, it’s better to choose a time when no one is around.”

“If we have to do the confidentiality agreement again, you guys will be in trouble.”

Shi Yu coughed dryly and explained.

“Yes.” Director Li and Instructor Feng looked at each other and nodded.

With Bureau 11’s identity, this request was not difficult.

They deliberately found an empty night to avoid the awkward situation if Mu Huiyin’s spirit appeared again.

In short, although they were quite stunned at first, Director Li and Instructor Feng immediately became excited after thinking about it.

Oh shit!

Shi Yu was going to make another big discovery!

Looking at Shi Yu’s confident expression...

This time, was it the Heavenly Formation Great General, the Sea Suppression Great General, or the heroic spirit of Great General Bai Lin?

Late at night.

With only Shi Yu, Director Li, and Instructor Feng around, Shi Yu ascended the altar again.

Seeing Shi Yu ascend the altar, the two masters revealed looks of anticipation.

However, this time...

Shi Yu stood in a military posture on the altar for an hour.

Forget about the Emperor Shi’s Spirit, no other heroic spirits appeared this time.

On the altar.

Shi Yu’s expression was blank .” ...”

The scene was awkward.

This also made Director Li and the others have strange expressions.

Although he didn't know why Shi Yu suddenly wanted to ascend the altar, theoretically speaking, Shi Yu had already obtained the recognition of General Mu Huiyin. With Shi Yu's aptitude, it wasn't difficult for him to obtain the recognition of other heroic spirits.

It wasn't like it had never happened for a talented Beast Tamer to receive the recognition of multiple heroic spirits.

For example, Lu Qingyi at that time summoned seven or eight heroic spirits at once.

As for Shi Yu... it was quite strange. He had clearly summoned the heroic spirit of the Ice Dragon General, but after that, not a single heroic spirit responded.

A moment later, Shi Yu came down.

He even muttered to himself,

"I didn't expect General Mu Huiyin to be so unpopular with her comrades. The ancients are really biased against mixed blood." After Shi Yu came down, he pushed the blame for the lack of heroic spirits onto the little sword spirit.

Director Li and Instructor Feng: (☹_☹) So that's how it is?

...

For the next few days, Shi Yu still did not give up.

Occasionally, he would meditate and give his pet some extra points, but the most important energy was still spent on looking.

The protected area of the ruins had amassed a large collection of antiques, artifacts, and historical information from the Emperor Shi era. Shi Yu planned to finish reading them in the next few days.

As he learned about history, he chatted with the altar.

Therefore, another famous scene appeared in the next few days. The other students were working hard to summon their spirits. Shi Yu was reading. The other students followed the instructors and mentors to the edge of the Specter Battlefield to train. Shi Yu was reading.

Over the past few days, the students of Ancient Capital University have gained a lot.

The ones with the greatest gains were a batch of Beast Tamers who had obtained the recognition of the spirits, including Shi Yu, Yu Shu, and Wang Ling.

After the ruins were unsealed, ten more people obtained the recognition of the heroic spirit after Shi Yu.

However, although they were ambitious and hoped to receive the same treatment as Shi Yu and the recognition of the Great General, reality was reality. The subsequent ten people were only acknowledged by ordinary heroic spirits like Tao Yi.

This was considered not bad. After all, those who could be left behind by Emperor Shi had extraordinary strength. When they were alive, they were basically master-level Beast Tamers, the elite forces of the Dong Huang Dynasty. Their heroic spirits were basically all monarch races. This was already a very huge increase for this group of students.

If nothing unexpected happened, in a year or two, they would definitely become elites of the battle club and candidates for the school team. They had a chance of competing in the National League!

“F*ck.” In the protected area, in a library, Shi Yu sat in a corner. After reading 116 books, he felt extremely sad. The little sword spirit stuck its head out and followed beside Shi Yu. It fought with him to monopolize the cool air of the air conditioner, making Shi Yu, who couldn’t find any useful information, even more depressed.

“It’s almost 1 PM.”

“The military training will end tomorrow.”

“If I had known earlier, I wouldn’t have named you Chi Tong. If you were called Red Hair, the ruins might have given us more face...” Shi Yu fell into deep thought.

The little sword spirit was confused. The Beast Tamer was saying strange silly things again.

“Let’s try again.” Shi Yu saw that the sky was dark and knew that it was time for him to take action.

After 12 o’clock, the Heroic Ruins would be sealed. There was basically no one left, but Shi Yu had the privilege to enter himself.

Two days ago, Director Li and Instructor Feng even specially followed, hoping to see a surprise. However, after that, only Shi Yu himself went to chat in the middle of the night.

In the dark night, under the moonlight.

Shi Yu walked on the altar again and looked at the ruins under the moonlight.

“Why aren’t you saying anything... I’m leaving tomorrow. I won’t be back if I leave.”

Ruins :” ...”

“I’m really leaving.”

Shi Yu repeated “I’m leaving” more than ten times.

Shi Yu was angry. He was already so humble.

Unfortunately, he didn’t dare to use reverse psychology on a Hero Ruins and a ruin built by Shi Di. He was afraid that Shi Di would wake from his corpse and kill him.

2: 30 a.m.

Shi Yu fell into complete despair. He planned to come again when he was free in the future.

However, at this moment, something unexpected happened. The ruin that didn’t react even after he said “I’m leaving” hundreds of times changed after he really turned around.

A diamond-shaped crystal appeared with a faint light and slowly landed in Shi Yu's hand.

Shi Yu's expression changed slightly. This ruin indeed had a "spirit".

However, what was this thing? It didn't look like a soul seed nor a resource... What was this...

Chapter 183: Space-time Key

With the crystal in hand, Shi Yu asked for a long time what the ruins were.

But the ruins didn't want to talk to him.

Shi Yu was speechless.

One start review!

"Sigh."

So be it.

After a day, Shi Yu was also tired.

"Ha ~" After yawning, he put the crystal in his pocket and went back to sleep.

...

...

Outside the heroic spirit ruins, there were still a few soldiers on night duty.

The commotion that the crystal made just now was not big. They didn't even know what happened inside.

Seeing Shi Yu come out so late today, they couldn't help but ask.

"As usual."

Shi Yu chuckled and brushed it off.

Even if there were gains, he couldn't say it casually.

He saw Emperor Shi, and Emperor Shi also saw him. Then, for the first time, something other than a soul seed was shook out of the heroic spirit ruins. This was a big deal!

Even if he wanted to share it, he had to share it with the right person... It was impossible for these soldiers to know about the crystal.

As Shi Yu walked, he took out his cell phone and took a photo of the crystal.

Shi Yu: "Senior, help me see what this is."

He used the chat software and took a photo for Lu Qingyi.

Lu Qingyi: "?"

Lu Qingyi: "...Why aren't you asleep yet?"

Somewhere, Lu Qingyi glanced at the time and typed out "...".

Shi Yu: "You're not sleeping either..."

A proper Beast Tamer would sleep before three in the morning.

Lu Qingyi: "Crystal? Use the index to take a look."

Shi Yu: "I'm definitely asking you because I can't detect it."

Lu Qingyi: "Even the index can't detect what it is... You're asking me...? Where did you pick it up..."

Shi Yu: "It's nothing. The listening talent accidentally overheard the conversation between Emperor Shi and Mu Huiyin. Then, I chatted more with the ruins, so it shook this out for me."

Lu Qingyi: [Surprisedcat.jpg]

A minute later...

Shi Yu: "Where are you??"

Lu Qingyi: "On the way... Wait for me. I'll be there in 20 minutes. Wait until I'm there."

Shi Yu: "?"

Shi Yu glanced at the moon and looked at the time. Waiting for you??

What time was it? He still wanted to sleep even if she didn't sleep.

"I miscalculated..."

Shi Yu was confused when he put down the cell phone.

He should have sent Senior Lu a photo after waking up tomorrow.

...

In less than 20 minutes, Lu Qingyi really came here.

In order to cooperate with Shi Yu's research, Director Li and the others found a single dormitory for Shi Yu.

Lu Qingyi arrived in a hurry and didn't disturb the others.

"Where's the crystal?"

The moment Senior Lu arrived, she grabbed Shi Yu's shoulders and shook him.

She sounded nervous and excited.

"Cough, don't be excited. It's over there." Shi Yu pointed at the table.

Lu Qingyi:!!!

She showed a pained expression. This was such an important thing, was it just like a cup?

“What you said just now, was it true?”

“How could I lie about this?”

Lu Qingyi took a deep breath and looked at Shi Yu with a complicated expression.

Freak!

His listening talent was activated too often.

“Blue, rhombus, crystal. I think I know what this is.” She sighed.

Along the way, she recalled Shi Yu’s words and finally realized something..

“You know??” Shi Yu was shocked.

She should have said so earlier.

Shi Yu was immediately not sleepy.

“I’ve only heard of word descriptions, but because no concrete substance has been passed down, it’s very normal that the index can’t detect it.” Lu Qingyi looked at the hexagon crystal.

“This is the ‘key’.”

“Key??” Shi Yu was at a loss. He picked up the crystal. What could this thing open?

“The key to space and time!” Lu Qingyi added.

“You should have heard of it, right? Although the earliest origin of archeology might not be Emperor Shi, he was the first person to systematically organize this subject.”

“Therefore, Emperor Shi is also known as the ancestor of archeology.”

Shi Yu was stunned. That was indeed the case...

“The entire Blue Planet has a history of billions of years, and the Beast Taming Era is only more than 2000 years. Before that, the historical gaps were even more serious. There were many Mythical ruins and totem ruins. Emperor Shi was the first person in the records to classify the ruins and organize personnel to establish an organization to explore many ruins systems.”

“However, some ruins are difficult to crack even for Emperor Shi.”

“According to the records, in order to open some ruins, he used the spatial power of time to tailor-make a ‘Space-time Key’ to forcefully open the door of the ruins.”

“It’s said that this kind of ‘Space-time Key’ consumes a lot of the power of the Time Emperor. The Time Emperor didn’t create many of them in his life, so he only left behind some simple words and records, but there was no real item for us to look at.”

“Well... Only those ‘Mythical Ruins’ can block Emperor Shi outside and require him to spend a lot of effort to create the key.” Lu Qingyi looked at Shi Yu.

“This!!”

Shi Yu almost lost his grip on the crystal.

“It means that this crystal is a key that can 100% open a certain mythical ruin?”

Shi Yu immediately felt that this thing was a Pandora’s box. He felt cold all over and immediately put it back on the table.

“Well...” Lu Qingyi had a serious expression. “It must be. The ruins space we’re in contact with now are all left behind by legendary Beast Tamers. However, apart from this type of ruins space, there’s also that kind of naturally formed alternate spaces or special spaces created by Mythical creatures themselves. It might be their habitat or their treasure vault, but no matter what, it’s not something outsiders can easily enter, even for legendary Beast Tamers.”

“And the ‘Space-time Key’ created by the Time Emperor, who is proficient in controlling spatial power, seems to be a tool that can forcefully open the corresponding space.”

“You’re too lucky.” Lu Qingyi looked excited.

“What’s so lucky about that...”

Shi Yu smiled bitterly and said, “Perhaps Emperor Shi destroyed the Dong Huang Dynasty because he explored these Mythical Ruins.”

Shi Yu thought about it carefully. When he chatted with the ruins, the most they talked about seemed to be where Emperor Shi went in the end.

Damn it, the more Shi Yu thought about it, the more he felt that the Mythical Ruins corresponding to this ruin crystal were the culprits behind the death of Emperor Shi, as well as the great calamity of the Dong Huang Dynasty.

Although he wanted to know what kind of ruins it was, his rationality stopped Shi Yu.

He shouldn’t court death. If he guessed correctly, there was a ferocious divine beast that could instantly kill Shi Yu living inside. If he woke it up, he wouldn’t be the only one who would die. Perhaps the entire country would be buried with him. They would enter the next totem war.

“Tell me in detail.” Lu Qingyi asked Shi Yu.

“This...” Shi Yu told Lu Qingyi about the conversation between Emperor Shi and Mu Huiyin, as well as his guesses.

A moment later, Lu Qingyi’s expression also became serious. She felt that this ruin crystal was not something good.

She was very similar to Shi Yu. Beast Tamers with the gift of listening preferred to court death, but this Space-time Key clearly led to disaster...

“Actually, we can guess in a good direction...” Lu Qingyi said after a moment of silence.

“Stop.” Shi Yu persuaded his senior and said, “Even if it’s a 99% chance that Emperor Shi had conquered this Mythical Ruins and left us a bunch of treasures inside, we should still hold on to the worst 1%... After all, we can’t afford to bet.”

Lu Qingyi smiled. “That’s true. Moreover, we don’t even know which ruins correspond to this space-time key.”

“There are only a few Mythical ruins in the country, but there are still many Mythical ruins in the totem area...”

Shi Yu nodded and said,

“Senior, please keep this a secret.”

“As for the crystal, leave it with me for the time being.”

“Uh.” Lu Qingyi was stunned.

Shi Yu touched his nose. He was a little selfish. He was afraid that after handing it over, the big shots of Bureau 11 would not be able to help but team up to explore. They wouldn’t bring him along for sure, but they were also afraid that this Mythical Ruins would really bring about some disaster. Of course, with such a thing, it would be a lie if Shi Yu said he wasn’t curious.

If possible, he hoped to explore with everyone after he became stronger.

Legendary Beast Tamers only had totem-level pets.

And he already knew the standard to advance to the totem level. A transcendent-level skill!

As long as he could teach super skills, theoretically speaking, he had hope of stepping into the legendary domain and standing on the same level as those super experts in history.

In fact, what if he maxed out his super skill points?

Divine-level skills represented origin, rules, and laws. They were abilities that only divine beasts could master.

As for the transcendent level, it was the level closest to a Mythical skill. If the transcendent skill point reached the “Dao Proficiency” level, could it compare to a divine skill, or rather, upgrade it into a divine skill and let the pet step into the Mythical level?

Shi Yu felt that he could look forward to it. Therefore, he wanted to wait until he developed to that point. At the very least, he had to be not inferior to Empress Shi before trying to open this demonic box.

“No problem,” Lu Qingyi said. “It was originally given to you by the heroic spirit ruins.”

“If it’s placed elsewhere, there might be unknown hidden dangers.”

“However, since you’ve already let me know about this...” Lu Qingyi stared at Shi Yu.

Shi Yu: “I understand.”

He had already dug a hole for Senior Lu. If he didn't satisfy her curiosity, she would probably die of depression.

Digging a hole without filling it was a bad habit.

...

The next morning, Lu Qingyi left.

Shi Yu was glad that he had asked her. She immediately satisfied his curiosity.

Otherwise, not knowing the use of the ruins crystal would probably be more uncomfortable than being prevented from exploring the Mythical Ruins.

When Shi Yu woke up the next morning, he took a deep breath.

Although he didn't sleep for long last night, it seemed like he could return to school to sleep next. Today's military training would be over. This military training was ridiculous, to be honest. First, he summoned a general, then he was glared at by Emperor Shi, and then he obtained the key to a Mythical Ruins. His experience was too exciting.

Who else had that!

In the next half of the morning, it was the farewell meeting between the instructors and the students. There were also talks. Shi Yu didn't pay much attention to it because apart from Master Feng, he didn't seem to know any instructors.

And the thing that Shi Yu had the deepest impression of Master Feng was that he had provided Little Chi Tong's food for the past few days...

When the students were packing, Shi Yu, who had spatial equipment, was already waiting to leave.

"You're welcome to come and play next time. Eat your fill." Outside, Instructor Feng went to Shi Yu's side. Damn it, the future guardian level pet of Dong Huang had eaten his food when it was a baby. If word of this got out, it would be so amazing.

"Ah, alright, no problem," Shi Yu said with an embarrassed smile. He still had to bring Little Chi Tong here to farm experience later. He would definitely come to visit more.

"Did Dr. Lu come over again last night?" The two top masters, Director Li and Dean He, were naturally with Instructor Feng the whole time. After all, the three of them were the in-charge of this military training.

"About three in the morning, she directly rode the Green Spirit Wind Bird over." Dean He blinked. He looked at Shi Yu with a strange expression and said, "Could it be that something happened in the ruins yesterday?"

Instructor Feng also looked at Shi Yu.

Shi Yu fell into deep thought. Could they handle the truth?

“Why? Why are you asking?” Director Li coughed and said, “Don’t ask too much about Bureau 11. This is all confidential. Do you still want to sign more contracts?”

Instructor Feng and Dean He waved their hands in embarrassment. How could they?

The three of them stopped asking about Shi Yu.

Shi Yu smiled and said, “Forget it, I’ll wait in the car first.”

He went back the same way he got here. Shi Yu boarded the armored school bus.

A moment later, the other students who had packed their things also got into the car.

After a student came up, he passed by Shi Yu and fell silent. He glanced at Shi Yu in awe and walked back.

Another student came up. As he passed by, he took a deep breath and glanced at Shi Yu in admiration before walking back.

Xu Jingyin, Wang Ling, and Shi Yu’s classmates had complicated views on Shi Yu after this.

In this military training, Shi Yu was the greatest winner. He actually contracted the heroic spirit of the Ice Dragon General.

A high-level overlord race!

The most uncomfortable thing was that because of the contract, they couldn’t discuss it yet. They could only worship Shi Yu with their eyes.

If nothing unexpected happened, these more than 600 new students, the new students from the archeology and Battle Department, would become a cool group in Ancient Capital University in the future.

In the future, when they encountered other students’ evaluations in Ancient Capital University, they could stand on a high ground and say disdainfully...

“You don’t understand Shi Yu at all. He’s not that simple, but I can’t give you the specifics. I can only say that I know what I know, but I can’t say much about what I don’t understand either. Don’t ask me what’s going on. The confidentiality involved is too great. Saying it won’t benefit either of us. Just pretend you don’t know. As for the rest, I can only say that the waters here are very deep...”

When Shi Yu thought of this scene, he couldn’t help but smile in the car.

It was difficult for these people to cooperate with him and keep it a secret...

“Well...” When Shi Yu smiled, Wang Ling, the class monitor, was still sitting beside Shi Yu, looking at him. This time, he said carefully, “Are you still selling that sachet of yours?”

He thought for a moment. Perhaps Shi Yu really didn’t lie to him. This sachet was really something. In any case, Shi Yu’s was definitely something good...

“Uh.” Shi Yu glanced at him and said, “It’s too late... There’s no more stock.”

Wang Ling: “?”

Shi Yu was helpless. He had contracted another energy-consuming big shot.. How could he have any extra sachet to sell to him? He didn't have enough to absorb!

Chapter 184: Senior Panda's New Discovery

In the student dormitory of Ancient Capital University.

At noon, Shi Yu returned to the campus.

After returning, Shi Yu took a cold shower and ate an ice popsicle. He lay on the bed in satisfaction.

“Wuu.”

Eleven also hugged a basin of milk fragrance ice cream and ate it with relish.

This was an ice cream frozen from the basin milk made of the female Iron-eating Beast's mother's milk. It was produced by Senior Panda's family, and the Iron-eating Beast agreed to eat it.

“Yiya ~ Burp ~”

As for Baby Ginseng, it gulped down some iced soda.

If what Eleven ate was still a little nutritious, then what it drank was purely junk food water.

However, in the words of the ginseng baby, it was already very nutritious. As for water, it just had to drink whatever it got happily.

Along the way, Shi Yu and the others were affected by Little Chi Tong and yearned for something cold.

Unfortunately, Buggy didn't have a mouth, so it could only continue sleeping.

“Mi ~”

After arriving at a new environment, Little Chi Tong undoubtedly crawled into the fridge again and even hugged its ice-element energy crystal.

Shi Yu didn't mind the risk of the fridge being burned. He yawned and looked at the classes after school officially started the day after tomorrow.

As he watched, a video call frame suddenly popped up on his cell phone.

“Eh.”

Shi Yu glanced at the ID and realized that it was Senior Panda. He directly swiped to answer.

A moment later, Lin Xiuzhu's face appeared on the screen.

Her face was very close to his, and she looked very excited. Her gaze revealed joy.

“Big, big, big discovery!”

Lin Xiuzhu went straight to the point and said, “There are two pieces of good news. Which one do you want to hear?”

Shi Yu blinked.

“Let’s hear the second best one first.”

Lin Xiuzhu smiled and said, “I’ve already researched a way to let the Iron-eating Beast steadily awaken the ‘Giant Transformation’ skill before evolution.”

“Really??” Shi Yu was pleasantly surprised.

“Well, the resources used are relatively expensive, but compared to evolution materials, it’s alright.”

After confirming how much the evolution materials determined the potential of the Iron-eating Beast after evolution, Lin Xiuzhu had been researching ways to let the Iron-eating Beast awaken its giant transformation before evolution.

If it could be researched, it was a relatively important increase in the Iron-eating Beast race’s potential.

This meant that as long as one had money, every Iron-eating Beast had a chance of reaching a high-level monarch race.

“Impressive, impressive,” Shi Yu praised.

Master Lin Hongnian had developed a skill manual that allowed the Iron-eating Beast to learn Thunder Palm and Cannon Fist.

Now, Lin Xiuzhu had researched the secret manual for the Iron-eating Beast’s awakening skill.

This father and daughter’s research of the Iron-eating Beast was indeed very talented.

The Iron-eating Beast’s price increased for sure. Was he just waiting to collect the money?

“Wait, there’s better news than this?” Shi Yu suddenly realized.

“Hehe.” Lin Xiuzhu’s expression was smug. “I also found a way to let the Iron-eating Beast quickly increase its’ hardening ‘proficiency.”

“In the breeding base, a young Iron-eating Beast used this method to reach expert level in just a week.”

If Shi Yu was only slightly surprised when Senior Panda said that she had developed the awakening method of Giant Transformation, then he would be very shocked now.

“How did you do it?” Shi Yu was stunned. Senior Panda was too strong.

The four years in the Feeding Department and Research Department weren’t wasted.

If they really found a way to quickly increase their hardening proficiency, the Iron-eating Beast could evolve in batches.

At that time, the Iron-eating Beast’s status would rise again!

Shi Yu originally planned to study it himself when he was free, but firstly, he wasn't free. Secondly, he had more important missions at the moment, such as exploring the second stage evolution of the iron-eating beast.

However, in the blink of an eye, Senior Panda had researched it?

"Do you remember that in the research paper on the evolution of the iron-eating beasts, it mentioned that the hardening substance of the Nine Li Battle Beast is a little different from the hardening substance of the iron-eating beasts?"

Shi Yu nodded.

"That's the key."

"The hardening of the Nine Li Battle Beast has a 'nourishing' effect on the hardening of ordinary Iron-eating Beasts."

"With the special features of transcendent Level Hardening such as release, flow, and application, the Nine Li Battle Beast can use its Hardening Material to nurture the little Iron-eating Beast's strength."

"Under nurturing, as long as the hardening energy circulates around the little Iron-eating Beast's body, the amount of hardening of the little Iron-eating Beast and its control over hardening can increase quickly."

"I've already used my father's Nine Li Battle Beast to experiment. Its hardening, and even the perfect level hardening of my Iron-eating Beast, has a strengthening effect."

"In other words, as long as one Nine Li War Beast puts all its energy into constantly strengthening and hardening another Iron-eating Beast, then the speed of the hardening of that Iron-eating Beast will, in theory, be very fast. Furthermore, the upper limit of the increase can be very high, depending on the hardening level of the Nine Li War Beast!"

Shi Yu: "!!!"

"This is indeed a super big discovery..." He looked stunned and said to the screen.

What was the difference between this and the body tempering in martial arts novels!

Hardening could be played this way?

No wonder there were so many Iron-eating Beasts who had mastered high-level hardening in the stone wall images.

As long as there was a big shot to level up, a high proficiency hardening Iron-eating Beast Army could indeed be nurtured with some time!

"Is there anything I can do?" Shi Yu asked.

"Didn't the Iron-eating Beast Research Institute at the university still raise three Iron-eating Beast cubs?"

"Zheng Yingjie and the others are taking care of it."

"Yes." Shi Yu nodded.

Lin Xiuzhu: "Can you test them again and see if Eleven can help them increase their hardening levels?"

"That's easy." Shi Yu nodded. He would try even without Lin Xiuzhu saying so.

If even transcendent Hardening could help the iron-eating beast strengthen the hardening substance, what about his Eleven's max-level Hardening?

He felt that the Iron-eating Beast Army he saw must also have at least one Nine Li Battle Beast that had mastered max-level hardness.

"Please."

"Then I'll go now. If it's alright, Senior, come to Ancient Capital again when you're free. I'll get Eleven to help you increase your pet's hardening proficiency." said Shi Yu.

"Alright." Lin Xiuzhu smiled.

...

"Eleven!!"

Eleven had just finished its basin of milk ice cream and was about to do the training for falling at an altitude of 10,000 meters. It was stopped by Shi Yu.

"??!" Eleven scratched its head.

What was wrong?

"Stop training for now. Come with me to do an experiment and see if you have the potential to raise a child."

"Huh?" Eleven was confused.

It was only two years old, and it was a baby.

"Let's go and get you a student card. When the time comes, you can go to the gravity room, charging room, competitive tower, and other training facilities."

"!!!" Eleven's eyes lit up.

"Awww!!" It cheered.

Eleven liked the training facilities of the Ancient Capital University that it saw a few days ago.

For example, in the gravity room, one could freely adjust the gravity in the room. Five times the gravity, ten times the gravity, and twenty times the gravity. Eleven had only done weight training in the past. When had it ever experienced such a high-end training method like the gravity training room maintained by mechanical life?

Unfortunately, because Shiyu wasn't free, he temporarily took Eleven only to the charging room of the Gudu University.

Now, when he heard that Shi Yu was going to give it a student card, so that it could go to various training facilities in the future, Eleven was extremely excited.

That's right!

It was already a mature pet and could already use its own card to train.

Following that, Shi Yu began to set off for the Iron-eating Beast Research Institute.

Because he was worried about leaving little Chi Tong alone at home, he conveniently pulled the sleeping little sword spirit up from the ice cream pile.

Hardening could lead to hardening...

Along the way, Shi Yu first found it magical, but then found it understandable.

From the various historical traces, the iron-eating beasts should be a very large-scale army type of battle style.

They were closely connected, and it was obvious from the skill "impregnable".

Although Shi Yu had yet to add some "impregnable" points to Eleven, he already knew the characteristics of this skill.

This metal-element skill described that it was protected by the metal-elemental power, increasing its overall resistance. Elemental, physical, mental, and soul damage was all included in the skill's resistance.

This was undoubtedly a very strong skill, but if that was all, wasn't calling it "Metal Protection" more appropriate than "impregnable"?

The reason why the ancients named this skill impregnable was very simple. It was because after reaching proficiency, it would become a resonance skill.

There was nothing special about using Impregnable. However, if another pet beside it also used Impregnable, then the solid skills of both sides would resonate. Although it couldn't achieve the exaggerated effect of overlapping effects, it would strengthen each other.

Furthermore, the resonance effect and number of resonances would also increase with the proficiency of the skill.

Just think about it, if there was an army of 100, 1,000, and 10,000 pets that mastered all the impregnable skills, and when they fought, 10,000 impregnable forces would strengthen each other, how terrifying would the effect be? Although this was only a high-level skill, the tactical value was not inferior to any super skill!

This was a skill that had an even more impressive effect the more people used it. It was specially made for war, and it was an army skill. Together with the Inner Power skill, giantization, and hardening, it could easily create an invincible army.

In ancient times, the solid city wall and the heavily guarded moat was the standard. It was undoubtedly very appropriate to compare the army of pets who had mastered those skills to these standard defenses.

“It’s a pity that I only plan on nurturing one Iron-eating Beast. My impregnable skill is useless.”

He couldn’t nurture an iron-eating beast army just because of a skill, right? As he thought about it, Shi Yu sighed.

This was a single-target high-level skill, group type super skill... Only group battles could maximize the effect.

“Unless...” Shi Yu thought for a moment. It was not impossible.. Firstly, he could let Buggy materialize a bunch of teammates who knew how to use impregnable. Secondly, he could casually teach Eleven a suitable avatar skill to create a second Eleven...

Chapter 185: Beast Tamer Eleven Comes Up

Iron-eating Beast Research Institute.

This research institute that was opened to study the evolution of iron-eating beasts was actually half abandoned at the moment.

The evolution of the Iron-eating Beast had been announced. Although there were still a few other research projects, Senior Panda had brought most of the research materials back to Ping Cheng for research.

Currently, there were only three young Iron-eating Beasts left as mascots. They were the witness of the friendship between Senior Panda and the university!

The age of the three little iron-eating beasts was about the same as when Shi Yu had carried Eleven away. They were just one year old.

They were all petite and cute.

Currently, the seven archaeological heroes were taking turns to take care of them.

When Shi Yu arrived, no one was there. There was only a Moon Silver Wolf looking at the research institute. It was Zheng Yingjie’s pet.

“Roar!!!” When the Moon Silver Wolf realized that it was the person in charge of the research institute, Shi Yu, it turned a blind eye and continued sleeping.

Shi Yu ignored it and headed straight for the backyard amusement park of the three little iron-eating beasts.

“Zzzz ~”

As expected, the three little iron-eating beasts that had just finished lunch were piled together, sleeping in their nests.

“Hmm.” Eleven stuck her head out of Shiyu’s pocket.

What a lazy atmosphere!

“This is a normal iron-eating beast.”

“You guys aren’t supposed to train all day.” Shi Yu felt that it was very normal.

Eleven in Shiyu pocket:???

So I’m abnormal!

“It’s not that you’re abnormal, but it’s only right to strike a balance between work and rest.” Shi Yu coughed dryly. If not for the fact that he had the ginseng baby and Absolute Sleep and Minimization skills, Eleven would have long been crippled for training so desperately.

“Hmm??” Eleven was furious. It had worked so hard just to make Shi Yu the strongest Beast Tamer. Only then would it live up to its reputation of being acknowledged and nurtured by Shi Yu.

“Hmm!” Eleven firmly believed that no matter what, its determination would not change!

It trained hard and worked hard to have the strength to help Shi Yu deal with various situations. It would help Shi Yu become the most powerful Beast Tamer and make Shi Yu not regret choosing him!

Perhaps it was because Shi Yu and the others had arrived, but the three young Iron Beasts opened their eyes in a daze.

“Wu...” “Wu...” “Wu...”

They let out cries one after another and looked at Shi Yu and Eleven with watery eyes.

Shi Yu and Eleven had lived here for a long time, so they were naturally familiar with the three Iron-eating Beast cubs. Although they weren’t as familiar as the Panda Senior, they had fed them a few times.

Upon seeing them, Shi Yu smiled, as if he had seen the Eleven when he was young.

“Do you want to become stronger?”

When Shi Yu arrived, he immediately spoke with telepathy like a charlatan.

“Hmm! (Want to become stronger!)”

Eleven jumped down and looked at her three brothers and sisters.

On the way, Shi Yu had already told Eleven about the hardening support training method and the purpose of his visit.

“Huh?” “Huh?” “Huh?”

The three Iron-eating Beast cubs had confused expressions. Become stronger? What was that?

Now, there were people feeding them every day, eating, drinking, sleeping, playing when they woke up. What was the point of getting stronger? They loved their current life.

Eleven: ㄥ_ㄥ

“Roar! Roar! Roar!” Eleven looked at Shi Yu. Was this appropriate?

It was because of this that the Iron-eating Beast Clan was looked down upon!

Remove their benefits! Iron-eating beasts had to be reared!

Three cubs of the small iron-eating beast: (つゝc)マ

Bad Bear! Leave!

Shi Yu :” ...”

“Calm down... I don’t think one generation can change that.” Shi Yu smiled.

“Alright, quickly bless them.”

“Roar!” Eleven looked at the three little iron-eating beasts resentfully and jumped down from Shi Yu’s shoulder. Its body slowly became larger, and then it walked over and grabbed a baby iron-eating beast with one hand, with another in its mouth.

A moment later, Eleven began to impart skills to them with Hardening. The Level 11 Hardening quickly flowed through the three little iron beasts and circulated once.

At this moment, the three little iron-eating beasts were still in a daze. They felt a slow flow through their bodies.

But a few minutes later, after Eleven used the hardening substance to temper their bodies a few times, the Iron-eating Beast cubs could clearly sense a qualitative increase in their physiques!

There was even a small iron-eating beast that suddenly emitted the Light of Awakening. It leveled up and reached Level 4!

Without thinking, it was obvious that it was the improvement of hardening proficiency that led to growth.

“As expected of the Maximum Level Hardening. It’s much better than the Perfect Level Hardening described by Senior.” Shi Yu was stunned.

At the same time.

The three little iron-eating beasts, who originally didn’t care much about becoming stronger, cried out in surprise when they discovered that their strength had increased so easily.

“Wu wu wu!!!” What was this?

Eleven looked calm. “Oh! (It’s called adding points.)”

The little iron-eating beast didn’t understand what it meant, but after a moment of silence, it uniformly roared, “Roar! (Big boss, add more!)”

Eleven:???

Eleven was about to lecture them and realized that this was her catchphrase. It went silent.

In the end, it all came back to adding points.

Beside him, Shi Yu smiled and said, "Have fun. I'll call Senior and get you a card on the way. I'll be back later."

"Roar!!" A moment later, Eleven told Shiyu to rest assured. If it wanted to correct the thoughts of these three children. Why didn't they at least have the awareness of a bug!

With that said, it began to emit the Panda King's deterrence.

One of the effects of deterrence could make his clansmen worship, revere, and follow it.

Shi Yu was about to leave when he was made speechless by Eleven's deterrence and almost fell!

Good lord!

It was just for you to use them as an experiment. Why was it thinking of teaching them the "hard training" mental mentality?

...

"The effect was right."

"It's indeed possible."

"Is that so? Haha."

"Mm, let me know when you get back."

As Shi Yu walked towards the battle club, he called Lin Xiuzhu.

After knowing that Shiyu had also succeeded, Lin Xiuzhu was very happy.

Her father had developed the Thunder Palm and Cannon Fist manuals. Shi Yu had found the iron-eating beast's evolution method, and she had finally made some contributions to reviving the iron-eating beast's glory.

Lin Xiuzhu had been researching iron-eating beasts for the past four years.

Ping City.

"Shiyu succeeded too?" Lin Hongnian asked his daughter.

"Yes." Lin Xiuzhu smiled and nodded.

"He also asked me to go to the ancient capital and planned to use this method to let Eleven help my iron-eating beast increase its hardness."

"Dad, I think the day when Little He Hua masters Perfect Level Hardening won't be far away. Remember to prepare the evolution materials. Our family should at least have a high-level sovereign race."

In this world, an overlord species pet was a potential strategic weapon. No country had a stable breeding channel for overlord species pets. Today, an advanced king species was super powerful for a Beast Tamer.

“What? He wants you to go to the ancient capital? How about I go with you?” Uncle Lin Hongnian was shocked.

Eleven’s Hardening level was definitely high, at least higher than his Nine Li Battle Beast. Otherwise, he wouldn’t have been able to use that super electromagnetic cannon and leave no marks on the armor.

“I also want to let Eleven help my battle beast...”

Lin Xiuzhu shook her head and said, “No, according to the data, the hardening substance of the Nine Li War Beast only has an enhancement effect on the hardening substance of the Iron-eating Beasts, and it doesn’t react to the form after evolution... Of course, if you don’t believe me, you can try it, but please believe my data!”

...

What a sin!

Lin Hongnian regretted being the first person to try evolution. Firstly, he didn’t use enough materials during the evolution. Secondly, he missed the opportunity to get carried to increase the hardness!

...

At the Gu Du University battle club.

Before Shi Yu came, he had asked the Beast-eared Lady about the student card.

Apart from the school, the combat club was also qualified to apply for some training cards. Shi Yu’s goal this time was to get two for Eleven and the others.

Anyway, all expenses would be reimbursed to the battle club. It would be a waste not to.

“I heard that you brought back a sword spirit that can possess you in the Martyr’s Ruins?”

When Shi Yu arrived, White Brook handed him the two training cards that Shi Yu wanted and said with a very interested expression.

Due to the confidentiality contract, she had only heard that Shi Yu had contracted a sword spirit. As for the source, she wasn’t too sure.

“That’s right, thank you.” Shi Yu took the training card and smiled.

“How’s your combat strength after possession? Do you want to fight me?”

“Possession VS fusion.” White Brook licked her lips, tempted.

Shi Yu was indeed a junior that she thought highly of. His battle style was getting more and more liked by her.

A real man should fight himself. What was the point of hiding behind a pet?

“This...” Shi Yu smiled bitterly and said, “Forget it, it’s only Level 2. ”

Although the little sword spirit was very strong, the difference in levels was too great. White Brook was a fierce woman who could smash a sovereign-level pet after fusing with it in the National Competition. Shiyu still didn't want to be pressed down and ravaged by her.

"Hurry up and nurture it. Give it more resources and the school will reimburse you," White Brook said.

"Alright." Although Shi Yu said that, he chose to ignore it in his heart.

"Because the heroic spirits were very strong when they were alive, their growth speed is still very fast as long as the resources are in place."

"Mm. If your sword spirit can reach the commander level during the holidays, you can also contract it. Apart from taking you to the capital to take a look, I can also take you to participate in another competition." White Brook sat down, leaned back in her chair, and stretched.

"What match?" Shi Yu asked casually.

"Specifically, an unorthodox match for us Beast Tamers who are going to fight. Martial Arts Conference. During the Wu Emperor era, it was quite popular." White Brook smiled and said, "However, the rewards are very ordinary. They are all some body tempering methods. There are sword skills, martial skills, and some strong nutritional supplements passed down from ancient times. You shouldn't be interested."

Shi Yu's hand trembled as he said casually, "Yeah, let's talk about it again. Let's prepare for the Imperial Capital University exchange event that you mentioned first."

"All the best, work hard." The beast-eared girl cheered for Shiyu. Charge, towards the future of the battle club!

...

In just a day, after Shi Yu obtained something from the three rich girls, he returned to the Iron-eating Beast Research Institute, both physically and mentally exhausted.

This time, when Yu returned, he silently discovered that less than an hour had passed, and the three Iron-eating Beast cubs were already training in the backyard with hard work. Eleven was even encouraging them!!

Eleven suddenly realized that bringing the little guys who had gone astray back to the right path was even more satisfying and fulfilling than training him to become stronger.

Shi Yu: "?"

"Eleven, don't force them. They're still children."

"Chirp!" "Chirp!" "Chirp!" Before Eleven could say anything, the three Iron-eating Beast cubs who were training for sprinting shouted solemnly.

It wasn't the leader's fault. It was their sudden realization.

Youths needed to shed blood and not stagnate. This was the meaning of life!

Shi Yu: "?"

You're only a damn one year old. What youth? Be good and drink milk!

Eleven: (｡◕ˇ▽ˇ◕｡) "Where's the student card, I want to show them around!"

Chapter 186: The Strange Phenomenon of the Ancient Capital University

Could a pet use the training card to get a room?

In theory, there was such a precedent in the Ancient Capital University...

After the university built various training facilities, the guardian overlord Gem Meow often went to inspect on its own.

To put it bluntly, they treated the training facility as an amusement park.

However, this was only an exception. Most pets still retained more of their wildness even after being contracted by the Beast Tamer.

It was easy to cause trouble after leaving the Beast Tamer. Besides, very few pets knew the rules of human society well.

Of course, it didn't mean that pets couldn't understand the things of human society. In fact, it mainly depended on whether the Beast Tamer was willing to nurture pets in this aspect. If only pets were trained in combat power, it was impossible to rely on it to be a bystander...

For example, Shiyu was actually quite comprehensive in terms of pet training...

Gudu University, one of the training facilities, the gravity room.

1

"Where did these four little iron-eating beasts come from..."

The school term had just ended. The gravity room hall was filled with students, hoping to test the results of their training during the holiday.

Just as most of the students were waiting with their heads lowered, the four iron-eating beasts swaggered in.

Instantly, it attracted everyone's attention.

The shrunk Little Eleven, who was more than a meter tall, led the three cute baby iron-eating beasts to the registration office.

"Roar." After entering the registration hall, Eleven looked around and raised the training card in its hand!

One room!

Seeing the training card in the little iron-eating beast's hand, everyone was stunned.

What was going on?

“Where’s your Beast Tamer?”

A sweet-looking girl walked over to Eleven and the others and bent down to ask. At the same time, she looked out of the door in confusion.

In the end, she didn’t discover anything.

“Oh, sob, sob.” Eleven waved its card and explained.

“You’re the Beast Tamer yourself? The three iron-eating beasts behind are the targets you’re training? You brought them here to see the world?” The female employee was dumbfounded.

Hearing her words, the other Beast Tamers in the hall were dumbfounded.

“Mm!!” Eleven handed the training card to the staff.

Speed, speed, speed, speed!!

Time was money!!!

“Ah, this.” The staff took the training card.

Forget it, I’ll know what happened after I swipe the card.

The staff took the card in silence, took two steps, and stuck it to the buffet registration machine.

Ding... Ding... Ding...

Information immediately appeared on the machine.

The Special Training Card for the Battle Club, its owner, and... the Iron-eating Beast, Eleven, a member of the Battle Club?

The staff:???

Eleven widened its eyes in curiosity and tiptoed. So that was how it was used. Got it! It could do it itself next time!

At the same time.

In the student dormitory.

After telling Eleven to send the little iron-eating beasts back to the research institute after playing, Shi Yu returned first.

However, he had just returned when he received a call from the school’s training facility.

“Student Shi Yu?” A woman’s voice sounded from the other side.

“I’m a staff member of the gravity room...”

“I wanted to confirm with you...”

Then, the staff told Shi Yu what she had seen.

“Ah, that’s right... Under my training, this child Eleven has been self-disciplined since it was young. I can already do those things on my own at her age. I think it should be able to go to the training facility by itself.”

The staff: “Ah, that’s very reasonable.”

A moment later, the staff understood the situation. Shi Yu, who had explained everything clearly, hung up.

“Gravity room...” Shi Yu nodded. Not bad.

The gravity environment was a very good place to counter electromagnetic levitation. It could very well train Eleven’s electromagnetic control!

...

That day, a strange urban legend spread in the university. An iron-eating beast called itself a Beast Tamer and soaked in the gravity room with three little iron-eating beasts for the entire afternoon...

At this moment, Shiyu, who was good at teaching, sat on the bed and added some points to Buggy.

Baby Ginseng was working hard at the side.

As for the little sword spirit, it was sleeping soundly in the ruins.

When he returned, Shi Yu specially passed by the resource warehouse and exchanged for more soul crystals and ice-elemental energy crystals.

The former was food for Little Chi Tong, and the latter was to build a big ice bed for him.

1

From the moment he returned at noon, Little Chi Tong had been sleeping. He was not very lively, so Shi Yu could understand. After all, he was a child and needed to sleep to rest and grow.

These few days, Little Chi Tong spent most of his time sleeping, so Shi Yu was very relaxed.

When he was taking care of the baby, the baby slept. It was the most relaxing time for the Beast Tamer. Shi Yu could also take the time to do other things. Therefore, he deliberately didn’t teach Chi Tong Absolute Sleep too soon, afraid that it would only sleep for an hour a day and be energetic for the remaining 23 hours...

At this moment, Shi Yu was still adding Psychic skills to Worm.

This newly awakened racial skill had to be maxed out before evolution.

Skill: Psychic (Perfect+188)

2

“Soon, soon.”

After more than ten days, it was finally almost done. Shi Yu's eyes were filled with tears.

"Ji!!" Buggy was also very teary-eyed, and it cheered on the Beast Tamer and Baby Ginseng through telepathy.

Although the level of Psychic was not high, it was practical.

Elementary-level Psychic. The user could only materialize his mental strength and make a crude attack like Psychic Charge.

At the proficiency level, the user could already carefully control Psychic power. Using Psychic control to replace the hands and feet, taking a cup of water to drink, controlling a pen to write, and doing some slow flying were all fine.

Expert-level mental strength, the user could do some complicated things, such as using mental strength to control many objects at the same time or creating a mental barrier to defend.

1

As for Perfect Level Psychic power, it was even more perfect in terms of precision. It could be used to control elements, such as controlling the water element to form a water wall, controlling the sand to form a sand sculpture, and squeezing the air to form an air cannon.

Now, apart from these, the most valuable new usage method that had been activated was the Psychic domain.

Even if he expanded his psychic power to envelop a large area, the user could easily sense all changes in the area. This was better than low proficiency super vision.

Of course, as his proficiency increased, the power of the Willpower that the user could condense each time would definitely increase. This was also very important.

Sometimes, the changes in "technique" might just be supplemental.

If not for these skills, the user would only use simple psychic attacks. As long as its mental strength was strong enough, it could also destroy a planet with a single blow, countering all fancy moves.

Just like an awakened-level pet, even if it mastered max-level Psychic power, it would only be crushed when facing a monarch-level pet that mastered elementary Psychic power.

Skill: Psychic (Dao Proficiency)

2

Following that, Shi Yu and Baby Ginseng continued nodding hard.

A moment later, the sounds of liberation came from the dormitory.

After adding points, Shi Yu collapsed and lay on the bed like a salted fish.

"Yi..." Beside him, Baby Ginseng also wiped its sweat.

Only Buggy in the form of a cocoon closed its eyes and released its psychic power, quietly experiencing the changes that a max-level psychic power had.

Without waiting for Shi Yu to ask, Buggy told him the proficiency changes that it could sense now.

It felt that its control of thought power had increased, and it could also capture the elemental particles better. Apart from that, the time it could continuously release Psychic power was almost limitless. It was very difficult to be interrupted by external factors until its mental strength was exhausted, but as to how to use it, it felt that it still needed to experiment.

Shi Yu stood up and said, "It's even higher. Then, let's use psychic power to control the weather, modify memories, control thoughts, and think up creations to affect reality."

Buggy's eyes widened.

That made sense.

"Lie down first. Study it after you evolve. Don't waste too much energy. Also... since your endurance is almost limitless, try to see how high your current Psychic domain can extend. When you can envelop a meteorite outside the atmosphere with your Psychic power and pull it down, that'll be impressive..."

Using mental power to cause a tsunami, cause an earthquake, control the weather, change memories, and control thoughts were all common in movies. However, in real life, very few pets could do it to such a ridiculous level. The ones in front were alright, but the later ones were harder.

For example, controlling the weather, pulling down meteorites, changing memories, and controlling thoughts were all ideal situations. The requirements on proficiency were too high.

Furthermore, wasn't it good to use weather skills instead of going to control the weather? Wasn't it good to use hypnosis instead of changing memories? Psychic power was judged as low-level because it was too basic.

Although its function was very strong and malleable, development was difficult. In comparison, the effects of many high-level skills could replace it and complete the corresponding mission at an easier price.

However, this didn't mean that Psychic power couldn't do it. Shi Yu had thrown a few difficult missions for Worm in the future.

Among them, Shi Yu looked forward to pulling down the meteorite the most...

2

Of course, with the current Buggy's commander level strength, it would probably be a hundred million points too difficult to complete. Even if the Psychic proficiency was high, without the level of a totem, it didn't seem easy.

"Ji!!!" Buggy excitedly sent a mental message. Alright.

It was very happy now.

It felt that max-level Psychic power was much higher than the max level of Leader. It was much more powerful.

From the current upper limit, that was indeed the case. The powerful thing about max-level hardness was that Eleven could actually create various divine weapons through hardness.

Max-grade hardness could already be maintained for a long time after leaving Eleven's body. In other words, as long as Eleven's strength was strong enough in theory, it could completely create an extremely strong battle armor and divine weapon that could maintain it for ten, a hundred, a thousand, or even ten thousand years.

No wonder it was Lord Chi You's mount...

If this was the only effect, it definitely couldn't compare to Psychic power.

However, one of the characteristics of max-level hardness was that its growth potential also gave it unlimited possibilities. So as to which skill was powerful, it still depended on the subsequent development of the two pets.

"If a max-level low-level skill is so powerful, then wouldn't a max-level super skill really be comparable to a divine skill..."

Shi Yu lay down again.

As for Buggy, although Shi Yu had told it to lie down, it was too excited to sleep.

Buggy was showing off to Baby Ginseng again. Perfect Psychic power. Impressive, right?

Wasn't this better than maxed sweet gas and maxed nutritional blood?

"Yi." Baby Ginseng pouted. What was the big deal? It was the one who helped.

"Yi! (Impressive, but your Ice Dragon Whisker is gone. I just saw Chi Tong carry it away as a pillow.)"
Baby Ginseng stabbed Buggy.

1

Buggy:??!!

...

The next morning.

Shi Yu got out of bed feeling refreshed.

The little sword spirit was still sleeping on the ice pile. Buggy was also sleeping in the Imperial Beast Space. Even Baby Ginseng and Eleven were definitely sleeping, leaving Shi Yu slightly stunned.

He was the first to get up today?

Forget about the other three, even Eleven was sleeping.

Was the training in the gravity room that tiring yesterday?

Yesterday afternoon, Eleven trained for half a day in a restrained state under high gravity.

Shi Yu thought for a moment. As he used electromagnetic levitation to resist the gravity flight, he still had to use his body and super vision to resist the energy bullets released by the gravity machine. He also had to heal himself. The pressure was indeed not small.

Sleep, sleep.

“Yi...” When Shi Yu woke up, Baby Ginseng was the second to wake up in a daze.

“Yi...” Baby Ginseng rubbed its eyes. Although Shiyu didn’t have class today, it had class.

Baby Ginseng looked for its student card.

Shi Yu applied for two student cards from the battle club. One was for Eleven, and the other was for Baby Ginseng.

Eleven’s was used to activate various training facilities.

Those for baby ginseng was going to be used to listen to various high-end classes.

The 100 million smell changes contained in the max-level sweet gas allowed Baby Ginseng to enter the door of botany and smell science.

Some scents could make the Overlord Gem Meow lose its resistance and become obsessed. Some scents could make dragons fall into madness and enter a berserk state. These various magical knowledge made Baby Ginseng very emotional.

Compared to Eleven and Buggy, who had a headache over the test knowledge, Baby Ginseng, who had benefited from this, discovered the use of knowledge in battle.

Under Eleven’s persuasion, it turned out that it didn’t hate reading!

Eleven was right. Looking at this thing, he might really become stronger. This was the secret manual to become stronger!

After careful consideration, Baby Ginseng made a huge decision.

Since its training intensity couldn’t exceed Eleven, its evolution frequency couldn’t exceed Insect, and its racial potential couldn’t compare to the little sword spirit who had just joined the team, it didn’t fight to the death. It had found its own ginseng maxim.

Knowledge changed fate!

It wanted to take a different approach and temporarily change its class from Battle Ginseng to University Ginseng, and even evolve into Research Ginseng and PhD Ginseng.

“Do you really not need me to bring you to class...” Shi Yu looked at Baby Ginseng suspiciously.

“Yi!!!” Baby Ginseng shook its head frantically. If Eleven could go alone, so could it. It was no longer a child.

It already knew human language, so it had no problem listening to the class.

"I'm afraid that you'll be picked up by some pet on the way..." The corners of Shi Yu's mouth twitched.

Σ(°△ °|||) Baby Ginseng was shocked.

"I'm just scaring you. You can go by yourself. I've asked the Gem Cat avatar to look after you in secret. Remember to pay the reward to it yourself." Shi Yu chuckled.

Baby Ginseng heaved a sigh of relief and expressed that there was no problem!

A moment later, Baby Ginseng went out with a small backpack, leaving Shi Yu in deep thought.

Damn, his pets were getting more and more strange.

Fortunately, Buggy and Little Chi Tong weren't messing around yet...

Shi Yu sighed and ran to wash up. After washing up, a group chat message suddenly popped up on his phone, attracting Shi Yu's attention. It was the class group.

Wang Ling: "Big news!! Our archeology department obtained a complete fossil of the ancient Tyrant Dragon from god knows where. This is an extinct overlord-level beast. I heard that they're going to use this to give us our first lesson!!"

A classmate: "F*ck, what the hell. I just f*cking saw a ginseng baby carrying a backpack passing by the entrance of the cafeteria."

Wang Ling: [?]

Shi Yu : "..."

Chapter 187: Ancient Tyrant Dragon

On that day, many people saw a strange phenomenon.

A ginseng baby carried a small backpack and walked towards the school's classroom like a primary school student.

In the classroom, a pale-haired Master Feeder pointed at the top-grade spirit ginseng baby in the back seat in confusion.

So this was a student, not a lesson material?

How did it swipe the card in!

"Let it go." At the window, an elegant big white cat licked its claws and sent a mental message to this mentor.

Education was important.

And ginsengs needed education too.

"What the hell."

As for the students, they looked at Baby Ginseng, who was holding a notebook and pen with a more serious expression than them. They completely lost their ability to think.

There were actually precedents for pet classes. However, most of the pets were mechanical in order to support research, record, and take pictures as computers, phones, and instruments. However, it was definitely the first time that a ginseng baby came to his class as a student and not as an experimental material.

...

Wang Ling: "Oh my god, Baby Ginseng is taking class."

Everyone: "?"

Weren't you still paying attention to the Tyrant Dragon just now?

Wang Ling: "Is it your ginseng baby? Is it? I heard it's very similar to yours. What's wrong? @ Shiyu"

Shi Yu's ginseng baby was considered half a tonic. After all, it had passed the battle club assessment with such violent methods.

It had only been a few days, and everyone still had a deep impression of it. Some people who had seen the battle quickly realized that the two ginseng babies were super similar. They were so arrogant and didn't have the awareness that supplements usually had.

Shi Yu: "Seems like it."

Everyone: "F*ck, it's really you."

They had only heard of letting pets live and fight in various places. They had never heard of letting pets go to classes.

Even if there was, it would definitely not be a ginseng baby.

Even if it was a ginseng baby, there would definitely be a Beast Tamer accompanying it. Was it appropriate to let it go alone?

Wang Ling: [There's something wrong with you. I just checked the forum and heard that there was an iron-eating beast who claimed to be a Beast Tamer yesterday. It brought three small iron-eating beasts and soaked in the gravity room for an entire afternoon. Where did so many iron-eating beasts come from? Don't tell me it's yours??]

Ever since the evolution of the iron-eating beasts was announced, the students also knew that there was a metal-eating beast research institute here in the Ancient Capital University. They knew that it raised a few iron-eating beasts, and the person in charge of this research institute was Shiyu.

Shi Yu: "Shi Yu: Seems like it."

Wang Ling: "Don't copy your ID too if you're going to copy paste the reply!"

Shi Yu: "Bye, I'm going to study."

Shi Yu switched off his phone. Since his pets were so hardworking, it was time for him to work hard.

He would meditate today.

He wanted to raise the Beast Control Space to level 4 as soon as possible so that he could welcome a new physique breakthrough.

At that time, the contract, the King's Envoy, and the Possession of Little Chi Tong would all be fine.

Shi Yu chose today's mission. A moment later, Eleven and the others woke up. Of course, Buggy was still sleeping and absorbing the evolutionary materials.

Although it had only been a few days, because it had absolute sleep, the speed at which it absorbed the evolutionary power was still very fast.

Even though the level of the evolutionary material was very high, if nothing went wrong, it should be able to complete its evolution within this month.

"Hmm!" After packing up and greeting Shi Yu, Eleven left with her training card.

He had yet to successfully clear the Gravity Machine, so he had to work hard today.

As for the little sword spirit, the mission that Shiyu gave it was to play. In order to match its previous life, Shiyu found some ancient war movies and television dramas to let Little Chi Tong lie on the ice and watch.

Hmm, these were all things that he, Eleven, and Buggy had seen. Apart from the fact that there were a lot of dead people and pets, there was no problem with the scale. Children could see it. It could be considered an elementary education.

"This is the correct way to become a Beast Tamer!"

Realizing that there was not a single pet beside him and that everyone was working hard, Shi Yu sighed and continued meditating.

Without the interference of his pets and with the sachet left behind by Baby Ginseng, Shi Yu's current meditation efficiency was very high. It was also very easy for him to immerse himself in it. It was very rare for him to be interrupted from meditation from time to time because of his daze like before.

...

The next day.

The new archeology students who had returned from their military training were finally about to have their first lesson.

Because Shi Yu had meditated for a day yesterday, his mental state was especially good today.

First, he went to the cafeteria to get a cup of nutritious soy milk and a meat bun. Then, he walked towards the classroom in satisfaction.

"Shit, shit, shit."

When Shi Yu arrived, the classroom was filled with screams.

The reason why these students were so excited at this moment was because of the news that Wang Ling had revealed yesterday: Tyrant Dragon fossil!

The moment Shi Yu entered the classroom, he saw a huge fossil skeleton that was about 15 meters long!

Although it had become a fossil, the skeleton still emitted a faint deterrence, indicating its former status as the overlord of the land.

“F*ck, Shiyu is here.” As Shiyu entered, someone suddenly shouted.

“Are you sick?” Shi Yu was speechless. Why were they always saying “F*ck” and “F*ck”? And why was he treated the same way as the Tyrant Dragon and had to be called “F*ck”?

At this moment, it was the fourth time that the students looked at Shi Yu strangely.

The first time was when school reopened. Due to the results of Shi Yu’s vocation assessment. The second time was when they went to the ruins. Due to the results of Shi Yu’s battle club assessment. The third time... was when they returned. It was because of the commotion caused by Shi Yu in the Heroic Ruins... This time, it was because of the Beast Tamer Iron-eating Beast Legend and the university’s ginseng legend that was circulating in the Ancient Capital University.

So this was how pets were trained?

Let the pet apply for cards and start house training by itself. Let the pet learn the feeding knowledge by itself. Brilliant.

It directly made up for the Beastmaster’s lack of energy. It allowed the Beastmaster to take time to meditate and also allowed the Beastmaster to exercise his body when he had the time. After learning it, he could also arrange a pet like this another day!

“Student Shiyu, good morning.” On the podium, an old man with white hair smiled when he saw Shiyu.

“I’m your fossil teacher.”

“Hello, Professor Zhao.” Shi Yu knew this person. He had previously known the tutors and professors of the various classes in the archeology department.

This was one of the masters who studied the fossil domain. Although he couldn’t compare to Grandma Li of Division 11, he was still a rather experienced figure. There was no other way. These people from Division 11 were too good at this.

Fake archeologist: Study historical knowledge seriously, accumulate foundation, carefully examine ruins, and use modern technology to study in detail.

Real archeologists: Watch history as a documentary, talk about the past and the present, and listen to secrets.

“Hello.” Professor Zhao smiled. He was still unfamiliar with the names of the other students in the class, but he knew the name of the new star in the archeological field, Shiyu very well.

“Go sit,” the professor said.

“Alright.”

Following that, Shi Yu randomly found a seat and sat down. The other students also entered the classroom one after another. As expected, they were stunned by the huge fossil.

Just as Shi Yu was observing the fossil, the bell for class rang.

Professor Zhao stood in front of the fossil and first introduced himself to the students with a smile. Then, he said, “The first lesson was originally planned to explain the history of the class to everyone, as well as the teaching outline for this semester. It’s not time to come into contact with the real fossil.”

“You’re very lucky to have encountered a special situation.”

Below the stage, the eyes of many students flashed. Ancient Capital University was indeed the strongest archeology department. It was awesome. The first lesson showed the new students such a complete ancient overlord fossil. Which school could do that?

This fossil... It couldn’t be bought without at least billions, right? Many students guessed.

“As you can see, this is the fossil of a Tyrant Dragon.”

“The Tyrant Dragons are ancient creatures that lived more than 60 million years ago. According to existing research, they are earth-elemental and are the peak products of the alternative dragons. Their race level is as high as a middle-level overlord, and their species is huge. They were the fully deserving overlords of that era.”

“They have the powerful bodies of all dragon-type pets and are extremely strong. They control brute force, Barren Body, Earth Domain, Overlord Aura, and many other powerful skills.”

“In this lesson, I’ll explain in detail to everyone through this fossil research what help humans can provide in understanding the history of pets, the history of Blue Planet, and the changes in the ecological environment.”

“However, before that, let me ask you a small question. Does anyone know how we measured the history of biological fossils and even some ancient objects?”

This question was relatively simple. Everyone present could say one or two methods.

“Elemental particle measuring technology.”

“Time Light Detection Technique!”

Most of them used technology machines, but there were also special skills.

“Meditation Detection Spell!” Class President Wang Ling said.

“That’s right!” When the students finished speaking, Professor Zhao nodded and said, “Most of the methods used in the detection era were all various archeological skills developed by the Mechanic class after they were established.”

“And before that, the most common way for ancient people to determine the era of ancient artifacts is the meditation detection method. This is a special meditation technique developed by the Time

Emperor. It can capture the traces of time on ancient artifacts in a state of meditation and determine the approximate era of ancient artifacts from numbers.”

“However, apart from Beast Tamers with talent in the time department, this method will inevitably produce a certain error when used by others. The precision is inferior to the various technological and archeological skills of the modern era.”

“However, in certain situations, we can only rely on the Cogitation Detection Method. Therefore, this is also the basic skill that you need to master in the next four years. Next, before the formal lesson, let’s play a small game. I’ll guide you into this special Cogitation state. You each judge how long this Tyrant Dragon fossil had lasted with specific numbers.

Professor Zhao smiled and said, “Now, receive the meditation stone from me according to the student number. This meditation stone can assist you in entering a special meditation state before you can independently use the meditation detection method.”

Most of the students were excited.

Shi Yu also received a black meditation stone the size of a pebble.

Although he had previously learned this technique from various sources, he had never officially used it. He was just waiting for the school to teach him.

Soon, everyone received the meditation stone and entered a meditative state according to Professor Zhao’s request.

A moment later, the vision of all the students who had entered a meditative state turned incomparably dark. Under the guidance of the meditation stone, it was very different from the usual meditation state of strengthening the Imperial Beast Space.

However, although it was dark in front of their eyes, it was not completely empty. At this moment, everyone discovered in surprise that they could still capture the figure of the Tyrant Dragon fossil at the corresponding position in the darkness!

However, it was a little different from what they had seen previously. At this moment, the Tyrant Dragon’s skeleton was covered in traces of time that were even smaller than sesame seeds. The entire fossil was wrapped!

“An item that exists for more than a hundred years has a corresponding mark of time. By counting the number of marks of time, you can determine the year of the item. Carefully meditate, carefully observe, and carefully judge.”

“Later, I’ll tell you the exact year of the fossil and see which of you has the smallest error in judgment.”

Professor Zhao chuckled. This wasn’t supposed to be his lesson, but it was a general skill. It didn’t matter if he let the students understand it in advance.

“How the f*ck do I count?” In the Cogitation state, although the students could adjust their vision, pull their vision closer, and clearly enter the traces of time, the densely packed traces of time that were even smaller than sesame seeds made everyone’s scalps tingle. The requirement on mental strength was too high. Without mental strength, it was impossible to capture the traces of time and count them clearly.

“F*ck, my trypophobia is acting up again. I’m not suitable for archeology...”

The students had a headache.

Of course, there were also people with extraordinary talent. For example, Shiyu had already begun trying to detect it because his mental strength was strong enough.

Constitution was a person’s foundation. People with good constitutions wouldn’t have weak mental strength and soul power. Besides, Shi Yu had taught so many mental skills to his pets. The feedback from the advancement of his pets more or less allowed his mental strength to exceed that of other Beast Tamers of the same level.

“Interesting.” Soon, Shi Yu was going at it.

However, before he could get excited for long, a change happened.

Shi Yu’s brain buzzed. With a “Ji” sound, light gradually appeared in the darkness in front of him.

At that time, when Yu opened his eyes, he was shocked to discover that the Tyrant Dragon covered by the traces of time just now had already revealed its true appearance.

Furthermore, not only that, the surroundings quickly changed, turning into a plant area that Shi Yu was completely unfamiliar with.

“Roar!!!!” At this moment, the Tyrant Dragon stuck its head out and stared at Shi Yu with a fierce gaze. It opened its bloody mouth and roared. The fierce wind instantly made Shi Yu’s scalp tingle.

Boom!!!

The Tyrant Dragon swept its tail at him, causing Shi Yu’s eyes to explode. He felt a powerful pressure and was just about to etherealize when he subconsciously turned his head. However, he failed and was struck by the tail. However, when he turned his head, Shi Yu saw... the Green Silkworm Cocoon on his shoulder that was similarly shocked...

Bang!

As if in a nightmare, Shi Yu was instantly killed by the Tyrant Dragon. Then, he was suddenly jolted awake in the classroom outside. He was interrupted from his meditation and broke out in a cold sweat.

“Just now...” Sitting in his seat, Shi Yu’s breathing sped up. What was that?!!

Listening to history?

No, definitely not.

It was different from any other time he had listened to the sound of history. Furthermore, at that time, it gave Shi Yu a very special feeling. He wasn’t like a bystander, but had personally stood in front of the Tyrant Dragon. It felt even more real than when he was discovered by the emperor. It wasn’t right to say that it was real. The feeling he gave Shi Yu was more like he had been awoken from a nightmare.

“Buggy?” Shi Yu suddenly sensed that Buggy had woken up in the Taming Space.

At this moment, Buggy was also extremely confused. Because just now, it had seen the same thing as Shiyu.

“What did you do just now?” Shi Yu calmed down and asked.

If he wasn't wrong, Buggy was here too. This also indirectly meant that it was definitely not a historical talent...

Buggy was innocent. It didn't do anything. It just suddenly woke up and tried to use its psychic power to sense the situation in the outside world. Then, that was it.

“Ji...” Although he didn't know what happened, Buggy's shy spirit started to communicate.

The feeling it had described was that it had accidentally entered someone else's dream.

Furthermore, the owner of this dream wasn't a normal life form...

In the outside world, when he heard this, Shi Yu looked up at the Tyrant Dragon fossil that had died 60 million years ago and fell into deep thought.

Ridiculous! Don't tell him that he and Worm had entered a fossil dream

Chapter 188: The Butterfly Meeting

“Or did you awaken some special ability?”

After the anomaly, Shi Yu was in no mood to attend class.

He was thinking about the Tyrant Dragon. The Tyrant Dragon, the Tyrant Dragon...

Shi Yu felt that the anomaly might be related to Buggy.

Otherwise, why would Buggy have appeared beside him at that time?

Furthermore, the various abilities of the insects happened to be related to dreams!

There was definitely a connection!

“Let's try again.”

Shi Yu called out to Buggy.

Buggy nodded crazily.

Damn it. Although he didn't know what happened just now, that dinosaur felt so strong.

It didn't take many looks and he sensed its power.

Otherwise, if it materialized, it would be another good fighter, not inferior to the Frost Dragon.

At that time, wouldn't he become a great dragon tamer, with the Frost Dragon and the Tyrant Dragon, take off?!

Then, Shi Yu entered a meditation state again.

Then, like in the beginning, he tried to sense the year of the Tyrant Dragon fossil.

In the Beastmaster Space, Buggy also tried to sense the outside world through psychic power.

It was the same as before.

Furthermore, the target was very clear. It tried to sense the Tyrant Dragon fossil that Shi Yu was also sensing.

Instantly, their perceptions were in sync.

A hint of light appeared in Shi Yu's dark eyes again.

However, things didn't go as smoothly as before.

There was a feeling that it was indeed feasible, but it was still lacking something.

It was like listening to history. It depended on luck.

Grass just grew randomly on the street, but flowers, even if you took the energy to tend to them, might not necessarily grow.

"I hate it..."

Moments later, Shi Yu and Worm gave up struggling.

Because the accident succeeded just now, there was no reaction, but when they took the initiative to try, Buggy expended a lot of energy.

In order not to affect Buggy's condition, Shi Yu quickly stopped.

"Sigh." Shi Yu opened his eyes again and muttered to himself, "There's definitely a problem."

"The meditation technique developed by Emperor Shi is not that simple. It's not just used to detect years."

"There might be other uses when combined with the abilities of pets, and they mainly rely on the strength of pets."

"I made another big discovery."

...

After class, Shi Yu returned to the dormitory.

He sighed, feeling like he was surrounded by pits.

Besides, they were all pits that he couldn't explore in his current state.

Without the strength, he didn't dare to go use the crystal left behind by Emperor Shi.

The mystery of the bloodline of the Ice Dragon General and the Great Empress couldn't be exposed to the Phoenix Race.

Now, he had discovered the specialness of the meditation technique left behind by the Time Emperor, and it was restricted because of Buggy's state, making it impossible to explore deeper.

"Just kill me." Shi Yu lay on the bed.

Then, he turned around and searched for information through the channels of Bureau 11.

In the end, he shook his head.

"I don't want to do my homework anymore. I want to cheat."

Shi Yu chose to ask the big shot directly!

He was still a student, so it was embarrassing to ask a teacher.

Like the crystal, he didn't believe that no one knew what was going on.

There were so many capable people in Bureau 11. Maybe some big shot knew what was going on.

A moment later, Li Lianping from the Eleventh Bureau picked up Shi Yu's call.

This was the most authoritative archaeologist and researcher in the fossil field in the entire Dong Huang Continent.

"Shiyu?"

"Did something happen to that ginseng baby?"

Shi Yu said, "No, Senior Li, I want to ask you some questions about the fossil domain."

"Oh? Are you starting to be interested in the fossil domain?"

Senior Li chuckled. Archaeology was also divided into different branches.

There were archaeologists who were focused on investigating myths, archaeologists who liked to investigate totems, archaeologists who studied ancient dynasties, and archaeologists who studied extinct biological fossils. When he heard that Shi Yu was interested in fossils, Senior Li laughed.

She suddenly felt that there was a successor...

"Ask away."

"Senior Li, is it possible for a fossil to still be alive? Could there be remnants of its dream? Is there any special use for the special meditation technique left behind by the Time Emperor?"

A moment later, Li Lianping's laughter came from the other side. "It's impossible for fossils to live. Of course, it's not impossible to eliminate the possibility that one day, it will revive and evolve into an undead or an elemental life form."

"On that day, perhaps the entire fossil research field, even the entire archaeology world and the Beastmaster world, will be in an uproar."

“Although it can’t compare to the birth of a mechanical life, it’s still a super big discovery.”

“Your other question is right... A fossil does have a chance of surviving as a dream. Did you pry into the dream of a fossil and accidentally dream back to ancient times?” Senior Li asked with a smile.

“Alright.” Upon hearing his tone, Shi Yu understood that she understood.

“It’s more troublesome to explain in detail. This is actually a manifestation of the traces of time. Another form of Spirit that will only appear on the remains of powerful ancient creatures.”

“What’s known at the moment is the specific method to peek at the fossil dream realm. It’s a meditation technique developed by the Time Emperor. In addition to the support of the pets who have mastered the transcendent Dream skill, the Beast Tamer and the pet’s perception have to be combined. Only then will there be a chance to peek at the ancient fossil dream realm.”

“And the probability of this is even lower than hearing and seeing the shadow of history. Although I’ve cultivated a dream stealing Beast, I’m usually too lazy to use this ability. On the other hand, some dream masters abroad are very proficient in this. After all, there are very few people in their country. You can’t find many beast tamers with the listening talent. You can only rely on other methods to do archaeology.”

“Dream Stealing Skill?” Shi Yu asked.

Skill: Thieving Dream

[Level]: Advanced

Introduction: A spirit-type skill. It can enter the dreams of other life forms and pry into their secrets. It can also replicate their dream illusions and create its own dream world.

“That’s right. Speaking of which, you actually have a pet that knows the Dream Steal skill? And its level is so high?” Senior Li suddenly discovered the issue.

There were less than three people in the entire Dong Huang Continent who had mastered the Godly Thief Dream skill... This skill was too difficult to master.

“No...”

Shi Yu was stunned. There was really a way to enter the fossil dream world, but the problem was that Buggy didn’t know this skill!

“No?” Senior Li was confused.

“It’s my Green Silkworm. It helps me enter that state, but it’s in the form of a cocoon now. Besides, it doesn’t have any dream stealing skills. Wait, I used the Illusion Fruit in the evolutionary materials I gave it!”

“The Illusion Tree has mastered the Dream Steal skill. Is this a sign that the Green Silkworm will also awaken the Dream Steal skill...?”

Shi Yu suddenly thought of something.

Name: Dream Tree

Introduction: The Illusion Tree is the king of the Illusionary Dream Domain. It can pull prey into the Dream World. In the Dream World, it can create illusions identical to the hypnotized person, allowing them to fight the hypnotized person.

Senior Li was silent. That was indeed a possibility. However, why didn't his Green worm not master the Dream Stealing skill, and it could do something that even a pet that mastered it would find difficult to do?

Unscientific.

Also, you just said that your worm is a cocoon. Shouldn't it be sleeping? Why can it help you enter a dream?

Sleepwalking?

There were too many points to complain about. For a moment, Senior Li didn't know where to start.

At this moment, before Senior Li could say a word, Shi Yu was already high.

Awesome, Buggy.

If he awakened the dream stealing skill, that would be awesome.

Wasn't this the reason why he used the Illusion Fruit back then?

Insects used virtual illusions to summon powerful pets. The hardest part was that they didn't know enough about this creature and didn't have enough compatibility, which led to the pitiful combat power of the summoned phantom.

Even with the dragon whisker, it was impossible to almost perfectly replicate the ice dragon.

However, the Dream Steal skill could allow a pet to enter the dreams of other life forms and pry into the secrets of their skills, almost perfectly replicating their abilities.

Because the Illusion Tree had mastered this skill, it could pull its prey into the Dream World and summon the other party's Illusion Replica to let the other party attack it.

This was already very impressive, but if Buggy mastered it, it could be even more powerful. This was because the Illusion Tree could only control the enemy's dream mirage in the dream realm, but Buggy could summon it to reality through the phantom illusion skill!

Dream Steal+Illusion. This was an invincible combination skill.

In other words, as long as the level of these two skills were high enough in the future, it could even let the Tyrant Dragon almost perfectly reappear in the world?

It was even to the extent that if a divine beast was willing to let Buggy enter his dream, Buggy could let even divine beasts appear!

Impressive.

As expected of the Worm of Daydreaming.

“After evolution, you must help me awaken the Dream Stealing Skill. Only then will I live up to my reputation as the Illusion Fruit.” He thought to Buggy.

As for why Buggy could bring him into a dream without awakening the Dream Stealing skill, Shi Yu was silent for a moment and felt that it might have something to do with the maxed skill Psychic.

Psychic power was a basic skill of the mental class. The development direction was endless, and it was the cornerstone of most mental skills. It was still unknown how a max-level Psychic could affect other skills.

“Of course, the greatest possibility is that my talent is outstanding?”

Shi Yu nodded. That was indeed a possibility. After all, he had even mastered the talent for listening. It was not impossible for him to perfectly match the meditation technique developed by Emperor Shi...

“Your Green Silkworm. Seems like its talent is not simple.”

In the end, Senior Li gave up on asking. She found it troublesome. Shi Yu, the Green worm... They were strange from the start. However, it was a Green Sponge Worm that had obtained the Dream Clam inheritance after all. It was normal for it to be unscientific.

“By the way, did you just say that your Green worm is still in a cocoon state?”

“Can you confirm when the evolutionary period is?”

Senior Li suddenly said.

“It should be done in a month,” said Shi Yu.

“In a month...” Senior Li’s tone was a little uncertain. “I wonder if I can make it in time.”

“Is there something?” Shi Yu asked.

Senior Li said, “I received news two days ago that one of Dong Huang’s guardians, the Butterfly God, who lives in slumber in the Immortal’s Capital, has woken up.”

The Dong Huang Guardian... In other words, a totem-level creature!

Shi Yu quietened down. Butterfly God?

Meaning, butterfly-type creatures?

“Do you know about the Butterfly Meeting?” asked Senior Li.

Shi Yu said, “I’ve never heard of it...”

“Hmm... This is an evolutionary conference organized by the Butterfly God.”

“The Butterfly God is a guardian-level butterfly-type pet. Its species is a high-level overlord. But at the start, it was just an ordinary Green Silkworm. It was very ordinary, like the Green silkworms that can be seen everywhere on the street. It was far from talented like your insect.”

Shi Yu :” ...”

You have overestimated Buggy. It was inferior to those ordinary green sponges at the start.

“And this Butterfly God’s true identity is a pet that Senior Lin casually raised. It hasn’t been contracted.”

“Senior Lin...?” Shi Yu pondered for a moment. To be addressed as Senior by the big boss of Bureau 11...

“Is it Senior Lin Feng, one of the legendary Beast Tamers of the Dong Huang Continent?” Shi Yu asked.

Li Lianping said, “Yeah.”

“Senior Lin Feng has an evolutionary talent. Apart from the nine pets he contracted, he also likes to raise some other pets. Although he didn’t make a contract, these pets that have undergone multiple evolution after his guidance are all willing to serve him as their master.”

“The Butterfly God was a pet raised by Senior Lin. When Senior Lin and his nine pets went missing, these pets he raised searched for them for a while but to no avail. Then, they fell asleep in the Dong Huang continent and became our guardian gods.”

“Among them, because of her special experience, this Butterfly God will use her special Ascension talent to support some Green Silkworms in the forest that were sleeping to complete evolution. After evolution, the Green Silkworms that could go through evolution turned out to have very strong racial potential and strong vitality.”

“Later, after evolution, it became the famous ‘ Butterfly Meeting ‘. With the approval of the Butterfly Goddess, even some Green Silkworms of the Beast Tamers can receive its evolution blessing like the wild Green Silkworms in the forest.”

“Therefore, every time the Butterfly God awakens, it’s a celebration for the Beast Tamers who raised the Green Silkworm. This means that they can receive the Blessing of the Butterfly God for free, the Blessing of a totem-level creature who has mastered the talent of Ascension.”

“You’re pretty lucky. The last time the butterfly god woke up seemed to be ten years ago...”

“I was also there. Tens of thousands of Green Sponge Bugs turned into butterflies together. That scene was simply beautiful. Haha.”

“And it’s said that the most perfect evolutionary body can also receive additional gifts from the butterfly god.”

Shi Yu said, “In other words, I can also bring my Green Silkworm to participate in this’ Butterfly Meeting ‘??”

Li Lianping said, “Yeah, but the butterfly god has just woken up. The exact time is still uncertain. I wonder if you can make it.”

“If your Green Sponge Insects complete their evolution in advance, you’ll miss this opportunity.”

“You can pay attention to the date of the butterfly transformation event. If you can’t make it in time, you can find some methods to temporarily slow its growth.”

Shi Yu fell into deep thought. If he wanted to catch this meeting, he would definitely be able to. This was because his bug's consciousness was very clear at this moment. It could completely control its evolution. Even if it evolved now, it wasn't impossible for Buggy to continue. It could easily break out of the cocoon. However, the evolutionary power had yet to be completely absorbed, so it wasn't worth it to evolve in advance.

At this moment, Shi Yu was considering whether he should bring Buggy to participate in the butterfly transformation event held by this guardian creature...

"Buggy already had a chance of advancing to an overlord race. Wouldn't it be more stable if we participated in this?" Shi Yu made a decision. If he participated, he might even take the opportunity to replicate some rare skills.

He firmly believed that his Buggy was definitely the strongest evolutionary body.

Speaking of which, this evolutionary talent big shot was so awesome. Not only did he nurture a bunch of quasi-divine beasts, but he also left behind guardian deities for Dong Huang. Buggy he casually raised had even become the nation's guardian deities. Nice, he was simply full of positivity.

He was a role model and worth learning from!

Chapter 189: Beast Tamer from a Foreign Country

With Grandma Li's reminder, Shi Yu paid attention to the butterfly god.

The species of the butterfly god was "Divine Feather Phoenix Butterfly", a dual-elemental wind and bug type.

It was said that its body was a hundred meters tall. Its wings could envelop the sky, and were covered in feather-like scales. With a light wave, it could stir up a violent wind and destroy a city.

Its feather-like scales were very special, a very rare resource. After floating down, it could melt into light, helping bug-type lifeforms to be reborn and increase their life level. They could even help turn the worms into butterflies.

Shi Yu took out a small notebook and memorized it.

He was determined to befriend this beast.

Baby Ginseng, don't study the gem cat's food for the time being. There's no hurry. Let's study what the Divine Feather Phoenix Butterfly likes first!

"Achoo..." Somewhere, as it looked after Baby Ginseng's experimental class, the gem cat, as well as the Gem Cats everywhere in the Ancient Capital University, it frowned. Its powerful sixth sense made it feel like someone was scheming against it...

Which bastard...

...

Since the first fossil lesson, Shi Yu completely welcomed university life.

He began to accept new knowledge bit by bit. Because he was more interested, he didn't have to worry about failing.

For example, although a special meditation technique that was necessary for archeology was difficult to practice, because Shi Yu knew its special use, he knew that in the future, it could even be brought back to reality using Buggy's powers. How could he not practice it well?

After all, interest was the best teacher.

Just like how Eleven was interested in training and didn't need Shi Yu to supervise it at all, working hard by itself.

At present, although Eleven was working in the gravity room and charging room, the benefits were indeed there.

In just two to three days, its electromagnetic levitation, accumulated lightning, and proficiency levels had reached Proficiency level and above.

There was no need to add points. It trained by itself.

Of course, Eleven's hard work was one aspect. The reason why the proficiency of the new skill could increase so quickly was because of the proficiency of the old skill.

It had mastered the Transcendent Thunder Palm and had added a new lightning attribute. It was already familiar with lightning control. Compared to the ignorance it had when learning the Thunder Palm from scratch, learning a new lightning attribute skill now had twice the effect with half the effort.

This actually saved Shiyu a lot of effort, allowing him to do his own things first.

Three to four days later, Shi Yu was completely immersed in his ordinary and calm university life.

He was learning very quietly.

Eleven was also training very quietly.

After training in a restrained state every day, it was Eleven's pleasure to come back and enter a sharp state of Inner Power to see how much stronger he was.

Another characteristic of the Inner Power skill. In the restrained state, because pets could withstand greater external training pressure, the efficiency of training was better than under the restrained Inner Power state, and the training effect could be perfectly inherited after turning into the sharp state.

As for Baby Ginseng, there was naturally no need to talk about it. It seriously studied various classes and enriched its knowledge.

The evolutionary skill, mutation... Shi Yu had already locked onto what the target was and could replicate it at any time. However, before he collected the evolutionary materials, Shi Yu was in no hurry to replicate and teach. It was mainly because he had no time to leave school.

The Sleeping God Buggy and Baby Chi Tong could be ignored. What Shi Yu looked forward to the most every day was the so-called Butterfly Meeting.

Initially, Shi Yu thought that he would be able to wait calmly, but on a Saturday morning, he chatted with the battle club and exploded.

Teacher He: "If you have time now, come to the club's main training hall. Someone will come to challenge the club later... No, it's a visit exchange! You understand."

Members: "?!"

Who was so bold to come to the university to challenge them?

President White Brook: "I'll leave it to you. I'm not in school. I can't rush back today."

Vice President Xu Ze: "Which school or club?"

The former was easy to deal with, while the club's Beast Tamer was a Beast Tamer nurtured and signed by some financial groups. They were often active in various public competitions. Generally speaking, their level was lower than the nine top schools.

Teacher He: "Neither. He's an overseas Beast Tamer. His father is a legendary Beast Tamer. He's from the Ancient Capital and was once a member of the national team. During the World Tournament, he fell in love with a foreign Beast Tamer and settled overseas after the competition."

[I've returned to Dong Huang to take a look and have also brought my child back. @ White Brook, there shouldn't be a big problem. It's said that the other party isn't a master yet.]

Members: [Duck shocked.jpg]

A mixed-blood baby?

[I'm going now! How dare they challenge us if it's not a master?]

Not long after, they replied to the members of the battle club. Even the reserve members like Yu Shu and Wang Ling also appeared to join in the fun.

A foreigner!

At present, even crossing countries as a Legendary Beast Tamer was difficult and required a huge price. There was almost no communication between domestically and abroad. Perhaps the higher-ups knew a lot about the situation abroad, but to ordinary people, and even low-level Beast Tamers, there were very few channels to come into contact with matters abroad.

It was only limited to extremely different movies and novels, but this kind of fictional work... even adults knew it. Just look at it. Only a fool would believe it.

"Oh..." Shi Yu rubbed his eyes. An overseas Beast Tamer.

"Stop sleeping. Get up." Shi Yu patted the bed under him.

"Huh??" The panda bed opened its eyes in confusion. Ah, the sun was up. It was time to train.

“We’re not training today. Let’s go to the battle club to see what’s going on.”

Shi Yu didn’t have much of an impression of this world’s foreign countries. He only remembered one characteristic: special pets from abroad were especially rare in the country.

For example, the Slimes and the gemcats in Dong Huang were imported from abroad.

...

Ancient Capital University, Battle Club.

When Shi Yu arrived, there were already more than 30 people gathered.

Apart from the president, White Brook, Shiyu really wasn’t too familiar with the other older students. Or perhaps it could be said that he didn’t know them at all. Apart from the senior who had been miserably bombarded by Baby Ginseng to be responsible for his assessment, Shi Yu already had a vague impression of the others.

“Shi Yu...” As for the other members, when they saw Shi Yu arrive, their impression of him was more or less the same. He was a genius archeologist, a super monster who had made Hong Xiao’s lose.

However, although everyone mocked Hong Xiao, it wasn’t too ridiculous. After all, it was only an assessment back then. Hong Xiao didn’t send his trump card, the monarch species pet.

It had to be said that these socialites were too young and had no idea how deep Shiyu was.

“Shi Yu is here too.” Instead, it was the instructor for the battle club, Dean He, who looked at Shi Yu with a smile. He knew Shi Yu’s strength the best!

Back when the Ice Dragon General tested Shi Yu, Shi Yu+the commander-level Nine Li Battle Beast+the transcendent Sword Spirit Possession... The power of that strike was enough for him to be considered a quasi-master.

Apart from White Brook and the members at her level, none of them were Shi Yu’s match.

It was also because the more than 600 new students who saw that sword had all signed a confidentiality agreement that the older students still did not know Shi Yu’s strength.

“Yes, Dean He.” After Shi Yu entered and greeted Dean He, he saw a familiar face.

Without knowing the senior, he directly looked at the corner and discovered Yu Shu, Wang Ling, and Miao Dongdong.

After telling Dean He, Shi Yu chuckled and walked over.

“Everyone is here.” Shi Yu smiled and came over. It was fine if Yu Shu and Wang Ling were together, but this little Gu Master was also here.

“Yes.” Wang Ling was already used to Shi Yu and had accepted this monster classmate. After all, they were in the same class and had met almost every day previously.

On the other hand, when Yu Shu and Miao Dongdong from the Combat faculty saw Shi Yu, they were still a little depressed.

“What’s the situation now? Is he here?”

“Not yet,” Wang Ling said.

“Which country is it? Male or female? Isn’t it a master? Is it a high-level Beast Tamer? Do you know what the pet is?” Shi Yu asked.

Yu Shu: “F*ck, you have so many questions.”

Shi Yu: “Do you know...”

Yu Shu’s face darkened. “I heard that just now. I know a little.”

“Didn’t the group chat say that he, he, is a man? His father is from Dong Huang Ancient Capital, and his mother is the Beast Tamer of the Kingdom of Glory.”

Glory... Shi Yu was slightly stunned as he recalled carefully.

If Dong Huang, the “Eastern Brilliance Ancient Kingdom” had a similar style to China on Earth, then Rongguang, “Kingdom of Glory”, was closer to European culture on Earth.

“I thought it was the Beast Tamer from the Seven Islands close to us,” said Shi Yu. After all, Dong Huang and the Seven Islands were relatively close. In comparison, he was much farther away from Rongguang.

“What’s that legendary senior thinking? Marrying to such a far place.” Miao Dongdong muttered softly beside him, “What’s the difference between that and marrying into the family? Returning for a while is probably even harder than defeating an overlord.”

“Maybe it’s because girls in Rongguang are more beautiful? Isn’t their skin pure white? They seem to have blue eyes?” Wang Ling said, “It does feel very good.”

Miao Dongdong: “Black hair and eyes are still the best. Shiyu’s red hair and red eyes aren’t that pretty either.”

Shi Yu: “???”

“Do you believe that I’ll hit you?” Shi Yu felt that this guy was too bad at talking. Even Senior Lu felt that he was handsome. What aesthetics did he have?

Gu Master Miao Dongdong immediately cowered, afraid that Shi Yu would snatch away the target that his parasite pet took control over, once again.

Yu Shu said, “Tch, forget about the parents. Since the other party has returned to the country and even came to the Ancient Capital University to challenge the school, he has to suffer the beatings of society!”

Yu Shu was very confident. After all, Donghuang was the first country to escape the control of the totem. The number of legendary Beast Tamers that were born was the highest among the seven countries that escaped the control of the totem and entered the Beast Emperor Era!

Judging from the overall strength of the Beast Tamers, Dong Huang was also at the front!

Wang Ling: “Why don’t you go for an ‘exchange’ later? Let’s see who gets beaten up.”

Yu Shu spat and said, "I'm still a new student. The other party named names to exchange battles with the members of the battle club. The lowest is definitely a high-level Beast Tamer. If you're so capable, give me another three years. Three years, three years, three years..."

Shi Yu: "Since both parents are members of the national team, he's a son of legends, so the other party's strength is definitely not weak. Maybe he can match Yin Zhengfan?"

"By the way, hasn't our little friend Yin Zhengfan come to the university? Why haven't I seen him before?"

Yu Shu looked at Shi Yu with a strange expression. Aren't you the main culprit for the other party not coming to Ancient Capital University?

He heard from his mother that Yin Zhengfan seemed to have gone to Imperial University in the end! The reason might be because he lost to Shiyu.

"He went to another school," Yu Shu said. Sigh, children were just children. Did they think that they could improve faster if they went to a more curled school?

Unlike him, who clearly knew that Shi Yu was also at the university, but still had the courage to face Shi Yu head-on. Though, the outcome was a little different from what he had imagined at the start. He had been cracked by the collision.

"If it's Yin Zhengfan, the two of you definitely won't be able to win. It's hard to say in the future, though." Miao Dongdong said honestly to Wang Ling and Yu Shu. After all, Wang Ling had been beaten miserably by Yin Zhengfan during the vocation assessment.

And Yu Shu's strength was about the same as Wang Ling's...

When Miao Dongdong finished speaking, Yu Shu and Li Lei's faces darkened.

"The future is still long, do you understand?" Yu Shu said solemnly, "Will the son of a legend definitely become a legend?"

"Legend Yu, you're feeling tough again?" Wang Ling's position was very unstable, and ran to argue with Yu Shu again.

Yu Shu was very unyielding. "With an ordinary legend as the baseline for me, it will definitely be a titled legend that I turn into in the future. I've thought of which title to use."

Shi Yu's mouth nearly cracked from laughing when he heard this group of young people fantasizing. Nice, they were even better at bragging than him.

"Which title?" Shi Yu asked happily.

Legendary Beast Tamers referred to Beast Tamers with overlord-level pets. Top legends with titles referred to Beast Tamers who could fight against totems.

In ancient times, titles were conferred by emperors, but in modern times, they were fixed titles, waiting for the legendary Beast Tamers to challenge for the ownership of them.

Either in the form of a competition, or in the form of a trial, or in the form of challenging a Guardian God and a totem. After passing, one would obtain world status approved by the country and the Seven Kingdoms Alliance, obtain a world-famous title, and obtain a large amount of resources from the Seven Kingdoms Alliance.

Even Yin Zhengfan's father, Legend Yin, had yet to successfully obtain a title.

This was what it meant to be a legend. Under normal circumstances, the ceiling battle power of humans was the main force that resisted the totems. The Ice Dragon General belonged to this level, and the three generals under Emperor Shi were all at this level.

"It must be the Dragon King," Yu Shu said. "It's very easy to say, isn't it? Besides, hasn't this title been vacant for a long time?"

Wang Ling and Miao Dongdong rolled their eyes. As expected, Yu Shu was thinking of something big. The Dragon King's title required the Beast Tamer to control a dragon-type creature and fight the Dragon Guardian for more than a day and night. It was one of the few titles with explosive difficulty. Why did Yu Shu even think that this title had been vacant the longest?

"But the Dragon King shouldn't be the most prestigious title, right?" Shi Yu said.

"The one with the highest value should be Legend of the World? I remember that Senior Lin Feng had this title back then."

Yu Shu: "This is not bad, but it depends on luck. After all, the timing of that title's competition is too irregular."

Everyone : "..."

Wang Ling and Miao Dongdong felt that Yu Shu had definitely shocked Shi Yu silly. In the past, he was proud, but now, he had completely let go of himself and thought about beautiful things all day!

A world legend usually referred to the Beast Tamer who became a legend under the age of 30 and competed with the other six countries to become a legend. This person would have won the championship and obtained the Blessing of the World Tree. The value was high, but it basically meant that this was the most talented and promising Beast Tamer of that era.

Currently, only that evolutionary talent big shot had obtained this title in the entire Dong Huang.. Yu Shu was purely dreaming.

Chapter 190: A Friend From Afar

As Shi Yu, Yu Shu, Wang Ling, and Miao Dongdong were discussing...

There was a sudden commotion at the entrance of the training hall.

"May I ask if this is the Ancient Capital University Battle Club?"

A short-haired young man who was about twenty years old in white pants and a gray shirt carried a backpack.

The young man looked over. At this moment, most of the people in the stadium were using the equipment in the field to train their bodies.

There were not many people like Shi Yu and Yu Shu who sat down to chat purely. They basically chatted while exercising.

Body was the capital to control beasts. To become a good Beast Tamer, a strong physique was also very important.

However, they had to train pets, meditate, and attend classes, so most Beast Tamers ignored the physical training.

This situation was naturally impossible to happen in the battle club of the Ancient Capital University. The students here also had to train their bodies.

In this aspect, Shi Yu was considered lucky. If not for the additional points and the effect of improving his body, he definitely would not have been able to easily reach the current upper limit of his physique.

The skill duplication index did not directly strengthen Shi Yu's body, but provided an effective training channel. Shi Yu's physique potential was no different from that of a Beast Tamer of the same level.

As long as Beast Tamers of the same level were willing to exercise wholeheartedly and invest huge amounts of energy and resources, there was a chance of reaching Shiyu's level.

Of course, it was one thing to be able to achieve it. Apart from special talent Beast Tamers like those with the talent Fusion, probably not many Beast Tamers were willing to put in too much energy to train their bodies.

The price-performance ratio was not as high as meditation and training pets. On the one hand, it was really tiring...

"You are Student Fu Dian?"

At this moment, seeing the main character appear, Dean He looked over and revealed a surprised expression.

"Yeah, I am."

Fu Dian, who stopped in front of the training hall, nodded.

"Hello, I'm Teacher He of Ancient Capital University's Zhan Society. I did receive news that someone would come to visit today. Welcome, welcome."

Dean He's expression was calm as he calmly walked forward, making the members of the battle club speechless.

Bullshit, that wasn't the tone you used in the group chat just now!

He even specially called many members who didn't have their morning training missions today. His intentions were obvious.

"Continue training!"

When Dean He received Fu Dian, who had come to visit, he said solemnly to the students who looked over.

The members trained silently and cooperated with Dean He.

"Didn't your father come?"

When he received Fu Dian, Dean He asked.

"No, it's just me. I wanted to see what the university my father didn't get into back then was like," Fu Dian said, neither servile nor overbearing.

"Oh?" When Fu Di'an mentioned this, Dean He was a little helpless. This was because Fu Di'an's father had indeed not reached the acceptance standards of the Ancient Capital University at the start. He had gradually risen after being selected by a large financial group.

He didn't expect that Fu Chuan would even tell his son about this.

Speaking of which, this guy spoke very fluently in Chinese.

It was not only Director He who discovered it accidentally. Many members of the battle club who were standing with their ears perked up. This Fu Di'an spoke very fluently in Chinese. Furthermore, he had black hair and eyes, making him look completely different from a foreigner. This made many people feel bored.

"Sigh, meaningless, meaningless. Let's go." Wang Ling felt even more bored.

There was no freshness to encountering a Beast Tamer from another country. Change to a white-skinned, blonde, and blue-eyed girl!

"Ha ~ ~" Shi Yu also yawned. Fight already, he wanted to see the exotic pets!

Was there an angel overseas? He had heard that there was a race called angels in foreign myths. If he could encounter one, he wondered what skills he could obtain.

"Hehe, I definitely won't disappoint you." Dean He chuckled.

"By the way, are you a high-level Beast Tamer now? I heard that you're currently studying at the Rongguang Knight Academy?"

"Yes." Fu Di'an nodded.

"How's the strength of the academy over there? Are there any master-level beast tamers among the students?"

"No. The master level is the graduation standard. After the master level, they will join the Knights of Glory for further studies. Therefore, the highest level among the students is the high-level Beast Tamer."

"I see." Dean He nodded and said, "It's about the same here. The students are basically mainly advanced, with only a few reaching the Master level."

He looked at the members of the battle club.

The threshold for a battle society was to be a high-level Beast Tamer. They had commander-level combat strength and a Master-level one. In the past, there were only two in the Ancient Capital University. Now, there was only White Brook. The other universities were about the same. Even if the nine top universities combined their Master-level students, there might not be more than 20.

The students basically only advanced to Master after graduation.

"Honor Knight Academy, Honor Knight Academy, what's that? It sounds pretty suitable for the three of you," Miao Dongdong whispered to Shi Yu and the other two.

Yu Shu was a Dragon Knight, Wang Ling was a Ghost Horse Knight, and Shi Yu was an Iron-eating Beast Knight...

Yu Shu rolled his eyes and said, "It's different. That one isn't a real 'knight'. It's just called a knight. However, I've only heard of it a little. Anyway, the Glory Knights Guild is similar to our Beast-controlling Corps. The difference is that that country believes in the light element. Only the Beast-controlling Master who cultivates light-type pets can join the Glory Knights Guild."

"In other words, this guy studied in that school. He must have trained light-type pets too?" Wang Ling asked.

"Probably." Yu Shu was calm.

Every country had attributes that they were good at. For example, Rongguang advocated light attributes. Although the Seven Islands next door didn't advocate a single attribute, because there were seas everywhere, with the most water-type pets, the strength of the navy was huge, and pirates ran rampant.

As for Donghuang, because of its vast land and abundant resources, although there were all kinds, because of history, it respected dragon-type and Phoenix-type pets even more. It viewed dragons and phoenixes as totem guardians and viewed them as powerful.

A moment later, Dean He and Fu Di'an reached the most important point.

Fu Dian felt that it was time.

He looked at the many battle club elites in the training hall and said, "Teacher He, can you let me spar with the elites of your school?"

It's here!

Many members of the battle club were stunned. Choose me!

"This." Dean He smiled.

"No problem, no problem... The students here are basically all high-level Beast Tamers. We can spar fairly with you."

“Do you have any thoughts? You’re the guest, after all. I wonder what the battle rules over there are like.”

Fu Dian: “I’ve only cultivated one pet at the moment, and only one. It’s currently at the commander level. The rules don’t matter. As long as the other party is of the same level as me, both sides can freely use all the pets and talents they have.”

“Hmm, you only trained one pet?” Dean He was stunned.

“Yes.” Fu Di’an nodded.

Dean He was surprised.

The Beast Tamers present were a little surprised.

Although the common Beast Tamer, who was limited by economic strength and only cultivated one or two pets as the mainstream and occupied more than 60%, as the legendary son... Fu Di’an’s financial condition was definitely not bad.

Then, there was a big problem if he only cultivated one pet. Either it was because his talent was special, or this pet was very special, the kind that could fight many!

“Hmm...” At this moment, Dean He fell into deep thought.

For the time being, he would treat Fu Di’an as a “quasi-master” and bid for the second tier of the National League.

There was naturally no need for White Brook to guide him. There were also many other quasi-masters in the society who could temporarily fight against an overlord pet with all their strength.

Dean He couldn’t help but look at the many elite members of the battle club.

Suddenly, Dean He looked at the newbie group.

Not everyone was a reserve member. Apart from that, there was also an official member.

Seeing one of them, Dean He suddenly felt bad.

“Shi Yu, are you interested in fighting?” He looked over.

“Eh.” When Dean He finished speaking, the elites of the battle club were stunned. Even Shi Yu was stunned.

He pointed at himself and said, “Me?”

“Yes, we’re already here,” said Dean He. It was the weekend, and they were already here.

Dean He was very confident in Shiyu’s strength. How could the big boss of Bureau 11 be weak?

In that Ice Dragon General test, the Nine Li Battle Beast was only a support, but it was already that impressive.

Later on, they had asked about the race level of the Nine Li War Beast. And the answer Shi Yu gave was very simple. A billion evolutionary materials, and quasi overlord race.

Who else was there?

"It's not impossible." Under the stunned gazes of Yu Shu, Wang Ling, and Miao Dongdong, Shi Yu slowly stood up with an helpless expression.

It just so happened that Eleven also wanted to fight.

At this moment, the other senior students were slightly stunned.

Let Shi Yu do it?!

Let a new student come?

Although Shi Yu was also very strong and not inferior to some of the older students, he was only a new student after all. His accumulation was definitely a little low. There were many more suitable candidates in the society than Shi Yu. For example, letting the vice president Xu Ze fight would be a stable battle. He could teach the other party a good lesson.

"This is..." Fu Dian looked at Shi Yu curiously.

Dean He laughed out loud. "His name is Shiyu. He's a new student of the Ancient Capital University."

Fudian:?

Let a freshman fight me?

"Although he's only a new student, he's the top student of this year's Ancient Capital Class Examination. His strength is very strong, and he already has a commander-level pet. His battle power is not inferior to the older students. You don't have to worry." Dean He said, "I think you're about the same age. Why don't you start first?"

"I see." Fu Di'an revealed an interested expression.

He was very interested in Shiyu's title. Top student of the Ancient Capital Class Examination?

Although he was a newbie, he looked very strong. In that case, he would start with Shiyu.

He was already prepared to defeat at least three elites of the Ancient Capital University. It was good to start with a new student like Shi Yu. He could slowly advance and fight the older students later!

...

A moment later, the clock struck.

The other members also stopped exercising and looked at the field.

Since Dean He had chosen to let Shiyu represent the Ancient Capital University to welcome the challenge, there was nothing they could do.

"Shiyu is very strong, don't worry." Hong Xiao, who had lost to Shiyu, said seriously, "After all, he's a monster freshman who's made me send out an ace."

Everyone : "..."

Embarrassing, quit the group!

There were nearly 100 people in the Battle Club. They adopted a ranking system. Every year, the top ten members of the club could form a school team and compete in the national competition on behalf of the Ancient Capital University. For example, Hong Xiao could be pulled out to assess the new students. He was a proper member of the club above 50. Even if he completely defeated him, it was just that. It was completely unconvincing.

“This is interesting.” Unlike the older students, Yu Shu and the other new students knew more about Shiyu’s strength like Dean He.

After being stunned, they realized that Dean He had a bad conscience.

This guy was in for a bad time. New student?? How could he call that monster Shi Yu a new student?

After the battle, what would your opponent think of the new students of Ancient Capital University?

“Hello.”

Below, Fu Dian and Shi Yu nodded at each other. As for Dean He, he pointed to the side and said, “Just that field. I’ll be the referee.”

Both of them felt that there was no problem.

Fu Dian smiled and walked to the other side of the field.

During this process, he directly summoned his pet.

Under the surrounding light, a pet shaped like a white horse with a spiral horn on its forehead, wings, and white lightning patterns on its body appeared!

Because there was only one pet, Fu Dian sent it out indifferently.

“Wu ~ ~ ~!!!!”

However, this one-horned beast pet might not have a good temper. It raised its head the moment it appeared and suddenly let out a thunderous sound that echoed throughout the entire stadium.

Boom!!!

The huge voice made everyone cover their ears, their hearts trembling.

The aura of lightning covered the entire stadium. Fu Dian’s pet showed everyone its strength bluntly.

High-level deterrence skill, Thunder!

In terms of proficiency, it had to be above Expert!

It was not an attack, but a simple show of strength. The incomparably exquisite energy control instantly let everyone understand the strength of this pet!

“This kid...”

“What kind of pet is that? Why haven’t I seen it before?”

“Thunder-type.”

“Duh. Of course. Does it look like a unicorn?”

“Thunder Light Beast, a type of Unicorn, a high class monarch species, dual-elemental lightning and light.”

At this moment, in the lightning field, Dean He narrowed his eyes and slowly spoke. His voice was very penetrating and landed in everyone’s ears.

“In the West, it is also known as a quasi overlord race.”

Name: Lightning Beast

Attributes: Thunder, Light

Race Level: High Class Monarch

[Level of Growth]: Commander Level

Race Skill: Thunderbolt, Shield, Thunderbolt Diamond, Thunderbolt, Feather of Light, Punishment Stamp

The quasi overlord race, lightning and light!

“So strong?”

Just this information alone stunned many members of the battle club. They revealed serious expressions.

Everyone looked at Vice President Li Ze.

The elites of the battle club present... Although basically everyone also had an overlord species pet, were all low-level king species.

In the entire Ancient Capital University’s battle club, apart from the president, White Brook, only Li Ze was left with a pet of the advanced overlord race.

Furthermore, it was still not enough to meet the standards of a quasi-supreme race.

“No wonder...” At this moment, everyone came to a realization. No wonder Fu Di’an only contracted one pet. This pet race was the life goal of most Beast Tamers.

Everyone’s expressions turned serious as they looked at Shi Yu.

Energy Points: 81,997

At this moment, Shi Yu was slightly surprised.

This Lightning Beast actually had a higher energy value than when Eleven had just evolved.

However, Shi Yu did not care much.

Just as many students were immersed in the Lightning Beast’s aura, at the same time, Shi Yu summoned his pet.

Light flashed, and a deterrent wave erupted in the light. The air and the field began to hum and tremble!

“Eleven, deterrence.”

“Wu!!!!!”

A roar that was like a wave and a tsunami instantly erupted and quickly suppressed the lightning aura. Its nearly corporeal mental strength formed waves that swept across the field like a tornado with unparalleled might.

At this moment, with a roar, everyone’s vision was instantly attracted by the figure of the little iron-eating beast that appeared on the ground. The Lightning Beast and Fu Dian behind it also revealed surprised expressions.

On the other side of the field, Eleven, who had appeared, crossed his arms and raised his head. He looked at the Lightning Beast in a strong posture and acted cool.

“Iron-eating... Beast?”

“Intermediate Beast Tamer?”

Because he admired the Dong Huang culture, Fu Dian was no stranger to the Iron-eating Beasts, a unique pet of the East Huang. However, it was precisely because of this that he revealed an incomparably shocked expression. Wasn’t the Iron-eating Beast an intermediate supernatural race?

The aura of a monarch, an expert in deterrence, how was that possible... Besides, this iron-eating beast looked so small.

What surprised Fu Dian even more was that the level of Shi Yu’s summoning array was clearly the characteristic of an intermediate Beast Tamer!

“Middle-level Beast Tamers can also have commander-level battle power,” said Shi Yu.

“...” Fu Dian didn’t understand, but he couldn’t refute.

Although the Lightning Beast did not use its full strength just now, it only took an instant for the Thunderbolt Aura to be broken. Was the other party really a metal element pet when it had such control over spiritual power?

At least commander rank was confirmed.

The venue fell silent.

After a moment of silence, Fu Dian began to wait quietly. However, he realized that Shi Yu and the others didn’t have their next move.

“You’re not sending other pets?” Fu Di’an frowned slightly.

Shi Yu said, “To be fair, 1VS1.”

To be honest, although the other party was very strong, when he saw the lightning element on the other side, Shi Yu knew that they had were kind of safe...

Lightning-type skills, for Eleven, who had lightning storage skills and a source of stamina... After hitting, it was basically “immunity”, “immunity”, and “immunity”.

It could also replenish Eleven’s energy like in games, going “+1 “, “+1”...

It was purely human nature.

“1VS1?”

Shi Yu felt that it was nothing, but the others didn’t think so.

When Shi Yu finished speaking, the seniors all cursed in their hearts.

This Lightning Beast looked like it was not easy to deal with. If it were anyone else, they would have to be very careful. What was Shi Yu thinking? At least send that ginseng baby!

By the way, was this little iron-eating beast the one that often went to the gravity room and charging room?

“Up to you.”

On the scene, Shi Yu’s opponent, Fu Di’an, raised his eyebrows and did not persuade him. Shi Yu was only an intermediate Beast Tamer, so why was he talking about fairness with him? What a joke.

“Don’t regret it. Don’t blame me for not giving you a chance.”

With that said, he looked at the Lightning Beast and said word by word, “Lightning! Lightning!”

So what if it had deterrence? In front of absolute power...

Boom!

In the next second, lightning clouds instantly gathered in the sky, and the terrifying power of lightning instantly turned into a bolt of lightning that landed!

Lightning flashed. The speed of the lightning was extremely fast, as if it had reached the speed of light.

Everyone felt their eyes flash, and they were shocked again.

So fast, at least expert level.

Thunder+Lightning, two high-level skills?

Using the deterrence of the lightning to shock the opponent’s heart and reduce his reflexes, the lightning at this moment was really no different from the speed of light in the other party’s eyes. It was simply impossible to guard against or react!

The lightning pillar that enveloped half the field landed. At this moment, Fu Dian and the Lightning Beast’s strength was displayed. The elites of the battle club present became serious.

Although this Fu Di’an had only trained one pet, his strength was completely worthy of his identity as a legendary son.

How was this done? Could Shiyu’s iron-eating beast block with hardness?

“Hmm?”

Everyone thought that the little iron-eating beast wouldn't be able to react to such high-speed lightning, but the effect of the lightning was actually useless against Eleven, who was proficient in deterrence and many spirit-type skills, causing its mental strength to explode.

As the lightning landed, Eleven's stomach growled.

It looked up.

It had yet to go to the charging room to charge today...

The storage capacity was only more than half...

He didn't expect someone to send food immediately?

“Roar.”

Under the lightning, Eleven raised its arm as if it wanted to use its palm to receive the lightning.

Across from him, Fu Dian and the Thunder Light Beast revealed ridiculous expressions. The others were also stunned.

But the next moment...

“Thank you for your hospitality.”

As Shi Yu finished speaking, the hardened material instantly covered Eleven's body.

After the lightning completely landed on Eleven, Eleven's palm seemed to contain a black hole as it frantically devoured the shocking lightning!

And its entire bear was enveloped in lightning. It actually didn't look injured at all!!

The storage lightning, the source of stamina in the restrained state, and the tri-layer resistance of the lightning's nature were activated. A terrifying lightning instantly turned into energy nutrients and was stored in Eleven's source of stamina!

Zi! Zi! Zi!

As the last lightning arc disappeared, the entire venue was somewhat silent. Across from him, Fu Dian's mouth was slightly agape, revealing an incredulous expression.

“This... this doesn't make sense!”

He asked in confusion. How could this be? How could an iron-eating beast be immune and started absorbing lightning?? Was this an iron-eating beast??

Was he sure it wasn't a lightning-eating beast?

Ignoring him, even the seniors of Shiyu were slightly stunned. They revealed shocked expressions. What the hell was this?

“F*ck, don't tell me this was the one that trained in the charging room.”

Suddenly, someone thought of the urban legend of the Ancient Capital University. Shi Yu's little iron beast often went to the charging room to do unknown things. Combined with this legend, some people were shocked.

It was f*cking ridiculous...

"The case has been solved!"

At first, everyone was wondering why Shi Yu's little iron beast would go to the gravity room. Was it to practice Thunder Palm? The training facilities didn't match.

But now, seeing that the little iron-eating beast was immune to absorbing lightning, they understood something, but they didn't completely understand.

Many people were in a daze.

Even if he learned races' external skills, he had to at least teach them the basic skills.

Was the compatibility really that smooth?

"This Iron-eating Beast is immune and can absorb lightning!" At this moment, opposite him, a ripple appeared in Fu Dian's heart.

However, he quickly adjusted and said calmly, "Although it's very special, my Lightning Beast doesn't just know lightning."

"Feather of Light!"

"Wu ~ ~ ~!" As soon as Fu Dian finished speaking, the Lightning Beast spread its white wings. Light spread from them, and in an instant, the Lightning Beast rose into the air!

The Feather of Light was a skill similar to the Wings of the Wind, and it was a speed enhancement skill.

However, the Feather of Light was much higher than the Wings of the Wind. It was mid-level, and it was a faster light system!

At this moment, although the Lightning Beast didn't fly at high speed, when it was in the air, its figure became like a light illusion afterimage, as if it was very difficult to capture its position. Clearly, it didn't fly very quickly, but it gave people a feeling that its movements were very agile and fast.

Feather of Light with extremely high proficiency...

"Lightning Drill!"

Fu Dian's expression was calm. In the next moment, it was as if more than ten Light Illusionary Images of the Lightning Beast appeared in the sky. Its speed was extremely fast. It was the perfect manifestation of the Feather of Light skill, Light Shadow Clone.

"Can you absorb this move?" He slowly raised his head.

Although the Lightning Drill was still a lightning-type skill, it was dominated by the light element.

He didn't believe that the Iron-eating Beast could also absorb light power.

“You should know about profundities, right?”

Perfect intermediate lightning skill Thunder Light Drill+Perfect intermediate light skill Feather of Light!

This was an ability that only a Master could master! Fu Di’an revealed a smug expression.

“Profundity?”

At this moment, the members of the club were surprised. Profundity?

Fu Dian, not bad. However, was there a problem with showing off your profundity in front of a monster who could use profundities during the assessment stage...

“Not bad indeed.”

Shi Yu and Eleven were slightly stunned when they saw the nearly 100 spiral lightning drills emitted by the Lightning Beast’s horn.

Of these nearly 100 spiral lightning diamonds, more than ten were solid, and dozens were afterimages.

When ordinary pets resisted, their scalps would definitely tingle and they would be at a loss. They could only rely on luck to resist it and could not dodge normally. Besides, facing light skills, it was also very difficult to dodge, but that was an ordinary pet.

“But it’s just profundity,” Shiyu said. “Eleven, Thunder Armor.”

“Wu!!!”

Eleven roared and lightning seemed to shoot out of his mouth and eyes.

Transcendent Thunder Palm!

Zi! Zi! Zi!

Under the electric current, Eleven’s hard body shone!!

Apart from that.

Perfect-grade super vision!

The powerful principle of the Thunder Armor was that it could rely on electric currents to stimulate the muscles, increase cell activity, and produce a powerful explosive speed to enhance the strength and penetrative power of the Thunder Palm.

Apart from that, with hardening and super vision, it could also give Eleven extremely strong defense and reflexes.

This was proficiency suppression. Facing the lightning diamonds that filled the sky, Eleven was not afraid at all. It didn’t even need to look up.

At this moment, Eleven’s feet stepped on the ground. Under the explosion of lightning, It immediately displayed a terrifying speed. Its figure flashed like lightning and passed through the arena that was about to become ruins.

Rumble!!!

This incomparably terrifying movement speed and reaction speed allowed Eleven to perfectly dodge the lightning drill. It was indeed as Fu Di'an had said. Eleven, who was in a restrained state, could not receive this extremely penetrative move, but that did not mean that it could not dodge.

Boom!!!

After the site was bombed, many large pits appeared.

On a field without a stable foothold, Eleven's dustless body was still standing on the ground.

At this moment, Eleven's power level might be far from being comparable to the Lightning Beast, but with the skill proficiency and tactics to crush it, they were still evenly matched.

In Shi Yu's eyes, this was very normal. However, in Fu Dian's eyes, it was very unscientific.

"This..."

Looking at the little iron-eating beast whose entire body was covered in lightning flashes, perfectly dodging the lightning diamonds that filled the sky, almost completely unharmed... Fu Dian clenched his fists and cried out in his heart!

Then, what made him feel even more ridiculous was that on the ruined field, the little iron-eating beast... was actually slowly flying??

"It's time for us to counterattack." As soon as Shiyu finished speaking, Eleven, who was floating in the electric magnetic field, instantly fired itself as a super electromagnetic cannon!

Whoosh.

The intersection of the black hard matter and the blue lightning made Eleven look gorgeous.

In an instant, the electromagnetic force erupted.

Although Eleven's flying speed might not be comparable to the Lightning Beast at this moment, Eleven, who suddenly flew, undoubtedly shocked Fu Dian and the Lightning Beast.

Bang!!!

In the sky, compared to condensing external hard matter to create a super-electromagnetic cannon, Eleven preferred to launch itself as a cannonball. Under the electromagnetic explosion, its arm hit the Lightning Beast in front of it, and its fist hit the light screen that the Lightning Beast instantly created.

Buzz.

A slight ripple appeared on the light screen, and even a crack almost appeared. Under the huge impact of Eleven, the Lightning Beast in the sky retreated a distance and its pupils constricted.

This made Fu Dian reveal a serious expression. He could clearly sense that the energy level of this little Iron-eating Beast was far inferior to the Lightning Beast. However, every attack was good. It could affect the Lightning Beast to a certain extent. What did this mean? It meant that the skill proficiency of this little Iron-eating Beast was ridiculously high. Its energy efficiency far exceeded the Lightning Beast!

There was actually such a person?

Even in Rongguang, Fu Dian had never seen it before.

“This is ridiculous. It actually... flew? Electromagnetic floating? How did Shiyu rear this Iron-eating Beast!?”

Many of the seniors of the Battle Club were stunned.

“Boom!!!!”

At the same time, the Lightning Beast erupted again. The lightning turned into a roar and forced Eleven back in the sky. Meanwhile, Eleven’s entire body was covered in a weak golden light. With its powerful mental strength and the impregnable defense of mental attacks, it easily ignored it.

“The proficiency of the light curtain is very high. Eleven’s attack actually couldn’t break through it.” Shi Yu was still relatively calm at this moment.

Actually, Fu Dian was still relatively calm. Although he was somewhat confused, he never thought he would lose.

Whether it be his Beast Dominance talent or the super skill of the Thunder Light Beast, he still hadn’t used them.

Furthermore, although Shiyu and the Iron-eating Beast could temporarily fight the Lightning Beast, as time passed, the outcome could be quickly determined.

However, Fu Dian found it somewhat unacceptable that Shiyu and the others had the upper hand one after another. He was unwilling to beat Shiyu in a battle of attrition.

“Alright, the warmup can end.” After a moment of silence, Fu Dian said.

Warm up? He called this warm up?

He looked at the seniors of the battle club with disdain.

He should know very well if it was just a warm up!

“You’re very impressive, but next, we’re going to use a stronger move.”

Fu Dian had already planned to end the battle as soon as possible. He slowly raised his arm. In the next moment, pure white electric currents wrapped around his body. With a bang, lightning shot out from his entire body.

At this moment, everyone was stunned.

Meanwhile, Dean He, who had been standing beside him the entire time, spoke again after pondering for a moment.

“White Thunder talent? He didn’t inherit his father’s talent, and instead inherited his mother’s talent?”

“Yeah.” Fu Di’an nodded.

“Special-type talent, White Thunder, a type of special lightning. Not only can you control White Thunder yourself, but you can also let your pets compatible with lightning master the super skill, White Thunder.”

It was also because of White Thunder’s inclusion, affinity, and affinity with the nature of light-element that he could start contracting and nurturing the Thunder Light Beast of a high-level sovereign species during the learning stage!

White lightning shot out from Fu Dian’s body, its power vast.

“Holy shit.”

With that, the students present immediately boiled over.

Where did this crazy talent come from?

The Lightning Beast had already mastered a super skill. Another White Thunder, two super skills?

Originally, their race level was already about that of a quasi overlord. After their talent was strengthened, their battle power approached that of a low-level overlord race, the commander level?

At this moment, even Shi Yu could not help but reveal a surprised expression.

This Fu Dian was very strong.

It seemed that the other party couldn’t tolerate it anymore and decided to kill him in one hit.

But was it that simple?

“Wuo ~ ~!!!” At this moment, in the sky, the Lightning Beast stepped on the sky, raised its head, and roared.

Its entire body emitted an unparalleled light. This light seemed to be able to disperse all darkness and sanction all evil. It carried an incomparably lofty and holy fluctuation.

Buzz!!

The light that emitted seemed to connect to the sky. A dimensional fluctuation appeared in the sky. Higher in the sky, an incomparably thick lightning beast’s hooves and legs slowly appeared and descended in the form of a light pillar phantom.

Light-element super skill, Punishment Stamp!

Zizi!!!

It wasn’t as simple as a single super skill. At this moment, there was also white lightning coiling around the Punishment Stamp. It was as if the hooves of the Punishment Stamp were wearing a layer of lightning armor, making it more destructive.

White Thunder+Punishment Stamp?

How could he block this?

Many members of the battle club looked at the thick pillar of light in the sky in confusion.

Boom!!!

In an instant, a terrifying suppressive force enveloped the sky above Little Eleven, who was floating in the sky. It was unable to move at all in front of the suppressive force. It could only watch as a huge hoof that covered an area of several meters descended from the sky and landed above it, trampling it!

At this moment, compared to this skill, Eleven's body seemed incomparably small. His body quickly descended with the stomp!

Eleven tried to block.

"Roar!!!" Everyone looked at the little iron-eating beast that was trying its best to withstand the stomp, but its strength was really weaker by more than a level as it continued to fall. They swallowed.

"F*ck, f*ck, f*ck, f*ck." Hong Xiao and the other seniors of the battle club were speechless.

"Is Shiyu going to die?"

"How can he block this? It's invincible in one-on-one battles."

At this moment, all the seniors of the battle club revealed extremely serious expressions.

However, at this moment, Yu Shu and the others couldn't take it anymore. They didn't know when, but they arrived at the seniors' side.

With their hands behind their backs, they looked at the sky and said, "Seniors, calm down."

"How can a move of this level be difficult to block Shiyu?"

Many of the seniors were speechless.

They looked at the calm Yu Shu, Wang Ling, Miao Dongdong, and the others.

These guys, were they stupid? They didn't have any concept of strength.

Even our vice president, Xu Ze, might not be able to withstand this move in a 1v1!

Didn't you see the vice president's serious expression?

"Didn't you see that Dean He is still very calm?" Wang Ling said.

"Oh?" When he finished speaking, everyone realized that Dean He, who was the referee, was even calmer than Yu Shu and the others. His expression didn't seem like he was at a disadvantage at all.

What happened?

This situation...

Moments later, everyone realized that the calmest person was Shi Yu himself!

"Then let's not warm up," said Shi Yu.

It was probably very difficult for Eleven, who was in a restrained state, to fight against two super skills. Although these two super skills couldn't be considered a combination skill at this moment and didn't achieve the effect of $1+1 = 2$, they were still greater than 1. Eleven was indeed threatened right now.

“Oh?” Fu Dian, whose body was covered in white lightning, didn’t know why Shi Yu was still so calm at this moment!

But soon, he knew.

In the sky, Eleven, who was quickly falling under the pressure of the huge hoof, saw that it was difficult to block this thing no matter how much strength it used. Seeing that this attack was about to completely stomp it to the ground and give it the strongest blow, Eleven stopped warming up.

“Evolution, Eleven.”

Shi Yu gave the order.

“Roar!” Instantly, in midair, Eleven’s body flashed.

The source of stamina in his body circulated frantically. Following the evolutionary light, his body erupted with dazzling blue-white lightning.

It immediately formed a contrast with the White Thunder Entanglement’s stomp.

At this moment, everyone shockingly discovered that the speed of the stomp descending from the sky suddenly slowed down.

In the sky, even more intense waves of electromagnetic levitation appeared under Eleven’s feet, giving it even more strength!

“This is...?”

Looking at the sudden changes in their bodies and the Punishment Stamp that suddenly slowed down their descent, all the seniors of the battle club stood up and focused their gazes.

What did Shi Yu say just now?

Evolution?

Could it be...

At this moment, Fu Dian also realized that something was wrong. He looked at Eleven, who was surrounded by the light of evolution, and revealed a confused and incredulous expression. “Impossible! How can it evolve in battle...”

However, no matter how much the Beast Tamer from Rongguang didn’t believe it, Eleven evolved. An invisible white flash gaseous flame blossomed from Eleven’s body, which was covered in white light, like surging lightning. Blue electric arcs were even shooting out of the huge gaseous flame that was several meters tall, shocking everyone.

During this process, Eleven’s body was still expanding rapidly. In a short moment, it actually expanded to a height of ten meters. With the landing of his feet, the huge eleven’s feet slowly touched the ground.

The white light dispersed, and the scene on the field clearly fell into everyone’s eyes.

A huge beast covered in black armor, its head and body were in silver-white armor. At this moment, it was standing on the ground, raising its right arm and supporting the descending Punishment Stamp with one hand.

The blue electric arc in its right palm and the white lightning of the Punishment stamp wrapped around each other, releasing violent waves.

But at this moment, it was difficult for the stomp to continue descending. It was as if it was still. The huge beast stood steadily on the ground. Under its mysterious, domineering, and noble figure, it raised its head and stared at the powerful attack with lightning-like blue eyes.

Everyone looked at this scene in shock.

“Nine Li... War Beast...?”

“But this posture...”

At this moment, the breathing of the older students seemed to have stopped. They stared at the field in disbelief.

When did Shiyu’s iron-eating beast evolve?

Had he already completed the evolution?

However, wasn’t the Nine Li War Beast completely black?

At this moment, the strong energy waves on Eleven’s body made many of the seniors of the battle club feel suffocated.

Looking at the incomparably powerful White Thunder Punishment Stamp being held back by the huge Nine Li Battle Beast with one hand, everyone revealed looks of disbelief.

Inner Power Sharpness+Multiplication+Hardening+Thunder Palm!

The older students were shocked, but the new students revealed excited expressions.

Especially Yu Shu and company, they sighed secretly. Unfortunately, it wasn’t Shi Yu who transformed himself and slashed this stomp with his sword. Otherwise, the shocked Fu Di’an would be even more shocked!

“What is this!!!” At this moment, seeing his strongest attack easily blocked by the other party, Fu Dian’s eyes widened and his face was filled with disbelief. How could this be? Wasn’t the level of confrontation just now the limit of this Shiyu and that iron-eating beast??

Evolution? Iron-eating beasts could evolve? Why had he never heard of it?

Besides, even if it had evolved, it shouldn’t be so ridiculous.

His Thunder Light Beast was a quasi overlord race!!

“Eleven,” Shi Yu called.

Whoosh.

Strong electric arcs quickly appeared on the giant's hard right arm, wrapping around it again and again. It emitted a fierce sound and emitted dazzling electric light!

As Eleven's entire arm shone, a black ball wrapped in strong blue lightning suddenly condensed in its palm!

The super skill of the Lightning Beast was actually nothing impressive. It was only at the entry level. At the same energy level, compared to Eleven's Maximum Level Hardening and transcendent Thunder Palm, it was actually still inferior. The proficiency level was too different.

Although the growth rate of super skills was higher, they would only be powerful after they grew up. Furthermore, the sharp state Eleven had probably broken through the 100,000 mark and was still suppressing the Lightning Beast!

At this moment, in front of everyone's eyes, the hardening ball wrapped in blue lightning suddenly started spinning irregularly at an extremely fast speed. The lightning lingered around, as if it formed a small lightning typhoon, and emitted a strong hissing sound. In an instant, the blue lightning tore apart the foot of the Punishment Stamp, tore it apart, and completely dispersed the white lightning!

Boom!

In the next second, what shocked everyone was that this huge black ball suddenly turned into a huge blue light beam with a bang. It suddenly shot out. The shocking blue light wave was extremely fast and continued to tear apart the huge white light pillar. The sound of energy collision was like the roar of lightning!

In an instant, the "electromagnetic cannon" pierced and tore the Punishment Stamp!

Bang!

Furthermore, it exploded in the sky. The internal and external mixed metal and lightning powers were released at this moment.

The terrifying energy torrent turned into a lightning storm, and like a tangible big hand, it smashed the Lightning Beast in the sky!

With a bang, it landed on the left palm of the Giant Eleven. At this moment, the Giant Eleven held the Lightning Beast and looked at the confused and explosive Fu Dian.

"Wu Er ~!!!!"

Being pinched by the tough vambrace with the immense strength of the Giant Eleven, the Lightning Beast's eyes turned white and revealed a painful expression.

Completely smashed, the difference in combat strength was not normal!

At this moment, it was not only Fu Dian who had lost his ability to think. The older students of the battle club, including the vice president Li Ze, swallowed together and looked at the power of the huge beast in disbelief.

"Gulp." Someone glanced at the dumbfounded Hong Xiao.

Hong Xiao noticed his gaze and smiled embarrassedly.

Everyone looked at the venue again.

Was this a fucking newbie?

It was no wonder that Dean He had entrusted the mission of welcoming the challenger to Shi Yu.

This strength, it must be a monster!!

In a 1VS1 solo battle, apart from White Brook, there was probably no one in the Ancient Capital University who could compete with Shiyu!

Speaking of which, how were they going to face Shiyu after the team ranking competition!?

Large beads of sweat flowed down the heads of the senior students.

"I... This is impossible." At the same time, Fu Dian shook his head violently.

Was this a new student? This didn't make sense. Why was the evolution of the iron-eating beast so terrifying...

For a moment, Fu Dian didn't know how to fight back.

"Let's end it here." At this moment, Dean He's voice sounded. "Seems like the outcome has been determined."

His words both relieved and made Fu Dian's heart twitch.

"Oh, okay." Shi Yu nodded. The next moment, Eleven's body slowly shrank, degenerated, and healed itself. During this process, it gently placed the Lightning Beast on the ground.

Returning to the ground, the Lightning Beast had already lost its will to fight!

"I..." Fu Dian, who had come to challenge the hall, was at a loss.

He looked up in disbelief at Dean He and Shiyu.

"He's a new student? I don't believe it! How can a new student be so strong? How strong are the old students? Besides, can the Iron-eating Beast also evolve..."

"Also, from the start to the end, he's been using the Beast Taming talent..." Fu Dian was crazy.

Although he had always heard his father say that Dong Huang was the strongest country with the incomparably powerful internal Beast Tamers, Fu Dian never expected it to be so ridiculous.

"Eh, he's obviously a newbie, but it's true that Shiyu is very strong. As for the Iron-eating Beast's evolution... This is actually the latest discovery. By the way, the person who discovered the Iron-eating Beast's evolution was Shiyu."

"As for Beastmaster talent, he's a talent in telepathy... not a battle-type. He's an archeologist."

After Dean He finished explaining, Shi Yu smiled at Fu Dian.

Tele... telepathy?

At this moment, Fu Dian's worldview had shattered. The other students from the Ancient Capital University wanted to say something, but in the end, they couldn't say it... Ahem, even they felt that it was ridiculous. They hoped that this Fu Dian wouldn't have any wrong understanding...

"!..!"

At this moment, Fu Di'an only felt that Donghuang's Beast Tamer was too terrifying.

In comparison, were all the Beast Tamers of Rongguang little lambs... He suddenly had a feeling that perhaps the atmosphere of Dong Huang would allow him to pursue the pinnacle of being a Beast Tamer, but the competitors here were too terrifying...
