

Beast 221

Chapter 221: Water Pet in the Dragon Palace

Shi Yu understood.

So the third bureau made him an endangered species conservation worker?

How was this distributing high-level pets?

They were clearly looking for a top-notch nanny for an endangered species.

After all, if they let the parents grow with them, they might not necessarily have a better growth effect than if they were with the top feeders in the third bureau.

“You’re now a high-level Beast Tamer. In the future, you can at least contract three or four more pets. It’ll be the same.X” Ye Hui suggested. “The racial levels of these endangered species protected in the third bureau are still pretty high.”

“Most importantly, it’s rare. Moreover, the Bureau will provide cultivation resources. It should be very suitable for you.”

“Indeed, pet training is the most suitable for you at the moment.” Principal Feng nodded.

His own strength was the foundation.

Shi Yu was still in the development stage. What he lacked the most was strength. It was naturally better to have more high-level pets with high potential.

In any case, as a member of Bureau 11 and 3, it was impossible for Shi Yu not to be cultivated.

If Shi Yu couldn’t nurture a pet, few people could.

Two top-notch jobs!

“Do you have any preferences for pets you like? There are still some high-level monarch species pets in an endangered protected state in the country. There are even some pets with potential enough to be considered a quasi overlord race,” President Ye Hui said.

“Are there no overlord races?” Shi Yu looked up innocently.

He realized that he had become arrogant. He didn’t even fancy monarch races anymore. Non overlord races weren’t enough.

President Ye Hui :”...”

Principal Feng :”...”

The corners of President Ye Hui’s mouth twitched. “Don’t think that just because you have an overlord species pet that overlord species pets are common.”

“Generally speaking, if some overlord species pets in the country successfully give birth to cubs, the owner and parents of this overlord cub will allow it to be handed over to the top battle-type Beast Tamers. The top cultivation-type Beast Tamers will form a huge team to nurture it.”

“It will give them the best environment to grow and quickly form battle power.”

“Your situation is the rarest.”

“There’s a chance for overlord species pets to break through to the totem level. It’s impossible for them to be handed over to a person to be cultivated so easily,” Ye Hui explained.

Principal Feng scratched his ears beside him. That was indeed the case, but the problem was that Shi Yu already had two overlord species pets. One was a middle-level overlord, and the other was a high-level overlord. It was ridiculous because it wasn’t as simple as a low-level overlord.

“Therefore, a quasi overlord race is almost the limit,” Ye Hui said. “In fact, if cultivated properly, there’s a high chance that their growth level can break through the racial limit and enter the overlord level. It’s already very good.”

“Oh.” Shi Yu nodded. So that was the case.

However, the quasi overlord race still felt lacking.

“You’re just greedy.”

“However, hehehe, actually, it’s not impossible to contract an overlord species pet again.”

Suddenly, Principal Feng chuckled.

Shi Yu and President Ye Hui looked at Principal Feng.

“However, it definitely won’t be as simple as obtaining it unconditionally.”

“You mean...” President Ye was stunned.

“Have you forgotten the cooperation project for the first and third bureaus?” he said.

“In the totem era, most humans are vessels for the growth of the totem subjects. In fact, in the Beast Taming Era, this pattern still exists in the countries where humans are dominant.” He looked at Shi Yu and explained to him.

“The lifespan of pets is far greater than that of humans, so some totem level guardians who are close to humans are still willing to give their heirs to outstanding humans to raise. It’s similar to a ‘marriage’. Through this method, the bond between the two parties can be extended. At the same time, it can also allow the descendants to have a higher chance of breaking through the racial limit.”

“However, the selection of Beast Tamers for their descendants is very strict. They have to go through many tests. Many guardians who were on good terms with them in the first bureau have descendants of overlord races and monarch races. They relied on this method to integrate into human society.”

“In the first and third bureaus, we reached an agreement to help some guardians take care of the cubs. After all, some guardians prefer to have cultivation-type Beast Tamers nurture their descendants in their place than handing their descendants to battle-type Beast Tamers. Therefore, the members of the third bureau are very popular with some guardian forces.”

Ye Hui said, “You’re saying that you want to give a trial spot to Shi Yu in the third bureau...”

“Not bad.”

Principal Feng looked at Shi Yu and said, “You know Dragon Palace City, right? That place has been friendly with humans since ancient times. It’s an ocean faction that has stood on the side of humans in the totem battles many times. It’s the guardian of the Sea Realm in Dong Huang.”

“Dragon Palace City has had a contract with humans since ancient times. It will hand over some citizens of Dragon Palace City to human Beast Tamers to raise.”

“Over there, as long as you’re outstanding enough, it’s not impossible to contract an overlord cub.”

“Under the command of Dragon Palace City, there are various dragons, mermaids, sea snakes, and water-element life forms. Many overlord factions are attached to that side. It can be said that there are endless opportunities.” Principal Feng sighed. “Qingyi’s mermaid princess was contracted by the factions under Dragon Palace City.”

“The Dragon Palace banquet that happens once every five years is about to begin in a few months. At that time, many human factions will bring gifts and visit. You can understand it as taking the ‘betrothal gift’ to ‘propose a marriage’. If both parties are satisfied, it’s not impossible to snatch back a young overlord.”

“If you’re interested, you can get the third bureau to prepare more ‘betrothal gifts’ that the dragon race likes. The chances are very high. Didn’t you say that the butterfly god gave you a sea dragon keepsake? It’s a witness of your friendship with Dragon Palace City!” Principal Feng said.

“The legendary Sea Dragon of Lin Feng is currently one of the most powerful dragons in Dragon Palace City. With this keepsake, if you go there, the treatment you receive will definitely not be what ordinary Beast Tamers can enjoy.”

Ye Hui was shocked. “What, Shi Yu still has the keepsake of Dragon Palace City?”

Principal Feng nodded. “Yes, if it weren’t for this, I wouldn’t have suggested for Shi Yu to go to Dragon Palace City. After all, the requirements for Beast Tamers there are too high. I’m afraid they won’t take a fancy to a telepathy talent. Even if he can listen to the Voice of History, it’s very difficult for him to obtain the cubs of overlord races. But if he has the relationship of the Butterfly God and the Sea Dragon, Shi Yu might have a chance to obtain the cultivation rights of overlord races!”

The two of them looked at Shi Yu.

That was good.

Were they confident of getting a young overlord?

Shi Yu :” ...”

“The potential of the young of the overlord race in Dragon Palace City is actually secondary. More importantly, it is the connection between the two parties.”

“It represents the friendship between the Beast Tamer and Dragon Palace City.”

“As a huge force in the ocean, Dragon Palace City’s status in the ocean is unshakable. Many ferocious sea beasts, sea demons, and sea monsters are unwilling to provoke Dragon Palace City. They are the overlords of the ocean. If you contract the descendants of an important member of Dragon Palace City, in a sense, you will have an ocean pass. Basically, no sea beast dares to stop you from walking in the ocean.”

“Now you know why Qingyi contracted a mermaid princess. The merfolk also belong to the Dragon Palace City. This way, even if she leaves Dong Huang, she will have great safety in the dangerous sea area. It will be very convenient to explore the ocean ruins, and she might even be protected by the Dragon Palace City.”

Shi Yu: “!!!”

“It doesn’t matter that much if I have this force backing me up. It’s mainly because I happen to lack a water-type pet.”

“When will the Dragon Palace banquet begin? Will I go alone or will someone bring me?” he asked.

Initially, he thought that the fifth pet could only be a mechanical pet, but now that he heard this, water-type pets were not bad either??

After all, he would have to travel abroad in the future.

It was not a loss to cozy up to Dragon Palace City in advance.

Just as Principal Feng had said, with the third bureau, the eleventh round, and the Butterfly God Token, it seemed like it wasn’t difficult for him to cozy up to an overlord race in Dragon Palace City.

Perhaps he could even cozy up to a certain totem level and successfully join the first round...

Moreover, it just so happened that Buggy also had matters regarding the dragon pearl to ask in Dragon Palace City.

It looked like he had to go to Dragon Palace City.

[Wait! Could it be that this time is where Buggy and a certain dragon would mingle together?] Shi Yu was shocked.

“You’re interested?” Principal Feng chuckled.

“A little,” Shi Yu said.

Principal Feng looked at Ye Hui.

President Ye Hui pondered and said, “If that’s the case, I’ll definitely support Shi Yu fully in the third bureau.”

Principal Feng looked at Shi Yu and said, “At that time, the ‘Tyrannical Sea Legend’ will lead the team to participate in the Dragon Palace banquet. The specifics will probably be known close to the banquet time.”

Tyrannical Sea Legend... Shi Yu recognized it. This was one of the Titled Legends of Dong Huang. It had one of the highest battle powers in Dong Huang, an existence that could fight against totems. The weaker totems were even unwilling to fight him, afraid of his trump card pet. After all, he was known for the strongest water-type pet in Dong Huang.

His trump card pet was a mutated Leviathan.

It was a combination of space and water.

Its race level was a quasi-mythical race, about the same as Little Chi Tong.

Its body was a small world that could devour everything.

A Leviathan at the start depended on devouring.

It was even said that in battle, this Tyrannical Sea Legend could let the Giant Leviathan temporarily devour him and his other pets to obtain the power to suppress ordinary totems.

With this person leading the team... there was no need to worry about safety.

What kind of pets could he encounter in the ocean... Shi Yu looked forward to it.

Dragon Palace City was a large faction in the ocean.

It didn't mean that there were only dragons in Dragon Palace City.

Apart from the eastern purebred dragons, there were also humanoid pets like the Dragoness and the Mermaid. There were also countless sea beasts like whales, sharks, turtles, and dolphins attached to them. There were also a bunch of strange ocean elemental creatures. For a moment, Shi Yu's heart felt tempted.

"By the way, if nothing goes wrong, the news that you're the Beast Tamer of the Imagination Butterfly at this time will probably spread throughout the country." President Ye Hui suddenly looked at Shi Yu.

...

On this day.

The Feeding Conference was held in the capital.

The discussion about the Feeding Conference on the Internet was pretty popular.

However, it was a competition that was not publicized. There was still a difference between a public and exciting competition like the National League.

Therefore, although the discussion about the Feeding Conference wasn't low, it didn't enter the top three on the Internet.

At the moment, the first place on the trending list was firmly occupied by the current number one person in the club system, the top-notch Beast Tamer Master, Heavenly King Zou of the Dark Club.

Not long ago, when he announced the news of his secret relationship, not only did it not reduce his popularity, but it also increased the discussion about him.

What the onlookers didn't expect was that not long after the official announcement of the relationship, the two of them announced the engagement time again. In an instant, this news was pushed to first place by the onlookers.

"As expected of me. Ah Zou, after all, am I not everyone's idol?" Somewhere, Heavenly King Zou looked at the number one topic on the trending list and patted his shoulder with emotion. It had been too difficult for him to go from a poor country boy to a superstar that everyone was paying attention to. However, he liked the feeling of being paid attention to by everyone.

However, before he could sigh for long, with a bang, the number one trending topic was pushed down.

Then, Heavenly King Zou looked at the news of "Shocking! So the Beast Tamer of the Imaginary Butterfly was him!" and fell into deep thought.

He opened the news and what appeared in his eyes was an ancient photo of an Iron-eating Beast holding a wooden sword...

Mid-level overlord race, Butterfly Beast Tamer of Imagination, Iron-eating Beast Knight, Shi Yu!

The Beast Tamer who made the entire country pay attention to the Butterfly of Imagination at that time was actually a freshman.

In an instant, the entire country was shocked.

Heavenly King Zou was directly stunned. He couldn't believe that this kind of guy had snatched the trending topic of himself and his girlfriend twice.

"The world is degenerating!"

Ancient Capital.

Ancient Capital University.

"Holy shit."

"Holy shit."

Rough voices rose and fell from various professional areas.

Wang Ling from the archaeology Department, Yu Shu from the Battle Department, and the others looked at the new headlines in shock. They were so shocked that their mucus flowed out.

They widened their eyes and looked at the news in disbelief. They felt that they were blind.

The culprit behind the huge commotion in Divine Capital was Shi Yu??

Was this science?! He already had the spirit of General Mu Huiyin. Why, why was his luck still so good? He actually evolved a butterfly of an overlord race!

"Why are you so uneasy?" Seeing that the matter had finally been exposed, the little Gu Master Miao Dongdong, who had been holding this matter in his heart, let out a sigh of relief and looked at the students in the class who showed shocked expressions with their cell phones in disdain.

That was it? He was the first to know!

Icefield City, Ping Cheng.

“Daughter, something bad happened!!!”

Lin Hongnian held his cell phone in shock and ran to Lin Xiuzhu, who was feeding the iron-eating beast.

“What’s wrong?”

The panda senior put down the basin milk and the panda cub and looked at her father and the cell phone in his hand.

“Look at it yourself.” He opened the news page about Shi Yu and handed the cell phone to Lin Xiuzhu.

Lin Xiuzhu took the cell phone and looked at it.

As she watched, Lin Xiuzhu fell into silence, her mouth agape.

Damn it, why didn’t Shi Yu tell her in advance?

Whoosh!

Lin Xiuzhu stood up and turned to leave.

“Where are you going?” Hall Master Lin asked.

Lin Xiuzhu said, “A new set meal for Iron-eating Beasts. Bucket of Green Silkworms..”

Chapter 222: The Sixth Prophecy

The Butterfly of Imagination, Shi Yu!

Shi Yu’s name spread throughout the country again.

If it was said that the results of researching the evolution of the Iron-eating Beast and obtaining first place in the Ancient Capital vocation assessment could not make some people remember Shi Yu firmly, then this time, Shi Yu was completely popular.

As long as it was cultivated properly, an overlord race beast could definitely grow to the overlord level.

In other words, as long as Shi Yu didn’t interfere, he would definitely be a legendary Beast Tamer in the future!

In the country, there weren’t many Legendary Beast Tamers. Every Beast Tamer with the potential to step into the Legendary level received a lot of attention.

A genius youth like Yin Zhengfan, even if his father was a legendary Beast Tamer, was not qualified to be recognized as having legendary aptitude.

Those acknowledged were all people like Lu Qingyi, Heavenly King Zou, and the current team leader of Imperial Capital University, Gao Xuan. They were the younger generation recognized as legendary.

These people basically had overlord pets with extraordinary potential.

And now, there was another one.

Although he had yet to grow up and reach the master level like the other batch of people, there was no doubt that he had cultivated pets of overlord races. In the eyes of everyone, Shi Yu had already found the path to the legendary domain.

However, at this moment, the ones who were the most emotional were still some Beast Trainers in Ping Cheng.

For example, Qiao Liang, the doctor who often sold supplements to Shi Yu, or Beast Tamer Chen Kai, who killed the Ice-Armored Beast in the first battle. They watched the news and cried silently. Why, why couldn't they be as sick as Shi Yu even though they had already eaten the supplements and become immune to them?

They felt that they had been cheated. F*ck, refund!

...

"This is ridiculous."

The team from Ancient Capital University and the members of the battle club from Imperial Capital University also saw the news at different times.

On Ancient Capital University's side, apart from White Brook, the others didn't know that the little blue butterfly was actually the Imagination Butterfly at all. They couldn't help but be shocked.

The members of the Imperial Capital University worked hard because of Shi Yu. They were afraid that they would fail in two days, so they didn't dare to mess with the Ancient Capital University exchange team in advance.

Imperial Capital University's battle club instructor also stopped underestimating the enemy. This Shi Yu was still worth taking seriously. He couldn't help but guide the skills of the club members when dealing with spiritual and spatial pets.

He also pulled up the video of the little sword spirit vs the desert monarch, the ginseng baby vs the Zonyan Rock Beast, and showed it to everyone repeatedly and analyzed it.

However, as they watched, everyone fell silent. They felt that the sword spirit was very unscientific. They suspected that it was also an overlord species pet. The corners of Teacher Shen's mouth also twitched. Fortunately, this sword spirit was only at the transcendent level.

Also, this ginseng baby was even more unscientific. Earth Chain+Strengthening Hard Rock Roar Cannon, Nutrition Fruit+Multiplication+Energy Fruit fused into a tree sea and exploded. This, this was a f*cking supplement ginseng baby?

As many members of the Imperial Capital University's battle club analyzed Shi Yu's baby ginseng, Yin Zhengfan felt aggrieved, but he didn't say anything. Anyone who lost in a video that was publicly rewatched dozens of times wouldn't be in a very good mood.

Yin Zhengfan: QAQ

He only hoped that his sacrifice would be a little helpful to the battle club in Imperial Capital University...

In short, Imperial Capital University was facing a great enemy.

Although it was only an exchange event, they were national champions. Naturally, they weren't willing to be beaten up by a small Ancient Capital University.

...

"Senior, I've been a little busy these last two days. I'll look for you on the day of the exchange event."

At this moment, Shi Yu rejected White Brook's call invitation to a meal.

White Brook: "Aww..."

At that moment, the members of the Battle Club of Ancient Capital University wanted to worship the Butterfly of Imagination again and hate their previous blindness.

However, Shi Yu was currently busy trying to become a glorious member of the third bureau. How could he have the time to care about social gatherings?

Shi Yu was indeed quite busy.

First, he helped the index install a data chip and updated some feeding knowledge.

Just reading the new knowledge with Baby Ginseng and the others took a lot of time.

After all, some evolution plans and skill teaching plans couldn't be found when they were needed, right? It was also convenient to memorize them in advance.

Then, he discussed the matters of the Green Silk cocoon breeding base with Legend Hua, Dr. Zuo, and the others and the Feeding Association.

As for the Feeding Conference, Shi Yu did not pay attention the whole time.

Could it be that a feeding team could develop a mythical racial evolution plan to insta-kill their presentation? It was definitely impossible.

In the end, nothing unexpected happened. The Feeding Team of Ancient Capital University easily won the championship of this Feeding Conference.

The next day, President Ye Hui brought the third set of documents to Shi Yu with a smile.

"Ah, this."

In the room, after handing the soil to Shi Yu, Ye Hui immediately saw Shi Yu's face turn bitter.

At this moment, Shi Yu didn't even have the mood to look at his handsome profile picture in the third bureau of identification documents.

He held the thumb-sized thick glass bottle in front of him and looked at the Time soil inside that wasn't as much as the sand one would find in clams when at a seafood restaurant. He fell into deep thought.

"Uncle Ye, no way. Is this all the soil of time?"

"The soil actually has to be counted grain by grain, isn't it a little..."

Shi Yu originally thought that the soil of time was at least a mound that the ginseng baby could take root in.

From the looks of it, it wasn't even enough to support Baby Ginseng.

"Uh." Seeing Shi Yu's dissatisfied expression, Ye Hui said, "How much more do you want? Don't look at how small it is, it's a level-seven resource. The earth power inside is very abundant."

"And it's a resource that contains weak time power. It's worth a lot."

"This small bottle is at least ten times more valuable than ordinary level-seven resources. Its price is comparable to a level-eight resource."

Shi Yu:...

"We're already family, so it's alright to give a little more, right?"

"..." President Ye Hui.

No wonder Dr. Zuo, Legend Hua, and Senior Feng said that the soil of time should be directly given to Shi Yu.

It looked like Shi Yu had been eyeing this thing for a long time.

"It's mainly because the soil of time is a scarce resource that can't be replenished. These are the only ones left. Why do you want this... Tell me about it... There might be other alternative resources."

Shi Yu said, "I'm studying the mutation evolution of the ginseng baby now. I need some resources that contain strong mutation power."

"Actually, it's mainly because it likes the time element, but there don't seem to be any suitable resources like the soil of time."

After obtaining the feed index, Shi Yu had also searched for relevant time-element resources through the feed index.

Unfortunately, none of them were suitable for ginseng babies.

Even for the third bureau, time-element resources were also extremely precious. It could be seen from the soil of time.

"Mutated evolution?" President Ye Hui was stunned.

Then, he shook his head.

It looked like Shi Yu really liked Feeding.

There were a bunch of messy research directions.

How could it not be good!

“However, I feel that maybe we can use the power of the time mystic realm to replace it,” Shi Yu suddenly said.

“Uncle Ye, if I remember correctly, you’re one of the vice presidents of Imperial Capital University, right? Do you have a chance... to send me in?”

Ye Hui had graduated from Imperial Capital University and was now the vice-chancellor of Imperial Capital University. This was something Shi Yu had not expected.

This made him feel embarrassed to communicate with the battle club at Imperial Capital University.

However, Shi Yu felt that the other party definitely wouldn’t mind the fun between juniors.

“Time mystic realm...” Ye Hui was slightly stunned.

“This place is not a good cultivation place.”

“That’s the effect I want,” Shi Yu said.

Time Mystic Realm... He had heard that the environment here was very harsh. Shi Yu felt that perhaps he could let Baby Ginseng try absorbing the power of time here and mutate it to use it with the soil of time.

“Besides, don’t I still have to go to Dragon Palace City to contract a new pet in a few months?”

“If I can use the time mystic realm to quickly grow into a master-level Beast Tamer, it’ll be convenient to contract it. Otherwise, I’ll still be a high-level Beast Tamer. That would be awkward. I might miss many good opportunities.”

President Ye Hui shook his head and said, “How should I put it? The environment in the Time Mystic Realm is not suitable for meditation. It’s only suitable to train the mental state and resistance of Beast Tamers and pets. It’s an incomplete cultivation mystic realm. I don’t recommend you to go there. Even geniuses from Imperial Capital University rarely go there.”

“You don’t have to worry about the Beast Taming level. In order to ensure that you successfully contract a pet in Dragon Palace City, we will prepare high-level spatial resources for you in the third bureau to help you upgrade your Beast Taming level.”

“As for the time mystic realm, although it’s not impossible for you to enter, you can at most spend three days in the outside world, which is 30 days in the inner world. Beyond this number, the danger is too great. Even if it’s a master-level Beast Tamer, it’s very easy to get lost in the illusion of the time mystic realm and lose reason from the corrosion of the time power.”

“In short, we definitely can’t stay inside for more than a month.”

“I see. Alright, no problem.” Shi Yu nodded.

“I won’t stay longer than three days.”

“But not now. It might be a while.”

Now, he had yet to teach the baby ginseng the skill.

It might take a while to maximize this skill to perfection.

In addition, it was best to maximize Baby Ginseng’s other skills before evolution, so Shi Yu estimated that it might take a month.

“Sure. Are you free now?” President Ye Hui asked.

“Yes, I’m free before 2,” Shi Yu said.

Well, he was going to visit the battle club at Imperial Capital University after two...

President Ye Hui smiled and said, “Then I’ll bring you to the guardian of the Time Mystic Realm to familiarize yourself first. At that time, it’ll be in charge of opening the Time Mystic Realm for you and watching over you.”

“Prediction Owl??” Shi Yu was stunned.

“Yes, didn’t you already find it to make a prophecy?”

Shi Yu had a strange expression.

...

Imperial Capital University, Prophecy Temple.

There was a sign outside saying, “Today’s rest day, don’t be noisy or else you will bear the consequences.”

He didn’t know where the owl had run to.

After Ye Hui and Shi Yu arrived, they looked at the cold surroundings and fell silent.

Ignoring the sign, President Ye Hui, who was wearing a gray formal suit, walked to the temple. He coughed dryly and knocked on the wall with his finger.

“Ah!”

“Which bastard?”

A moment later, an owl flew out and looked at Ye Hui in a daze.

“Little Yezi, what are you doing? Why are you here?” It was still the witch voice.

Little Yezi?

Shi Yu muttered in his heart.

What kind of nickname was this?

“Lord owl, I have something to talk to you about. This child might enter the Time Mystic Realm for 1 to 3 days in the future. I need you to take care of the entry procedures. I’ll prepare them for you to see when the time comes,” Ye Hui said with a smile.

“Huh??” It looked at Shi Yu and immediately widened its eyes.

“It’s you!!”

It spoke in shock.

“Lord owl, hello... We meet again. How are you?” Shi Yu greeted.

“I’m not good!!” it said.

Ye Hui:...?

“Little Yezi, there’s something wrong with this fellow. I give it foresight, and strange things keep appearing, such as totems,” the owl said in fear.

“Gave him five prophecies. All five are related to the totems.”

Ye Hui: “Totem??”

“Yes, yes, I also predicted the location of the Undying Nether Phoenix’s seal, broken with a single slash. Investigate him strictly, investigate them strictly!”

“How can I open the mystic realm for them without worry?”

Shi Yu: “?”

Ye Hui:...

Holy shit.

Ye Hui suddenly looked at Shi Yu. Slash the Undying Dark Phoenix’s sealed location with one swing?

Shi Yu opened his mouth slightly and felt that this wasn’t very fair... He looked at President Ye Hui and said, “Uncle Ye, do I look like such a person who’s courting death? It must be that Lord owl’s prophecy was wrong.”

Without absolute strength, how could he mess with the Dark Phoenix!

Ye Hui fell into deep thought. It looked like it.

One look and he knew this guy wasn’t honest.

If he was an honest young man, would he put aside a national-level project and not research it and think about other things?

However, how was it possible for Shi Yu to slash open the Undying Nether Phoenix’s seal location with a sword? The owl must have made a mistake...

However, the five prophecies were all related to totems?

Although the prediction of the owl was unreliable, this sounded a little too ridiculous.

Ye Hui looked at the owl and Shi Yu suspiciously and said, "Why don't we predict it again?"

"I just want to know what his fifth pet will be."

"Alright!!" The owl glanced at Shi Yu and closed its eyes again. The hexagram in front of its chest emitted light.

A moment later, its consciousness entered the deep sea. In front of its vision, it was pitch-black and blurry, and there were continuous bubbling sounds.

Boom!

A moment later, an undercurrent surged in the deep sea and emitted a terrifying pressure at the totem level, forcing the stunned owl to wake up. It said with a tone as if it was as expected, "Look, it's another totem. His fifth pet is a water-element totem."

"He's abnormal!"

Ye Hui: "Shiyu, I'm sorry. Lord owl is sometimes mentally unsound. You mustn't believe the previous premonition."

He didn't want the genius shared by Bureau 11 and the third bureau to go astray because of this nonsense prediction.

Shi Yu: "Uh... I understand."

This time, Shi Yu completely believed it. This fellow was unreliable. From the looks of it, he couldn't believe all the previous predictions.

The owl was speechless.

It was just about to refute, but something like a Beast Tamer's fifth pet being a totem creature was a little unscientific and went against its understanding.

Could it really be its fault?

The owl fell into deep thought. Damn, this Shi Yu was born to jinx it.

...

A moment later, Ye Hui and Shi Yu left, leaving behind a messy owl.

It still didn't understand why Shi Yu's predictions were so strange.

It was very heartbroken!

At this moment, after Shi Yu and President Ye Hui separated, he suddenly received a call.

"Shi Yu, where are you? We've already arrived at the territory of the Imperial Capital University's battle club.. You're the only one left," White Brook shouted.

Chapter 223: The Might of an Ancient Overlord

In the battle club venue of Imperial Capital University.

At this moment, there was already a sea of people here.

Hundreds of students were gathered in the hall, and it was extraordinarily lively. There were even teachers from the battle department secretly observing.

Obviously, they were all here to see their elites fight the exchange team of Ancient Capital University.

“Cheer up!”

“Whoever screws up today, the training volume is super doubled!”

In the player area of Ancient Capital University, White Brook’s daily lecture continued.

“Alright ~”

The members of Ancient Capital University were weak.

Sigh, they really didn’t want to fight, because they couldn’t win either.

They only wanted to see Shi Yu fight.

Although they looked forward to Shi Yu, they didn’t look forward to themselves at all...

“Sigh...” White Brook also sighed.

It couldn’t be helped. The difference that could be seen at a glance easily made it impossible for one to have the courage to challenge it.

However, at this moment, many elites of the battle club on the side of Imperial Capital University also had doubts, because a monster had appeared in Ancient Capital University.

They didn’t take the others seriously, but Shi Yu... They had to take him seriously.

Not only them, but the ordinary Imperial Capital students who came to watch the battle also had complicated feelings. They were actually here for Shi Yu.

“Is Shi Yu really going to be here?”

“I came over after watching the news. Can I see the butterfly of imagination of the overlord race?”

“A pet of an overlord race... Can we handle the members of the battle club?”

As the words “overlord race” were too intimidating, many students of the Imperial Capital University started to worry for their members.

“It’s alright, it’s alright. Shi Yu has the gift of telepathy. An overlord race is no different from a monarch race in his hands. Don’t be afraid.”

“I’m not concerned about the Butterfly of Imagination. I heard that he has a ginseng baby that knows how to fight. Is that true? I’m here for this.” A student from the Feeding Department who had contracted a ginseng baby came to visit, wanting to see Shi Yu’s ginseng baby.

“I’m also not interested in butterflies. I don’t want to see the Imaginary Butterfly. I want to see the Iron-eating Beast Knight.”

The venue was very lively. As they listened to the discussion, some students from Imperial Capital University even wondered who was the home team.

This Shi Yu was too scary. He was completely infamous... In short, he was very popular.

...

“Hello, everyone. I’m the host of the Inter-school Competition between Ancient Capital University and Imperial Capital University today, Cui Ying.”

2 PM.

As time approached, on a platform in the venue, a girl with a sweet voice spoke into the microphone on the table.

As soon as she spoke, the voices in the venue fell. Everyone’s gazes were attracted to her.

“This exchange activity is jointly organized by the Battle Club of Ancient Capital University and the Battle Club of Imperial Capital University. It’s designed to promote the friendship between the two parties and increase the level of the Beast Tamer battle between the two schools. Friendship is first, and competition is second.”

“Next, I’ll explain the rules of the competition to everyone.”

Swoosh!

The big screen in the venue lit up.

Then, 60 names appeared.

“The form of this exchange activity is mainly a challenge. The battle club of Ancient Capital University is the challenger, and the battle club of Imperial Capital University is the challenger.”

“The name list on the screen records the names of the members of the Imperial Capital University’s battle club and their ranking in the club. They are the main members of the battle against Ancient Capital University.”

“Members of Ancient Capital University can choose any one of them to challenge. If they win, they can continue to challenge higher ranking members. At 6: 30, the exchange event ends ~ The exchange event doesn’t care about winning or losing, but in the end, the battle results of both parties will be displayed ~”

There was no hard way to let Ancient Capital University and Imperial Capital University decide the winner. It was purely a free challenge by the students of Ancient Capital University. This was the response plan of Imperial Capital University to foreign exchange activities in recent years.

They placed themselves in a very high position to wait for the challenge, but the final battle result would clearly show the difference between the two parties.

At this moment, everyone looked at the big screen.

The first name on the big screen was Tang Yu, a high-level Beast Tamer. He was ranked fourth in the battle club of Imperial Capital University.

As for the top three, they were naturally the three master-level Beast Tamers of Imperial Capital University. They didn't participate in the exchange, just like White Brook.

The second name was Fan Qi, a high-level Beast Tamer, ranked fifth in the Imperial Capital University battle club...

Until the last one, all of them were high-level Beast Tamers. Clearly, they were all official members of the Imperial Capital University's battle club.

"Hey, White Brook, it's time. Who wants to go first?"

As the name list appeared, on the opposite side of the arena, a single-tailed woman in a black short-sleeved shirt stretched. She was one of the vice teams of the Imperial Capital University, a master-level Beast Tamer. She was not among the participants of this exchange activity.

Hearing this woman's voice, White Brook frowned and looked at the people behind her.

"There's no need to wait for Shi Yu. Which of you wants to challenge first?"

"Uh..." When White Brook finished speaking, everyone from Ancient Capital University was a little afraid.

Although they were all elites ranked in the top 20 of the battle club in Ancient Capital University, the difference between the two schools was big. It would probably be difficult for them to defeat those ranked around 30 and 40 in Imperial Capital University.

This difference was also the reason why Imperial Capital University let the enemy team choose who they wanted to battle.

After all, if they were too ruthless, how could other schools be willing to participate in the future? This was bad for the reputation of Imperial Capital University.

"I'll do it." At this moment, seeing that everyone was hesitating, Xu Ze, the vice president of Ancient Capital University, suddenly spoke.

He looked at a name on the big screen and said, "I lost to the other party in the National League last time. It's been so long now. I want to see if the gap has narrowed."

As the second combat power of Ancient Capital University on the surface, he clearly didn't plan to challenge the members ranked at the bottom of Imperial Capital University.

"Alright, all the best!"

White Brook saw someone come out and heaved a sigh of relief.

Although the outcome of Xu Ze's challenge was unknown, White Brook was actually very willing to be a little brave towards the members of the battle club.

If Xu Ze, as the vice president of the battle club of Ancient Capital University, challenged someone ranked at the bottom of Imperial Capital University instead, she would also look down on him.

Not only did she look down on it, even if he won, it would probably attract the sighs of the Imperial Capital University.

“Ancient Capital University’s Xu Ze challenged Imperial Capital University’s Liang Yan.”

Xu Ze walked onto the arena and looked at a name on the big screen under everyone’s gaze.

Liang Yan, high-level Beast Tamer, ranked eighth in the Imperial Capital University’s battle club.

“Liang Yan, the other party wants to challenge you!”

At this moment, at Imperial Capital University, a group of sitting members suddenly looked at a short boy with strange expressions.

“Liang Yan, does he know that one of your pets has evolved?”

“You changed your new pet. The other party shouldn’t know about this, right?”

“I definitely don’t know. I’ve never taken it out to compete.” Liang Yan’s expression was playful.

“I remember now. Did you eliminate Xu Ze in the last National League?” someone asked.

“I think so...” The boy named Liang Yan stood up in surprise and said, “It’s him. I was wondering why someone would challenge me. So he’s here to take revenge...”

“You scared me. I thought it was Shi Yu.” He patted his heart.

As one of the top eight Beast Tamers in the Imperial Capital University’s society and a quasi-master-level Beast Tamer, he was actually very strong. He was so strong that even the second-in-command of Ancient Capital University couldn’t defeat him. However, it just so happened that they had approved of him as a master. Teacher Shen sternly reminded them that if they were challenged by Shi Yu, they definitely couldn’t lose.

After all, if even they lost, wouldn’t the others in Imperial Capital University be killed by Shi Yu’s Imaginary Butterfly?

It was fine if the members ranked at the bottom lost. It wouldn’t affect the morale of the members of the battle club at Imperial Capital University, but if the members of the school team ranked in the top 10 lost, they would be finished. If word got out, his salary as a teacher would probably be deducted...

At this moment, compared to the unknown Shi Yu, Liang Yan didn’t care about the defeated Xu Ze at all.

“I’ll go.” Liang Yan chuckled and walked down.

In an instant, everyone’s gazes focused on Xu Ze and Liang Yan.

One of the two was the vice-captain of the Ancient Capital University’s team, and the other was the elite of the school team ranked at the front of the Imperial Capital University. The battle that had just started was not the low-level battle everyone imagined. Instead, it was a collision of strong and strong.

“It’s Senior Liang...”

On Imperial Capital University’s side, Yin Zhengfan was sitting in a corner. His gaze kept searching for Shi Yu’s figure at Ancient Capital University, but unfortunately, he couldn’t find him.

What was going on?

Apart from him, Tang Yun, Zhang Yiming, the other members of the battle club of the Imperial Capital University, the two vice-captains who were present, and Teacher Shen who was observing in the dark didn’t see Shi Yu either. They couldn’t help but wonder if Shi Yu didn’t come...

Forget it, let’s pay attention to the battle between these two first.

On the arena, both parties had already arrived at the battle area.

Xu Ze’s expression was more serious than Liang Yan.

It wasn’t that Xu Ze didn’t want to choose a pushover before challenging this guy, but the key was that Imperial Capital University didn’t have many pushovers. Fighting others first would definitely consume a lot of energy, so it was better to directly challenge this Liang Yan.

If he won, he would take off. If he lost... Then he would go back and train twice as much.

From the situation of the previous National League... In theory, the difference between them wasn’t very big.

“You’re the challenger, you set the rules.”

At the venue, Imperial Capital University’s Liang Yan spoke.

“2VS2 double,” Xu Ze said very directly.

“Alright!” Liang Yan smiled and nodded.

The two of them looked in the direction of the platform. The girl in charge of presiding over this exchange immediately said, “In the first round, Xu Ze from Ancient Capital University vs Liang Yan from Imperial Capital University!”

“Battle rules, 2VS2 double!”

“Now, please send out your pets.”

As soon as the host finished speaking, both parties immediately entered battle mode.

A summoning array appeared in front of Xu Ze, and a white skeleton giant rose.

Middle class monarch race, skeleton monarch!

At the same time, a white book appeared in Xu Ze’s hand. He held it in his hand.

The high-level monarch race, the Flame Book Spirit, was a dual-element undead and fire-type pet. It was obtained by Xu Ze from the Heroic Spirit Ruins.

After getting the book, white flames seemed to appear in Xu Ze's eyes. White flames floated around him, and white flames wrapped around the skeleton monarch.

Flame Bone Monarch!

Now that he had strengthened them in succession, the two pets seemed to have fused into the commander-level battle power of a quasi overlord race.

"Same old." On the other side, Liang Yan smiled faintly. Two pets appeared in front of him.

"Roar!!!"

A "dragon" roar sounded.

A huge monster that was pitch-black, ten meters long, and looked like a dragon with three heads appeared!

A Dark Three-Headed Python with partial dragon bloodline!

High-level monarch race, dark element, dragon bloodline!

At this moment, when he saw the Dark Three-Headed Python, Xu Ze's expression immediately changed. On Ancient Capital University's side, everyone also revealed solemn expressions.

"Your pet evolved?" Xu Ze asked seriously.

"Yeah, it evolved a week ago," Liang Yan said confidently.

Apart from the Three-Headed Python of Darkness, dense black ants also appeared in the arena. The darkness dyed the ground black, and most of them walked on the python.

Group pet, middle-level monarch species, Dark Travel Ants. The group was one individual, the individual was the group, and all Dark Ants were split from the ant king.

Seeing this pet, Xu Ze's expression changed again. What the hell!

It's only been four months, why did he change all the configurations!

Before he could ask, Liang Yan said himself, "One evolved, another commander species pet was eliminated, and a new pet was chosen as replacement, the Dark Travel Ant."

"Senior Liang Yan is awesome."

Seeing that Liang Yan's Double-Headed Evil Python had evolved into a Dark Three-Headed Python and contracted a new monarch species pet, many Imperial Capital University students were first stunned and then pleasantly surprised.

It wasn't too much to say that the Dark Three-Headed Python, which had dark and dragon bloodlines, was a quasi overlord race.

Coupled with this new pet, it was insane.

"It's over." On Ancient Capital University's side, the corners of everyone's mouths twitched.

He felt that Xu Ze was in danger...

White Brook also revealed a serious expression.

“Am I late?”

At the same time, a voice sounded out. A figure sat beside White Brook and looked at the arena.

Shi Yu?

Seeing Shi Yu arrive, the eyes of many Ancient Capital University members lit up.

White Brook glanced at Shi Yu beside her and said, “We’re a few minutes late. I’m afraid Xu Ze will fail.”

“Is the other party very strong?”

“Very strong, an official member of the Imperial Capital University team. Xu Ze lost to him previously. Now that the other party’s pet has evolved, I’m afraid the difference between the two parties will increase further.”

Shi Yu looked at the arena. To be precise, he looked at the Dark Travel Ant.

This pet was very special. It was considered a support-type pet. The creatures that were stuck to it would immediately lose their vision and their bodies would be corroded by dark energy. The energy would quickly disappear.

In addition, the Dark Travel Ant could also use the Dark Transformation skill on living creatures, allowing them to enter a similar violent comprehensive battle power increase state. As the saying went, dark power made one three times stronger.

In short, the Dark Travel Ants had many support functions, and they could even heal wounds. Most importantly, if you didn’t find their core, they would be almost immortal, and it would be useless no matter how many ordinary Dark Ants they destroyed.

In addition, during the process of eliminating ordinary dark ants, the dead ants would also turn into the power of the dark and continue to erode the other party’s energy.

“It’s very effective against the Book Spirit of Flame,” Shi Yu muttered.

As soon as he finished speaking, the battle below had already begun.

Dark Transformation was a super skill that could be used on oneself or others. At this moment, the Dark Travel Ant used Dark Transformation on the Dark Three-Headed Python!

“Roar!”

In an instant, the already very powerful Three-Headed Python’s strength, speed, and energy increased greatly, turning into a black shadow that attacked the skeleton monarch.

The skeleton monarch threw a bone fist, but during the collision with the other party’s trident tail, the bones shattered almost instantly!

Crack!

The flames swayed. Under the corrosion of the dark power, the skeleton monarch was forced to retreat.

“Uh!!!”

It cried out in pain, making the students of Imperial Capital University especially excited.

“Liang Yan!”

“Senior Liang Yan!!”

The qualities of the dark three-headed python far exceeded that of the Flame Skeleton Monarch in all aspects.

The existence of the Dark Travel Ant also completely countered the flames of the Flame Book Spirit. The flames that were originally meant to transform into armor that could both attack and defend, but when it encountered the Dark Ant, it directly became inner fire.

The Dark Ant charged into the flames desperately. After burning a Dark Ant to death, the skeleton monarch would be corroded by the strong dark power. In addition, the dark three-headed python was extremely strong and ferocious. In the blink of an eye, the skeleton monarch was smashed into pieces by the snake tail.

In less than three minutes, Xu Ze lost, causing the hearts of the members of Ancient Capital University to stop.

Bang!

The beast-eared girl, White Brook, who didn't have a fusion going on, was so angry that she directly smashed the chair handle with a punch.

“Remember, pay him back later.”

Everyone :”...”

Seeing the serious expressions of the members of Ancient Capital University, Shi Yu scratched his cheek.

“Maybe I'll go for the next round?”

Although the other party's strength was not bad, it wasn't ridiculously strong either. It was only comparable to that Fu Andi.

“I'll leave it to you!”

Before White Brook could say anything, the other members of the battle club spoke.

“So strong...”

At the same time, on Imperial Capital University's side, they sighed with emotion at Liang Yan's strength.

The second-in-command of Ancient Capital University was directly crushed by their eighth place. What was there to say?!

“As expected.” A square-faced man stood on a high platform and said expressionlessly, one of the vice teams of the Imperial Capital University.

“It’s just that Liang Yan changes his pets too frequently. The pets who can’t evolve have been thrown away by him. This isn’t good, right?” another vice-captain of the Imperial Capital University, a single-tailed girl in a black short shirt, said.

“As long as we can win,” the square-faced man said.

“That’s not true. This way, it’s very easy to encounter the pet’s backlash one day.” A middle-aged man walked out.

“Moreover, if those predecessors were also like Liang Yan, those guardians of Dong Huang now might have long become enemies after the death of the Beast Tamer. How could they protect Dong Huang like now?”

“Teacher Shen,” the two vice-captains of Imperial Capital University immediately said when they saw this person.

“Let’s watch the exchange.” He looked back at the venue.

Xu Ze lost the battle. He retreated to the player area a little worried.

At the Imperial Capital University, there was a cheer.

As the winner, Liang Yan casually ate a divine bean to replenish the consumption of his dark-element strengthening talent just now and smiled.

However, soon, his expression changed.

Because as Xu Ze returned, a young man in a red battle suit walked over.

“Shi Yu...”

Xu Ze was slightly stunned when he saw Shi Yu.

“I’ll go next,” Shi Yu said.

“If you want to challenge the top 10, be careful. The opponents are also freaks.” Xu Ze’s expression darkened.

At this moment, as Shi Yu appeared, the venue fell silent.

Many people’s expressions became especially serious, and Yin Zhengfan even stood up directly.

“He’s finally here.”

“It’s that Shi Yu.” The important figures at Imperial Capital University, Teacher Shen and the two vice teams, also had serious expressions. Did Ancient Capital University let Shi Yu go on stage so early?

“It’s the Iron-eating Beast Knight.”

“Shi Yu?!”

“He’s the Beast Tamer of the Butterfly of Imagination? A boy? It’s really Shi Yu!”

As Shi Yu appeared, the discussion speed exceeded Xu Ze.

After all, as a student of the Imperial Capital University, there was no need to pay attention to who the vice president of the Battle Club was.

In other words, he was equivalent to an ordinary member of the school team of Imperial Capital University.

However, Shi Yu was different. This was a man who had snatched Heavenly King Zou's trending topic...

"Let me see..." After Shi Yu went on stage, he looked at the big screen and muttered to himself, "It's better to start challenging from the top..."

On the other side, Liang Yan was stunned.

Although he was nervous when he saw Shi Yu, what did Shi Yu mean?

Ignore him?

"You guys haven't defeated me yet." His face also darkened as he said to Shi Yu opposite him.

"You're an opponent chosen by Senior Xu Ze. I didn't choose you." Shi Yu was rather serious.

"I want to challenge the first three names..."

Liang Yan: "?"

"Shouldn't the new one take revenge for the previous one who lost?" He explained the normal process.

Why didn't he follow the routine!

Shi Yu was stunned. "It makes sense, it makes sense, but this isn't an arena battle. Besides, you've already fought one battle, so your condition isn't optimal."

Liang Yanshen took a deep breath and said, "Don't worry, I contracted a Heart of Darkness. With its Dark Revival, the state of the three-headed dragon python and the Dark Travel Ant hasn't fallen much."

"Sure." Shi Yu looked at him.

"Are you sure you've recovered?"

"Yes," Liang Yan confirmed.

Although he didn't want to fight Shi Yu either, if this situation continued, he couldn't explain it to his seniors and juniors. It would look like he was afraid of Shi Yu.

From a different perspective... If he defeated Shi Yu... his reputation might even exceed the two vice teams!

"Holy shit, Senior Liang Yan plans to 1v2."

"Who can win between him and Shi Yu?"

"I'm not sure..."

"But looking at how Senior Liang Yan didn't spend much effort to defeat Xu Ze, maybe..."

Many members of the Imperial Capital University looked at the venue.

The members of Ancient Capital University also looked at the venue solemnly.

Regarding Shi Yu's strength, even Teacher Shen and the two vice-captains of Imperial Capital University could not determine it.

But through this battle, they should be able to determine something...

At this moment, facing Liang Yan, who had just defeated Xu Ze, Shi Yu slowly walked forward and summoned his pet.

Boom!

As his cloak fluttered, a huge summoning array appeared behind him. It was majestic and spectacular.

A terrifying mental wave spread from it and turned into a blue aura.

In the spatial ripples, a huge butterfly about three to four meters in size slowly appeared with a strong pressure.

It had an incomparably huge pair of wings. The entire surface of the wings was like white waves surging on the blue sea. Its color and patterns were abnormally beautiful.

"Roar!!!"

At this moment, after discovering that a new opponent had appeared, the Dark Three-Headed Python in the arena revealed a ferocious expression.

On its body, countless dark ants crawled faster.

"Shi Yu..."

At Ancient Capital University, everyone became nervous.

"The Butterfly of Imagination..." Liang Yan's expression was also excited and solemn. Just as he wanted to test how strong the life force of this overlord race was, a change occurred.

As the Butterfly of Imagination appeared, the entire arena underwent a huge change. The stone arena turned into a brown land, filled with an ancient aura.

The dry ground was incomparably deep. On the ground, an incomparably huge Tyrant Dragon slowly formed.

Seeing this scene, everyone opened their mouths wide.

"Tyr... Tyr... Tyrant... Tyrant Dragon?!!!"

"This..."

In the next moment, an even more shocking scene appeared.

"Roar!!!!"

After the Tyrant Dragon formed, its gaze was fierce and it emitted a strong dragon might. A brown aura erupted from its entire body!

Boom!!!

In an instant, with a cracking sound, the dry ground shattered even more, quickly turning into fragments like broken glass.

A tangible wave bloomed from the Tyrant Dragon.

Accompanied by the revival of the ancient tyrant, the ground began to rumble. The substantialized deterrence wave passed through the three-headed python and the dark ants like a storm, filling their eyes with fear. Their bodies actually involuntarily showed dry wounds under the deterrence.

Bang!

In the next moment, all the ordinary dark ants exploded and died. Under the deterrence, the Dark Three-Headed Python, which had the bloodline of the dragon race, even suffered an unimaginable injury in an instant. Its mind and body were severely injured, and its cracked body spat out black blood. It directly fainted and fell to the ground.

Transcendent Illusion+Perfect Dragon Might+Perfect Imagination Domain...

It stuck to the Tyrant Dragon figure taken from the Tyrant Dragon fossil.

In the true sense, it allowed the dignity of the ancient tyrant to descend into the world again.

At this moment, the Butterfly of Imagination was still floating in the sky. It didn't move from the beginning to the end. Only the Tyrant Dragon was still looking down at Liang Yan, whose gaze had exploded.

"How... How..." He stuttered as he looked at everything. He felt the two pets that had lost consciousness. He sensed the other party's strength and his heart was also heavily injured!

He... was insta-killed by deterrence?

Wasn't this... the skill used for fodder?

"Holy shit."

On Ancient Capital University's side, everyone, including White Brook and Xu Ze, opened their mouths wide and couldn't react at all.

Wait, what happened?

"You're still human?!" Xu Ze, the vice president of Ancient Capital University, cursed. He was directly shocked. Shi Yu... This... This...

He had just said that the other party was a monster when Shi Yu insta-killed him?

On Imperial Capital University's side, it was almost instantly silent. Yin Zhengfan's little face was flushed red, and his gaze was filled with shock.

On the other side, the battle club instructor and the two vice teams who looked down on the whole situation were shocked.

Everyone was waiting for the Butterfly of Imagination to showcase its strength.

However, as the Butterfly of Imagination revealed its strength, everyone lost their ability to think.

Because what they saw was not as simple as the strength of a middle-level overlord race or commander rank.

Which commander-level pet, even an overlord race, could train high-level skills to transcendent? And even form profundities with the perfect dragon might?

Race had never been the strongest aspect of Shi Yu's pets. What was really unscientific about them were the terrifying low-level skills with high proficiency.

At the same time... Shi Yu was thinking... It seemed like he didn't have to summon a second pet? The other party couldn't really take this fight.

Chapter 224: Valiant Battle Style

In just one round, the elite ranked eighth in the battle club of Imperial Capital University was insta-killed.

In just one round, the elite ranked eighth in the battle club of Imperial Capital University was insta-killed.

However, such a genius actually didn't manage to withstand a single move from Shi Yu...

If the opponent he encountered was White Brook, it would be fine if it was the master-level Beast Tamer of the various university prefectures who were the trump cards. With the difference in level, it was very normal to be insta-killed.

However, what he encountered was a new student, a new student from Ancient Capital University.

Although everyone was already mentally prepared for this new student to be very monstrous, no matter how mentally prepared they were, it couldn't change the fact that Shi Yu was only a junior Beast Tamer four months ago!

"Holy shit, it exploded!"

"President, no wonder you trust Shi Yu so much. This is simply too much."

"This Imagination Butterfly... is so strong. Is this the overlord race?"

On the side of Ancient Capital University, everyone's eyes were stunned as they muttered to themselves. Their mood instantly climaxed.

Only Xu Ze was restless and his heart was in a mess.

In other words, Shi Yu could also easily insta-kill him now?

“Silence.”

White Brook said in a deep voice.

However, she was the most excited.

Although she had long known that the Butterfly of Imagination was very strong, this was the first time she had seen it officially show its might.

She was also very excited.

She knew the outcome of this battle from the start.

After all, in the previous high-level Beast Tamer assessment, although Buggy only played support, it had already displayed its power.

If it could even trap the Ox-Headed Beast King with the lowest energy level of 200,000 monarchs, there was no need to talk about its strength.

In White Brook’s eyes, it was very normal for the Butterfly of Imagination to defeat these two pets.

However, a deterrence insta-killed them, clean and efficient. It was really Shi Yu.

“Senior Xu Ze is kind of weak.”

On the other side, after Shi Yu finished fighting, he muttered in his heart.

In terms of pet quality, Xu Ze and Liang Yan were actually on par. The pet’s energy level was less than 80,000.

However, Xu Ze’s development of the Beast Taming Talent was far inferior to this Liang Yan.

If Xu Ze could increase the energy strength of the undead pet by 20,000 through Soul Strengthening...

In that case, this Liang Yan could almost increase it by more than 30,000. It directly made the pets with less than 80,000 energy points reach more than 100,000.

This was the difference between Beast Tamers.

In a sense, this was also the advantage of a battle party like Liang Yan, who frequently changed pets.

This was because Xu Ze might have spent most of his energy on training pets, and this Liang Yan probably relied on updating pets to increase the quality of his pets and had more time to develop his talent.

Unfortunately, his pet’s strength was still a little lacking. In the face of Buggy’s 140,000 energy points, it couldn’t resist at all.

Moreover, when Buggy was in the domain of imagination, its mental strength would also undergo a qualitative change. It was like being strengthened by the mental strength talent. The quality of the mental strength would increase, and the power that could be displayed by mental skills would also increase... The difference was too big, so the opponent was even more unable to stop it.

“Senior Liang Yan, you lost.”

Shi Yu smiled and looked at the speechless senior in front of him.

“Next, I want to challenge Senior Tang Yu.” With that, he looked at the first name on the big screen.

High-level Beast Tamer, Tang Yu, ranked fourth in the battle club.

This person was the strongest person in the battle club of Imperial Capital University apart from the three masters...

“He still wants to continue fighting...”

“Of course, that battle just now probably didn’t take much effort...”

When Shi Yu finished speaking, the venue immediately erupted.

At this moment, many students from Imperial Capital University had heavy expressions.

Although Shi Yu was indeed very strong, wouldn’t they be embarrassed if they directly let Shi Yutong challenge the Imperial Capital University bosses?

The eighth place of the school was insta-killed by him, and now he was challenging the fourth place?

“Can Senior Tang Yu punish this guy?”

“It’s hard to say, but Senior Tang Yu definitely can’t insta-kill Senior Liang...”

“I...” Liang Yan still wanted to say something, but at this moment, he didn’t know what to say at all. He was completely autistic.

He retracted his pet with a trembling heart and confirmed that the Shi Yu in front of him was definitely a monster. Even Tang Yu might not be his match!

In Imperial Capital University, a young man in a black casual suit was sitting on a chair. He narrowed his eyes and leaned forward to stare at the arena that had been restored. It had been filled with cracks due to deterrence and he fell into deep thought.

Perfect deterrence...

The opponent was very strong, ridiculously strong.

“Tang Yu... the other party wants to challenge you,” behind Tang Yu, Zhang Yiming, who had been the judge for Yin Zhengfan and Shi Yu, spoke.

“Yes.” Tang Yu was expressionless.

He was feeling very complicated now because he wasn’t confident either. He could only say that he was giving it a try.

As for the students in the Imperial Capital University ranking between Tang Yu and Liang Yan, they heaved a sigh of relief. Damn, fortunately, they weren’t chosen. Otherwise... they would die if they tried.

At this moment, apart from Liang Yan, the others didn’t have the confidence to withstand such a ridiculous deterrence.

Behind Tang Yu, Tang Yun, Yin Zhengfan, and the others looked conflicted, especially Yin Zhengfan... He realized that this Imagination Butterfly seemed to be far stronger than that ginseng baby. The pressure made him feel suffocated.

However, this was also normal. The unlucky ginseng baby was one of the three main forces in Shi Yu's team. Until now, it still couldn't fly... and it wasn't a pet that wasn't taught deterrence by Shi Yu.

There was no so-called pressure at all... It was purely a supplement.

"Senior Tang Yu, be careful."

Seeing Tang Yu get up, Yin Zhengfan said shyly... and received Tang Yu's nod.

"Can Tang Yu do it? Teacher Shen, I feel that the strategy you guys came up with at the start doesn't seem to be very useful..."

On the high platform, the vice team leaders of Imperial Capital University, a man and a woman, fell silent and looked at their instructor.

Teacher Shen couldn't say anything either. After all, at the start, he only thought that the butterfly's energy level was at most a hundred thousand, but now... it was not like that at all.

Because the difference in growth between the two parties was too big, it was impossible to rely on skills to reverse the situation now. Shi Yu had already formed an absolute suppression in strength.

"Tang Yu... should be the one who can resist the perfect deterrence the most steadily."

"But whether he can defeat the other party depends on whether Shi Yu can crack his talent."

As Teacher Shen finished speaking, the young man named Tang Yu had already walked down.

"I accept your challenge," Tang Yu said after stepping onto the arena.

He was the fourth seat of the Imperial Capital University, an elite whose strength was only inferior to the three master students. His reputation in the school was also incomparably huge.

Even White Brook fell into deep thought when she saw Tang Yu.

Why didn't this kid, Shi Yu, fight them one by one? He wanted to fight the greatest boss right from the start. Although the chances of him winning weren't small, she kept feeling that it was lacking.

They should let Imperial Capital University continue to have the fear of being ruled!

"Tang Yu..."

"I think Senior Tang can do it."

"Of course. Among those at the same level, I've never seen a Beast Tamer who can defeat Senior Tang Yu. Before the vice-captain broke through, he couldn't defeat him either."

As Tang Yu appeared, the confidence of the students from the Imperial Capital University increased.

His confidence was all due to Tang Yu's special talent!

This was an extremely powerful talent.

He could apply an invincible absorption shield of the same level to themselves and their pets. The shield could be immune to all skills, ineffective against attacks, and turned into energy to integrate into the shield to maintain the existence of the shield.

In other words, only pure physical attacks could cause damage to Tang Yu's pet.

Any skill with energy added would be immunized and absorbed.

Although there were still ways to crack it, how many races could unleash powerful strength without skills and just their bodies?

It had to be a pure physical attack. Even with a skill like Hardening, the Hardening Material would be absorbed by the shield.

For most people, this was already an extremely unsolvable Beast Taming Talent.

"You decide the rules," Tang Yu said to Shi Yu.

Shi Yu: "A no-rules battle."

As Shi Yu finished speaking, Tang Yu's expression changed.

An irregular battle meant that there was no limit to the number of pets and no limit to the number of props they carried. The Beast Tamer himself could also join the battle. At the same time, he could also attack the Beast Tamer himself.

"Alright."

Although this kind of battle was rare, it was for at least someone who had passed the vocation assessment. Tang Yu was not unfamiliar with it and quickly accepted it.

Moreover, his talent was clearly more suitable for irregular battles than Shi Yu's telepathy.

At this moment, the Tyrant Dragon and the Imagination Domain had already disappeared, leaving the Butterfly of Imagination floating in front of Shi Yu.

Tang Yu narrowed his eyes and summoned his four pets.

"Roar!!!" "Wu ~!!" "Meow ~!" "Hu!!!"

In the blink of an eye, four pets appeared.

The Ghost Rock Giant with a dark brown body.

It was a bird-shaped pet made of wind elements, the Wind King Swallow.

A Dark Night Six-tailed Demon Cat with six tails and a dark form.

There was also the Thunder Cloud Sprite King that was circling in the sky like a dark cloud and covered in lightning.

Four pets appeared, and a powerful aura erupted from their bodies. They were looking at the Butterfly of Imagination with hostility.

They were all elemental pets.

With Tang Yu's talent, it was not difficult to determine the intention of this contract.

Because elemental pets could elementalize and were immune to physical attacks!

In addition to the Beast Tamer's absorption talent, it could be immune to skills. With complementation, this combination could be said to be an absolute defense.

The moment the four pets appeared, the Imagination Butterfly in the sky tested them.

Boom!!!

A strong deterrence wave erupted from the Butterfly of Imagination.

As the deterrence went berserk, the air began to hum and vibrate.

The substantialized deterrence wave tore through the arena again, causing countless large and small cracks to instantly appear like a thousand cuts.

Buzz!

A terrifying deterrence wave directly spread out and swept past the four pets. But at the same time, transparent energy shields flickered on their bodies. When the deterrence wave touched the shield, it was like a drop of water falling into the ocean. It only shocked the slightest ripple and did not affect the four pets at all.

Shi Yu crossed his arms and revealed a surprised expression.

"Wu..." Buggy also showed a surprised expression. It felt that even its other attack skills would find it very difficult to break through that absorption shield.

The shield had a special immune nature. Unless the worm erupted with a million-level energy, all the attacks would be absorbed by the shield.

This was also why Tang Yu's pet was not very strong, but he could firmly occupy the fourth seat of Imperial Capital University.

The Beast Taming Talent was too strong. For example, Liang Yan from before couldn't break through their absorption shield at all. The most terrifying thing was that the consumption of this shield on the Beast Tamer was also very small. It was maintained by absorbing the power of the outside world.

"Senior Tang Yu is awesome!!"

At this moment, as Tang Yu's four pets easily disintegrated the perfect deterrence of the Butterfly of Imagination, everyone from the Imperial Capital University immediately cheered. On the high platform, Teacher Shen and the others also nodded secretly.

If he wanted to defeat Tang Yu, he could only send pets that were good at physical strength to find opportunities. However, the opponent was an elemental creature, and opportunities were not that easy to find.

Or, he could fight Tang Yu himself and make his talent fail.

But now, in the face of perfect deterrence, even Tang Yu's expression did not change under the protection of the absorption shield. It was not so easy to defeat him under the protection of the four pets and the shield.

"The Butterfly of Imagination alone can't defeat us. Send out your other pets. You should have an Iron-eating Beast, right? Perhaps it should be the Nine Li Battle Beast now," Tang Yu said.

Seeing that Shi Yu had yet to send his next pet, he curled his lips. Did Shi Yu think that he could defeat all his pets just like Liang Yan by relying on an Imagination Butterfly?

"There's no need for it to attack yet."

Shi Yu smiled slightly, making Tang Yu opposite him sneer.

In the next moment, the Wind King, Yan Storm, wrapped around it, and the Dark Night Six-tailed Demon Cat turned into a shadow and attacked.

The Ghost Rock Giant and the Thunder Cloud Sprite King accumulated big moves behind Tang Yu. They were attack pets and had the mission to protect Tang Yu.

At this moment, the Wind King Yan and the Dark Night Six-Tailed Demon Cat's speed was almost like a flash. They were extremely fast, and they didn't attack the Butterfly of Imagination, but Shi Yu.

Since Shi Yu had chosen an irregular battle, he couldn't blame him for using a less troublesome method.

Any energy attack would be instantly immune to the absorption shield. Could it be that the Butterfly of Imagination alone could protect Shi Yu?

However.

"You're too confident in the absorption shield."

"Don't forget, it's a spatial element."

As Shi Yu spoke, four Psychic clusters appeared in front of the Butterfly. They were teleported into the four pets by transcendent Instant Transmission, ignoring the shield.

Although the Wind King Swallow and the Dark Night Six Tailed Demon Cat were very fast, due to their high proficiency in skills, the attack speed of the Imagination Butterfly was even faster than them.

In the blink of an eye, the Wind King Yan, the Dark Night Six Tailed Demon Cat, the Ghost Rock Giant, and the Thunder Cloud Sprite King's movements froze. The elemental core was directly pinched by the mental power.

As the Psychic team suddenly appeared in their bodies and exploded, their bodies instantly became blurry!

The absorption shield was only wrapped around their bodies, but there were no protective measures in their bodies!

“Roar!!!” “Chirp ~!!” “Meow ~!” “Hu!!”

They didn’t have the ability to harden their bodies internally and externally like Eleven. In the face of the transcendent-level Instant Transmission skill of the Imagination Butterfly, their bodies, which had no resistance at all, were directly injured!

Boom!

In an instant, their bodies exploded like they had self-destructed.

Under the incredulous expressions of everyone, under the protection of the invincible absorption shield and elementalization known as Absolute Defense, Tang Yu’s four pets were directly injured to the state where they became elemental cores and lost their bodies.

Under the sky full of fireworks, only four elemental cores landed on the ground.

This was the final self-protection state of the elemental creatures.

However, this didn’t mean that they had lost their ability to fight, because in the blink of an eye, they started to recover their bodies, elements gathered, and recombined their bodies.

On the other side, Tang Yu was stunned at the change.

If it weren’t for the fact that Beast Tamers were too weak, Tang Yu would have already been defeated because Shi Yu would use it on him as well.

Through this move, not to mention a high-level Beast Tamer like him, even a top-notch master could be successfully assassinated by Shi Yu and the others without being prepared in an irregular battle.

Only legendary Beast Tamers who had mastered various magical abilities could escape everything.

“What happened? How is this possible!” Just as Tang Yu’s four pets lost their figures.

Shi Yu’s figure also disappeared on the spot.

It appeared behind Tang Yu.

Sensing the cold wind behind him, Tang Yu’s pores almost instantly stood up. In the next moment, a hand directly hit his neck, making his eyes widen and his consciousness almost faint.

Behind Tang Yu, Shi Yu’s red cloak fluttered. His hand saber stopped in mid-air. He looked at Tang Yu, who was bending slightly in front of him, and said, “Beast Tamers also know physical attacks.”

As soon as he finished speaking, Tang Yu fainted. The absorption shields on his body and the four pets were also removed almost instantly. Buggy used its psychic power to control the elemental creatures that had recovered their bodies and completely knocked them out.

At this moment, only Shi Yu was left standing quietly in the arena, while Tang Yu and his four pets were all unconscious.

In such a style of battle, everyone's eyes widened in an instant. They were stunned speechless and felt a chill down their spines.

"This..." Yin Zhengfan's eyes were about to pop out. He looked at all of this in disbelief and started to doubt his rightness to come to Imperial Capital University.

This time, Shi Yu was even more ridiculous. He easily defeated the fourth seat of the Imperial Capital University, a genius with extremely abnormal talent, in a 1VS4.

At this moment, all the members of the battle club of Imperial Capital University opened their mouths slightly. They stood up in disbelief and looked at the venue.

On the Ancient Capital University's side, everyone's faces were flushed as they looked at Shi Yu in disbelief.

Holy shit.

What happened just now?

The four pets lost their mobility in an instant?

Moreover, Shi Yu had personally teleported behind his opponent. The action of insta-killing his opponent with a hand blade was too familiar.

"How is that possible? Is he really just a teenager?"

At this moment, Teacher Shen's expression changed. The two vice teams beside him also had serious expressions.

Transcendent-level Instant Transmission?

And this battle thought process... no matter how one looked at it, it looked like those Beast Tamers who were proficient in life and death battles!

"I'll leave it to you."

After defeating another opponent, under Shi Yu's instructions, Buggy teleported them back to the audience seats of Imperial Capital University. Next, they would leave it to their own people.

At this moment, as Shi Yu easily defeated the fourth seat of the Imperial Capital University, the venue was extremely silent.

Monster... How the f*ck were they supposed to fight this!!!

They felt that if they played with a lunatic like Shi Yu, the Beast Tamer would die if he wasn't careful!

"Impressive!!"

Although they didn't know what was going on, when they saw Shi Yu kill the fourth seat of the Imperial Capital University so cleanly, Ancient Capital University's side was extremely excited.

"Perfect!!!" White Brook muttered, stunned.

Then, no matter how the other teammates lost, their morale was finally high.

“Shi Yu, well done!”

She was just about to say that, but in the arena, Shi Yu didn't seem to be satisfied. This was because for Shi Yu, there was indeed no meaning in the level of high-level Beast Tamers...

He looked at the high platform and at the three people who had been secretly observing.

He said something that shocked all the Beast Tamers.

“Next, can I challenge the vice-captain of Imperial Capital University?” Shi Yu spoke and directly challenged the master-level Beast Tamer who had a monarch-level pet. The entire venue was silent, and everyone opened their mouths wide.

Including White Brook, Yin Zhengfan, and Teacher Shen, everyone lost their ability to think. This wasn't the script for the exchange event! What was he doing!

Chapter 225: The Point of Sweeping Through Imperial University

After Shi Yu said that he wanted to challenge the vice-captain of Imperial Capital University, the entire place immediately fell silent.

The members of Imperial Capital University looked over in disbelief.

What???

White Brook and the others were also stunned, wondering if they had heard wrong.

On the high platform, the expressions of the two vice-captains of Imperial Capital University instantly collapsed. They also didn't understand.

“This guy...” Beside him, Teacher Shen muttered.

What was Shi Yu trying to do?

“Hey, hey, hey.” On the other side, White Brook immediately panicked.

Her excited heart sank.

Shi Yu, Shi Yu!!!

The two vice captains of Imperial Capital University had monarch-level pets!

Moreover, they were all high-level races.

Its energy level was above 1 million!

Don't you know the difference between a professional Beast Tamer and a master Beast Tamer?!

White Brook had no idea why Shi Yu, who had been timid when facing her challenge, was suddenly so fierce.

Don't take it too hard!

The venue was still silent.

The students of Imperial Capital University had complicated expressions.

The two elites of the school were crushed by Shi Yu in succession. Many students from the Imperial Capital University were still in a very aggrieved state, but now, Shi Yu almost broke them down.

What kind of idiotic statement was this?

A high-level Beast Tamer challenging a master-level Beast Tamer?

Was he crazy, or did he have enough confidence?

Everyone thought about it carefully. Indeed, from the beginning to the end, even when dealing with the fourth seat of the Imperial Capital University, Shi Yu was still at the level of crushing his opponent. His strength had not been completely displayed.

Even his pets didn't show up...

What was Shi Yu planning?

"I..." At this moment, the one who was most confused was definitely Yin Zhengfan.

He looked confused.

Too much.

Shi Yu was too much.

In order to surpass Shi Yu, he went to Imperial Capital University from afar and became a reserve member of Imperial Capital University's battle club.

It was already a very impressive achievement for a 13-year-old young freshman to enter the battle club where experts were gathered.

The reserve members of the club, the official members of the battle club, the elites of the elite school team in the battle club, and the master-level vice-captain.

Imperial Capital University's promotion system for the battle club was extremely clear. Yin Zhengfan originally thought that he had done very well, but this time, Shi Yu gave him a lesson.

There was no need to challenge the official members of the battle club at all.

The elite of the school team took only a single move.

Challenging a master at a higher level was the start of the highlight.

"This bastard."

"I've never seen such an arrogant person." Bai Wenjie, one of the vice-captains of the Battle Club of the Imperial Capital University, stood on the high platform and looked down intently. He was angry.

It was already a slap in the face that Shi Yu, a new student from Ancient Capital University, managed to crush two elites of the Imperial Capital University team.

However, they couldn't say anything. After all, everything was in the exchange rules.

However, he didn't expect the challenge to end up on him.

The moment Shi Yu spoke, his mind went blank.

"Too arrogant!" Beside Bai Wenjie, the other single-tailed female vice-captain of Imperial Capital University also had a sullen expression. She said, "Bai Wenjie, go and teach him a lesson."

"Show him."

"Alright! No, why is it me and not you? You're also a vice-captain." Bai Wenjie looked at the other party.

"You're stronger and more stable than me. Is there a problem?" she asked with a frown.

"No problem, no problem," Bai Wenjie said in a low voice. It was just that he kept feeling that something was wrong.

More stable?

Jiang Ran felt that there was an unstable factor in their master-level vice-captain fighting Shi Yu??

When Bai Wenjie suddenly snapped back to reality, he had already walked down unknowingly. Under the gaze of hundreds of people, he walked down expressionlessly.

At this moment, the scene was silent again.

They were shocked. Under Shi Yu's invitation, someone really stood forward.

"It's... It's Captain Bai!"

Seeing this man come down, the members of the battle club exclaimed.

In Imperial Capital University, the main team went missing all year round. It only appeared in the National League and some relatively important occasions. Usually, it was the two masters, Bai Wenjie and Jiang Ran, who managed the club.

The strength of each of them was not inferior to the leader level figure of Ancient Capital University, White Brook.

After Bai Wenjie came down, he looked at Shi Yu calmly.

"Bai Wenjie, vice-captain of the Imperial Capital University's team."

"Although this doesn't follow the rules, I accept your challenge."

"You mean you want to challenge our commander rank pets, right?"

As soon as he finished speaking, everyone present revealed enlightened expressions.

They almost forgot.

Even if it was a master-level Beast Tamer, not every pet was at the monarch level.

It was already not bad to have one.

Two was already very strong.

Most master-level Beast Tamers' pets, apart from trump cards, were still commander-level.

Initially, everyone was still wondering why Shi Yu was so unwise as to challenge a master-level Beast Tamer, but if he only wanted to challenge the other party's second tier pet, that was understandable.

But even so, a master-level Beast Tamer's commander-level pet couldn't be compared to a professional Beast Tamer's commander-level pet.

Because the development of a master-level Beast Tamer's Beast Taming Talent would definitely be stronger.

It wasn't difficult to use the strengthening talent to increase the pet's energy level by 100,000 at once.

If a pet with 50,000 energy points was controlled by a high-level Beast Tamer with enhanced talent, its battle power might only increase by one-fifth or two.

But if it was controlled by a master, its battle power might even increase by two or three times.

After Bai Wenjie came down, he thought carefully. This was the only factor that could make Jiang Ran feel it was unstable.

If Shi Yu wanted to challenge their commander-level pet, with the abnormality of this Imagination Butterfly... Even they might have to deal with it carefully. After all, the spatial element was too strange.

However, Bai Wenjie felt that Jiang Ran was still too cowardly. Even in a commander battle, with their Beast Taming Talent, it was definitely not what Shi Yu could resist.

He could directly raise the energy of a commander-level pet with 100,000 energy points to 200,000 or 300,000. How could he lose?

"You're worried about this?" On the high platform, Teacher Shen asked Jiang Ran.

Jiang Ran nodded and said, "What if the other party has some trump card that can defeat the opponent with more than 100,000 energy... Bai Wenjie's energy qualitative change talent is more stable."

Her expression was serious. The elites of the school team had already lost. If the two master-level deputy teams also lost, Imperial Capital University would definitely become a clown in this exchange match.

After all, they were the first in the country last year!

Although their average strength was inferior to that of Demon Capital last year and couldn't be considered top-notch, and they had relied on the main team to turn the tide, it still couldn't be denied that the power of Imperial Capital University far exceeded that of Ancient Capital University.

If the national champion team lost to a new student from Ancient Capital University, the students of Imperial Capital University would definitely lose face in the next year.

At that time, it would probably be difficult for Imperial Capital University to even recruit students. All the geniuses would run to Demon and Ancient Capital.

“No, what I want to challenge is a monarch-level pet.” At this moment, while everyone was waiting for Shi Yu’s answer, Shi Yu said rather seriously, giving everyone a fright.

As soon as he finished speaking, everyone revealed stunned expressions again.

Even Bo Wenjie, Jiang Ran, Teacher Shen, and the others’ minds went blank again.

Yin Zhengfan and the others widened their eyes.

Why didn’t this guy follow the routine again!!

“You want to challenge a monarch?”

Bai Wenjie was stunned and laughed in anger. Did Shi Yu know what this concept was??

Did he know???

Ten times the energy difference!

“Yes...” Shi Yu nodded heavily.

“So, Senior, do you want to accept the challenge?”

“Alright.” Bai Wenjie smiled, somewhat unable to understand, but he still said, “You decide the rules.”

“Of course, even if it’s a 4VS1, I don’t mind.” He was extremely calm.

He was unwilling to bully Shi Yu.

Shi Yu shook his head and said, “No, 1VS1 is fine.”

He looked at the butterfly in the air and said, “My pet is still this.”

“1VS1 irregular battle,” Shi Yu said.

On the other hand, Bai Wenjie’s expression was heavy. It was unknown what he was thinking.

At that moment, there was no doubt that the entire place fell into an uproar.

The progress of the exchange was completely unexpected.

Now, it had actually evolved into Ancient Capital University’s new student vs Imperial Capital University’s number two?

Moreover, everyone originally thought that Shi Yu had a new trump card.

But now, it seemed that the pet sent out was still this Imagination Butterfly!

Even the members of Ancient Capital University could not understand Shi Yu’s intention at this moment.

At this moment, only Buggy was very excited.

Charge!

This was the first time it displayed its divine might after evolution.

It floated in the air like an overlord. It didn't have the slightest fear of challenging someone above its level and looked down on the other party.

"Heh..."

On the other side, Bai Wenjie chuckled. Suddenly, a huge blue summoning array appeared opposite Shi Yu and the others.

"Wu!!!!"

A terrifying roar came from the summoning array.

In the next moment, a huge beast that was five meters tall and covered in white jade slowly appeared.

It had dry skin that lingered with cold air, long fangs and a huge nose, and a cold gaze.

"Wu!!!!" The moment it appeared, the venue under its feet was instantly frozen. A terrifying coldness instantly enveloped the entire hall.

[Name]: Ice River Mammoth

[Race Level]: High Class Monarch

[Level of Growth]: Monarch Level

[Energy Points]: 1250487

The moment the giant elephant appeared, many people compared the strength of the two pets. At this moment, the outcome seemed to be fixed.

Shi Yu looked at the energy value of the Ice River Mammoth and sighed with emotion at the huge difference between commander rank and monarch rank.

Ten times the energy of the Butterfly of Imagination...

"What's Shi Yu thinking?"

"Ten times the difference."

Everyone looked at the level information on the battle screen and felt suffocated.

When Shi Yu and Yin Zhengfan fought, there was an energy detection device. Naturally, there were also such devices in the battle club.

This was also why many members of the battle club did not dare to face Shi Yu at that time.

An ideal overlord with 140,000 energy points was ridiculous.

It was almost close to the 200,000 standard for transcendent races at the level of monarchs.

But now...

[Name]: Imagination Butterfly

[Energy Points]: 144,215

[Name]: Ice River Mammoth

[Energy Points]: 1250487

In the face of the terrifying strength of a monarch race and monarch level, what was the point of the butterfly fighting?

“Is it possible that Shi Yu didn’t want to win from the start? He felt that it was a little mean to destroy the two of us. He wanted to deliberately lose to show his friendliness, but he wasn’t too embarrassed to lose to a high-level Beast Tamer, so he chose the vice-captain?”

“After all, even if he loses to a Master, there’s nothing to be ashamed of.”

A big genius guessed.

Everyone couldn’t help but look at him as if he was a fool.

How was that possible?

At this moment, looking at the huge difference between the two pets, Bai Wenjie also smiled.

He smiled and shook his head, still not very understanding.

He felt that the scene of Shi Yu and Liang Yan’s battle was about to repeat itself.

Perhaps the Ice River Mammoth could instantly kill the Butterfly with its deterrence alone.

This was the crushing effect of level.

No matter how great the potential of the overlord race was, the overlord race that had yet to mature was still weak.

Facing the Ice River Mammoth that had already grown to nearly complete stage, there was no chance of winning.

“Then I’ll let you see the difference between monarch rank and commander rank.”

He didn’t even plan to use his talent. That was too much of a bully.

Bai Wenjie spoke calmly. The moment his words fell, the Ice River Mammoth let out a long roar again!

“Wu!!!!!!”

As it spoke, a terrifying monarch aura immediately erupted!

Expert deterrence, monarch aura!!

Although the deterrence proficiency of the Ice River Mammoth was inferior to the Butterfly of Imagination, its growth level was high.

With the support of a huge amount of spiritual energy, even if the Butterfly of Imagination mastered transcendent deterrence, it would be useless.

Boom!!!

In an instant, the almost corporeal monarch aura seemed to be mixed with the power of frost, causing the entire arena to instantly freeze. At this moment, the terrifying coldness could be clearly sensed even by the Beast Tamers elsewhere in the venue.

A huge aura that was like a snowstorm instantly attacked the Butterfly of Imagination.

At this moment, everyone changed their positions and thought about it. They stood from the perspective of Shi Yu and the Butterfly of Imagination, but they didn't know how to resist at all.

But...

Shi Yu and the Butterfly of Imagination's expressions were still calm.

This calmness made Yin Zhengfan, Jiang Ran, Teacher Shen, and the others unable to understand. It also made White Brook and the others confused.

At this moment, everyone's attention was attracted by the venue.

No one realized that the energy value information of the Butterfly of Imagination quietly changed on the big screen that displayed the details of the battle.

Beep... Beep... Beep...

In a short instant, the energy value of the Imagination Butterfly, which was still "140,000" just now, began to increase crazily.

"Buggy, Dragon Might."

Shi Yu had already given the order in his heart.

The moment the deterrence from the other side attacked, the entire venue seemed to have been pulled into another world.

Everything around him turned blue. The sky that emitted a blue aura, the ground that was covered in a blue aura, and even a dazzling blue-white sun and countless clouds.

Super skill, Imagination Domain, instantly activated!

In the field of imagination, Buggy glanced at the other party and also released its full body's deterrence. Invisible blue waves surrounded its body!

"Roar!!!"

This time, it was still not the sound of a butterfly, but a dragon roar.

It was similar to the dragon roar when the Tyrant Dragon revived back then, but in terms of aura, it was even more terrifying.

Blue dragon might instantly blossomed from Buggy's body and turned into a tsunami-like wave that attacked the other party.

At the next moment, everyone was stunned.

Boom!

The two auras directly collided midway and actually instantly squeezed together. Countless blue electric arcs began to shoot out in mid-air. The invisible wave directly divided the frozen arena like sword aura again!

Crack!!

It wasn't as simple as splitting apart. In an instant, apart from the safe area where the two Beast Tamers stood, the battle area directly rumbled like a sign of collapse under the pressure of the two auras!

At this moment, the entire venue seemed to be wrapped in two terrifying auras. The huge auras fought each other. This scene made everyone completely confused. The Ice River Mammoth and Bai Wenjie directly revealed stunned expressions.

How was this possible? How could the deterrence on the other side resist a monarch-level deterrence??

“Roar!!!”

However, it was not as simple as just resisting.

As time passed, the deterrence of the Ice River Mammoth almost showed signs of being suppressed.

“Roar!!!”

Then, an even more ridiculous scene appeared.

At this moment, the surrounding space cracked, and countless spatial cracks filled the sky.

In the clouds in the sky, a phantom figure appeared and gradually formed a divine dragon body.

It was a huge dragon-shaped body covered in blue and white dragon scales, a huge Eastern dragon.

It kept floating and circling in the sky, the scales on its body shining, dazzling the spectators.

Under its gaze, the entire arena seemed to be trembling.

Only then did everyone realize that the deterrence that was mainly used to resist the Ice River Mammoth wasn't released by the Butterfly of Imagination, but by this divine dragon!

“What, what's that?!!”

Such a shocking change instantly attracted everyone's attention.

It made them reveal shocked and shocked expressions.

Countless people sensed the huge dragon might and terrifying magic power of this divine dragon and couldn't help but be stunned for a moment.

“It's a divine dragon. I remember the news saying that when Shi Yu's Butterfly of Imagination evolved, a divine dragon phenomenon also appeared!”

“What exactly is this...”

At this moment, everyone looked at everything in confusion.

Only Shi Yu and Buggy knew what was going on.

Phantom Illusion+Dragon of Imagination+Imagination Domain+Dragon Might!

No...

Most importantly, Dream Stealing+Space Pouch!

As the worm floated in the air like an overlord, in the spatial pocket in its body, the level-seven resources, the Ice Dragon Whiskers, the Tyrant Dragon Fang, and the Sea Dragon Scales, which had the power of a real overlord-level dragon, were also floating quietly in the alternate space!

At that moment, their dragon power flowed continuously into the unknown land and fused into those illusory illusions.

The most domineering thing about transcendent-level phantom illusions was that they could use the power of the equipment to strengthen the phantom.

And if it were just three level-seven resources and illusions, Buggy actually couldn't do this either.

However, the moment the Dragon of Imagination activated, Buggy instantly obtained the dragon-element attribute, as well as the physique, vitality, spiritual power, soul power, and potential of the divine dragon!

Its dragon-element affinity, the dragon-element affinity of the phantom... instantly increased to the extreme.

The upper limit of the body and phantom also instantly reached an extremely high level.

The burden of the external force on his body and the illusion was unimaginably huge.

The skill Dragon of Imagination instantly made Buggy perfect for dragon-type resources.

The power of the three dragon-element resources was almost perfectly inherited by the worm, allowing it to temporarily reach another peak!

“Roar!!!”

Under everyone's stunned gaze, a moment later, with a roar from the divine dragon, the incomparably huge divine dragon phantom flew towards Buggy.

Boom!!!

The huge divine dragon phantom directly wrapped around the outside of Buggy. Compared to the huge divine dragon that was dozens of meters in the sky, the body of Buggy was equivalent to an eye on the head of the divine dragon.

At this moment, as the divine dragon phantom and the Imagination Butterfly fused, the aura of the bug in the divine dragon vest reached the limit. In an instant, the terrifying dragon might directly suppressed the mammoth might, and the venue quickly collapsed at this moment!!

A suffocating dragon might swept over, causing the Ice River Mammoth's pupils to instantly shrink. It was momentarily stunned!

It was also at this moment that Shi Yu ordered Buggy to launch the final attack.

“Profundity.”

“The finishing touch...”

“Roar!!!” As Shi Yu finished speaking, Buggy at the spot where the divine dragon’s eye was seemed to have become the brain of the divine dragon phantom, controlling the divine dragon’s body to keep circling!

In the blink of an eye, the divine dragon’s body substantialized, as if it had become a real divine dragon. It was incomparably huge and divine. Terrifying blue dragon flames wrapped around its body, and the light became stronger and stronger. In the blink of an eye, its strength and speed suddenly erupted. Under the drive of Psychic power, its huge body shot straight towards the Ice River Mammoth!

Boom!!!

When the Ice River Mammoth recovered from its momentary daze, it only felt a blue light flash in front of its eyes. Then, its pupils constricted even more. Under the incomparable super profundity, it felt its entire body being torn apart, and finally, its consciousness became completely blurred!

“Roar!!!”

This divine dragon seemed to be swimming between reality and illusion. It directly passed through the Ice River Mammoth’s body, and its body passed through to the front of Bai Wenjie, whose gaze was almost exploding. Only then did it fly into the sky with fangs and claws, staring down domineeringly.

Boom!!!

Under its gaze, the Ice River Mammoth that was penetrated by the divine dragon phantom directly had a huge energy explosion on its body, completely drowning it in the collapsed arena!

At this moment, everyone opened their mouths wide and looked at everything in disbelief.

Their expressions were shocked, stunned, and in disbelief.

Their values were almost shattered.

At this moment, someone finally realized that something was wrong. Yin Zhengfan, Tang Yun, Jiang Ran, Teacher Shen, White Brook, and the others all saw the change in the energy level of the Butterfly on the screen!

[Name]: Imagination Butterfly

[Energy Points]:1691111

With the support of the extreme power of imagination, with the help of the three tools, the power of the Imagination Butterfly instantly reached the level of a monarch, and it was at the level of a monarch with super high abilities. At this moment, everyone looked at the ridiculously high value and was even more confused... After all, they couldn’t see the three top-notch dragon-element resources in the spatial pocket of the worm.

All of this had completely become an extremely strange and unscientific supernatural phenomenon in the eyes of everyone.

On the high platform.

Teacher Shen's gaze was about to explode because even he, a top-notch master, didn't know what had just happened.

It broke through to the monarch level at the last minute?

Impossible!

Another vice-captain of the Imperial Capital University, Jiang Ran, looked at all of this with a stunned expression. Instant... Instant... Instant kill again??

In the smoke, the fallen Ice River Mammoth gradually appeared in front of everyone.

Everyone was shocked in their hearts, and Bai Wenjie's mind was even blank.

He didn't want to reflect on why he didn't use his Beast Taming Talent immediately. Right now, he only wanted to faint with the Ice River Mammoth and leave this unfriendly world.

He was stunned on the ground, his breathing stopped, and his heart beat wildly.

"Looks like I won."

As Shi Yu finished speaking, the huge divine dragon disappeared, as did Buggy. To be precise, it had become too small. At this moment, it was impossible to detect.

After showing off, the weakened Buggy used high-speed healing to heal the damage caused by forcefully accepting the power of a level-seven equipment. At the same time, it flew towards Shi Yu and slowly landed on his shoulder. It couldn't even bear to use Instant Transmission at this moment.

"Zhengfan!"

At this moment, although Bai Wenjie did not faint, there were already others who fainted.

"Zhengfan, what's wrong?"

In the audience seats of Imperial Capital University, Yin Zhengfan watched this battle in shock the whole time. His heart rate might even be faster than Bai Wenjie himself. As the Ice River Mammoth was insta-killed, his cognitive vision completely shattered, as if he had suffered a heat stroke and collapsed. He instantly felt a little dizzy, and on the verge of collapse, he stuck his head between his thighs with sweat all over his face and panted heavily.

Now, be it teachers or students, or members of Imperial Capital University or Ancient Capital University, they were all panting as they watched everything.

At this moment, Shi Yu still didn't seem to be satisfied.

To be precise, he wasn't the one who was unhappy.

Instead, a serious protest came from Eleven in the Beast Taming Space!

“Wu wu wu.”

If Buggy was done showing off, what about Eleven?!

If it couldn't defeat a monarch rank but completely crushed a commander rank, it was meaningless. How could Shi Yu do this? How could he let Buggy become like this!

“It's not impossible to continue. The 3VS3 Iron-eating Beast Knight can request to fight.”

Shi Yu looked at the high platform of the venue and at the stunned Imperial Capital University battle club instructor and another female vice-captain.

His gaze directly shocked Jiang Ran.

Fortunately, at this moment, a heavenly voice sounded.

“Shi... Shi Yu... come back.”

“It's enough.”

On the side of Ancient Capital University, White Brook said with a nervous expression. She was afraid, she was really afraid. This script had seriously deviated from the original plan. Her brain was buzzing. Friendship was first, friendship was first!!

Now, she also knew why Shi Yu didn't fight with her. He was afraid of hurting her since she used her own body to fight...

Senior Lu, what kind of monster have you brought back!!

“Is it done?” Shi Yu turned around in surprise.

“Senior, didn't you say that you want me to sweep through Imperial Capital University?”

“Have some limits, of course!” White Brook suddenly stood up and was also shocked. How could Shi Yu directly say such a thing?

However, a moment later, she realized that Shi Yu was using telepathy, so she heaved a sigh of relief.

“You should rest.”

Shi Yu: “Alright then.”

Eleven:????

It charged so much spicy electricity, so much spicy electricity that it didn't dare to waste at all. It charged for nothing??

Shi Yu also felt that it was alright, because although the Iron-eating Beast Knight strategy could also display the power of a monarch, it was too tiring for a Beast Tamer.

[Don't worry, this isn't the only place you can fight.] Shi Yu recovered his smile. Then, he said to the confused senior in front of him who was at a loss, “Senior, thank you for the fight.”

“Let the battle end here...”

“We can’t let the other seniors of Ancient Capital University wait too long.”

Most importantly, there was no more arena.

Moreover, there was a time limit for the exchange. Shi Yu thought for a moment and decided that he should slip away.

Bai Wenjie was just about to say something, but he didn’t spit out normal words. “Aba...”

Therefore, Shi Yu could only turn around and leave himself. He turned around coolly, causing Teacher Shen’s expression to darken on the stage. Her brain felt dizzy, and she was also a little weak like Yin Zhengfan.

At this moment, no one dared to stop Shi Yu from turning around. Even the other vice-captain of Imperial Capital University was holding the railing fiercely, but she didn’t move.

Because at this moment, even if she rushed up to fight Shi Yu, even if she won, it would be meaningless.

He had defeated the famous elites of Imperial Capital University one after another. As a new student of Ancient Capital University, it was not too much to say that he had successfully swept through Imperial Capital University.

Because Shi Yu was only a high-level Beast Tamer.

As Shi Yu returned to his seat at Ancient Capital University, the entire venue was still silent.

Monster! Monster!

As many people muttered, Shi Yu blinked at the other stunned seniors of Ancient Capital University in embarrassment.

“Well, I’m sorry. Why do I feel that the Beast Tamers of Imperial Capital University will release their anger on you next? You guys have to be careful. Don’t get crippled.”

“But don’t worry, my ginseng baby is very powerful. It can heal you.”

As Shi Yu finished speaking, the expressions of the seniors from Ancient Capital University, who had originally been excited and overjoyed to the extreme, and had even started to fantasize about the results of the National League, suddenly changed.

F*ck!

Shi Yu’s words directly extinguished the hot blood in their hearts. They had forgotten that they still had to fight the elites of Imperial Capital University next.

They didn’t have Shi Yu’s strength!

They maintained a blank expression as they looked at the geniuses from Imperial Capital University who had aggrieved expressions and couldn’t say a word. Their hearts skipped a beat.

Tears immediately flowed down their faces.

So it wasn't just Imperial Capital University that was damaged!! Shi Yu, why did you come back down? Wasn't he just harming them!!

Chapter 226: Ultimate Sacred Dragon Beast

At the seat of Ancient Capital University.

Shi Yu chuckled.

White Brook also smiled.

Only the other members of Ancient Capital University had dark expressions.

"Don't waste time. Challenge according to the team's ranking."

"If you lose, you lose. What's there to be afraid of?"

White Brook lectured.

She didn't expect Ancient Capital University to win this exchange event.

The source of university students in the Ancient Capital was inferior to the Imperial Capital University, and the educational resources of the schools were inferior to the Imperial Capital University. If the overall strength of the Imperial Capital University was weaker than the Ancient Capital University, the school would not be far from collapse.

Although Shi Yu had swept through Imperial Capital University, the overall strength of Ancient Capital University's battle club was still relatively low.

It was already pretty good to gain an advantage through Shi Yu.

Were the subsequent battles still important? It was not important at all!

The only goal was to let the other students of Ancient Capital University realize the difference between them and Imperial Capital University. They would accept the beating and urge them to improve!

Soon, an unlucky person was pushed out. At this silent turning point, he went on stage and continued to challenge Imperial Capital University.

He looked nervous.

It was also at this moment that he encountered the gazes of the students from the Imperial Capital University who were like ferocious wolves staring at a little sheep...

...

At the same time.

White Brook observed the situation as she approached Shi Yu.

"Tell me, what happened just now."

White Brook's mood still didn't calm down.

She knew that Shi Yu had the strength of a quasi-master. With the possession of the sword spirit and the fusion of the iron-eating beast's power, he could unleash the attack of a monarch.

However, Shi Yu had also said that the burden on his body was relatively large. Moreover, from the performance during the advanced assessment, the power was completely inferior to the "finishing touch" just now.

Even she probably couldn't withstand that attack easily.

Without a doubt, with the Butterfly of Imagination in that state and Shi Yu's Iron-eating Beast Knight battle strategy, Shi Yu already had the strength of a master.

"An irregular battle with no rules... My Imagination Butterfly borrowed some external power."

"The price to use that attack is not small."

Shi Yu said telepathically.

"External force?"

"Illusionary Phantom... Item?"

White Brook quickly thought of the fact that the phantom illusion skill with high proficiency could borrow the power of items.

However, she was puzzled again because she didn't see the Butterfly of Imagination carrying any tools.

"Inner space?"

White Brook's head moved very quickly. After all, she also had the ruins space. She quickly guessed that the Butterfly of Imagination might have storage space skills.

White Brook's expression couldn't help but change.

Damn!

What a dirty accompanying move. If Shi Yu didn't say anything, even in a competition with restrictions on props, the judge might not necessarily be able to tell.

"Heh." Shi Yu grinned. This move was indeed cheating.

Ice Dragon Whisker, Sea Dragon Scale, and Tyrant Dragon Fang were all level-seven resources that contained the power of overlords.

Even if Buggy only borrowed a small portion of its power, it still temporarily obtained monarch-level battle power.

As for the price, that was to use a little of the power of these three resources. Not a bit. Moreover, Buggy could only release an explosive attack and didn't have the ability to continue fighting.

If not for these three tools, Buggy would definitely not have been able to defeat the other party. It was more likely that it would be stunned by the deterrence just like the opponent thought.

The situation at that time was equivalent to a child facing a ferocious tiger. Buggy was a child, and the enemy was a ferocious tiger.

But it didn't make sense. This child held a sniper rifle and even mastered the Firearm Proficiency skill.

The outcome was no surprise. No matter how strong the ferocious tiger's battle power was, it couldn't be stronger than a child with equipment.

However, this wasn't considered cheating, because if these three resources were given to other pets other than Buggy, they couldn't borrow the power of the three resources at all.

It couldn't even use one-thousandth of the power of the three resources.

It was only when the bugs combined the powers of "Phantom Illusion", "Imagination Domain", and "Dragon of Imagination" that they successfully mobilized their power.

These three skills were equivalent to letting Buggy have the "Dragon-element Proficiency" skill. It was its exclusive ability.

Dragon-element weapon master, Buggy!

"What a pity, what a pity." Seeing that Shi Yu had admitted to it, White Brook revealed a pitying expression.

Ahhh!

Although she didn't know what level of props Shi Yu had armed the Butterfly with, the National League prohibited the use of props that exceeded one's level, and only one was allowed to be carried.

Didn't that mean that Shi Yu couldn't use this move in the national competition?

However, even if it could be used, Shi Yu was only a "One-Punch Man". He couldn't do it after one shot.

White Brook looked at Shi Yu bitterly.

Shi Yu had just given her hope of fighting alongside her in the master domain of the National League, but now, she felt cheated.

"You..."

"Can you reach the master level before the National League?" After asking this, White Brook felt that her question was ridiculous.

However, Shi Yu began to think seriously.

"Perhaps..."

After all, if he wanted to participate in the Dragon Palace City banquet, he would definitely do his best to help him become a master in the third bureau.

"Perhaps... You can???!"

White Brook was suddenly stunned.

“Yes.” Shi Yu smiled and said, “However, even if I become a master, I don’t have the confidence to defeat that Gao Xuan from Imperial Capital University.”

The captain of the Imperial Capital University’s team, Gao Xuan, was known as a Beast Tamer who was almost guaranteed to become a legend, just like Lu Qingyi, Heavenly King Zou, and the others.

After arriving at Imperial Capital University, Shi Yu learned more about this person.

The other party was a genius Mechanic in the fourth round, and his strength far exceeded his peers.

He had almost reached the pinnacle of master level.

He didn’t know if the other party was here today. In addition, the reason why he challenged the vice-captain of Imperial Capital University and didn’t challenge the other party’s captain was because Shi Yu knew that he definitely couldn’t defeat the other party now.

“That guy... is also a cheat like you.” White Brook thought of that captain from Imperial Capital University, and her expression darkened.

This person was also the only person she was unwilling to face in the National League.

It was even more overboard than Shi Yu. He used overlord race machinery himself!

She had heard from her elders that the members of the fourth round practically nurtured this Gao Xuan like a treasure.

The other party’s treatment was better than Shi Yu’s in Bureau 11. After all, machines were the mainstream in the current human countries, the main force to fight against totems.

“It’s alright, you’re still young. In any case, he can only participate in one batch.” White Brook quickly felt that Shi Yu could do it.

...

At Imperial Capital University.

After returning, Bai Wenjie directly left the scene and didn’t have the face to stay any longer.

If he could fight again, he would definitely use his Beast Taming Talent from the start. At that time, with the help of the skill, it was definitely impossible for the Ice River Mammoth to not be able to withstand a single blow.

However, there was no point for regret in this world. After he left, Teacher Shen from Imperial Capital University no longer had the mood to continue watching the next battle.

He sat in the chair in silence, thinking about what had just happened.

After thinking about it, he more or less thought of what White Brook thought.

“Illusionary Phantom... Inner space... high-level tool?” Teacher Shen was slightly stunned.

Was this the reason why Shi Yu chose to fight irregularly?

But even so, it couldn't be denied that the second-in-command of their Imperial Capital University had lost to a new student from Ancient Capital University.

Most importantly, he was insta-killed because he underestimated his opponent.

He immediately expected better from him. He felt that if this was the totem war era, these students wouldn't be able to live past three chapters.

On the other hand, Shi Yu was most likely like a fish in water.

Moreover, Teacher Shen looked in the direction of the battle club. He actually didn't know who could take over Gao Xuan's position and carry the banner of Imperial Capital University after he graduated.

"I've told Gao Xuan about what happened just now," beside Teacher Shen, she said to the other vice-captain of the battle club, Jiang Ran.

"What did he say?" Teacher Shen was stunned.

"He said he doesn't want to care about the club, but he will participate in the last National League."

"Yes." Teacher Shen nodded and sighed.

With Gao Xuan around, the champion of this year's national competition would probably still be from Imperial Capital University.

But after Gao Xuan graduated, there would be Demon Capital University in the front, and then there would be the monster new student from Ancient Capital University eyeing them covetously. For a moment, Teacher Shen was conflicted about which student he should nurture next.

He had a teaching talent that could steadily help Imperial Capital University nurture geniuses, but sometimes, extreme individuals were often more important than groups.

On the other side, in a research institute.

A young man put down his cell phone with a calm expression and returned his gaze to the mechanical beast in front of him.

This was a tall mechanical beast in the form of a silver-white dragonman. At this moment, it was among the dense mechanical equipment. Its entire body was connected by various wires, as if it was undergoing modification.

The moment he saw this mechanical beast, a row of data appeared on the monocle in front of the young man.

[Name]: Ultimate Holy Dragon Beast

[Attributes]: Machinery, Dragon

[Race Level]: Medium overlord

[Level of Growth]: Monarch Level

[Energy Points]:4000001

“Energy upgrade successful.”

“Next is weapon optimization.”

Seeing that the energy value of the Ultimate Holy Dragon Beast had already reached twice the standard of an overlord pet of the same level, he nodded silently. In the blink of an eye, he forgot the news just now and continued to busy himself with the modification in his hand without paying any attention.

In his opinion, what happened in university wasn't worth his attention at all.

If it weren't for the fact that the group in the fourth round insisted that he come to university to experience life and force him to interact more with his peers, he wouldn't have bothered to come to university.

He only had one goal now.

Transforming the Ultimate Sacred Dragon Beast into a top-notch mechanical beast of a high-level overlord race.

As for the methods the seniors in the fourth round used to forcefully encourage him, it was also very simple.

The prizes for this year's National League champion would be provided by the fourth round.

The prize was some top-notch materials for modifying mechanical lives!

In Gao Xuan's opinion, after obtaining these materials, his Ultimate Holy Dragon Beast would definitely become a high-level overlord race.

This was the main motivation for him to participate in the National League.

“But why does the name Shi Yu sound so familiar?”

“The genius newbie from Bureau 11 that Teacher mentioned?”

As Gao Xuan muttered to himself, he continued to be obsessed with mechanical modification. An archaeologist was completely unrelated to a Mechanic like him.

...

Without a doubt, Shi Yu had traumatized Imperial Capital University.

Even if the next challenger from Ancient Capital University wasn't strong, the students from Imperial Capital University were especially serious at the start of the match.

They released all battle power as soon as they came up, and their Beast Taming Talent was directly maxed out. They started with the super skill, and the moves were connected continuously, not daring to be sloppy at all.

They didn't give the other students of Ancient Capital University a chance to catch their breath at all.

It made the seniors of Ancient Capital University suffer indescribably.

Soon, the students of Imperial Capital University discovered that the other students of Ancient Capital University were all trash. None of them could fight.

Soon, most of the students from Ancient Capital University lost.

“I can’t watch anymore.”

After watching a few matches, Shi Yu couldn’t help but leave the scene, leaving White Brook alone to sulk.

White Brook was furious. Why did the students of Imperial Capital University reflect so quickly!

After Shi Yu slipped away, he was free and called Principal Feng.

He was still in Imperial Capital University.

In an elegant room, Principal Feng was catching up with the principal of the Imperial Capital University, an old woman.

“I wonder what kind of dog shit luck you guys have.”

“It’s one thing to have picked up a genius with a listening talent, but he actually has such a high talent in the feeding field.”

“Just now, Ye Hui called me and said that he wanted your Shi Yu to use Imperial Capital University’s Time Mystic Realm.”

The old woman took a sip of tea and sighed.

Principal Feng: “Hahaha, thanks to Qingyi!”

“When Qingyi said that she had found a genius, I didn’t mind at first, but from the looks of it... Hahahaha.”

“And I reckon that after a period of time, his battle talent can also be displayed.”

“By the way, he seems to have gone to communicate with your Imperial Capital University’s battle club. Let’s see the results later.”

When Principal Feng was in front of Shi Yu and the others, he was very serious. However, when he came to his old friend from the Education Bureau, he couldn’t help but laugh.

“Old Feng, you’re arrogant.” The old lady opposite Principal Feng chuckled.

The upper limit of the Beast Tamer battle power of Bureau 11 was known.

The strengthening talent of a master-level Beast Tamer with good talent development could easily increase the pet’s energy by hundreds of thousands. The strengthening talent of a legendary Beast Tamer could easily increase the pet’s energy by millions. How could a Beast Tamer with this telepathy talent compare?

Since ancient times, it wasn’t that there weren’t people whose telepathy talent had reached the Legendary level, but there wasn’t anyone who had reached the titled Legendary level!

“Why not... Ah.”

“I’ll take this call first.”

Principal Feng said.

He glanced at the caller and was instantly amused.

“Shi Yu, didn’t you go to the exchange with White Brook and the others? Why are you calling now?”

“Ah, I’m done fighting.”

“I mainly want to ask you when we can return to the ancient capital.”

Shi Yu walked on the road to Imperial Capital University and asked more concernedly.

He was still waiting to go back and enter seclusion to increase the points for Baby Ginseng.

Apart from that, Little Chi Tong’s level could also be raised.

With his current legendary physique, it was easy for him to withstand Little Chi Tong breaking through to commander rank. It shouldn’t be difficult for him to withstand the commander rank Little Chi Tong’s possession. As long as he didn’t mess around with the Sword of Interlocking with Eleven, it shouldn’t be a problem.

Moreover, up until now, he had yet to reach the upper limit of his physique after a new breakthrough.

“So fast?”

Principal Feng was stunned, but they were almost done discussing things here.

Legend Hua, Dr. Zuo, President Ye, and the four of them cultivated around the green cocoon and had already reached a certain strategic cooperation.

“If you’re anxious, you can go back tonight. But how’s the battle over there? Why are you so fast?”

Principal Feng glanced at the old principal of the Imperial Capital University opposite.

“Not bad... I’m not sure about the subsequent situation. I defeated the eighth, fourth, and the monarch-level pet of the vice captain in one hit. Then, I came out.”

“Principal Feng, isn’t this giving Ancient Capital University some good rep! But though this is what I should do, I paid a huge price for it, although...”

Shi Yu was just about to take credit and ask for a level-seven resource from the new dragon-element when Principal Feng shouted.

“What, what did you say?!” Principal Feng suspected that he had heard wrong.

Shi Yu instantly killed the monarch-level pet of the Imperial Capital University’s vice captain?

“...”

A moment later, Principal Feng hung up with a strange expression and looked at the old principal of the Imperial Capital University.

“I’m indeed arrogant. There seems to be an accident during the exchange event. You can ask your Teacher Shen.”

“Though, it’s better if you ask yourself.” Principal Feng’s expression was calm as he took a sip of tea.

The principal of the Imperial Capital University:??

She frowned, not understanding what was wrong with this old thing.

However, she still sent a message to Teacher Shen to let him report the exchange between the students of the two schools.

Originally, she wouldn’t ask or care about such things.

However... looking at Principal Feng’s strange expression, she had a bad feeling.

A moment later, as Teacher Shen’s heart skipped a beat at the venue, the old principal of Imperial Capital University received a message filled with blood and tears.

[It’s not our student’s fault. That Shi Yu is a little monster, just like Gao Xuan back then.]

Could a normal person think of a high-level Beast Tamer’s commander-level pet suddenly erupting with ten times the strength and instakilling a monarch-level pet?

Under normal circumstances, this was completely unscientific!

[...]

As she read the message word by word, the eyelids of the old principal of the Imperial Capital University twitched a few times, and her face darkened.

“Heheh,” Principal Feng said.

“Get lost.” The old principal of the Imperial Capital University directly pressed the exit button with a furious expression. What the hell? How could a master student from the Imperial Capital University be insta-killed by a new student from the Ancient Capital University? What did it mean? Were they trying to bully her? Even TV dramas didn’t dare to do it like this!

“Huh?” Principal Feng was amused.

“Shi Yu can use the Time Mystic Realm, but your Ancient Capital University is paying.” The old principal of the Imperial Capital University hit the table in embarrassment.

Principal Feng:???

This was agreed by the Vice President Ye! Old woman, what a sore loser she was!

Chapter 227: Sword Forging Master Shi Yu

That night, the communication activity between Ancient Capital University and Imperial Capital University ended “perfectly.”

Both parties were pretty satisfied.

The students of Imperial Capital University were severely stimulated.

The students of Ancient Capital University were also severely stimulated.

It was all because of one person.

...

Just as Principal Feng said, Shi Yu and the others started to return to the ancient capital that night.

“Beautiful.”

On Dean Hao’s Mystic Meteorite, Shi Yu was lying happily.

This trip to the capital was really not in vain.

First, he got first place in the Feeding Conference, making him gain both fame and fortune.

Although the Butterfly of Imagination had announced its name, the strategic value of the Green Worm cocoon had yet to be announced. There was no hurry.

Most importantly, he successfully joined the third bureau.

He had obtained the Time Sand, the cultivation index, and the opportunity to head to Dragon Palace City to obtain the cub of an overlord race!

Apart from that, he could also go to the time mystic realm of Imperial University to take a look.

Also... the predictions the owl had given him also benefited Shi Yu.

In short, he didn’t come for nothing!

Moreover, after returning to the ancient capital, the benefits would definitely be great.

After all, he was representing Ancient Capital University to participate in the Feeding Conference this time. It was impossible for Ancient Capital University to not show their support.

And sweeping through Imperial Capital University was another great achievement.

“Dean Hao.”

“Ah.” Dean Hao, who was flying the plane, was stunned. He said, “What’s wrong, genius?”

“Does our Mechanical College have the ability to create mechanical pets of overlord races?”

“Pfft.” Dean Hao almost crashed.

At this age, Principal Feng, who had been too agitated these few days and was tired both physically and mentally, suddenly woke up.

What was going on?

Why was it an overlord mechanical pet?

“What are you thinking? How is that possible!” Dean Hao’s face darkened.

If he could create overlord race pets, even if he could join the process of creating overlord race machinery, would he still be the dean of Ancient Capital University?

Principal Feng:...

“I’m just asking.”

Shi Yu scratched his cheek and said, “I saw the video of the last National League and saw that Gao Xuan’s Ultimate Sacred Dragon Beast from the Imperial Capital University was pretty impressive...”

“It can still fly, can still fuse, and can even split. Its energy far exceeds pets of the same level. In battle, it’s also an instant kill...”

Principal Feng :”...”

“I thought you didn’t like mechanical pets?”

Principal Feng suspected that Shi Yu was like someone eating with his mouth, guarding the bowl, taking more with his chopsticks while thinking about the pot, thinking still about tomorrow. In a few months, there would be a chance to go to Dragon Palace City to contract a water-element overlord cub. Why was he thinking about his mechanical pet again?

Moreover, he remembered that... Shi Yu didn’t like mechanical pets.

He had rejected the upgrade of the index to a mechanical life twice in a row, the archaeological index once, and the cultivation index once.

“Really??” Shi Yu was stunned.

Machinery was a man’s romance, how could he not like it?

“Then why don’t you upgrade the index to a mechanical life form?” Dean Hao had also wanted to help Shi Yu upgrade before, but he was rejected by Shi Yu.

“This... What can a cell phone index do?” Shi Yu said. “I want a battle-type one.”

Shi Yu believed that if he upgraded his cell phone to a mechanical pet, he would definitely not be able to resist adding points.

Although it wasn’t impossible to become a battle machine with the support of points, it was still too troublesome.

He could directly add some sound wave skills and release the Nuclear Explosion Divine Melody to the opponent during the battle?

It was too exaggerated!

It was not as handsome as those mechas and battleships.

The index would just be a guide obediently.

“Battle-type...” The corners of Dean Hao’s mouth twitched.

Battle-type mechanical lives were good, but maintenance was expensive.

“As long as the materials are in place and time is given, our Mechanical College still has a chance to create a monarch race mechanical life form,” Dean Hao said.

“Oh, let’s talk about it later,” Shi Yu said with little interest.

It wasn’t an overlord race...

Principal Feng and Dean Hao:???

What’s with your perfunctory tone? You don’t like monarch race machinery anymore?

...

At around 10 PM, Shi Yu returned to Ancient Capital University.

After returning, he immediately went to the dormitory to rest.

“Wuu!” Eleven gloomily took out a bottle of bamboo milk from the fridge.

It also brought a bottle of soda and ice water for Baby Ginseng and Chi Tong.

“Yi!”

“Mi!”

In the end, it still couldn’t fight! Eleven cried.

How good would it be to have an opponent with the “Shield Absorption” talent?

It would just turn into a giant panda and do a slap attack without any special moves. Even dragons would get knocked out!

If it couldn’t hit the elementalized pets?

Then it would hit the Beast Tamer!

It depended on whether these elemental pets were elementalized to avoid damage or to protect Beast Tamers.

Unfortunately, Shi Yu and Buggy didn’t give it this chance.

“Wu...” Buggy used its mental strength to take out a bottle of fruit juice and comfort the leader.

In the future, it would serve the leader in this kind of dirty work and tiring work!

The stronger it was, the greater the responsibility. It was willing to charge for the entire team!

“Wuu!” Eleven was angry.

It bit the bottle and crossed its arms around its chest with a serious expression. No, it wanted to charge too.

Leave the weaker guys to Eleven!

When there were stronger opponents, such as the hostile totem in the prophecy, Eleven would hand it to Buggy to charge into the battle.

Buggy:???

“Yi!” Baby Ginseng thought of the many totems in the prophecy and shuddered.

It thought that these two could charge all they wanted.

It needed to develop for a while...

Baby Ginseng, who didn't have deterrence skills, was more obedient.

“Mi?” Little Chi Tong quickly turned the ice water into boiling water. After being satisfied, it turned to look at everyone.

At this moment, Shi Yu was already lying on the sofa with his head buried in the pillow.

“Stop fighting...”

“There are still chances to fight next. There are both strong and weak ones.”

“Buggy, go find Teacher Ying and ask him when he's free to bring us to the Undead Battlefield. It's just to take a look at the Undying Pond.”

“This time, I plan to let it take us along to kill at least ten thousand transcendent-level undead, a thousand commander-level undead, and even monarch-level undead!”

“How does it sound, training in the Undead Battlefield?” Shi Yu stuck his head out.

He planned to take the time to upgrade Little Chi Tong's “Spirit Release” skill to expert level.

This was a super skill, but it was abnormally simple to upgrade to expert level.

It actually only needed to kill ten thousand transcendent-level undead, one thousand and one commander-level undead, and one monarch-level undead.

With the lead of an overlord, was there anything easier?

Much easier than adding points to super skills.

Perhaps Little Chi Tong would soon be the first child in the team to have an expert level super skill.

As for proficient level super skills, in fact, Buggy's Imagination Domain and Dragon of Imagination were already almost proficient level. Even if they didn't reach it, they were definitely infinitely close.

However, there were no relevant records regarding the skills of Imagination Domain and the Dragon of Imagination. It was as if it had appeared for the first time, and Shi Yu couldn't judge.

However, with the foundation of the transcendent level Illusory Phantom, Buggy's imagination level definitely couldn't be low.

Therefore, although they had yet to officially fight in the current team, even if they didn't bring any equipment, Shi Yu felt that Buggy's battle power should still have the absolute advantage.

Although Eleven's explosive power was even higher than Buggy, the problem was that it only erupted once or twice. Buggy had Instant Transmission and etherealization, so it was still relatively difficult to hit it after Eleven erupted. If Buggy chose to fight a guerrilla battle, Eleven probably wouldn't be able to do anything.

Therefore, Shi Yu planned to focus on increasing Eleven and Baby Ginseng's battle power.

As for Little Chi Tong, it didn't need to rely on points. It just needed to farm monsters.

At that time, it could definitely directly advance to commander rank with an expert level super skill.

Apart from that, Chi Tong could also release two new forms. Shi Yu was filled with anticipation.

In Shi Yu's opinion, liberating a new form was no different from evolution. Although it was an evolution that didn't change the race level at a small scale, it was still worth looking forward to.

"Wuu..."

"Wu..."

"Yi..."

"Mi?!!"

When they heard that they were going to the undead battlefield to train, apart from Little Chi Tong, the other three lost interest.

It was gloomy and not fun... Although there was an evolution location there, Baby Ginseng was also more nervous about the situation in the Undying Pond. It didn't know if it was reliable.

"Objection overruled. Buggy, go quickly."

After Shi Yu got Buggy to run to deliver his message, he continued lying down.

"Wuu~" Buggy teleported and disappeared from the room.

A few seconds later, Buggy teleported back.

It looked at Baby Ginseng and brought Shi Yu and the others a piece of news.

[Gem Cat: Prepare enough food. You can set off at any time. You can stay over there.]

Baby Ginseng:???

"Yi!!!" Didn't it prepare a box of gem fruits before going to the capital!

...

...

The next day.

His cell phone rang, and Shi Yu woke up feeling refreshed.

"Ha ~"

After yawning, Shi Yu took a look. It wasn't an alarm, but a call from the beast-eared girl.

"..." Shi Yu remembered. He had returned with Principal Feng and the others first, but the beast-eared girl and the others seemed to still be in the capital.

No one planned to give them a ride.

"Hello, Senior." Shi Yu picked up the call.

"Hey, hey, hey, have you returned to the ancient capital?"

"Yeah."

"We still have to stay in the Imperial capital for a period of time. I forgot to tell you previously. Are you sure you want to participate in the martial arts conference?"

The beast-eared girl's concerned voice came from the other side.

The martial arts conference...

Shi Yu was stunned. What White Brook had mentioned previously was not a battle between pets, but a battle between Beast Tamers.

He was tempted at that time. Firstly, it was for some of the skill prizes in the competition. He had heard that there would be many skills that could perfectly cooperate with Beast Tamers and pets.

Secondly...

The most important thing was that the martial arts conference was held in a ruins space left behind by a Martial Emperor. Shi Yu wanted to take a look at the Martial Emperor ruins and take the ancient test.

"It's already confirmed. I'll participate."

"Very good, very stable!" White Brook said. "I won't say anything else. Your Sword Spirit Possession state is definitely very strong in the martial arts conference. I just remembered something."

"The martial arts conference is allowed to carry weapons and equipment."

"Some Beast Tamers' weapons and equipment are pets, but people without similar pets can also bring normal equipment."

"Weapons for battle and protective armor are all allowed to be worn when the time comes. If we want to achieve good results, it feels best to get one. There's no need for it to be high-level, but if others have it, we can't not have it, right!"

"Equipment..." Shi Yu was stunned. In fact, the Flame Demon Amor he was wearing was already a pretty good equipment. It could perfectly adapt to his possession state and offset the burning effect. It was a level-six equipment, equivalent to a top-notch monarch. It was worth more than ten million.

If it leveled up again, it would be a level-seven equipment, which was the level of the Ice Dragon Whiskers...

At this moment, Yu couldn't afford it!

After all, the Ice Dragon Whiskers was a material close to the totem level of the Ice Dragon. It contained its power and wrapped around its transcendent dragon might. It was impossible for Shi Yu to bear to buy equipment of the same level.

“I understand.” Shi Yu decided to be more balanced. Archeology was the priority, and competition was the support. This kind of competition didn’t restrict the level of the participants. At that time, there would probably be masters, such as masters who had mastered the Fusion Talent. Shi Yu didn’t have any thoughts about first place when there were people like the beast-eared girl.

“Alright.” After informing Shi Yu, White Brook hung up happily.

At the same time, Shi Yu fell into deep thought.

The Fire Demon Armor was not bad... There was no need to upgrade it.

However, if he was allowed to bring equipment, why didn’t he personally create some weapons and equipment??

Shi Yu suddenly got up.

It wasn’t like he hadn’t done this before.

During the second fight, he made Eleven condense a hardened sword!

However, this longsword was temporarily condensed. It was not impressive at all.

But what if Eleven condensed a sword seriously and armed the hardening substance with high-level materials as the sword body!

Apart from that, Buggy’s transcendent level phantom image could condense a dragon soul and seal it in the sword. As power, it could be unsealed at any time.

The illusion it created was the same as hardening matter. It could already leave the main body for a long time. As an artifact spirit, it wasn’t impossible.

At that time, with Little Chi Tong possessing him and him holding the divine sword, his battle power would increase again.

Most importantly, the cheapness of DIY suited him better!

Also... If he could perfect Eleven’s deterrence point before the competition and let Eleven wrap the deterrence around the sword, he would have mental equipment.

“I’m really smart.”

“It’s time to get myself a set of equipment. After that, I’ll go to the Undead Battlefield and test my strength with the undead!”

Swordforger Master Shi Yu was born.

He felt that after casting the divine sword and possessing the sword spirit, he could fight a monarch-level undead!

Chapter 228: Divine Artifact, Ice Dragon Blade

After returning to Ancient Capital University, Shi Yu became busy again.

Dong Huang's university started in February and was on holiday in mid-June.

After more than a month of leave, school started in August and went on a break in mid-December.

It was already June. Shi Yu and the others had already finished their classes. There was only the final exam left.

The other students began to revise before the exam, afraid that they would fail. As for Shi Yu, he began to add points and forge his sword.

Shi Yu didn't care about the exam results at all.

It wasn't that he had perfectly mastered all the classes, but it was that he hadn't learned any of them from the start... It was too late to work hard now.

He only learned knowledge that he was interested in and thought was useful, such as the special meditation technique left behind by Shi Di. Some nutritious lessons were directly ignored by Shi Yu.

As for whether he would fail his classes. It was a meaningless worry.

He was a representative student of Ancient Capital University, the image of Ancient Capital University, and the focus of public promotion. Would the teachers dare to make him unhappy?

At that time, if the genius archaeologist who cracked a certain ruin and discovered the Green Silkworm cocoon, Shi Yu, the Feeder, failed in three or four subjects... Ancient Capital University would also be embarrassed to publicize it.

Now, it was all about the ways of the world.

As long as he caused enough news, the exam pressure wouldn't be able to catch up to him.

Of course, if other students dared to do this, there would definitely be an accident.

As Shi Yu began to cultivate in seclusion, news about Shi Yu was still fermenting in the outside world.

As the identity of the Beast Tamer of the Imaginary Butterfly was exposed along with the end of the Feeding Conference, the contents of the Feeding Conference were quickly announced.

Among them, what attracted the attention of the entire country's Beast Tamers was the national-level strategic mission confirmed by the Feeding Conference.

The evolution path of the green cocoon developed by Ancient Capital University would be the main support project for the next decade.

The cultivation routes from transcendent races to monarch races were announced, and the country was undoubtedly shocked again.

Because the data clearly showed that the feed results are replicable and universal.

Those Beast Tamers who had attended school knew the potential value of this project the best. They couldn't help but be shocked, as if they could see Dong Huang, who would become even stronger in the future.

As the main researcher of this Feeding Program, Shi Yu's name once again swept through the country, allowing people to further understand this super genius with an overlord race pet in Ancient Capital University.

For a moment, Shi Yu's limelight even exceeded the previous national champion, Gao Xuan, the Heavenly King Beast Tamer of the Master League, Zou Yun, and the others.

On the Internet, discussions regarding Shi Yu kept coming.

Some said that the results of this feeding could change Dong Huang's Beast Taming Domain to a certain extent in the future.

Some also felt that, judging from the current research of the Crystal Thought Butterfly system, it was not suitable for all Beast Tamers at all. After all, everyone had different talents. Was it suitable for a Beast Tamer with fire-element strengthening talent to contract a spiritual-type Crystal Thought Butterfly? Before researching the evolution of the corresponding attributes, this project could only be said to be promising in the future.

Just as this group of people made a comment, they were directly spat back by various Beast Tamers with Beast Taming Talents.

Did these guys become a Beast Tamer? Did they earn their own money?

There were people who couldn't even afford a pet! Now that a high-level pet is in front of them, they'd take it instead of complaining about attributes!

Moreover, the stamina of a Beast Tamer was limited. Even if they contracted several pets with corresponding attributes, could they strengthen all pets at the same time in battle?

Having an omnipotent spiritual pet as a support was simply the dream of all low-level Beast Tamers.

Perhaps in the eyes of Beast Tamers with pretty good conditions, Shi Yu's fostering results had little to do with them, but in the eyes of those Beast Tamers who were just short of a knock on the door and had similar encounters with Shi Yu back then, Shi Yu was simply a second parent. It directly showed them the hope of becoming a professional Beast Tamer.

It was enough to have the Crystal Thought Butterfly as an initial pet. As long as he became a Beast Tamer and a professional Beast Tamer, he could choose any work to earn money. At that time, it wouldn't be too much pressure to contract a pet that was more suitable for him.

In an instant, Shi Yu obtained the title of "Friend of the Commoners".

At this time, the students of Imperial Capital University had the most complicated feelings. They originally thought that the news of Shi Yu sweeping through Imperial Capital University would be exposed by Ancient Capital University and attract attention, but Shi Yu had snatched his own trending

topic. This was very exciting. In the Green Silkworm craze, no one cared about the things between the students.

The major feeding institutions smelled a business opportunity and began to nurture large numbers of Green Silkworms.

Some low-level Beast Tamers also captured the Green Silkworms in advance and prepared themselves.

There was also a group of people who established the Shiyu Divine Sect and called themselves believers. They were the first batch of Beast Tamers who went to be insect hunters after seeing Shi Yu's Green Silkworm's astonishing performance in the vocation assessment. Now that they realized that the Green Silkworm was becoming more and more popular, they simply praised their own intelligence.

Believe in Shi Yu and gain eternal life!

They would have a great future if they followed Shi Yu. They would contract whatever Shi Yu contracted. It was definitely not wrong.

It wasn't like Shi Yu didn't know about the changes in the outside world. Many news media outlets wanted to interview Shi Yu, but Shi Yu was really busy. In the next week, after Shi Yu decided to create a defensive weapon himself, he was abnormally busy.

How busy was he?

The top-notch spatial resource that Bureau 11 and the third bureau had sent to Shi Yu had a function similar to the Ethereal Spirit Stone. Shi Yu had no time to use treasures that could increase the level of the Beast Taming Space.

With this resource, Shi Yu had the guarantee of becoming a master-level Beast Tamer in a few months.

However, at the moment, he was obsessed with adding points to Eleven and Baby Ginseng.

If Baby Ginseng could evolve, the feedback it would bring would definitely be more than cultivation. He had to do this first!

A week later.

Eleven's deterrence skill had been taught to transcendent by Shi Yu, and Baby Ginseng had also learned mutation.

"Wu Wu Wu, wu wu wu."

Shi Yu sat cross-legged on the bed while Eleven sat on Shi Yu's thigh. As the level of the deterrence skill increased, Eleven's eyes lit up with confidence.

"Wuu!!"

It was as if its entire body was wrapped in the aura of an overlord. Although it was only a potato-sized ball now, the domineering aura of a king couldn't be hidden no matter what. Baby Ginseng, who was watching by the side, drooled. It was envious...

[Race Name]: Iron-eating Beast (Nine Li Battle Beast)

[Race Attributes]: Metal, Thunder

[Race Level]: High-level monarch (Quasi overlord)

[Level of Growth]: Commander Level

[Race Skill]: Hardening (Dao Proficiency), Giant Transformation (Dao Proficiency), Electric Magnetic Floating (Dao Proficiency), Energy Storage Lightning (transcendent), Impregnable (Perfect), Inner Power (Initial)

[Taught Skill]: Thunder Palm (transcendent), High Speed Healing (Perfect), Super Sight (Perfect), Deterrence (transcendent), Absolute Sleep (Perfect), Multiplication (Shrinking: Perfect. Enlarging: Dao Proficiency)

[Energy Points]: 11111

As the first deterrence skill in the team to reach perfection, Eleven was very confident.

It felt that the world belonged to it. The four seas were all under its command.

“Wuu!!” The Panda King rolled and roared. It rolled to the side of the pillow and enchanted the deterrence on the pillow.

In the next moment, a very intimidating pillow was born... If someone used this to fight a pillow battle, the champion would definitely be him.

“Yi...” Beside him, Baby Ginseng was starving.

Deterrence...

Eleven’s deterrence was already transcendent, and Buggy’s was also perfect. Moreover, it was dragon might. Only it...

Only it and Chi Tong didn’t pose a threat...

However, in Shi Yu’s words, if a supplement had deterrence, how was he to fish and bait other monsters?

Shi Yu was still hoping to use the ginseng baby to gather monsters in the undead battlefield in the future. After all, it was too slow to find one death spirit after another. It was better to let the ginseng baby stand there and release the sweet aura to let the undead take the initiative to gather. It would be best if it could attract monarch-level undead!

“Not bad.”

Now, as Eleven could wrap deterrence around external objects and even skills, Shi Yu smiled and revealed an excited expression.

He picked Eleven up and planned to get Buggy to make weapons together.

A moment later, in the dormitory courtyard.

Shi Yu and the four members of the team surrounded a stone table.

Shi Yu, Eleven, Buggy, Baby Ginseng, and Chi Tong had serious expressions.

“Come, firstly, the Heart of the Sword is the whisker of the Ice Dragon!”

Shi Yu took out the Ice Dragon Whiskers and placed it on the table.

“Mi-!!” Chi Tong was very satisfied, as if its DNA had moved!!

Great, Ice Dragon Blade!

“Artifact spirit, use illusions!”

“Wu!!” Buggy was also long prepared. In an instant, the surrounding world turned blue. It activated the Imagination Domain and entered the Dragon State of Imagination. Although it was the body of a butterfly, it instantly obtained the comprehensive attributes of a divine dragon. Under the enhancement of this state, with the help of phantom illusions, the Ice Dragon Whiskers on the table slowly floated up.

With it as the core, a mini ice dragon phantom that was identical to the Ice Dragon Aunty on the Ice Dragon Snow Mountain condensed.

The expression of this ice dragon phantom turned from blank to agile. It was given an order by Buggy to serve Shi Yu as its master. All its power was mobilized by Shi Yu to protect Shi Yu from harm. In the next moment, after the dragon roar of the ice dragon phantom, it slowly changed shape and wrapped around the ice dragon’s whiskers, turning into a longsword phantom.

Shi Yu said, “Next is the first level of the sword. Baby Ginseng, go!”

“Yi!!” Shi Yu shouted. Baby Ginseng activated its Dao Proficiency Nutrition, Slow Healing, and Sweet Aura. Through the way it touched it, it wrapped the Ice Dragon Blade illusion in front of it in a layer of wood!

This was food for the Ice Dragon Phantom!

Nutrition could ensure the continuous absorption of natural life force from the outside world.

As for the Maximum Level Slow Healing, what was even more impressive than the Perfect Level High Speed Healing was that the plants that could be made by the ginseng baby had strong vitality. They could slowly heal themselves if they suffered any damage.

In other words, the wooden sword wrapped in the phantom of the Ice Dragon Blade was an endless supply of Sword Soul maintenance products that could automatically absorb the power of the outside world and automatically repair damage. As for the sweetness, it was an embellishment!

It could make a sword smell good.

After completing it, a wooden sword flowing with cold air appeared on the table.

“Next is the second sword body. Eleven, go!”

Under Shi Yu’s command, Eleven howled and condensed the hardening substance with all its might. A layer of hard black substance was wrapped around the wooden sword.

Hardening Bind, Sword Armor!

A moment later, a black sword replaced the wooden sword and appeared in front of Shi Yu and the others.

Because the source of the sword's power was the level-seven resource, the Ice Dragon Whiskers, the sword was still emitting cold air and extremely cold.

This was the effect he wanted. When the time came, it could cool the heat brought by Chi Tong's possession.

The Ice Dragon General would revive in the Alliance again, but this time, it wouldn't be Mu Huiyin, but him, Shi Yu!

"It's the last step, Deterrence Entanglement." Shi Yu smiled.

Soon, it was the last step of the forging. Eleven started to use the transcendent level deterrence that it had just mastered to wrap the deterrence power around its hardening substance!

Bang!

During the process of binding, dark blue lightning seemed to shoot out around the sword.

The dragon might of the Ice Dragon Whiskers, the dragon might of the Ice Dragon Phantom, and the deterrence that Eleven had wrapped around it. Under the three deterrence layers, the Ice Dragon Blade became the top-notch spiritual weapon. With this in hand, as long as it wasn't a monarch-level deterrence, it couldn't affect Shi Yu at all.

It could even be said that this sword alone could make monarch-level creatures wary.

Buzz!!

A moment later, as the Ice Dragon Blade hummed, and as Buggy communicated with the Ice Dragon Phantom inside to lead the Ice Dragon Blade, in an instant, the Ice Dragon Blade was frozen with a layer of blue frost. Apart from the black hilt, the entire sword body had already become ice-blue. The blade emitted a white light, making the sword's appearance even better.

"Oh!"

Shi Yu looked at the Ice Dragon Blade in front of him, and his eyes lit up to the extreme.

"As expected of us."

"Wu, wu, wu, wu!!"

"Wuu, wuu!"

"Yiya!!"

"Mi!!"

The four pets nodded.

Look, a level-seven divine sword had been directly forged by them.

If this sword was auctioned, who knew how much it could be sold for...

Shi Yu felt that with this in hand, even if he didn't do possession with Chi Tong, ordinary commander rank pets wouldn't be his match!!

As for after possession, the power of the Ice Dragon Flame Dragon, the Ice Dragon General, appeared again!

After everything was completed, Eleven, Buggy, Baby Ginseng, and Chi Tong also stared at the Ice Dragon Blade, curious about how powerful this divine sword that Shi Yu had instructed them to create was.

At this moment, Shi Yu slowly picked up the Ice Dragon Blade. At the moment of contact, he felt that he could almost perfectly mobilize the power of the sword.

After all, this sword was forged with the power of the three pets he contracted. If he, a Beast Tamer, couldn't control it, no one could.

"Not bad..." Shi Yu shook his hand. The Ice Dragon Blade disappeared, and it was clearly sent to the ruins space.

The next moment, Shi Yu turned around and walked into the empty area. He stopped after taking a few steps and looked at a huge rock in front of him.

A shimmering spatial ripple appeared in front of his chest. Shi Yu stretched out his hand and directly reached into the ruins space. He slowly pulled it out in the air. In the next moment, with an astonishing cold aura, a blue divine sword was slowly pulled out of the alternate space and appeared in Shi Yu's hand.

During this process, the ground around Shi Yu froze. Then, a strong deterrence sliced the frost into pieces, causing thin snow to circle around Shi Yu.

Under the dancing snow, Shi Yu raised the Ice Dragon Blade high.

"Basic attack!"

After Shi Yu finished reciting the name of the move, a terrifying frost sword aura wrapped around deterrence and directly crushed towards the huge rock, freezing it instantly. Then, with a boom, it turned into ice shards that flew into the sky.

Upon seeing this scene, Shi Yu narrowed his eyes.

"I can do it!!!"

With this, he was confident of getting results in the martial arts conference!

"..." Eleven and the other four pets shook their heads. They looked at Shi Yu like a child who had yet to grow up.

Chapter 229: Chi Tong's New Form

Translator: Atlas Studios | Editor: Atlas Studios

The next day.

Under the lead of a cat, the man, panda, butterfly, radish, and sword spirit left

Ancient Capital University.

Destination, Undead Battlefield.

The Undead Battlefield was a very dangerous place. Generally speaking, it was definitely forbidden to be entered

If he wanted to enter, he had to go through the approval of relevant departments such as the Beast Tamer Association and get the pass.

However, if they weren't really short on money, most Beast Tamers wouldn't be so bored as to come here.

After all, there were plagues and curses everywhere inside. Even if they wanted to fight monsters and earn money, this wasn't the best choice.

Although the soul crystals dropped by the undead inside were very popular in the ancient capital, they had to have the strength to pick them up.

At the moment, in the ancient capital, apart from the Beast Tamer Troops who wanted to sweep the Undead Battlefield regularly, very few Beast 'Tamers were willing to come here to collect resources.

The Beast Tamer Association, the Beast Tamer Troops, and the Ancient Capital University were all qualified to approve the Beast Tamer's entry into the Specter Battlefield. There were also some special departments that could enter directly without the approval, such as members of Bureau 11.

Shi Yu naturally didn't use Bureau 11's identity to enter this time. Instead, he used the training documents from Ancient Capital University and the gem cat.

The Beast Tamer Troops of Ancient Capital.

One of the in-charge, Xu Kai, who was a top-notch master, was handling documents.

At this moment, a report came from the lower level.

"Reporting to Commander, a Beast Tamer with a special identity just entered the Undead Battlefield. I think it's necessary to report to you."

Then, Xu Kai said, "Who is it?"

"Shi. Shi Yu!"

The person who let Shi Yu and the others pass this time happened to know Shi Yu's secret.

They were also present when Shi Yu obtained the recognition of General Mu Huiyin.

It was also the batch of soldiers who had signed a contract to keep the secret.

“Oh, Shi..” Xu Kai suddenly got up.

“He went in himself?”

Holy shit, Shi Yu was a key protected target. He would definitely become a legendary potential stock in the future. He couldn't go to such a dangerous place alone.

In the eyes of outsiders, the most impressive thing about Shi Yu was the Butterfly of Imagination and the discovery of the Green Worm cocoon.

However, the small group of them knew best that Shi Yu's greatest potential was that he had obtained the recognition of General Mu Huiyin's heroic spirit!

Who was Mu Huiyin? A fierce person who could even defeat totems. Ordinary overlords were nothing in front of her.

“No, the guardian gem cat of Ancient Capital University brought it along”

“Emmm

Gem cat?

Xu Kai pondered for a moment. That was fine. That gem cat was older than his grandmother. When his grandfather was still a soldier, that cat often went to the Undead Battlefield to earn extra money. It was even more familiar with the Undead Battlefield than their Beast Tamer Troops

However, he didn't know if Ancient Capital University knew about this. After thinking about it, Xu Kai still took the initiative to inform the principal.

Undead Battlefield.

A Psychic-controlled blanket floated in the low sky.

A big white cat was lying on it leisurely.

It seemed to be a clean freak and was unwilling to step on the ground of the Undead Battlefield.

Shi Yu followed behind. Panda on his left shoulder, butterfly on his right shoulder, baby ginseng in his pocket, and the little sword spirit on his chest.

With every step he took, the surrounding ominous aura seemed to be pushed away.

At the moment, with the current level of plague and curse, Shi Yu didn't need to wear anything else. Even if he didn't wear the Flame Demon Armor, he could rely on the aura of the little sword spirit to isolate it. After all, it was the nemesis of undead. It burned the Sun Fire that undead were most afraid of.

Compared to when it was just borm, although it didn't train much, it could instinctively use its own abilities better.

“That's all?”

Not long after entering the Undead Battlefield, Shi Yu used the Ice Dragon Blade to hack a bunch of Awakening-level skeleton soldiers.

It was purely a clash of blades.

The Ice Dragon Blade collided with the skeleton soldier's bone sword. The bone sword was immediately sliced apart like tofu, very weak.

This reminded Shi Yu of himself in the Ancient Capital University's battle training room, holding the bone sword and being crushed by his sparring partner's pet.

Lord, times have changed!

Pa!

Shi Yu casually killed another lantern monster.

Shi Yu felt that he could defeat an opponent of this level with his bare hands even if it was an transcendent-level one.

"Mi! Mi

Seeing how happy Shi Yu was cutting enemies himself, Chi Tong was extremely sad. It could only follow behind and pick up the soul crystals.

As it picked it up, it burned it.

"An opponent of this level doesn't need fusion tactics."

Shi Yu comforted Little Chi Tong.

Eleven, Baby Ginseng, and Buggy immediately looked at him in disdain.

Nonsense, this guy just wanted to play by himself!

"Are you done playing, meow? The gem cat turned around and looked at Shi Yu speechlessly.

He wanted to bully the skeleton soldiers by the roadside? That's too much.

Killing them didn't increase the Sword Spirit's Spirit Release skill in the slightest!

At the very least, only transcendent-level undead had the devouring value.

"I kind of want to try swinging this." Shi Yu scratched his head in embarrassment before inserting the Ice Dragon Blade into the ruins space.

Eleven, Bugey, and Baby Ginseng showed expressions of "He clearly hasn't had enough fun".

Then, let's hurry."

Shi Yu had gotten the big boss gem cat to lead the team this time firstly to see the Undying Pond and secondly, to quickly farm Chi Tong's skill experience.

With Shi Yu and the others themselves, it was not so easy to kill tens of thousands of undead in a short period of time.

But with the overlord-level gem cat leading the team, it was easy.

“It should have been like this long ago -” The gem cat’s eyes shone. With an Instant Transmission, it continued to bring Shi Yu and the others deeper.

In the blink of an eye, they arrived at a hilly area. At this moment, Shi Yu and the others were floating in the air under the control of the gem cat’s Psychic power. Because below, the continuous low hills were filled with cracks and spider silk, like an abyss, filled with terrifying black aura. It didn’t look like something ordinary pets and humans could come into contact with at all.

“This is the territory of the ‘Specter Spider, a group of undead pets. They reproduce quickly and are one of the most common undead races in the Undead Battlefield. Let’s farm this first and help the Beast Tamer Corps share the pressure,” the gem cat suggested.

“I’ll do it.”

“I can kill it all in an instant.” It revealed a ferocious gaze.

This was a dangerous place on the path to the Undying Pond.

A large number of Specter Spiders lived in the crack. The gem cat felt that it was very suitable to increase its Spirit Release skill.

“Ah, this.. Let’s see Little Chi Tong’s devouring efficiency first,” Shi Yu said.

At this moment, his index had already opened, and it densely displayed the positions of hundreds to thousands of undead living in the crack cave.

There were indeed a lot of them.

However, although there were many, it was indeed not difficult for the gem cat to clean up. The problem was that Little Chi Tong’s devouring speed might not necessarily be able to keep up with it if it was directly killed in one go.

If he couldn’t digest it and the soul aura dissipated, it would be too wasteful.

“Hmph, meaningless worry. Forget it, you guys can try.” The gem cat lay down.

“Well, there’s no need for Psychic power,” Shi Yu said to the gem cat.

The next moment, BugEY Conjured a soft sofa. The sofa floated in the air. Shi

Yu sat on it and looked down calmly.

“Lie here. It’s even softer here,” Shi Yu said.

“Lie here. It’s even softer here,” Shi Yu said.

These guys were really talented!

“Wuu.” Eleven took a look. In terms of tool pets, Eleven was willing to call Buggy the strongest.

If it were Eleven, although it could also let Shi Yu sit in the air, it would definitely be sitting on the electric magnetic levitation steel hardening sofa. It was impossible for it to be as enjoyable as one made by Buggy.

Buggy: Wuu-

Too flattering

It was all thanks to Shi Yu's nurturing

"Yil" At this moment, Baby Ginseng also started working. It stood on the sofa and looked down before jumping down

Bang!

The next moment, Baby Ginseng landed on the ground itself. Like a smoke bomb, it continued to release a large amount of sweet aura, and it organized and orderly surged into the crack.

Sha! Sha! Sha!

Before long, ghost spiders came out of the crack. These ghost spiders were not big, and each of them was only the size of a bowl, but their strength was not weak. They were all transcendent-level. No wonder the gem cat brought them here.

[Name]: Phantom Spider

[Attributes]: Undead, Poison

[Race Level]: Medium transcendent

[Race Skill]: Spider Silk, Absorption, Soul Thorn

<Introduction> It likes to absorb the life force of humans and other pets the most. The special spider thorn has a fatal virus

Soon, more than ten Specter Spiders appeared. Their eyes were filled with dark light. They felt the aura of the Soul Fruit on Baby Ginseng's body and their saliva slipped out of their mouths.

Sha! Sha! Sha!

In the next moment, the many Specter Spiders crawled crazily and attacked Baby Ginseng together. Their mouths were wide open. It was time to eat!

"Tch."

Seeing this, Baby Ginseng glanced at them in disdain and directly condensed a peach wood sword made of solar energy and wood-element power.

With the peach wood sword in hand, the Daoist ginseng was just about to show off its might and let them see the supplement that could attack people, but in the next moment, the peach wood sword was snatched away by Little Chi Tong, who flew over. Little Chi Tong directly possessed the peach wood sword, and its battle power increased greatly.

Boom!!

In the sky, the flaming peach wood sword spun around, and the transparent sword aura that filled the sky directly descended like a sword dance.

High-level skill, Soul Slash!

Under the Illusion Sword Dance, almost in an instant, the Specter Spiders surrounding it died. Their bodies were divided into two and stopped in midair.

Right on the heels of that, the body of the Specter Spider turned into nothingness. Soul crystals fell out of its body one after another. At the same time, an even purer soul aura turned into a flame and floated towards Little Chi Tong. Seeing this, Little Chi Tong revealed an excited expression. Its whole body was filled with flames, and it directly swallowed more than ten transcendent soul auras in one go.

After swallowing the soul aura, Little Chi Tong floated around.

“Mi! (I protect Baby Ginseng y

Below, Baby Ginseng was fuming. Protection?! This guy was like Shi Yu, it just wanted to have fun itself
Pets really took after their beast tamers!

“Yi.” Baby Ginseng had just finished complaining when it suddenly looked at a crack.

Boom!

An even larger Ghost Spider, about half the size of a person. It was more like the evolution form of a Ghost Spider. It was more suitable for the appearance of the Ghost Demon Spider.

[Name]: Ghost Demon Spider

[Attributes]: Undead, Poison

[Race Level]: Mid-level commander

Sha, Sha.”

After this Specter Demonic Spider discovered that its citizens’ spiritual fluctuations had all disappeared, it immediately ran out in anger. This was a commander rank undead. Its energy fluctuations were dozens of times larger than those Specter Spiders.

It had originally come out full of anger, but when it saw Baby Ginseng, its face immediately turned into that of a fool. After being stunned, it completely lost its mind. It was like a mad dog that had seen meat after a month of hunger. Its body bared its fangs and brandished its claws, charging at Baby Ginseng like an alien.

“Eat, eat!” It opened its mouth and shouted.

“Yil Baby Ginseng crossed its arms and didn’t plan to fight with Chi Tong anymore. As expected, before the Specter Demonic Spider could rush over, Little Chi Tong, who had attached himself to Baby Ginseng’s peach wood sword, directly slashed down with an interlocking sword.

Fire and wood were also conflicting powers. In an instant, a hot and fierce Sword pressure turned into a wave that attacked like a tsunami, shocking the Specter Demonic Spider that was charging at Baby Ginseng. When it recovered and resisted, the fire sword pressure had already crushed its body.

Boom!

Even if its energy level was twice as high as Little Chi Tong's, in front of its super strength and Baby Ginseng's peach wood sword, the Specter Demonic Spider still burned to death without any resistance.

"Sha!!

In the flames, the painful voice of the Specter Demon Spider sounded. Little Chi Tong was like an emotionless killing machine, excitedly swallowing the soul aura of the guy it killed.

"Mi!!" Chi Tong swallowed another commander-level soul aura without any pressure. It wanted more and urged Baby Ginseng to gather more monsters faster.

Ginseng Baby: YoH

The team of a ginseng and a sword spirit seemed to like the feeling of law enforcement.

Baby Ginseng liked to see the guy who wanted to eat it get killed, while Chi Tong liked to kill spirits, it was a passion engraved in its soul.

"It seems.. its endurance is pretty good?"

Shi Yu touched his chin and sensed the changes in Chi Tong.

It swallowed more than ten transcendent soul auras in one go, together with a commander-level soul aura, without any adverse effects.

"I told you. Ill just kill all the undead in one go. It'll save time -!" The gem cat also lay on the sofa and looked down.

"It might be difficult for other pets to withstand the level of the super skills being forcefully raised, but it's different."

"Its predecessor is so powerful. Even if it changed its form of existence and started over, its mental strength will naturally be extremely strong. It won't be affected by those soul auras," the gem cat licked its claws and said lazily.

"I've seen another undead who has mastered the Spirit Release. The method to increase its Spirit Release might be worth learning for you."

"Really? Shi Yu scratched his cheek.

"Well, in that case." The gem cat looked down. In the next moment, its pupils emitted a light that was like a sapphire. Its huge Psychic perception domain instantly enveloped an area ten thousand meters away. Then, it suddenly raised its head.

Swoosh!

Thousands of transcendent Phantom Spiders and many commander-level Phantom Demon Spiders were directly pulled out of the cave by the Gem Cat's Psychic+Instant 'Transmission.

A moment later, in the sky in front of Shi Yu and the others in this hilly area, dense and black undead spiders were floating. They were all controlled by Psychic power and had panicked expressions, not knowing what had happened.

“Wu!!

“Wuu!

Seeing this, Eleven and Buggy’s eyes lit up as they looked at the gem cat in admiration.

So strong!

As expected of a super big boss with an energy value of tens of millions.

Below, Baby Ginseng and the little sword spirit also suddenly looked at the Specter Spider hanging in the sky, momentarily at a loss.

Shi Yu’s eyelids twitched as he watched all of this. Was this cat going to wipe out the entire family?

“Meow!” The light in the gem cat’s eyes dimmed. The Specter Spiders that filled the sky were directly crushed by the Psychic power. With a boom, the Specter Spiders exploded like fireworks one after another, and a sky full of soul aura directly appeared.

Little Chi Tong was immediately extremely excited. He immediately activated its absorption with all his might. In the next moment, its body was like a flaming black hole, emitting endless gravity, attracting the soul aura that filled the sky.

Swoosh! Swoosh! Swoosh! Swoosh! Swoosh!

The soul aura that filled the sky gathered crazily towards Chi Tong. As Chi Tong absorbed it, its aura rose steadily. Baby Ginseng, Eleven, and Buggy were stunned. They felt that its increase was even more ferocious than Shi Yu’s points.

Was this the efficiency of a big boss leading a team to kill monsters and level up:??

Soon, just as the gem cat said, Little Chi Tong still swallowed these soul auras without any pressure. Moreover, perhaps because it had reached the standard, after devouring it, the short sword-sized Little Chi Tong directly grew to a normal length.

A red light flashed across the sword. It seemed to have grown from a young girl to an older sister, and its aura was even greater.

However, this didn’t seem to be the end. After growing up.

A white light suddenly spread from Chi Tong, who had just finished devouring the soul aura. This light was like the light of evolution.

Boom!

The white light interweaved with the huge flames that surged inside, causing Chi Tong’s energy wave to increase again.

In the blink of an eye, Chi Tong’s energy level increased to nearly 20,000.

It still seemed to be transcendent, but its energy level was close to commander rank.

Hu hu hu

Under the entanglement of the flames that filled the sky, a voice that stunned Shi Yu and the others came from the inside of the flames.

Jiu

The voice was timid.

“Eh!!

“Wu?? “Yi?? “Wuu??

Under the stunned gazes of Shi Yu and the others, a small bird spirit the size of a sparrow, covered in beautiful and smooth red flaming feathers, flew out of the flames to replace the sword spirit.

Upon seeing this red bird spirit, Shi Yu instantly recalled the name of General

Mu Huiyin’s accompanying sword. Moreover, he could clearly sense what was going on from Chi Tong.

The form of this bird spirit was the second form after Chi Tong’s Spirit Release.

At the proficient level of the Spirit Dissection, one could liberate the form of the bird spirit. In the form of the bird spirit, one could obtain a physique that absorbed the power of the sun to recover their physical fitness at a high speed.

Moreover, this physique could be inherited by the Beast Tamer through possession.

At the same time, in this state, the Beast Tamer obtained the ability to fly.

“In that case, I can also recover my physical fitness with photosynthesis?” Shi Yu was stunned.

Wasn’t this a form specially born to increase points!

At that time, the sword spirit would take over his body and fight, while the bird spirit would take over the body to recuperate.

He could directly let Buggy materialize the sun. Under the dual-charge treasure of Buggy and Ginseng Baby, the efficiency of points increase increased in a straight line again

“No, the key is, who else can’t fly!”

Baby Ginseng: “?

“It turned into a bird?” At the side, the gem cat saw Little Chi Tong’s change and shook its head. The Spirit Release skill was really strange. It didn’t know what form it could release at the expert level. If nothing unexpected happened, it wouldn’t be difficult for Shi Yu and the others to upgrade spirit release to the expert level.

However, he definitely had to go deeper into the undead battlefield. Only then would there be enough high-quality undead.

At the same time, the moment Little Chi Tong released the bird spirit form, at the core of the Undead Battlefield, in the deepest underground.. A sealed undead sensed the aura of its own race and slowly opened its eyes.

Chapter 230: Mutated Fruit in the Undying Pond

Translator: Atlas Studios | Editor: Atlas Studios

Outside the Ancient Capital, the Undead Battlefield.

At the bottom of the deep and dark cave.

A creature that looked like a dark phoenix with black feathers covering its back, its wings and tail wrapped in black and red flames looked outside the cage.

This bloodline.”

Its eyes flickered with a dark light as its consciousness slowly spread out.

“It’s actually preserved”

“Scree-”

After liberating its second form, Little Chi Tong slowly landed on Shi Yu’s shoulder in the form of a bird spirit.

It was overjoyed and chirped.

Great

It had a mouth.

In the future, it could eat the ice directly.

“You only know how to eat

Shi Yu revealed a helpless expression. You little guy, how many ice-element energy crystals have you wasted ?

However, what he did have was a lot of those...

“Sigh

Shi Yu smiled with some surprise.

Bird spirit..

Shi Yu thought it would be in the form of a big sword.

Or some armor spirit.

It went from a sword spirit to an animal spirit. Who would have thought that?

It crossed races.

However, it didn’t seem very surprising. After all, General Mu Huiyin had the Phoenix bloodline.

Then, what would the next form be?

“Let’s try a new possession state first.”

Shi Yu stopped guessing and said to Little Chi Tong.

“Chirp -” Little Chi Tong understood.

Its gaze was intelligent as it slowly took off. After circling around, it directly fused into Shi Yu’s body in the form of a bird spirit.

At this moment, Eleven, Buggy, Baby Ginseng, and the gem cat’s gazes were all attracted.

In the next moment, Shi Yu’s body began to turn blurry and hot. Red arcs of fire slowly erupted and lingered around him.

Boom..

As energy surged, Shi Yu turned into the form with red hair and eyes in a moment.

Countless fire threads condensed, and a fierce spiritual aura that was like the flames of the sun turned into flames that wrapped around Shi Yu’s body. Under the flames was his thin, white, and rather powerful body.

“From the looks of it, it’s no different from when the sword spirit possessed me previously.”

“But.”

Shi Yu took a deep breath and his body slowly floated in the air.

Without wings, it was as if the body was not restrained by the gravity and could directly float in the air.

Under the envelopment of the flames, Shi Yu exerted strength all over his body and instantly turned into a flame. He flew thousands of meters away at an extremely fast speed!

Looking at Shi Yu’s disappearing figure, Eleven, Buggy, and Baby Ginseng smacked their lips.

Great, Shi Yu was becoming less and less human.

Moments later, Shi Yu turned around and flew back with extreme ease

The flying speed was extremely fast, and the flames were the accelerator of flight!

“It’s time to learn the Flying Sword Art.” Shi Yu clicked his tongue in wonder.

“But I feel that the sword techniques are still more handsome”

Shi Yu glanced at Baby Ginseng.

Alright, this time, he could fly too.

Well, Baby Ginseng was indeed a little miserable. He would teach it some skills to counter flying opponents someday.

For example, earth-type skills, gravity?

Ginseng Baby: QAQ

It was too much.

This state looks very strong”

This was the first time the gem cat had seen the state of the Sword Spirit Possession. It couldn't help but show a praising expression.

Although Little Chi Tong was only at the transcendent level, after possessing Shi Yu, the power produced by the resonance between the two parties far exceeded that of ordinary commander ranks.

“Yeah.”

Shi Yu was also very satisfied with his current state.

At this moment, apart from his flying ability, he also sensed something different.

Because of the bird spirit's special physique, Shi Yu felt that his recovery ability had increased again in this state.

The burden on him was much smaller.

In addition, his control over the power of possession had also become better.

It seemed.. that it could freely adjust its current power.

As Shi Yu tried it, the fire spiritual energy on his body slowly weakened and gradually dissipated. Soon, there were no longer any energy fluctuations on Shi Yu's body. However, he was still red-haired and had red eyes. Moreover, he was floating in the sky.

At this moment, Shi Yu was like an ordinary person with dyed hair and beautiful eyes. He didn't look as battle ready as before, but in fact, this was also an illusion. It was just that Shi Yu had restrained his strength.

“I originally thought that only by perfecting or transcendent the possession skill could I do this, but from the looks of it, the bird spirit's possession state is much gentler than the sword spirit's.”

Shi Yu floated in the air and stretched out his hand. A fire sword spirit condensed in his hand. Although it was possessed by a bird spirit, Chi Tong's two forms could be switched freely, so the current Shi Yu still had very strong battle power.

In addition, if he didn't fight, he felt that it shouldn't be a problem for him to maintain this state for a day.

In short, the functionality of possession had become stronger.

Fly one more round!”

Shi Yu seemed to be dissatisfied.

On the sofa.

The gem cat, Eleven, BugEy, and Baby Ginseng looked at Shi Yu, who couldn't bear to come down and was still flying around in the sky like a fly, and fell into deep thought.

“Hey!!

The gem cat shouted helplessly and said, “Are you done playing?”

This was the second time it shouted.

It wasn’t the first time it had brought its students to the Undead Battlefield to train, but in the past hundred years, Shi Yu was definitely the one who made the cat most worried.

It was too easy to become obsessed with his own world..

“Ah ha.”

“Alright.”

In the sky, Shi Yu was pulled back by the gem cat’s mental strength.

He scratched his head in embarrassment and slowly flew to their side.

“Well, let’s continue?”

After Shi Yu laughed, his eyes lit up.

He was looking forward to Little Chi Tong’s next form.

At this rate, the Spirit Release would probably be at the expert level soon and free the next form.

At that time, would there be any new changes to the possession skill

“Be more careful.” The gem cat shook its head and said, “You still have the final exam in three days. We can’t stay here for too long.”

“Let’s go directly to the Undying Pond now. After I temporarily unseal that place, the temptation emitted by the Undying Pond should be greater than Baby Ginseng. At that time, it should be able to attract many monarch-level undead.”

It can definitely increase faster by directly killing a monarch-level undead”

The gem cat’s gaze was fierce. It was super fierce.

Shi Yu’s heart skipped a beat. He was still worried that Little Chi Tong’s appetite was too small and couldn’t take it.

However, the gem cat was eager to try.

What bad intentions did the cat have?

Instant Transmission was a good skill for traveling.

The Gem Cat’s Instant Transmission was even better than Buggy’s. Shi Yu and the others flashed into a new place.

Without much time, or even sensing the situation outside, they arrived near the Undying Pond.

The Undying Pond was located in a valley. Its surroundings were sealed by transcendent spatial shackles. At first, it was set up by an overlord-level spatial pet

There were no overlord-level undead in the Undead Battlefield at all, nor were there undead who were proficient in spatial power. Therefore, this seal was foolproof. It wouldn't let wild undead accidentally obtain benefits from the Undying Pond.

After that, the spatial seal was strengthened and strengthened several times.

This mission was done by the Beast Tamers native to the ancient capital.

The overlord gem cat that had mastered spatial skills was naturally among them.

Therefore, it also contributed to this seal. It wasn't bragging that it could bring Shi Yu to the Undying Pond to take a look

"This is the place."

In the sky above the Undying Pond, Shi Yu and the others appeared.

The gem cat looked down and said.

In the sky, through the transparent seal, they could clearly see the black pool inside the seal.

Although he couldn't see clearly what was going on inside the pool, from the black ground near the pool and the spatial seal that had been corroded, this was definitely not a good place,

"Yi-"

In Shi Yu's pocket, Baby Ginseng's expression was blurred.

Ginseng Baby: "(+-+)"

It looked at the black pool and felt that it was very dangerous..

Baby Ginseng tugged at Shi Yu's clothes.

Otherwise, our Moon Gem, Time Soil, and Time Mystic Realm would make do.

Forget about the Undying Pond.

If anything happened, who would create supplements in the future?

"True." Shi Yu agreed abnormally quickly.

In any case, he was most concerned about the power of time. The power of death didn't matter.

Just like when he gave Buggy the opportunity to apply for a choice, Shi Yu also gave Baby Ginseng enough choice.

Moreover, there were too many mutations. Shi Yu was also worried that Baby

Ginseng wouldn't be able to take it.

He was just here to take a look.

“Yi??

Seeing that Shi Yu agreed so quickly, Baby Ginseng’s face turned bitter again.

Looking at the Undying Pond, it felt that it was a pity to miss it.

Ah, so conflicted.

“Yi!!

However, after thinking for a few seconds, Baby Ginseng decided to give it a try.

It looked at Eleven and Buggy, who were watching the commotion on Shi Yu’s shoulder.

It really didn’t have the confidence to become stronger than them with just the

Moon Gem, the soil of time, and the mystic realm of time.

The thought of being chased and nibbled by a bunch of totems in the owl’s premonition made Baby Ginseng shiver.

Instead of being helpless at that time, it was better to give it a try now!

It had a transcendent mutated body, so there was no reason for it to be afraid!

Could this Undying Pond be stronger than the Fruit of Life

It could successfully eat a level-eight resource mutation when it was at the Awakening level. Now that it had a transcendent-level mutation, soaking in the Undying Pond was not a problem.

After comforting itself and boosting his courage, Baby Ginseng made up its mind to give it a try.

“Don’t be afraid, it’s just the Undying Pond”

The gem cat said indifferently.

It had mastered dozens of skills. Although it had only mastered a few convenient ones, it was still easy for it to ensure that Shi Yu and the others weren’t affected by the Undying Pond with its overlord-level protective power.

Baby Ginseng: Really?!

Keally!

The gem cat was confident.

“However..” Although it was confident that it could protect Shi Yu and the others, did Shi Yu and the others plan to rely on the Undying Pond to let Baby Ginseng mutate and evolve? Was it reliable?

The gem cat revealed a thoughtful expression. In the past hundred years, there was only one successful case of the Ancient Tree of Life and Death.

“Why do I feel that you guys aren’t very reliable

It said suspiciously.

“Don’t worry, don’t worry” Shi Yu smiled and tricked it. “Don’t forget that Baby Ginseng is a super genius who successfully mutated a level-eight resource at the Awakening level. Its mutation level is naturally transcendent. No mutation environment can stop it.”

The gem cat stared at him.

Soon, the gem cat opened a door on the seal of the Undying Pond. Under the gem cat’s lead, Shi Yu and the others easily arrived at the edge of the pool.

Before entering, the gem cat added a layer of protection to Shi Yu and the others, including Baby Ginseng.

This could ensure that Shi Yu and the others were not corroded by the death power of the Undying Pond.

At this moment, as he approached the Undying Pond, Shi Yu took a deep breath.

He felt that transcendent-level mutants should still be trustworthy.

After all, it was a high-level skill. After all, he had triggered it to perfection.

After matching the worm’s phantom illusion, the phantom image could even borrow the power of a level-seven resource for itself. It shouldn’t be a problem for Baby Ginseng’s mutation to successfully absorb the power of death.

Shi Yu said, “It can reduce the protective power on Baby Ginseng a little.”

“Alright.”

The gem cat nodded. At the same time, Baby Ginseng approached the pool nervously.

As the gem cat reduced its protective power, Baby Ginseng immediately felt a wave of death power invading its body, scaring it and immediately making it take a step back.

“Meow!” Seeing Baby Ginseng retreat, the gem cat quickly applied its protective power on it.

“Although your life force is very strong, your growth level is a little low, meow.”

The gem cat said, “Come, I’ll help you cleanse the power of death again.”

It wasn’t impossible to replicate the miracle of the Ancient Tree of Life, but the growth level of the Ginseng baby seemed to be too low. Its life force wasn’t enough to resist the death power here. This was the difficulty.

“No.”

“Yi”

Just as the gem cat finished speaking, Shi Yu and Baby Ginseng’s expressions suddenly turned serious.

“Teacher Ying, please cancel the protective power.”

“Yi! (Cancel!)”

At this moment, Baby Ginseng sensed the situation in its body in shock.

After the death power corroded its body, its body seemed to have activated immunity, directly storing the death power in a place that couldn't affect its body.

Skill: Mutant

< Introduction > It's a wood-element skill. It can collect the power of mutation through external stimulation. Whether it can perfectly absorb the power of mutation to complete the racial mutation depends on the skill level and growth level.

Skill Proficiency: Transcendent

In just an instant, Shi Yu and Baby Ginseng determined that a transcendent-level mutation perfectly countered the power of death here!

In other words, it was not impossible to use the power of death as a mutation.

"Yi!! (Mere death power, Teacher Ying, you're looking down on me.)" Baby Ginseng suddenly became bold.

Let the gem cat continue to revoke its protective power.

"Yi (There's a new life in death, a new dawn in despair. The power of death.. I'll conquer it for sure!)" Baby Ginseng shouted.

Eleven, Bugey:

Damn, it was sick again.

The gem cat:??

???

The gem cat was stunned, not understanding what had happened.

However, when it saw Shi Yu and Baby Ginseng suddenly so determined, it was stunned for a moment before retracting a little of its protective power.

Baby Ginseng continued to take a small step forward without fear and sat beside the pool. With a nervous expression, it placed its little feet deep into the Undying Pond.

In the next moment, endless death power surged into Baby Ginseng's body.

"vi! (That's all.)"

Baby Ginseng swelled up. It looked at the Undying Pond like it was soaking its feet in water.

It felt that its body could still withstand it, could still withstand it..

Soon, Baby Ginseng had a strange feeling.

Although it didn't feel that it had reached its limit, the death power accumulated in its body had already given the ginseng baby a feeling. At the moment, it could let this death power stimulate its body to mutate. Although the direction of the mutation couldn't be confirmed, it could indeed mutate.

Baby Ginseng's expression was serious as it rejected the temptation.

It wanted to get it done in one go and mutate together with various mutated powers. Just the Undying Pond was not enough, not enough to make it stronger.

"Yi! (Bam! Mutated Fruit!"

A moment later, in order to give the mutant enough space, in order to squeeze as much energy from the Undying Pond as possible, Baby Ginseng had an idea.

"Yi!" As Baby Ginseng endured the power of the Undying Pond, it eliminated the mutated power it had absorbed from its body and condensed it in the outside world, forming a mutated fruit containing the power of death.

Dao Proficiency Nutrition+transcendent mutant = Mutated Evolution Fruit!

It planned to eat it after its final evolution!

"Meow, meow, meow???"* Seeing Baby Ginseng soaking its feet in the Undying

Pond, the gem cat was already shocked. After all, Baby Ginseng was only at the commander rank.

Now, as it saw Baby Ginseng directly condense the power of the Undying Pond into a Death Spirit Fruit, its eyes widened

How, how did it do it!

That worked?

It looked at Shi Yu.

Shi Yu was also slightly stunned.

I already said that its mutation talent is very good. It's not unscientific to condense the mutation power into a mutation fruit."

Shi Yu scratched his cheek. Mutated evolution fruit..

He felt that this thing should be quite precious.

After all, no matter what creature ate it, it could allow the other party to undergo random mutation evolution like a gambler.

Of course, if the other party couldn't adapt to the power of mutation, there was probably a risk of the mutation failing and dying. But in any case, it was also a rare evolution resource

The money-making ability of the ginseng baby upgraded again with the transcendent-level mutation.

Continue like this and create more mutated fruits."

“We can’t use it all ourselves. It’s not bad to sell it.”

Shi Yu suggested.

Baby Ginseng’s expression was serious. Understood!

“How dare you! The gem cat glared.

Shi Yu and Baby Ginseng shuddered.

They almost forgot that this was the gem cat’s territory.

“Meow.” The gem cat licked its claws.

Just remember to give me half.”

It had eaten many delicious spiritual fruits that contained life force, but it had really never tried spiritual fruits that contained death power.

It still believed in Baby Ginseng’s culinary skills.

It didn’t dare to drink the Undying Pond, but it wanted to try the spiritual fruit!

Yi-” Baby Ginseng covered its face.

It wasn’t that it didn’t want to give it to her.

Was it sure it won’t die immediately after eating it?

No matter how it thought about it, the Death Spirit Fruit was like poison..

Only mutants dared to absorb it.

“It’s alright.” The gem cat yawned and said, “I have poisonous and death-type moves. Don’t worry.”

“Poisonproof meow.”

As a mutated pet, the gem cat felt that Shi Yu and the others had underestimated it.

Shi Yu and Baby Ginseng were speechless.

Strange cat!

“No..” Shi Yu was just about to say that there was no problem when the gem cat suddenly exploded.

Its expression suddenly changed. It quickly looked around and sensed countless huge auras approaching

“What’s wrong?” Shi Yu had yet to notice the change in the gem cat when he suddenly asked with a serious expression.

“Impossible.

At this moment, the gem cat was silent.

It didn’t understand. “The Undying Pond has just opened. It’s impossible for it to attract the attention of so many undead so quickly.”

“Now, there are a large number of undead. One... wo.. thre... four... Just the monarch-level undead might not be less than ten. They are approaching here quickly.” The gem cat looked at Shi Yu.

Holy shit, more than ten undead monarchs?

Shi Yu revealed a shocked expression. “Then isn’t he an expert soon in Spirit

Release?

Eleven, BugEy, Baby Ginseng, and Chi Tong were all shocked.

He was still thinking about Spirit Release? Damn, they have to run! There were so many of them, even the gem cat might not necessarily be able to defeat them
