

Beast 231

Chapter 231: Gathering of the Undead Monarchs

Upon hearing that there were more than ten monarchs, Eleven, Buggy, Baby Ginseng, and the others... Had the first thought for everyone to quickly slip away.

As for Shi Yu, he was thinking about expert level Spirit Release.

As for the gem cat, it was thinking about what was going on.

“Could it be the Death Spirit Fruit?”

The gem cat looked at the Death Spirit Fruit that Baby Ginseng had condensed into the power of the Undying Pond through mutations and nutrients.

This Death Spirit Fruit should be considered a pseudo level-seven resource.

It wasn't a friendly level-seven resource, but a level-seven ferocious plant.

Through the combination of Baby Ginseng, the Undying Pond becoming a mutated evolution fruit that contained the power of life and death was indeed extraordinary.

Perhaps this was the main factor that attracted these undead monarchs?

Was it really that tempting?

Because it wasn't an undead, the gem cat really couldn't feel it in its place.

Seeing the gem cat look at him, although Baby Ginseng was very afraid of the undead Monarchs, it didn't dare to stop.

It wanted to create as many mutated fruits as possible. It couldn't waste them...

“What should we do?” Shi Yu looked at the gem cat.

“It's not a big problem.” The gem cat raised its head and said, “It's fine if it's not an overlord. If a monarch comes, I'll kill one.”

The gem cat showed a fierce expression.

“It's all money.”

“There are so many high-level soul crystals. Perhaps they can be sold for 100 million again.”

Shi Yu said, “As expected of you.”

“I have no choice.” The gem cat licked its claws and said, “It's too difficult to master transcendent-level skills. The training is so tiring and bitter. I just want to fish and break through. I have to save money to buy legendary resources.”

“When you're rich in the future, don't forget me.”

It didn't matter to the cat who brought Shi Yu to farm, but it refused to train ten thousand times to let it increase its strength in life and death.

Shi Yu was at a loss whether to laugh or cry.

How could this cat be so lazy?

One way for an overlord to advance to the totem level was for the transcendent racial skill to reach the transcendent level. Apart from that, there was another way, which was to use strengthening level-nine legendary resources that matched the racial attributes to strengthen oneself.

The former could break through to the totem level 100%, while relying on resources, there was less than a tenth of a chance to break through to the totem level.

The gem cat chose to spend money to break through!

However, this path was also a long one..

"You guys continue, I'll repair the spatial seal first."

With that said, its gem eyes lit up.

The huge hole in the spatial seal was sealed again.

"Wu!!!" Buggy expressed that it was familiar with this move. Wasn't this courting disaster?

Baby Ginseng's face fell, and the speed at which it condensed the mutated fruit slowed down a little.

"Wu!" Eleven glared at Buggy. This was clearly making them impregnable!

Baby Ginseng's expression improved, and its efficiency returned to normal.

Eleven was indeed knowledgeable.

Boom!

As the gem cat repaired the seal, Shi Yu could also sense the terrifying aura coming from all directions.

Boom!

The entire Undead Battlefield seemed to be covered in dark clouds, and the ground trembled.

"Coming."

The gem cat narrowed its eyes. Come on, come on.

It wanted the soul crystal to sell for money, and Shi Yu and the others wanted the soul aura to evolve. This was a reasonable distribution!

As soon as the gem cat finished speaking, the first undead monarch that arrived near the Undying Pond appeared.

It flew in the air. It was huge and had a body that looked like a Western dragon.

Its entire body was made of bones, and its interior was filled with a green light. It was surprisingly the bone dragon of a quasi overlord race.

At the same time, a human-shaped skeleton wrapped in a black rag and holding a bone staff slowly walked over in the air. It looked inside the spatial seal. This time, it was the Black Spirit Great Daoist Master of a high -level monarch race.

On the ground, there was also a Death Knight riding a skeleton war horse and holding a bone sword. The ground was also torn apart. The huge Dark Centipede King dragged its body that was dozens of meters long and stared at Shi Yu like a tall building.

Bone Dragon King, Black Spirit Great Daoist Master, Death Knight, Dark Death

Centipede King, Soul Devouring Spider Queen, Ice Spirit Lady, Thousand Eyed Tree, Phoenix Fire, Undying Demon Cat, Nine-Tailed Spirit Fox...

They were all famous undead in the undead battlefield!

Because of the threat of the Undead Battlefield, the association would regularly clean up the undead.

However, even after cleaning up, there were still many undead monarchs.

These undead monarchs were all outstanding among their peers. They were abnormally cunning and difficult to deal with. If they wanted to hide, some could even hide in alternate spaces. Even legendary Beast Tamers would find it difficult to find their traces.

At this moment, as the most terrifying batch of undead monarchs in the undead battlefield appeared, the gem cat's eyes lit up.

"I've searched so hard for you guys previously."

"You guys actually delivered yourselves to my door this time."

Damn it.

It suddenly remembered something.

The Beast Tamer Association of the ancient capital had always wanted these undead monarchs.

After killing them, it could still get another bounty.

At this moment, as more than ten undead monarchs appeared, a huge commander-level undead army followed closely behind. Seeing this scene,

Baby Ginseng's legs went weak as it created mutated fruits...

Shi Yu's breathing also froze.

All of them were at the monarch level. Generally speaking, the monarch level cultivated by the master-level elite students of the Imperial Capital and Demon Capital University were still in the development stage. Their energy value didn't exceed 1.5 million, but the ones in front of them were basically close to 2 million. There were even a few that exceeded this number and reached the normal energy standard of the overlord race!

The skill proficiency was probably very high. After all, they had lived for god knows how long. It wasn't something that the monarchs cultivated by the students could compare to.

"That's all."

The sky darkened as he sensed the oppressive atmosphere. Although he was protected by the spatial seal, Shi Yu still couldn't help but hide behind the gem cat. Wait... Something was wrong. It seemed like there were undead monarchs everywhere?

Shi Yu's expression darkened.

At this moment, he suddenly realized that there was something wrong with the gem cat's state.

"Shi Yu..."

"It seems, something's wrong."

At this moment, the gem cat's eyes were filled with seriousness. Just now, it sensed a large number of monarch undead coming over, but now, after sensing the state of these undead monarchs at a close distance, it suddenly discovered a big problem.

"What's wrong?"

"Didn't you realize that the reason why they didn't attack wasn't because of the spatial seal, but because... their current state is in a controlled state??" The gem cat's gaze was solemn to the extreme. It put away its contempt just now and had a bad feeling.

It couldn't be that unlucky, right...

What could control these undead monarchs at the same time...

Its words directly shocked Shi Yu and the others.

"If only a new Undying overlord was born in the Undead Battlefield and united them, that would be nothing, but if it's..." The gem cat suddenly thought of the Undying Dark Phoenix underground. If it was related to it, then the problem was huge!

In an instant, the gem cat seemed to be facing a great enemy. Just as the deterrence was about to disperse, a scene that shocked the cat and Shi Yu occurred.

Countless undead monarchs made a submissive posture and aimed at Shi Yu, who was in a possession state.

Gem Cat, Shi Yu, Eleven, Buggy, Baby Ginseng, Chi Tong: Meow, meow, meow?

Shocking Shi Yu for a hundred years... What was going on!

Chapter 232: Awakening of the Phoenix Bloodline

The Undead monarchs submitted.

At this moment, Shi Yu and the others were completely speechless.

'The gem cat was also stunned on the spot.

They looked at the many Undead Monarchs who had submitted and the similarly shocked Shi Yu in a daze.

What the hell.

'The gem cat had thought of many possibilities, but it never expected that the Undead Monarch would submit to Shi Yu after coming together.

"You, you, you..."

'The gem cat waved its claws around and stared at Shi Yu, imagining things.

Could it be.

After a moment of silence, Shi Yu said, "I'll lay my cards on the table."

'The gem cat shuddered.

"I've laid my cards on the table. I don't know what's going on either!"

The gem cat : "..."

At this moment, Shi Yu felt guilty to be subjugated by a bunch of undead.

A bunch of criminals ran over to call him boss. Anyone would be stunned.

"Meow."

The gem cat's gaze flickered.

'The gem cat, who had originally wanted to attack, didn't know what to do now.

So what exactly was going on?

Only Baby Ginseng didn't move and continued to draw the energy of the Undying Pond.

Soon, soon.

At this moment, among many undead monarchs, a ball of three-colored flames that looked like a phoenix suddenly changed.

< Name > Phoenix Fire

[Attributes]: Undead, Fire

[Race Level]: High Class Monarch

< Introduction > It's a spirit formed by the Phoenix's flames.

Under its transformation, it gradually turned into a beautiful woman in a black dress with a noble aura.

It frowned and muttered to itself. Then, it looked at Shi Yu and the others.

“This body... I’m not used to it.”

“But it can barely be used for speaking.”

After the aura of the Phoenix Fire changed, the dark aura spread, as if some other creature had seized control of its body.

After it appeared, the other undead monarchs crawled even deeper, their gazes even more afraid.

Sensing the change in the Phoenix Fire, the gem cat’s expression suddenly changed drastically.

Because this aura was too similar to the aura of the Undying Dark Phoenix sealed under the Undead Battlefield.

“Undying Dark Phoenix?” The gem cat spoke in surprise and broke out in cold sweat.

Although it sensed that the other party still had the strength of a monarch, its mind was taut to the extreme at this moment.

It was already 120% focused and prepared to escape with Shi Yu at any time.

“Eh?” The humanoid woman formed by the Phoenix Fire looked at the gem cat in surprise and said, “You recognize it?”

‘Wu Wu!

As the Undying Dark Phoenix finished speaking, Shi Yu, Eleven, Buggy, Baby Ginseng, and the others were immediately stunned. Tears flickered.

Damn, gem cat, you jinx.

Who was the one who said that as long as the Undying Dark Phoenix didn’t break the seal, the Undead Battlefield was very safe?

In the end, it really broke... How?

Monarchs could be dealt with easily, and overlords weren’t too much either, but totems, how could they deal with this!

‘The gem cat’s expression was also a little bad. It felt that Shi Yu was a disaster-bringer. It really gave the cat a headache.

This guy was clearly here for Shi Yu.

Being stared at by the human form of the Undying Dark Phoenix, Shi Yu and the others didn’t dare to act rashly, even if the other party’s human form was very beautiful.

“Long time no see.”

‘The Undying Dark Phoenix ignored the gem cat and looked at Shi Yu seriously.

“My daughter.”

Shi Yu: “?”

Everyone:

“Meow?”

“Huh?” “Huh?” “vi?”

“Huh?”

As the Undying Dark Phoenix finished speaking, it was as if it had thrown a nuclear bomb at the scene.

The heavy atmosphere was instantly destroyed.

Everyone present was stunned.

The gem cat, Eleven, Buggy, and even Baby Ginseng looked at Shi Yu in shock.

Holy shit.

What was going on?

Daughter?

Shi Yu was also a little stunned, but he quickly reacted.

‘The other party wasn’t talking about him at all.

“Chi Tong?” Shi Yu asked in confusion.

“Jiu?”

In the next moment, Little Chi Tong left Shi Yu and flew out in the form of a bird spirit.

Shi Yu quickly recovered his black hair and eyes.

‘As expected, the Undying Dark Phoenix and the group of undead monarchs looked at Chi Tong.

‘The daughter the Undying Dark Phoenix mentioned was Chi Tong!

At this moment, when it saw Chi Tong, the Undying Dark Phoenix directly smiled.

“although the form is a little strange, it seems to have really been preserved.”

“But from the looks of it, she seems to have completely forgotten her identity.”

“Stop pretending...”

At this moment, the gem cat narrowed its eyes. Psychic power had already enveloped all the undead monarchs.

It had already calmed down.

Although the development of the plot was a little strange, it didn’t forget the identity of this group of undead monarchs.

‘They were all participants in the undead siege and were proper ferocious spirits.

'As the source of the Ancient Capital's Undead Battlefield, how could the Undying Dark Phoenix be Little Chi Tong's mother? This was very ridiculous, alright?

All kinds of records showed that the Undying Dark Phoenix was a big boss-level ferocious spirit that had triggered multiple undead disasters.

It could tell that the Undying Dark Phoenix's consciousness had only temporarily taken over the body of the Phoenix Fire. Its strength was still at the monarch level, and its main body was probably still sealed and not worth mentioning.

It could also be crushed.

Boom!!!

'The Gem Cat's deterrence erupted, but in the next moment, Shi Yu hurriedly said, "Wait, wait."

Because he suddenly recalled the prophecy of the owl.

He had asked the owl about Chi Tong's bloodline.

'The other party predicted the scene of Chi Tong splitting open the Undying Dark Phoenix's seal.

Holy shit, it couldn't really be related, right?

"There's something you should know..."

Shi Yu instantly conveyed what had happened in the capital to the gem cat through telepathy, stunning it.

Meow, meow, meow?

'The gem cat widened its eyes and looked at Shi Yu.

No matter how it looked at it, this looked like a scam, but this guy was saying that it might be true?

Could that owl be trusted?

shi Yu:"..."

Did the bad reputation of the Prediction Owl spread to the gem cat?

At this moment, things were extremely strange.

For a moment, Shi Yu didn't know what to do.

"Do you have any evidence?"

He could only look at the Undying Dark Phoenix and ask.

In the face of this question, the beautiful woman in human form formed by the Undying Dark Phoenix's Phoenix Fire still smiled.

"Not only you, even I'm very surprised."

"You need evidence. Coincidentally, I also need to verify its bloodline power."

'There was too much information, making the gem cat, Shi Yu, and the others a little stunned.

Before Shi Yu and the others could react, black flames burned in the Undying Dark Phoenix's eyes.

In the next moment, the bodies of the dozen or so undead monarchs and commander-level undead present were lit up by black flames, and they suddenly let out painful wails.

Bone Dragon King, Black Spirit Great Daoist Master, Death Knight, Dark Death Centipede King, Soul Devouring Spider Queen, Ice Spirit Lady, Thousand Eyed Tree, Nine-Tailed Spirit Fox... One undead monarch after another lost their lives almost instantly.

"Oooh—"

In the blink of an eye, these undead monarchs that wreaked havoc in the undead battlefield were killed by the black flames in unison and turned into dust.

Seeing this scene, the expressions of Shi Yu and the others changed, revealing looks of disbelief.

What was it doing?

Summoning a bunch of undead just to kill them?

"aren't they your subordinates?" Shi Yu immediately asked.

'The Undying Dark Phoenix: "It's just undead born from the plague and curse that's around me. They can't be considered subordinates, just a group of ferocious spirits."

"It's their fortune to be able to become nutrients."

This person had no right to call them ferocious spirits!!!

Shi Yu and the others wanted to complain.

'The gem cat's expression was also filled with confusion, but in the next moment, it seemed to understand the other party's intention.

Boom!

After these undead were killed, soul aura surged into the sky and filled the entire sky.

Then, countless soul auras floated into the space.

It actually directly penetrated the spatial seal and wrapped around Little Chi Tong.

"Jiu??"

Little Chi Tong was stunned. It sensed the tempting aura of the soul aura and wanted to eat it very much, but it was at a loss.

Shi Yu had taught it not to attack and eat without orders.

At this moment, the Undying Dark Phoenix said,

"Aren't you guys hunting undead to help it free its strength?"

“I help you.”

“If you don’t absorb it soon, it’ll be wasted.”

“After unsealing its power, its bloodline will awaken and become a phoenix spirit. This is the best evidence.”

At this moment, Shi Yu didn’t know what to do, so he looked at the gem cat.

‘The gem cat’s expression was serious. “There’s nothing wrong with the soul aura...”

Shi Yu nodded. “Chi Tong.”

“Jiu!!” After obtaining the Beast Tamer’s permission, Little Chi Tong’s eyes lit up. He activated the Spirit Release and absorbed the soul aura wrapped around him.

Boom!!!

In the next moment, Little Chi Tong’s body emitted the light of the sun. Its body seemed to have turned into a fire vortex, erupting with a huge gravity, absorbing the soul aura that filled the sky into his body.

The flames obliterated the soul aura and turned into nutrients for its own growth.

During this process, Little Chi Tong’s aura gradually strengthened.

A moment later, its body erupted with a soaring fire light. Its growth level directly broke through to commander rank.

Red flames, gray soul aura, and white advanced light intertwined. Soon, the soul aura produced by the deaths of many undead was completely absorbed by Little Chi Tong.

At this moment, its body underwent another huge change!

In the center of the flames, an orange-red light slowly burned.

“Jiu!!!”

With a high cry, all the flames began to retract inward. The flames swept up with a shocking phoenix might, and the orange flames that shot into the sky instantly filled the sky.

At this moment, not only did a huge flame shoot into the sky, but a loud phoenix cry also erupted.

‘The dazzling flames cut through the dark clouds like a sun, almost illuminating the entire Undying Pond. Soon, as the evolution flames gradually faded, a huge figure appeared.

A huge fiery red bird flew in the flames in mid-air. Its dazzling orange-red tail feathers were long. It had a perfect body shape, a crown-like feather crown on its head, dazzling feathers, shining wings, colorful appearance, and pleasant cry. All of them displayed the majesty of the king of birds.

It was the new form released after Chi Tong’s Spirit Release reached expert level, the Phoenix Spirit mentioned by the Undying Dark Phoenix.

Seeing this scene, the Undying Dark Phoenix showed an “as expected” expression.

At this moment, as the phoenix spirit appeared, the index data in front of Shi Yu also began to change crazily.

[Energy Points]: 140089

After liberating its new form and breaking through to commander rank, Little Chi Tong's energy attribute immediately matched the Butterfly of Imagination.

'The huge deterrence stunned Eleven, Buggy, Baby Ginseng, and the other pets.

Damn.

They looked at the wind spirit in the sky and were extremely shocked. This was Little Chi Tong??

Why did the energy wave suddenly become so terrifying?

Buggy immediately cried. It felt that the time for the Shi Yu tournament would come soon.

This wave was an epic strengthening of Chi Tong? No! It was an Epic Strengthening of Shi Yu!

At this moment, what concerned Shi Yu the most was not the new form released after Little Chi Tong's Spirit Release reached the expert level, but that it had brought some new abilities during the breakthrough and liberation process.

[Race Name]: Spirit: Chi Tong

[Race Attributes]: Undead, Fire

{Race Level]: High-level overlord (Quasi Mythical)

{Level of Growth]: Commander Level

{Race Skill]: Advanced: Light Flame Sword (Proficient), Possession (Expert), Soul Slaying (Proficient), Deterrence (Initial-level Phoenix Might, has a strong commanding and deterrence effect on birds and undead)

Super level: Sun Flame (Initiate), Spirit Release (Expert), Interlocking Sword (Initiate)

After breaking through, Little Chi Tong awakened deterrence, and it was a deterrence unique to the Phoenix Race that was not inferior to dragon might. It could command hundreds of birds.

Apart from that, the Phoenix Spirit had the flames of regeneration. As long as it didn't die, all the damage it suffered with the target it possessed could be healed through the flames of regeneration. The healing effect depended on the level of the Spirit Release.

If the bird spirit form gave Chi Tong the racial ability to recover its physical strength with the power of the sun, then the phoenix spirit form gave it the special ability to recover from its injuries with the power of the sun!

Chapter 233: Undying Dark Phoenix Enraged

"As expected of my bloodline."

It looked at Little Chi Tong quietly and smiled warmly.

At this moment, seeing that Chi Tong had really become a phoenix, the corners of the gem cat's mouth twitched crazily.

Eleven, Buggy, Baby Ginseng, and the other pets were also extremely shocked. So, was it really Chi Tong's mother?

"What evidence is this?"

Shi Yu's eyelids twitched. This only meant that Chi Tong had the Phoenix bloodline. He had known from the start.

However, he had successfully advanced his soul aura for free. It was really fragrant.

After those undead monarchs submitted, Shi Yu almost thought that he couldn't cut them anymore. Now that he had successfully absorbed them, it was very comfortable.

Speaking of which, if the Undying Dark Phoenix was really related to Chi Tong, wouldn't it be impossible for it to be able to kill the Dark Phoenix and advance in the future?

"ju"

Just as everyone's expressions were extremely silent, only Little Chi Tong was unmoved.

It turned from an extremely gorgeous phoenix spirit form to a small bird spirit form. After eating until it was full, it quietly landed on Shi Yu's shoulder and didn't think much of it from the start.

It didn't care so much. It only recognized Shi Yu.

It only had one relative, Shi Yu.

This was the speciality of a heroic spirit. Once it recognized its master, it would never betray it.

"Jiu?"

At this moment, although he had already believed a little of the Undying Dark Phoenix's words because of the owl's prophecy, Shi Yu suddenly calmed down as Chi Tong landed on his shoulder.

Because even if everything was real, so what? Even General Mu Huiyin seemed to have never acknowledged her bloodline.

Instead, she hated her bloodline very much.

Shi Yu slowly raised his head. After taking the soul aura, he said stubbornly, "This doesn't prove anything at all. Your strength is completely different."

"Its power is pure Sun Flame. Even in its undead form, its power hasn't changed."

"and you have plague and curses on you. It's pure dark power."

"What's your goal?"

As Shi Yu finished speaking, Little Chi Tong leaned closer to Shi Yu, causing the Undying Dark Phoenix to frown and reveal a displeased expression.

But soon, it was relieved.

“Since you don’t believe me, I’ll reveal more information.”

A dark light flashed in the Undying Dark Phoenix’s eyes.

“In ancient times, humans were divided into pure-blood humans and mixed-blood humans. The mixed-blood humans were a group of humans who had obtained the bloodline of the different races. They had a common characteristic, which was that their talent potential was outstanding, and they even

surpassed the pure-blood humans. Their talent was the forte of the two races.”

“Among them, the most typical is humans and dragons.”

“More than two thousand years ago, the development of the Phoenix Race fell into a certain bottleneck. A voice appeared in the Phoenix Race, giving the power of the bloodline to some humans with suitable physiques and relying on humans with the Phoenix bloodline to break this bottleneck.”

“However, because the growth of hybrids requires too many resources and the Phoenix Race has many members who pursue the purity of their bloodline, two factions have been divided in the race.”

“One side supports the hybrid human plan, and the other is determined to oppose humans sharing the resources of the Phoenix Race.”

“Among them, it was born at that time. I gave it the Phoenix bloodline, and it’s my real daughter.”

‘The Undying Dark Phoenix looked at Little Chi Tong and smiled. With this look, Little Chi Tong’s bloodline power surged and actually resonated a little.

“Unfortunately, not long after the hybrid plan started, the two factions had a conflict due to resources. There was internal strife among the Phoenix Race, and many hybrids were eliminated by the pureblood. At that time, in order to ensure its safety, I hid her in the human world.”

“When the internal strife of the Phoenix Race ended, I went to look for it. It had already disappeared and was suspected to be dead... Now that it can revive in its undead form, it’s really beyond my expectations. It’s surprising.”

Shi Yu fell silent on the spot.

It seemed... matching?

That initial hybrid was General Mu Huiyin.

As for why the bloodline disappeared, it was because a portion of the bloodline power was separated from Mu Huiyin after she grew up and became the current Little Chi Tong.

“Don’t believe it easily.” Seeing Shi Yu’s expression change slightly, the gem cat beside him reminded Shi Yu.

‘There was something wrong with this guy. It had to believe its instincts as a female cat.

"I know..." Shi Yu still had many questions.

'The Undying Dark Phoenix was a top-notch totem of the undead and dark elements, while Mu Huiyin and Little Chi Tong both had phoenix bloodlines that had the power of the sun.

The strength system was completely unrelated.

The Undying Dark Phoenix said, "As for the power system, it's because I've fallen once. Our predecessor was the race closest to the divine level in the Phoenix Race, the Sun God Phoenix. After an accidental death, I revived in the world as the Undying Dark Phoenix."

"This is my second body. Just like how it became an undead, I also became an undead."

"Accidental death? According to what I know, the Undying Dark Phoenix was the one who experienced the internal strife of the Phoenix Race during the era of the empress dynasty."

"Because the power was too evil, it was sealed here by the empress."

Shi Yu stared at the Undying Dark Phoenix intently. Becoming an undead still couldn't explain the power attribute.

'The Undying Dark Phoenix smiled. "The empress you're talking about..."

"It means my other daughter, its sister."

Shi Yu, the Gem Cat, and the pets:???

Chi Tong:??

'The Undying Dark Phoenix said, "After the first internal strife of the Phoenix Race, the power of the hybrid sect gained the upper hand. The hybrid plan was activated again and obtained unprecedented success. Its sister grew into the human empress at that time. However, at this moment, the few purebloods colluded with the foreign races and launched internal strife again. I was poisoned and cursed to become what I am now."

"In the cursed state, because I couldn't control my power, because I would subconsciously release plagues and curses to accelerate the birth of undead, I took the initiative to ask the empress you mentioned to seal me. I planned to accept purification after she resolved the internal strife and totems."

"But unfortunately, I couldn't wait for her to successfully resolve the internal strife. The Phoenix Race was also on the verge of destruction due to the internal strife and external enemies. The world was in chaos, and she also disappeared."

"Then in the future, in order to suppress the curse, I slept here."

"This time, I only woke up for a short period of time because I sensed a similar bloodline power. I could only talk to you through my consciousness possessing the undead."

'The gem cat opened its mouth wide.

Although it reminded Shi Yu not to believe it easily, it didn't expect that the story could develop in an even more ridiculous direction.

The human empress had become this little sword spirit's sister?

Damn it, the Undying Dark Phoenix was full of nonsense.

Shi Yu's expression was also very confused.

Shi Yu said, "So, what's your goal?"

"I'm just meeting my bloodline, plus..."

"I want you to release me from the seal. Her seal can only be unsealed by the Sun God Fire, which is also the transcendent Sun Flame you mentioned. At the moment, it's the only one with this bloodline aptitude."

The Undying Dark Phoenix looked at Chi Tong.

Upon hearing that it wanted to break the seal, Shi Yu wanted to refuse on the spot.

Even if what the Undying Dark Phoenix said was true, it couldn't be unsealed casually.

The Undying Dark Phoenix had also said that it had the plague and curse. It was the source of all the undead in the Undead Battlefield. Its power would go berserk at all times. In this situation, who dared to unseal it?

However, when they heard the Undying Dark Phoenix say that only transcendent-level super skills could unseal it, Shi Yu and the others were stunned again.

What did the other party mean? Did it want them to unseal it in the future?

"The current Little Chi Tong didn't have that strength."

The Undying Dark Phoenix looked at Shi Yu and Chi Tong. "No matter what, it was born because of me."

"You're currently in a contract with it. I don't reject this relationship. It's naturally best if you're willing to help it grow."

"When its Sun Flame reaches a certain level, not only can it break my seal, but it can also cleanse the curse and plague on my body. I hope you can return here after you grow up."

"Of course, from the looks of it, it doesn't seem to acknowledge me as a mother. But it doesn't matter. Whether you accept it or not, I'll help you grow quickly. No matter what, she's my daughter, my bloodline."

"I once opened a mystic realm. A large amount of resources I collected are stored there. Apart from legendary-level resources, there's also a divine-level resource that can be used for your growth and easily help you break through to the totem level. Only people with the power of my bloodline can successfully open that mystic realm. From now on, all the treasures there are yours."

"I'll tell you the location of that mystic realm."

At this moment, when it heard the Undying Dark Phoenix's words, the gem cat's eyes lit up.

Divine-level resources.

Shi Yu's eyes also lit up. "Mom!"

'The Undying Dark Phoenix:??

The gem cat:??

Eleven, Buggy, Ginseng Baby:???

Chi Tong: "?"

Shi Yu said, "...I was just kidding. Continue."

'The Undying Dark Phoenix nodded and released flames to weave a huge map in the sky. The style of this map looked to be from Emperor Shi's era, but Shi Yu was knowledgeable and recognized it.

At this moment, when he saw the coordinates, Shi Yu thought carefully and was stunned.

'This was no longer within Dong Huang. From the looks of it, it didn't seem to be the totem area either.

From the current geographical location, the mystic realm opened by the Undying Dark Phoenix was located in the seven neighboring islands, one of the seven islands.

Among the seven countries, Dong Huang, Rongguang, the seven islands, Shen Feng, Ming Hua, Tingxiang, and Xue Yuan, the seven islands were the closest to Dong Huang.

"After approaching that place, due to the connection of the bloodline power, you will naturally sense the entrance of the mystic realm."

The beautiful woman that the Undying Dark Phoenix turned into smiled and said, "Not only that, I also know many Phoenix Race mystic realms and Kingdom mystic realms of the Empress Dynasty. These are all resources prepared for us to lead to the divine path, but the opening method isn't that simple.

After you rescue me, I'll bring you to search. From the current situation, there aren't many members of the Phoenix Race left. The hope of reviving the Phoenix Race can only be relied on us."

Shi Yu and the gem cat nodded crazily. Alright, Mom.

'The Undying Dark Phoenix was tired. It didn't seem to be useful for her to play the family card. Material benefits were the way to go.

It didn't know if it could deceive this group of people in front of it.X

However, regardless of whether it could deceive them or not, it was already a good thing that its consciousness had awakened this time.

After all the instructions were completed, the expression of the human figure that the Phoenix had turned into changed slightly.

"That's all I want to say. Because of this awakening, my strength might go berserk for a period of time. A large amount of plague and curse power will leak out and affect the outside world. Many new undead will be born in the Undead Battlefield, and many undead will advance. It's best if you leave here now."

“And in advance, prepare to face the undead riot.”

With that said, black mist lingered around its body. A large amount of energy swelled in its body, as if it was about to self-destruct. Upon seeing this scene, Shi Yu and the gem cat were stunned on the spot.

“Holy shit.”

Did it have to be so sudden?

“Run.” At this moment, the gem cat also sensed the huge energy rolling in the earth vein. Its expression couldn’t help but change. Ignoring whether Baby Ginseng had finished absorbing the energy of the Undying Pond, it directly enveloped Shi Yu and the others with its mental strength and used Instant Transmission to leave quickly.

Boom!!!

Shi Yu and the others had just teleported away when the Phoenix Fire self-destructed. A large amount of plagues, viruses, and curses surged out of its body. The ground here directly cracked, emitting a rich black light that constantly spread out.

Sensing the plague and curse power coming from behind, the gem cat kept accelerating with a stunned expression.

Damn, what was going on today?

If it had known, he wouldn’t have come to the Undead Battlefield with Shi Yu.

ahhh, slow down.”

‘As the gem cat’s escape speed was too fast, Shi Yu immediately couldn’t take it and felt a little carsick.

“Can you not run faster? It’s the power of a totem-level curse!!”

“Also, do you believe its words?”

“Believe my ass,” Shi Yu said directly.

‘The Undying Dark Phoenix was Chi Tong and the empress’s mother?

No matter how he thought about it, something was wrong.

This phoenix didn’t look like a good person at all. It wasn’t as friendly as Sister Ice Dragon at all.

In short, it was all because the prophecy of the owl had disturbed his judgment.

“Then do you want to go to the mystic realm it mentioned?”

‘The gem cat asked the most important question.

Shi Yu:”...”

The gem cat :”...”

Damn, what was going on?

At the same time.

The Beast Tamer Troops guarding the edge of the ancient capital, Master Xu Kai, was talking to Principal Feng.

Principal Feng; "This kid, why is he so disobedient? And the gem cat, it actually brought him to such a dangerous place."

Xu Kai laughed and said, "As expected, you didn't know, but the problem shouldn't be big, The Undead Battlefield is completely like a backyard to Lord Gem Cat. There shouldn't be any problem with them."

Principal Feng: "I know..."

As the two of them chatted, a few figures suddenly appeared in Master Xu Kai's office.

Master Xu Kai, who was holding the phone, looked at this group of travel-worn guys in a daze.

"Shi Yu? Why are you back?"

Shi Yu said, "Instructor Xu, stop chatting. There's a big problem. The Undying Dark Phoenix's consciousness has awakened, and its power is leaking. A new wave of undead attacks is about to happen in the Undead Battlefield. Hurry up and prepare."

Xu Kai and Principal Fen

The two exploded.

Damn it, Shi Yu!

Chapter 234: Sin

At the edge of the Undead Battlefield.

In the Beast Tamer Troops.

Master Xu Kai's mind was a little blank when he saw Shi Yu and the others suddenly appear.

"Ha... Ha... Ha..."

His gaze swept across Shi Yu, the gem cat, and Eleven.

"Shi Yu, what are you talking about?"

"Uncle Xu, you can't stop scaring me. Our Dong Huang is only on April Fool's Day."

The gem cat was impatient. "Who's scaring you? It's true. His mother... No, the Undying Dark Phoenix woke up."

"although the seal hasn't been broken, the explosive power should be real. There might be a large number of undead rioting later, or even attacking the city. I wonder if a new undead overlord will be born. In short, you have to quickly prepare. In addition, call a legend over. I'll also guard here."

Xu Kai's expression gradually froze.

Upon hearing the gem cat say so, he immediately understood that Shi Yu wasn't lying.

Shit, shit, shit.

So what the hell was going on? What exactly were they doing at the Undead Battlefield!

What a sin!

Who let them in? Ten thousand push-ups as punishment!

"Shi Yu, answer the call!!!"

At this moment, a shout came from the phone on the table.

'When Shi Yu heard that, he thought, Isn't this the principal?

It had been a few days since they last met, so why did his temper become worse?

"Come back quickly, go back to school!!!"

Shi Yu walked over and picked up the phone. Principal Feng's roar immediately came from the other side.

Principal Feng's tone was urgent, making Shi Yu close his eyes. The gem cat beside him was also a little guilty.

"principal Feng is right. Hurry back to school now. Leave this to us. Report the details to Principal Feng."

At this moment, Master Xu Kai no longer cared about anything, He ran to ring the highest alarm.

Ancient Capital University.

Shi Yu was caught by Principal Feng halfway.

After catching Shi Yu in his dormitory, Principal Feng was overjoyed.

"Tell me, what's going on?"

Shi Yu sat on the sofa obediently. Eleven, Buggy, and Baby Ginseng sat beside him, while Little Chi Tong, in the form of a bird spirit, landed on the back of the sofa.

Shi Yu had a bitter expression. "It's really not my fault."

"Teacher Ying and I just went to the Undead Battlefield to help Chi Tong level up its Spirit Release. Then, we went to the Undying Pond to take a look."

Principal Feng looked at Chi Tong and realized that Chi Tong was already in bird spirit form. It had broken through to commander rank. He nodded.

Apart from that, Shi Yu indeed had no other reason to go to the Undead Battlefield.

"So what's going on with the Undying Dark Phoenix?"

"Did it suddenly wake up, or was it because of you?" Principal Feng's expression was serious as he asked the most important question.

If it was an accident, then Shi Yu and the others who discovered this matter could be considered to have done something.

If Shi Yu and the others had caused some trouble and awakened the Undying Dark Phoenix, they should obediently write a self-reflection letter!

The location of the Undying Dark Phoenix's seal was one of the eight forbidden areas of Dong Huang, Even members of Bureau 11 couldn't casually approach it.

"It was all an accident." Shi Yu's expression became excited. "It was just a big discovery, an archeological big discovery."

"We successfully spoke to the Undying Dark Phoenix."

Whoosh!

Principal Feng stood up in fright and widened his eyes. Huh?

"It realized that it had possessed a phoenix fire and didn't break through the seal itself."

"He said that he woke up because he sensed the phoenix bloodline awakened after the Scarlet Eye Spirit Dissection."

Principal Feng; "...SO, it's really your fault?!"

"No."

"It said that it's the mother of Chi Tong and the empress. The bloodlines of General Mu Huiyin and the empress all came from it."

"In addition, it said that it was voluntarily sealed into the Undead Battlefield because of some accidents. It's a good phoenix. It wants us to rescue, cleanse, and unseal it after gathering enough strength because it is its mother."

"It even told us a secret realm point that collects legends and divine-level resources. After saying that, it went berserk. Can you understand?"

Principal Feng: @.@

Damn it.

Wait, he was a little confused.

"This... If it's true, it would be an archeological discovery of the century."

"If it's fake... fake... In any case, we're also victims this time," Shi Yu analyzed. "We can't take the blame."

Eleven and the others nodded. Chi Tong was also very innocent. It had a mother for no reason and didn't feel anything, What was going on?

Principal Feng: "What nonsense are you talking about? From the start, from the moment you entered the Undead Battlefield, be careful and tell me word for word. Tell me every detail."

The old principal's wrinkles trembled, and his heart was not calm.

"Alright." Next, Shi Yu explained in detail again. Principal Feng had known about Mu Huiyin's heroic spirit and her identity previously. There was no need for Shi Yu to explain, so Shi Yu only explained his experience with the gem cat in detail again. Principal Feng quickly understood.

Although he understood Shi Yu's words, Shi Yu and the others' experience still made his stomach hurt and his head hurt.

Holy shit.

The empress was Mu Huiyin's younger sister, and their mother was the Undying Dark Phoenix?

This was something Principal Feng didn't even dare to imagine when he was young when exploring the mystery of the Phoenix Race.

"You're experienced and knowledgeable, old man. Look... this is a lie..? Or is it truth."

Principal Feng's expression was stunned.

Who could tell?

The internal strife of the Phoenix Race during the era of the empress dynasty was another historical break. It was one of the ten unsolved mysteries of Dong Huang. Now that the Undying Dark Phoenix had said it, it was completely the same thing. Whether it was true or false, there was no evidence to confirm it.

"Whether it's real or fake, it should be mixed with lies in the truth. Even if it's all true, we can't be sure if it's real or fake now. We can only listen to it as a lie and maintain a certain level of vigilance."

Shi Yu: "After listening to you..."

"I'm enlightened."

"Stop talking nonsense." Principal Feng had a headache, but his heart was a little strange.

Regardless of whether it was true or false, the Undying Dark Phoenix's awakening meant that there was a certain breakthrough in this unsolved mystery.

Principal Feng was also a member of Bureau 11, When he heard such explosive news that it involved the empress's mother, he was also very uneasy.

"Leave the Undead Battlefield to the Legends of the television, the Ancient Capital, and Bureau 11 to deal with. Next, you stay in school obediently and prepare for the exam. Don't go anywhere, do you hear me?"

"As for the Undying Dark Phoenix, it doesn't have much to do with the current you. Whether it's the mystic realm it's talking about, or saving its mother, don't have unrealistic thoughts."

Principal Feng still thought very highly of Shi Yu. Shi Yu was also an orphan. He directly regarded Shi Yu as his junior and still didn't want Shi Yu to court death.

“Tunderstand. Without enough strength, I definitely won’t mess around.”

Principal Feng: “?”

So he was still thinking about it??

After obtaining the information from Shi Yu, Principal Feng quickly rushed to the Undead Battlefield.

The big shots of the Beast Tamer Troops also obtained some information from the gem cat.

As Principal Feng left, only Shi Yu, Eleven, Buggy, Baby Ginseng, Chi Tong, and the others were left in the room.

“Well...”

At this moment, the few of them looked at each other in confusion.

What was going on?

“There shouldn’t be any problems over there, right?” Shi Yu looked in the direction of the Undead Battlefield.

There wasn’t even an overlord level in the Undead Battlefield. Even if a new undead overlord was born because of this mutation, it couldn’t stir up any waves.

‘As long as there was a legend, everything would be settled.

Ancient Capital City was a first-level city after all. There were several legends presiding inside, and countless forbidden weapons that could attack totems were hidden. Unless the Undying Dark Phoenix came out itself, it wouldn’t be a threat to the city.

The ones who were really threatening Dong Huang were creatures from abroad.

The reason why Dong Huang didn’t completely destroy these ferocious beasts and ferocious spirits in the country was purely to protect the ecology. Their existence had always been within control.

With this in mind, Shi Yu no longer cared about the Undead Battlefield. As a high-level Beast Tamer, it was useless to care. After all, he might not necessarily be able to defeat a monarch-level undead alone.

“By the way, how much have you absorbed from the Undying Pond?” Shi Yu asked Baby Ginseng, concerned about his own problem.

He was in a hurry just now and didn’t notice at all. Now, the Undying Pond would probably be gone.

“yi.” Baby Ginseng stretched out its finger. Green light flashed, and a nine condensed on the wooden strip.

Fortunately, fortunately. When the Undying Dark Phoenix was telling a story, it listened and didn’t stop condensing the Mutated Fruit.

It speculated that 90% of the Undying Pond’s power had already been absorbed by it. It wasn’t a loss.

“Wu ~” At this moment, Buggy also pulled open the space and threw out the Death Spirit Fruit condensed by Baby Ginseng.

There were about 13 black fruits lying flat on the table.

“132 So many.”

‘When Shi Yu saw so many mutated fruits, he was slightly stunned and had a happy expression.

This time the ginseng baby wasn’t far from evolution.

Time Soil+Death Spirit Fruit+Time Mystic Realm+Moon Gem. Oh, invincible.

Eh, wait.

Since max-level mutants could condense the power of mutation out of their bodies, at that time, was it possible to condense the Time Fruit in the Time Mystic Realm of Imperial Capital University??

This was much more valuable than the Death Fruit.

Shi Yu had a bold idea.

“yi!” At this moment, Baby Ginseng’s expression was especially smug.

After evolution, it was really a towering emperor.

Although the process was a little complicated, it had to learn the power of death

Even so... Soon, Baby Ginseng saw Little Chi Tong and couldn’t help but have a bitter expression.

Evolution was evolution, but it was ultimately wood-element.

There was a sword spirit with the bloodline of the Sun God Phoenix here, and it was a high-level overlord race. In the absence of a skill proficiency that exceeded expert level, its energy value was almost close to Buggy who had a pile of almost full level skills. When Shi Yu started to nurture Chi Tong, Baby

Ginseng felt that even if it evolved, it wouldn’t be able to get the throne in the team.

Buggy’s skills were so abnormal, it was unknown if it could defeat it.

Baby Ginseng looked at Eleven and looked at it eagerly.

It seemed that after evolution, the only thing that could be surpassed was the leader?

At least the skills of a leader... were traceable.

Eleven:???

“Huh?” Eleven pointed at itself.

Baby Ginseng shook its head repeatedly.

Eleven was angry. Damn it, it wasn’t like it couldn’t evolve anymore!

wu ~”

At the side, Buggy narrowed its eyes in exhaustion. It was too much, too much, almost rolling the leader to the bottom.

“Mil!” Little Chi Tong flew away aloof from worldly affairs. It took out a cup of ice water and drank it with a straw.

Shi Yu was still sitting on the sofa and sighing. He had yet to recover from the Undead Battlefield.

“Undying Dark Phoenix...”

Forget it, he should listen to Principal Feng and stop thinking about it. It was impossible for him to go to this Undead Battlefield again.

In the future, he would prepare to increase Little Chi Tong’s Spirit Release with additional points.

As for the mystic realm that the other party mentioned, Shi Yu was helpless.

That mystic realm was on the seven islands. Before he had legendary strength, even with the big boss gem cat leading him, it would probably be very difficult for him to cross the national border.

Even if there was a chance to enter, this mystic realm might not necessarily be a good place. As long as the Undying Dark Phoenix was lying, this place might be a trap.

“Let’s pretend that we don’t have this mother first. Let’s wait for the big shots of Bureau 11 to investigate carefully.”

Shi Yu said to Little Chi Tong.

This time, the Undying Dark Phoenix had revealed so much information. Regardless of whether it was true or false, the other archeological big shots of Bureau 11 would probably have a certain amount of gains. It was better to wait for the results.

“Mi...” Chi Tong, who had melted an ice cube, was very speechless. It had yet to call Shi Yu ‘mom’, so why was Shi Yu calling that thing ‘mom’?

Could he be a little more stable.

Next, Shi Yu began to revise quietly and prepare for the final exam.

“Regarding the fact that I acknowledged a top-notch totem as my mother and caused the undead to attack the city but still have to prepare for the final exam” was no longer something worth Shi Yu’s time.

“What a sin.”

As Shi Yu sighed, he paid attention to the news of the Undead Battlefield.

In the blink of an eye, a week later.

Fortunately, there were indeed no major problems. All the signs of undead attacking the city seemed to have been directly killed by the big shots in the ancient capital.

“No new undead overlord was born this time. Only more than ten irrational undead monarchs were born, but they were all killed by Legend Yin.”

“However, a large number of plagues and curses continue to cover the core area of the Undead Battlefield. New high-level undead might appear in the short term, so there’s still a need to continue paying attention to the Undead Battlefield.”

Not long after, Principal Feng brought back news, but his greatest concern was: “How did you do?”

He was concerned about Shi Yu’s learning problems.

Shi Yu smiled in embarrassment and said, “The useful subjects will definitely get full marks.”

Principal Feng: “?”

“What do you mean useless subjects?”

“Well, it’s just some architecture stuff, fashion, food history, and so on. There’s also thought classes, various archeological related laws...”

Shi Yu also had limited energy. It was impossible for him to learn every subject. These were all prepared for ordinary archeologists. He just needed to cause trouble.

Principal Feng’s expression darkened. “I called Qingyi back. You’re not allowed to run around during this holiday. Be good and learn from Qingyi. Bureau 11 will help you deal with the Undying Dark Phoenix. Don’t cause any more trouble next.”

“Now, I don’t even want you to go to Dragon Palace City. If you cause trouble there, it’s even more troublesome than releasing the Undying Dark Phoenix...”

“Uh... Then...”

Shi Yu was just about to say what to do about the martial arts conference, but seeing Principal Feng like this, he immediately stopped talking. Well, let the beast-eared girl have a headache about it.

However, the results of this exam would probably give the principal a headache.

Although it was said that he was preparing for the exam, it was more like preparing for the martial arts conference. Shi Yu placed more energy on Little Chi Tong.

He started to add points to it.

He ignored the other skills and maxed out the possession.

Skill: Possession (Dao Proficiency)

After this skill reached the maximum level, Little Chi Tong didn’t change much, but after it possessed Shi Yu, the power Shi Yu could display was even stronger.

Until it reached the perfect level, the strength of the possession state continued to increase.

After reaching the transcendent level, the possession effect changed slightly, from strength to skill.

At this moment, after Shi Yu entered the possession state, the burden on his body was smaller. In addition, under the possession state, Shi Yu could even transform into the form of a sword spirit, the form of a bird spirit, and the form of a phoenix spirit body. This was very magical.

It didn't seem like it had possessed him. Using reverse possession to describe it was more suitable. In this state, the battle power of the two parties was the same as ordinary possession. There were no changes, but at this moment, Shi Yu's human aura would completely disappear. Shi Yu thought for a long,

time and only thought of this move that could be used to disguise himself as an undead and infiltrate the non-human area. There were other uses for it.

As for the Dao Proficiency level possession, the effect was still relatively strong. Shi Yu felt that in this state, Little Chi Tong, who had possessed him, could use its power to subtly strengthen his physique. At the same time, under the possession state, Shi Yu would temporarily obtain the Phoenix

bloodline.

Now, after Shi Yu broke through, as he added points to Buggy, Baby Ginseng, and Chi Tong, his physique had already reached the upper limit. If he wanted to obtain a new upper limit, according to the previous situation, he probably had to break through to the master level. However, the max-level

possession had managed to slowly increase Shi Yu's physique, which had reached the upper limit. Shi Yu was shocked and pleasantly surprised by this change.

He was happy that his physique was getting stronger and stronger. This was naturally a good thing.

The shocking thing was that Shi Yu might really obtain the Phoenix bloodline and become a hybrid one day. If that was the case, he might really have to call the Dark Phoenix "Mommy".

Perhaps even that Bureau 12, which was specially set up for hybrids, had to invite him in.

"In short, don't cause too much trouble next..."

Principal Feng looked at Shi Yu tiredly. He originally thought that Lu Qingyi was already quite noisy, but he didn't expect Shi Yu to be even more noisy.

"Don't worry."

Shi Yu said rather seriously, "I swear that nothing will happen next."

The martial arts conference and the ruins of Emperor Wu didn't look like a place where something could happen. Even if there was, it would definitely be a good thing!

Chapter 235: Wu Ling City

It was already snowing heavily in the ancient capital in June.

Some of the students from Ancient Capital University went home and went out to train. Some also chose to stay in school to study.

Shi Yu yawned and returned to the room to eat porridge after playing a Taichi fan on the snow outside the dormitory.

After transmigrating for so long, he was already used to the weather in this world.

It was completely changeable. The ancient capital was still alright. There were even some places where it was permanently hot and cold.

“It’s delicious.”

Shi Yu said in satisfaction as he held the white rice porridge.

~yile

Baby Ginseng, who was wearing a napkin and eating dirt with a spoon, was full of confidence.

Forget about Buggy’s culinary skills, the quality of the raw materials it provided was definitely top-notch. It would definitely be delicious.

Now, be it Shi Yu, Eleven, Buggy, or Chi Tong’s food materials, they were all provided by Baby Ginseng.

Shi Yu bought the corresponding ingredient seed. Baby Ginseng used the upgraded nutritional supplements, lush, and sweet aura to modify and accelerate ripening. The nutritional value and taste of the plants it created were many times better than the food outside.

wu...”

Buggy felt that its culinary skills were still more important.

In order to let Shi Yu, who was going out to archeology in the future, eat hot food, it took a lot of effort to materialize the entire automatic kitchen.

Although it was an ancient non-machinery operation, it was precisely because of this that it was delicious. Laborer Buggy was the most glorious.

Little Chi Tong landed on the table and quietly ate the Ice Fire Fried Rice made of the combination of the ice rice and the fire rice. There were also a few soul crystals as embellishments, looking very much like the meat in the fried rice. This was specially customized for its taste by Shi Yu and Baby Ginseng.

“Wuu! (I’m full!)” On the other side, Eleven put down the basin and shouted thanks for the hospitality. Then, it eagerly prepared to run to charge itself. It was just for fun to eat. If it wanted to truly feel free, it still had to go to Ancient Capital University.

In the past few months, the frequency and use of Eleven’s charging even exceeded some teachers’ monarch-level thunder pets.

“Wu wu wu?”

However, just as Eleven was about to go to the charging room, it bumped into two uninvited guests at the door.

Two voices were communicating outside the door. From time to time, pleasant laughter that belonged to young women could be heard. Eleven looked up and realized that it was two rich women.

Lu Qingyi, who was wearing a black T-shirt and brown shorts, a white research suit, and black silk pants.

As well as White Brook, who was wearing a white outdoor combat suit and black combat shorts.

The two of them chatted as they walked to Shi Yu's dormitory door.

"Eh, it's Eleven." At this moment, White Brook noticed the little Iron-eating Beast looking up at them around 0.3 meters from the dormitory door.

"Long time no see." Lu Qingyi also smiled and greeted Eleven.

"Wuuu!!" Eleven waved its arms up and down to welcome them.

"Where's your Shi Yu?" White Brook asked.

"Wu wu wu...!" Eleven pointed at the room. It was recuperating.

"Wuu! (Follow me!)" With that said, lightning shot out of its fingertip. An electric arc led to the door, helped the two of them open the door, and prepared to lead the way.

In the room.

Shi Yu was filled with sleepiness.

He had indeed not slept well these few days.

Little Chi Tong was about to squeeze it dry.

It was not easy for his physique to explode. Shi Yu, who had not added any points to Little Chi Tong, finally placed his focus on it.

Apart from the possession skill, the other three high-level skills, Light Flame Sword, Soul Slash, and Deterrence, were also raised to the standard of all proficiency and perfection first. This was to prepare for the approaching martial arts conference.

As for the second one, it was Baby Ginseng.

Its racial skills were still alright. Apart from the super skill source of life, they had already been maxed out. However, the taught skills still had the four skills of Strengthening, Energy Fruit, Multiplication, and Absolute Sleep at the perfect level. They had yet to be maxed out.

Shi Yu planned to wait until it was all maxed out before going to the time mystic realm of Imperial Capital University to give Baby Ginseng the final mutation evolution.

Of course, apart from these skills, Baby Ginseng still didn't have the common skills in Shi Yu's team, Deterrence and Super Sight. Neither. Among them, Shi Yu felt that the priority of the super Sight skill should be raised to the highest. He had to prioritize Baby Ginseng.

"Uh, your house is..." Shi Yu asked.

"My parents are businessmen. They've also heard of you," White Brook said. "They've long wanted to meet you."

“The entire White Brook family has the Fusion Talent, and it’s also one of the organizers of the martial arts conference. It protects the Emperor Wu Ruins.” Beside him, Lu Qingyi added, “Have you heard of the Wu Ling Bai family?”

“..” Shi Yu was silent.

He really... didn’t know.

“Wu Ling Bai family is a martial arts family with a very long history. The entire family is mainly composed of Beast Tamers themselves in battle. The family involves archeology, business, medical care, education, nutritional supplements, and many other industries. It’s a very large Beast Tamer family.” Lu

Qingyi smiled and introduced.

“Uncle and Aunt operate a company that specializes in selling Beast Tamers’ body tools and nutritional supplements. The body-forging facilities of Ancient Capital University are all provided by Uncle and Aunt’s company. In addition, White Brook’s second grandfather is a retired legendary Beast Tamer senior, so White Brook is considered the little princess of the Bai family.”

“It’s far inferior to Senior.” White Brook pounced on the food like a hungry tiger and pounced on Lu Qingyi. She wanted to hug her, but she was directly pushed away by a hand.

Shi Yu:... They really didn’t treat him as an outsider.

However, this was the first time Shi Yu had learned of the situation in White Brook’s family. As expected, she was another rich woman!!

A family that involved many domains sounded very rich.

“So when are we leaving??” Shi Yu asked.

Lu Qingyi, White Brook, and Shi Yu looked at each other.

“There’s no time to lose,” White Brook suggested. “Let’s go today? Principal Feng doesn’t seem to be around today.”

‘Wu Ling City.

In a second-level city.

This was considered a very developed second-level city. It was a second-level city at the top. Its development was much better than Icefield City.

Martial arts were popular in Wu Ling City. Compared to the Beast Tamers elsewhere, the local Beast Tamers paid more attention to training their bodies. Even if it wasn’t their battle-type Beast Taming Talent, they had to train their bodies well.

The reason was also very simple. It was related to history. According to historical records, Emperor Wu was from Wu Ling City and rose up from here. Therefore, in the subsequent dynasties, this area advocated the style of martial arts.

‘Wu Ling Airport.

The two girls with extraordinary auras and a handsome young man wearing sunglasses beside them attracted everyone's attention.

Even if handsome men and beautiful women were very common on this blue planet where most people were transcendent life forms, the three of them were still very conspicuous. Especially White Brook, she attracted the gaze of many people that far exceeded Lu Qingyi and Shi Yu.

Many people swallowed their saliva when they saw White Brook's figure. It wasn't that she was very voluptuous, but that she was very coordinated. She clearly looked quite strong, and it was obvious that she was a combat expert, but her physique was surprisingly perfect, perfectly balanced at the optimal point. This was the figure most people in Wuling City envied.

In comparison, the older sister-like Lu Qingyi was clearly not a battle-type Beast Tamer. As for the fiery red Shi Yu, although he was handsome, he didn't look very strong. He looked weak, like a freeloader

Fortunately, Shi Yu didn't know what the other party was thinking. Otherwise, he would definitely protest seriously.

He was the one with the strongest physique among the few of them. It was completely no problem for him to punch a transcendent-level beast. As for his figure, although it didn't have any muscles and might be very ordinary, it definitely revealed valiance in ordinaryness. Training a body of muscles

could only attract men.

"Let's go to my house directly."

After coming out of the airport, White Brook directly suggested.

"It's still early. Why don't we go shopping?" Lu Qingyi said.

White Brook immediately agreed and said, "Alright, alright. I know a new perfume store. The owner is a master-level botanist who specializes in flower-type pets. The products are all specially made by her. Do you want to take a look?"

"alright."

Shi Yu:"..."

Perfume?

Shi Yu had plenty of that to offer! He could have as many as he wanted, and they were all top-notch quality. Was there a need to buy them?

"..." Shi Yu suddenly recalled that after Baby Ginseng's sweet aura rose to the maximum, it had never been given to Senior Lu and the others. Girls should like this thing, right? It was a sin to let Baby Ginseng serve the gem cat... In a while, he would let Baby Ginseng create an exclusive perfume and send a

bunch to Senior Lu and Senior Panda.

"shi Yu, what about you?" Lu Qingyi looked at Shi Yu.

To

Shi Yu took a look at White Brook's expectant gaze and decided not to be a third wheel. He said, "You guys shop. I just checked with my cell phone. There seems to be an antique street nearby. I'll go take a look over there."

"Eh..." White Brook said, "Alright, then go quickly. But don't buy random things. There are so many conmen over there. They specialize in deceiving foreign tourists who don't know anything. How can there be so many treasures to sell?"

Lu Qingyi said, "Don't worry, he's a veteran of that world."

Shi Yu : " ... "

Chapter 236: Listening to History Again

'Wu Ling City was prosperous, so naturally there was a pile of antique swords and armor.

In ancient times, zither, chess, calligraphy, paintings, and antique swords could nurture spirits and transform into pets.

As for now, perhaps only ruins preserved from ancient times like the Heroic Spirit Ruins could be able to find similar spirit bodies.

Perhaps there were no antique sword-type pets sold in Wu Ling City, but there were many broken swords, broken armor, or antiques that had once had spirits here.

Apart from these, there were also some modern equipment that imitated ancient weapons, similar to Shi Yu's Ice Dragon Blade. These equipment were surprisingly popular here. After all, in Wu Ling City, Beast Tamers without much equipment to add to their bodies, they would be completely embarrassed to go out and fight others.

In order to not disturb Senior Lu and the beast-eared girl's happy shopping time, Shi Yu chose to shop alone. He directly followed the navigation and arrived at the popular antique street in Wu Ling City.

"Little brother, little brother."

Just as Shi Yu entered the street, he was stopped by an uncle who was setting up a stall.

"Look at my jar?"

"None of them are empty."

Shi Yu: "?"

The last time someone said that, it was an owl.

Shi Yu looked over and saw that the middle-aged man in a brown coat was smiling as he pointed at the dozens of jars of various sizes placed on the stall. The big ones were the size of a water tank, and the small ones were the size of a can

"If you draw, you'll definitely get an antique. ten thousand for one draw, ninety thousand eight ten draws. It's one free extra draw."

"90,000, 80 draws?" Shi Yu asked.

"You mean 98,000 for ten draws!"

Shi Yu said, "Do you think I'm stupid?"

The middle-aged man said, "Sigh, from what you're saying, you're not a local, right? You go and ask other stalls about our jars. There was once a customer who opened an antique chessboard from our jars."

"He originally wanted to just collect some items. Guess what? There's actually a chess soul sleeping in this chessboard!"

"You have to know that these antiques can no longer give birth to spirits in the modern era, so those are ancient spirits that buyers earned with their lives. If these ancient spirits are in a slumber stage, these antiques will be like ordinary items, so who can guarantee that ten thousand yuan won't get you an overlord race ancient spirit?" The uncle patted his leg in excitement.

"Chess soul?" Shi Yu said, "Really?"

"It's true," the middle-aged man said. "Under the guidance of the chess soul, that person has already become the number one expert chess player in Wu Ling City. Everyone knows that it's the chess soul that opened the jar."

Shi Yu: "Sorry to disturb you."

Shi Yu turned and left.

Although ten thousand yuan was nothing, he wouldn't be so bored as to buy an antique jar.

Most importantly, through the jar, he couldn't judge the era of antiques with special meditation techniques at all. This liar was very sinister!

The beast-eared girl was right. There were indeed no good people on this antique street.

Then, Shi Yu slowly strolled around the antique street. There were no especially big shops here. They were all stalls or small shops. They looked very unreliable.

However, it was too absolute. As the data in front of Shi Yu's eyes jumped, he also discovered a big black dog lying on the ground in a certain store. It was a commander-level pet. The store owner looked like a friendly old man. A Beast Tamer who could raise a commander-level pet shouldn't be a liar,

right?

Shi Yu entered the store.

A moment later, Shi Yu left the store.

"Liar."

Shi Yu entered the store and walked around before coming out directly. Alright, he understood why the other party could afford to raise a commander-level pet. Black, his heart was really black.

He stood on the spot and closed his eyes to meditate for a round. He actually didn't sense anything that had a history of more than a hundred years, they were all young items.

So dogs were used to chase away people who knew how to sense these things.

"It's boring."

After strolling for more than ten minutes, Shi Yu suddenly understood before he reached a tenth of the street's length.

'As expected, he didn't have the legendary protagonist plot armor. He couldn't even shop on the street and find treasures.

Shi Yu turned around and focused on the stone mirror. At this moment, Shi Yu's vision kept shrinking, and his gaze seemed to fall into the world of the stone mirror.

History appeared vaguely.

In Shi Yu's vision, he saw a child who might not be more than ten years old with a goatee.

She held the stone mirror and aimed at the rocks and trees by the roadside, shining it randomly.

Under the illumination of the stone mirror, a surprising scene occurred.

Anything reflected in the mirror changed.

The stone evolved into an elemental life form and turned into a fist floating in the air.

The tree opened its eyes, obtained its feet, and became a tree spirit tree demon.

The scene was extremely unbelievable.

Upon seeing this scene, Shi Yu cursed in his heart. Then, the scene stopped. Shi Yu's vision was pulled back to reality.

At this moment, Shi Yu was slightly shocked. He looked at the stone mirror solemnly.

Wait, wait?!

This stone mirror.

This stone mirror could allow ordinary objects and ordinary life forms to evolve and awaken as transcendent life forms?!

An ability similar to "Awakening Talent"??

Awakening Talent, a very abnormal Beast Taming Talent. It could allow ordinary rocks, lakes, and mountains on the roadside to evolve into transcendent life forms and evolve into life.

Although this talent didn't have strong battle power, it could create pets in batches. From the Emperor Dynasty to the modern era, the rulers of every era would promote this talent as a Beast Tamer. There was no other reason, because as they developed the Beast Taming Talent, they could steadily produce high-quality pets.

Although it might be very difficult for overlord races, monarch races could still be done at a certain price.

An undeveloped awakening talent might only be able to awaken a stone into a fist stone of a low-level transcendent race, but the developed awakening talent could even awaken a mountain peak into a rock giant of a monarch race.

They were the creators of pets.

As long as the awakened target met the aptitude, they could accelerate the process of the other party evolving into a transcendent life form and increase their potential.

The beginning of this talent was the modern era.

A Beast Tamer from the Divine Wind Nation "Shen Feng" used his "Awakening Talent" to open up the Mechanical Life Era. A Beast Tamer from Dong Huang followed closely behind. The concept of Mechanics quickly became popular in the world. In the last Totem War, Mechanics played a crucial role in the

war.

According to what Shi Yu knew, Gao Xuan from Imperial Capital University seemed to have an awakening talent. His mechanical pet was created according to his own ideas with the help of the big shots in the fourth bureau.

'And now, Shi Yu rubbed his eyes. He had seen something.

This was... an item with the effect of awakening talent?

At this moment, another group of people had already surrounded this stall. However, these people took a look at the price and directly shook their heads and left.

Behind the stall, the young man sitting on the wooden stool pinched his pants. His legs were already numb from sitting, but he still stared straight at the stone mirror.

He didn't believe that the treasures passed down from generation to generation in his family were only ordinary items. As long as he waited... someone who knew the value would definitely appear.

"You..."

Just as the young man's heart was in a mess, a black shadow appeared in his vision.

He looked up and saw a tall young man wearing a dark red trench coat and cloak. He wasn't much older than him.

"What's your name?" Shi Yu asked.

"An Chang," he said directly in the face of Shi Yu's question.

“Is it true?”

‘An Chang nodded heavily.

“I buy this stone mirror,” Shi Yu said directly and said the main point.

At this moment, Shi Yu was also very nervous. Although he knew that this stone mirror was a treasure in the past, it was still uncertain what the current situation was.

If this thing had already lost its function, Shi Yu would suffer a huge loss.. However, on the other hand, if he found the method to use it, he would make a killing!

Chapter 237: It's Time to Do Gundam

“You’re saying... you want to buy it??”

‘As Shi Yu appeared, the young man, An Chang, was stunned. Then, he was instantly pleasantly surprised.

“Really???” He was suddenly a little excited.

This money was not a small amount.

Not only was An Chang stunned, but the other passers-by were also stunned. Someone really bought this thing?

With this money, why couldn’t he buy a house and a luxury car... What family was he from?

“Yeah, can I transfer the money?”

Shi Yu had already taken out his cell phone. The young man opposite him hurriedly waved his hand and said, “Well, can, can we go to the bank to transact?”

“I don’t have a cell phone.”

shi Yu:” ...”

It was troublesome.

“Then let’s go,” Shi Yu said after a moment of silence.

Forget it, he couldn’t let Buggy materialize a box of cash for him, right?

That would be too much.

“alright.”

‘An Chang, seeing that Shi Yu indeed wanted to buy it, couldn’t help but be overjoyed. He immediately got up and wanted to clean up the stall, but he seemed to have forgotten that his legs were about to go numb. When he got up, he fell and fell forward.

An Chang: 5 (° A* | |)

“..” Shi Yu.

“It’s not a big problem.” He quickly supported him with his hand and patted his clothes.

A moment later, under the stunned gazes of passers-by, the young man setting up the stall left with Shi Yu. For a moment, passers-by couldn’t tell if the young man setting up the stall was a liar or if Shi Yu was a liar.

Shi Yu and An Chang left Antique Street.

As the two of them walked to Wu Ling Bank, An Chang observed Shi Yu carefully from behind.

After his joy, he suddenly felt a little nervous. He was afraid that Shi Yu was a liar.

It was mainly because Shi Yu was too young, Could five million be taken out so easily?

“Do you know the origin of that stone mirror?”

Shi Yu walked in front and asked without looking back.

“I don’t know... But according to my family, it’s a very precious treasure, but the usage... was lost in the flames of war.” He asked Shi Yu, “Do you know what it is?”

“Tknow, but I don’t know,” Shi Yu said.

An Chang:

“I’s indeed a treasure, but I’m not sure if it can be used or how.”

“Then are you still buying?” he asked nervously.

He only wanted to know if the stone mirror could be sold.

“”Tll buy,” Shi Yu said, Five million wasn’t a lot. Buggy, Baby Ginseng... they could easily earn it.

‘What really made Shi Yu feel that it might be a loss was that he knew the use of this stone mirror in advance.

At that time, if he bought it and couldn’t use it, would he lose five million yuan? No! He would lose a divine weapon! He would lose billions.

He was an old capitalist. If he couldn’t earn, he would lose.

“Thank you,” An Chang hurriedly said.

“Excuse me, what’s wrong with your mother?”

After chatting with the other party for a while, Shi Yu sensed the other party’s mental fluctuations. In addition to the value of this stone mirror, he already believed that what was written on the other party’s wooden board was real.

“Life force loss...” An Chang said after a moment of silence.

“Your mother is a Beast Tamer?”

Shi Yu stopped and looked at him.

That made sense. With such a family heirloom, it would be strange if there were no Beast Tamers at home.

Life loss was a very common disease among Beast Tamers. It wasn't accurate to say that it was a disease, but it was more like an injury.

This phenomenon usually occurred after many Beast Tamers died.

If the Beast Tamer was in perfect condition when the pet died, it would be basically not a big problem.

But if the Beast Tamer's state was extremely poor at that time, and the pet died, the contract would backfire on the Beast Tamer himself, causing the Beast Tamer to lose his life force.

Which refiner genius created this mirror?

Seeing the caterpillar in front of him complete its awakening and become a level-one transcendent life form, Shi Yu instantly stared at it.

“i!” The green worm was shocked.

“Change!”

“Change!”

Shi Yu raised the stone mirror again and aimed at the Green Silkworm.

Under the light, the green worm was shocked.

However, this time, the Green Silkworm didn't change at all, and the stone mirror didn't take Shi Yu's physical fitness anymore.

As expected, the stone mirror was the same as the awakening talent. It could only awaken things that weren't transcendent life forms to evolve into transcendent life forms, but it couldn't let them transform again.

si

This thing

” After being played by Shi Yu consecutively, the Green Silkworm was so scared that it hurriedly crawled into the flower and ran away without a trace, leaving Shi Yu silent on the spot.

Shi Yu stared at the stone mirror. He felt that this thing should have been made by a big boss who had awakened his talent during a totem period.

Just like General Mu Huiyin, he extracted his Beast Taming power. The creator of the stone mirror was also a legend.

“This is not a loss.”

Soon, Shi Yu confirmed that he would make a big earning.

Although this thing couldn't directly increase strength, its value was ridiculous.

If that An Chang knew the use and sold it to the association and the financial group, the other party would buy it for tens of billions, Not to mention treating the loss of life, the entire hospital could even be gifted to him.

"Let's go take a look at him later."

A stable tool to create cubs of monarch species.

With this, he could be like a Beast Tamer with awakened talent, wholesale high-level pets.

Of course, it wasn't a zero price.

'When activated, it would consume the physical strength of the Beast Tamer. It would probably be the same as the awakening talent. The greater the potential of the awakened target, the greater the consumption of the body.

Helping a caterpillar evolve into a green worm had consumed some of Shi Yu's physical strength. If he awakened a mountain, Shi Yu estimated that the physical strength consumed would not be small.

In addition, not everything could evolve through awakening talent. Awakening evolution also required a certain aptitude.

In the historical records, there were also Beast Tamers with awakened talent who wanted to evolve their snot into transcendent life forms. They wanted to evolve their shit into a shit monster to fight against enemies and disgust them, but they directly ended in failure.

This was considered very crude. There were also records that Beast Tamers with awakened talent wanted to evolve the meteorites falling from the sky into life forms, wanted to evolve high-level resources into life forms, wanted to evolve the ferocious beasts from the ancient era into transcendent life

forms, and let the ancient creatures revive... but they all ended in failure.

Perhaps it wasn't that these things didn't have the aptitude for evolution, but that the ability to awaken talent was limited. It could only evolve specific batches of beasts, plants, and elements.

It was precisely because of the limitation of the awakening talent that the awakening talent only became a powerful talent in the top ten, when someone in the modern era discovered a Mechanic that could awaken steadily.

"I wonder if this Awakening Mirror can be effective against ancient biological fossils..."

"What about the phantom illusion that uses the ancient biological fossil as the core? Can it reverse the phantom and awaken it into life... If it can, this is considered cloning, right?"

"Wait, don't be happy too early. After all, this is an inanimate object. It can't grow as a Beast Tamer grows like an awakened talent. What if there's an upper limit that's just a toy and can only awaken transcendent races?" Shi Yu calmed down.

At that time, forget about the fossil life forms, the commander race would be inaccessible.

“However, even if it can only awaken transcendent races, it’s not useless.”

At this moment, with history as an example, Shi Yu held the stone mirror and suddenly felt that the best use of this thing might be to use it in the mechanical domain.

The greatest characteristic of Mechanics was that they could fuse and arm themselves to evolve. They could rely on upgrading the mechanical beasts’ parts to make their mechanical pets stronger. They didn’t have to do it in one go, so it wouldn’t consume too much physical strength for Beast Tamers at once.

It wasn’t impossible to upgrade and assemble a monarch race machine with ten thousand transcendent race parts.

Up until now, there had been no record of Beast Tamers who had awakened their overlord race pets directly. However, Mechanics could awaken different parts through awakening their talent and upgrade and assemble overlord race machinery. This was the most impressive thing about Mechanics.

Shi Yu could not sit still anymore and imagined it.

“With the ancient fossil and phantom illusion as the core energy source, what about equipping it with the mechanical life shell? Mechanical Tyrant Dragon Beast? Mechanic class, ancient species? Is this considered opening a new mechanical beast faction?”

“Now, does this mean that he even has the capital to join the fourth bureau?”

Shi Yu slapped his thigh. He would fight anyone who said that the archeology Department had no future. Who else could join the Mechanical Bureau with archeology!

No matter what the upper limit of this stone mirror was, awakening a transcendent race was definitely not a problem.

For Mechanics, this was enough.

At that time, with additional points, it might not be impossible to create powerful mechanical lives.

He had decided. Next, he would collect various mechanical materials and create a Gundam like creating the Ice Dragon Blade!! He wanted to change departments and study in the Mechanic class!

“Change, change!”

“Mommy, look, there’s a fool.

Chapter 238 A Tragic End for the People of Wu Ling

Wu Ling City Hospital.

In an office, Director Yao, who was in charge of the recovery of the Beast Tamer’s major injuries, was handling the documents in his hand.

On his office table, a white dandelion lay in the flower pot and yawned.

This was a plant-type pet that was good at healing.

At this moment, there was a knock on the door. Director Yao looked up and said, "Please come *in*."

The door was pushed open. A teenager about fifteen or sixteen years old said at the door, "Director Yao."

"It's An Chang, come in quickly." Director Yao smiled and said, "Didn't you have class today?" "It's better for you to go to school in peace now. Don't keep coming here. The hospital plans to organize another donation. Don't worry about your mother's next treatment." "Well, Director Yao, I got the money." After An Chang entered, he said more excitedly, "It's exactly five million. I remember you previously said that the treatment chances of a medicine are above 90%, right?"

"Uh." Director Yao was slightly stunned. "Where did you get the money?"

They were all too clear about the conditions of the An Chang family. Although it was alright in the past, An Chang's parents, who had become vegetative because of an accident, couldn't afford much treatment now.

"Don't tell me you sold the pet your father left you?" Director Yao was shocked and said.

"No, I found an antique at home and successfully sold it," An Chang said. "Director Yao, with the medicine, my mom can recover, right?"

Director Yao nodded in surprise. He was still a little stunned. What antique could be sold for five million yuan? Why didn't he hear An Chang mention it before?

"Well... When can we start the treatment? I can pay the fee at any time," An Chang said anxiously.

"Miao???"

At this moment, the white dandelion that was napping at Director Yao's desk suddenly froze. It floated up from the flower pot and looked at An Chang in surprise. To be precise, it looked at his pocket.

"Mu?!!"

The dandelion suddenly shouted and flew in front of An Chang, scaring him.

"Why, what's wrong?"

"Uh." At this moment, Director Yao was also a little confused by White Pu Ying's actions. But soon, White Pu Ying transferred her perception to Director Yao.

"Mu!!" The white dandelion was very serious.

In his pocket, there was a very high-level resource! Very high! "Is there... anything in your pocket?" Director Yao asked.

As soon as he finished speaking, An Chang was stunned and quickly took out a white fruit.

At this moment, when it saw this white fruit, the white dandelion directly exploded, and its saliva flowed out of its mouth.

It even hallucinated in front of its eyes and saw a cute ginseng baby waving at it.

Love, love.

“Mu!!”

It quickly turned around and told its Beast Tamer that it felt that this thing... could increase its life level and let it complete its evolution!

“What?!” Director Yao was stunned and was directly shocked. This white dandelion was his new medical pet. He also knew the evolution conditions. It was definitely not something a random fruit could help evolve casually. However, the white dandelion was telling him now that it sensed that this fruit could allow it to complete its evolution?

What quality resource could make the white dandelion have such a reaction...

“Yes, by the way, Doctor Yao, this fruit...” An Chang said, “The person who bought my antiques gave it to me. He said that it might treat life loss and wanted me to show it to you.

He handed the nutritional fruit to Director Yao.

At this moment, Director Yao took the nutritional fruit and White Dandelion landed on his shoulder. Both parties sensed it and their expressions immediately became serious.

“Although this fruit is a level-four resource, the purity of the life force is very high and very rare. It might be more suitable to treat life loss than that five million Life Potion... Its value is very high.”

He had been a doctor for so many years, but he had never seen this fruit. The rarest thing was that this fruit could actually help pets evolve?

“Really??” An Chang was stunned.

It was worth more than five million yuan??

“But after all, there’s no precedent for using it. The hospital definitely won’t use this fruit with unknown information as a medicine. This fruit... No, who was the person who gave you the fruit? Do you know his identity?”

Director Yao said, “The value of this fruit is above five million yuan. Who exactly did you encounter...”

“I don’t know... But he’s not much older than me.” An Chang was extremely confused. He didn’t expect Shi Yu to casually give him such a precious thing.

Director Yao’s expression was serious. Was he a second-generation heir or a rich second-generation heir?

Such a person liked to collect strange things. In addition, he was generous. “Keep this fruit well. My suggestion is to still use the Life Potion to treat it. You can go to a professional feeding agency to

appraise this fruit and give it to your pet to eat or sell to our hospital.” Director Yao handed the fruit to An Chang

Beside him, White Dandelion’s face was filled with tears. Could it eat it?

“If possible, I’ll call the Dean over later. At that time, please show us this fruit again.”

“Also, can you still contact the person who gave you the fruit?” Director Yao looked at the confused An Chang and said. He wanted to ask if there were any more of these fruits. If there were, Wu Ling Hospital would definitely be willing to buy a large amount of these fruits.

“I have his number...” An Chang said.

“By the way, his name is?”

“Shi Yu.” An Chang remembered Shi Yu’s name and phone very clearly along the way.

Wu Ling City.

Shi Yu had already come out of the park. He had tested it with the Tyrant Dragon fossil just now. Unfortunately, this stone mirror was really not powerful. It couldn’t give life at all.

Forget about the Tyrant Dragon fossil, he couldn’t even awaken a high-level energy crystal into an elemental life form.

It really could only awaken transcendent races?

Damn, no wonder in the historical scene, it was a child playing with it.

Perhaps it was really a toy prepared by some big boss for a child.

This way, if he wanted to use this stone mirror well, he had to choose the Mechanic class. After all, only the Mechanic class could rely on assembling and upgrading to create mechanical lives of high races.

As Shi Yu was mumbling, his cell phone suddenly rang. When Shi Yu saw that it was an unknown number, he was conflicted between answering and ignoring the two options.

A moment later.

“Who is it?”

“Are you Mr. Shi Yu? I’m the director of Wu Ling City Hospital, Yao Jie. Do you know a child named An Chang?”

Shi Yu’s heart skipped a beat. “What’s wrong?”

“Did you give him a special fruit?” “Our hospital wants to buy a large amount of this fruit. I wonder if you have the intention to talk about it... If it can be used in medical treatment, this fruit is definitely a top-notch divine medicine.”

Shi Yu patted his chest, scaring him. He thought that something had happened to the patient after eating the nutritional fruit. If he could eat it as a candy, others might not necessarily be able to. It was precisely because of this that he got An Chang to get a nutritional fruit for the doctor to see first.

From the looks of it, the hospital had found him after discovering the value of the nutritional fruit?

The max-level nutritional fruit was indeed extraordinary... Firstly, the nutritional fruit was condensed by the ginseng baby into its own nutrition.

It had also been modified by skills such as the level-eight Fruit of Life, the source of life of a super skill, the Dao Proficiency Sweet Aura, and Slow Healing. In addition to the nutritional multiplication of the Dao Proficiency Fruit, the fruit condensed could be said to heal someone to death. Its not the most amazing medicine, but it could indeed be considered a medical divine medicine.

At least, no matter how serious the injuries caused by Buggy and Eleven's training were, a fruit could instantly recover to its original state. A hole in its body could slowly recover, and it could also subtly change its physique. It was dozens of times better than their own high-speed healing.

"Not interested." Shi Yu rejected directly.

Although the nutritional fruit of the ginseng baby could indeed save many people, how could the ginseng baby have the energy to create in large quantities? Moreover, after it flowed into the market, it would definitely be exclusive to high-level people. The injuries and illnesses of rich people could be cured no matter what. The reason why the illness of poor people couldn't be cured was purely because they didn't have money. It had nothing to do with medicine, and it wasn't very meaningful to cooperate with Wu Ling Hospital.

When Baby Ginseng developed a commoner divine medicine with a high cost-effective ratio one day, it would be better to directly cooperate with the Medical Bureau of Division 13. At that time, he could join another bureau...

[Ginseng Baby:...]

"Ah..." When he heard Shi Yu's rejection, Director Yao was stunned. Opposite him, an old man in a white coat stared.

At this moment, Shi Yu's voice sounded again.

"By the way, can that An Chang's mother be cured? Does he have enough money?"

Shi Yu recalled the most important thing. He felt a little apologetic to have obtained a divine weapon from the other party. Ignoring everything else, at least the money for treatment couldn't be insufficient.

"There shouldn't be a problem."

"Should??" Shi Yu asked. "It means, not 100%?"

"Is there a treatment plan for 100% recovery?"

"Forget it, Wu Ling City Hospital, right? I'll go take a look now." Shi Yu glanced at the time. It was still early, and the two seniors probably weren't done shopping.

At the same time, after Shi Yu hung up, in an office in Wu Ling City's hospital, Director Yao, the president of Wu Ling City's hospital, and the other doctors looked at the nutritional fruits in the container on the table and fell into deep thought.

“Is the other party really called Shi Yu?” Dean Bai confirmed with Director Yao again.

“Yeah, Dean, what’s wrong?” Director Yao asked.

“This name is a little familiar,” a female chief doctor said.

“Shi Yu, a student from Ancient Capital University, the top scholar of Ancient Capital University’s vocation assessment this year. Of course, these titles are nothing.” Dean Bai shook his head and said,

“Most importantly, Shi Yu won first place in this year’s Imperial Capital Feeding Conference. He brought the Feeding Team of Ancient Capital University, including the legend Hua Xiajin and Dr. Zuo Jiangyun, and researched the evolution plan of the Green Silkworm cocoon that affected the Beast Taming Domain. He himself is also the Beast Tamer of the overlord species’ Butterfly of Imagination... He was evaluated by the media as an outstanding youth of the year... Could it be him?”

As Dean Bai finished speaking, the doctors in the room widened their eyes.

“Of course, I can’t be sure if it’s the real person, or maybe it’s just a different name?”

A moment later, at Wu Ling City Hospital.

Shi Yu followed the agreed address and teleported over.

In the room, Dean Bai, Director Yao, and some other doctors were communicating around the nutritional fruits on the table.

At this moment, Shi Yu arrived under the lead of a young nurse.

After they knocked and entered, the young nurse said,

“Dean Bai, Mr. Shi Yu is here.”

In the room, six doctors in white coats looked over.

Five of the doctors looked at Shi Yu in surprise.

Among the few of them, the older Dean Bai looked at Shi Yu and compared it with his memories again. His expression changed in shock.

“Student Shi Yu, so it’s really you. Hello.”

He quickly walked forward, his expression turning surprised and pleasantly surprised. He ran over warmly to shake Shi Yu’s hand. “Hello, hello. I’m the dean of Wu Ling City’s hospital, Bai He.”

“Hello.” Shi Yu was slightly stunned. So enthusiastic?

After seeing Shi Yu, Dean Bai, who had been feeling that there was something wrong with the name Shi Yu since just now, was completely certain. He introduced him to Director Yao and the others. “Let me introduce you.”

“This is Student Shi Yu, a top student from Ancient Capital University. He’s first in this year’s Imperial Capital Feeding Conference.” Dean Bai had a smile on his face. Under the shocked expressions of the chief physicians, he said, “I didn’t expect the owner of this fruit to be Student Shi Yu. I didn’t expect...”

It was really Shi Yu himself!

Although Shi Yu was still a student, to be able to let a legendary Beast Tamer and a famous professor act as his assistant... To be evaluated as having legendary talent, how could he be an ordinary person?

Many doctors and even Dean Bai showed polite and respectful expressions.

At this moment, Shi Yu discovered the nutritional fruit on the table.

Seeing this, Director Yao immediately said, "Little Chang entrusted us to appraise it. Student Shi Yu, you just said that you came for An Chang?"

At this moment, after confirming Shi Yu's identity, everyone stopped mentioning the nutritional fruit. No matter where Shi Yu obtained it, with Shi Yu's identity, he wouldn't choose a city hospital in a second-level city even if he wanted to do a collaboration. They knew their position. "Yes, can I understand his situation?"

The doctors looked at each other. Director Yao said, "Let me explain."

"This child An Chang... His parents are both fishermen and Beast Tamers. His family conditions were originally not bad, but during a trip to catch fish, his parents encountered a mutated and evolved sea beast. That sea beast was very strong and fierce. The two of them were no match for it. In the end, although they barely escaped, in order to protect them, their pets basically died. In addition, they both had Fusion Talent and also fought. After escaping, their condition wasn't very good. After a wave of drowning and drifting, they finally became like this..."

"That was a year ago. An Chang's father failed his treatment and passed away. His mother's condition is relatively better, but she needs continuous treatment. In the past year, the treatment fees for the two of them have almost spent all the savings in An Chang's family."

"This child is also miserable. He lost his parents when he was only in his teens, and he doesn't have any other family members..." Dean Bai sighed.

Shi Yu : " ... "

It was indeed very tragic.

His father had Fusion Talent?

It had the same talent as the beast-eared girl...

However, although the beast-eared girl was powerful, it didn't mean that this talent was strong. In the eyes of some people, this talent was inferior to an ordinary strengthening talent.

Unless there was a mine at home to ensure that the Beast Tamer's physique was too strong, the Fusion Talent was still very deceptive.

Beast Tamers with Fusion Talent couldn't avoid their own battles if they wanted to perfectly unleash their talent. And once it involved their own battles, the chances of their bodies having problems were too high. The pets could still barely rely on their outstanding racial advantages to withstand some serious injuries, but human Beast Tamers...

The beast-eared girl's family was rich and it was a traditional martial arts family. She had trained her physique since she was young and far exceeded her peers. Only then could she let her be bold enough to tear apart a monarch-level pet with her bare hands. If it were other Fusion Talent Beast Tamers with trash physiques, their own battles would be purely suicidal. Even with the enhancement of the pet fusion, the chances of their bodies having problems were still very high.

In addition, the fishermen were in a dangerous industry. An Chang's parents should have been mentally prepared for this situation long ago.

In the end, it was still because the Fusion Talent was a scam. This was also why many Beast Tamers with the Fusion Talent went to do irregular jobs. At least, the danger was small and the money was high. Now, it was too difficult to be a proper Beast Tamer.

"Like I said on the phone, how much do you need to press the 100% cure? I'll pay," Shi Yu said.

He planned to help the other party pay all the treatment fees.

Dean Bai: "Money? No need. This child, An Chang, is honest and filial. After his parents were hospitalized, it was really not easy for him to work and study alone. Now that it has come to this, our hospital has already planned to pay to treat his mother."

"100% is good," Dean Bai said confidently.

Shi Yu: "?"

Why didn't Shi Yu believe that the hospital was so kind?

The doctors smiled in embarrassment. They weren't that kind in the first place. At most, everyone would donate and sponsor them. After all, the price of the medicine wasn't cheap. If it was like this for every injured patient, the hospital wouldn't be able to continue operating. When the time came, the problem would be even greater, but now... Shi Yu was here. They had to be good until the end. They couldn't really let Shi Yu pay, right?

Special people had to be treated specially.

"No, I have to pay," Shi Yu said.

Otherwise, he would burn his hands with guilt using this stone mirror.

If it was the rich lady's thing, he would take it and treat himself as a freeloader. In any case, he had been living off the country since he was young in his previous life and was used to it.

Unfortunately, it wasn't a rich lady this time, but a poor guy. He didn't feel at ease doing it and felt awkward.

Chapter 239 Evolution Planner Shi Yu

A moment later, after Shi Yu negotiated with the courtyard, everyone went to find An Chang. "An Chang." "Come out for a while."

In a ward, An Chang was lying on the bed accompanying his unconscious mother. He had been running around for the whole day and was already exhausted and very tired. At this moment, when he heard someone call him, An Chang woke up in a daze and walked out of the ward.

As soon as he came out, he saw Dean Bai, Director Yao, and Shi Yu beside them. At that moment, when he saw Shi Yu again, An Chang was extremely excited. He didn't know what to say. The help one received at the most desperate moment was the most direct to the heart. Shi Yu's five million plus the nutritional fruit worth more than five million could directly allow his mother to undergo a treatment plan with a 100% healing rate. An Chang didn't know how to thank him, so he directly wanted to kneel down and thank Shi Yu.

"What are you doing? Your legs are numb again?"

Shi Yu was agile and grabbed him with one hand like he was picking up a chicken.

An Chang:...

"I..."

"Well, An Chang, your mother's healing surgery can begin later. Mr. Shi Yu is willing to bear the full cost," Dean Bai said with a smile.

An Chang was even more at a loss. "Don't be excited, it's only right. The antique you sold to me is a treasure. I've already found a way to use it. To be precise, I'm still the one benefitting the most," Shi Yu said.

An Chang shook his head and stubbornly wanted to kneel down to thank Shi Yu. In the next moment, Shi Yu picked him up along with his shirt.

An Chang : "... " He felt that his parents weren't as strong as Shi Yu in their combined state.

When he was young, An Chang, who was often educated by his parents in the state of being possessed by ferocious beasts, knew his parents' strength very well. Dean Bai and Director Yao : "... " "Little Chang, Mr. Shi Yu definitely doesn't need thanks in this way. Your mother will definitely be fine, so next, the key is for you to go to school well. When the time comes, you can get into a good university so that you can repay Mr. Shi Yu better," Director Yao said beside him.

"This is for you. Let your dragon carp eat this. It can increase your evolution potential. At that time, that Dragon Carp's potential will be even greater after it transforms into a dragon. The pet your father left for you is still very good." Director Yao returned the nutritional fruit to An Chang Beside him, Shi Yu said in surprise, "Dragon Carp?" "Your pet is a Dragon Carp." "A dragon carp that can transform into a dragon... The classic "leaping through the dragon gate"?" Shi Yu put down the confused An Chang. Beside him, An Chang nodded in confusion. This Dragon Carp was also one of his family's heirlooms. He had been raising it since his grandfather's generation and had raised it for decades before it reached transcendent. It was an initial pet prepared for him by his family and had deep feelings for him.

"I see..." Shi Yu nodded.

The Dragon Carp was the same as the Green Silkworm. The Green Silkworm could rely on the worm silk cocoon to evolve, while the Dragon Carp could rely on the levelless water-element skill to "leap over the

Dragon Gate” and evolve into a high class commander species’ pseudo dragon “Fish Dragon”. The difference was that the evolution of the Green Silkworm cocoon didn’t have a high requirement for the proficiency of the worm silk, but the Dragon Carp could only evolve after reaching transcendent. Moreover, Dragon Gate was also harder to train than the worm silk. One had to climb the waterfall and reverse the flow to increase proficiency. The only advantage of a Dragon Carp compared to a Green Silkworm was its lifespan. This thing could even live for decades in the sewage. It wasn’t impossible to nurture it and live for 100 years. Under its long lifespan, some Dragon Carp with aptitude, willpower, and good luck still had the possibility of transforming into a dragon, but there were definitely not as many Green Silkworms that became Butterflies.

“When do you plan to let the Dragon Carp evolve?” Shi Yu asked.

“This...” An Chang said, “I don’t know.”

He originally planned to do it earlier, but because something like this happened to his family, he really didn’t have the money to raise another high class commander species’ dragon-element tycoon. Therefore, he kept the Dragon Carp in its initial state. “Are you planning to evolve into a fish dragon?”

“Yes.”

“You also have the Fusion Talent, right? Do you want me to help you?” Shi Yu chuckled. “I know a special evolution method.” The cultivation index in front of Shi Yu opened. [Dragon Carp’s Special Evolution Method]: After the Dragon Carp’s Dragon Leaping Gate reaches transcendent, consume more than 100 g of Dragon Bone Powder and carry level five to six water and dragon dual-element resources to use for the Dragon Leaping Gate. There is a chance of special evolution. This was a special evolution plan for the Dragon Carp recorded in the third bureau’s cultivation index.

Dragon Bone Powder was a common medicinal ingredient. It wasn’t expensive, and the hospital had it. As for level-five water and dragon-element dragon-element props... Shi Yu could now get Buggy to imitate the scales of a sea dragon to make one. It was as simple as crushing a clay figurine. At this moment, as Shi Yu spoke, An Chang was stunned again. Dean Bai and the others beside him were also shocked.

Holy shit.

As expected of a big boss who could develop the Green Silkworm cocoon to become an overlord race. He gave the evolution plan just like that. Those evolution planners helped people plan an evolution. It was basically a sky-high price. How could Shi Yu be so generous? “No, this is too much,” An Chang said nervously. “I really don’t know how to repay you this

way.”

“You mean you want it, right?” Shi Yu could tell that the other party still wanted to. “No, your skin is too thin. You should say “Yes! I can only become stronger with stronger pets. Then I can repay you better in the future.” Shi Yu sighed. As expected of himself. He actually said similar things to Senior Lu without blushing back then. An Chang :” ...” Dean Bai and Director Yao :” ...” “Dean Bai, is there a relatively empty place here?”

“Yes...”

“Where’s the medicinal ingredient, Dragon Bone Powder?”

“Yes, we have it.” “That’s enough.” Shi Yu clapped his hands and said, “Then let’s prepare?” If he helped this An Chang plan the evolution of his pet, Shi Yu felt that he could go back and find Senior Lu.

At this moment, An Chang felt like he was in a dream. He felt that his dark life had suddenly become bright. Shi Yu was the guide who pulled him from darkness to light. At the hospital of Wu Ling City, in the backyard of a deserted recovery training ground. Dean Bai brought Shi Yu and An Chang here.

Soon, Director Yao also rushed over with a bag of Dragon Bone Powder. Seeing that, Shi Yu saw that the materials were all gathered and said to An Chang, “Summon your pet.” “Alright...” An Chang nodded and summoned the formation.

The next moment, a nearly one-meter-long dragon carp appeared in the colorless array. Judging from the physique, it wasn’t young anymore. “Chi -” “Chi “

The red and yellow dragon carp fluttered on the ground. “Li (water) -” “Li (water) ~” “Well, Bubbles, please bear with it... This is part of evolution.”

Beside him, An Chang said carefully. Shi Yu :” ...”

Good thing he wasn’t the only one who was bad at naming

However, this part was not part of evolution.

At this moment, Dean Bai and Director Yao said, “Well, let’s leave first.” Usually, when evolution planners helped pets plan their evolution, they were unwilling to let others see it. “It’s alright, it’ll be done soon.” Shi Yu said indifferently. After saying that, a shocking scene suddenly happened. In midair, a stream of water suddenly appeared. Then, the stream of water grew bigger and bigger. At first, there was a whoosh, and then the water curtain attacked them like a violent wind and huge waves, ringing through the sky and covering the blue sky. Only the waterfall was left chanting in the world. A huge waterfall and lake appeared out of thin air in front of the three of them, making Dean Bai and Director Yao’s eyes widen. When An Chang, who was beside them, saw this miracle, he was so shocked that he couldn’t say anything. “Chi -” “Chi ~”

Only the Dragon Carp’s excited water gradually leaped into the Lake of Imagination and looked up at the waterfall.

At this moment, a small blue butterfly landed on Shi Yu’s shoulder without anyone noticing. “You can let it eat the Dragon Bone Powder.” Shi Yu said. “Oh, oh.” At this moment, An Chang had already accepted everything and listened to Shi Yu’s arrangements. He had already thought it through. Shi Yu was right. It was good to let the Dragon Carp evolve now. Only by becoming a very strong Beast Tamer could he repay Shi Yu’s kindness better!

He scattered the bag of Dragon Bone Powder handed over by Director Yao in the water. Soon, the Dragon Carp swam over and swallowed it all.

“Throw that fruit in too, but don’t let it eat it first,” Shi Yu said.

Upon hearing that, An Chang also threw the nutritional fruits in his pocket into the lake. The dragon carp was first stunned, then it looked at the nutritional fruit eagerly.

In the next moment, the dragon carp's expression changed drastically as it sensed the suppression from its bloodline. "Roar!!!"

Waves splashed, and a huge roar sounded, making everyone look at the waterfall.

At this moment, in the waterfall, a faint dragon-shaped phantom condensed. A sea dragon king more than ten meters long with a yellow belly and a blue back shuttled through the waterfall in an illusory manner. With a boom, this sea dragon showed its dragon might and directly crawled out, dragging its long body to circle the sky, looking at the dragon carp below with a dignified gaze. "Sea... Sea... Sea Dragon King." Seeing this pet, An Chang was extremely shocked. Overlord race, Sea Dragon King..! Beside him, Dean Bai and Director Yao opened their mouths wide as they watched this magical scene.

"Roar!!!"

Under their gaze, the Sea Dragon King glanced down indifferently. Its figure turned from corporeal to ethereal again and directly flew down. Its huge body entered the nutritional fruit with a bang, directly dyeing the white nutritional fruit's surface with rings of blue patterns. Baby Ginseng and Buggy jointly created the Dragon Transformation Fruit!

"Alright, you can eat now." "After eating, let's do the Dragon Leaping Gate." Shi Yu spoke calmly. After letting Buggy modify the nutritional fruit with the power of imagination, he watched with interest. At this moment, although he was extremely shocked, An Chang still quickly followed Shi Yu's instructions and let the dragon carp eat the nutritional fruits.

At that moment, looking at the nutritional fruit that the Sea Dragon King had just crawled into, the Dragon Carp was extremely afraid. However, the tempting aura emitted by the nutritional fruit made it swim over again. The dragon carp's eyes widened. After pondering for a moment, it directly swallowed the fruit. In the next moment, with a boom, a divine dragon seemed to open its eyes in its body. Under this huge motivation, it quickly swam to the front of the waterfall and carefully observed that magnificent style. After its gaze gradually became determined, it directly leaped up with the Leaping Dragon Gate skill. The huge waterfall that Buggy imagined was majestic and spectacular. Water splashed down rapidly, like ten thousand wild horses galloping and roaring. Under this pressure, the Dragon Carp's Dragon Leaping Gate directly activated the evolution potential in its body, causing its entire body to bloom with dazzling white light. "This..."

Dean Bai and Director Yao muttered. They couldn't understand it. Even if they saw it with their own eyes, they couldn't understand it at all. The Butterfly of Imagination could be used like this? The two of them looked at the pet on Shi Yu's shoulder. In the next moment, they were attracted by the Dragon Carp again. "Roar!!!" During the process of climbing the waterfall in the opposite direction, An Chang's dragon carp's figure gradually changed under the white light. It gradually lengthened into a five to six-meter long dragon-shaped body, and its roar became more and more deafening. It had red pupils and a fierce and domineering expression. After evolution, it directly broke through the waterfall and leaped into the sky. This was definitely not a low-level alternative dragon fish that looked like a fish. At this moment, as they looked at this strong dark-blue dragon-shaped body, Dean Bai and Director Yao widened their eyes. This... This... This... At the side, after receiving the feedback from the dragon carp's evolution, An Chang was immediately stunned on the spot. Shi Yu also looked at everything in surprise.

The index in front of him displayed the information after the dragon carp evolved. It wasn't a new race, but an existing race. < Name > Sea Dragon [Attributes]: Water, Dragon

[Race Level]: Low-level Monarch

[Level of Growth]: Level 10 Awakening [Race Skill]: Leaping Dragon Gate, Water Dragon Bullet, Dragon Tail, Madness, Water Dragon Scroll (Super Level) "Roar!!!" The sea dragon fell into the water and looked at its Beast Tamer quietly. It also looked at Shi Yu and the butterfly on Shi Yu's shoulder gratefully.

A dragon carp was a creature in a pond... Now it turned into a dragon the moment it encountered Buggy!

"Wu ~" Buggy nodded calmly. Not bad, not bad, he had 30% of its handsomeness.

"You're a Beast Tamer intern. Under the restriction of your level, it suppressed the opportunity to break through. It's still at the Awakening level now, but its evolution this time can bring you quite a lot of benefits. For example, the increase in the Beast Taming Space, the increase in physique, and your combination talent. Your physique is stronger than that of ordinary Beast Tamers. In addition, your bond is alright. Eat more supplements. It's not a big problem for you to bear the growth of a low-level monarch race. It's good to be a little weak." "By the way, this is a sea dragon. You should know it, right?" Shi Yu asked the stunned An Chang. "I... I know..." He was already stunned.

Monarch... monarch race?

It was born so easily?? Moreover, it was a powerful dragon-type... He looked at Shi Yu... Who exactly was Shi Yu? At this moment, Shi Yu's cell phone suddenly rang. Shi Yu took a look and saw that it was White Brook. He immediately understood that it was time to leave. He smiled and said, "I have something urgent to do. I'll leave first. Call me if you have any questions." After Shi Yu finished speaking, the waterfall and lake in the courtyard disappeared. The sea dragon fell to the ground. Under the shocked gazes of Dean Bai and the others, Shi Yu teleported and disappeared. After Shi Yu left, everyone, especially An Chang, couldn't calm down for a long time. "He's... the most awesome evolution planner I've ever seen," Dean Bai muttered beside him. "As expected of a fierce person who developed such results. I can't understand it at all, but it's so impressive. It feels as simple as drinking water," Director Yao said. Listening to Dean Bai and Director Yao's discussion, An Chang swallowed his saliva and looked at them. He asked, "Dean Bai, Director Yao..."

"I know. You want to ask him who he is, right?" Director Yao said. An Chang nodded heavily.

Apart from his name and phone number, he didn't know Shi Yu's identity at all. He had no direction to repay Shi Yu in the future. Although he didn't know what was going on, now that he had the Sea Dragon, he was confident of becoming a master-level Beast Tamer and repay these debts. "His name is Shi Yu. He's a top student from Ancient Capital University. He's the top scholar of the Ancient Capital vocation assessment this year and a genius archeologist," Dean Bai sighed. A genius. When An Chang heard that Shi Yu was the top scholar of the Ancient Capital vocation assessment, he was immediately in admiration. The top scholar of the vocation in a first-level city... was definitely worth a lot. However, why did these titles feel like they were nothing compared to the monarch species dragon-type creatures Shi Yu casually planned just now? "Apart from that, he also discovered the evolution method of the Iron-eating Beast's monarch race, the Nine Li Battle Beast."

“He also studied the Green Silkworm cocoon evolution system at the Imperial Capital Feeding Conference and established the unprecedented extremely cost-effective Green Silkworm evolution chain. The research results crushed the Feeding Team of the five major financial groups and the eight major universities and easily led Ancient Capital University to win the championship of the Feeding Conference. During this period, even the legendary Beast Tamer Hua Xiajin and the famous Feeding professor Zuo Jiangyun voluntarily became his assistants.” “The evolution chain of the Green Silkworm cocoon contains the unlimited evolution possibility of transcendent to overlord races. It’s said by the Feeding Association to be the best feeding result in the past ten years that can change the structure of Dong Huang’s Beast Taming Domain. He even relied on this evolution chain to nurture the Butterfly of Imagination, the pet on his shoulder just now... This also made him known as the ‘future legendary Beast Tamer’.” “In short, he’s a very impressive person...” Dean Bai repeated Shi Yu’s honors and was very shocked himself. This was a person? At the side, listening to this ridiculous experience, An Chang was already completely stunned. “Haha, perhaps all of this is indeed a piece of cake for him. There’s no need for you to take it to heart. Even if he’s a master Beast Tamer, perhaps it’s nothing to his current achievements,” Dean Bai said. Not everyone could repay Shi Yu. It was too difficult. “This...” An Chang was stunned. “If a master Beast Tamer can’t, then a legendary Beast Tamer,” he said firmly. Moreover, he still had a family heirloom in the warehouse at home that his father had told him not to lose, sell, or damage. Now that the situation was already like this, he felt that it was fine to find it and give it to Shi Yu in the future. His home was almost gone, so why would he still want a family heirloom? As an archeologist, Shi Yu should like this kind of thing very much. In any case, he didn’t know its use if he left it in their hands. It was better to give it to people who knew how to use it. “Legendary...” Dean Bai smiled and said, “It’s very good to have ambition. Speaking of which, Little Chang, since you don’t have to worry about your mother’s illness now, you also contracted a dragon-type pet of a monarch race. You also want to become stronger. How about I recommend a place for you?” “You should have heard of the Bai Family Dojo. Beast Tamers who specialize in accepting Fusion Talents can let you learn for free before you become a professional Beast Tamer. How about that? Otherwise, it won’t be easy for you to take care of the sea dragon with your current self.”

Wu Ling’s Bai family monopolized many industries such as dojos, medicine, banks, and food in Wu Ling City. What Shi Yu didn’t notice just now was that Dean Bai was also considered a relative of White Brook.

At this moment, seeing a good seedling, Dean Bai suddenly gathered talents for his family. Although it was impossible to become a legend, it shouldn’t be difficult for this An Chang to become a master.

“You’re so fast.”

Outside the largest commercial street of Wu Ling. Just as she hung up with Shi Yu, White Brook realized that Shi Yu had appeared in front of her and Lu Qingyi in the blink of an eye.

“Instant Transmission, low-level,” Shi Yu said.

Lu Qingyi and White Brook were speechless. They glanced at the haggard Buggy and mourned.

Was Buggy lucky or unlucky to have a Beast Tamer like him? “How was your trip?” The beast-eared girl smiled and asked, “Did you find a treasure? You shouldn’t have been cheated, right?? Do you need Senior Lu to appraise it for you?” Shi Yu touched his nose and said, “It’s alright. The harvest was not

small. Not only did it help a confused young man fulfill his dream, but I also used five million yuan to buy a legendary tool from the totem era. I reckon I can sell it for tens of billions.” Lu Qingyi and White Brook: “?”

Chapter 240 The Identity of the Stone Mirror’s Master

Using five million to conveniently get a tool from the totem era... He could sell it for tens of billions?

The atmosphere became weird. Lu Qingyi and White Brook looked at Shi Yu with question marks in their eyes. Human language? They suspected that Shi Yu was bragging, but they felt that he wasn’t. After all, Shi Yu had also done many ridiculous things in the past. The two of them didn’t find it strange anymore.

There was silence... “Let’s go to my house first.” After White Brook hesitated, she said, “Just now, my parents called me and said that dinner will be ready soon.”

“Alright.” Shi Yu nodded and said, “It’s not convenient to talk here either.”

Lu Qingyi and White Brook were silent again. This guy was serious...

“Then let Buggy bring us over. Senior, you’ll guide us?” Shi Yu touched his head and laughed.

Buggy.... “Alright.” White Brook agreed.

Under White Brook’s navigation, Buggy quickly brought the three of them to half the city area and arrived at White Brook’s house.

Although the Bai family was a large family, White Brook’s family lived independently. The family of three lived in a large manor. “So luxurious...”

Outside the manor, after White Brook confirmed that there was no problem with the destination Buggy had arrived at, Shi Yu said in confusion.

This area felt more than ten times larger than the Ping Cheng villa President Feng had given him?

A family of three? Then, Shi Yu saw a huge kennel nearly 100 square meters in front of the manor. It was probably prepared for a certain pet. Shi Yu :” ...” Then it was fine. His brain quickly analyzed. Senior Panda’s family was the richest family in Ping Cheng. Ping Cheng was an ordinary suburb of Icefield City, a second-level city... As for Wu Ling City, it was ranked at the top of the development rankings in the second-level city. The Bai family was the richest family in Wu Ling... He understood.

Super rich woman.

After White Brook arrived at her door, she stretched.

When she heard Shi Yu’s words, she smiled and said, “It’s alright, Senior Lu’s house is more luxurious.”

Shi Yu: “?”

Lu Qingyi’s expression was calm. “Is that so?”

Shi Yu muttered in his heart that it was quite possible...

Although the title of the richest man in Wu Ling was already very impressive, Lu Qingyi's grandfather was the principal of Ancient Capital University. He worked in three top departments part-time and even had a relationship with the guardian. He was once a legendary Beast Tamer. Lu Qingyi herself was also a genius of Bureau 11. Her family situation would probably be scarier...

Compared to the beast-eared girl, Senior Lu was no longer a rich second-generation heir. Just her identity alone was already an absolute rich first-generation super rich woman. Shi Yu didn't want to work hard anymore. "Can't always freeload. I'm the one who's richer now." However, after analyzing it, Shi Yu quickly abandoned the thought of reaping benefits without sowing. He could already be self-sufficient, and he was no longer the poor guy who wanted to sell worm silk to become rich!

Ignoring everything else, just the price of the stone mirror he had just obtained was difficult to estimate. Of course, Shi Yu definitely wouldn't sell it.

"Miss, you're back."

After Shi Yu and the others arrived at the entrance of the manor, a servant quickly appeared inside. "Wu ~" At this moment, Buggy lay weakly on Shi Yu's shoulder and asked if it could go back and rest. [Go, go, go!] Shi Yu said. Buggy still couldn't do it. It had only done this little work today and it was already tired. And this was just running traffic in a city. In the future, if he needed to use teleportation to travel from the ancient capital to Ping Cheng, wouldn't Buggy be even weaker? Or, he could teleport from Dong Huang to other countries. Shi Yu fell into deep thought. Well... this might be a little difficult for Buggy. Even if Buggy reached the overlord level, it probably couldn't. If he wanted it to be more convenient, it looked like he still had to have his mechanical pet.

The beast-eared girl had said that her parents walked the business path in the family. They were businessmen and were in charge of the family's business. However, when Shi Yu saw the other party, he realized that he had imagined their image wrongly. They didn't look like an entrepreneur or businessman at all. Instead, they looked more like a fighter than White Brook.

Father Bai was nearly two meters tall and had a tall and sturdy figure. The white suit he was wearing couldn't hide his muscles at all. Mother Bai was also 1.8 meters tall. She was tall and had a single ponytail that only battle workers had.

This made Shi Yu wonder what was wrong with Senior White Brook's petite figure. "Qingyi is here." "Long time no see." After the few of them entered the manor, Father Bai and Mother Bai happened to come out to welcome them. When they saw the three of them, they immediately smiled. "This must be Shi Yu. We often hear Little Xi mention you. Welcome, welcome. Don't be too polite. Treat this place as your home." "Uncle Bai, Aunt Bai." Lu Qingyi smiled. "Uncle, Auntie, hello, sorry to disturb you," Shi Yu also greeted. After the two of them greeted each other, they handed the gifts they had prepared in advance to Father Bai and Mother Bai. It was rare for them to visit, so they couldn't come empty-handed. Next, under the hospitality of his parents, Shi Yu and the others enjoyed a big meal. The servants kept taking out hot delicacies from the kitchen.

Shi Yu could tell that although it looked like a family of three, there were many servants and chefs in the entire manor. There were also a lot of people who took care of the plants and ornamental pets in the manor. This made Shi Yu sigh again how good it was to be rich. He even had the thought of raising some ornamental pets other than contracted pets to show off his love. Many Beast Tamers with a telepathy

talent had a second pet that they didn't contract. This was very normal! This was the correct way to use the telepathy talent.

"I heard from Xiaoxi that the three of you are going to participate in the martial arts conference this time?"

At the dining table, Nanny Bai asked Shi Yu and Lu Qingyi curiously. "Huh?! Huh?"

Shi Yu, who had just finished drinking a mouthful of fruit juice, saw that the conversation had changed from Father Bai and Mother Bai praising his various archeological and Feeding achievements to talking about the martial arts conference. Just as he answered, he suddenly felt that something was wrong. "Senior Lu is also participating??" Shi Yu looked at Lu Qingyi in surprise. "Of course." Beside him, White Brook snorted. Otherwise, how did Shi Yu think she convinced Lu Qingyi?

It was because Senior Lu wanted to participate too.

"I've also contracted an undead who has mastered the possession skill recently." Lu Qingyi smiled. "Ah..." Shi Yu was stunned. She really contracted it? Back then, Lu Qingyi realized that Shi Yu's possession state was pretty good. She said that she would try contracting a similar undead if she had the chance. Shi Yu originally thought that it was a joke, but he didn't expect that after a few months, Senior Lu really contracted one... "What undead?" Shi Yu asked. "It's a secret. You'll know at the martial arts conference."

Lu Qingyi's tone suddenly became a little nervous. After she contracted this undead... After possessing it, it looked good... But... the style of change was a little special. She felt that she couldn't control it a little.

"Haha, Qingyi is much more reserved than when she was young." Father Bai couldn't help but say, "She's completely different from when she was young." "Yes." Mother Bai also smiled.

The one who agreed the most was White Brook. When she was young, she and Senior Lu had played house. The two of them were originally lovey dovey friends, but when they grew up, Lu Qingyi just drifted away. It was too much. At this moment, Shi Yu fell into deep thought. It was fine if Senior White Brook participated, but there were probably many master-level Beast Tamers in the martial arts conference. Why was Senior Lu, a top-notch master, also participating? Oh shit, the competition ranking would be for number two now.

After dinner.

White Brook brought Shi Yu and Lu Qingyi to the residence prepared for them. On the way, Shi Yu also started to talk about what happened on Antique Street. When the two of them heard about selling an antique to save a mother, about how Shi Yu successfully listened to the Voice of History... They were confused Lu Qingyi found it very difficult to accept. "You, you heard the Voice of History again??" This was clearly something that depended on luck and opportunities. Why did it... happen so frequently on Shi Yu! "What kind of luck is this?" White Brook was also stunned.

She had heard from her grandfather that entrusting something with a major historical process and extremely historical value might not necessarily produce a "historical spirit", but an ancient item that

produced a “historical spirit” would definitely have gone through a major historical process or have extreme historical value.

Shi Yu had heard history, which meant that he had indeed encountered a precious antique.

“What is it? What did you see? What’s the origin of it?” Lu Qingyi couldn’t help but ask. “I don’t know its origin, but... I saw its function.” Shi Yu smiled and casually took out a stone mirror. Then, he asked the beast-eared girl, “Can I use the plants here?”

He casually pointed at a beautiful flower by the roadside.

“Sure, they’re just decorations,” White Brook said.

This was a level-one resource, the Heart-Clearing Flower. The fragrance of the flower could make one feel comfortable. Apart from that, it was beautiful.

At this moment, Shi Yu held the stone mirror and aimed at the blue Heart-Clearing Flower. He muttered to himself,

[Change!] [Change!] Previously, Shi Yu had discovered that thinking of saying those words could also be used with stone mirrors. Out of consideration for his image, Shi Yu chose mental spells. At this moment, under his experiment, the stone mirror directly released a white light that shone on the Heart-Clearing Flower. Then, a scene that shocked Lu Qingyi and White Brook occurred.

After the Heart-Clearing Flower that was planted in the soil was enveloped by the light, its body gradually enlarged in the light, and its life aura multiplied. Then, from an unconscious spiritual plant to an Awakening-level flower demon! “Ning.” The Heart-Clearing Flower Demon glanced at the three of them and pulled out its feet in confusion. It wanted to leave, but after thinking about it, it stuck itself back in and released a little sweetness. As if nothing had happened. “Ning! Ning!”

Lu Qingyi and White Brook:!!! “The function of this stone mirror is similar to the ‘Awakening Talent’. I feel that it’s a family heirloom left behind by a legendary big boss of the totem era who had an ‘Awakening Talent’. It might also be a toy?” “Although it wasn’t very useful in ancient times, with the Mechanic class now, this thing is worth tens of billions. It’s not too much, right?” Shi Yu smiled and said. After a legendary Beast Tamer died, they could inherit the Beast Taming Space. Some more powerful legendary Beast Tamers also had the ability to combine their Beast Taming Talent and modify the Beast Taming Space. For example, that was how the Time Ruins of the Imperial Capital University came about. Shi Yu felt that this stone mirror was similar, but he didn’t know why it didn’t have spatial effects. Perhaps it was just a part of the ruins space?

“A tool that can awaken life???” At this moment, as Shi Yu finished showing it, White Brook’s eyes widened completely. Her eyes gradually turned into two lemons.

Just as Shi Yu had said, today, with the modern Mechanic class, this thing was definitely a top-notch divine weapon. White Brook, who had seen Gao Xuan’s overlord race machinery, knew very well the value of this thing. “Ahhh.” She cried out in pain and said, “Why, why am I not a telepathy talent? Why can’t I pick up treasures? You archeologists are cheating.” “Shi Yu-assemble a mechanical pet for me someday, alright!” White Brook couldn’t wait to hug Shi Yu. It wasn’t that her Fusion Talent couldn’t

fuse with machines. It was also possible to transform into a puppet. "Don't come over..." Shi Yu hurriedly stopped White Brook. Men and women shouldn't touch each other.

What she loved was the stone mirror, the overlord machinery! Not him!

Beside White Brook, Lu Qingyi smiled bitterly. Could she not compare Shi Yu with the other archeologists? Even the other members of Bureau 11 didn't listen to the voice of history as often as Shi Yu!

Moreover, Shi Yu's luck... Lu Qingyi's stomach hurt. However, she could still accept it. This thing was indeed very valuable, but in her eyes, what made her even more envious was actually the key to the Mythical Ruins left behind by Emperor Shi with huge risks. After that stimulation, this was nothing. After all, this one's upper limit was an overlord machinery and the other was a Mythical creature. "You just said that this stone mirror is an antique from the totem era 6,000 to 7,000 years ago?" Lu Qingyi suddenly asked. "Yes."

"When you used it just now, did you use telepathy to chant a strange spell?" Shi Yu : "... " Shi Yu opened his mouth slightly and looked at Senior Lu, suspecting that her telepathy could read minds. How did she know?

"Looking at your expression, it's a yes." Lu Qingyi was stunned. "If it was in that period, then perhaps I know the origin of this thing." After Lu Qingyi pondered, her expression suddenly became serious.

"You know its origin?" Shi Yu was stunned.

He only knew the use of the stone mirror by listening to history. He was confused about the origin of the stone mirror. How did Senior Lu know?

"As expected of Senior Lu!" White Brook said. Shi Yu : "... " Alright, Shi Yu didn't deny Lu Qingyi's power. Lu Qingyi was also the one who helped him determine the origin and usage of the Space-time Key left behind by Emperor Shi. In terms of historical knowledge, Lu Qingyi was indeed stronger. "Have you heard of the 'Yue Maiden'?" Lu Qingyi asked.

"Who is that?" White Brook was at a loss.

"A certain figure from the totem era?"

Shi Yu asked. "Yes, he's indeed a figure from the totem era." Lu Qingyi nodded. "What about her?" Shi Yu said. "The stone mirror is hers?"

Currently, the history textbooks of Dong Huang only taught the history of the Beast Taming Era.

Just the Beast Taming Era for more than two thousand years had ten important historical gaps. As for older years of the totem era hundreds of millions of years ago, the records were even fewer.

Even through Bureau 11's channels, Shi Yu didn't know much.

In that era, humans still lived in the form of totem clans, and the Beast Taming System had yet to be perfected. Although there might have been many Legendary Beast Tamers, or even titled legendary Beast Tamers, in the absence of a great unification of language, ability system, and tribal factions, the current humans had almost no channels to understand that era.

The reason why the later generations understood the few dynasties of the Beast Taming Era more clearly was that the language was unified by Emperor Shi, and the Beast Taming System was organized and divided into nine grades by the Emperor Shi Dynasty. Of course, although the modern era didn't know much about the totem era, it was certain that a large number of humans were definitely active in the totem era. Moreover, humans were born very early and had existed for a very long time. When and who was the first to develop the Beast Taming Ability was still a mystery. "I don't know much either. I only know her name and ability. This stone mirror might be the work of a 'Yue Maiden'." "But if it is, it's definitely not formed by her Beast Taming Talent." "Not only this stone mirror, but this Yue Maiden has many other works that have been passed down. They played a big role in the Beast Taming Era." Shi Yu and White Brook cast curious gazes. Lu Qingyi said, "The Yue Maiden is a human Beast Tamer from the totem era. Her Beast Taming Talent is 'Plunder'."

"She can extract the ability of transcendent creatures and give it to undead, transforming it into a precious artifact. She can also extract the Beast Taming Talent of other human Beast Tamers and give it to undead to form a precious artifact. It's an ability feared by both humans and transcendent creatures." "Although it's been very long, a few works of the 'Yue Maiden' have still been passed down. They were obtained and used by ancient archeologists. The precious artifacts she created have a unified characteristic, which is that they need to use some strange passwords to activate them. Although she should have created many precious artifacts, the passwords should be the most important reason why these works of hers have been lost..."

Lu Qingyi looked at Shi Yu and said, "So, you should have heard the command to use this stone mirror, right?" "Yes..." Shi Yu nodded undeniably, but he was shocked by something else. "It can draw the Beast Taming Talent of other Beast Tamers??" White Brook was also shocked.

"There's such a talent??" White Brook couldn't help but ask.

This was too sick. It sounded creepy. Lu Qingyi said, "Probably, but in history, only the Yue Maiden has this talent. And what's certain is that if this talent is exposed, no matter which era it is, it will probably be rejected. It's normal that you haven't heard of it."

Shi Yu felt guilty. This talent was too much, too wicked!

His replication talent was only replication, after all, and it was only targeted at transcendent creatures. It didn't snatch the ability. This plundering talent actually extracted the ability directly and was even effective on humans... Wasn't this just too much?

After Shi Yu heard that, he was instantly extremely afraid of this "Yue Maiden". He felt that the stone mirror in his hand was a little hot. However, considering that this Yue girl was an ancient from thousands of years ago and that Imperial Capital was thousands of years younger than her, Shi Yu endured it. It was mainly because Shi Jing couldn't bear to lose it...

"At the moment, in Dong Huang, there might not be more than five Yue Maiden Treasures preserved until now, including yours..." Lu Qingyi said. "In short, we're still very lucky." "This might be an important opportunity for you to explore the totem era in the future." Shi Yu: "I'm tired..."

There were a bunch of problems in the Beast Taming Era alone. The totem era was too difficult to deal with.

Very few archeologists in the archeological world of Dong Huang nowadays focused on the totem era. The exploration was basically the Beast Taming Era and the farther Mythical Era. As for the totem era, it was too messy. The exploration was difficult and wasn't worth much. "I'm tired too, but I'm not tired anymore." Lu Qingyi suddenly said, "Let's go to Shi Yu's residence directly. I want to discuss with him." White Brook:???"What!" White Brook was shocked. It was late at night. It wasn't appropriate for a man and a woman to be alone!

"We still have to go to the martial arts ruins registration meeting tomorrow. Everyone... rest early," she suggested.
