

Beast 241

Chapter 241: The Registration Crisis of the Martial Arts Conference

The night passed quickly.

The next day.

Shi Yu was woken up early in the morning.

He originally wanted to sleep in more. The big bed in the rich lady's house was more comfortable than his own, but he couldn't stand White Brook dragging him and Lu Qingyi to register for the martial arts conference.

2

The registration for the martial arts conference was today, which was the last day. The competition would officially begin the day after tomorrow, so if they didn't register today, they were basically not qualified to participate.

Although one of the organizers of the martial arts conference was the Wuling Bai Family, White Brook didn't plan to use special privileges to register.

"Let's go!"

After breakfast, White Brook said with full vitality.

"Can we set a successful segment today?"

Lu Qingyi held the promotional poster of the martial arts conference and pondered.

The martial arts conference was a competition without levels and age restrictions.

From Beast Trainers to Mythical Beast Tamers, they could participate.

Because of this, many people signed up.

Out of consideration for the effect of the competition, the competition authorities allowed the contestants to use the training facilities of Emperor Wu Ruins to determine their strength once after the registration martial arts conference.

The top 32 contestants whose strength was ranked could directly enter the main competition without participating in the preliminaries.

Of course, the contestants could also choose not to choose their strength, but that would have to slowly fight from the preliminaries.

1

For example, White Brook, Lu Qingyi, and Shi Yu definitely had to determine their strength. Fighting from the preliminaries was too tormenting.

“probably.”

“In short, we’ll do it as soon as possible.”

“Where’s Buggy?” White Brook asked.

[Buggy:... Wu wu wu!]

“Coming, coming.” Beside him, Shi Yu rubbed his eyes and released Buggy.

The dreamy Butterfly of Tools appeared in front of the three of them.³

Instant Transmission, activate!

‘Wu Ling City, Emperor Wu Ruins.

This was located in the center of Wu Ling City, one of Dong Huang’s famous historical sites.

The outside of the ruins was formed by nine stone pillars. The stone pillars were incomparably tall, reaching into the sky. They were connected to a fixed ruin space. This place was similar to the Heroic Spirit Ruins, and the area was fixed and couldn’t recognize a master.

There were nine different facilities in the ruins space. The facilities were all cultivation venues built to train the body.

According to the archeological discovery, this ruin was a training ground created by Emperor Wu to train his subordinates.

At the moment, the Dong Huang Association had already mastered the method to enter and exit these training facilities freely.

This martial arts conference would be held in Emperor Wu Ruins. During the martial arts conference, be it inside or outside Emperor Wu Ruins, it would temporarily be opened to the public.

As long as one bought tickets, regardless of whether it was contestants or tourists, they were qualified to enter the ruins space.

“The tickets are ten thousand yuan each, ten thousand yuan each.”

When he arrived near the destination, Shi Yu discovered a strange thing.

Many Beast Tamers outside the nine pillars were stunned. Because if they wanted to register, they had to enter the ruins space. And if they wanted to enter the ruins space, they had to buy tickets. The tickets were 10,000 yuan each.

Similarly, tourists who wanted to enter and visit and spectators who planned to watch the competition had to buy tickets.

“No wonder there are no restrictions on registration age and level. The tickets are expensive.”

Some people became depressed outside. This was a classic example of not looking at the rules before coming.

“Humph, young people. They’re not even willing to invest. If they miss this opportunity, they’ll have to wait another year.” After White Brook obtained three tickets, she saw a group of people conflicted outside and couldn’t help but laugh in her heart.

Every year, she would see a group of tourists who couldn’t bear to buy tickets.

Since they were already here, they had to go even if they borrowed the money.

“That’s too...” Shi Yu also muttered.

The ticket price was simply too cheap, alright?

One should definitely borrow money just for the ticket.

Of course, it was targeted at Beast Tamers who wanted to become stronger. Those who weren’t Beast Tamers were different.

It was secondary to buy a ticket and be able to enter to watch the competition. Most importantly, the lowest level of the predecessor of the ruins space was the level-seven Beast Taming Space. It was the Beast Taming Space of a legendary Beast Tamer. After a pet grew up inside for a day, its growth experience was countless times greater than in the outside world.

Even if they couldn’t use the training facilities inside, even if they only brought their pets to sleep inside, there were a bunch of benefits.

If they found an empty space to train, the pet’s efficiency would be even more obvious.

The cost-effective ratio was definitely more than 10,000 yuan to buy nutritional supplements for the pet. It was not a loss for the Beast Tamer to buy a ticket.

Because Shi Yu had the ruins space, he naturally knew the benefits of the ruins space.

He also saw that Wu Ling City was using this ruins space and the martial arts conference to develop the tourism industry in Wu Ling City.

Back then, if the ruins of Emperor Wu had not been discovered by White Brook’s second grandfather, the Bai family and Wu Ling City might not have been as glorious as they were now.

This was also why Ping Cheng cared so much about the ruins space back then. After Ping Cheng’s Iron-eating Beast Feeding Space was completed, the benefits that the Village of Panda could bring to Ping Cheng would definitely allow Ping Cheng to soar into the sky, even if it couldn’t compare to this martial arts conference.

“Let’s go in,” Lu Qingyi said.

Soon, a magical scene appeared.

A group of people saw the two beauties, Lu Qingyi and White Brook, walk through the security check and enter the teleportation area. They entered the ruins space and directly ran to buy tickets in pain.

If these two were also contestants and they could see their competition, then this ticket... was worth it.

In the ruins space.

The environment was identical to the outside world. It was still nine huge stone pillars that reached the sky. The world was one color, like a yellow primeval world.

However, compared to the empty outside world, several buildings had already been built in the center of the nine pillars in the ruins space.

As for outside the nine pillars, it was an even wider ruins space. The different cultivation facilities in the ruins of Emperor Wu were distributed there.

After entering the ruins space, Shi Yu and the others discovered a very different point. That was that there were many more Beast Tamers in strange clothes and strange looks here than in the outside world.

Shi Yu took a casual look and saw several strange people. The characteristics of the animals, plants, and even elements were very obvious.

There was a big man with bull horns, a strong figure, and a huge axe on his back. The characteristics of his head were obvious. He was clearly a Minotaur.

An uncle held a cigarette in his mouth. His feet, hands, and hair all turned into smoke as he floated around. He looked like a smoke man.

1

There were also girls wearing grass dresses with fairy wings. Flowers bloomed on their heads like flower fairies.

As for beast-eared girls like White Brook, there were even more. There were rabbit girls, cat-eared girls, and fox-tailed girls.

“Your eyes, your eyes.” After entering, White Brook realized that Shi Yu’s eyes were staring and his body wasn’t even moving. He immediately froze on the spot and couldn’t help but knock Shi Yu.

“Cough, there are so many Fusion Talents here,” Shi Yu said.

Animals, plants, and elemental pets were all fusion targets. Unfortunately, he had yet to see a car girl or a battleship girl, but there was a mechanical old granny with two cannons on her shoulder and a sniper rifle on her arm... She was also here to participate at this age?

Moreover, this appearance, was it cosplaying a gunner hag or Squirtle

1

“The most common talent among the participants of the martial arts conference is the Fusion Talent. In addition, the proportion of the Fusion Talent among the Beast Tamers in Wu Ling City is also very high. How is it? It’s very interesting, right?”

“They’re actually training the proficiency of their Fusion Talent. Maintaining it like this every day tiring, but the benefits are greater.” White Brook said.¹

Shi Yu nodded. The last time he saw such a ridiculous scene was when he went to the exhibition with his classmates in high school.

“Wau...” Beside White Brook and Shi Yu, Lu Qingyi was also observing her surroundings. After discovering that the appearances of the Beast Tamers here were also especially ridiculous, she couldn’t help but sigh in relief. In comparison, her and Shi Yu’s transformation should be relatively normal.

“Please pay attentio

“Beast Tamers who want to participate in the martial arts conference and have yet to register, please register in the hall 3 and 4. The other halls have already been suspended.”

“In addition, contestants who have signed up and plan to determine their strength, please take your card number and head to the trial location from the 6th passage! I repeat

“Please take note...”

“Let’s go.”

As the loudspeaker repeated, White Brook called Shi Yu. Then, she pulled Lu Qingyi’s little hand and walked happily in the direction of Hall 3.

Lu Qingyi was helpless, but it was just holding hands. Forget it

1

Why was White Brook still like a kid?

“Eh.” When Shi Yu saw this, he was also very helpless. He had really become a third wheel.

What a tough life.

When he thought about how he would be beaten up if he encountered the two of them at the start of the competition and probably couldn’t defeat them, Shi Yu felt stifled.

This martial arts conference might be the most aggrieved competition he had participated in.

Although it was impossible for a Legendary-level contestant to participate, it seemed that there were still quite a lot of master-level contestants.

1

“archeology first, competition second.”

Shi Yu quickly followed the two of them. At the same time, his gaze had already started to observe his surroundings. He didn’t know where to start from.

{Ruins, ruins, can you hear me?}

[Is there anything you want to tell me?]

C.]

As Shi Yu walked, he chatted with the nine pillars. However, clearly, this approach was wrong. It was impossible for there to be a response.

At the registration hall.

‘There was a long line inside the building. There were probably dozens of people.

Shi Yu and the others quickly lined up. At this moment, as the three of them stood quietly, someone finally discovered the abnormality in Shi Yu’s group of three.

“Hey, Honey, look. Isn’t that the captain of the Ancient Capital’s big school team, White Tiger Mother, Nine-Tailed Mother White Brook? Damn, if it wasn’t a fusion state, I almost didn’t recognize it.”

“What did you say?? Do you want to live anymore?”

1

“I, what’s wrong? Look, it’s the genius Beast Tamer of our Wu Ling City, the granddaughter of Old Master Bai, Legend Bai.”

As the leading figure of the younger generation in Wuling City and the representative of the Beast Tamer of Ancient Capital University, one of the nine major universities, she was actually quite popular after tearing apart a monarch-level pet in the National League last year and shocking the entire venue.

After arriving at the ruins of Emperor Wu and lining up obediently, someone quickly recognized her.

“It’s really Miss White Brook. She also came to participate.”

“Remember she came last year, right? And she successfully reached the top 32 with the level of a high-level Beast Tamer. She broke through to master this year. I wonder what results she can get.”

The surrounding people immediately began to discuss White Brook. Even the people in the queue looked over when they heard the name White Brook.

In the team, White Brook sighed. She knew this would be the outcome.

“Well... Well...”

At this moment, a high school student with a backpack ran over excitedly with a pen and book.

‘When everyone saw this, they immediately understood.

He wanted an autograph? He had prepared everything, but wasn’t it better to take a photo at this time?

“Sorry...” Seeing this, White Brook instinctively wanted to refuse, because once this thing started, there would be no end to it.

But who knew that this high school student ran to Lu Qingyi excitedly and asked, “Excuse me, are you Dr. Lu Qingyi? I’m your fan. I like your ‘Mythical Restricted Region’ and ‘Ancient Paramita’ very much. May I... have your autograph?”

White Brook :”...”

Lu Qingyi, who was behind White Brook, was slightly stunned. She looked at the high school student who ran over to ask for her autograph.

At this moment, everyone suddenly discovered that the person ranked behind White Brook seemed to be even more extraordinary.

Lu Qingyi?

“Doctor of archeology from Ancient Capital University, the most talented student of Ancient Capital University in nearly ten years, the current vice president of the Dong Huang Archeology Association... One of the young Beast Tamers closest to the legendary domain, Lu Qingyi?!”

“It seems to be her...”

As this high school student pointed out Lu Qingyi’s identity, the surrounding passers-by were even more shocked. Lu Qingyi’s honor and identity were much more dazzling than White Brook. In terms of level, Lu Qingyi was even above Heavenly King Zou, who could easily reach the number one trending topic on the Internet.

It was only because Lu Qingyi was relatively low-profile that her reputation didn’t show. However, Lu Qingyi’s archeological achievements over the years were also quite impressive, not to mention that she was a goddess with legendary aptitude. As someone mentioned her name, many people immediately recalled this figure.

“Dr. Lu also came to participate in the martial arts conference? Heavens, unbelievable, unbelievable!!!”

Many people were shocked. At this moment, another butterfly lady with butterfly wings ran over from the front more excitedly. She held her cell phone and seemed to be taking a photo this time. Seeing this, White Brook stopped breathing, She saw that this girl directly passed her and ran to Shi Yu

behind Lu Qingyi.

“Are you Senior Shi Yu? Well, I’m from the Feeding Department of Demon Capital University. I also specialize in the Worm Department and specialize in butterfly research. I’m Senior Xia’s junior. I’ve seen the results of your Feeding. You... you’re too impressive. Can you take a photo with me? Please.”

White Brook :”...”

Shi Yu was slightly stunned. So feeding results could also attract fans? He thought that he only had supporters among the commoners.

So there were also geniuses from the Feeding World who were convinced by their talent?

1

“Of course,” Shi Yu said with a smile. As expected of him.

At this moment, as this Butterfly Lady exposed the truth, everyone had already forgotten what White Brook was. They were slow to notice that an even more impressive figure stood behind Lu Qingyi.

If it was before Shi Yu appeared, it was completely no problem to say that Lu Qingyi was the most talented student in the past ten years of Ancient Capital University. However, as the research results that could change the structure of the Beast Taming Domain appeared, the honor of being the most talented student of Ancient Capital University should directly change hands.

Compared to Lu Qingyi, Shi Yu's name had become even more popular in the past month.

"Shi Yu... Could it be that Beast Tamer of the Butterfly of Imagination?"

"The father of the Green Silkworm cocoon, the man who mercilessly blew up Heavenly King Zou's trending topic twice."

3

"He's so young, he's so handsome, I love him so much."

"He's also here to participate in the martial arts conference? Holy shit

"What's going on with this martial arts conference? Did the three of them come together? Good heavens, the ancient all-star formation?!"

1

At this moment, Hall 3 exploded. Lu Qingyi and Shi Yu were directly surrounded, as if they were celebrities.

Lu Qingyi and Shi Yu : "..."

White Brook: QAQ.

Then, the order was finally stabilized under the efforts of the security personnel.

After Shi Yu and the other two finished registering with difficulty, they received the queue number from the staff girl who stared at them with starry eyes. Then, Buggy used Instant Transmission to escape the scene.

"Where is he?"

"Chase after him."

The hall was noisy again. Then, most people gave up queuing at the same time and ran to the trial location where strength was determined. They could register at any time today, but if they missed the process of the three people's strength positioning, they'd miss out big time.

"Does Dr. Lu have a pet of the combat system?"

"I don't know."

"Where's Big Boss Shi Yu?"

"I know this. He's an Iron-eating Beast Knight. He can ride an Iron-eating Beast to harden his entire body and weapons! He's insane!"

6th Pillar Passage.

Each of them held a queue number. Shi Yu, Lu Qingyi, and White Brook's figures directly appeared on the road. After coming out, they all heaved a sigh of relief. It was really too difficult.

"Tm No. 109," White Brook said.

"Tm 110." Lu Qingyi.

"L..." Shi Yu looked at his number 111 and was very calm.

3

Alright, he was single, so his luck wouldn't be bad.

"Let's go, let's go," White Brook said. "Contestants below high-level Beast Tamers rarely participate in the strength positioning, so this is actually very fast. There's no need to queue much. I reckon that we can do it quickly when we get there."

Shi Yu pinched the account card. "I suddenly feel that it's not bad for me to start directly from the preliminaries. I wonder how many master contestants there are this year. If there are more than 32..."

"Last year, 30 Beast Tamers above the master level participated. I don't know the situation this year, but I feel that we can definitely give it a try. Under the master level, you're definitely first," White Brook said.

"That's true, but if I succeed and directly enter the main competition, and encounter a master-level Beast Tamer in the first round of the main competition, wouldn't that be... the end?" Shi Yu's balls hurt. He had said that this competition was a scam. Although Chi Tong was very powerful now and his physique wasn't inferior to these masters who specialized in refining bodies, he was still a major level away.

Of course, Shi Yu also had a trump card, the Ice Dragon Blade. This level-seven weapon was still powerful. It was not a problem for him to fight above his level with Chi Tong, but it was a little costly to the beast tamer and the dragon whisker.

"It's not good to keep blowing up the news. Although this competition is fought by the Beast Tamers themselves, it's very safe. At that time, White Brook's second grandfather will probably come to watch the battle. Just treat it as training yourself," Lu Qingyi suggested.

"Alright." Shi Yu liked to listen to Senior Lu.

Sigh, so what if the dragon whisker energy was gone? In any case, the Ice Dragon was still on the snow mountain. If Little Chi Tong went to ask for more dragon whiskers, it was impossible for Sister Ice Dragon to not give it to him..

Chapter 242: White Brook and Lu Qingyi's Transformation

At the ruins of Emperor Wu.

'Wei Lin Platform, one of the nine major training facilities.

Wei Lin Platform was an incomparably huge square arena. In the center of the arena was a tall and thick rock pillar.

At this moment, there was a sea of people near Wei Lin Platform.

They focused their attention on the middle-aged man standing in the arena.

At that moment, the huge rock pillar on the arena continued to emit invisible waves.

Under the cover of this transparent wave, the air on the entire arena kept buzzing and trembling.

This wave seemed to carry an indescribably huge pressure, making the middle-aged man in the arena go through unbearable pain. He was almost unable to breathe.

Moreover, from time to time, this wave would squeeze towards the middle-aged man's body like an invisible tide and storm, like an invisible hand that wanted to crush his body.

Bang! Bang! Bang!

Under the intense collision sound, the brown scales covering this burly man's body had already shattered like dry soil. A long lizard tail on his buttocks was even hanging listlessly on the ground.

At this moment, the burly man was half-squatting. He clenched his fists tightly, and the muscles on his body bulged. His expression was ferocious, and his eyes were filled with blood vessels. His body had already reached its limit.

"Pfft..."

A moment later, he directly spat out a mouthful of blood and lay on the arena with his head raised in a daze. At the same time, the deterrence emitted by the rock pillar immediately disappeared.

"25.28 seconds."

After the big man fell to the ground, on a high platform opposite the arena, two middle-aged men in white battle clothes sat and recorded.

At the same time, as the deterrence of the rock pillar disappeared, the Lizardman middle-aged man opened his eyes with difficulty, crawled up, and walked down the arena in a daze.

At the same time, he muttered, "It's too difficult... too difficult."

If he wasn't wrong, he was only in the top 200.

"Number 86, Yuan Shuo."

After the big man went down, the staff in charge of recording the results shouted the name of the next contestant who accepted the testing.

At this moment, Shi Yu and the others, who had just arrived, revealed surprised expressions.

Number 86?

“Alright, I told you this was fast. It probably won’t take half an hour to reach us,” White Brook said excitedly.

Their number 110 was very close to number 86. According to the calculations, it was less than a minute for each person.

“So what should we eat at noon?” Lu Qingyi said.

The registration and testing segment was faster than she imagined. It looked like she could still make it for lunch.

“I want to eat dragon liver and phoenix marrow. I haven’t eaten for a month. Yesterday, my mom actually didn’t prepare anything,” White Brook said greedily.

Shi Yu

He seemed to have heard something incredible.

The corners of Shi Yu’s mouth twitched. As the name suggested, the dragon liver and phoenix marrow were organs with some dragon and phoenix bloodline creatures. Of course, most of them were races with very weak bloodlines...

Ordinary people couldn’t digest the ones with purer bloodlines in the first place, but even if it was food with weak bloodlines, it was still very nourishing. The price would go up to millions every meal...

He couldn’t bear to use this to nourish his body. Looking at this beast-eared girl... she probably had to eat one or two times a month?

However.. it seemed to be normal. A Beast Tamer with a Fusion Talent like her had to train her body, meditate, and nurture pets. It was very difficult to distribute energy. Using top-notch food resources like the dragon liver and phoenix marrow to strengthen her body was the fastest way.

Although Shi Yu had trained his physique to the extreme at every level, Shi Yu estimated that the beast-eared girl was about the same. Even if she didn’t train to the extreme at every level, she wasn’t far off. After all, it was a paywall battle strategy, and there were also pets and talent enhancements.

“Alright, let’s go to the Dragon Phoenix Pavilion,” Lu Qingyi said with a nod.

Alright.” White Brook agreed.

Soon, the new Beast Tamer named Yuan Shuo accepted the test. He lasted for about 24 seconds before he couldn’t take it and retreated.

‘When Shi Yu saw this, he looked at the stone pillar wrapped in deterrence.

“Do you think this deterrence will only be as simple as transcendent?” he asked.

It continued to wrap around for 2000 years without dispersing, With a stable autonomous operation rule, no matter how one looked at it, it wasn’t as simple as transcendent.

“The proficiency is definitely above transcendent. As for whether it has reached a new domain, it’s no longer important. There are no clear divisions in history, which also means that that domain is not something that ordinary Beast Tamers can reach.” Lu Qingyi looked over.

‘Just like the Mythical stage, such a level doesn’t mean much even if it’s divided.’

White Brook said, ‘Don’t ignore the growth level. Emperor Wu’s pets are all at the totem level. Who knows what power he used to build this ruin?’

“But I’m quite curious how many seconds I can last now. The last competition I could do 28.59 seconds. This time, I can definitely last more than 30 seconds, but as for how close to 40 seconds... It’s hard to say.”

“As long as I can last more than 30 seconds, there’s a chance to directly enter the main competition, right?” Shi Yu said.

The training mechanism of the Wei Lin Platform was actually very simple.

The rock pillar in the arena was wrapped by deterrence above transcendent level. This deterrence had its own rules of operation. As long as a life form stepped onto the arena, the rock pillar would continue to release deterrence, and the deterrence power would increase over time.

Because it was a deterrence above transcendent proficiency, the deterrence here was substantialized. It could cause dual mental and physical damage. It tested the will of the Beast Tamer and the physique of the Beast Tamer.

Generally speaking, below ten seconds corresponded to awakened-level power, ten to twenty seconds corresponded to transcendent-level power, twenty to thirty seconds corresponded to commander-level power, and as for above thirty seconds, it corresponded to monarch-level power.

The longer the Beast Tamer lasted in the arena, the stronger he was. When the Beast Tamer reached the limit, if he couldn’t break through, the rock pillar would restrain its power very accurately and wouldn’t cause too much damage to the Beast Tamer.

Of course, Beast Tamers could also choose to use various abilities, including equipment to resist deterrence. It was not against the rules.

However, very few people were so brave in this segment. This was because the upper limit of the rock pillar’s deterrence was very high, and the equipment was not protected by the mechanism. In the end, the equipment would definitely be damaged, and basically no one would do that.

Moreover, if he relied on equipment to enter the main competition, he would become a clown if he didn’t have the strength. Beast Tamers who could afford equipment of that level were also famous figures. Naturally, they wouldn’t do this. After all, the rewards of the martial arts conference were only so-so.

Even if it was a champion reward, it might not necessarily be as expensive as high-level spiritual equipment.

Therefore, Shi Yu did not plan to use the Ice Dragon Blade that wrapped around the overlord-level Dragon Might this time. If the dragon might and rock pillar deterrence started a fight, he would be in the middle. It would be a battle between gods and he'd be destroyed.

If the Ice Dragon Blade was destroyed by the rock pillar, it would be even more unlucky.

"30 seconds, about the same," White Brook replied.

Just as she finished speaking, a few voices suddenly came from outside the crowd.

"Where's Miss White Brook?"

"Where's Dr. Lu?"

"Where's Boss Shi Yu?"

Obviously, the group of people in the registration hall followed. Seeing this, the expressions of Shi Yu and the other two in the crowd darkened.

At this moment, there were more tourists and contestants watching around the Wei Lin Platform than in the hall. They were naturally not unfamiliar with these three names. The outcome was that in a few seconds, Shi Yu, Lu Qingyi, and White Brook became the focus of attention again.

It wasn't that there were no master-level Beast Tamers present, but that ordinary master-level contestants were nothing in front of the three of them.

"What's this?"

In the chaos, at this moment, even the two martial artists who were in charge of recording the results revealed shocked expressions.

They quickly glanced at the updated name list sent by the hall.

109. White Brook...

Oh shit.

"Little White Brook is here. I didn't see her two days ago. I thought she wouldn't participate in the competition this year," a recording warrior said.

"How is that possible? She broke through to master this year, so she definitely has to give it a try. Perhaps she's aiming for first place. As Old Master Bai's granddaughter, the pride of our Bai family definitely has to get first place in the conference."

"However..."

Soon, they discovered something wrong.

"Wait, Shi Yu, is that Shi Yu from Ancient Capital University?"

The two of them were both members of the Bai family, master-level Beast Tamers. This time, they were in charge of the competition. When they saw their kin, they were naturally very friendly. However, as they saw the two names behind White Brook, they were stunned.

They suddenly looked at Lu Qingyi and Shi Yu, who were surrounded in the crowd.

“It’s true.”

A moment later, they couldn’t help but frown and shout from above, “Noise is prohibited here. Don’t disturb others!”

With the two of them shouting, it was finally a little quieter. At this moment, Shi Yu couldn’t help but sigh at how fame was such a good thing. Just by standing there, a bunch of beast-eared girls and beast-eared boys casually came to add him as a friend...

Of course, in order to maintain his image, Shi Yu didn’t dare to give his contact info to any of them. Otherwise, there would really be no end to it.

Time passed little by little.

Following the initial Lizard Man, more than ten people went up one after another. However, none of them were master-level Beast Tamers. They basically lasted for more than 20 seconds before stopping. Such competitors were only here to join in the fun. There was basically no chance for them to directly advance to the main competition as seeded candidates.

The tourists weren’t satisfied with the short and powerless resistance process of these people. Of course, most of them didn’t want to see the results of the contestants. There was a group of old men who were purely waiting for the beast-eared girls to resist the deterrence and then sweat and tremble.

In the end, he saw it, but it was only ten or twenty seconds before she got off the stage again. It was too short, and they weren’t satisfied yet.

Until...

“Number 109, White Brook.”

After the last contestant came down, the two Bai family members on the high platform spoke with anticipation.

‘Then, it was White Brook’s turn.

White Brook was a master-level Beast Tamer, and her pet had also reached the monarch level. Her performance was definitely different from the previous contestants.

“It’s my turn.”

“Then I’ll go.”

In the crowd, White Brook, who was wearing a pair of black shorts and a white sports short-sleeved shirt, stretched. Then, she moved her body and said to Lu Qingyi and Shi Yu beside her.

“All the best.” Lu Qingyi smiled.

“Senior, you can do it,” Shi Yu also said.

White Brook chuckled. Under everyone’s gaze, she directly walked onto the arena.

After she boarded the arena, she didn't stop walking. At the same time, she looked up at the rock pillar. Soon, the rock pillar flickered and directly emitted a deterrence wave. A weak deterrence wave quickly rushed at the beast-eared girl!!

However, in the current level of deterrence, White Brook's expression didn't change at all. She didn't even use the fusion state. She stood on the ground in her normal state and quietly looked at the rock pillar.

One second, two seconds, three seconds... Nine seconds, ten seconds, eleven seconds...

White Brook was enveloped by a transparent deterrence aura. Her breathing was still uniform as she stood in the arena without any reaction.

"Holy shit."

At this moment, the tourists and contestants held their breaths.

In the blink of an eye, White Brook lasted for more than 20 seconds. At this time, she still maintained her normal state. Only her clothes and hair swayed slightly under the deterrence.

Seeing this, the contestants who had just left the stage couldn't help but widen their eyes and watch everything.

"Damn."

"She can last more than 20 seconds with just her body?"

"A humanoid ferocious beast with a physique comparable to a commander-level transcendent creature??"

"The two masters didn't even do something like that this morning!"

Now, for White Brook to do this, it had already shown that even if she didn't use her Beast Taming Talent and didn't fuse with her pet, she could still fight a commander-level ferocious beast with her own fist. She was a proper humanoid ferocious beast and had already trained her physique to superman level.

"As expected of Senior Bai," Shi Yu said from below.

"Your physique shouldn't be weaker than hers, right?" Lu Qingyi curled her lips. She could still understand White Brook, but Shi Yu was the freak. To be able to withstand the possession of a high-level overlord race's transcendent sword spirit at the intermediate level, this physique was even more ridiculous.

'It's okay, it's okay.'" Shi Yu laughed. A moment later, 25 seconds had passed. In the arena, White Brook finally frowned slightly. She slowly raised her hand and didn't see any signs of summoning, but in the next moment, under the lingering light, the characteristics of beastification appeared on her body.

Boom!!!

At the same time, an aura erupted from White Brook's body, immediately crushing the deterrence released by the rock pillar. As the air rumbled, White Brook's new image appeared in front of everyone.

At this moment, White Brook's short black hair had completely tuned into flowing white hair. Her eyes had also tuned blue, and there were two more things that looked like fox ears.

Most importantly, at this moment, nine smooth and long white tails grew out from behind her. The dazzling nine tails looked noble and elegant, and there was a golden color at the end. After they all danced, they were even larger than White Brook herself, directly becoming the best background for her figure.

Boom!

After transforming into a nine-tailed fox figure, White Brook was much more at ease.

"The Nine-tailed Light Fox.. She has fused with the Nine-tailed Light Fox." At this moment, seeing White Brook's change, someone couldn't help but say excitedly.

Combined with the quasi overlord race's Nine-tailed Light Fox, together with White Brook's terrifying physique, it directly erupted with a powerful deterrence, easily facing the baptism of the rock pillar deterrence!

At that moment, Shi Yu looked at the 1,750,000 energy points that the beast-eared girl had erupted with and sighed. 'Actually, I still think the White Tiger state is more handsome.'

"although that little white tiger is White Brook's main pet, it currently has one less evolution level than Nine Tails. It might take a while to become her trump card again," Lu Qingyi said with a smile.

After transforming into a nine-tailed fox, White Brook calmly faced the deterrence. In the blink of an eye, she resisted for 30 seconds. After 30 seconds, the rock pillar deterrence suddenly increased exponentially. A light screen lingered around White Brook's body, and the deterrence continued to erupt.

Under the collision of the strength of the two parties, thunder seemed to sound in the air.

Boom! Boom! Boom!!

At this moment, every minute and second was incomparably long and shocking. However, the rock pillar was ultimately designed to test people. Its strength was endless and there was no upper limit. In the blink of an eye, White Brook's expression became more and more solemn. However, she didn't look as

miserable as the previous contestant. With a crack, the light screen on White Brook's body directly shattered. The deterrence she erupted with was also crushed by the deterrence of the rock pillar. She even grunted and took a step back, her brain rumbling!

Almost instantly, White Brook felt as if her body was about to fall apart. The bestialization characteristic also disappeared. However, her powerful willpower prevented her from falling under the deterrence. She only stood in the arena in a daze.

"About 34 seconds? Well, fine." White Brook closed her eyes.

Buzz.

After determining that White Brook had lost the ability to resist, the deterrence of the rock pillar disappeared. A few seconds later, White Brook's breathing gradually became uniform. She slowly opened her eyes and looked in the direction of the high platform.

"34.36 seconds, very impressive."

"It's the current third highest score."

On the high platform, the two members in charge of recording the results smiled and spoke excitedly.

"34 seconds?!"

At this moment, when they heard this, everyone below the stage was also in a daze.

The difference in the level of a monarch was actually very large. A powerful monarch might have ten times the strength of a weak monarch. If it could last for 35 seconds, it could already be said to be a middle-level strength among monarchs. White Brook was only in her early twenties, but she already had such strength. In the eyes of everyone, she was already very strong.

After all, it had only been a year since White Brook broke through to the master level. With her age, it was very normal for her pet cultivation speed to be inferior to those old masters.

"Not bad," White Brook said softly in the arena. Then, she smiled and got off. At this moment, she was very weak. After coming down, under everyone's admiring expressions, she returned to Lu Qingyi, Shi Yu, and the others. At this moment, Shi Yu had already handed the nutritional fruits he had prepared to

White Brook.

"There."

"Thank you." After taking Shi Yu's supplements, White Brook didn't try to be polite. Then, she ignored her image and started eating. A moment later, she directly revived with full health. Her face even had a little redness. It was obvious that she had overdone it.

White Brook subconsciously cried out.

Her face was red. "Just give me a low-level one next time..."

Shi Yu scratched his cheek. "I still have to specially create low-level ones. It's troublesome.."

"Well."

"It's my turn next.." At this moment, Lu Qingyi was a little nervous.

It wasn't that she was nervous about her results, but that if so many people saw her nervous possession state, she would die.

After all, she wasn't as proficient as White Brook and Shi Yu.

"You can do it, Senior Lu!!!" White Brook said. "You clearly look better than me after transforming."

“Compared to the hair quality of Nine Tails and White Tiger, although they’re both white, I prefer your kind!!”

[Nine-Tailed, White Tiger:??]

“So what exactly is it? You’ve been hiding it from me for the whole day.’ Shi Yu couldn’t help but say.

White hair too?

Shi Yu couldn’t think of what undead it was.

Could it be... a snow maiden?

Something was wrong. That was the unique undead of the seven islands. There were very few in Dong Huang, but it wasn’t impossible...

“Number 109, Lu Qingyi.” At this moment, a voice came from the high platform.

Shi Yu didn’t plan to ask anymore. He would see it later anyway.

After being called, Lu Qingyi took a deep breath, put away the glasses-shaped index, and placed it in the space. Then, she walked towards the arena step by step.

Today, Lu Qingyi was wearing a white shirt and still black shorts. Her long legs were wrapped in black silk. The process of her slowly walking onto the arena attracted more attention and anticipation than White Brook.

“Dr. Lu... Dr. Luisa telepathy talent, so she should have used a pet’s skill to strengthen herself.”

“Is it a strengthening skill or a possession skill??”

Everyone was very curious. Below, Shi Yu was also very curious.

Strengthening skills were actually like the hardening of iron-eating beasts.

The martial arts conference supported battle tactics like transcendent hardening and binding Beast Tamers. As long as the Iron-eating Beast didn’t fight personally, that was fine. However, this relationship was a little awkward in the martial arts conference. The Iron-eating Beast added a layer of hardening

to the Beast Tamer, and the Beast Tamer went to fight. The pet watched. The relationship between the Beast Tamer and the pet was a little reversed no matter how one looked at it.

“Let’s begin.”

Soon, Lu Qingyi boarded the arena. She also looked at the rock pillar. At the same time, like in the previous battle, the rock pillar started to release its deterrence from weak to strong again.

To everyone’s surprise, Lu Qingyi was the same as White Brook. She actually didn’t activate her ability from the start, but relied on her normal state to resist the deterrence.

One second... two seconds... ten seconds... nineteen seconds...

Everyone's expressions gradually twitched. Twenty seconds later, not only did the passers-by widen their eyes, but even Shi Yu was slightly stunned. He didn't expect Senior Lu who had a telepathy talent to train her physique to this extent.

As expected of a rich woman...

"Damm," Shi Yu said.

"Senior Lu's Beast Taming Space is already level six. It's normal for her physique to be strong," White Brook said.

About 25 seconds later, Lu Qingyi took a deep breath and finally closed her eyes slightly. She started to communicate with the Undead Possession.

In the next moment, a white light that was like a star surrounded her. Under the cover of the white light, her hair slowly turned silver from the color of tea...

"It can't be the White Bone Spirit, right?" Shi Yu was suddenly shocked.

"What? No," White Brook said angrily. 'Unfortunately, it's not Dong Huang's unique undead."

At this moment, Shi Yu continued to look. Following that, his expression became more and more shocked. Not only him, but all the Beast Tamers present revealed incredulous expressions. This was because the effect of Lu Qingyi's transformation was too dazzling, The white starlight not only dyed her hair

silver-white, but also combined with the power of the wind element to condense a white robe behind Lu Qingyi. In an instant, under the flickering light, Lu Qingyi's entire body emitted a noble, elegant aura, and her appearance became much more beautiful.

'When the rich natural power of the wind element lingered, Lu Qingyi's ears also became long and sharp ears. Shi Yu's expression immediately became strange.

In the next moment, Lu Qingyi opened her eyes. Her light purple eyes that were filled with intelligence were staring at Shi Yu. Her gentle facial features were both mature and agile. Under the lingering breeze, her entire body emitted the charm of nature. She was extremely beautiful, like a goddess of nature.

She raised her hand gently and didn't use deterrence at all. The wind pressure counterattacked and instantly swallowed the power emitted by the rock pillar, quietly resisting the rock pillar pressure.

"This is.." At this moment, everyone's eyes widened when they saw Lu Qingyi become like a goddess, regardless of gender.

"So beautiful."

"This is... possession?"

"But what creature is it?"

Countless people were stunned.

“Elf... Elf race???” At this moment, everyone was still in a daze. They were shocked by Lu Qingyi’s change in the arena and were in deep confusion. Shi Yu quickly judged Senior Lu’s characteristics and looked at White Brook in disbelief.

“How is it? Surprised?” White Brook smiled.

“Why is there an elven race in Dong Huang?” Shi Yu said. Elves actually had many concepts. In Dong Huang, elves sometimes referred to elemental elves, sometimes referred to some monsters, and sometimes used to describe the characteristics of some pets. However, the concept of the elven race was not in

Dong Huang. They were a group of human-type transcendent creatures, mainly located in the distant countries.

In Ting Xiang, there were many humanoid transcendent creatures, such as the elves, giants, and dwarfs. In theory, it was different from the transcendent system on Dong Huang’s side...

Moreover, the elves weren’t undead at all.

“This isn’t strange. When the dragons in the west were massacred by the legendary Dragon Hunters more than two thousand years ago, didn’t they also escape to various parts of the world? There was even a large group that came to Dong Huang to take refuge.”

“Who said the elves can’t cross the sea to come to Dong Huang?”

“You’re an archeologist. You should know better than me.”

Facing White Brook’s words, Shi Yu was speechless.

“Senior Lu told me that this elf also came to Dong Huang to take refuge. Then, for some reason, she turned into an undead and sealed herself. In short, Senior Lu discovered it in an archeological ruin.” White Brook looked straight at the beautiful Senior Lu, her saliva almost flowing out.

“Damn.” Shi Yu also looked over in envy. Damn it, the elves!!!

And it could do possession!

Little Chi Tong didn’t seem so good anymore.

[chi Tong:???

Why wasn’t he as lucky as Senior Lu to encounter a foreign species...

Eh, that’s not right either. The Ice Dragon Aunt seemed to have also taken refuge from abroad. Before that, there were no creatures like dragons on Dong Huang’s side at all. They were all pseudo dragons with dragon blood. As for the pure-blooded dragons, they were all like the owners of the worm’s dragon ball.

“Let me see the energy value.”

Shi Yu couldn’t help but use the index to detect it again. Senior Lu’s current energy state immediately appeared in front of his eyes...

3.37 million!

After the sprite possessed her, the common energy of the two was as high as 3,3700,000 energy points, completely suffocating Shi Yu.

This energy value made him suspect that this sprite was also an overlord race.

If it wasn't an overlord race, it was definitely because this sprite was at the age of an old granny. It had trained all kinds of racial skills to the maximum level and its strength had even been perfectly inherited by the undead state. Otherwise, no matter how one looked at it, this energy was very ridiculous.

"Damn, I can still fight with the power of the dragon whiskers when I encounter the beast-eared girl.. If I encounter Senior Lu, won't I be smashed..."

Chapter 243: Iron-eating Beast Knight Thunder Flame Form

Shi Yu realized that Senior Lu seemed to like wind-element pets a lot.

The Wind Demon Lion was wind-element, and the Green Spirit Wind Bird was wind-element. Now, this elf undead was also wind-element.

There were already three wind-element creatures.

It would be fine if Senior Lu had a wind-element strengthening talent, but the key was that she had a telepathy talent. Normal people basically wouldn't do this.

'Was wind really that attractive?

Shi Yu's gaze stopped on Senior Lu.

Under the illumination of the star jade condensed from the wind elements, the wind condensed into a white robe, and her clothes all turned white, shining.

According to Shi Yu's impression, apart from a small number of special races, such as blood elves, most of the elves in Ting Xiang were natural pets with extremely outstanding elemental talent.

At the moment, the wind element power was Lu Qingyi's best weapon. She relied on the reverse whirlwind to easily resist the power of the rock pillar.

"30 seconds."

Soon, 30 seconds had passed since Lu Qingyi went on stage. Below, White Brook silently counted.

On the high platform, the two recorders also swallowed their saliva and looked at the violent scene in front of them.

31... 32... 33... 34.

Lu Qingyi easily exceeded White Brook's results.

“Is this Dr. Lu?”

The passers-by had only heard of Lu Qingyi’s famous name and knew that she was known as the younger generation most likely to become a legend, but they had never seen Lu Qingyi’s strength with their own eyes.

But now, as she displayed strength that exceeded anyone before, even the master-level contestants, it directly convinced everyone.

At this moment, Lu Qingyi seemed to be wrapped in a huge wind domain. The semicircular wind domain and the earth-brown pressure condensed by the rock pillar squeezed together. The scene was extremely spectacular.

Boom!!!

Under the collision of the wind domain and the deterrence domain, brown electric arcs shot out in the sky, indicating that the strength levels of both parties were at an extremely high level. However, the Platform was set up by Emperor Wu after all, and it didn’t give anyone a chance to slack off.

Even if Lu Qingyi, who was possessed by an elf, had a storm-like power in her body at this moment... As time passed, she frowned in the face of the increasingly ridiculous deterrence power.

Boom!!!

‘The wind pressure raised by Lu Qingyi began to be pushed back. The domain wrapped around Lu Qingyi gradually shrank. In the next moment, a light purple miniature summoning array appeared in her hand. A seed fell from it and fused into her palm.

In the blink of an eye, the patterns in her light purple pupils changed slightly, forming a complicated flower pattern.

“It’s Senior Lu’s Imperial Concubine Flower..”

“The flower seeds of the Imperial Concubine Flower can be integrated into the Beast Tamer’s body to increase the Beast Tamer’s mental strength.”

Below, White Brook said to Shi Yu.

Shi Yu, who was hugging his arm, discovered that the “new race” energy value with Senior Lu as the main body had indeed made a breakthrough.

Boom!

At this moment, Lu Qingyi’s aura increased again. She also emitted a strong deterrence and fused into the wind pressure. Unfortunately, this action only allowed her to last two more seconds. Soon, the deterrence swept up violently again.

A moment later, a few seconds had passed. Even if Lu Qingyi had already worked very hard, the wind domain still directly collapsed. The violent deterrence directly crushed her body.

“Sigh.” After discovering that she couldn’t withstand the power of the rock pillar either, Lu Qingyi was very helpless. At this moment, everyone held their breaths, wanting to see how Lu Qingyi struggled and resisted against the final deterrence, but...

Ascene that stunned everyone happened directly. An even stronger deterrence attacked. Lu Qingyi directly disappeared and appeared outside the arena ina flash.

‘The deterrence lost its target and was stunned on the spot.

Everyone: *?”

Lu Qingyi: “It’s about the limit, I’ll stop.”

If she continued to resist, she would be as miserable as White Brook. In any case, her results would definitely enter the main competition. Lu Qingyi wasn’t interested in showing her limit in front of so many people.

With that said, she slowly walked towards the stunned Shi Yu and White Brook. At the same time, the elements of the elves on her slowly disappeared and returned to normal. She smiled.

“Holy shit.”

“She went down just like that?”

“She went down himself?”

Seeing Lu Qingyi’s operation, the audience was directly stunned. This worked?

Compared to the outcome of the others, they didn’t think that this was Lu Qingyi’s limit. Even if she struggled, she could still struggle for extra seconds.

However, Lu Qingyi didn’t seem to have this intention.

Everyone looked at the two recorders.

At this moment, their expressions were also a little painful. Holy shit, this was the first time someone played like this in the strength verification segment of the martial arts conference and took the initiative to leave.

She could instantly retreat under that pressure... This was obviously not her limit!

But the key was...

“Time, 37.21 seconds.”

Everyone fell silent.

At that moment, Lu Qingyi’s results were directly first among all the contestants who had already participated in the certification.

Even if he was already in his forties, he still wanted to call Lu Qingyi big boss at this moment.

‘Was this the capricious capital of a big boss?

With this result, if she persisted for another second and made herself look miserable, resulting in her wasting a supplement to heal... It was indeed not very meaningful.

“37 seconds... Compared, three seconds more than me!”

‘As the other passers-by were stunned, White Brook directly looked at Lu Qingyi with tears in her eyes.

“When you break through to my level, you’ll definitely do better than me,” Lu Qingyi said with a smile.

She mainly took advantage of her level. In terms of physical fitness under the same level, she was definitely inferior to White Brook.

“Well, do you want supplements?” Shi Yu felt that Senior Lu shouldn’t need them.

“You should keep it for yourself later.”

After the short conversation between Shi Yu and Lu Qingyi, although they were very shocked by Lu Qingyi’s results and were very surprised by the uninvited guest of this martial arts conference, the strength certification segment still had to continue as soon as possible. The two recorders on the high platform could only continue,

“Number 111, Shi Yu.”

At this moment, everyone was still immersed in Lu Qingyi’s performance and had yet to recover. They whispered about Lu Qingyi’s possession performance just now. However, as Shi Yu was about to go on stage, they were stunned. They stopped discussing and looked at Shi Yu together.

As for Shi Yu, after taking a deep breath, he also walked towards the arena nervously.

Compared to Senior Lu and White Brook, who knew that they would definitely be able to enter the main competition, he was speechless.

One of the two was a top-notch master, while the other was an ordinary master. Shi Yu, a high-level Beast Tamer, trembled.

His goal wasn’t high. He just had to get close to Senior White Brook.

He just didn’t know if he could reach his limit...

Unlike Lu Qingyi, he planned to see where his limit was.

Shi Yu was very interested in these training facilities. After all, he still had to do archeology next. He wanted to establish a deeper connection with these facilities as much as possible and explore more of their power.

However, all of this depended on whether Eleven and Chi Tong’s Iron-eating Beast Knight combination was impressive.

Soon, Shi Yu boarded the arena.

“TI do it too!”

After stepping onto the arena, Shi Yu’s mind was active as he looked in the direction of the rock pillar.

Boom!

In the next moment, an invisible pressure enveloped Shi Yu.

Standing in the arena, Shi Yu didn't do anything. He was actually like White Brook and Lu Qingyi previously, relying on his body and spirit to resist the pressure!

This scene stunned the surrounding Beast Tamers. Ten seconds was actually very fast. When they reacted, more than ten seconds had already passed in the arena. The transparent deterrence wave had already turned into a storm that wrapped around Shi Yu, but Shi Yu still didn't move at all.

Seeing this scene, everyone's mouths opened slightly...

As they were stunned, another few seconds passed. In the blink of an eye, 20 seconds passed. The pressure also reached the commander rank strength standard.

Now, it was almost equivalent to a commander-level ferocious beast that had mastered deterrence above transcendent. It was continuously releasing its pressure at Shi Yu!

At the same time, the power of this ferocious beast was still increasing continuously!

"Tknew it!"

Below, White Brook pouted. She looked at the expressionless Shi Yu and really wanted to know how Shi Yu trained his body.

'When other high-level Beast Tamers' pets faced such a level of deterrence, they would instantly lose their will to fight.

Shi Yu was good. He didn't use the power of his pet at all and actually relied on his physique to withstand it.

21 seconds, 22 seconds, 23 seconds...

"Holy shit."

Everyone's expressions gradually froze. They felt that it was getting more and more ridiculous.

Forget about the first two. White Brook came from a martial arts family and had a combination talent. She was also a master, so it was normal for her physique to be strong. As for Lu Qingyi, her Beast Taming level was higher, which meant that her physique had a higher lower limit. They were all Beast

Tamers who had contracted monarch-level pets. If they could withstand the deterrence of a commander-level pet, everyone would accept it, but, but...

Shi Yu was definitely not at the master level!

Moreover, Shi Yu definitely didn't bring any mental equipment. They looked at the simple Shi Yu in the panda shirt and didn't see any equipment reaction from him at all. It was completely Shi Yu himself resisting the pressure with his body!

"This, how is this possible!!!"

Many people widened their eyes, wondering if they had counted the wrong number.

Soon, the time Shi Yu lasted was about the same as White Brook and Lu Qingyi. This meant that Shi Yu's physique was not inferior to White Brook and Lu Qingyi, who were one or two levels higher than him.

Seeing this, White Brook and Lu Qingyi's eyelids twitched.

"This guy."

Only they themselves knew how much it had cost to train their physiques to this extent, to the point where they far exceeded Beast Tamers of the same level. But now, this physique actually appeared on a high-level Beast Tamer, making them involuntarily doubt life.

"It's about time."

At the same time, Shi Yu gradually felt the pressure and felt his mind starting to hurt. He felt his body starting to hurt, so he stopped persisting and directly summoned his pet.

The green summoning array representing a high-level Beast Tamer appeared in midair. In the next moment, a "Wuu" sound was heard.

Soon, a small Iron-eating Beast fell from the midair array into Shi Yu's hand. Shi Yu pinched the Iron-eating Beast and immediately obtained a huge amount of power.

"Wu wu wu."

You're not a screaming chicken, stop crying!

"Sob."

During this process, everyone could clearly notice a slight change in Shi Yu's skin. It was as if an invisible armor wrapped around Shi Yu's body, causing his body to emit a metallic luster.

Not only that, in the hardening layer, a transparent deterrence wave wrapped around Shi Yu's body, forming a second armor that wrapped and protected Shi Yu!

"It's the Hardening of the Iron-eating Beast! Transcendent Level Hardening Release, Entanglement!"

Many people present had heard of the famous name of Shi Yu's Iron-eating Beast Knight. At this moment, when they saw the little Iron-eating Beast adding its strength to Shi Yu, their expressions immediately became intense.

"It's here, it's coming."

"But... the posture seems a little wrong."

Sit on it!

Iron-eating Beast Knight!

What was the use of pinching such a small Iron-eating Beast!

At this moment, with Eleven's hardening, Shi Yu's physical strength increased again. It was easy for him to resist the commander-level deterrence.

In the blink of an eye, the deterrence level reached the critical value of commander rank and monarch rank, reaching 30s.

At that moment, the audience was very numb.

Although 30 seconds represented the peak of the commander rank, this result was also very ridiculous for a high-level Beast Tamer like Shi Yu, with Shi Yu's monster-like personal physique as a foundation, they could still accept this fact.

They only wanted to know if Shi Yu could break through the limit of 30 seconds!

At this moment.

'As 30 seconds arrived, even with the full-strength hardening and deterrence entanglement, Shi Yu felt the pressure again. A huge pressure attacked, and time seemed to have stopped. Every second began to feel like a year to Shi Yu.

"30 seconds."

As he arrived at 30 seconds, Shi Yu knew that the most critical moment had arrived. Whether he could last another second was very important.

At this moment, many people also stopped breathing. They knew that the next turning point was very important.

They looked at the rock pillar. In an instant, the venue was blurred. It was covered by a substantial brown pressure, as if the sky had collapsed. An even more terrifying pressure directly covered Shi Yu.

Unlike the fused White Brook, which released deterrence resistance and the possessed Lu Qingyi using wind pressure to resist deterrence, Shi Yu, who relied on hardening entanglement to resist the pressure, looked very small.

A powerful monarch-level pressure attacked, making everyone's hearts freeze. They didn't know if Shi Yu could still persist.

However, at this moment...

'As the weakest monarch-level pressure descended, Shi Yu also began to display new strength. His sudden eruption shocked everyone.

Boom!!!

A huge aura erupted from Shi Yu's body. The skill, Possession, was very special. It could be directly activated by a pet in the Beast Taming Space. Now, with Chi Tong, a high-level overlord race whose energy level had already exceeded that of Buggy, possessing Shi Yu's aura... He erupted like a volcano. A shocking flame lingered in Shi Yu's eyes.

A dazzling aura shot into the sky and headed for the pressure!

"After possession, 500,000 energy points."

At this moment, Lu Qingyi had already put on her glasses again. Under the display of the index, she muttered about the new battle power after Chi Tong's max-level possession and Shi Yu's powerful physique overlapped.

It directly reached the standard of a commander race's monarch level.

"What!" Beside him, White Brook was slightly shocked. However, when she thought of Shi Yu's physique and Chi Tong's race, she was relieved. In any case, Shi Yu's Buggy was even more ridiculous.

As the pressure descended, Shi Yu entered the possession state. Under the blooming of his strength, the aura that surged into the sky reached more than ten meters high. It instantly suppressed the power of the pressure back, making the pressure domain totter!

"This..."

Everyone widened their eyes and looked at Shi Yu.

At this moment, in the flames, Shi Yu's entire body was wrapped in fiery red flames. His hair color was instantly dyed red, and his pupils tuned into Chi Tong. The fierce spiritual aura that was like the flames of the sun flickered and shone. At this moment, Shi Yu's entire body seemed to have become thinner but more powerful, as if he had entered the domain of gods.

Such a change instantly made the surrounding Beast Tamers speechless. For a short period of time, they could only stare blankly at everything.

"31 seconds."

Next, every second was a race against time. At the most critical moment, Shi Yu's Spirit continued to erupt during his counting process. At this moment, after helping Eleven resist the monarch-level pressure, the restrained Eleven also joined the battlefield. It directly jumped down and its body slowly enlarged.

"Roar!!!"

Shi Yu resisted the pressure in front. Behind him, Eleven instantly turned from a small Iron-eating Beast about 0.3 meters into a huge beast more than ten meters tall. All of this happened in half a second. In the fire spiritual energy, Shi Yu raised his head slightly and his body floated up. At the same time,

Eleven, who had become a huge beast, stretched out his arm and stretched out a huge palm for Shi Yuluo to hold in his palm.

"It might be difficult to do this in battle, but now.."

"32 seconds!"

Boom!

The pressure strengthened further. Shi Yu, who was in the possession state, felt a huge pressure again. He felt that his and Little Chi Tong's strength couldn't withstand it, but at this moment, the light of evolution shone on Eleven.

Ascene that made everyone's eyes widen happened again. Under the white evolution light, the Little Iron-eating Beast's body expanded further. In the blink of an eye, it reached a huge height of 50 to 60 meters, about the size of the rock pillar. Its huge size was shocking.

"This..."

At this moment, Shi Yu was still standing on the palm filled with the light of evolution, resisting the deterrence with his and Chi Tong's Yang flames. In the next moment, Eleven's full appearance after evolution appeared. A huge beast with blue eyes that were 50 to 60 meters tall and covered in black and silver armor was looking at the rock pillar disdainfully.

At this moment, as the evolution light dissipated, what replaced the white light was the powerful lightning that erupted from the Nine Li Battle Beast's body. The blue and white lightning instantly turned into Thunder God Armor and wrapped around Eleven's body. Moreover, it flowed towards Shi Yu, who was standing in its palm!

At this moment, Shi Yu's expression was calm. He raised his arm and a flaming sword condensed in his hand before slowly descending.

With a loud bang, the fire spiritual energy on Shi Yu's body instantly fused with the lightning. At this moment, there was blue lightning lingering on Shi Yu's body, and orange and red Yang flames flowing. Under the interweaving of the two intertwining powers, Shi Yu's aura increased further!

With the Interlocking Sword as the core, the sword pressure that fused the power of lightning and the power of yang instantly displayed power that exceeded the limit.

Boom!!!

Inan instant, the Thunder Flame Sword Suppression domain that bloomed in front of Shi Yu, the huge power of thunder flames that surged into the sky, and the pressure condensed into an earth-brown color from the rock pillar pressed against each other. The shocking collision sounds lingered in the air, making everyone look at Shi Yu in the huge beast's palm in a daze.

Many people knew that Shi Yu was an Iron-eating Beast Knight.

However, the impression of Shi Yu riding a giant panda and holding a wooden sword still lingered.

Now, under the support of the huge beast that was dozens of meters tall, the power that erupted from Shi Yu's body directly stimulated everyone's values.

"Energy value, 1.5 million."

At this moment, even Lu Qingyi, this proud daughter of heaven, narrowed her eyes. Under the fusion of the Interlocking Sword, the power of lightning and Yang flames after the eruption of the Eleven Maximum Level Giant Transformation directly displayed an effect of one plus one equaling to more than two, forming a ridiculously high level power of thunder flames, causing the energy on Shi Yu's body to undergo a qualitative change!!

“33 seconds!”

Shi Yu ignored the serious injuries his body gradually suffered from the tearing of the lightning flames and spoke excitedly. This pressure was inferior to Mu Huiyin’s test. It could be endured. He looked straight at the rock pillar and felt that reaching White Brook might be difficult, but wasn’t it impossible to

get close?

Boom!

In this second, the collision of the two forces had also reached a ridiculous level. The audience was stunned, and the recorder glanced at the time in disbelief.

At this moment, every second was worth thinking about seriously. Golden flames filled the sky, and under the flickering of lightning, the power of thunder flames that erupted from Shi Yu’s body directly intertwined with the pressure released by the rock pillar to produce black lightning!

Boom, the rock pillar vibrated!

The violent collision was even more exaggerated than Lu Qingyi’s time.

However, no one noticed that a special program was surprisingly activated in the huge rock pillar in the arena.

It was as if Shi Yu, who was challenging deterrence in the arena, had accidentally reached a hidden condition.

At this moment, Shi Yu was willing to call the Iron-eating Beast Knight Thunder Flame Form the strongest battle tactic!

“That’s all? Next...”

Just as Shi Yu wanted to challenge the 34th second, just as everyone was looking at Shi Yu’s dazzling performance on the Nine Li Battle Beast’s palm in disbelief, something unexpected happened!

Boom!

Crack.

In the huge arena, the rock pillar suddenly cracked with a crack.

At the same time, the deterrence of the rock pillar was restrained crazily, and the vibration of the rock pillar was even more obvious. Cracks kept appearing on it, suddenly stunning everyone present and making them reveal blank expressions.

“Holy shit!” Shi Yu was also shocked when he saw this change.

‘The mighty and domineering Eleven and him shuddered and instantly withered in fear, not knowing what had suddenly happened.

‘The surrounding Beast Tamers and the two masters who recorded the results instantly opened their mouths wide.

Holy shit.

'What happened?

Rock... The rock pillar cracked?

Even if Shi Yu was very fierce, it couldn't be...

Below, White Brook was originally shocked by Shi Yu's performance. However, as the change occurred, she was suddenly stunned. She didn't know what had happened.

Only Lu Qingyi spoke very calmly at the side. "You go and explain to Principal Feng yourself. You're the one who brought Shi Yu to participate in the martial arts conference. The one in charge of guarding Emperor Wu Ruins... is also your Bai family. I don't know anything."

White Brook:???

She looked at the stunned Shi Yu and the stone pillar that had started to shatter on the arena. Although she didn't know what had happened, she instantly put on the painful mask. Shi Yu... Shi Yu...

'Thinking of Principal Feng's instructions to let Shi Yu stay in school obediently, White Brook originally felt that he was making a big fuss, but now, she instantly understood. What a painful realization...

"Ah!!!!"

Chapter 244: Speculation of the Crack of the Rock Pillar

The stone pillar cracked.

Although the surface area of the crack was not large, it was indeed cracked.

Cracks that looked like spiderwebs appeared dozens of meters tall in the rock pillar filled with historical traces.

Then, with a crack, the crack completely shattered. A large amount of rocks fell, and a huge hole appeared in the rock pillar as if a hole had appeared in its stomach.

Upon seeing this scene, Shi Yu, who was in the arena, was completely stunned.

He looked miserable with an innocent expression.

'Eleven, this.. this shouldn't be our fault, right??"

'Chi Tong, say something!"

"Do you... know what's going on?"

The crack of the rock pillar was too sudden, catching Shi Yu completely off guard.

Although Shi Yu had once chatted with a few ruins, such as Ping Cheng ruins and the Iron-eating Beast ruins, those were not accidents.

The historical spirit was not a life form. It was in a superimposed state of existence and nonexistence. Its state was very unstable. When someone listened to it, if the thing that carried it was very weak, it was very common for the carrier to crack because of the changes in the historical spirit.

Shi Yu had heard from Senior Lu that the members of Bureau 11 had the experience of looking at the cracked ruins. Although it wasn't often, it happened.

If it were because he had heard the history spirit causing the rock pillar to crack, Shi Yu would definitely not be so stunned.

Although that would damage Emperor Wu Ruins, it also meant that he could immediately review some of the history locked in Emperor Wu Ruins.

This would be a major archeological discovery.

Until now, although the Dong Huang Association had figured out how to enter and exit Emperor Wu Ruins, figured out the use of the nine training facilities inside, and knew that it might be a training ground built by Emperor Wu for his subordinates... No one knew which army it was built for, what its purpose was, etc.

This information might not be important, but it might be. Perhaps the true historical value of the ruins was not as simple as the nine training facilities that people currently saw.

Therefore, if it was because he had listened to the ruins that had cracked in secret history, Shi Yu would still be at ease. However, the problem was that he didn't feel anything and was just accepting the test... In the end, the rock pillar cracked.

'What was this surprise?

Eleven: (Wu wu wu wu]

Chi Tong: [Jil

The two of them also expressed their innocence.

At this moment, the withered Eleven was like a deflated ball that kept shrinking. Shi Yu didn't remove his possession state. If he dared to do so at this moment, the damage caused by the release of the Interlocking Sword Pressure could instantly make him fall.

At this moment, Shi Yu, who had been possessed by the Phoenix Spirit, was relying on Little Chi Tong's proficient level Spirit Release's Flame of Regeneration to quickly recover his physical fitness and injuries. This was the greatest confidence Shi Yu had now that he dared to use the power of a monarch at the commander rank without fear of backlash.

As long as he healed enough, he wasn't afraid of getting injured.

"Well."

At this moment, a portion of the rock pillar cracked, but there was no subsequent reaction. After a moment of silence, Shi Yu looked at everyone.

Everyone was speechless...

Shi Yu: "..."

He looked at the two masters who were known to be strong.

"This rock pillar... seems to have been around for too long. It's getting very old."

Shi Yu said shyly.

Even the facilities built by legendary Beast Tamers were 2000 years old. It was normal for them to be a little damaged.

The two of them were speechless.

They looked very devastated.

'What were these words! Their eyes widened even more than the iron-eating beast's dark circles. Their mucus flowed out unstoppably, and their bodies trembled.

They didn't know if the rock pillar had aged or not. They only knew that they definitely couldn't avoid being criticized.

What a tough life.

What happened!!

"From the looks of it, he didn't seem to have heard the Voice of History. In that state, he doesn't have the energy to communicate with the rock pillar. The rock pillar is cracked, most likely for other reasons."

Lu Qingyi showed an interesting expression.

As expected of this guy, just causing things to happen.

"Senior, stop being sarcastic. What should we do? What should we do? My second grandfather will probably charge in later."

"feel that Shi Yu is right. We probably caught up to the aging of the rock pillar. We can't take the blame for this."

At this moment, White Brook hugged her head, her face filled with despair.

At this moment, in the silent scene, the two masters in charge of presiding over the strength verification reacted and suddenly stood up.

'Certification stop, seal the entire venue. Everyone, stay where you are!'

'Wu Ling City.

In the Bai family.

In a garden-style courtyard.

A thin old man with a gray goatee was sitting leisurely on a wooden chair and sunbathing.

A thin old man with a gray goatee was sitting leisurely on a wooden chair and sunbathing.

“Dad, bad news. Something happened at the Emperor Wu Ruins. A portion of the rock pillar at the Linwei Stage cracked, and a huge hole appeared in the middle.”

Bang.

The former legendary Beast Tamer, Old Master Bai, who had already retired and was enjoying his later years, suddenly charged backward...

“What did you say???”

Ancient Capital.

Principal Feng also received a call.

“Grandpa Feng, it’s me.”

Hearing White Brook’s timid voice, Principal Feng smiled.

“Xiaoxi, what’s the matter?”

“Grandpa Feng, there’s something I want to tell you. Don’t be excited when you hear it.”

“Damn, what can I be excited about?” Principal Feng had actually already guessed what White Brook wanted to say.

White Brook said, “Me, Senior Lu, Shi Yu, we came to Wuling City to participate in the martial arts conference.”

Principal Feng showed an unsurprised expression and said, “I knew you guys wouldn’t be able to stay. Just go, go. Come back earlier.”

Sigh, with Lu Qingyi watching, he was still more at ease.

“But the problem is... something happened.”

“When Shi Yu resisted the rock pillar pressure of the Wei Lin Platform... the rock pillar cracked... A huge hole was made.”

Principal Feng: “?”

Principal Feng: “?”

“What did you say???”

In a room in the Beast Tamer Association in Wu Ling City, Shi Yu, Lu Qingyi, White Brook, and the two Master Bai who were present at that time sat obediently in their seats.

On the other side was an old man and a middle-aged man in a formal suit.

One of the two was White Brook’s second grandfather, the legendary Beast Tamer Bai Ming. The other was White Brook’s uncle, the president of the Beast Tamer Association in Wu Ling City.

The few of them had already exchanged greetings and had already gotten to the point.

This incident could be said to be serious or not serious. After all, there was no direct evidence that the shattering of the rock pillar was related to Shi Yu. Moreover, even if it was related, it was a small matter. After all, the ownership of Emperor Wu Ruins was frankly still national, and Shi Yu was a member of Bureau 11 and 3. Even if the entire Emperor Wu Ruins collapsed, Shi Yu would be fine. However, the most important thing now was to find the reason for the shattering of the rock pillar.

‘I’ve already verified it just now. The Wei Lin Platform seems to be stuck. It lost the ability to release deterrence. The deterrence wrapped around it shouldn’t have dissipated yet. However, due to a certain program error, it doesn’t follow the rules anymore,’ Master Bai Feng, who was in charge of recording the

time results, said with a miserable expression.

“However, the other facilities aren’t affected.”

Was this result good or bad...

“Qingyi, and Shi Yu. Is it really not because of your abilities?” Old Master Bai Ming had a bitter expression. The ruins had shattered. He suspected that this group of archeologists had caused this.

After discovering Emperor Wu Ruins, the Bai family had protected Emperor Wu Ruins for so many years. Wu Ling City relied on Emperor Wu Ruins to become a super big city ranked in the top 15 in the country. The Beast Tamer Troops in the city were only inferior to the nine first-level cities because of

Emperor Wu Ruins. Over the years, Emperor Wu Ruins had always been stable. Why was something broken this time?

Although only one training facility was destroyed, Bai Ming still felt the pinch. After all, the Linwei Stage was the best among the nine training facilities. Beast Tamers of any level could use it.

“Grandpa Bai, don’t worry. Perhaps it’s really because the rock pillar has aged. It’s a coincidence.” Lu Qingyi smiled bitterly. “After all, it’s almost 2000.”

White Brook nodded crazily.

This was the most perfect explanation.

However.

At this moment, Shi Yu, who was leaning on the sofa, had been in deep thought the entire time.

“Of course, it can’t be ruled out that it’s really related to me,” he said.

“But, it’s definitely for other reasons. I suddenly had a guess just now.”

Shi Yu’s words attracted the attention of everyone present.

Lu Qingyi and White Brook couldn’t help but be stunned when they saw Shi Yu taking the initiative to take the blame for them.

At this moment, Shi Yu said, “I once cracked a ruin in the ancient capital, the Iron-eating Beast Ruins.”

“The history of the construction of that ruin should be about 4,500 years ago now. It was built in the totem era, but there are a large number of human traces inside, including some antiques. Those are from 2000 years ago. It happens to correspond to the era of Emperor Wu, so this ruin should have been developed once during the Emperor Wu Dynasty.”

“At that time, I saw the shadow of history in the ruins. A group of people cultivated the Nine Li Battle Beast Corps in batches. It was at that time that I discovered the iron-eating beast evolution method. Now, what I can’t determine is whether the shadow of history at that time recorded the scene of the totem

era or the era of Emperor Wu Dynasty.”

“If we use the hypothetical method.. If the scene recorded at that time was the time of Emperor Wu, then at that time, the faction that could have such a powerful battle beast army was probably the second generation of the Dong Huang Dynasty, the army under Emperor Wu.”

“In the historical scene, I clearly saw the potential of the Iron-eating Beast. Such a pet might even have been contracted by Emperor Wu. After all, there’s not much information about him passed down. The pets that can be confirmed to be his, like “Zhong Xuan’, are few.”

“In short, in order to investigate if it’s possible for Emperor Wu to contract an Iron-eating Beast and if the Wu Emperor Dynasty has an Iron-eating Beast Corps, I came to participate in the martial arts conference. I plan to mainly investigate the ruins of Emperor Wu.”

‘Just now, I made a hypothesis. If this Emperor Wu Ruins is a training ground built by Emperor Wu for a certain army under his command, and this army happens to be the Iron-eating Beast Army. Could the appearance of me and the Iron-eating Beast have activated some mechanism?’

“The nine major training facilities don’t seem to be purely training facilities, though they also have the nature of training facilities. They might also be built to choose elite soldiers. If a certain soldier’s performance on the Wei Lin Platform is outstanding and obtains the recognition of the training facilities, theoretically speaking, the ruins can also trigger the reward mechanism.”

“Could it be that the ruins mistakenly treated Eleven and me as soldiers who contracted an Iron-eating Beast in the Iron-eating Beast Corps and coincidentally triggered the reaction of the ruins? Although... there doesn’t seem to be any rewards, it’s also possible that the ruins have been put on hold for too long.”

Shi Yu analyzed and summarized the incident. This deduction stunned Lu Qingyi, White Brook, and Legend Bai.

“And maybe this nine-pillar reward represents the nine inscriptions?” Shi Yu looked at Lu Qingyi. He realized that he was obsessed over the number 9, attaching it to everything.

However, this explanation made Lu Qingyi and White Brook, who knew the nine inscriptions, feel that it didn’t seem to be unreasonable.

Under the premise that the trial facilities established in the ruins had a reward mechanism, if a soldier performed well, would it trigger the changes in the ruins and give rewards?

In theory, this was completely possible.

And Legend Bai also knew the situation at that time.

As a high-level Beast Tamer, Shi Yu displayed strength that exceeded ordinary monarch-level pets. He lasted for more than 33 seconds. Although this battle result had never appeared, it was definitely very terrifying.

In such a situation, even without the Iron-eating Beast factor, it was possible for Shi Yu to be recognized as an outstanding challenger by the trial facilities.

Everyone's expressions changed slightly. So Shi Yu's guess was reliable?

"So I feel that I might have to study the rock pillar of the Wei Lin Platform," Shi Yu said.

He didn't push the blame. It was mainly because his own deduction had convinced him that this rock pillar had a lot of research value. What if he discovered a way to carve an inscription nearby? Although there was no reward for the rock pillar, maybe the reward was that one could carve an inscription nearby. In short, he urgently wanted to try it now.

"This." Legend Bai was stunned.

At the mention of archeology, Lu Qingyi's eyes gradually lit up.

"Feel that we can give it a try. After all, according to what you said previously, the Nine Li Battle Beast with the inscription might be an overlord race. If we can discover something here, the historical value of Emperor Wu Ruins will be truly excavated."

"Right?" After obtaining Senior Lu's recognition, Shi Yu's motivation immediately came out.

The two of them were enthusiastic. Legend Bai was stunned. They still wanted to continue researching? Was it really fine? The martial arts conference had to continue. If any more problems appeared, the economic loss of Wu Ling City would be huge.

At the same time, not long after the stone pillar shattered...

In the space of the Emperor Wu Ruins, within a deep space, a huge monster that no one had discovered slowly opened its eyes and woke up from its sleep.

It was a hundred meters tall and had a brown tortoise-shaped body. Its shell was like dry cracked ground, filled with injuries.

If someone familiar with the history of the Imperial Court of Emperor Wus saw it, they would definitely be able to tell that this was one of the few pets recorded by Emperor Wus.. It was a quasi-mythical race, "Zhong Xuan' with the bloodline of a divine turtle!

Chapter 245: Another Trick

At the ruins of Emperor Wu.

Wei Lin Platform, one of the nine major training facilities.

At the moment, a group of people was studying the rock pillar.

Apart from Shi Yu and the others, even Principal Feng came.

Initially, he had wanted to come over to settle things, but after coming here, he immediately fell silent after hearing Shi Yu's words.

"Research, I have to study it."

This might be a major archeological discovery.

"Then let's study it. What can I do? I'm also very desperate." White Brook's second grandfather was very helpless.

Now that the rock pillar was broken, if there were other archeological discoveries, it would still be worth it.

If what Ji Yu said was the case, Emperor Wu Ruins might be the training ground of the Iron-eating Beast Army. The nine pillar training facility might represent the opportunity for the iron-eating beasts to ascend to an overlord race. Then, this was a stable cultivation channel for overlord races!

Its value even exceeded the discovery of the green cocoon.

It far exceeded the current value of Emperor Wu Ruins!

With the idea that no matter how bad it was, there couldn't be a worse situation, Shi Yu successfully obtained the research rights to the rock pillar.

As for the other eight training facilities, Old Master Bai Ming didn't dare to let Shi Yu try them easily. At least, he couldn't let Shi Yu cause any trouble before the martial arts conference ended.

In order to prepare for the martial arts conference, Wu Ling City had made a lot of preparations. Now, they only wanted the martial arts conference to end normally. This wasn't too much, right?

For the sake of time, letting Shi Yu come into contact with the rock pillar again was already the limit.

"How exactly?"

Beside the rock pillar, Shi Yu and Eleven sat on the ground with conflicted expressions.

There was no way to successfully carve inscriptions here.

Could they be overthinking?

For some strange ritual feelings, Shi Yu even flew up and embedded Eleven in the huge hole in the rock pillar to let it carve inscriptions, but it was still unsuccessful.

Even Principal Feng and Bai Ming, two former legends, didn't discover anything after studying the rock pillar.

For the next few days, Shi Yu studied it. During this period, he used various methods to try and carve inscriptions, but he didn't succeed.

After consecutive failures, he even had a bold idea.

"This is a relatively special earth-element pure crystal. It's not a metal resource at all. Are you sure the Iron-eating Beast can eat it?"

Lu Qingyi and White Brook acted as Shi Yu's assistants beside him these two days and asked.

"Wu wu wu." Eleven cried, It didn't want to eat dirt.

This stone pillar fragment didn't look like something delicious no matter how one looked at it. It wasn't a ginseng baby.

"I'm just kidding, just kidding." Shi Yu's head hurt.

"Could it be a mistake?"

He couldn't carve it or communicate with the spirit of the ruins. It was very uncomfortable.

"Do you think it's possible that a total of nine cracks are needed to meet the triggering conditions of the reward mechanism? The current progress is only one out of nine. We still need to reach the same conditions in the other eight training facilities..."

Shi Yu guessed quietly.

It was just like how it was useless to have one dragon ball, they had to gather seven!

Perhaps by shattering the nine stone pillars, he could summon the reward!

White Brook:???

Lu Qingyi had a headache. "The key is that a few training facilities aren't for high-level Beast Tamers to use at all. Only master-level Beast Tamers can activate them. Moreover, are you sure?"

"What if all nine training facilities are destroyed and there's nothing..."

Shi Yu smiled in embarrassment. Wasn't this a guess?

"I don't think we can figure anything out here. Why don't we go to other usable training facilities after the martial arts conference?" White Brook suggested. "The preliminaries are almost over. Let's finish the main competition first."

"Uh, martial arts conference."

Shi Yu was stunned. There seemed to be such a thing.

"The preliminaries are almost over? Aren't there a lot of people? I thought it would still be a few days."

In the past few days of studying the rock pillar, the preliminaries of the martial arts conference had already begun. As for Shi Yu, Lu Qingyi, and White Brook, because they had passed the strength certification, they automatically obtained the opportunity to advance to the main competition.

“Of course it’s almost over,” White Brook said. “We can finish today.”

“Alright, why don’t we go for a meal first?” Shi Yu suggested.

The two of them nodded.

Then, the three of them began to leave. After leaving the rock pillar, Shi Yu was actually a little guilty.

He suddenly felt that his deduction was a little unreliable.

This was because some of the facilities in the ruins of Emperor Wu were built with the special mineral rock pillar. Previously, these buildings were intact and couldn’t be tested for its composition. But this time, after Lu Qingyi helped Shi Yu examine the composition of the shattered rock pillar, she

discovered that it was only a special earth-element energy crystal.

It didn’t even contain a little metal element.

This was a little far from the inference, because if it was a training field built for the Iron-eating Beast Army, wouldn’t it be better to use metal-element materials? Could it be that he was afraid that the Iron-eating Beast would eat the training field during the training process?

The composition of the rock pillar made Shi Yu feel that this was the training ground of a certain earth-clement pet army, not the Iron-eating Beast Training Ground.

In short, it was too difficult. He wanted to go for a meal and participate in a martial arts conference to relieve the pressure.

After Shi Yu and the others left, in the depths of the ruins, the awakened Divine Turtle Zhong Xuan slowly opened its red eyes again.

In the past few days, everything that happened in Emperor Wu Ruins had fallen into its eyes.

It sighed deeply in its heart. It didn’t expect that just recuperating after the battle took two thousand years. When it woke up again, everything had changed.

Its former comrades had probably died long ago. In the tragic battle, it was one of the few that barely survived with racial advantages.

It didn’t wake up today because its injuries had healed. From the beginning to the end, it had relied on sleeping to prevent its injuries from worsening. This time, it woke up because its injuries had worsened to the extreme. It estimated that it was its final final moments before death. It wasn’t far from the end of its lifespan, or even in these few days.

“But I didn’t expect that someone could break the record here.”

Zhong Xuan looked at Shi Yu and the others who had left the ruins from the sky’s perspective. Then, his gaze landed on the nine pillars of the ruins and he thought of a very important thing.

Time passed quickly, and in the blink of an eye, it was the next day.

In order to participate in the martial arts conference, Shi Yu temporarily gave up studying the rock pillar and rested for the whole day to adjust his mood.

This made Shi Yu arrive at the battle arena of Emperor Wu Ruins in a relatively good mood the next day.

Over the past few decades, the ruins of Emperor Wu had long been developed by Wu Ling City into a large building garden that integrated tourist attractions and training competitions. The venue of this martial arts conference was a venue in Emperor Wu Ruins.

“Eh, I can finally move around.”

“Twonder who will be chosen. Please don’t let it be Senior Lu.”

At the drawing venue of the main competition.

Among Shi Yu and the others, White Brook was nervous.

If he was unlucky enough to draw Lu Qingyi in the first round and not those high-level Beast Tamers, his luck would be too bad.

In the lottery segment, at this moment, including those who had passed the strength verification and those who had passed the preliminaries, a total of 64 contestants were waiting for the lottery.

Seeing the combination of White Brook, Lu Qingyi, and Shi Yu, the other contestants, be it masters or high-level Beast Tamers, all cast different gazes.

However, more people’s gazes landed on Shi Yu, making him feel uncomfortable.

“He’s that Shi Yu who destroyed the rock pillar that certified his strength, right?”

“Good lord, good lord.”

Shi Yu’s arrival attracted the attention of many in the audience.

Now that a few days had passed, the rock pillar was still sealed and not repaired. The news that the rock pillar had broken when Shi Yu went up to receive the certification had already spread everywhere.

At the same time, Shi Yu’s battle results were also spread everywhere.

33 seconds. Even a master-level Beast Tamer wasn’t that capable of lasting.

Even a master-level Beast Tamer with Fusion Talent who contracted a monarch-level pet might not necessarily be able to last 33 seconds.

But Shi Yu did.

Although he didn’t know why the rock pillar was broken, it was very difficult not to pay attention to him.

“The people from Bureau 11 are really troublesome.”

At the same time, on the platform, Old Master Bai Ming, who was the special guest of the main competition, was still looking at Shi Yu with a headache.

Beside him, two middle-aged men who were also members of the Bai family were smiling bitterly.

Among these two people, one was the president of the Beast Tamer Association in Wuling City, and the other was the commander of the Beast Tamer Troops in Wuling City, White Brook's uncle. The two of them were also special guests of this martial arts conference. They had both obtained first place in the martial arts conference. Now, they were top-notch masters. But no matter how high their identities were, how could they be happy?

If there was anyone who felt the most heartache when the rock pillar was destroyed, it would definitely be them.

This rock pillar was broken, and the subsequent training problems were very serious. Then, if they wanted to maintain the previous regiment's training efficiency, they had to invest other resources. That would turn into an economic problem in Wu Ling City

"It's still easier to organize competitions and train. Developing ruins is tiring and not pleasing."

"Fortunately, no new abnormalities have appeared in the past few days..."

President Bai still smiled bitterly.

Soon, the time for drawing lots arrived. The 64 contestants present stepped forward to draw lots, and the tens of thousands of spectators present watched intently.

This time, just the tickets alone were sold for hundreds of millions of yuan in Wu Ling City. This was also why the martial arts conference had to be held normally no matter what. Fortunately, the rock pillar was broken, and there was no problem with the Emperor Wu Ruins. Otherwise, just the ticket money would have to be lost a lot.

"Tm number 12??"

At this moment, Shi Yu looked at his number in surprise.

This luck

"Wow, number one."

White Brook looked at Shi Yu's number and was very envious.

It was the easiest to finish the first round. Next, he could watch the others compete in peace.

"Tm number 29, very far behind," Lu Qingyi said.

Swoosh.

As the three of them were discussing, Shi Yu suddenly felt a hostile gaze from afar.

He pinched the number and looked over. He saw a middle-aged man nearly two meters tall looking at him unhappily.

Shi Yu : " ... "

As everyone finished drawing their lots, the member of the Bai family, Master Bai Feng, who was in charge of the martial arts conference, walked onto the stage and said, "The drawing of lots is completed. According to the statistics, the first match is between contestant Shi Yu and contestant Chen Yu."

"The other contestants, please wait at the player area."

Compared to the battlefield hall of Imperial Capital University, the venue facilities here were relatively simple. Even the battle list was written on the huge blackboard by pets for people to see.

The first battle was Shi Yu vs Chen Yu.

Seeing these two names, many people were stunned.

Because the name Chen Yu was not unfamiliar to most people. He had participated in the martial arts conference last year and even obtained good results in the top 32. He was a master-level Beast Tamer.

Shi Yu... had encountered a master.

Although Shi Yu had displayed monarch-level strength during the test, according to everyone's understanding, that kind of condition should be very difficult to achieve here.

In the official segment of the martial arts conference, which was a race against time, the opponent wouldn't easily let Shi Yu's Iron-eating Beast become so powerful.

In order to resist the pressure, Eleven had used the full-level Giant Transformation and Inner Power to give Shi Yu such a huge power.

But in this environment, it was almost impossible for the Iron-eating Beast to expand to 5 to 60 meters. The venue was not that big.

On the platform, Legend Bai touched his goatee and said, "Who's that person?"

"Chen Yu, 37 years old. He's from the suburbs of Wu Ling City. He's a master-level Beast Tamer. He has the Fusion Talent and has a monarch-level pet, the Dragon Blood Turtle. After fusing, his defense is astonishing. He mainly cultivates defensive moves. In the preliminaries, he's known as the Pure

Imperial ceiling. No one can break through his defense."

"However, it's said that his personality is not very good due to the influence of his pet. His family runs a bar. When he was a student, he was a thorny hoodlum with a very bad temper. He liked to fight a lot. If it weren't for the fact that his family has a strong relationship, he might not necessarily be able to be a Beast Tamer."

"He directly entered the main competition last year... But this year, because his registration wasn't timely, he was stuck on the last day. Because the rock pillar was broken, the remaining people, including him, could only start fighting directly from the preliminaries," President Bai explained beside him.

"Oh, oh." Old Master Bai was amused. In other words, this person had been inconvenienced by Shi Yu?

He could have entered the main competition directly with the certification, but because the rock pillar was broken, he had to participate in the preliminaries for a few more days??

Great.

Soon, only Shi Yu and Chen Yu were left. Shi Yu realized that this person was the big man who had looked at him with hostility just now. He couldn't help but be puzzled. The competition was second, and friendship was first. Why was there such deep hatred?

"The atmosphere seems very heavy."

"Speaking of which, why did Master Chen Yu start fighting from the preliminaries this year? Didn't he directly guarantee admission to the main competition last year?"

"I know, because the rock pillar broke after Shi Yu. The people behind can't be verified at all. I'm dying of laughter."

"Pfft, that's really a sad thing."

The battle had yet to begin, and many people realized that Master Chen Yu had been inconvenienced by Shi Yu before. They couldn't help but look forward to the battle between them in advance.

Chen Yu still had strength. Although he was a new master of Wu Ling in the past two years, after the Dragon Tortoise fused, the shocking defense and life force of the middle-level monarch race's Dragon Blood Tortoise gave him very strong battle ability.

The agile mobility of the human body coupled with the defense of the Dragon Turtle could be said to be making up for each other's shortcomings.

In the arena, Master Chen Yu stared at Shi Yu. All the muscles in his body protruded as he said to Shi Yu, "Shi Yu, right? I don't care how talented you are. I won't show mercy. If you feel that you can't take it anymore later, admit defeat quickly."

If it were anyone else, Chen Yu would have long cursed. Considering Shi Yu's special identity, he was still considered rational now. However, because Shi Yu had made it so that he fought for three more days in the preliminaries, this really made Chen Yu unhappy.

Generally speaking, he wouldn't give anyone who made him unhappy a good impression. As for whether he would be ostracized by the system because he offended someone, he expressed that he had never been part of the system. In any case, he was the only one at home now. He didn't have to worry

about food and drink, so he just had to do whatever he wanted.

"Wu..." In the face of Chen Yu's words, Shi Yu said, "I will, but I still hope that Big Brother will show mercy. I'm only a high-level Beast Tamer."

"Why don't you send a commander-level pet to fight me?"

Chen Yu: "

"What the f*ck do you want!!!" Chen Yu was furious. Why did he feel like he had punched cotton after insulting Shi Yu? He felt like he had made himself even angrier.

How hateful.

In the contestant area, many contestants revealed happy expressions when they saw that Chen Yu and Shi Yu were full of gunpowder. Lu Qingyi and White Brook were no exception. There were not many masters with such violent tempers. It looked much more interesting than a friendly battle.

“Can we begin?” Chen Yu looked at the judge, Bai Feng, beside him.

Then, the judge, Bai Feng, gave the order to begin.

“Wau!!!”

Without any nonsense, Chen Yu’s entire body was covered in the red tortoise shell in an instant. At the same time, because Chi Tong’s possession level was higher, Shi Yu’s possession speed was even faster.

In the blink of an eye, Shi Yu turned into the form of a red-haired Chi Tong, A sun-like fire spiritual aura erupted from his body, and a flaming sword appeared in Shi Yu’s hand.

Seeing this scene, many people were stunned. After all, only a small number of people had seen Shi Yu challenge the pressure of the rock pillar. Now, most people were seeing Shi Yu in the state of the Sword Spirit Possession for the first time.

“It’s said that it’s a sword spirit, a fire-element sword spirit.”

Many people in the audience muttered.

The Dragon Blood Turtle was a dragon-element subspecies. There was no attribute restraint relationship between the two parties. He didn’t know what the outcome of this battle would be.

However, from Chen Yu’s perspective, he didn’t think that a master-level Beast Tamer like him would be successfully challenged by a high-level Beast Tamer.

However, Chen Yu realized that his opponent’s attack speed was really fast.

Boom!!!

The moment both parties transformed, Chen Yu felt that the light in front of him was instantly snatched away, and the world seemed to have fallen into darkness.

At this moment, Chen Yu felt a wave of heat attack.

With a bang, a huge red sword light cut through the darkness on the other side, turning into a terrifying fire sword aura. It tore through the air and landed in front of Chen Yu.

“Light Flame Sword.”

On the other side, Shi Yu’s Flame Demon Armor and red cloak fluttered. He held his sword in one hand and slashed down with the sword aura. Because it was a battle above his level, he didn’t dare to be sloppy. He directly focused on seizing every opportunity to deal with it.

However.

The Yang Flame Sword that had fused with the power of the transcendent Yang Flame made Chen Yu, who was opposite him, extremely disdainful. He directly clawed at the air. With a boom, his fist seemed to have turned into a dragon's claw, instantly sweeping up terrifying blood-colored energy and scattering this sword aura.

High-level skill, Dragon Blood Claw!

On the other side, Chen Yu faced the scattered flames and smiled. "I say, although your strength is not bad, this attack is just ticklish?"

"I'll give you a chance. Ride your Iron-eating Beast and do it again."

"Don't blame me for not giving you a chance."

"But a mere Iron-eating Beast... Haha."

The corners of Shi Yu's mouth twitched.

This guy was getting too cocky.

Did he really think Shi Yu needed him to show mercy?

"Uncle, you're very arrogant."

Initially, he didn't want to use that so early, but... Forget it, forget it, end it as soon as possible. He really didn't have the mood to train himself now.

In the next moment, Shi Yu walked forward. Step by step, he stunned Chen Yu opposite him.

"Have you heard of the Ice Fire Dragon?"

Shi Yu said directly.

Then, a shimmering spatial ripple appeared in front of Shi Yu's chest.

Shi Yu stretched out his hand and directly reached into the ruins space. He slowly pulled it out in the air. Then, shocking cold air surged. A blue divine sword was slowly pulled out of the alternate space and appeared in Shi Yu's hand.

During this process, the flames and cold air around Shi Yu's body lingered, transforming into the power of ice flames that filled the sky.

At the same time, a terrifying dragon roar emitted from the sword.

"Roar!!!"

The terrifying dragon roar instantly shocked the minds of everyone present, making them temporarily absent-minded. As for Chen Yu, who was opposite Shi Yu, he was even more absent-minded. He was directly stunned by the dragon might and was suppressed by the bloodline.

At the same time, Shi Yu slowly rose into the sky.

Soon, when Chen Yu returned to his senses, his pupils suddenly constricted. He realized that Shi Yu's posture had completely changed. At this moment, a terrifying ice dragon phantom was born under Shi Yu and became his mount.

The huge frost dragon's body seemed to be made of ice and stone. The color was ice-blue and dark purple, representing extreme cold.

It wasn't just its body. Its neck, head, long tail, sharp claws, and fangs, its four strong feet, as well as its pair of wings, were all made of ice and stone. Its scales revealed coldness, and snow lingered, forming a sharp contrast to Shi Yu in his fire form.

The Ice Dragon roared and flapped its wings.

At this moment, Little Chi Tong was also cheering, inexplicably liking to cooperate with the Ice Dragon Phantom.

Everything was ready. Shi Yu raised the Ice Dragon Blade high.

Swoosh!!!

An extremely dazzling sword aura, about ten meters tall and interweaving in blue and red, was like a rolling snowstorm. It was like an erupting volcano, directly sweeping the dragon might towards Chen Yu and crushing him with a suffocating deterrence. In terms of strength, it was not inferior to the

Thunder Flame Sword pressure Shi Yu slashed out on the arena!!

Boom!!!

The Ice Flame Dragon Sword crushed the arena, directly making Chen Yu's pupils shrink. He felt that the threat far exceeded the previous Light Flame Sword, but while he wanted to dodge at this moment, he was already stunned by the dragon might and had nowhere to run.

The sword light of ice and fire attacked, directly sweeping up a huge dust mist and devouring Chen Yu in one go. The shocking aftermath instantly turned into a violent wind that blew Shi Yu's red hair.

On the ice dragon, the red-haired and red-eyed Shi Yu held the Ice Dragon Blade with a calm expression.

"Sorry, I don't need an Iron-eating Beast to break through the defense of a little turtle."

"The Iron-eating Beast is too strong. Even I'm afraid of using it."

"A mere turtle."

Shi Yu said calmly.

At this moment, all the contestants and spectators were shocked and shocked.

Holy shit.

'What happened?

On the platform, Legend Bai and the other two were stunned.

"Level-seven weapon, a level-seven weapon that contains a dragon soul?"

At this moment, the smoke dispersed. Chen Yu, whose entire body was broken and corroded by ice and fire, stood on the ground. He was covered in injuries. His expression was stunned, and he was just as shocked as the audience. No one expected Shi Yu to turn around and take out a weapon of ridiculously high level.

This was like two parties fighting bare-handed, with one side suddenly taking out a rocket cannon.

Outside the arena, White Brook opened her mouth wide and recalled the reminder that she had asked Shi Yu to prepare the equipment, but.

Where did Shi Yu get this sword from??

Just as everyone watched this battle in shock, Shi Yu raised the Ice Dragon Blade again and planned to end the opponent and take victory, something unexpected happened!

[Bullshit!!!]

[An Iron-eating Beast is the one that's "mere"! A tortoise is definitely stronger than an Iron-eating Beast. It's purely this guy got lucky!]

A huge roar suddenly spread across the entire sky of Emperor Wu Ruins, stunning everyone.

Shi Yu's movements also froze immediately. He was stunned.

At this moment, the sudden change made Legend Bai explode. He immediately looked around in shock, not understanding what had happened.

'Then, an even more strange scene appeared. A pair of huge red eyes appeared in the sky.

Under the gaze of the two eyes.

In the entire Emperor Wu Ruins, apart from Shi Yu, everyone's bodies began to suffuse white light. They were actually teleported out of Emperor Wu Ruins one by one, leaving Shi Yu alone in the empty Emperor Wu Ruins to face this unbelievable scene.

"Holy shit." Just as he finished showing off, Shi Yu immediately couldn't hold it in anymore and revealed a crying expression.

What the f*ck, what the f*ck, what the f*ck happened again!!!

Senior Lu, Senior Bai, Grandpa Bai, Grandpa Feng, save me...!

At the same time, outside the ruins of Emperor Wu, more than ten thousand people instantly appeared in Wu Ling City and looked around in confusion.

Legend Bai stood on a certain place in a daze. Then, under their gaze, the nine external rock pillars in Wu Ling City cracked uniformly.

There was a crack.

Seeing this scene, Lu Qingyi, White Brook, Legend Bai, and the tens of thousands of spectators who were teleported out were all stunned. Huh?

Chapter 246: Quasi Divine Beast Chong Xuan

Outside the ruins, the crowd was chaotic.

Everyone was stunned when they were suddenly teleported out of the competition.

In this situation, the higher the strength and status of the person, the more confused they were.

However, they had to quickly calm down and take charge of the situation.

“Dad.”

White Brook glanced at Legend Bai Ming.

Legend Bai’s expression was solemn.

“Damn it.” He directly cursed and looked at the sky in shock.

The big red eyes were gone.

But the pressure just now.

It was definitely a totem-level creature!!

Good lord.

In an instant, Legend Bai broke out in cold sweat.

There was also a hidden totem-level creature in the ruins of Emperor Wu??

This kind of thing.

The ruins of Emperor Wu had been developed for decades, but no one had discovered it.

“I’ve lost contact with the interior of the ruins.”

At this moment, Commander Bai, who was gently touching the rock pillar, said quickly with an ugly expression.

President Bai’s expression was also extremely ugly. This family felt that it was ridiculous.

Everyone recalled the situation just now.

Shi Yu was fighting Chen Yu. Before the outcome of the battle was decided, the ruins space suddenly trembled, and a huge pair of red eyes appeared in the sky.

They clearly heard a sentence.

It was a terrifying voice that cursed the Iron-eating Beast. The meaning was as if it was saying that the turtle was the best in the world and was very unhappy with the battle between Shi Yu and Chen Yu.

Then, there was nothing. Everyone was teleported out.

In the outside world, White Brook and Lu Qingyi looked at each other.

The two of them searched for Shi Yu, but unfortunately, they couldn't find him.

Suddenly, the two of them had a bad feeling. They had pretty speechless expressions.

"Senior, I was wrong. I really messed up, really..."

Now, White Brook understood Principal Feng's mood.

The top-notch totem in the Undead Battlefield was stimulated because Shi Yu had awakened it.

All the Beast Tamers in the ancient capital were shocked.

Now, when this stimulation appeared near her home, White Brook discovered that her previous comprehensions weren't painful enough.

This time, it was really painful!

No matter how one looked at it, the scene just now looked like Shi Yu had offended a totem.

Very good, not only was the ruin broken, but a totem had also appeared. White Brook felt that she had encountered a big problem.

"Don't be nervous first." Lu Qingyi took a deep breath.

Based on her rich experience of courting death, things had yet to reach the worst state.

She had already informed Principal Feng to prepare to find a titled legend to take a look at the situation.

"Perhaps it's not necessarily a hostile totem," she said.

One possibility for the totem in Emperor Wu Space was that it was a totem suppressed by the nine pillars. Another was that it was the pet of Emperor Wu.

As long as it wasn't the former, there was still room for reversal.

All of this was unbelievable and ridiculous, but at the moment, the first thing to do was definitely to manage the crowd.

Legend Bai said, "Maintain order first, evacuate the people to a safe place, and count the number of people."

He quickly said, "President Bai and Commander Bai will also quickly carry out this matter."

'As for Legend Bai, he guarded outside the ruins to prevent any changes.

If there really was a totem-level creature, and it was an enemy, the entire Wu Ling City would probably instantly become ruins.

Level-two cities didn't have the ability to resist totems.

As an old man, resisting an overlord-level creature was the limit. Totem creatures had to be dealt with by Titled Legends.

Soon, under the management of the Beast Tamer Troops, order was maintained.

Moreover, it didn't take long for President Bai and the others to confirm something.

"We can confirm that everyone in the ruins space was teleported out, except for Shi Yu..."

"Apart from Shi Yu..."

As soon as this result was out, the faces of Legend Bai and the others in the outside world darkened almost instantly. They had a subtle headache.

"What a sin!

He wouldn't believe that this matter had nothing to do with Shi Yu!

At this moment, the one whose mood had changed the most was definitely Shi Yu.

In the empty ruins of Emperor Wu, Shi Yu didn't know how to face the huge pair of eyes in the sky.

Eleven, Baby Ginseng, and Buggy all came out of the Beast Taming Space at the same time and looked at the huge red eye nervously like Shi Yu.

oa

No matter how slow Shi Yu was, he knew that he was in trouble.

Fortunately, the red eyes that appeared in the sky didn't seem to want to hurt him.

"Forget it, why should I be petty with you?"

A heavy voice sounded, and the world spun. Shi Yu felt his vision blur. Then, he appeared in a brown desolate world.

After arriving, Shi Yu's pupils constricted further as he saw the appearance of the owner of the huge red eye.

This was the largest creature Shi Yu had ever seen.

Its body was as tall as a mountain, and its body length was estimated to be more than a hundred meters. It was even larger than Eleven in the superlative height state.

It was a tortoise-type creature. Its entire body was earth brown, and the color of the ground was extremely close. Its shell seemed to be carrying a mountain, but the most shocking thing was the terrifying black injuries on its body, making it look incomparably violent.

In front of Shi Yu, the archeological index changed crazily.

{Name}: Zhong Xuan

[Attributes]: Earth

[Race Level]: High-level overlord (Quasi Mythical)

{Level of Growth}: Totem Level

[Race Skill]:???

[Energy Points]:??

< Introduction > It's one of the legendary four battle pets of Emperor Wu. It can control gravity.

"Gulp."

When he saw the information on the archeological index, Shi Yu gulped several times.

Heavy... Zhong Xuan?!

"You're... Zhong Xuan???"

Shi Yu said in shock.

This, this, this.

During the Emperor Wu era, only a portion of information about Emperor Wu was passed down.

People only knew that he had dragon, bird, tortoise, and tiger pets that often fused together. The information about other pets had been lost in history and couldn't be studied. Among them, Emperor Wu's turtle pet was Zhong Xuan.

An existence that had evolved to a nearly Mythical race and whose strength had even reached the totem level could be called a quasi-divine beast.

"Huh??? It's me."

Although two thousand years had already passed, Zhong Xuan was still very satisfied that his name could be passed down.

'At the same time, Shi Yu's expression suddenly became serious.

"You're right. A mere Iron-eating Beast definitely can't compare to the Turtle Race known as the Immortal Spirit Luck Beast. I only said that because I was angry that my opponent actually cultivated the Turtle Race to be so weak."

"My dream is to obtain the recognition of a powerful Turtle Clan!"

Eleven:???

"Wu wu wu???"

What was wrong with the Iron-eating Beast? The Iron-eating Beast was clearly stronger than a turtle.

wu ~"

yi"

Buggy and Baby Ginseng advised Eleven to keep a low profile.

It was strong, but looking at the overall race, the Iron-eating Beast was indeed inferior to the Turtle Race, who had produced divine beasts.

“Of course.”

Seeing Shi Yu admit defeat, Zhong Xuan’s gaze flickered.

At least this brat was smart.

However, when he said this, Zhong Xuan was actually a little guilty.

It pondered for a moment and looked at Shi Yu and Eleven.

“although the Iron-eating Beast is ordinary, you guys are not bad. It’s also considered one of the best Iron-eating Beasts.”

“It’s just that you, a Beast Tamer, don’t seem to know how to nurture it very well. You haven’t developed its bloodline potential at all. If you don’t take the key step, why are you so anxious to carve the inscription?”

Shi Yu:

Eleven: Wu?

Now, Shi Yu’s mood had finally calmed down.

After learning that there was actually Emperor Wu pet in the ruins, although he was very shocked and shocked, at least Zhong Xuan at the moment was friendly.

But then, Zhong Xuan’s words stunned Shi Yu and the others.

“Bloodline potential?” Shi Yu said in confusion. Did Eleven have any special bloodlines?

Zhong Xuan glanced at Eleven and said, “Forget it. It’s been so long. It’s normal that you don’t know. Did something happen when it was born?”

“It has the royal bloodline of the Iron-eating Beasts. It’s one in ten thousand and belongs to a special atavism situation. However, if its parents aren’t strong enough, it might cause it to fail in awakening its bloodline at birth. From the looks of it, it should have failed in awakening its bloodline. To be able to survive under such circumstances, its luck is very good.”

Shi Yu and the others: (° A* | | | |)

Shi Yu was a little confused.

Iron-eating beasts and so-called royal clans?

Bloodline awakening failed?

So, what Zhong Xuan meant was that Eleven’s weak body when she was young was the fault of her bloodline awakening failing?

Eleven: Wu wu wu?

In front of a monster like Chong Xuan, it didn’t dare to show its aura as the Panda King.

However, Zhong Xuan’s words made Eleven fall into deep thought.

It was really the Panda King?

“You mean that Eleven is from the royal family of the iron-eating beasts? Moreover, is there a way to awaken its bloodline again?” Shi Yu asked.

Zhong Xuan: “Of course.”

“Compared to ordinary iron-eating beasts, the royal families of iron-eating beasts can automatically awaken deterrence not long after they are born. They no longer need to reach the monarch level to awaken. Deterrence will also become their racial skill.”

“Apart from that, the royal family of the iron-eating beasts are warlike, have strong willpower, astonishing appetite, and very tenacious vitality. They also have special racial talent, which is not what ordinary iron-eating beasts can compare to.”

“How is it? Do you want it to awaken its royal bloodline?”

Shi Yu was instantly excited.

Holy shit.

Deterrence turned into a racial skill?

Although the skill of deterrence could be automatically awakened when a pet reached the monarch level, it was not the racial skill of every pet.

Only the special royals of the pet races had racial skill deterrence. The unified characteristic of them was that they could automatically awaken deterrence at the Awakening level without waiting for the monarch level.

Deterrence was indeed useful. Shi Yu had already maxed out Eleven’s Deterrence. Unfortunately, the skill index could no longer be upgraded, which meant that the current Deterrence was not Eleven’s racial skill at all.

But according to Zhong Xuan, if Eleven became the royal family of the iron-eating beasts, then deterrence might be converted into a racial skill and raised to the level of Dao Proficiency?

“Can I?” Shi Yu realized that this Senior Turtle was surprisingly friendly.

‘As expected of an auspicious beast.

This turn of events was simply auspicious.

“Bullshit, why should I help you?” Zhong Xuan said.

Shi Yu, Eleven:

Shi Yu’s fist, which was holding the Ice Dragon Blade, hardened. How hateful.

He took back what he said just now.. This Chong Xuan had the same nasty personality as the owner of the Dragon Blood Turtle

Chapter 247: Opportunity for Eleven and Two Evolution

Shi Yu, Eleven, Baby Ginseng, and Buggy looked at Zhong Xuan in silence.

Even now, they still didn't know why this huge tortoise left them behind.

After a moment of silence, Shi Yu asked the question he was most concerned about.

"Senior Chong Xuan, do you know so much about iron-eating beasts because Senior Emperor Wu also contracted an iron-eating beast?"

If Shi Yu wasn't wrong, that Iron-eating Beast must have beaten this huge turtle up. Otherwise, it was impossible for Zhong Xuan to have such a huge grudge against the Iron-eating Beast.

Next, Shi Yu originally thought that Zhong Xuan would show a very unhappy expression, but it didn't expect that Zhong Xuan would make a reversal.

"Yeah, I raised that Iron-eating Beast."

"I'm its teacher, so I naturally know it very well."

Zhong Xuan said calmly.

At that time, Emperor Wu was already a legendary expert whose name shook the lands. The human race was the strongest, and they even carried the banner of expelling the totems and rebuilding the Dong Huang Dynasty.

Another hero of the human race appeared. Many people naturally responded in that chaotic world.

One of the responding factions obtained an important position by Emperor Wu because it discovered and cracked the Iron-eating Beast Ruins of the totem era and found the iron-eating beast's overlord race evolution method.

They led the Iron-eating Beast army to join under Emperor Wu. Then, because Emperor Wu took a fancy to the Iron-eating Beast's potential, he also chose to nurture one himself.

Initially, all the pets in the Emperor Wu team didn't care about the new little Iron-eating Beast. But in the end, no one expected that this little Iron-eating Beast would show astonishing potential along the way and obtain the most love from Emperor Wu. It immediately became Emperor Wu's strongest pet, making the group of seniors extremely depressed.

Zhong Xuan was actually half a teacher of the Emperor Iron-eating Beast. He often used gravity to train the Iron-eating Beast, but in the end, the difference in strength between the two parties was so huge that it could only be suppressed by the Iron-eating Beast. How could Zhong Xuan not be depressed?

What made it most depressed was that in the end, not only did it have to train Emperor Wu's Iron-eating Beast, but it was also sent by Emperor Wu to build training ruins for the Iron-eating Beast army to train.

It was a tool turtle.

However, it definitely didn't want to tell Shi Yu this.

It was enough for Shi Yu to know that it was the teacher of the Emperor's Iron-eating Beast.

"Then you left me behind... Is there anything I can do?"

2

Shi Yu said carefully.

To hell with the royal bloodline or not. He only wanted to know when he could go out.

Now, he estimated that the people outside, such as Senior White Brook, would definitely explode.

"Why don't you also be Eleven's teacher?"

"After it becomes stronger, it will be filial to you."

Shi Yu thought that he had to cozy up to this beast even if he didn't go out.

If he could buddy up with Emperor Wu's pet, he might be able to become the first bureau chief tomorrow.

At the same time, all the secrets of the Emperor Wu Dynasty would disappear.

"Oh???" Zhong Xuan was stunned.

But soon, it snorted.

"Forget about being a teacher, but I do plan to give you some 'benefits'."

"Oh, no, I plan to invest in you guys."

Zhong Xuan opened his huge mouth and grinned. He looked at Shi Yu and the others with ill intentions.

"Benefits, investment??"

Shi Yu was stunned. Like hell he'd believe this guy.

It didn't even tell him the method to awaken the Iron-eating Beast King bloodline. Would it give him other benefits?

"You guys have been looking for a way to let it carve that kind of inscription outside, right?"

Zhong Xuan lowered its head and looked at Shi Yu and Eleven.

"I have to say, your investigation direction is not wrong. However, your luck is a little bad."

"Wh-what do you mean?"

Shi Yu looked up at Zhong Xuan.

"Good news and bad news."

“The good news is that this is indeed a training ground built for the Iron-eating Beast Corps.”

“And I built it.”

“You’ve been trying carving inscriptions, but you can’t. It’s mainly because you didn’t eat the corresponding metal minerals!”¹

“Every inscription requires the consumption of the corresponding special metal mineral to allow the Iron-eating Beast to awaken new racial skills and complete the small stage of evolution.”

“Your judgment is right. These nine training facilities indeed have a reward mechanism. It was set up to choose the outstanding soldiers in the Iron-eating Beast Army. Back then, I stored nine special metal ores that could be used to inscribe inscriptions in the nine stone pillars. Moreover, they were all top-notch evolution metals. As long as the Beast Tamers and Iron-eating Beasts in the Iron-eating Beast Army reach the trial standard I set, they will trigger the reward and obtain the opportunity to evolve and become stronger.”

Shi Yu and Eleven’s eyes lit up.

Buggy and Baby Ginseng were shocked.

Could it be.

Leader’s epic strengthening?

“The bad news is that the reward from the place where you topped the record has long been taken away by a general back then. It’s already empty inside. There’s nothing left. Are you surprised? Are you surprised?”

Zhong Xuan laughed.

“..” Their fists hardened. Shi Yu and Eleven’s fists hardened. If it weren’t for the fact that they couldn’t defeat it, they really wanted to give it a lesson.

“But you don’t have to be too sad.”

Zhong Xuan looked at Shi Yu and Eleven. Although it didn’t say it, it actually felt that Shi Yu and Eleven were quite ridiculous.

For example, although Shi Yu’s physical strength was inferior to Emperor Wu when he was at the same level, Shi Yu was definitely ranked second among the pure-blooded human Beast Tamers it had seen.

There was also that commander rank Iron-eating Beast. Its strength was even stronger than the emperor’s when it was at the commander rank.

This combination really shocked Zhong Xuan, as if it had seen a second Emperor Wu. Unfortunately, Shi Yu didn’t have the Fusion Talent.

However, Shi Yu, who was possessed by the sword spirit, wasn’t bad either. He couldn’t see through this sword spirit at the, but he only felt that the other party’s race level wasn’t inferior to his. From the looks of it, Shi Yu’s future achievements were definitely shocking. Perhaps he could approach

Emperor Wu.

“Although the special ore used to carve inscriptions at the Wei Lin Platform has been taken away, there are actually four other ores left in this ruin.”

“It corresponds to the super racial skills of the four types of metal, wood, metal, lightning, metal, and darkness. Among them, the first three types of metals can only allow it to evolve a little and increase its life level. However, the Golden Dark Ore can allow it to complete the strongest evolution after a higher growth level and reach the quasi Mythical race level.”

1

“Do you want it?” Its red eyes stared at Shi Yu and the others.

“There’s no need to challenge the facility. I can directly take it out for you.”

Time seemed to have stopped. Shi Yu was silent for a moment before looking up and saying,

“There should be a price.”

Zhong Xuan said, “Of course, I can give you the right to choose. Whether you want it or not is up to you.”

“You saw my injuries, right?”

Shi Yu and the others nodded.

“at that time, we experienced a huge battle.”

“Emperor Wu you’re talking about, which is my Beast Tamer, and his group of battle beasts, all died in that battle. Only I used my racial talent to escape.”

“But even if I successfully escaped, I also suffered an incurable injury.”

Shi Yu’s expression gradually became serious.

So Emperor Wu really died in battle?

He and the few battle beasts had all died in battle, leaving only one Chong Xuan pet alive... 1

“Do you know who our enemy at that time, the enemy who posed the greatest threat to Dong Huang, was?”

It raised its head and asked.

Shi Yu shook his head. That history had been edited too severely. He couldn’t be sure at all.

“Ten thousand years ago, in the totem era, a meteorite fell from the sky and landed on the blue planet. A meteor the size of a city fell on the blue planet and evolved into a life form during the fall. After it evolved into a life form, its talent was terrifying. Soon, it had the strength of a totem level and slept in the east.”

“Five thousand years ago, it woke up and turned into a Demon God. Its personality was extremely fierce and it began to devour creatures indiscriminately. It mainly relied on humans to evolve. The totem factions attacked one after another. At that time, its strength was outstanding even among the many totems in the east. However, in the end, it was still jointly killed. But at its level, it was already very difficult to die. In less than three thousand years, it revived with the power of the meteorite again.”

“Two thousand years ago, it woke up again. At this moment, its strength had already reached an extremely exaggerated level. This time, it became even more intelligent. It no longer swallowed creatures indiscriminately and began to try to unify the totem power in the east.”

“It’s not too much to say that this fellow was the king of totems at that time, and its name was ‘Yun An’, known as Meteorite!”

“The injuries on Emperor Wu that even Mythical resources can’t heal, as well as my injuries that can’t be healed no matter what, originate from it. It has already stepped into the Mythical Domain and stands at the top of the totem. It can be said to be a demigod. In addition, its power comes from outer space, so it’s extremely special. Being injured by it is a permanent injury. It can be said to be the most difficult existence.”

“Yun An? It wasn’t killed by Emperor Wu?”

Shi Yu had indeed heard the name of this totem, but according to historical records, wasn’t this totem that was a threat to the Imperial Court at that time already killed by Emperor Wu?

“At that time, Emperor Wu forced it back, but it couldn’t kill him. Yun An also knew that we weren’t to be trifled with, so he temporarily retreated and planned to use his long lifespan as a metal-element elemental body to kill Emperor Wu.”

“This is indeed a good method, so Emperor Wu chose to fight to the end. He knew that if he didn’t completely kill Yun An, the moment he grew old, the Dong Huang Dynasty he established again would instantly collapse.”

“Unfortunately, it seems that many people don’t understand his intention of successive battles and are only content with enjoying the current peace. Heh heh.” Zhong Xuan revealed a mocking expression, feeling indignant for Emperor Wu.

“After the final battle happened, both of us perished together. However, I know that Yun An’s death was only an illusion. It must have slept in a certain place and waited to be revived, just like five thousand years ago,” Zhong Xuan said affirmatively.

3

Shi Yu suddenly had a bad feeling.

“Senior Chong Xuan, you won’t say that if I accept these four special ores, I have to shoulder the great responsibility of suppressing and killing Yun An again, right...” He revealed a bitter expression.

3

The few legendary Beast Tamers of Dong Huang were all ridiculously strong. For example, the empress had contracted nine totem-level phoenixes. If Emperor Wu wanted to come, it wasn't much different. He probably had many totem-level pets.

Even so, they were still taken down by Yun An. This fellow sounded very troublesome. His strength probably couldn't even be compared to a top-notch totem like the Dark Phoenix.

The condition for advancing to a totem was for the transcendent racial skill to reach perfection. This was only an ordinary totem.

As for top-notch totems like the Undying Dark Phoenix, many super racial skills had reached perfection.

As for the demigod mentioned by Zhong Xuan... Shi Yu thought about the difference between transcendent proficiency and proficiency in Dao Proficiency and felt a headache.

He needed 64 instances of adding points to reach transcendent, but 256 to reach Dao Proficiency. The difference during this period was four times. In other words, the difference in strength between totems could be very large.

This Yun An was known as a half-god by Chong Xuan. Perhaps a super skill had reached the maximum level, or perhaps it was close to the maximum level.

"You're wrong. It's not that you need to fight Yun An to obtain these ores, but if you use these ores, you will definitely be targeted by Yun An." Zhong Xuan revealed a strange smile and said.

"Yun An is a life form formed by a meteorite that contains metal matter. It's a dark and metal-element half-god. The metal ore that the Iron-eating Beast needs to devour in the next stage of its great evolution is its body. Guess, after you use a portion of its body to complete the evolution, what will the outcome be if it revives again?"

"You have to know that the Iron-eating Beast of Emperor Wu became incomparably powerful because it swallowed a large amount of the fragments of Yun An's body. If you repeat the path of Emperor Wu, do you think Yun An will let himself be treated as food and the life of his enemy?"

"So, what I mean is that if you have the awareness of being targeted by a demigod standing at the top of the totems, then it's fine for me to directly give you these metal ores."

"If you have the ability in the future, you can help us take revenge. If you don't have the ability and are eventually killed by Yun An, don't blame me. After all, it's your choice."

As soon as Zhong Xuan finished speaking, the scene fell silent.

Eleven grabbed Shi Yu's clothes tightly and was a little stunned.

Buggy, Chi Tong, and Baby Ginseng were all shocked.

Holy shit, the second stage evolution ingredient of the Iron-eating Beast, a special metal, was a part of Yun An's body?

Damn, the dark totem that related the evolution of Eleven that the owl predicted was related to... Could it be Yun An?! In that case, Yun An really wasn't dead??

Chapter 248: Eleven, who had evolved into a high-level overlord

Hmph, hmph.

The old turtle, Zhong Xuan, looked at Shi Yu and the others silently, waiting for their choice.

In its opinion, Shi Yu's talent wasn't bad. In the future, he might be a threat to Yun An.

Even if it couldn't pose a threat, it was good to disgust Yun An.

In short, as long as Shi Yu wanted to nurture the Iron-eating Beast, he would definitely fight Yun An in the future.

And it was an enemy with Yun An. The enemy of the enemy was its friend. This was the reason why it wanted to invest in Shi Yu.

The path of evolution was placed in front of Shi Yu and the others. He wondered if Shi Yu and the others had the guts to walk it.

"Just now, didn't Senior Chong Xuan say that Yun An was as big as a huge city?"

Shi Yu and the others stood together and carefully started the team meeting.

Eleven, Buggy, Baby Ginseng, and Little Chi Tong, who had possessed Shi Yu, nodded.

"No wonder Senior Emperor Wu's Iron-eating Beast Army can evolve into a second stage. As long as a piece of Yun An's skin is removed, it can probably support many Nine Li Battle Beasts carving inscriptions..."

"In addition, it's an elemental life form and a demigod. It's probably not very difficult to regenerate. It's a renewable resource."

"In other words, the stable evolution channel of the overlord race... has been found?" Shi Yu was stunned.

"If the country knows, will it organize a mechanical army to attack the totem area?"

"Capture Yun An and raise him."

Eleven, Baby Ginseng, Buggy, and Chi Tong were all very serious. It wasn't impossible.

Although the current Dong Huang and the totem area were peaceful and were only going through small-scale conflicts, that was because there were no benefits to be found through war.

If there were huge benefits, it was possible for the totem area to start a war with Dong Huang or Dong Huang to start a war with a certain totem.

The Dong Huang Ancient Country was actually alright. In recent years, it had been at a stable development stage. It maintained the attitude that if the enemy didn't attack it, it wouldn't attack the enemy.

But some countries actually often had conflicts with the totem area.

For example, Shen Feng that had been established for the shortest time and only had 200 years in history. It was the first to develop a Mechanic class and become a country with technology.

Because they lacked native resources, even until now, it often fought with the totem area and plundered resources everywhere. It was in the war stage all year round. However, it wasn't an all-out war, so it couldn't affect the situation of the world.

If Dong Huang understood the threat of Yun An and the benefits it could bring by killing Yun An, then even if Shi Yu didn't care about it, Dong Huang would probably miss it.

1

Although Shi Yu didn't have any confidence in facing Yun An in the short term with his strength, he was still quite confident in Dong Huang.

The advantage of Mechanics in war was too great.

The last totem war, because of the birth of the Mechanic class, was the easiest battle for humans to win in thousands of years.

With the advantage of the number one country in the Mechanic class, even the Shen Feng Nation dared to chase after the totems now.

In this situation, Shi Yu felt that he could give it a try. So what if he provoked a demigod in order to evolve? As long as there were benefits, he believed that Dong Huang could become his greatest nanny and protect him well.

He chose to continue living off of nannies.

Moreover, whether Yun An revived or not was still another matter.

If it still needed a hundred thousand years to revive, it would probably still be in a weakened state. It wasn't as strong as he imagined, so he had plenty of time to develop.

"Senior Chong Xuan, we've decided."

"Evolution metal, amazing! Totem half-god, useless!"

"By the way, do you know where Yun An might be revived and resting?"

After Shi Yu and the others discussed carefully, they looked at Chong Xuan.

Perhaps after the mechanical army pressed over, he wouldn't even have to ask Yun An for the evolution materials later himself. The Dong Huang army would directly pack them up and bring them back.

Zhong Xuan: "?"

It was decided so easily and happily??

Shouldn't he consider it carefully when facing a monster like a half-god totem?

"Have you really decided??"

Zhong Xuan looked at Shi Yu and the others.

“Te decided.”

“Alright.” Zhong Xuan snorted and laughed. Forget it, it was useless to keep the four metal resources in the ruins anyway. It couldn’t bring it along with it even if it died. It was a pretty good way to deal with it now that it could be given to Shi Yu.

Unfortunately, it probably couldn’t see the day Shi Yu and Yun An faced each other in the future.

“You guys wait!!”

It roared, and even space vibrated.

The next moment, boom, boom. In the ruins, the stone pillars of one of the four training facilities cracked.

Then, four fist-sized special metal ores flew out.

White light covered these metal ores. As Zhong Xuan controlled these metal ores to come to this space with his identity as the master of the ruins, four metal pieces of different colors instantly fell in front of Shi Yu!

There was a piece that was completely blue. The lightning was violent, and the metallic luster and lightning intertwined.

A dark green stone was filled with life.

It was pure white and transparent, with a faint white halo.

The last piece was a black prismatic metal that gradually turned white. It looked like the most ordinary of the few, but on careful observation, it contained strong dark magic power.

“For you.” After Zhong Xuan took out four metal ores, he said,

“But I’ll say this in advance, because these four pieces are the best among the corresponding metals. The Heavenly Thunder Stone, Life Gold, and Divine Space Iron are still alright, but with your Iron-eating Beast’s aptitude, you can definitely digest them.”

“However, it’s best to wait for this meteorite fragment to grow to the monarch level. No, it’s best if it’s at the overlord level before devouring and evolving. The first three metals only let it complete a small evolution. Although it will increase its race level and awaken new super racial skills, it won’t let it obtain new attributes, and its own form won’t change.”

“However, the Meteorite Fragment will change it greatly. At that time, it will evolve into a new race. It will obtain dark attributes and transform into a devil god. The requirement for its own strength is very high. Otherwise, it’s very likely to lose its mind due to the corrosion of the dark power.”

Zhong Xuan saw Shi Yu looking at him and asked, “Is there anything you want to ask?”

“No...”

1

“Well, can it try to evolve now?”

Shi Yu said in anticipation.

Speaking of which, he finally knew what materials the Iron-eating Beast needed to carve the inscription.

It wasn't easy!

Heavenly Thunder Stone, Life Gold Jade, Divine Space Iron, these metal ores were recorded in his index. They were all rare level-eight materials.

Moreover, it was one of the rarer ones. It belonged to the type that might not necessarily be found even if one knew the name. It was even rarer than the Fruit of Life that the ginseng baby ate.

No wonder he made Eleven eat so many different metals and tried to carve inscriptions but failed. It was because he was poor that he didn't experiment on top-notch metals.

“Sure.” Zhong Xuan clicked his tongue and said, “Eat those three first and carve the corresponding inscription. I reckon that at that time, its race should be able to be called a high-level overlord race.”

“I'll tell you what the other five pieces of metal are. At that time, if you can find the corresponding metal, your Iron-eating Beast's strength will be passable.”

At the side, Buggy and Baby Ginseng couldn't listen anymore.

Damn.

If one inscription corresponded to a super skill, then at that time, it would be nine super skills. In addition to the original one, it would be ten super racial skills!!

Wasn't this invincible?

Buggy and Baby Ginseng were stunned.

However, Shi Yu and the others paused. “It... makes sense??”

“Ten super racial skills...”

Zhong Xuan curled its lips and said, “What's the use of skills? Even if there are 100 super racial skills, they're still only quasi Mythical races. Without divine skills, they're still ants.”

“Back then, it also had ten super racial skills that were ridiculously strong, but in the end, even if we added all of us together, we could only fight evenly with Yun An.”

“Little brat, let me remind you. Remember this well. When you train all your super racial skills to perfection, don't practice all of them anymore. Just specialize in developing the most convenient super racial skill.”

“When a transcendent racial skill reaches a certain proficiency, it can advance to the totem level.”

“And to develop a certain transcendent racial skill to the extreme and combine it with your own race to develop your own divine skill... This is the key to breaking through all restrictions and becoming a Mythical! Don't be greedy. Essence is the foundation.”

1

“It's because Yun An has mastered the prototype of a divine skill and developed an ability to the extreme that he can suppress us. If he wants to pursue a higher domain, it's enough to find a direction. Every super skill is the prototype of a divine skill. Even those real Mythical creatures only have one divine

skill. Quality over quantity, remember this!”

Shi Yu was slightly stunned when he heard Zhong Xuan's guidance.

This was the first time he had heard of the need to advance to the Mythical stage.

Developing super racial skills to the extreme and combining them with their own race to develop their own divine skills was the requirement to advance to the Mythical stage??

oye

As expected!

For experts like Emperor Wu, skills with transcendent proficiency were not the end point at all. In fact, what they pursued were transcendent racial skills with Dao Proficiency!

“Have you understood?” Zhong Xuan asked.

“Yes, yes, I have.”

“Then eat it quickly,” Zhong Xuan said calmly. The last time it helped the iron-eating beast evolve was a long time ago. What nostalgia.

“Huh?” At this moment, Eleven was stunned. It suddenly realized that this seemed to be its opportunity.

Its eyes immediately lit up.

Seeing this, Buggy and Baby Ginseng directly tensed up in envy.

Buggy suddenly felt a sense of crisis.

‘Wait a minute, did Big Boss Chong Xuan say that the leader could reach a high-level overlord race after eating these?!

Baby Ginseng cried. It thought that it would be the next one to evolve in the team. It was clearly supposed to be

Eleven ran to a metal ore excitedly.

It had long turned from a child who didn't know how to evolve into an evolution obsessed freak.

“Wu?” It asked Zhong Xuan and Shi Yu if it could eat it.

“Let’s give it a try.” Shi Yu nodded.

“Wuu!!!”

With that said, Eleven roared and directly entered the sharp state, evolving into the form of the Nine Li Battle Beast.

At the same time, when he saw the silver-white Nine Li Battle Beast, Zhong Xuan narrowed his eyes.

It said, “This is the best proof that it’s an Iron-eating Beast King. Although its bloodline didn’t awaken successfully, the characteristics of the royal family are very obvious.”

“After the Iron-eating Beast King’s racial skill hardening is developed to the extreme, if you also master other attributes with extremely high proficiency at the same time, and if the hardening substance in your body has the corresponding attributes... you can obtain a second attribute during evolution.”

“You guys are pretty lucky.”

Shi Yu was stunned. This was the first time he had received an official explanation why Eleven had lightning after evolution. It was different from other Nine Li Battle Beasts.

Eleven was even more confident. As expected of the Panda King!

“alright, quickly evolve,” Zhong Xuan said.

“Alright.” Shi Yu nodded and looked at Eleven.

“Wuu!!!” In the next moment, Eleven swallowed the Heavenly Thunder Stone in one go.

Boom!!!

Then, lightning wreaked havoc on Eleven’s silver-white armor, and shocking lightning shot out of its eyes.

Under its guidance, Eleven quickly carved the corresponding inscription.

Screech.

Eleven hardened the sharp claws of its right hand and started to slowly scratch its body.

Then, under the nervous gazes of Shi Yu, Buggy, and Baby Ginseng, white light began to linger on Eleven’s body!

At this moment, Eleven was very excited because this time, the rejection reaction did not appear!

“Wuu!!!”

Eleven roared and its body was completely wrapped in white light. At the same time, the index in front of Shi Yu quickly displayed Eleven’s growth changes.

(Energy Points): 133156

“Holy shit.” Shi Yu cursed in his heart. It increased by more than 20,000 all of a sudden?

'What shocked Shi Yu even more was that as the white light dissipated, Eleven's full appearance appeared in front of them.

Just as Zhong Xuan had said, Eleven's form didn't change at all. Even the traces of the previous inscription had disappeared. However, Beetle, Baby Ginseng, and Shi Yu could clearly feel that it was stronger.

At this moment, terrifying lightning lingered on Eleven's body. As it slowly raised its arm, its expression was slightly stunned.

Sensing his newly awakened racial skill, Eleven was suddenly shocked and delighted.

At the same time, Shi Yu also instantly learned the information of this new skill through the mental connection between the Beast Tamer and his pet!

Skill: Lightning Rod

[Attributes]: Metal, Thunder

[Level]: Super level

< Introduction > It can transform oneself and external objects into the Lightning-Attracting Needle. When you transform yourself into a Lightning-Attracting Needle through hardening substances, you can obtain the lightning resistance and cause the heavenly lightning in the natural world to attack all substances around you. By touching and giving hardening substances to transform the enemy into the Lightning-Attracting Needle, you can let the enemy be attacked by the heavenly lightning in the natural world.

At this moment, sensing this skill, Shi Yu directly took a deep breath.

Although the name was a little low and didn't look impressive, the effect was so strong. It was completely the super upper level of a high-level skill Thunder. It was a skill that could perfectly mobilize the natural power of lightning!

What did this skill mean when combined with Eleven's storage lightning and Inner Power?

It was a walking divine lightning attraction. No one could get close to it. It could fight in the thunderstorm and become stronger and stronger!!

Apart from that, it could actually transform the enemy into a lightning rod by giving hardening substances... The enemy didn't have lightning resistance. In other words, if anyone was touched by Eleven in battle, the lightning in nature would continuously attack them. It was never-ending, directly turning the enemy into a lightning-eating physique.

Also, through this skill, it could completely create a holy land for thunderstorm cultivation. Or, if this skill was enchanted into equipment, it would be a thunder-element divine weapon!

No matter how Shi Yu analyzed it, he realized that this skill was extremely strong.

Obviously, Eleven also thought so. It couldn't help but cry out in excitement.

“Wuuu!!” It didn’t have to go to the charging room of Ancient Capital University in the future. The charging there was slow. In the future, it could just summon lightning in school and attack itself!

“yi?” “Wu?” Seeing Eleven and Shi Yu so excited, Buggy and Baby Ginseng swallowed their saliva. What happened?!

“Continue.” Zhong Xuan was the calmest. There were still two more.

Upon hearing that, Eleven continued to eat the Divine Space Iron.

The same procedures, the same steps.

Eleven completed a small stage of evolution again.

If one were to say that the attack just now had completely raised its race level to low-level overlord.

Now, its race level had leaped to middle-level overlord.

Energy Points: 154325

Moreover, its energy level became the first in the team overnight, surpassing Little Chi Tong and Buggy!

At the same time, new racial skills were accompanying it.

Skill: Space Quake

[Attributes]: Metal, Space

[Level]: Super level

< Introduction > It can temporarily give the spatial attribute of metal-element matter. The metal-element substance that is given the spatial attribute has a vibration nature. It can cause spatial vibration. With the power of vibration, it can shatter the ground, make the atmosphere tremble, make the sea

crack, make the sky sway, and cause huge tsunamis, huge earthquakes, and even spatial cracks to attack the enemy in another space.³

After awakening this skill, Eleven was overjoyed.

Not only was it a counter to Buggy, but it was also a move that could be used to create weapons!

Shi Yu instantly shared his ability with Buggy.

2

Buggy:

This was a move that could counter the etherealization ability of the invincible Concealment of a legendary Beast Tamer.

Buggy originally relied on Concealment to be invincible in the battle with Eleven, but now, its expression suddenly collapsed and revealed a desperate expression.

No!!!

“Wuuu!!”

At this moment, Panda King Eleven was extremely excited.

However, this wasn't the end.

The final Golden Jade of Life.

This was a metal that could allow Eleven to awaken super racial skills with both metal and wood attributes!!

It was the same step again. Eleven completed the evolution without changing its form.

Moreover, the newly awakened skill stunned Eleven and Shi Yu.

Initially, Shi Yu thought that it would be another move that could create weapons and equipment, but.

Skill: Soldier Bean

[Attributes]: Metal, Wood

[Level]: Super level

{Introduction}: Spread the golden beans and form an immortal army. The inheritance of the army's individual abilities will increase with the increase in skill proficiency!

Shi Yu was stunned for a moment. He instantly imagined the scene of a group of little iron-eating beasts fighting and using impregnable together.

Holy shit, clone skill??

Moreover, it was a clone skill named after the army.

Shi Yu had been searching for the metal-eating Iron-eating Beast's skill that was more compatible with the metal element than the spiritual-type clone. Unfortunately, he had never found it. He didn't expect that the clone skill would be awakened by Eleven in the form of a racial skill.

At this moment, Shi Yu suddenly felt that he had no regrets.

«< Name > Nine Li Battle Beast (Three Inscriptions)

{Race Level}: Metal, Thunder

[Race Level]: High-level overlord

{Level of Growth}: Commander Level

[Race Skill]:

Low-level: Hardening (Dao Proficiency), Electric Magnetic Floating (Dao Proficiency)

Intermediate: Giant Transformation (Dao Proficiency), Energy Storage Lightning (transcendent)

Advanced: Impregnable (Perfect)

Super level: Inner Power (Initiate), Lightning Rod (Initiate), Space Quake (Initiate), Congealed Bean Soldier (Initiate)

[Professor Skill]:

Intermediate: High Speed Healing (Perfect), Super Sight (Perfect), Thunder Palm (transcendent)

Advanced: Absolute Sleep (Perfect), Multiplication (Shrinking: Perfect; Giant Transformation: Dao Proficiency), Deterrence (transcendent)

Energy Points: 175001

In an instant, Eleven's strength reached an unimaginable level.

At this moment, when he saw Shi Yu and Eleven's shocked expressions, Zhong Xuan laughed out loud.

"How is it? Very strong, right?"

"I'll also tell you the awakening method of the Iron-eating Beast King bloodline later. In my opinion, that racial talent isn't inferior to ordinary super skills."

"Wuuu!!!" Eleven's eyes lit up. It realized that it had become like Shi Yu and wanted to rely on a stronger power.

It felt good!

"The racial talent is...?" Shi Yu asked.

Individual pets all had their own special abilities. It wasn't a skill, but the nature of their bodies. For example, the racial talent of birds was flight.

Fish could survive underwater.

Baby Ginseng was also a supplement.

These talents might be useful or they might not be.

"Actually, it's nothing. It's just that it can allow the Iron-eating Beast to increase its physique more efficiently after recovering from its near-death state. In short, it can increase the benefits of life and death battles and life and death training."

3

'As soon as he finished speaking, Eleven's gaze gradually became sharp. Buggy and Baby Ginseng were shocked.

At the same time, Shi Yu fell into deep thought.

The Iron-eating Beast was too strong. He should strengthen Baby Ginseng... Damn, something was wrong. If they do that, the Iron-eating Beast would be even stronger...

Chapter 249: Locked in the Black Room

“Coach, I want to learn this!!!”

Every time it recovered from near death, it could increase his physique more efficiently?

Wasn't this made for Eleven!

It really dared to risk its life in daily training!

At this moment, Shi Yu really began to believe that Eleven had the Panda King bloodline.

Normal Iron-eating Beasts had this will?

Perhaps Eleven couldn't be so ferocious. Apart from its experience, the weak Panda King bloodline had also affected it.

It was indeed not unreasonable for it to be able to gain something from the Evolution Holy Spring.

“Coach? Forget it, I'll think about it.”

Zhong Xuan muttered. Why did it awaken its royal bloodline?

This awakening method was developed by the tribe that led the Iron-eating Beast Corps.

Although it had also understood it, it really couldn't remember it clearly. It had to try remembering.

“Let me think...”

Five minutes passed.

Zhong Xuan was still thinking.

As a result, the Panda King Eleven couldn't help but experiment.

A moment later, ten silly little Iron-eating Beasts were created. At the same time, Eleven looked weak.

“Wuu!” “Wuu!” “Wuu!”

The ten little Iron-eating Beasts looked at Eleven and chirped in the sky. Eleven was silent.

“Wuu!” It glared at the Little Iron-eating Beast Corps.

Why did it feel that this skill wasn't that strong?

Every little Iron-eating Beast was in the form of an ordinary Iron-eating Beast.

Moreover, it had only inherited Eleven's racial skills below super level.

For example, Hardening, Giant Transformation, Electric Magnetic Floating, Energy Storage Lightning, Impregnable

High-speed healing, super vision, and thunder palm were all not inherited.

Moreover, the proficiency of the racial skills he inherited was only at the expert level.

The only thing that comforted Eleven was that the energy value of each little Iron-eating Beast was ridiculously high, reaching more than 40,000.

Each one was comparable to a monarch race or commander rank ferocious beast.

Ten together was equivalent to a monarch species commander rank battle beast team.

However, condensing them directly consumed Eleven's physical fitness.

Eleven's hundreds of thousands of energy points were instantly emptied.

Although the total value of these ten little Iron-eating Beasts had always reached more than 400,000, more than Eleven, it was very useless.

1

Eleven felt that if they attacked together, they might not necessarily have more battle power than him fighting personally.

With this energy consumption, wouldn't its 100-meter Thunder Palm be much more god-killing?

Then, Eleven began to extract the energy in the source of its physical strength and gradually recovered from its weakened state. It became energetic again.

"Wu wu wu."

Eleven looked at Shi Yu. What a super skill. It felt that it wasn't as powerful as other super skills.

"How is it useless? It's strong enough to explode, alright?" Shi Yu said after a moment of silence.

This was the entry-level bean army.

This might be Eleven's strongest super skill.

Since it was said to be an army, when the skill proficiency was high in the future, it would definitely be able to condense more, such as a hundred, a thousand, ten thousand.

Moreover, the ability inheritance would increase with the proficiency of condensing beans into soldiers.

If one day, they could unlock the inheritance of the Nine Li form and the super racial skill, every soldier individual would have the accompanying move of storage lightning, Inner Power, and Lightning Rod. This was an invincible Thunderstorm Army.

'Their own energy points could be ignored. They just had to rely on the power of the heavenly lightning!

'With the endless lightning energy and the giant transformation, it was simply a monster army.

Moreover, if they could inherit higher skill proficiency in the future, the strength of each army individual was even more terrifying.

It was even to the extent that if one day, the bean army could unlock the teaching skills outside their race, that would be even more invincible.

Shi Yu could replicate a bunch of similar impregnable army resonance skills for Eleven to learn.

At that time, low-level skills could also display the effect of super-level skills!

One man became an army!!

Perhaps from the looks of it, this move was useless for Eleven and couldn't be helpful in battle. However, after its proficiency increased and it unlocked a higher inheritance, it would be so good to directly have an army pressing down on the enemy.

Although Eleven didn't react, Shi Yu instantly understood the strategic value of bean soldiers. No wonder Emperor Wu wanted to nurture the Iron-eating Beast Corps. This was simply promising in the future.

"Wuu?"

Eleven pondered. Really?

"Fortunately, my memory is good. I remembered it!"

At this moment, Zhong Xuan suddenly said.

It sighed. "By the way, you should know the method to quickly increase the hardening level, right?"

He thought for five minutes before realizing... It couldn't be said that his memory was good

Shi Yu and the others looked at Chong Xuan.

"It's relying on high-level hardening to nurture low-level hardening, right?"

"That's right!"

Zhong Xuan nodded and said, "This is actually the easiest place for the iron-eating beast army to take shape."

"Actually, the method to awaken a royal bloodline is similar. It also depends on nurturing."

"Huh??"

Shi Yu was stunned. "Iron-eating beasts that rely on other royal bloodlines??"

"No, it's to nurture and nourish the Iron-eating Beast's bloodline through Beast Tamers. However, the method is relatively special, and specific nourishing skills are needed."

"Then... Then can I learn it?" Shi Yu suddenly had a bad feeling.

"You? You definitely can't. Only Beast Tamers with the metal-element strengthening talent can nourish the Iron-eating Beast's bloodline through their talent. It's considered a special cultivation technique that belongs to metal-element Beast Tamers against metal-element creatures. Heh, it was

developed by the first general under Emperor Wu at that time."

Shi Yu's expression immediately collapsed. Holy shit, heartless.

It meant that it was a special meditation technique similar to the one created by Emperor Shi, a special use of the Beast Taming Talent?

“Then can I look for other metal-element Beast Tamers to help?” Shi Yu asked again.

“This can be done. At that time, in the iron-eating beast army, there were specialized metal-element Feeders in charge of nurturing the iron-eating beasts,” Zhong Xuan said.

“However, this is a slow job. Although the level requirement for Beast Tamers isn’t high, the time cost is very high.”

Upon hearing Zhong Xuan’s words, Shi Yu heaved a sigh of relief.

That was good. He was really afraid that it had to be the beast tamer himself. If he could find someone to help, he could directly find Senior Panda. Their family had metal-element talent.

It just so happened that Eleven still needed to help Senior Panda’s Iron-eating Beast increase its hardening level. It was completely fine to squeeze Senior Panda dry. After all, Eleven was raised by Senior Panda since young.¹

Suddenly, Shi Yu felt that something was wrong.

‘The number one general under Emperor Wu should be the expert of the Iron-eating Beast Tribe, or the Beast Tamer who had contracted the Iron-eating Beast.

From the looks of it, the information on this titled legendary warrior was not passed down either.

Could it be that the iron-eating beasts were too strong at that time? After Emperor Wu Dynasty was destroyed, the totems almost wiped out the iron-eating beasts?

In order to prevent the appearance of a powerful Iron-eating Beast, they directly combined powers with the traitor of the human race and rewrote the history of that time, deleting a large amount of information about the Iron-eating Beast.

This also explained why there weren’t many iron-eating beasts in the modern era, and the racial heritage was almost severed.

“Speaking of which, my Iron-eating Beast has a royal bloodline. Does this mean that its ancestor has a very powerful Iron-eating Beast?” Shi Yu suddenly asked.

1

Zhong Xuan nodded.

“Not bad.”

“So, how did you guys meet?”

Eleven scratched its head and looked at Shi Yu.

Shi Yu said, “I bought it with a loan from the Feeding Base... I’m wondering if the owner of that Feeding Base is the descendant of the Feeders who specialize in nurturing iron-eating beasts for Emperor Wu...”

Senior Panda’s family seemed to have started to nurture iron-eating beasts since their ancestors. The ancestor’s teaching was to definitely pass down the iron-eating beasts. Only then did Senior Panda’s family’s obsession with iron-eating beasts become stronger.

If the Iron-eating Beast race really suffered a fatal blow after the destruction of Emperor Wu Dynasty, then a small group of people might completely bring part of the Iron-eating Beast bloodline to live in seclusion and pass down their ancestral teachings.

After a long development and the changes of several dynasties, it was not impossible to become the current Lin family of Ping Cheng.

Zhong Xuan fell into deep thought. Shi Yu's words seemed to have triggered some of its memories, recalling the scene of it nurturing the Iron-eating Beast Corps with a group of feeders.

It sighed. Those people had definitely passed away, but their descendants might have really survived.

"It's not impossible. If I could see them, I might be able to sense if they were the descendants of that group of acquaintances." Zhong Xuan shook his head.

"Sure, I'll bring Senior Chong Xuan to take a look when I'm free!" Shi Yu's eyes lit up and he started playing the emotional card.

If Senior Panda and her family were really the descendants of this friend of Zhong Xuan's, wouldn't their relationship be even more perfect?

After bringing Big Boss Zhong Xuan to Ping Cheng, with its rich experience in nurturing Iron-eating Beasts, the Iron-eating Beast Cultivation Base would take off directly.

At that time, the Iron-eating Beast Feeding Base in Ping Cheng would nurture Iron-eating Beasts, the Battle Emperor Ruins would train Iron-eating Beasts, and in addition, the evolution channel of the overlord race would be discovered. This wave was to recreate the strongest army in history.

Although there was not much information passed down from Emperor Wu, Emperor Wu's army was the strongest apart from the modern mechanical army. This was recognized by archeologists.

"Not interested."

Zhong Xuan snorted. Most importantly, it couldn't go out in its current state. It said, "Alright, I'm starting to talk about the method to nurture the iron-eating beast bloodline. This method is also useful for other metal-element pets. It can purify their bloodlines. Remember this well."

"Yes!!"

Shi Yu hurriedly dealt with the business.

Half an hour later, after cursing and lecturing, Zhong Xuan finally taught Shi Yu, that idiot, to understand.

Apart from that, he also told Shi Yu the information about the other five rare metals. These were all very rare level-eight resources.

Shi Yu learned so slowly purely because Shi Yu didn't have any metal-element talent. He couldn't practice while learning. He could only remember the details of all the theories in the index. Only then could he teach it to Senior Panda.

After everything was completed, Shi Yu put away the fragments of Yun An.

Shi Yu planned to wait until Eleven reached the overlord level before devouring this evolution. Since even Zhong Xuan said that there was a risk for Eleven to devour this at the moment, he would do it steadily. Or, he would let Eleven learn a dual-element ordinary skill of the metal and dark elements in advance to lay the foundation.

Wasn't this what the skill index was for?

"yi." Zhong Xuan finished speaking tiredly. Baby Ginseng helped. It had been condensing nutritional fruits with earth-element energy and rich life energy at the side. When Zhong Xuan glanced over, it saw Baby Ginseng handing it over with eyes filled with stars.

It meant to give it to Senior.

"yi! (This, delicious, it can also heal injuries!)"

"on"

Chong Xuan looked at the ginseng baby. Compared to the Butterfly of Imagination, Chi Tong, and Eleven, this ginseng baby previously didn't have much of a presence in its eyes, but now, it realized that the ginseng baby was still pretty obedient.

"Then let's try it."

Zhong Xuan had indeed not eaten for a long time. It opened its mouth slightly, and the pile of nutrients that Baby Ginseng had desperately condensed was directly sucked up by the gravity in its mouth.

This was the super skill Gravity Control above transcendent proficiency. It could control the strength and direction of gravity at will, including gravity, horizontal gravity, gravity-free, anti-gravity, pressure, pull, repulsive force, gravity

Back then, Zhong Xuan relied on this move to pull down many meteors from the sky for the Iron-eating Beast Army.

Click.

Compared to the volume of Zhong Xuan, the nutritional fruit of the ginseng baby was too small, and the nutritional content it contained was too little. After Zhong Xuan finished eating, it shook its head in disinterest and recalled the nutritional supplements of a certain teammate. That was the delicious one.

"The quality is not bad, but your strength is too weak, and the level of the food is not enough. It needs to be improved, right?" After Zhong Xuan smacked his lips, he said indifferently, "But for your strength, it's already not bad. I can tell that you will definitely be amazing in the future."

As soon as it finished speaking, Baby Ginseng's expression froze instantly, and it revealed a crying expression.

wyill!"

It looked at Zhong Xuan's indifferent expression and its unresponsive injuries and couldn't help but feel defeated.

"Senior Chong Xuan.

Seeing that Baby Ginseng had failed, Shi Yu went on stage again and tried his turn. Shi Yu looked at Zhong Xuan's injuries and said, "Is Yun An's injuries really incurable? Why don't you come with me to take a look later? There are many medical methods now.

Zhong Xuan yawned and said, "It's too late, or else why do you think Yun An can fight us evenly? It's because of this incurable injury. At that time, it was only a light injury. We couldn't even treat it with transcendent-level healing skills that had reached transcendent. We couldn't even treat it with divine medicine. Now, my injuries are already beyond cure. My injuries have already worsened to every corner of my body, and my life has been corroded. Even if I can treat it, my lifespan has already been corroded to the last point. The meaning of treatment is not big anymore."

"In short, I don't have many days left to live."

"Just remember this is the most troublesome ability of Yun An. Don't worry about me. I've already lived enough. Back then, they shouldn't have sent me out in the end. It would be so much easier for everyone to die together. Damn it, if there's a world of the dead, I'll definitely scold them."

Shi Yu, Eleven, Baby Ginseng, and the others instantly fell silent.

Chong Xuan was about to die?!

"Senior Chong Xuan..."

'Whether they liked it or not... This big turtle had given them so many things after all. Although its personality was a little harsh, Shi Yu and the others really didn't want to see Chong Xuan die like this.

"Is what you said... true?"

"Why would I lie to you"

"The premise is to stay obediently without making any big moves. If there's a battle, I might immediately die," Zhong Xuan said unhappily.

"I can't be bothered to talk to you anymore. I've already explained everything. If you didn't wake me up, I might have been able to live in a deep sleep for decades. In short, I'm going to sleep now. Don't disturb me anymore. If you wake me up again, I really should die."

"Wait..." Shi Yu still had too much to ask, but after hearing what Zhong Xuan said, he was really embarrassed to disturb it.

"Is there really no other way to extend your life?"

"Don't panic, woman. Who said I would definitely die?" Zhong Xuan said.

1

Shi Yu and the others:

Holy shit, you said it yourself.

“The continuation of the bloodline means that I’m immortal. Next, I’ll use my racial talent to reincarnate. A few hundred years later, I might have obtained a new life in the form of an egg. This is the only method that I’ve found to resist the injuries of Yun An after researching for thousands of years in the dream.”

“I wonder if I can awaken the memories of this life. I wonder if it’s considered giving birth or if it’s just rebirth. This is the most difficult thing.”

Zhong Xuan fell into deep thought. But no matter what, it was better than having its bloodline severed.

“Forget it. In short, when my next life is born, you’ll probably be buried already. How miserable. This is the only disadvantage for you humans. Your lives are short.”

Shi Yu :” ...”

Eleven, Buggy, Baby Ginseng, and the other pets looked at Shi Yu eagerly. It could still reincarnate

The higher the species level, the harder it was to reproduce. Was the way to reproduce for Zhong Xuan simply rebuilding itself?

“Then...”

“What else is it? Yun An’s location? How would I know!”

“No,” Shi Yu said.

“In that case, leave quickly. Oh, wait, you still can’t leave.”

Shi Yu:

“Wh-what do you mean?”

“Because I’m the owner of this ruins space. Under the influence of my state, this ruin is very unstable now. Even if there’s a way to treat me outside, I won’t go out now. The problem now is that my condition is getting worse and worse. You don’t seem to be able to go out either. The ruins space has lost its

connection to the outside world.”

“ah???” Shi Yu and the others were stunned.

Damn, damn, damn, stop scaring him!

“Don’t panic. After I die, the space of the ruins should stabilize. At that time, you can enter and leave through the old method. Well... you can use this ruin as you wish. Those damaged facilities will recover by themselves over time. Don’t worry about that. I’m not sure how long it will take. In short, I think you humans still have a lot of storage places in the ruins. It’s enough for you to eat.”

Zhong Xuan said indifferently, but it made Shi Yu and the others have a bitter expression.

The ruins of Emperor Wu had been developed by humans before. It was indeed correct to have a large resource warehouse to store food resources. Even if there weren't any here, Shi Yu had his own ruins space. However, when he thought about how long he would be locked here for, his stomach hurt.

"There's no way to contact the outside world..."

"Of course not. Let's wait. Don't worry, it won't be long."

"There's nothing else this time, right?" Shi Yu could tell that Zhong Xuan's tone was starting to get impatient.

Just as Shi Yu was about to make his final request and shake hands before leaving, Shi Yu and the others flashed with white light and were teleported back to the martial arts conference venue of the ruins of Emperor Wu.

At this moment, standing in the deserted ruins of Emperor Wu, Shi Yu, Eleven, Buggy, and Baby Ginseng looked at everything in confusion.

They were the only ones who couldn't leave the empty ruins. No one else could enter either.

The only person who could chat was Zhong Xuan. He had already fallen asleep in the deep exclusive space of the ruins and was not far from death. It started to try to restore itself by using its next life. This... What was going on?

"Baby Ginseng, you're so annoying. You actually can't treat Senior Zhong Xuan."

Baby Ginseng:

An injury that even a level-ten resource divine medicine couldn't treat, wasn't this making things difficult for it?

"Yi..." Baby Ginseng quickly discovered the blind spot. From the looks of it, Yun An was so scary. Was Eleven really going to fight it?

Shi Yu was silent. Whether that day came or not, he had to think of a way to develop the strongest healing ability on Baby Ginseng.

Otherwise, if he encountered similar enemies in the future, he would be the one suffering.

"Sob." Eleven pondered for a moment and expressed that it was not a big problem.

It suddenly felt that Bean Bears were not bad either.

'As long as it let the bean bears fight, there was no problem of him being injured.

At that time, it would be fine to let Buggy's phantom assist and hide its main body.

"Sob." Eleven seemed to have seen the light. It could fight this final boss, but not using its own body!

"Stop thinking so far ahead. What we should consider now is... how long we have to stay here before we can go out." Shi Yu's face darkened.

Help!

There was no internet here!

Chapter 250: Shi Yu, who had stepped into the Master Domain

In the blink of an eye, three days had passed since the mutation of Emperor Wu Ruins.

In three days, there was still no connection between the outside world and the ruins of Emperor Wu.

In this situation, the martial arts conference was definitely unable to be successfully held.

“What a sin.”

“I’m so silly, really.”

Principal Feng’s head was about to explode. He had the same problem as White Brook.

At the side, Legend Bai smiled bitterly.

Son of a b*tch!

When archeologists stepped into this industry, they should have been mentally prepared.

Exploring the ruins was the most dangerous thing. Anything could happen.

“Don’t worry, since that totem teleported us out, it means that it shouldn’t have any ill intentions. Now, we just have to wait. Apart from that, there’s no other especially good method.”

“Sigh.” Principal Feng nodded.

In order to not cause too much panic, the news of the Battle Emperor Ruins had to be sealed.

At that time, there were many Beast Tamers in the ruins of Emperor Wu. Many people didn’t know that Shi Yu didn’t come out, so for a period of time, only a few people were worried about Shi Yu.

For example, White Brook, who had called Shi Yu to participate in the martial arts conference, felt ten thousand regrets in her heart. If she had known earlier, she wouldn’t have invited Shi Yu no matter what.

Apart from that, under Lu Qingyi’s invitation, the members of Bureau 11 also put down what they were doing and collectively came to Wu Ling City to study Emperor Wu Ruins and try to see if there were any other ways to enter.

In just half a month, almost all the members of Bureau 11 came to Wu Ling City.

There were also various spatial specialists who arrived at Bureau 11’s invitation.

Unfortunately, the ruins space was an extremely profound thing. If there were no tools to control the entire ruins, then its traces of existence were something that even legendary Beast Tamers couldn’t confirm. Even legends like Emperor Shi and Emperor Kong didn’t dare to say that they could crack all the ruins.

Icefield City, Ping Cheng.

'As he had agreed with Shi Yu to help the Iron-eating Beast increase its hardening level during the holidays, Lin Xiuzhu originally wanted to contact Shi Yu, but she realized that she couldn't contact him no matter what.

"What's wrong?" Seeing that his daughter had not gone to the ancient capital for a long time, Lin Hongnian asked.

"Ancient Capital University said... Shi Yu has important ruins exploration work. He might not be able to contact the outside world for the time being." Lin Xiuzhu's expression was blank.

She kept feeling that something was wrong, but she couldn't say what was wrong.

The change in the ruins of Emperor Wu could be said to have made Wu Ling City into a mess.

Usually, the Beast Tamer Troops in Wu Ling City were basically training with Emperor Wu Ruins. Now that such a thing had happened, the management of Wu Ling City had a headache.

The most terrifying thing was... This situation lasted for more than two months, but there was still no activity from the Emperor Wu Ruins.

There was still no news from Shi Yu.

72 days later, in Wu Ling City, Lu Qingyi, who had stayed in Wu Ling City the longest as Bureau 11, and had not stopped studying the ruins of the Emperor Wu for almost a day, sighed and was a little absent-minded.

'What exactly happened inside?

Why was there no movement for two whole months?

So was there any danger inside

At the same time, in Emperor Wu Ruins.

At this moment, Shi Yu was the most troubled.

For the past two months, it had been so boring that his scalp went numb.

As there was really no feasible way to get out, Shi Yu could only wait.

Who knew that after waiting for more than two months, there was still no result?

"What a sin."

"Didn't you say you would die in a few days? It's been two months."

"Don't tell me that for one day in a turtle's life, it equals one year of a human's life..."

In his ruins space, after Shi Yu finished complaining daily, he continued to close his eyes and meditate.

In the past two months, because there was no other interference, his cultivation efficiency was especially fast.

After all, apart from adding points and meditation, he didn't have the mood to do anything else.

With the help of the level-six spatial cultivation resource Space Crystal gifted by the third bureau, he was almost close to the master level.

It was probably just a short period of time before he broke through.

Apart from that, the changes to Eleven, Buggy, Baby Ginseng, and Chi Tong were also very huge.

How should he put it.

Apart from super skills that couldn't be added, all the low, intermediate, and high-level skills that the four of them could learn and add were filled by Shi Yu during this period.

For example, Shi Yu had maxed out every pet with high-speed healing, super vision, absolute sleep, multiplication, and deterrence.

Including Baby Ginseng, they had all learned transcendent level deterrence. From this, one could tell how much Shi Yu's balls hurt during this period of time.

Apart from that, their racial skills naturally didn't fall behind.

Eleven's storage lightning, impregnable, Buggy's spatial bag, Dream Stealing, Chi Tong's Light Flame Sword, and Soul Slash had also been added to the maximum level, one level higher than transcendent teaching skills. They were all at the level of Dao Proficiency.

Now, in the commander rank state, Eleven had nearly 200,000 energy points, and its energy value was far ahead.

Chi Tong, who had 180,000 energy points, followed closely behind. Although it was known as a quasi-mythical race, that was because Spirit Release easily increased proficiency and had greater potential. In terms of overall attributes if they were at the same level, it was really inferior to Eleven, who had swallowed a bunch of high-level resources.

As for Buggy, it was a little tragic. Although its energy value above 170,000 was not low, the difference was still a little obvious compared to the other two monsters. After all, it was a worm-type creature, and its energy value did not have the advantage.

After using the Domain of Imagination and the Dragon of Imagination, its energy quality would increase, but the problem was that Eleven also had the Inner Power and Chi Tong had the Possession. These were skills that could increase the quality of its energy.

Because of this, Shi Yu originally wanted to hold a Shiyu Meeting in the ruins of Emperor Wu to relieve his boredom, but he was directly persuaded by Buggy and Baby Ginseng.

No, no, no, no!

Buggy, who originally wanted to participate in the Shiyu Meeting the most, immediately panicked.

It felt that it still needed to work hard.

As for Baby Ginseng, it wanted to cry the most. It wanted to evolve and evolve, but the gem cat had the Death Spirit Fruit, the soil of time... They weren't even holding a moonlight gem nor were they in a special time space. Although it wanted to evolve, it had to hold back.

This also resulted in its energy level being at the bottom of the team.

As a ginseng baby with energy as a racial advantage, although its energy value couldn't be said to be low, it was indeed not high compared to the other three.

As Baby Ginseng insisted on carrying out a fair team competition after it evolved, Shi Yu had no choice but to push the team internal competition time again.

It was mainly because he wasn't confident of defeating Eleven himself

Aweek later.

As cracks appeared on the Space Crystal in Shi Yu's hand, his aura began to climb steadily.

With the use of hundreds of millions worth of super rare spatial cultivation resources, with the advantage of the ruins meditation technique and physique, he only used two months to increase his Beast Taming level to level five.

Shi Yu looked down and realized that his Beast Taming Space Barrier had completely turned blue after its level increased!

This meant that from today onwards, he, Shi Yu, was a master-level Beast Tamer.

Not only could the contracted pet reach the level of a monarch, but it had also obtained the fifth contract slot.

'The moment Shi Yu broke through, Eleven, Buggy, Baby Ginseng, and Chi Tong all sensed it in various places in the ruins space. They instantly felt that their bottlenecks seemed to have been touched.

At this moment, all of Shi Yu's pets sensed the opportunity to break through to the monarch level.

"wauu!!!"

"Wu wu wu ~"

"viva."

"Mimil!"

In the blink of an eye, the four little guys arrived beside Shi Yu from different places.

Little Eleven, who was about 0.3 meters tall, looked up at Shi Yu excitedly.

Now, with the special effect of transcendent shrinking, even if it maintained shrinking, its strength wouldn't decrease much compared to its normal state.

At the same time, it could also have the advantage of quickly recovering in a shrunken state. Of course, if it wanted to erupt with greater strength, it definitely had to rely on enlargement.

It was the same for Buggy. It landed on Shi Yu in a shrunken form that was less than the size of a palm. Baby Ginseng and Chi Tong also ran over and flew over shakily.

“Tbroke through.” Shi Yu looked at them and smiled.

“How do you feel?”

“wal!”

With Eleven as the lead, the four pets expressed that they could break through in the next few days!

“As expected, it happened naturally.”

Shi Yu was very excited.

There were going to be four monarch-level pets soon. This way, he could be considered top-notch among master-level Beast Tamers.

After all, a master like Master Lin Hongnian only had two monarch-level pets.

And he had four, and their racial levels were not low. This was probably something rarely achieved by a master.

Even if he faced those strengthening Beast Tamers who could strengthen their pets to millions of energy points, Shi Yu would not be afraid with the racial advantage of Eleven and the others.

Now, Shi Yu finally knew why people loved to contract pets with high racial levels. As long as the time was right, breakthroughs were basically inevitable. There were no bottlenecks.

Thinking about it, it was normal. After all, apart from super racial skills, Eleven and the others had all their racial skills at the maximum level. Breaking through to the monarch level was probably as simple as drinking water. Their foundation was too good.

However, it was probably a little difficult to break through to the overlord level.

According to Shi Yu’s understanding, there were two ways to break through to the overlord level. The first was to rely on legendary resources to strengthen the level-nine resource when the foundation reached the standard.

One was that all the racial skills it had, including super racial skills, had to have been trained to above perfect proficiency. This way, under the lead of racial skills, he could break through to the overlord level naturally.

After breaking through like this, it was stronger than relying on resources to break through.

At the thought of this, Shi Yu suddenly reacted and quickly opened the skill index.

After this breakthrough, his physique had improved again. Could he add some super skills?

Shi Yu quickly flipped open the skill index. He realized that in other places, the skill index had not changed much, but in the teaching of super skills, the skill index really was different.

Skill: Plant Control

Status: Can be taught

Shi Yu was looking at Baby Ginseng.

Upon seeing the words “can be taught”, Shi Yu was instantly overjoyed.

The joy of a Beast Tamer was just that plain and simple.

But at the next moment, his heart fell to the bottom.

Because there were still a few bars under [Status].

[Teaching success rate]: Very low

[Teaching Risk]: Extremely high

[Note]: The teaching of super skills will not only consume the Beast Tamer’s physical fitness and energy, but also the Beast Tamer’s life force. It’s extremely dangerous.

[Note]: Pets have to have a firm willpower to absorb the experience of super skills. Their strong hearts and conditions don’t meet the requirements. There’s a risk of becoming a slave of strength and losing your mind, causing the teaching to fail!

“Holy shit.” Shi Yu glanced at Chi Tong again.

Skill: Interlocking Sword

Status: Can be taught

[Teaching success rate]: Very low

He looked at Buggy.

Skill: Imagination Domain

Status: Can be taught

[Teaching success rate]: Very low

In the end, he looked at Eleven.

Skill: Inner Power

Status: Can be taught

[Teaching success rate]: Low

In an instant, Shi Yu’s expression darkened to the extreme.

Apart from Eleven, the success rate of the other three guys’ super skills was actually extremely low??

“wu?” “wou? Mi?”

The four little guys didn’t understand why Shi Yu’s expression suddenly changed so much.

Shouldn’t he be happy that he had broken through?

yi!!!” Baby Ginseng asked Shi Yu. Did he want a nutritional fruit?

“I’m not in the mood to eat anymore!” Shi Yu stood up and deliberately said with a sullen expression, “Apart from Eleven... Buggy, Baby Ginseng, Chi Tong, you guys should work hard.”

The pets:???

Shi Yu’s mood was completely up and down.

Even if he saw that teaching super skills consumed life force, he didn’t think much of it. It wasn’t like the nutritional fruit of the ginseng baby didn’t have the effect of replenishing life force. At most, he could replenish himself more and become weaker for a few days.

However, learning super skills also started to have requirements for pets. This was something Shi Yu didn’t expect.

Moreover, none of his four pets reached the standard. In an instant, Shi Yu felt responsible.

A firm willpower and a strong heart... Although he didn’t know what the conditions were for adding some super skill pets, it was obvious that they were far from enough.

Even Eleven didn’t meet the requirements. This made Shi Yu find it very difficult to believe.

This way, wouldn’t adding points in the future be like drawing a card? If he taught ten times, there was only one chance of getting results??

Who could withstand this!! He had to spend his life!!

The best way to change this situation was to increase the willpower of the pets and let them have strong hearts. After calming down, Shi Yu suddenly realized that the restrictions of super skills weren’t entirely bad.

Even Eleven, Buggy, and Baby Ginseng were relatively hardworking, but their journey was still too smooth. Their growth speed was ridiculously fast.

This way, there was almost no training of the mind.

The so-called experts should have strong hearts. Otherwise, their hearts that had power but didn’t support their strength would be like that of Yun An five thousand years ago, reduced to a slave of power and fell into a chaotic state. They wouldn’t have any rationality and started to destroy everything.

Shi Yu definitely didn’t want to see this situation.

Therefore, after analyzing it for a while, Shi Yu sighed... At the moment, it was still impossible to increase the points of super skills.

“When the teaching success rate becomes medium... No, after it becomes high, I’ll teach super skills.”

“From the current situation, even Eleven will probably have to be tempered for a long time.”

Shi Yu still knew Eleven and the others very well. Although Eleven was hardworking and had strong willpower to do any arduous training, it basically didn’t have the fearless heart to challenge the strong.

Compared to those predecessors who protected their hearts and faced the totems fearlessly, Eleven was the same as its Beast Tamer. It only knew to bully the weak and fear the strong, and it liked to fight the babies. It was clearly much weaker. Eleven still had to train.

As for Buggy and Baby Ginseng, they were even a little inferior to Eleven.

As for Little Chi Tong, if it were its predecessor, General Mu Huiyin, it would definitely have an incomparably powerful will and heart even in the history of humans. However, Little Chi Tong was a completely new baby, equivalent to a child who had just been born. These qualities clearly couldn't be inherited and needed to be taught.

“Wu?” “Wuu?” “Yi?” “Mi?”

The four pets looked at Shi Yu eagerly. What did he mean?

“In short, you guys aren't in a hurry to break through. Next, I'll develop a new special training plan for you guys. This training is the priority.”

“Wa...” “Wuu...” “Yi...” “Mi...” The four guys were a little nervous. They suddenly had a bad feeling.

Even Eleven, who wasn't afraid of training, suddenly felt a chill down its spine when it looked at Shi Yu. It kept feeling that Shi Yu was up to no good.

[After all, if they become too strong after breaking through, I won't be able to find a suitable training environment... Shi Yu muttered in his heart.

“Alright, let's go out and take a look at the ruins today.”

A moment later, Shi Yu brought the four little guys to the Nine Pillars.

Sensing the situation here, Shi Yu sighed again.

Not yet!

No way, no way, no way... Did he have to reach legendary level before he could leave this place?!

This was just... Even if the food resources here were quite sufficient, he was still thinking about the next water-element pet in Dragon Palace City, and also about the evolution of the ginseng baby.

Just as Shi Yu was beginning to feel depressed, the spatial ripples around the nine pillars suddenly changed slightly.

Buzz

Shi Yu, who was standing in the teleportation area, suddenly sensed the connection between Emperor Wu Ruins and the outside world.

At this moment, his depression was instantly swept away.

Damn, he could finally go out!! This was double happiness!!
