

Beast 261

Chapter 261: Shi Yu Who Didn't Treat Others As People

After Baby Ginseng's Time Fruit was maxed out, Shi Yu's team was much more lively.

With the Time Fruit, it could indeed temporarily turn Eleven and the others into babies.

Unfortunately, as he used it, Shi Yu increasingly understood why the Time Fruit was only at the high level.

Even after the skill was maxed out, the restriction was still huge.

For example, the Time Fruit that Baby Ginseng condensed with all its might couldn't push Eleven and the others back to their baby form for too long. As long as Eleven and the others wanted to break free, they could recover in a few seconds.

It was estimated that for opponents whose strength exceeded Baby Ginseng's, the time it could affect them was even shorter!

Although victory could be decided in this instant, it was still lacking in training.

However, there were more solutions than difficulties.

Baby Ginseng could swallow a Time Fruit and directly obtain the power of a monarch at the last minute!

Then, with millions of energy points, it quickly condensed four Time Fruits with stronger effects. The cheating was successful!

The fruits this time were not something Eleven and the others could withstand

This was only an additional usage method of the Time Fruit. Shi Yu and the others studied it for a long time and realized that the most impressive effect of the Time Fruit was indeed still to increase battle power.

Through the power of time, a pet could obtain the power after growth!

Of course, this usage method was not purely dependent on the quality of the Time Fruit.

It also depended on the pet's own potential.

In short, if a pet with weak potential ate the same Time Fruit, it might not even have any effect. It was no different from eating a fruit. There would be no change in its body.

However, if a pet with strong potential ate it, the peak strength obtained after the power of time stimulated its potential would definitely be unimaginable.

It could be said that this Time Fruit was a talent potential detector!

The higher the species level and the lower the growth level, the better the effect.

It was considered a reaction agent that temporarily converted racial potential into strength!

For example, like that Iron-eating Beast of Hall Master Lin... When it was at the commander rank, even if it ate the Time Fruit, it couldn't change. This was because its potential had reached its limit, and it was at its peak.

However, if Eleven ate it, it would be completely different.

Although Eleven was already at the peak of the commander rank, it was clearly in the stage where it could break through to the monarch rank at any time. Moreover, it was a high-level overlord race, which meant that it could successfully grow and definitely reach the overlord level.

Its potential was naturally needless to say. After Eleven ate the Time Fruit and the Time Fruit stimulated its potential, the effect would definitely be incomparable to ordinary pets.

Although it was restricted by the quality level of the Time Fruit, and it was impossible for Eleven to obtain too exaggerated strength and directly reach the Mythical level, there was still a 100% monarch level.

Including Eleven, Buggy, and Baby Ginseng, their potential was ridiculously high. The Time Fruit perfectly matched them!

A moment later, Baby Ginseng neatly arranged the new Time Fruits.

Eleven, Buggy, and the others looked at each other.

"Eat!!"

"wa!" "Wal"

Eleven and Buggy ate it with determined expressions.

Because this new Time Fruit was condensed from a monarch-level ginseng baby, its effect on the commander-level Eleven and the others was much better.

In the blink of an eye, Eleven and Buggy, who had eaten the fruit, reacted.

Their expressions changed.

Under the effect of the Time Fruit, their energy was quickly sealed, and various skills and skill experience disappeared from their bodies like they were sealed.

In a short moment, Eleven's aura weakened greatly and it was pushed back to the Awakening level. Its energy value was less than 100, and its skill was only hardening, its skill proficiency was still not high.

Little Eleven looked at its hands in confusion. Although it had always been in the posture of a panda baby, now... it felt that its strength was also at the baby level.

As for Buggy, it was also very ridiculous. Its entire body directly flickered with white light, spreading the light of degeneration. It was forced back to the Green Silkworm form from the form of the Butterfly of Imagination, and only the worm silk and psychic strength were left.

"Jil!" Buggy was shocked.

This time, even if they tried their best to break free, they couldn't recover immediately.

“Heh...”

Upon seeing this, Shi Yu instantly knew that the Baby Cup was still feasible.

“Perhaps I can directly let the four pets break through to the monarch level? There’s a Time Fruit to suppress their strength...” Shi Yu fell into deep thought, but soon, he shook his head.

“Yi...” Because beside him, Baby Ginseng instantly became extremely weak.

The haggard Ginseng Baby shrank, took root, sucked nutrients dry, and slept in one go. Its bodies also withered. Clearly, they had consumed a lot of energy.

Shi Yu gave up on the consumption and directly gave up. It was too expensive to raise high-level pets. Now, there was really no environment for the monarch-level ginseng baby to freeload on natural strength. It was better to stay at the commander level first. At least, the energy in the ruins space was temporarily enough for the current baby ginseng to circulate. If it went any higher, the ruins would become a desert.

“Let’s do this first.”

Shi Yu stared at Baby Panda and Baby Buggy, then looked at Little Chi Tong beside him and chuckled.

A moment later, a touching scene appeared in the ruins space.

Baby Ginseng was taking root like a corpse at the side, sunbathing and sleeping. Chi Tong, on the other hand, was acting as an instructor at the last minute. It used its transcendent phoenix might to control its strength and suppress the Eleven and Buggy. They were only at the Awakening level, and were very weak with less than 100 value points.

“jill

Shi Yu still remembered that when Buggy first faced Eleven’s deterrence, it fainted from fright.

And now, it had indeed grown. Although it was still in the Green Silkworm state, it actually resisted Chi Tong’s deterrence that could cause physical, mental, and soul pressure for a few seconds before fainting.

Not bad.

“waul!!”

As for Eleven, he was indeed the strongest in the team with the highest success rate in teaching super skills.

Even after losing its strength and being in its baby form, it still held its deterrence with both hands and resisted the pressure with extraordinary willpower. However, from the looks of it, it would be very difficult to last long.

Seeing this, Shi Yu nodded in satisfaction. If it were before, it would have been very difficult to find a place to train Eleven and Buggy with such pressure. It would have to be at least at the level of Emperor Wu Ruins. Now, it could be anywhere.

It was also very difficult to let them experience various dangerous environments. They had to search the world, go to the Ice Dragon Snow Mountain, and go to the Undead Battlefield. But now, it was easy to obtain. They could also achieve similar cultivation effects at any place at any time!

“Have a bold idea. I’ll let Buggy create its own phantom first. Then, I’ll let the phantom imagine an illusionary environment of magma, deep sea, snow, lightning, and super gravity. I’ll materialize this environment and temporarily fix it in the ruins space. The strength doesn’t have to be too high.

Transcendent power will do. Then, I’ll let Baby Ginseng return you and Buggy’s main body to the Awakening level and let the phantom be the trainer. In any case, the phantom can exist after leaving the main body. This way, there are controllable ferocious natural environments everywhere.”

“Jump down from a height of ten thousand meters in the super gravity environment to experience despair and train your will.”

“Jump into the magma at the Awakening level and fall into the deep sea to experience pain and temper your will.”

“Exhaust your physical fitness in the form of a baby and travel through the snowstorm to experience difficult fatigue and temper your willpower.”

“Facing the lightning in the sky, facing deterrence that exceeds your own strength countless times, to experience the fear brought by nature and the fear of powerful enemies to temper your will.”

“A small ruin space, all ready to go. How is it? As expected of me.”

“Your goal is to face fatigue, despair, fear, and pain with a calm heart!”

“Also, life and death, life and death. When the time comes, let the Buggy Phantom pull you into the Tyrant Dragon’s dream to train. Go to that ancient dream world where the strong prey on the weak to train life and death. It’s safer this way. As long as you’re in your baby form and the level of the dream is high enough, you won’t realize that you’re dreaming, With the profundities of Buggy, the feeling is the same as real!”

“Feel the pain, experience the pain, accept the pain, understand the pain... I think the overlord will manifest soon!”

After Shi Yu finished speaking, Eleven finally couldn’t hold on anymore and fainted.

Little Chi Tong was shocked. Be a human!

Soon after, Shi Yu left the capital.

The gem cat left with him.

After eating and drinking with the Prediction Owl in the capital for a few days, the gem cat seemed to have become fatter.

However, Shi Yu didn’t dare to say or ask anything.

He had achieved his goal in coming to the capital this time. There was nothing worth staying here anymore. As for when he would come again, he didn't know.

"What are your plans next?"

After taking a plane back to Icefield City and teleporting back to Ping Cheng, the gem cat asked.

"Eat, sleep, fight beans. Wait for the Dragon Palace banquet to begin."

Shi Yu stretched.

"Who's Beans?"

"The Bean Bear created by Eleven is currently my battle sparring partner. One way or another, the Bean Bear can't defeat me without skills."

Eleven and the others were training hard. Shi Yu definitely couldn't stay idle either. It was Shi Yu's daily life to spar with the Bean Bear and occasionally go to the extreme environment experience that Buggy imagined.

"As expected of me. Drinking tea at the mouth of the volcano, meditating under the lightning, doing radio gymnastics in the snow. Who else could?"

The gem cat : "..."

"Forget it, I won't be returning to Ancient Capital University either. I'll wait to travel with you to Dragon Palace City." The gem cat yawned and teleported Shi Yu back home.

Compared to its job at Ancient Capital University, it felt that it was more interesting to go to Dragon Palace City with Shi Yu next.

During the banquet period of Dragon Palace City, there were many delicious things. This was much better than the delicacies of Imperial Capital University it tried when it followed the Prediction Owl to eat and drink.

After all, it was a delicacy used by the Dragon Palace City's royal family to entertain other overlord factions and even totems. It was naturally not bad.

'As for why the gem cat knew so much, it was because it had already gone to eat and drink with Lu Qingyi once five years ago. That time, it was acting as Lu Qingyi's bodyguard. Even earlier, it wasn't like it hadn't gone with other Ancient Capital University students.

In short, Old Bai bribed this cat with food.

And this time, it looked like it was going to be Shi Yu's bodyguard.

Powerful gem cat, flowing Ancient Capital University student.

"Then do you want to bring any gifts?" Shi Yu asked.

The gem cat continued to yawn and said, "I'll follow you. You can just give me a gift. In any case, apart from eating, I don't want any treasures in Dragon Palace City."

Shi Yu: “?”

Its goal was already obvious

Shi Yu had been exhausted the past few days. After returning, he took a shower and lay on the bed.

In the few days that he had been in the capital, Legend Bai, Principal Feng, and the others had already left Ping Cheng.

Therefore, Shi Yu was the only one left.

However, it was said that after the Ice Dragon completely left the snow mountain, Senior Lu and the others would come again. At that time, a big boss from the fourth bureau would cooperate to completely destroy the Ice River Totem and cut off the possibility of it reviving in the future.

While waiting for this big event and the start of the Dragon Palace banquet, Shi Yu had nothing to do. Apart from supervising the training of the four pets and honing his willpower, he meditated himself.

After reaching the master level, the difficulty of meditation multiplied again. If it was said that from initiate to master, one could reach it by piling time and resources, then the help of time and resources from master to legend was not that great.

It was time to rely on talent and pet feedback.

As the richest man in Ping Cheng, Lin Hongnian was stuck at the master level for decades. From this, one could tell how difficult it was after the master level.

Of course, it was also related to Hall Master Lin’s prodigal spending all his money on the Iron-eating Beast with no future.

In short, after the master level, the talent of the Beast Tamer was even more important. For example, Shi Yu’s physique was different from other Beast Tamers, so his meditation efficiency was pretty good. This was talent. Apart from that, the strengthening, evolution, and breakthrough of the pet was also especially important to the master level’s advancement.

If the five pets contracted by a master-level Beast Tamer were all commander-level, it would be as difficult as ascending to the heavens for him to break through to a top-notch master.

However, if the five pets broke through to the monarch level one after another and gave the Beast Tamer huge positive feedback, the chances of the Beast Tamer breaking through to the top master level would be even higher.

This was also one of the reasons why high-level pets were expensive. In the later stages, if Beast Tamers wanted to become stronger faster, they had to rely on their pets to fight for some glory. Neither party could drag the other down.

Contracting an overlord species pet often gave a chance to become a new legendary Beast Tamer. It was not a random thing.

Boom! Boom! Boom!

At this moment, Shi Yu was meditating in the ruins space, but he was suddenly shaken out by the gem cat.

“What’s wrong, what’s wrong? Is Senior Panda here?” Shi Yu asked. In the past few days, Senior Panda had come to massage Eleven every day to awaken the royal bloodline!

“It’s not a sister, it’s that old man.” The gem cat was also bored. “Phone.”

Shi Yu :” ...”

Shi Yu picked it up. It was Principal Feng.

“The time to go to Dragon Palace City has been confirmed. In a month, the Tyrannical Sea Legend will bring you along. We’ll set off from the Binhai City next to your Icefield City.”

Shi Yu nodded.

Binhai City was also a second-level city, a city close to the sea. In fact, Icefield City was also a city close to the sea. Unfortunately, the area adjacent to the two was directly isolated and sealed by the Ice Dragon Snow Mountain.

A snow mountain not only prevented the people of Icefield City from seeing the sea, but also prevented the creatures of the sea from crossing the cold area to land.

“Alright, got it. Ice Dragon should be in time too. We’ll go together then. However, apart from me, who else is going with us” Shi Yu asked curiously.

He definitely wasn’t the only one going to Dragon Palace City... Shi Yu had long known.

Principal Feng laughed and said, “The final list hasn’t been confirmed, but there are ten confirmed now. Someone really got lucky with you.”

“on??”

The geniuses who could go to Dragon Palace City were all elites of Dong Huang. The Dong Huang Association naturally felt embarrassed to bring the Beast Tamer from Tai La to Dragon Palace City to visit. Therefore, the Dong Huang Association controlled the visiting list of Dragon Palace banquets every five years especially strictly.

The younger generation accompanying them not only had to be Beast Tamers with extraordinary growth potential under the age of 30, but also Beast Tamers with enough connections to the dragons. Only in this way could both parties be satisfied and have a good outcome.

For example, Shi Yu’s spot was actually obtained from the channels of the third bureau and Bureau 11.

“Little White Brook will also go with you this time. The discovery of the Emperor Wu Ruins this time means that the Bai family isn’t far from rising. This kind of good thing of going to Dragon Palace City can naturally be easily obtained. Although she wants to contract the Iron-eating Beast, the evolution

of the Iron-eating Beast hasn't even begun. There's no harm in going to Dragon Palace City to take a look first. What if there's a suitable partner? The Iron-eating Beast can be cultivated outside first. It's not too late to contract it after becoming a top-notch master," Principal Feng said.

"Senior Bai!" Shi Yu was stunned. Someone familiar was going, that was good.

"There's also Dr. Zuo's daughter, that girl, Xia Qingwei. Because of the exhibition of the Green Silkworm cocoon, along with the support of her legendary father and her doctor's mother, and because she herself has a growth talent... It helps the slow growth of the dragon race. She also obtained the opportunity to go to Dragon Palace City."

Principal Feng could confirm that these two people could actually steadily obtain spots. It was really thanks to Shi Yu that the Iron-eating Beast's second stage evolution and the Green Silkworm cocoon really had a huge impact.

"There are really many familiar faces..." Shi Yu said.

"Not only that, Yu Shu from the same batch as you. His mother also spent a lot of effort to help him get a spot. This is also someone you know. If I'm not wrong, Yin Legend should have also gotten a spot for Yin Zhengfan."

Shi Yu: "?"

It was fine if it was Yin Zhengfan, this child was indeed a genius. But what the hell was Yu Shu? Although his mom was a top-notch Dragon Tamer, an existence only inferior to a legendary Dragon Tamer, didn't Yu Shu inherit his father's Soul Strengthening Talent? Was there a chance for him to go to Dragon Palace City??

"You should know these people. You shouldn't be familiar with the other five, but there are a few powerful figures among them, such as Little Zou from the Dark Club in Demon Capital. His strength isn't inferior to Qingyi."

Little Zou... Shi Yu was stunned. That Heavenly King Zou?

"Apart from that, there are also a few others. Some are from the Elemental Family, some from the Dragon Tamer Family, some from the Mechanical Family, and some are of the dragon race. You'll know when you see them. You're all geniuses of Dong Huang, so it's not a bad thing to get to know each other."

Principal Feng and Shi Yu chatted for a while. In the end, Shi Yu hung up in a daze.. There were many people, but why did it sound like there was no pressure competing with these people for the young overlord of Dragon Palace City

Chapter 262: The Strongest Beast Tamer in Icefield City

At Shi Yu's house.

The gem cat was still watching the television leisurely.

This time, the television program changed from Digimon to a Card Captor Sakura.

At the side, Lin Xiuzhu was sitting cross-legged on the carpet.

On her legs was a panda the size of a cat [Eleven].

She kept rubbing Eleven's body with her hands, and the golden light in her hands continued to flow into Eleven's body.

Metal-element strengthening talent!

Metal-element nurturing method!

It was created by a general of the Iron-eating Beast Tribe under the command of Emperor Wu. It was used to stimulate and purify the Iron-eating Beast's bloodline, and it could efficiently strengthen the power of metal-type pets.

“Wuu.”

Eleven lay on Lin Xiuzhu's thigh in enjoyment, making Shi Yu, who was beside him, sigh.

No wonder in his previous life, so many people wanted to become pandas, cats, and dogs, shouting obscure words like “humans are inferior to cats” and “humans are inferior to dogs”. So it was true. There were really people who lived worse than pets!

“Let's rest and have some tea.”

Shi Yu squeezed the juice of the spiritual fruit made by Baby Ginseng and made tea before bringing it to Senior Panda and the gem cat.

“Thank you.”

Lin Xiuzhu smiled and patted Eleven's head before drinking fruit tea with it.

‘The gem cat's cup was teleported in front of it.

Shi Yu also picked up a cup and gulped it down.

At the same time, Shi Yu glanced at Eleven.

He discovered that during the activation of the royal bloodline, Eleven's energy increase speed was not inferior to him adding points of racial skills.

After its bloodline power was purified, its physical strength increased, and naturally, its energy value increased.

“I wonder how long it will take to nurture it to activate the bloodline... But from the looks of it, it doesn't seem to be a bad thing to nurture it for a long time?”

Shi Yu analyzed in his heart.

“Oh, right.” Lin Xiuzhu put down the teacup and glanced at Shi Yu.

“Isn’t it still the holidays? Aren’t you going to class?”

“Uh.” Shi Yu choked. Why did he mention class for no reason?

It was quite unlucky. During the period when Shi Yu was trapped in the Emperor Wu Ruins, more than half of the semester passed.

If he went back to class now, it would also be the end of the semester. Why would he go back? To fail the exam?

Since he had already skipped class, he would carry it out to the end.

“I’m not going. In any case, apart from a few classes in my first year, the rest are basically useless to me,” Shi Yu said.

In his previous life, he selectively learnt only what he wanted. What he came into contact with had always been mythical history regarded by his peers as unscientific and frivolous things.

Compared to Earth, which viewed myths as ethereal things, there were too many archeologists here. The history of the Mythical Era was the domain that all archeologists and even Beast Tamers wanted to explore the most.

“ah, forget it. As long as you’re happy,” said the panda senior.

“Tch.” The gem cat finished drinking the fruit juice and was sure that Shi Yu was very happy.

Who would be willing to go to work and attend classes if they could slack off?

According to its many years of experience, those who dared to brazenly skip classes in Ancient Capital University would most likely become big bosses in the future.

Did a powerful archeologist become strong through studying?

No!

Through courting death!

“Stop talking about me. That Beast Tamer Troops... The Iron-eating Beast Army Plan. How’s the progress?” Shi Yu changed the topic.

Initially, the subsequent people wanted Shi Yu to be in charge of this plan to strengthen Shi Yu’s foundation in the military. This would also be beneficial to Shi Yu in the future, but he directly rejected them.

A plan that had yet to take shape... If they couldn’t find Yun An, this plan would be equivalent to wasting time. It would be a waste of time to take responsibility.

“Ah, it might still be a while... I guess we’ll start after the matters at the Ice Dragon Snow Mountain are settled,” Lin Xiuzhu said.

“That’s soon. What are Uncle Lin and the others doing recently? Clearing the snow mountain?”

“Yes.” Lin Xiuzhu nodded. “We need to deepen the development of a large area of resources, then drive and settle a group of transcendent creatures, but I wonder how their progress is.”

Now, the Ice Dragon had advanced to the totem level. As a dragon that had received the reward of the Time Emperor and had time-type skills, even at the peak of the Ice River Totem, it would probably be very difficult for it to defeat the Ice Dragon.

However, as an ice-element totem, even if the Ice River Totem was at its last breath and extremely weak, and had yet to successfully revive, it was very difficult for the ice dragon to completely kill it.

If they wanted to completely eliminate the possibility of the Ice River Totem reviving, they had to permanently change the environment around the Ice Dragon Ruins. Only then would the Ice River Totem be slowly destroyed.

Apart from totems of other attributes, only mechanical weapons could do this.

The Dong Huang Association decided to send a member of the fourth bureau to carry a small forbidden weapon and permanently transform the Ice Dragon Ruins of the Ice Dragon Snow Mountain into a flaming area. Before doing this, the resources and transcendent creatures in the surrounding area definitely had to be reaped and dealt with.

At the moment, the Beast Tamer Troops in Ping Cheng were carrying out this mission.

“Then I’ll go over to take a look in the afternoon and get some air,” Shi Yu said.

“Huh? You’re going to the snow mountain?”

“Yes, I want to climb over the snow mountain and take a look at the place close to the sea.”

Shi Yu realized that apart from Buggy being better at materializing snowstorms and thunderstorms in Imagination, its ability in materializing deep seas and volcanoes was relatively crude.

It was mainly because of its knowledge.

Buggy had gone to the Ice Dragon Snow Mountain and personally crossed the snowstorm. It had also seen the thunderstorm Eleven attracted and could even use Eleven’s Lightning Rod as a materialization equipment. It was naturally not a problem to simulate these.

However, as it had never come into contact with the deep sea and had only come into contact with lakes and waterfalls, it was still relatively troublesome to create the deep sea.

Moreover, Buggy had never come into contact with many pets living in the ocean. It couldn’t even create sparring partners that were more interesting and from the deep sea. Eleven and the others were almost tired of fighting the Dragon Carp to evolve every day.

In addition, as he was going to Dragon Palace City soon, Shi Yu wanted to let Eleven and the others come into contact with the sea as soon as possible so that they wouldn’t show their fear when the time came. At least Baby Ginseng didn’t know how to swim. Shi Yu remembered that.

It was fine if it couldn’t fly, but it couldn’t swim either. It was too much.

“This... is a little dangerous.” Senior Panda was stunned.

“It’s not dangerous, not dangerous. I’ll drag Teacher Cat along,” Shi Yu said.

“Oh right.”

The gem cat:??

Did it even say yes?

After carrying out the devil training method for two days, Shi Yu’s four pets were much more energetic. However, Shi Yu felt that it was a pity that the teaching success rate still didn’t change much. It looked like the training of willpower was a long way off.

wal! “Wout!!!” “vil! vi

After lunch, when they heard that they were going to see the sea, the four pets cheered.

Eleven was celebrating, Its idea was that the Deep Sea Training Grounds could be even more realistic and cruel soon. Great, it was one step closer to the overlord’s will.

Buggy, Baby Ginseng, and Chi Tong were cheering. They could finally take half a day off.

However, soon, when they thought that they were going to replicate the training ground this time, they couldn’t help but cry again.

“This time, we’ll fly over together and test our training results.”

“Chi Tong and I will fuse. Eleven, you use the Electric Magnetic Floating. Buggy, you fly yourself. Baby Ginseng, you... You sit on the flying carpet with Teacher Ying. It will deliberately reduce the defense facilities to let you experience the snowstorm.”

Ginseng Baby: QAQ

It wanted to learn plant control quickly.

At that time, it could transform its battle aura... No, its energy into wings and condense equipment like the Leaf Wings.

Although the transcendent Multiplication Skill had a slight function of plant control, the changes were still much smaller than super skills.

Baby Ginseng had specially learned in class that when plant control was mastered to a high proficiency, it could even awaken ordinary plants into transcendent life like the Awakening Talent and the Awakening Mirror.

Baby Ginseng was looking forward to it!

In the morning, after Senior Panda finished massaging Eleven, Shi Yu and the others started to set off for the Ice Dragon Snow Mountain in the afternoon.

Shi Yu and the others couldn’t be bothered to follow the procedures. They directly passed through the city wall through Instant Transmission.

Soon, a few figures appeared in the sky of the Ice Dragon Snow Mountain.

Red-haired, Chi Tong, and Shi Yu, who was wearing the Flame Demon Armor, flew at the front.

Beside him, Eleven's body was filled with weak white lightning as it flew to Shi Yu's left.

As for Buggy, it flapped its wings and flew to Shi Yu's right with the snowstorm on its weak body.

Although Buggy could rely on the Dragon of Imagination to obtain a physique comparable to a divine dragon, its physical strength in its normal state was actually still that of a worm.

It was very weak and basically couldn't withstand two moves. It couldn't compare to Eleven, so there was no harm in training. After all, the higher the basic attributes, the better the effect after being strengthened by the skill.

Behind Shi Yu and the others, the gem cat lay on the Psychic Flying Carpet and dozed off to supervise Baby Ginseng. The group quickly entered the snowstorm area.

"Wait

However, as they flew, Shi Yu suddenly shouted, making everyone stop.

Now, Chi Tong had also been taught super vision, absolute sleep, multiplication, and other skills by Shi Yu.

Under its possession, Shi Yu could naturally obtain some enhancements in skills. With his super vision, Shi Yu quickly discovered that there was a camp stationed in the snowstorm area in front.

From the markings, it seemed to be the Beast Tamer Troops of Ping Cheng.

"What a coincidence." Shi Yu was surprised. Then, he said, "Let's go over and greet him."

"Wuu ~"

Eleven and the others nodded. The gem cat naturally didn't mind. At the same time, it said, "They seem to be in trouble."

"Huh?" Shi Yu was slightly stunned.

Soon, Shi Yu landed.

He had discovered the Beast Tamer Troops, but the Beast Tamer Troops didn't discover him immediately. The detection effect of transcendent super vision was still strong. Although it wasn't as powerful as the super-level Heavenly Eye that supervised the vocation assessment, it wasn't bad either.

Shi Yu and the others landed. Shi Yu exited his possession form, Little Chi Tong turned into the Little Red Sparrow's spiritual body and landed on Shi Yu's shoulder. It used his beak to tend to its red soul feather.

"Who is it!"

As Shi Yu and the others approached, the soldiers patrolling nearby reacted. A few young men in blue camouflage clothes immediately led a few snow wolves to surround them!

However, when they saw Shi Yu's appearance and the few pets beside him, they were quickly stunned.

“Tm Shi Yu. Are Commander Wang Meng and Commander He Biao around?” Shi Yu asked.

“Professor Shi Yu?!” The soldiers were stunned. After confirming Shi Yu’s identity, they immediately stood at attention and saluted. With surprise and respect in their eyes, they said, “Professor Shi Yu. Commander Wang, Commander He are all here!”

At that moment, Shi Yu, who had cracked the Ice Dragon Ruins, was a popular person in Icefield City. The soldiers of the Beast Tamer Troops who were basically stationed near the Ice Dragon Snow Mountain had all seen Shi Yu’s photo.

Perhaps they didn’t know about Shi Yu’s other deeds, but just the fact that he had discovered the truth of the history of Icefield City was enough to make Shi Yu famous in the Icefield.

At that moment, although Shi Yu was still a student, this group of soldiers used the title of professor to express their respect for Shi Yu’s identity.

Soon, the boorish Commander Wang Meng, Commander He Biao, and Master Lin came over. Shi Yu quite admired Master Lin. As the richest man in Ping Cheng, theoretically speaking, it was enough for him to just rest at home. However, every time the Beast Tamer Troops had important missions, he would rush to the front line. He was also considered a ruthless person. Not only did he love the pandas, but he also loved Ping Cheng.

“shi Yu? Why are you here?” Hall Master Lin was surprised when he saw Shi Yu.

“Holy shit, isn’t this Brother Shi Yu?” The uncultured Deputy Commander He Biao said. He had been cursing since the Ping Cheng ruins.

“Uh.” Commander Wang Meng’s attention was on the gem cat on the flying carpet behind Shi Yu. After many years of life and death experience, he vaguely felt that this cat that looked like it was raising a noble was a little scary.

“Came out for some air and train,” Shi Yu said.

Everyone :” ...”

Especially those soldiers of the Beast Tamer Troops. The corners of their mouths twitched. Coming to such a dangerous place to train alone was ridiculous.

“Uncle Lin, did you encounter any difficulties?” Shi Yu asked.

Lin Hongnian, Wang Meng, and Commander He Biao looked at each other.

Then, he looked at Shi Yu and said, “How do you know... I did encounter a little trouble.”

“How can I help?” Shi Yu asked.

“This...” Hall Master Lin was just about to say that Shi Yu couldn’t help much, but suddenly, he saw the gem cat in surprise.

After thinking about it, he still explained, "We're currently sweeping the resources in the designated area and chasing away the ferocious beasts. It was originally quite smooth, but a level-seven resource was accidentally born in an area. Earth Mystic Ice."

"Level-seven resource??" Shi Yu was stunned.

'What kind of dog shit luck was this in Ping Cheng? The price of a level-seven resource was rarely lower than 100 million. It was a resource that was very useful for overlord-level pets. Meeting a level-seven resource in a place like the Ice Dragon Snow Mountain was simply like picking up money for nothing.

"It's a good thing, What's wrong?" Shi Yu pressed.

"It's a good thing..." Hall Master Lin smiled bitterly and said, "But the problem is that we weren't the first to discover it. There were four powerful monarch-level ferocious beasts in the Ice Dragon Snow Mountain. They also discovered the Earth Mystic Ice long ago and died guarding that side. They should have reached some kind of agreement and absorbed it together. As long as we get close, that side will be extremely hostile, and the deterrence will wrap around the snowstorm. "

"Although we also have four monarch-level pets here, but..." Lin Hongnian secretly glanced at Wang and Commander He.

It was clear as day.

Commander Wang Meng and Commander He: !!

"Those four monarch-level ferocious beasts are all relatively powerful ferocious beasts in the Ice Dragon Snow Mountain. They are all monarch races. If we fight, there will definitely be some injuries. Our military strength isn't very strong, so we're making plans to return to Ping Cheng and contact the city to send reinforcements."

Commander Wang Meng and Commander He Biao were actually relatively ordinary masters. There was only one monarch-level pet.

It might not necessarily be a monarch race.

When faced with such a situation, there was really a little pressure.

However, a level-seven resource definitely couldn't be let go.

If Ping Cheng couldn't handle it, he would let the Icefield Association handle it.

"Tsee. That's easy. Leave it to me," Shi Yu said indifferently. "Is it over there?"

He looked to the south where the aura he had sensed was the strongest.

"Huh?"

Commander Wang Meng and Commander He Biao were stunned and couldn't react.

Instead, Hall Master Lin looked at the gem cat with a thieving gaze and said, "Can you, Lord Ying? You take the majority of the gains!!"

"By the way, this is the guardian overlord of Ancient Capital University, Teacher Ying who once participated in the Ancient Capital's Undead Disaster 100 years ago. It's the guardian of Ancient Capital University and is very strong."

Hall Master Lin hurriedly introduced it to the two commanders, telling them to be more tactful and cozy up to him.

Although the army had the priority to deal with and explore the resources discovered by the Beast Tamer Troops first, in this situation, if the gem cat was willing to help, it was completely fine to let it take the majority.

"This!" Commander Wang and Commander He were shocked.

Holy shit.

They widened their eyes and looked at the gem cat on the flying carpet.

Overlord level?!

"Want to." The gem cat licked its claws. It was just four monarch-level ferocious beasts, so it naturally didn't care much. It didn't even blink when it encountered more than ten monarch-level undead in the Undead Battlefield, let alone now.

However, while others couldn't hear Shi Yu's tone, how could it not?

Shi Yu clearly wanted to do it himself.

How could Shi Yu, who had monarch-level battle power now, hand such a good thing to it??

No more love.

Shi Yu was no longer the guy who cowered when he encountered monarch-level ferocious beasts.

"It's in that direction, right? If you can't handle it, I'll back you up?" The gem cat asked Shi Yu.

No matter how small a mosquito was, it was still meat. It still had to save money to buy resources to break through to the totem level

Shi Yu chuckled and the cat's face fell.

Everyone:

"Let's go take a look. Commander Wang, Commander He, Uncle Lin, want to go over together?"

"Ah." The three of them naturally had to go over.

In a moment, Buggy's Psychic Domain wrapped around everyone and used Group Teleport, leaving behind a group of stunned soldiers.

In the snowstorm area of the Ice Dragon Snow Mountain, in a huge ice and snow cave that connected to the underground, four monarch-level ferocious beasts surrounded a huge nail-shaped ice that connected the ground to the top of the cave, absorbing the energy of the ice.

Blue Sea Ruins:?

A moment later, deterrence erupted from their bodies. The four ferocious beasts revealed ferocious gazes and looked outside the cave.

Originally... it was already bad enough that they couldn't enjoy the resource alone. Now that humans came to disturb them one after another, the four ferocious beasts no longer had a good temper.

If it weren't for the fact that they were afraid of Hall Master Lin and the others' monarch-level pets, they would have long attacked and not just released a deterrence warning.

"Roar!

Outside the cave, Shi Yu and the others were teleported over. At the same time, four ferocious snow beasts appeared from the cave.

It looked like a reindeer, an ice-blue Iceberg Ridge Beast with two horns like white snow mountains.

There was also the Frost Snow King, who was tall like a snowman and a snow monster, covered in white ice and snow and had narrowed blood-colored eyes.

There was one that had a light blue body, a white-spotted body that looked like a snow leopard, and a pair of eye-catching ice wings. It was the White Winged Sky Lord.

There was also a cloud-type creature that lingered in the air. It looked like a white snow cloud and a tornado, the Ice Curtain Cloud.

The four ferocious beasts were all monarch races and monarchs. The moment they appeared, Shi Yu's index jumped crazily, showing that their energy levels were not lower than 1.5 million.

Generally speaking, the energy value of a monarch race at the monarch level was about 1 million according to the normal state.

As for the lowest energy value of an overlord race, the monarch level, it was about two million.

Of course, this referred to the lower limit and the normal situation where they had never trained much. As for wanting to gain more strength, they had to rely on themselves, either to increase their racial skills or to use various rare resources.

Shi Yu heard that the guardian monarch of Icefield City, that Aunt Ancient Tree of Life, had a fortuitous encounter. Its energy even exceeded five million. As just a monarch race, it crushed all the overlord races.

These four wild ferocious beasts could survive a few snow mountain sweeps. Their abilities were clearly not weak. No wonder Hall Master Lin and the others were also very afraid.

"Roar!!!"

At this moment, the White Winged Sky Lord was the first to roar, staring at Hall Master Lin and the others who had arrived again with a ruthless gaze.

A substantial deterrence directly erupted. It was actually a perfect deterrence.

Under the deterrence, the snow and wind were crushed. The sky was white. The snow clouds seemed to have missed a big hole, and the snow was like a knife. Just from its deterrence, it could be seen that its length was above the pets of Hall Master Lin and the others.

“Holy shit.”

Seeing that this White Wings Sky Lord was so unstable and the deterrence power was even stronger than before, Old He directly cursed. They had yet to start fighting.

With that said, he looked at the gem cat, wanting to see the overlord-level big boss attack.

However, they realized that Shi Yu really seemed to want to do it himself.

“Didn’t you eat lunch? Such weak deterrence...” Shi Yu asked.

Blue Sea Ruins:?

As the deterrence came, Shi Yu was the quickest. Ripples appeared in front of him.

Then, shocking cold air spewed out. A blue divine sword slowly appeared from the alternate space. Shi Yu directly raised his hand and held it in his hand.

“Roar!

A terrifying dragon roar emitted from the sword, as well as a terrifying dragon might that swept out. The powerful ice and snow dragon might instantly collided with the deterrence of the White Winged Sky Lord and squeezed. The terrifying dragon might attacked, making the pupils of the four pets

opposite instantly shrink.

Crack!

The two deterrence forces shattered in mid-air. The four pets showed wary expressions and didn’t continue to release deterrence.

The source of deterrence in the Ice Dragon Blade was the level-seven dragon whisker that the Ice Dragon had given Shi Yu that allowed him to walk around casually in the snow mountain with the Ice Dragon Might. At this moment, the four Ice Snow Monarchs that often sensed the dragon might emitted

from the Ice Dragon Ruins realized they were facing dragon might. How could they not be afraid? After all, they had all grown up trembling under the dragon might.

Not only them, but Commander Wang, Commander He, and Hall Master Lin also widened their eyes. Holy shit, what was this?

It didn’t look like a pet... But.

Looking at the Ice Snow Divine Sword in Shi Yu's hand that emitted dragon might, after the three old men were shocked, their gazes lit up in unison as they understood.

This was an extremely high-level spiritual equipment!! It was at least level-seven!!

Otherwise, it was impossible for it to resist a monarch-level deterrence so easily!

[Rich guy!]

Commander Wang and Commander He were immediately shocked.

Even Hall Master Lin licked his lips. Shi Yu was really generous. Investing in money to nurture pets and investing in money to buy and build inanimate equipment without growth... Normal people would choose the former.

"The Earth Mystic Ice is fated to be mine. Do you want to leave yourselves, or do you want me to send you away?" With both hands holding the sword, Shi Yu stabbed the Ice Dragon Blade into the ground. Shi Yu placed his hands on the sword hilt and looked at the four monarch-level ferocious beasts

quietly.

"Roar!!!"

"Roar!!!"

Shi Yu was telepathic, so the four ferocious beasts naturally understood its words. They couldn't help but reveal unfriendly gazes.

Impossible!!!

If it were ordinary times, they might have walked around Shi Yu, but the ice inside was a huge opportunity for their strength to increase. Not only could it strengthen their ice-clement power, but there might also be a chance to transform their ice-element energy into ice to obtain new super skills. How

could they give up!

"Don't let them go. These four guys participated in the beast tide ten years ago," Lin Hongnian shouted.

Shi Yu was stunned and immediately said, "I understand. They can't escape and will get themselves killed."

"Eleven, Buggy, Baby Ginseng, Chi Tong, distribute the opponents and end the battle quickly," Shi Yu said from the side.

Commander Wang, Commander He, and Hall Master Lin:??

The three masters were stunned when they heard Shi Yu's words.

"Wuu!" In the next moment, Eleven slowly walked forward.

"Wu ~" Buggy also nodded and flew forward.

“Yi ~” Baby Ginseng was the same. It jumped down from the flying carpet with an invincible expression and posed coquettishly, its sweetness spreading.

“Screech ~” Chi Tong flew up from Shi Yu’s shoulder without hesitation.

Ice Dragon Snow Mountain F4:??

The four ferocious beasts looked at the little Iron-eating Beast, Butterfly, Baby Ginseng, and Little Red Sparrow that walked out with confused expressions.

Even with their wild nature, they could sense that the strength of these four guys was pitifully weak. They couldn’t compare to them and were far inferior to the Ice Dragon Blade in Shi Yu’s hand.

However, although the power didn’t pose a threat, in the next moment, the four ferocious beasts noticed Baby Ginseng. Their gazes couldn’t help but slowly become serious, and the more they looked, the more serious they became. Until saliva subconsciously flowed out of the corners of their mouths.

This.

“Roar!!!” The Snow Wings Sky Lord was the smartest. As the cells all over its body trembled, it widened its eyes and roared.

Impossible!!

Why was this ginseng baby.

In an instant, its brain exploded, and its thoughts changed. It analyzed a huge matter that would affect its life!

It didn’t need the black ice... but this ginseng baby... It had to eat it!

“Roar!!!” The Frost Monster’s blood-colored eyes also opened, and it subconsciously swallowed its saliva.

“Roar ~!!!” The Iceberg beast was in a riot. It instantly felt that the ice inside was no longer fragrant.

Even the elemental creature, Ice Curtain Cloud, was very shocked. For some reason, it suddenly felt that this ginseng baby was more attractive to it than the elemental resource, Earth Mystic Ice.

‘The Ice Curtain Cloud that was supposed to snow started to rain like drizzle.

In an instant, the four monarch-level ferocious beasts seemed to have lost their minds.

In the next moment, the four pets on Shi Yu’s side also obeyed Shi Yu’s command and started to take medicine.

Buggy directly took out the Time Fruit x4 from the spatial pocket and instantly teleported them in front of Eleven and the others.

A white Time Fruit the size of a peanut appeared in Eleven’s hand. Chi Tong and Baby Ginseng had also received a similar sized one, and Buggy had left itself the smallest one.

In the next moment, the four of them ate the Time Fruit together.

“Uh...”

At the same time, the four ferocious beasts pounced over crazily.

All of them headed towards Baby Ginseng. At this moment, the attraction on Baby Ginseng’s body had reached the extreme. Even the four ferocious beasts couldn’t bear to use their skills, afraid that Baby Ginseng’s delicate body would be broken and it wouldn’t be delicious anymore!

Now, they only wanted to swallow it in one bite.

The four monarch-level ferocious beasts had never thought that they would be so delicate and gentle when it came to a resource.

“Roar!”

“Roar!!!”

At this moment, the expressions of the three masters in Ping Cheng changed. However, in the next moment, what made their expressions change was that incomparably huge and shocking violent auras erupted from Eleven, Buggy, Baby Ginseng, and Chi Tong, exploding like volcanoes!

“Boom!” Although Eleven still maintained its Iron-eating Beast form, its body instantly surged with power that seemed to have been compressed to the extreme. Then, it suddenly exploded. Lightning wrapped around its body, making it look like a thunder god.

“Wuu!!!”

Eleven roared and opened its eyes. Lightning seemed to shoot out of its mouth and eyes.

Zi Zi Zi Zi Zi!!!

Its figure directly disappeared from the spot, leaving a charred pit. When it appeared again, it had already appeared above the two-meter-tall Iceberg Ridge Beast.

At this moment, the Iceberg Ridge Beast was stepping on the ice and snow to attack, but in the next moment, its pupils suddenly constricted, and its gaze was shocked to the extreme. Just as it was about to turn around and look up, a huge impact had already descended!

Time seemed to have frozen. At this moment, Eleven’s speed made the Iceberg Ridge Beast unable to react at all. Eleven, who had its hands clenched into fists, directly gave the monarch a Thunder God Hammer from top to bottom with the power of lightning!

Boom!!!

Under the attack, the snow under the feet of the Iceberg Spine instantly disappeared. A huge hole more than ten meters in diameter appeared with a bang. As the Iceberg Spine’s body fell apart, it was like a blue stream of light that was hammered into the underground abyss!

On the other side, the Frost Snow King’s gaze was also instantly filled with extreme horror. The place it was standing at was also above the huge hole. However, it was floating in the sky at this moment. Its entire body was controlled by a wave of Psychic power, and its body was filled with a blue Psychic

power that was like a chaotic stream.

The Frost Snow King kept struggling, and its body kept deforming, Its begging gaze met the Imagination Butterfly opposite it, but in the next moment, Buggy directly strengthened its Psychic power. With a bang, the Frost Snow King's entire body was instantly crushed by the Psychic power, turning into snow and wind that scattered in all directions.

In mid-air, the White Wing Sky Lord, who was flying with its wings spread, almost instantly calmed down. How could it still be obsessed with the ginseng baby in front of it? At this moment, its body was warned to the extreme. It only wanted to escape now. However, although it was the fastest of the four ferocious beasts, when it reacted, it was still too late. A golden pillar of light had already penetrated its head.

Beneath the hole in its head was the incomprehensible gaze of the White Wings Sky Lord. In its vision, the ginseng baby that emitted a fragrance had six-pointed stars spinning in its pupils. It was pointing at it with its finger, and there were still the afterimages of light in the air.

The most miserable was the Ice Curtain Cloud. Opposite it, the sparrow-sized Chi Tong only casually flapped its wings. Then, with a whoosh, dazzling orange-red light spread. The sun in the sky shone to the extreme. A huge solar wind storm was formed by the energy released by Chi Tong's body, and then it turned into a heat wave that attacked the Ice Curtain Cloud.

Even if the Ice Curtain Cloud instantly raised its strength to the extreme, when the power of ice and snow touched the Sun Flame, the ice and snow still instantly turned into a pool of snow water. Almost instantly, the Ice Curtain Cloud disappeared from the world.

They wanted to end the battle quickly. In a short exchange, the four powerful monarch-level ferocious beasts all lost their life characteristics, leaving Eleven, Buggy, Baby Ginseng, and Chi Tong behind to watch the aftermath of the battle.

At this moment, the gem cat was alright, but Lin Hongnian, Commander Wang Meng, Commander He Biao, and the others behind Shi Yu opened their mouths to the extreme. Their eyes wanted to pop out as they looked at everything in disbelief.

"It could have been easier, but he had to go through so much trouble," the gem cat muttered.

Just now, Shi Yu's four pets had used the Time Fruit and obtained some of the power after breaking through.

Although he didn't know how much all their strength was after breaking through, after using the Time Fruit to stimulate their strength just now, each of them had more than 3 million energy points. The ginseng baby with the best effect of absorbing the Time Fruit even reached nearly 4 million. It was ridiculously high, and the one with the lowest strength was more than twice the monarch in front of it.

In addition, their skill proficiency didn't have any shortcomings. In an instant, this scene that shattered the values of the three masters of Ping Cheng appeared. The three masters of Ping Cheng stuttered as they looked at all of this, instantly losing their ability to speak!

{Not bad.}

[However, it's not the limit.]

Shi Yu looked at all of this and nodded. After all, this was the result of Baby Ginseng controlling the strength of the Time Fruit, and it wasn't the Time Fruit that it condensed with all its might! Shi Yu naturally knew Eleven and the others' potential.

If Baby Ginseng transformed itself into a Time Fruit and let Eleven and the others eat it, Eleven and the others would probably instantly obtain overlord-level battle power and crush everything. It wouldn't be as simple as a simple monarch level.

Unfortunately, Baby Ginseng was too weak at the moment. The level of the Time Fruit was limited. The greater the increase in the level of the pet, the greater the price. The price of using the commander level to stimulate all its potential to enter the overlord level was that Baby Ginseng had to completely sacrifice itself. Eleven and the others would also die after this.

Shi Yu definitely couldn't accept this. Baby Ginseng could revive, but Eleven and the others couldn't.

But even so, Shi Yu, who had this trump card, could currently be called a top-notch master!

The so-called top-notch master was the Beast Tamer at level 5 and 6 of the Beast Taming Space. His battle power could temporarily fight against overlord-level creatures!

It was at the level of Senior Lu, Zou Tianwang, and the others.

At the moment, although the price of Shi Yu resisting the overlord was a little high, it had to be known that Eleven and the others had yet to really enter the monarch level. If they waited until their growth level really stepped into the monarch level before eating the Time Fruit to stimulate their potential and temporarily obtain the power to resist the overlord, the price might not be as terrifying as death.

The will of an overlord, the level of a monarch... At the moment, he still lacked the will of an overlord. As long as he fulfilled these conditions, Shi Yu had enough strength to wander around. He could go to the ruins that he didn't dare to explore previously.

"This, this, this, this..." At the moment, the three masters of Ping Cheng had yet to react. Lin Hongnian was extremely shocked. He didn't understand why Shi Yu, who was still a Beast Tamer intern a year ago, had his strength increase at such a godly speed.

"Shi Yu, you..."

"Uh." Shi Yu scratched his head and said, "Sort of a cheat."

"Maybe I'd be banned if this were a game."

The three masters:???

The three masters looked over. In the next moment, the Iron-eating Beast, the Imagination Butterfly, Baby Ginseng, and Chi Tong that had flaunted their might just now directly withered. They fell to the ground and fainted.

'The Four Holy Beasts: "Zzz ~"

Of course, Shi Yu knew that this was the side effect of the Time Fruit. However, because Eleven and the others could break through to the monarch level at any time, they were only suppressing their levels at the moment. This side effect of jumping levels was almost equivalent to none. As long as they slept for a few minutes and healed at a high speed, they could eliminate the side effect.

The three masters opened their mouths slightly. They couldn't understand.

Shi Yu smiled and didn't explain too much. The Time Fruit wasn't very useful to the three masters, so he didn't sell it. They didn't have overlord race pets, nor did they have young monarch race pets. They were also at the peak of their prime. No matter how strong the Time Fruit was, it was useless to them. Its current use was even inferior to a nutrient.

This skill, when used on the user, was best used on a high potential pet like Shi Yu, who had a bunch of overlord potential.

"Let's go in and take a look at the Earth Mystic Ice," Shi Yu said. At the same time, the four pets in Absolute Sleep were taken back by Shi Yu to rest in the Beast Taming Space. He planned to let them out in ten minutes.

"Ah... Alright." Facing Shi Yu, the three masters were a little stunned, especially Commander Wang Meng and Commander He. Previously, Shi Yu only had a high status, but now, with Shi Yu's battle power, he could completely rank in the top five in Icefield City, alright?

There weren't many top-notch masters in the entire Icefield City, but Shi Yu's strength was definitely above all the ordinary masters in Icefield City. Which ordinary master-level Beast Tamer in Icefield City dared to say that they could instantly kill four monarch-level ferocious beasts?

Perhaps before long, Shi Yu would become the strongest in Icefield City. The three of them were silent... They were curious about how the Beast Tamers in the historical legends were compared to Shi Yu. In any case, they felt that those ordinary legends were inferior to Shi Yu!

On the opposite side of the Ice Dragon Snow Mountain, in the endless sea.

Deep Sea Dragon Palace City.

In a dazzling hall, a huge green divine dragon roared inside, its anger causing the endless sea to tremble.

"Lord Sea Dragon King, calm down, calm down, calm down..."

A thousand-year-old turtle was sweating heavily, advising this lord not to be angry.

"Calm down my ass. I told you to look after that guy. Where's the dragon??"

"The Dragon Palace banquet is about to begin. The sea beasts in the surrounding sea are all heading to Dragon Palace City. What does it mean by sneaking out at this time??"

"With its trouble-maker physique, there will definitely be a problem. An unlucky person will definitely be beaten up by it again!"

“Ah, this... Lord Sea Dragon King, please calm down. It’s all my fault. The crown prince is just playful. Perhaps, he’ll come back later. We’ve already sent troops to search.”

‘The Sea Dragon King was still angry. Although all sea beasts above the monarch level in the huge sea area knew its child, and that idiot wouldn’t really encounter danger, it was still angry.

“Scram and get it back quickly.”

On the other side, a white divine dragon flew towards the distant land and snow mountain with smiles of joy. Since it was restricted all the time in the seax, it would come to land.. It hoped that the extraordinary creatures on land would be able to take more hits from it and not let it return disappointed.

Chapter 263: Dragon Palace City’s Third Prince

“Is this Earth Mystic Ice?”

Ice Dragon Snow Mountain, Underground Ice Cave.

As Shi Yu and the others finished off the four monarchs, the group arrived at the birthplace of the Earth Ice.

The Earth Mystic Ice was quietly inserted between the ground and the roof of the cave, emitting a strong cold air.

The faint cold light was terrifying, The ice surface was like a mirror that could reflect everyone’s appearance.

“Yes, Earth Mystic Ice, a strengthening resource.”

“Tt can increase the energy intensity of the ice-element monarch. There’s a chance for the ice-element monarch to awaken the super skill ‘Earth Mystic Ice’.”

Looking at the nail-shaped ice pillar in front of them, Commander He Biao and Commander Wang Meng almost drooled.

Their pets were all ice-element... After absorbing this, their battle power would also increase explosively. It was no wonder that the group of ice-element monarchs were unwilling to give in.

If they could awaken another super skill, that would be even more impressive.

Although super skills awakened by these resources could only be considered taught skills and couldn’t lead to their own growth like racial skills, who would dislike having more super skills?

This kind of simple strengthening-type resource was very rare, and the price was relatively expensive. After Shi Yu saw it, he analyzed how much this could be sold for.

“It looks pretty good,” Shi Yu said.

Shi Yu had actually never used such a high-level strengthening resource.

The high energy values of his pets were all brought about by the increase in racial skills, not enhanced by resources.

The classic example of relying on resources to strengthen energy was the monarch of the Ancient Tree of Life that protected the evolution holy spring in Icefield City. Its five million energy points were obtained because it was nourished by the evolution holy spring earth vein for decades.

This was a paywall strategy.

It was the same principle as the gem cat wanting to rely on level-nine strengthening-type resources to break through to the totem level and not wanting to rely on skills to break through. No matter which path it was, it could bring about a breakthrough in strength.

“Yes, yes, it’s just not easy to take it away...” Commander Wang Meng said.

The Earth Mystic Ice was a natural treasure that needed to be connected to the icy plain to maintain its form. If it was taken away and there were no suitable preservation devices, the energy would quickly leak out. It was a semi-fixed resource. At the moment, the Beast Tamer Troops definitely didn’t prepare any storage instruments.

“Don’t you have a suitable preservation device?” Shi Yu said when he saw everyone hesitate.

“Who can predict such a thing in advance? There are, but not so big,” Hall Master Lin said.

“Eh, right, don’t you have a ruins space? That place should be able to store it, right? Why don’t we put it there first? We can save the trouble of going back to get the equipment. It would be bad if other monarchs were attracted during this period. Moreover, we have a bunch of other missions to do...”

Hall Master Lin’s suggestion made Commander Wang and Commander He nod. When Shi Yu heard that, he thought it was alright. He said, “Alright then.”

Then, the few of them got busy. A moment later, Shi Yu moved the entire Earth Mystic Ice into the iceberg area of the ruins space. After that, everyone divided into two paths. Shi Yu and the others chose to continue to the beach, while the Beast Tamer Troops chose to continue sweeping the resources around the Ice Dragon Ruins.

“Wow, selling it is another large sum of money. You’ve earned a lot.” After the three masters left, the gem cat said, “Unfortunately, you don’t have an ice-type pet. Otherwise, this Earth Mystic Ice would still be a very good strengthening resource.”

“I can’t use it, I can’t use it...” Shi Yu immediately said.

Shi Yu felt that it was a loss to use strengthening-type resources to strengthen the pet’s energy strength.

He felt that it was far inferior to buying evolution materials to bet on evolution and transform resources into the racial potential of pets.

At that time, he would have potential and strength!

Strengthening-type resources were equivalent to strengthening strength on the original race of the pet. And evolution-type resources, if used appropriately, directly increased the upper limit of the pet's potential and strength. Shi Yu would rather invest resources in evolution materials.

Then, he could increase the pet's strength by adding some skills. This was the most cost-effective ratio for him.

"What do you mean, "you can't"?!" The cat didn't like hearing this.

It said, "When are we going to commercialize the Time Fruit? It's fine if the Nutrition Fruit is commercialized, too. There's also Eleven's weapon and Buggy's equipment. Why don't we build a company? If you're not free, I'll be in charge of managing it. Just stir-fry a few goods occasionally. There's no need

to make them in large batches. Things are more precious when they're rare."

"When the time comes, we'll split the profits!!! You'll be a big boss, I'll just have a sip of soup. How about that! It's mainly because I can help you expand the pet market."

"know a bunch of guys like the Prediction Owl. They're rich too. They're all idiots."

The gem cat said in anticipation. It really felt that Shi Yu's pets were pretty good at making money. It would be a pity if it didn't operate it.

After Shi Yu became a legendary Beast Tamer, these would be brand resources!!

"What are you planning..."

"Save up money. Just treat it as preparations in advance for Eleven, Baby Ginseng, and the others to break through to the overlord level!" the gem cat said.

"But didn't they say that overlords who rely on resources to strengthen themselves are relatively weak? We should obediently train super racial skills..."

The gem cat:??

"You're no longer children. Why can't you have both?"

"Relying on super skills to break through to an overlord... compared to relying on super skills and legendary resources to break through to an overlord. Which one do you think is stronger?"

"The weak overlord level is beaten up by the monarch level. The strong overlord level can fight against the totem level one or two. You won't lose out, child."

"We can't lose at the starting line."

As the gem cat spoke, it was convinced. Shi Yu's face darkened.

Hey, hey, hey, this cat was persuading people to spend money

Legendary-level resources were all worth ten billion. Who could afford to use this?

Resources below level eight were actually still popular in the country, but level-nine strengthening resources were relatively high-end. Sometimes, even if one had money, they couldn't buy suitable ones, so they were called legendary resources.

It could 100% let a monarch-level pet with a good foundation enter the overlord level. Moreover, it had a very strong strengthening effect on overlord-level pets. There was a nearly one in ten chance for overlord-level pets to enter the totem level. This was what the gem cat saved up to pursue.

If Eleven and the others needed a legendary resource to break through to the overlord level, this would definitely be a pit.

"Besides... Why do I feel that it's faster to earn money by exploring ruins? For example, there are Mythical resources in the ruins mentioned by the Undying Dark Phoenix... Aren't those Legendary resources everywhere? When are we going to explore?"

The gem cat's face fell.

It wanted to too, but didn't this sound dangerous?

Exploring ruins wasn't as fast as being a capitalist earning money.

"Let's find a bigger big boss to cozy up to before exploring. I think Sister Ice Dragon is pretty good," the gem cat said.

"Very good, when the time comes, invite it to go with you and let your stepmother see if the treasure vault left behind by your biological mother has treasures or a trap!"

Soon, Shi Yu and the others finally crossed the layers of snow mountains and arrived near the sea.

Although it was said to be close to the sea, the sea surface here was still frozen. Shi Yu and the others walked very, very far before finally arriving at the shattered ice area and seeing the blue sea.

"waul!!"

At this moment, Eleven and the others had long recovered through Absolute Sleep. Seeing the endless sea, Eleven and the others were in a very good mood.

It was also the first time Buggy, Baby Ginseng, and Chi Tong had seen the sea. Their eyes lit up.

"We're finally here."

"Let's take a break and practice before starting the training mission ~" Shi Yu stretched. He was tired from flying and wanted to slack off for a while.

"Remember a sport I haven't done in a long time."

Swim? Or skating?

A moment later.

Shi Yu sat on the chair conjured by Buggy and held the sword weapon, Ice Dragon Blade. A worm silk was tied in front of him, and the bottom of the worm silk had a nutritional fruit used as bait to fish.

“Wu?” “Wuu?” “Yi?” “Mi?”

‘When the pets saw that Shi Yu was talking about fishing, they immediately showed helpless expressions.

“As an outstanding pet trainer, fishing is a necessary skill.”

“Lonce saw a cartoon where a little girl easily used a fishing pole to fish up a water-type divine beast.”

1

“Although we might not be able to do it, it’s not bad to catch a few Sea Kings to spar with you. After all, you seriously lack sea battle experience...”

“In short, I’ll fish, you guys settle the fish.”

Those who could be attracted by the nutritional fruits... shouldn’t be small fish.

“want something cooked,” at this moment, the gem cat playing with its cell phone on the flying carpet said.

“Sure, sure. We’ll look at the gains. Let’s eat seafood tonight.”

In the ocean.

As the nutritional fruit fell, a large number of fish, from the Awakening level to the transcendent level, approached crazily. However, Shi Yu’s bait was clearly screened.

The weak fish was not fit to approach the bait at all. It directly fainted from touching the seawater soaked in the nutritional fruit.

2

From this, it could be seen that Baby Ginseng’s bath water might also be very valuable.

1

Baby Ginseng could probably be dipped in water to make special tea.

Awakening level beasts couldn’t do it, and transcendent level beasts couldn’t. Shi Yu’s target group was above commander rank, preferably monarch rank.

However, judging from the commotion, there didn’t seem to be any powerful sea beasts nearby.

At this moment, as he was fishing, Shi Yu yawned. He saw Eleven and the others staring at each other and said, “Why don’t you guys... Huh?”

Shi Yu was just about to say something when his expression suddenly changed.

At the side, Buggy was also stunned.

A few seconds ago, a white divine dragon nearly ten meters long was swimming carefully at the bottom of the sea, as if it was dodging something.

The White Azure Dragon heaved a sigh of relief. It didn't expect that Dragon Palace City would actually send soldiers to pursue it. It could only be forced to hide in the deep sea. At this moment, as it was getting closer and closer to the land, the White Azure Dragon's gaze flickered.

In the blink of an eye, its nose twitched and it revealed a shocked expression.

"It smells so good, even better than those spiritual fruits in Dragon Palace City."

With that said, it accelerated and locked onto a white fruit in the ocean with a glance, thinking that a heavenly treasure had appeared.

"My luck is so good! It's right to come out!"

It was overjoyed as it rushed forward. Just as it was about to approach the white fruit, in the next moment, the worm silk tied to the white fruit seemed to have become a spirit. It extended automatically and its speed was extremely fast. In an instant, it tied the white divine dragon that was close to the white fruit!

"Roar?!"

Seeing this, the White Azure Dragon was stunned. It struggled with all its might, but to its surprise, it discovered that the thread was surprisingly tough. With its strength, it actually couldn't break free directly.

In the next moment, the White Azure Dragon felt a huge force coming, and its body was involuntarily pulled towards the sea.

splash!!!

As water splashed everywhere, on the ice, Shi Yu, who was quickly putting away the worm silk, looked at the huge white divine dragon that he had thrown into the sky with a bang. His mouth instantly opened wide.

"Damn, what's this?"

"Wu?" "Wuu?" "Yi?" "Mi?"

At the side, Eleven and the others also looked at the huge monster Shi Yu had fished up in surprise.

Even the gem cat with the cell phone couldn't help but be stunned.

Damn, this seafood was too strong.

It was very nutritious.

However, why did this guy look so familiar?

"Roar!!!"

After being fished out of the sea, the long transcendent creature was finally angry. The surrounding wind elements gathered, and the worm silk that was difficult to break with brute force just now instantly broke. At this moment, it waved its body and looked at Shi Yu and the others below in anger. It

finally understood what was going on.

It was the dignified Third Prince of Dragon Palace City, the only son of the Sea Dragon King, but it was actually... fished up like a fish by a human Beast Tamer?

This was too much!

At the same time.

The index of Bureau 11 and 3 in front of Shi Yu also displayed the information on this transcendent creature.

[Name]: White Azure Dragon

[Attributes]: Dragon, Wind

[Race Level]: High-level overlord

{Level of Growth}: Commander Level

Energy Points: 166,132

< Introduction > Dragon Palace City's proud son, Third Prince, son of the Sea Dragon King and the Azure Dragon King. The only race that has mastered the Wind Summoning Art. Don't offend them!!

At that moment, when he saw this information, Shi Yu was directly stunned.

It wasn't because this dragon's race level was very high, nor was it because its energy value was very high. It was purely because of the other party's identity, as well as the "Do not make offend" marked on the third and eleventh bureau indexes.

1

Then here was the problem. He had caught the other party like a fish. Was it considered an enmity?

"Roar!!!" Seeing the confused expressions of Shi Yu and the others, the White Azure Dragon was even more furious. The perfect-level dragon might directly erupted, and the substantialized dragon might covered the sky and pressed down on Shi Yu and the others.

However, in the next moment... the White Azure Dragon's expression changed.

This was because as the Little Iron-eating Beast, Little Butterfly, Baby Ginseng, and Little Red Sparrow beside Shi Yu looked up at it, four forces that shocked the sky and the sea instantly spread. In an instant, four shocking cracks appeared in the sky. The sea even kept rolling, and cracks appeared!

The terrifying four deterrence storms, each of which was stronger than the dragon might of the White Dragon. At this moment, lightning shot out of Eleven's eyes. Its deterrence was as intimidating as thunder.

Buggy's purer transcendent dragon might erupted. Chi Tong's phoenix might was displayed, making the White Azure Dragon's dragon might seem like stardust competing with the bright moon.

In the blink of an eye, the deterrence of the White Azure Dragon was suppressed by the bullying strategy. Moreover, four strong deterrence wrapped around the White Azure Dragon, making its mind tremble. It could only circle on the spot and be shocked until its entire body stiffened.

In a short exchange, the White Azure Dragon's heart turned cold. It looked at the four little pets in front of it in shock. Transcendent Deterrence... How was this possible.

The White Azure Dragon, who had never left the Ocean Dragon Palace City, was directly stunned.

Were the humans and transcendent creatures on land actually so terrifying?

Even in Dragon Palace City, only the top Dragon Palace overlords had mastered transcendent deterrence.

Its pupils constricted as it looked at Shi Yu solemnly. It was just about to shout, "My father is the Sea Dragon King!"

However, Shi Yu spoke faster.

"Well, would you believe me if I said it was a misunderstanding?" At this moment, Shi Yu touched his chin and looked at the white dragon in the sky, who didn't dare to act rashly.

White Azure Dragon:

"Are you Xiaobai?"

"I heard the adults in the family mention you."

"I didn't expect you to grow so big in the blink of an eye."

White Azure Dragon: "?"

Shi Yu revealed a reminiscing expression and took out the Sea Dragon King's scale. "You don't know me, but I know you. You weren't born when your father sent this scale out."

The White Azure Dragon was stunned. It opened its mouth and looked at the Sea Dragon King scale in Shi Yu's hand. It was immediately stunned. Holy shit, this aura... was really its father's scale. This, this, this, this, what was going on??

In an instant, the White Dragon was stunned as it looked at Shi Yu and the others in shock.

"Senior, you are..."

It transmitted its telepathy. As expected of a totem heir, a commander rank had mastered telepathy.

In an instant, Eleven, the others, and the gem cat were also stunned.

"We're like family, like family. Come, sit, sit." Shi Yu smiled and said, "Why did you come out of Dragon Palace City?"

At this moment, when the White Azure Dragon saw that the other party was a big boss who knew its father, it was immediately nervous to the extreme. It almost thought that Shi Yu had been sent by its father to capture it. It said nervously, "I came out for a breather and train."

Shi Yu: "..."

"Isn't there a Dragon Palace banquet in Dragon Palace City recently?" Shi Yu asked.

"Yes, yes." The White Azure Dragon nodded.

"You ran away?" Shi Yu asked because he could sense the White Azure Dragon's nervous heart through telepathy.

White Azure Dragon : "..."

"I'm really bored. Is it appropriate to lock a wind-element divine dragon like me in the sea?" The white dragon had a bitter expression.

"Wu?" "Wau?" "Yi?" "Mi?"

Eleven and the others pointed and discussed. It was indeed ridiculous.

At least it had to be locked in a snowstorm.

"Is it because of that?" Shi Yu gradually took the initiative.

"Ah, no, it's mainly because my father wants me to find a Beast Tamer for me to follow, but I don't want to be a human pet... I want freedom!!" It had a bitter expression and said, "The human Beast Tamers I saw previously are all trash. It's impossible for me to follow them! Uh, of course, I didn't mean you, Senior. Please don't tell my father about me, alright?"

Shi Yu: "..."

Good lord, Shi Yu was speechless.

Was this the cub of the overlord race in Dragon Palace City?

But when he glanced at the success rate of the White Azure Dragon's super skill teaching

Extremely low.

Excuse me

This guy was also fodder

It didn't even have the will of an overlord, and it dared to be a totem's son?

"No, no, no." Shi Yu chuckled and said, "There's indeed no rule that says you have to follow humans."

"Right!" The White Azure Dragon seemed to have found a confidant. It didn't expect Shi Yu to understand it so well.

Why did it have to lock itself in the small space of a human Beast Tamer and suffer and train every day?

"My father has its own obsession and insisted that I complete its wish for it. Damn it," the White Azure Dragon said unhappily. "It even said that only by following a human Beast Tamer will there be a chance of stepping into the Mythical Domain..."

Buggy and the others gradually understood all of this. The father of this White Azure Dragon was the Sea Dragon King evolved from the Dragon Carp pet that Lin Feng casually cultivated with evolution talent, the dragon totem that married into the Dragon Palace City!

Shi Yu: "... Haha, your father must also be thinking about your future. Come, come, come, let me ask you. How many overlord heirs will participate in the Dragon Palace banquet this time? Do you know? Of course, the ones who are still in their infancy."

The white dragon was stunned. It didn't understand why Shi Yu was asking this. It looked at Shi Yu suspiciously.

However, it still recalled carefully.

"They would probably all participate."

"At the moment, the heir of the overlord in Dragon Palace City..."

"The baby of the Sponge Overlord? And the brother of the Octopus Overlord of the Ten Thousand Claw Octopus. Oh, and the child of the overlord of Neptune, that silly starfish."

"Oh, there's also Little Sister Tiger Whale and that idiot Wyrms Shark."

"By the way, after the Second Princess of Mermaid Island left with a human, the Mermaid Queen seemed to be pregnant again. I wonder if she was born. She's really impressive. That auntie is simply the birth vanguard of Dragon Palace City..."

"Apart from them... there seems to be General Yaksha's daughter, Sister Sea Yaksha?"

The White Azure Dragon tried its best to remember. After thinking for a long time, it only remembered less than ten overlord heirs that it was more familiar with.

At this moment, after hearing the White Azure Dragon's description, Shi Yu fell into deep thought.

Sponge Baby? Little Brother Octopus? Stupid Starfish? What the hell? This was an overlord's son? This was Dragon Palace City?

"What race is the tiger whale sister you're talking about?"

"And the shark is?"

"Speaking of which, did that mermaid princess leave with someone named Lu Qingyi? Also speaking of which, is the mermaid queen's child definitely a mermaid princess?"

"Do you have a photo of that Sea Yaksha sister you mentioned?"¹

"Oh, wait, I want to ask if any totem big shots in your Dragon Palace City are about to reincarnate." Shi Yu wanted to ask a lot. He even asked about the unreliable and reliable prophecy of the owl.

White Azure Dragon:??

What exactly did he want?

Chapter 264: Human Big Boss Shi Yu

The upright Shi Yu started chatting with the Third Prince in all seriousness.

He had a wide range of information.

Not only were they limited to the sons of totems and heirs of overlords, but he also had to ask about some descendants of monarchs, commander descendants, and even the shrimps and crabs in Dragon Palace City.

At the moment, as the skill index upgraded, he could teach super skills. Moreover, there were restrictions. High-rank pets were no longer Shi Yu's goal.

Though, if it was a Mythical race with their own divine skills, it could still be discussed.

Otherwise, in Shi Yu's eyes, a pet of an overlord race was far less attractive to him than a pet that had mastered the overlord's will.

After all, as long as he could teach super skills, that was simply a totem straight away.

From the situation of this White Azure Dragon, although these totem children's battle power was definitely at the top among their peers, and their energy levels were actually not inferior to Eleven and the others, who had basically maxed out their racial skills, it was obvious that they were rich sons of rich parents.

The other heirs of overlords were probably similar. They couldn't be brought along.

If possible, Shi Yu didn't even mind going to the million prawn soldiers in Dragon Palace City to choose and give them a visual assessment of their aptitude.

In Shi Yu's opinion, water-type pets with overlord's will should be pretty easy to find in the ocean.

In short, it didn't necessarily have to use the heir of the overlord to make friends with Dragon Palace City. When the time came, the ice dragon would become the Ice Dragon King of Dragon Palace City. Was there a better backer than this?

At that time, Chi Tong would also be the daughter of the totem in Dragon Palace City!

"The situation of the Dragon Palace City army... I'm not too sure..."

However, in the face of Shi Yu's question, the white dragon said shyly.

Shi Yu: "?"

"Aren't you the son of the Sea Dragon King?"

"Doesn't your father have his own faction?"

"aren't you the Third Prince of Dragon Palace City?"

"How can you not know!"

“This won’t do...”

“You don’t even know the situation of the ocean army talent in Dragon Palace City. How can you sweep away the children of other Dragon Kings in the future and inherit Dragon Palace City?”

“You’re not young anymore. It’s time to learn to form cliques and recruit talents.”

Shi Yu expected better from him. It was fine if its strength wasn’t enough, it was fine if his potential wasn’t enough. It couldn’t even be a second-generation heir competently? What a loser!

The White Azure Dragon was shocked. “Don’t talk nonsense! I’m not! I’m not interested in the status of the Dragon God of Dragon Palace City!”

At this moment, in the eyes of the White Azure Dragon, Shi Yu was very similar to those treacherous officials who encouraged it to fight for power.

Shi Yu also felt that this White Dragon was useless and didn’t pursue it.

“Wu...”

Next, Shi Yu originally wanted to take a step back and ask more about the other situations in Dragon Palace City, but at this moment, the originally calm sea suddenly moved.

A huge vortex formed, and an extremely terrifying pressure gradually came from the deep sea.

‘The originally normal sky darkened.

This sudden change made the gem cat beside him reveal a serious expression. It even shocked the White Azure Dragon and made it swallow its saliva crazily.

“Not good!!!”

It shouted and its body immediately danced. It wanted to fly towards the land, but it was too late.

In the next second, with a boom, a huge waterspout rose out of thin air, connecting the deep sea to the sky like a water pillar.

Among them, a deep cry that was like the cry of a whale sounded.

‘Whoosh—

Right on the heels of that, the waterspout dispersed from the inside. A huge creature more than 20 meters long wrapped around the water and quietly charged into the sky.

Its back was black, its abdomen was grayish-white, and it had a sharp back fin. After it charged into the sky, the violent sea flow instantly returned to calm, but the White Azure Dragon’s heart instantly couldn’t calm down.

[Race Name]: Sky Penetrating Whale

[Race Attributes]: Water, Dragon

[Race Level]: Mid-level overlord

{Level of Growth}: Overlord

Energy Points: 87,120,000

{Introduction}: The overlord of the whale group in the Dragon Palace City. It can trigger tornadoes and tsunamis to easily drown a city at will. Don't offend it!

"F*ck..."

As such a thing appeared, Shi Yu's heart stopped.

Its energy level was 30 million higher than the gem cat. It was ridiculous.

[This, this guy is so strong, his energy level is even higher than yours by 30 million... He should be here to find this little white dragon, right?] He quickly asked the gem cat.

'The gem cat's expression was calm, telling Shi Yu not to panic.

'They were already overlords. Energy value was not the only standard to judge strength.

Although this big guy's energy level was terrifyingly high and its cultivation of the natural power was not weak, as long as its gem cat wanted to escape, even if it brought Shi Yu along, the other party might not necessarily be able to catch up.

"Uncle Hei Ge..." Seeing the appearance of this overlord whale, the white dragon almost squeezed out tears and was once again at a stage where it didn't dare to move.

'The White Azure Dragon's eyes were filled with tears.

Did it have to be so exaggerated? Didn't it just run away from home for a while? Did it have to mobilize this person to catch him??

A moment later, the Sky Penetrating Whale's huge body enveloped the sky, and its deep gaze slowly lowered to watch.

"Come back with me." The Sky Penetrating Whale looked at the White Dragon and said, "Don't make your father angry."

"L..." The White Azure Dragon was extremely unwilling.

It looked at Shi Yu and the others for help.

At the same time, the Sky Penetrating Whale's gaze landed on Shi Yu and the others.

With just a glance, Shi Yu, Eleven, Buggy, Chi Tong, and Baby Ginseng immediately trembled.

'When looking at the Sky Penetrating Whale, it was as if they had fallen into the deep sea. It felt difficult to breathe, as if the heart was being squeezed.

This Sky Penetrating Whale had also mastered transcendent deterrence and integrated its dignity into every move. A breath and a gaze were wrapped in weak deterrence, making it difficult for the weak to look at it directly.

Eleven and the others gritted their teeth. What were they looking at!

In the back, the gem cat also yawned and said, "Isn't this General Whale?"

"Huh?"

The Sky Penetrating Whale looked at the gem cat that looked at it easily and was silent for a moment. "It's you...?"

The gem cat had also been to Dragon Palace City many times. It was naturally not unfamiliar with the overlord of Dragon Palace City.

Although Dragon Palace City had many totems and more overlords, to Dragon Palace City, overlords were also rare guests.

"Since your family has come, go back." Shi Yu sold the White Azure Dragon in the blink of an eye and said, "Don't run around next time. Study well."

Be able to answer questions next time.

White Azure Dragon:??

The Sky Penetrating Whale looked at Shi Yu and the others in silence, feeling a little confused. At this moment, Shi Yu took out the Sea Dragon King's scale again and introduced himself. "General Whale, hello. I'm the friend of the Sea Dragon King's good friend, the Butterfly God..."

"Dong Huang Ruins Strategic Investigation and Backup Security Bureau..."

"Also a member of the National Feeding Research and Rare Resource Protection Bureau, Shi Yu."

Transcendent Whale: (©.©)1

At the side, the White Dragon revealed a confused and amazed gaze!

"This..." The Sky Penetrating Whale quickly reacted and understood that the two bureaus of Dong Huang. However, what it was more concerned about was.

When it saw the Sea Dragon King scale Shi Yu took out, the Sky Penetrating Whale fell silent.

Holy shit, this was?

The scale of the Sea Dragon King's friendship?

It remembered that it didn't give out many pieces.

"Uncle Hei Ge, this is Father's good friend, Senior Shi Yu," the white dragon assisted.

Shi Yu: "..."

Children shouldn't talk nonsense. They weren't friends yet.

The Sky Penetrating Whale was stunned, but it really couldn't remember a figure like Shi Yu.

"Hello, Sir Shi Yu." A moment later, combined with the gem cat and the Sea Dragon King's scales, the Sky Penetrating Whale felt that Shi Yu didn't seem to be lying. It couldn't help but say, "Sorry for being presumptuous. May I ask why you're here..."

“It’s nothing. I was just walking around and fished. I bumped into the Third Prince.”

“I see.” The Sky Penetrating Whale glanced ahead. Indeed, it was almost at the human domain.

It immediately said, “I hope His Highness didn’t bring you any trouble.”

“It’s not troublesome.” Shi Yu chuckled and said, “In that case, quickly bring the Third Prince back. Eh, can you pass by later and help me bring a message to Senior Sea Dragon King?”

“Huh?” The Sky Penetrating Whale was stunned. “Of course.”

Shi Yu smiled and said, “It’s not a big deal. Please tell Senior Sea Dragon King that I’ll be visiting Dragon Palace City in a few days. At that time, a relative friend of mine might join Dragon Palace City.”

“Relative friend?” The Sky Penetrating Whale looked at the little cat beside it. Could it be.

This cat didn’t have enough fun eating fish in Dragon Palace City the last time. Did it decide to jump ship and join Dragon Palace City this time?

Dragon Palace City had yet to have a precedent of accepting cats

This wasn’t water or dragon. Could it be added?

However, if an overlord-level creature joined Dragon Palace City, it indeed needed the recognition of a totem.

“It’s not it,” Shi Yu said.

“No?”

“Well, it’s a dragon friend of mine. It comes from the West. Its race is a frost dragon, but it’s a little different from ordinary frost dragons.”

“Oh??”

“It once participated in the first totem battle and fought alongside the Time Emperor!”

The Sky Penetrating Whale widened its eyes. The white dragon beside it was also stunned.

“Because Emperor Shi personally bestowed time-element abilities, it’s a little special.”

“Its strength is still not bad. It once suppressed the totem at the overlord level. Now, it has also stepped into the totem level.”

“Now, it wants to find a place to retire, so it wants to join Dragon Palace City... It just happens that I might visit Dragon Palace City next. When the time comes, I should bring it along.”

1

Shi Yu smiled.

“What!!”

Transcendent Whale: d(O20a)

A totem-level dragon??

Moreover, it had participated in the first totem battle with Emperor Shi?

Didn't that mean that it was an old monster who had lived for more than 2000 years??

After all, the current Dragon God of Dragon Palace City had only risen during the Dragon Emperor Era. Its growth was less than a thousand years ago.

As for the Sea Dragon King, it was less than 200 years ago.

"Ah?" Beside him, the White Azure Dragon also looked at Shi Yu in shock.

So Shi Yu was really a big boss!!!

It originally thought that Shi Yu was only familiar with its father, but it didn't expect, it didn't expect.

So scary!!!

He was actually related to totem-level creatures during the Emperor Shi era!

'The Third Prince didn't expect to encounter such a big boss just by going out.

It secretly glanced at the confused Eleven and the others and immediately understood.

This big boss was definitely nurturing a new pet. Big Boss Shi Yu's true main force was unfathomable.

Otherwise, it was impossible for him to casually bring an overlord-level gem cat and casually make friends with totem-level Butterfly God and a giant dragon!

"What you said... is true?" The Sky Penetrating Whale was very shocked.

It had naturally heard of Emperor Shi.

'That was the first emperor of the Dong Huang, who was on good terms with Dragon Palace City. The ancient emperor of the Dong Huang was even closer to a myth than the Dragon Gods of Dragon Palace City.

'The fourth legendary Emperor of the Dong Huang, who had the best relationship with Dragon Palace City, was also far inferior to Emperor Shi in historical evaluations.

"Of course, please pass this news to Lord Sea Dragon King," Shi Yu said.

"Lunderstand." The Sky Penetrating Whale nodded. It didn't expect that it would receive such big news after coming out to catch a brat that had run away from home. This news was very important!

'There were also factions within Dragon Palace City. The various factions were also competitors. Among them, it belonged to the Sea Dragon King's faction. If the new totem-level dragon was first contacted and befriended by the Sea Dragon King, the hidden benefits would be immeasurable.

"I don't want to go back!!!"

"Let me experience human society with Big Boss Shi Yu!!!"

At this moment, the Third Prince shouted.

“No!” The Sky Penetrating Whale suppressed the White Azure Dragon and said to Shi Yu, “Then, I’ll send this news back as soon as possible. Don’t worry, Sir Shi Yu!”

After the Sky Penetrating Whale captured the Third Prince, Shi Yu sat back down with a sigh.

As he thought, going to Dragon Palace City with Zou Tianwang, Yu Shu, and the others was not difficult at all.

At that time, the other juniors would still be carefully observing Dragon Palace City. He was afraid that he would directly become a guest of the Sea Dragon King. How was he to compete?

“You’re telling the truth.”

“But why does it seem a little different from what I understand?”

‘The gem cat was silent.

“The charm of language, the charm of language...”

Shi Yu laughed. Beside him, Buggy and the others started chattering again.

Was that... a water type Iron-eating Beast?

It was as black and white as Eleven..

Chapter 265 Fourth Game, Gao Xuan

A week later.

In the sea area near the Ice Dragon Snow Mountain.

In the past few days, Shi Yu had come almost every day and had already understood the water element here.

Whether it was Eleven, Buggy, Baby Ginseng, or Chi Tong, they could move freely underwater.

Of course, if Baby Ginseng and Chi Tong fought underwater, their battle power would be less than 10%. This couldn’t be helped.

On the other hand, Buggy could be arrogant by transforming into a water-type pet.

As for Eleven, its battle method was even simpler. It directly modified itself into a Thunder Rod and jumped into the sea.

Then.

Blue Sea Ruins:?

Heavenly Thunder Fried Fish.

Apart from that, Shi Yu had not been idle these few days.

One time, after the gem cat finished using the clone skill, he found an opportunity... to replicate the clone skill.

This was a high-level skill, similar to multiplication. It was a special skill, but to be honest, it was a little inclined towards the spiritual element. When the proficiency was low, it needed to control the clone through spiritual power and needed to multitask. In the past few days, Shi Yu had taken the time to give the clone skill to Eleven, Baby Ginseng, and Chi Tong. Shi Yu's goal was to let every pet become an army!!!

Although Eleven had the bean soldier skill, and the upper limit of this skill was higher than the clone, the problem was that it couldn't be taught yet.

Shi Yu taught Eleven this skill with the idea that his clone might lead to an increase in level of bean soldier. As for Buggy, it had illusions that were already better than cloning. Shi Yu didn't teach it.

For example, the clone skill could only inherit entry-level super skills after it reached the transcendent level. However, Buggy's Imagination Domain and Illusory Phantom combined with the full-level dream stealing... Not to mention the entry-level super skill, that phantom could even inherit the perfect super skill in the future. He could even create other pet clones and use other people's super skills. This upper limit was something the clone skill couldn't compare to. In fact, Shi Yu mainly wanted to teach Baby Ginseng and Chi Tong.

Initially, Shi Yu's idea was that when Baby Ginseng learned plant control, it would also bring its own wood clone. The upper limit was similarly higher than ordinary clones, but Shi Yu couldn't wait for the same problem. Now that Baby Ginseng had learned how to clone, it could let its clone self-destruct. Although its power was definitely not as strong as its main body's self-destruction, its practicality was undoubtedly stronger. At that time, among monarchs, with this trump card, Shi Yu would quickly be invincible.

Moreover, in the future, the wooden clone that the plant controlled could also inherit the proficiency of the clone. In short, it wasn't a loss.

At the moment, Shi Yu had already prioritized raising Baby Ginseng's clone to the perfect level. Unfortunately, the current clone couldn't inherit super skills yet. Even high-level skills could only be inherited to the expert level, but Shi Yu knew that it was enough to reach the transcendent level. Although it could still only inherit entry-level super skills, it was definitely enough for now.

As for why he taught Chi Tong the clone skill...

Shi Yu planned to develop more handsome combination sword moves. After all, Little Chi Tong (himself) had relatively few skills.

For example, the Infinite Converging Sword, the God Slaying Sword Formation, the Extreme Ghost Sword Art (Storm Form), and so on. They could be used after learning them. "Extreme Ghost Sword Art, Storm Stance!"

In the ruins space, a huge circular sword formation dozens of meters in diameter appeared under Shi Yu's feet.

In the sword formation, he threw the red light sword in his hand up. In an instant, the sword spirit turned into 24 swords. 12 of them floated in the air, and the other 12 stabbed into the ground and fused into the sword formation. Boom!!!

In the next moment, the sword formation on the ground instantly erupted with a Sun Flame Vortex, forming a fire sword domain. It emitted a powerful suction, as if it wanted to devour all enemies. The 12 floating swords in the sky activated the Light Flame Sword and turned into sword lights that filled the sky. Like Phantom Sword Dance and Hundred Phoenixes crying together, they launched a fierce attack inside the sword formation.

Pa! Pa! Pa!

A moment later, Eleven, Buggy, and Baby Ginseng's cries and clapping came from the side.

"Wuuu -"

"Wu ~2"

"Yii! Yii!" Baby Ginseng shouted. So handsome.

"Actually, there's still room for improvement."

Shi Yu revealed a hearty smile and said, "When we create dozens of weapons like the Ice Dragon Blade and the Heavenly Thunder Slash, we'll let Chi Tong's clone possess a bunch of divine swords. Then, we'll use the power of intersection. When the ten thousand swords intersect, the power should be even stronger!!"

"I've already thought of the profundity name. It's called..."

"Mi..." Little Chi Tong removed its possession state and looked at Shi Yu while panting.

Impressive, impressive, handsome, but... So tired!

"It's better to be tired."

Shi Yu chuckled and said, "The profundity name is..."

Boom!!! Shi Yu was interrupted again.

In the outside world, the gem cat suddenly shook the door of the ruins and shouted for Shi Yu and the others.

The corners of Shi Yu's mouth twitched. He immediately came out and saw the gem cat pointing into the distance.

That was the direction of the Ice Dragon Snow Mountain.

The sky was gray. The snowstorm became incomparably huge. The entire snow mountain was enveloped in a snow tornado.

"Roar!!!!"

In the snowstorm, dragon roars came from time to time. Under the gathering of countless snowstorms, it seemed to have condensed into a frost dragon hundreds of meters tall that roared in the sky, swearing the return of an invincible existence.

“This is...”

Upon seeing this scene, Shi Yu was stunned. “Ice Dragon finally left the ruins.”

“Yeah, are we going over?” the gem cat said.

“Of course.” Shi Yu nodded. This time, the gem cat used Instant Transmission and teleported with Shi Yu in the direction of the Ice Dragon Ruins.

A moment later, Shi Yu and the others arrived at the Ice Dragon Ruins. At this moment, in the sky, the frost dragon was looking at the huge snow mountain in the snowstorm and couldn’t help but sigh.

“Has it already become like this in 2500?”

“Compared to back then, there’s so much less icy environments...”

“It might have been sucked dry by you guys,” a voice said.

IIII

The frost dragon looked at the arriving Shi Yu and said, “You’re here.”

“Long time no see, Mother Dragon. Have you drained the Ice River Totem dry?” Shi Yu smiled.

“Hmph, even if we ignore it, it won’t be able to revive successfully in less than a hundred years,” the frost dragon said. “This time, it’s completely drained.”

“As expected of me.” With that said, it looked at the Ice Dragon Ruins.

After a boom, the huge ruin instantly shattered. Ice Dragon picked up a red bracelet and put it on its huge claw. After the Ice Dragon Ruins collapsed, the snow and wind dispersed, and the snow mountain collapsed, falling continuously into the ice abyss underground.

Boom.

In the loud bang, the Ice Dragon said, “I’ll take away the sealed space. Since you humans can solve it yourself, I’ll leave the rest to you. I won’t worry anymore. The Ice River Totem has imprinted itself in this area. As long as there’s the power of the ice element around, it still has a chance to revive. Do you understand?”

Shi Yu nodded. It was said that the entire Icefield City was a city of ice and snow a long time ago. Now, only the Ice Dragon Snow Mountain was left. From the looks of it, it was because the Ice River Totem needed energy to revive and so it started slowly absorbing it.

But now, this revival energy had probably been wasted by Ice Dragon. If the Ice River Totem was conscious, it would probably curse.

It was very similar to logging into a game. Just as the progress bar was about 99%, the Internet card suddenly fell back to 1% for the unlucky players. "Speaking of which... Did Great General Mu Huiyin leave any family heirlooms in that sealed space?" Shi Yu suddenly looked at Ice Dragon.

The dragon tensed.

"What are you doing? She said that after I leave, these are all mine. Why, do you want to snatch them??"

Ice Dragon's nostrils emitted cold air as it looked at Shi Yu unkindly. In order to inherit these inheritances, it had protected this place for thousands of years. Others could forget about touching it!

"I was just asking, there's no snatching!" Shi Yu laughed. Who dared to snatch it?

Even if Dong Huang specified that all the ruins belonged to the country, it still had to depend on who had the ruins. To dare snatch from the Ice Dragon Totem, wasn't this courting death?

All rules were established on strength.

Attacking the weak with heavy fists and being subservient to the strong. This was a law that would never change no matter where.

"However," Ice Dragon suddenly pondered and said, "As for Chi Tong, there's something I can give him."

Shi Yu: "!!!"

"Chi Tong, hurry up and greet Mother Long!" The fire sword spirit was pulled out by Shi Yu in a daze as it looked at the frost dragon innocently.

"Mi..."

"Hehe." The frost dragon looked at the timid fire sword spirit and had a bad sense of humor. "This is for you." With that said, a set of equipment was pulled out of General Mu Huiyin's ruins space by the frost dragon.

It was a silver female armor.

It looked simple, but it was filled with history.

Seeing this armor, the fire sword spirit instantly felt a sense of closeness that came from its bloodline. As for Shi Yu, he was slightly stunned because his third index instantly detected the material of this armor!

< Name > Gemini Silver

[Attributes]: Space

< Introduction > It's a legendary resource. It contains strong power of the sun and moon. It's a metal mineral that can perfectly coordinate the power of the intersection.

Status: Broken

"This is Mu Huiyin's favorite battle armor when she was alive. Although the artifact spirit has already left, the battle armor is already broken, and the internal power has dried up, the characteristics of the

Coordination Strength should have been preserved a bit. I'll give it to you," the frost dragon said generously. "Mi!! (Thank you!)" Little Chi Tong flew up happily and received the Gemini Silver Armor.

However, after comparing the design and size, it glanced at Shi Yu and shook its head regretfully. It was too small for the armor. "Thank you!!" Shi Yu was also full of smiles. Holy shit, the legendary armor!! Gemini Silver, this was a level-nine resource, a legendary resource!! Although it was broken now, a starving camel was still bigger than a horse.

Previously, Buggy's broken dragon ball was only level four, but wasn't it still powerful? The reason was that its quality was high enough to explode.

The Frost Dragon was generous!

As for how to use it, Shi Yu instantly thought of it.

At that time, he would directly let Chi Tong possess the armor. As for who would wear it... He would directly let Buggy create a humanoid version of Sister Ice Dragon or the frost version of General Mu Huiyin!

The two of them could maximize the power of the equipment!

Shi Yu named it: Profundity: Ice Dragon General Descends!

"Good sister, is there anything else you don't need?" At this moment, the gem cat beside her couldn't sit still anymore. Seeing that the Ice Dragon casually threw a broken level-nine legendary resource, it immediately looked forward to it.

For example, Sun Gem and Phoenix Gem.

It was also possible to exchange items. Everyone had agreed previously. The frost dragon: "No! Nothing! Mu Huiyin is very poor. She didn't leave me anything at all! Stop thinking about it!"

Shi Yu and the gem cat stayed silent...

"By the way, Dragon Mom, let's go to Dragon Palace City in a few days. I bumped into the son of the Dragon Palace City's totem Sea Dragon King and the overlord general of Dragon Palace City a few days ago. I told them about you. They're very happy. When the time comes, they'll welcome you with the most solemn ceremony." "I didn't forget about you."

Shi Yu did not forget to take credit.

The frost dragon was stunned and nodded in satisfaction.

"Not bad. I'll go with you then, en?"

Just as it finished speaking, it looked into the distance.

Shi Yu also looked in another direction.

A silver-white flying ship that was more than ten meters long and looked like a flying dragon passed through the snow and wind and quickly flew over from afar. Seeing this strange thing that emitted dragon might, the frost dragon immediately narrowed its eyes. What the hell was this?

Shi Yu also looked over.

The index immediately displayed information on this thing.

[Name]: Ultimate Holy Dragon Beast (Flying Dragon Ship Form)

[Attributes]: Machinery, Dragon

[Race Level]: Mid-level overlord

(Level of Growth): Monarch Level

Energy Points: 7.5 million < Introduction > The only mechanical race created for Mechanic Gao Xuan. "Gao Xuan?" After being slightly stunned, Shi Yu immediately recalled. Wasn't this name the legendary captain of the school team from Imperial Capital University, the previous national champion, the genius Mechanic from the fourth round?

Together with Senior Lu, Zou Tianwang, and the others, they were known as young geniuses with legendary aptitudes. "I've seen it all now." This was the first time the frost dragon had seen a mechanical life form. It couldn't help but be very curious.

A moment later, the flying ship arrived above the Ice Dragon Ruins. A few figures were teleported down from the flying ship.

A figure appeared beside Shi Yu. Shi Yu took a look. President Feng, Master Lin, Commander He, Commander Wang, even Principal Feng and Senior Lu were there!

"Shi Yu, Teacher Ying," Senior Lu said when she saw that Shi Yu and the gem cat were also here.

"Senior Lu, this is..."

Lu Qingyi said, "I didn't expect it to be such a coincidence. We just returned to Ping Cheng when Senior Ice Dragon came out. This is the Mechanical Master sent by the fourth bureau to assist us in completely annihilating the Ice River Totem, Gao Xuan."

Shi Yu looked over and saw that after teleporting Principal Feng and the others down, the silver-white flying dragon battleship in the sky began to transform. Like a Transformer, it gradually turned into a huge mechanical beast and mecha in the form of a dragonman!!

A moment later, the chest of the Ultimate Holy Dragon Beast was opened. A black-haired young man in a fusion state with the Ultimate Holy Dragon Beast walked out. On the Ultimate Holy Dragon Beast's one hand, the two parties landed on the ground. At this moment, Shi Yu looked over again. The energy value of the Ultimate Holy Dragon Beast had already fallen to 4 million. He couldn't help but analyze in his heart. It looked like the level of this mechanical beast's loading and fusion skill was very high. Moreover, this Gao Xuan most likely had a big secret. He could actually increase the mechanical beast's energy by so much.

However, wasn't this Gao Xuan also a master? Shi Yu originally thought that a legend would be sent to assist in the fourth bureau, but he didn't expect it to be someone his age.

After Gao Xuan landed, he silently glanced at Shi Yu and the gem cat. After nodding, he looked at Ice Dragon. "Hello, Senior Ice Dragon." "Wait, you humans only sent such a little brat to assist in destroying the Ice River Totem??" The frost dragon looked at Gao Xuan in surprise.

This guy looked to be the same age as Shi Yu!

Moreover, although this mechanical dragonman looked strange, the frost dragon didn't feel that it was very strong! Were humans tricking it? Gao Xuan said, "Senior Ice Dragon, to be precise, it's a forbidden weapon we're carrying." "That's a small, weakened forbidden weapon, but it can stir the power of nature and grow on its own by absorbing the power of the sun. When it falls, it will stir the power of the sun to permanently change the environment of an area and form a sea of fire. Because the flames produced during its explosion are similar to that of a rose, it's also known as the 'Rose of the Sun'."

"With the Rose of the Sun, it can easily and permanently change the environment of the Ice Dragon Ruins, completely cutting off the possibility of the Ice River Totem reviving." "Please believe in its power. Now, it's already an era of machinery."

"Yes, yes." Principal Feng and the others smiled.

"I originally wanted to activate a normal forbidden weapon, but because you advanced to a totem, you absorbed all the power of the Ice River Totem. According to my analysis, the Sun Rose should be enough," Lu Qingyi said with a nod. President Feng and the others nodded crazily. In this way, the impact on the surrounding cities could be reduced to the lowest.

Ice Dragon was stunned and looked at Shi Yu.

Shi Yu was also stunned.

He fell into deep thought and was thinking about other things. So, could the members of the fourth bureau carry nuclear bombs with them??

This was too much. If this Gao Xuan couldn't defeat him in the National League and brought a small forbidden weapon, how could he play! Oh, Baby Ginseng wasn't bad either. Then it was fine. He hoped that the National League wouldn't become a self-destruction competition...

Chapter 266 Rewards of the National League

"Alright, alright."

"Then I'll leave it to you."

"Hurry up, let me see the power of that forbidden weapon."

The Ice Dragon saw that everyone was so confident and so it said casually.

"No problem."

“However, I might need some time to prepare,” Gao Xuan said.

With that said, he looked at Principal Feng, President Feng, and the others.

At the same time, his gaze also stopped on Shi Yu, who had swept across Imperial Capital University while he wasn't around. To be precise, it landed behind Shi Yu and tried to look at Chi Tong's silver armor.

[Race Name): Sword Spirit (No detailed classification information for now)

(Level of Growth]: Commander Level

Energy Points: 180,000

Seeing this little sword spirit, Gao Xuan understood why Imperial Capital University's battle society had been swept away.

This was the first time he had seen a commander-level pet with so much energy.

Little Chi Tong's energy value was indeed terrifying. After all, as the heir of the two dragon totems, the Third Prince of Dragon Palace City who grew up eating delicacies in Dragon Palace City with its energy value at the commander level... was only 160,000.

Those ordinary overlord races had even lower energy values at the commander rank. Most of them were less than 100,000. In Gao Xuan's opinion, after this sword spirit broke through to the monarch level, its energy level could at least increase by 20 times... This was still normal. In addition, undead could also fuse with Beast Tamers like mechanical beasts... That was even higher. [If this sword spirit breaks through to the monarch level, it might pose a threat to the Ultimate Holy Dragon Beast. In order to be more stable as the champion of the National League, it looks like it's necessary to strengthen the fire resistance system.] Gao Xuan analyzed in his heart.

The main reason was that this National League was too important to him. He had to consider all unstable factors!

At the same time.

Principal Feng laughed and said, “There's no hurry, President Feng. Please confirm the surrounding situation again.”

“Little Gao, go and prepare yours.”

“Alright, Senior Feng.” After Gao Xuan finished speaking, he directly entered the Ultimate Holy Dragon Beast's body and flew into the sky.

After Gao Xuan and the Ultimate Holy Dragon Beast flew into the sky, Shi Yu spoke from below.

“By the way, aren't forbidden weapons only activated by legendary Beast Tamers?”

“Why is there a small weakened version? What do you mean?” Principal Feng glanced at Shi Yu and said, “Well... It was also developed from mechanical legends... But it's said that only Beast Tamers with awakened talent can use it. It's considered an exclusive trump card. Under normal circumstances, it's enough to deal a heavy blow to an overlord.”

“However, the restrictions are very large and are very easy to counter. Don’t look at how this forbidden weapon can heavily injure an overlord, it’s completely helpless against skills like Concealment of spatial pets. Therefore, it can only be used in specific circumstances.” “Uh,” Shi Yu said.

“Mechanics really have many tricks...”

“Don’t worry, the National League definitely won’t let us use forbidden weapons, even if it’s small,” Lu Qingyi said with a smile. “Are you confident of sniping this Gao Xuan?” she continued.

Shi Yu was stunned. He suspected that Senior Lu was holding a grudge.

Because when Senior Lu participated in the National League, she was defeated by a genius from a certain Imperial Capital University.

Although that person wasn’t Gao Xuan and it was said that he joined the tenth bureau later, this Gao Xuan was also from Imperial Capital University. “Shi Yu definitely can.”

“No problem.”

Although President Feng, Master Lin, and the others didn’t know if it would work, they were definitely closer to Shi Yu.

The National League was still the more important competition among the young Beast Tamers. Not only did it decide the education fees the association assigned to the nine major schools, but the hometown of the contestants who produced results would definitely receive a large amount of benefits.

President Feng, Master Lin, and the others were still waiting for Shi Yu to go to the National League to promote the Iron-eating Beast again.

Now, Shi Yu was the hope of the entire village.

Principal Feng coughed dryly and said, “But according to the news, the situation in this year’s National League is a little special. Gao Xuan will probably risk his life to win the championship.”

“What do you mean?” Shi Yu was stunned.

Senior Lu said, “Because the prizes for this year’s National League seem to be provided by the fourth bureau. It’s more luxurious than previous years, and it’s a batch of top mechanical resources.”

“Although in the eyes of ordinary Beast Tamers, these resources are very ordinary, in the eyes of Mechanics, those materials are all ‘supreme-grade materials’. They can modify the machinery of overlord races.”

“It can be said that the fourth bureau almost confirmed that the champion of this National League was Gao Xuan, so they were so generous to encourage Gao Xuan.”

“Of course, I feel that this reward can also motivate you...” Lu Qingyi smiled. After Shi Yu told her and White Brook about Shi Yu obtaining the Awakening Mirror, they had yet to tell anyone.

The Awakening Mirror... could also be used for mechanical materials. Shi Yu would definitely remember it.

Shi Yu was shocked. "Top-notch mechanical materials??" Shi Yu instantly felt that the Ice Dragon Snow Mountain was so hot. His body was burning!

"Uh." Beside him, Principal Feng was a little confused when he saw Shi Yu and Lu Qingyi talking about something he didn't know...

Why, Shi Yu also wanted mechanical materials??

Yes, it seemed like... Shi Yu seemed to want a mechanical beast. Previously, he even asked Dean Hao if Ancient Capital University could create overlord race machinery.

Of course, the answer was definitely no.

"If you can obtain this batch of rewards and then complete them yourself, you might be able to find a legendary Mechanic to help you create an overlord race machinery," Principal Feng said.

If it were in the past, he definitely wouldn't have encouraged Shi Yu like this.

After all, the resources that Gao Xuan had invested in the Ultimate Holy Dragon Beast were probably more than ten billion.

Mechanics were even more rich!

Such a Gao Xuan was simply invincible among his peers.

Considering this, he would definitely make Shi Yu study obediently and archeology obediently. The battle level of Ancient Capital University still couldn't compare to those top universities.

But now, the situation was special. The era had changed... Principal Feng knew that not only had Shi Yu broken through to the master level himself, but he also had "a bunch" of overlord pets.

As long as these pets broke through to the monarch level before the National League, they might be able to fight Gao Xuan.

Although Gao Xuan's Ultimate Holy Dragon Beast was specially modified and strengthened with many resources, and while its energy far exceeded other overlord races, he only had one pet, while Shi Yu had a bunch!

Even if Shi Yu's paywall was limited, if he couldn't fight one-on-one, couldn't he fight in a group?

"I understand." Shi Yu was also motivated.

However, he didn't want to find other legendary Mechanics to help build the overlord potential machinery, but... wanted to build it himself!

Mechanic Ancient Beast!!

"Well, what are the specific attributes of the materials??" Shi Yu asked curiously.

Principal Feng thought carefully and said, "It's hard to say, but from the gains and research results of the previous fourth bureau..." "The prize they'll use... It's either wind or ice." "I feel that the possibility of wind is higher." "In the future, after Gao Xuan's Ultimate Holy Dragon Beast steps into the overlord

level, choosing to use wind-element natural power as energy is a very good choice. After all, wind power is almost everywhere.”

At the side, Lu Qingyi agreed. Compared to the operation of firepower and electricity, the machinery of wind power was also pretty good. Its adaptability was stronger.

Wind-element machinery?

Shi Yu fell into deep thought. What ancient creatures were there? Wind-element?

“Sigh, it’s been more than 2000 years, but the competition between you humans is still so intense...”
Beside it, the frost dragon muttered.

Good lord, the guy was already helping them destroy the Ice River Totem, but they actually wanted his mechanical materials!

Bad person!

However, it was willing to vote for Shi Yu. What a joke. Shi Yu had contracted the heroic spirit of its Beast Tamer!!

As long as Chi Tong broke through and its heroic spirit possessed him, how could anyone among his peers defeat Shi Yu!!

“At most, just self-destruct! If you can’t use forbidden weapons, Moon Explosion will definitely work.”
Beside him, the gem cat also muttered.

Shi Yu had to become the national champion, so the materials produced by Shi Yu in the future would be easier to sell!

However, it shouldn’t be good to destroy other people’s mechanical beasts...

Union calendar, November 178

It had been more than a year and a half since Shi Yu transmigrated to this world.

Ping Cheng, First Middle School.

A bespectacled teacher was teaching a batch of students in the field.

His surname was Wang. At this moment, he was saying proudly, “A year ago, a small-scale ferocious beast gathering happened in the direction of the snow mountain.”

“At that time, your teacher, I, had once explained the legendary Icefield history to a few students under a stone statue around this anomaly.”

“Among those people are your seniors, Chen Kai, your seniors, Zhuang Yue, and the others...”

“Of course, there are also others. One of the students is very interested in this history. Under the serious guidance of your teacher, I, he walked on an archeological path. That’s right, this person is the top scholar of the previous Ancient Capital vocation assessment, Shi Yu! The pride of our Ping Cheng!”

“After that, he didn’t disappoint my expectations and directly cracked the Ice Dragon Ruins.”

“It’s all thanks to him. Today, our Icefield City can finally completely resolve the hidden danger of the beast tide brought by the Ice Dragon Snow Mountain for more than 2000 years. We finally have an explanation for the Beast Tamers and citizens who died in the beast tide 11 years ago.”

Below, many students looked at Teacher Wang with stars in their eyes and said, “Teacher, can you call Senior Shi Yu to give us a lesson?” Teacher Wang : “...”

Basically... impossible. He had only met Shi Yu once and said a few more words. He wiped his sweat and said, “Shi Yu is very busy. Don’t worry about him. Why don’t you work hard to improve yourselves and go to Ancient Capital University to get to know Shi Yu yourself? The men can be brothers, and the women can be his girlfriend. I heard that he’s still single.”

“Alright, the countdown is about to begin. Wait to see the beautiful scenery on the ice dragon snow mountain!”

At this moment, the entertainment activities everywhere in Ping Cheng had temporarily stopped. Countless Beast Tamers stared in the direction of the Ice Dragon Snow Mountain. The first Beast Tamer that Shi Yu defeated was Chen Kai, an outstanding student, was there. There was the pharmacy physician who had sold supplements to Shi Yu many times, and also President Feng’s nephew, who was a master candidate...

The presidents of the associations and many masters of the other eight districts and counties in Icefield City also arrived near the Ice Dragon Snow Mountain and stared at the highest snow mountain built with the Ice Dragon Ruins.

A long time later...

As the alarm sounded, many people in Ping Cheng District saw the sky suddenly turn red. The clouds on the horizon were red, as if they were on fire.

The sky was dyed red by the gathering of the power of the sun, as if there was a volcano erupting below, dazzling.

In an instant, many people felt the temperature around them suddenly increase. In the next moment, they heard a boom, and dazzling golden light blossomed in the direction of the Ice Dragon Snow Mountain in the distance.

Right on the heels of that, the golden light kept expanding. With a world-shaking bang, the rolling energy tide rose into the sky like a volcano eruption, blooming in the sky in a huge pattern that could be seen clearly in several cities around the Ice Dragon Snow Mountain

The pattern was like a dazzling red rose. The moment it bloomed in the sky, the energy it erupted with quickly swept through the entire Ice Dragon Ruins. Moreover, the heat wave spread out and melted countless amounts of ice and snow...

Ice Dragon Snow Mountain.

In a short moment, this place had already become the Ice Fire Mountain. The periphery was still filled with a huge snowstorm, but the core area of the Ice River Totem seal had already become a sea of fire.

The snow mountain turned into a flaming mountain that connected to the sun, isolating the ice and snow energy of the outside world. It directly created a strange scene of ice and fire coexisting

In the distance, in the sky, a flying dragon airship was flying side by side with a frost dragon.

“Holy shit.”

Seeing this scene, the frost dragon kept cursing in its heart as it looked at the flying dragon warship in disbelief.

Because the thing that easily rewrote the snow mountain environment just now was launched by this big guy that was far from even overlord level.

However, the power of this attack made the frost dragon feel that it was troublesome if they were to fight before it broke through!

Even when Emperor Shi was at the master level, he couldn't use such a powerful skill!

“Holy shit, holy shit, what's going on? Isn't he just a master like you?” The frost dragon said telepathically to Shi Yu in shock.

“How can you defeat this!!”

“I feel that the power of that thing's explosion is even stronger than the power in Mu Huiyin's body.”

“Little Chi Tong will be blown up!”

“Moreover, this move is actually continuously attracting the power of the sun... I'm afraid that in a few decades, the entire snow mountain will completely disappear and become a volcano!”

Shi Yu :”...”

He gave a speechless look to the Ice Dragon.

“Didn't you listen carefully just now? This thing is a one-time use, and the preparation time is very long. The use restrictions are also large. Most importantly, it's definitely forbidden in the competition.”

He wondered if the power of self-destruction could catch up to this after Baby Ginseng reached the monarch level... Shi Yu felt that it was a little difficult.

After all, the Sun Rose could directly trigger the power of the sun, while Baby Ginseng only relied on the power of the moonlight. As for the moonlight, it also came from the sun, and its level was lower.

Eh... Since the moonlight came from the sun, he wondered if Baby Ginseng's Moon Explosion level could directly trigger the power of the sun to coexist with the power of the moon!

“Ah, right.” After Shi Yu finished speaking, Ice Dragon reacted.

Then, it looked at the sea of fire in front of it in shock.

However, it was still impressive.

In the first totem battle, the lowest threshold of Emperor Shi's elite army was also at the master level.

If those masters could display such power, then the first totem battle wouldn't have taken so long.

They would have expelled the totems and overlords into the barren area in minutes.

Ice Dragon had finally learned something after seeing Shi Yu and the others brag about forbidden weapons for so long.

This was only a small forbidden weapon used by masters.

Then, how strong would a normal forbidden weapon used by a legend be?

Ice Dragon shuddered. What strange things had humans developed?

It really wanted to let Emperor Shi and Mu Huiyin take a look. Unfortunately... there was no chance...

"Mission completed."

After rewriting the geographical environment of the Ice Dragon Snow Mountain in one hit, Gao Xuan walked out of the nutritional cabin calmly.

But he wasn't handsome for more than three seconds.

Then, his arm trembled as he took out supplement pills and medicine from his pocket and popped them. It looked like he had consumed a lot of energy.

Shi Yu : "..."

Damn, even a Mechanic had to take supplements.

Chapter 267 Spring of Baby Ginseng

As the Ice Dragon Snow Mountain completely turned into the Ice Fire Snow Mountain, the beast tide incident that had troubled Icefield City for thousands of years was finally resolved from the source.

Gao Xuan didn't choose to stay longer in Icefield City.

After completing his mission, he bade farewell and left.

For him, choosing to stay and wait for the gratitude of the various higher-ups in Icefield City was not worth sacrificing his return to the research institute to upgrade his machinery.

Next, Principal Feng, Lu Qingyi, and the others didn't choose to stay longer in Ping Cheng. Only the locals of Icefield City were left behind to keep themselves busy.

As for the frost dragon, it naturally followed Shi Yu.

However, before going to Dragon Palace City, Ice Dragon had something very important to do.

This was also what Ice Dragon requested.

It wanted to know the history of the outside world in the two thousand years it had been sleeping and suppressing the Ice River Totem.

Gao Xuan's Ultimate Holy Dragon Beast and the Sun Rose they shot really shocked the ice dragon.

It urgently wanted to know how much change had happened in the outside world.

In the end, this science mission was snatched away by the gem cat.

It was mainly to increase the relationship between the sisters, and it had nothing to do with anything else.

With a huge pile of books and a pile of historical movies, the gem cat and Ice Dragon entered the Mu Huiyin ruins brought by Ice Dragon and started the drama pursuit of the two house girls.

In the Ice Dragon Ruins.

Ice Dragon's shocked voice came from time to time.

"Holy shit, this Wu Emperor is something. He actually developed the Fusion Talent to this extent?"

"Others can only fuse with one pet at a time, but he can fuse with many?"

"So many advantages of different races have been inherited by one person, how did it lose to that Yun An?"

"You're saying that this empress is Mu Huiyin's younger sister?"

"Oh my god, a hybrid can also become the ruler of Dong Huang?"

"Nine totem-level Phoenix Race pets, impressive. What, the Phoenix Race died?"

"Holy shit, this Dragon Emperor actually overthrew the previous Dragon God of Dragon Palace City with the new Dragon God?"

"What, he just has an ordinary strengthening talent?"

"But its luck is heaven-defying. It fell off the cliff when it was young and obtained the recognition of the Dragon Race's Mythical Ruins? It's fake, right!"

"Impressive. This Space Emperor is so impressive. It actually established a spatial teleportation array that covered the entire planet!"

"Even Emperor Shi couldn't!"

"This Lin Feng became a legendary Beast Tamer at the age of 26?"

"Damn, he obtained the blessings of the World Tree of Initiation? I've heard of it. Isn't that the embodiment of the planet's will?"

"It actually came into contact with humans?"

"Was the Mechanic class invented by this big boss called Shen Yuan?"

“Ah, no? What, that country with the Condor as the totem? They separated from the totem and established their country with machinery?”

“Hurry, hurry, hurry, find more. Don’t just talk about Dong Huang’s history. I also want to see the history of other places... For example, that damn Dragon Hunter...”

...

In the outside world.

Shi Yu was still meditating leisurely, accompanying Eleven and the others in training.

He had already understood the history that the gem cat was telling the Ice Dragon. He couldn’t be bothered to revise it with them again.

The things recorded in this textbook were too shallow. It barely covered much of his own country, let alone others.

If there was a chance, Shi Yu wanted to blow up the ruins of other countries and explore it himself.

However, training pets was still more important at the moment. After a period of time.

To be honest, the effect of controlling strength to undergo various extreme training was indeed pretty good. It had only been less than half a month.

Buggy, Baby Ginseng, and Chi Tong’s will had all been tempered to the second stage.

Shi Yu divided the pet’s will into five stages according to the success rate of teaching super skills displayed in the index.

The first stage was that the success rate of teaching was “extremely low”. The second stage was that the success rate was “low”.

Third and fourth naturally corresponded to “medium” and “high”.

en

In short, although they were still very far from the overlord’s will, Shi Yu was still relatively satisfied that they could be effective so quickly.

However, although he was satisfied, Shi Yu still felt a little anxious.

At this moment, Shi Yu was quietly waiting for the Dragon Palace banquet. After the Dragon Palace banquet, followed by the National League, he felt that the time was quite tight.

It had only been more than a month since the National League.

In such a short period of time, Shi Yu did not even have 1% hope that the four pets would master the overlord will.

Initially, Shi Yu wanted them to master the overlord will before breaking through to the monarch level.

However, if they didn’t break through to the monarch level, they definitely couldn’t fight the National League, and there would be no mechanical materials. Therefore, Shi Yu was currently struggling

internally, wondering if he should let one guy break through first. "I wonder if Eleven's super skill teaching success rate can reach 'medium' in a month. If it can, let it break through first."

As for the new pet that he would contract in Dragon Palace City, Shi Yu didn't have much anticipation. He didn't think that it could form battle power in the short term.

Because he estimated that he wouldn't directly contract a monarch-level pet.

Now, his favorite pet was a pet with a low growth level, a high race level, and best if it had the will of an overlord. It was best if it had a cooler appearance.

As he thought about it, Shi Yu felt that something was wrong. Why was this contracted pet so similar to finding a partner? It had to be young and had a good background.

He wanted the other party to work hard and look good...

Usually, there were such high requirements... His own situation was very worrying.

Shi Yu : " ... "

However, Shi Yu felt that he should be qualified to talk about conditions.

"Shi Yu..."

"Yes."

In the room, Shi Yu was drinking ice tea in disappointment and was resting for a short period of time. Suddenly, a familiar voice came from the outside.

A moment later, President Feng of the Ping Cheng Association came to visit Shi Yu with a smile.

"Uncle Feng, what's wrong?" In the living room, after receiving the other party in, Shi Yu also brought him a cup of fruit tea and asked him what was wrong.

"Good thing!" President Feng smiled.

"What good thing?" Shi Yu was amused.

"Now, the safety hazards of the Ice Dragon Snow Mountain have been completely eliminated."

"As the big contributor to cracking the Ice Dragon Ruins, what do you think is a good thing?"

"Actually, we started discussing it very early. After the joint discussion of the presidents of the nine associations in our Icefield City, we decided to give you some rewards!"

"Although it might not be worth much to you, it's still my intention. You know that our Icefield City isn't very rich."

President Feng smiled bitterly.

In the end, it was still too late. If he had expressed it earlier, Shi Yu might have been able to use it. However, who would have expected that in just a few months, Shi Yu's realm had left the level-two city?

Now, as the genius with the greatest potential in the third and eleventh bureau, and even the reserve member of the first bureau, Shi Yu might not necessarily lack anything.

However, Icefield City couldn't say nothing.

After all, it was rare for a super genius to appear in Icefield City. Even if Shi Yu didn't develop and settle in Icefield City in the future, he had to leave a good impression on Shi Yu.

"Please go ahead." Shi Yu didn't refuse anyone and didn't say any typical polite words.

Under normal circumstances, it was the other party who would feel bad if he rejected the offer.

resoul

"Actually, the main thing is a resource. I won't talk about the other honors and bonuses in detail." President Feng smiled and said,

"Do you still remember the Evolution Holy Spring I brought you to back then?"

"Yes." Shi Yu nodded.

"The guardian Ancient Tree Monarch over there is relatively special. Generally speaking, the Ancient Tree of Life race only has one super skill, 'Life Gift'."

Shi Yu continued to nod.

"However, because of some fortuitous encounters, the guardian monarch of our Icefield City, the Ancient Tree of Life, also mastered an additional super skill, Plant Control!"

"This actually originates from a wood-element level-eight resource, the Seed of Nature. The Seed of Nature is a very special resource, and it's also a strengthening-type resource. It can increase the affinity between plant-type life forms that absorb its power and natural power."

"The Ancient Tree King of Life awakened an additional plant control skill because it absorbed the Nature Seed. At the same time, its own strength has become much stronger than other pets of its own race. In addition, it has always been protecting the Evolution Holy Spring. Its battle power should be considered strong among monarchs."

"As for the Seed of Nature, it's actually a renewable resource. As long as it's placed in a place with rich natural power, it will emit energy again after dozens to hundreds of years... Therefore, this resource has always been preserved in Icefield City. Although it hasn't recovered to the level of a level-eight resource, the advantage is that it can be reborn!"

"To put it simply, in the city, I've decided to give this Nature Seed to you as a reward. This is a quasi-eight-level resource. It can almost 100% allow plant-type creatures with good talent potential to awaken super skill plant control and increase their understanding of natural power."

"This is also the most valuable resource in Icefield City. I hope you don't mind."

"Our Icefield City definitely doesn't have those legendary resources," President Feng said with a smile.

Shi Yu was slightly stunned and exclaimed in his heart.

This was the first super skill he copied, and he still was unable to teach it and was troubling over it. Now support had come all of a sudden?

Although Shi Yu wanted to say that there was no need, he was just doing his duty, but... it was too much! He was giving him a level-eight resource!

“No, no, don’t worry about it! Icefield City will always be my home. Ping Cheng too.”

The second day. The Nature Seed was sent by President Feng.

At this moment, Shi Yu and the others’ cultivation was just about over.

Shi Yu had just perfected Eleven, Baby Ginseng, and Chi Tong’s clone skills.

The Seed of Nature came at the right time. It could be used for Baby Ginseng’s next stage of training. “Yi, Yi! (Shi Yu, Shi Yu, this is... Could this be...)”

In the ruins space, Baby Ginseng widened its green eyes and looked at the green seed in Shi Yu’s hand eagerly.

It couldn’t help but drool. “Yi! (Nature Seed!)”

Baby Ginseng’s eyes lit up.

Having studied the Feeding Department, it knew a lot of high-level resources. It could tell at a glance what was in Shi Yu’s hand.

“Yeah.”

Shi Yu smiled and weighed the seed in his hand. “Do you want it?”

“Yi!!!”

Baby Ginseng drooled and nodded crazily. Shi Yu was speechless.

“Then I’ll give it to you.”

“However, after learning plant control, it will probably be easier to create nutritional supplements, Time Fruits, and other resources. You have to work hard for the gift to Dragon Palace City this time.”

“If the quality level isn’t good, we’ll make up for it with numbers.”

After Shi Yu finished speaking, he threw the Nature Seed to Baby Ginseng. When Baby Ginseng heard Shi Yu’s words, its body stiffened, but it still happily took the Nature Seed.

It nodded heavily with a pleasantly surprised expression. Its hands emitted a green natural light as it held the seed in midair.

“Yi... Yi... Yi... Yi... Yi...!”

Holding the Nature Seed, Baby Ginseng cried out excitedly. It immediately tried to absorb the power on the spot.

Buzz!

The next moment, the power of nature bloomed.

Green light instantly lingered around Baby Ginseng's body, and boundless vitality instantly erupted from its body.

Its aura flowed out and quickly changed the environment here.

Shi Yu and the others were currently in a very ordinary barren land. There were no plants, but at this moment, endless vitality immediately spread from the soil.

Almost instantly, as far as the eye could see, the ground turned into a verdant green. The tender green grass stretched all the way, covering all the soil in sight. A seed, combined with the power of the ginseng baby, contained natural plant energy that was comparable to a forest filled with life!

A moment later, with a boom, the ground cracked. Under the lingering green light, many trees quickly grew out of the ground. The trees seemed to have been uprooted, forming a forest in an instant.

Countless dazzling green fruits bloomed from the trees. Bright flowers emitted fragrance as they bloomed. Baby Ginseng clones separated from the tree trunks to reveal their figures... Skill: Plant Control

(Skill Level): Super level

< Introduction > It's a wood-element skill. It has the absolute right to control natural plants. It can control plants, control the growth of plants, and increase the quality of plants. It is the king of plants.

Unsurprisingly, because Baby Ginseng had a huge amount of life force and basic moves like transcendent lushness, it awakened and mastered plant control the moment it came into contact with the Nature Seed! Be it nutritional supplements, energy fruits, time fruits, fragrance, or clones, at this moment, they could rely on the plants to be born in the dense sea of trees it instantly created!

"Yi! (Amazing!)"

At this moment, Baby Ginseng was immersed in the power of nature and was extremely excited.

As expected of it...

At that moment.

The shocking change in the power of nature naturally attracted the attention of Eleven, Buggy, and Little Chi Tong, who were training elsewhere.

Soon, they rushed over at a very fast speed. Then, they saw the baby ginseng in the sea of trees that looked like a natural god and instantly fell into deep thought.

"Wuu?"

"Wu?"

"Mi?"

Eleven, Buggy, and Chi Tong quickly looked at Shi Yu, suspecting that Shi Yu had given Baby Ginseng special treatment.

Otherwise, why would Baby Ginseng suddenly become stronger?

It had clearly just strengthened ridiculously through evolution, and now this was very exaggerated.

“Ah, this.”

Shi Yu revealed an innocent expression. It wasn't his fault. It was purely because Icefield City didn't give them the resources.

Icefield City would have to take the blame for this.

At the same time, Baby Ginseng, who was standing in the sea of trees and controlling countless plants, opened its eyes.

“Yi... (Oh no, the energy level is too high. I feel that I can't suppress the primeval power in my body anymore.)”

It was almost impossible to suppress the power of the breakthrough.

Eleven, Buggy, Chi Tong: (m)

Hold it in!

Oh, no, then release it and create more nutritional fruits!!

They approached Baby Ginseng together. Baby Ginseng:?? Don't come over!

Chapter 268 Birth of a King

Half a month later.

The date approached the Dragon Palace banquet.

At this moment, in Dong Huang, the list of people who were going to Dragon Palace City to communicate this year was finally confirmed. There were a total of 12 people in the younger generation.

They were all young talents under the age of 30 in Dong Huang. Among them, there were even some Beast Tamers whose spatial levels had reached level five and six.

For example, White Brook, Shi Yu, Zou Tianwang...

“Then I'll see you in Binhai City the day after tomorrow.”

Ping Cheng In the villa, Shi Yu was holding his cell phone and talking to the beast-eared girl.

The two of them were going to Dragon Palace City. When the time came, they naturally had to meet in Binhai City.

This time, there was a big boss leading the team in Binhai City. Otherwise, Shi Yu and the others alone weren't qualified to step foot into the ocean. “Alright, Eh, why do I hear a woman's voice? Who's crying?”

On the other side of the phone, White Brook just nodded when her ears suddenly twitched. Was a girl with Shi Yu?

“...It’s Senior Lin. She’s activating Eleven’s bloodline.”

“It’s been almost a month. I wonder when it can be activated.” Shi Yu sighed.

Although Zhong Xuan said that it might take a while, this was also too long.

In the past few days, Eleven had raised Senior Lin’s Iron-eating Beast’s hardening level to perfection, but its bloodline had yet to be activated!

Shi Yu was already considering if it was because Senior Panda was too lousy...

It was time to find a stepmother for Eleven.

“I see. Continue, I’m hanging up.” After White Brook said a few words, she hung up. On Ping Cheng, Shi Yu had just hung up when he suddenly heard a bang.

“Wuu!!!”

Another woman exclaimed.

Shi Yu was stunned. He quickly ran to the other side of the wall and saw the panda senior looking at Eleven in shock.

“What’s wrong?” Shi Yu looked at the messy room, the broken floor and ceiling, and the panda senior that seemed to have been sent flying. He was immediately stunned.

But soon, Shi Yu understood.

He looked at Eleven, who was in the center of the chaotic area and was subconsciously emitting deterrence. He was immediately stunned.

“It awakened!!!” Lin Xiuzhu shouted in surprise.

It had definitely awakened!

Lin Xiuzhu had a feeling that good things came after suffering.

It was too difficult.

“I think so. Senior, you’re not injured, right?” Shi Yu asked.

“I’m fine, look at Eleven!”

“Alright.”

At this moment, Shi Yu looked at Eleven again.

In the index, Eleven’s energy level was slowly increasing. As expected, the awakening of his bloodline could also increase his energy level.

After nearly a month of training and nurturing, Eleven’s energy level had already exceeded 200,000.

Although it was inferior to a ginseng baby, it had successfully broken the traditional understanding limit.

“Wuu...”

In the room, Little Eleven lowered its head and stood on the floor as if it was unconscious.

Under its deterrence, cracks instantly appeared on the floor and ceiling.

Shi Yu and Lin Xiuzhu quietly watched Eleven. A moment later, the deterrence on Eleven gradually retracted and wrapped around its body, as if forming transparent flames.

“Eleven.”

Shi Yu called out. Eleven slowly raised its head and revealed its aggrieved big eyes. “Wuu.”

It looked at the surrounding environment and the deterrence on its body disappeared. It looked at Lin Xiuzhu and Shi Yu apologetically and immediately covered its mouth with tears to apologize. It didn't look like it had just awakened and become the Panda King.

This, this, this...

It didn't know why, but just now, it felt the deterrence power in its body spreading out uncontrollably.

“It's alright, it's alright ~” Lin Xiuzhu and Shi Yu said in unison. After saying that, they carefully observed Eleven's changes.

“Is this considered awakening a royal bloodline?” Lin Xiuzhu slowly got up, crossed his arms, and asked curiously. He did feel that Eleven was different, but he couldn't put his finger on it.

“It's already awakened.”

Shi Yu couldn't help but smile. He walked in front of Eleven, grabbed the back of its nape, and pulled it up.

Under the scan of the skill index, Shi Yu could already see the strongest evidence of Eleven awakening the royal bloodline!

Skill: Deterrence

Status: Can be taught

Originally, because of the racial restrictions, transcendent was the upper limit of Eleven's deterrence level, but now, it was directly broken!

This was the advantage of having a royal bloodline!

Not only could deterrence be awakened at the Awakening level, but it could also turn deterrence into a racial skill, driving the growth level!

The upper limit of the deterrence skill proficiency would naturally be raised to the Dao Proficiency.

“There we go!!”

In the blink of an eye.

Shi Yu, who was in a good mood, suddenly made another shocking discovery. He couldn't help but feel even happier.

Skill: Inner Power

Status: Can be taught

(Teaching success rate): Medium

It was unknown if it was the effect of the training during this period or the effect of Eleven awakening the royal bloodline this time. Its super skill teaching success rate directly reached medium!

It once again exceeded Buggy, Baby Ginseng, and Chi Tong by a large level.

It had reached the stage of willpower of the frost dragon and the gem cat.

Shi Yu recalled the race ability of the Iron-eating Beast King...

ca

According to Zhong Xuan, it could allow the Iron-eating Beast to increase its physique and physical fitness more efficiently after recovering from its near-death state. In short, it could increase the benefits of life-and-death battles and life-and-death training.

It seemed that... the overlord's will also needed to be tempered in life and death?

In other words, the racial talent of the Iron-eating Beast King would increase the mastery of the overlord's will?

Shi Yu took a deep breath and felt that he had discovered something extraordinary. He was also thinking if he should let Eleven know about this...

He was afraid that Eleven would take it too hard...

In short, the success rate of super skill teaching was medium.

This was also the highest level of willpower that Shi Yu had seen at the moment.

As for pets with "high" success rates for super skills, Shi Yu had never seen one with overlord's will.

Of course, it was also possible that he had seen it before, but he didn't use the skill index to judge.

For example, at that time, Shi Yu didn't notice if its will stage was high or medium.

It was mainly because in the index, there were no super skills that could be used to detect the will of water-type pets.

This also reminded Shi Yu that before going to Dragon Palace City, he had to replicate a water-element super skill first. Otherwise, if he encountered water-type pets and used Eleven and the others' super skills to test them, it would directly show that he couldn't teach them, not the success rate of teaching

In that case, there was no way to find pets with overlord will at all.

He already had a target to steal from. It was the Tyrannical Sea Legend who was about to lead these young people to Dragon Palace City.

Shi Yu had already asked around. At that time, they would ride the Tyrant Sea Legend's water-type pet into the sea. At that time, there would be plenty of opportunities to touch powerful water-type overlords. There would definitely be people who could choose water-type skills.

"Then, isn't Eleven very strong now?"

Seeing Shi Yu holding Eleven and smiling foolishly, Lin Xiuzhu asked in anticipation.

"Not yet."

Eleven: Wu?

Wasn't it strong?

Why did it feel that it was strong now?

"But when it breaks through to the monarch level, it will definitely be very strong."

"I've decided to let Eleven break through to the monarch level tomorrow."

Lin Xiuzhu: "Huh???"

Lin Xiuzhu's beautiful eyes widened. "Aren't you going to practice what overlord's will you're talking about?"

"You finally have a conscience?"

After coming to the Yu Family for so long, Lin Xiuzhu naturally knew how Shi Yu was training his pets recently. However, she only thought that Shi Yu was purely training his pet's will. She didn't know that super skills could just be added as points.

But no matter what, Shi Yu's training method made Lin Xiuzhu whimper.

Eleven was still a child.

Using the deep sea pressure to strengthen its willpower, soaking in magma to train its willpower, falling from a height of 10,000 meters to train its willpower... It was too cruel. Although she didn't understand... why Eleven was happy.

Eleven: Wu wu wu??

On the other side, when it heard that Shi Yu could let it break through, Eleven's eyes flashed. Really?

Could it really break through?

Shi Yu had already made them suppress their breakthrough power for a month. Even the ginseng baby with an energy value exceeding 200,000 was holding it in. Eleven didn't expect Shi Yu to actually plan to let it break through first.

Suddenly.

Eleven widened its eyes.

“Wuu!”

It waved its arms excitedly.

Could it be that it had already mastered the overlord’s will???

Roar, roar, roar.

Hahahaha, as expected of it.

Panda King Eleven let out an excited roar!

“Not yet.”

Shi Yu mercilessly threw Eleven down, leaving Eleven sitting on the ground in confusion.

“However, I think the overlord will is too far away. That’s the rare ability needed for monarchs to break through to the overlord level. It’s a little unrealistic for you to master it at the commander level. It might waste a lot of time.”

“Most importantly, you guys haven’t broken through for a long time. My meditation efficiency has been too low recently.”

“Therefore, I’ve decided that after your willpower reaches a certain standard, you can break through to the monarch level.” “Overlord’s Will... Continue training after the monarch level.”

Shi Yu set this standard at the medium success rate of super skills teaching.

Even the gem cat, who had participated in the Undead War, and the old witch, who had participated in the totem battle like the frost dragon, didn’t have the will to be an overlord. Shi Yu thought about it carefully and felt that Eleven and the others would probably be in trouble in the short term.

In that case, he felt that medium will was enough.

The overlord could wait until it reached the monarch level before grinding it.

It might still be lacking to rely on this kind of simulation training.

In any case, he already planned to explore a few more domestic ruins to play with after the National League. At that time, he shouldn’t lack natural environments for Eleven and the others to train in.

At the moment, the National League and meditation speed were more important. “Wuuu!!”

Eleven didn’t care what Shi Yu thought. It was already very happy that it could break through to the monarch level. “Tomorrow? What time?” Lin Xiuzhu asked.

“I’ll call my father over too. How about letting the two monarch-level Nine Li Battle Beast fight?” she suggested.

“Uh.” Shi Yu smiled awkwardly.

Senior Panda, stop scamming...

Had she not seen what Master Qu Jie and the Ox-Headed Beast King were like?

Shi Yu quickly said, "Forget about the battle. It's just a breakthrough. Do you want to see it too?"

"Of course!" Lin Xiuzhu rubbed her temples and said, "I massaged for a month with my own hands. I'm so tired. No matter what, you have to let me see the results."

"Forget about dad, I'll come myself."

"Alright." Shi Yu smiled. As for why tomorrow and not today...

He planned to maximize Eleven's deterrence skill before letting it break through.

With the most perfect Panda King deterrence, it would break through to the monarch level.

It would take another day to achieve this.

"By the way, Senior, don't rush your Iron-eating Beast to evolve first. The hardening level can still be raised," Shi Yu reminded.

"We'll continue after we return from Dragon Palace City." "Alright." Lin Xiuzhu nodded.

At this moment, Lin Xiuzhu no longer worried about the money for the evolution materials. Apart from the fact that the breeding base was growing bigger and bigger, and because she was now the exclusive feeder of the Iron-eating Beast Corps, the evolution materials of the Iron-eating Beasts could definitely be reimbursed from the military expenses.

After a month, under the enhancement of the metal-element nurturing method, Eleven finally awakened the Panda King bloodline. That day, after sending Lin Xiuzhu away, Shi Yu pulled Eleven to the ruins space and worked hard to add points.

Baby Ginseng, who was watching by the side, trembled with fear.

Even when Shi Yu added points to its time fruit... he wasn't this violent.

"As long as I don't die, I'll keep adding points until I almost die!" "Baby Ginseng, heal me!"

It was mainly because there was not enough time. He had to go to Dragon Palace City the day after tomorrow. In addition, Shi Yu's physique had also improved greatly recently.

After Shi Yu broke through to the master level, the upper limit of his physique would definitely increase again. As he maxed out the Time Fruit and three times for the clone skill, there were a total of four high-level skills. Shi Yu's physique had more or less broken through. Now that he had added some deterrence, it was naturally faster.

Moreover, after Baby Ginseng learned plant control, it was easier to absorb both sweet gas and nutrients.

The next day.

Eleven's deterrence was maxed out again. This was the first time Shi Yu and the others had seen deterrence at the level of Dao Proficiency. "Wuu!!!!"

It waved its arms excitedly.

Could it be that it had already mastered the overlord's will???

Roar, roar, roar.

Hahahaha, as expected of it.

Panda King Eleven let out an excited roar!

"Not yet."

Shi Yu mercilessly threw Eleven down, leaving Eleven sitting on the ground in confusion.

"However, I think the overlord will is too far away. That's the rare ability needed for monarchs to break through to the overlord level. It's a little unrealistic for you to master it at the commander level. It might waste a lot of time."

"Most importantly, you guys haven't broken through for a long time. My meditation efficiency has been too low recently."

"Therefore, I've decided that after your willpower reaches a certain standard, you can break through to the monarch level."

"Overlord's Will... Continue training after the monarch level."

Shi Yu set this standard at the medium success rate of super skills teaching.

Even the gem cat, who had participated in the Undead War, and the old witch, who had participated in the totem battle like the frost dragon, didn't have the will to be an overlord. Shi Yu thought about it carefully and felt that Eleven and the others would probably be in trouble in the short term.

In that case, he felt that medium will was enough.

The overlord could wait until it reached the monarch level before grinding it.

ITIO

It might still be lacking to rely on this kind of simulation training.

In any case, he already planned to explore a few more domestic ruins to play with after the National League. At that time, he shouldn't lack natural environments for Eleven and the others to train in.

At the moment, the National League and meditation speed were more important.

"Wuuu!!"

Eleven didn't care what Shi Yu thought. It was already very happy that it could break through to the monarch level.

"Tomorrow? What time?" Lin Xiuzhu asked.

“I’ll call my father over too. How about letting the two monarch-level Nine Li Battle Beast fight?” she suggested. “Uh.” Shi Yu smiled awkwardly.

Senior Panda, stop scamming...

Had she not seen what Master Qu Jie and the Ox-Headed Beast King were like?

Shi Yu quickly said, “Forget about the battle. It’s just a breakthrough. Do you want to see it too?”

“Of course!” Lin Xiuzhu rubbed her temples and said, “I massaged for a month with my own hands. I’m so tired. No matter what, you have to let me see the results.”

“Forget about dad, I’ll come myself.”

“Alright.” Shi Yu smiled. As for why tomorrow and not today...

He planned to maximize Eleven’s deterrence skill before letting it break through.

With the most perfect Panda King deterrence, it would break through to the monarch level.

It would take another day to achieve this.

“By the way, Senior, don’t rush your Iron-eating Beast to evolve first. The hardening level can still be raised,” Shi Yu reminded.

“We’ll continue after we return from Dragon Palace City.”

“Alright.” Lin Xiuzhu nodded.

At this moment, Lin Xiuzhu no longer worried about the money for the evolution materials.

Apart from the fact that the breeding base was growing bigger and bigger, and because she was now the exclusive feeder of the Iron-eating Beast Corps, the evolution materials of the Iron-eating Beasts could definitely be reimbursed from the military expenses.

After a month, under the enhancement of the metal-element nurturing method, Eleven finally awakened the Panda King bloodline.

That day, after sending Lin Xiuzhu away, Shi Yu pulled Eleven to the ruins space and worked hard to add points. Baby Ginseng, who was watching by the side, trembled with fear.

Even when Shi Yu added points to its time fruit... he wasn’t this violent.

“As long as I don’t die, I’ll keep adding points until I almost die!”

“Baby Ginseng, heal me!”

It was mainly because there was not enough time. He had to go to Dragon Palace City the day after tomorrow. In addition, Shi Yu’s physique had also improved greatly recently.

After Shi Yu broke through to the master level, the upper limit of his physique would definitely increase again. As he maxed out the Time Fruit and three times for the clone skill, there were a total of four high-level skills. Shi Yu’s physique had more or less broken through. Now that he had added some deterrence, it was naturally faster.

Moreover, after Baby Ginseng learned plant control, it was easier to absorb both sweet gas and nutrients.

The next day.

Eleven's deterrence was maxed out again.

This was the first time Shi Yu and the others had seen deterrence at the level of Dao Proficiency.

"Wuu!!!!"

In the ruins space, Eleven was completely high. After Baby Ginseng's Epic level strengthened, it finally strengthened a little again.

After Eleven completed its transformation, deterrence seemed to have become instinct. There was no need to consume energy at all. Every move and gaze seemed to contain the power of deterrence. Although the strength was a little small, it appeared ridiculous when combined with the shrunken form of 0.3 meters.

Super small and fierce.

Eleven: (¥'-c'). Howl.

"This is max-level deterrence."

At the same time, after Eleven absorbed the huge experience of max-level deterrence, Shi Yu quickly sensed the new effect and new usage of max-level deterrence through his mental connection.

He looked at Eleven, who was running to deter Buggy, Baby Ginseng, and Chi Tong, and touched his chin.

Boom!!!

As the four pets faced off, the clouds in the ground and sky undoubtedly cracked again. They didn't even use other skills. Under the influence of Eleven's deterrence, the sky of the ruins was already filled with thunder and black lightning "Yi!!" "Wu!!!" "Mi!!!"

Buggy, Baby Ginseng, and Chi Tong were fighting one against three. They gritted their teeth. It was also very difficult for their Normal State to defeat Eleven's current deterrence, but this was not the greatest change in deterrence.

The greatest change was that max-level deterrence had gradually gained self-awareness. Even if it left the user, it could still control the strength like the embodiment of will. It had a set of activated rules. In addition, it was not impossible to imprint it in the enemy's spirit and bloodline.

It could permanently cause the enemy who lost to it to have inner demons. When they fought again, it was almost impossible for them to have the heart to resist. Moreover, it could imprint deterrence in the enemy's bloodline, making the descendants of the enemy fear the user and even their race. This deterrence at the genetic bloodline level was basically the same as when insects encountered birds, and the fear when rats encountered cats. It was a race's deeper fear of another race.

“It’s very suitable to be used in racial battles like the totem battle,” Shi Yu thought to himself as he looked at the three little ones, who were facing Eleven with flushed faces.

That day, Senior Lin Xiuzhu arrived as promised.

In the ruins space, Baby Ginseng, Buggy, and Chi Tong hugged their fruits and looked at Eleven, who was preparing to break through, with tears in their eyes. They were envious.

It wasn’t that they were envious that Eleven could break through. After all, they could break through at any time. Instead, they were envious that its will level had improved again, one level higher than theirs and one step closer to the overlord’s will.

According to this, they felt that it was very difficult for them to defeat the leader.

At that time, Eleven might be the first pet that could add points to super skills!

The throne in the team was unshakable.

“I told you to work harder normally. You’ll definitely gain something if you work hard. The gains from your previous hard work weren’t very obvious, but now you know its importance, right?”

Shi Yu smiled and fed his pets this enticing dream daily.

However, Shi Yu also knew that it wasn’t that they didn’t work hard, but that the requirements for the overlord’s will were too high.

Under Eleven’s lead, they had already been very hardworking previously.

For example, Buggy, who followed the will of the leader, was definitely not inferior to pets of the same age.

For example, Baby Ginseng was very hardworking in both battle and learning because it wanted to change its fate as a supplement.

As for Chi Tong, Shi Yu felt that perhaps it was better not to let a big boss lead the team to farm experience in the subsequent levels of the Spirit Release. If Chi Tong fought personally, it might be able to improve itself better.

As the heroic spirit of General Mu Huiyin, its willpower potential wouldn’t be bad. As long as it passed her infancy, it believed that it could quickly grow into an independent female general.

In short, all they lacked was time. “Yi -” “Wu ~” “Mi “

The three pets shook their heads, indicating that they knew.

“They’re all so cute.” Lin Xiuzhu, who followed Shi Yu in, smiled.

“By the way, why do you always contract cute pets? When will you contract an impressive and domineering pet?” Lin Xiuzhu asked.

“After Eleven, Buggy, and Chi Tong transform, they’re all pretty impressive and domineering. But normally, they’re usually more cute and eye-catching,” Shi Yu said.

Baby Ginseng: "What about me? Do you think I'm domineering!" "Wuu!" Everyone's attention was attracted by Eleven's domineering howl.

After resting for a period of time and eating a pile of nutritional fruits to replenish his energy, Eleven was already prepared to welcome a breakthrough in its optimal state!

On the arena, as Shi Yu nodded, Eleven directly activated the lightning attracting ability. At the same time, Buggy also teleported a high-level gold and lightning dual-element energy crystal into the air!

Boom!

With a deafening sound, dark clouds immediately appeared in the sky. The thunder clouds condensed almost instantly!

The sky was pitch-black, and the thunder was deafening.

There was no wind or rain, only lightning. When the thundercloud appeared, the sky instantly darkened. Lightning rolled crazily in the dark clouds with terrifying might.

Boom!!!

Lightning streaked across the sky, and the thundercloud turned into a lightning pool. A terrifying golden lightning pillar quickly descended and hit Eleven! "Wu..." Seeing this scene, Lin Xiuzhu suddenly became nervous.

However, this was clearly the best way to break through. Using the power of natural lightning, through Inner Power and accumulating lightning, he could absorb the power from the outside world as much as possible, strengthen itself, and eternally transform external forces into its own strength!

In that case, it would definitely be better than directly breaking through the foundation. Shi Yu had the third index and had already carefully studied various special evolution and special breakthrough methods!

"Wuu!!!"

In the lightning pillar, the lightning that exceeded the limit continued to enter his body, making Eleven reveal a difficult expression.

However, in an instant, its strong willpower made Eleven's distorted expression gradually clear.

At this moment, with Eleven as the center, lightning shot into the sky and connected it to the lightning sea. It was already difficult to see Eleven's figure clearly in the lightning.

Apart from its pair of lightning eyes that turned from black to blue.

Under the light of the lightning, soon, as it reached and exceeded the limit, Eleven and the lightning light formed a luster, and its body began to emit a dazzling light!

A moment later.

"Roar!!!"

With a roar that shook the thunderclap, the figure of a huge beast appeared in the lightning pillar. Eleven was wearing silver and black interweaving armor, and white electric arcs flickered on its body. Its pupils, which contained blue lightning, looked directly at the sky.

Blue Sea Ruins:?

As its aura erupted for the second time, the light of awakening breakthrough spread from its body again!

“It’s starting.” Shi Yu was both happy and expectant.

At this moment, under the gaze of him, Lin Xiuzhu, Buggy, Baby Ginseng, and Chi Tong, the data on the index cell phone in Shi Yu’s hand changed crazily!

“When Dad’s Iron-eating Beast just broke through to the monarch level, its energy level was 1.4 million...” Lin Xiuzhu said.

“Yeah...” Shi Yu nodded.

However, Hall Master Lin’s Nine Li Battle Beast was a middle-level monarch race, while Eleven was a high-level overlord race with three inscriptions. Apart from super skills, all its skills were maxed out! After both parties broke through, the energy difference would definitely be huge.

Beep...

Under everyone’s gaze, the index data changed crazily.

Soon, as Eleven’s aura suddenly increased and the energy value continued to increase, Baby Ginseng and the others were shocked.

In almost an instant, it broke through the million mark.

Then, two million.

Three million...

4 million!

Senior Panda’s face was red with excitement.

In the blink of an eye, the energy data jumped one last time.

At the center of the breakthrough, the terrifying monarch deterrence directly turned into a storm that swept into the sky and ground, almost instantly dispelling the lightning!

“Wuu!!!” After Eleven’s growth level broke through to the monarch level, its full strength posture was directly displayed in front of Shi Yu and the others!

< Name > Nine Li Battle Beast

(Level of Growth): Monarch Level

Energy Points: 4,040,000

“4 million—”The panda senior exclaimed.

However, this was not the limit at all. This was only the normal energy after Eleven broke through to the monarch level. By accumulating external power through Inner Power, it could pay a certain price to erupt with power that exceeded its normal limit. At that moment, a huge force happened to be in Eleven’s body. Suddenly, a blue and white lightning blossomed from Eleven’s body like an erupting volcano!

In the lightning that spread several meters upwards, Eleven, under the illumination of the lightning, was like a demon that had just walked out of the sea of lightning. Its deterrence was wrapped in lightning, and its aura was still rising steadily!

Energy Points: 5,000,000

Energy Points: 6 million

Its strength kept increasing, causing the panda senior to excitedly pinch Baby Ginseng beside her.

Ginseng Baby: “???”

Of course, Buggy, Chi Tong, Baby Ginseng, and the others were also very tempted to look at this data. They were curious about how much they could have after evolution.

In the end, Eleven’s full-strength posture stopped at 6.6 million.

Seeing this, Shi Yu took a deep breath and smiled very comfortably. He looked at Eleven in the arena.

Very good, it was not much inferior to Gao Xuan’s Ultimate Holy Dragon Beast. The other party had more than 7 million energy points after fusing with the Beast Tamer, and now, Eleven was only showing its own individual battle power.

Moreover, this was still not Eleven’s real limit. It was just the limit it could easily withstand.

Because its stamina source wasn’t full at all just now, its Inner Power hadn’t been used to its greatest extent. If it triggered the power of the heavenly lightning to absorb it again, its strength could still increase, but the side effects would definitely be greater.

In addition, Eleven had just broken through, so the proficiency of super skills would definitely be inferior to the other party. There was still a lot of room for improvement. The characteristic of the mechanical beast was that the skills could be trained by oneself and the Mechanic could rely on the upgrading configuration to increase the proficiency level. Therefore, the proficiency of Gao Xuan’s super Holy Dragon Beast’s super racial skill was probably not low. The proficiency of low-level racial skills was probably not low either. Shi Yu was mentally prepared for this.

In short, Eleven’s attributes had already given Shi Yu the confidence to fight the other party.

After all, Eleven’s true strength was its explosive power that exceeded the limit after enlarging

“Eleven,” Shi Yu shouted. At the same time, he sensed the feedback Eleven gave him and began to look forward to the changes after the other little guys broke through to the monarch level.

“Wu ~” In the arena, after Eleven broke through, it quickly returned to its obedient little bear form and ran over excitedly to show off to everyone!

At this moment, the Panda King really lived up to its name!

On the same day.

Next door to Icefield City.

Binhai City.

Young geniuses from all over Dong Huang came into this Linhai City one after another. They had extraordinary auras and were like proud sons of heaven. After arriving, the first thing they did was look at the sea.

“I must become the brightest star at the Dragon Palace banquet!”

Chapter 269 Tyrannical Sea Legend and his Leviathan

Binhai City was located at the border of Dong Huang, just like Icefield City, at the sea. The weather here was suitable, the environment was beautiful, and the four seasons were distinct. In Dong Huang, it had the reputation of being a land of the sea, and a large number of water-element Beast Tamers had gathered. “Compared to Icefield City, the climate in Bin Hai City is much more likable. However, why do I keep feeling that this sentence has been said before...”

As Bin Hai City was just next door, it wasn't very far. This time, Shi Yu didn't take any transport and directly squeezed Buggy through the wilderness.

It was mainly to train Buggy.

Transcendent Instant Transmission was not the upper limit of proficiency. It was just the upper limit of the skill index. As long as one used more abilities, even if there was a bottleneck, it didn't mean that one's experience wouldn't increase. At most, it was harder to increase than racial skills. Regarding the “divine skill” Instant Transmission, Shi Yu was naturally prepared to use Buggy as a core skill. It had nothing to do with laziness.. As for whether there would be danger if he casually traversed the wild like this, naturally not, because the Ice Dragon Ruins Ring he carried had a totem-level Ice Dragon and an overlord-level gem cat...

This lineup could start a war with some weaker totem tribes.

Of course, even without them, as Eleven broke through to the monarch level, there were rarely any wild environments in Dong Huang that could threaten Shi Yu.

In Dong Huang, there were basically no hostile overlord-level ferocious beasts. Such ferocious beasts were all killed and expelled, leaving only overlord-level creatures like the gem cat and the owl that were close to humans. Among the others, the highest was at the monarch level. Under such circumstances, as long as Shi Yu, who had already become a master, didn't go to the dangerous place where the Undying Dark Phoenix was sealed, he would basically be able to do whatever he wanted in the country. After becoming a master, he would have the battle power of a monarch. Even if he had the qualifications to

enter various regions in the country, he would be able to protect himself. After becoming a legend and possessing overlord-level battle power, he would have the right to protect himself even if he left the country and crossed the totem area! After all, as long as they were careful and didn't take the initiative to find trouble with the totem country, the totems in the general totem area wouldn't run out themselves. Most of the totems were still in a sleeping state like the Divine Feather Phoenix Butterfly. The strongest people there on the surface were usually overlord-level ferocious beasts. For example, the forbidden area where Baby Ginseng was born was the territory of an overlord-level creature.

"The appointment is at 8 a.m.... There's still an hour. I'll call and ask if Senior Bai is here."

After arriving at Bin Hai City, Shi Yu walked on the street and spoke to the pile of pets he was armed with.

As usual, Eleven, Buggy, Chi Tong, and Baby Ginseng had all shrunk to the extreme. They were worn all over Shi Yu's body like a pendant. If one didn't look carefully, they wouldn't have realized that Shi Yu had been carrying four pets beside him. Now, the most powerful thing was that after the four pets mastered transcendent shrinking, their shrunken strength was no different from their normal state. In this case, they were simply good at sneak attacks. It might be a little lacking to deal with powerful transcendent creatures, but if they wanted to ambush a Beast Tamer who was also a human, as long as the other party didn't react immediately, the chances of success were very high.

Although he couldn't use it in the country, Shi Yu knew that he would definitely enter the totem area in the future. There were also many human experts in the totem area. They believed in the totems and were enemies with Dong Huang. Many times, they were even more troublesome than ferocious beasts. In short, it would definitely be useful to deal with them when the time came. "Senior, where are you?" "Eh, another half an hour?" "Alright, then I'll go to my destination first."

As Shi Yu walked, he spoke to Senior Bai. At this moment, he suddenly realized that the street in front was extremely noisy... Somewhere, a group of students in school uniforms who were preparing to go to school gathered together. Not only were there students, but there were also various passers-by surrounding an area. "Wu Wu Wu." Eleven and the others stuck their heads out and asked what was wrong. "Let me see." Shi Yu jumped gently onto a tree and looked over quietly before falling into deep thought. In the crowd, an extremely handsome young man in a black trench coat who had reached 99% of Shi Yu's own handsomeness was signing autographs for a group of people with a smile.

"Zou Tianwang, you're my fan!!! Ah, no, I'm your fan!!"

"Zou Tianwang, give me your autograph. Your fiancée won't be angry, right -". "Zou Tianwang, what brings you to Binhai City? Could it be... that you're here for your honeymoon in advance?" Shi Yu : "..."

This was very ridiculous! How could there be such a high-profile person? Damn it, he was even more high-profile than

him.

"It's not anything important. Let's go." Then, he arranged for Buggy to teleport away from this place with him.

Binhai City, Binhai Training Hall. A famous training hall.

Although the sect master here was only a quasi legend, he was the personal disciple of the Tyrannical Sea Legend. As for who the Tyrannical Sea Legend was, he was one of the few titled experts in Dong Huang. He was a top-notch legend who could fight against totems. The people heading to Dragon Palace City gathered at the Bin Hai Training Ground today at the request of the Tyrant Sea Legend. When Shi Yu came to this Binhai Training Ground... How should he put it... He originally thought that it would be a simple and elegant place. After all, it was named as a training hall, but in the end, from the outside, it looked like a huge aquarium. There was also a glass door that automatically spun outside. It was very modern. "Times have changed." Shi Yu shook his head and directly entered the room according to the circling rhythm of the automatic door. Just as he entered, he was immediately attracted by the pets in the water wall on both sides of the

hall.

The walls of the Binhai Training Hall were all connected to a huge fish tank. Inside was a small ecological environment created by someone. Many identical small animals swam inside. They were relatively similar to baby fish and gold fish, but their bodies were blue. [Name]: Blue Salamander

[Attributes]: Water

[Race Level]: Low-level transcendent

[Level of Growth]: Level 2 Awakening

[Race Skill]: Bubbles

< Introduction > It looks like a race that can't be helped, but it might contain astonishing potential.

Shi Yu : "...."

Well... There was nothing wrong with that. Under normal circumstances, the blue salamander was mud, and its strength was limited compared to the green worm and the dragon carp. However, the Green Silkworm could transform into a butterfly, the Dragon Carp could transform into a dragon, and the Blue Salamander had a chance to change its fate. It could also evolve. Among them, the most famous example was the Fusion of the Tyrannical Sea Legendary Fish. He directly cultivated the Blue Salamander into a mutated Leviathan that was as high as a quasi Mythical race. Although it was at the overlord level, under the command of the Tyrannical Sea Legend, it could match and defeat totems. Of course, this was only an exception. Apart from the gathering of the Tyrannical Sea Legendary Fish, no one could nurture the Blue Salamander to this height. It was another irreplicable example. Compared to the green worm and dragon carp, this mud was even harder to nurture!

The Green Silkworm had the worm silk, while the Dragon Carp had an evolution skill like the Leaping Dragon Gate, but the Blue Salamander had nothing. It was just a trashy bubble skill... It was difficult for it to be a gambler.

"Hello!!"

As Shi Yu observed the blue salamander, a woman in a blue Daoist robe welcomed him. She smiled and asked, "Excuse me, is this Mr. Shi Yu?"

"I am." Shi Yu turned to look at him. "Hello, I'm a teacher from the training hall, Chenyu. The sect master has instructed me to lead you to the private room." "Thank you," Shi Yu said. Then, Miss Chen Yu began to lead Shi Yu to a quiet room specially used to receive distinguished guests in the Dao field.

This room was not only used to receive Shi Yu alone. The 12 youths who were about to head to the Dragon Palace banquet were all invited to stay here. At this moment, there were already seven people in the room. The disciple of the Tyrannical Sea Legend, a young man who was nearly 30 years old and looked elegant, was speaking to the other six as the host.

"I won't go this time. I went with Master at the last Dragon Palace banquet. My Great Dragon King Squid was contracted at that time, haha." "In short, I hope you can also get the pets you like."

"At that time, there should be a lot of overlord-level sea beasts. Don't be nervous. When it's time to showcase your strength and talent in various activities, just perform normally. You're all geniuses, so there's no problem." Dong dong dong. In the room, everyone was listening to the disciple of the Tyrant Sea Legend. He already had a level-seven space, and he was just short of the experience of Zheng Hai, who was judged as a legendary Beast Tamer by an overlord-level creature.

This person was also one of the genius Beast Tamers praised to be destined to become a legend in the country. He was also the second Beast Tamer to nurture the Blue Salamander into the mixed Race after the Tyrant Sea Legend. Although it wasn't a mutated Leviathan like the Tyrant Sea Legend and hadn't reached that height, and its race was much worse, it was still commendable.

Because of this, he was taken in by the Tyrannical Sea Legend as a disciple and carefully cultivated. Now, the difference between his ace pet and the overlord level was probably the proficiency of a super skill. "Please come in." As someone knocked, Zheng Hai looked over. The other six people in the room also looked over. The door was pushed open and Chen Yu entered the room with Shi Yu.

"Sect Master Zheng, Mr. Shi Yu has also arrived."

After Chen Yu said that, the gaze in the room instantly landed on Shi Yu.

Shi Yu's gaze also observed the room.

Among the seven people, apart from Zheng Hai, Shi Yu knew two of the other six. One was Dr. Zuo's daughter, the talented student of Demon Capital University, Xia Qingwei. The other was Yin Legend's genius son, Yin Zhengfan.

At this moment, Xia Qingwei was still alright, but when Yin Zhengfan saw Shi Yu come, he immediately fell silent. [At that time, what exactly happened in the Time Ruins?] Yin Zhengfan still couldn't forget it. Shi Yu was more unfamiliar with the other four.

There was a muscular man more than two meters tall who didn't look like a normal person... Shi Yu thought that was probably that guy with dragon blood. When he saw that it wasn't a Dragon Princess but the Dragonman man, Shi Yu's mood immediately became a little complicated. Apart from that, there was also a woman with blue wavy hair. She looked pretty cool and wore pretty cool clothes...

The last two people were a young man with a crew cut, wearing a white shirt and glasses. He looked ordinary. The other person had short hair, was dressed in black, and had a very fierce appearance. He

looked even fiercer than the muscular man with the mixed blood of a human and a dragon, as if he had just come out of prison and came with deterrence.

“Hello, everyone.” Shi Yu smiled when he saw everyone.

“Mr. Shi Yu... Welcome,” Zheng Hai said with a smile.

Although he was a disciple of the Tyrant Sea Legend and a famous quasi legend, Zheng Hai didn't dare to be arrogant when he saw Shi Yu. After all, although this person wasn't even 20 years old, he was a real super genius who had researched a major project like the Green Silkworm cocoon to benefit the country and the people. “Sect Master Zheng,” Shi Yu greeted. Zheng Hai smiled again and immediately introduced them to each other. Needless to say, Shi Yu finally knew the identities of Xia Qingwei and Yin Zhengfan. The muscular man was indeed a hybrid. His name was Long Rui. He had graduated from Demon Capital University and was a master-level Beast Tamer. “Hello, I've heard so much about you.” He grinned. The blue-haired woman came from an elemental family and graduated from a top-notch university in the Spirit Capital known as the Elemental Capital. She was a master-level elemental.

“Junior Shi Yu, I've finally seen him in person. I feel he's much more handsome than in the photo.” She blinked at Shi Yu. “Hello, Senior.” Shi Yu's smile widened, making Xia Qingwei purse her lips. The bespectacled young man graduated from Star Capital University, known as the capital of technology. He was a master-level Mechanic.

“Hello,” he pushed his glasses and greeted simply.

The last person was from the Dragon Tamer Family and graduated from the Imperial Capital University. He was called Yun Fei and was a master-level Dragon Tamer. He was more arrogant and only nodded.

The few of them had one common characteristic: they came from first-level cities and were from famous families. Shi Yu didn't know their identities, but these few people were very familiar with Shi Yu. It couldn't be helped, Shi Yu was too famous... “Where were we just now...” After everyone introduced themselves, they didn't talk in detail. After all, they had just met. At this moment, Zheng Hai started to think again. However, as time approached, the subsequent people came very quickly. There was already no time for him to talk nonsense.

In the next moment, there was another knock on the door. A cloaked youth about Shi Yu's age entered the room. “I'm Yu Shu.” The future “Dragon King Yu Shu” directly entered the room. When he saw the figures of Shi Yu and Yin Zhengfan in the room, his expression immediately darkened.

He kept feeling that this trip to the Dragon Palace was a little depressing... He had already told his mother that he wasn't coming. He wasn't coming anymore. Damn it.

Yo.

Shi Yu smiled at Yu Shu.

Speaking of which, Ancient Capital University was really impressive this time. There were actually three people who went to Dragon Palace City, and they were all students... If it weren't for the fact that Yin Zhengfan had escaped to Imperial Capital University, they might have been able to gather four! “There are so many people already.” Soon, the beast-eared girl, White Brook, also arrived. After she arrived at the scene, she clearly knew more people than Shi Yu. For example, those masters were old opponents of

Ancient Capital University. They had all “fought a bloody battle” with Ancient Capital University in the National League.

White Brook smiled and sat beside Shi Yu.

Then, two more people arrived together. Both of them were wearing navy battle suits. It looked like they were geniuses in the Beast Tamer Troops. Everyone knew the least about their deeds.

“Am I late?” In the end, Zou Tianwang Yun also arrived with a smile. This person’s strength was not necessarily weaker than Sect Master Zheng Hai. Perhaps he was the strongest among the group. Seeing Zou Tianwang, the national celebrity Beast Tamer, arrive, the Binhai Training Hall became more and more lively. “Yes, you’re late. Why do I see you signing autographs for the students by the roadside?” White Brook directly insulted Zou Tianwang. “Haha, I have no choice... I don’t want to be so popular either.” Zou Tianwang scratched his head. Shi Yu :”...”

After Zou Tianwang arrived, his gaze also landed on Shi Yu at the same time. The corners of his mouth twitched without a trace.

Just like Yu Shu, he had a bad feeling about this trip to the Dragon Palace. “In that case... everyone is here.” Seeing that, Sect Master Zheng Hai smiled and looked at everyone. “It’s about time. Then I’ll bring everyone to find Master now, right?”

At the Binhai Training Hall. At the core of this place, there was a special room that looked like a swimming hall. However, the pool here was directly connected to the sea.

At this moment, in the room, there was a middle-aged man who looked to be about 5 to 60 years old, had dark skin, messy hair, and a rugged build. He had his hands behind his back and was quietly looking at the surface of the pool. “Master!”

As movement came from the surroundings, he slowly looked over and saw Zheng Hai bringing 12 young talents who were about to set off for Dragon Palace City to come here. “Master, everyone is here.” Zheng Hai said respectfully to the Tyrannical Sea Legend. “I understand.” The Tyrannical Sea Legend nodded and looked at the people behind Zheng Hai. “Tyrannical Sea Legend.” Everyone greeted. In the face of everyone’s greeting, he swept his gaze across everyone and said, “Hello, your elders have already told you the rules for participating in the Dragon Palace banquet in Dragon Palace City, right?” Everyone nodded, except for Shi Yu. Eh? What rules?

Did Principal Feng and President Ye tell him? Forget it, it wasn’t a big problem... At this moment, the Tyrannical Sea Legend’s gaze stopped on Shi Yu for a few seconds. An existence like him had actually surpassed departments like Bureau 13. After all, he was a Beast Tamer who had defeated totems. Even the strongest bureau, the first bureau’s members... Was nothing in the eyes of the Tyrannical Sea Legend. As for Shi Yu, who had a bunch of titles, he was still a junior in his eyes. However, at this moment, Legend Sea Tyrant observed Shi Yu for a long time. He asked, “Is it here?” Obviously, the Tyrannical Sea Legend had learned about the frost dragon in advance. “Yes, but now... he might be sleeping,” Shi Yu said.

The Frost Dragon and the Gem Cat had worked hard for almost half a month. They had not slept for half a month and had pretty much chewed up the history both domestically and abroad. Next, in order to go to Dragon Palace City in their best state, Ice Dragon and the others chose to sleep for a while and let him

call them when they reached Dragon Palace City. "I see." The conversation between him and Shi Yu confused everyone except White Brook. They didn't know what they were communicating about. It? Who... A moment later, Tyrannical Sea Legend looked at the pool and said, "Then let's go. We'll talk about the rest on the way." As soon as he finished speaking, with a boom, a huge deep sea vortex slowly appeared in the pool in front of them. The inside of the vortex was pitch-black. Seeing this scene, everyone was stunned. The Tyrannical Sea Legend said, "This vortex is the mouth of my pet. You guys jump into its stomach. It will bring us to the Deep Sea Dragon Palace City." Everyone: w (A) w?? Huh?

On the ground, Shi Yu was also stunned. However, he was more concerned about the detection reaction of the index to the pet that had yet to appear!

< Name > Mutated Leviathan

[Attributes]: Water, Space [Race Level]: High-level overlord (Quasi Mythical) [Level of Growth]: Overlord

Energy Points: 9,9110,000 < Introduction > It's the battle pet representing the Tyrannical Sea Legend! Shi Yu was stunned. Good lord... They were both overlord races, but this guy had nearly 50 million energy points higher than the gem cat. He was even more impressive than the Dragon Palace City Whale General. It was probably about to enter the totem level. "Not moving?" Seeing that everyone was still not jumping into the sea, the Tyrannical Sea Legend said, "Then let me do it." "Just don't vomit in it."

As soon as he finished speaking, everyone's expressions suddenly changed. They felt a huge devouring force coming from the deep sea vortex. Almost instantly, Shi Yu and the others felt their bodies turn blurry, as if they had been forcefully teleported by a spatial skill. They appeared in another alternate space! "My pet's body is equivalent to a small world and a mystic realm. You don't have to worry. This is its racial skill."

The surroundings were still pitch-black. Then, light slowly recovered. At the same time, the Tyrannical Sea Legend's voice sounded in everyone's ears.

At this moment, darkness turned to light. The others looked around in surprise, but Shi Yu was the most silent.

Because...

Skill: Infinite Devour

[Attributes]: Water, Space (Level): Super level < Introduction > It's a devouring-type evolution skill. It can open up a devouring space and increase its race level by devouring and digesting everything. It can complete unlimited evolution! [Copy this skill?] Holy shit, the Tyrannical Sea Legend was really showing off his Leviathan at the start. Its evolution depended on devouring.

Chapter 270 Shocking Little Friends

The Mutated Giant Leviathan's body was like a water-element world.

Flying birds made of water flew in the sky, blue frogs made of water leaped on the land, and fish made of water wandered in the water. Apart from that, there were countless water elemental creatures living freely here.

Apart from Shi Yu, the others were looking around in surprise.

Soon, these young people understood why there were so many elemental creatures in the Giant Leviathan.

It was said that in battle, the Tyrannical Sea Legend could let the Giant Leviathan temporarily devour him and his other pets to increase its battle power and obtain the power to suppress the totem.

In other words, all the elemental creatures living in the Giant Leviathan's body might be the backup power of the Giant Leviathan? "This space is much higher than Buggy's spatial bag. As expected of a super skill." Standing on the ground, Shi Yu thought to himself.

Buggy's spatial pocket didn't have the ability to store living creatures. In comparison, this devouring space could not only absorb living creatures, but it could also transform them into its own power... It was a little similar to Buggy's equipment?

Eh?

Damn.

Shi Yu suddenly fell silent. He felt like he had entered a dangerous place.

[Replication success]

Forget it, this skill was his now anyway.

Now he had the water-type super skill to test the water-type pet's will in Dragon Palace City.

Shi Yu only had one evaluation for this skill. It was powerful!

No wonder the Tyrannical Sea Legend could grow to the point where it could fight against totems. This Infinite Devour probably played a crucial role.

Shi Yu felt that as long as a pet with this skill grew smoothly, it might be able to grow into a Mythical race.

He estimated that the Tyrannical Sea Legend's Giant Leviathan was stuck in a quasi Mythical race. It was probably limited by the proficiency of the devouring skill and couldn't digest legendary and Mythical resources. Or perhaps its digestion speed was too slow. Otherwise, it should be able to evolve infinitely.

"Hey, hey, hey, look."

In the Giant Leviathan Space, White Brook patted the shoulder of the stunned Shi Yu.

She pointed forward.

At this moment, in the air of this space, a huge water screen condensed out of thin air. The water screen was like glass, allowing everyone to clearly see the environment in the deep sea outside.

"This is..."

In Shi Yu and the others' vision, a new world appeared. In the dark blue underwater world, piles of colorful fish quickly swam past, as if they were dodging some huge monster. The emerald green water grass creatures at the edge of their vision cowered in a corner and trembled.

Gulp.

Countless bubbles appeared. The Giant Leviathan was still diving into the deep sea. With the protection of the overlord-level Giant Leviathan, there was no doubt that no sea beast would come looking for trouble.

"It will take about an hour for us to reach Dragon Palace City."

Legend Sea Tyrant appeared behind everyone, still with his hands behind his back, his gray hair flying around.

"During this period, you guys communicate yourselves."

As soon as Legend Ba Hai finished speaking, he turned and left again. No one knew where he went. Seeing this, everyone immediately started chattering.

The fierce-faced man from the Dragon Tamer Family, Yun Shu, looked at Yu Shu. "You're just an intermediate Beast Tamer. Why are you here too?"

The two of them were both descendants of famous Dragon Tamers. Their circle was very small, so they naturally knew each other. "Aren't you just a few years older than me? I'll definitely become a master before graduation. What are you so proud of?" The corners of Yu Shu's mouth twitched.

In the face of geniuses like Shi Yu and Yin Zhengfan who weren't older than him, he could only admit defeat. However, he was very unhappy with these people who pretended to be strong just because they were a few years older and had meditated for a few more years. Of course... Yu Shu didn't deny that this fellow's reverse scale talent was more suitable for contracting a dragon than him.

"I'm doing this for your own good. You're so weak now, how can a dragon acknowledge you?" Yun He chuckled.

"There's no need to trouble yourself," Yu Shu said. He naturally had the capital to obtain the recognition of the dragon race this time.

Others relied on their talent potential, but couldn't he rely on resources? Yu Shu tightened his backpack. At that time, when he took out the dragon-element evolution resources his father had prepared, he might have pets following him.

"Haha, everyone has a chance. By the way, it's rare for us to go to Dragon Palace City together. Why don't we share the type of pet we like?" At this moment, Zou Tianwang said with a smile in the crowd.

Seeing that everyone was doing their own thing, he couldn't help but want to unify the topic and get closer to everyone. "For example, me. You also know that I have a dark-element strengthening talent. This time, I'm here for a certain race. I heard that the Black Flood Dragon overlord of Dragon Palace City has given birth to a son. I wonder if there's a chance to obtain its recognition and be entrusted with a descendant."

Zou Yun smiled and revealed his intention, not afraid that anyone would compete with him.

After saying that, he looked at everyone.

The muscular dragonman chuckled and said, "I'm not here specifically for a certain race."

The blue-haired girl said, "That's true. Your talent can purify the bloodline of dragon-type creatures, as long as it's dragon-type."

The muscular dragonman looked at the blue-haired girl and said, "Fang Lan, you must still have contracted a race that's good at controlling the weather."

"This is more compatible with your talent, right?"

"You guessed right. You're not allowed to guess anymore next time," Fang Lan said and looked at Shi Yu.

She smiled. Among these people, she was the most curious about Shi Yu. She said, "Junior Shi Yu, what about you? Is it alright to say?"

Shi Yu chuckled and said, "It's alright. I have the gift of telepathy, and I don't have any special talent. I prefer a pet I can get along with. As long as we get along and have eye contact, transcendent races are fine." Yu Shu and Yin Zhengfan: "?"

Everyone: "?"

They didn't believe him. How could he have such a low request?

He just didn't want to say it.

However... Shi Yu's telepathy talent was indeed a little difficult to deal with.

After all, this wasn't a battle-type talent.

The mechanical man from Star Capital University said, "I actually prefer one that I can get along with too. Recently, I've been researching biological mechanical modification. If any Dragon Palace City cub is also interested in the Mechanic class and is willing to become an experimental body personally and become stronger together, I don't have any requirements for the race."

Everyone: "?"

F*ck, another dangerous guy.

Biological mechanical modification... was a school of thought in the Mechanic class.

Among the Mechanics, there were pure mechanical creatures, such as Gao Xuan's Ultimate Holy Dragon Beast. There were also those who transformed other life forms into mechanical beasts.

For example, equip a monkey with mechanical armor and install a cannon to evolve the creature into an Iron Gorilla Beast. This was biological mechanical modification.

However, because this school of thought was too risky and experimental accidents often occurred, it was relatively small.

This mechanical man actually targeted the citizens of Dragon Palace City... Would it really not destroy the friendship of the alliance? Would there really be pets like him who liked machinery... "Oh?" In the crowd, Shi Yu looked at the mechanical man and felt that he could chat when he was free.

This was because the ancient species machinery he wanted to create was also close to biological modification. However, the other party used creatures, while Shi Yu used illusions.

In Shi Yu's opinion, with the illusion as the core, it should be able to have the common merits of both the pure Mechanical and biological modification sects.

The advantage of the biological modification faction was that there was a chance for the mechanical beast to inherit the Host's abilities, but Beast Tamers couldn't fuse with it at all.

As for the pure Mechanical Faction, it relied on the diversity of mechanical functions. For example, Gao Xuan's Ultimate Holy Dragon Beast could freely switch between the mecha and the flying ship form, and the Beast Tamer could carry it. With the illusion as the core, there was a possibility of inheriting the ability of ancient creatures, but because of the phantom's ethereal nature, it could not be constrained by the form of ancient creatures. This was a virtue. For example, in Shi Yu's opinion, he could completely create a fighter aircraft with the Wind God Winged Dragon template or a Gundam with the Tyrant Dragon template. This was the advantage of the Ancient Phantom Plant. It could combine the merits of the two factions!

According to what Shi Yu knew, the most powerful Mechanic in Ancient Capital University, Dean Hao, was a pure Mechanic. Therefore, he might still need some knowledge of the biological modification faction to assist him in completing ancient machinery.

He wondered how the background of this mechanical man from Star Capital University was...

"What about the two beauties?" Zou Yun asked Xia Qingwei and White Brook.

Xia Qingwei: "It doesn't matter. It's best if it's a worm."

Everyone : "..."

White Brook covered her forehead and said, "I have the Fusion Talent, so I definitely have to be handsome. The mermaids aren't bad, the jellyfish aren't bad, and beautiful coral creatures can work also... Ah, well, but before the contract, I don't know what it's like after the Fusion. It's so difficult."

It was indeed very difficult... After all, it concerned their looks in the future... Everyone prayed for White Brook. "What about little fan?" Shi Yu took over the topic of Zou Tianwang Yun and asked Yin Zhengfan. Why was this child so afraid of strangers? He didn't say anything.

Yin Zhengfan : "..."

"I... I guess it depends on fate," he said. "What about the two soldiers?" Zou Tianwang Yun smiled and looked at the two Beast Tamers from the navy.

The two navy Beast Tamers with thick eyebrows and big eyes said, "We are all assigned in a fixed manner. At that time, we will become comrades with a certain general of the Dragon Palace City's Marine Corps to protect the ocean together."

There was no need for them to be conflicted...

After that, everyone started to chat. From the totem dragon king of Dragon Palace City to the famous overlord general and the environment of Dragon Palace City...

Perhaps the subsidiary forces of Dragon Palace City were in different seas, but Dragon Palace City was an independent deep sea mystic realm.

That was also a brand new small world. What was relatively special was that there was also air there. On the contrary, there were not many water resources, but this didn't affect anything. Because the water elements in the mystic realm were rich, both sea creatures and humans could move freely in the Dragon Palace City mystic realm. Therefore, this Dragon Palace banquet was naturally held in the mystic realm of Dragon Palace City.

"We're almost there."

Among the 12 people, someone kept counting the time.

As they approached the one-hour flight mentioned by the Tyrannical Sea Legend, everyone looked at the water screen.

Suddenly, the water screen collapsed. Everyone felt the sky and earth shake, as if they were pushed by a huge repulsive force.

"Tyrannical Sea Legend, you haven't changed. Welcome, welcome."

In the secret realm of Dragon Palace City.

On a floating island continent.

A huge sea beast in the form of a tiger whale seemed to have turned the air into an ocean as it floated quietly in midair.

Opposite the Sky Penetrating Whale was an even larger sea beast nearly a hundred meters tall. It had a blue body similar to a whale, and its huge abyss mouth had a circle of sharp white fangs. Its wild beast-like yellow pupils were filled with violent patterns. Its chest fin, abdomen fin, back fin, and tail fin were different from ordinary fish. They were like long and dense white feathers that fluttered with the wind.

At this moment, on the head of the Mutated Giant Leviathan, the Tyrannical Sea Legend was standing. Behind him were young people who had been teleported until they were dizzy.

"You're the same. You still look so weak." Legend Sea Tyrant smiled faintly. "Hahahaha." The Sky Penetrating Whale laughed loudly and looked at the group of young people behind the Legend. At this moment, Shi Yu and the others also reacted and realized that they had arrived. Everyone stood on the Giant Leviathan's huge body. When they observed their surroundings, they were immediately stunned.

The Dragon Palace Mystic Realm... was very big. As far as they could see, dozens of sky islands floated in the sky, and on them were dazzling palaces.

The place they were at was also very huge. It was impossible to see the end of it. Tens of thousands of shrimps and crabs guarded various places densely, as if they were welcoming guests. "Gulp." Someone

gulped and recognized the Sky Penetrating Whale. The Sky Penetrating Whale was completely famous among the sea beasts. It was a popular general in Dragon Palace City and had fought in countless seas. As long as it was an enemy of Dragon Palace City, even the larger whales and even the overlord ferocious sharks that made countless sea beasts tremble in fear... was just a meal to this Sky Penetrating Whale.

“Dragon Palace City, Sky Penetrating Whale, I heard its partner recently gave birth to a small tiger whale. I wonder if it’s true.” Among the crowd, someone’s heart immediately rippled when he saw the Sky Penetrating Whale.

If he could obtain the recognition of the Sky Penetrating Whale and be entrusted with its heir, that would be a leap into the sky. The Sky Penetrating Whale was an absolute top-notch overlord even among overlord-level creatures. Its strength and race were only inferior to the Tyrannical Sea Legend’s Giant Leviathan, an even more abnormal existence.

“Woo ~~~” Just as Yu Shu, Yin Zhengfan, and the other young people looked at the Sky Penetrating Whale with anticipation, a white wind suddenly blew from the distance. Under everyone’s gaze, a small white dragon suddenly flew over excitedly.

Legend Sea Tyrant raised his brows and looked over.

“Dragon Palace City’s Third Crown Prince, White Azure Dragon?” Legend Ba Hai said.

At this moment, many young people, even Zou Tianwang Yun, who had come specially for a certain race, were instantly excited when he saw this divine dragon.

Holy shit.

They widened their eyes at the approaching divine dragon.

Looking at the smooth and powerful body that was like a painting of water and mountains, any Beast Tamer who was proficient in feeding could tell how top-notch this divine dragon was. At this moment, its body moved casually, waved its dragon claws, and circled in the sky. Its powerful dragon might involuntarily emitted. It was high and mighty, perfectly matching the expectations of most Beast Tamers present for the next pet.

“Dragon Palace City’s Third Prince, the son of Lin Feng’s legendary pet, the Sea Dragon King. No, he’s the son of the Sea Dragon King and the Azure Dragon King, a high-level overlord race!”

At this moment, seeing this divine dragon, Zou Tianwang was extremely tempted. Although the Black Flood Dragon’s attributes were more compatible with him, the White Azure Dragon’s race, potential, talent, and background were stronger!

After all, it was the son of two totems. Moreover, as the Third Prince of Dragon Palace City, he had the chance to compete for the position of Dragon God with the other Dragon King heirs in the future.

Even Beast Tamers who didn’t have pets of their liking at the start were instantly tempted when they saw this White Azure Dragon.

Yu Shu, Yin Zhengfan, Zou Yun, and the others' expressions turned serious.

However, they also knew that this was basically impossible.

In all these years in Dragon Palace City, there had never been a situation where the son of the totem followed humans.

At most, the heirs of the subsidiary overlords of Dragon Palace City would follow human Beast Tamers.

A totem son like the White Azure Dragon was a completely unreachable existence. Its identity might be ten times more honorable than the descendants of a legendary Beast Tamer. It was impossible for it to follow a human. Its totem parents couldn't agree, unless that human had the legendary bearing to reach the height of the seven legends of Dong Huang, but obviously that was not possible...

Therefore, when they saw the Sky Penetrating Whale, Yu Shu and the others might still fantasize, but when they saw the White Azure Dragon, they quickly gave up. "Why would the Third Prince of Dragon Palace City appear here..."

In the next moment.

Dragon Palace City's Third Prince, the White Dragon, looked at Shi Yu in the crowd and shouted excitedly, "Senior Shi Yu, Senior Shi Yu, I'm here. I'll take you to take a look at Dragon Palace City."

Yu Shu, Zou Tianwang, and the others: "?"

"???"

"Don't cause trouble." The Sky Penetrating Whale looked at the White Azure Dragon in a deep voice and also said to Shi Yu, "Sir Shi Yu, the Sea Dragon King has been waiting for you for a long time." "You're finally here."

As soon as he finished speaking, apart from the Tyrannical Sea Legend, Zou Yun, Yu Shu, Yin Zhengfan, and the others opened their mouths wide and widened their eyes as they looked at Shi Yu.

Holy shit, what, what was going on?!!

Didn't everyone come to show their talent and potential together and wait for the overlord big shots of Dragon Palace City to invest? Old thief Shi Yu, what's wrong with you!!!
